The Eldorado Success

November 15, 1990

Eagles End Season With Victory Over Stanton

The Eldorado Eagles finished the 1990 Football Season with an easy 39-0 win over the Stanton Buffaloes. The game was delayed for 30 minutes with 8:39 left in the first quarter when a light pole malfunctioned. When both teams returned to the field the Eagles came back ready to play, as they stopped a Buffalo drive and scored on the ensuing drive.

The first score was a one yard run by Justin Paxton. The drive saw Paxton gain most of the yardage. The extra point attempt was good by Fito Gonzalez. The Eagles wasted very little time for their second score. After an Eagle fumble recovery on defense, Hector Chapa found Ramiro Barajas on a 21 yard touchdown pass to make the score 13-0. The extra point attempt was tried by Clifton Brown running left and then right, but the Stanton defenders

were able to make the tackle and spoil the attempt. The Eagles were able to score on three consecutive possessions as Fito Gonzalez scored from one yard out to make the half-time score 19-0.

"We played well as a team in the first half and the trend followed in the second half," explained head coach Doug Kuhlmann.

During the second half, the Eagles put the game away early with solid defense and two quick scores. After Clifton Brown tackled the Stanton kick returner on Stanton's own 10 yard line, the defense held and Stanton was forced to punt.

Justin Edmiston came from the right side to block the punt and recover it for the score. The extra point attempt was made by Justin Paxton and the score was 26-0.

Stanton returned the

next kick-off to the Eagle 28 but could do nothing with their drive. The snap was low and a host of Eagles tackled the punter before he could kick it. Again the Eagles had good field position. On the second play of the drive, Barry Thoms caught a touchdown pass from Chapa from 4 yards out. The extra point by Fito Gonzalez was good and the score was 33-0.

"At this point, we were able to play a lot of people at different positions. With our underclassmen, we were able to see how well they could play at other positions," replied Kuhlmann.

The last score came on a drive where Justin Edmiston played quarterback and Cy Griffin and Barry Thoms played the running back positions. Justin Edmiston scored on the drive with a 19 yard Quarterback keep. The extra point by Clifton Brown was no good.

Annual "Boy's Hunt" Held

Pictured above are the campers and sponsors from the 1990 Annual "Boy's Hunt."

by Danny Crowder

Friday evening, November 9, 1990 found a group of ten young men from the Masonic Home and School of Texas, accompanied by their counselor Mrs. Adel Cloud, traveling to the recently rejuvenated "City of Yellow Flowers." They were met on their arrival to our fair city by our past longtime Sheriff and Mason Mr. Orval Edmiston, who generously, and with the courtesy of "Shot's", attempted to fill some rather empty stomachs. After eating, it was time to travel on to the hunting camp for a nights rest so that everyone would be ready to be "up and at 'em" early the next morning.

Saturday, at 4:00 in the morning (this is one of the days of the week that I enjoy sleeping late, but not this morning) Ron Murph and myself, being appointed camp cooks by the Master of the Lodge Mr. John T. Mitchell Jr., fell out of bed and started breakfast for the throng of mass confusion. Folks that have never had the opportunity to spend a couple of days in a deer camp might wonder why I used the term "mass confusion."

Take a group of boys, some of whom are from broke homes,

been abused and neglected, orphaned and just plain not wanted by their parents and keep them in line and organized for two days of controlled deer hunting, and you will understand why.

David Patton, Denver Nixon, and Mike Calcote, along with Eldorado Lodge 890 members John T. Mitchell Jr., Tommy Hunley, Floyd West, Bill Clark, Elton McGinnes, Phil Edmiston, Orville Edmiston, Jack Ellen, Billie McCravery, Ron Murph, E.H. Topliffe "Sir", Danny Crowder, and a handful of up and coming camp cooks, hunters, gophers, and just plain fine young men, helped organize and keep the weekend safe and enjoyable for the group.

Denver Nixon, representing the group of New Braunfels, Texas area hunters that have the lease on the Rousellot Ranch, along with David Patton, ranch foreman and assistant Mike Calcote kept everything running smoothly the entire time. The Rousellot Ranch, along with the cooperation of hunters that for the past 6 years have had the hunting rights, and under the watchful and professional guidance of David Patton, controls the hunting by a game management system. Each animal is weighed and measured and determination of sex and age is made with a record of such being kept. Through this system, the quality of game on the Ranch has been kept high. The Ranch, Mr. Patton, and the group of hunters that abide by such game management rules, are to be commended so that future generations might enjoy another hunt.

What a wonderful time! Deer were killed by boys who had never been hunting, shot a rifle or even seen a live animal in the wild. Camp cooks, under the watchful and ridiculing eye of

"Mr. Topliffe, Sir" kept groceries on the table. Grown men gave up their weekend so that less fortunate up-and-coming young men could enjoy "The Deer Hunt." We even had a visit by our local Chief Deputy and Game Warden. (If you think that a hot headed boy can't immediately wake up at 5:00 in the morning, just let him come face-to-face with a Game Warden asking some strange questions as to who shot the turkey he found outside hanging in the tree. I don't think that Mike even understood some of the answers.) There were times when the camp cook, watching and listening to boys and their guides as they returned to camp, had trouble trying to figure out which of the two was receiving the greatest enjoyment from the hunt. Anytime Billy McCravery lays down a full cigar, picks up his gun and takes a boy out to spend an evening in a deer blind, speaks for itself. My hat comes off to you for that, Billy!

Words of appreciation and sincere gratitude can never start to be felt up to the level that Eldorado Masonic Lodge #890 feels for the people who made the hunt possible for the boys this year, but I would like to list them anyway. Denver Nixon and the rest of his hunting buddies, Rousellot Ranch, Mr. Rousellot, David Patton - Ranch Foreman, Mike Calcote - David's right hand man during the hunt, Pat Campbell - representing Super-S Foods for his labors, Jack Elder - for the nice hunting knife, the guys from the West Ranch who cut up and brought the fire wood, and the Jerry Clower of Eldorado - Gary Smith. Thanks for the memories!

Eldorado Lodge 890 AF&AM
Danny Crowder

NOTE: McCravery's cigar was still there where he left it when we broke camp on Sunday.

Schleicher County Eligible For FmHA Emergency Loans

Dear Judge Griffin:

On behalf of Governor William P. Clements, Jr., I am pleased to inform you that I have received notice from the Secretary of Agriculture that your county has been designated eligible to apply for emergency disaster loans from the Farmers Home Administration.

The Secretary has notified the Administrator of the Farmers Home Administration to immediately make emergency loans available to eligible applicants in your county. Your local office of the Farmers Home Administration will have the details on this program.

My congratulations to you in seeking the assistance for the members of your agricultural community. If I can be of further assistance to you please let me know.

Sincerely,
Robert A. Lansford

State Coordinator
Division of
Emergency Management
Texas Department of Public Safety

Effective October 16, 1990, 3 Texas counties were named as natural disaster areas. The counties involved, disasters and incidence periods are as follows:

Drought and excessive heat which occurred January 1 through September 17, 1990 and continuing. The primary counties are: Bea and Caldwell.

In addition to the two counties above, the following seven contiguous counties were also named: Fayette, Goliad, Gonzales, Guadalupe, Hays, Refugio and San Patricio.

Drought sever wind and sand damage, flooding and a freeze between January 1 and September 17, 1990. The primary

county is: Schleicher.

In addition to Schleicher above, the following seven contiguous counties were also named: Concho, Crockett, Irion, Kimble, Menard, Sutton and Tom Green.

Emergency loan applications will be received through June 17, 1991, for physical and production losses. Applications pending on that date may be processed and completed. Applications received under this designation will be processed under FmHA Instruction 1945-D.

This determination is coded S469.

Also for the purpose of establishing security values as set forth in Section 1945.175(c) (2) and (5) of FmHA Instruction 1945-D, the following dates are provided: The Day Before the Governor's Request - September 16, 1990. One Year and One Day Before the Governor's Request - September 16, 1989.

Please take the notification and coordination actions required by Section 1945.21 of FmHA Instruction 1945-D.

Dale Caviness Fund

First National Bank

A Fund for Dale Caviness has been established at the First National Bank of Eldorado. Contributions can be made at the bank or at participating merchants.

This fine family can surely use our help during this time of difficulty. Any support for the Caviness family will be greatly appreciated.

Santa's Coming Soon!

by Rene Calcote

You better watch out! Santa Clause is coming to town! He plans a grand appearance on December 11, at 4:00 p.m. at the Memorial Building. The Chamber of Commerce is planning another big "Super Santa Celebration" with lots of prizes to be given away. Don't miss it!

The Chamber wishes to thank all of the following merchants for helping with the celebration: Glidden Foods, Charlotte's Hair Shop, Perry's, Rene's Beauty Shop, Punkin's Fashions, Shaw's Motel, Carby's Florist, Bertha's Glamorama, Eagle Dairy Mart, Eldorado Pharmacy, Foxworth Galbraith Lumber Company, Eldorado Wool Company, H-G

Automotive, Loves Flowers, M.L. Salon, Halbert L.P.G., Helen's Hair Fashion, McCormick's Service Station, John E. Meador Construction, Pat's Hair Salon, First National Bank, Shot's, Pat's Sew-N-Sew, Southwest Texas Electric Co-op, Star Stop Food Mart, Super S Foods, Thorp's Laundry, Old Main Street Cafe, Tooters Beauty Shop, West Texas Utilities, Meador Land, Casa Arispe, Lynn Meador Company, Dixie Doodle Drive-In, Mittel Insurance, Bradley Photo, The Eldorado Success, T.L.C. Registry, Janet Warnock-Mary Kay Consultant, Meyer Grocery, and Jeff Leggett Aerial Spraying.

Visit these businesses and register for great gifts to be given away on December 11.

Editor's Journal

Life Among The Fishes

by Thomas Giovannitti

Well, there is no denying that the Holiday season is fast approaching. Bowl bids, although not formally announced or accepted, have already been extended. Christmas stores, or stores with their Christmas items all on display are already tempting us to buy now. All of these things along with colder weather begin to remind us of

the Holidays.

It does seem to me, though, that we have too many of our Holidays packed into the fall and so few through the long winter and early spring. We just had Veterans day, and in two weeks it will be Thanksgiving and three weeks after that Christmas, and a week after that New Years. I suppose there isn't too much we can do about Christmas and

new Years without some major overhaul of the calendar, but a few of the others might be more easily moved.

Thanksgiving might fit nicely in the dead of winter. All the major cooking that goes on would make the heat from the kitchen do double duty. All those pies, turkeys, breads, and other goodies would be baked and the house could be heated too. Considering how glum those long

winter months can be with no real holiday break until Easter, moving Thanksgiving might be just the right answer.

I realize that a lot of colleges won't want to suit up the football team, but we could just watch hours of basketball. Most of us do it in front of our televisions anyway, so it shouldn't matter which sporting event is on just so long as it keeps me from having to do the dishes, oops!

Letters To The Editor

Dear Gary,

Thank you for your participation and hard work in the barbecue honoring General Moorman.

General Moorman was very impressed with the warm relationship between the citizens of Eldorado, and the members of Eldorado Air Force Station. It was a visit he will not soon forget.

I have included an open letter to the people of Eldorado, and a news release with some highlights of the events of the day that occurred at Eldorado Air Force Station. I believe your readers may find them informative, and his reflections

give some idea where Space Command is heading. Could you please print them in your newspaper?

Again, my sincere appreciation for all your support.
Harry G. Kingsbery,
Lt Col, USAF
Commander

To our Friends in Eldorado,

As members of the military, we are seldom stationed near our families, or stay in one place long enough to establish community roots. As such, we are often surprised when we are readily welcomed into communities nearby military installations. It is apparent that

we have found that unique friendship with our neighbors, the people of Eldorado.

We would like to take this opportunity to thank each and every one of you for the hospitality, creativity, and support received during the "Three Stars over Eldorado" barbecue honoring the Commander of Air Force Space Command, Lt. Gen. Thomas Moorman, Jr. The hard work placed into this project is evident, and manifest in the numerous positive comments I received from General Moorman, Colonel Maxwell, Colonel Brewer, and the men and women of Eldorado Air Force Station.

On our return trip to

Mathis Field, General Moorman remarked that he was quite pleased with the quality and substance of the questions he fielded relating to our space mission and our commitments towards defense of the United States. Public opinion weighs heavily on the minds of all military leaders while seeking to define our future policies. Knowing your interest in our business of missile warning and space surveillance makes our jobs much easier and well defined.

Thank You, Eldorado!
Harry G. Kingsbery
Lt Col, USAF
Commander

TEXAS AGRICULTURAL EXTENSION SERVICE

County Agents Report

by Jerry Swift, County Extension Agent - Schleicher County

Techniques and the benefits of horticulture as therapy will be demonstrated at a workshop November 17 at the Texas A& University Agricultural Research Extension Center north of the airport in Lubbock.

The training will be conducted by Dr. Diane Relf, visiting consumer horticulture specialist with the Texas Agricultural Extension Service. A founder and past president of the American Horticultural Therapy Association, she is an extension horticulturist on the faculty of Virginia Polytechnic Institute and State University, Blacksburg, Va.

The workshop, sponsored by the West Texas Arts and Botanical Association and the Extension Service, will begin at 9:30 a.m. and end at 4 p.m. Registration is \$25 for the full day; \$10 for the morning session, and \$20 for the afternoon session only.

"As a result of repeated successes of practitioners, horticulture is being widely

accepted as an effective therapeutic tool," Relf says. Gardening is one of the oldest healing arts, yet horticulture therapy is relatively new as a recognized profession, according to Relf, one of the nation's leading scholars in the field.

WILLIAM F. "BILL" LEIFESTE
William F. "Bill" Leifeste, 57, of Eldorado, died November 8, 1990, at St. John's Hospital in San Angelo.

Services were held at 2 p.m. on Sunday, November 11 at Day-Loveless Funeral Home chapel with burial following in Loveless Cemetery.

he was born February 18, 1933, in Pontotoc, Texas, the son of Elgin William Leifeste and Hester Pape Leifeste and grew up in Mason, Texas. He graduated from Sul Ross State University in 1954 with a bachelor of science degree in biology and completed his master's degree in range science at New Mexico State University in Las Cruces, N.M., in 1971.

After four years with the Soil Conservation Service in Fort Stockton, he accepted a position in Price, Utah, with the Bureau of Land Management and served as a federal employee until his retirement in 1982.

He returned to Texas in 1982 and was a rancher in Schleicher County until his death.

During his employment, he served as range conservationist in Price, Utah, chief division of operations in Roswell, N.M., watershed specialist in Santa Fe, N.M., and Denver, Colo., and as assistant professor in the department of natural resources at Lincoln University in Jefferson City, Mo.

From March 1984 until December 1985, he was field manager of the Schlabathebe Range Management Project (USAID) in Lesotho in Southern Africa.

Throughout his lifetime, he was a role model for his own

Life for many handicapped persons is greatly enriched by caring for their gardens and indoor plants, appreciating their beauty and productivity, she noted.

The morning session will feature basics of horticulture therapy. It will emphasize how it works, who uses it, the dynamic interaction of people with plants, and organizing resources. Student scholarships are available for this session.

The afternoon session will provide hands-on activities,

demonstrate methods and techniques, explain adaptation of projects to specific handicaps, produce a project and provide materials and a handbook. This session will be limited to the first 40 who register.

To register for the day or individual sessions, send a check, payable to the West Texas Arts and Botanical Association, to Dr. R.E. Roberts, TAMU Research and Extension Center, Route 3, Box 213AA, Lubbock, 79401. For additional information, telephone Roberts at (806) 746-6101.

Our Sympathy

children and for all young people he met. He not only encouraged them to be all they could be, but also helped provide the means to help to make it possible.

Survivors include his wife, Glenda Leifeste of Eldorado; one son, Paul Leifeste and wife, Kay of San Angelo; one daughter Raelyn Leifeste and husband, Johann Hoizer, of Austin; one grandson, Bryan Leifeste; three granddaughters, Kathryn Leifeste, Nora Holzer and Lucinda Holzer; one brother, Howard Leifeste and wife, Dorothy of San Angelo; two sisters, Dorothy Bierman and husband, Sidney of Richland, Wash., and June Becker and husband, Bill, of Bellevue, Wash.

Pallbearers were nephews, Bruce Beall of Snyder, Brent Beall and Bill Leifeste, both of San Angelo, David Loveless of Holloman Air Force Base, N.M., Steve Moody of Lincoln, Neb., and Will Allan Loveless of Eden.

Honorary pallbearers are nephews, Larry Patton of Houston and John McMinn of Winters; special friends, Tim and Jeff Hutcherson and Joe Mendoza of Eldorado; and all of Bill's friends and colleagues.

Memorials may be made to the Schleicher County Emergency Medical Service, Eldorado, Texas 76936, or the Eldorado Excellence Fund, P.O. Box W, Eldorado, Texas 76936.

An Apple A Day

by Lee R. (Smokey) Taylor, R.Ph.

Sneeze Avoidance: There are several common-sense steps that those who suffer from allergies can take to make their lives easier.

Pollens are most prevalent from 5 a.m. to 10 a.m., so it's best to stay indoors at these times.

Air conditioning in the house and car is helpful, but filters must be kept clean.

Alcohol can cause blood vessels in the nose to swell, which can increase congestion.

Smoking or being around smokers will aggravate allergy symptoms.

Laugh and Live

by Gary Smith

"Why do so many average people think that they are above-average?" -Smith

There is something that I've wanted to say for a long time. Unfortunately, I haven't known how to say it. Friends Joe Max and Marty Edmiston brought this poem to my attention. I don't know who wrote it...I wish it had been me.

Please don't curse the boy down there.
He is my son you see.
He's only just a boy you know.
He means a lot to me.
I did not raise my son, dear fan,
For you to call him names.
He may not be a super-star.
It's just a high school game.

So please don't curse those boys down there.
They do the best they can.
They never tried to lose a game.
They're boys and you're a man.

The game belongs to them you see.
You are just a guest.
They do not need a fan like you.
They need the very best.
If you have nothing nice to say,
Please leave the boys alone.
And if you have no manners,
Why don't you stay at home.

So please don't curse those boys down there.
Each one's his parent's son.
Win or lose or tie, you see.
To us they're "NUMBER ONE."

'Till The Next Time...

MAY GOD BLESS!

AFSPACECOM Commander Visits EAFS

Lt. Gen. Thomas S. Moorman, Jr., Commander of Air Force Space Command visited Eldorado Air Force Station on October 31st. General Moorman and his team arrived by US Custom's Blackhawk helicopter and began an inspection of the unit as part of the Command Facilities Excellence Program.

Included in his visit was a tour of the site, dedication of

the installation's new armory, and a special Commander's Call with a question and answer period.

During Commander's Call, medals were presented to four of the 8th Missile Warning Squadron's members. The Meritorious Service Medal was presented to SMSgt. Roger Hagenbuch, Air Force Commendation Medals to TSgt. Bruce Saunders and Sgt. Pamela Finch and the USAF

Achievement Award to Capt. Joseph Knieriemen.

The AFSPACECOM Certificate of Information Management Excellence presented to SSgt. Larry Singleton for his outstanding efforts as one of the command's top IMs.

Following the awards ceremony, General Moorman gave the unit his views of the 8th's mission towards the United States following the USSR's recent Perestroika policy. Everyone in the United States hopes that the changes we see in the USSR bears fruit and the Cold War is over. However, as far as a letdown in our strategic defenses, the military must be the last to let their guard down based on these hopes. Much is published and reported today on the relaxing of tensions, but the Soviet military forces continue to modernize.

By the end of the decade, the Soviets will have completed deployment of new Intercontinental Ballistic Missiles, and continue to upgrade their Sea Launched Ballistic Missile forces and their aircraft. They have not decreased their amount of reentry vehicles and have increased the accuracy of their missile systems.

While the words to the American press suggest (that the Cold War) is over, this is not echoed by the actions of the Soviet military.", General Moorman advised.

General Moorman has embarked on a program to increase the amount of intelligence information that is provided to the field units such as the 8th MWS. "I have asked (HQ AFSPACECOM/IN) to put together a briefing on strategic-tasks intelligence and convey this briefing to all missile warning units. This briefing on the State of Strategic balance

should be provided to your unit sometime during the first of the year."

He also addressed the issue of where Space Command is going and it's prospects for the future. "In this time of severe military budget cuts, only two areas continue to grow, space and special operations. One of the best tests of the state of health of a command is its budget. In this area, Space Command has fared well. The current vision of the Secretary of defense and the Chief of staff is that the future of the Air Force is inextricably tied to space.

Space Command has doubled it the last four months. This is due to the transfer of launch control from Systems Command's research and development policy to the operations oriented aspects of our command, and the HQ USAF decision to assign some of Air Force Communications Command's manpower to their supported major command units.

The command has shown a 138% growth in six months. These indicators of growth, vitality, priority, and interest show a concentrated interest in the future of space and Air Force Space Command by the Department of Defense.

The growing realization of the importance of space was recently highlighted in the operations of Just Cause and Desert Shield. While the first F-15's took many hours to arrive at

their destination, the space orbital constellations were already in place, performing such missions as intelligence gathering and weather photos.

Secretary Rice's strategy views the Air Force as uniquely situated to project power to any area of the world. Our growth vitality shows only a positive outlook for the future."

On the shuttle program: "The US policy of the '70s and '80s was sole access to space via the shuttle program. During this period, our Titan, Atlas, and Delta programs came to a standstill. The Challenger tragedy changed this forever.

Presently, only two or three types of DoD payloads will now fly on the shuttle. The safety aspects and modifications to the shuttle has decreased its payload capabilities to the point that now it is not capable of carrying some of the military payloads it originally could handle.

These points have increased the importance of and have renewed the interest and

use in the single unmanned booster programs."

On AFSPACECOM's current challenges - "Out of 52 space command units, about half of these are overseas. A large percentage of these units are in remote or isolated areas. We need to keep a continued emphasis on facilities excellence. Facilities excellence is a barometer of the morale of the unit. A strong correlation exists between the look of a facility and the way the mission is accomplished."

On Eldorado Air Force Station - "My first impression is I view Eldorado AFS is a strong sense of pride. Pride by the military, Department of Defense civilians, and the contractor personnel assigned here. You have established a unique team atmosphere and your results are clear. You have shown me that you are committed to the mission. I intend to use the standards you have set here to compare against other units in the command."

Food Sale

The Methodist Women will have a Food Sale on Tuesday, November 20th in the Education Building. There will be Breads, Desserts, and Casseroles. special orders will be taken,

Texas Outdoors

with Jimmy Fontenot

"Whitetail Hotspots"

With the hunting season in full gear, hunters from around the country filter into the woods to try and harvest one of mother nature's most challenging game animals: the whitetailed deer.

The most outstanding quality the deer has procured is one of adaptability. Where deer were once absent they flourish in larger numbers today. Deer were rare sightings in Texas at the turn of the century, but today the deer are as much a part of our lives as baseball and apple pie. Eventhough these beautiful animals are found throughout the continent, there are specific states which produce the most deer and others which consistently produce the trophy deer.

In this article, I have offered a look at the states and provinces that will make any hunter get buck fever.

TEXAS -- It is only fitting I should begin with our very own home state. Texas is

considered by many outdoor writers as the best place for any hunter to harvest a deer. With an estimated population of over five million animals, someone is bound to run into one somewhere.

Your best chance to harvest a deer would be in the "Hill Country", Edwards Plateau. With some of the highest deer densities found anywhere in the world, your chances for success is great. Body weights and antler quality do not normally qualify for any record books.

Texas does qualify as one of the top spots in the U.S. for producing Boone & Crockett heads. Boone & Crockett is a record system for those deer all over the world which met certain measurement requirements. Your best chance for a record book head in our state would be South Texas, Shackelford County, and surprisingly, some East Texas counties are beginning to produce quality deer.

GEORGIA -- With a

daily bag limit of one buck per day, I bet many of you would love to move to Georgia. This state has been producing quality deer for many years and record book heads are becoming more frequent.

ALABAMA -- Long seasons and liberal bag limits (same as Georgia). Whitetails flourish in both states and offer hunters the highest chance to harvest a deer outside the Lone Star state. Trophy heads are practically nonexistent, but if your primary interest is venison then Alabama is the state for you.

MINNESOTA & WISCONSIN -- These states have dominated the world of trophy whitetailed deer. The Wisconsin state record typically happens to be the world record, while Minnesota produces plenty of heads in the top 25%. For the best chance of harvesting a record book head in North America, do not overlook these two states.

ALBERTA, CANADA -

Hunter success in the Canadian Provinces is low, but when you encounter a buck, he will probably be that one in a million monster. These areas are blessed with numerous agricultural fields and hold heavy weight whitetails. Field dressed weights of 200-400 pounds are not uncommon. If your primary interest is trophy deer and you have a good bank account, head north my friend, but do not forget the long underwear.

MEXICO -- (South of the Border) Now I know when most of you think of Mexico, deer never enters your mind, but for many serious trophy hunters this is considered the new land of opportunity. The states of Coahuila, Tamaulipas, and Nuevo Leon produce the most quality bucks. Ranchers are realizing the economic potential of this valuable natural resource.

I have had the opportunity to hunt the untamed brush country of old Mexico. The Mexican brush country is unsurpassed in beauty. No

telephone poles or litter distract from the never ending miles of impenetrable brush.

Many quality heads come from this region when weather conditions are right for adequate food production. If you consider hunting Mexico, hunt with a reputable guide or the owner of a particular ranch. Visions of 25 inch spreads and drop tines cross through my mind when I here the words "Muy Grande Venado".

I have covered a few areas which are most commonly talked about among serious whitetail hunters. I must also clear up some misconceptions people have of trophy hunters. In a recent pole, the animal rights group agreed that they disapprove of the quote "Trophy Hunter" most of all.

I am willing to step out and admit I am a trophy hunter, but let me explain my philosophy. We do not pride ourselves on the masses of deer we can shoot! (filling you tag)

nor do we shoot animals just for the fun of shooting. Trophy hunters spend time looking for possibly the oldest, most mature animal in the field. These particular animals are in their prime and have passed on their superior genes for years. It is an accomplishment to outwit nature's most adaptable animal.

People believe trophy hunters I know are proud of their animals taken, but they also enjoy the processed game. Many trophy hunters leave the field each year empty handed simply because that one certain deer never showed. We pay the same license fee as all other hunters, but we may go years without ever firing a shot.

Next time the words "Trophy Hunter" are spoken, do not curl your lip in anger because these people may be some of the best conservationists in the country.

Until next month, enjoy your time spent outdoors!

Schleicher County Medical Center Participates In The McMurphy Nursing Project

Schleicher County Medical Center joins other hospitals, nursing organizations, nursing homes and educators across the nation in promoting nursing as a career. The vehicle is The McMurphy Nursing Project, a nationwide effort to recruit young people into nursing, an exciting, challenging career.

An educational video has been distributed to public high schools across the United States as well as to certified registered nursing schools and Texas hospitals. The video features seven nurses, the Emmy-award-winning actress Dana Delany and clips from the critically acclaimed Warner Bros. television program

for ABC, China Beach.

"We hope this project will inform young people about the variety of career paths available to nursing professionals," said Steve Goode, Administrator. "We are encouraging our local schools to show the videotape, and to use the teacher's guide and student workbook to provide interested students with information about the types of high school courses needed to pursue a nursing of health career."

"Our hospital currently has seven percent vacancy rate for registered nurses," said Goode. "The job outlook for nurses is excellent. Our hospital offers tuition assistance for RN

students as well as LVN students and CNA students."

"Nursing is an attractive profession for those seeking career changes, or for those wishing to reenter the job market," said Goode.

A consortium of state hospital associations, national and state nursing groups, nursing educators, the nursing home industry and hospital systems worked together to fund and produce the project.

WORKING CLEARANCE

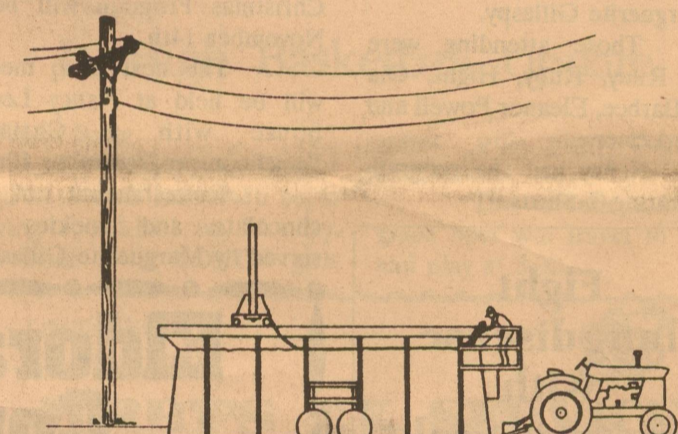

Maintaining the proper clearance from a high-voltage electric line is not just a good safety practice, it's the law. In Texas, any contractor, corporation or individual not affiliated with the utility must follow these guidelines:

- No person will perform any activity within six feet of overhead lines.
- No person will operate or use any tool, equipment, machinery or material where it is possible that these devices will come within six feet of overhead lines.
- No person will operate any equipment, such as derricks, cranes, power shovels, hayloaders, pile drivers, hoisting equipment or similar devices, within ten feet of overhead lines.

When work must be performed within these clearances, the organization or individual responsible must contact the utility and make arrangements to ensure safe clearances.

Violations of these provisions of the law can result in fines, confinement in jail or liability to the utility for damages and all liability incurred.

SCISD Board Of Trustees Meet

The regular meeting of the Board of Trustees of Schleicher County Independent School District was held on November 12, 1990, at 6:00 p.m. in the Administration Building.

Su Scott, Linda Thomas, and Teresa Baker expressed concern about the teacher appraisal system.

Ken Newman, high school principal, gave the Board a summary of recent happenings at the high school campus; among those events mentioned were San Angelo Central High School's College Night attend by 2 juniors and 14 seniors, the PACT and PSAT tests given during October, the

Gifted/Talented class attending the play *Noah and the Great Ark*, student teachers from Angelo State University training under several high school faculty members, VIPS Jimmy Heath and Anthinette Mankin working with high school students, the art classes' participation in the National Historical Pictorial Map Contest, the Cross Country

team's fifth place finish at State, and Forest Meador being a National FFA finalist in Soil/Water Conservation proficiency.

Mr. Newman also informed the Board about some upcoming events in which local students will participate. Among the many items discussed were the Student Career Conference

to be held on December 5th in the San Angelo Convention Center, All-District Band Tryouts and Concert on November 17th hosted by EHS Band, the possibility of offering world geography in the spring semester, work in progress on a weighted grading system, and the entry of a team coached by Teresa Emricko in the Academic Decathlon.

In other information items, the Board was given specifics concerning the National School Boards Association meeting to be held in San Francisco next spring, and it was reported that tax receipts as of November 1, 1990, were \$1,350,134.80.

In action items, the Board approved the financial report and budget amendments as presented for the month of October, and approved, with the right to accept or reject any and all bids, the sale of property

currently owned by the taxing entities and located at Lot 3 & 4, Blk 2, Hill Addition. Approval was also given to request TEA approval of English honor courses.

Board Members also approved various required plans and reports to be submitted to TEA, including the Chapter I Improvement Plan, the Records Management Plan, and the Annual Performance Report for the 1989-90 school year. Copies of this report will be placed in the high school and middle school library and will be made available to the local news media.

Final action included approval of personnel for career ladder placement or maintenance, approval of the 1989-90 audit report, and approval of a textbook selection committee for books to be adopted during the 1990-91 school year.

The meeting was adjourned at 9:15 p.m.

Pictured above are Joella Parker, Elementary Music Teacher; Angela Ballew, announcer; Veronica Sanchez, Miss Liberty; Brandon Leggett, Uncle Sam; Misty Harris, announcer and Ginger Reynolds, sound manager after their performance of 'A Salute To Freedom.'

Local TSTA Involved With Reading

by Teresa Baker

Lessa Albin, Teresa Baker, Ellie Estrada, Micky McGregor and Linda Thomas participated with other area T.S.T.A. members this past Saturday, November 10 at the Sunset Mall in the program, Book Time For Kids, sponsored by TSTA/NEA and Walden Books.

program was to encourage parents to spend time reading to and with their children. The benefits of reading to your children are enormous and intellectual stimulation at an early age can greatly enhance children's abilities to succeed in school.

With parent and teacher involvement, we can improve abilities and attitudes toward reading.

Jr. High Basketball Update

by Teresa Baker

The Eldorado Junior High Basketball teams will begin playing round-ball on Monday, November 19 at 5:00. The girls

teams will play Ozona in Eldorado. The seventh and eighth grade boys will travel to Ozona and play at 5:00.

Unofficial City Council Minutes

A Regular Meeting of the Eldorado City Council was held Tuesday, November 6, 1990, at 7:30 p.m. at the City Hall with all Councilmembers in attendance, with the exception of Debbie Ballew and John Callison. Meeting was called to order by Mayor Preston. No citizens were present.

WILLIAM EDMISTON, EL DORADO ANIMAL CLINIC

At the Council's request, Dr. Edmiston met with them to justify charges from September for the lodging for 7 nursing puppies whose mother was being held for rabies observation. Following discussion, it was the unanimous opinion of the Council that the charges were acceptable. Dr. Edmiston also discussed the methods of euthanasia used since establishment of the Animal Shelter in July, 1987, and the problem with using tranquilizer guns.

FRANK PERKINS:

Mr. Perkins again requested the Council's consideration to reimbursement for 460' of line installed in February, 1975, under the previous sewer extension policy. According to records and based upon the City's attorney's opinion, only three tap fees have been paid since installation of the line. Motion was made by Barbara Jackson and seconded by John Nikolauk that the \$325 in tap fees be paid to Mr. Perkins in an effort to satisfy the 1975 agreement, and any additional tap fees accepted for connection to the line up to a total reimbursement of \$1183.42 (1/2 of expenses) be paid to Mr. Perkins. Motion carried. A payable will be established in the Utility Fund General Ledger for the 4858.42 balance. The Secretary was instructed to obtain a written acceptance from Mr. Perkins.

OCTOBER MINUTES, TAX REPORT, FINANCIAL REPORT, & BILLINGS:

Minutes of the October 9 and 23 meetings were reviewed and motion

was made by John Nikolauk and seconded by Dora Bosmans that they be approved. Motion carried.

The October Tax Reports were circulated for initialing, and the October Year-To-Date Financial Reports were distributed to the Councilmembers. The October bills were circulated for review, with motion made by Barbara Jackson and seconded by Dora Bosmans that they be approved. Motion carried.

TRUCK BYPASS:

Due to Mr. Callison's absence, an update was not available.

PARKER & PARSLEY:

The Secretary reported that the City's letter to the Railroad Commission had received public response, including a newscast by K1ST on the situation. Letters have been sent to Representatives Robert Junell and Harvey Hilderbran and Senator Bill Sims. She stated that an amended application has since been filed by Parker & Parsley increasing the amount of estimated recoverable oil from the project; however, the Railroad Commission has not notified the City of a hearing date. It was suggested that she prepare letters to the Texas Water Commission and the Texas Department of Health due to the project jeopardizing the City's facilities regulated by those agencies.

NIGHTWATCH-CITY MARSHAL-MUNICIPAL COURT:

Due to the Council's request from the previous meeting the Secretary reported that she had written 25 small communities in Texas and was awaiting on their responses to questions regarding their procedures for enforcement of ordinances. Inter-local Agreements, related expenses, problems, etc. Their responses will be given at the next meeting. She had contacted Austin regarding procedures necessary to establish a local police force should the

Council pursue that action at some future date.

WORKMENS COMP/SUPPLEMENTAL HEALTH UPDATE:

It was reported that Fidelity Security had requested the January 1991 premium prior to processing the City's application. After brief discussion, in which it was agreed that this payment would be based on the original proposal without the part-time employee at the landfill, motion was made by Barbara Jackson that forwarding of the payment be approved. Motion was seconded by Dora Bosmans. Motion carried.

It was reported that TML had received the City's 60-day notice to terminate Workmens' Compensation coverage effective 1/1/91 and that the Risk Pool attorney had visited with the City's attorney about legalities.

SUPERINTENDENTS REPORT:

Jack Dean reported that the new landfill pit was completed with the old pit having approximately one more month of use.

He reported that the 1987 TCDP project was nearing completion with a final inspection expected shortly.

Test results from the Wastewater Plant are nearing compliance (94 TSS and 34 BOD, 7.9 pH) and that the plant seems to be stabilizing although it is continuing to again fluid, according to Mr. Dean. He is operating the irrigation pump each week to drop the level. He reported that Carolyn Herbert with A&M had stopped by and had been brought up to date on the plant. He also reported that Seven Santelano was in Lubbock to pick up an additional 20 hrs. credit toward upgrading to a "C" Wastewater Certification.

John Nikolauk reported that he and Jack Dean had withdrawn their registration to the Solid Waste Options

Seminar in Austin due to the EPA regulations not yet being established. Nikolauk further reported on possible grant application for purchase of landfill equipment and landfill site. It was suggested that the Council begin process now to locate property for a future landfill site due to the 2-3 year period required to receive a site permit. The Secretary was instructed to follow-up on the possibility of the grant application as soon as the EPA regulations are published.

No further word has been received on the Irrigation Permit due to need to satisfy application requirements due to lease/purchase of land for irrigation.

The GTE contractors installing underground conduit were reported as performing in a cautious manner with little damages reported; however, such damages repaired by the City crew will be billed out to the contractor.

DRIVER LICENSE RENEWAL:

The new requirements for renewal of "B" and "A" Commercial Drivers' licenses were discussed. These must be met by April, 1992. Both the Secretary and Jack Dean reported they had visited with David McIntyre of the DPS Licensing Division and that it was stressed that all employees must study and pass the written examination and possibly the driving test. Mrs. Mayo had contacted Glen Nix who is to hold a school for the ISD and County employees between Thanksgiving and December 12 when the test is to be given to the ISD and County employees. The City employees have been informed of the school and encouraged to attend. After discussion with regard to the City's requirement for employment that drivers have a Commercial License, motion was made by John Nikolauk and seconded by Barbara Jackson that all employees be given until the April, 1992, deadline to

obtain their updated Commercial Licenses. Motion carried. Mr. Dean reported that the City needed access to acceptable equipment for the employees' driving tests.

BOY SCOUTS:

Mayor Preston passed along request from the Boy Scouts that the City consider placing their Scout Hut (the old Episcopal Church location) on flat rates. Following discussion, motion was made by Barbara Jackson and seconded by Dora Bosmans that the Scouts be allowed the flat rate up to the established ceiling. Motion carried.

1989 URGENT NEED CONTRACTS:

The TDOC State contract has not been received; therefore, any action on the grant is to be delayed. In the meantime, the Secretary reported the availability of proposed contracts from Gary R. Traylor & Associates for administration and David Todd Engineering for engineering services on the wastewater plant repairs grant. After discussion, motion was made by Barbara Jackson and seconded by Dora Bosmans that the Mayor be authorized to execute Waiver of Procurement for Administrative Services and the Environmental Assessment with the Council seeking

engineering services in the normal manner. Motion carried.

1989 GRANT:

Dora Bosmans reported that she had been made aware of opposition to the location of the water tower at the proposed location near Christian Addition. She was asked to invite those persons voicing opposition to the proposed site to meet with the Council at the next meeting so the Council could review the process and benefits of the project.

EMPLOYEE BENEFITS/SALARY REVIEW:

The Secretary brought the Council up-to-date on the insurance rate increase effective 11/1/90 and its effect on those employees paying their families' coverage. The possibility of granting the budgeted 3% increase to all employees was discussed, with further action tabled until the full council could discuss it at the next meeting.

With no further business, meeting was adjourned at 10:30 p.m.

Carolyn Mayo
City Secretary

PUBLIC NOTICE
On July 19, 1990, GTE Southwest Incorporated ("GTE-SW") filed revisions to the company's tariff pertaining to the features and associated equipment for providing emergency number services (9-1-1).
In this filing, GTE-SW proposes to modify its existing 9-1-1 tariff and to add more than 200 new service offerings. The new items of service and equipment in this application have been added to meet the company's increasing 9-1-1 customer demands and to allow GTE-SW to compete more effectively in the 9-1-1 equipment market.
The product line in the new offerings consists of a mini-computer and specialized console package for larger communities, as well as a personal computer with Automatic Number Identification (ANI) display for smaller communities. (ANI displays a caller's telephone number on the emergency dispatcher's computer screen.) In addition, the product line will include ANI and Automatic Location Information (ALI) display units compatible with, and similar to, those offered by Southwestern Bell Telephone Company and other local exchange carriers in Texas. (The ALI feature displays a caller's address on the computer screen.) The rate charged existing 9-1-1 customers may be revised at the expiration of their contracts with GTE-SW if the proposed tariff is approved.
This filing has been assigned Docket No 9667. The hearing on the merits is scheduled for February 25, 1991, at the offices of the Public Utility Commission of Texas. The deadline to intervene in this docket is December 31, 1990.
Persons who wish to intervene or otherwise participate in these proceedings should notify the commission as soon as possible. A request to intervene, participate, or for further information, should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas, 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221, teletypewriter for the deaf.
