Farming Real Gamble

Raising and Dairying Much Profitable But Not as Popular as Southern Farmers

Farming is the biggest gamble ever tackled, and the more cotton you raise the more you realize.

It is a catastrophe if a portion of the cotton crop is lost. If the cotton crop is harvested, the time, money and effort devoted to it are all lost.

It is a catastrophe if a portion of the cotton crop is lost. If the cotton crop is harvested, the time, money and effort devoted to it are all lost.

ANOTHER CORPORATION WANTS GAS FRANCHISE

C. L. May, general superintendent of the Lone Star Gas Company, was here last week to secure a franchise to pipe gas into Big Spring for domestic and commercial use. This is the second corporation that has asked for such a franchise.

Since a franchise is one of the most valuable concessions a city has, it is not to be given away just for the asking. Since neither corporation would agree to have gas here before the fall of 1928, the City Commission said they would take some of this time to study the provisions of the franchise. The members of the city commission have the interest of our citizens at heart and they are going to safeguard same in the awarding of franchises in the future.

LIBRARY NOTES

Have you been to the Library? If not you will want to go when you hear of the new books recently placed on the shelves and remind yourself of the good ones already there, many of which are extremely popular still. You will find Mrs. N. L. Hatch a capable and courteous librarian and always on hand on Wednesday and Saturday afternoons to attend to your book wants. A subscription to the library only costs \$1 a year and you can get a book there any time for the sum of ten cents. It is a library for the use of Big Spring and Howard County and by joining it, you are helping to build it up and make of it some day a library in which we will all take pride. One plan soon to be carried out is to purchase more of the books required as supplementary reading by the schools and so have them available for the students when required.

The following new books are now on the shelves and in demand:

- Lost Ecstasy—Mary Roberts Rhinehart.
- Twilight Sleep—Edith Wharton.
- But Yesterday—Maud Djer.
- The Crime at Diana's Pool—Victor L. Whitechurch.
- The Astounding Crime on Tarrington Road—Wm. Gillette.
- When Is Always—C. Dawson.
- The Silver Card—Geo. Agnew Chamberlain.
- Dear Old Templeton—Alice Brown.
- Mrs. H. W. Taylor, always one of the library's best friends, has recently donated the following popular books for which we are more than grateful.

- The Way of an Eagle—Ethel M. Dell.
 - Beyond—Galsworthy.
 - Master of Man—Hall Craine.
 - The Indian Drum—William McHarg and Edwin Balmer.
- Visitors are always welcome at the library. Come and look at the books and get acquainted and then become a subscriber. Hours are from 3 to 5 on Wednesday and Saturday afternoons.

OUTBREAK OF INFANTILE PARALYSIS

Telegrams to newspapers and public health authorities were sent out Wednesday by the State Bureau of Public Health, stating that an epidemic of infantile paralysis had broken out in Chaves and Eddy Counties. There were at that time seventeen cases with two deaths in these counties, and three scattering cases with one death elsewhere.

The Health Department advises that all children under twelve be kept out of public gatherings, and the quarantining for two weeks of adults in contact with cases.—Vaughn (N. F.) News.

W. B. CURRIE SELLS CATTLE

The continued dry weather caused W. B. Currie to sacrifice his herd of Hereford cattle; one of the finest herds to be found in West Texas. He had spent years in breeding up his stock until he had what might be termed full blooded Hereford cattle.

These cattle were sold to Ellwood and Arnett of Lubbock and the herd was started overland to Lubbock Tuesday.

Mr. Currie received \$65 for cows and calves, \$50 for dry cattle, and \$100 around for sixteen registered Hereford bulls.

Shortage of grass and failure of rains to appear caused Mr. Currie to make the decision to dispose of this fine herd and Ellwood and Arnett secured one of the best bargains ever made in West Texas.

BOY SCOUTS RETURN FROM SUMMER CAMP

The annual camp of the Boy Scouts of this city was held on the Concho river where it passes through the Rawlins ranch near Water Valley this year. The Scouts returned to this city Wednesday evening and each one reports a most enjoyable outing.

The camp was located on a dandy spot twenty miles north of San Angelo. The leaders of the camp were Mr. Smith, better known as Uncle Walt, and J. R. Creath. The camp leader was Walton Morrison; Theo Ferguson was in charge of the athletics; Howard Smith was swimming leader and Bob O'Connor was camp cook. Uncle Walt conducted the camp until Thursday night, then Mr. Creath took charge of it and remained until camp was broken to come home. Seventeen Scouts attended this camp. Four patrols of the first troop were represented. The Eagle patrol with Harmon Morrison leader; Charles Koberg and Joe Black. The Wolf patrol with Bert Shive, leader, Clyde Thomas, Joe Pickle and Winston Manuel. The Bull patrol with Howard Smith leader, and the Beaver patrol, with Theo Ferguson leader, Thomas Joe Williamson, Jarrell Pickle and Frank Fisherman. Felton Smith and George Thomas belong to the second troop.

A goat barbecue, an Indian war council, swimming fetes, games and races were some of the features of entertainment during the camp and visitors were invited to these events. Fifteen ranchmen attended the Indian war council.

Almost all the boys passed tests. Those who passed and became first class Scouts were: Thomas Joe Williamson, Jarrell and Joe Pickle, Joe Black and Charles Koberg. Those who passed merit badges were: Thomas Joe Williamson, Joe Pickle, Jarrell Pickle, Harmon Morrison, Joe Black, Charles Koberg received merit badges for swimming, and Theo Ferguson received badge for life saving and personal health.

This troop has been organized for fifteen years and as well as we can tell from the records, no other Scout in these two troops have ever become a star scout.

We know that we have several supporters among the citizens of Big Spring and we want more of you to become interested and look for further activities of this organization. Encourage your boys to join it.

A GOOD WEEKLY BETTER THAN A POOR DAILY

In the smaller communities of the southwest, most of the owners of weekly newspapers have sense. They refuse to listen to the promptings of ambition and change their weeklies into dailies. Wisely, too, for a profitable weekly may not be so pretentious as a struggling daily, but it is stronger and better for the community and its owner. People of these communities do well always to patronize their home papers first with subscriptions and advertising, and after that, a daily newspaper of general circulation, devoted to their interests. The Herald is one of these.—El Paso Herald.

PAY YOUR DEBTS PROMPTLY

"We have always paid our debts on time and kept our credit good. As a result we have the satisfaction of knowing we can borrow money any time we need it."

Thus spoke a country banker of the Southwest from his experience in dealing with the Federal Reserve bank.

He did not attempt to point a lesson for individuals, but it is there for anyone to read. Pay your debts as they mature, or at least something on account, even if the payment entails a sacrifice. So doing, you will keep your credit good. Good credit may save your home or your business at some time when your affairs are in desperate condition.

It is a mark of stupidity to try to beat a debt or postpone the payment of a note as long as possible after its due date. Either destroys credit which is the armor a prudent person guards about himself as a safeguard in time of peril.—El Paso Herald.

If you want folks to patronize your place of business, you must let them know what you have and that you are able to offer them better values or better service than your competitors.

BAPTIST WOMEN WILL BE HOSTESSES ON FIFTH MONDAY

The women of the First Baptist Church will be hostesses to the other church women of the city at their regular fifth Monday meeting on Monday afternoon, Aug. 29. Every denomination in the city is urged to attend this general meeting of church women. An interesting program is being arranged.

FATS AND LEANS FIGHT IT OUT

The big argument is over but the Fats are not satisfied. Despite the fact that the Fats had bribed three umpires, the score keeper and three-fourths of the fans the Leans squeezed thru with a 7 to 5 victory. The Fats made a great fight for the first inning or two but they couldn't keep up the gauntlet.

Heavy hitting by golf hounds McCleskey, Morgan, Hopkins, Bill Battle and others made it look for an inning or so that the Leans wouldn't have a look in but Middleton soon had them tamed. Center fielder H. F. Taylor needed a scoop to pick up the fly balls and grounders that came out his way, and Sis Hopkins and Guiley were kept busy chasing flies in left and right fields.

Carter, the Fat pitcher, occasionally showed some real stuff, but Catcher Jack Smith kept getting the signals twisted. J. M. Morgan swatted them far, but had to stop at first to pump up a tire so a three bagger meant only one base hit to him. N. W. McCleskey had the surprise of his life when he actually caught an infield fly.

Sim Satterwhite was the heavy swatter of the Leans and occasionally the crooked umpire would force him to bat two safe hits before he could get on base. Alvin Johnson was the champion strike out guy; he said he thought the game was to help the pitcher from hitting his bat. Skipper Hefley on first, Steve Baker on second and Howard Lester on third put up an air tight game.

Base umpire L. W. Croft occasionally fielded the ball for the Fats. Shotguns and horse pistols raised from coats were given to the umpires so there was little argument during the game.

Due to the generosity of the folks something like \$128.50 was secured for the Cemetery Association in admissions to the game.

About the best you can get out of the Fats is, they can't do it again. General Manager J. F. Wolcott wants to thank the players and the general public for making the game a success, and thus greatly aiding a worthy cause.

BUILDING PERMITS ISSUED

The following building permits have been issued by the city the past week.

- Mrs. D. E. Cook, a five room frame residence at 700 Main street, estimated cost \$2250.
- D. E. Cook duplex and garage at 4th and Johnson, estimated cost \$3000.
- C. E. Talbot repairing residence at 911 Main, estimated cost \$2000.
- C. E. Talbot frame residence, brick veneered at 1510 Scurry, estimated cost \$3000.
- J. Fred Cooke a frame residence in Boydston addition, estimated cost \$4000.

LEASES HOTEL COFFEE SHOP

A. D. Meletis of San Angelo was a business visitor in Big Spring Thursday. Mr. Meletis has leased the coffee shop in the new Crawford Hotel and he was here in the interest of this business. He stated that he had the fixtures for the coffee shop ordered and was making all necessary arrangements for the opening of his shop upon completion of the hotel.

A woman placed her savings in a tin container which she concealed in a stove. It was forgotten during cooking operations and all that remained of the currency was charred bits of paper. Experts of the redemption division of the Treasury identified most of the embers and refunded her notes amounting to \$1200.—Dearborn Independent.

You had better not try this. Everyone is not lucky.

Mrs. W. N. Brown and son, W. N. Jr., after a visit in this city with her parents, Mr. and Mrs. W. G. Orenbaum, left last Thursday night for their home in Fort Worth.

BIGGEST FIGHT STAGED HERE THIS SEASON

Sam Faust has promoted some real hot wrestling matches in Big Spring but the biggest and best he ever attempted is going to be staged at the Miller Skating Rink, one mile north of the courthouse in Big Spring on Friday night, August 19 at 8:30 o'clock. A number of good preliminaries top off the big night's entertainment.

Sam has been requested to assist the boys of Big Spring in getting someone who can take the conceit out of the wild Dutchman, the Ape Man from Amarillo, alias Dutch Mantell, the roughest of all the homebenders. After much scouting around Mr. Faust picked Silvio Checchio, holder of the welter weight championship belt and title of Italy, also the army and navy championship honors for the years 1918, 1919 and 1920, and he declares the wop will make Dutch Mantell five her down.

Checchio has lots of science, worlds of strength and if Dutch Mantell starts any of his monkey business with this wop, the fireworks will open up in grand style.

Mr. Faust states that he has seen Checchio in action, as well as Mantell and he feels confident that the Wop can defeat the Dutchman in both scientific and rough house wrestling. He further states that you can tell the wrestling fans of Big Spring that they will have a riot of fun from start to finish.

Sam is going to try and arrange to be present at the match and give Checchio the benefit of his knowledge of Mantell's style of wrestling, as the wrestling fans are keen to see Mantell downed and downed hard. In fact they hope he will have to go to picking cotton to make a livelihood.

Mr. Faust wants the fans to know that he has their best interest at heart and will ever endeavor to see that they get the best there is in the wrestling game as long as he has anything to do with making the matches.

FEDERAL BUILDINGS DEPEND ON FUNDS

Big Spring, S. D., Aug. 16.—Plans for the erection of new federal buildings throughout the country are going ahead on the assumption that congress will increase the sum to be spent outside the District of Columbia from \$100,000,000 to \$200,000,000. President Coolidge was told today by Carl T. Schuneman and John H. Bartlett, representing the joint investigation being conducted by the treasury and post office departments.

BLAKE VANLER TO GO ABROAD

Postmaster J. W. Ward went to Sweetwater last Saturday to meet his adopted son, Prof. Blake R. Vanler, who was enroute to Germany and other points in Europe for a year's study.

Professor Vanler has taken a Sabbatical leave from the University of California in order to accept the John R. Freeman scholarship of the American Society of Mechanical Engineers.

The award of the scholarship to Professor Vanler is unusual in that a second scholarship was given this year instead of the usual single award, because of the remarkable character of Vanler's recommendation. The scholarship is awarded every three years by John R. Freeman, an engineer on San Francisco Hetch Hetchy water project, to the outstanding hydraulic engineer of the country.

Vanler who is assistant professor of mechanical engineering at the University of California will stop at points in the Mississippi valley to study the hydraulic problem in connection with the Mississippi river flood before sailing for Europe.

Professor Vanler is a former resident of Big Spring and a host of friends here are indeed proud of the many honors he is winning.

Building foundations for the heavy transformers and other equipment for the sub-station of the Texas Electric Service Co. on their 40-acre tract of land east of Big Spring is now in progress. Work on the high line between Cisco and Big Spring has been held up for the present.

Drug Convention To Be Held Here

Big Spring to Entertain Pill Rollers of West Texas at Next Convention. To Be Held Some Time in March

Big Spring will entertain the West Texas Druggists Association next March since the invitation was accepted at the regular convention in session in Sweetwater on Tuesday and Wednesday of this week. Shine Phillips, vice president of the association extended the invitation from the druggists of our city and Judge James T. Brooks extended the invitation from the Chamber of Commerce. Big Spring was voted the logical meeting place in March and all of the druggists will be here with bells on. Big Spring can royally entertain the West Texas druggists since the new Crawford hotel will be completed and ready to accommodate any number of visitors. Our town will be in good shape to show the druggists of West Texas a big time.

Big Spring will have to step on it if they exceed the entertainment extended the druggists by Sweetwater people Tuesday and Wednesday of this week. The two day session included picnics, swimming parties, banquet, dance and other interesting features. Big Spring was represented at this meeting by the following from Big Spring: Shine Phillips, W. B. Sullivan, Mr. and Mrs. Alfred Collins, Dr. L. E. Parmley, B. O. Bethel, and Cecil Long. Shine Phillips, vice president presided at this meeting in the absence of the president. They report a most delightful time and appreciated the hospitality extended them by Sweetwater and it is the resolve of the Big Spring druggists to plan a better time for the March convention.

MARRIAGE LICENSES

George Cox and Miss Mary Walker, Aug. 16; W. T. Witt and Miss Lorena Coleman, Aug. 13; W. A. Eason and Mrs. Lela Rodgers, Aug. 14; E. R. Miller and Miss Bettie McElroy, Aug. 11; E. L. Miller and Miss Jennie Smith, Aug. 9.

LEAVES FOR MARKET

A. Williams, proprietor of the Williams Dry Goods store, left Wednesday morning for eastern markets to buy fall and winter goods for this store. Before returning home Mr. Williams will visit in St. Louis, Chicago, Detroit, New York, and Asbury Park, N. J.

PRESBYTERIAN AUX. NOTES

The regular business meeting of the Presbyterian Auxiliary will be held at the church Monday afternoon at 4 o'clock. All of the ladies of the church are urged to attend.

The big improvements the Southwestern Bell Telephone Co. have outlined for Big Spring are going to cost a huge sum of money and many men will be given employment while the improvements are being completed. From the present outlook this work will be undertaken during the busiest season of the year.

Civil engineers with the Roxana Petroleum Co. declare that Signal Mount is not the highest point in Howard County. The ridge to the West of Signal Mount, where the Texas Electric Service Co. high line to Chalk off field crosses is about eighty feet higher according to their calculations.

Snakes have killed more than a million human beings in the last 50 years. An average of 20,000 are killed each year in India alone, and from three to five thousand in the American tropics, besides thousands in Australia and Africa where a large majority of reptiles are poisonous.—Dearborn Independent.

Every Sunday a group of golfers near Fort Stockton, Texas, assemble on the course and listen to the Sunday school lesson broadcast by the pastor of the Presbyterian Church.—Dearborn Independent.

Last Saturday was one of the busiest days Big Spring has experienced in quite a while. An exceptionally large crowd was in the city and most every business house reports a big day's business. Busy days will soon be a regular feature in Big Spring.

\$2.50 A YEAR OUTSIDE COUNTY
\$2.00 A YEAR IN COUNTY

Entered as second class matter at the Postoffice, Big Spring, Texas, under Act of Congress, May 3, 1897.

Big Spring, Friday, August 19, 1927

NOTICE TO THE PUBLIC: Any erroneous reflection up the character, standing or reputation of any person, firm, or corporation, which may appear in the columns of this paper, will be gladly corrected upon its being brought to attention of the editor.

There will be plenty of work for all our folks in assisting in crop harvesting work this fall. With cotton bringing a good price it stands to reason that good times are going to prevail. It's a pity all our farms are not to make good crops.

About one more bond issue is about all we will be very strong for, and that will be for a bond issue to pave the highways of Howard County. We know this would be a great investment for our county and our property owners.

Just about two or three weeks more of really hot weather is about all any of us care to put up with this summer. Of course we will howl when winter comes but it will be a different tune from the one we are now sending forth.

A home building and loan company would make it possible for our citizens to secure upward of eight per cent on their surplus funds and put this money at work in our home town building needed homes. So we are losing both ways by our failure to see the big opportunity a building and loan association offers.

We believe our people are making a mistake in not erecting an office building. There is sufficient idle money in Big Spring to erect such a structure and good interest will be paid on the money invested. We must have accommodations if we expect to bring new men and new firms to our city.

It is indeed pleasing to note the steady building program in our city and during the coming months we can expect a steady increase in building activities. The substantial nature of the buildings being erected indicates that our folks feel certain Big Spring is going to become a sizable city.

On the paving in the residential section of the city the property owner must pay three-fourths of the cost and the city one fourth. By cutting down the section of the street to be paved by extending the curb line the cost of paving will be much less per block than it was in the sections which has been paved.

We are informed that some who voted against the paving bond issue are sore, and promise that they will never agree to pave in front of their homes. This is hardly a sporting way to look at the matter, and if they pass up the chance to secure paving now it may be years before their street will even be considered in the paving zone.

Some of these smooth salesmen can use a pencil and show you how to make a fortune by purchasing their stuff but it won't do to swallow all they tell you. A super-salesman, I believe they are called, can make figures tell most any kind of a story and he can make many folks believe that white is black.

We would like to see a number of Howard County land owners make plenty of money as a result of oil development. And then we would like to see some of these men do something big to assist in rebuilding the old home town. We would like to see every citizen in Howard County profit from oil development, and they shall.

You can put it down that the live wire citizens of Corpus Christi are going to stay on the job until they secure a line of railway to the plains section. If Big Spring is to be on this line we are going to be compelled to do some hustling as many other ambitious cities and towns in West Texas want the line to be built thru the sections in which they are located.

In the oil fields everybody races. Cars flash past at a mile a minute speed if they have it in them. If not, they are pushed to the top notch of possibility. Even the trucks thunder along at express train speed. There is a wild dash as if moments meant millions. Perhaps they do, in some cases, when loose hounds are trying to cut each other's throats.
El Paso Herald.

Another topping of chat and asphalt on the Bankhead highway would make this important roadway one of the best to be found in the state. This road is being patched at present, but a second topping would place it in fine shape for a number of years to come.

We will be stepping about some when we get that north and south railroad to the Gulf. It's a possibility; and we should hustle like the dickens to land it. All points from Amarillo to Corpus Christi are going to be on the job to urge the construction of this line.

Lots of our folks are hoping and wishing Big Spring will make a big city but they do not seem willing to devote any time or money to aid its growth. If every citizen was as selfish as some of us are it is practically certain that Big Spring would not get anywhere.

If you can't swim it is wise to stay near the shore. This holds true in your expenditures. If you cannot afford everything you would like to have you had better learn to do without some of these things. One of the worries that haunts is to owe bills you cannot pay.

A man can lose most all his worldly possessions but if he has a good credit it is no trouble to make a new start. It's the man who has failed to keep his word, and who has abused his credit, who is going to wake up some day to find he has squandered a valuable possession.

There's no side-stepping the fact that rents are just a wee bit high in Big Spring and our city is going to suffer if the boosting of rent continues. Charge a fair price and we will win many new folks, but put on all traffic will bear and you will force many good people to locate in other towns.

We ought to conduct a Sell a Piece of Property Week. Many of us have been hanging on to a lot or residence for ten years, twenty years or longer. It would pep things up a lot and give us courage to buy other property if we unloaded some of our long held stuff. Keep property moving insures a better price.

A wonderful line of Wrist Watches to select from for the graduate at Wilke's Jewelry & Optical Shop.

"The world will be redeemed; it is being redeemed. It is being redeemed by those who shake the red rag of wordy warfare, who threaten and demand, but by its enterprises, workers, inventors, toilers—the men and women who do the duty that lies nearest to them."—Elbert Hubbard.

We want your prescription business and we are qualified to take care of it... Cunningham & Phillips

"If you wish to lessen the worries of the world and scatter sunshine as you go, don't bother to goa-slumming, or lift the fallen, or trouble to reclaim the erring—simply pay your debts cheerfully and promptly. It lubricates the wheels of trade, breaks up party ice, gives tone to the social system and liberates good will. Try it."—Elbert Hubbard.

VIOLIN TEACHER TO OPEN STUDIO IN OUR CITY

Miss Evelyn Jackson of Lamesa, a teacher of violin, is moving to Big Spring September first and is planning to open a studio in this city. Miss Jackson has been playing the violin nine years and has had experience in teaching. She was a member of the National High School Orchestra which played in Dallas February 26 to March 3. This orchestra from McAlester, Okla., won the state state championship two succeeding years. The orchestra was composed of 266 members, 6 of which were solo violinists and Miss Jackson was one of this number. She was the only one from the western section of this state and there were 36 states represented in the orchestra.

Agents for Elizabeth Arden toilet goods for those who can afford them... Cunningham & Phillips.

WIND BLOWS IN NEBRASKA

Jack Hendrix who is working with a Chautauqua crew this season is in Nebraska just now and writes us that Texas wind is mild compared to some they have up there. We quote from his letter the following: "Anyone who says that the wind blows in Big Spring doesn't know his onions. They ought to be here. My tent was torn to ribbons in a wind and rain storm the other day."

Most people take better care of their cars than they do of their children's health. Let your family Physician look over your child once a year at least... Cunningham & Phillips.

Mr. and Mrs. R. E. Hancock returned Friday night from Fort Worth where they had been to attend the Dokey celebration.

Mr. and Mrs. Lon Sheeler and children left last Friday for Menard for a two weeks visit with relatives. Bob Stamps accompanied them to Menard where he expects to spend a few days on a fishing trip on the San Saba river.

JUDGE BROOKS MAY CHOOSE TO RUN FOR DISTRICT JUDGE

Hon. James T. Brooks of Big Spring, district attorney of the 32nd judicial district, had professional business in Tahoka Saturday and made a pleasant call at the News office, having been a friend of the editor for many years. There is a possibility of Judge Brooks becoming a candidate for district judge in his district next year.—Lynn County News (Tahoka).

Your Dentist... See him twice a year for better health's sake... Cunningham & Phillips.

\$800,000 PAID FOR RABBITS

Pierre, S. D., Aug. 13.—A Denver fur company, which purchased jack rabbit skins in this State last winter, paid over \$800,000 to hunters in the state for the winter campaign. They say they will extend their buying operations to a larger territory in the state next winter.

Looks like Texas folks ought to get some of this "jack" for jack rabbits. We have the varmints here, and plenty of time to kill them during the winter months.

**PLAINS JOIN MOVE TO
RAILROAD TO GULF COAST**

Following the meeting August 11 which was attended by many representatives from a score of towns along the proposed highway No. 9, between San Angelo and Amarillo, and the interest of a number of paying on this highway, another meeting was held to consider the possibility of a different kind of connection between the Plains and the Gulf of Mexico.

Represented at this session were Slaton, Lubbock, Wilson, O'Donnell, Lamesa, Big Spring and San Angelo.

The chamber of commerce at Big Spring, pointing out the possibility as now viewed by the members in West, Southwest Texas, of securing direct connections between Corpus Christi and San Antonio via the western section in the western part of the state.

In a concerted form, he suggested probably bring about the construction of a railroad to connect via San Antonio and Lamesa, the terminus of the Santa Fe's line out of Slaton. This, it is thought, should give the port of Corpus Christi a direct line to the Gulf which would mean rapid development of that city as a Gulf port, and greater opportunities to be traversed by

to advance the idea of such a road built, it was determined an association of the towns represented at the meeting, the Slaton Chamber of Commerce, the association's name was to be the Plains to Gulf Development Association.

President of Lamesa, was A. B. Davis, Lubbock, and the following were chosen: S. E. Staggs, T. Williams, Wilson; C. J. Taboka; O. L. Slaton, L. H. Wilder; O'Donnell; Lamesa; R. L. Price, W. L. Foster, Sterling, A. Broome, San Angelo; E. J. Sparenberg, and A. D. Wackerly.

Successful conclusion of plans will work wonders for West and Southwest Texas. W. Hood, president of the Chamber of Commerce. In view of the probability of much coming to Slaton which, because of the connection between the main line of the Santa Fe with the Lamesa branch, and the increased importance to be given Slaton as a center of the South Plains, by a large expansion, Slaton, Corpus Christi, San Angelo and Slaton, together with the other towns along the proposed, are reported to be working such a line to be built.

**NEARLY THREE-FOURTHS OF
TEXAS IS IN PASTURE**

Of the total land area in Texas, comprising nearly 168,000,000 acres, 123,500,000 acres, or 73.4 per cent, are devoted to grazing. G. W. Barnes, beef cattle specialist extension service told those attending the livestock session of the Farmers' Short Course A. & M. College at College Station last week. Of the remaining 31,250,000 acres, or about 18.6 per cent, are classed as improved land in farms; 10,000,000 acres, or 6 per cent, represent forest land, and 3,333,000 acres or 2 per cent, are taken up by highways, river beds, etc.

"While no figures are available to show just how many acres are suitable for farming in the State, it is probable that for all time Texas will continue to have a larger acreage devoted to grazing than to the production of crops," Barnes said.

"The grazing animals of the farm may well be regarded as living factories that are continuously maturing flesh, wool, mohair, milk and numerous other valuable products for the benefit of man," he continued. "The machinery of this vast factory is run by 'vegetal fuel,' which in general can not be directly utilized as food by man. Having this prodigious livestock manufactory we do not, like like Nebuchadnezzar of old, have to subsist on grass ourselves, but we do eat it by proxy, for meat constitutes no unimportant part of our diet."

**LANTERN HELD UP TO CARBIDE
TANK CAUSES EXPLOSION**

The swimming pool on the Roscoe road was the scene of a near tragedy last week when a carbide generator in which gas is made with which to light the swimming pool and injured several persons. While working on the tank, new carbide was let in by someone working on the generator and this got in contact with the water in the generator. Some one walked up with the lighted lantern and the explosion followed. Several persons were injured. Sweetwater Reporter.

Several carbide tanks are in operation in Howard County and this near tragedy might be a warning to those who use them.

CHEVROLET

**Consistent Progress and Proved Design -
have resulted in the most
Amazing Quality
in Chevrolet History!**

Today's Chevrolet embodies the most amazing quality in Chevrolet history—the result of 14 years of consistent development and improvement.

In carrying out this policy of consistent betterment, the Chevrolet Motor Company has profited immeasurably from its close association with the General Motors Corporation—the world's greatest producer of automotive products.

The General Motors Research Laboratories, under the direction of the most famous scientific staff in the automotive industry—

- the General Motors Proving Ground, the greatest outdoor testing laboratory in the world—
- the General Motors engineering staff—
- the vast General Motors resources—

—all have been constantly utilized in making Chevrolet the world's finest low-priced automobile!

Regardless of the car you may now be driving, regardless of when you expect to purchase your next automobile—come to our showroom and see today's Chevrolet.

One inspection of its custom beauty, one ride at the wheel of your favorite model—and you will know why thousands of automobile buyers are investigating the market each day... and turning to Chevrolet!

12 GREAT FACTORIES
Chevrolet cars are manufactured in 12 great factories, located at strategic shipping points throughout the country. Every factory is equipped with the most advanced modern machinery known to engineering science—performing every manufacturing operation with scientific precision and maximum efficiency.

PROVING GROUND
The General Motors Proving Ground, comprising a tract of 1245 acres, is located at Milford, Michigan—forty miles northwest of Detroit. The entire tract is crisscrossed with roads of every type—from a concrete speed track, to deep rutted clay lanes. There are hills that vary in steepness from a slight inclination to 24%. Fleets of Chevrolet cars are under constant test at the Proving Ground—driven day and night under every conceivable condition of road and load.

GENERAL MOTORS
The Chevrolet Motor Company is a unit of the General Motors Corporation—the greatest automotive organization in the world. Utilizing the vast resources and engineering facilities of this organization, Chevrolet enjoys, to the fullest extent, these manufacturing advantages—a fact that is largely responsible for Chevrolet's amazing values.

**The vast resources of
General Motors and the tremendous
manufacturing facilities of Chevrolet
have made possible this amazing
quality at amazing low prices.**

KING CHEVROLET COMPANY
BIG SPRING, TEXAS

QUALITY AT LOW COST

The Big Spring Herald
BY T. E. JORDAN

\$2.50 A YEAR OUTSIDE COUNTY
\$2.00 A YEAR IN COUNTY

Entered as second class matter at the Postoffice, Big Spring, Texas, under Act of Congress, May 8, 1897.

Big Spring, Friday, August 19, 1927

NOTICE TO THE PUBLIC: Any erroneous reflection on the character, standing or reputation of any person, firm, or corporation, which may appear in the columns of this paper, will be gladly corrected upon its being brought to attention of the editor.

Cooler weather can be expected from now on since the Fats and Leans have had their settlement.

There was a lingo of Fall in the atmosphere Wednesday morning and most of us appreciated the drop in temperature.

The two German planes which attempted to make the hop from Germany to New York Monday were forced to return to Germany after being battered by stormy weather. One of the planes got as far as Ireland before being forced to turn back.

About the time the other railway systems got all pepped up to capture that rail line from Corpus Christi to the Plains you will wake up to find the Santa Fe has "gummed up the works" by connecting up a few gaps and walking off with the prize.

Big Spring is on her way. It is only necessary that our people pull together continuously to insure a steady and substantial growth. The old town is builded on a firm foundation and she is prepared to go far, if her citizenship work in harmony.

Some of our non-progressive citizens are going to be run over when old prosperity takes charge of conditions in our county this fall. Big Spring is bound to take a big step forward in the months to come and we might as well get ready for a real building program.

Rev. E. Kistner, O. M. I.

There are quite a few gentlemen in the Democratic and Republican ranks who are not so bashful as Coolidge. They are determined to make the race for the nomination for president no matter whether or not they are chosen.

It won't be a great while now until the hum of the cotton gins will be sounding the note of prosperity throughout the Southland. With the price of cotton ranging from 20 cents upward, the cotton growers are going to be able to pay some of their obligations and have a little money left.

In order to make it possible for motor vehicles to navigate the deep sand to get to the Marland test well on the Gultar ranch, seven miles west of Big Spring, a novel road building experiment was tried out. Deep furrows were plowed in the sand and cotton seed hulls were placed in the furrows.

If we secure another line of railway thru Big Spring the cattle raisers south of town expect to be able to have stock pens provided so they can ship their cattle and sheep from this point. It is practically impossible for raisers to get their stock to the present railroad stock pens, without much extra cost and danger.

It pays to advertise. No matter how many bargains you might have, what good will it do you or the public either if the public does not know about it. You can tell thousands of citizens about your bargains thru the advertising columns of the Herald each week. This is the most effective and economical method of reaching the most folks with money to spend.

It is just a question of time until Big Spring is going to be called upon to provide more school rooms. At the rate our city is growing the question of providing adequate school facilities will continue to be a problem. Just suppose the population of Big Spring doubles in the next few years. Where will you find room for the school children?

We seem to be able to have most any kind of laws passed so why not make it unlawful for manufacturers to build or sell autos capable of developing a speed in excess of 35 miles an hour. Most every state in the Union has a speed limit of 35 miles per hour on highways; so why continue to manufacture motors capable of making from 60 to 90 miles per hour?

NOTICE

I will do your ironing. Phone 535 or call at 601 Bell St. 11pd

Bring On Your Victims
"Well," said the bearded physician, "I find that you are suffering from an assorted crop of suppressed desires. You are also the fortunate possessor of three types of complexes: superior, inferior and ulterior. Your thyroid gland is slightly out of focus, while neurotically your reactions are very poor. I find definite traces of dual personality and chronic melancholia. You live in a dream world and are mixed up in five or six interlocking personalities. I think you are perfectly safe. Go ahead. No jury will convict you."
"Thanks, Doc," gratefully answered Hamlet. "Do you know where I can have a dagger sharpened?"

Coffined in Coconut
In Honolulu may be seen two coconut fire caskets, woven to represent in effigy King Liloa, who reigned over Hawaii in 1500 A. D. and his great-grandson, Lenoi-kama kohiki. Inside the caskets are the bones of the kings. Such coconut fiber caskets, shaped somewhat like an Egyptian mummy case, are extremely rare. These were found in one of the ancient burial caves of Hawaii. The Hawaiians often secreted the bones of dead kings in inaccessible caves to prevent desilement by an enemy.

Herculean Viewpoint
A colored man who owned a large wagon and a small horse was hired to haul away some trash from a home. The trash contained many brickbats and made an awkward load. As he was ready to drive away, the owner of the house said to him: "If you intend to haul such large loads you need a larger horse." The colored man replied: "If you had to lift him up every morning like I do you would think he is heavy enough."

"Jingoism"
Jingo is supposed to be derived from the mountain soldiers of Basque, who were employed by Edward I in Wales. The common oath of these Basque soldiers was "by Jainko." The modern use of Jingo really dates from McDermott's music hall song of 1878, when war with Russia was threatening Great Britain. The first line of the song ran: "We don't want to fight, but by Jingo, if we do."

WEEK OF TEXAS

or any Constable of
 County—Greeting:
 hereby commanded to
 L. L. Head by making pub-
 this station once in each
 week for the next weeks pre-
 vailing day hereof, in

some newspaper published in your
 County, to appear at the next regu-
 lar term of the District Court of
 Howard County, Texas, to be holden
 at the Court house thereof, in Big
 Spring, on the first Monday in Sep-
 tember, A. D. 1927, same being the
 5th day of September, 1927, then
 and there to answer a petition filed
 in said Court on the 30th day of July
 A. D. 1927, in suit numbered 1113
 on the docket of said court, wherein
 Temp S. Currie is plaintiff and Flo-
 rence Black Hand; E. L. Hand; Hub-
 ert Black; Grace Wingo and her hus-
 band, Joe Wingo; Tommie Joe
 Black; J. D. Black and The State
 National Bank of Big Spring are de-
 fendants and, also, to answer the
 answer and cross action of said The
 State National Bank of Big Spring
 filed in said Court on 30th day of
 July, 1927, praying for judgment
 against its co-defendants, Mrs. Flo-
 rence Black Hand; E. L. Hand; Hub-
 ert Black; Grace Wingo and her hus-
 band, Joe Wingo.

Plaintiff's suit is for judgment es-
 tablishing his debt for the amount of
 principal, interest and attorney's
 fees represented in notes numbered
 six to ten, inclusive, each for \$500.00,
 of the series of ten notes dated Janu-
 ary 2, 1923, executed by T. A. Black,
 those declared on herein on or be-
 fore six to ten years, respectively,
 after date, each bearing interest from
 date until maturity at the rate of 8
 per cent per annum, the interest pay-
 able annually; each stipulating that
 said note and all past due interest
 to bear interest at the rate of
 10 per cent per annum; for accel-
 erated maturity for failure to pay any
 note or installment of interest when
 due and for the usual 10 per cent
 attorney's fees, if placed in the hands
 of attorney for collection, if collect-
 ed by legal proceedings or through
 Probate Court. \$3,610.00 of the
 note number one, which was for
 \$4,000.00, transferred to the Fed-
 eral Land Bank of Houston, Texas,
 balance of said note and numbers
 two to five, inclusive, having been
 paid off and discharged, and by reason
 default in payment of the an-
 nual interest due January 2, 1925,
 1926, and 1927, respectively, plain-
 tiff has elected to declare all of said
 notes due and payable and, also,
 prays for foreclosure of vendor's lien
 retained in deed by him to T. A.
 Black to secure payment of said
 notes on the South 1-2 and North-
 East 1-4 of Section No. 7, Block No.
 33, Tsp. 1-North, Cert. No. 1925, T.
 & P. Ry. Co. survey, comprising 480
 acres, in Howard County, Texas, but
 subject to deed of trust in favor of
 the Federal Land Bank of Houston,
 Texas, securing payment of note
 originally for the sum of \$3,800.00.
 Plaintiff, also, alleges that de-
 fendants failed to pay the semi-an-
 nual interest and amortization install-
 ment maturing on first day of

March, 1927, amounting to \$123.50,
 and that he was forced to pay same
 in order to prevent foreclosure pro-
 ceedings by said bank and to pro-
 tect plaintiff's lien and that said in-
 stallment, with lien securing its
 payment, was transferred by said
 Federal Land Bank to plaintiff. He
 asks for judgment for said sum,
 \$123.50, with interest at 8 per cent
 from March 1, 1927, with foreclo-
 sure of lien securing payment of
 same.

Plaintiff makes The State Na-
 tional Bank of Big Spring party to
 suit for the reason that said bank
 holds deed of trust on 3-4 interest in
 said parcels of land, but inferior to
 and subject to plaintiff's said ven-
 dor's lien.

He prays for order of sale; for ap-
 plication of proceeds of sale to costs
 of suit and payment of his debt,
 praying, also, for costs of suit and
 general and special relief.

Defendant The State National
 Bank of Big Spring alleges that on
 February 19, 1927, its co-defendants,
 Florence Black Hand; Grace Wingo
 and husband, Joe Wingo, and Hub-
 ert Black, executed to it note in the
 sum of \$2,871.00, payable on de-
 mand, with interest at 8 per cent per
 annum and for 10 per cent attorney's
 fees, if placed in hands of attorney
 for collection, or if suit is instituted
 thereon, or if collected through Pro-
 bate Court, securing payment
 through deed of trust to T. S. Cur-
 rie, Trustee, on 3-4 interest in the
 aforesaid parcels of land, and prays
 for judgment for its debt represent-
 ed in said note and for foreclosure of
 its said deed of trust lien, subject to
 deed of trust in favor of the Fed-
 eral Land Bank of Houston, Texas, and
 to plaintiff's vendor's lien.

It, also, alleges that defendants
 made default in payment of semi-an-
 nual installment number six maturing
 on 1st day of September, 1926,
 on loan by said bank to T. A. Black,
 payment of which was secured
 through deed of trust on the land
 above described and that this de-
 fendant paid said installment
 amounting to \$123.50, and prays for
 judgment for said sum, with interest
 from September 1, 1926, at 8 per
 cent per annum and for foreclosure
 of lien securing payment of said
 judgment. Reference is made to
 plaintiff's original petition and to
 original answer of defendant The
 State National Bank of Big Spring
 for fuller and more specific allega-
 tions by them, respectively.

Herein fall not but have before
 said Court, at its next regular term,
 this writ, with your return thereon
 showing how you have executed the
 same.
 Given under my hand and seal of
 said Court, at office in Big Spring,
 Texas, on this 30th day of July A. D.
 1927. 46-4t
 (Seal) J. I. PRICHARD,
 Clerk, District Court, Howard Coun-
 ty, Texas.

Personal Mention

Misses Asmith and Stella Elliott
 are visiting friends in this city.

Mrs. F. F. Gary is visiting in Dal-
 las this week.

Come early Saturday morning for
 fruits and vegetables. White House.

Mrs. Carl Madison returned Wed-
 nesday night from a visit in Rising
 Star.

Mr. and Mrs. J. O. Tamsitt have
 returned home from a several weeks
 visit with their daughter, Mrs. Aubrey
 Kent at Los Angeles, Calif.

R. F. Harris Jr. of Dallas is here
 visiting relatives and friends.

Mr. and Mrs. E. F. Springman re-
 turned Wednesday from a six weeks
 visit through Colorado, Utah, Wyo-
 ming, New Mexico and Oklahoma.
 They report a most delightful time.

Mr. and Mrs. T. S. Currie and son
 Temp, Jr., returned Tuesday from a
 visit in Mineral Wells, Dallas and
 Fort Worth.

Mr. and Mrs. Robert Currie and
 John Currie returned Wednesday
 night from a several weeks vacation
 trip through California.

Mrs. J. I. McDowell returned last
 Thursday from a two weeks stay at
 Kerrville where she attended the
 Presbyterian encampment and school
 of missions.

Misses Spencer and Mattie Leath-
 erwood, Zou Hardy, Mrs. R. Rich-
 ardson and Mrs. Henderson were
 visitors in Midland Wednesday.

Mrs. E. T. Cobb who underwent
 an operation at Baylor Hospital at
 Dallas Saturday morning is reported
 to be getting along nicely.

Mr. and Mrs. M. P. Stephens of
 Wilmington, Calif., was here this
 week to visit relatives. They were
 enroute home after spending their
 vacation with Dad and Mrs. J. H.
 Hefley in Sterling City.

**Don't Be Embarrassed
 By Skin Diseases**

Use Blue Star Soap to clean the ef-
 fected parts, then apply Blue Star Remedy.
 It penetrates the skin, kills out the germs,
 stops the itching at once, and restores most
 cases to a healthy condition. Eczema, Tet-
 ter or Cracked Hands, Poison Oak, Ring-
 worm, Sore Blistered Feet, Sunburns, Old
 Skin Sores—all of these have yielded to
 its wonderful healing power. 60c and \$1.00
 a Jar; Soap 25c, at

J. D. BILES

Day by day the automobile acci-
 dents become more numerous. Most
 every day we have them in our city,
 but fortunately the automobiles are
 about the only injured party in most
 instances. We ought to rent a cow
 pasture in which we could turn some
 of these reckless and careless drivers
 until they learn how to drive.

AN EXHILARATING EFFECT
 A bottle of Herbine on the shelf at
 home is like having a doctor in the house
 all the time. It gives instant relief when
 the digestion gets out of order or the
 bowels fail to act. One or two doses is
 all that is necessary to start things mov-
 ing and restore that fine feeling of exhi-
 lation and buoyancy of spirits which be-
 longs only to perfect health. Price 60c.

PADGETT HOTEL SOLD TO LAMESA LAND OWNER

H. H. Padgett announces that he has sold the Padgett Hotel, the stucco hotel across the railroad to A. C. Woodward of Lamesa. In speaking of this sale Mr. Padgett said: "I really hated to turn loose of this hotel, as I considered it an excellent investment, but I feel that Mr. Woodward will be able to do more for the hotel than I have ever been able to do. He is amply able to make improvements that will enable the hotel to take care of the increased trade that is sure to come upon the opening of the oil fields. Mr. Woodward is a fine man, and an outstanding figure in his community. He is strictly a gentleman of the highest order, and will be a booster for our town and community."

Mr. Sullivan, the present manager of the hotel, will continue to serve in that capacity, and will be there to greet his many friends who stop with him from time to time.

This hotel is a credit to any town the size of Coahoma, and is equal to the best hotel in many towns larger than our town. It is also in position to make an addition easy, and it is thought that this will be one of the steps taken by the new owner upon the opening of the oil fields. Coahoma Citizen.

Fly funeral sprayed in closets will kill moths and all insects. Cunningham & Phillips.

TEXAS OIL FIRMS GET GOVERNMENT ATTENTION

Washington, D. C., Aug. 12.—The federal trade commission Thursday ordered immediate investigation of eight alleged wildcat oil promotions in Texas, but because service has not yet been made on some of the companies refuses to name them definitely, but it is understood that companies with headquarters in Houston, Fort Worth and Mexia are on the list. The companies involved are charged not only with misrepresentation in their advertising stock for sale, but also in the value of the stock. All are openly accused of "fraudulently selling worthless securities." No date has been fixed for the investigations, but probably will be set in a short time.

THE PAPER THAT CARES

A pertinent thought from the Ashland Clipper: "Did you ever stop to think the Clipper is the only newspaper in the whole wide world that cares a darn about Ashland? What a powerful sermon in just four lines. Makes that application to Woodson or any other town that has a live newspaper boosting for the town weekly throughout the year, and year after year."

What institution in the community has the town's interests more at heart than the local newspaper? Each day it reflects the mood of the people, their desires, ambitions, activities and developments. The schools, churches, civic activities, clubs, lodges and individuals each come in for their share of praise and commendation for their part in aiding the town's advancement. No enterprise of whatever nature is successfully maneuvered without the medium of the newspaper, and the paper regularly gives freely of its space to those things that are vital to the community's progress, and did you ever stop to think that it cost the newspaper just as much to publish free articles as it does those that are paid? There is no institution that gives as freely of its time and money to the town as the newspaper.

And mirrored through the publication are the doings of the town, its business houses, social life, and interests, which are weekly chronicled to the outside world, which without this reminder would be ignorant of the community. The scope of the newspaper to its town is boundless and interest the people have in its paper is reflected through it in exact ratio to that interest.

Where is there a newspaper in the whole wide world that cares a darn about Woodson but the Woodson Record. Woodson Record.

The Woodson Record said a whole mouthful in the above and what other paper on earth cares a darn about Big Spring except the Herald. The Herald has been on the job for almost a quarter of a century telling the outside world that we had the best little town in the world and even when drouths came and worms ate up the crops and it looked like we would not get off the Herald had faith and fifty-two weeks in each year boasted the town and county, and now some of the biggest knockers in the town when we came here twenty four years ago, are our best boosters. The home paper is for its town first, last and all the time and if you are a good citizen you will boost for your home paper.

TEN RULES FOR SUCCESS

Otto H. Kahn, the well-known New York banker and patron of the arts, recently laid down ten major rules for the young man seeking success in his business life. It has occurred to us that the advice given is too wise and wholesome for any one sex or any one age to claim its entire monopoly. Here are the rules:

1. Eliminate from your vocabulary the word "perfunctory."
2. Think—exercise your brain as you do your muscles.
3. The most serviceable of all assets is reputation.
4. Use your imagination.
5. Know how to bide your time and to "sit tight."
6. Be neighborly. Be a good sport. Remember you can't lift yourself by downing others.
7. Work hard. It won't hurt you.
8. Take an active interest in public affairs.
9. Meet your fellow man fairly and frankly. You don't have to go through business armed to the teeth.
10. If you are successful, be patient, courteous, and conciliatory. Avoid ostentation. Pictorial Review

Kill your flies. Spray your rooms with "Fly Funeral". Cunningham & Phillips.

CITATION BY PUBLICATION THE STATE OF TEXAS

To the Sheriff or any Constable of Howard County. Greeting:

You are hereby commanded, That you summon, by making publication of this Citation in some newspaper in the County of Howard if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County to said Howard County, for four consecutive weeks previous to the return day hereof, Cecil Wheeler, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Howard at the Court House thereof, in Big Spring, Howard County, Texas, on the First Monday in September, 1927, 5th day, then and there to answer a Petition filed in said Court, on the 3rd day of August A. D. 1927, in a suit numbered on the Docket of said Court No. 1115, wherein W. E. Wheeler, is plaintiff and Cecil Wheeler, is defendant. The nature of the plaintiff's demand being as follows, to-wit: That Plaintiff is an actual bona fide inhabitant of the State of Texas, and has been for more than one year and an actual bona fide inhabitant of Howard County for more than six months next preceding the filing of this suit; that Plaintiff and defendant were married January 19th, 1911, and the marriage relation still exists; that at the time of the marriage the Defendant had three children, one girl and two boys; that Plaintiff loved them and educated them, and treated the defendant with love and kindness; but after the children were about grown Defendant became estranged and entered in upon a series of cruel treatment towards Plaintiff continuously nagged and falsely accused him of improper relations with other women and together with their oldest son forcibly ejected him from his own house and ordered him to leave, and about the 15th of January, 1927, Plaintiff abandoned Defendant with the intentions of never living with him again; that her course and series of continuous nagging false accusation and forcible ejection constituted such cruelty as to render their living together further as insupportable. Plaintiff prays for judgment of divorce.

Herein fail not. And have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Big Spring, Texas, this 3rd day of August, A. D. 1927. (Seal) J. I. PRICHARD, Clerk. District Court, Howard Co., Texas.

CANDIDATES IN DISTRICT MAKE READY FOR RACE

District politics seem to be preparing to open up though it is early in the game the air is full of rumors as to political ambitions and candidates for District Judge and District Attorney.

Judge Smith, through friends, has already announced his intention to be a candidate to succeed himself. Appointed by Gov. Ferguson, just before she retired from office, Judge Smith was confirmed by a unanimous vote in the Senate. His appointment was satisfactory to Governor Moody and he was backed for confirmation by the leading friends of Dan Moody in the District and by a majority of the bar.

County Judge A. S. Mauzey of this city has let it be known that he will make the race for District Judge and his formal announcement is expected within the near future. Judge Mauzey has served as county judge for many years, and was prominently mentioned when appointments were to be made to fill Judge Leslie's place when he resigned.

It is rumored that Judge Brooks may enter the race or retire to active practice. Judge Coffee of Colorado and Judge Buchanan of Snyder are also mentioned as probable candidates, while it is said there may be a formidable dark horse blanketed now that will get in the race if it opens up with several entries.

For District Attorney, Judge V. Earl Earp is mostly talked of here, and some say that Judge Brooks may still wish to be district attorney while Mr. Ratliff of Colorado and Mr. Sentell of Snyder will also enter the field it is rumored. Nolan County News (Sweetwater).

PAINT YOUR HOUSE NOW... WE CAN SAVE YOU A DOLLAR A GALLON ON PAINT AND IT'S NOT JUNK PAINT EITHER. CUNNINGHAM & PHILLIPS.

H. A. Latimore, traveling representative for the Fort Worth Star-Telegram, with headquarters at Lubbock, spent Friday and Saturday in Big Spring looking after the interests of this popular daily.

FROM SALEM

of Dallas were visiting with Mr. and Mrs. W. C. Rogers the past week.

Quite a crowd of our folks went to Coahoma Sunday night to hear Dr. John Carnegie speak on Temperance. There was no B. Y. P. U. program Sunday night as all wanted to go and hear this sermon.

Owing to the two good rains last week crop conditions are very much improved. Quite a lot of feed has been harvested which was real good. The recent rains will insure good late feed crops from Salem to Coahoma which are considered as good as they were last year at this time.

Mr. Williams of Arizona is here on an visit to his sister, Mrs. W. H. Robinson.

Elmer Hull and family of Courtney visited relatives in our vicinity Sunday.

Ford Coates and family spent Sunday with Mrs. Webb and family at Stanton.

Salem has been selected as the next meeting place for the Baptist Workers Conference which will convene on Tuesday after the second Sunday in September. Visitors will be heartily welcome and we wish that every member will attend, and especially do we welcome our old time members on this occasion.

Mr. and Mrs. L. C. Dahme returned the first of this week from a vacation trip to Cuero, and other points in South Texas.

Poison fly paper.....Cunningham & Phillips.

Mrs. John Stamper and daughter Miss Elizabeth, Bisbee, Ariz., Mr. and Mrs. Vern Stamper and baby of Odessa, and Miss Novella Dawson of Carlsbad, N. M., visited Mr. and Mrs. Lloyd Stamper and family in this city Sunday

TEXAS' AGRICULTURAL BOOM

The statistics of Texas agriculture this year are plastered all over with reasons for optimism, when considered with the market reports showing present and prospective prices for the various items of production. Acreage of all crops has been increased with the exception of cotton. It is a rule of the cotton business that a small crop is of more value than a large crop when the reduction in size is general. This year the reduction is general, and Texas, with better than average production, will gain many millions over last year's income on this account. Food and feed acreage has been increased, the total nearly equaling that of cotton. The producers of cattle, sheep and goats have had a good year, and swine raisers have not yet suffered greatly from the increase in corn prices which trim profits in pork.

Texas farmers should not overlook the significance of these figures as to the practicability and advisability of diversification. The movement for balanced farming received impetus last year through the cotton disappointment. Thus, for the first time in many years, acreage of other crops in Texas approached the acreage of cotton. The danger of a swing back to cotton production at the expense of other crops is inherent in 20c cotton. Texas farmers should not be led astray next Spring. There is 20c cotton in Texas now because of two things. One is the reduction in acreage from last year; the other is the Mississippi flood, which took many thousands of acres out of production, and the increased boll weevil infestation. These factors may not be present next year, and an increase in cotton planting would be disastrous.

Texas agriculture has won by bitter experience to its present stage of diversification. It should permit no backsliding.—Fort Worth Star-Telegram.

BUILD AND LET BUILD

As far back as history goes, there have been persons who have stood in the way of progress, some for reasons mercenary, others because of a real lack of vision or natural narrow tendencies.

It is a matter of record that the builders of the ancient cities and public monuments, some of which still exist, were met by hundreds of obstacles placed in their way by visionless men, who did not have the future interests of their communities and the world at heart.

This same condition may be found in our own community today. We see opposition to things which would expedite business or cause an economic improvement, or would in humanity's sake afford protection against sickness or the killing of citizens. Sonora is striving to become a bigger and a better community. There is no room in this community for an obstructionist.

The truly great man of all time is the builder, the one who produces or helps to produce. The parasite, who does nothing for himself or fellow man, is a cheat, and the one who interferes with progress is little better. "Build and let build" should be our motto and the future will comfortably arrange itself. There are many things to be considered in the building of a community. Ten men can do more than one, and when their efforts are combined, their work counts for as much as twenty men working singly. By the same token, one knocker in a community can do more harm than 20 men can offset. Knockers and obstructionists, "reds" and others of like character are not wanted in this community. —Devils River News (Sonora).

Mr. and Mrs. W. F. Cushing and daughters, Misses Mary Lou, Constance and Virginia, returned last Friday from an auto trip to points of interest in New Mexico. They visited the famous Carlsbad Cavern while on this trip.

AN OSTRICH APPETITE

Port-mortem examination of Ida, famed ostrich at the London Zoological Gardens, disclosed the following articles in her gizzard: Three gloves, a handkerchief, cord, an empty film spool, two large and several small nails, a pencil, four half-pennies, two farthings, a French coin, parts of a comb and a gold necklace, a collar button, bicycle tire valves, a clock key, a dozen short bits of wire, metal staples, screws, rivets, a glove fastener, and a piece of wood four inches long. —Dearborn Independent.

FIFTEEN PER CAPITA IS FIXED BY STATE BOARD

Austin, August 10.—The per capita public school apportionment was fixed at \$15 for the coming year by the state board of education today. Mrs. McCullum, secretary of state, made the motion which carried unanimously.

State Superintendent S. M. N. Marrs estimated the scholastic census at 1,370,000 and his "conservative estimate" of available revenue for per capita would have allowed only \$14.53 but the board believed it would be safe in providing \$15, recommended and virtually promised by the fortieth legislature.

Why torture your motor?

?

WHY subject your engine to all the abuse which results from knocking? Why shorten its life and run up for yourself unnecessary repair bills?

You can eliminate knocks and insure longer life for your motor by the simple process of filling the tank with Conoco Ethyl Gasoline.

Automotive science worked for seven years to produce Conoco Ethyl. It's the greatest contribution to complete motoring satisfaction since the self-starter.

And it costs just 3c more per gallon than regular Conoco Gasoline. Ask for it at the Conoco sign.

Announcing The

OAKLAND

ALL-AMERICAN SIX

At New Low Prices!

Body by Fisher

Built to meet every American demand for Reliability, Style and Performance

All-American—that's the word! No other word describes it!

American design. American lines. American endurance for the roughest American roads—proved on General Motors' great American proving ground and built by American workmen using American precision-production methods!

A bigger, better, brilliantly beautiful car. New bodies—new chassis—new engine. New standards of performance, endurance, and value—and

NEW LOW PRICES!

There's mastery in every detail of the new Fisher bodies—the mastery of America's master body builders. Low, graceful, fashionable lines emphasized by sweeping full-crown fenders. Arresting new Duco colors. Rich new upholstery.

In the chassis—a longer, deeper, heavier frame. A new and softer clutch. A new and smoother transmission. 4-wheel brakes. Smaller wheels (19"), larger tires (29x5.50), a longer wheelbase (117"), and an exceptionally low center of gravity. And a new engine of 212 cubic inches displacement—the largest used in a car of Oakland's price. Power—smoothness—snap and silence that will be the talk of all America from this day hence. A combination of features never before employed in any automobile engine!

—a 78½-lb. crankshaft, counter-balanced and incorporating the Harmonic Balancer—a crankcase of bridge truss construction—Oakland's famous rubber silencing principle—and a new combustion chamber design from General Motors' Research Laboratories.

A gasoline pump that supersedes the long familiar vacuum tank—a new and efficient system of crankcase ventilation—triple engine protection by gasoline, oil and air filters—

—and such factors of luxury and convenience as tri-clustered instrument panel, silver platinum engraving—a large new corrugated steering wheel—colored garnish rails and enough others in addition to make this advertisement read like a catalog!

Value? None like it in all America today! Come in—and see this latest triumph of America's automotive supremacy—the new Oakland All-American Six!

Six of the country's most famous cooks who are contributing many splendid cooking articles.

A POST-GRADUATE course in cooking! That's what we are giving our women readers, commencing today. Here's an opportunity to increase your cooking skill through the experience of experts.

Six nationally famous cooking authorities have contributed to this series. Their favorite, tested recipes and many practical household suggestions make many instructive, easy reading articles. You have heard of every one of these famous cooks. But here's just

a brief description of each. Mrs. Sarah Tyson Rorer, the "Philadelphia Cooking Expert," is a pioneer cooking teacher, and author of many cook books. Besides being principal of the Boston School of Cookery, Miss Lucy G. Allen has written many cook books, among them, "Table Service" and "Choice Recipes for Clever Cooks."

Mrs. Belle DeGraf, San Francisco, is known country-wide as a home economics counselor. And Mrs. Kate Brew Vaughn, Director

of the household economics department of the Los Angeles Evening Express, gives cooking instructions to more than 100,000 women annually.

Miss Margaret Allen Hall is on the faculty of the famous Battle Creek College of Home Economics. Nutrition work is her specialty. Miss Rosa Michaelis is demonstrator for the New Orleans Housewives League.

Start now to read this instructive, interesting series. And watch each week for the "Cooking Chats."

MASS MEETING AT ABILENE
Stamford. — The official call for the mass meeting of citizens of West Texas in particular and Texas in general to be held in Abilene, Texas, August 18, for the purpose of discussing water rights of Texas has been issued from the headquarters office of the West Texas Chamber of Commerce upon authority of President J. A. Kemp of the Texas Conservation Association and R. W. Haynie, president of the regional organization of the West.

Governor Moody, Attorney General Pollard, and the Board of Water Engineers, as well as other state officials, have been invited to attend the meet. The water rights problem is attracting state wide attention of leading business men, farmers, and other interested parties and it is expected that a record breaking crowd will be on hand August 18 to take part in what is scheduled to be an open forum discussion.

In the official call as issued it is stated that the Texas Conservation Association and the West Texas Chamber of Commerce expect to oppose resolutely any efforts that will place the agricultural, livestock, or industrial interests of the State in jeopardy. The call announces, also, that the conference will disseminate information relative to the rights of landowners with regard to run-off waters and the need for protection thereof. Such action as is deemed necessary and justified will be taken at the mass meeting.

WHERE DESIRE IS DROWSY
Lady Motorist: I want to have my engine worked on. When I start off it grinds like a cement mixer, and when it does that it gives me a pain. I simply can't sit still.
Mechanic: But, lady, that don't necessarily mean you have engine trouble, it might be your rear end.
Lady: You brute, you can't talk to me like that.—Ex.

"YOU CAN ALWAYS GET A GOOD PRICE FOR GOOD STUFF"

We were sitting in an Alabama restaurant early in June. The salesman for a produce house came in. "We have some fine Mississippi tomatoes in flat crates," he said to the proprietor. "How about letting me send you a crate?" "Are Mississippi tomatoes coming in already?" we asked as the salesman started out. "Yes, sair," was his answer. "How are they this year?" we asked him. "Fine," was the reply. "How are prices?" we asked. "Prices are good, too," he replied, and then he added, "You can always get a good price for good stuff."—Progressive Farmer.

"DESTROY WOMEN" IS MOTTO OF SCREEN DON JUAN

John Barrymore as "Don Juan!" That is the treat promised for local picture-goers at the R. and R. Lyric theater next Monday and Tuesday August 22-23, where this spectacular Warner Brothers production opens for a run of two days.

Barrymore plays a dual role. First he appears as Don Juan's father, Don Jose, a courtly, punctilious, subtle Spanish aristocrat, who, discovering his wife is unfaithful, dies with this warning to his boy, Juan: "Destroy women or they will destroy you."

Next Barrymore appears as Don Juan, grown to manhood amid the magnificence of the Rome of the Borgias. The role, as developed in the picture, bears points of resemblance to that memorable character of the Renaissance lover which Barrymore played on the stage in Sem Bellini's "The Jest", a silken, sensuous, seductive lover, who, with a smile on his lips, poisons the minds of the women who yield to his irresistible fascinations. Thus he becomes the destroyer.

Barrymore's magnetic personality has never, according to all reports, been more effectively projected than in this picture. Excellent as were his performances in "Beau Brummel" and "The Sea Beast," these achievements are said to fall into insignificance beside that of his "Don Juan," the godlike pagan who made of his life the most glamorous romance.

The romance has been screened against backgrounds of splendor that rattle the eye. Here is the pomp and pageantry of the Eternal City in its most gloriously beautiful period. And through it all is the tingling excitement of love as realized by the greatest lover of all ages.

Alan Crosland, who brought to "Three Weeks" a glow of imaginative warmth that many could not find in the material he worked with has directed "Don Juan" in a way that lifts him to the topmost pitch of delineators of romance.

Mr. and Mrs. C. D. Ambrose and little son, Allen Deane, of San Angelo were in Big Spring Sunday. Mrs. Ambrose and son left on the evening passenger train for Los Angeles, Calif., where they will spend the remainder of the summer visiting her sister, Mrs. G. W. Powell. Mr. Ambrose returned to his home in San Angelo Monday.

Elbert H. Gary for 25 years executive head of the United States Steel corporation, died in New York City Monday. He was 80 years old.

OPPORTUNITY

Big Spring Herald: In the future the railroads built in the plains section will be headed toward the Gulf of Mexico. We should begin right now to raise a sizable bonus to be given to the builders of a north-south railroad through here.

It was an Englishman who conceived the oft-quoted "Westward the star of empire takes its way." America with a crowded Atlantic seaboard and an undeveloped West learned to use the expression as she sent her pioneers across the rivers and prairies to expand the Nation. Horace Greeley added his homespun advice to youth, "Go West!" Now the West has built up. It is still building, it is still developing, but the West has learned that it can not turn to the East alone for its trade territory. South of it lie the two other Americas, eager for American goods, American produce, American initiative. South of it lie ports with facile clearance for the vast trade openings below the lazy belt of coral seas. There are better rail connections to the eastward, of course. That fact and the long start of eastern ports of clearance have served to make the Atlantic seaboard. But the cry now is for direct connection and direct trade. Railroad building represents a heavy investment. Railroads radiate on the spider web plan now from great centers and change cannot be accomplished without time and consideration. But a State the size of Texas lends itself to the checkerboard plan. Big Spring is right. It is going to have its north and south railroad sooner or later. Texas is large enough to justify two great north and south systems.—State Press in Dallas News.

Edmund Notestine returned Tuesday from a vacation trip through Mexico.

It's just about time Uncle Sam had a house cleaning to rid this nation of rats. The foreign anarchists who have been causing so much trouble on account of the execution of two of their ilk, tried and convicted under due process of law for cold blooded murder. If this class of folks are not willing to abide by our laws they should be rounded up and sent to the countries where they belong. Uncle Sam has been so lenient with the bomb throwing anarchist, treating him as merely a mild sort of lunatic, that a halt must be called and the anarchist made to toe the mark or seek another country to breed in.

THE COST OF BAD ROADS

Some interesting figures on the cost of bad roads, to the car owner, were recently issued by the national bureau of public roads. They show that the saving in car operation, over a brick, concrete or bituminous road is enough, in gasoline, to pay for the paving.

If a car uses five gallons of gasoline to travel 100 miles over a concrete road, the bureau's figures show it will use something over seven gallons to travel the same distance over a dirt road. At 20 cents a gallon for gasoline, this amounts to 40 cents for 100 miles of travel. On 5000 miles of travel, the saving on gasoline would be \$20. Multiply that by the number of car owners in any subdivision, and you have an impressive amount, one probably large enough to do some paving with.

That doesn't figure anything in saving on wear and tear or on tires. Or on the disposition of the autoist. —Wichita Falls Daily Times.

Long Troubled by Constipation

"Black-Draught has been a family medicine with us for fifteen years," says Mr. F. M. Huntley, of Neosho, Mo. "I read about it first in the Ladies Birthday Almanac and what I read there sounded so convincing I made up my mind to try Black-Draught, as I had been troubled with constipation for a long time.

"I found Black-Draught to be the ideal medicine for this trouble. It gave me quick relief. Frequently I had had bad headaches and pains, due to toxic poison. By taking a course of Black-Draught I gave my system a thorough cleansing, and I have had little or no trouble since then.

"Now, if I am becoming constipated, I take several small doses of Black-Draught, and am very soon feeling fine."

Costs only 1 cent a dose. U.S. PAT. 1,133,721

TOM MIX'S HORSE STAR WAS RAISED IN SAN SABA COUNTY

San Saba, Aug. 6.—Few Texans, probably, know that Tony, the movie horse owned by and ridden by Tom Mix, Western film star, is himself a Texan.

Tony was raised in San Saba County by the late Richard Sellman. This horse, a bay stallion with a white star in his face, is registered in the American Morgan Horse Register as Casey Jones.

He was sent by Mr. Sellman to the Oregon State College and was there purchased by Tom Mix.

RESOLUTIONS OF RESPECT

Whereas it has been the will of the Almighty Father to call to that Home on High one of our most dearly beloved friends and members, Mrs. Nettie Crenshaw, and the mother of our loyal brother, L. E. Crenshaw, and sister, Mrs. Minnie Abernathy; and the grandmother of Mrs. Kateleen Weaver.

Be it resolved that we, the members of the Rebekkah lodge extend heartfelt sympathy to our grief-stricken members and ask that they seek comfort in the Lord. We will miss this devoted member of our order, and we mourn with her relatives at her death.

Be it further resolved that a copy of these resolutions be spread on the minutes of our lodge and a copy of them appear in the weekly issue of the Herald.

Rebekkah Committee.

CITATION BY PUBLICATION THE STATE OF TEXAS

To the Sheriff or any Constable of Howard County, Greeting:

You are hereby commanded, That you summon, by making Publication of this Citation in some newspaper published in the County of Howard if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County to said Howard County, for four consecutive weeks previous to the return day hereof, Ella West whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Howard at the Court House thereof, in Big Spring, Howard County, Texas, on the 5th day of September, the same being the first Monday in September A. D. 1927, then and there to answer a Petition filed in said Court, on the 9th day of August A. D. 1927, in a suit numbered on the Docket of said Court, No. 1123, wherein E. H. West is plaintiff and Ella West is defendant. The nature of the plaintiff's demand being as follows, to-wit: Suit by plaintiff for divorce from defendant on the ground of Three years voluntarily abandonment by defendant from plaintiff.

Herein fail not, And have you before said Court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Big Spring, Texas, this, the 10 day of August, A. D. 1927. (Seal)

J. I. PRICHARD, Clerk, District Court, Howard Co., Texas.

ATTEND DISTRICT MEETING OF I. O. O. F. IN COLORADO

Colorado was host to about 300 delegates of the I. O. O. F. and Rebekkah lodges Wednesday and Thursday of this week and those attending this convention report a most delightful time. Below we print a partial list of those attending this meeting from Big Spring: Mr. and Mrs. Horace Moore, Mr. and Mrs. Levi Robinson, Mr. and Mrs. L. E. Crenshaw, Mr. and Mrs. J. A. Kinard, Mr. and Mrs. A. Richardson, Mr. and Mrs. C. D. Herring, Mr. and Mrs. T. A. Staples, Mr. and Mrs. Jess Andrews, Mr. and Mrs. T. M. Robinson, Mrs. C. A. Ballard, Mrs. Sallie Coots, Mrs. Lucille Cauble, Mrs. W. P. Moore, and Misses Mildred Ballard, Mildred Rogers and Gussie Parrish.

Diamonds—over 150 bargains to select from, at Wilke's Jewelry and Optical Shop—the diamond house of West Texas.

FIGHT COTTON PESTS IN TIME

Texas cotton growers will have to be on guard against attacks of bollworms, leafworms and boll weevils if they are to make larger yields per acre. Recent rains and cloudy weather have encouraged these pests.

Profit from cotton is in "high yields per acre!" The farmer who has 500 pounds of lint to sell from each acre has just 370 pounds more for each acre than the man who raises only the State average—130 pounds of lint per acre!

Having more pounds to sell from each acre and making a profit on each pound above the low State average makes the difference between failure and success.

Raising more pounds per acre lowers the cost of production. The lower the cost of production the larger the profits!

Bollworms are difficult to poison, but the new brood can be poisoned during the first few days after hatching when the tiny worms crawl over the cotton plant. Calcium arsenate applied at the rate of five to seven pounds per acre will control not only these tiny worms, but the leafworms and the boll weevils. Three applications four days apart will help.—Dallas News.

We have a dip to kill the odors and disinfect the premises for a dollar.....Cunningham & Phillips.

MATERIAL GAIN WRONG GAUGE

After all it is "you" that matters. What if you have been through a gruelling as merciless as an Ypress Sallient or a hell as scathing as Vimy Ridge so that you can win through with the number of carats necessary to give you the sterling mark? "The fining pot for silver, and the furnace for gold, but Jehovah trieth the hearts." The question is not how much you have to your credit at the end of these years of conflict, but how much of real manhood there is left under your hide. It does not matter so much what your business has done for you, as what it has made of you. There is too much balancing of the books without the moral issue being taken into the count. If the "carats" have gone down no material gain will atone for the loss.—The Battery Man.

Mr. and Mrs. A. E. Sullivan and children after a few days visit in this city with relatives and friends, left Monday morning for their home in Austin.

CHARTER GRANTED NEW WEST TEXAS-GULF LINE

Austin, Aug. 13.—Charter for the West Texas and Gulf Railway Company, which plans a 250-mile line from San Angelo to San Antonio, with leased connection to Corpus Christi port, was issued Saturday by the Secretary of State.

The action was largely a formality, since the Attorney General's Department late Friday approved the application and specifications of the \$300,000 capitalized concern as being in duly legal form.

QUESTION BOX

ON HEALTH Subjects Edited by
STATE DEPARTMENT of
HEALTH
J. C. Anderson, M.D. State H.O.

THIS column will be given to discussion of matters pertaining to public health. Any questions regarding public health administration, prevention of diseases, child care, sanitation, etc., will be answered in succeeding issues of this paper. Questions in regard to cure of diseases will not be answered, as the scope of this Department includes only disease prevention. Address Question Box, State Department of Health, Austin.

QUESTIONS

1. What is meant by sanitation?
2. How many deaths occurring annually are preventable?
3. What are adenoids?
4. How do diseased adenoids affect a child's health?
5. What are Vitamins?
6. What is an infectious disease?
7. Why should my baby's birth be registered?
8. How do parents know whether their child is registered?
9. Is the tuberculosis death rate decreasing?
10. What are the habits of flies and how do they transmit diseases?

ANSWERS

1. Sanitation means methods used to promote public health. Applied sanitation is a battle waged against filth diseases.

2. About one-third of all the deaths occurring annually in the United States are preventable. The average length of human life has increased from approximately 40 years to 58 years during the last 12 or 15 years, and this has been due largely to the decrease in infant mortality. If preventable diseases were really prevented by the application of scientific knowledge, the average life span could be increased from 58 to 70 years.

3. Adenoids are little tumors (small swellings) which grow in the throat just back of the opening of the nose into the mouth and in front of the two small tubes which lead from the throat to the ears. These little tumors are reddish grey in color, soft and slimy in composition, and vary in size from that of a small pea to a mass that may completely fill the upper part of the throat.

4. A child with adenoids becomes a mouth breather. Thus the air reaches the lungs in a cold and unpurified condition, resulting in frequent attacks of cold, bronchitis, or possibly pneumonia. The child also does not get into his body a sufficient amount of air, which retards growth. Adenoids also cause ear troubles and often deafness, disturb digestion, produce a peculiar facial expression, and cause mental dullness.

5. Certain substances in food which aid growth, improve the appetite, help the body to absorb food, and prevent certain diseases, are called Vitamins.

6. Infectious diseases are the ones generally termed "catching," and are caused by germs that are spread from person to person or from animals.

7. A baby's birth should be registered to prove its right in later life to enter school, to marry, to enter military service or get exemption therefrom, to inherit property, to vote, to obtain a passport, to hold certain public offices, and for various other reasons.

8. By receipt of the notification of birth registration from the state health department. If you have not been notified that your baby's birth certificate has been received by this department, it has not reached us. Your physician should make this report—see him in regard to reason for delay.

9. Yes. In 1911, the pulmonary tuberculosis death rate for white persons was practically three times as high as at present. The death rate has also decreased among the negro population, but to a smaller extent.

10. Flies are hatched in filth, and prefer to live in and eat it. Flies may come to us from the manure of barnyards, the decaying flesh of dead animals, the sputum of the consumptive, the body wastes of the typhoid patient, or other places equally as repulsive. They walk in this filth and carry tiny bits of it on their hairy feet and legs, which they deposit as specks on our food. Swat the fly, screen him out, and destroy his breeding place.

Personal Mention

Mr. and Mrs. T. C. Miller returned Tuesday night from a visit in Fort Worth.

Chas. Holmes returned Wednesday from a vacation trip in California, and also a visit with his daughter, Mrs. Allen Moon in Missouri.

Mr. and Mrs. R. H. Turk Jr. are expected to arrive home today from a three weeks visit with relatives and friends in Alabama.

C. T. Watson leaves this morning (Friday) for Evanston, Ill., to attend the National School for Commercial Secretaries, conducted by the Northwestern University. He will spend two weeks at this school.

Mrs. J. M. Morgan and two sons, Eddie and Frank, and Mrs. P. K. Williams and daughters of Kansas City, Mo., returned Tuesday night from a two weeks visit with relatives in Phoenix, Ariz.

A. P. Prendergast, mechanical superintendent of the Texas and Pacific railway, and F. W. Board, general master mechanic of the T. & P., were here this week on a trip of inspection.

Somehow we have a feeling that the railroad from Corpus Christi to the Plains is going to be built—and that before a great while. If Big Spring folks want this line to come by way of Big Spring we are going to be compelled to do some tall hustling. Securing this line would insure our making a real city.

We should have some form of entertainment for visitors since we are shy of parks. A swimming pool, municipal golf links, etc., are in line and others could be provided. Making it pleasant for visitors will result in more visitors coming to our city for extended stays.

Trouble between whites and blacks at Childress, Texas, has resulted in a call for Rangers to be stationed at that point until the trouble has been cleared up. A court of inquiry was instituted to ascertain the cause of the trouble.

From all signs and indications times are going to be good in Howard County this fall. Now is the time to begin an advertising campaign if you want more business. In these days and times it pays to let folks know you have the goods, can make real prices and that you want the business. Tell it to them thru the columns of the Herald.

Rent houses are proving a profitable investment in Big Spring just now, and will for years to come, and quite a number of our people are adding to their incomes by having rent houses erected. Rents are rather high at this time but this matter will be adjusted when the building program catches up with the needs of our population.

Harvesting season is going to bring a great number of crooks and city slickers to our section. They are looking for easy money and are found where money is plentiful.

Most every day you encounter a citizen from some other point who is eager to locate in Big Spring. Many of these desire to engage in some sort of business while the majority come in search of employment. The opening of our schools will bring in another large number of families.

Big Spring will be in a position to go after conventions just as soon as the new Crawford hotel is opened. Heretofore our citizens did not feel justified in going after conventions of large proportions due to lack of hotel facilities. We are now able to tackle large district conventions at least.

With two gas companies seeking a franchise to furnish natural gas for domestic and commercial uses in Big Spring it would appear that our chance to secure natural gas is especially good. It will be a big advantage for our city to be able to have natural gas.

Street lights along First Street are needed and should be installed. As we understand it provision for these lights was made when the first paving bond issue was voted and we cannot see why the long delay in installing the lights should be necessary.

Folks now contend that the long weather forecasters intended to say that winter of 1927, was going to be the coldest summer experienced in one hundred years.

SINK OR SWIM

The water seems to be getting too deep and the days of easy sailing are no more. If you go on with your load, then it's best to turn back. The distance is too great to expect someone to help you with your burdens.

Such seems to be the predicament of a great many of our merchants that have failed to meet the changing ideas and methods of grocery merchandising. Unable to compete on prices their only resort is to sell on sympathy and sentiment basis.

The money that you have is all yours. Nobody can take it from you. You want the most for it. When its all gone you will have sympathy for you—you will only be another fool.

What you save today is what you will be tomorrow. Don't buy sympathy—everyone gives that.

New Wells Howard County

Going Forward in Howard County at a Steady Gait in Price of Crude

The big oil companies are waiting for the increase in price of crude, to start operations on a big scale in Howard County.

Oil sands found at three different places, the oil fraternity has Howard County as one of the game. They believe the wells are to be the rule in Howard County.

Several major pools are being tapped in our county and the old timers in the game. Commercial wells at intervals of a thirty mile stretch of land has definitely proven that a big oil field in our county will require years to drill out.

It is believed that the oil wells are to be found in Howard County and the rank wildcat wells are allowed to test out the unproductive.

The oil industry returns to Howard County and you are going to witness a development program in this county and the oil business is to be the major activities here for years to come.

Starting of new tests will be made while present prices of oil maintains unless one of the operations should accidentally happen.

B. & J. Fisher No. 1

Completed in their test well on the land and Joe Fisher ranch, 6 miles north of Big Spring. A twenty inch drill was used in starting. They expect to be preparing for a deep test should they encounter a shallow oil well.

W. S. Martin Test Well

Was returned on the Donald test well on the W. S. Martin ranch, 12 miles northwest of Big Spring. A Star rig has been installed in place of the rotary. The drill is now pounding the 2100 foot mark.

Drill Eastern Part County

Drill a test well on the northern part of section 12, block 30 eastern portion of Howard County starting by October 1.

Work in Istan Section

Drill a well in the Istan section seeking the big pool. It is believed exists in that section. They are now working on the Istan section.

Co. Has Good Producer

California Company has topped off sand with their Foster section 6, block 29, township 10N, range 10E. Recent test of this well will average 100 to 300 barrels of oil per day.

California Company will drill

test, starting in about 60 days.

Other wells to the east and

are expected to be small producers. The California will be the next test northwest of 3.

Oil Co. to Start Test Soon

California Oil Co. is going forward with operations to drill a test well on the C. D. Head ranch in the northern portion of Howard County.

Work has been completed and

will be started as soon as the well is moved to location and the well is completed. A water line will be laid in Istan lake, distant one quarter mile.

Location has been located on the

quarter of section 39, township 10N, range 10E.

Location is about 2 1-2 miles

west of the California Company well in the Clay field. The well is owned by the Fred Hyer and the all men think the oil will be due to take in that section.

L. E. CASTLE OF KNOTT BRINGS IN BALE OF COTTON

L. E. Castle of the Knott community brought in the second bale of cotton in Howard County this week. The bale weighed 486 pounds and brought 21 cents per pound. This was good middling cotton with 15-16 inch staple. This bale was bought by Will P. Edwards Company.

The merchants of Big Spring are making up a premium for this early cotton. Mr. Castle has a fine cotton crop, and he will make a very substantial yield this year.

This was the first bale of cotton brought to Big Spring this season. W. W. Lay of Coahoma marketed the first bale for the county there last Friday.

BRICK WORK NEAR COMPLETION ON CRAWFORD HOTEL

The brick work is just about completed on the new Crawford hotel and this structure certainly looks good. Visitors from far and near compliment our city for securing such a wonderful building.

The interior work on the building is being rushed and it is practically certain that Mr. Crawford can open this hotel to the public by Oct. 1.

EVERHART GETS FRIGIDAIRE CONTRACT FOR CRAWFORD

S. L. Everhart, manager and distributor of the Frigidaires in Big Spring this week closed a contract with A. J. Crawford, owner of the Crawford Hotel, to install Frigidaire equipment in this new hotel. Special equipment for this building has been ordered and there will be ice water in every room in the hotel. The water iced by frigidaire will be 45 degrees when it comes from the tap, this being 5 degrees colder than that made with ice, according to a statement made by Mr. Everhart. This icing equipment has been ordered and it will be installed and in operation at the opening of the Crawford, the latter part of September.

Mr. Everhart is to be congratulated on securing this large and important contract, and we know that Mr. Crawford will find his equipment and work satisfactory in every way.

CEMETERY ASSOCIATION STILL NEEDS YOUR HELP!

What are waiting on to contribute to the Cemetery Association? Now is the time, and your money is needed. Funds are very low and unless the salary of the sexton is paid the good work at the cemetery will have to be stopped. Let's keep the good work going by donating liberally.

Those contributing this week are as follows: Dr. G. S. True, \$5; Cash, \$12; I. D. Eddins, \$6; B. J. Campbell, \$12; S. H. Morrison, \$12; W. R. Purser, \$12; Mrs. Blanche Richardson, 50c month; Frank Pool, 50 cents month; Travis Reed, 50 cents month; W. B. Burns, \$12.

Harland Spuds in Haynes Well

The Harland Oil Co. spudded their test well on the A. G. Haynes ranch, four miles north of Big Spring this week. This test is located on section 20, block 32, township 10N.

Drilling Report on Other Tests

Greene Production Co. drilling on section 6, block 34, 2 south, 2470 ft. World well, section 43, 33, 3 S. Glasscock County, drilling in gray lime, 2985 feet.

Smith et al. section 6, block 32, 2S, shot, cleaning out.

Edith K. Fisher, section 1, block 33, 2S, shut down, changing from standard to rotary.

California Co., Currie, section 215, block 29, W. & N. W., drilling at 1140 feet.

Donnelly, Martin well, section 41, block 33, 3 North, moving in Star rig.

Smith Well Showing Oil

The Smith et al well on section 6, block 32, 2S about 14 miles southeast of Big Spring is showing oil and it is expected to be brought in a good producer. The well was given a light shot Tuesday night and will have to be cleaned before its status can be determined.

Vitek Co. Drilling in Hard Formation

The Vitek Oil Company drilling on section 126 in the Clay oil field is now below 1250 feet in a very hard formation.

They are in practically proven territory and are expected to bring in a good producer.

Agricultural Exhibit for Different Fairs

At Directors Meeting This Week Many Important Propositions Come Up For Their Consideration

At a called meeting of the directors of the Chamber of Commerce this week, a number of important propositions were brought up.

One of the most important propositions was the construction of a viaduct across the railroad tracks on Gregg street. President Weaver called upon A. E. Pistole, superintendent of the Rio Grande division of the Texas & Pacific railway. Mr. Pistole gave briefly the attitude of the Texas & Pacific Ry. with reference to the needs of the viaduct. He stated that the attitude of Mr. Lancaster as in favor of postponing immediate action on this project, due to the fact that the T. & P. Ry. had been forced to expend millions of dollars recently in rehabilitation work following the Mississippi flood loss of the machine shops at Big in Louisiana, and also because of the Spring by fire.

After this explanation by Mr. Pistole and a few general comments from the directors, a motion was made that the directors favor a deferring of action with reference to an early building of the viaduct. This action being in compliance with the wishes of the officials of the T. & P. Railway. In connection with this action directors and officials of the railroad expressed the hope of a continuation of such a congenial understanding between the railroad and the citizens of Big Spring.

R. L. Price gave an interesting report on the highway and railway meetings at Tahoka, Aug. 11 and stated they were the best attended and most enthusiastic sessions ever held in West Texas. He prophesied that much good will result from these gatherings.

President Weaver called for an individual expression from the directors as to their attitude on the hard surfacing of Highway No. 9. Every director expressed himself as being in favor of the proposition.

On motion of J. B. Pickle it was voted that the directors go on record as favoring the hard surfacing of Highway No. 9 across the county with the ultimate goal of having this important highway hard surfaced the entire length across the state.

President Weaver called for a discussion of the leaf worm situation. Among the propositions coming out of the discussion was that of ordering poison to combat the leaf worm. A motion prevailed that the directors favor the druggists handling the poison, but if for any reason the druggists do not place an order for this poison at an early date, then the directors of the Chamber of Commerce will place an order and distribute the poison along the lines this proposition was handled in 1926.

The action of the Water Engineers of Texas in allotting for commercial purposes all water falling in the Brownwood watershed as being unfair was discussed by Mr. Reagan and it was moved that this body go on record as backing the Brownwood C. of C. in fighting the action of the water engineers.

Attention was called to the fact that the West Texas Druggists Association was holding a convention in Sweetwater August 16 and 17 and it was moved that Big Spring endeavor to have them hold their 1928 convention in our city. Judge James T. Brooks was designated to extend the official invitation.

The question of whether or not Howard County should have an agricultural exhibit at any district or state fair came up and a motion prevailed that a county fair be held in Big Spring in September and that an agricultural exhibit be sent to the fairs at Abilene and Dallas.

SYDNEY HOUSE ABLE TO BE MOVED HOME THIS WEEK

Sydney House, son of Sheriff and Mrs. Frank House, and who received injuries in an automobile accident near Sweetwater last Monday morning was able to be moved to his home in this city Tuesday afternoon. Sydney is suffering from several fractured ribs and cuts and bruises about the head. He has been under treatment in a Sweetwater sanitarium since the accident. He is reported to have stood the trip home fairly well and is resting nicely.

Traffic Officers Discussed by Club

Members Believe Citizens Will Sign Petition Asking Commissioners to Call Cops Off Tourists

Edwin A. Kelley, vice president, was in charge of the meeting of the Luncheon Club this week because President Pickle had sneaked off to enjoy a fishing trip. Mr. Kelley said the bravest man in the county—a man who publicly professed to being a Republican—was to be in charge of the program and G. W. Wilke was named.

Mr. Wilke said he had prepared a wonderful program but that one of his main speakers had flunked at the last minute, and the other arrived just in time to prevent Mr. Wilke continuing with his excuses.

M. H. Morrison arrived just in time to save Mr. Wilke and his talk was on the importance of hard surfacing the Glacier to Gulf Motorway, otherwise known as State Highway No. 9.

Mr. Morrison gave a history of this highway and how eagerly we fought to secure it from 1913 to 1917. He also told of the great rejoicing on the part of our citizenship when this road was first designated as a State Highway and then as a National Highway. He pointed out that every citizen was proud of the fact that two national highways passed through our county. He said in order to secure the designation it was the understanding that Howard County citizens would back up those who had secured the designations by building first class highways. Mr. Morrison said it was only just and right that such highways should be built or we should go to the State and National Highways and advise them to divert Highway No. 9 over another route as we did not intend to improve this highway. He said if we had surfaced this road across Howard County in line with the plan to have the road hard surfaced from Amarillo to Corpus Christi this road would have twice as much traffic as does the Bankhead highway. He said it was one of the most important highways in Texas and it would be a good investment for our county to hard surface our portion. An educational campaign to bring this about should be started immediately, he stated.

A motion prevailed that the members of the club approve every word spoken by Judge Morrison and that the membership do everything possible to help the movement to have Highway No. 9 hard surfaced across the state.

J. F. Wolcott, B. Reagan and others made brief talks boosting the improvement of this highway.

The proposition of hurrying the improvement to the telephone system was discussed by Mr. Cayton, local representative of Southwestern Bell Telephone Co. He stated that there were in the neighborhood of one hundred people who desired telephones installed in Big Spring but who were waiting until the new system was completed before they made application for service. He stated that it would be of material assistance to the telephone company to have the application of every one desiring service, as this would enable the company to correctly estimate the needs of Big Spring for additional equipment, and the urgency for same.

Mr. Cayton was thanked for this tip to help rush the work on the new telephone plant for Big Spring and everyone who contemplated asking for telephone service in the future should do so at once in order to hurry completion of the local plant.

The traffic cop question came up for a lengthy discussion in which many took part and much criticism was launched against the practice of arresting oil men and tourists for overstepping the speed limit. The fact that Big Spring was getting a hard name all up and down the line for soaking tourists was mentioned.

It was also charged that some of the speed cops were in the habit of hiding in order to catch the speeders. It was also stated that the members of the Commissioners Court seemed to be of the opinion that only a few men were objecting to the speed cops and it might be necessary to secure petitions with thousands of names thereof asking that the cops be used for the main purpose of breaking up bootlegging joints and arresting drunken drivers. It was pointed out that since the traffic

THE HERALD RECEIVES SOME FINE CANTALOUPE

The Herald force is under obligation to R. T. Kelley who resides on a farm two miles northwest of Big Spring. Mr. Kelley brought in some fine cantaloupes the first of this week and presented the office force with some. The cantaloupes were a cross between a Rocky Ford and the old Texas Cannon Ball variety and they were unusually fine flavored. Some of the melons were hard and firm and had a rugged surface like the Rockyford variety, while some of the others were smooth skinned like the Cannonball.

Mr. Kelley has been growing this variety of cantaloupes since 1921, and he stated that he had never made a failure. However, the late and extreme heat has hurt his cantaloupe crop to some extent this summer, but all in all he has a pretty fair crop and is selling these fine cantaloupes on the streets every day.

Mr. Kelley is another Howard County farmer who believes in diversification and to make a success of it you must practice what you preach and get away from the one-crop idea, he says.

G. W. DONALDSON OF GLASSCOCK CO. HAS FINE APPLES

Some of the largest and juiciest apples that we have seen grown in this section of the state were brought to the Herald office this week by G. W. Donaldson who lives on a farm six miles east of Garden City, in Glasscock County. The apples were well developed and made a wonderful showing to have been produced during a dry season in West Texas.

ROXANA CREWS STILL BUSY IN HOWARD COUNTY

The Roxana Petroleum Corporation crews which are now busy getting the low down on our county by means of their new fangled torsion balance machines, expect to complete their work in about twenty days. They have gone over the county east to west and north to south.

HOWARD COUNTY'S FIRST BALE OF COTTON SOLD

Howard County's first bale of cotton was grown on the farm of W. W. Lay prominent merchant and farmer of Coahoma. J. C. Adams, cotton merchant of Coahoma, bought the bale for 21 cents per pound. The bale weighed 457 pounds and was good grade cotton. The bale was brought in last Friday.

A very substantial premium was made up by Coahoma merchants.

BIG BASEBALL GAMES SATURDAY AND SUNDAY

Baseball fans are promised a rare treat Saturday and Sunday afternoon when the Fort Worth T. & P. team will be here to take on the local T. & P. team.

There has always been keen rivalry between the Fort Worth and Big Spring teams and both teams are keyed up to take both contests. The word has gone out that Fort Worth is coming loaded for bear and will not be satisfied with anything but a clean sweep of this series.

The games on both Saturday and Sunday will be started at 3:30 p. m. so be on hand promptly on the dot.

These games will be held at the ball park in Big Spring. Tell all the folks about the contest, and come and bring your friends.

There will not be a great many more games this season, so be sure you don't miss these two games.

The cops are the only officers authorized to make arrests for traffic laws on our highways it was necessary that they not be dispensed with entirely.

All seemed to believe some plan could be worked out whereby the speeders in the city should be curbed as there was more danger of accidents. Many contend that it should not be such a serious offense if a fellow speeded up a little when the roadway was clear; and especially as nine men out of ten make a practice of exceeding the limit when they think it safe on a good stretch of road. The proposition of appointing a committee to meet with the commissioners court or to have petitions prepared was left up to the chairman.

J. F. Wolcott announced the big Fat and Lean baseball game for 5:00 o'clock Wednesday afternoon and urged everybody to shut up shop and attend.

Strong Faculty For Our Schools

Thirty-eight Teachers Secured to Teach in Five Public Schools Here Plans Incomplete for Opening

A strong corps of teachers has been secured to teach in the five public schools of Big Spring the coming term. All vacancies have been filled and only a few changes have been made in the faculty.

The opening date of school cannot be announced in this issue since the South ward school is not complete and a few other school matters that are not finished up makes the opening date uncertain but school will open on September 12 or September 19. The exact date to be announced later.

Following is a list of the teachers for 1927-1928:

High School—T. F. Huggins, principal, Big Spring; Miss Clara Pool, Big Spring; Miss Clara Cox, Cellina; W. R. Scott Jr., Dallas; Vesta Mos-teller, 4401 West Lee St., Greenville; D. L. Barnes, Big Spring; George Gentry, Dallas; Miss Ora Brown, Lubbock; Chas. J. O'Malley, Amarillo; George A. Harris, Houston; Frank H. Etter, Abilene; Miss Canna Cowan, San Marcos.

Junior High School—A. J. Sparks, principal, Big Spring; Mrs. D. L. Barnes, Big Spring; Mrs. J. L. Thomas, Big Spring; Mrs. Fred Keating, Big Spring; Miss Lorena Huggins, Honey Grove; Miss Myrtle Cody, Aubrey; Miss Letha Amerson, Winfield; Miss Mattie Ramsey, Brownwood; Miss Carolyn Earley, Big Spring.

South Ward School—Miss Lellie Rogers, principal, Stanton; Miss Winnie Faye Floeman, Big Spring; Miss Grace Mann, Colorado; Miss Grace Ewing, Abilene, care Abilene Christian College; Miss Hilma Crawford, Big Spring.

North Ward School—Mrs. J. J. Thoop, principal, Big Spring; Miss Lois Carden, Killeen; Miss Ruth Miller, Big Spring.

Central Ward School—C. T. Hollabaugh, principal, Fort Worth, 1321 College Ave.; Mrs. Fred Hopkins, Big Spring; Mrs. D. K. Agnell, Big Spring; Miss Eleanor Antley, Forest, Miss; Miss Nellie Hutton, Miles; Mrs. A. J. Sparks, Big Spring; Miss Clara Seerest, Hamilton; Miss Bernice Sudderth, Leonard.

Superintendent P. B. Bittle believes that he has as strong if not the strongest faculty that the Big Spring schools have ever had and prospects indicate a most prosperous school year. It is evident from the transfers and enrollment that many new pupils will attend the city school this fall.

Students in the public schools of our city are indeed fortunate in having the services of local artists in music, voice, art, violin and expression. This work is not given in connection with school work but studios are near the schools where all pupils have the advantage of studying one of the fine arts while in school. Mrs. Ed Hatch, expression teacher, has a studio in Central and Junior High schools; Mrs. W. P. Edwards is teacher of piano and expression and her studio is near the High school and Junior high school; Mrs. W. C. Smith is another talented teacher of expression. Prof. W. R. Dawes, Mrs. Barry Hurt and others conduct classes in music and voice. Mrs. E. H. Hoppel conducts classes in art, teaching both water colors, oil and china painting. Miss Evelyn Jackson of Lamson will arrive in Big Spring September 1, and plans to open classes in violin. A rather high percent of the students enrolled in the city schools take advantage of the local talent and prepare for further study in the higher institutions of learning.

An announcement of the exact date of the opening of school will be given next week or at a later date when definitely determined.

\$6,000.00 IMPROVEMENTS AT PLANTERS GIN PLANT

Jim Black manager of the Planters Gin Co. in this city has been as busy as a bee the past week installing a new bollie machine to extract hulls and clean cotton.

This is one of the latest improved machines for ginning bollie cotton and will place this gin in position to easily handle all the bollie cotton that is brought to them. This new machine cost over \$6,000.

Improved Uniform International Sunday School Lesson

Lesson for August 21

GOD'S PROMISE TO DAVID

LESSON TEXT—1 Chron., chapter 17.
GOLDEN TEXT—Thy throne, O God,
is forever and ever a sceptre of right-
eousness as the sceptre of thy king-
dom.

PRIMARY TOPIC—God's Promise to David.
JUNIOR TOPIC—How God Rewarded David.
INTERMEDIATE AND SENIOR TOPIC—How God Gives Us the Better Things.
YOUNG PEOPLE AND ADULT TOPIC—God's Great Promises.

I. David Desires to Build a House for God (vv. 1, 2).

Having subdued all his enemies, David sat down in his new and beautiful house to meditate. While thus musing he is led to see the incongruity of dwelling in a house of cedar while the Lord's place was so common. A truly devout soul cannot be content to dwell in personal ease and luxury while the Lord's work is neglected. David's proposition met with Nathan's approval, but the next day he came with definite instructions from the Lord regarding it.

II. David's Desire Denied (vv. 3-8).
While fully appreciating David's motive, the Lord disapproved his plan. The rejection of his plan was not because of his nonappreciation of David for He had taken him from the lowest walks of life and elevated him to the highest place among men. He assured him also that the cause would not suffer because of this change of plan. Two reasons may be assigned for God's prohibition of David's plan.

1. David was a man of war (1 Chron. 22:3; 28:3).

Since the kingdom of God is to be a peaceful kingdom, it was not fitting that a man of war should build the capital city. This was not a reproach of David for being a man of war. The enemies of the Lord must of necessity be put down. No peace or rest could be to God's people till the enemies were subdued. It showed, rather, that David had done his work and that the time had now come for another to take it up.

2. The time and circumstances were not fully ripe.

God's house should be a great house, therefore it would require a man's best energies to build it. The nation's treasury was no doubt much depleted by the wars. Since much money would be required, ample time was necessary to enable the people to accumulate funds.

III. The Lord Pledged Himself to Do More Than David Proposed (vv. 9-15).

1. David was to have a great name (v. 8).

David's name has gone down in his story as one of the great men of the earth. It was a long way from herding his father's sheep to the throne of this great nation.

2. Israel to be established in a central place (v. 9).

The nation was not again to be moved away, nor to be wasted by the children of wickedness.

3. He was to enjoy God's continued favor and help (v. 10).

All his enemies were to be subdued.

4. Perpetuation of the kingdom in David's line (vv. 11-14).

(1) "Build thee a house."

This means a granting unto him of a posterity, a family line. David proposed to build a temple as a place in which to worship God. God purposed to establish the kingdom in David's line. This was to be perpetuated in David's seed after him.

(2) "Establish his throne" (v. 12).

This means the placing of him in a position of royal authority.

(3) The kingdom was to be perpetual (vv. 13, 14).

He was to be settled in his kingdom forever. Disobedience to God would be visited with chastisement (11 Sam. 7:15) but the covenants were not to be abrogated. Chastisement has followed, but David's seed is destined to occupy the throne (Luke 1:31-33; Acts 13:14-17).

IV. David's Worship (vv. 16-27).

In his actual worship, note:

1. His humility (vv. 16-18).

Those who really worship God approach Him with great humility.

2. His praise (vv. 19, 20).

Out of a heart of gratitude he praised God for His faithfulness and grace.

3. His gratitude (vv. 21, 22).

He had an appreciation of God's fidelity and expressed his gratitude to Him for it.

4. His petition (vv. 23-27).

All praise and expressions of gratitude but lead up to the offering of definite petitions to God.

Peace of the Heart

Thou art the true peace of the heart; Thou art its only rest; out of Thee all things are full of trouble and unrest. In this peace that is in Thee, the one chiefest eternal good, I will lay down and sleep.—Thomas a Kempis.

Unselfishness

Unselfishness is a crown that scintillates glory long after the wearer has gone to his eternal reward.—Rev. J. H. W. B. D.

MIDLAND WILL HAVE BIG RODEO SEPTEMBER FIRST

Cowboys from all sections of West Texas expect to gather at Midland Sept. 5, 6, and 7 for the mammoth rodeo and cowboy's reunion, and some of the best riders, ropers and bulldozers of the country are scheduled to be in these events. This affair is planned in honor of the cattlemen, oil men, farmers, townspeople and their families.

Midland, once famous for her rodeos plans to make the rodeo next month one of the greatest ever held in West Texas.

VISITORS FROM OHIO

Mr. and Mrs. H. R. Pfefferle of Kenton, Ohio, enroute to their home from an extended visit to points of interest in California, were visitors in Big Spring Tuesday. Years ago when land was cheap in this county Mr. Pfefferle bought a portion about six miles southeast of Big Spring, and he still owns this property which may prove valuable for oil.

Mr. and Mrs. W. H. Cardwell, W. H. Cardwell Jr., and Misses Loula and Grace Cardwell returned Monday afternoon from a visit to Temple, and also a fishing and hunting trip. While in Temple Miss Loula underwent examination in the Scott and White clinic and it was found that her throat disorder was caused from diseased tonsils. She underwent an operation for the removal of her tonsils and now it is believed that her voice will clear up, and she will be able to sing again. Mrs. W. H. Cardwell Jr. remained in Llano for a visit with her parents. W. H. reports crops in that section in only fair condition, stating that it is hot and dry, and lots of boll worms and insects at work in the fields. They had a delightful outing and good luck hunting squirrels, but no fishing luck on the river.

QUICK SERVICE LAUNDRY

WILL BUILD FENCE ON COWAN RANCH NEAR PECOS

Sid Davis and H. C. Boatler have been given the contract to erect a fence on the Cowan ranch in the edge of the Fort Davis mountains, near Pecos, Texas. The fence will be the enclosure around 40 miles of pasture and 250,000 pounds of fencing material have been shipped to this ranch to be used on the project. They plan to complete the work within sixty to ninety days.

These contractors were the lowest bidders on this job hence were awarded the contract. They left this week for the Cowan ranch to begin work on the fence.

MANLY MAIDENS

The two ultra-modern girls from town. Eton cropped, wearing riding breeches and smoking cigarettes, had for five minutes been toying contemptuously with the simple cosmetics displayed on the country market stall.

"Face powder? Lipstick?" hopefully suggested the stallholder. The girls shook their heads.

"Well, what about a little preparation for making the mustache grow?" he inquired.—TIT-BITS.

W. B. Sullivan manager of C. & P. drug store No. 2 spent Tuesday and Wednesday in Sweetwater where he attended the district meeting of retail druggists in session there.

Manly Cook after a visit in this city with relatives and friends returned to his home in Fort Worth Tuesday.

Mrs. Arthur Johnson and son, Julius, of El Paso spent the day in this city Tuesday with Mr. and Mrs. Ira Driver. They left Tuesday evening for Midland where they will visit relatives and friends.

John Dillard and family left Wednesday for an auto trip to Brownwood, Dublin and other points in that section.

MRS. W. S. WINGO DEAD

Mrs. Flora Wingo, 47 years, wife of W. S. Wingo, passed away at the family home, three miles northwest of Big Spring at 12:10 o'clock, Monday morning, Aug. 15, after a prolonged illness, suffering from pelagra. Funeral services were conducted at the family home at five o'clock Monday afternoon by Rev. W. C. Hinds, pastor of the First Methodist Church, and the remains were laid to rest in Mt. Olive cemetery.

Mrs. Wingo was well beloved by all who knew her. She was a good christian woman, of kindly nature and sweet disposition and her death is sincerely mourned. Although her suffering was long and intense she did not complain nor bemoan her fate but bore it patiently and with fortitude.

Surviving is her devoted husband, four sons Joe, Stockton, Bertie and Royce; four daughters Tressie, Mamie, Nettie and Louise; her mother Mrs. F. L. Stockton of Abilene; four sisters Mrs. C. Hall of Abilene, Mrs. C. J. Lowrey of Abilene, Mrs. B. B. Aaltman of Pampa; Mrs. John Myers of Abilene; and two brothers Chas. Stockton of Abilene and W. E. Stockton of Snyder. All of the out of town relatives were here to attend the funeral services of their loved one.

Deepest sympathy is extended the bereaved ones in this dark hour.

PSYCHOLOGICAL SPOT

"Why are you scratching yourself, Doris?"

"Cos I'm the only one that knows where I itch."—The Humorist (London).

C. D. Ambrose of San Angelo who was greeting old time friends in Big Spring Monday advises Big Spring folks to get busy on that Gulf and West Texas railroad proposition for this line is certain to be built.

Miss Donna Carter returned Sunday morning from a visit with relatives and friends at Baird.

Chas. E. Hatch left Tuesday morning for a months visit at Bay City and New Braunfels.

Mr. and Mrs. George Carter and children returned Monday afternoon from a vacation trip to Christoval. Mr. Carter took some of the famous mineral baths and reports that he is greatly improved in health.

Mrs. Della K. Agnell returned the first of last week from a five weeks visit with relatives and friends in Waco and Dallas.

John Lamar Smith has gone to Baird where he has accepted the position of clerk in the T. & P. Ry. offices.

Flying across the oceans will soon be as common place as crossing the continent in an auto.

EDSEL TALKS OF NEW FORD

The new Ford will be on the market "within the next few weeks," Edsel Ford said recently in a formal statement.
"When this car is formally introduced within the next few weeks, we shall be able to say that it is the best and most moderate-priced automobile we know how to build," said Ford. "We have tested it for get-away and pickup with many other types of automobiles. The tests already made shows that it is faster, smoother, more rugged and more flexible than we had hoped for in the early stages of designing. We have known from the beginning that this new Ford would be a handsome car. Experiments have been made with a wide variety of color schemes and body designs, and all these have been decided upon."

Ford said that "the new Ford automobile is now an accomplished fact. The engineering problems affecting its design and equipment, and affecting also its manufacture, have all been solved. But before a single car of the new type is offered for sale to the public each part will have been tested under every condition which we have been able to discover in more than 20 years of building automobiles for use all over the world."
The new car, Ford declared, has accomplished a speed of 65 miles per hour over average road conditions, consuming less oil and gasoline than and previous Ford model put to similar tests. In a recent test, Ford added, one of the new cars was driven 110 miles in two hours, traveling 27 miles the first half-hour. He said, "We have found that they can be driven for hours at an average speed of more than 50 miles per hour."

PROTECT YOURSELF FROM THE FLIES—use our screen wire and screen doors. ROCKWELL BROS. & CO. Phone 57.

Mr. and Mrs. Ed Merrill and daughter, Evelyn, left Tuesday morning for a vacation trip through points of interest in New Mexico.

Mrs. Mary L. Haines and daughter, Mrs. L. E. Turner and baby, after a visit in this city with their daughter and sister, Mrs. Kirby Miller, left Sunday morning for their home in Amarillo.

CLARENCE SAUNDERS STORE HAS OPENING SATURDAY

Perhaps the largest crowd that has ever attended the opening of any grocery store in this city visited the Clarence Saunders store at 106 Main street last Saturday, the opening day. The store was swarmed until closing time and the majority of the people took advantage of the bargain prices on groceries and fresh vegetables, making this a busy day for the man who checked. The Texans, a six piece jazz orchestra furnished music for the opening and favors of fresh rosebuds were given to every woman that visited the store on opening day. Ralph Linek of Memphis, Tenn. is proprietor of the Clarence Saunders grocery in our city and he stated that he was well pleased with the outlook in this city and the business done on the opening day was especially pleasing.

This is a self servicing grocery, and the new fixtures and attractive arrangement of the stock made it easy for one to find just what he was looking for. It is said that the Clarence Saunders groceries are the most successful ever attempted and wherever one is opened they enjoy a liberal patronage. They can afford to smash grocery prices because they are in a position to buy cheaper goods than their competitors and can sell groceries at a lower price. Many special bargains were offered on Saturday and a good business was received from the groceries at very low prices.

Because he intends to operate on a very low margin of profit, Mr. Linek will continue to enjoy a big business and the Clarence Saunders store will continue to be a popular place with Big Spring people.

WE HAVE A HOME FOR YOU—Come and get it. ROCKWELL BROS. & CO. Phone 57.

STREET BRAWLS WILL NOT BE TOLERATED

Disturbing the peace and brawling in the streets will not be tolerated in Abilene according to Judge Lee R. York who Saturday morning assessed a fine of \$10 against a pugilistic-inclined Abilene citizen. — Abilene Reporter.

Seems like Abilene is getting awful particular—where do they expect a fellow to work off his steam when he gets hot under the collar. Guess he should put out an SOS for Tex Rickard.

CARD OF THANKS

For the many deeds of kindness and words of sympathy extended us during the illness and death of our dear wife and mother we wish to take this method of expressing our thanks to our sincere friends and neighbors. Your thoughtfulness in time of distress helped to lighten our burden, and we will ever remember and appreciate every word and deed of our friends. We ask that God richly bless you each and everyone.

W. C. Bray and son Viron Bray.

Mr. and Mrs. Wm. H. Russell and baby daughter of Waco after a visit in this city with his sister, Mrs. Della K. Agnell, left Tuesday morning for their home. Mr. Russell is a former resident of Big Spring having attended the Big Spring schools and has a number of old time friends in this city. This is his first visit back to the old home town in twelve years and he was more than delighted with the progress Big Spring has made in this time toward becoming a city. Mr. Russell is connected with the Texas Power and Light Co. in Waco.

SOUPS AND THEIR SERVICE

(Editor's Note: This is the first of a series of special cooking articles by 6 famous cooks, running exclusively in this paper.)

One of the finest aids to good digestion is a good soup. Most Americans neglect this healthful dish. The French, noted for their good cookery, are expert soup-makers, and make innumerable savory, tempting varieties. Eventually, it is said, every meat and vegetable finds its way to the French soup pot.

Soup is really a messenger. It tells the stomach to get ready for the meal to come, and gets the digestive juices to working.

Light Soups with Big Meals
Bouillons or clear soups, piping hot, are best to serve with big meals. Where soup is the main course, heavy cream or meat-vegetable soups should be served.

Mrs. Belle DeGraf, home economics counsellor, San Francisco, highly recommends Coppas Tomato Soup.

Coppas Tomato Soup
1 quart stewed or canned tomatoes
1 carrot cut fine
1 onion cut fine
1 cup celery cut fine
1 green pepper shredded
3 whole cloves
1/2 teaspoon peppercorns
1 teaspoon salt
Dash of white pepper
Put all ingredients into a saucepan and simmer about half an hour; strain and reheat. Pass grated cheese or add 1 tablespoon to each service. This makes a hearty dish.

Washington Chowder
Washington chowder is almost a meal in itself. Add a simple salad and dessert for a well-rounded menu. The recipe is given by Miss Margaret Allen Hall, nutrition specialist, Battle Creek College of Home Economics.

1 medium sized potatoes
1/2 small onion
1 cup stewed tomatoes
1 cup milk
1 1/2 cups water
1 teaspoon salt
1 cup corn
1 cup cream

Slice the onion and cook with the potatoes in the boiling salted water. When tender, add the tomatoes and corn and bring to the boiling point. Heat the cream and milk and add to the vegetables just before serving. (4 tablespoons milk and two tablespoons melted butter may be used in place of one cup of cream.)

Cucumber Soup
An unusual way to prepare cucumbers is given by Mrs. Sarah Tyson Hensler, the Philadelphia cooking authority—cucumber soup.

Grate two large onions and one large green pared cucumber into a pint of water. Cover and simmer 15 minutes.
Add a quart of milk, and two tablespoons of cornstarch moistened in a little cold water. Stir until it boils. Add two tablespoons butter and stand to keep warm. Season with salt and pepper when serving.

Cream of Celery
Mrs. Rogers' celery soup is simple to prepare. Use celery as much as you desire to make a pint (2 cups). Cook for 15 minutes in a

pint of boiling water.
Add a pint and a half of milk, a teaspoon of salt and a dash of pepper. Rub together two tablespoons each of butter and flour. Add. Stir soup constantly until it comes to the boiling point. Strain and serve.

The modern oil stove is a great saver of time and energy. No kindling is required; no bulky fuel storage. And the heat is so easily controlled.

The Best Sauce
Thin white sauce is the basis for cream soups. Use the following proportions:
1 tablespoon flour
1 tablespoon butter
1 cup liquid (milk or stock, or a combination of the two)
Melt butter and stir in flour gradually. Stir constantly until foamy. Add liquid slowly, stirring all the time to prevent lumps. Bring to the boiling point.
Make white sauce in a double boiler to prevent scorching.

Suggested Soups
With the white sauce base many soups can be made. For potato soup, add 1/2 cup mashed potato and a small onion for each cup of white sauce.
Good cream of tomato soup is made by heating separately 1/2 cup of tomato for every cup of white sauce. Add a teaspoon of soda to tomatoes to prevent curdling. Bring white sauce to the boiling point, stir the tomatoes into the white sauce.
Peanut butter soup, especially liked by children, and good for invalids, is made by adding 1 tablespoon peanut butter to each cup of white sauce.

Formal Service
When entertaining formally, the table will be set with service plates. Serve the soup in bouillon cups or soup plates with saucers under them.

Drink from Cups
When clear soups are served in bouillon cups, it is permissible to drink from the cup after tasting 3 or 4 spoonfuls.
Of course the soup is always dipped from the back of the plate. Like little boats put out to sea, I dip my spoon away from me.
Soups are always relished, especially on cool days. Work them into your menu often.
Soup belongs in the diet. Don't neglect it.

An easy way to clean oil stove burners is to boil them in sal soda. Dry thoroughly.

Warm lemons before squeezing. You will get more juice.

(Watch for next week's special cooking articles by 6 famous cooks.)

METHODIST CHURCH NOTICE

For Sunday August 21.
A Dedication service at 11 a. m.
Sermon by the Pastor.—Theme: "Womanhood."
Evening hour of worship at 8:30 p. m.—Theme: "A Dog Fight."
We invite you to attend both services, also Sunday school at 9:45 a. m.
A glad hand awaits you.

Morris and Rueben Williams returned Sunday morning from a visit in San Antonio, Austin, Waco, Dallas and Fort Worth. Israel Dodie of San Antonio accompanied them to this city for a visit. Mr. Dodie is a student at Texas University, and a frat brother of Morris Williams. They both plan to return to the University this fall.

T. & P. WANTS GULF EXTENSION

The Texas & Pacific Railway is the first to get into the race for an extension to San Antonio since the proposition to build a new line from San Angelo to the Gulf has gotten under way. An invitation has been extended by J. L. Lancaster, president of the Texas & Pacific Ry., thru W. R. Lucas, manager of the Abilene and Southern to three Abilene business men to make a tour between Ballinger and San Antonio to gather data on the feasibility of extending the Abilene and Southern to San Antonio.

Other railroads are going to get in the race to capture the line to the big port at Corpus Christi. The extension of the Abilene and Southern will not fill the bill as far as the route from the Gulf to the Plains is concerned and you are going to see at least two of the big systems get busy before long.

SHOE AND HARNESS SHOP

Next door north of the J. & W. Fisher Store. Any work given me will be appreciated.
47-4t. J. F. McCrary.

"Public opinion is the great natural restraining force. We are ruled by public opinion, not by statute law."—Elbert Hubbard.

COTTON SHOULD BRING 25 CENTS

A minimum price of 25 cents a pound, with option of raising it should the next government report warrant the raise, was fixed Tuesday at the cotton conference in Dallas, called by the Farmers Marketing Association of America. There were 200 farmers and business men in attendance.

OUR SENTIMENTS EXACTLY

The weather for the past two weeks has been quite warm—but it will not be long until you will be buying wood at \$5 per "shirt-tail-full" to keep from freezing—give us the good old summer time.—Christoval Observer.

Mr. and Mrs. S. P. Petty and family returned Sunday from a visit with relatives and friends at Cisco and Brownwood.

W. W. Davis returned the first of the week from a business trip to Mason.

Personal Mention

Miss Zou Hardy returned Sunday night from Boulder, Colo., where she has been attending the University this summer.

Mrs. Ralph Kirby after a visit in this city with her parents Mr. and Mrs. Ray Willcox, returned to her home in Dallas Sunday evening.

Mr. and Mrs. J. R. Petty returned home Saturday night from Dallas, where Mr. Petty had been to attend a school of instruction conducted by the Chevrolet company.

Mr. and Mrs. John Scott and four children arrived Wednesday from the Dudley community in Callahan County for a visit with her parents, Mr. and Mrs. Chas. Simmons.

Curtis Driver left Tuesday evening for Midland where he will visit relatives and friends. An uncle of Curtis will undergo a blood transfusion and Curtis is to give him the blood for this operation.

A fellow made us back up the other day. He wanted to wager that we wouldn't have a viaduct over the railway tracks on Gregg street by 1935, but we didn't take his wager because we believe he is going to win the bet.

Mr. and Mrs. O. Dubberly and daughter returned Tuesday from a vacation trip through points in Colorado. They report a delightful trip, but Dub stated that muddy roads dealt them some misery.

Mrs. Gladys Prichard left last Friday night for Fort Worth where she is attending the Seller's Beauty school, taking some post graduate work. She is an operator at the Vogue Beauty Shoppe. The proprietor, Mrs. Kirby Miller, returned last week from Fort Worth where she also took some post graduate courses in beauty culture.

Miss Gertrude Davies arrived Monday evening from Santa Monica, Cal. after a very enjoyable overland trip through the Grand Canyon. Mrs. Emma Lundylox of Pacific Palisades, Cal., accompanied Miss Davies to this city for a two weeks visit and they will be the guests of Miss Davies' parents, Mr. and Mrs. W. S. Davies.

Mrs. E. M. Gamble of Ardmore, Okla., arrived Sunday morning for a weeks visit with her daughter, Mrs. Bailey Gaunce at the Oxsheer lease. Billie Joe Gaunce who has been visiting his grandmother the past month returned home with her, Billie Joe says that he is glad to be back in Big Spring.

Robert R. Penn of Dallas, independent oil operator, who is interested in development in West Texas was a business visitor in Big Spring Wednesday.

**A VISIT TO THE EIGHTH
WONDER OF THE WORLD**

Mr. and Mrs. W. F. Cushing and daughters spent the past week end at Carlsbad, N. M., where they explored the wonders of the Carlsbad Cavern. Upon their return home from this trip Mrs. Cushing wrote the following story about the cavern which is often called the eighth wonder of the world.

"Visiting this wonderful cavern is totally new experience for the average person, because it gives one altogether new sensations. It is like entering another world to which the cavern may be compared unless it be the grand canyon of Arizona and this is possible because the canyon like the cave gives one the strange sense of being on another planet with different dimensions and perspective.

"This sharp contrast to the world as we knew it on the eleventh day of August, 1927, was first felt as we passed from the torrid midday sunshine into the cool gloom of the cavern.

"We had driven thirty miles over an excellent road from the beautiful little city of Carlsbad, N. M. Our destination was a range of blue mountains that rise sharply from the barren plain and end abruptly southward in a series of high cliffs that make them appear 'sawed off' from a distance. We wound around the mountain road rising higher and higher, until we found ourselves on top with a wonderful view of the vast plain below and other mountains in the blue distance.

"A short walk brought us to the rock building used as an office by the custodians of the cave just in front of the entrance. It was near midday and the temperature was fierce, around 120 degrees, I judge. We sat around in the scanty shade with the other tourists. Some two hundred there were and more coming. It was the kind of crowd that one usually finds on excursions, pleasant, good natured folks, ranging in age from five to perhaps sixty years of age. Finally when all the party had assembled the guides marshaled us at the entrance and the descent began.

"The cave is partially lighted by electricity but gasoline lanterns were handed out, one to every ten or twelve persons. Just above the entrance into the main cavern was a sign 'Cave of Bats.' Millions of these creatures issue forth from this cave every evening so that the air is darkened with their flight and it takes an hour or more for them to leave the cave and disperse. This fact led to the discovery of the Carlsbad Cavern twenty six years ago by a Texas cowboy, Jim White, riding the range in that part of the mountains. Jim saw one evening about sunset a great black cloud of bats coming from the hole in the ground. Upon investigation he discovered the world's greatest cavern. He was the first white man to enter it and with a Mexican boy the first to explore it. They entered the caves with ropes, kerosene torches, 'grub sack,' etc., and were gone for three days. They were given up as lost before they emerged, and no one would believe the underworld story that they told.

"Jim is still there as chief guide, and is still exploring. It is his ambition to discover a passage of the cave that leads out into Texas, as the state line is only fifteen miles away.

"Now, to proceed — Our party wound down the trail on long flights of wooden steps or earth paths. The air was pleasant and not very damp but with an earthy 'feel,' and decidedly cool so that a light wrap was comfortable. When well within the huge vaulted passage we began to see fantastic shapes formed by stalagmites below and stalactites above. In many places the two joined together, giving the effect of columns. Some of the queer forms were labeled with signs some comic and a few tragic in meaning. For instance, we saw 'hot cakes' in cold stone, and 'salt pork' with nice lean streaks. Then there was a figure called 'Grief' like a woman in black veiled bowed head, clasping something in her arms. This was a most striking image. The attitude of the dark figure in the gloomy light indicated absolute despair.

"Passing on we came to the 'Arizona Cactus Patch,' forms like giant cacti, then the 'Totem Poles,' hundreds of them some forty feet high or more. 'Mutt and Jeff' could be seen standing in a gallery above and then we came to the 'Elk's head' far up and cleverly lighted to bring out the resemblance of a huge elk. A pure white polar bear looked down from a lofty perch and a jet black baby hippo crouched nearby. In a thousand years the guide said, he would be a full grown hippo. We saw the lion, the turkey, the twin owls, Red Riding Hood without the wolf, the turkey's nest, the turtle, the camel kneeling to drink from the

spring, and we even came upon our friend Andy Gump, wearing his hat with his well known cocky air, his big ears sticking out.

"The roof of the cave, in places three hundred feet high, was so far above that one could imagine stars and other heavenly bodies there. But one did not so often look up so high for the walls are covered with marvelous formations. Some times they were like frozen waterfalls, some times vast curtain draperies, some time huge grape vines hanging in clusters or milky white like ice. In one place there was a great spray colored a delicate pinkish orange, indescribably beautiful. Sometimes the clusters were tiny, like berries on the vine acres of them. Again the walls would be hung with lacy stuff so delicate that it might have been woven by the fairies. There was a place called Fairyland, a chamber full of dainty forms like a fairy playground but the fairies had departed. No fish swam in the clear pools we saw there was no sign of animal life anywhere in the cavern except the high cave where the bats live.

"After walking for two miles or more through wonders now ascending then descending we reached an immense chamber called the 'Dining Room.' Then entrance was hung with huge clusters resembling pure white grapes that reached almost to the floor like those brought from the Promised Land by the Children of Israel. We ate our lunches here, and drank spring water, wondering why Uncle Sam did not furnish hot coffee as there is electricity and anyone would be glad to pay for a hot drink.

"After resting a while we started on the 'Texas Trail' named in honor of the discoverer. This trail leads around the dining room, a main floor of the cave and is about a mile and a half long. If possible this part of the trip was more wonderful than the first. We entered many rooms and chambers full of strange and beautiful formations. There was the 'Fountain of Fairies,' delicate enough for Titian, though really huge in size. Pools clear as crystal, contained stone lily-pads, little basins, and 'toad stools.' We saw 'Niagra Falls' frozen stiff. 'The Elephant Ear' was interesting and in one place a giant stalactite suggested celery, all bleached and fringed. The beautiful 'Temple of the Sun' stood out in one chamber and there were the 'Twin Domes,' 'Rock of Ages,' a column estimated to be fifty million years old as it was completely formed. Several rooms of marvelous beauty had narrow entrances just big enough for one person to enter at a time. These were the Doom Room, the Palace Room, and the Temple Room. We stopped to look over the bottomless pit, a fearsome place that may be a lower cave. Then we started back on the return trail.

"There was a stage like place in the dining room where we stopped to rest and some one suggested we sing. One big fellow with a big tenor voice led and we sang 'America,' 'A Long, Long Trail,' and 'The Eyes of Texas Are Upon You.' What a volume of sound in that strange place and what a pleasant rest to the tired crowd was that touch of human fellowship.

"We wound slowly on again, everyone weary except a few youngsters

but all good sports joking and helping each other along. We stopped to rest and the way seemed long indeed, but finally the electric lights began to pale and a great shaft of daylight appeared, coming it seemed from an immense height and looking strange indeed to our gloom-acustomed eyes.

"Just a few more flights of wooden steps brought us like Dante, led by Virgil 'Back to the Fair World.' We found it was evening and the bats were faintly squeaking in their cave. Tired, but thrilled with the wonder of it, we left Carlsbad Cavern. This effort to tell of it is merely suggestion of its marvels as it must be seen for it is indescribable.—D.M.C."

BROADCASTING STATION FOR SAN ANGELO

Carpenters are busy constructing the studio for the radio broadcasting station KGFI, "The Voice of West Texas," which will broadcast from San Angelo daily. A noonday program will be a feature. It will broadcast six hours a day. Entertainments from all West Texas towns will be broadcast through this station, it is planned. It is owned by M. L. Evans and Henry Ragsdale.—San Angelo Standard.

Mrs. J. A. Corbin and little grandson of San Angelo arrived Monday evening for a visit with her daughter Mrs. Alvin Johnson and family.

C. & P. DRUG STORE RECEIVES POISON FOR WORMS

The C. & P. Drug Store No. 1 this week received a carload shipment of calcium arsenate which will be distributed among the farmers of Howard County to fight worms. Worms are making their appearance in some sections of our county and have already done slight damage to crops. Farmers are buying this poison to fight the worms before they take possession of their cotton fields.

J. Evan Price left Tuesday night on a business trip to Dallas.

EVEN RICE HURT GIRL'S STOMACH

"I had indigestion so bad I was afraid to eat even rice. Adlerika has done me so much good that now I eat anything."—Ardenia Howard.
Adlerika relieves stomach gas and sourness in TEN minutes. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adlerika give your stomach and bowels a REAL cleansing and see how much better you will feel. It will surprise you! J. D. Biles, Druggist, and Cunningham and Phillips.

NEW OAKLAND AND PONTIAC
AUTOMOBILES ARRIVE HERE

The new Oakland and Pontiac automobiles have been attracting considerable favorable notice at the Gray and Wentz Motor Co. stand 115-117 West First street. A carload of the new models was unloaded Tuesday and many have called to examine these beautiful cars.

One Oakland landeau, two Pontiac landeaus and one Pontiac coupe were included in the initial shipment. Messrs Gray and Wentz have been given the Oakland and Pontiac dealership in a number of counties in this territory and they will establish live dealers in adjoining towns in the near future.

They have many live prospects, and they are going to be compelled to hustle to keep cars rolling in fast enough to meet the demand. These cars, the products of General Motors have made many friends in every section of the United States in which they have been introduced.

B. Y. P. U. at 7:15. Come and enjoy the program. Preaching service at 8:15.

C. D. Edlewine, general district manager of the Marion machine foundry and supply company, spent Tuesday and Wednesday in Big Spring on business. He also made a business trip to Odessa and McCamey before returning to his home in Dallas.

Jones Lamar and Jack Smith returned Friday from Fort Worth, where they had been to attend the big Dokey celebration.

CITY DUMPING GROUND
NEEDS ATTENTION

People living near the city dumping ground are protesting against the filth that is being piled up, and being made a nuisance. What's the use of attempting to have a sanitary city this disease-breeding agency flourishing at our back door, they argue.

Some method of destroying this filth and rubbish should be attempted. An incinerator ought to be installed.

If the city officials would take the time and trouble to inspect this disease breeding dump they would be reasonable enough to decide that immediate action should be taken. They should at least insist that the carcass of dead animals hauled to this dumping ground should be burned. It is suggested that the City Commissioners take a few minutes off some day and see if they are giving a square deal to those who live near this fly and disease breeding site.

Who says that it doesn't pay to advertise? From one little want ad in the Herald last week there were fifteen calls for the bedroom advertised for rent. They pay for themselves.

Miss Elizabeth Rhulen after a visit in this city with Dr. and Mrs. E. H. Happel and family returned to her home in Pecos Sunday. Miss Katherine Happel accompanied her home for a visit.

THE STATE OF TEXAS
 County of Howard,
 To all persons interested in the welfare and estate of Pauline A. Melton, Minor:

Notice is hereby given, by publication hereof in one issue of a newspaper published in Howard County, Texas, that on the 24th day of August, A. D. 1927, there will be presented to and heard by the County Judge of Howard County, Texas, an application by the undersigned to make an oil and gas lease to W. H. Owens and Montie Sampson for a period of five (5) years upon the undivided one-eighth interest owned by said minor in and to all of Sections numbered two (2), eleven (11), twelve (12), thirteen (13) and fourteen (14) in Block 45 1-2, Public School Lands of Hudspeth County, Texas, as more fully appears from said application filed in the County Court of Howard County, Texas, on the 16th day of August, A. D. 1927.

LINCOLN FORD FORDSON

NEW MANAGER FOR THE BIG SPRING ABSTRACT COMPANY

Miss Winnie Pittman of Midland this week leased of Clyde E. Thomas the books of the Big Spring Abstract Company and she is to be the new manager in our city. Miss Pittman came to Big Spring from Midland, where she was manager of the West Texas Abstract Company.

CITY LOTS IN RESTRICTED DISTRICT TO BE AUCTIONED OFF

Col. Rufus J. Lockland, nationally known real estate auctioneer is in Odessa this week to complete arrangements for the auction of city lots in Odessa Gables, a restricted district in Odessa on the Bankhead highway. Odessa is a coming oil town and property values are increasing rapidly.

A big free-barbecue and platform dance are being held in connection with the real estate auction and Saturday is the feature day. Ten bees are being barbecued and expert chefs have been secured to cook the meat. Barbecue will be served free of charge together with its trimmings on both Friday and Saturday. Platform dances will be given at the Black Cat pavilion both Friday and Saturday nights and the famous Bobble Play Boys have been engaged to furnish the music.

Big Spring people are extended an invitation to attend the real estate auction, free barbecue dinners and dances on both Friday and Saturday.

RESOLUTIONS OF RESPECT

Whereas an All Wise Father has called from this earth Mrs. Harpole of Cross Plains, Texas, the sister of our worthy member S. C. Lamar;

Therefore, be it resolved that we, the members of Big Spring Lodge I. O. O. F. bow in humble submission to the Divine Will and tender our heartfelt sympathy to Brother Lamar and other relatives who mourn for their loved one.

Be it further resolved that we beseech the Heavenly Father to comfort and console the bereaved ones in their hour of sorrow.

Be it further resolved that these resolutions be spread on the minutes of the Big Spring I. O. O. F. and a copy be published in the home paper.

Dee Foster, Chairman.

PRAIRIE VIEW NOTES

Prairie View, eight miles north of Big Spring has a rural church and Sunday school, and on last Sunday we had 119 present in the classes. Out of this number there were 35 fathers and mothers present. Who can boast of a better attendance? Here the parents do not just send their children they come with them to Sunday school. We will gladly lend this pattern to other Sunday schools. We have one of the best superintendents, Brother L. H. Thomas. He is always on time, and present every Sunday. We deeply feel that the success of our work at this place is due to no one person or group of persons but to the leadership of the Holy Spirit together with the loyalty and cooperative spirit of the community including all denominations. All are invited and extended a hearty welcome to come to our Sunday school. Reporter.

RETURNS TO BOSTON

Noble H. Price, son of Mr. and Mrs. John Price of this city left last Saturday night for Boston, Mass., where he will resume his work in the Massachusetts General Hospital. Noble is studying to become a physician and surgeon, and for the past five years he has been a student in Tuft's Medical College, Boston, and for the past two months he has been serving his internship in the Massachusetts General Hospital. This is his last year and he is specializing in surgery. He will graduate in May.

MORE SHOWERS VISIT THIS SECTION OF THE STATE

More showery weather has been in evidence in our county but the big general rain continues to hold off. On last Friday evening and on Tuesday night showers were noted; the Friday night shower proving to be quite a liberal dispenser of moisture in the northwestern portion of the county.

It is doubtful if the showers will greatly benefit crops, as a general rain seems the big need to put the finishing touches to crop growth and insure fall and winter pasturage. Some wit has dubbed these summer rains as "bug showers" contending that the only good they do is to encourage the leaf and boll worms.

I. O. O. F. CONVENTION AT COLORADO LAST WEEK

From fifty to sixty Big Spring and Howard County folks attended the annual meeting of the I. O. O. F. and Rebecca Association at Colorado Wednesday and Thursday of this week.

The Rebecca degree team of Big Spring won all honors and brought back the banner for the best degree work.

The team is composed of the following: L. E. Crenshaw, captain; Mrs. L. E. Crenshaw, Mrs. Lucille Cauble, Mrs. Jess Andrews, Mrs. C. A. Ballard, Mrs. Levi Robinson, Mrs. Hogg Coots, Mrs. J. A. Kinard, Mrs. C. D. Herring, Mrs. A. Richardson, Mrs. Horace Moore, Miss Mildred Ballard, Miss Gusle Parrish, Miss Mildred Rogers.

BUYS LUNCH STAND

Rev. G. W. Cunningham this week bought the Loudermilk Lunch Stand on the Lamesa highway, north of the railroad tracks and has taken possession of same. Hamburgers and other quick lunches are prepared at this stand.

Miss Opal Petty is in Cisco this week visiting her sisters, Mrs. O. C. Curtis and Mrs. Fred Anderson.

Mrs. J. B. Pickle and daughters, Misses Janice and Judith returned Monday from a visit with relatives and friends at Lamesa.

Benjamin Davis, independent oil operator, returned Wednesday morning from a several weeks business trip to Dallas, Fort Worth and points in Missouri and Oklahoma.

We owe an apology to someone, but don't know who! Several personals were written on a piece of paper and brought to our office Wednesday afternoon. A bottle of ink was spilled on this piece of paper and blotted out the writing so that it could not be read. Hence these personals do not appear in the paper. We do not know who brought them in, but we are sorry that this accident happened and will be glad for them to appear in print next week if the party will send them in again.

It Pays to Read Herald Want Ads.
