

Large voter turnout urged

Election to be April 2

With election time just around the corner, The Leader designed a few simple questions aimed at all candidates for the school board, city council and hospital board.

Candidates for the two open positions on the school board include incumbent Lynn Meador, John Nikolausk and Cliff Schooley, Jr.

Incumbent Ronnie Sauer and Wayne McGinnes lead five candidates competing for two open seats on the City Council. Other candidates for seats on the council include Walt Bosmans, Jr., Barbara Jackson and Dennis Lampman. Bill Hodges had cast his hat into the ring but recently withdrew.

Three seats are open on the hospital board with Pam White, Bill Hodges, William Edmiston, Barbara Nichols, Penny Bland, Carmilla Reidy, Jimmy Belk and Julie Griffin running for positions. Mrs. Reidy was out of town at presstime and could not answer the questions.

Questions and Answers on the school board are as follows:

1. *What can you envision as a long range projection of facilities needed in our school district?*

LYNN MEADOR: At the present we are just about at full capacity with our current facilities. I don't believe that we will see a drastic drop in enrollment, with our current economic slowdown, and if the oil and gas industry gets active again, or if some other factors occur to increase this county's population, an enlargement of our plant will be necessary. I don't know at this point what type of expansion would be appropriate, but in any event, the board should look at the long range cause and effect that would justify going into an expansion program.

JOHN NIKOLAUK: Expansion of classroom facilities to accommodate population projections into the 1990's. Greatly expand computer instruction to include mandatory introduction to computers for all high schoolers, acquisition of computer systems to accommodate instruction in small doses to grade schoolers and a major elective course throughout the high school years which would prepare students for the job market of the university. Improve, upgrade and maintain the physical plant to equal or surpass any in the district.

CLIFF SCHOOLEY, JR.: The school board needs to consider the present decline in the oil and gas industry in our county and surrounding area. This decline will affect our school system greatly. We need to continue to maintain our new facilities and improve on old original facilities.

2. *How do you feel S.C.I.S.D. compares to the area school districts?*

LYNN MEADOR: I feel that we would rank near the top in every category of educational endeavor. Our physical plant is in excellent condition in most respects. We have a very professional, caring and dedicated faculty and administration. Our children are generally receptive to what they are taught and are productive and competitive in their scholastic and extra-curricular activities. Graduates of EHS usually are successful in their college or work areas. While there is always areas of improvement, I think overall we have an excellent school.

JOHN NIKOLAUK: Very favorably. We have the best faculty and student body in the district. Our teachers are dedicated and the kids are basically darn good. Our facilities are good, but we need improvement in basic maintenance. Some areas are noticeably deteriorated and need upgrading.

On the academic side the larger schools offer a greater diversity of electives, some of which would prove beneficial to our students.

CLIFF SCHOOLEY, JR.: I feel that the S.C.I.S.D. compares reasonably well with schools from this area. We do not need to make sure that when students are ready to take their college entrance exams that they have been prepared by our school system to score the highest possible scores they can and will be able to excel in college if they so choose.

3. *Do you feel that our teachers are receiving large enough salaries?*

LYNN MEADOR: Teachers and the wages they earn compete on the

job market like everyone else.

Because their salaries have remained relatively low throughout the years, we have lost many quality teachers to industry or other jobs that pay more. I don't think that any school district will ever be able to compete head-to-head with some potential job opportunities such as are available in the oil and gas business. I do believe that a constant monitoring and evaluation of our salaries as they compare with other jobs is necessary so that we don't sacrifice quality teaching personnel.

JOHN NIKOLAUK: No. This has always been a problem and we've lost some excellent teachers in the past. We entrust our teachers with an enormous responsibility - teaching and guiding our kids in their formative years - and we expect them to do it on subsistence wages. We owe our kids the best and we can only expect the best by paying our teachers what they're worth.

CLIFF SCHOOLEY, JR.: Good salaries are the best incentive that the S.C.I.S.D. has to acquire good competent teachers.

4. *What is your highest priority in running for a seat on the school board?*

LYNN MEADOR: Our primary function as a school is twofold - to see that each child has an opportunity to receive the best education that we can provide, and that this can be accomplished as economically as possible through thorough and efficient management of our citizens' tax dollars.

JOHN NIKOLAUK: Insuring a quality education for our kids. I will stress the need for the expansion of present training and initiation of new programs with strong emphasis on computer technology. The age of the computer is upon us and we must prepare our students to enter the job market and the universities. Kids from the larger high schools are presently being offered these courses and I want them for our kids.

CLIFF SCHOOLEY, JR.: My highest priority in running for the school board is to insure the education of the students in our school system. I would like to see more communication between our administration, school board and the people they are representing.

5. *Should more emphasis be placed on non-academic studies, such as vocational programs, in our school district?*

LYNN MEADOR: Non-academic studies have a vital role in our curriculum. The things that appeal to young people and the things that are representative of our lifestyle in West Texas and play a part in the economic structure are essential to giving a child a well-rounded education. I support very strongly activities that include vocational agriculture, music, art, athletics, theater, etc. and I would hope that these programs could be expanded when possible. However, I think we should continue to place our primary emphasis on developing the basics - reading, writing and math and other skills related to these.

JOHN NIKOLAUK: Yes. Not every student goes to college, nor should he or she. Vocational programs serve a definite need. Technical courses prepare students for good paying jobs in fields such as welding, machine shop, carpentry, vo-ag, auto mechanics, electricity, electronics and computer maintenance and programming. I am aware that it would be impractical for S.C.I.S.D. to attempt to embrace all these, but we can certainly expand over what we now offer.

CLIFF SCHOOLEY, JR.: My answer to this question is a great big YES. Every student's goals and interests are not the same. We should make as many different programs as possible available to them to insure a well-rounded education and student.

CITY COUNCIL

In your opinion what is the highest priority facing the city of Eldorado in the immediate future?

WAYNE MCGINNES: Keeping the city systems upgraded and in a good financial state.

RONNIE SAUER: The sewer treatment plant and extension lines since this represents a nearly \$1 million investment.

WALT BOSMANS, JR.: Currently the highest priority the city faces in the immediate future is the total and successful completion of all services provided by the city, i.e., the new gas lines, new sewer lines, new sewer plant and water line pressure. We cannot allow piecemeal, inadequate work. These projects must be undertaken with the anticipation of the community's growth, so that upon completion they will not be obsolete. Then a proper maintenance program must be outlined and followed, to insure optimum efficiency.

BARBARA JACKSON: I feel the most pressing situation in our city now is high gas bills. I feel there are a lot of misunderstandings about this with the public blaming city council or person. In Baird, Tex., Lone Star is charging even higher rates. My husband's mother has paid approximately 1/3 her social security check the past few months. I feel the average citizen will just have to live with this but I am concerned about our needy senior citizens. I don't know if our present city council has worked on any plan whereby they might receive some assistance on bills during the very cold winter months.

DENNIS LAMPMAN: Repairing and or replacing some of the streets in the city that are in dire need and establishing some type of municipal court so that city laws and ordinances can be enforced.

2. *In your opinion do you think that a professional city manager would be of benefit for a community the size of Eldorado?*

WAYNE MCGINNES: No comment at present time.

RONNIE SAUER: Yes. The city will do no better than its management team. They could use a good manager on their team.

WALT BOSMANS, JR.: A professional city manager would certainly be some help, however the real problem is the whole structure of the city government. The council should examine the total re-organization of the current structure.

BARBARA JACKSON: I really feel that our city probably could not afford to pay a city manager even though there might be a need for one.

DENNIS LAMPMAN: As far as hiring a lawyer or a professional person no, but, I do think someone with a lot of experience in city and local government would be beneficial to the city.

3. *With the present decline of the economy as well as the influx of new citizens to Eldorado, what would you propose to place Eldorado back on a sound economic plan?*

WAYNE MCGINNES: No comment.

RONNIE SAUER: The cost to install utilities to new citizens and the new developments has taken nearly all the city's reserves. Hopefully this demand will slow and the new utilities will start paying for themselves.

WALT BOSMANS, JR.: We all know that you should not place "all your eggs in one basket". This city must expand its economic base. Too much dependency on one or two industries will have an adverse effect during these recessionary times, as is the case now. We should all seek to actively promote the city for new businesses. Currently too many dollars are being spent outside the city, primarily San Angelo. These dollars should be spent here thereby stimulating our local economy. We must encourage local merchants to expand and to provide more goods and services.

BARBARA JACKSON: I really feel that the oil industry will pick back up by 1984. Until that time I don't know what we could do to attract new industry to Eldorado without adequate housing available for them to live in. Many of our oilfield employees have bought in mobile homes and we do have several nice parks for them now. Perhaps this will be a drawing card.

DENNIS LAMPMAN: Cautious spending and an attempt to seek out another source for gas so the price can be lowered.

4. *Do you feel that the tax base of 30 cents per \$100 valuation is sufficient to keep the city in a strong growth pattern?*

WAYNE MCGINNES: Yes, at the present time.

RONNIE SAUER: When the tax base is set to retire the sewer treatment plant bond, the rate will be closer to double your figure. I think most people will look closely before consenting to additional taxes.

WALT BOSMANS, JR.: The tax base is sufficient if we can encourage expansion of business, attraction of new industries, and most important local patronage. In fact if we hope to achieve these objectives, we must maintain low taxes. Low taxes is an attractive factor for new business and industries. This doesn't mean we can't raise taxes, as long as our rate is comparable or less than that of cities of similar size.

BARBARA JACKSON: When I paid my taxes this year, I felt that was enough! I really feel this is a question I can not answer. I just know from experience people are taxed to the

cont. P8

Court endorses Water District resolution

The Schleicher County Commissioners' Court met in regular session Monday, March 28 and endorsed a resolution by the Eldorado Plateau Underground Water District putting restrictions on drilling pits.

The resolution was written to the Texas Railroad Commission asking mandates on drilling pits in Schleicher County. The restrictions include lining pits with plastic or drilling mud to prevent leakage into precious top soil. Drilling companies will also be asked to draw all waste materials out of the pit and into a disposal station. After plugging or abandoning wells, companies will be restricted to cover pits in a suitable time.

County Treasurer A. G. McCormack met with the court to present the monthly bills. The court approved the payment of all bills.

The Court then signed a resolution endorsing a bill by Republican Dudley Harrison of the House of

Representatives that would allow the Commissioners Court of each county with a population of under 30,000 to decide upon the number of Justices of the Peace hired.

De Lux, from the Soil Conservation Service met with the Court to explain services that the Service extends to citizens of Schleicher County. Many of these services are voluntary so the court donated \$1000 to the SCS to assist in defraying cost.

The commissioners also approved the services of a county loader and dumptruck to the Woman's Club Cleanup Campaign staged for April 9.

Approval of private road work for Finis Bratcher in Commissioner Whitten's Precinct was passed by the Court.

The commissioners also decided to advertise for bids on a 1976 Ford dumptruck owned by the county. The truck has a cab and chassis only.

With no further business, the court adjourned.

Eldorado, Tex.

Operation Kick- It talks to youth of Eldorado

Three inmates from the Texas Department of Corrections paid a visit to Eldorado last Tuesday and Wednesday to speak on behalf of how their drug abuse problems have led them to where they are today.

The program, "Operation Kick-It" was established through the Governor's Criminal Justice Council in 1970. A panel of three to five inmates was formed to travel throughout Texas to tell their life stories in an effort to educate, warn and inform the public, specifically teenagers, about the dangers and consequences involved in the illicit use of drugs. In 1975, the program was changed to the Community Education Program.

This group primarily speaks to high school seniors and juniors, but they also speak to civic organizations and church groups. They are regularly interviewed by news medias and have appeared on numerous TV shows.

The program doesn't look for inmates that are good public speakers because they can train them to speak, but instead someone who cares that young people don't have to come to prison because of the same mistakes they have made. These panelists are trained before travel so they are prepared for discussions.

These prisoners receive no special privileges in prison life or in parole consideration. About 50 percent of the panelists are paroled at the time of their first consideration, but then that is average for all Ferguson Unit inmates.

The three inmates which came to Eldorado had crimes of manslaughter, arson and burglary. Each one had his own background, own opinion of prison and his own message to the audience.

The first prisoner to speak was sentenced eight years for arson. Since it was his first trip, the only information he gave was his crime, sentence, age and serial number.

The second inmate came from a well-to-do family. His name is Joel and he is the son of a successful heart surgeon in Irving. He had been an outstanding student at high school, with honors such as being a member of the National Honor Society, Valedictorian of his senior class and track captain.

Following graduation, Joel was led into stealing bicycles that sum-

mer. After summer, he enrolled at Texas A&M, thinking no one ever knew about the crimes he committed. The law did find out about the crimes and placed Joel on probation.

After the fall semester, Texas A&M received a new student, Fred. Joel knew Fred from school and knew that he had a bad addiction to drugs. Someway, somehow, Fred found out about Joel's probation sentence, and threatened Joel's name if he didn't help him out. Fred wanted Joel to give him access to prescriptions of drugs, signed by Joel's father. After doing this, Joel didn't hear from Fred for a couple of weeks. Later, he received a call from Fred. He wanted Joel to help him study for an exam.

As expected, Fred wanted more from Joel. This time the two got into a brawl and Joel left. After getting home, Joel had to return to Fred's to get his checkbook. When he walked in Fred's house, Fred barred the door and came at Joel with a knife. This time Fred ended up dead.

After fleeing for three days, Joel turned himself in. He was sentenced 15 years. He feels he got off pretty good but, then again he pleads self-defense.

"I know I've committed a crime and now I've got to pay a debt," says Joel in conclusion to this story.

The last inmate was a twenty year old man who was serving 10 years for burglary. "The burglaries were committed to support my drug habit,"

says Donald, from Orange, Texas.

Donald began getting into drugs at the age of twelve. At the age of thirteen he says he was already out of his parents' control.

Donald says it's up to the kids themselves where they end up.

He also talked about friendship. "The real friends are those that try to help you out. As for me, none of my friends have come to see me," adds Donald.

Donald says he never expected he would end up in prison, as does every prisoner. He also talked about the simple things we take advantage of, such as the stars at night and a hugging mom and dad.

"Prison saved my life," admits Donald. He says his life was leading nowhere except into more trouble. He confesses that he now feels more dependent and plans to start a "new life" once he gets out.

"Because of the decisions these three men made and the friends they chose are the reasons they're behind bars. When these men do get out, they still will have nothing to be proud of. These men have abused their freedom and have to pay a price for it," says Ray Terry, supervisor of the Community Education Program.

The programs' presence in Eldorado was due to the hard work and persistence of Nancy Powell, Julie Griffin, Rev. Ron Sutto, Sandra Helmers, the First National Bank of Eldorado and the Lions Club.

This is the 1983 Eldorado Junior Rodeo All-Around Champion Belt Buckle. The rodeo is set for April 15 and 16.

Deaths

Kisselburg...

Harvie T. Kisselburg, 65, of Eldorado, died at his residence Thursday March 24, 1983.

Services were held Saturday, March 26, 1983 at the Mertzson Highway Church of Christ at 2 p.m., officiated by Dale Huff and assisted by Rusty Kwast. Burial was in Sonora Cemetery under the direction of Kerbow Funeral Home.

Mr. Kisselburg was

born May 17, 1917 in Sanger, Texas. He married Flossie Barbee at Hale Center March 8, 1941, moved to Eldorado from Brownwood in 1971, and was a trucker, and a member of the U.S. Air Force in World War II.

Survivors include his wife of Eldorado; two daughters, Tommye Reedy of Brownwood, Debbie Rodriguez of Eldorado;

four sisters, Georgia Middleton, Mary Delrie, Flora "Pinky" Roming all of Sonora, and Nettie Shaffer of San Angelo; mother-in-law, Mrs. Tom Barbee, Hale Center, Texas; several nieces and nephews; and five grandchildren.

Pallbearers were Orval Edmiston, Bill Freitag, Orland Harris, Sam A. Whitten, Gene McCalla, all of Eldorado and Robert Donahoo of Brownwood.

Hill..

Funeral services were held March 30, 1983 for Jim Dan Hill, 86, of Abilene. Interment was in Wichita Falls, Texas.

Mr. Hill's parents were early day residents of Eldorado and Hill grew up here and attended the local school.

At the time of his death Mr. Hill was a teacher and a writer.

SPORTS

Golf team takes second

Some habits are not easily broken so let's all hope the varsity golf team can't break their habit very easily. The habit they are starting continued last Friday as the linksters brought home four more trophies from the Sixteenth Annual Reagan County High School Invitational.

This makes the third consecutive tournament that the boys have placed in the top two. They won second in Stanton, captured first place at Robert Lee and now brought home the second place trophy from Big Lake. Three individuals won medalist trophies as John Griffith led the team and won second overall medalist. Gene Edmiston won fourth

medalist while Wray Crippin beat two Big Lake golfers in a playoff for the fifth medalist trophy. Griffith fired an 81, Edmiston had an 83, Crippin 85, while John Mitchell and Kelly Kerr shot and 88 and 89 respectively. The Eldorado golfers took second behind Reagan County as they lost by seven strokes. Other teams competing in the invitational included Stanton, Wink and Sanderson. The linksters had to fight approximately 40 m.p.h. winds which might be blamed for a few strokes here and there. The golf team will play in Eldorado April 4. Come out and watch our golfers perform their best.

Boys place fourth

The Eldorado Eagles boys track team placed fourth in a field of 21 at the Annual San Angelo Relays last Saturday.

The team's best effort was in the 1600 meter relay, which placed second behind district rival, Stanton. Sprinter, Jeff Harlin and hurdler Ashley Niblett took third place honors in the 200 meter dash and 110 meter high hurdles respectively. Harlin accounted for a 23.4 time while Niblett posted a 15.03 in hurdles.

Linksters

Lead District

The linksters traveled to Big Lake, Monday to begin district. The team travels to each district opponents' home course, with the exception of Wall and Miles who do not have golf teams.

The Eagles took the first round district lead by swing a 334. Big Lake, led by first-round leader Craig Bagley's 76, came in four strokes back with a 338. Stanton was a distant third 12 strokes back.

John Griffith, stands in second place as he fired an 81 for his second consecutive time.

Gene Edmiston and John Mitchell fired an 83, while Wray Crippin and Kelly Kerr shot an 87 and 92 respectively.

Netters finish second

The Eldorado tennis team took a second-place overall finish at the Ozona Invitational Tennis Tournament last week.

Doubles team Mary Lisa O'Harrow and Missy White took the highest honors with their second-place performance. The team demolished all of their first three opponents before falling to Sonora in the championship.

Amy Heald and Margie Logan also did well as they placed third at the tourney.

The doubles team also lost their only match to Sonora.

In boys action, doubles team Danny Pina and Gregg Davidson placed third as they also lost their only match to Sonora.

Remember April 9!

KEEP ELDORADO CLEAN!

Clean Up! pick up! Fix Up!

Several organizations in Eldorado have agreed, in a joint effort, to promote a spring clean-up and beautification program to make our town the most attractive in the state.

In order to accomplish this we need the cooperation of every property owner in Eldorado. Will you help by having your city lots cleared of any debris and stacked at the curb for

pickup and hauling off? We have designated Saturday, April 9 as our OFFICIAL CLEAN-UP DAY. The City and County officials have offered to collect any trash that has been placed at the curb at no expense to the property owner. We are depending on your cooperation and pride in this project.

ELDORADO WOMAN'S CLUB, President Mrs. John Stigler
CITY OF ELDORADO, Mayor Bob Lester

SCHLEICHER COUNTY, JUDGE Johnny F. Griffin
VOLUNTEER FIRE DEPARTMENT, Chief Jerry Jones

Officers elected at Sorority

Xi Xi Chi chapter of Beta Sigma Phi met Monday, March 28th, at 7:30 p.m. with eighteen members present.

Vicki Duhon reported that the club will be able to have a private room for the Founders' Day Banquet at the Sutton County Steak House. The club will combine their banquet with their April 25th meeting. The Executive Board will meet April 6th at the home of Debbie Ballew to discuss the decorations.

Chairmen Sarah Yates and Barbara Jackson gave reports on their committees for the youth rodeo. Sarah has everything ordered and has assigned individuals their times to work the concession stand. Barbara reports that at this time the club has three floats and the band for the parade. Sheriff Edmiston says there will be no problem with the parade coming down the Mertzon Highway in order to pass in front of the nursing home. The parade will then proceed to the downtown area.

"Communicating With Music" was the theme for Flora Hubble's cultural program. Refreshments were served by Sarah Yates and Nelva Martin.

Following the close of the regular business meeting, attention was turned to the election of the new officers. The officers for the 1983-84 year will be: President - Glenda Harris; Vice-President - Peggy Williams; Recording Secretary - Kim-et Nelson; Corresponding Secretaries - Kathy Mihecoby, Stacey Haynes and Vicki Duhon; Treasurer - Fayla Cheat-ham; Extension Secretary - Betty Hanusch.

President-elect Glenda Harris appointed the following to fill out the Executive board: Parliamentarian-Barbara Jackson; Sunshine Girl - Lois Lively; and Telephone Girls - Kathy Mihecoby and Mary Nolen.

The Girl of the Year and Pledge of the Year were voted on, but these will not be revealed until the Founders' Day Banquet.

The meeting was adjourned and the Closing Ritual was repeated.

Stokes to donate

Aubrey Stokes, famed lawyer and horse breeder, of San Angelo, announced this week that the West Texas Rehabilitation Center of Abilene, San Angelo and Snyder will receive 10 percent of the 1983 breeding fee of two stallions he owns.

Dot Dot Dot Dash (s.i. 95) is by All American Futurity winner and leading sire Three Oh's AAAT, who is the breed's No. 6 all-time leading sire of money earners through 1981 and the sire of 114 stakes horses who have earned \$4.6 million. He is out of the Speck Deck mare Specka Barr AAA, who has produced 3 other stakes winners.

Deckem Easy (s.i. 98) is a son of Easy Jet AAAT, the All American Futurity winner and former all time leading money earner who has sired the winners of more than \$14.2 million including 88 stake winners and 103 stake-placed winners.

Deckem Easy is out of stakes producing Speck Deck mare Speckie Sue Deck AAA, a winner of 4 races and \$12,878.

These two fine stallions are standing at McDonald Equine Center, Sterling City, Texas with a breeding fee of \$1000 each.

The West Texas Rehabilitation Center is a non-profit organization that serves the handicapped of the Southwest at no charge.

Country comes to Eldorado

The Eldorado Lions Club will sponsor the "Stars of Country Music" on Thursday, April 28, 1983, at 7:00 p.m. The program will be held at the

Eldorado High School auditorium. The musical group "Armadillo Flats" will perform a variety of country music. "Armadillo Flats" perform a style of music very similar to that of the award-winning group "Alabama".

Advance ticket sales will begin approximately April 1st. D&D Productions, the producer of the show, will conduct a ticket sales campaign by telephone. However, it is not necessary to purchase your tickets in advance. Tickets will be available at the door.

The Eldorado Lions Club uses funds to support many local activities, with emphasis on youth programs. In addition, the local Lions Club supports the sight conservation and crippled children programs of the International Lions Club organization.

One-Act Play qualifies for Area

Eldorado High School's One Act Play, "The Arkansas Bear" qualified for area competition by winning district here in Eldorado last week.

The cast landed four honors as Melissa Burleson led the way with the best actress award. She received a trophy for her fine performance.

Dusti Murph and Michelle Marsh were named to the All-Star cast. Sandy Hutcherson received Honorable Mention for her acting.

The crew will travel to Midland April 5; according to drama director Larry Logsdon. They will rehearse at 8:00 a.m. Tuesday morning and will perform at 2:00 p.m. at Midland College.

The play was written by Abrand Harris.

Also the Literary team won first place at Llano. The results were not known at presstime due to grading of the calculator results. Mitzi Mittel swept first and Stephanie Thomas placed third. It was the team's second consecutive win at the Llano Literary Meet.

limit on local, state and national level and there seems to be no end. DENNIS LAMPMAN: Yes. 5. *is there anything that you personally would like to see take place in our community should you be elected?*

WAYNE MCGINNIS: Not one thing, but an on going upgrading of all the city systems.

RONNIE SAUER: The construction and completion of the sewer treatment plant and extension lines in the Christian Addition with less problems than the installation of the gas lines.

WALT BOSMANS, JR.: My main priority is the establishing of a well structured city government, a strong city council that will take action and not just react to problems, the establishment of zoning ordinances to insure proper planning and growth and the beautification of the city to induce new businesses. We must all do our share and take pride in our community.

BARBARA JACKSON: I just want to see our community working together to make our city a better place to live. We don't just need one or two saying this is the way it is. We need the whole community sharing ideas and carrying out plans. Harmony and pride in being a citizen of Eldorado, Texas U.S.A. is the key to better understanding and feeling good about our little city.

DENNIS LAMPMAN: I would like to see a few new streets, a cleaner city, vacant lots cleaned up and mowed and the election of a working foreman over city works so the above items will be done and done efficiently.

HOSPITAL DISTRICT

1. *In your opinion what is the highest priority facing the Schleicher County Medical Center District?*

WILLIAM EDMISTON: The highest priority of the SCMCD is providing quality medical care and continuous emergency care service to the citizens of the district. By properly addressing this issue the occupancy rate of the hospital should rise and the hospital can work its way to a sounder financial footing and avoid a greater dependance on tax revenue for support.

JULIE GRIFFIN: I feel that there are many areas that could be considered top priority. One of the main problems facing the Medical Center is getting the facility to the point where it is financially sound and not a burden to the taxpayers. In order to achieve this, we are going to have to provide high quality medical care in the form of more physicians and up to date equipment.

JIM BELK: Getting the best medical care at the lowest rates for the people of Schleicher county.

PENNY BLAND: The highest priority in my mind is keeping our Medical Center accredited and at its present high level of care. Some of our neighboring towns are in danger of losing their accreditation and if that happened to us we could not expect qualified physicians to come here.

BARBARA NICHOLS: Getting another doctor and to see that everyone in the district receives quality medical treatment at fair and competitive prices.

BILL HODGES: To keep the Medical Center operating smoothly and

effectively also to be able to fulfill the needs of our community and surrounding area.

PAM WHITE: We need to locate at least one more doctor and two if possible to come to Eldorado and practice on a full-time basis.

2. *How much emphasis do you think should be placed on attracting another physician to the Medical Center?*

WILLIAM EDMISTON: The facilities now available at SCMC will allow two physicians to practice in a mutually complimentary fashion. The advantages to both due to on site professional consultation, support and assistance and the sharing of emergency duty and after hours patient care, make a multiple physician staff desirable from the physician's viewpoint. Multiple physicians at our hospital will be advantageous to the community because of increased availability of routine and emergency medical care, close to home. Medical care would be readily available when needed without a long drive or ambulance ride.

JULIE GRIFFIN: The utmost emphasis should be placed on attracting another physician to the Medical Center.

JIM BELK: It should be a top priority in attracting another physician.

PENNY BLAND: The second highest priority should be to attract another physician, or even two more, to care for the case load and give each of them some time off for their families.

BARBARA NICHOLS: I think it should be a matter of top priority. Eldorado needs more than one doctor.

The work load is too much for one person.

BILL HODGES: We need at least one more physician to relieve some of the pressure on a single doctor. This would enable the Center to serve more people also to enable our Center to handle the more difficult medical problems that require two or more doctors.

PAM WHITE: We must work constantly to find a doctor willing to come to Eldorado. We need someone who will become an active member of our community.

3. *Do you feel that the present board of trustees made the proper decision when rejecting Dr. Wayne Williams' proposal of a family care clinic?*

WILLIAM EDMISTON: Yes, the primary problem with Dr. Williams'

program as I understood it was the lack of emergency care by a physician after office hours.

JULIE GRIFFIN: I am not familiar enough with Dr. Williams' proposal to say whether the board made the right decision or not. I feel like any proposal of this magnitude should be carefully analyzed. Ample time should be spent asking questions, negotiating points, and seeing what compromises could be worked out for the betterment of the community.

JIM BELK: Yes, there is a big difference between a business deal and the availability of quality medical care for all.

PENNY BLAND: Yes. This county voted to have a hospital district with a hospital and nursing home in Eldorado. I think that is what the people want. We lived here before there was a hospital and I would not want to go back to having just a clinic available which is what Dr. Williams was proposing.

BARBARA NICHOLS: Yes, because Schleicher County is fortunate to have the fine facility that we have. A lot of taxpayers money was put into this and it would be a large waste not to use it. I don't think Eldorado would benefit that much from a clinic.

BILL HODGES: Yes. PAM WHITE: Yes, I feel they did the right thing.

4. *What, if any changes would you like to see take place at the Medical Center?*

WILLIAM EDMISTON: The Medical Center currently does a good job of patient care. The best change would be an increase in use of the hospital by people of this district because of increased availability of services.

JULIE GRIFFIN: Ideally, I would like to see a zero tax base and the people of Schleicher County having their medical needs met in Schleicher County.

JIM BELK: No answer. PENNY BLAND: None that I know of. I do think its good planning to have a pharmacy in the hospital as was done recently.

BARBARA NICHOLS: Two doctors and some more qualified ambulance drivers.

BILL HODGES: I would like to see the soaring cost of hospital and doctor care stabilize or maybe even come down to a realistic level.

PAM WHITE: I feel that for a community our size we have an excellent facility and we need to keep it in top condition. This requires work

and a lot of interest from our community. I would like to see a program started to increase the number of volunteer ambulance drivers. At one time we had a large number of people participating, now there are a very few to call on.

5. *In your opinion what could you offer the hospital district by serving on its board of trustees?*

WILLIAM EDMISTON: My training as a Doctor of Veterinary Medicine allows me to understand the closely related field of human medicine and the operation of the hospital. Through this understanding I will be able to face decisions required of the board in a well prepared manner. I can relate to the needs and wants of the physicians we desperately need to staff our facility. My children are the 5th generation of my family to live in Schleicher County and I want to provide them with the quality of life this county is known for. Because of my training and background, I feel I can provide a valuable service to my community as a member of the Board of Trustees of the Schleicher County Medical Center.

JULIE GRIFFIN: I believe that I could offer some fresh, open-minded approaches to the problems facing the Medical Center and our community.

JIM BELK: Because Eldorado is my home town, I want the best medical care here. PENNY BLAND: I have lived in Eldorado 23 years and know some of the problems we have faced during that time. I am a citizen who is concerned about the welfare of our town and want to help in any way I can to keep our hospital and nursing home in good order.

BARBARA NICHOLS: I am interested in serving in my community and will be glad to help any way I can. I don't believe my opinion on business matters would be influenced by anyone as I have no axes to grind with anyone.

BILL HODGES: A voice that would reflect the opinions of the people the Center serves.

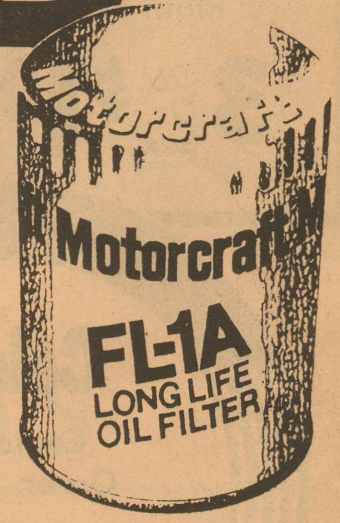

PAM WHITE: The quality of life in a small community has so much to offer. I would like to offer my time in searching for more doctors. I would also like to be active in helping keep our hospital and nursing home in top condition.
