

On The Divide

Blondes, brunetts and red-heads with plenty of grace, beauty and charm will parade in a showing of original creations featuring the latest styles and fashions, or what have you, when Lions club members, composed of business men and cow-hands, put on an exhibition at the Lone Star theatre Tuesday night.

Lions club members would not reveal this talent for any other purpose than to benefit the high school band, with the encouragement that if they don't, they get fined a dollar.

Leading the band and pep squad parade in true western style last Saturday afternoon preceding the football game, J. E. Jones' string of Palomina horses showed up well. Don't guess there a better looking string of thoroughbreds in Schleicher county than these Palominos that have become widely popular throughout the country.

SERVING ON FEDERAL JURY AT SAN ANGELO

Jack Halbert and Bill McSwane were in San Angelo this week serving on the federal jury.

SECOND GUESSING

(By L. T. Barber)

In a ragged display of blocking and tackling, the Eldorado Eagles wobbled to a 21-0 victory over the Menard Yellow Jackets in their second district tilt here Saturday afternoon.

The opening kick-off brought fans to their feet, when Billy Green took the risk on his own fifteen and behind some nice open field blocking and a bit of side stepping and spinning of his own, returned it for a touchdown. After this one display of football that the Eagles are capable of putting out, they were content to crawl back in their shells and take the outcome for granted. The supposedly strong forward wall of the Eagles was knifed to shreds by a weaker but fat charging Menard line. The Eagle back were being smothered for repeated losses by swarms of Yellow Jackets coming thru like water through a sieve. The ball carriers had as much chance to gain as the camel had going through the eye of the needle.

After a short drill during the intermission, the home team came out and gave the cash customers a few minutes of real football. Halbert intercepted a Menard aerial on the Jacket 42. Underwood made a first on the twenty five and on a reverse with Halbert spinning and twisting and some openfield blocking went over for the second score. Halbert made the score 14-0 by kicking his second point.

An exchange of punts followed the kick-off and the Eagles again took over on the Jacket 40. Two first downs placed the ball on the fifteen, where Underwood dropped back and passed into the end zone to Newlin for the third and last score. Halbert made it three in a row through the uprights.

Reserves Show Up Well

Style Show To Be Presented Tuesday Night

Not featured in Vogue, perhaps, but with grace, beauty and charm, members of the Eldorado Lions club will parade in a sensational style review to benefit the high school band Tuesday night, October 17.

As an added attraction at the Lone Star theatre, local business and professional men will impersonate the weaker sex to reveal heretofore undisclosed local talent in two performances, one following each show. Money derived from the event will be used to purchase uniforms for the band.

In order to accommodate the large crowds that will witness the sensational performance, Tommy Barrow, local theatre manager, stated this week that the style review will be staged following each showing of the regular feature. Advance tickets will be sold and two full houses are expected. Admission will be 35c for adults and 15c for children.

In selecting characters for the show, R. L. Sample, Tommy Barrow and Jerry Pennington, in charge of arrangements, have chosen most promising primadonnas from the Lions club and Band Parent club memberships to model the original creations. Attractive feminine lines, charm and personality are said to be qualities that led to the selection of such characters as H. B. Rees, L. M. Hoover, J. A. Whitten, H. T. Finley, Robert Page, W. O. Alexander, C. C. McLaughlin and others who will fill the leading roles.

The audience will also play an important part in the show by selecting the most attractive impersonator from the closely competitive group. An award will be presented to the winner.

Mr. and Mrs. Robert Page and Mrs. Bert Page spent last week end in Dallas with Mr. and Mrs. A. Kinnaman.

Football Uniforms Ordered For Junior Players

Uniforms for Junior football players have been ordered and will be in use in the very near future, it was announced this week by Robert Carruthers, who with H. T. Finley, Jerry Pennington and E. O. Nevills was appointed on a Lions club committee last week to seek ways and means of financing the suits. The committee with other interested individuals made a canvass of business men and football fans and enough money was raised within a short time to purchase the suits.

Within the next week or two youthful players, who will be Eldorado's high school football team in the next three or four years, will be dolled up in uniforms and other equipment to insure protection against injuries.

Plans were announced for a carnival and the coronation services for the Talon queen October 28. Approximately 200 people attended the meeting in the high school auditorium.

Musical selections were given by a part of the High school band and choral club.

The carnival, which will be on October 28th in the High School gymnasium at 6:30 o'clock, will be given for the benefit of helping publish the year books, the Talon and to help pay for band uniforms.

Dinner-Dance Entertains Safety Council At Junction

A Mexican dinner and an old-fashioned dance entertained members and wives of the Shell Safety Council when the Kimble county Chamber of Commerce at Junction was host last Friday evening at the Hodges Hotel in Junction.

Ten year service awards will be presented at this meeting.

The program included talks by W. W. Oder of Menard who pointed out that most fires start in the home and are due to carelessness. Otis Buie of this city discussed caution to be taken in handling compressed gases. Mrs. Ben Hext and Mrs. H. E. Lynn of this city spoke in favor of joint meetings of Shell employees and their wives.

The Mason Cowpunchers will be riding high in their saddles when they blow into town today in an attempt to knock the high flying Eagles off the top perch in the 8-B district race.

The Cowboys have carried some pretty strong opposition and will be pulling their guns on the Eagles. They have been displaying a strong passing attack along with some capable running and have run up top heavy scores in most of their games. They lost only one game this season so far, and that was late in the fourth quarter that Rock Springs came to life and pushed over the winning score in winning 14-7.

The Eagles should be the favorites to take this one away but they will have to play quite a different brand of football than they put out last week in their win over Menard. The spirit in the Eagle camp is gaining during the practice sessions and if this keeps up, the Cowboys are in for a tough bit of riding.

It's going to be a tussle at the least and you had better be there for the opening kick off at 2:30 P. M. this afternoon.

Austin Pastor To Conduct Revival At Presbyterian

Rev. J. P. Kidd of Austin will be the preacher when the local Presbyterian Church holds a revival meeting. The meeting begins Friday, October 27, it was announced this week by Rev. N. P. Wilkinson, pastor.

Rev. Kidd is a man somewhat past middle age and of much experience in the gospel ministry both as an evangelist and pastor.

For the past several years he has served as superintendent and evangelist of home mission churches in Central Texas Presbytery. Because of his ability as a preacher he has often been called to hold meetings outside the bounds of the Presbytery, according to Rev. Wilkinson. He said that the Eldorado church sought the help of Mr. Kidd for their meeting on the recommendation of one who spoke of him as a man of real consecration and ability.

Services will be held each evening through November 5th.

FATAL FARM ACCIDENTS

Although farming is hardly considered a hazardous occupation, so far as physical danger is concerned, death from accidents on farms numbered about 4,300 in 1938, according to a recent publication of the National Safety Council.

This is a larger number than was killed in any other single industry, but it is relatively low considering the large percentage of the population engaged in agriculture. The need for safety education on the farm is evident, nevertheless, and the results of an intensive farm safety program in Kansas last year were most gratifying.

Farm fatalities in Kansas dropped from 83 in 1937 to only 57 in 1938, and there is no doubt that this excellent showing was due largely to the efforts of the state

safety council and associated agencies.

Records kept during the last eight years by the Kansas state board of health show that 29 per cent of all fatal farm accidents in the state were suffered in the operation of machinery, while 20 per cent were injuries by animals, and 10 per cent by excessive heat.

Accidents on the farm, as elsewhere, could be largely eliminated by taking reasonable precautions at all times.

TIMELY TOPICS

Newsweek reports a great boom being experienced by plants manufacturing wood type, used for extra large headlines in newspapers and for posters. The orders of one such firm is said to have increased 300 percent during the first week of the war.

One World War hero still occupies the same position he held in 1914. He is Adolphe Max, burgomaster (mayor) of Brussels, Belgium, who was imprisoned for defying the Germans when they entered his city. He is now 70 years old and still active.

At the recent international convention of the Loyal Order of Moose, held in Philadelphia, the title of "dictator" was abolished and "governor" substituted. The change was made because the word dictator "has fallen into disrepute," according to a resolution unanimously adopted.

Paul Gurthler, who was a sergeant in the company of Corporal Adolf Hitler during the World War, has enlisted in the Canadian Army. Gurthler is now a naturalized Canadian, whose home is in the province of Alberta.

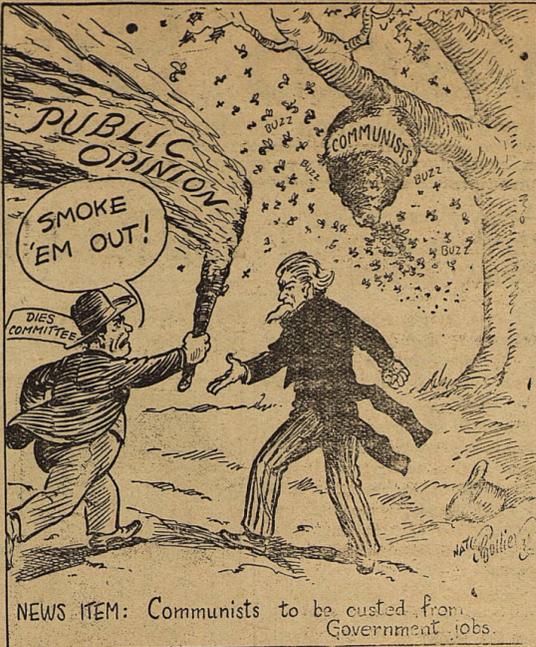

While shaving a customer, Frank Dugan of Philadelphia saw an automobile hit a man in front of his barber shop, and start to speed away. Dugan dashed after the hit-and-run driver, jumped on the running board razor in hand, caused him to stop, and turned him over to a policeman.

John Lindsey of New Jersey has attended a theatrical performance once in his 95 years. That was on the night of April 14, 1865 at the Ford theatre in Washington, where he witnessed the shooting of President Lincoln. The tragedy so shocked Lindsey that he never went to a show again.

Recounting some feats of women aviators, a writer reminds us that the first woman airplane pilot in the world was Harriet Quimby, who obtained her license in 1912. She met the fate of most pioneer flyers, being killed in a crash while giving a stunt exhibition in Boston.

Nobody's Business

AUSTIN—The pensions heat, generated by cutting pensions \$6, and eliminating several thousand pensioners who drew less than \$6 monthly before the cut, had reached the boiling point in Austin this weekend, as forecast several months ago in this column. Gov. O'Daniel brought a new rabbit out of the hat, when he sent a letter to members of the Legislature, asking if they would enact a bill, which incorporates the main features of the highly controversial SJR 12. The Governor wants the solons to abrogate their oath of office, waive the right to debate or consider any substitute or different taxation plan, and pledge themselves in advance to vote for his sales tax bill. It is fairly obvious from the statement made by members of both House and Senate that O'Daniel's proposal will be rejected by a majority of the legislators.

LOAN PAYMENT MADE

However, with the payment of \$150,000 to a syndicate of Dallas banks as the first installment on funds advanced to pay pensions, it appears certain that reduced pension funds, and the howl going up from the old folks will bring about a special session sooner or later, regardless any refusal of the legislature to hog-tie themselves in advance to any corporation sponsored sales tax scheme advanced by O'Daniel.

Under the constitution, the legislators are the sole judges of how revenue shall be raised. Once the Legislature is convened, the House of Representatives is free to consider any method of fund raising it desires, and doubtless will consider several methods, including Ernest Thompson's proposal for a 5 cent additional tax on crude oil production. The pressure from the old people, the teachers and other beneficiaries of the defunct social security program is becoming so great that it raises a serious threat to the possibility of O'Daniel's re-election as Governor. When the Governor becomes convinced that this situation prevails, best guessers here believe, he will convene a special session without conditions or promises. That may not be until after January 1, altho many Austin observers think it will be sooner.

BEAUCHAMP NAMED TO COURT

Fulfilling a forecast in this column, Judge Tom Beauchamp, Secretary of State and former East Texas "professional politician", who has served as county judge, assistant attorney general, and in other offices, was named by O'Daniel as a judge of the Court of Criminal Appeals, the state's highest criminal tribunal,

succeeding Presiding Judge W. C. Morrow who resigned. O'Daniel has not yet named a successor to Beauchamp as Secretary of State, but reports are that he favors his personal secretary, William Lawson, for the \$5,000 post. Confirmation of Beauchamp, as well as several other important appointments made by O'Daniel, must be had by the Senate, altho unless a special session is held before January, 1941, some of the appointments, including that of Beauchamp, will expire before confirmation is had.

AUSTIN NOTES

Fame is fleeting, as was demonstrated here when the State Board of Education, in session to adopt textbooks, required the publisher of a volume of biography to delete a sketch of the life of Charles A. Lindberg, before approving the book. Some board members explained the board did not favor inclusion of the lives of any living persons. The future of the existing system of prorating the production of crude oil in Texas is bound up in litigation which has been instituted by Humble Oil Co., and F. W. Fischer, "Big Fish" who ran for governor in 1936, owner of many East Texas wells, to enjoin enforcement of the current East Texas prorating order, both on different grounds. Fischer objects to the use of acreage as a factor in determining allocation to various wells, while Humble's lawyers claim the company is losing \$23,000 daily in oil it is entitled to produce, but cannot under the order. A Three Judge Federal court has taken the matter under advisement.

THINK!

Chemistry at Work

You may never have studied chemistry, and if you did, you've probably forgotten the details. But you know what remarkable chemical changes take place when different substances are brought together under the combined effect of heat and pressure. . . . That's exactly what happens under the hood of your car. There, oxygen is brought into contact with the motor oil under heat and pressure. And unless you use an oil like Humble's Balanced 997 (and it's hard to duplicate), the result is motor oil oxidation, which results in motor deterioration, just as the oxidation of iron results in rust. . . . So the thing to do is use a motor oil so designed that it resists oxidation. . . . Here we are at your service, for we have such an oil in the definitely improved **Balanced 997**. This is truly a remarkable oil, for in addition to its distaste for combining with oxygen, it has all the other desirable qualities of a motor oil in perfect balance—so that it delivers **perfect performance** in your car. . . . See for yourself. Stop at the nearest Humble sign, drain and refill with **Balanced 997 Motor Oil**.

serves. Their big brothers, who had left the game could easily have taken lessons from them on blocking and fighting spirit. The lightweights took over on Menard's 45 yard line. Four tries failed to make a first down. Three tries by the visitors netted only two yards. The first chargers of the second stringers, broke thru to block a punt. (A feat that the first string could not accomplish.) Two passes from Green to Page and Sweatt placed the ball on the three yard stripe but the pass to Sweatt was nullified by a 15 yard holding penalty against the Eagles. Fading back from his own 45, Green failed to find a receiver and scampered down the side line for 45 yards, being run out of bounds on the five yard Menard line. A try at center netted a yard and on the last play of the game, a wild pass was recovered on the fifteen yard by the Jackets.

Hill's punting was an outstanding feature of the game. On five punts he averaged 42 yards, after getting one blocked. His longest was for 70 yards into the end zone. Halbert gave a good exhibition of broken field running while Underwood looked good on line smashing and passing. The Eagles lost a total of 90 yards penalties. Five of them 15 yards for holding and illegal shifts.

Thanks a Million:

This column, with the entire future football players of the Eldorado Grammar school would like to take up a little space to thank the business men and sports fans of Eldorado for their cooperation in supplying the juniors with football equipment. Twenty-two suits have been ordered and from the action of the kids, they are the more appreciative. They

could be seen Saturday in bunches, talking nothing but when will we get those suits?

The move for uniforms for the junior team was made a year or two ago but was never taken seriously enough to do anything about it. It was taken up again this year and by the aid of a Lion's committee, a canvas of the town was made and almost enough money was made up in two hours time to make the order. Every one is proud of this work and we believe that there will be some real good accomplished from this effort.

There was not much discussion about the game last Saturday, among the players. There was not much to be said They won which was good enough, but some of the boys were not so proud of their performance.

Wee Billy Green took the spotlight in the game Saturday. His passing was far above average and his broken field running was something to watch. He is going to make someone hustle.

There will have to be a bit better football played today than last week end for the Eagles to keep their district record clean. Mason appears to have something down in the hill country and it could be a case of Cowboy roping Eagles.

Coaches Carruthers and Huggins put their charges through a very stiff workout Monday and Tuesday. The Monday practice was the extra work that the boys were supposed to have had Saturday.

The ninety-yards penalties dished to the Eagles in the game Saturday gave Menard more yardage than they actually gained from scrimmage or through the air. Most of these penalties or all of 15 yards could have been avoided had the boys been hustling and had their heads. A good clean block will always be better than a holding penalty. There is a little more work to blocking than holding

There seems to be much discussion as to some of the rules of the game among the fans. To help get some of the common infractions clean, we are going to print a few of them. You answer them yourself and the following week

we will print the correct interpretation.

1. Player of Team A (offensive team) is off side. On the same play, member of team B clips. Which penalty is inflicted?
2. A fumbled or backward pass is fumbled and is touched simultaneously by Team A player and team B player and the ball goes out of bounds. To whom does the ball belong?
3. It is third down, with ball in team A's possession on team B's 15 yard line. Team A attempts forward pass, which is intercepted in the end zone by team B player, who attempts to run it out and is tackled behind his own goal line. What is the decision and where is the ball put in play?
4. On first down, ten yards to go, player of team B holds. What is the penalty? Down? Yards to be gained?
5. Just after a touchdown is

I. L. Vaughn, Jr. Introduces A New Champion

A new product for the prevention and treatment of Hemorrhagic Septicemia has been discovered by the Chompion Products Company of Sabinal, of which I. L. Vaughn, Jr., is the owner. This product is the first to be chemically compounded in such a way that it produces immediate results when injected into the animal's blood stream. Mr. Vaughn stated while in Eldorado recently. Dealerships have been established throughout the state, and although the medicine has been on the market for a short while, the response has been beyond expectations.

"This medicine has been especially effective in combatting severe cases of pneumonia, three of four injections usually being sufficient," Mr. Vaughn stated. "The product is equally effective in cattle, sheep and goats. Only after much experimentation and study has it been found to be the most effective injection for combatting mixed infections in cattle, sheep and goats."

made, player of team B is guilty of unnecessary roughness. Where and when is the penalty inflicted? (This penalty is a fifteen yard penalty.)

6. Team A punts. The ball goes over the goal line before being touched by either team. Safety man for team B gets ball and runs for touchdown. Is the score allowed? why?

7. A player of team B bats or kicks a free ball in the end zone of the goal this team is defending. What is the ruling?

8. A player of the receiving team returns the kick off to the one yard line and fumbles the ball over the goal line and before being tackled, juggles ball out of bounds before regaining possession. What is the ruling? Where is ball put in play? (This play almost happened last Saturday). Guessing Again:

Sentimental guessing does not get very far in this dizzy football world. Last week we guessed mainly on the hopeful outcome of the games and did not get too far. However, we batted 500 per cent. This week is going to be different. We are going to guess for keeps. Taking the first one, which should be, from all past records a push-over for Texas A. & M. They

have not been defeated and TCU has not won a game. This will be a very close one with the Farmers on top. Arkansas plays Texas at Austin. The Razorbacks have been an every other week team and this week is their time, but we think there is too much Crain for them. Rice should win one this week-end. They play Sam Houston. S. M. U., the hard luck team should take Marsuette in Dallas. The Mustangs barely missed a tie with a strong Notre Dome team. Baylor, the dope upsetter and also a fairly strong aggregation journey to Nebraska. This is a real guess and will be a very close one. Nebraska might have a little too much on the ball, but do not be surprised with a Baylor upset.

ONE INCOME THAT'S

SINCE 1932!

*Data from Liquor Control Board; includes beer license fees and estimate (not official) of mixed license fees.

BEER helps even those who do not drink it! To the tune of a million dollars a day nation-wide, beer tax revenue reaches back into every community, to help pay for relief, for public works, for education... and to lift a burden that would otherwise rest directly on the taxpayers.

To this, add a million new jobs made by beer. And a 100 million dollar farm market.

How can we keep these benefits... for you and

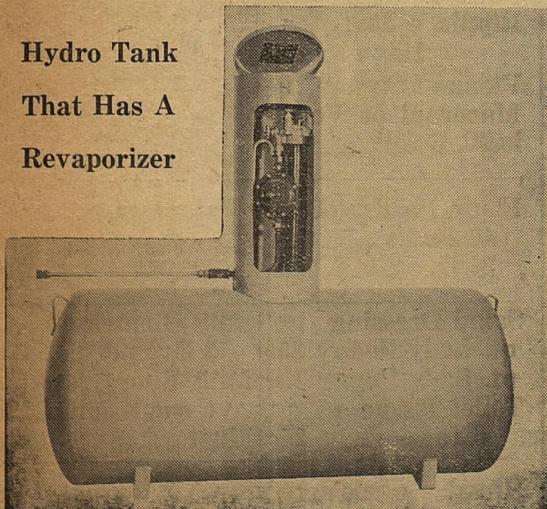

for us? Brewers of America realize this depends on keeping beer retailing as wholesome as beer itself. They want to help public officials in every possible way. They cannot enforce laws. But they can—and will—cooperate!

May we send you a booklet telling of their unusual self-regulation program? Address: United Brewers Industrial Foundation, 19 East 40th Street, New York, N. Y.
