### BOY SCOUTS HAVE SERVICE BILL BOOTH HUPP MO-

A Service for the Boy Scouts was held Sunday night at the Baptist Church, a large crowd attended and Rev. Ratliff preached a good sermon.

The Boy Scouts have just recently been organized in Eidorado, Don McCormick is the Scout Masier; J. A. Whitten, Frank Bradley, B. E. Moore, Geo. Williams and A. T. Wright are the Councilmen.

There will be some expense in keeping up the movement and this expense must be met by the public. Hall rent is \$15 00 per month, besides some other expenses, the total amount to be raised for the year will be around \$200 00, so if you are called on for an offering to maintain will accept your contribution.

Bill Booth one of Schleicher's progressive farmers motered to car load of Chevrolet cars Fritown Monday afternoon, accom- day, the new cars show much panied by his mother He drove improvements over the older into the City Garage to have the modles and Mr. Evans is still abattery exchanged and left the ble to talk and boost his ever car standing in reverse gear.

When he went to leave he forgot the car was in gear, cranked it and it made a quitk exhit from the garage, clearing all obsticles until it reached the street, with Mrs. Booth in the car, it ran into the Carl Reagan truck, this did not check car much and it crossed Main street and crashed into the front of Wright's Cash Store taking one side with 18 glass in it out, and only breaking five of hem The car finally came to standstill with back wheels spinning and front wheels a gainst the proch. Bill was givng the car a close chase and der controll, and the car, which is a new Hupp coupe was not damaged from its adventures.

Mrs. Booth remained in the car and was not injured in the least, but experienced a real

### TO PATRONS OF ELDORADO INDEPENDENT DISTRICT

It is now time for your school to select its teachers for the coming year 1928-29. Of course we realize that you are expecting your school hoard to see after this for you, but for them to do their best work for you, it is necessary that you express to them something about your opinion of the teachers, where it seems to you that changes should be made and what parts of the present system are alright as they are. Now if you are satisfied with the teachers you have, then tell them so the first time you see them and also some member of the board. If you think a change should be made, the board wants to know that also. We want this school to by just what you want it to be.

You will soon have an election to select four trustees to take the place of Messers Hugh Mc-Angus, B. E Moore, Guy Bodine and E E. Newlin. If you have in mind someone you want on the board in their places don't wait until the ballot has been printed to make your wish known, Trustee election will be the first part of April and you should give this your attention

By the School Board.

#### SCHOOL SPIRIT

There are many students who think that there are only a few occassions for showing theschool spirit. There are other items than on the side line at some game. In the class room team work is essential. Cooperation with teachers shows a good h school spirit. Courtesy, honesty and dependability show an eagerness to please and are forms of real spirito. # About Cotton Acreage

Gotton acreage in the U.S. for 1927 was estimated at around Thirty-nine-million acres. The price was satisfactory and averaged around 19c per pound.

Advance estimates of Fifty-Million acres have been made for 1928, and if that much land goes in to cotton and it makes an average yield, the price this fall may go Below Cost of Production

# A Good Policy Therefore would be:

1. Plant all the feed needed, and then some:

2. Then, plant such Acreage in cotton as can be cultivated with the least expense.

His Recovery

"At one point in my career I was given up by seven doctors to die, stated Uncle Feebles. "The three lo cal physicians gave me up, and then four doctors from farther away gave me up in rotation, each from his favorite incurable disease. Later they all gathered around in solemn con clave and gave me up in unison from seven different maladies for which the medical profession knows no cure Soon after, because they were letting me alone, I got well on my own hook.' -Kansas City Times.

Education's Object

The business of education is not to make miners or railway men, clerks or shopmen, managers or directors, par sons or lawyers, civil servants or pol iticians. It is not to make loyal adherents to trade unions or churches, political parties or nations. Primarily it is to make men, and after that, be cause no man can fulfill his mankind unless he has his own work to do, t equip those men for whatever task their special abilities and circumstances bring upon them.-Exchange

service which will react favorably upon the character of those interested.'

The Oklahoma Bankers Association for the past twelve years has financed through its five groups ten scholarships in the A. & M. College at Stillwater. The winners are chosen by the Extension Department of the college on the merits of the club work done by the boys and girls over a certain period of time. The groups of the association finance the first year of the winner's college work.

The president of a national bank in Fayettesville, Arkansas, has been cred ited with doing more for the farmers of his section than any other one man His work has consisted of introducing pure bred Holstein cattle into his county, helping employ a county agent, donating prizes to boys and girls in club work, and distributing better seed.

Here are some of the things accomplished in Randolph County, Ark. with the help of bankers last year: forty-three purebred gilts were bought at a reasonable price and placed with boys and girls, on notes; three thousand eggs from high producing hens were distributed with the idea of de veloping flocks of at least ore hun dred hens on every farm; four pure bred Jersey bulls whose dams had a record of over 700 pounds butterfat, have been purchased by the banks and will be paid for out of service

Pyrethrum Flowers Form Basis of Insecticides

Uncie Sam is preparing to "roll his own" insect powders. In other words, the Department of Agriculture is conducting field experiments to determine whether or not pyrethrum flowers which, when ground, form the basis of many insecticides, can be grown successfully on a commercial scale in the United States.

The plant is closely related to the common oxeye daisy and has been produced commercially in California but the supply now comes largely from Dalmatia and Japan. It costs from \$1,000,000 to \$3,000,

000 annually, and the department wants to know what can be done toward keeping the money at home.

Summing Up Economic Value of Farm Silo

Summing up the economic value of the silo, where large numbers of experiments and tests are averaged, you can safely figure that the silo will save \$1 on the production of 100 pounds of beef or growth. It will save 12 cents on the cost of producing a pound of butter. It will save 40 cents on the production of 100 pounds of milk. It will save \$1 in the production of 100 pounds of mutton. For keeping horses, mules, young stock, and dry cows, it will save 30 per cent on the feed bill. Every stock keeper can figure out the value of the allo to him on this basis.

Anyway, two on a diet can live as cheaply as one eating freely.

#### Lesson for February 26 THER MIGHTY WORKS OF JESUS

LESSON TEXT-Mark 5:21-24; 35-48.

GOLDEN TEXT-Thy faith hath PRIMARY TOPIC-Jesus the Great

JUNIOR TOPIC—The Heroism of Jesus.

INTERMEDIATE AND SENIOR TOP-IC—Jesus the Giver and Preserver of YOUNG PEOPLE AND ADULT TOP-IC—The Works of Faith.

The accounts of the raising of the damsel and the healing of the woman are so interwoven as almost to constitute one narrative. But since the persons are diverse and places separate, they should be treated sep-

I. Jairus' Daughter Raised from the Dead (vv. 22-24 and 35-42).

1. Jairus' urgent mission (vv. 22,23). His only daughter (Luke 8:42), perhaps his only child, lay dying. In this time of utter helplessness he came to Jesus for he had faith in His ability to raise her up. In the providence of God, sorrow, sickness and death are often used to bring needy men and women into contact with Jesus. He showed the proper attitude toward Jesus, "He fell at His feet" (v. 22).

2. Jesus goes with Jairus (v. 24) Jairus believed that if Jesus would lay His hand upon his daughter she would live. Such faith always gets a response from Jesus.

News of his daughter's death

The messenger who brought the news of her death suggested that Jesus should be excused from going further, as it was now too late. 4. Jairus' faith strengthened (v

As soon as Jesus heard the words spoken concerning the death of this girl, he said to the father, "Be not afraid, only believe."

The mourners rebuked (vv

He now dismissed the crowd and allowed only three of His disciples and the parents of the damsel to enter this chamber of death with Him. 6. Jairus' faith rewarded (vv.

He took the damsel by the hand and issued the command for her to arise. The expression "Palitha cumi' in the Aaramaic seems to be freely expressed, "Wake up, little girl." She straightway arose and walked and

partook of food. II. The Woman With an Issue o Blood Healed (vv. 25-34).

1. Her helpless condition (vv. 25, 26, cf. Luke 8:43).

She had been a great sufferer for twelve long years.

2. Her faith (vv. 27, 28). She possessed a real and earnest faith. For a poor emaciated woman after twelve years of suffering to press her way through a thronging multitude shows that she possessed a determined purpose. The test of the actuality and quality of one's faith is the activity which characterizes the life. Her faith was so strong that

she believed contact with the Master's garments would secure the needed help. Though her faith was strong, it was imperfect. She only knew Him as a wonder worker, but through this experience she came to know Him as compassionate Savior.

3. Her healing (vv. 29-32). As soon as she touched the hem of His garment she experienced in her body His healing power. Jesus Himself was conscious of the outgoing of virtue, therefore inquired, "Who touched me " to which the disciples replied with amazement, "Thou seest the multitude thronging thee and sayest thou, "Who touched me?"

4. Her confession (v. 33; cf. Luke She thought secretly to get the blessing of healing, but Jesus perceived that virtue had gone out from Him and had her make a public con-

5. Jesus' words of encouragement

With the communication of His healing virtue, He spoke most graclous and comforting words to this poor woman, telling her that it was her faith, not her touch that had saved her. Faith does not need to face dangers and to exhaust itself in active endeavor in order to gain Christ's blessing. All that is required is a trusting prayer. Not only did she gain the blessing, but had the distinction of being the only woman on record as having been addressed by Jesus as "daughter," which shows His spirit of tenderness to those who come to Him with their needs.
