## Eldorado represented at Rodeo

Ten Eldorado young people competed in the Reagan Co. Junior Rodeo held last week-end in Big Lake. They came home with some impressive winnings for their efforts.

In the Sub Junior Division Kevin Jerrals won Junior Bull Riding with a score of 51. Ashley Johnson won 1st in Pole Bending, 2nd in Barrel Racing, 3rd in Goat Tying and was runnerup for Junior Girls All-Around. Clint Griffin won Junior Boy's Tie Down with a time of 10.34 and 4th in Junior breakaway with 4.65 and had a no time in team roping. Brent Moore competed in Breakaway and Team Roping but had a turn of bad luck when he missed his steers. Brant Ward also had bad luck on his Breakaway and Team Roping.

Michael Phillips drew a rough bull and bucked off just before the whistle. Kelly Griffin won the Senior Boys Tie Down Roping with a 11.11 and 3rd in Ribbon Roping with 9.06. Robert Revnolds drew two running calves in the Tie Down and Ribbon Roping and missed on both tries. Craig Griffin won the Senior Boys Ribbon Roping with 6.98 but had a no time in the Tie Down competition.

AT&T Communications has filed with the Public Utility Commission (PUC) of Texas to introduce a new intrastate, optional long distance service to begin August 1, 1984, the same date "Reach Out® America" plan will be available for interstate calls.\*

A new service designed to give customers the opportunity to reduce the cost of long distance in Texas has been filed with the state PUC by AT&T Communications of the Southwest, Inc.

'Reach Out® Texas" is an optional calling plan which will provide additional discounts on long distance rates for Texas customers who frequently place calls in the evening, weekend, and night time calling periods. The new "Reach Out® Texas" plan for the first time extends the benefits

of competition to many Texas consumers who previously have not had any discounted long distance service available to them.

AT&T Communications customers who choose this new optional service will pay a monthly charge of \$14 which entitles them to one hour of intrastate "Direct Dialed" (1 + ) calling during the weekend and night rate period.

An additional customer savings for those participating in the plan will be that any Direct Dialed calls placed during the weekend and night rate period that exceeds the one hour period will be charged at an hourly rate of \$12, or \$ .20 per minute.

Customers selecting this option also receive an additional 15 percent discount for intrastate Direct Dialed calls during the evening discount rate period for a total savings of approximately 38 percent.

A one-time charge of \$6 is billed when a customer orders the "Reach Out® Texas" plan. The \$6 is collected by AT&T Communications and paid to the local telephone company to establish the service. This charge will be waived during the first 90 days that the offering is available.

AT&T Communications is proud to offer this optional service for its Texas long distance customers and will in the future continue to introduce cost cutting programs to help Texans reduce their long distance bills. A complete copy of the "Reach Out" Texas" tariff and rate schedule is on

file with the Texas Public Utility Commission at Austin, Texas. AT&T Communications estimates that the revenue impact of this new ser-

vice would be significantly less than 2.5 percent of annual gross revenues. Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene or participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221, teletypewriter for the deaf.

\*Customer billing for the optional calling plan will be provided for AT&T Communications through billing contracts with the local telephone companies. Therefore, the introduction of these rate plans into a specific area is contingent upon local company billing capabilities. Southwestern Bell Telephone Company has agreed to handle the billing in its service areas effective August 1, 1984.

### **Texas Ranch** Roundup Aug. 17 - 18

The working cowboy and the great cattle ranches are still a part of the Texas landscape and not just American folklore. Tough skilled men continue to ride in the legendary kindoms of cows and horses, unwillint to surrender their place of honor in the Lone Star state to TV's J.R.s or any urban counterpart.

Once again, these descendants of the Wild West will gather to compete in traditional contests in the fourth annual Texas Ranch Roundup, scheduled for August 17-18, at the Wichita County Mounted Patrol Arena in Wichita Falls.

More than 200 real working cowboys, wagon bosses, cooks and immediate ranch family members will working ranch. The roundup will

> plummeted, causing real wages and buying power to fall. Inflation had risen to an annual rate of 13.3%, a level last reached during the Civil War.

> Now, due to the budget and tax reductions which embody the President's Economic Recovery Program, America is truly on the move and on the mend.

> Our government has set the stage for a long, prosperous expansion and - if Washington will just get out of the way and stay out of the way — the American free enterprise system can forge a new prosperity.

> • Our nation's broadest measure of economic activity, the Gross National Product — which represents the total output of goods and services - increased by 7.5% during the second quarter. This means that the six straight quarters of economic expansion which began in 1982, rank as the strongest period of growth since the years immediately following World War II.

> • At the same time, the annual inflation rate has fallen to 3.2%, which means that our economy is growing faster and with less inflation than at any time in the two previous decades.

> • In June, civilian unemployment plunged to 7.1%, falling for the first time below the rate inherited by President Reagan. In our own state of Texas, unemployment stands at '4.8%. And, since November of 1982, some 6.5 million Americans nationwide have found jobs.

> • Finally, per-capita disposable income, the after-tax income available to be spent, has risen almost 8% since the President took office. Generally, economists at both ends of the political spectrum are in agreement that this measurement, which indicates the command of people over their own resources, shows that Americans are much better off than they were four years ago.

> Despite such good news, there remain critical economic problems. While today's 13% prime rate is far better than the 21.5% rate prevailing in 1980, interest rates are still much too high, and are a major obstacle to a continuing economic expansion. In addition, federal budget deficits are unacceptably high reinforcing the urgency of efforts in Congress to reduce federal spending and move toward a balanced budget

> And, quite frankly, much of the blame for high interest rates rests with the liberals in Congress, whose irresponsible spending habits have resulted in the current legacy of horrendous budget deficits.

> Much remains to be done to ensure that we maintain a sustained economic expansion. We must continue to hold down taxes for private citizens and businesses. And we must reduce federal spending and the federal deficit to preserve the foundation for economic prosperity for future generations.

The most recent economic statistics are a clear indication, however, that the budget and tax reductions adopted in 1981 have brought growth, prosperity, and opportunity to so many. These policies and the free enterprise principles they promote must remain in force for they have fostered enhanced economic opportunities for all the citizens of this land.
