

Park or waste land; it's up to you.....

By Finis Bratcher

All the facts and figures haven't been compiled but the motivation, preliminary initial study, and the circumstances are at hand for a 5 acre lake near the city limits. 6.8 acres of land behind S. Cottonwood that is owned by county and purchased by the city as a source of topsoil which will be necessary as a sealant for the sewage processing plant lake. The soil will be used to line the sewer lake in order to prevent seepage, this will

create a 5-acre hole approximately 3 ft. deep adjacent to the city limits and through the efforts of the City Council and the local Soil Conservation Office, this gaping hole could be made into a beautiful scenic recreation area for the community and the county.

The findings were presented to the City Council as well as the County Commissioners and each entity is giving the matter further consider-

ation but, what it all boils down to is that in the future the City of Eldorado will undoubtedly have to obtain an additional water source such as a well and this particular site could well be considered for that purpose due to its proximity to the center of the town. What is being proposed is that the five acre lake (in circumference) and approximately 3 ft. deep be designed as a fishing and picnic area. The local Boy Scout troop is also looking at this site to build a clubhouse, to be funded

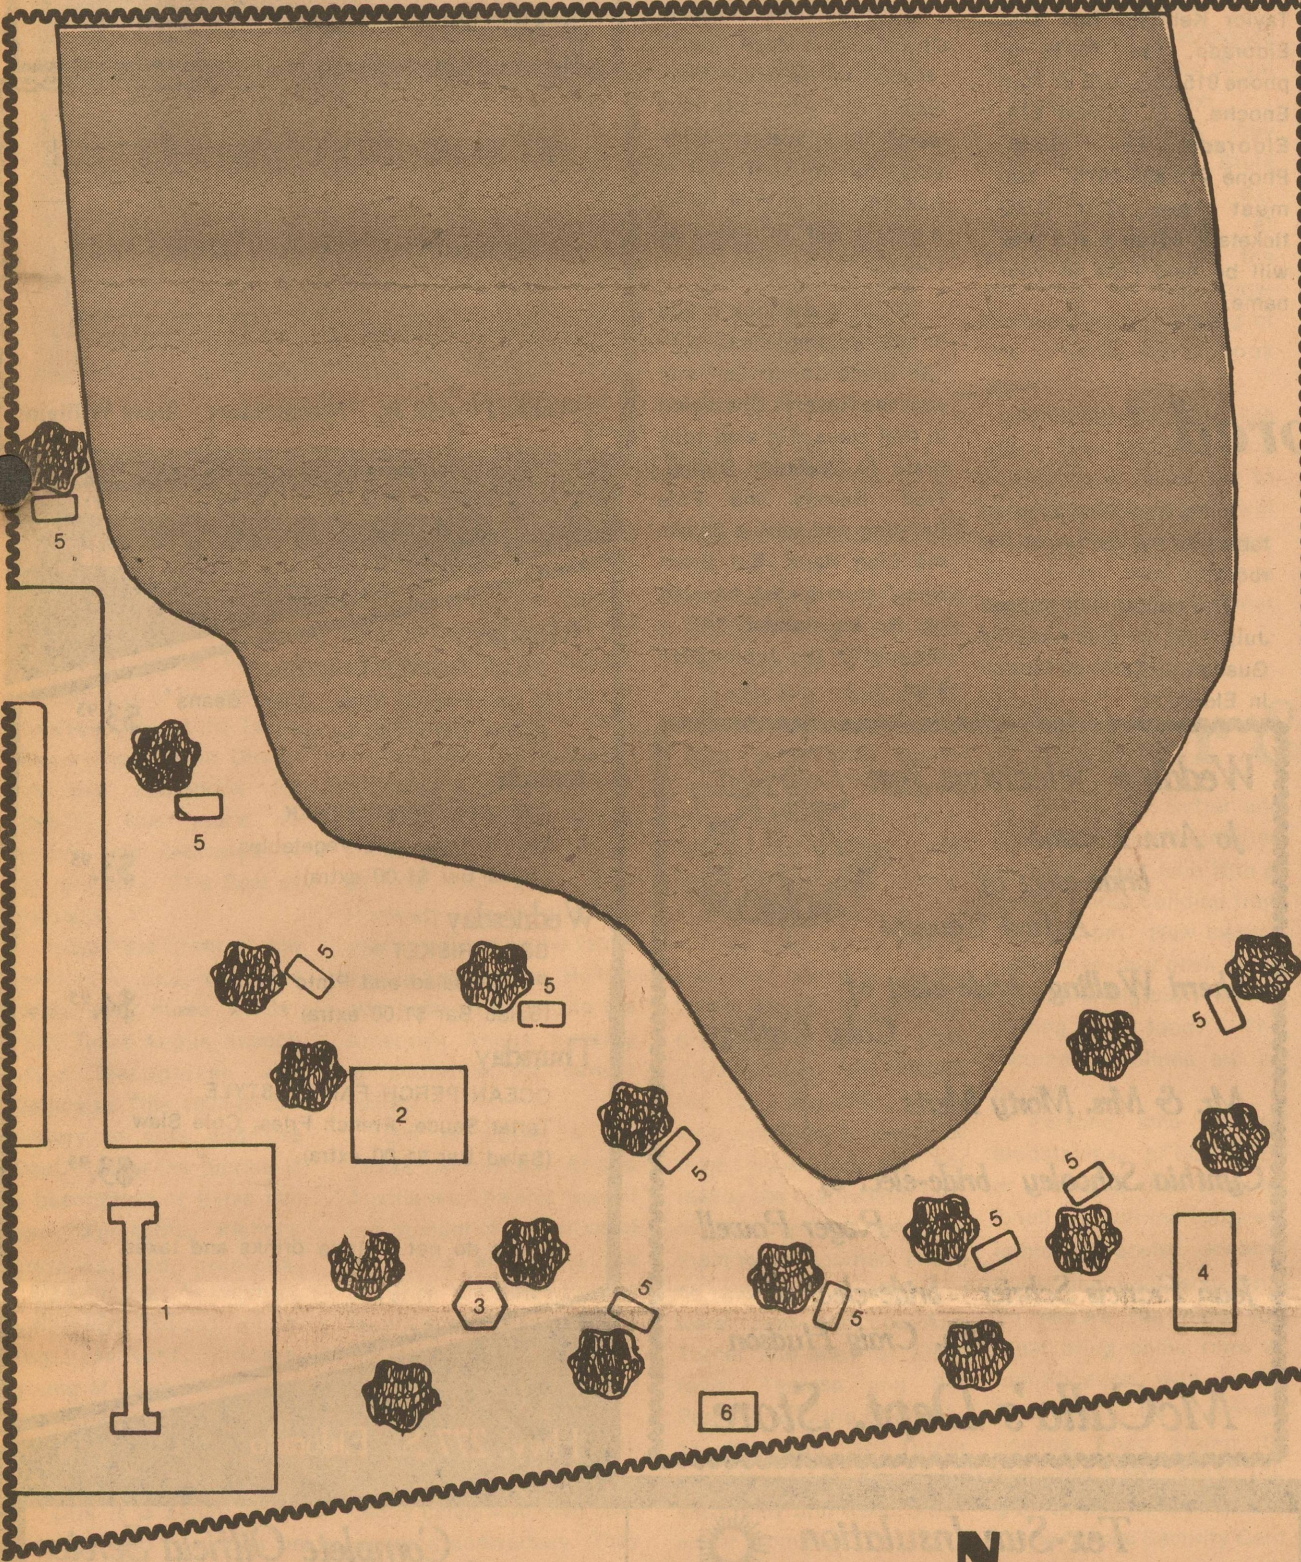

from the topsoil sales to the city from their 5 acre tract of the property. What has been projected is that this area be dedicated to a recreation facility with a nominal or non-fee for entry, completely fenced in with adequate parking facilities, a continuous supply of game fish which could be procured from the State Fish and Game Commission or other state agencies as opposed to a mosquito and snake broody right at the edge of a residential section.

The projected average annual pumping cost would be \$1,781.00, reaching as high in maximum evaporative years and months to \$2,773.00 down to a minimum of \$924 per year.

The lake would consist of 25-acre feet of water and approximately 8,145,720 gallons of water. It is proposed that there should be no swimming in the facility to alleviate the possibility of accidental drowning. It is also proposed that the lake be secured at night to keep the vandalism to a minimum. One of the initial costs of a project would be a security fence to protect human life as well as the property itself. Each governing body, the council as well as the court, are awaiting response from their constituents. A complete breakdown of the water needs for the lake has been compiled by the SCS office through the efforts of the Regional Biologist and the two local officers, even the evaporative quotients have been figured for the body of water and there are indicators that the county court

would be responsive to a co-operative effort in procuring such a facility. The sources of funding such a facility are countless but, what is needed basically to develop such a project is the support and EFFORT which can only be found in the citizens of Eldorado and Schleicher County. The facility could be operated by either agency of government or it could be contracted, such as the golf course and swimming pool, or it could be left as a 5-acre 3 ft. deep hole in the ground suitable for reptiles, insects and curious children. But the point is, if Eldorado grows, this particular area could well be one of the areas of growth but, you can bet that no one wants to live by a swamp in an arid climate. So readers please let your opinions and ideas be known to your city councilmen as well as your commissioners and if you are in favor of such a proposal, don't be afraid to volunteer your services to insure that this facility does come to pass and is suitable to all of our needs for recreation in the community.

The initial cost for the project has already passed, in that its original design was merely that of topsoil, the remaining factors in cost can be tabulated at the cost of beautification, which could find the bulk of its funding from grants supplied social and civic clubs as well as monies procured from state and federal agencies. The remaining burden of the financial outlay would come in keeping the lake full of water and this has been projected by the SCS office.

1. Parking Area (Accommodating 50 Vehicles)
 2. Playground
 3. Pavillion
 4. Boy Scout Hall
 5. Picnic Tables

SCHLEICHER COUNTY LEADER

(U.S.P.S.) 342-470 Six Pages June 14, 1984 25 cents Eldorado, Tex.

Local economy still slow in come back

State Comptroller Bob Bullock sent out checks last week to 988 local tax cities totaling \$52 million. Bullock said, "So far this year, we've sent these cities a little over \$400 million, which is more than 13 percent better than what they had gotten by this time last year." June payments reflect taxes on sales made in April and reported to the Comptroller by May 20.

Eldorado received \$3,122.27 this period, compared to last year's payment of \$2,686.77. This brings the 1984 payments to date to \$27,176.33 which is a 29.04% decrease over last year's payments to date of \$38,300.62. Other area towns receiving checks

and their increase or decrease from last year are: Sonora - \$13,709.89, \$10,764.84 1983 payment for same period, \$108,460.57 1984 payments to date \$124,218.84 1983 payments to date for a 12.69% decrease.

Menard - \$2,079.02, \$2,130.49 1983 payment for same period, \$21,105.32 1984 payments to date, \$20,684.87 1983 payments to date for a 2.03% increase.

Mertzon - \$4,519.71 \$3,150.22 for 1983 same period, \$27,317.97 1984 payments to date, \$21,128.76 1983 payments to date for a 29.29% increase.

San Angelo - \$329,609.72, \$282,773.74 for 1983 same period,

\$2,475,474.33 1984 payments to date, \$2,474,485.09 1983 payments to date for a .04% increase.

Houston's check was the largest totaling \$8.9 million for a total of \$72.7 million up 5% over last year. Dallas is really on the move being up 15% over last year with its check of \$5.8 million to push its total payment to \$48.3 million for the year.

Bullock also sent checks to Metropolitan Transit Authorities in Ft. Worth, Dallas, Houston and San Antonio. Ft. Worth's first check from the one-quarter percent local transit tax in that city was for \$331,306. The Dallas DART check was for \$8 million and the Houston MTA got \$10 million. San Antonio's VIA check was for \$1.7 million.

Routine meeting at County Court

County Commissioners met with City Councilman Ronnie Sauer, Mayor Bob Lester and Bruce Deere concerning the proposed town lake during Monday morning's regular session of Commissioner's Court.

The commissioners heard Sauer's presentation and Mr. Deere of the Soil Conservation Service answered questions and provided information concerning the project. The court expressed interest in the lake and its construction if it is proved to be feasible. No action was taken on the matter until further information is obtained.

Jim Hardy met with the court and approval was given for an easement on a county road for a water line to Hardy's sub-division.

A quit claim deed was given to Lynn Griffin and Patton Enochs from the county on a parcel of land on the north end of the old Angelo highway.

Judge Johnny Griffin had to cast the deciding vote in a decision concerning charging \$5.00 extra on car registrations. The county has the option as to whether or not to charge the extra money that would go into the local county's Road and Bridge Fund according to House Bill 965. The commissioners tied up the vote 2 - 2 and Griffin cast the deciding vote not to add the charge.

The court also took care of monthly bills, reviewed various paving projects that are upcoming, heard official reports from the county department heads, reviewed correspondence and heard and approved County Treasurer A. G. McCormick's report.

Receives scholarship

Kelly Dan Griffin, an outstanding Schleicher County 4-H member recently received a four-year \$8,000 college scholarship from the Houston Livestock Show & Rodeo.

Kelly, son of Mr. and Mrs. Dan Griffin, is a recent graduate of EHS where he was ranked in the top 10 percent of his class. He was an active 4-H member for 10 years winning the prestigious Gold Star Award and the county beef and leadership awards.

Kelly's district-winning share the fun team went on to place eighth overall in statewide competition. He has also been a member of both the wool judging and livestock judging teams. He attended the Texas 4-H Congress and was elected as vice-president of his local club. While in high school, Kelly was vice-president of the FFA, vice-president of the Rodeo Club and a member of the National Honor Society.

Kelly, who plans to major in agricultural engineering at Tarleton State University, was one of 50 recipients of Houston Livestock Show and Rodeo scholarships presented at the state 4-H Round-up.

The Show, which will also present 50 four-year, \$8,000 scholarships to FFA members during their state convention in July is the largest donor of agricultural scholarships in the United States. During the coming school year, the Show will have 478 students on scholarships in Texas colleges and universities, at a commitment in excess of \$2 million through the annual program alone.

The winners, carefully selected from hundreds of applicants, are the best in the state from the standpoints of academics and leadership. The only requirements made of the students are that they major in some form of agriculture at a college or university within the confines of the state.

The monies used to fund the scholarship program are derived directly from proceeds generated by spectators at the Houston Livestock Show and Rodeo, a civic, charitable organization whose efforts, actions and revenues are used directly to benefit youth and support education.

In presenting the scholarships, Show President Dr. Joseph T. Ainsworth emphasized that the scholarship programs make up the heart of the Houston Livestock Show and Rodeo.

"These scholarships are the tangible results of the support of hundreds of thousands of people for the programs and purposes of the Show," he said. "Our continuing commitment to these young people and their education is the driving force that makes the Show great. We're proud of our part in meeting the challenges of the future by assisting these students who are our future agricultural leaders."

Bid oked for class rooms

During their lengthy meeting Tuesday night the Schleicher County Independent School District's Board of Trustees okayed a bid for the construction of two new elementary classrooms. B. R. McCormack Construction of Georgetown was awarded the job for his bid of \$43,389.

Concerning the school's building needs, Gary Donaldson, architect, met with the board to discuss the school's building program. The school is going to have to eventually expand due to 1) House Bill 246 which mandates that junior high grades be separate from high school grades due to period scheduling and 2) overcrowding in the elementary grades. Several options were discussed with Donaldson and he was instructed to investigate these options and how they would relate to the school's present structures and to report his

findings to the board.

Carolyn Whitten and George Spinks appeared before the board to ask for the school's financial support for the proposed teen center, "Eagle Point" the board agreed to finance one-third of the center along with the city and county.

Mr. Newman, school counselor, met with the board to discuss the results of the TAB and achievement tests that were taken in April. He recommended that all graduating seniors be required to master the exit level TAB test before they could graduate. No action was taken on this matter but will be dealt with later in the summer when the student handbooks are reviewed.

The accreditation report to the TEA was approved.

Student insurance was next discussed with the board voting to go

with a blanket coverage to be paid by the school with the students' parents being responsible for any coverage left over.

The summer maintenance items were discussed by the board concerning the upkeep of the school facilities during the summer months.

The acquisition of real property was discussed including what might be available for additional buildings. No action was taken by the board at this time.

Superintendent Guy Whitaker briefed the board on areas where the legislature's special session concerned the school from a financial standpoint.

The board voted to hire Branda Barton as a teacher in the Special Education department for the upcoming school year.

Other items taken care of by the board included the paying of monthly bills and approval, with one exception, of the minutes.

With no further business, the board adjourned.

Jesse Arispe found guilty

Jesse Baltazar Arispe was sentenced to eight years in the state's correctional institutional system when he was found guilty of aggravated sexual abuse last week in district court held here in Schleicher County.

two juveniles were spotted in the alleged stolen vehicle Sunday evening when they wrecked the pick-up and fled on foot into the ranch country.

A spokesman for the Schleicher County Sheriff's Department stated that the two juveniles were possible runaways from Alvarado, Texas and that they had been turned over to the Irion County Sheriff's Department. They are facing possible charges of unauthorized use of a motor vehicle or felony theft.

Two nabbed in man hunt

Two juveniles were captured Monday morning on the Cox Ranch off of Hwy. 2129 following a near 24 hour manhunt involving officers from the Schleicher County Sheriff's Department, Ozona, Sonora and the Department of Public Safety.

Approximately fifteen officers were involved as was one aircraft for the search of the two juveniles, who allegedly stole a pick-up Sunday night in Barnhart.

The capture was made at approximately 10:30 Monday morning. The

Pina and Adame to wed

Agenda set for Mias Amigas

Our Lady of Guadalupe Catholic Church will be the setting for the marriage of Roxanne Pina and Rojello Adame July 14th at 3:00 p.m.

Roxanne is the daughter of Mr. and Mrs. Santos Pina and Rojello is the son of Mr. and Mrs. Jesus Adame, all of Eldorado.

The bride-elect is a senior at Eldorado High School and the groom is employed by Southwest Texas Electric Co-op. They plan to make their home in Eldorado.

The 53rd Annual Mias Amigas Meeting will be held June 29 and June 30 for any student or teacher of the Eldorado Schools until the class of 1964. The graduating class of 1964 will be honored this year.

The agenda for the two day event which draws people from all corners of the U.S. is as follows:

FRIDAY: 5:00 p.m. - Registration at the Memorial Building. 7:30 p.m. - Sandwich Supper and Visitation on the Courthouse Lawn.

SATURDAY: 8:30 a.m. - Coffee at Memorial Building. 9:30 a.m. - Ring old school bell. 10:00 a.m. -

Re-convene for special recognitions of classes 1933-34, 1963-64; business meeting and program. 1:00 p.m. - Barbeque on the Courthouse Lawn. (Advance tickets - \$5.00 each). Afternoon visitation, class reunions, etc.

To R.S.V.P and purchase advance barbeque tickets contact: Patsy Taylor Kellogg, Box 644, Eldorado, Tex. 76936 or phone 915-853-2079 or Tom Enochs, P.O. Drawer 479, Eldorado, Tex. 76936, Phone 915-853-2375. You must have your BBQ tickets in advance and they will be held here in your name.

Locals pack it in

Eldorado was well represented at last weekend's Ft. Stockton Open and Horse Show. Carolyn Whitten, Stephen Whitten and Brant Ward came home with numerous awards for their efforts.

Carolyn's mare, "Sugar Sassy Doll" took Grand Champion and first place honors in Registered Mares 5 and Over. In Barrels she took sixth place, Pole Bending fifth place and Flag Race fifth place.

Stephen won Reserve Champion Mare with "Mable" in the Grade Mare class. His other placings were: 3rd in Western Pleasure; 5th in Trail; 5th in Barrels; 3rd in Pole Bending and 1st in the Flag Race.

Brant Ward took a 2nd in the Gelding class with "Go Disco Dancer Go" and won the Reserve Champion in that class. He also took firsts in Western Riding, Trail, Barrels and Pole Bending and took a 2nd in the Flag Race. But Brant wasn't through yet, he went on to be named "All-Around" in the Junior Division.

Ashley Whitten, although there were no ribbons awarded at the Show, would have brought home ribbons in the following classes: Barrels, Western Pleasure, Flag Race and Pole Bending.

Peace

By Dale Lipsett

There is probably not one person on earth who does not want peace. There are probably not two people who can agree on a definition of the peace they want. To some, peace is the absence of warfare. To others, peace is a state of calm and order. The whole subject reminds me of the man who didn't know much about art but he knew what he liked.

Mankind has repeatedly sought to bring about world peace through organizations and congresses. Some notable failures in this regard are the League of Nations and the United Nations. Each of man's attempts begins with the most altruistic of motives and ends by being bogged down in the morass of human nature. Ultimately, peace has become something that's alright as long as it's the other fellow who has to behave peaceably.

I define peace as the state of being in a right relationship with God, with my fellow man and with myself. World peace, by my definition, is the condition in which each person living in the world lives in such a state of harmonious relationships. In my opinion, there has never been peace in the world and there never will be peace in the world until one of two eventualities occurs: either God will make an end of this age and create another or men must become changed from the greedy, grasping self-centered creatures that we are.

I believe that God will indeed make an end of this age some day, possibly very soon. I know, however, that it is now possible for men to be changed. I'm not talking about a real change of life that is available for everyone, not just for me. This change brings peace, not by magic but by

a miracle. This peace is brought by Jesus Christ and by no other. No organization -- ecclesiastical or secular, no government or man can bring this peace, only Jesus. The Bible says that Jesus is our peace because God the Father made him our peace. Unless you like to be at war all the time, turn away from man's foolishness and ask God for peace. You've tried everything else already so why not try Jesus? Why not now?

Montalvo named to Honor Society

Heriberto Montalvo, son of Mr. and Mrs. Arnulfo Montalvo, Eldorado, has been named to the Presidential Honor Society at the DeVry Institute of Technology in Dallas, Tex. To be eligible for the prestigious honor, students must have a cumulative grade point average of at least 3.5 (out of a possible 4.0) after two terms of study. Montalvo, a

Reynolds observe 50th wedding anniversary

Mr. and Mrs. C. A. Reynolds, a former Eldorado School superintendent and his wife, a former teacher in elementary school, were honored with a reception on Sunday, June 3, at the Heart of Texas Civic Center in Brady in observance of their 50th wedding anniversary. Hosts for the affair were their children, Mr. and Mrs. Mike Richards, Dr. and Mrs. Charles Reynolds and Mr. and Mrs. Clint Summers.

The couple met in 1931 at Abilene Christian University and were married June 4, 1934 in Bowie, Texas. They have lived in Abilene, Bowie, Eldorado and Brady during their married life. Both are retired from teaching.

Mrs. Reynolds spent 26 years as an elementary teacher and is a member of TSTA and NEA. She taught

in Stoneburg, Eldorado and Brady.

Mr. Reynolds was coach and principal at Bowie for five years, was principal and then superintendent at Eldorado for 12 years and spent 23 years as superintendent of Brady schools.

Both are still active and since their retirement they have traveled extensively and now spend much time on South Padre Island. He has developed an interest in woodcarving. They are members of the Church of Christ.

Their three children are: Cynthia Richards of Sugarland, Texas, Dr. Charles Reynolds of Brady and Rose Ann Summers of Sugarland. They also have six grandchildren, Michael and Melone Richards, Jennifer and Hunter Reynolds and Allison and Angie Summers.

Wildlife specialist voices philosophy

Drought planning principles for wildlife actually boil down to range management principles.

Ecologically, there are a given number of plants to support a given number of animals, livestock and wildlife. Since plant populations are down during dry periods, it follows that livestock and wildlife numbers also need to be adjusted in dry periods.

This is the philosophy of Dr. Dwight Guynn, wildlife specialist with the Texas Agricultural Extension Service, headquartered at Uvalde.

He emphasizes that it is much easier to quickly adjust the stocking rates of livestock than those of wildlife.

"With wildlife, landowners or ranch managers can only reduce wildlife numbers legally during the fall hunting season by allowing hunting. As the hunting season approaches, the owners and managers need to conduct wildlife censuses to be able to predict what the wildlife numbers will be in the next year. The fall harvest is planned around those numbers to keep the wildlife population in balance with the food supply," Guynn explains.

During drought, ranchers also may reduce some of the numbers of livestock which compete with wildlife for forage and browse. For example, cattle are not as competitive as sheep or

goats; and sheep are not as competitive for the same food supply as goats, he adds. This information may provide some guidance in times of drought, Guynn explains.

To provide supplemental feed for wildlife can be a very expensive practice, for landowners cannot control the number of deer and other animals that come to the feeding area. On small ranches, the animals that come to feed will likely include many from his own land, as well as others from surrounding pastures owned by other people. On larger land areas, this problem is not as acute, he emphasizes. Due to the expense and the lack of control over numbers of animals fed, the most practical method of management is maintaining wildlife numbers at or below what the range will support.

While a number of feed supplements for wildlife are on the market, it is well to remember that energy as well as protein sources are needed by deer. Further-

more, deer require natural protein rather than urea, Guynn reminds.

Many feed mills will work with landowners to prepare rations for deer, but one complete ration in the form of deer pellets has been used by the Texas Parks and Wildlife Department in white-tail deer research studies on the Kerr Wildlife Management area near Kerrville. The 16 percent crude protein pellets are in 3/16 inch cube form.

Ingredients for the deer pellets should include these approximate percentages: 20 percent peanut hulls; 20 percent corn meal; 5 percent dehydrated alfalfa; 22 percent ground milo; 15 percent cottonseed meal; 10 percent soybean meal; 5 percent maxonex; 2.5 percent mineral mix; 0.5 percent vitamins/trace minerals; and 40 grams of aeromycin per ton.

The mineral should contain adequate calcium and phosphorus to supply the ration with 0.64 percent calcium and 0.56 percent phosphorus, the specialist adds.

Dean & Kotsch attend camp

Two Eldorado students, Sue Dean and Amy Kotsch have returned from their week long stay in Plainview where they participated in the Wayland Baptist University Flying Queens Basketball Camp.

Both received honors during the June 3 - 8 camp, Sue was named "Miss Congeniality" and was also named to the All-Stars and Amy was named an Honorary Flying Queen.

Thank you to the people of Schleicher County for your support in the recent elections.

Reports from Washington

The Persian Gulf A Conflict Escalates

As recent headlines readily demonstrate, the pace of events in the Persian Gulf has quickened, with all regions of the world keeping a watchful eye on developments.

A war which began in September of 1980 and had previously been limited to a defensive struggle between Iran and Iraq has become the object of mounting global tension. Although the focus has been on events which seem remote from our shores, all of us will be well advised to carefully monitor the actions of all parties involved.

In military and strategic terms, the war has escalated alarmingly in recent weeks. Indications are that Iran is gearing up for an all-out offensive that could begin at any time. Approximately 500,000 Iranian troops are now reported to be massed at the Iran-Iraq border. In response, Iraq has threatened to attack Iran's major oil installation at Kharg Island - potentially with SS-21 intermediate range missiles reportedly supplied by the Soviet Union.

Perhaps most threatening has been the expansion of the war to the Persian Gulf itself. Iran, under the Ayatollah Khomeini, has refused to even attempt a negotiated settlement, despite Iraqi overtures.

There is no question but that Iran, with a population approximately three times that of Iraq, is better able to sustain a prolonged war of attrition. Consequently, Iraq has sought to deny Iran the oil revenue which permits it to continue the war. Iraq has declared the region around Iran's Kharg Island to be a war zone and has attacked ships headed to and from that key installation. Iran, on the other hand, has attacked ships outside of the zone that are bound for major facilities located in the other Persian Gulf nations - which are uniformly allied with Iraq. Therefore, a real economic threat could develop not only to those nations in the Gulf that export oil but also to those nations relying on that oil. And, among nations heavily dependent on Persian Gulf oil are our Western Allies in Europe and Asia - notably the Japanese in that region of the world.

The Soviet response to this recent escalation in the conflict has been swift. Looking for every chance to exploit the hostilities and with one eye firmly on its historic goal of gaining a warm water port, the Soviets have not only supplied advanced weapons to longtime ally Iraq but also indirectly are supplying weapons to Iran.

The United States, by contrast, has reacted with restraint and has not supplied either country with weapons. We have, however, provided Saudi Arabia with additional matériel - which President Reagan believes will enable the Saudis to defend their key oil emplacements from Iranian attack. The Saudis now own or have access to Stinger anti-aircraft missiles, tanker aircraft for in-flight refueling of their F-15's, and additional air-to-air missiles, coupled with our AWACS surveillance planes.

The overriding goal for the Saudis, for the United States, and for our Western Allies, is to contain this conflict by preventing it from escalating to the other Arab nations of the region for, as the key interests of more nations are threatened, the geopolitical, economic, and military stakes grow larger.

It is the responsibility of the Persian Gulf states to play the primary, active role in preventing this conflict from spreading. At the same time, it is critically important for the United States to keep a close watch on the constantly changing flow of events in the volatile Persian Gulf region.

Week-end clinic well received

The Schleicher County Medical Center's Week-end Clinic is in full operation. The clinic is seeing patients at 9:00 a.m. and 6:00 p.m. week-ends and holidays. There are two ways to register for the clinic. Registration can be made in person from 8:30 to 9:00 a.m. and 5:30 to 6:00 p.m. or by phoning the hospital's nursing station at any time.

The fee for the Week-end Clinic is \$25 plus pro-

cedures and medication in contrast to the normal emergency room fee of \$57.50 plus procedures and medication. The clinic has been well received by all who have used it.

Schleicher County Medical Center still offers 24 hour emergency service for acute emergencies. The clinic has been established to provide the same high quality medical service at a lower cost for the less urgent problems.

Goins listed on Honor Roll

Terry Don Goins was recently named to the Vice-President's Honor Roll at the Amarillo Campus of Texas State Technical Institute, according to Mr. Ron DeSpain, Campus President. Membership to the Vice-President's Honor Roll is attained by maintaining a 3.5 grade average.

Terry is majoring in Boot and Shoe Operations

and is the son of Mr. and Mrs. D. E. Goins of Eldorado, Texas.

Towns people attend reception

A large crowd attended the reception honoring Dr. and Mrs. B.R. Respass, Dr. and Mrs. Steve Sessoms, Lee R. (Smokey) Taylor and his friend, Becky Hardin in the lobby of Schleicher County Medical Center Sunday June 10th. More than one hundred people called during the hours from 3:00 - 4:30 p.m.

The reception was sponsored by the hospital board and the hospital auxiliary.

The refreshment table was covered with a cutwork

Fuessel heads new office

Rick Fuessel, independent insurance agent affiliated with Trimble - Batjer - Cobb Insurance of San Angelo, has recently opened his office in the BMB Petroleum Building on Main St. here in Eldorado.

Rick will be handling life and health insurance needs through the Trans American Assurance Company and Banker's Life. Rick invites everyone to come by with their old life insurance policies for a comparison check with Trans American, as they are offering an update on any old policy on whole life insurance at 11.2% interest.

Rick, his wife Jan and two daughters have resided in Eldorado for 12 years. He has had a farming career during this time and will continue to do so along with his insurance business.

The office hours will be 12:00 - 5:00 p.m. Monday through Friday and Rick can be reached at 853-2403 for your health and life insurance needs.

Report phones

"Vandalism can be a serious problem with public coin telephones" says E. O. Cambren, West Texas General Manager. For that reason, General Telephone asks that you contact local police immediately should you see anyone damaging one of these facilities.

cloth over dark green. The centerpiece was of pastel daisies in a crystal bowl. Punch and coffee was served along with a variety of homemade cookies.

When You Buy, Build or Remodel, You Can Save Thousands of Dollars* on Your Electric Bills over the Life of Your Home if it's a WTU-Approved E.S.P. Home

Some homes on the market may seem to be energy efficient, but before you buy, build or remodel, be sure your new home earns the West Texas Utilities "E.S.P. Award"

"E.S.P. Award"

ASK YOUR REALTOR OR BUILDER ABOUT SOME OF THE MOST IMPORTANT ENERGY SAVING FEATURES:

- Ceiling insulation of R-30 and wall insulation of R-16.
- Air conditioning with a Seasonal Energy Efficiency Ratio (SEER) of 8.5 or higher.
- Storm windows or insulated glass.
- Electric heat pump with an SEER of 8.0 or higher.
- Weatherstripping and caulking around all doors and windows.
- Air infiltration control.

*COMPARE BELOW HOW MUCH MONEY AN E.S.P. HOME CAN SAVE YOU OVER A ONE-YEAR PERIOD

An average 1800 square foot home will cost approximately \$835 per year to heat and cool.

An E.S.P. HOME of 1800 square feet will cost approximately \$610 per year to heat and cool, which results in an annual savings on electricity costs of 25 percent or more. (Energy savings may vary according to the type of construction of the home, family size, and individual energy usage habits.)

Call your local WTU office for additional information on buying, building or remodeling to have an E.S.P. HOME. IT CAN SAVE YOU MONEY ON FUTURE ENERGY BILLS!

Installation held

Eastern Star Chapter No. 140 held open installation for the new officers for another year, June 9, 1984 at 7:30 p.m. in the Masonic Hall.

Many pastel colored bees gathered around and in a tree were used as decorations on the back wall of the hall, symbolizing Busy Bees as the idea of how they will be during this year. The new Matron of Honor had presented a miniature gold tree to each of her incoming officers prior to the installation.

Before the ceremony began Mrs. Cy Loeffler of Sonor, presented musical selections. The American flag was presented by Wayne Tyler, the Bible by Lee Ann Lamb and the square and compass by Wayford Tyler.

Mrs. Buster Lamb presided over the opening ceremonies, the call to order, entrance march, opening of the Bible, pledge to the flag and singing of America the Beautiful. Welcome was given by the Worthy Matron, and introduction of installing officers.

Mrs. Mary McGinnes was installing officer, Charlene Edmiston installing Marshall; Alma Corbell, Chaplain; Esther Loeffler, organist and Pat Tyler Secretary Pro Tem.

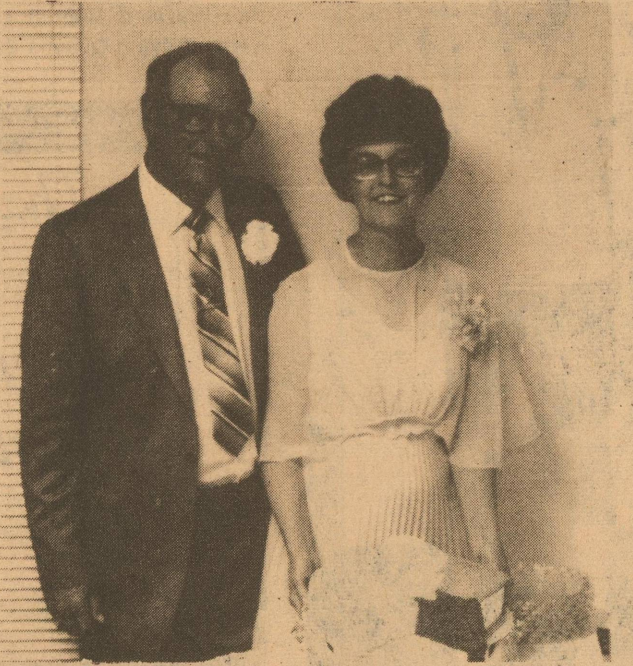

Outgoing officers retired and incoming officers took their places. The officers who were installed were: Worthy Matron - Barbara Nichols; Worthy Patron - Wally Nichols; Associate Matron - Pat Murph; Associate Patron - Ron Murph; Secretary - Jessie Lee Spencer; Treasurer - Charlene Edmiston; Conductress - Mary McGinnes; Associate Conductress - Janet Hunley; Chaplain - Elton McGinnes; Marshall - Martha Godwin; Organist - Virginia Lamb; Adah - Jewel Van Dusen; Ruth - Geneva Wade; Esther - Catherine Niblett; Martha - Marlene Mitchell; Electa - Maxine Locklin; Warder - Blanche West; Sentinel - Jack Elder.

After the officers were installed, Jo Ella Parker, using her guitar as accompaniment, sang "The Cross Made the Difference." After the messages by the Worthy Matron and Worthy Patron, Jo Ella sang "Because He Lives". The closing song, "Take Time to be Holy" was sung by the entire group.

The new Matron of Honor chose pink and white as her colors, the lily as her flower, the Star in the East as her symbol and Dedication and Growth Within Our Chapter as her theme.

All of the officers wore soft pink chiffon gowns with accordian pleated skirts, fitted bodices, a cape over shoulders fast-

ened at the neck. A social hour followed the installation. The table was decorated with a mixed

Help prevent abuse

The state's human resources commissioner has called on Texans to get involved in the prevention of widespread and growing abuse, neglect and exploitation of elderly and disabled persons.

A 24-hour toll-free hotline (112-800-252-5400) has been established to receive reports of abuse to deter these acts and protect the victims, reported Marlin Johnston, commissioner of the Texas Department of Human Resources. "The people of Texas need to be aware that adult abuse exists, but more importantly, they need to be involved in its prevention," Johnston said. Department estimates indicate that more than 10,000 were victims of elder abuse last year.

The 1981 state legislature recognized the problem by making it mandatory for citizens to report suspected abuse, neglect and exploitation of elderly persons. The department

flower arrangement and a star shaped cake which was served with coffee or punch.

was given authority to investigate the reports. The law was amended in 1983 to include disabled adults.

Johnston said the department handles almost 2,000 cases each month, but many other cases go unreported.

"Like child abuse, these acts occur privately and within the confines of the home," Johnston said. "The acts tend not to be isolated incidents. They tend to follow a pattern of increased frequency and severity."

An example of the cases encountered by department workers is the 72-year old woman who was regularly beaten unconscious by her alcoholic son-in-law. Another 85 year old was found living with 15 cats in a dilapidated shack without water or a toilet. And a 93 year old man's family frequently chained him in the bathroom because of his incontinence.

WTU requests higher rates

West Texas Utilities Company has filed for an increase in its electric rates for retail customers.

Local Manager, Leroy Reeves, said the application was filed Friday June 8, a full year since WTU's last rate application, and is a systemwide request for higher rates. Simultaneous filings were made in all incorporated towns and with the Public Utility Commission of Texas at Austin for an increase in rural areas, unincorporated towns and in 21 municipalities which have ceded jurisdiction over electric rates.

The proposal would produce an annual increase in total retail revenue of \$30,845,695. This amounts to 12.4 per cent.

Reeves said the additional revenue is necessary to carry out WTU's current heavy construction program, which includes a new coal-fired power plant at Oklaunion near Vernon.

"By the time these rates become effective, we will have spent \$167 million on the Oklaunion Power station and related projects," Reeves said. "Our last rate increase was not enough to carry us through this construction program, which is essential to continued reliable electric service to our customers."

WTU had requested an increase of \$26.6 million in its filing in June, 1983. A hearing in that case was held at Austin in September, and the final PUC order granting about half the requested amount became effective January 4, 1984.

The Oklaunion plant will be completed in late 1986, almost 10 years after WTU's newest existing generating unit was com-

pleted at Fort Phantom Power Station near Abilene.

Citing a "light at the end of the tunnel," Reeves said WTU's spending should taper off as the construction program nears completion. Also, since coal is much cheaper for generating electricity than natural gas or oil, the fuel cost, which would be more stable after the new plant comes on line.

No major changes in rate structure are included in WTU's proposal. The requested rates would mean that a residential customer using 600 kilo-

watt-hours a month would pay \$7.55 more each month for electricity. A commercial customer using 1,700 KWH would pay \$19.37 more. These amounts include fuel costs.

WTU serves customers in 161 separate communities, 82 of which operate as active incorporated towns. The rate case filings were made in 61 towns, while information on the rate case was made available to the 21 incorporated towns which have ceded jurisdiction, to two inactive municipalities and to two unincorporated towns.

The 21 towns which have ceded jurisdiction and now rely on the PUC to decide their cases are Albany, Chillicothe, Dickens, Eldorado, Goree, Hedey, Lakeview, Matador, McCamey, Mertzon, Moran, Paint Rock, Presidio,

Roaring Springs, Robert Lee, Roby, Rotan, Rule, Shamrock, Trent, and Weinert.

The inactive municipalities are Odell and Sylvester. The unincorporated towns are Fort Davis and Ozona.

Services held for Kent

Funeral services were held Saturday June 9, 1984 for Mrs. Ollie B. Kent, 68, who died Thursday in the Shannon Hospital. The services were held at 2 p.m. at the Westside Church of Christ with Rusty Kwast officiating. Burial was in the Eldorado Cemetery under the direction of Kerbow Funeral Home.

Mrs. Kent was born in Concho County on May 20, 1916. She and Victor Kent were married on December 22, 1939. Mr. Kent preceded her in death in 1975.

Survivors include one daughter, Eileen Hudson of Kermit; two sons, Leonard Kent of Vega and Richard Kent of Eldorado; one brother, George Stoepler of Eden; three sisters, Isabell

Boyer of Eldorado, Rosa Lee Davenport of San Antonio and Fay Hutchinson of San Angelo and nine grandchildren.

Pallbearers were Bill Maness, Frank Williams, Elton McGinnes, Dick McCalmont, Myrl Sudduth and L. E. McCalla.

Community News

By Evelyn Stigler

Several improvements are noticed in the residential area of Eldorado. One on Highway 277 in the 500 block area is the house owned by Jackie Cowart. It is being completely renovated to make the house liveable for someone either to buy or rent.

Barbara and Wally Nichols are building a new home in the Sunset Acres Division on Honeysuckle St.

Barbara and Wally Nichols' son, Wally Jr. and his wife and daughter, Ashley were here Saturday night to attend the open installation of Eastern Star. They presented his mother with a gift after she was installed as Worthy Matron. They reside in San Angelo.

Ruth Hext has been moved back to the Nursing Home in Eldorado. She had been in Baptist Memorial in San Angelo.

Gladys and Arch Mittel have had her sister and husband, Mr. and Mrs. Roy Ingram from Orange, California as guests in their

home for several days. They attended a cousins reunion in San Angelo last week-end.

Sixty-seven years of lending gives us more faith than ever in American agriculture.

CLASSIFIED ADS PAY OFF!

Public Notice

Southwestern Bell Telephone Company has filed a tariff with the Public Utility Commission of Texas to make end user common line charges associated with Centrex CO service equal to those to be billed to Private Branch Exchange service. The Commission has suspended the proposed tariff until October 1, 1984, or before, and assigned the matter to Docket No. 5686.

The equalization of end user common line charges for Centrex CO service is to be accomplished by a reduction in Centrex service charges. The net effect of the Centrex service charge adjustment and an interstate end user common line charge will be an increase in total billing.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

Eldorado students to tour England

Eighteen students and seven sponsors will leave for England June 18th. They will fly from San Angelo to Dallas and on to England.

They will spend all day Wednesday sightseeing and touring London. On Thursday they will visit the city of Oxford and drive to visit Shakespeare's birthplace and Anne Hathaway's cottage. After dinner they will attend the performance of Richard III at the Royal Shakespeare Theatre.

Friday morning they plan to visit the State Apartments or St. George's Chapel at Windsor Castle. On the way they will see Runymede where the sealing of the Magna Carta took place.

Saturday they will take a bus drive to Dover, stop in Canterbury for a visit to the cathedral. They will take a ferry to Calais, France and then continue by bus to Paris for dinner and the evening.

Sunday they will visit the Palace of Versailles, the King's State Apartments and see the lovely gardens. They will return to Paris for a visit to the Louvre Museum.

Monday they will continue on a tour of Paris with a visit to Notre Dame Cathedral and the Les Invalides.

Tuesday they will transfer to the airport for the return flight to the United States.

Those making the trip will be: Luke Brame, Tom Dean, Kelly Griffin, Becky Jones, Kelly Leggett, Mitzi Mittel, Charlotte Mobley, Mark Nikolauk, George Orr, Debbie Sutto, Kim Thackerson, Margaret Turner, Karen Ulrich, Michelle Walker, Missy White, Sonny Dean, Brett Nikolauk and Jennifer Willoughby. Sponsors will be: Randy Mitchell, Marcy Willis, Su Scott, Co-Counselor, Pat Moore, Head Counselor, Mary Ruth Wallis and Teresa Baker.

Butter & Cheese

Commodity Butter and Cheese will be distributed on Wednesday June 20th at the Memorial Building from 2 pm - 5 pm. New income guidelines have been set to determine eligibility for receiving this food. The income guidelines are as follows:

Persons who receive foodstamps, AFDC, SSE, or Medicaid (non-institutional) are automatically eligible to receive donated foods only once a month. To receive the food you must bring some form of identification with you. This might be a drivers license, Food Stamp ID, Medicaid Card, AFDC Eligibility Letter, SSI Award Letter, Social Security Card or other.

If you have any questions about the program please contact the county extension office at 853-2312.

Two graduate

Two Eldorado students at Angelo State University were among 410 students to receive degrees during Spring Commencement at the university.

Bill David Nikolauk received a Bachelor of Business Administration degree with a major in Finance and Lori L. Griffin received a Bachelor of Science degree with a major in Elementary Education.

Deals honored at Field Day

The Texas Angus Association Field Day was held the first week of June at the Carpenter Ranch in Jacksboro, Texas. Part of the activities of the day was the dedication of the Texas Angus Association Directory and Handbook for 1984-85. This year's directory was dedicated to Mr. and Mrs. Otis Deal of Eldorado.

Inside the cover of the book is a picture of the Deals with these words: "The Texas Angus Association Recognizes and Dedicates This 1984-85 Directory to Otis and Ora Deal." Under the picture is a description of these two as: "Agreeable, friendly, good-natured, gracious, hard-working, humorous, kind, light-hearted, obliging, pleasant, sincere, young at heart . . . these are just a few of the adjectives that aptly describe this couple."

Otis is a senior board member and has been on the Texas Angus Association

Board of Directors and has ably represented them at the Stocker Feeder sales in San Angelo for the past 14 years. He bought his first ranch land in Schleicher County in 1938 and has been raising Angus for about 30 years. In 1978 he was recognized at the annual meeting and awarded the first and only Honorary Life Membership ever presented by the Texas Angus Association. He has also been a delegate to the American Angus meeting in Louisville for several years.

Ora is active in the Texas American Angus Auxiliaries, having served in a number of capacities of each one and is a life member. In addition she taught school 20 years, is a life member of the PTA and a member of the Eldorado Woman's Club.

They were married in December 1928 and recently celebrated their 55th wedding anniversary. They

have one daughter, Lou Ann, who is married to Jack Turner. They all live neighbors near Eldorado. There are four grandchildren and two great grandchildren. Otis and Ora take great pride that granddaughter, Amy Turner, belongs to the Texas Junior Angus Association and is active in raising and showing Angus cattle.

The dedication was a complete surprise to the Deals. All of the children, grandchildren and great grandchildren were present for the dedication. They were surprised to see all of them there but did not realize the real reason they came, other than for all of them to be together. Those of the family attending were: Jack and Lou Ann Turner and Amy of Eldorado; Theresa and Bill Parker and Chris of Marshall; Rick and Perri Turner and Ashley of Arlington and Cindy and Reed Stewart of Arlington.

Wipe out the depression in a single day

This is the reason Texas needs a strong candidate like Lyndon Larouche to run on the independent party to serve notice to Ronald Reagan to that he must dump Henry Kissinger if he expects to make a showing in Texas in November.

1. Federalize the Federal Reserve System. Eliminate its ability to create credit out of thin air.
2. Issue \$500 billion in federal lendable currency - gold reserve currency for building up infrastructural lending, building up agri-

culture, building up industry: lent at 2 to 4 % interest, this policy will create five million jobs.

3. Supply export credits to all manufacturers to ship capital goods and heavy engineering efforts into so called developing countries to participate with Japan, West Europe and so forth in major infrastructural projects. Such projects epitomized by major canal transportation and irrigation projects, are key to creating the conditions for rapid gains in agriculture and industrial

productivity.

4. Implement a tax system which penalized speculation in such non productive "industries" as gambling casinos and other film flam "service industries" with high tax rate while giving ample tax credits to investment in high-technology heavy industry projects.

5. Negotiate long-term agreement with developing sector nations, particularly in Ibero-American, to transfer short-term, high-interest loans into long term, low interest govern-

ment bonds thus defusing the danger of an immediate financial blowout, while the means for these countries to pay their debts is put into effect.

These policies are the only policies that will take the world out of this Depression.

Lyndon H. Larouche Jr. needs your signature on Independent Candidate's application for a place pm on the ballot. Please call or write:
