

THE ELDORADO SUCCESS

OF AND FOR ELDORADO AND SCHLEICHER COUNTY. ALL THE TIME

VOL. XXXII

Eldorado, Schleicher County, Texas. Friday, Texas. Friday March, 18, 1932.

No. 12

Fire Damages Rig At Stanolind Oil Test

Friday morning of last week fire of unknown origin did considerable damage to the equipment and rig at the Stanolind Oil Co.'s, W. H. Williams, No. 1 oil test in Irion County, 18 miles northwest of Eldorado. The damage to the company will run into the thousands of dollars, as the rig was just recently installed, and is one of the best rotary drilling equipments in all West Texas. The hole had reached a depth of 7,420 feet when the fire occurred. The equipment will be replaced as fast as possible and the hole will go to 9 or 10 thousand feet if production is not found sooner. The Herndon Drilling Co. is the heaviest losers and their loss was partially covered by insurance. This wild cat well is seeking the horizon from which produce the world's deepest wells in Reagan County. Many people in Schleicher County are interested in this test as it is only a mile from the Schleicher county line.

Judge Joab Campbell, the only legal light for our city, made a business trip to Abilene Wednesday.

ONE-ACT PLAY CONTEST MARCH 22

The Eldorado High School one-act play tournament will be held in the High School auditorium Tuesday, March 22, at 7:30 P. M. Our school has never had a play tournament, and at this time we ask for your interest in this particular phase of Interscholastic League work. Three one-act plays will be presented, and the winner will represent Eldorado in the district contest at Ballinger April 2.

Admission for this program will be 10c for both children and adults. Don't miss these plays! A synopsis of each play follows:

"Love In A French Kitchen"

This is a one act play with three characters. Jacquinet, the man of the house, is a small, thin fellow. His wife is a large woman with a vicious voice. Her mother is a small frail woman.

Jacquinet told of his hardships with his wife. They all have a quarrel over the duties of Jacquinet. The wife decides that Jacquinet should write all of them down. They start calling out duties while Jacquinet grumbles all of the time he is doing so.

Jacquinet's wife becomes angry with him and tries to hit him. She misses him and falls in to a tub. She tries to get Jacquinet to get her out of the tub but he will not. He reads his duties while she waits all the while. He cannot find the command for him to get her out of the tub on his duty list. His wife's mother comes in and tries to get Jacquinet to get her daughter out of the tub. He decides that he will do it provided he be recognized master in his own house. They promise and he pulls her out of the tub, after which he is made master and is content.

"Jazz And Minuet"
This play, as the name suggests, represents the old-fashioned and the modern age. There is plenty of real action and playing.

The time of the play is now and one hundred and fifty years ago. The place is in the living room of the Van Hayden Mansion. The characters of the play are: Eleanor Prudence Van Hayden, otherwise known as Pauline Rape. She is the most wayward frivolous daughter of Mrs. Van Hayden played by Dahlia Fae Johnson. The mother worries so much over the daughter, but is unable to influence her.

The idea of a diary a most important part. When Eleanor picks up the diary and reads the account of her great great aunt's tragic love affair, she falls asleep and this is her dream Eleanor's sweetheart (or now this Prudence's sweetheart in (Continued on page 5)

Lions Club Holds Regular Luncheon

The Lions Club held their semi-monthly meeting Wednesday, and had a real interesting meeting.

The committee on the essay contest for the Lions Club reported that Miss Frances Balley was awarded the gold medal and the President and Secretary was instructed to order same and present it to Miss Balley. The committee on the road to Station A reported that they had met with the commissioners court and that cattle guards would be placed at the five remaining gates now on this road if the land owners and tenants did not object.

Mr. C. G. Morgan of San Angelo, who came here to lecture at the Woman's Club meeting Wednesday night at the Baptist Church, was present and made the Lions a real interesting talk.

Kent - Spencer

Mr. Tom Kent and Miss Lelah Spencer were united in the Holy Bonds of wedlock at Carlsbad, New Mexico, on Thursday, March, 10, and after their marriage the yvited the Carlsbad Cavern, returning home the first of this week.

Miss Spencer is the daughter of Mrs. Frank Spencer and proprietor of the Eldo Beauty Parlor, has been reared in our midst and has many friends among the younger people.

The groom is a son of Mrs. A. E. Kent, County Treasurer, and like the bride has been reared in our city and is a promising young man.

The Success joins the many friends of the contracting parties in wishing them a life of joy and usefulness.

C. R. MORGAN SPEAKES ON SUBJECT OF WOMEN IN MANY LANDS

C. R. Morgan, now of San Angelo, but of Scotch birth, spoke at the Baptist church Wednesday night, his subject being, "Women In Many Lands." Mr. Morgan has had world wide travels and spent years in Africa, Spain, France and other countries and has spent several years in America. His visit to Eldorado was under the auspices of the Womens Club of Eldorado. In his travels he has become acquainted with the habits and living conditions of many people and after listening to his talk, we are prouder still to know we still live under the Stars and Stripes of America, with all its ills and failures. We still believe it is the best government on the globe.

W. B. COBB OPERATED ON FOR CANCER

W. B. Cobb went to Temple the first of this week to have his jaw examined, and wired back Tuesday that he would be operated on, Wednesday, and Mrs. Cobb left immediately for Temple to be with him.

His many friends here trust that his operation will be successful and that health will be restored.

FORMER SCHLEICHER COUNTY JUDGE DIES

Judge Campbell received a letter this week announcing the death of G. D. Hines, of Roswell, N. M. Mr. Hines was a former County Judge of this county. The letter was from a son of Judge Hines. He died from heart failure.

PUBLIC NOTICE

There will be a man around next week to haul off your trash. Please put it in pile, so it will be easy to load. Dick Fae has been employed by the Parent Teachers Association to haul this trash. Have it ready, Monday.

Snow Friday And Saturday

The first snow of the winter fell Friday and Saturday. The ground was almost covered Saturday morning, but toward night it was only left in spots. The weather was rough all last week, beginning Friday night, March 4th with rain and continued bad cold weather until Sunday, March 11.

Committee From Lions Club Asks For Road

The committee of J. Campbell, J. N. Davis, and A. T. Wright, appointed by Lions Club to go before Commissioners Court, to see if a road to Station A could not be secured, or rather cattle guards or bumper gates be placed on road where there is now five gates.

Mr. W. A. Hamilton, Chief Engineer at Station A, was also before the court Monday, and if we understand the proposition will be left entirely with the Commissioners of Precinct One.

To The Voters Of Schleicher County

I embrace this means of announcing my candidacy for the office of County and District Clerk of Schleicher County, subject to the action of the Democratic Primary, to be held on July 23, 1933. This is an office that requires technical skill and mature judgement. My qualifications are these: A legal training in the law department of the University of Michigan, two years practice in law, a mind matured by constant study during thirty-seven years in the ministry and by running the Fort Bend County Abstract Company for six months during the World War, which gave me a thorough mastery of Texas land titles. I have also had experience in District Court work. I respectfully solicit the support of the Schleicher County voters in the coming primary.

Cordially yours,
F. G. CLARK

Large Mohair Sale Is Made

(San Angelo Morning-Times)

Sale of 55,000,000 pounds of mohair by the National Wool Marketing Corporation to a carpet mill at Boston was announced here yesterday. The corporation is seeking to dispose of its remaining 15,000,000 pounds of mohair to carpet mills to eliminate surplus competition with the 6,500,000 pound crop now being clipped. Sol Mayer, president of the corporation said.

The recent sale was said to be at a price no more than one-half the unit sum advanced during the last two years. No attempt will be made to collect these overadvances this year, it was said.

A. T. Wright Jr. won his last fight Saturday night, when he fought a three round bout with a Pennsylvania University student. This completes the boxing season for the Academy and makes 5 decisions out of 6 for the Eldorado lad with one knock out to his credit. He has lost two bouts in three years for his school.

Mr. and Mrs. H. C. Walbruecke was called to Williamson County Saturday on the death of Mrs. Walbruecke's mother. Mr. and Mrs. Walbruecke reside on the Pfluger farm west of Eldorado.

LOST—From Santa Fe Special train Wednesday a small white dog with yellow spots. Finder please notify

Joe Hearne Moore

Joe Hearne Moore is at home from A. & M. It appears that Joe couldn't answer all questions propounded to him in the proper way, and he was sent home on a visit.

Former Eldorado Mayor Dies At Harper

Eldorado was under gloom of sadness Sunday, when a message announcing the death of Charles A. Spencer, on a ranch near Harper, Sunday morning, from paralysis.

Mr. Spencer has been in poor health for the past few years and moved to Kerr County on account of the climate there agreeing with him better than this.

Mr. Spencer was born in Gillespie County, June 9, 1877, and would have been 55 years old in June. He joined the Baptist Church early in life and lived a consecrated Christian life until the end.

He moved to Schleicher county some 23 years ago and identified himself with the upbuilding of Schleicher County and was ever found on the side of morality.

On February 11, 1914, he was severely burned, while attempting to fill his car at his home before daylight and used a lantern to see by, the gas catching fire from the lantern and his body was soon aflame with burning gas. It was from the injuries that he never fully recovered, but was spared to be with friends and do his good work 18 years more.

He served as Mayor for Eldorado and his good work in that capacity will live after him. When the question came up to decide between two issues, no one had to guess on which side Charlie was on, when it was a moral issue at State every one knows that Charlie Spencer was with the forces of righteousness.

He married a Miss Stevens before moving to Schleicher county but never had any children, and his good wife survives him. He is the last of the four grown married Spencers that came to Schleicher county and settled the Bailey Ranch neighborhood. He still owns considerable property here and his parents are buried at Bailey Ranch, but just a few days before he died he and his wife talked of their place of burial and decided to be buried at Harper, a former home. And his body was laid to rest Monday afternoon in the Harper Cemetery, with the Rev. J. L. Ratliff assisted by the Masonic Order officiating.

Quite a number of friends and relatives went from Eldorado to the funeral to pay their last respect to their beloved friend and neighbor.

Oil News

The Stanolind Oil Test No. 1 W. H. Williams, is fishing for drill stem that was in the hole last week, when fire damaged the drilling equipment at this test. They have two rigs at this place and are using the old one for this work.

The J. D. Wesner No. 1 W. R. Nicks has received their new line this week and will begin fishing for tools as soon as line can be put on.

DRYS HAVE EASY VICTORY IN CONGRESS

A wet vote was taken in the House Congress Monday and the wets lost by 227 to 187. Two Texas Congressmen, Cleburne, and Buchana, voting wet and our Democratic leader of the House silent. Garner did not vote, but everybody knows where Blanton stands.

METHODIST CHURCH SERVICE

Sunday School at 10:00 a. m. No preaching at the 11:00 o'clock hour as pastor will be at Ludd.

Preaching at the evening hour Sunday March, 27, will be Easter. The young people will have an Easter program at the morning hour and an Easter Picture in lecture at the evening hour.

All are invited to come and worship with us.

George Williams Gets Four First Prizes

George Williams, prominent stockfarmer and breeder of fine sheep, carried three Rams to the Fort Worth Fat Stock Show and captured 4 first prizes, as follows:

First in Age C. Type Ram; First in Grand Champion; First in Third C. Type Age Ram; and First in Yearling C. Type Ram.

Mr. Williams breeds the Rambouillet strain and met hard competition at Ft. Worth. 17 Rams were entered in the show to compete for the honors and represented the best of the breeders in the United States, and First was awarded to a Texas Ram and one from Schleicher County. Mr. Williams is to be congratulated in his winnings.

SANTA FE SPECIAL VISITS ELDORADO

Stressing improved methods of farming and livestock production, the Santa Fe farm and home special, operated by the railway company in cooperation with the Texas A. & M. College, arrived here for a program of about two hours Wednesday afternoon, March 16. A large crowd of Eldorado and Schleicher County residents greeted the arrival of the special train and viewed with much interest the exhibits aboard.

The train carried four cars of exhibits, one of livestock emphasizing care and feeding of the animals, one of rural electrification exhibits and two cars of farm and ranch exhibits, including 4-H pantry and farm home industries displays.

In addition to ranchers and farmers from the county, most of the residents of Eldorado, including the school children, visited the train. Supt. R. D. Holt of the local schools dismissed classes long enough for the students to go to the train and see the exhibits. W. A. Davis, rancher; Tom K. Jones, rancher, George Williams, Rambouillet sheep breeder, and numerous other ranchers and stock farmers came in to the view the exhibits.

J. D. Tinsley, agricultural agent of the railway, Amarillo, had charge of the program here. Prof. D. H. Reid, head of the poultry husbandry department of A. & M. College, had charge of the group of A. & M. specialists on the train, these including: H. H. Williamson, vice-director and state agent; Miss Mildred Horton, state home demonstration agent; Miss Helen Swift, district home demonstration agent; T. B. Wood, district agent, of the Extension Service; R. W. Snyder, Extension meat specialist; A. K. Mackey, sheep and goat specialist; P. T. Montfort, who had charge of the rural electrification exhibit.

L. E. Sumner, Schleicher County agent, who did much in spreading news of the coming of the train, was among those who greeted the arrival of the special and assisted with the exhibits while it was here. Miss Gladys Martin, home demonstration agent of Tom Green county, was aboard the train to assist with exhibits of special interest to women and girls.

Operation of the rural electrification exhibits while the train was here was made possible through the courtesy of the West Texas Utilities Company which supplied current for running the machines.

Among visitors to the train was Cecil Moore, who won first prize with the best lamb and numerous other prizes at the Southwestern Exposition and Fat Stock Show at Fort Worth in 1931.

Santa Fe representatives aboard included: J. F. Jarrell, manager agricultural department and editor of "The Earth" Topoka, Kan.; Mr. Tinsley, R. H. Forbes, division freight and passenger agent, San Angelo; A. M. Hove, representative of "The Earth", Amarillo; D. L. Badgley, trainmaster, San Angelo; L. F. Dinan, agricultural agent, Galveston.

Schleicher Lambs And Calves Bring \$2,300.00 At Shows

Members of the Schleicher County 4-H Club received Tuesday from John Clay & Company of Ft. Worth, checks aggregating \$1,560.74 which was the proceeds from the sale at Ft. Worth of the 19 calves and 99 lambs shown by the club boys and girls in the recent fat stock show. In addition to the sum, the club won in premiums at San Angelo approximately \$350. and premiums at Ft. Worth of \$400., bringing the total net amount received for their animals to a sum approximating \$2,300.00.

The sale:

Jess Ella Johnson, 1 calf 340 pounds, \$8.75; Cecil Moore, 2 calves, 1,710 pounds, 8.75 and 9.00; Louie Nolen, 2 calves, 1,485 pounds, 8.75; Dee DeLong, 1 calf, 835 pounds, 8.75; Geo. Williams Jr., 820 pounds, 8.00; Lee Lewis, 2, 1,635 pounds, 8.75; Richard Jones, 1, 810 pounds, 8.25; Richard Jones, 1, 800 pounds, 6.00; Orland Harris, 1, 900 pounds, 9.25; Gene Koy, 1, 810 pounds, 9.00; Margaret Hain, 1, 800 pounds, 8.75; L. D. Mund, 1, 1,000 pounds, 8.75; Milton Baugh Jr., 2, 1,735 pounds, 8.50; Milton Baugh Jr., 1, 910 pounds, 6.50; W. B. Gibson, 1, 685 pounds, 5.25.

Lambs:
Eugene Koy, 12 lambs, 1,250 pounds at 8.1-2; 1 lamb, 110 pounds at 82 cents, and 2 lambs, 215 pounds at 6.60.

Garth Clark, 12 lambs, 1,195 pounds at 8.1-4.

Edward Cox, 2 lambs, 200 pounds at 8.1-4; 5 lambs, 495 pounds at 6.60.

Luther Kent, 2 lambs, 200 pounds, at 8.1-4 and 6 lambs, 525 pounds at 6.60.

Jack Kerr, 1 lamb, 110 pounds at 8.1-4 and 3 lambs, 275 pound at 6.60.

Jo Ed Hill, 5 lambs, 490 pound at 8.1-4 and 3 lambs, 285 pounds at 6.60.

R. J. Alexander, 10, 945 pound at 8.1-4 and 5, 445 pounds at 6.60.

Glenn Green, 6, 5 5 pounds at 8.1-4 and 7, 600 pounds, at 6.60. Robt. Williams, 7 lambs, 730 pounds at 6.60.

Hollis McCormick, 10 lambs, 880 pounds, at 6.60.

The killing report on the several lots of lambs shown and sold at Ft. Worth is very interesting, and reveals that the Schleicher County carload of club lambs produced a higher dressed yield than the carlot awarded grand championship.

1st and champion club car (Schleicher County 4-H Club) weight 99 pounds, yield 50.3 per cent, carcass grade, good.

1st Open Class and Grand-champion carload (Okla. A. & M. College) weight 105 pound, yield 48.1 per cent, carcass grade, good.

Champion fine wool open class lamb (Okla. A. & M.) yield 50 per cent.
Champion fine wool club lamb, Gene Koy, weight, 110 pounds, yield 51.8 per cent.

Eye Sight Specialist Coming Again

Dr. Fred R. Baker, who has served this community for twenty years, will be at Hoover's Drug Store, Wednesday, March 23rd. Only a large list of local references furnished upon request. He has the late 1932 styles in spectacle ware, and will give the expert eye examinations that have made "Baker's Glasses Famous", and prices are lower. —Adv.

Truett Stanford and wife were visiting and shopping in the city Monday.

 We appreciate any item of news you might know. Call 77 and we will do the broadcasting.

MARCH 18, 1932

We understand that the open carload of sheep from Oklahoma that won over Schleicher County, at the Ft. Worth Fat Stock Show, was bought from the Wiloughby ranch in this county. So that is not so bad after all.

Now since we have at last had some winter, we can begin our spring gardening.

Fresh sheared goats suffered last week from the extensive cold weather, and some ranchmen over West Texas lost heavily. However, we have not heard of any bad losses in this county. Our loss was mostly to the young lamb crop.

Saturday night brought the lowest temperature of the winter and the hardest freeze, after snowing most of the day Saturday. The night came on with a clear sky with freezing temperature before nightfall and Sunday morning a cool north wind still continued and much ice was in evidence. But Sunday turned to thawing.

Schleicher county is not only proud that a Texas Age Ram C. Type won first prize in the Ft. Worth Fat Stock Show, but is also proud that the Ram was bred and raised in Schleicher County. The winning of the Schleicher county Sheep at the Fat Stock Show for the past three years has been marvelous, even beyond our own expectations.

Are you a square shooter? Does your friends and neighbors know you are square and play the game fair? If so, you have nothing to fear from the most of people. They like an honest man or woman, one who can play fair and do the right thing. Then when you lay down in death they can and will say, "He was an honest man, did his fellowman right and his soul rests in peace with God."

HOW TO OBTAIN BETTER FARM PRICES

There is meat for farmers in all parts of the country in an address recently made by Shirley W. Wynne, Commissioner of Health of New York City.

Competition among dairymen and dairymen's organizations, he said, tends to reduce the price received for milk by producers. "If I were asked how dairy farmers can obtain better prices for their milk," he continued, "I would say stop unfair competition, control your surplus, prevent its use in demoralizing markets, and give every possible aid to our campaign for increased consumption."

In other words, the dairymen must be organized. And that goes for all farmers, no matter what commodity they have to offer. General poor business conditions have of course been partly responsible for low farm prices—but lack of cooperation among farmers themselves has unquestionably done as much or more to knock prices down and keep them down.

On the day the last "independent" farmer joins a sound cooperative, agriculture will have real and permanent prosperity. And in the meantime, all farmers owe it to themselves and their calling to do everything possible to back up their cooperatives, not only through their own loyal support, but in bringing unorganized farmers into the fold. We live in a fast-moving, highly competitive world, and cooperation is perhaps even more essential to agriculture than to industry at large.—Industrial News Review.

THE PRESENT CONGRESS

It is fortunate that the present Congress has been fairly free from half-baked and dangerous legislative proposals.

It is true that various bills have been urged which, if passed, have done much to retard business recovery. But none of these has gone far. And Congress, working in conjunc-

Garden Of Experience

F. G. Clark

PUBLIC CONSCIENCE

Kidnapping of innocent children has become a national menace and it required that the crime be committed against as prominent a couple as the Lindbergs to arouse the nation to from a determination to end it. Kidnapping, however, is but one phase of organized crime being constantly committed in the under world. Racketeering is being carried on wholesale everywhere. The peaceable merchant is laid under tribute by threats against his life, family or property unless he pays a monthly sum into the coffers of the gang. And this form of banditry is not confined to the cities. In many parts of sparsely settled Texas, these gangsters ply their trade. Cattle and other stock are stolen and the implied threat is made: "If you make us trouble, you will wake up some morning to find your pasture strewn with the balance of the herd. Leave us free and we promise to be moderate in our filching. And this style of criminality is not confined to rich or strong alone. Even working girls are threatened with scandal if they refuse to contribute a part of their small wages for the purpose of securing immunity. There is no length to which the gangster will not go to get money.

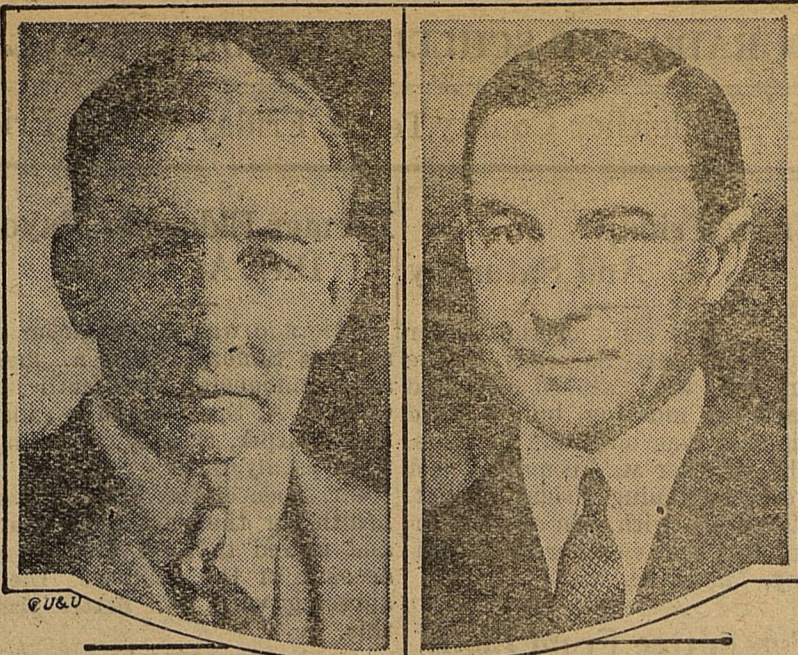

The general public is partly to blame for this condition. It is a deplorable fact that there lies in the conscience of a good share of the people a latent sympathy for the criminal. This is evident by the frequent mis-carriage of justice when the criminal is brought to the bar. Honest peace officers have told me that they become discouraged in arresting criminals only to have them turned loose by judge and jury. And even when justice has been finally administered, it has been so long delayed that much of the sting has been extracted from the punishment. When a crime has been committed and a party to it apprehended and his guilt established, his punishment should follow without delay. Nothing deters a prospective criminal like knowing that the commission of the crime will be followed by certain and swift justice. In Austria, recently, two young men robbed a bank killing an officer and attempted to escape on bicycles. They were captured at four o'clock, tried and hanged at six o'clock of the same day. Bank robbing and murder are not popular in Austria. Some ten years ago, two men held up a pay-roll messenger, killed him and took the money. There was no doubt of their guilt, but it required seven years to bring them to justice. In the meantime, international communists got busy to effect their liberation. Officers of the law were murdered, their houses blown up, and threats made broadcast against all who were connected with their conviction. As soon as they were executed, the operations ceased. The moral from this should be easily drawn.

tion with the President has been responsible for several pieces of constructive legislation which are already benefiting the country at large.

Government can aid greatly both in restoring and maintaining prosperity. Or it can become, figuratively, a wall in the path of industrial progress. At present it may be that the greatest fear business has is of further tax increase—already the tax bill amounts to an alarming percentage of corporate revenues. We should steer clear of so-called "relief schemes", no matter how sincerely proposed, that would pile up millions more in debts for us to pay. The orgy of spending we went through following the war was a main factor in bringing on depression—and heavy additional taxation would unnecessarily prolong it.

C. H. Jennings, State Game Warden, for Schleicher and Sutton counties, was in Eldorado Tuesday getting acquainted with our people. He is ready to serve the people of this county at any time, and if you need him phone him at Sonora.

Two Chicago Bankers Prominent In Drive Against Depression

Charles G. Dawes (left), Chairman of the New Reconstruction Finance Corporation, and Melvin A. Traylor, Chicago Banker.

CHICAGO and the Middle West have a double interest in the success of the gigantic Reconstruction Finance Corporation which is now being organized in Washington following speedy action by Congress.

Charles G. Dawes, whose name is almost synonymous for the business community of Chicago will sit in the driver's seat as the active head of the great \$2,000,000,000 Federal corporation just authorized by Congress.

Another Chicago banker, a Democrat who is being repeatedly mentioned as a man of Presidential timber, has the distinction of making a vital contribution to the initial strength and success of the Reconstruction Corporation. That man is Melvin A. Traylor, president of the First National Bank of Chicago, who was the first to visualize

and propose that the Reconstruction Corporation render some service to thousands of depositors of small banks which had failed during the past two years. The gist of Mr. Traylor's proposal before a Senate Sub-Committee was that the Reconstruction Finance Corporation be authorized to make loans to closed banks as well as to financial institutions and others needing its aid. Such a step would release substantial amounts of money to depositors whose funds had been "frozen" by the failure of such banks.

Mr. Traylor's suggestion made such an impression that it was embodied in the Bill as finally passed by Congress. He, more than any other man, is responsible for the timely assistance that will now be possible for many depositors of small banks throughout the country.

EXTERMINATE GOAT LICE

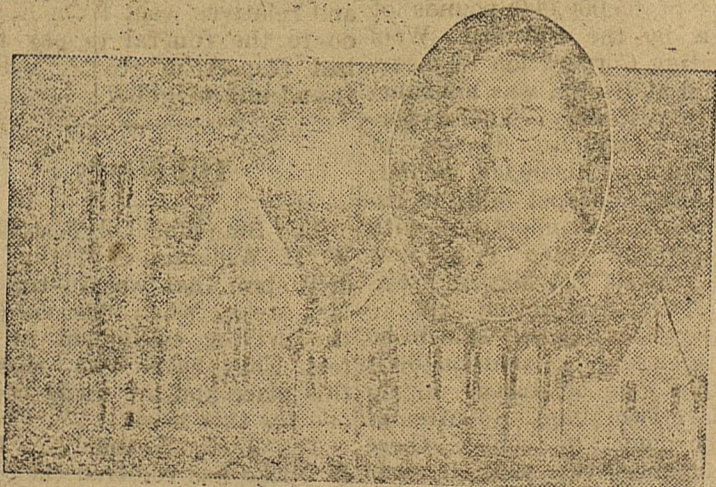

MENARD—Lice were satisfactorily exterminated on 2,200 head of goats in a demonstration covering seven Menard county ranches last year by the use of a sulphur dip as worked out by the Sonora Experiment Sub-Station, according to Frank N. Newsom, county agent. Two dippings ten days apart were made in cattle dipping vats slightly changed so that the goats could be thrown in from the side of the vat and held in the solution one-half minute. It was necessary to get every goat rounded up to insure good results. The method is based on the fact that the lice do not live on the ground.

L. E. Clement of Station A was a business visitor in the city Monday.

SWEET CLOVER SOWING SPREADS

WHARTON—That one sweet clover demonstration was responsible for the planting of 1,000 additional acres to this crop in Wharton county was due to a huge increase in the yield of a succeeding potato crop on the land, says J. O. Graham, county agent. Walter Matthys planted 3 1-2 acres of clover in the fall of 1929 and secured thereby an abundance of pasture for 12 head of cattle through out the spring and summer of 1930. Broken deep in November and planted to Irish potatoes a crop of 157 bushels per acre was made on the clover land, whereas potatoes on corn land made only 95 bushels per acre. Last fall Wharton county farmers sowed 12,880 pounds of sweet clover seed.

THOUSANDS OF W. O. W. PILGRIMS ATTEND IMPRESSIVE CEREMONIES AT NEW CHAPEL

Above is a photograph of the new Woodmen of the World Chapel at San Antonio, Texas. Inset is W. A. Fraser, president, for whom the chapel was named.

SAN ANTONIO, Texas, Nov. 22.—By auto, train, airplane and foot came thousands of members of the Woodmen of the World Life Insurance association from nearly every state in the Union to help celebrate the dedication of the William Alexander Fraser chapel and hospital this afternoon.

The beautiful chapel, set on the grounds of the W. O. W. War Memorial hospital a short distance from San Antonio.

From early morning until late in the evening, the exceptionally large number of W. O. W. pilgrims inspected the chapel and hospital sanctuary, as well as the hospital and its spacious grounds.

They were thrilled by the masterful oration of U. S. Senator Morris Sheppard, national treasurer of W. O. W., who made the principal address.

National officers of the association took part in the formal dedication of the building, as well as ministers of the Protestant, Catholic and Jewish faiths.

The Ninth Infantry band from Fort Sam Houston played.

An elaborate program of music included a recital by St. Mark's

Church choir, a number by the San Antonio Liederkreis, a feature by the Beethoven Maennerchor and organ recitals by Ben Stanley of Omaha, Nebraska, Walter Dunham and John M. Steinfeld.

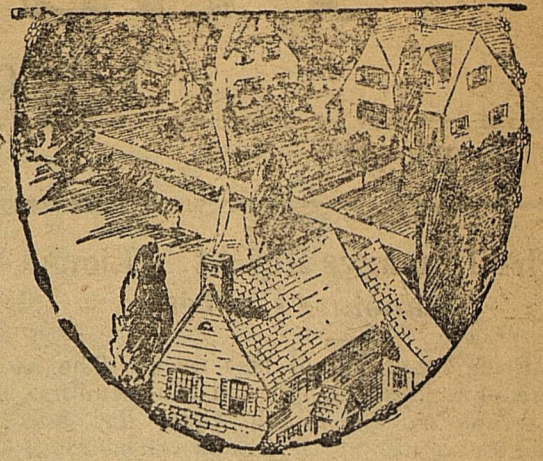

The beautiful chimes of the Chapel lent much atmosphere to the impressive occasion.

Thousands were guests of W. O. W. at a huge barbecue of products from the farm of the W. O. W. hospital. Many members of the association came as guests of W. O. W., having won their expenses to the dedication by special performance in a large membership campaign.

The chapel was named for William Alexander Fraser, president of W. O. W., because of his personal enthusiasm and long devotion to the building of a great W. O. W. center at San Antonio. Mr. Fraser began the task of raising funds to purchase the hospital grounds twenty-five years ago.

Everyone in attendance agreed that Woodmen of the World has contributed much to the wonders of Texas by the unusual architectural design and the solemn physical beauty of the new building.

Spend For the Home In 1932.

Your Safest and Best INVESTMENT

Painting your home saves you money. We have a good line of paint. Let us estimate a complete paint job for you.

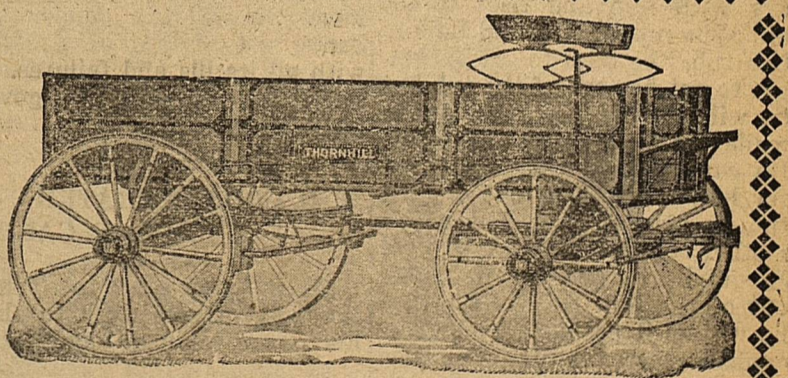

West Texas Lumber Co.

LOWES PRICES IN YEARS

You will find the lowest prices on Garden Tools, Garden Hose, Lawn Mowers and other necessities for garden planting, than you have found in the past decade. All going at the new low price of nearly half of former years. Take advantage of these low prices on quality merchandise and equip your garden with the best same good quality as before.

The Success

THEY DIDN'T BECOME DISCOURAGED

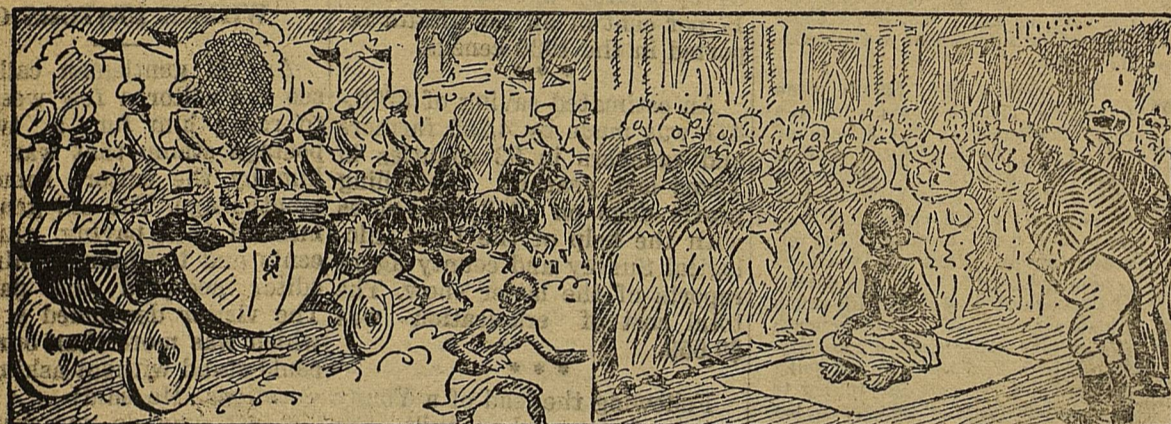

Melvin Traylor, seeing his first railroad train when 19 years old, was not discouraged by the long and difficult road to a success which seemed to lie remotely ahead.

Today he is one of the most trusted of the nation's financial leaders. He has lost none of the simple democracy of his youth and his Kentucky friends hope he may gain the Democratic presidential nomination.

Ramsay MacDonald, by opposing Britain's participation in the great war, was reviled as a traitor by his war-inflamed countrymen. He was not discouraged.

Today he is the head of the British government and upon him is centered the hopes of the nation for delivery from its crushing problems.

Gandhi, scrambling to escape being run down by the viceroy's carriage, did not lose hope, although the road to success seemed beset by insurmountable obstacles.

Today Gandhi has the largest personal following of any living man. In England he is feared because of his immense influence in India and respected because he is proof against all diplomatic flattery.

HOMESPUN SENSE

Pithy Quotations from Public Addresses of MELVIN A. TRAYLOR
President, First National Bank, Chicago

"It is time some leadership and some party called our attention to the fact there is no magic cure for the ills and the evils of human folly. We tread the primrose path of extravagance, of thoughtless and of almost criminal neglect of every sound principle of human conduct, from the individual to the government, and the individual was aided, encouraged, and abetted on that path by the government and those responsible for its administration."

"One of the biggest things was a watered state of mind in which we all thought we were richer than we were, and were living beyond our means."

"In my opinion, no great division of human society has ever been lied to, and lied about, as much in the same period of time as has the American farmer."

"This then is my hope for our future—that we may be rich without forgetting to be righteous; that we may be powerful without being offensively proud; that we may be nationally minded without being narrow-minded; and, finally, that we may live in a world of fact without surrendering our faith."

"I would urge consideration of the complete abolishment of so-called floor trading, which, as I am informed, has about it most of the characteristics of plain crap shooting, and few, if any, more redeeming features than that delightful Ethiopian pastime."

"It is bad enough when the intelligent and wealthy speculate and lose, but when scrubwomen, day laborers, small home owners, wives and youths speculate and lose, simply because they can go to a broker's office and get credit for small sums, the practice ceases to be defensible on any ground."

"Out of the stress and difficulty of the situation I believe gradually we shall return to simpler thinking and simpler living. For it seems to me that we want above everything to abandon the struggle to live up with the Joneses, and to rediscover the true purpose of life, which is the joy to be found in the simple virtues of industry, thrift and sane living. I believe in our people, in our country, and in the God who directs our destinies; and I welcome the future with confidence and unshaken faith."

"We have not failed because of

ignorance of economic theories, but because of our utter disregard and defiance of all economic laws. Ambition, stupidity, and greed have dictated policies, and trouble has been the result."

"All through history... the nations that have been agriculturists and have included in their agricultural and domestic pursuits the breeding and raising of livestock have been the nations that have endured the longest and performed the greatest work for mankind."

"Open the door of an agricultural school and you close the door of a poorhouse."

"Relief from owing too much money does not lie in borrowing more."

"Human welfare, I believe, means more than the mere assurance to the individual of political rights—life, liberty and the pursuit of happiness—as enunciated in the Declaration of Independence; it means also the opportunity to exercise these inalienable rights."

"Knowledge is one thing, but courage of leadership is another."

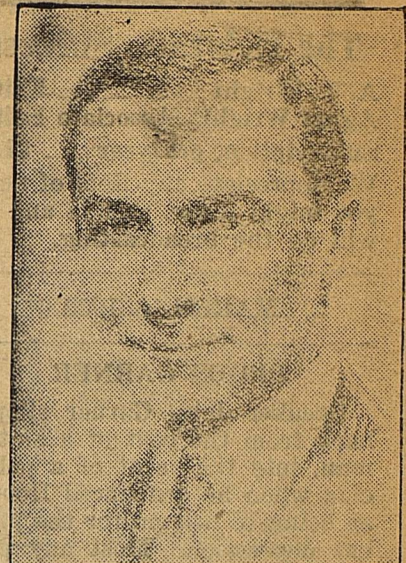

"Falseness and error make the headlines, while truth and fact are lost in the maze of half-point type."

"What does freckle-faced Johnny, snub-nosed Bill or red-headed Jim care about composition, translation or conjugation? The only cube root life will ever give them a chance to extract will probably be that of a hickory or sassafras sprout; the only unknown quantity they will ever seek to find will be the measure of the nubbins they can produce on the worn-out fields their fathers have robbed before them; the only conjugation they will ever undertake will sound something like 'Wo Work,' 'You Work,' 'They Work.'"

"We cannot trade the hungry, the unfed, the feeble voice of the sick, the empty basket of the unemployed, against the maintenance of party preference or individual advantage or personal achievement."

"I believe I am a better farmer by a long shot than I am a banker."

"We must either all thrive together or all suffer disaster."

MELVIN A. TRAYLOR
President of First National Bank, Chicago

Notice To Carpenters And Contractors

Bids are now open to local carpenters and contractors for the complete installation of new equipments for the local Post-office.

Those interested will please call immediately at the Postoffice for specifications in regard to same.

quickly, and with a light touch. Too much stirring and beating will make any soft wheat product heavy. From start to finish you can make these self-rising cookies in eight minutes, which would ordinarily require fifteen to put together. Every mother who has ever snatched time out of the air in order to make a batch of cookies knows that this is a saving worth while.

The recipe is as follows:
Honey Cookies.
3/4 cup brown sugar 1/2 cup seeded raisins
1/2 cup strained ins cut fine
1 egg 1/2 cup finely
7 tbsps. butter 1 teaspoonful mace
3/4 cups self-rising flour
Mix the sugar, egg and shortening together. Beat until thoroughly blended. Add other ingredients in order given, roll and cut. Bake in moderate (350 degrees F.) oven for about 20 minutes. You will find these will cut much better if you allow them to chill thoroughly or stand over night before cutting.
If you have to buy shelled nuts for the cookies, get the broken pieces. They are just as fresh and good, and the saving is considerable.

You Control Your Electric Rate

YOUR average cost per unit of electric service (a kilowatt-hour) is determined by yourself! It actually is within your power to control the price you pay for service... and you can make it 10 cents or less than 4 cents per kilowatt-hour!

Your electric rate schedule is so arranged that the average cost per kilowatt-hour becomes less as your use increases. Thus, the more you take advantage of the comforts and conveniences of electric service, the cheaper your average unit becomes.

Customers reaping the benefits of complete electric service employ many time, money and labor-saving *Electrical Servants* at unbelievably low rates—and profit by many unusual savings and economies.

Your actions, in putting electricity to work for you, govern the cost of your service. Electricity is your cheapest servant—why not let it assume your tiresome and arduous household tasks? A trained employe will be happy to explain the many benefits of complete electric service—and show you how you can save money and control your own electric rate. Don't you think it would be wise to investigate?

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

... SUCCESSFUL HOMEMAKING
By RUTH MAVIS STONE

HONEY COOKIES SWEETEN THE SCHOOL LUNCH BOX

One of these days the efforts of the busy little bee are going to be appreciated for what they are really worth, and when that day comes we'll all of us be eating more honey than we do at present. Honey is a natural sugar, pure, wholesome, and nourishing. It can safely be given to even young children and is an ideal way of sweetening much of their food.

For the children's lunch box or for ordinary table service, try making these honey cookies. They satisfy their natural craving for a bit of something sweet after the rest of the meal, and add a considerable amount of nourishment. The recipe calls also for brown sugar, which gives a richer flavor; butter, a good source of the vitamin A, chopped nuts and raisins, supplying energy and nourishment, and the honey. Another important factor from the health standpoint is the self-

Removing Ice-Box Cookies From the Oven. The Use of Self-Rising Flour Greatly Simplifies Baking.

rising flour. Self-rising flour is flour with the baking powder and salt added. This baking powder is made of monocalcium-phosphate and soda. Bones and teeth are largely composed of calcium (or lime) and phosphorus, so you can see how important it is for the growing child to have a sufficient amount of those minerals. Both of these minerals are supplied in a good form in self-rising flour.

Self-rising flour is economical because it requires no additional baking powder. It is also a great time saver. There's the time saving in measuring and sifting (you sift self-rising flour only once), and time saving in stirring. Cookies made with self-rising soft wheat flour should be put together gently,

MARCH 18, 1932

PRODS GARNER

Speaker John Garner slipped back from the seat of a statesman, into the seat of a politician when he denounced Hoover as being to blame for the present depression. Most any peanut politician knows better Garner should have been too large for such a statement.—Eldorado Success.

Can't overlook your thrust at John Garner, Brother Wright. John lives too near us and has been too true to our ideals and policies for any true West Texan not to be loyal to him. Your admiration for Mr. Hoover and the great prosperity (?) his (mal) administration has brought us, has come dogged near making you say that John Garner is a liar. Of course you did not mean to be that plain, but you certainly came near cutting an intestine in trying to butcher John's chance for beating Mr. Hoover for president.

What Speaker said about Mr. Hoover can be substantiated by facts. When Mr. Hoover was running for president in 1928, you boys told folks that his election meant prosperity and the said times would be good and that everything would be O. K.

If Hoover is not to blame for the depression, who is? He is president, is he not? He appointed Mr. Andrew Mellon and all that bunch, did he not? If he is not running things, who is? If things are not running to suit him, why does he not make a change? If Al Smith had been elected and everything went to the bad, you boys would have been ready to have hanged our old Democrats for voting for him. But as it is, you boys made a bust by electing Hoover and you are staying with your bust.

We hold that Hoover is not a crook. On the contrary we think he is honest and is doing all he can to make the best of his administration, but the poor man is too dumb for the job. He lacks everything that requires judgment, leadership and executive ability. Why, anyone with common intelligence could have done as well as Mr. Hoover has in the last three years.

Mr. Hoover is a good, honest man, belongs to the right church and is for the "noble experiment," and all that, but Brother Wright, you know as well as everyone else, that Mr. Hoover is not worth a continental darn as president. Forget about Hoover and get in to help Garner. It sure will look better in you seeing that he is your neighbor and fellow West Texan.—Sterling City News Record

Just seeing through wet glasses, Brother Kellis, we did not attempt to defeat John Garner for president and could not if we were to try. But great minds will frequently differ. When Cleveland our Democratic President had his depression or the bottom fell out of the markets, I did not lay the blame to Cleveland, but the majority of the people did, but repented for sins and returned him to power at the next election. Nor do we think that you believe Hoover is to blame for our present depression, for it is world wide Hoover is not that powerful.

The people are to blame for they have sinned and are reaping what they have sown. The war debt must be paid, no one man is to blame. And my friend and countryman, John Garner, should have been too great a man to make such statement.

We do admire Hoover and all christian men and more especially among our national leaders.

We think that Hoover comes up next to Bryan, and a hell-of-a-good fellow for a Republican.

We have been wearing a Garner for President button ever since he became prominently mentioned for the place and will continue to support him for the honors unless he tries to ride in on a whisky bottle platform.

We admire his stand on prohibition, he has always been wet, yet he believes in enforcement of the liquor laws, and we admire him for this stand, and

THIS AND THAT

By Jimminy

Recently a 67-year-old former railroad employe wrote a note, crawled in bed beneath covers under which was concealed a hose, turned on the gas and left this life. To an unthoughtful world he left this note: "This depression has got me ficked. There is no work to be had. I can't accept charity and I am too proud to steal. A land flowing with milk and honey, banks bursting with money, and a first class mechanic can't make an honest living. There is something rotten in Denmark."

Well, if there's nothing rotten in Denmark there is something putrid in Peru, America or some other place. Just because a man has reached the age of 45 years or over doesn't mean—or should not mean—that he has served his usefulness as a producer. If modern efficiency methods require that only those workers who are under 45 years of age be given the work, then efficiency to that extent should be done away with. Many men just begin to find out what it's all about at that age. Machinery is useful and will continue to be useful only so long as the machine is controlled by man.

Perhaps we are placing too much value on the dollar and not enough on human life. We say perhaps—we do not know for certain. At any rate, it is something for the world to ponder. Too much money and too little knowledge is the cause of most of the world's ills today. Consider, for instance, the case of the man who wrote to the sheriff of a Texas county: "I have been fritz out of exactly \$66.35. It is a lady about medium height, dark complexion which has been bleached a little. She has full face, full head of hair, a flat neck, small legs, her legs are too small for her size. She walk as if she overbalance. I think their is a mold some where about her face but her legs are real small. She usually wares a white dress. . . She has a Buick coup. I think one person can sit in back and one in front. She stop one part of the city and then again when she is stop she is some where else."

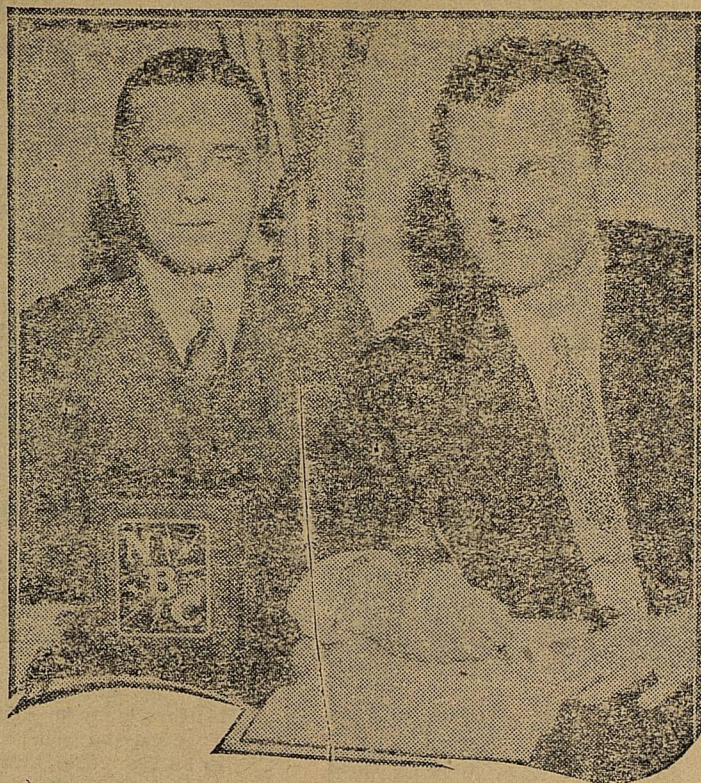

There's a case where a man had money but lacked knowledge. Now he has no money but has gained considerable knowledge.

We do not understand why he failed to register his vote Monday of this week when the vote was taken on the liquor or question. He has as much right to be wet as I have dry, but when we have a law he like my self believes it should be enforced.

We are both for Garner you wet and I dry, but we were not both for Al and as long as our party is in the hands of Raskob, Shouse and Smith, we are not going to win.

T. C. Meador was in from the ranch Monday on business.

Tibbett, Famous Singer, Signs with Firestone for Radio Series

Mr. Firestone, Jr., and Mr. Tibbett signing radio contract.

Harvey S. Firestone, Jr., vice president of The Firestone Tire and Rubber Company, has just signed a contract with Lawrence Tibbett by which the famous singer, distinguished as a great star in three fields—Metropolitan grand opera, talking pictures and the concert stage—will appear regularly before the microphone on "The Voice of Firestone" program. This unprecedented event sets a new standard in radio entertainment, since Tibbett thus becomes the first Metropolitan star ever to contract for a sustained series of appearances on the air.

Tibbett's premiere in his new role will be on Monday evening, January 4, at 8:30 o'clock and again at 11:30, eastern standard time, over a giant hookup of the Red Network and affiliated stations of NBC, covering the entire United States, Canada and Hawaii and by short wave to the entire world. His radio performances will continue on succeeding Mondays through the entire radio season. It is estimated by NBC that an audience equal to nearly half the population of the United States, or in the neighborhood of 50,000,000, will hear his singing each week.

It was by chance that Mr. Tibbett's concert tour took him to Washington at a time when Mr. Firestone, Jr., a friend of long standing, happened to be there.

When it developed that their paths were to cross in the National Capital, it was arranged that the protracted negotiations for the distinguished singer's appearance on the Firestone radio program should be brought to completion. After the signing of the contract, Mr. Firestone, Jr., was congratulated for bringing into the home each week the greatest voice America has ever produced, and Mr. Tibbett for setting a precedent in the artistic world.

This makes the fourth time Lawrence Tibbett has played the role of pioneer in the sphere of art. First, he introduced a new style of acting in opera by abandoning the time honored gestures which had been regarded as an indispensable feature of the operatic stage. Next, he ventured into unexplored fields by the daring of his concert programs with songs which were supposed to be beneath the dignity of so great a celebrity. Third, he blazed the trail by going into talking pictures and taking to the screen for the first time the artistry of the Metropolitan opera.

Now in the field of radio, Tibbett will again demonstrate he is not tied to tradition. "The Voice of Firestone" program provides that there will be "a song for everybody," running from the classics to the lighter and more popular airs.

Texas Woman Wins Automobile

MRS. MABEL G. WATSON, 2914 N. Main, Houston, has been notified that she won the 140th automobile in the daily nation-wide Cremona contest announced each week-day night over the Columbia network. Mrs. Watson was born in New Orleans but has lived in Houston nearly all her life. She has a choice of a Ford, Chevrolet or Plymouth automobile as a reward for writing the statement.

ON TEXAS FARMS

By W. H. Darrow, Extension Service Editor

Alfalfa was grown in demonstrations in Texas last year by 693 farmers in 102 counties. From 10,038 acres they averaged 2.8 tons of hay per acre. The demonstration acreage developed by county agents comprises 17 per cent of all the alfalfa reported in the 1930 census.

An estimated saving of \$270,471 was made by 4,289 farmers and ranchers in 93 counties in Texas last year by controlling prairie dogs on 718,812 acres with the help of the U. S. Biological Survey and county agent reports of the latter show. The total cost of eradication was \$9,659.

Following the lead of a Young county farmer who built the first hog self feeder in the county last August, 23 feeders have been built since that time by blue prints furnished by the county agent, and nine others plan to construct feeders soon.

Mrs. D. Williamson of Ether, Grayson county, 4-H pantry demonstrator, needed only 853 containers of food to meet the budgeted food requirements for her family but she canned 1,177 containers and found a ready sale for the surplus with a Whitesboro merchant.

A 24 percent last year in dairy cows kept primarily to supply home needs is reported by 3,962 farm women working with 30 Texas home demonstration agents to produce an adequate farm home milk supply. These women tend an average of three cows and use two-third the products at home.

WHERE EDITORS GO

An old gentleman called to see the editor a few weeks ago to repay him for a two-cent postage stamp that was given him by the editor some few months ago. The old gentleman insisted upon paying this two cents and to humor him the editor accepted the payment. The visitor demanded a receipt which was more than our editor could stand without asking some questions. He said:

"Just why do you want this receipt for such an insignificant amount?"

"Well sir," the visitor replied, "I am getting along in years and when I die and walk up the Golden Stairs to approach the gate to Heaven, I will be asked if I have paid all my bills on earth. When I am asked for my receipts I don't want to have to chase all over Hell looking for you."—Swiped.

VECK FLORIST

San Angelo, Texas

Mrs. J. D. McWhorter representative, benefit of the Methodist Church.

Bids are being asked for the installation of the new fixtures in the Eldorado Post Office.

Prof. Dave Williamson, who was out of the school last week on account of illness, was able to be out again Sunday and back in the school this week. In fact a great deal of the flu has been in our midst but most of it has passed away.

THE HARD, COLD FACTS

"The Nation cannot tax itself rich. It cannot dole itself back into prosperity. The states with relief problems on their hands cannot get any additional money to spend by piping their funds to Washington in the form of taxes and getting them back again as gifts or loans. Inevitably they would lose some of it on the way. In addition they would have the aggravation of seeing their own money, which they could administer themselves much more economically, managed by a string of red tape leading to the desk of some Washington bureau clerk."—San Francisco Chronicle.

L. T. Wilson was in from the farm Monday. He reports that he has his corn planted.

ELDORADO AND SONORA HAVE TYPING CONTEST

Last Wednesday afternoon, March 2, the typewriting team from Eldorado went to Sonora and had a contest with the Sonora representatives. The team average for Eldorado was 13.1 words per minute against a team average of 11.6 words per minute for Sonora. Edith Carsons of Sonora won first individual honors, with Melba Jones of Eldorado taking second place and Elnora Andrews of Eldorado winning third place.

Eldorado entered a team of six writers against a team of four for Sonora. This was done because of the fact that Sonora does not have as many students taking typing as Eldorado does, and an effort was made to choose a number that would be in proportion to the number of typing students.

The individual ranking of the ten writers was as follows: Edith Carsons, Sonora, first, 27.2; Melba Jones, Eldorado, second, 26.0 words; Elnora Andrews, Eldorado, third, 25.9; Moralee Meckel, Sonora, fourth, 16.7; Billy B. Baugh, Eldorado, fifth, 13.8. The remaining five writers in the order in which they scored are James Page, Eldorado; Troy White, Sonora; Thomas R. Jones, Eldorado; Anna R. Spurgers, Eldorado; James E. Hutcherson, Sonora.

Eldorado and Sonora are scheduled to have three more of these contests between now and the district meet. Eldorado intends to enter a team at the district typing tournament at Colorado, Texas which will be held the last of April. The team will consist of the students who write the most consistently on the preliminary contests at home and at Sonora.

W. A. Davis was in from the ranch Monday looking after business.

H. M. Freund was a business visitor in the city Monday.

R. T. Crain, of the Crain Motor Co., made a business trip to San Angelo, Monday.

Marion Wade was in from the farm Monday.

PAIN

HEADACHES NEURITIS NEURALGIA, COLDS

Whenever you have some nagging ache or pain, take some tablets of Bayer Aspirin. Relief is immediate!

There's scarcely ever an ache or pain that Bayer Aspirin won't relieve—and never a time when you can't take it.

The tablets with the Bayer cross are always safe. They don't depress the heart, or otherwise harm you. Use them just as often as they can spare you any pain or discomfort. Just be sure to buy the genuine. Examine the package. Beware of imitations.

Aspirin is the trade-mark of Bayer manufacture of monacetic acid ester of salicylic acid.

SAFE

INDIGESTION

"My work is confining, and often I eat hurriedly, causing me to have indigestion. Gas will form and I will smother and have pains in my chest. "I had to be careful what I ate, but after someone had recommended Black-Draught and I found a small pinch after meals was so helpful, I soon was eating anything I wanted. "Now when I feel the least smothering or uncomfortable bloating, I take a pinch of Black-Draught and get relief."

—Clyde Vaughn, 10 Shippy St., Greenville, S. C.
 Sold in 25¢ packages. 5-172

ELDORADO HIGH SCHOOL TEACHERS HAVE READING SHELF

Bob Evans

At the suggestion of Mr. Holt, a reading shelf was placed in the office, and the teachers invited to bring professional books and pamphlets to be placed thereon. Each book and pamphlet has a card, which is signed and placed in a small box by the one taking the book. The teachers responded readily by bringing a large number of their personal books, a few being:

- A Mrrartical Handbook of Games
- The Problem of Vocational Guidance.
- Principles of Womens Athletics.
- Changing Conceptions of School Discipline.
- Our High School Clubs.
- Parenthood and the Character Training of Children.
- Supervised Study.
- Public School Organization and Administration.
- The Child: His Nature and His Needs.
- Good Manners and Right Conduct.
- Psychological Principles of Education.
- Introduction to Philosophy.
- Educational Measurements.
- The Public.

These books have had a good circulation during the time the reading shelf has been in existence, and has proved a successful plan whereby each teacher may do the maximum of professional reading with a minimum cost.

PEDAGOGUE TROUBLES

Thelma Taylor
Mr. Holt, of course, will come first on the list as he is our superintendent. Poor man, he can't seem to get his History class to bring their notebooks up complete. He has one hundred and one little things to attend to every day and on top of that he had the flu for almost two weeks. Does anyone envy him his job?

Next, we take Mr. Smith. He has to check the roll every morning and every day at noon. Then he has to see or rather hear the excuses and determine which are good and which are no good. Not very hard, did you say? Just ask him if you want to know the truth.

Miss Allen worries over the Juniors but still she can't figure out why they are so mean. Besides this great problem she has to grade about 80 papers every day. She ought not to make us do so much work and then she wouldn't have to work.

I suppose that is all I will tell this time but maybe they will have worse troubles next time. At any rate, these are few of the many they have each day.

FRESHMEN STAY IN THERE

Aletha Faught
English becomes more difficult all the time. Don't you suppose it is rather hard to tell whether the voice of a transitive verb is high or low?

History is very interesting now as the lessons consist of the study of medieval towns and

the beginning of business. It is interesting to study the development in cities and customs.

Algebra is all right as long as the lessons are not composed of a bunch of stated problems. Sometimes, it is difficult, to understand the powers and roots.

JUNIORS MEET AT FOUR O'CLOCK

The president of the Junior class called a meeting of the Juniors on Tuesday afternoon of last week.

The meeting was called to order and business discussed. Jim West, the president appointed three committees which are as follows:

- Invitation Committee
Margaret Sheen, Willie Ruth Johnson, Lillie Bell Kent.
- Decoration Committee
Jack Ratliff, Thelma Taylor, Margaret Bradley.
- Menu Committee
Aubrey Smith, Mary Dell Williams, Evelyn Anderson.

I believe that was all, so without ceremony the curtain falls with a bang.

ALUMNI AND SOCIETY

Thelma Taylor
Miss Hazel Bruton, ex-student of E. H. S. was at home from Sul Ross this week-end and visited with us Monday evening. We were glad to see Hazel for we all love her.

Coach Williamson is back this week. Some more strenuous outlining ceased with his return and for once I think the science pupils were glad to welcome a teacher into their domain.

The hiking club is scheduled to hike from Sonora to Eldorado Saturday, March 19, and this will end the hiking season.

The Junior-Senior Banquet is causing quite a bit of discussion just now, and it is going to be a howling success.

—E.—H.—S.—

WYZE CRAX

—E.—H.—S.—

Thomas R. Jones
Tommy had returned to work after having received a letter from the boss that told him he was fired; the boss asked Tommy if he had read the letter, and he replied: "Yes, Sir, I read it inside and out; on the inside it said, 'You're fired,' and on the outside it said, 'Return in five days.'"

Lincoln was remonstrating with General McCellan about the latter's military policy. During the talk, McCellan became angry and said: "Sir, do you think I'm a fool?" "Why, no," returned Lincoln. Then with a dry smile he added: "Of course, I may be mistaken."

—E.—H.—S.—

JUNIOR NEWS

Thelma Taylor
The Juniors or those no-account tenth graders as the sophomores call us, are doing their level best to make the grade. We are just like the old saying "Out of the skillet, into the fire": Last year we were pitying ourselves and saying that we had to be jumping all of the time just like we were in a frying pan and now, well, it's just like being in the fire all of the time. One game will pop up and say "Outline that History."

Then another one will say "Remember that outside assignment in English." Still another one helps along by saying, "Plane Geometry quiz to-day."

Now, last but not least the last coal in the fire says, just before it burns out, "Do you have your Spanish notebook ready?" If you have done all of this you

ATHLETICS

Jack Ratliff, Editor
INTERCLASS BASEBALL

The Sophs are the only team that has a perfect record. The Juniors are in the cellar. The Fish are on a stampede. They have defeated the Juniors and Seniors in two days. The Fish may push the Sophomores for the crown, but the Seniors and Juniors are still in the race because it is not near over.

Results

Team	Won	Lost	Pct.
Fish 9, Juniors 6	2	0	1.000
Fish 13, Seniors 6	2	1	.667
Sophs	1	2	.333
Seniors	0	2	.000
Juniors			

SPORT SLANTS

Coach Williamson was out on the track Monday. He is putting the track team through stiff workouts in order to be in shape for the Brady meet, Saturday, March 19.

The Eagles will attend the meet at Brady, Saturday, March 19. A good representation will be made there. This is expected to be one of the best meets that will be attended.

The Eagles did not go to Menard on account of the weather. They have not learned whether the meet was held or

whether it was postponed.

The first relay team has been named. They are Captain Raymond Smith, Bill Smith, Hollis McCormick, and Junior Isaacs. These men may not remain on the team, however, because any track candidate may challenge them for the 440 and if they are defeated they will lose their place. This challenge is only open on Tuesday. There were no men removed, Tuesday, March 15.

Coach Williamson has just about found out who will run in the different events. His entries in the running events at Brady are:

100 yd. dash, Jim West, Raymond Smith, and Junior Isaacs.

22 yd. dash, Jim West, Bill Smith, and Jack Kerr.

440 yd. dash, Raymond Smith

Bill Smith and J. R. Connor.

880 yd. dash, Hollis McCormick, Carl Kerr and Albert McGinty.

1 Mile, Jack Ratliff and Hollis Alexander.

The interclass track meet is expected to be held soon. The Fish are not very strong this year. The rest of the teams are on even terms. Last year, the Seniors won the meet. The Fish were second, Sophs third, and the Juniors fourth. The Seniors are expecting their points from three men. The Sophs and Juniors seem to be the favorites.

SCHOOL CALENDAR OF EVENTS

March 18, Schleicher County Interscholastic League.

March 19, Track Meet at Brady.

March 22, One Act Play Contest in Auditorium.

March 23, Third Typing Contest with Sonora.

March 26, Track Meet at Barnhart.

March 25, Schleicher County Teachers Study Club Meeting.

April 2, District One-Act Play Contest at Ballinger.

April 8, Mid-Texas Educational Association at San Angelo.

April 9, Typewriting Tournament at Colorado.

April 15-16, District Interscholastic Meet.

April 29, Junior-Senior Banquet.

April 30, Girls May Day.

May 1, Senior Play.

May 15, Baccalaureate Sermon.

May 16, Grammar Commencement Exercises.

May 17, High School Commencement Exercises.

PROGRAM OF

TEACHERS STUDY CLUB MEETING, MARCH 25

The Schleicher County Teachers Study Club is to meet March 25, probably for the last time during this school session. The topic for discussion is a vital one both to teachers and patrons and indirectly, the children. All interested in the affairs of the school are urged to be present.

Place: Eldorado High School Auditorium.

Time: 8:00 o'clock.

Chairman: J. F. Jeter.

1. Special Music—Grammar Grades.

2. Teacher Tenure and Turnover—Mrs. Mary Davis.

3. Why a Teacher Retirement Fund?—Mrs. Robert Milligan.

4. Dialogue—Pupils of Miss Estelle Cooke.

5. Better Salaries, Better Teachers, Better Citizens—J. Carlton Smith

G. B. Shoemaker, who fed the

hardest lot of lambs ever fed in

any pens, has sold his holdings

in the lambs and made some

money on them. In fact, he is

well pleased. This is an example

of how well lambs fed out here.

When such lambs as those make

money.

W. M. Davis has moved his

Barber shop to the W. M. Bearce

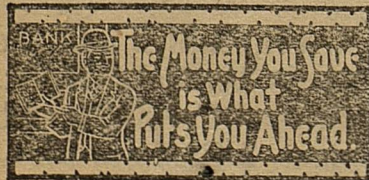

building where he was formerly

located.

SOUR CREAM WAFFLES

1 cup sour cream 4 tbsp. melted shortening
2 eggs 2 to 4 tsp. water or milk
1 cup self-rising flour
Beat the egg yolks, add sour cream, then sifted flour; combine well, add shortening, and lastly, beaten egg whites. If the dough is not thin enough to pour add cold water or milk as needed to give the desired consistency. This amount makes three large waffles. The amount of fat called for is necessary when the iron is not greased. With a greased iron the amount should be cut in half.

Sour Cream Nut Bread
4 cups flour 1/2 cup of milk
1/2 cup sugar or enough to make moist
2 eggs make dough
3 cups thin, sour cream 1/2 cup of chopped nuts

Sift the flour. Beat the eggs, combine with milk and add to flour to form a moist and fairly stiff dough. Add nuts and more milk if needed. Turn into two well-greased loaf pans, set the pans in a cold oven, heat gradually to a temperature of 300 to 325 degrees, and bake about 50 minutes or until the bread is light-brown and firm to the touch. The bread should be allowed to cool partially, then wrapped in a towel or several thicknesses of paraffin paper and kept in a bread-box 24 hours before cutting. The crust will be soft and need not be removed when making sandwiches.

CARD OF THANKS

We wish to thank the Methodist people and other friends of Eldorado, who contributed to the "pounding" recently given us, also for the beautiful "friendship" quilt made and presented by the Wamon's Missionary Society.

All these things are useful in the home and will be a constant reminder of the generosity and thoughtfulness of the people of Eldorado.

Sincerely,
Rev. J. D. McWhorter and wife

Mr. A. B. White received a message Tuesday night that his sister, Mrs. W. T. Johnston, of Kerens, Texas, died Tuesday at one o'clock. Mr. White did not get to go to the funeral.

L. A. Crooks was in from Bailey ranch Monday on business.

ONE-ACT PLAY CONTEST

(Continued from page 1)

the dream) is mortally wounded in a duel with Milord Devereaux (played by Aris Carr). Just as he dies, Prudence awakes and becomes the true Eleanor. Because of the horror of the dream, she realizes her folly and too, appreciates the true love of Richard Townsend, played by Vance Morgan, who returns and forgives her.

Other interesting characters in this play are Edith Bricker, Cleone Morgan, and Mary Dell Williams.

"So's Your Old Antique"
The scene of the play is in the antique shop owned by Dick Barlow played by Albert McGinty. Dick is very enthusiastic while Sally, better known as Grace Ratliff, is the opposite.

Dick has a very interesting customer, who is Mrs. Pettis. This part is acted by Lucile Oglesby. Sally becomes jealous of her because Dick and Mrs. Pettis communicate so much.

While Dick and Mrs. Pettis are out looking at some "what-nots" Sally is left in charge of the shop. Mr. Matster, Morris Bricker, who is an old gentleman and slightly "goofy" sees the antique shop and goes out of his head. He goes into the shop and buys a few antiques at a very high price.

Mr. Malster has a chauffeur who is supposed to look after him. The chauffeur William, Hollis McCormick, goes into a drug store on the adjoining block of the shop to get Mr. Malster some cough drops. While he is gone Mr. Malster leaves the car. When the chauffeur returns to the car and Mr. Malster isn't there he begins to look for him.

The chauffeur enters and returns a music box that Mr. Malster picked up. He pays the damages done by Mr. Malster.

Then we find Dick and Sally in the antique shop together. Mrs. Pettis writes Dick asking if they care to go to abroad with her in search of more antiques. Dick is willing to go but Sally is not until Mrs. Pettis mentions that they would join her husband in Paris.

As you might expect all ends well!

**SHE DRESSED UP
HER HOUSE IN
A BECOMING YARD**

EDINBURG—Utilizing the shrubs and plants she already had and native material which which grows wild in the county and may be had for the taking, Mrs. Fred Bevil of McAllen, one of the yard demonstrators working with Gladys Dowling, home agent of Hidalgo county, has practically remade her yard without expense. The first step was to remove a large palm which was located in front of the house so that it obstructed the view and prevented the arrangement of the yard to show off the house as its center feature. Shrubs that were scattered all over the yard were taken up and put out as foundation plantings around the house. After this the lawn, which is planted to cover the bare spots. From old pieces of flagstone a curved walk was laid from the front door to the drive and a border planting of seneca, a wild shrub with grayish green leaves and lavender flowers, was set all around the yard. A twenty foot trellis was moved from a position at the rear of the yard to one that screened unsightly views and the vine was transplanted with it, while around the cistern and windmill althea was put out.

**FIND SOFT WHEAT BREAD
REAL "STAFF OF LIFE"**

Breads and biscuits made from self-rising soft wheat flour contain more of the essentials of the balanced diet than bread made of any other flour. This is proved by a recent experiment conducted by the National Soft Wheat Millers Association.

Sixty per cent of the experimental diet was bread—self-rising flour biscuits made with water, self-rising

four biscuits made with whole milk, yeast bread made with water, yeast bread made with whole milk, commercial white bread and commercial whole wheat bread.

The increase in weight of the subjects used in the experiment showed greatest with self-rising flour biscuits made with whole milk; second, self-rising flour biscuits made with water; and on down in the following order: commercial white bread, yeast bread made with whole milk, commercial whole wheat bread, and yeast bread made with water.

The balanced diet demands three main elements: the right kind of proteins, vitamins A to F, and certain minerals. Of the minerals, the following nine are necessary: sodium, calcium, phosphorus, sulphur, potassium, magnesium, iron, iodine and chlorine.

Three of them, sodium, calcium and phosphorus, are introduced into soft wheat by the millers at the time of milling. The resultant flour, self-rising flour, therefore, contains these three important mineral agents for bone development and growth, in far greater proportion than other flours in commercial use.

**QUICK BREADS NUTRITIOUS
AS WELL AS ECONOMICAL**

Home-made bread is the most satisfying, the best tasting, the most fragrant, the most nourishing and the most economical food in the world.

Every mother should make bread at home not only to please her family's palate and to save money but to give her youngsters a nutritious, whole-some food.

In addition to making yeast breads and rolls there are so many delicious quick breads that the housewife can quickly make. To make these quick breads, time, money and ingredients can be saved by using self-rising flour which is pre-leavened or prepared flour. Who doesn't like nut bread or for a change orange bread?

For nut bread proceed as follows:
1/4 cup sugar 1 cup milk
2 tbsp. fat 1 cup nut meats
1 egg broken in small pieces
1 1/2 cups self-rising flour

Place the sugar, fat and egg in a bowl; beat until thoroughly blended; add the flour and liquid alternately, then add the nuts; pour into a greased bread pan, and bake in a slow oven (300 degrees F.) about fifty minutes.

**TERRACING BECOMES
EPIDEMIC**

CANADIAN—Terracing comparatively level lands in Hemphill county has spread like an epidemic since five farms were terraced in 1929, declares Parker D. Hanna, county agent. Twenty-eight farms were terraced in 1930 and 44 last year. Farmers who declared they would never mess up their fields with crooked rows are now the most ardent advocates of the practice, he says. Estimates made by farmers show that terracing last year increased cotton yields 1-4 bale per acre, grain sorghums 7 bushels per acre, corn 5 bushels per acre, and wheat 8 bushels per acre. In each case increased yields more than paid the entire cost of terracing in one year, farmers report.

As The Success closes its columns Thursday there is no word that the Lindberg baby, which was kidnapped over two weeks ago, has been found.

Mrs. T. C. Sproul received a message Wednesday from her son, Floyd, at Sweetwater, that Mrs. Floyd Sproul was not expected to live but a short while. She has double pneumonia.

Mrs. Sproul is a daughter of Mrs. F. Ramsel on the ranch west of Eldorado.

Mrs. Priscilla Howton, mother of Mrs. J. L. Davis, of Sonora, has passed her 100th anniversary, although she lay in a coma of which she is not expected to come through. She was 100 years old March 15, and has been a resident of Sonora for many years.

El Paso has entertained the Cattlemen's Convention this week, but as far as we know, C. L. Meador, J. Campbell, and O. M. Roberts remained at home, and singing, "Nobody Knows How Dry I Am."

We heard a lady say at the Santa Fe Special "Push Train" Wednesday, that a woman with a sore toe, ought to have stayed at home.
