FUNERAL HELD FOR L. L. BALL

Former Resident Of San Angelo Dies Wednesday At Temple

Funeral services for Louis L. Ball, well known Fort McKavatt ranchman and former resident of San Angelo, who died at Temple Wednesday morning, were held here yesterday afternoon at5 o'clock. Death was caused by injuries sustained when a horse fell on Mr. Ball at his ranch three

weeks ago. He was 49 years old. He was buried with Masonic honors. Members of the lodge from Fort McKavatt, Eldorado and San Angelo attended the fun-

His mother, Mrs. Mary L. Ball, and sister, Katherine, who were in Washington at the time of his injury, flew to Temple to be at his bedside. Besides these, a sister, Mrs. George Martin Edwards of Washington, and a brother, Alex Ball of Texarkana are the only surviving members of the immediate family. -San Angelo Standard.

Went to Pieces

"I suffered a long time, before

I tried Cardui," says Mrs. Lillie Pruitt, 130 "K" St., Anderson, S. C. "I was badly run-down in health. My nerves 'went to pieces', and I had to go to bed.

"I got so bad off, I could not bear to have anybody walk across the floor of my room. The least little thing upset me. Sometimes I became hysterical. I had bad pains in my back and sides, and my head and limbs would take spells of aching, which almost set me wild.

"One day I saw where a woman, who had a trouble like my own, had been relieved by Cardui. I decided at once to try it. It began to help me from the very first. I took Cardui regularly, for several months, and my improvement was so remarkable my family and friends were delighted." Try Cardui for your troubles.

THANKS TO DEMOCRACY

William F. Whiting, successor n President Coolidge's private

There is nothing particularly significant in that fact, excep the thought that in democracy or republic like the United States of America the people care little Indiana in onions, Maine in white where the so-called "seat of tatoes and Virginia in sweet government" is situated. The country goes right along whether the President is in Washington, Superior or Pensacola. Americans are strong for results even if weak on methods. The President can go to any point he wishes, or even to Europe or China and uobody is going to try to capture Washington while he is away, or usurp the functions sumers and market of a conti- and privaleges of state. With all its attendant ills, democracy

THE NEW FARMING ACCOUNT SCHOOL

The good business farmer today watches his farm accounts carefully. In respect to his labor, his farm stock and his soil, he knows what they can io and how they can be most profitably handled He knows the mathe matics of growing feed from the soil, pigs and poultry from the feed and eash profits from pigs and poultry He knows whether he is milking the ow for paying returns or the cow is milking him out of his invested captal. Wherever his accounts show a deficit or insufficient profit on one or more items, he immediately studies to overcome the handicap and correct any mistakes that have been

The Agricultural Commission of the American Bankers Association is con lucting a nationwide educational cam paign for better methods of farm accounting The commission has been stressing the wisdom of country bank ers through cooperation of county igents, calling farmers together, and rolding account schools where instruction is given on the use of the farm account books

Each person is led through the vari ous steps in keeping accounts and each enters his own inventory which ne has previously been instructed to take and bring to school. This gives a good start and when properly fol

lowed up by letters and an occasional visit by the specialist in charge, greatearnest to come through his first year of keeping accounts successfully Many times country banks offer the rooms for holding the account schools In some instances, an employe of the bank is designated to assist farmer patrons during the year in keeping their accounts.

HOW TO GO BROKE FARMING

- Grow only one crop. Keep no livestock.
- Regard chickens and a garden
- and return nothing.
- 5. Don't stop gullies or grow cover crops-let the top soil wash away, then you will have "bottom" land
- 6. Don't plan your farm operations It's hard work thinking -trust to luck 7. Regard your woodland as you would a coal mine, cut every tree, sell the timber and wear the cleared land out cultivating it in corn
- 8. Hold fast to the idea that the methods of farming employed by your grandfather are good enough for you 9. Be independent- don't join with your neighbors in any form of co News.

10. Mortgage your farm for every dollar it will stand to buy things you would have the cash to buy if you followed a good system of farming - There was a youg lady of Ryde
