

## On The Divide

An old-time register rests on the desk of the local hotel and around it are ads of business firms of many years ago. L. M. Hoover, local druggist was reading the ads one day this week and pointing out firms that have come and gone and many of the former business men that have passed away.

L. M. Hoover, druggist, is the sole business firm that still derives benefit from his ad on the register. Others have been placed on the pages of history and remembered by old timers with pioneer days in Eldorado.

Watson & Ede Livery stable, in the days gone by, was one of the thriving businesses of the city. Even more popular than our modern garages, these old institutions were always scenes of much activity. Horse trading, whittling and listening to good yarns about a fishing trip or coon-hunt are prominent in the memories of the old livery stable.

Elder's Pharmacy, City Barber Shop, Orient Barber Shop, Neill & Foley and Keeney & Son Hardware and Grocery were frequented by farmers and ranchmen as they visited in town. Silliman, Murchison and Neal, Land and livestock loans agency did a thriving business while such firms as Keele & Parker, staple and fancy groceries, and T. L. Benson & Co. dry goods and groceries, were among those that supplied necessities of life to early settlers.

We stated last week that most common conservation in Eldorado was pertaining to oil wells in the county. That still goes. Hank Bowman, while discussing the expense of drilling with a rotary, stated this week that if he was financing operations, workmen would have about enough time to getup steam to blow the whistle.

Mr. and Mrs. Fred Chaney and son, Billy, returned from Cleburne Sunday to make their home. Mr. Chaney has been employed in the City Barber Shop here

Mr. and Mrs. W. C. Penley of Cleburne visited in the home of Mr. and Mrs. J. E. Jones last Sunday. Mr. Penley is a brother of Mrs. Jones.

Mrs. C. N. Shaw of the Reynolds community has as her guest Miss Christine Bowman of Comanche.

James E. Liles of Des Moines, Iowa, is spending the summer with his parents, Mr. and Mrs. George Gentry. Mr. Liles has been attending Notre Dame at South Bend, Indiana

## Fred Watson Lands 40 Pound Cat

A 40 pound yellow cat fish, the largest catch in the bunch, was caught by Fred Watson on Devils River this week. Several other fish were caught ranging in weight from 2 to 10 pounds.

Others on the four day trip were Gordie Alexander, L. T. Wilson, Mildred Deaton, T. H. Alexander and Lynn Alexander

A double deck of sheep was sold Wednesday. 69 head of Henry Speck, 61 for Robert Nixon and 200 for Tom Jacoby. They were sold to Jess Elrod.

## CITY OFFICERS WILL ENFORCE TRAFFIC LAWS

Streets in the business district will be marked off and traffic regulations will be enforced in Eldorado, it has been announced. Marking of the streets will begin in the next few days.

An orange line will be placed in the center of Main Street and on the postoffice street. Restricted areas at corners, fire plugs and in front of the theatre will also be designated by orange lines.

Traffic regulations will include: No parking in center of street. No parking allowed in restricted area designated by orange lines.

No trailer trucks allowed to park on Main street in the business district.

Violators of the rules will first be warned by a yellow tag, it was stated. Future violations will be subject to fines.

Marking Eldorado streets and enforcing traffic laws is a requirement made in order to obtain lower fire insurance rates for local property owners. It is a safety measure being carried out by the city council in an effort to prevent possible serious injury or loss of life to Eldorado citizens, it was pointed out.

Motorists are being asked by the city council to cooperate in complying with traffic regulations. As traffic becomes more congested on city streets, it is important that every car driver observe laws and park according to the rules, it was stressed.

Jones, Mr. and Mrs. H. T. Finley, Mr. and Mrs. John Melican, Mrs. R. J. Page, Mr. and Mrs. Bert Page, Miss Anna Florence Page, James Page, Miss Maxine Wilton, and John Irvin King.

He was brought home after a few days in a San Angelo hospital. The injury is not serious, it is reported.

## Citizens Asked To Help In Freight Rate Equalization

At the weekly luncheon of the Eldorado Lions club Wednesday, J. A. Whitten, elected on the board of directors of the West Texas Chamber of Commerce at the organization's recent convention at Abilene, discussed efforts that are now being made to equalize freight rates for West Texas.

Mr. Whitten stated that a hearing was now underway at Austin and the outcome would probably be learned in a few days. He urged ranchmen and business men of Schleicher county who are interested in West Texas freight rates, to write immediately to either Ernest O. Thompson or Lon A. Smith of the Texas Railroad commission. Austin.

Freight rates have been unjust to farmers, ranchmen and business men of West Texas for many years, Judge Whitten stated, and expressed confidence that these irregularities would be ironed out.

**THE COTTON COUNCIL**

After preliminary work during the last two or three years, directed principally by Oscar Johnston of Scott, Miss., who is perhaps the ablest all-around authority on cotton in the country, the National Cotton Council has established permanent headquarters in Memphis. The primary objective of the organization is to increase the consumption of American cotton.

Needless to say, whatever success attends the council's efforts will benefit not only the South, but the entire nation, through increasing the purchasing power of the South and making it a better market.

Membership in the council is composed of the five primary raw cotton interests—growers, ginners, warehousemen, cotton merchants and cottonseed crushers.

These have combined to form a single organization for the benefit of the entire cotton industry. At the same time it is recognized that the program to be followed must also benefit the consumer of cotton and its products.

Points in the program include improving existing cotton products and increasing their domestic use; efforts for expanding foreign markets for American cotton, and developing new uses for cotton through scientific research.

Support for such a program should be forthcoming from every section of the country, as the cotton problem is a national problem, and not one affecting the South alone.

**WHAT DOES IT GET ME?**

**Nobody's Business**

By Julian C. Capers

AUSTIN—Holding the line until the final gavel, the minority anti-sales tax bloc in the House of Representatives finally defeated the submission of a sales tax constitutional amendment in three additional attempts made to pass it on the final day of the session. The 46th Legislature's regular session ended without revenue-raising legislation.

Although it raised no new revenue, and left the State in a precarious financial condition due to the large deficit in the general fund, and the extravagant liberality with which the solons voted tax remissions, pension liberalization and other costly services, the session can by no means be designated as a "do nothing" session, nor a complete failure. There were more than 1600 bills introduced, and a larger percentage than usual were finally passed. The session broke all records, lasting 163 days—the last 43 days of which the members drew only \$5 per day, as contrasted with the \$10 they got during the first 120 days.

Cost of the session was \$50,000—another record.

**SOME GOOD LEGISLATION**

In the credit side of the ledger, however, the solons enacted many needed laws. They put an end to the flagrant abuses by some mutual assessment life insurance associations, providing stringent regulation. This ended much of the evil of the "vacancy hunting" racket, which has been an open scandal for years. They brought substantial tax relief to counties by enacting the road bond assumption act, authorizing use of one cent of the gasoline tax to retire bonds issued by counties for building lateral roads, as well as for building roads that are now part of the State system. This legislation, however, probably will have to undergo a court test so far as the principle of the State assuming county debts is concerned.

Legislation virtually guaranteeing a per capita apportionment of rural air money of \$22.50 per pupil was enacted, ending a long controversy and establishing definitely a state aid policy. The liberal solons donated to the counties an additional \$4,500,000 a year with a general tax remission bill, remitting half the ad valorem taxes for five years, which the Governor is yet to act upon. It liberalized the pension law to eliminate consideration of children in determining the need of applicants, but until the Board of Control works out details of its regulations under the new law, and gets an opinion from the Federal Social Security Board on Federal participation, no esti-

mate can be made of the effect of this act. Some authorities have estimated it will add 80,000 oldsters to the pension roll, and not a penny of new revenue was added. The Board of Control will continue to administer the pension law until September 1, after which the newly created State Department of Welfare, administering all of the State's social program, will take over. As with pension financing, nothing was done to raise money for the blind, dependent children, and teachers' pensions.

**Political Effects Uncertain**

What will be the political effect of the session cannot be determined with any accuracy until some of the new laws are applied and the reaction of the people is ascertained. O'Daniel partisans were quick to claim that the governor "is stronger with the people than ever before," and that he has put the buck on the Legislature's back. The Governor gambled on the success of his plan—one long sought by the wealthy special interests—to submit a sales tax to the people, containing a protective clause limiting taxes on natural resources for social security purposes. He lost, being unable to muster the necessary two thirds majority in the house. He used the radio, abused the legislators; turned every manner of pressure ever known in Austin, and some new ones, on the minority. He has made bitter political wounds, which will be slow to heal. He has virtually committed himself to the task of defeating those who wouldn't see it his way. That he may find a difficult task. Among the "56" irreconcilables are G. C. Morris, Joe Keith, Albert Derden, Judge S. J. Isaacks, Leighton Cornett, Harvey Riviere and a dozen others who are recognized as among the ablest men in the House. These members enacted much beneficial legislation

which their constituents wanted. O'Daniel may find that in addition to reelecting himself, he may have bitten off more than he can chew if he attempts to participate in 56 other political races simultaneously, next summer. Others have tried it, and failed. But O'Daniel be it remembered, is a political phenomenon, the like of which has never been seen before in Texas.

**No Special Session?**

The Governor has made it clear that he will seek re-election, and that he does not intend to call a special session of the 46th. Opinion here is almost unanimous, both among his friends and foes, that he will change his mind about that, as he has about so many other issues. Pressure from the old folks and other groups, when the pension question is shaken down and the new laws applied, will undoubtedly be strong and constant. It may be found necessary to revise the liberalized pension law to prevent loss of \$10,000,000 year of Federal contribution.

**Lobby Probe Fizzles**

A 48-hour sensation was created when County Attorney Paul Holt, of Travis County, convened a court of inquiry in a local jus-

tice court, and summoned 20 prominent lobbyists for an investigation of lobbying. Holt was generally credited with having been induced to call the court by Senator Joe Hill, who wanted to prove that Gov. O'Daniel's ridiculous charge that the sales tax amendment was being opposed by the special interest lobby, was untrue. Holt got cold feet" however, and called off the investigation before it started, announcing that he didn't have sufficient evidence to proceed, and requesting and definite postponement. Rumor was that Holt got strong and unfavorable reaction from his own constituency in Austin, where the lobbyists spend a good many thousands of dollars with local hotels, restaurants, merchants, etc. The serving of summons for the inquiry, however, did have the effect of relaxing the pressure for passage of the sales tax resolution on the final day, as the nervous lobbyists scurried for cover.

... have you tried a leaded gasoline in one of the new tractors with a high compression head? If you haven't, you'll be surprised at the improved performance—at the efficiency which spells economy... And leaded gasoline is not necessarily high-price gasoline. As a tractor owner, you will be particularly interested in Humble's THRIFTANE, a recently introduced leaded gasoline in the lower-price range. It's not as good as Esso, Humble's premium grade (and the best motor fuel you can buy), or as Humble Motor Fuel, at regular price; but it's a mighty good product for tractor use. It gives you specified, leaded quality backed by the Humble guarantee... Try Thriftane (or a 50-50 mixture of Thriftane and Humble Motor Fuel) in your tractor; you'll be pleased with performance.

## Celebrating Freedom to Serve

FREEDOM, regulated by justice, dates back to July 4, 1776—the Birthday of America. This nation was founded on, and consecrated to, the idea of liberty, freedom, independence. This applies, not only to the nation as a nation, but to the individual in his daily life.

The Electric Industry, asking only freedom to serve efficiently and economically, contributes much to that priceless gift: *more liberty and ever-greater freedom.* Through Electric Service, men and women have been emancipated from thousands of tedious, nerve-racking, exhausting tasks both in the home and in other industries.

West Texas is traditionally the Land of Opportunity and the Home of the Free. Its history is linked with the fact that Your Electric Servant was free to keep pace with the region it serves... expanding its facilities to meet the needs of every community and anticipating your future demands for Service. As a result, you now are free to enjoy freedom from drudgery.

SAN ANGELO

**ONE THING  
And  
THEN ANOTHER**  
By Fred Gipson

SAN ANGELO—The rodeo and reunion season is on again, with its thrills and spills and dust and heat and soda pop and free barbecue for all. Ozona broke out with one last week. I didn't get to

make it, but it must have been a whining dinger. Bob Cooke, chief grub-spoiler in that section, had to barbecue 500 head of goats to feed the crowd.

They're pitching an Old Settler's Reunion in Big Lake this week, June 30—July 1. Bronc Wilson, publisher of the Big Lake Wildcat got so excited about it that he put out a 16-page weekly paper last week, trying to tell the folks about it.

Bronc ought to keep himself in hand better and not get so extravagant this time of the year. School kids don't need any lunch-wrapping paper now.

A man never knows what he wants. Ever since the City of San Angelo installed parking meters, I've been down on the city council. Then the other day they held an election and voted parking meters out. Last Friday, they were gone.

And now I don't know what on earth I'm going to lean on when some old-timer stops me on the sidewalks to spin me a tall one.

Ex-Senator B. F. Berkeley tells me that in 8 years of service for the 29th Senatorial District of Texas he never answered roll call a day without a red carnation in his coat lapel.

Which, I claim, is a better record for consistency than most senators can claim.

Quotation for the files: Some women can take a lipstick and go further than a man with a good Winchester and a side of bacon—Charles M. Russell, Trails Plowed Under"

I'm sitting beside J. T. Holmes of Rankin in a cafe, when he shoves back his plate and says disgustedly: I just can't make it. No matter what you order in a cafe, seems like it's not what you wanted just doesn't taste like what the wife cooks up at home."

Which reminds me of the other night when I pulled in home, late and unexpected, and Mama rushed around, trying to scrap up a little supper for me and just as embarrassed and apologetic as she could be about not having any fine food ready for her son—the kinds he's used to eating

And I tried to tell her that nothing she could buy would taste as good to me as the cold corn-bread and sour clabber milk she had in the kitchen. But she never did understand. She just thought I was being nice about it. Mama never has had to eat in cafes for month after month on a stretch. I hope she never has to.

In a session with Col. E. O. Thompson, chairman of the interstate oil compact commission, I gather that he's aiming to try for the governor's chair again.

Me—I'm always wondering what the peculiar fascination is that keeps people fighting for the governor's chair. I get to wondering if maybe I'm losing out somewhere by not trying for it myself.

**Brady Jubilee Will Be Held  
July 3-4-5; Big Crowds Expected**

Texas' biggest race meet, a fine rodeo program speaking by leading political figures, the queen's coronation and ball, and union services will combine to make Brady's 14th annual July Jubilee and Race Meet one of the states outstanding holiday attractions this year. The Jubilee will be held July 3, 4, 5 under the direction of General Manager G. C. Kirk.

While the speaking and the racing and rodeo programs are scheduled for the three dates mentioned above, the festivities actually begin the night of July 1, at 8 o'clock at Richards Park grandstand, when Miss Juanita Broad, amid colorful ceremonies, will be crowned Queen of the 1939 Jubilee. Duchesses and escorts from neighboring towns will participate in the coronation. The Queen's Ball will follow at Brady Country Club, with Joe Buzze and his orchestra providing the music. Buzze and his musicians will also play at the crowning of the Queen.

On Sunday night at 8 o'clock at the Grandstand a gigantic union religious service will be held, with Dr. L. N. D. Wells, minister of the East Dallas Christian Church, to be the main speaker. Singers from the local churches will make up the choir.

A colorful parade will formally open the 14th annual affair at 10 o'clock the morning of July 3, with six beautifully decorated floats, and cowboys, band and decorated automobiles making up the procession that will parade about the plaza and business district.

The raving and rodeo program will open at the park at 2 p. m. each afternoon of the three days. There will be five running races daily, and no race purse will be under \$150. C. H. McMillan, veteran starter, will be here with his starting gate. Rodeo purses will run into figures each day. The rodeo stock will be furnished each of the days by Red Lyons, veteran rodeo promoter of Texas.

Brady's big grandstand has been enlarged this year, and it now has a seating capacity of 6,000. The track has been improved considerably, and racing enthusiasts

It's another one of those July days in McCamey, with a dry wind whining across the surrounding greasewood flats and a scorching sun threatening to buckle the pavements. Mrs. C. G. Forester, wife of the McCamey chamber of commerce manager, sits in her room and swelters

Wouldn't this be wonderful weather on a right cold day in January?" she comments. Some people can just naturally find some good ?in anything.

are expected to see some excellent times made here this year. More than 100 horses have been in training at Richards Park the past several days, and a fast field of entries is anticipated.

There will be no admission to the picnic grounds at Richards Park, where thousands of persons come annually for a good time.

Miss Nell Campbell spent last week end in San Angelo with Pat Kent.

D. M. Beach and Wiley Ratliff attended the lamb sale and rodeo at Ozona last Friday.

Miss Evelyn O'Harrow returned home Sunday from Kerrville where she has been visiting Miss Callie Mae Gregory. Miss Gregory returned with her for a few days visit.

### Bill Parker Back From Visit In East

Seeing the National Cathedral in Washington, D. C. was the most interesting event of the entire 21 days tour, Miss Bill Parker declared when she returned this week from a tour of 24 states District of Columbia and Canada. Miss Parker, Physical Education director of Odessa High School, was one of the official chaperones for 20 honor students of Odessa High School. Other chaperones were Murry H. Fly, Superintendent of Odessa Public Schools, Mrs. Fly, Kenneth D. Starnes, assistant football coach, and H. S. Redding who drove the bus.

More than \$13,000,000 has already been spent on the National Cathedral which is only half finished after 32 years. When finished it will be to the U. S. what Westminster Abbey is to England. Other main interests of Miss Parker on their tour in Washington, were the Federal Bureau of Investigation where they spent four hours seeing interesting things such as the records, pictures, guns etc. of Bonnie Parker and other Texas outlaws; the Treasury department, Washington and Lincoln Memorials, Arlington cemetery, Mount Vernon, Library of Congress Union Station, and Smithsonian Institute. They also visited the Capitol and the White House and heard the Marine Band Concert give a flagday program. A boat ride up the Potomac river on the largest ship on the river, the S S Potomac was a thrill.

Particularly outstanding interests at the fair she mentioned were the General Motors exhibit, the city of light, the city of tomorrow, Forward progress of America, General electric building, and the communication building were all placed ahead of Billy Rose's Aquacada which is favored by so many.

Of the many interests in New York City Miss Parker favored dinner in Times Square, the statue of liberty and a boat ride to Staten Island.

Scenery in the two Carolinas and the New England states intrigued her more than that of other states. Even I didn't enjoy the stay in Portsmouth N. H.," said Miss Parker. It was interesting but the whole town was in mourning for the submarine which was built there and sunk few miles off the coast recently. The place was quite dreary for one of Bill's nature.
