SEOUL, Nov. 20 (AP)—Allied forces pounded Chinese positions late today with the heaviest rocket barrage and warplane strike in the 37-day old battle for the vital Kumhwa ridges on the Central Korean Front.

In the air, U.S. Sabre Jets destroyed five Communist MIG-15s. The Fifth Air Force announced it brought to 502 the Red jet fighters destroyed since the war began—exclusive of those downed by Navy pilots.

Purge Trial Starts For Austrian Reds

VIENNA, Austria (AP)—The former secretary general of the Czechoslovak Communist party, Rudolf Slansky, was listed for trial in Prague today with other purged leaders of the Red Czech regime—a mass hearing some diplomats expect will rival the 1936 Moscow trials.

Announcement of the hearing was made earlier today by Prague radio. The broadcast said that Slansky would be tried together with "his group," but it gave no indication of how many defendants would face the court or who the others might be.

Red Cross Due To Reach Goal In Blood Drive

The Red Cross Bloodmobile appeared almost certain at noon today to have its quota blood from the Big Spring area.

Approximately 100 pints of blood were drawn up to noon Thursday, and technicians needed only 50 additional volunteer donors to assure the four-day quota of 650 pints.

Mrs. Moore Sawtelle, Red Cross executive secretary, said she was confident the goal would be reached by 3 p.m., when the operation was scheduled to close.

Wednesday was the biggest day of the Bloodmobile visit, with 165 pints of blood being received. Today 151 pints were received and on Monday residents of the area contributed 158 pints of blood.

FBI Now Joins Luchese Search As Probe Halts

NEW YORK (AP)—The FBI hunted today for Thomas (Three-Finger Brown) Luchese in the wake of State Crime Commission hearings which recessed with testimony aimed at a former judge's financial affairs.

The state probes looking into political-underworld links no sooner suspended the public hearings yesterday than U. S. Atty. Gen. James P. McGranery authorized the FBI search for Luchese, wealthy garment manufacturer and ex-convict described as a boss racketeer and friend of politicians.

Luchese previously testified privately before the commission but balked at talking at the open hearings.

A two-day search by a U. S. marshal and two deputies failed to locate Luchese. The government seeks to take away his citizenship and deport him to his native Sicily. Officials are hunting him to serve denaturalization papers, he allegedly concealed arrests in obtaining citizenship.

46 Persons Injured In Train-Bus Crash

HOUSTON, Nov. 20 (AP)—At least 46 persons were injured today as a passenger train struck a crowded city bus near downtown Houston. There were no reports of critical injuries.

Capohart Sees Some Form Of Price, Wage, Rent Controls

WASHINGTON (AP)—Sen. Capohart (R-Ind) says he is certain the new Republican Congress will approve some form of price, wage and rent controls whether or not President-elect Eisenhower favors them.

Capohart, scheduled to become chairman of the Senate Banking Committee which handles controls legislation, brought this out yesterday shortly after a hearing at which Price Stabilizer Tighe Woods urged that controls be extended.

Truman Happy About Ike View On Korea POWs

WASHINGTON, Nov. 20 (AP)—President Truman said today he is very happy over Gen. Dwight D. Eisenhower's views on the Korean prisoner of war issue, and declared "this country is a unified organization in its policy toward the rest of the world."

In his first post-election news conference—his first in fact since Sept. 25—Truman laid emphasis on unity and on the effort to make the shift of power to President-elect Eisenhower as smooth as possible.

He began with this statement which he permitted reporters to quote directly: "I want you to understand that the election is over and that we are trying to get things in shape to make an orderly turnover of the government to the successor, and that we want to let the world know that this country is a unified organization in its policy toward the rest of the world."

"I was very happy to see that Gen. Eisenhower had told Sen. Wiley that he was with the policy on the prisoners of war in Korea. That was one of the main things about which we talked in the meeting the other day when he was down here."

Eisenhower and Truman met at the White House on Tuesday and later announced jointly that they had arranged for an exchange of information. They expressed belief this co-operation would be to the advantage of the country and promote a favorable progress of international affairs.

Yesterday, Eisenhower had a meeting in New York with Sen. Wiley of Wisconsin, who will become chairman of the Senate Foreign Relations Committee in the new Republican-controlled Congress.

Freeway Status Due For U. S. 80 Stretch

Another section of U. S. 80 Highway has been earmarked for eventual development as a freeway. The Texas Highway Commission announced Wednesday in Austin that the section of the highway from the Martin County line to Sweetwater was added to the growing list of divided highway.

The state highway engineer was authorized to co-ordinate planning, right-of-way acquisitions and construction for development of the highway by stages to ultimate standards for a freeway.

Similar designation was given a section of U. S. 77 Highway between Gainesville and Hillsboro. Previously, Highway Department officials had conferred with the Howard County Commissioners Court concerning development in this county. It was estimated that more than half a million dollars would be involved in improvements scheduled for the year 1954-55. The program has been approved for planning.

Airliner Nears End Of A Polar Trip To Denmark

COPENHAGEN, Denmark, Nov. 20 (AP)—A big airliner winged toward its Danish home today in the final lap of a trail-blazing commercial flight from the U. S. Pacific Coast across the polar top of the world to Europe.

The Scandinavian Airlines System's "Arlid Viking" took off at 6:58 a.m. Greenland time (5:58 a.m. EST) from the big U. S. Air Force base at Thule, North Greenland. Airlines officials said due to favorable weather conditions over Greenland and the North Atlantic, the plane might complete the 2,355-mile jump to Copenhagen by 9:30 p.m. (3:30 p.m. EST).

The flight is the first of two exploratory Los Angeles-to-Copenhagen runs which the airline hopes will be the prelude of the first commercial service over the polar route.

The big Douglas DC-6B had landed at the Thule base at 4:28 a.m. Greenland time (3:28 a.m. EST). The Viking carried 22 passengers, a crew of 13, such aircraft survival equipment as sleeping bags, skis, snowshoes, snow shovels and rifles, and 500 pounds of mail. Her operators hope to inaugurate regular commercial service on the top-of-the-world route.

HOUSTON, Nov. 20 (AP)—What the district attorney described as "something suspicious" about vote totals has sparked a surprise investigation of the Nov. 4 Houston school board election.

The Harris County Grand Jury yesterday began the unexpected probe.

District Attorney Sam W. Davis said there was "something suspicious" about vote totals some candidates received in several precincts. Seventeen candidates vied for four board seats at stake in the election.

Interior Post Goes To Oregon Gov. McKay

NEW YORK, Nov. 20 (AP)—President-elect Eisenhower announced today he has chosen John Foster Dulles as Secretary of State, Charles E. Wilson, president of General Motors, as Secretary of Defense, and Gov. Douglas McKay of Oregon as Secretary of the Interior.

Eisenhower's press secretary, James C. Hagerty, gave the news to the press while the general was luncheon with Anthony Eden, British foreign secretary, at Eisenhower's Hotel Commodore headquarters.

In naming Dulles as Secretary of State, Eisenhower picked for his administration a major Republican voice in America's bi-partisan foreign policy of the past decade.

Dulles, 64, held the title of ambassador when he served as architect of the Japanese peace treaty under Secretary of State Dean Acheson.

By RELMAN MORIN

NEW YORK, Nov. 20 (AP)—President-elect Dwight D. Eisenhower went into conference today with John Foster Dulles—a leading possibility for secretary of state in his Cabinet.

Thus the general began a day which promised to preoccupy him with some of the vast international problems he will face as President.

Later today he will confer with British Foreign Secretary Anthony Eden. A top item on their agenda is expected to be the effect of the Indian compromise plan on a truce in the Korean War.

Dulles, architect of the treaty with Japan, probably will probe various angles of the Korean problem with Eisenhower. When he entered the general's office at the Commodore Hotel, carrying a heavy briefcase, he refused to talk with reporters.

Eisenhower discussed foreign problems at length yesterday, getting two reports on Korea.

He was quoted by Sen. Alexander Wiley of Wisconsin, member of the United States delegation to the United Nations, as standing firmly behind the delegation's position on the pivotal question of compulsory return of war prisoners in Korea. The senator said: "He is completely dedicated to the principles of the U. N., and re-emphasized his agreement with the principle of no forcible repatriation of Communist prisoners."

Communist negotiators in Korea have insisted that all prisoners—regardless of their personal desires—must be returned either to China or North Korea. The truce talks at Panmunjom stalled, finally, over this point.

Today's meeting with Eden is considered unusually important. The day Eisenhower's election was confirmed, the British diplomat said he hoped to meet with him at an early date. He flew here from London two weeks ago for the U. N. meeting.

Some European leaders have expressed anxiety over reports the United States may expand the war in the Orient, bombing Chinese territory, and possibly sanctioning a Chinese Nationalist assault on the mainland of Red China.

Some unfavorable reaction also arose in Europe after Eisenhower's speech to the American Legion Convention, during his campaign, in which he discussed the possibility of issuing a warning to the Soviet Union. The general said it should be couched in terms of "cold finality," and he noted the possible methods of creating tensions inside the Iron Curtain.

With regard to Western Europe, some American sentiment holds that direct financial aid should be

UN Awaiting Eden Words On Proposal

UNITED NATIONS, N. Y., Nov. 20 (AP)—The United Nations looked to British Foreign Secretary Anthony Eden today to give the West's first formal reaction to an Indian compromise plan on the Korean prisoner-of-war issue.

His speech to the U. N.'s 60-nation political committee, expected to be about 2:30 p.m. (CST), was eagerly awaited for two reasons:

1. Eden will come directly from a conference with President-elect Eisenhower at which the Korean problem was expected to be thoroughly explored. He exchanged views with Secretary of State Dean Acheson yesterday.

2. The British have been active in the behind-the-scenes negotiations attempting to draw up a united western front towards the Indian plan. Eden may indicate what measure of agreement there is among the western powers.

The U. S. yesterday reportedly was holding out against some phases of the plan as too ambiguous. A spokesman said today that the proposals were now considered work support provided they were clarified by suitable amendments.

Delegates speculated that Eden reported to Eisenhower on the results of the conferences among the 21 sponsors of a resolution backing up the unified command's refusal to send back Red prisoners of war who say they don't want to go home.

Soviet Foreign Minister Andrei Y. Vishinsky angrily rejected the West's resolution and V. K. Krishna Menon of India has now come up with a plan he hopes will bridge the gap.

The U. S. has held the Indian plan vague and ambiguous in that it did not spell out how a four-power neutral caretaking commission, proposed in it, would actually handle 132,000 prisoners from both sides. It also appeared to leave final disposition of the prisoners to a political conference.

Poland, Czechoslovakia, Switzerland and Sweden are the proposed commission members with the right to name a neutral umpire if they, too, deadlock.

The U. S. is now understood to have agreed to back the plan provided these ambiguities are cleared up. What effect this will have on the 21-power resolution, which is also before the political committee, was not immediately apparent.

Texas Columnist Is Given Merit Award

WHITE SULPHUR SPRINGS, W. Va., Nov. 20 (AP)—An 85-year-old man who waited until he was 65 to break into the editorial end of the newspaper business received an award of merit here today.

He was Judge A. W. Neville, an active, 115-pound columnist for the Paris (Tex.) News.

The award, made at the opening session of the 49th annual three-day convention of the Southern Newspaper Publishers Assn., was presented by the American Association of State and Local History.

Neville, who acquired the title of judge for serving two terms as Paris city court judge 44 years ago, was "by and large a printer until I got to be 65."

After that the bright-eyed Neville was shifted to the editorial department where he started a five-day a week column called "Backward Glances," a semi-historic enterprise.

For his column, Judge Neville and the newspaper which publishes it were cited for making "distinguished contributions to American local history."

Neville was born in Salem, Va., and plans to return there Friday for the first time in 73 years.

"Although I'd done some writ-

ing," Neville said, "I probably wouldn't have been shifted to the editorial department if they hadn't thought the job of being composing room foreman was too much for me. Now, look!

"Retire? They'll have carry me out before I quit."

Mrs. Frances Ogdon Stubblefield of Charleston, W. Va., presented the welcome to those attending the first SNPA business session.

Printed reports by association officers and chairmen of 12 committees covering most phases of newspapering also were presented.

The reports followed the election of new members.

Those proposed for membership were:

Sarasota (Fla.) Journal; Morristown (Tenn.) Sun; Strasburg (Va.) Northern Virginia Daily; Hazard (Ky.) Herald; Roanoke Rapids (N. C.) Herald; Jacksonville (N. C.) News and Views; Washington (N. C.) News; Weirton (W. Va.) Times; Ft. Pines (W. Va.) Register; Corinth (Miss.) Daily Corinthian; Sayre (Okla.) Headlight; Crestview (Fla.) Daily Journal; and Corpus Christi (Tex.) Caller Times.

Expense Report Provision Due Test In Court

AUSTIN, Nov. 20 (AP)—An election suit filed here may force a precedent-setting legal interpretation of the new Texas Election Code's expense reporting provisions.

Constable M. M. Thorp of Precinct 3, Travis County, a two-time loser for re-election contested the election of A. W. Murchison and said he (Thorp) was elected by 29 write-in votes.

Thorp's petition claims Murchison failed to file a required expense report on time last May prior to the July 26 Democratic primary and said Murchison's name was illegally on the ballot.

Thorp received 29 write-in votes in the general election of Nov. 4 while Murchison got 24,956. There was no Republican candidate.

Horace Shelton, attorney for Murchison said yesterday he would fight the case to the State Supreme Court if necessary.

The court last June declined, in a Harris County case, to rule on the election law expense report provisions on the grounds that it was a party affair and the court did not have original jurisdiction.

The fact that this suit involves the general election instead of the Democratic primary leads observers here to believe a ruling would be forthcoming if the case reaches the State Supreme Court.

Lawyer Could 'Buy' Cop, Witness Says

HOUSTON, Nov. 20 (AP)—Herman Dayton Worsham, 29, testified in Federal Court here that Attorney James J. Shown once told him that he could "buy off" Police Lieut. Arch Spradley.

Worsham, a government witness in a Federal Court interstate auto theft trial, told the court that "Shown said he and Spradley were just like that and he could buy him off and everything would be all right."

The witness held up his first and middle fingers, clasped tightly together, when he said "just like that."

Shown is a defendant in the trial

and Spradley is head of the Houston Auto Theft Bureau. Contacted by reporters at his home, the lieutenant said Worsham's testimony was ridiculous.

Worsham, his cousin, Fred R. Worsham, 31, and Michael Lynch entered pleas of guilty Monday when the trial opened. That was the same day that S. F. McGee Jr., 22, testified he had been told that Shown was making policy payoffs of about \$200 weekly.

Besides the trio which pleaded guilty and Shown, Robert E. Hyser and Miss Mary Wainwright are on trial under similar charges, conspiracy to transport stolen automobiles across a state line.

Dayton Worsham's first mention of Shown and Spradley yesterday came when he told of a meeting last February at the Worsham Motor Sales Company. He said his cousin, Fred, offered a plan for stealing cars and giving them motor numbers from wrecked and junked autos.

Later he said Shown came back to the used car lot and "told me everything was all set on his end as far as Lieut. Spradley was concerned."

He testified Shown told him not to pick up too many cars in Houston because it would put too much pressure on him.

He also testified he, Hyser and Miss Wainwright went to Oklahoma City last March and stole two autos which Fred Worsham had sold to dealers there a short time before.

Both cars, he said, were driven back to Houston.

Biffle Seeking To Leave Capitol Hill

WASHINGTON (AP)—Secretary of the Senate Leslie L. Biffle said today he is thinking of retiring after 44 years in Capitol Hill.

Biffle's job will be forfeited to the Republicans when they take over control of the Senate in January. Indications are that J. Mark Trice, present secretary to the minority, may be picked for the job.

Biffle, who is 63, told reporters he has no plans for the future except to take a long vacation.

There were indications, however, that the Democrats would ask him to stay on as director of their Policy Committee, or in some other post.

Segregation Invalidated On Buses Crossing State Line

RICHMOND, Va. (AP)—Segregation of white and Negro passengers on buses running between states has been declared illegal by a Federal District Court here.

The decision yesterday came a week after the U. S. Supreme Court declined to review another ruling by the same District Court which invalidated segregation on interstate railroad travel.

The prior ruling established the precedent that led to Judge Sterling Hutcheson's decision in the bus segregation case.

"If such regulation (requiring segregation) issued by a railroad is invalid, it necessarily follows that its adoption by a bus company would not make it valid," said Judge Hutcheson.

The decision resulted from a case brought by J. B. Williams, a Negro of Spring Hope, N.C. Williams charged he was put off a bus operated by the Carolina Coach Company—better known as Trailways Lines—when he refused to move his seat while on a trip to Norfolk Sept. 4, 1950.

Arrested on a charge of violating North Carolina's segregation ordinance—the charge later was dismissed—Williams sued for \$50,000. Judge Hutcheson awarded him \$231 in compensatory damages.

Martin A. Martin, Richmond Negro attorney for the National Association for the Advancement of Colored People who represented Williams, said the decision will bring about the abolition of segregation on common carriers throughout the South.

The company postponed a decision on whether to appeal the ruling until a formal order is entered in a few days.

Organism Specimens To Aid In Study Of The Deadly Red Tide

HOUSTON, Nov. 20 (AP)—John F. Howell, U. S. Fish and Wildlife Service Biologist, arrived here by plane last night with specimens of organisms taken from the mysterious "red tide" off the coast of Florida.

Howell was met by Albert Collier, chief investigator of Gulf Fishery Investigators at Galveston, which is studying the fish-killing "red tide."

Collier described the organisms as one-celled protozoa called "dinoflagellate." He said they would try to keep the specimens alive in Galveston to find out how they kill fish.

Soviet Warning Over Lie Successor Noted

MOSCOW (AP)—The Soviet magazine New Times today warned the Western Powers that in considering a successor to Trygve Lie as U. N. secretary general they must steer clear of attempts to put the U. N. in the service of the imperialist interests of the Atlantic bloc.

If this is not kept in mind, the New Times added, the result will be "sad." Any such Western efforts are "destined to fail," it declared.

Bankers To Learn About Farm Loans

COLLEGE STATION, Nov. 20 (AP)—Texas bankers will meet here Dec. 7-10 to learn more about making loans to farmers.

It's the second annual Texas Farm and Ranch credit school for commercial bankers more than 200 are expected to attend.

"This school was started last year with the purpose of assisting bankers of the state to acquire a better understanding of the needs for farm credit under modern conditions," said Dean C. H. Sheppard of the Texas A&M School of Agriculture.

"It was also hoped that it would afford a better understanding of the requirements for successful operation as a basis for such credit. The hearty and widespread acceptance of the school last year and the requests for its continuance have been most encouraging."

One Way To Avoid Drunkenness Charge

STRATFORD, England (AP)—A man charged with driving while drunk was acquitted in court yesterday after protesting that the police doctor who examined him was under the influence of liquor.

The defense presented another doctor as a witness. He testified that when he shook hands with the police surgeon, the latter smelled strongly of alcohol. The police doctor denied it.

The court held the defendant did not get as full an examination as he was entitled to for such an offense as drunken driving.

\$30,000 Start To Married Life For Korea Hero

SAN BERNARDINO, Calif. (AP)—It's not every young bride and groom who get \$30,000 to start housekeeping on. But then, not every bridegroom is a Medal of Honor winner.

The fund has been pledged to San Bernardino's own hero, Army Lt. Joseph Charles (Chuck) Rodriguez, 24, and his sweetheart, Rose Aranda, 22, of Colton, Calif.

They will be married Saturday, with a reception to follow in the high school cafeteria, the only place big enough to accommodate all the townsfolk who wish to come.

The couple will leave on a Mexican honeymoon arranged by Southern California language newspapers. In Mexico they will be entertained by President Miguel Aleman.

When they return home Dec. 17, a citizens' committee intends to hand them a check for \$30,000. The "House for Chuck" campaign will swing into high gear after the wedding.

Rodriguez, now stationed at Norton Air Force Base here, won the Medal of Honor in Korea as a private first class. He was cited for "an incredible display of valor" in charging up a hill to wipe out five enemy gun positions, killing 15 Communists with hand grenades.

Hollywood Best Get Set For The Doctor

By MILTON MARMOR LONDON (AP)—Storm warning for Hollywood!

Acid-tongued poet-historian-lecturer Dr. Edith Sitwell sails tomorrow for the cinema wilderness to write a film script of her book "Fanfare for Elizabeth."

Dr. Edith gave a tea at Claridges yesterday to acquaint the literary world with the fact.

A group of dazed newspaper writers staggered back into the wet streets of London not certain whether they were here or in the 16th century.

The statuette Miss Sitwell appeared in a black gilded cowl ("I resemble Henry VII strongly—he was an ugly old man") and a black bombazine floor-length dress, and sported long gilt finger-nails. She also wore a topaz ring some two inches square, and on her wrist were two huge gold bangles.

"I love horror," she explained sweetly. She did say she was a bit worried about Hollywood because George Bernard Shaw once warned her that film people are the greatest wolves. She insists she is 81 years old but reference books contend she's only 65.

"My first scene," she wants Hollywood and Columbia pictures to know, "will be most appallingly morbid. Murder hovers around, and there will be an absolutely superb scene in a hospital for leprosy virgins."

She's not disturbed about censorship—"The patients will be dressed as nuns."

Miss Sitwell lists her recreation in "Who's Who" as "silence." She was out of character at yesterday's tea.

She plans to work in bed. Here's her schedule:

Up at 6:30 for some writing and waiting for tea at 7:30. Breakfast at 8 work until coffee at 11, then rest in bed writing until lunchtime, when she dresses.

Then a bit of air and back to bed. No work in the afternoon while she waits for testime.

"In the evening I hardly ever get up unless there's some party which I think I'll enjoy wildly."

"In any case, I'm in bed again by 10 p.m."

"The studio won't get anything out of me if they try to drag me out of bed."

The film story is about Elizabeth I until the age of 3. It mostly concerns her mama, Anne Boleyn.

Extradition Fight Is Due From Binion

CARSON CITY, Nev., Nov. 20 (AP)—Las Vegas Gambler Benny Binion filed notice yesterday that he would fight his ordered return to Texas by an appeal to the Ninth Circuit Court of Appeals in San Francisco.

Binion, who so far has evaded three Texas attempts to take him back to Dallas for trial on state charges of gambling, was ordered back to Texas last week for trial on income tax charges. Texas officials have said they will hold him for trial on the gambling charges if he is brought back on the federal charge.

The gambler has been under state indictment in Dallas for more than two years on charges of operating a rich policy racket.

He beat the first Texas extradition attempts with technical rulings by Las Vegas courts. Then the federal government tried to get him to Dallas by indicting him on charges of underpaying his 1949 income taxes. Binion outmaneuvered authorities on that charge, too, by pleading no contest to the charge in Nevada's federal court.

This was followed by a second federal indictment in Texas in connection with his 1948 income taxes, and it is on that indictment that Judge Yankwich ordered the gambler's extradition last week.

At Any Rate Army Says It Has It Right

BATTLE CREEK, Mich. (AP)—Official papers on file at the Army's Ft. Custer say Pvt. William John Tilley is being held in the guardhouse on charges of going AWOL.

But William, 22, is at his Detroit home attending to a concrete contracting business, while his 19-year-old brother Joseph sits in the guardhouse.

That is as it should be, Army officers ruled yesterday, because it was Joseph who deserted last September. William was discharged in 1946, only the Army thought then he was Robert Tilley.

The mixup goes back to the war year of 1944, when 14-year-old William Tilley wanted to get into action. He was too young, so he assumed the identity of his brother Robert, who had been dead several years.

William (or Robert) joined up and served two years before being honorably discharged. He was married and the father of a son when his draft summons arrived in June.

At that point younger brother Joseph decided to help out and went into the Army as William. Three months later, officers said, he decided he didn't like Army life and returned home to become Joseph again.

So when military police went to Detroit last night to arrest William for being AWOL, it was Joseph they brought back with them.

Officers at the fort decided Joseph should take the punishment for desertion. They didn't say whether any action would be taken against William for using false identification when he enlisted.

But there was a strong possibility that eventually the whole tangle might be sent to the Pentagon for a final ruling.

Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many folks complain of nagging backache, headache, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's gives happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

New World Speed Record Set By F-86D Jet At 699.9 MPH

THERMAL, Calif. (AP)—A roaring, flame-spewing F86D Sabre jet plane piloted by Capt. J. Slade Nash of Edwards Air Force Base has established a new unofficial world speed record—699.9 miles per hour.

Capt. Nash, 31, whose home is in Menville, Ia., made four low-level passes yesterday over a measured three-kilometer course at the edge of the Salton Sea, 235 feet below sea level. His performance was made under rules of the Federation Aeronautique Internationale and the National Aeronautics Association, which must verify it before it becomes official.

In shattering the record for operational aircraft in the North American all-weather interceptor, Capt. Nash topped the 670.981 miles per hour mark set last Sept. 15 by Maj. Richard L. Johnson at Edwards AFB. Johnson used an earlier Sabre model, the F86A.

At his top speed Capt. Nash's plane nosed toward the dangerous compressibility of the sonic wall. The speed of sound in the 75-degree temperature of the lake shore was about 775 miles per hour at the time of the test runs in the Imperial Valley.

The rules under which the flight was made specified that the plane must not fly higher than 1,640 feet. Actually, Capt. Nash made the four passes at not more than 100 feet off the sun-swept earth of the eastern shore of the inland sea. He was monitored by four T28 training planes and timed with high speed movie cameras and a special chronograph system.

The North American Sabre carried 24 rockets in a retractable launcher and weighed about nine tons. It was powered by a General Electric turbojet with afterburner

developing in excess of 5,700 pounds thrust.

Capt. Nash's wife Glens, mother of three young daughters, was at the field to see her husband set the record. She appeared calm but she admitted to "plenty of nervousness" and said she was

glad when it was over.

Nash himself said there was little rough air to contend with "despite the low altitude." "I experienced some mild shock waves," he told newsmen. "They were like streaks of lightning around the canopy during the runs."

This is normal, however, at high speed. He said he was completely satisfied with his plane's performance.

Statistical Lapse Helps Straus Explain Say In Macy's Profits

By J. A. LIVINGSTON
 Jack L. Straus, president of R. H. Macy & Co., can count himself fortunate that a sharp-penciled, quick-thinking statistician wasn't at the company's annual meeting of shareholders at the Hotel Statler, New York. President Straus had a bad enough time as it was.
 Lewis D. Gilbert, America's one-man Stockholders' Vigilante Committee, wanted to know why Robert Montgomery, stage, screen, radio and TV big shot, was named to the Macy board of directors. Straus said that Montgomery was an "able citizen." Gilbert said it would be more to the point if he were an able merchandiser.
 A woman shareholder blamed her ill health on the earnings and dividend record of Macy's in recent years. "Every time the stock goes down my blood pressure goes up," she complained.
 Straus pointed out that although Macy's operating earnings were only 98 cents a share in the year ended August 2, as against \$2.51 a share in the preceding year, a turn had taken place. In the quarter ended November 1, net equaled 83 cents a share as compared with 55 cents in the corresponding three months of 1951. He said directors were anxious to get the 40-cent quarterly dividend up to its former level of 30 cents.
 Then Straus theorized that Macy's

had a tougher task than most department store chains. Its biggest store is in New York, and New Yorkers don't buy like people in other cities. He supplied some statistics to support his thesis. That was an error.
 Some of Macy's statisticians eager to explain the lag in earnings, had discovered the recent study of the Bureau of Labor Statistics on

family expenditures in various cities, and decided:
 1. That New York families spend 57 per cent of their income after taxes on "housing, fuel, light, refrigeration, food, and alcoholic beverages," which left only 43 per cent to spend on other things, including items which department stores depend on, notably clothing and home furnishings.
 2. That the average urban family

elsewhere spent only 45 per cent of its net income on housing, fuel, food, etc., leaving a big 55 per cent for other things.
 Pressing home the point, Straus said:
 "New York department stores faced and continue to face the handicap of maintaining and increasing sales to consumers who have almost 12 per cent less of their income to spend for department store goods than city dwellers elsewhere.
 That's a statistical miscue. The difference is only 2 percentage points. Somebody looked at the wrong table in the BLS report. True, 45 per cent of the money families spend on goods and services goes for food, alcoholic beverages, housing, fuel, light, and refrigeration. But the comparable figure for New York is not 57 per

cent but 47.2 per cent. Here's the story—city by city:
 New York 47.2 pct.
 Chicago 44.4 pct.
 Los Angeles 42.8 pct.
 Philadelphia 48.1 pct.
 Boston 53.2 pct.
 Pittsburgh 47.1 pct.
 Minneapolis 43.3 pct.
 Kansas City 42.6 pct.
 Portland, Ore. 42.3 pct.
 Canton, O. 42.3 pct.
 Charleston, W. Va. 37.8 pct.
 Lynchburg, Va. 47.2 pct.
 Grand Forks, N. Dak. 47.7 pct.

What is far more meaningful to Macy's and other merchants is that 17.7 per cent of the average New York family's net income goes for clothing and home-furnishings. And since New York income per family is above average for the nation, New York department stores have a higher potential market per family than stores elsewhere. The following table shows the proportion of net income spent in 1950 by families on clothing and home furnishings and the dollar amounts — note that in dollar totals only Chicago and Charleston, W. Va., outranked New York:

City	Proportion	Amount
New York	17.7 pct.	\$906
Chicago	18.9 pct.	\$62
Los Angeles	17.8 pct.	\$43
Philadelphia	18.0 pct.	\$88
Boston	17.3 pct.	\$78
Pittsburgh	18.4 pct.	\$43
Minneapolis	17.3 pct.	\$93
Kansas City	17.4 pct.	\$50
Portland	17.2 pct.	\$89
Canton	18.2 pct.	\$31
Charleston	18.5 pct.	\$24
Lynchburg	16.4 pct.	\$64
Grand Forks	18.5 pct.	\$44

 Straus hasn't proved his case that Macy's has had hard going because

New Yorkers buy differently from people elsewhere. After all, those same New Yorkers for so many years did mighty well at Macy's and vice versa. So it's reasonable to infer that there must be another explanation. It could be that New Yorkers have not been helped as much by defense as people elsewhere. But that requires an altogether different type of statistical analysis.

Morse Says War Can Be Ended In UN

PITTSBURGH (AP)—Sen. Wayne Morse of Oregon, commenting on President-elect Dwight D. Eisenhower's proposed inspection trip to Korea, says, "You're not going to settle that Korean War in Korea." Morse, who bolted the Republican party and withdrew his support from Eisenhower in the November election, made that comment in a speech last night to a Pittsburgh Israel bond drive dinner. He added:
 "You're not going to perform any miracles by any visitation of anyone to Korea. You're going to settle the Korean War in the United Nations—nowhere else. And you're going to do it by negotiating, not with Soviet Russia, but with your allies, for unity."
 Morse said a "military state of mind in this country has gone too far in the thinking that a third world war is inevitable." He declared:
 "If you let the military group go unchecked, World War III will become inevitable."
 The Oregon senator said America is losing friends because there's a "growing wave of economic isolation sweeping the country."
 During the next few weeks, Morse said, he intends to "document sources of some of the war danger in high places."

Russell Urged To Guide Democrats

WASHINGTON (AP)—Sen. Richard Russell of Georgia and some other Senate Democrats would guide the Democratic party over the next four years if South Carolina's Sen. Burnet Maybank has his way.
 Maybank told newsmen yesterday he does not recognize Adlai Stevenson, the defeated Democratic presidential candidate, as titular head of the party until the next presidential election.
 Maybank, who favored Russell for president this year and says he would again in 1956, said he includes himself among the other senators he described as "caretakers of the party."

TO GET MORE DOCTORS

Military Medical Probe Suggested

By FRANK CAREY
Associated Press Science Reporter
WASHINGTON (AP)—The president of the American Medical Association says many doctors are refusing to volunteer for military service because they feel too much of

their time is wasted treating wives and children of armed forces members.

Dr. Louis H. Bauer of Hempstead, N.Y., called upon the services to find out how much time military doctors spend caring for dependents because, he said:

"Questionnaires sent to (medical) men on leaving the services cite this frequently as a cause of resentment—namely that they have been drafted from civilian life to take care of other civilians."

In urging an investigation by the armed forces, the AMA leader said yesterday in an address prepared for the 59th annual meeting of the Association of Military Surgeons of the United States:

"The necessity for extension of the doctor draft law will depend in part on the answer to this question."

Dr. Melvin A. Casberg, chairman of the Armed Forces Medical Policy Council, said yesterday doctors up to 51 years of age without veterans' status may be drafted early next year unless the present outlook in doctor supply improves.

At another point in his talk, Dr. Bauer asserted:

"The medical services of the armed forces are still suffering from unfavorable reactions, the result of the last war."

"There is no doubt that doctors were wasted at that time. Many were kept weeks and months in mobilization camps doing little. Others were assigned to duties of a nonmedical nature."

"Many, in fact most, of these conditions have now been largely eliminated. Unfortunately, this is not widely known. Former officers have tended to discourage men from going into the services, because of their unfavorable recollections of their own service."

He urged the armed forces to undertake a campaign of public relations among the civilian medical profession.

Imagine, Being Scared Of The Delivery Boy!

WITH U. S. FIRST MARINE DIVISION, Korea (AP)—A four star general delivered a package of goodies to a Marine company cook today after toting it half way around the world.

"Mission completed," said Gen. Hoyt S. Vandenberg as he handed a package of food to Pfc. Nicholas Baldwin, of Minneapolis.

The U. S. Air Forces Chief of Staff became "delivery boy" as a favor to Baldwin's parents whom he met in Europe earlier on his around the world inspection tour of American air bases.

On the first stop of his tour of U. N. ground forces today, Vandenberg met 24-year-old Baldwin at a light plane airstrip.

"I brought a package for you," Vandenberg said. "I think there's some food in it. I hope your buddies don't eat it all up."

Vandenberg shook hands with Baldwin, who was surrounded by a star-studded array of Army, Marine and Air Force brass.

Baldwin said later: "I was plenty shook."

New Hampshire Has Youngest Governor At 35

By ALAN POPE
CONCORD, N.H. (AP)—The youngest governor in the history of New Hampshire, Hugh Gregg, will be 35 when he takes office in January.

More people than ever before voted in New Hampshire the day Gregg led the Republican ticket in getting elected — he even ran ahead of Gen. Eisenhower.

The young attorney has been called the "all-American boy" by newsmen. He is handsome, comes from a well-to-do family, has a pretty wife and two attractive sons.

He was a counter-intelligence agent in the Army during World War II and returned home to be elected his city's mayor.

When Gregg took over as mayor of Industrial Nashua, the city seemed about finished as a center of high employment. But he, with aid from his father and a group of businessmen, organized the Nashua Foundation and attracted many out-of-state businesses to settle there.

After his term as mayor, Gregg was recalled to active Army duty. He served a year and a half and then resumed his private law practice.

He was persuaded to run for governor and won a smashing victory in the primary over three candidates, two of whom were older and more experienced in politics. One had served two terms as governor.

Gregg in action—on the speaker's stand or at a political rally—is a natural. His good looks are a help; he has great presence of mind and enthusiasm and is quick to turn a phrase.

In his platform he came out flatly for no sales or income taxes in the state. He promised to do what he could to get more industries into New Hampshire.

Gregg was graduated from Yale in 1939 and from Harvard Law School in 1942. He lives quietly with his wife and son in Nashua, where he raises Newfoundland dogs. He neither smokes nor drinks.

Defense Buildup Must Be On Even Keel Says Lovett

NEW YORK (AP)—Secretary of Defense Robert A. Lovett says this country should find an "acceptable cruising speed" in our defense effort, instead of "costly ups and downs" dictated by Soviet propaganda.

Lovett spoke last night at an annual dinner of the National Institute of Social Sciences, which awarded him one of its gold medals for distinguished service to humanity.

In discussing the constant menace in the world today, Lovett said:

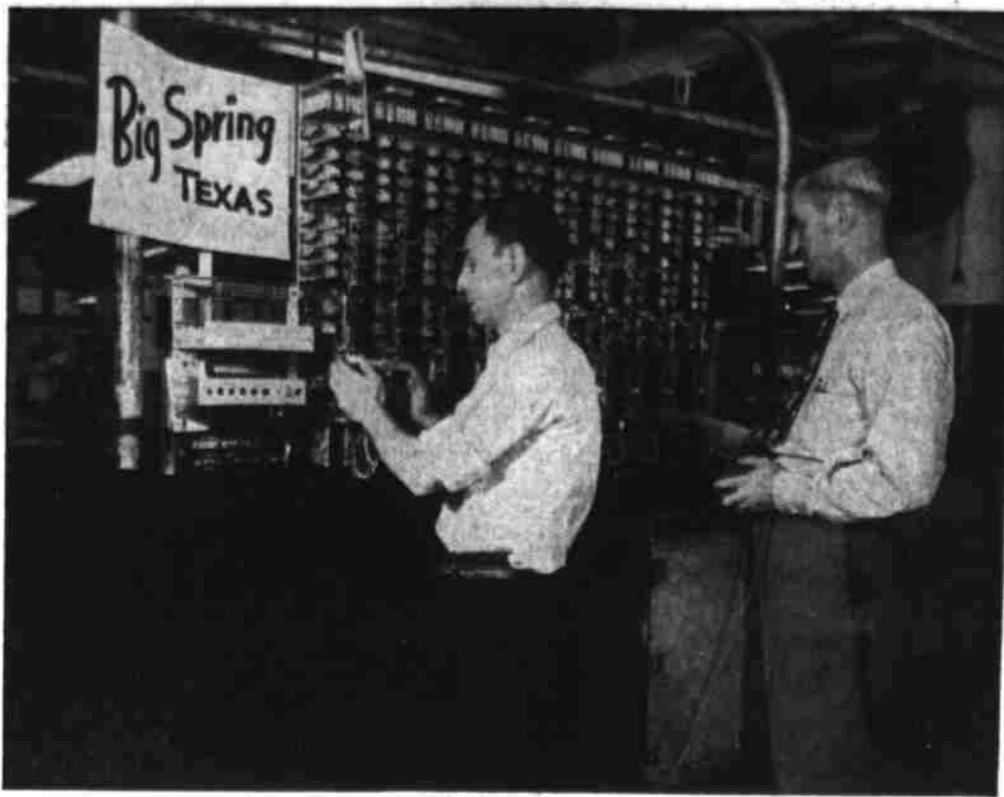

"We must proceed calmly and confidently to develop and maintain the necessary forces without regard to the particular propaganda line taken by the Soviet Union for tactical purposes at that particular moment."

Death Sentence Due In California Murder

SANTA ANA, Calif. (AP)—Convicted of murdering a 15-year-old babysitter last August, Billy Rupp Jr., 18, has been adjudged sane at the time of the crime, making his death sentence mandatory.

Rupp, a Yorba Linda, Calif., beekeeper, was convicted last Thursday of the sex slaying of Ruby Ann Payne. The jury deliberated only 22 minutes yesterday on his insanity plea.

Rupp was accused of molesting and shooting the Payne girl while she was caring for the children of Perry Dyer, his employer.

Jap Executioner During War Is Treason Witness

NEW YORK (AP)—A new interpreter was called into Federal Court today to handle the testimony of one of the Japanese executioners of a captured U. S. Army captain on Corregidor.

The witness is Saitaro Fujita, 32, a wartime sergeant now serving 30 years in a Tokyo prison as a war criminal for the slaying of Capt. Burton C. Thomson of Sweet City, Ia.

Fujita, brought from Japan as a government witness at the treason trial of John David Provo, began his testimony yesterday through an interpreter, Robert M. Kamide.

The defense attorneys objected to some of the translation of Fujita's testimony concerning Thomson's death and Provo's actions on Corregidor.

Provo, 35-year-old former U. S. Army sergeant who was captured on Corregidor, is accused of betraying Thomson to the Japanese and of selling out other fellow prisoners to their captors.

Fujita, head of the firing squad which executed Thomson, allegedly after a final quarrel with Provo, testified his superiors told him Provo would be of great advantage to them "because he could speak the language very well."

The witness said Provo told of a prewar visit to Japan to study Buddhism. "He pleaded that I would work for the Japanese forces," Fujita said.

Currently the company is making an inspection of the outside lines and cable network stretching over the city.

Before the dial system is put into operation, a number of miles of wire to the outside cable web will be added to try to bring service to all who have requested it, Fisher said.

When the switch-over to the new system is made, the telephone service will be equal to the best in the world, Fisher declared.

New Manufacturing Firm Set Up Here

Big Spring received a new manufacturing concern this week with the opening of the Ray-Vent Awning Company. It is located at 1220 West 3rd Street.

Don Deel, manager, said that metal aluminum awnings would be made to requested specifications. He claims the awnings, which can be ordered in any color, will last as long as the buildings to which they are attached.

The local plant is a branch of the main headquarters in Glenrose, and another plant is located in Fort Worth. Deel has been associated with the firm for 2 1/2 years.

The awnings will be sold wholesale or retail, in any size and any quantity, Deel said. Free estimates will be made on homes in a 60-mile radius without charge.

Deel attended school at Hardin-Simmons University and at Tarleton. He is married and has two children. The family resides at 1206 East 15th.

Personal Standards And Politics Differ

SAN ANTONIO, Nov. 20 (AP)—Some persons judge political actions by a different moral standard than they follow in their own behavior, a political science expert believes.

"People of good personal morals," Le Roy Ferguson of Michigan State College said yesterday, "are staunch supporters of Senator Joe McCarthy."

Ferguson was speaking at one of the closing sessions of the National League of Municipalities' 58th conference on government. He is a political science professor at Michigan State.

He and five other political science experts and a magazine writer participated in a panel discussion of "elections and political morality."

About 1,000 persons registered during the three-day conference and five concurrent sessions were held Wednesday, last day of the meeting.

Recurring theme that cropped out repeatedly in the political science discussion was that increased citizen interest in public affairs is the best guarantee of better government.

Writer Leslie Velle defended politicians, saying many would do a good job if left alone to do it. "Who are the real corrupt politicians—the office holders or the businessmen who bribe them?" Velle demanded. He said many lawyer-legislators see nothing wrong with the practice of accepting retainers from firms with political axes to grind.

"Yankee money" was blamed by H. C. Nixon of Vanderbilt University for racial issues in the South. He said an important fact of shoddy politics is unrevealed campaign funds for unrevealed issues.

Louisiana State University's Prof. William Havard slapped at party nominees who support the candidate of another party. He noted however that for the rank and file party lines should remain fluid.

Brooklyn College's Belle Zeller rapped some practices of members of Congress and said personal standards or morality should govern.

ern political conduct. It was after Miss Zeller's statement that Ferguson said different moral standards were followed. J. E. Reeves of the University of Kentucky favored more voter participation in party affairs including a citizen's group of poll watchers.

Forsan Study Club To Have Hobby Show This Evening

FORSAN, (Sp) — The Forsan Study Club is sponsoring a hobby show Thursday evening from 7 to 9 in the music room at the school. The showing will include art, antiques, unusual objects of many kinds and hobbies, according to Mrs. O'Bar Smith.

Mrs. John Cardwell entertained the Pioneer Sewing Club in her home Tuesday afternoon. Ten members attended.

Mrs. T. T. Henry will be hostess to the group Dec. 2.

Mr. and Mrs. John Sweeney, Mike, Carolyn and Nancy were in Dallas the past week end, returning home Sunday night. They were called to Dallas by the illness of Mr. Sweeney's mother, Mrs. M. B. Sweeney, who died there Monday. The family left immediately for Dallas after receiving the message Monday morning.

Does that tell-tale look on your face say change of life?

A great many women suffer "change of life" after forty. They tire easily, have "nerves", sleep poorly, are hard to live with. Their eyes and face get that "change" look. Cardui has helped thousands of women to lose that "change" look. Cardui acts to (1) improve appetite, (2) tone build strength and resistance, (3) ease tension and nervousness—sleep better. Let triple-action Cardui help you feel better, look better and be your normal, cheerful self again. Get Cardui today. (Say: "card-gee-ee").

CARDUI MONTHLY GRANTS CHANGE OF LIFE

New Pastor, Wife Arrive; WSCS To Have Program

GARDEN CITY, (Sp) — The Rev. and Mrs. W. W. Kitterman have arrived in Garden City and he has assumed his duties as pastor of the Cumberland Presbyterian Church.

The Rev. Kitterman will devote half of his time to the evangelistic field.

He was born in Nebraska but was reared in Missouri, where he received his training at South East Missouri and at Bethel College in McKenzie, Tenn. He has pastored churches in Tennessee, Mississippi and Texas and came to Garden City from the First Cumberland Presbyterian Church of Ft. Worth.

A private plane is used for his evangelistic work which the Rev. Kitterman has carried on in Missouri, Oklahoma, Kentucky, Tennessee, Mississippi, Arkansas, Illinois, Louisiana, Alabama and Texas.

The Kittermans have only one daughter, Mrs. M. A. Alexander, a student at Bethel College.

Plans were made for a special Thanksgiving program when the WSCS met with Mrs. Edward Bryans Monday afternoon. The program and a social will be at the same hour next Monday afternoon, in the home of Mrs. Weldon Parker, with the ladies of the Presbyterian Church as guests.

Mrs. Roy Carter, Mrs. Bryans, and Mrs. W. K. Scudday will plan the program. Serving on the refreshment com-

mittee are Mrs. Tom Asbill, Mrs. J. P. Boswell and Mrs. Weldon Parker.

Mrs. J. P. Boswell opened the meeting with prayer and Mrs. Carter brought the study. Mrs. E. M. Teele, a guest, led the closing prayer. Lora Medlin was also a guest. Refreshments were served.

Mrs. E. T. Williamson Sr. and Mr. and Mrs. E. T. Williamson Jr. and children of Lyle were week-end guests of Lora Medlin.

Thanks A Lot To All Who Had A Part In The Bloodmobile Project

By the time you read this, the Bloodmobile will have ended its current stand in Big Spring. We are hoping that the final results will not be far short of the 650-pint quota assigned the Howard-Glasscock chapter.

It has been somewhat of a travail to obtain sufficient donors. Many failed to understand about the Bloodmobile, and many held back because of some false fear in connection with giving blood. Actually, yielding a pint of blood seldom ever had an adverse effect on a donor who was in good condition. Sometimes donors faint, but that doesn't make any difference and it is certainly no reflecting on their constitution or courage. Veteran donors now and then get a little faint, but they bounce right back.

Dragging Interim From Election To Inauguration Should Be Cut

Senator William Fulbright of Arkansas, a principal adviser of Adlai Stevenson in the recent campaign, has declared that if the new Republican administration wants to shorten the period between the election and the accession of a new government, he will support it. Anything effective, of course, would call for a constitutional amendment.

pecting a settlement of the Korean issue, for a shining example, knowing that the incoming administration might repudiate them or fail to fulfill them. And yet a settlement might depend on some action that would have to be taken before January 20.

The senator thinks the present lapse of 80 days is too long, and in the present world crisis might prove dangerous. This view must be shared by many. By the slow and cumbersome election system under which we operate, General Eisenhower's election won't become a reality until the presidential electors meet in their various states on December 15 and formally confirm the results of the November 4 balloting. Congress meets January 6, but the inauguration of the new President won't take place until January 20.

This virtual paralysis of effective action is no fault of the President or the President to be. It is aggravated by the long interval between election and inauguration. The White House conference yesterday between Messrs. Truman and Eisenhower was a well-meant and let us hope worthwhile step toward tiding things over until January 20. Mr. Truman can delegate no authority to his successor, unless he fired Dean Acheson and made Mr. Eisenhower secretary of State until January 20, and this of course would be no solution to the basic problem, even granting that such an arrangement would be satisfactory to Mr. Eisenhower, which is extremely unlikely.

These Days—George Sokolsky

Red Agent Reports Writer Was 'Taken Care Of' By Smearing

It is not often that events unfold which throw light on a perplexing personal problem years after it no longer matters. For a prolonged period after 1937, things happened to me. Before then, I had written a large number of articles for "The Atlantic Monthly" and occasional articles for other magazines. Suddenly no magazine in the United States would purchase anything I wrote. I could not get work on the radio.

to the columns of hundreds of American newspapers, was also a subject for discussion that day. "Gibart opined that both men 'were being taken care of.' Hadn't I noticed, he asked, how so many other writers had gone out of their way to take cracks at such persons? He smiled proudly, Sokolsky in particular, he confided, was an old target. He boasted how American 'friends' had taken care of Sokolsky by using their influence with such Senate Committees as the Nye Munitions Probe Group and the La Follette Labor Rights Committee. These groups, he chortled, had been led out of their way to take cracks at Sokolsky's activities. It was easy for me to see how the leading had been done.

I had been accused by the Nye Committee of trafficking in arms for Japan which was obviously untrue as I had never bought or sold arms, individually or on a large scale for myself or anyone else, much less Japan. I was smeared without benefit of a hearing by the La Follette Committee. Curiously, I noted at the time that some of my best friends believed that where there was so much smoke, there must be fire, but they never asked who built the fire.

Under the carefully guarded pen name of Gordon Rend, I had exposed how the La Follette Committee had been penetrated by such subversive agents as John Abt and Charles Krivitsky, known then later both Elizabeth Bentley and Whitaker Chambers were to confirm my story by their own recollection and Chambers, in his monumental tilt with Alger Hiss, was to force into the open the fact, among many more amazing, that the Soviet's man Alger Hiss had been playing on the red team while serving in a key position on the Nye Committee. Gibart was not idly boasting when he explained how the party could use the Senate Committees to hurt anti-Communists."

I knew who built that fire. I actually overheard some of them talking about what they were going to do to Sokolsky. I have a copy of the letter that Mrs. Clifford Durr, sister-in-law of Justice Hugo Black, wrote to the editor of "The Atlantic Monthly." I knew then what Alger Hiss, John Abt, and Charles Kramer (Krivitsky) planned to do to me.

Actually, Gerald Nye, Senator from North Dakota, had no idea what all this was about. He was a Republican, a conservative, an American Firster, a pacifist. When he organized his Committee in the Senate to investigate the cases of war, he did not suspect that the Harold Ware Cell was using him as a front.

City Is Now Ready For A Catastrophe

MADISON, Wis. (AP)—If this city is ever to have a first-rate catastrophe, Tuesday night would probably be the best time because almost 150 radio hams are mobilized for just that purpose. The group, under the direction of Jerry L. Dame, poses a weekly problem involving a city-wide breakdown in communications and then proceeds to solve it. Sometimes the "hams" act as agents of the civil defense department or the Red Cross. Actually they are the Four Lakes Amateur Radio Club.

Listening To After Dinner Speakers Has Become 'Mass Self-Punishment'

NEW YORK (AP)—America is becoming a nation of after dinner speakers. It might be a good idea to put a government bounty on them right now or there won't be an ear in the land left unbent. As a people we always have had an outspoken admiration for the gift of gab. But the idea used to be that the gab had to be good. That noble standard of criticism has gone the way of vaudeville.

There are a few isolated cases of rebellion against this spreading submission to mass torture. Recently a friend of mine, revolting against another night at one of these post-coffee hour culture barages, told his wife, "Honey, do we have to go? I'd even rather stay home and listen to you all evening." "Why, darling, let's do stay home," said his delighted wife. "It's been years since you paid me so sweet a compliment." Could this point to a trend?

This Day In Texas

Sam Houston started making arrangements to get Santa Anna out of Texas on this day in 1836. Thus to send the captured Mexican commander away virtually a free man took courage, undoubtedly only a few days before, Houston had heard the prisoner called to Congress "the slayer of our friends and brethren—the pirate, the robber—the all-horrible demon in human shape." One element of Texans had clamored for his immediate execution almost since the day of San Jacinto.

Gettysburg Address Didn't Excite The Country Much

By ARTHUR EDSON (For James Marlow) WASHINGTON (AP)—Eighty-nine years ago yesterday, as soon as the Baltimore Glee Club had finished, the tall homely man pulled a paper from his pocket and began to read a speech in his high, unmusical voice. The crowd at Gettysburg, Pa., probably didn't pay too much attention. "Fourscore and seven years our fathers brought forth on this continent a new nation conceived in liberty and dedicated to the proposition that all men are created equal."

New Trial Due For Man Who Went To Sleep In Korea War

FT. MEADE, Md. (AP)—The Army said today it will start a new trial "in the next few days" for Pfc. Warren McConnell, 21-year-old soldier from Alloway, N.J., who was previously sentenced to 10 years at hard labor for going to sleep on his post in Korea. The previous conviction and sentence was set aside by the Court of Military Appeals in Washington. McConnell was accused of going to sleep Nov. 14, 1951, at his post on a main line of resistance held by the 7th Division general court martial in Korea Dec. 10, 1951. He also was sentenced to a dishonorable discharge and the forfeiture of all his pay allowances.

Acheson Recommends

No Matter How You Look At It, You're Still Stuck With A Cold

The germ bugs may be developing a powerful immunity to penicillin and the wonder drugs, the medics suspect. Just like flies and mosquitoes got to where they weren't susceptible to the killer DDT. That may be necessarily bad, but it suggests the possibility of a means of getting rid of all the varmints for good. Why not shoot everybody full of penicillin, and develop the microbes' tastes for the stuff. Make addicts out of the pests. Then quit giving people shots. The germs will all go off their rockers when they can't get their dope.

There are nearly as many remedies as there are colds circulating around. Somebody ought to tell the doctors about them. "Helps maintain normal stomach acidity," it says on the box the pink pills come in. "Drink grapefruit juice with soda in it—that'll do away with stomach acidity," a considerate friend advises. You try 'em both. In about two days you begin to wonder if you've even got a stomach left. "Blow your nose, but don't blow it hard," somebody else offers. You try that both ways too. One way nothing happens and the other way eyeballs and eardrums pop out. You give up and vow you won't ever blow again, one way or the other. Then the schnozzola starts dripping. "Get plenty of rest—in bed," sounds like the soundest and most reliable advice. It's also the most common. But did you ever try it, with a cold in the nose? It's futile. Better fall back on that last little line—see your poor, tired, overworked doctor.

Ike To Be Told Of Plan To Take Troops Out Of Korea Gradually

WASHINGTON—To make good on all the promises that were in his campaign speeches President-Elect Eisenhower would have to be superman in a tearing hurry. The pressure to deliver on the more spectacular and immediate of these promises is one of the heavy burdens the incoming President will carry into office with him. It will ride with him in his difficult and dangerous journey to view the war in Korea at firsthand.

They believe, is working on their side. They have openly predicted our economic collapse, and they are patiently counting on the pressure of a long period of tension to bring about political discord and disension among the western allies. . . . But I firmly believe that our united efforts in Korea and our steadfast progress in NATO have shaken their confidence in this 'cat-and-mouse' waiting game. Steady co-operation and progress can shake it even more.

Sea-Going High Schoolers In Race

NEW YORK (AP)—Students from the ship John W. Brown, believed to be the only floating maritime high school in the United States, held a lifeboat race in the East River recently with two nine-man crews of seniors. The crews raced from 34th Street to 24th Street with a Coast Guard patrol boat keeping pace. The engineers defeated the deck force for the first time in the five years the race has been held.

Animals Lived 'On Rainbow'

The Zulus said little about gods or goddesses when they were visited in early times, but they had a strong belief in spirits. Capt. Allen Gardiner of the British navy made a tour of Zululand 117 years ago, and left an account of questions he asked the natives, and their answers. "When you see the sun rising and setting, and the trees growing, do you know who made them and who governs them?" he inquired.

That animal was an object of fancy, but the Zulus dealt with animals which were real enough. Their hunters brought down lions and leopards from time to time. Spears were the chief weapons in days of old, but the Zulus also used bows and arrows. Some of them employed clubs. The kip-das, or cliff badger, is one of the small animals which the Zulus have hunted for a long time. Before they obtained firearms from foreign lands, they would slip up on cliff badgers and hurl ball-headed clubs at them.

UCLA-Scutthern Cal Game Tops Football Schedule

Teams In Best Physical Trim

LOS ANGELES (AP) — The football teams at Southern California and UCLA eased down a bit in workouts today and, barring the unforeseen, will go into their Pacific Coast Conference championship game in Memorial Coliseum Saturday in near-perfect condition.

The possibility that Southern California's great tackle, Bob Van Doren, may not be able to play cast a pall of gloom in the Trojan camp. Dr. Willis L. Jacobus, team physician, said Van Doren has not progressed satisfactorily from a mild concussion suffered in last week's game against Washington.

"It is quite doubtful whether he will be ready by Saturday," said Dr. Jacobus. X-rays and brain wave tests showed no serious injury, but the big defensive tackle has been complaining of headaches all week.

The battle, with the winner heading on to Pasadena and the Rose Bowl engagement with the Big Ten representative, still shapes up as an even struggle between a pair of teams unbowed and united in eight games apiece.

If either has an advantage, it is Southern California's greater reserve strength.

The UCLA coach, Red Sanders, while conceding nothing to the Trojans, either on offensive or defense, did admit this:

"Well, they do have more football players than we do."

An injury in the game to one of Sanders' starters, say halfback Paul Cameron or blocking back Lewis Williams, or linebacker Donn Moomaw, would work an extreme hardship.

Trojan Coach Jess Hill conceivably would not be harmed too much by injuries. There isn't much to choose between his first and second platoons on either offense or defense.

One of Hill's problems, it would appear, has been deciding which of his various combinations in the backfield might be the most effective. He has about five tailbacks, headed by Jimmy Sears.

The game, to be witnessed by millions of television fans and a sellout crowd of 101,043 on the scene, will feature a duel between 167-pound Sears, No. 32 for the television, and rangy, 180-pound Cameron, No. 34.

Cameron has completed 30 out of 80 throws for 429 yards and eight touchdowns, with three interceptions. He has gained 150 yards in the 60 times he's run with the ball.

Sears has completed 30 out of 80 throws for 528 yards and seven touchdowns, and four have been intercepted. He has a rushing gain of 298 yards in 103 tries.

HCJC Sextet Plays Forsan

The Howard County Junior College girls' basketball team will meet the Forsan High School team in the HCJC Gym at 7 o'clock this evening.

The HCJLs will be seeking their second win of the campaign. On Tuesday night, the collegians defeated Big Spring High School, 23-20.

Marie Petty collected ten points in the game, as did Darlene Sneed. Cecil Niblett pitched in one two-point.

Those girls will see action for the Hawks, along with Ada Davis, Dorothy Burns, Betty Hulsey, Mary Ann White and Minnie Ola Woods.

Yearlings End Play Saturday

The Big Spring Junior High School Yearlings will wind up their season's football play in a 7:30 o'clock game with Lamesa here Saturday evening.

The Yearlings, coached by Harold Bentley and Earl Peeler, will be returning to action after a week's layoff. They will be seeking their third triumph of the season.

Big Spring has beaten Snyder twice and has lost games to Crockett of Odessa, Bowie of Odessa and Sweetwater.

ROBERTS IS SECOND

Hank Sauer Named 'Most Valuable' In National

By RALPH RODEN
NEW YORK (AP) — Hank Sauer, the rags to riches outfielder of the Chicago Cubs, today was named the Most Valuable Player in the National League for the 1952 by the Baseball Writers Association of America.

The selection of the 33-year-old Chicago slugger came as a surprise to many as Sauer slumped badly during the last month of the season following a brilliant start. Sauer won his circuit's highest honor by a narrow margin over Robin Roberts, the graceful right-hander of the Philadelphia Phillies, and Joe Black, the rookie left expert of the pennant-winning Brooklyn Dodgers.

The Chicago star, whose climb to major league stardom was a tortuous path, collected 226 points out of a possible 336. Roberts, who won more games than any other pitcher, 28, finished second with 211 points. Black, who made Brooklyn's entry into the World Series possible, was third with 208.

Sauer, a 6-foot-4, 200-pound bruiser, ran into a terrible slump in September. He hit only three homers, drove in seven runs and collected 16 hits in 75 times at bat.

Despite this poor showing the

AI Dorow, quarterback of the 1951 undefeated and untied Michigan State Football team, is now an ace back on the Bolling Field (Washington, D.C.) Air Force Team.

Cub cleanup hitter wound up tied for league home run honors with Pittsburgh's perennial champion, Ralph Kiner, at 37 each. He also led the loop in runs batted in with 121, the highest his major league career, and batted .270.

Three writers from each major league city participated in the balloting. Points were awarded on 14 for a first-place vote, nine for second, eight for third and so on down the line.

Only other players to poll 100 or more votes were Hoyt Wilhelm, the

rookie relief specialist of the New York Giants, and Stan Musial, the six-time batting champion of the St. Louis Cardinals. Wilhelm placed fourth with 133 points and the \$85,000-a-year Musial fifth, with 127.

Rounding out the top 10 were: Enos Slaughter, St. Louis, 92 points; Jackie Robinson, Brooklyn, 31 points; Pee Wee Reese and Duke Snider, Brooklyn, 29 points each; and Roy Campanella, Brooklyn, and Red Schoendienst, St. Louis, 25 points each.

Coahoma TD And Offensive Records May Long Endure

COAHOMA — The Coahoma Bulldogs, who wound up football play for the year last week end, set of offensive records that future Bulldog teams will find hard to shade.

In winning nine of ten starts, the 1952 club scored a total of 51 touchdowns, compared to only seven for the opposition. The Bulldogs counted 22 of those passes, another on an interception and the remaining 28 on running plays.

Bill Read kicked 35 points after touchdown in 50 tries. Darrell Robinson added another on a run.

Bill Joe Cramer proved to be the top scorer on the club with 13 touchdowns for 78 points. Read's seven TD's and 35 extra points gave him 77.

Gerry Hoover tallied eight touchdowns for the Bulldogs, Robinson seven (his extra point ran his season's point total to 43), Jimmy Spears six, Jack Owens four, Jerry Springfield three, David Hodnett two and Billy Dickson one.

The Bulldogs gained a total of 1,834 yards on rushing plays, another 1,055 on passes for an aggregate pickup of 2,889 yards. The team completed 63 of 109 passes for a rather remarkable average of .575.

Coahoma also intercepted 21 enemy aerials, compared to only three by the opposition.

Hoover, the team's punter, averaged slightly over 35 yards on his boots. He had one blocked during the campaign.

LITTLE SPORT

SMU, Arkansas Teams Ailing

By CLAYTON HICKERSON
Associated Press Staff

Everybody except Southern Methodist and Arkansas appeared in top shape for Saturday's Southwest Conference games—and both those outfits were getting accustomed to crimples.

The return of letterman End Jim Mayhew to the SMU lineup left only four regulars on the Pony disabled list: Duane Nutt, Doyle Nix, Tommy Hairston, and Bob Caldwell.

The Mustangs slacked off Thursday after a long, hard scrimmage Wednesday. Their Wednesday work was chiefly on pass plays of Baylor, their Saturday opponent.

Arkansas, preparing for their final game of the season against Tulsa, had an injury list that sounded like a multiple-car highway crash.

Co-Capt. Dean Pryor had a broken jaw sustained in the SMU game last week. Tackle Don Smith had a broken rib he got in the same game. And Fullback Lewis Carpenter had a knee injury received in the A&M clash three weeks ago.

As you might expect, the Razorbacks used most of Wednesday working on defensive measures.

The Baylor Bears, set to arrive in Dallas by bus Friday for their SMU clash, concluded rough work for the week Wednesday and were to take it comparatively easy.

George Sauer said, hope to be in top shape.

Texas A&M scheduled hard contact work Friday, for the first day of practice for their annual Thanksgiving Day game with the University of Texas. Neither of the schools have a game Saturday.

Stellar quarterback Ray Graves is expected to be in top shape for the Texas clash, concluded rough work for the week Wednesday and were to take it comparatively easy.

Price's lads, meanwhile, went through limbering up drills Wednesday and had about the same thing on tap today, Thursday.

Friday and Saturday they have heavy scrimmage on the schedule to get ready for the fighting Aggies.

Both Rice and Texas Christian appeared to be nearing good shape for their battle in Houston. Jess Neely sent his Rice stalwarts through long workouts Wednesday and Thursday in an effort to stop TCU's famed "Meyer Spread."

The Owl coach said he expected Coach Dutch Meyer to have "that spread" out for us.

Meyer indicated he probably would start soph speedster Ronald Clinkscale in the Rice encounter. TCU's starting tailback for most of the season has been shining Ray McKown who suffered a groin injury in practice recently.

Trainer Elmer Brown thinks the McKown injury not serious, but it may be enough to insure Clinkscale a starting berth.

WACO, Nov. 20 (AP) — Coach George Sauer of Baylor says he can see no reason to ban the so-called helmet block in football.

Commenting at the Waco Quarterback Club meeting on reports that Texas was considering a protest against Baylor for using the Helmet block—but which Coach Ed Price of Texas denied—Sauer said last night:

"There is nothing illegal about it, mainly because very few players can or will use it. It actually is more dangerous for the player using it than for the man being blocked. Unless it is done right, it could cause a bad neck injury."

Sauer said that "if they want to outlaw that block, then I don't see why they don't say it is illegal to use a shoulder block. Shoulder pads are just as hard as a helmet. And they could argue that a runner who brings his knees up high and hard is illegal. Knees hurt more people than helmets do."

Supporter Doesn't Wait For Contact

Harold Davis, who is raising funds for a trophy which will go to teams and individuals in the first annual Howard County Junior College Basketball Tournament, received a donation Wednesday from a party he hadn't even contacted.

The individual was Ray Clark of the Clark Motor Company, who contacted Davis after he read the account in Wednesday's edition of The Daily Herald.

Davis said Clark's request to be included on the list of donors didn't surprise him, though. Clark has always been a strong booster of HCJC athletic teams, has furnished cars for trips made by the basketball team on several occasions and helped promote athletics at the school in numerous other ways.

LUBBOCK FAVORED

Two 1951 Grid Champs Can Enter Playoffs This Week

By HAROLD V. RATLIFF
Associated Press Sports Writer

Two defending state champions can push their way into the Texas schoolboy football playoffs this week.

Lubbock, which won the Class AAA title, is a heavy favorite to clinch a spot in the playoffs Saturday when the Westerners play at Midland. Lubbock is undefeated and untied and needs only one more conference victory to become the District 1 representative.

Midland lost to Pampa and Abilene, both of which were beaten by Lubbock.

Arlington, defending champion of Class AA, is an even choice to win its district title Friday night and return to the playoffs. Arlington, however, must beat a Mineral Wells team that has a better season record.

Breckenridge, the 1951 champion of Class AAA, has to wait until next week to win its way back into the fight. It plays Brownwood Nov. 27 for the District 2 championship.

There will be a new champion of Class AA, Giddings, which took the crown in 1951, has been eliminated inside the district.

It's a big week in schoolboy football. At least six playoff teams can be determined in the eight districts of Class AAA and it's the same in Class AA.

Class AA has 16 district champions to be decided out of 31. Class A has eight out of 32.

In Class AAA Wichita Falls already is in the playoffs although it may wind up tied for the District 5 championship. One title goes on the line today as Reagan plays Milby needing a victory or tie to clinch the Houston district pennant.

In District 2 Austin (El Paso) can win the title by beating El Paso Friday night. Ray of Corpus Christi can do the same in District 6 by beating Austin and Baytown and Port Arthur clash for the District 8 championship. The Dallas and Fort Worth districts won't decide champions until next week.

In Class AAA the District 1 and District 2 titles come up next week but Denison already is in the playoffs representing District 3 and McAllen is champion of District 8. Marshall can win District 4 by beating Texarkana, Temple can clinch District 5 by defeating Palestine, Texas City and Port Neches clash for the District 6 title and Kerrville and Edison (San Antonio) meet for the District 7 crown.

The feature game of the lower classes in the meeting of Phillips and Dumas Saturday at Dumas. It not only matches undefeated, untied teams but decides the District 1 championship of Class AA.

helped swing the tide for the Tiger Snyder plays against the regulars in Big Spring High School football workouts at Steer Stadium Wednesday afternoon.

Snyder plays Big Spring here Friday night in the next-to-last game of the season for both clubs. The game will have no bearing on the championship race in District 1-AAA but it's due to be spirited, since the teams will be meeting for the first time as conference opponents. Too, fourth stake in the six-team league may well hinge on the outcome of the contest.

The Steers emerged from Wednesday's workout in good physical trim and apparently all hands will be prepared to go the full 48 minutes, if need be, Friday night.

Coach Carl Coleman has warned his charges repeatedly that the Tigers will pose quite a threat for the Steers. He expects the visitors to take to the air consistently and aerial defenses have been a sore spot with Big Spring this year.

Big Spring hasn't met Snyder since 1929, when the 11's played for the second time in history.

Snyder had beaten Big Spring, 7-0, in 1928 — according to a Snyder news item — in a game in which G. L. Huestis, now of Forgan,

Robbins Bags Two Deer Near Llano

Shirley Robbins, Country Club pro, made the most of his chances shortly before he was to leave a hunting site near Llano for home Wednesday.

The only one in a party of six who had failed to bring down a deer, Shirley went out and got himself two before 10:30 a.m. One was an eight-pointer, one a seven.

Others in the group were V. A. Merrick, Sam McComb, A. E. Suggs, Tommy Hutto and Obie Bristow.

Quarterback Club Meets At 7:30

The Big Spring Quarterback Club holds its regular weekly meeting this evening in the High School Cafeteria, starting at 7:30 o'clock.

Plans for the club's participation in Friday night's ceremonies at the Big Spring-Snyder game here will be discussed.

TRUMAN

ted Nations stand on prisoners of war and does not necessarily endorse the specific U. N. position. Truman replied he was not going into semantics—that is, to the meaning of words. He said he was going by the headlines, which reported without elaboration that Eisenhower lacked the United Nations position.

Truman said he would meet again with Eisenhower before the general takes over the White House — if Eisenhower wants another meeting.

Truman said last Tuesday's meeting with the President-elect was given over almost entirely to foreign affairs.

He said the prisoner of war issue was one of the subjects discussed and that they also talked about the Iranian problem.

He didn't give any details. On other subjects: Truman said he expects to meet Gov. Adlai E. Stevenson sometime around Dec. 1, when the defeated Democratic presidential candidate is coming to Washington.

He said again that he regards Stevenson as the head of the Democratic Party.

Asked if he would recommend a new chairman of the Democratic National Committee in place of Stevenson's man, Stephen A. Mitchell, Truman replied that he would ask the governor for nothing—that he would merely offer in reorganizing the Democratic Party.

Laughingly, Truman said in reply to a question that it is very much too early to discuss what he himself will do after leaving the White House.

He went on to say that he does not know himself yet what he will do eventually—that for a while he is not going to do anything but sit down and enjoy himself.

He said he'd have some information to make public about his plans on Jan. 21, the day after inauguration.

Rev. Stroman Assumes Duties At Church Here

The Rev. H. Womack Stroman has arrived here to assume his duties as pastor of the Church of the Nazarene, Fourth and Austin Streets.

He and Mrs. Stroman and their two small children, David and Jan, arrived here Monday from Petersburg, near Lubbock, where they had spent little more than a year in starting a new church.

The Rev. Stroman is a graduate of Bethany-Peniel College in Bethany, Okla. and of the Nazarene Theological Seminary in Kansas City, Mo. During World War II he spent three and a half years as a Navy pilot.

The Rev. Stroman is a native Texan, having spent most of his early years in the Rio Grande Valley, graduating from Brownsville High School in 1936. He has held pastorates in Hondo, Aransas Pass, and Petersburg, Texas; and in De Soto, Kans.

The new minister follows the Rev. Lewis Patterson, who has just completed a four year pastorate in the Church of the Nazarene here. The incoming pastor stated that all ready he had received a friendly welcome to the city of Big Spring, and that he is eagerly anticipating the new work in what promises to be a rewarding field of labor in this area.

Y Groups Discuss Conclave Plans

District officials and presidents of local Junior Hi-Y and Junior Tri-Hi-Y clubs conferred with Dar Pitt, Plainview, on district convention plans Wednesday evening.

Pitt is district YMCA youth activity director. The Junior conclave is set for Dec. 6 in San Angelo. Several hundred boys and girls of junior high age are expected to attend. The Big Spring clubs will furnish the opening devotional.

District president is Benny Compton, and district secretary is Betty Anderson, both of Big Spring. Representing the Junior Hi-Y were Tom Henry Guit, president, Gary Tidwell and Rodney Sheppard; the Junior Tri-Hi-Y presidents Maxine Rossion and Sue Boykin. Mrs. K. H. McGibbon is advisory council chairman.

Bed-Room Suite Is Won By Local Woman

Mrs. Jimmie Mothershead, 1803 1/2 Lancaster, received notice today that she would be given a free bed-room suite by the McBride Furniture Company of Midland.

She will receive the suite as a result of signing a visitor's docket when she toured the House Beautiful in Midland a couple of weeks ago. She was notified that the bed-room suite was ready for her to pick up.

artillery shelling. After 50 minutes they withdrew to the comparative safety and warmth of a cave.

Elsewhere along the front, the numbing cold — 14 degrees — kept infantrymen of both sides huddled in their bunkers most of Wednesday night. Only scattered patrol skirmishes were reported.

An Eighth Army briefing officer said he did not regard the attack on Sniper Ridge as presaging any attempt to retake the bloody, shell-battered terrain which changed hands a number of times in recent weeks — before the advent of winter cold.

"These are harassing actions," he explained. "Apparently the Chinese are trying to get continuous information about our positions and plans — or are trying to keep us off base in that sector."

U. S. fighter-bombers today slashed anew at Communist supply arteries, front-line positions and troop concentrations. Pilots reported hitting 175 trucks Wednesday night.

These were follow-up strikes to the intensive blasting of targets throughout North Korea in the 24 hours to midnight Wednesday. The Far East Air Forces reported 1,300 individual missions in the period, the third highest total of the war.

The strikes ranged from the front lines to within 25 miles of the Manchurian border and included a raid on a 30-acre ore-processing installation which set fires visible for 40 miles.

Vandenberg spent the second day of his Korean tour looking at famous battlegrounds on the front. Then he left by plane for Japan.

FFA District Winners Set To Compete Here

District-winning Future Farmer of American teams from the seven districts in area two of West Texas are scheduled to participate in the area leadership contest at the Big Spring Senior High School Saturday. It has been announced by E. L. Tiner of Big Spring, area supervisor of vocational agriculture education.

District elimination contests have been held throughout the area in recent weeks. Only the first place team in each division of the district leadership contests can participate in the area contests here, Tiner said.

Approximately 240 boys comprising 42 teams from 26 West Texas high schools are expected to compete here. Six contests will be held. These are radio broadcasting; junior farm skill demonstration; senior farm skill demonstration; junior chapter conducting; senior chapter conducting, and FFA quiz. The junior division of the contest is for first year vocational agriculture students and the senior division is for advanced V. A. students. It has been explained.

Contests are scheduled to begin at 8:30 a. m. and announcements of results and presentation of awards to the high four teams in each contest division will be made in the High School auditorium at 1:30 p. m., following the formal welcoming of the participants by Superintendent W. C. Blankenship of the Big Spring schools.

Among the schools scheduled to represent their respective districts in one or more of the Area Two events are: Big Spring, Flower Grove, Colorado City, Fabens, Hamlin, Pecos, Meadow, Odessa, Lamesa, Roscoe, Lueders, Marfa, Van Horn, Brownfield, Klondike (Dawson County), Highland (Nolan County), Iraan, El Paso, Anson, Ysleta, Coahoma, Rule, Del Rio, Bronte, Wilson and Stanton.

The school was sponsored by the Big Spring-Howard County Health Unit, the Texas Water and Sanitation Research Foundation and the State Department of Health.

Registration for the school, which delved into all phases of the life of the common fly, grew to 22 Thursday. Health officers and others from Stanton, Lamesa, Sterling City, San Angelo, Odessa, Midland, Fort Worth and Big Spring were enrolled.

Final day's study covered the use of insecticides. Wednesday's training was in garbage storage and disposal, including sanitary fills, incineration, and other methods. Biology of the fly was studied Tuesday.

Films and exhibits were used to illustrate all lectures delivered by Vaughan.

Knowing whether wells had been illegally operated in the past under different field management.

Ben R. Howell of El Paso, attorney for Saxon, asked that wells of proven producing ability be restored to pipe line connections as required gas-oil ratio test reports are filed.

He reported Saxon's Cree-Sykes operations under new management and said Norman Fitzgerald of Abilene now has no part in the operation end. Fitzgerald owns one-eighth of the seven-eighths working interest.

Commission Examiner George Singletary, conducting the hearing which had been recessed since Oct. 28, said he did not know whether Saxon's wells could be restored to their allowables unless the commission receives evidence on whether they were operated in violation of the law prior to the Oct. 21 shutdown.

Singletary said the commission itself will have to decide that question and also will have to decide whether it will accept the reports of an independent engineer, W. T. Jordan, hired by Saxon three weeks ago.

Singletary said it was his understanding the wells would have to be re-checked by commission engineer before they could be put back on flow.

Jordan said a number of wells found "dead" by the commission had begun to flow as soon as Saxon opened them for test purposes.

Final Rites Pending For A. C. Williams

A. C. Williams, 56, as ardent a baseball fan as Big Spring ever produced, was "called out" early today, but he went down swinging.

Mr. Williams had suffered from a heart condition for 12 years, but he fought back gamely until he died shortly past midnight today at his home at 406 Owens.

Before his health forced his retirement, he was employed by West-

tex Oil Company. Intimates said that his intense interest in baseball undoubtedly prolonged his life. Everytime he was able, he went to the games here.

Rites are pending word from relatives. The remains are in state at Nalley Funeral Home.

Born Feb. 3, 1896, Mr. Williams moved to Big Spring in 1935. He was a veteran of World War I.

Surviving are his wife, Mrs. Vela Williams, to whom he was married on May 18, 1924; two daughters, Mrs. Helen Reed, Hobbs, N. M., and Mrs. Bill Sly, Odessa; one son, Jim Don Williams, Big Spring.

Also surviving are two grandchildren; six brothers, B. O. Williams, Vincent, Charles Williams, Coahoma, Horace Williams, Hico, Lloyd Williams, Brownwood, Bill Williams, Vanderbilt, Hood Williams, Jackboro; four sisters, Mrs. D. B. Parks, Graham, Mrs. J. M. Trammell, Seminole, Mrs. M. B. Renault, Waco, Mrs. F. Fontes, California.

WOMAN IS INJURED IN AUTO ACCIDENT

Mrs. Rip Smith was injured early Thursday morning in an accident near Donald's Drive. She was a passenger in her husband's car when it hit a stone fence west of the drive in.

Smith, who lives at 1110 Main, told investigating officers that a car ran into the back of his automobile, causing him to hit the fence. The accident occurred about 12:30 a. m.

Mrs. Smith was taken to the Big Spring hospital where she received treatment for a broken arm and a bruised chest. She was transported in an Eberley ambulance.

Smith also was taken to the hospital with possible chest injuries, but after examination was transferred to custody of city authorities. He was fined \$12 in Corporation Court Thursday morning after being found guilty to a charge of intoxication.

Testing Nearly Over For Water Line To Odessa

Testing is virtually complete on the 27-inch section of the Colorado River Municipal Water District line between Big Spring and Odessa.

The supply line appears to be in good condition, said E. V. Spence, general manager for CRMWD.

Monday the line from the well field to Big Spring will be shut off to permit installations of valves for users along the line.

Some few have been making emergency use of water from the CRMWD lines, particularly ranchers who have a stock watering problem. The district has installed a spigot at the northwest corner of section 34-35-1n, T&P, about five miles northeast of Stanton, to serve as a loading point for those adjacent to the line but who must haul water in the interim.

Connections are all 2-inch affairs with the exception of one six-inch tap blocked out in anticipation of possible needs of the Martin County Fresh Water District in east central Martin County.

In all there are 59 taps on the Big Spring-Odessa section. There are four in Ector, four in Midland, 29 in Martin, and 31 in Howard Counties. Water will be metered to them for domestic and livestock purposes. So far, the district has furnished the water without charge pending installation of meters.

Part of the 33-inch line from Big Spring to the CRMWD lake in Scurry County has been tested. Laying this line will be resumed in about a month. There are a number of taps on this line but it will be supplied from the lake.

Four Arrested In Car With License From Another Auto

Four men — two from Gladewater, one from Fort Worth and one from Big Spring — were held overnight in city jail after police arrested them Wednesday in possession of a 1950 model Cadillac bearing license plate from a 1950 Ford and inspection sticker from a 1951 Buick.

One of the quartet was fined \$19 when he was found guilty to charge of improper auto registration this morning. Another was transferred to county authorities on a charge of carrying a deadly weapon, vagrancy charges against the other two were dismissed in Corporation Court this morning.

Police checked with the Department of Public Safety to determine if any of the four is wanted by the law. None apparently are, although they have long records, officers said.

SPECIALISTS DUE TO LECTURE HERE AT A VA CLINIC

Three outstanding specialists will lecture at a regional dental clinic to be held at the Veterans Administration Hospital here Dec. 12-13.

Dr. Calvin Guilliams, chief of dental service at the hospital, said that program for the two-day clinic had been completed. With the exception of a reception scheduled the evening of the first day at the Settles Hotel, sessions will be held at the VA Hospital.

Featured on the program will be Dr. Phillip E. Williams, Dallas, Baylor University dental college professor, who will lecture on oral surgery; Dr. Horace Beauchamp, Dallas, Baylor University, who will lecture on full denture prosthesis; and Dr. Sam R. Parks, Dallas, Baylor professor of periodontia, who will lecture on periodontia in private practice.

Members of the local dental society are co-operating in plans for entertaining clinic participants and their wives.

CAR IS STOLEN WHEN MAN GOES TO CHURCH

D. W. Overman, 2006 Johnson, went to church and lost his car last night.

The machine, a 1946 Buick, was stolen while parked at the Hillcrest Baptist Church between 7:30 and 9:00 p. m. Wednesday. No trace of the vehicle had been found this morning, police said.

Guatemala Reds Get Pro-Regime Support

GUATEMALA, Guatemala, Nov. 20 (AP)—The two top Communists in Guatemala and five other avowed Reds are seeking Congressional seats in next month's elections with the full backing of the country's leftist, pro-government parties.

The two Communist chiefs are Jose Manuel Fortuny, secretary-general of the Communist Party, and Manuel Pellecer, Moscow-educated deputy director of a labor federation which dictates policy to all of the republic's 17 labor unions.

The Partido Accion Revolucionaria (PAR)—largest party in Guatemala and chief support of President Jacobo Arbenz Guzman—has come out in convention for the Communists. Allied left-wing parties supporting the government have gone along, and several im-

portant government officials have joined in their campaign.

Left-wing leaders stress the importance of victory for Fortuny, especially. Observers say this is because many undeclared Communists feel they will have greater political advantages if they can seat their leader in the legislature.

Campaigners for Fortuny said if he is elected, a move will be made to name him president of the Congress. Then he would automatically become the country's president if Arbenz died or became too sick to serve.

The president—a former army officer with leftist leanings but generally not considered a Communist himself—often has been under fire for failing to take action against Reds worming their way into key positions in Guatemala. Reds are chiefly influential in labor unions, the government radio, electoral board and social security institute.

At the recent PAR convention, a top leader pledged it and the Communist Party "will struggle together for the liberty and improvement of the working classes and against imperialist reactionaries." The U. S.-owned United Fruit Co., which has big holdings here, was attacked by other speakers as an organization of feudal barons.

Ike Confers With GOP Team

Members of the Republican party's top brass meet in New York City with President-elect Dwight D. Eisenhower to discuss legislative problems that will confront the next session of Congress. In group, from left, are Sen. Styles Bridges of New Hampshire; Eisenhower; Sen. Robert A. Taft of Ohio, Ike's rival for the Republican nomination; and Rep. Joseph W. Martin of Massachusetts, prospective Speaker of the House. (AP Wirephoto).

Plan To Speed Drunk Driving Cases Lauded

CORPUS CHRISTI, Nov. 20 (AP)—A recommendation by the head of the Texas Police Association aimed at speeding up prosecution of drunk driving cases is picking up strong support around the state.

Police Chief Roy Lay of Corpus Christi, TPA president, has recommended the next Legislature pass a bill to give corporation courts equal jurisdiction with county courts in handling misdemeanor driving while intoxicated charges.

Lay sounded out members of the association's executive board for their opinion of the proposal, which probably will be put to a vote by TPA members. The reply of A. S. Harper, Amarillo chief of police, is typical of those received by Lay. Harper said:

"It would do much to clear the dockets of county courts, speed late attendance. Chronic absentees will be handcuffed and the only way they can have the 'brackets' unlocked is to come to the club meeting. Just to prove that they mean business, club officials clapped the cuffs on Gil Jones, who had missed only one meeting."

UNDER DEFENSE ACT Eight Indicted In Oil Well Pipe Diversion

WASHINGTON, Nov. 20 (AP)—The government charges that gray market profiteers made about \$100,000 in reselling pipe set aside for wildcat drilling to the Texas Company at fancy prices.

Attorney General McGranery said yesterday that a federal grand jury in Shreveport, La., had indicted eight individuals and two corporations on charges of illegal diversion of oil well drilling equipment.

The case is the first of its kind under the Defense Production Act. In the indictment the government contends that about 588 tons of pipe were diverted from the drilling of wildcat wells by independent drillers to the Texas Company when that company already had been authorized a regular allotment of such pipe.

The Justice Department said that Texas "paid about double the OPA selling price and extra freight charges, the 'gray market' profits being about \$100,000."

The department said those named in the indictment were the Texas Company, Superior Iron Works and Supply Co., Inc.; William G. Taylor, assistant manager of the Texas Co.'s purchasing division; Clayton B. Watson, Superior's treasurer; Lorenz A. Verbyck, Superior's New York representative; and Charles Jackson, Irving Singer, George B. Mahler, James E. Zoes, and Norman Minter, all of New York City.

The first count of the two-count indictment names Jackson and Singer only and charges them with unlawful use of a defense order priority rating to procure what is known in the trade as "oil-country tubular goods" used in drilling oil wells.

The second count charges these two and the remainder of the defendants with conspiring to violate the Defense Production Act in the transaction.

Maximum penalties in event of convictions are \$10,000 fine, one year imprisonment, or both on each count.

The government charged that Jackson applied for priorities on 347 tons of drilling equipment in December, 1951, for the stated purpose of drilling a well in Brazoria County, Tex. The application was approved.

The Justice Department alleges that Jackson at the time of application had already arranged to sell the pipe through Zoes and Superior Iron Works to the Texas Co.

Break Is Disclosed In Case Of Stealing From Auto Company

WASHINGTON (AP)—The first break in an alleged big-scale stealing of auto parts from the Willys Overland Company has been disclosed by the FBI.

G-men who announced the arrest of three men in Baltimore, New York and Washington last night said they had recovered \$100,000 worth of new Jeep parts tucked away in warehouses at Detroit and Baltimore.

They said the three men were members of a huge ring accused of stealing such items as axles, generators, and fuel pumps from the Toledo firm.

Charge Due Against Censor For Failure To Censor Book

PT. MEADE, Md. (AP)—Lt. Col. Melvin B. Voorhees, Army censor in Korea accused of writing a book that wasn't censored, will be court martialed here.

Second Army headquarters announced yesterday that it would push charges against Voorhees for his book, "Korean Tales," which, in his own words "took a slap at a large part of the correspondent corps, which I felt was violating security and endangering lives."

Voorhees is charged with failing to submit a manuscript of his book to the Department of Army for review and disregarding the order of his commanding officer to withdraw the book from publication.

The charges were filed by Gen. Joseph Swing, commander of the Sixth Army on the West Coast but the investigation was switched here to Gen. Swing would not have to act as both prosecutor and judge.

Voorhees said his book, published Armistice Day, ran into a "one-general barrier" in the person of Brig. Gen. Frank Dorn, deputy information officer at the Pentagon in Washington. Voorhees contends Dorn opposed the book because "the said I had no right to write a story which reflected against Gen. MacArthur."

Gen. Dorn denied this. He and his staff spent three days going over the book with Voorhees and ordering changes in "certain parts that were not suitable," Dorn said.

No date has been set for the court martial but it will be held "in the near future."

Voorhees is a former editor of the Tacoma, Wash., Times and has served with the Army 10 years as a reserve officer. During the period covered by his book he was chief censor for the Eighth Army in Korea.

Improved Relations With Latin Americans Urged By Churchman

DALLAS, Nov. 20 (AP)—Improved relations with Latin-Americans as a safeguard against Communist propaganda has been urged by R. E. Smith, Houston oilman and church leader.

Smith, former chairman of the Texas Good Neighbor Commission, told a Methodist men's group last night that each case of discrimination in Texas is magnified many times south of the border.

Not many Texans have the wrong idea about Latin-Americans, Smith said. "But it doesn't take but a few," he said.

Porter Sees Texas Two-Party System

NEW YORK, Nov. 20 (AP)—One of Eisenhower's many visitors yesterday was Jack Porter, Republican National Committeeman from Texas.

After the meeting Porter said he thought "there'd be some changes" in handling patronage matters as a result of the Eisenhower victory in Texas.

When asked if he would handle it, he replied: "I'm the national committeeman."

Porter said he thought Texas was "well on the way" to having a two-party system.

Old-Time Star Dies

HOLLYWOOD (AP)—Funeral services will be held today for Mrs. Louise Lester Beal, 85, who played the role of Calamity Jane in one of the first Western films made in Hollywood. She died last Monday at the motion picture country home at nearby Calabasas.

Engineer Chief Raps Shivers On River Control

DALLAS, Nov. 20 (AP)—If Texas wanted complete control of her rivers, she should have paid the entire cost of dams on the streams, the Southwest chief of the Army Engineers says.

Col. Herbert D. Vogel, expressing "complete surprise" at Gov. Allan Shivers' attack on federal control of water behind Federal Dam, said the Engineers must regulate use of water behind the dam and other such federally-financed structures to make sure the water is used the way Congress intended.

Vogel added that when Texas agreed for the Army Engineers to build dams within its boundaries it gave assent to the concept of federal control. Water behind the dams, he explained, must be used so that the federal government's expenditures will be repaid.

Vogel's remarks were brought on by a Shivers address before the Conference of Southern Governors Tuesday in New Orleans. The governor then said he would ask the attorney general to sue the federal government to find out who controls water impounded behind federally-built reservoirs.

Said Vogel: "Obviously, if Texas wanted complete control it should have paid for the dams itself. But events have proved that this is too big a financial burden for any state requiring a vast flood control system."

Vogel agreed that the water belongs to the people. He said the question is control and the Engineers try to use the water so that the state gets maximum benefit.

"We have no desire to argue with Gov. Shivers or any other official," the colonel said. "We are down here as public servants and have always worked harmoniously with the state."

"We have the responsibility for flood control and other work, and we must have the authority to carry out these responsibilities," Vogel added.

Bentsen To Offer Tides Bil Shortly After Congress Opens

WASHINGTON, Nov. 20 (AP)—Rep. Lloyd Bentsen (D-Tex.) plans to offer Congress a bill on state ownership of tidelands as soon as the new Congress opens Jan. 3.

He said yesterday he also hoped to confer with Eisenhower on the oil lands problem shortly after the inauguration Jan. 20.

Bentsen said he had not prepared exact terms of the bill because he wanted to talk first with Gov. Allan Shivers. He said he wanted to be sure to avoid any conflict with views of Testate State officials. He did not elaborate but it was believed that one of the points to be discussed was whether the legislation should claim for the states a percentage of oil and gas revenues from the continental shelf beyond seaward boundaries.

Emphasis On Aid Seen In Asia; Spending Due Cuts

By B. L. LIVINGSTONE
WASHINGTON (AP)—Foreign affairs experts predicted today the new Republican-controlled Congress will trim U. S. spending abroad, with emphasis on military and economic aid shifting from Europe to Asia.

Foreign aid likely will kick off the first big debate in the 83rd Congress convening Jan. 3. Extension of the Mutual Assistance Program is one of the first things on its agenda.

With Republican leaders just about agreed on a top budget figure of 70 billion dollars in fiscal 1953-54, the foreign spending program faces possibly hefty reductions for the year beginning July 1. The authorization for this year, ending next June, is \$6,447,739,750.

Any controversy is certain to center around American outlay of \$33,104,867,055 during the postwar years since 1945 and gross foreign spending of some 57 billion dollars since 1940.

Much of the money authorized and appropriated is as yet unspent. As of last June, the mutual security program showed a five-billion-dollar balance earmarked for guns, tanks, aircraft and the like. Funds not obligated and carried over amounted to about 400 million.

Rep. Lawrence Smith of Wisconsin, fourth-ranking Republican member of the House Foreign Affairs Committee, said the whole foreign aid program must be reviewed and reduced. He told a reporter:

"I don't think the country will stand for any more all-out spending. We owe it to the country to sit down in bipartisan fashion and take a good look at the new problems which have arisen."

Among such problems, Smith said, are European failure to meet rearmament goals of the North Atlantic Treaty program, France's financial troubles and the free world's improved economic status.

Smith said President-elect Eisenhower has heretofore been concerned chiefly with Western Europe, adding:

"I'm hoping when Ike goes to Korea he gets a picture of this Asiatic situation."

Republicans in Congress have been loudly critical of what they call the Democratic administration's "inertia" to protect Asia from Communist aggression.

In the last foreign aid bill, Asia and the Pacific got only about 900 million dollars of the over six billion authorized.

Democratic Rep. Mike Mans-

field of Montana, elected Nov. 4 to the Senate, said he believes foreign aid will be continued, but cut down in amount and with more conditions for its application.

Mansfield, a strong backer of President Truman's foreign policy while in the House, said he would like to see fewer Americans abroad administering foreign aid programs and an end to "duplication of effort." He said this would bring "more efficiency and greater responsibility on the part of our allies."

A sharp reduction was shaping

up, at least tentatively, in the amount of "defense support aid" to buy food, raw materials, machinery and equipment needed by European governments which otherwise could not afford to step up defense production.

Government officials figuring the size of next year's foreign aid request said a large-scale allocation for this purpose, like the nearly \$1,300,000,000 set aside by Congress for this year, will be unnecessary in 1953.

Their reasoning: Economic conditions are perking up in Europe,

Truman Defends Record On Public Health Activities

WASHINGTON (AP)—The Republican victory at the polls, President Truman says, was no mandate to the government to cut down on its public health activities.

Truman said President-elect Eisenhower's administration will find itself "far behind the times" if it tries to stop what he called the social and economic progress made under the Democrats.

And, in defense against what he termed politically inspired attacks on his public health program, he declared that "anyone who interprets the election as a mandate to stop the efforts we have been making for social and economic progress is blind to history."

Truman's defense of his record, and call for further government action in the controversial field of public health, came during a

speech delivered last night to the Association of Military Surgeons. Truman also rapped Congress for "lost progress" in the health field. Current shortages of doctors and nurses have not been met, he said, "despite repeated efforts to persuade the Congress to adopt a program of federal aid to medical education."

AF To Continue Use Of The Scorpion Jets

WASHINGTON (AP)—The Air Force is going to keep on flying its F80 Scorpion jet interceptor. Roswell L. Gilpatrick, Air Force under secretary, said yesterday there would be no cut in orders from Northrop Aircraft, Inc., producer of the speedy planes, because of a series of fatal crashes which have kept Scorpions grounded for two months.

He said wing weaknesses in earlier models would be corrected in planes now coming off the production line.

Congressional Forum Set To Open Friday

FORT WORTH—R. B. Anderson, Allen informed the sponsors Tuesday that he will join the panel. Others who had accepted the invitation are Reps. Omar Burleson, Anson; O. Clark Fisher, San Angelo; Ken Regan, Midland; Walter Rogers, Pampa; Frank Ikard, Wichita Falls; Wingate Lucas, Grapevine; J. Frank Wilson, Dallas; Olin E. Teague, College Station; W. R. Poage, Waco, and Representative-elect Brady Gentry, Tyler; Jack Brooks, Beaumont, and John Dowdy, Athens.

Anderson urged everyone who attends the forum to prepare in advance the question they wish the legislators to answer. "Two issues outweigh all others, in my opinion," Anderson said. "They are an honorable conclusion to the Korean war that must be accompanied by creation of a definite foreign policy, and a domestic policy that will prevent recurrence of surpluses that bring economic hardships."

"Assuming that we are able to end the fighting in Korea, and to establish a foreign policy consistent with the realities of our time, our other most vitally important job is to find a way to take care of surpluses as defense expenditures decline. Our people are most interested, I believe, in establishing methods by which our distribution system can prevent surpluses that prevent employment and other economic hardships cause. This must be done without economic shock as we progress toward lower defense expenditures that should result from a better foreign policy."

Bert E. Godfrey, president of the Fort Worth Chamber of Commerce, will open the program with introduction of Anderson, and present Ed Gosset of Dallas, former congressman, who will be the forum moderator.

The sponsors are the Fort Worth Chamber of Commerce and the East Texas and West Texas chambers of commerce. They have extended an invitation to the public to attend and to ask questions of the congressmen.

THE SPRINGBOARD

News From Webb Air Force Base
By A-2C FERD J. BORSCH

KIDDIES' CHRISTMAS PARTY

Only the reindeer will be missing at Webb's first annual Kiddies' Christmas Party to be held on the base December 20. But the 575 kids invited to the party probably won't notice the absence of Dancer, Francer & Co. when Santa Claus makes his annual winter stop the modern way—in a jet.

The party will be held from 9:30 to 11:30 a.m. December 20 in Hangar No. 1. Each of the 575 single, military dependent children will personally receive a present from Santa.

Those kids not able to attend will also receive their presents. In order to aid in the financing of the party, 80 donation jars have been placed at central locations on the base by Chaplain (Maj.) Grant E. Mann, custodian of the Kiddies' Christmas Party fund. In addition to Chaplain Mann, the Fund board includes Maj. Arthur A. DeYoung, president; Capt. Billy G. Griffith, Lt. Thomas B. Gibble and Lt. Keith Barnhill, board members.

YULE DISPLAYS

There isn't a native Christmas tree to be found on the confines of Webb Air Force Base, but the Big Spring installation will nevertheless take on a Yule appearance in mid-December when squadrons compete in an outdoor Christmas decoration contest. A gift certificate of \$25 will be awarded the winning squadron.

Yule exhibits must be constructed sometime between December 10 and 15 with judging to follow December 16-19. Cost of each squadron entry will be limited to \$25.

CHAPLAIN

Chaplain (Lt.) Francis E. Jeffery returned this week from Chaplains School, Fort Slocum, N. Y., and will again conduct the Protestant Common Order Service at the Academic Building Auditorium each Sunday at 10 a.m.

NEW BUILDINGS

Latest addition to Webb's "new building" list is a battery of four modern style operational structures now being occupied by Pilot Training Group.

West Texas Builders of Lubbock began construction May 27. Three one-level structures and one two-level building represent 24,000 square feet of floor space.

A cost approximation, which includes a physiological training building, replete with low pressure

chamber for high altitude study, places the total cost figure at \$230,000.

TOUR

Webb will be a top feature for local Explorer Scouts going on week end bivouac Saturday, December 6. An estimated 150 scouts are expected to tour the base as a part of their week end program.

FOOD SERVICE

Fourteen Food Service Squadron personnel graduated from the Food Service course last week. Col. William A. Stephens, Air Base Group Commander, presented certificates of satisfactory completion to each of the graduates.

CERAMICS

Ceramics classes are now available to base personnel at the Hobby Shop located in Building 261. All personnel interested in the free instruction courses being offered are requested to submit their names to Personnel Services as soon as possible.

SPORTS

Webb's Dusters raise the curtain on their 1952-53 basketball schedule on the home front Friday night against Reese Air Force Base. Game time is 8 p.m. in Building 67, the base athletic center.

This contest will open the door to a 30-game schedule. Four of these tests will be played within the next seven days.

Saturday will find the Dusters busy again, this time against Phillips 66 of Midland. This clash will also be staged on the Dusters' home court.

Following the two week end tilt, Webb will continue its home schedule Monday and Tuesday nights against Bergstrom Air Force Base. All of Webb's home games will start at 8 p.m.

Here's Rat That Was A Bit Costly

STOCKHOLM, Sweden (AP)—E. Elmwall got rid of a rat that was hiding in his car—at a cost of six persons injured, an automobile repair shop damaged, five cars badly smashed and hundreds of windows broken in the small village of Sparreholm, 53 miles west of Stockholm.

Elmwall, owner of the repair shop, found the rat behind the seat cushions of his car yesterday. Unable to reach the pest, he drove the car to his garage and filled it with acetylene to kill the rat.

A moment later, an explosion—believed set off by an electric short in the car—rocked the neighborhood. The top of Elmwall's automobile sailed 75 feet through the air. Four other cars in the garage—and the building itself—were badly damaged.

The six injured men, two of whom were seriously hurt, were hit by falling debris.

No trace of the rat has been found yet.

2 1/2 Million Bales Of Cotton Ginned In Texas To Nov. 1

DALLAS, Nov. 20 (AP)—Texas had ginned 2,599,889 bales of cotton this year up to Nov. 1—almost a fourth of the nation's 1952 ginnings, the Commerce Department reported today.

The Texas figure was the greatest for any state and also tops 1951 ginnings up to the same time. The 1951 figure was 2,528,087 bales.

Aussies Taking Active Role In Korean Fighting

By a Special U.N. Correspondent
WITH THE U.N. FORCES IN KOREA—At the outbreak of the Korean conflict, the 3rd Battalion of the Royal Australian Regiment was in Japan. The unit was immediately reinforced from Australia and was sent to Korea on 25 September 1950. The Battalion took part in the drive north that ended almost at the Yalu River. During October 1950, the Battalion was flown from Taegu to Kimpo, and then advanced north. Shortly afterwards it took part in the general retreat south, when the Chinese advanced down the peninsula from Manchuria.

During the massive North Korean-Chinese offensive which took place in April, 1951, the Battalion played a major role in stopping the drive in the historic battle of Kapyong. For its valor and supreme heroism in the face of the enemy during that battle, the unit was awarded the United States Presidential Citation.

The 3rd B.A.R. who had been serving with the 27th British Commonwealth Infantry Brigade since its arrival, was transferred to the 28th British Commonwealth Brigade on its formation in April 1951. This Brigade was incorporated in the Commonwealth Division in July 1951.

With the 1st Commonwealth Division, it gained further honors in Operation "Commando." The engagement won back much important ground from the invaders north of the River Imjin. The Battalion has since that date been holding positions, both forward and in reserve, without a break, and their aggressive patrolling has been outstanding.

The Third was joined by the 1st Battalion of the Royal Australian Regiment on 10 April 1952. They too, have carried out many very successful minor engagements, whilst holding different sectors of the Commonwealth front during almost a year's steady fighting.

The 28th Brigade is now commanded by an Australian, Brigadier T. J. Daly, DSO, OBE, and there are many Australians on the Brigade and Divisional Staffs.

'Ruthless' Campaign Urged By Pravda To Rid Soviet Of Graft
 LONDON, Nov. 20 (AP)—Reports of graft and corruption on a vast scale in the Soviet Union prompted Pravda today to demand a "ruthless" campaign within the USSR Communist Party to eliminate breaches of discipline.

A formal attitude toward the actions of the party and government, a passive attitude toward their implementation, is a vice which must be stamped out ruthlessly," the official party newspaper said in an editorial broadcast by Moscow Radio and monitored here.

NUTHIN' TO IT

The Cowboys Have Their Word For It

HELENA, Mont. — In dusty arenas from Texas to Montana there are rodeos with cowboys trying to tame broncs and broncs trying to toss cowboys.

And the cowboys have a word for it. For the convenience of the tenderfoot here is a translation of the most common terms in rodeo jargon:

BITING THE DUST—Being thrown from a horse; Bronco—Word of Mexican origin for "mean; Broomtail—A wild mare; Buckaroo—cowboy; Bucking, Buck-

Jumping, Pitching—The motions of a bronc trying to throw a rider.

BULLDOGGER—A steer wrestler; Cavy—Saddle horses on a round-up; Coasting—When a cowboy tries to quiet a bronc by holding his head and not spurring; Community Loop—extra loop thrown by roper; Crow-hops—A term contemptuously applied to mild bucking motions;

CUT-OUT—To separate animals from a herd; Dog-fall—Putting a steer down with his feet under him. The throw is not complete until steer is flat on side; Doggie—Weakling calf; Eating Grave—Being thrown from bronc or steer; Four Footing—Catching an animal by the feet with a rope in order to throw him for handling;

GRABBIN' THE APPLE—When a bronc rider grabs the horn of saddle to keep from being thrown; High-roller—Horse that leaps high when bucking;

HOULIHANNING—Leaping forward and alighting on the horns of a steer in such a way as to knock him down without resorting to twisting him down with a wrestling hold. Illegal in rodeos; Jughead—

International Body Sought To Secure Housing

By GODFREY ANDERSON
 PARIS (AP)—The French government is being asked to take the lead in forming a new international body to solve Western Europe's housing shortage.

A motion presented by a group of Radical Socialist deputies in the National Assembly paints a dark picture of the present situation and urges immediate international action as the only way to solve the problem.

An accompanying report, now being studied by the Assembly's Reconstruction and War Damage Committee, points out that France alone needs some 300,000 new dwelling units every year. The French Economic Council figures this would take nearly 10 per cent of the national revenue.

Since the liberation of France in 1944, however, and up to Dec. 31, 1951, a total of barely 250,000 dwellings was completed. Another 220,000 were estimated to be under construction, but only between 1 and 2 per cent of the national revenue is being spent on new housing.

While construction in most European countries has increased, as compared with the years between the two world wars, the report points out that the shortage remains as great as ever.

It is up to the governments to solve this problem, the deputies say, since private enterprise is no longer able to cope with it. Building costs could be cut, the report suggested, by forming a common marketing organization for all the countries concerned. This would ensure a better distribution of available materials and, by well-placed investments, larger and cheaper production of them.

The international housing union, the report adds, could be modeled on the Schuman Plan high authority, which now controls the combined resources of six Western European nations in coal and steel.

Texas Group Wins Industrial Award

NEW YORK, Nov. 20 (AP)—The National Industrial Council cited four state industry associations today as winners of its Charles S. Davis awards for outstanding achievement in promoting better understanding between industry and the public.

New Enforcement Group Is Organized

SAN ANTONIO, Nov. 20 (AP)—Texas law enforcement officers who are graduates of the FBI's National Academy wound up a two-day convention by chartering the organization and electing Forrest Keene as first president.

Keene, police chief at University Park, Dallas, will serve as head of the National Academy Associates of Texas until next year's convention to be held in Wichita Falls.

Foolish horse; Logging—Holding to saddle horn; Maverick—an unbranded stray;

PULLING LEATHER—Holding on to saddle with the hand while riding a bucking animal; Scratching—The act of keeping the feet moving in a kicking motion in riding bucking animals; Screwing down—the act of sinking the spurs into the cinch while riding a bucking horse and failing to move the feet in a kicking motion as provided in the rules;

SEEING DAYLIGHT—When daylight can be seen between rider and saddle during bronc ride; Sougan—part of the cowboy's bed, similar to ordinary quilt or comforter; Spade—A Spanish bit; Sun-fished—A bucker that twists his body in the air so that sunlight hits his belly; Swallowing his tail—bucker;

TENDERFOOT—You, if you didn't know the meaning of these words.

Man Finds Mother After Seven Years

SEATTLE (AP)—"You can't make up seven years in seven minutes," Roy Aitchison explained, and so today he is busy writing letters to his mother in Detroit.

The 29-year-old resident of Lake Sammamish had a telephonic reunion with Mrs. Emily Aitchison yesterday. The conversation covered a lot of things, he said, but it couldn't hope to fill in for all that elapsed time.

Aitchison lost track of his mother after the end of World War II. He returned from overseas duty with his Italian war bride and his mother moved to England. His letters to her were returned unopened, so he quit trying.

It developed that Mrs. Aitchison had returned to the United States and, not knowing her son's address,

was unable to notify him she had returned.

An Associated Press picture of Aitchison and his dog Curley, which survived a ride on the pontoon of Aitchison's plane, led to the mother learning her son was in Seattle.

Hearing Date Set On Train Discontinuance

AUSTIN, Nov. 20 (AP)—The Railroad Commission set a hearing today for Dec. 8 on a request to discontinue two Texas and New Orleans Railroad passenger trains between Houston and the Louisiana state line near Haslam, Tex.

The hearing will be held in the Tribune Building here at 2 p. m. Discontinuance was asked by the railroad.

Industrial Struggles Seen By Mediator

LOS ANGELES (AP)—Industrial struggles due to the changeover of administrations are forecast by David L. Cole, new director of the Federal Mediation and Conciliation Service.

Cole told a public forum yesterday that "there are some industry representatives who believe it is now their chance to demand laws favoring their side."

Some labor people, he said, "assume that this is the prevailing attitude of industry and are preparing to fight desperately every move or suggestion made by management."

"Pension plan?... in my day, young man, our ambition was to get on in the world... not merely on in years!..."

Family Gives Thanks For Many Blessings

"We thank thee Lord for this our food," says Patricia Ann Nichols, almost 3, when she sits down to a meal.

And those words take on special meaning now that Thanksgiving Day, the annual festival of thanksgiving for the mercies of the past year, is approaching.

The year has been good to Patricia and her parents, the Rev. and Mrs. Clyde Nichols, 1211 Wood. The Rev. Nichols is pastor of the First Christian Church.

In fact, the family has a hard time trying to pin down their special blessings. They are thankful for their work, their church, the family and the projects for the future.

A quiet day at home in planned for the threesome. Both sets of grandparents live too far away to join them for the day.

But all the relatives will be here for Christmas, Mrs. Nichols said.

One of the favorite desserts of the Nicholses is Apple Dumplings, and whether it's traditional or not it will probably be on the table

Thanksgiving Day. APPLE DUMPLINGS

INGREDIENTS:
6 medium apples
6 tablespoons sugar
1 tablespoon cinnamon
1 1/2 tablespoons nutmeg
3 tablespoons butter
1 cup sugar
1 1/2 cups water
1 tablespoon cornstarch
2 tablespoons cinnamon
Pastry equivalent to a double pie crust

METHOD:
Core apples. Mix together sugar, cinnamon and nutmeg. Roll out pastry and cut into six 6-inch squares. Place apple on each square. Fill apples with spice mixture and dot each with 1/2 tablespoon butter. Fold pastry around apples, prick with fork and place in a baking dish. Make a syrup by boiling the one cup of sugar with water, cornstarch and imp. Pour syrup on and around the dumplings. Bake in 375 degree oven for 40 minutes.

Rice Dressing Good Served With Any Meat

Here is a "shouting good" rice dressing, special enough to stuff any fowl or to be served with any kind of meat.

For big birds or little birds, this super savory rice dressing is such an eating treat that the anticipation of eating it will keep "other birds" from figeting, while Dad carves and serves the plates with steaming spoons of delicious rice dressing.

INGREDIENTS
1/2 pound butter or margarine
1 cup finely chopped onion
1/2 cup finely chopped green pepper
1 cup finely chopped celery
1 cup chopped mushrooms
2 cups cooked rice
1 teaspoon sage
1 teaspoon salt
1/4 teaspoon pepper

Preparing the fluffy white rice: To make 3 liberal cups of fluffy rice, put 1 cup of uncooked rice, 2 cups of cold water and 1 teaspoon of salt into a 2 quart saucepan and bring to a vigorous boil. Turn into a saucepan as low as possible. Cover saucepan with a lid and leave over this low heat for 14 minutes. Do not remove lid nor stir rice while it is cooking. Turn off the heat.

Use exact measurements of uncooked rice and water. Time the cooking accurately.

METHOD: Melt butter or margarine in a saucepan. Add the onions, green peppers and celery and simmer until tender. Add the mushrooms, rice, sage, salt and pepper. Stuff lightly into the bowl, make into dressing balls and brown in the oven, or serve hot as a vegetable. This recipe makes 4 cups of dressing.

Cranberry Glazed Ham Is Elegant

If you want a really elegant way of serving ham, try this Spiced Cranberry Glaze over the meat. The bright red berries add color, and glamor, while the sweet-tart flavor of the berries serves as a perfect complement to the smoky-salty flavor of the ham. Fresh cranberries are on the market so

there's no need to wait to bring them to your table.

Spiced Cranberry Glazed Ham
(Makes about 4-6 servings)
1 slice ham (3/4-inch thick)
2 cups cranberries
1/2 cup fruit juice
1/4 cup sugar
1/4 cup honey
Few whole cloves
Pinch of cinnamon
Cut gashes in fat around ham; bake in moderate oven, 350 degrees about 1 hour. Combine remaining ingredients in saucepan; cook 10 minutes. Spread over ham. Bake 1/2 hour longer.

Leftovers Traditional As Turkey At Thanksgiving

Everything at Thanksgiving is traditional! There is the traditional turkey and then the traditional leftovers. It is rather difficult for the young couple who had the family for "the day." There are too many leftover turkey meals to think of. Turkey Croquettes is an easy meal to prepare. Oven-popped rice cereal will give it that different flavor—just add to seasonings and fry in deep fat from two to five minutes. Serve with boiled potatoes, garnished with parsley and corn. Your husband will be proud of your ingenuity.

TURKEY CROQUETTES
3 tablespoons butter or margarine
3 tablespoons flour
1/2 teaspoon salt
1/2 teaspoon pepper

1/2 cup milk
1-3 cup turkey stock
2 1/2 cups ground cooked turkey
2 teaspoons chopped parsley
2 tablespoons flour
1 egg, slightly beaten
1 tablespoon milk
3 cups oven-popped rice cereal

Melt butter in saucepan; stir in flour and seasonings. Add mixture of milk and turkey stock slowly, cook over low heat, stirring constantly, until mixture thickens and boils. Fold in turkey and parsley; chill thoroughly. Form into cone-shaped croquettes. Dip croquettes in flour, then in mixture of egg and milk, and then in finely crushed rice cereal. Fry in deep, hot fat (325 degrees F.) for two to five minutes, or until golden brown. Yield: 10 croquettes, 5 servings.

Honey Orange Bread Is Perfect Afternoon Snack

Fall is the time when the leaves turn to the beautiful shades of yellow, tan and red. But oh too soon they die and fall to the ground. Then comes the job of raking them. Why not get the gang together and make it a fun job. After a brisk afternoon of raking leaves, some nourishment is in order. Honey Orange Bread with cottage cheese and hot chocolate will just hit the spot. Good then but also popular anytime. Make them early—and pop into the oven for a quick heating before serving. The addition of ready-to-eat bran will give the bread that extra crunchiness and flavor.

oven (325 degrees F.) for 1 hour and 10 minutes.
Yield: 1 Loaf (5 1/2 x 9 1/2 inch pan).

HONEY ORANGE BREAD
2 1/2 tablespoons shortening
1 cup honey
1 egg
1 1/2 tablespoons grated orange rind
2 1/2 cups sifted flour
2 1/2 teaspoons baking powder
1/2 teaspoon soda
1/2 teaspoon salt
1/2 cup orange juice
1 cup ready-to-eat bran

Blend shortening and honey; add egg and orange rind and beat well. Sift together flour, baking powder, soda and salt and stir in first mixture alternately with orange juice. Stir in All-Bran. Pour into greased loaf pan and bake in slow

Make Cinnamon Drops For School Vacation Time Snack

Thanksgiving and Christmas are happy times of the year for children. There is general merriment—and they are on vacation! But vacation time is when Mother has to be prepared at all times to have a house filled with hungry children. Cinnamon Drops, always popular, are the perfect snack to have on hand. Ready-to-eat bran added to the other ingredients will blend to make a firmer-tastier cookie. Just serve them with a custard or ice cream—the children will be mighty happy and satisfied.

CINNAMON DROPS
1-3 cup shortening
1-3 cup brown sugar
1 cup molasses
1 cup ready-to-eat bran

3 cups sifted flour
1 tablespoon soda
1-4 teaspoon salt
1-2 cup water
1-2 cup sugar
1 1/2 teaspoons cinnamon
Beat shortening until creamy. Add sugar gradually, mixing until thoroughly blended. Stir in molasses and bran. Add sifted dry ingredients alternately with water, stirring until a soft dough is formed.

Roll tablespoonfuls of dough in sugar-cinnamon mixture. Place on greased cookie sheets; flatten if desired. Bake in moderate oven (375 degrees F.) about 15 minutes. Yield: 2 1/2 dozen cookies (3 inches in diameter).

Cranberries Create Many New Desserts

Cranberry tarts, pies and turnovers were every day occasions to our forefathers from September through February. Indeed, they knew of many pleasurable ways of eating these little tart red berries other than the traditional cranberry sauce that graced our first holiday tables. Today—as yesterday—this truly American fruit continues to bring gastronomical delight to those who enjoy good food. Macaroon Tarts are just one example of the variety of pies, cakes, etc., made with fresh cranberries.

Cranberry—Macaroon
(Makes about 6 tarts)
1 package prepared pie crust mix
1-3 cup water
1 1/2 cups fresh cranberries
1/2 cup sugar
1 tablespoon cornstarch
6 tablespoons cream cheese, softened
6 tablespoons prepared macaroon mix

Prepare tart shells according to package directions. Bake in hot oven 425 degrees about 10 minutes, or until lightly browned. Cool. Bring water to a boil. Add cranberries and cook 5 minutes. Combine sugar and cornstarch in saucepan; mix thoroughly. Gradually add cranberries to sugar mixture, stirring constantly. Cook until mixture is thickened and smooth. Remove from heat. Cover with wax paper; set aside to cool. Blend cheese and macaroon mix. Fill bottom of shells with cheese mixture. Top with cranberries. Chill thoroughly before serving.

For a supper dish that's tasty, bake breast of lamb in a spicy barbecue sauce. Have the lamb cut into serving-size pieces, brown in a heavy skillet, pour off the drippings, add the sauce, and bake in a moderate oven about one and one-half hours. Uncover the lamb about twenty minutes before it's done, so the barbecue sauce is almost all absorbed.

Skinner's Add Important Vitamins to Macaroni

More food value at no increase in cost! That's the big news about Skinner's Macaroni, Spaghetti and Pure Egg Noodles. All are now enriched with Vitamin B-1, Vitamin B-2, Nicotin and Iron... nutrients that play a big role in helping your family to vigorous, alert good health.

The enrichment of Skinner's macaroni products is further proof that all macaronis are not alike. Skinner's products have a hearty, nut-like flavor, because they are made from fancy patent flour milled from the hearts of amber durum wheat. With its imported Swiss machines, Skinner's has cut kneading time to a short five minutes. That's why its Tender-Kneaded macaroni products cook up so light and tender.

Next time you shop, look for the big red Skinner label. Get Skinner's new Enriched Macaroni at no increase in cost. And notice that Skinner's carries the Good House-keeping seal, America's foremost symbol of quality.

More food value at no increase in cost! That's the big news about Skinner's Macaroni, Spaghetti and Pure Egg Noodles. All are now enriched with Vitamin B-1, Vitamin B-2, Nicotin and Iron... nutrients that play a big role in helping your family to vigorous, alert good health.

The enrichment of Skinner's macaroni products is further proof that all macaronis are not alike. Skinner's products have a hearty, nut-like flavor, because they are made from fancy patent flour milled from the hearts of amber durum wheat. With its imported Swiss machines, Skinner's has cut kneading time to a short five minutes. That's why its Tender-Kneaded macaroni products cook up so light and tender.

Next time you shop, look for the big red Skinner label. Get Skinner's new Enriched Macaroni at no increase in cost. And notice that Skinner's carries the Good House-keeping seal, America's foremost symbol of quality.

Now How Did She Know Its Meaning?

CAPE GIRARDEAU, Mo. (AP)—It took a woman driver to finally decide the difference between a "dead stop" and an ordinary "stop"—a question that has bothered folks here for two weeks. The problem arose when new city stop signs called for a "dead stop."

Like The Man Says, It Will Be Interesting

VICTORIA, B. C. (AP)—A Victoria cafe operator is going to let his customers set their own price for the meals they order next week. Paul Arsena, indicating he just wants to try a change from old business patterns, said waitresses will give service, but no checks. The customer will even make his own change at the cash register.

THE GRUB LINE

With Franklin Reynolds

Ginning operations in the area are expected to be pretty slow from here on out. This week's report indicates 900 bales out of an estimated 1,400 ginned in Howard County; 650 out of an estimated 1,000 ginned in Mitchell County, and 8,400 out of an estimated 15,000 ginned in Martin County.

Total production is now expected to drop below these estimates. In Stanton a few days ago the Grub Line Rider saw Mr. W. D. Fortune of the Lenora Community with a 25-pound pumpkin, one of nine of the same size that grew on one vine. Two hundred and 25 pounds of pumpkins on one vine, but that isn't all.

Also on the vine were any number of smaller pumpkins that the Fortunes have been enjoying all along. Bruce Frazier Sr., Martin County rancher, veterans vocational agriculture teacher and thorough agricultural enthusiast, has been displaying one of the long, green, ready-to-be-sliced-and-fried "Zucchini" squash, but Stanton is in a dither about the correct spelling of "Zucchini."

Ray Hastings, county agent, says there's an "h" in the name somewhere, but he doesn't know where to put it. Along comes another good man and says there should be a "u" in the spelling of the name of the squash, but like Hastings he doesn't know where to put it either.

Anybody who knows the correct spelling of "Zucchini" is asked to communicate that information to Mrs. Hilda Weathers, manager of the Martin County Chamber of Commerce.

Better yet, and if you want to hear a real thriller, take the information to "Stormy" and get her to tell you the story about how she was one-time taken for the late but unlamented Bonnie Parker, notorious cigar-smoking sweetheart of Clyde Barrow.

Stormy and Bonnie showed up in the same community the same day in identical cars. About a dozen carloads of officers armed with shotguns and rifles closed in on Stormy. "Boys," she says, "if I'd been smokin' a cigar that day I wouldn't be here now!"

County Agents Ray Hastings of Stanton and Charley Green of Midland went to Abilene early in the week where they bought some pigs, all purebred Durocs for their club boys.

Hastings bought a boar pig and a sow pig, each 12 weeks old for Jerry Cave and Daniel Cave. These two animals will be shown as a barrow and gilt in the coming Martin County Junior Livestock Show.

They are from the C. F. Christian herd.

Green bought four 12-week old gilts from the Crenshaw Duroc Farm at Abilene.

Recent Stanton visitors have been former County Agent Ralph Jones and Mrs. Jones.

Ralph, now in the Army, has been stationed in Missouri and stopped over in Stanton, with Mrs. Jones, en route to a new station in California. While in Stanton they are guests of Mrs. Lila Flanagan, mother of Mrs. Jones, who before Ralph talked her into matrimony, was the very, very charming Miss Mattie Flanagan. And—she's still as pretty and charming as ever.

Twenty-two members of the Martin County Home Demonstration Club, accompanied by Mrs. Mildred Eiland, home demonstration agent, spent a day visiting homes in Stanton and elsewhere in the county, studying storage spaces, decorations, home conveniences and other features of modern and comfortable living-in-the-home.

Among the homes visited were those of Mrs. Alma Thornton, Mrs. J. D. Poe, Mrs. W. A. Kaderl, Mrs. H. A. Houston, Mrs. G. W. Allsup, Mrs. Paul Jones, Mrs. E. W. Winslow, Mrs. G. W. Glendening and Mrs. W. G. Lillard. The ladies had lunch at the kitchen in the office of the home demonstration agent in the Court House.

Some Dawson County farmers, according to Jess Jenkins, SCS work unit conservationist at Lamesa, are hauling cotton burs from the bins and spreading these on their land as a means of restoring organic matter, nitrogen, potash and other elements in the soil. Jenkins says most of the Dawson County land needs such treatment and the SCS is encouraging farmers to take advantage of this opportunity to rebuild their soils.

Members of the board of supervisors of the Dawson County Soil Conservation District are: W. T. Snellgrove, chairman; Carson Echols, vice chairman; Curtis White, secretary, and Paul Boggan and George Eiland Jr., members.

There appears to still be quite a great deal of interest in putting down irrigation wells in Dawson County. During the past several days agricultural engineers from the SCS staff have been assisting farmers in locating drilling sites. Among those who have received this technical aid from the SCS are M. C. Lindsey of the Sand Community on the west side of the county; Bill Pearson, Melvin Booth, M. V. Baker and Elmo Smith, all of the Pumpkin Center

Community, and the Stovall boys of the Midway Community.

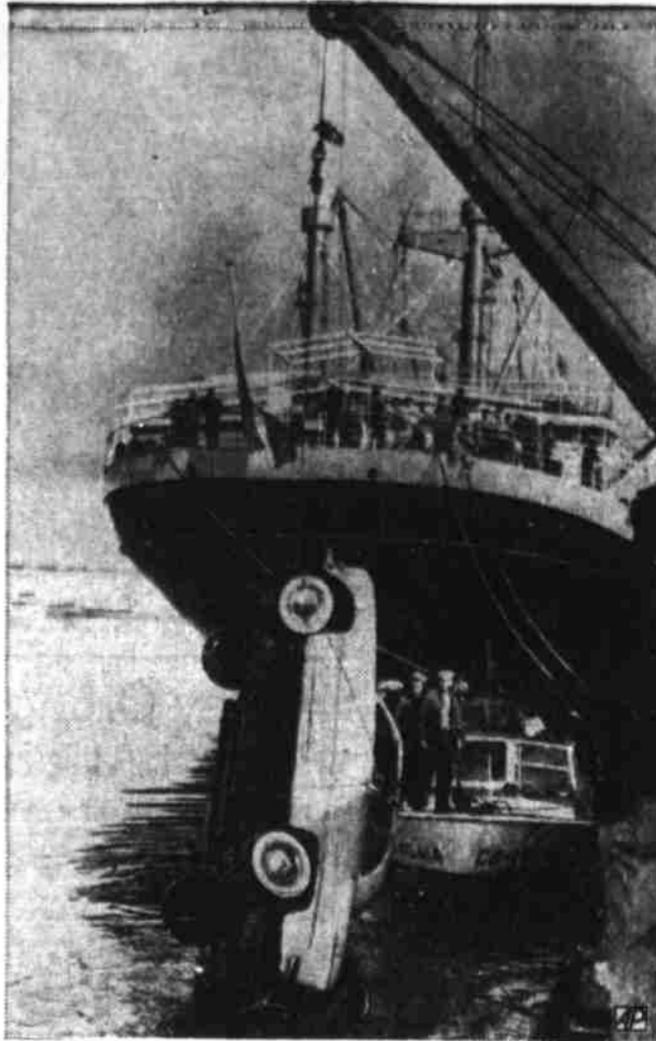

A. J. Hilton of the Woody Community has asked the SCS engineers for help in the proper layout for underground concrete pipe as a part of his irrigation system. He says this underground pipe will eliminate all ditch troubles and in addition it will save water and make any irrigation system all the more efficient.

The Mitchell County Soil Conservation District, with which Painter Wylie of the SCS works as work unit conservationist, contains approximately 800,000 acres of land. It includes all of Mitchell County, the southwest corner of Scurry County which lies south of the Colorado River; the southwest portion of Nolan County which drains into Champion and Silver creeks and the north portion of Sterling County which drains into Beal's Creek. The district area by counties is: Mitchell 576,000 acres; Scurry 18,000 acres; Nolan 94,000 acres, and Sterling 112,000 acres. There are approximately 230,000 acres of cropland, 531,000 acres of native pasture, and 19,000 acres of roads and townships in the district.

Dr. Bruce Johnson, physician at Lorraine, is making an effort to protect the soil on his 650-acre stock farm in the Champion Store area same time provide some winter grazing for his livestock. He has planted about 200 acres of wheat for fall and winter grazing and for cover. He has also planted 12 acres of cropland to alfalfa. This alfalfa is sown broadcast at the rate of 20 pounds to the acre. He plans to use this conservation crop for soil improvement, hay and grazing.

DALLAS, Nov. 20 (AP)—Election of three directors for the Federal Reserve Bank of Dallas was announced here yesterday by J. R. Parten, chairman of the board.

Killed As Car Dives Into Bay

A car, in which a young Netherlands ship steward lost his life when it dived into the bay in Los Angeles, Calif., is raised from the water by a crane after the steward's body had been removed by a diver. He was identified as Johannes Post, 23, steward on the Netherlands ship Daledek, docked a few feet away. Witnesses said Post borrowed the car and made several circles on the dock before it plunged into the water. (AP Wirephoto).
