OF AND FOR ELDORADO AND SCHLEICHER COUNTY. ALL THE TIME

VOL. XXXI

Eldorado, Schleicher County, Texas. Friday October, 2, 1931.

No. 40

## Free Movie Shows Ford Auto Plant

Sound Motion Picture Feature  
of Exhibit Arranged By  
Local Dealer

A sound motion picture graphically portraying the story of the Ford Motor Company and its widespread activities will be exhibited free of charge in a special Ford exhibit to be held at Crain Motor Co., Sales Room beginning Wednesday Oct. 14 and continuing through Thursday Oct. 15. The show will be open to the public from 1:30 p. m. to 9:30 p. m.

The picture, entitled "A Tour Through the Ford factory" will show the gathering of raw materials, their arrival at the Rouge Plant in Dearborn, Mich., and the numerous interesting stages through which they pass in the extent and meaning of modern volume production.

While an unseen voice explains each scene, the audience is taken on a tour of the plant, through the great blast furnace building where ore is converted into iron; into the open hearth building where the iron becomes steel and is poured, a white hot liquid, into moulds; into the blooming mill where the steel ingots are made into bars; and into the rolling mill in which the long bars of white hot steel are reduced to definite sizes. Forty kinds of steel, each of a composition to serve a definite purpose, are used in the Ford car and truck.

The picture shows also the manufacture of glass in an endless unbroken strip, a process developed by Ford engineers; the machine shops in which parts for the car are manufactured; the pressed steel building with its gigantic presses; and the coke ovens and other units in which by-products are recovered to the extent of millions of dollars annually.

Throughout the picture one sees literally miles and miles of conveyors which take much of the manual labor off the backs of men. There are conveyors carrying newly arrived materials into the plant, others taking parts from one building to another, and, of course, the final assembly line, that famous conveyor on which the parts are put together to form the completed car.

In addition to the picture, there will be a representative line of Ford cars and trucks and display boards containing car and truck parts.

The cars alone are well worth a visit for they include body types to suit any taste and to meet any occasion. Particularly attractive are the de luxe cars in which upholstery appointments are of a kind and quality usually found only in more expensive automobiles.

All the body types are featured by the Ford's new beauty of line and color. The deep radiator, the wide generous fenders, and the graceful sweeping lines of the bodies contribute to a pleasing whole. The cars may be obtained in a variety of color combinations.

## MRS. TOM HENDERSON IS HOSTESS

Mrs. Tom Henderson entertained the Eldorado Bridge Club with a luncheon, Thursday September 24 at her ranch home near Eldorado.

A delicious luncheon was served at one o'clock to a number of sixteen, including club members and guests. Contract bridge was played. The prizes were: high club, Mrs. H. T. Finley, high guest, Miss Annice Putman; two honors, Mrs. Leonard Baugh and Mrs. Jack; two consolation, Mrs. A. P. Bailey and Mrs. J. W. Lawhon.

Mrs. Jim Hoover, Mrs. L. T. Barber and Miss Annice Putman spent Wednesday of this week in San Angelo.

Harold Jackson was in Eldorado Thursday from the ranch near Tierra Alta.

## Goatmen To Get \$1,750,- 000 In Advance Soon

The Federal Farm Board took its first corner on a commodity last night when the Texas Wool Association consigned 86.2 per cent of the fall Texas mohair clip to the National Wool Marketing Corporation, a Federal Farm Board unit, at an advance of 15 cents for grown hair and 35 cents for kid hair. These advances will be paid to the account of the grower with no warehouse charges deducted and no further sum that may accrue from the sale of this clip of mohair by the corporation will be deducted to meet any overadvances made in previous years on mohair.

The mohair will be shipped immediately and about \$1,750,000 will go into the hands of the goatmen as a result. This sum will be in their hands in 15 days.

In addition the contract signed last night provides that the spring of 1932 clip shall also be consigned to the co-operative, giving thus a tonnage of about 15,000,000 pounds of mohair from the clips of this fall and next spring to the National Wool Marketing Corporation. The co-operative has agreed that the advance to be made next spring shall not be lower than the advance made at this time, freight to Boston by rail and water is \$1.75 a hundred.

## METHODIST CHURCH HAS PICTURE LECTURE SUNDAY NIGHT

The Rev. J. D. McWhorter gave a picture lecture at the Methodist Church last Sunday night, covering the lives of Saul, Johnathon and David, using the picture machine recently acquired. There will be another lecture next Sunday evening, using the picture machine again.

## PRAIRIE FIRE ALARM

Monday evening a telephone message was received from the Hensel Matthews ranch that a prairie fire had started from the highway and was burning off the Matthews' pasture. Help went out from town and the fire was put out after it had burned grass off of about 160 acres.

## DENNIS-HOLDER

Tuesday afternoon Mr. John Dennis and Miss Thelma Holder, of San Angelo motored to the Methodist parsonage here and were united in the Holy bonds of wedlock, by the Rev. J. D. McWhorter, in the presence of Mr. and Mrs. Robinson of Christoval.

## NOTICE

I am going to be out of town next Sunday and have arranged with Bro. McWhorter, Pastor of the Methodist Church to fill the pulpit at the Baptist Church Sunday night. We are urging all our people to go to his services Sunday morning, and extend to him a cordial welcome to our pulpit Sunday night.

J. L. RATLIFF, Pastor of Baptist Church.

## ELDORADO HIGH SCHOOL 1931 FOOTBALL SCHEDULE

October, 3, Ozona, here.  
October, 10, Menard, there.  
October, 17, Rocksprings, here.  
October, 24, Sonora, there.  
October, 31, Ozona, there.  
November 7, Miles, here.  
November 11, Big Lake, there.  
November 14, Miles, there.  
November 21, Rocksprings, there.  
November 26, Sonora, here.

Claud Meador and Charlie Mund, two cotton buyers, were in the city Friday. These boys raise cotton, sell cotton and buy cotton, and we think they will be eating it before the winter is gone.

## Carl G. Cromwell Killed In Car Wreck

Carl G. Cromwell age 42, was killed Sunday night at Sheffield, Pa., when the car in which he was driving crashed into a narrow bridge. Mr. Cromwell is on oil well promoter and was president of the Apollo Oil Co. of San Angelo and only a short while back figured for several weeks in buying the W. R. Nicks No. 1 from Mr. J. D. Wesner. He had gone to his old home at Sheffield, Pa. to visit relatives and finance the Apollo Oil Co. making the trip in air plane to Sheffield, borrowing a car from a friend, and it was while driving this car he met death. His brother Fred Cromwell met a similar death near Snyder in January 1930.

Mr. Cromwell is survived by his wife and daughter, his father, who is 80 years old and his grandfather, over a 100 years old.

He was instrumental in securing the air port for San Angelo. His body was brought back to San Angelo for burial.

## Coke County Votes \$175,000 Road Bonds

In an election Saturday, in district No. 2 in Coke County, the road bond issue amounting to \$175,000 was voted by a vote of 463 for and 172 against the road bonds. This will build 31 miles of highway .o. 70 and 7 miles on highway No. 158. Tom Green probably held an election about Nov. 15, to vote \$80,000 for paving 13 miles to connect with highway No. 30.

## Insure Your Feed!

It will not sell for much on the market, but it has the same food value it has always had. The cost of insuring it is so small you can't afford to do without it. Let me tell you about it.

W. O. ALEXANDER

Mrs. W. C. Huey had us send The Success to Miss Hazel Bruton, her niece, at Alpine this week.

Robert Sproul was in from the ranch Saturday buying supplies and meeting friends.

Mr. and Mrs. Oscar Gibson were in the city Saturday visiting and trading.

Mr. and Mrs. L. Kent were in the city Saturday trading.

Claud Bruton, cotton buyer, was in from the farm Saturday.

J. H. Rodgers was in the city Saturday. Mr. Rodgers is slowly recovering from an operation a few weeks ago, but says he is gaining strength slowly.

Marvin McDonald was in the city Saturday looking after business and trading.

E. G. Woods was a business visitor in the city Saturday.

Mr. and Mrs. Jess Koy were in from the ranch Saturday trading and visiting.

Mr. and Mrs. Doc Kerr were in the city and attended the ball game and were heard on the sidelines.

W. E. Baker was in from the ranch Saturday on business. He was accompanied by his daughter, Miss Ruth.

Henry Speck was in from the ranch Saturday visiting friends and trading.

Mr. and Mrs. R. A. King were in from the ranch Saturday visiting.

Van McCormick was in the city Saturday from the Henderson ranch.

Ms. Charlie Mund was shopping in the city Saturday.

Mr. and Mrs. Lester Henderson were in from the ranch Saturday shopping and visiting.

Roy Nance was in from Station A. Saturday buying supplies.

Mr. and Mrs. W. L. Isaacs were in from the ranch Saturday visiting and buying supplies.

Hop Ashmore was in from the ranch Saturday.

## R. E. Thomason Visits Eldorado Friends Here

Representative R. E. Thomason was in Eldorado Saturday for a short while visiting friends and meeting the people whom he represents in Congress as he will soon leave for his duties there. He had been to Sweetwater and San Angelo in the interest of a fish hatchery that will be established in West Texas.

Mr. Thomason will make us an able representative, taking the place formerly filled by Claud Hudspeth, who retired from office, by not choosing to run.

Mr. Thomason says when the people here need anything, that he can assist them in anyway he is there to serve us, and The Success believes he will do his best, if he gets the information we want.

The Editor regrets that he was out of the office Saturday when Congressman Thomason was visiting in our city, but Eldorado had a real interesting football game with Menard and we just like to be on the sidelines when the boys are in a tight game, and Representative Thomason will have to excuse us for being out. He left us a note saying that A. T. Jr. was making a fine record at Annapolis and that he would visit him when he got to Washington.

## SATURDAY WAS BUSY DAY WITH LOCAL MERCHANTS

The pulse of business has already begun to beat faster by the moving of the cotton crop in our county, although downed in price to the line of production with nothing left for the producer. The large number of pickers coming into the community already has lulkened the business of our city and our merchants had a busy day Saturday. For the next six or eight weeks business should be good in our city and all unemployed should be at work, as our farmers are needing pickers while the weather is good. All who want work can now get it not only here but all over this western part of Texas.

## HOGS TO BE FATTENED AT SWEETWATER

SWEETWATER, Sept. 29.—Sweetwater's effort toward doing its part in restocking Nolan County with hogs took a forward step Thursday morning with arrival of 150 animals from South Dakota, consigned to Frank Stevens, who agreed to take 50 of them with the Board of City Development cooperating in disposing of the others.

Mr. Stevens, working in connection with the Board of City Development program, took the initiative and ordered the animals.

They are feeders and are to be fattened on the bumper feed crop raised in this section this year.

The hogs are being sold at actual cost at the market, plus the freight to Sweetwater.

A number of Sweetwater merchants are buying the animals and placing them on farms where there is surplus feed, on the agreement they are to get half the meat when the animals are slaughtered.

It is anticipated that four or five more car loads of hogs will be handled in the same manner.

A. A. Bush, of Amarillo, was here Friday on Saturday, meeting his many friends. He came to the Schleicher County Fair, did not know it had been called off. He looks well and was busy what time he was here bragging on the many improvements the city had made since his last visit here.

W. H. McClatchey has gotten his ranch back this week. It has been under lease to J. E. Martin for the past 5 years and now Mack seems to be glad to be getting back home.

Mr. and Mrs. Geo. Caraway were in from Station A Saturday. "Uncle George" seemed to be in a good humor, but swore he was broke. Just as soon as the legislative gets cotton to 20c per pound, we want them to pass a law to make all oil workers save at least 20 per cent of their earnings.

B. E. Moore dropped in our sanctum sanctorum Saturday and had The Success sent to Joe Hearne Moore, his son, at A. & M. College, for which he has our thanks, as well as Joe's.

## Cotton Ginned In Schleicher County Gins

Up to Thursday morning the Schleicher County Gins have ginned as follows:

Eldorado Gin, square bale	47
Eldorado Gin, round bale 720 r	360
Luttrell Gin	227
Balley Ranch Gin	158
Total in square bales	792

## Menard and Eldorado Play 6 to 0 Game

The Menard High School football boys came over Saturday and played the Eldorado Eagles a good clean game of football, well played and hard fought throughout, Eldorado making the only touchdown that was made. The Eldorado boys played their best in the first half and Menard did their best in the last half. The game ended 6 to 0 in favor of Eldorado.

## SONORA AND JUNCTION PLAY TIE GAME, SATURDAY

The Sonora Football team played a tie game with Junction Saturday at Sonora. The game was full of pep from the start but neither team found their team able to carry the "pig skin" across the goal.

## OIL NEWS

The J. D. Wesner's No. 1 W. R. Nicks had drilled to 4,280 and have drill string in hole Thursday morning, for second time this week.

The Joe Tisdale well is waiting for orders, as to whether it will be deepened from 5,010 feet.

W. H. Williams No. 1, 18 miles northwest of Eldorado had drilled to 6,340 feet with the hole caving, in shale.

## MOVEMENTS OF WOOL FROM WAREHOUSE TO MILLS BEGINS

Nearly one and one-half million pounds of western wool were sold during the week ended Sept. 19 by the National Wool Marketing Corporation for its western grower associations, it is announced by J. B. Wilson, secretary.

Movement of wool from huge Boston storage warehouses of the National continued steadily during the week to mills in face of rather quiet trading and a somewhat unsettled market, apparently brought on by fluctuations of the British pound in foreign markets.

During the period the National spurned underbidding and announced its permanent policy of orderly marketing would continue in efforts to stabilize wool prices.

California, Idaho, Texas, New Mexico, Wyoming, Colorado and other western wools were among those sold to New England mills by Draper & Co., selling agents for the National at Boston, where corporation headquarters are located.

The National Wool Marketing Corporation has received approximately 106 million pounds of wool from the 1931 clip and more than two and one-half million pounds of 1931 mohair clip to date from the 32 co-operative member-owned associations with which it is affiliated.

## Solved Murder Mystery

Late August Luedecke Traced Drennan Slayer Into Mexico

The death of August Luedecke, Schleicher County Sheriff, who had been sheriff of that county 14 years and could have been sheriff for many more had he desired, brings to memories here the one murder mystery that he was called upon to solve. The case was that of the slaying of Oscar Drennan, killed by a Mexican who then escaped to Old Mexico. Mr. Luedecke worked on the case, found the Mexican at San Carlos in the state of Coahuila, Mexico, but was unable to get him surrendered to this side. The Mexican now is dead.—San Angelo Standard.

A. W. Jaeger, Show Manager for the Ford Motor Co. was here Tuesday making advanced arrangements for the Ford Picture Show and Demonstration that is coming to Eldorado Wednesday and Thursday, October 14 and 15. This show will be free to everyone. It contains 7 reels of pictures and talking picture also. Watch for the dates. It's all free.

## D. E. DeLong Shipping 1,000 Sheep To Feed Pens

D. E. DeLong has shipped 1,000 sheep to Dalhart where they will be placed on feed by farmers who have feed in that section. They will be fattened on corn and wheat, and the profits will be divided onco-operative plans. The sheep were shipped from Mertzon where others are going to the same place.

## Buys Sheep To Restock His Ranch

W. H. McClatchey bought 563 lambs from J. E. Martin last week at \$2.50 per head. These lambs are already on the McClatchey ranch. Mr. Martin is moving this week to Glasscock county. Mr. McClatchey has also bought some cattle for the ranch.

## Mexican At Ozona Given Five Year Sentence

Fifteen years ago in Crockett county, Jarvis Harp was killed by a Mexican band. Last week a jury in Crockett County gave Salome Orlos 5 years in the State Penitentiary for the crime. He was identified by Metz Bishop, Roy Grover. He will appeal his case.

## BANK AT BORGER ROBBED; \$8,100.00 TAKEN

Two men robbed the State Bank of Borger, Sunday night and secured \$8,100.00. The two men followed two of the employees out of town, held them up, tied one of them and two lady companions, and the other was forced to go back and open the safe and get the money.

## CONFESSION FREES Illinois Convict Is Imprisoned Wrongly for 23 Years.

CHESTER, Ill., Sept. 28.—Jesse Lucas, who spent almost half of his fifty years of life in the Menard State Prison here for a murder he always said he did not commit, was enjoying freedom again today as the result of a death-bed confession of another man. George R. Pond, a farmer who lived near Decker, Ind., confessed he killed Clyde Showalter, a young stock buyer, 26 years ago, and brought release for Lucas yesterday, after 23 years as prisoner No. 401.

All the years he has spent in prison, Lucas was "a good prisoner," penitentiary officials said.

## COTTON

"Cotton is the overcoat of a seed that is planted and grown in the Southern States to keep the producer broke and the buyer crazy. The fiber varies in color and weight, and the man who can guess the nearest legth of the fiber is called a "Cotton Man" by the public, a fool by the farmer, and a poor business man by his creditors.

The price of cotton is fixed in New York and goes up when you have sold, and down when you have bought. A buyer sent to New York to watch the cotton market and after a few days of deliberation wired his firm to this effect:

"Some think it will go up; some think it will go down, I do too, whatever you do will be wrong—act at once."

Cotton is planted in the Spring, mortgaged in the summer, and left in the field in the winter.—Ex.

GEORGETOWN, Texas, Sept. 29.—Miss Pat Tisdale, of Eldorado, Texas, who is attending Southwestern University in Georgetown, Texas, has promised membership to the Xi Kappa chapter of the Phi Mu sorority, according to word released here recently by officials of the organization. Miss Tisdale, who is a Freshman in Southwestern, should make a valuable member of the sorority, according to early observation made by the Phi Mu officials.

## CAMP WOOD BANK CLOSED

The First State Bank of Camp Wood, Real County, closed its doors Tuesday and the banks affairs were placed in the hands of State Banking Commission.

THE SUCCESS  
 OCTOBER, 2, 1931.

Saturday morning as we awoke we found millions of small black jumping bugs, a new kind to this editor. They covered the ground and streets. We note from the press dispatches, Monday, that the English Crickets had invaded Ulica, N. Y. Our guess is that the pest has also, invaded Eldorado. They seem to have disappeared as they came.

There was one good news item given out at Austin last week end and that was the legislature would adjourn Tuesday.

The American Legion at Detroit, seems to be all wet. The trouble was they met to close to the Canadian Border and they were sub-irrigated from the large lakes near by.

It seems as if Mr. Shouse is determined to inject the prohibition question into the 1932 campaign, and everybody knows that was the issue that killed the Democratic party last election.

It is estimated that four billion dollars will be spent in the next 12 months in the United States for building. About \$2,000,000 is estimated for Texas.

The 1931 dollar has a \$1.50 buying power, compared with the 1930 prices, therefore we should be able to save a little.

Most of the State salaries would have stood a 10 per cent cut and left the office holder better off this year than last. He is living cheaper.

The only thing that can save the republican party, from going down in defeat in 1932 is to hire a lot of Bishop Cannons, Frank Norrises and Bob Shulers to pitch a few prohibition crowbars and religious monkey-wrenches into the Democratic machine. —Sterling City News Record.

Bro. Kallis finally admits that these boys did the work.

The Success is afraid that the politician who in the future runs for office, will be ashamed to state publicly that he was raised on a farm.

The old South, who prided itself as "King Cotton", now sees that it has over done the thing and there seems to be a once felt pride vanishing away.

The State Tax rate was set last week at 74c on the \$100.00 valuation. About a 5c increase over last year. The State Board was justifiable in making the small raise, as our state Legislature refused to make any salary reduction.

Well, our football boys are getting a nice start. So far they have not lost anything. They have played two games, winning one and breaking even on the others. If they keep this up they will win, but this 0 to 0 and 0 to 0 is entirely too close to be safe. Let's practice what the pep-squad sang, keep up our pep, and play harder.

The cotton reduction law will not reduce the amount of cotton next year. The present price will come nearer reducing it than anything, for that is in this county, for there is several farmers here that did not plant any cotton at all this year. If they come back next year with what the law allows them, it will probably bring up

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912, OF The Eldorado Success published weekly at Eldorado, Texas for October, 1931.

STATE OF TEXAS  
 COUNTY OF SCHLEICHER

Before me, a County Judge in and for the State and county aforesaid, personally appeared A. T. Wright, who, having been duly sworn according to law, deposes and says that he is the publisher of the Eldorado Success and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:

Publisher, A. T. Wright, Eldorado, Texas; Editor, A. T. Wright, Eldorado, Texas; Managing Editor, A. T. Wright, Eldorado, Texas; Business Manager, A. T. Wright, Eldorado, Texas.

2. That the owner is: (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding one per cent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a firm, company, or other unincorporated concern, its name and address as well as those of each individual member, must be given.)

A. T. Wright, Eldorado, Texas.

3. That the known bondholders, mortgages, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state.): Mergenthaler Linotype Co., Brooklyn, N. Y.

A. T. Wright Sworn to and subscribed before me this 25th day of September, 1931. (SEAL) F. M. Bradley, County Judge, Schleicher County, Texas.

## Buys Odell Utilities

West Texas Utilities to Furnish Electric Service There Now.

ABILENE, Sept. 22.—The West Texas Utilities Co., in announcing today the purchase of electric facilities at Odell, also advised that a rate reduction on electric service would be from 10 to 50 per cent. The new property brings to 125 the number of cities and towns served from the transmission line network of the West Texas Utilities.

The company plans to construct nine miles of 12 Kv. transmission line from Chillicothe to a substation to be erected at Odell, this to be done immediately.

Editor Baker of the Devils River News was in Eldorado Friday. He was on his way to San Angelo and dropped in for a fraternal call. Mr. Baker is giving his town a fine paper.

the present acreage.

Governor Murray of Oklahoma says there will be no special session of the Legislature in his state. Alfalfa Bill knows how to keep down expenses in this state. Not much good ever came from special sessions, more wasted than saved generally.

Former Governor Dan Moody said at Austin, Monday, that the Democratic party had had "flighted if not doomed," the best chance they ever had to elect a Democrat in 1932, by injecting the prohibition into the campaign.

The Democrats can never win as long as their party is headed by a wet Republican like Raskob.

# HIGH DIVIDE

Screams From Nest

CO-EDITORS: Gusta V. Graves, Lucile Oglesby.  
 CONTRIBUTORS: Clyda Pruitt, W. P. Terry, Margaret Hill, and Gusta V. Graves.

## BASKET BALL GIRLS

By Gusta V. Graves

Our high school has wonderful prospects for a girls basket ball team this year. This work counts one-fourth credit in our school work. All the girls who are coming out seem to be coming out to win; we like to see this in our school.

We have elected Margaret Bradley as our captain, but further than that we have not organized. We have not practiced yet; we have only been taking a few exercises each afternoon as the afternoons are so hot and the strenuous work of playing would be too much to begin with.

Those coming out for basket ball are Zona Clare Koy, Margaret Hill, Lucile Clement, Nell Campbell, Thelma Taylor, Ruth Nix, Anna Ruth Spurgers, Pauline Rape, Dixie Faught, Margaret Bradley, Lucile Oglesby, Gusta V. Graves, Gussie Nolen, Vera Blaylock, Lola Davis, Rosa Sauer, Inez Cobb, Loleete Andrews, Lillie Bell Kent, Frances Ballew, Evelyn Anderson, Aurora Willis, Mary Lee Davis, Aletha Faught, Josephine Wall, Celeste Tisdale and Melba Jones. So far this is all of our team, however, we are expecting some more to come out.

## FOOTBALL TICKET SALES

By Clyda Pruitt

A prize is being offered in the high school to the student who sells the most football tickets during the present football season. The leading students are: Elnora Andrews, who has sold \$7.05 worth, Hassel Ratliff, who has sold \$6.70 worth, and Jack Ratliff, who has sold \$4.00 worth. The following students sold the most tickets to the game between Eldorado and Rankin: Joe Turner Hext, \$2.50; Elnora Andrews, \$2.50; Jack Ratliff, \$2.00; Lucile Oglesby, \$1.95; Samuel Smith, \$1.45; and John Alexander, \$0.85.

Those selling the most tickets for the last game between Eldorado and Menard are: Hassel Ratliff, \$6.70; Elnora Andrews, \$4.55; Jack Rape, \$2.80; Bill Smith, \$2.60; Jack Kerr, \$2.50; Jack Ratliff, \$2.00; Anna Ruth Spurgers, \$1.75; and Hollys Alexander, \$1.75.

Tickets are now being sold for the game between Eldorado and Ozona here next Saturday, October 3. Ozona has a big heavy team, one of the strongest in this section, and our boys will have to do some hard fighting in order to win. Lets every one see this game and do all we can to help the team to victory.

## JOKES

A new system of memory training was being taught in a village school and the teacher was becoming enthusiastic. "For instance," he said, "supposing you want to remember the name of a poet—Bobby Burns. Fix in your mind's eye a picture of a policeman in flames. See —Bobby Burns?"

## BAYER ASPIRIN is always SAFE

## Beware of Imitations

GENUINE Bayer Aspirin, the kind doctors prescribe and millions of users have proven safe for more than thirty years, can easily be identified by the name Bayer and the word genuine as above.

Genuine Bayer Aspirin is safe and sure; always the same. It has the unqualified endorsement of physicians and druggists everywhere. It doesn't depress the heart. No harmful after-effects follow its use.

Bayer Aspirin is the universal antidote for pains of all kinds.

Headaches, Neuritis, Colds, Neuralgia, Sore Throat, Lumbago, Rheumatism, Toothache

Aspirin is the trade-mark of Bayer manufacture of monoaceticacidester of salicylic acid.

## SILENCE REQUESTED FOR ODD REASON

The title, "Silence," can be made a word that will repose easily on unpeened thousand tongues with salivary benefits to the campaign, and at little cost.

Hospitals zones and Pullmans have taught people to respect any placard with the word "Silence" on it. There is no hoax, and no harm in a judicious circulation of teaser cards imprinted bold with this word, and leading into smaller type whatever copy you prefer to use.

"SILENCE" meant doomsday to this man, happiness to his loved one. See Clive Brook's most distinguished performance in the celebrated Max Marcin play, "Silence" on the Ritz Theatre screen Sunday, Monday and Tuesday.

E. C. Hill returned Sunday from the D. Q. Lyles ranch in Crockett County where he installed a New Radio Set, and says that there is nothing in that section of Texas to give interference reception good and Mr. and Mrs. Lyles will enjoy the winter programs.

Joe Reynolds was in from the ranch 12 miles west of Eldorado, Saturday, shaking hands and looking after business.

passes. Aris Carr and R. L. Sample make two ends who cannot be circled on end runs; they consistently run the plays into the line, which is heavy and can stand the punishment.

Later in the season, after they have had more practice and training, they plan to have games with similar teams at Christoval and Sonora. Their training and experience this year should be a good foundation in the fundamentals of football, and will possibly result in better additions to the main team next year.

## PEP SQUAD GIRLS

By Gusta V. Graves

"Elephant, turtle, hedgehog, snod, Led Yellow, Jackets on the trail, Mustang, Jack Rabbits, greyhound, pup,

All after Eagles couldn't keep up." The above yell was certainly appropriate at our last game. The Eagles are proud to say that they led the Menard Yellow Jackets on the trail.

Our pep squad received some very good compliments from the coach and principal of Menard. Now, we know our pep squad is good because when we can bring forth compliments from people who have as good a pep squad as Menard we feel we are really making a showing for ourselves in the pep world.

Well, why should we not have a good pep squad? Consider our girls and our leader, Elnora Andrews, and you will understand. We work and enjoy it, because we are not rooting for our boys?

"Eagles we are rooting for you, All the live long day, Eagles we are tooting for you, You must win today, Fight on to victory, Do your best to win.

Eagles we are rooting for you, Until the last game ends."

While I am talking about the pep squad girls, I might tell you that Bernice Bricker composed the above song to be sung to the tune of "Eyes of Texas."

We have about thirty girls in our pep squad, but I am unable to give their names, as we have not yet gone in as an organization.

Watch this space each week for news improvements, and developments of our high school pep squad.

"Yes, I see," said a bright pupil, but how is one to know it does not represent Robert Browning?"

Miss Armstrong: "Now you understand the difference between 'liking' and 'loving'?"

Willie: "Yes, I like my mother and father, but I love pie."

Mr. Terry: If I take a potato and divide it into two parts, then into four parts, and each of the four parts into two parts, what would I have?

Rodney: "Potato salad!"

"Chicken stealing again, Rastus?" said the judge. "Have you anything to say!"

"Deed, yes, Mr. Bradley, it's de fault ob mah high-up ancestors."

"How so?"

"Well, mah ancestors dun come over in de Mayflower, an' evah since Ah was born Ah has an unmontrrollable desire foh Plymouth Rocks!"

Jack Kerr: "Will you lend me five dollars for a month, old boy?"

Lefty Smith: "Listen, silly, what does a month-old boy want with five dollars?"

Little Johnny: "Dad, we learned at school today that the animals have a new fur coat every winter."

Old Man: "Be quiet, your mother is in the next room."

## GRAMMAR SCHOOL FOOTBALL TEAM

By W. P. Terry

The Eldorado Grammar school is capable this year of defeating any grade school in this section, for there is plenty of good football material available. Most of the players have been coming out for practice every afternoon since school started and have mastered the fundamentals of the game. Others did not start out until last week, but these are progressing rapidly.

Scrimmage with the second team of the high school is held every Friday during the noon hour. Games played between the two teams reveal that they are well matched. Later in the season, games with neighboring schools will be scheduled. Members of the grammar school team are as follows:

Vernie Logan, end and captain; Milton Spurgers, center and assistant captain; Robert Mathers, Henry Green, Paul Davis, Gaylon Casey, and Jim Edgar Sample, back; Rodney Cates, Jack Hext, and Jack Jones, ends; Raymond Spurgers, George Williams, Charles Ratliff, Cecil Moore, and William MnWhorter, tackles; Cell Childers, John Thomas Ballew, Frank Lewis, Carlys Brown, Frank Bradley, and Reuben Reynolds, guards; Orval Edmiston, G. S. Catley, Hugh Dee Craig, Ivid Wade, R. W. Gray, Samuel Clond, Norman Priest, Harmon Bodine, and Tilford Rasmussen, reserves.

## GRAMMAR SCHOOL NOTES

By Margaret Hill

There are eighty-six pupils in all of the Grammar School. There are twenty-five in the Seventh, Thirty-four in

### "THIS AND THAT"

By Jimmy

Henry Ford's ukase that every married man at one of the Ford plants must have a garden next year or lose his job failed to receive the plaudits of the Magazine of Wall Street, which remarked that, "We do not look for any loud outburst of applause of this idea from the farmers."

"Industrialism," continues this magazine, "has given us an abundance that was undreamed of two hundred years ago. We still have to work work out a method for dividing up the pie. In former times the problem was to have a pie to divide."

Ford, it will be recalled, was the "good Samaritan" during the early days of the World War, who chartered a ship and sailed for Europe to "get the boys out of the trenches before Christmas."

His success, or rather lack of it, in that adventure is well known. But now his slogan seems to be to get the boys into the garden before next Fourth of July.

Much can be said in favor of cultivating gardens—and much can be said against cultivating them. But there is nothing to be said for the employer who attempts to force his workers to carry out his fool ideas on their own time.

Of course, Mr. Ford's idea is to make unemployment insurance unnecessary by having his subjects raise their own vegetables, thereby "guaranteeing an abundant life" for every Ford employee. His idea is about as sound as his ideas on most subjects.

Mr. Ford, it will be remembered, is the man, who after many years in manufacturing automobiles, finally succeeded in turning out a car that could be started without breaking one's back and all the commandments. That is his greatest achievement.

It will also be remembered that Mr. Ford grabbed the headlines last fall when President Hoover held his so-called depression-stopping conference in Washington, by announcing that he was "going back to Detroit and raise wages."

But instead of that he has laid off thousands of men, and hired them back at reduced rates of pay.

Now Henry is going to make unemployment "safe," by simply making his workers raise their own garlic and so forth—on their own time.

The Great-God-Henry-Ford hath spoken.

When I owned a Model T Ford I got a pain every time I rode in it. I get the same pain now when I read Henry's announcements.

**ADVERTISING HAS A ROLE**  
Economists agree that the depression has touched bottom. Conditions will get no worse, but they could be greatly improved.

Much has been written upon the psychological aspects of present-day conditions. Were the people not afraid—if cautious men and women dared to

### TEXAS OIL OUTPUT FOR AUGUST WAS 1,141,650 BARRELS

AUSTIN, Texas, Sept. 28.—Daily average production of petroleum in Texas during August totaled 1,141,650 barrels, compared to 1,044,430 barrels in July and 821,775 in August, 1930, according to the monthly report of the Bureau of Business Research of The University of Texas. Permits were granted for 514 new wells, compared to 532 in July and 605 in August, 1930. A total of 414 wells were completed in August, compared to 562 in July and 432 in August of last year. Producers totaled 321 oil wells and seven gas wells, compared to 449 oil wells and thirteen gas wells, in July and 220 oil wells and 39 gas wells in August of last year.

The shut-down of production by martial law in East Texas went into effect the morning of August 17," the report said. "It has been estimated that up to September 3, this shut-down had kept 11,000,000 barrels or more off the market, either unproduced or stored. According to figures of the American Petroleum Institute, the average daily production of crude petroleum for the United States fell from 2,608,250 barrels in the week ending August 22 to 1,751,550 barrels in the week ending August 29, a decrease of about one-third. Analysis of production data by fields shows that practically the entire reduction was due to the shut-down in East Texas, as losses and gains in other fields of the country approximately offset each other. The East Texas wells were permitted to reopen September 5. In the period of the shut-down, however, a number of completions and a large number of locations had been made in East Texas; for instance, during the last week of August, a total of 98 locations and 56 completions were reported. The latter part of August witnessed activity in other oil producing fields of the State. Included in these were the two completions in the Saxet field, near Corpus Christi, the extension of the Darst Creek field and activities in the Big Lake pool in Reagan County, and Crane as well as in Pecos and Ward counties in West Texas."

### AMERICA 100 YEARS AGO

Weston Record: There was not a public library in the United States.

Most of the furniture was imported from England.

An old copper mine, in Connecticut, was used as a prison.

There was one hat factory and that made cocked hats.

Every Gentleman wore a queue and powdered his hair.

Crockery plates were objected to because they dulled the knives.

Virginia contained a fifth of the whole population of the country.

A gentleman bowing to a lady always scraped his foot on the ground.

The whipping post and pillory were still standing in Boston and New York.

Beef, pork salt fish, potatoes and hominy were the staple diet all the year around.

Buttons were scarce and expensive, and the trousers were fastened with pegs or laces.

When a man had enough to eat he placed his spoon across his cup, to indicate that he wanted no more.

The church collection was taken in a bag at the end of a pole, with a bell attached to arouse sleepy contributors.—Menard Messenger.

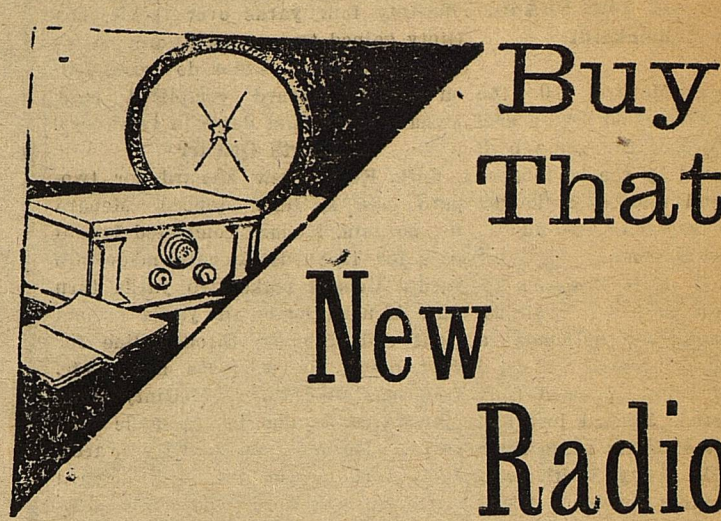

Mr. and Mrs. Leonard Baugh, and Sarah Francis Bush, were in Eldorado the past week visiting friends and relatives. Mr. Baugh was also looking after business while here.

buy the things they want, and wanted the things they really need—much of the ill-effects of the depression would be dissipated.

The truth of the matter is, fear and lack of confidence are the forces that delay the return of normalcy by protracting the period of economic convalescence.

No remedial agency can do so much to restore confidence and allay fear as judiciously planned and competently executed advertising. Almost two years of reluctant, fearful buying have depleted wardrobes and deteriorated property to an unprecedented extent. Advertising can, and advertising should, strike the toxin of confidence—confidence that is the right time to buy, confidence that more has never been offered for so little, confidence in the wisdom and the economy of buying now.

Fill the newspapers of Texas with advertising of a constructive, confidence-building character, and the way will be smoothed for economic recovery. There is money to be spent; there is merchandise to be sold. Advertising must prepare a ground where the two may meet.

### THE NEED OF READING GOD'S WORD

By Rev. F. G. Clark

We are in the midst of a drouth. But drouths are common in central and west Texas, and the ranchman who does not anticipate them and prepare for their coming is sure to suffer for his negligence.

Nature needs a revival. A gentle rain from heaven would transform our country from homeliness and the semblance of death, to strange beauty and vivid life. Drummond's Natural Law in the spiritual world applies here. When the divine showers are withheld from the soul, it withers and becomes ugly and lifeless.

For many years men have thought to contrive means by which they could persuade the heavens to drop their "garnered fullness down," to meet the needs of this thirsty soil. So far all such efforts have been fruitless. But while the natural heavens refuse to co-operate with our puny plans, the divine heavens pay heed to our cry for help, and pour out their inexhaustible fullness in unstinted measure. No soul needs to suffer thirst for the living water, for God's word, when hid in his heart, will become a living fountain springing up into everlasting life.

A spiritual drouth comes when we neglect the reading of the word of God. Thus Amos-8-11 God promises those who neglect His word. A famine in the land not of bread nor a thirst of water, but the hearing of the words of the Lord. What we need today more than any one thing, is a revival of the faith in the word of God, and diligent study of it. For God in his word has revealed to us how we can entreat the mercy drops of heavenly rain to fall into our parched soul, and cause to spring up from their barren wastes those virtues which transform us into godliness and clothe our being with the beauties of holiness. Read your Bible and it will tell you how to bring down the divine rain.—Harper Herald.

### PAINS QUIT COMING

"When I was a girl, I suffered periodically with terrible pains in my back and sides. Often I would bend almost double with the intense pain. This would last for hours and I could get no relief.

"I tried almost everything that was recommended to me, but found nothing that would help until I began taking Cardui. My mother thought it would be good for me, so she got a bottle of Cardui and started me taking it. I soon improved. The bad spells quit coming. I was soon in normal health."

—Mrs. Jewel Harris, Willsboro, Texas.

### E. H. S. Notes

#### EAGLES WIN FIRST LEAGUE OF THE SEASON

By Robert Reinhardt

By winning over Menard 6-0, the Eagles initiated what looks like a successful season. Before the game both teams were favored by the backing of its pep squad and rooters. Following is a play-by-play report of the game:

##### First Quarter

Eldorado kicked off to Menard's 18-yard line, who returned it to their 25-yard line. Raymond Smith made a spectacular tackle, throwing Menard for an eight yard loss. Menard fumbled, but recovered. Menard lost ball on downs. Albert McGinty made three yards over tackle. Lefty Smith fumbled, and lost three yards. Albert made six yards. Eldorado lost ball on downs. Eldorado recovered punt to Menard. Pass from McGinty to Smith completed for first down. Fumble loses four yards. McGinty made three yards through line. McGinty caught pass for gain. Pass incomplete on next play. Eldorado punted forty-five yards. Menard returned punt and Eldorado returned ball to 30-yard line. Pass incomplete. Pass from Jack Kerr to Aubrey Smith for fifteen yards complete. Albert McGinty over tackle for touch-down. Try for point fails. Eldorado kicked off, with Raymond Smith downing Menard with the hardest tackle of the game. McGinty knocked down pass.

##### Second Quarter

Aubrey threw Menard for loss. Menard punted. Eldorado pass incomplete. McGinty punted. Menard punted after three unsuccessful attempts to gain. Time out for Menard. Kerr stopped for no gain. McGinty made five yards over end. Jack Kerr gained two yards. McGinty made first down. Lefty Smith made three yards. McGinty over tackle for four yards. Jack Kerr made eight yards. McGinty made six yards over guard. Pass from Jack Kerr to McGinty incomplete. Ball goes over. Jack Kerr intercepts beautiful pass. McGinty made two yards. Eldorado punted and recovered ball.

##### Third Quarter

Eldorado kicked off to Menard's five-yard line. Menard returned to 14-yard line. Menard made four yards. Menard gained two yards. Menard two yards. Junior making tackle. Menard punted. McGinty three yards gain. work, while the Juniors will need one. Jack Kerr made two yards. Aubrey half credit, the Sophomores three-Smith five yards over tackle. McGinty fourths credit, and the Freshmen 1 pushed through line for first down.

Aubrey Smith three yards on center rush. Junior Isaacs two yards on cut-back over tackle. McGinty three yards. Aubrey Smith gained for first down. McGinty four yards over tackle. McGinty gained two yards. Aubrey Smith made two yards. Eldorado losses ball on downs. Menard completed pass. Menard made first down in two plays.

##### Fourth Quarter

Jack Kerr threw Menard for two-yard loss. McGinty stopped Menard for no gain. Menard completed lateral pass for 12 yards. Menard made two yards. Menard make two yards thru line. Menard made six yards around right end. Plunged through line for first down. Lateral pass incomplete. Lose ball on downs. McGinty made four yards. Junior Isaacs made four yards. Eldorado punted fifty yards. Jack Kerr making the kick. Menard completed pass for twenty yards. Menard failed to complete pass. Aubrey Smith knocking ball down. Menard completed pass for five yards. Pass incomplete. Menard punts thirty-five yards. Lefty Smith returned ball for twelve yards. Jack Kerr made four more yards. Pass from Aubrey Smith to McGinty completed for five yards. McGinty made 15 yards off tackle. Jack Kerr gained five yards. Smith gained four yards. Isaacs four-yard gain. Four-yard gain by Isaacs on criss-cross over tackle. Game ended.

##### THE NEW POINT SYSTEM

By Grace Radloff

Good news for the Seniors! The news did not appear to be good when Mr. Holt announced the new point system.

According to the new system each student is required to have two extra credits, making a total of 18 credits instead of 16 required for graduation. There are seven clubs which the pupils may belong to, and they are required to belong to one of these clubs: Dramatic Club, Mathematics Club, Spanish Club, Newspaper Club, Science Club, Home Economics Club, and English Club. These clubs meet on Tuesday the first period after noon from 1:00 to 1:45. This makes the regular school work last until 4:00 on Tuesday. Each pupil receives one-fourth credit for each year that he belongs to a club. The Seniors will have to make only one-fourth credit in this work, while the Juniors will need one credit, the Sophomores three-fourths credit, and the Freshmen 1 credit. This work will be interesting

## Leaman's Department Store

as well as helpful. One-fourth credit will also be given for a member of the Glee Club or the Band or for working in the Library. The other extra credit is for physical training. Each pupil will be given for each year in physical training. This physical training program is merely carrying out the new State law requiring that every school include physical training in its program. Those two extra credits are not so bad after all, are they? I think the work will be interesting as well as helpful.

### AMOUNT OF COTTON SURPLUS IS EXAGGERATED

The amount of the surplus is generally exaggerated. For instance, the estimated carry-over July 31, 1931 is 8,700,000 bales, and everybody proclaims this as the amount of the surplus. This, of course, is bear propaganda, but it is joined in by everyone when bearish facts predominate. It seems natural for everybody to kick the fellow that is down. As a fact, which everyone should realize, we need between three and four million bales of cotton on July 31 to supply actual needs until the new crop gets to the mills. Therefore, our surplus of American cotton on July 31 was about 5,000,000 bales. Of this the cooperatives and Farm Board hold a considerable part and this is financed in such a way that it cannot be forced on the market to still further depress prices. Therefore, it seems to us that if some way can be found to take 5,000,000 bales of a 14,000,000 bale crop or 6,000,000 bales of a 15,000,000-bale crop off the market, until a greatly reduced acreage produces a greatly

#### MODERN ENGINEERING

By J. T. Kerr

Work on one of the greatest undertakings that modern engineering has ever before tackled is now under way. The giant dam that is to connect the southern tip of Spain with the mainland of Africa is pushing its way out into the Mediterranean Sea.

The great dam is to be built of concrete over a rock foundation. It is to be wide enough to accommodate two railroads and a fifty foot paved highway for motor vehicles. At the center of the dam will be located the gigantic electric pumps.

These pumps are driven by electricity derived from dynamos which are in turn driven by the water power from the water being pumped.

There are to be one hundred pumps and each pump is to throw 50,000 barrels of water per hour. The pumps are operated night and day.

At each end of the huge causeway plans for cities are being rapidly laid. One of the chief interests will be in the erection of a museum for the relics and curios to be found in the bottom of the Mediterranean sea when it is drained.

It seems that trouble is also under way for most every country that borders the Mediterranean is laying claim to the vast areas of most invaluable agricultural regions soon to be drained. Then there is Holland and many other low countries of the world to be considered, as this great amount of water will raise the level of the ocean several inches. This in turn will cross the dykes and dams and flood the countries causing much disaster.

Italy is also planning on building a dam across the entrance of the Adriatic Sea, thereby forming a reservoir for irrigating this large fertile basin.

If this undertaking proves satisfactory it will only be a matter of time until our own Gulf of Mexico and Caribbean Sea will be drained thereby connecting north and south America more firmly, so Carl Stevens thinks.

#### B. R. S. N. JOKES

Mr. Redford: "Name a liquid that never freezes, Jack."  
Jack: "Hot water."

T. D. had been left to watch the soup when presently he said, "Oh, mother, come quick, the soup is larger than the pot."

There was such a stamping in Andrews room this morning, that his mother called, "What's going on in there Andrew?"  
"Just my shoes," replied Andrew.

#### B. R. S. N. SCHOOL ROOM REPORTS

W. C. Parks is sick again and is out of school.

The first month of school is almost passed and the exam times are drawing near. Some can face it with a smile and others will have to live and hope.

#### B. R. S. N. SCENES IN THE SCHOOL ROOM

First is Margurite McKee. She is practicing writing as usual. Morene Parks is studying for the first time.

Louis Kerr is busy writing his girl's name on his arms.

Waldine Sudduth is looking for something somewhere in the room.

T. D. Mund is studying. This seems to be his past time.

Marjorie Parks has something on her pencil. From all actions we think it is a sucker.
