RULES FOR

SPELLING CONTEST

There has been a radical change in the rules for the spelling contest this year.

Formerly the contestants in this event were classified on an age basis. The new rules provide for their classification on a grade basis. It is believed that this will better enable the teach er to correlate the contest with the regular spelling instruction. The rules again this year re-

quire the use of the State adopted Text in spelling lists. Prep CONGRESSMAN THOMASON aration on both these sources is therefore necessary.

Those who are at the head of the government seem to think that if they start to cheaper money, they must, inevitably lose their heads and carry it to an extreme. But surely there is brains enough in Congress to restrict the supply to the countries need.

herself:

"I was sick and rather discouraged. I was so weak and thin, I was not able to do my work as it should be done. This made me fret a good deal, and did not help my condition.

"I had pains across my back and lower part of my body. My nights were spent in rolling from one side of the bed to the other, hoping, I would soon go to sleep. Then when morning would come, I would be just as tired as when I went to bed. A neighbor, seeing went to bed. A neighbor, seeing how badly I felt, told me to try Cardui. After I had taken one bottle, I was much better. I kept on taking Cardui, and I was stronger and slept much better at night."
