# But Car Fatalities Authorities (By The Associated Press) The toll of America's holiday deaths—at least 513 died violently celebrating the 162nd anniversary of Independence—showed today the nation has practically eliminated fireworks fatalities but has falled to quell the menace of the motor car. Only three persons were killed by fireworks—all of the "homemade" variety. Motor crashes on packed highways, however, claimed at least 256 lives. The rush for beaches and lake and river resorts to escape immoderate heat in some sections resulted in 139 drownings. If you're a New York fan and a belisver in baseball tradition, you can look forward with some confidence today to a repetition of the "Subway" world series of the last two years. If you're a Cleveland or Pittsburgh follower, you have just about as much ground for hoping to see your team on top.

The old rule, honored as much in the breach as in the observance, is that the team on top after July 4 is the one that will win the pennant. But it doesn't account for a tie, nor does it allow for a team that's going as if it couldn't be stopped.

The Indians were saved or the Yankses were "robbed"—according to how you look at it—when New York and Washington wound up in a 44 tie after 13 innings of their second game yesterday. The Yanks had won the first, 10-5, for their injuth straight victory. Cleveland, running into the Detroit Tigers who were smarting from three losses at St. Louis, took a double setback, 7-3 and 5-2. The net result was to leave the Yanks and the Indians tied for the lead, each with 41 victories and 25 losses.

LONDON, July 6 UP - Great Britain sent special messengers to spanish government and insurgent capitals today with the European monintervention committee's \$13,750,000 plan for evacuating foreign volunteers from war-scarred Spain. Its details are to be published here Friday.

London officials worked on preliminary details of the appointment of two neutral commissions to be sent to Spain to count the outsiders flighting for both factions so the plan could be operative immediately upon approval by insurgent and on the apport coast.

Under the plan adopted yesterday by the full nonlatervantion committee, volunteers in the civil war would be taken to four Spanish ports, theore sent home by fast as possible.

NEW YORK—One of the saddest commentaries on New York life is the dearth of playground facilities the dearth of playground facilities for little children. I know the official guides list an imposing number of pures and recreations controlled through the streets to see how impossible conditions really are.

I have in mind those warrens or streets of Tenth avenue where thousands of children are huddled like rabbits with nothing but the baked cement on which to play.

Sometimes the cops come by and close off a street so that the hazards of traffic will be reduced, and then for three blocks the street.

But as we from Hollywood understand it, all is peace and quet in New York.

Meel Minus Mobs

If Robert Taylor walked into a restaurant in Hollywood, he would have at iesust a mild attack of writer's cramp before he reached his table. He would be slightly disarranged as to clothing, probably a bit flushed in the face, and a myriad of gengiling eyes would follow with scientific interest each round - trip of his fork between plate and face.

Is New York the other day Taylor walked into Toots Schorr's Tayren with a small party of friends, sat down even as you and I, and flushed the business of lunch quite undisturbed.

At the 2 club Hiram Sherman (comic hit of "The Shemmaker's Hollday" and Orson Welles (a real boy wonder to make Hollywood green-eyed) sat an hour or two the other day without once beins ogled.

At first this kind alcofness seems to indicate that New Yorkers are merely blase. But after a while you get the idea: New York be lieven in laisses-faire.
