

Morse Calls For Renewed Talbott Probe

WASHINGTON (AP)—Two Republicans say they are content to leave Harold E. Talbott's status to President Eisenhower, but Sen. Morse (D-Ore) has called for a new Senate investigation of the Air Force secretary.

Chairman Leonard W. Hall of the Republican National Committee and Rep. Martin (R-Mass), the House minority leader, expressed confidence yesterday that Eisenhower will make the right decision in Talbott's case. In separate radio-TV interviews, both also expressed doubt the matter would have any bearing on the 1956 election.

3 Volcanoes Still Blowing Tops In Chile

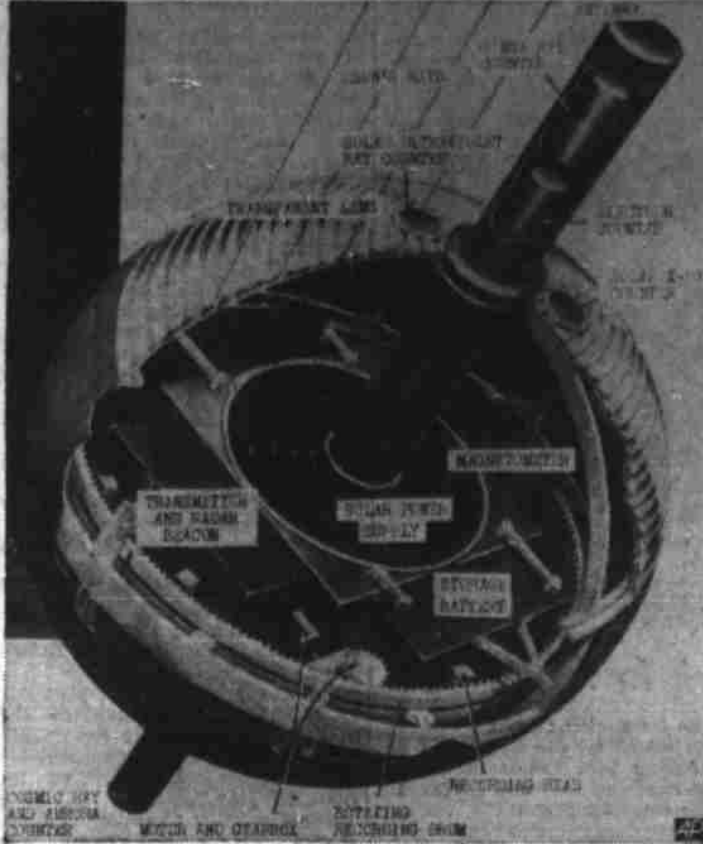

VALDIVIA, Chile (AP)—Three volcanoes continued violent eruptions in southern Chile's lake district today, sending hundreds of weary and terrified persons fleeing from their homes.

Pilots flying over the area 47 miles south of Santiago reported a third volcano, Mt. Choshuenco, had joined Nilahue and Rinihue mountains in spewing ashes, white hot stones and poisonous gases over a wide area.

Eisenhower told his news conference Wednesday he himself would decide whether Talbott had maintained "a proper standard of ethics" in work he did from his Pentagon office for Paul B. Mulligan and Co., of New York.

Talbott has dismissed as "just a rumor" reports from some Republican sources that he has decided to resign, but has said he "will do whatever the President wishes me to do." He said he was giving up his special partnership in the Mulligan company, a management engineering firm.

Morse took the Senate floor Saturday night to report he had new information on Talbott and to suggest that the Senate Investigations subcommittee "determine what validity there is to it."

Cutaway Drawing Of Space Satellite

This artist's drawing is a cutaway view of one idea for an earth satellite as advanced by a University of Maryland physicist, Prof. S. F. Singer, who conceived of an aluminum sphere about two feet in diameter, weighing 100 pounds or so, with most of the weight consisting of equipment and instruments to measure cosmic rays, solar ultraviolet and X-rays. Dr. Singer now is in Copenhagen for a meeting of the International Aeronautical Federation.

5-9 Age Bracket Due Polio Shots

WASHINGTON (AP)—Private physicians and public health agencies will start getting Salk polio vaccine this month for inoculation of children 5-9 years of age.

The Public Health Service announced yesterday it has allocated enough for 846,000 shots. That amount will become available as soon as individual states report how much is to go to health agencies and how much to physicians.

The distribution is the first under the department's voluntary program for placing the vaccine where it is most needed. Except for limited supplies which moved into commercial channels last April, the vaccine is the first to go to private physicians.

Driver Held After Wife Is Run Over In Alleged Robbery

CINCINNATI (AP)—Lee Murphy, 40, who ran over his wife while fleeing from the scene of an alleged gasoline theft, was in custody today awaiting a charge of murder in her death.

Tax Collector's Report Accepted

The County Commissioners Court this morning approved the annual report of the tax collector's office. Mrs. Viola Robinson, Howard County tax assessor-collector, offered the report to the court for approval.

Horse-Riding Odessan Cops 'Miss Texas' Title

TYLER (AP)—She'll look like Miss Texas for sure when June Prichard of Odessa displays her talents in the Miss America Pageant.

China To Release American Airmen

Ike Sees Flier Release As Cause For Joy

WASHINGTON (AP)—President Eisenhower said today Red China's announcement that 11 American airmen are to be released is a cause for nationwide relief and joy.

The White House issued a statement by the President less than an hour after Peiping radio broadcast word that the imprisoned fliers had been ordered freed.

Press secretary James C. Hagerty said the government had received advance word, early this morning, from the British military attache at Peiping that the announcement might be forthcoming.

Eisenhower's statement said: "The entire country will feel a sense of relief and joy at the announcement that the 11 United States airmen held in Communist China since 1953 are at last to be released."

"Our first thoughts go to the men and their families who have been separated for so long. The government will use every appropriate facility to insure the speedy reunion of these families."

"The United States extends thanks to all who have contributed to this humanitarian result, particularly to the United Nations and its secretary general, who actively sought this result on behalf of the United Nations Command in which these 11 fliers served."

The U. N. secretary, Dag Hammarskjold, made a trip to Red China earlier this year in an effort to get the fliers released, and has been continuing to seek their release in negotiations through diplomatic channels.

Hagerty said there has not been time to work out details of how the airmen will be reunited with their families. He added, however, he expected the Air Force would fly relatives at least part way to the Far East, as was done in the case of three airmen released previously.

Red Legate's Announcement Opens Parley

GENEVA (AP)—Red China announced today 11 released American fliers would arrive at Hong Kong on Thursday to be turned over to the United States. They left Peiping yesterday.

Reds Think Iowa 'Wonderful Land'

MOSCOW (AP)—Pravda correspondent E. Litoshko said today the Russians are right in calling Iowa a "wonderful land."

Summarizing a Soviet farm group's visit to that state, Litoshko said he's happy too that the Soviet delegation, which enjoyed so much hospitality in Iowa and is now getting the same treatment in Nebraska, is going to bring back at least one Davy Crockett coonskin cap.

The cap was shyly presented to the delegation by an Iowa boy who said, "Please give this cap to some Soviet boy."

Litoshko summarizes the Russian visit to Iowa under a three-column headline: "Americans usually speak with pride about the state of Iowa. Some call it America's grainery and others call it the Promised Land."

"Iowa itself translated from the Indian means wonderful land. It has very rich black soil, plenty of moisture and excellent climatic conditions."

"All these things have given Iowa its deserved fame as the most fertile state in America. But no matter what the local people talk about they inevitably turn to corn for corn is the fame and pride of this state, the source of its people's well-being."

"Thus it is no wonder the idea of exchanging farm delegations with the Soviet Union came from this state when Americans became aware that the Soviet Union was interested in corn-hog culture."

Litoshko marveled that "60 buses" filled with news correspondents, photographers and newsmen and television men were following the Soviet delegation.

He lauded the hospitality of Iowa farm women—some of whose husbands are enjoying Russian hospitality on their tour of the Soviet Union.

Litoshko reported: "While in a hotel in Ames a 9-year-old American boy came in holding a coonskin cap in his hand. These caps are called Davy Crockett in honor of the hero of a popular film, and now millions of American youngsters are wearing them."

Storm Signals Out For Upper Texas Coast

Storm warnings were posted Monday on the upper Texas Gulf Coast but not much rain or heat relief for the rest of the state was in prospect.

Tropical storm Brenda appeared headed too much eastward toward the mouth of the Mississippi—to send the usual rainstorms rolling across Texas.

But it did appear that coastal points might be in for some high winds and heavy rain.

The New Orleans Weather Bureau advised display of storm warnings from the mouth of the Mississippi to Galveston, and urged that small craft from Freeport, Tex., to Pensacola, Fla., stay in port.

Locally heavy rains and scattered squalls were expected to hit the East Texas coast late Monday and early Tuesday.

There was nothing in forecasts for other parts of Texas to indicate anything different from the now monotonous pattern of roving thunderstorms providing hit-and-miss relief from the heat and dryness.

The Weather Bureau said at 4 a. m. the Gulf Storm was about 25 miles south of the mouth of the Mississippi and moving west-northwest at about eight miles an hour. Winds were estimated at 50 to 60 miles an hour near the center and gales extended from 50 to 100 miles to the east of its center.

The 4 a. m. advisory said the storm's center was expected to hit along the Louisiana Coast between Grande Isle and Point Aufer Monday and move into the Vermillion Bay area of Louisiana Monday night.

Rainfall was slight across Texas during the past 24 hours with scattered showers on the Gulf Coast. Palacios had 13 inches, Houston .65, Victoria .68, Lubbock .12, San Antonio .02, and Junction and Salt Flat .01.

The low minimum last night was 66 at Alpine with Laredo reporting the high minimum of 81. Sunday's temperatures ranged up to 102 at Austin.

Escapes From Dawson Jail

LAMESA — A general alert was on in West Texas Monday, for Charles L. Leister who escaped from the Dawson County jail early Monday.

Leister was to have been transferred to Huntsville today to begin serving an 18-month term for breaking and entering a parked automobile.

Sheriff Henry Mayfield said that Leister, a native of Oklahoma and a resident of Aransas Pass, apparently induced a short circuit in the automatic elevator to make his escape. He had been serving as a cook for the jail and had access to the run-around. The sheriff theorized that he fashioned a fork into a screwdriver and thus moved a plate to the elevator box and produced a circuit that brought the elevator to the jail floor. Then he took the elevator back down and took off.

Leister was described as being 5 feet 11 inches tall, fair complexioned, black hair, 145 pounds, blue eyes. The word "love" is tattooed on the fingers of one hand, "Japan" on the left arm with the date 4-9-50. On the upper right arm is a tattoo of a devil's head.

Adjournment Plans Snagged

WASHINGTON (AP)—Congress' adjournment plans were snarled today by disputes over public housing and pay raises for its employees. Other major legislation was also pending.

Leaders in both branches fixed tonight as their new goal for quitting. The House kept working Saturday night until 7:38 p. m. and the Senate until 10:45 p. m. but neither cleared the way for adjournment in advance of the July 31 deadline set up in the 1948 Reorganization Act.

Some lawmakers said privately the session might last two or three more days. Others, however, said it might be hard to round up a quorum by midweek. Many senators and representatives already have left town for home or on trips. A contingent of senators sails from New York today for Europe.

Three key measures tied up in Senate-House conferences make up the bulk of the remaining workload, although lawmakers interested in numerous other bills will make last-ditch efforts to get them through. The three are: 1. The housing bill, on which Senate-House conferees met until almost midnight Saturday and then broke up in a sharp disagreement on public housing.

Driver Held After Wife Is Run Over In Alleged Robbery

CINCINNATI (AP)—Lee Murphy, 40, who ran over his wife while fleeing from the scene of an alleged gasoline theft, was in custody today awaiting a charge of murder in her death.

Tax Collector's Report Accepted

YUCAIPA, Calif. (AP)—Poultryman L. L. Nichols says one of his hens didn't lay an egg for 30 days and then came through with 28 last week.

Russians Wary On Satellite Program

MOSCOW (AP)—Communist party chief Nikita S. Khrushchev said tonight that if President Eisenhower's earth satellites program is "in the interests of mankind then the Soviet government is always prepared to support it."

He told reporters at a Swiss legation reception, however, that he did not have details of Eisenhower's program, and could not be more specific.

The American announcement has not yet been reported by the Soviet press or radio.

CITY BOND ISSUES

By CLIFTON LAWHORNE
The proposal to issue \$175,000 in municipal bonds for fire stations and equipment results from a report of the State Fire Insurance Commission that the local department is inadequate to serve the needs of the community.

The commission pinpointed the needs of Big Spring as being two new fire stations, two new 750-gallon pumper trucks, a three-story drill tower, a fire department radio system, and miscellaneous equipment.

Fire Insurance Rating Demands New Facilities

could go up unless the issue is approved. If the issue is approved, it will probably mean a tax hike of around three cents per \$100 assessed valuation. A 12-cent tax hike is in store if all the general obligation bonds are passed.

Estimated cost of the two new fire stations would be \$100,000. One of these stations is planned for the Howard County Junior College area and the other is slated for the north side of town.

Actual sites have not yet been selected, though there has been talk of building one station on the Junior College ground. Both stations will accommodate two trucks.

A one-cent charge will be made in the city's key insurance rate for each station not constructed. The two 750-gallon pumper trucks, fully equipped, will cost approximately \$40,000. The State Fire Insurance Commission has announced that the city's credit will be extended for a reasonable time for the vehicles to be purchased.

A total of \$5,000 of the bond issue money is slated for furnishing the two new stations. This will include kitchen equipment, beds and dormitory furniture in both. Equipment for two companies must be installed in each.

NEW YORK (U) — Doll manufacturer David Rosenstein has sent apologies to President Eisenhower for a protest over the President's purchase of Swiss dolls for his grandchildren.

"They don't seem to make the love stories they used to," she commented. "Just when we start going back to love; someone comes along and makes a wonderful picture with only men in it. That sends the girls back again."

In All Their Glory

There must be at least 250 blossoms (not by actual count) on this moonvine in the west yard of the Carl Strom home, 501 Westover Rd. Planted where the sun is late hitting, the flowers stay open for a short time during the day. They are night-blooming plants and close as soon as the sun grows brighter and begins to warm things up.

Moonvines Are Answer To West Texas Climate

By ANNE LEFEVER

Seems that one of the best adapted plants for West Texas must be a moonvine, or datura, if you'd like a more scientific sounding name.

If you doubt this, drive by the Carl Strom home, 501 Westover Road, some morning around 8 or 8:30. There, on the west side of the house, is a moonvine covered with white satiny blossoms that will close as soon as the sun becomes hot on them.

This plant is a volunteer, which grew from seeds scattered when the parent plants were dug across the space in the cleaning up of

the garden. In the back of the garage is a hedge of moonvines which forms a perfect screen for the garden.

The flowers are large and trumpet-shaped, with a scent which perfumes the night air — night is their blooming-time. Since they are white, they show up especially well at that time.

Mrs. Strom laughed about the way she started growing daturas. She planted what she thought were zinnia seed, but not one zinnia came from them. Instead, there was a moonvine. Now, she has enough to decorate their garden and give to various friends. Once started, they require very little attention and they are no trouble — other than controlling their growth!

The rest of the landscaping is what the dream of a garden club member would be. As a background for the two-level planting, the Stroms have left native cedars and mesquite. Against this are bright zinnias and marigolds, coleus, ceniza and other colorful arrangements.

Continuing the rustic air are the borders of the flower beds, made of cedar posts cut in short pieces. In a corner of the house is a banana tree, which comes up each year and has multiplied generously, even though it dies down to the ground every winter.

A smoke tree in the east yard, when in bloom, gives a perfect illusion of smoke. In this yard are the floribunda roses, named Ember, because in old age, they are the color of dying embers of a fire. Apart from this, but in the same location is a tiny palm tree, surrounded by yucca and cactus. The latter is planted in a big black washpot, a family heirloom.

Old iron kettles, a Dutch oven and a bean pot all add charm to the garden and are of especial value to Mrs. Strom, since they have been in her family for several generations.

When the wind blows (and when doesn't it!) the sweetest music comes from three windbells, hung in the trees and formed in three different tones. These are from Santa Fe and were fashioned by a maker who has discovered what is thought to be the original glaze used by the Chinese at one time, but lost to them over 700 years ago.

Time was all too short for wandering around this "enchanted garden," and I had to leave, with a backward glance at the ocotillo, the magnolia tree, which has bloomed bravely this summer, and the bird bath made of native stone in keeping with the retaining walls of the garden and the winding walks.

For Ragged Edges

New colored plastic tapes are ideal for edging a frayed bridge table, auto seat covers or to mend a worn wallet. Available in six popular colors—red, blue, green, yellow, brown and white they are said to be waterproof, impervious to oil, acid and prolonged sunlight.

The new FALL-WINTER FASHION WORLD, just off the press, features all the important changes in the fashion silhouette. Beautifully illustrated IN COLOR, this book brings you scores of easy-to-sew pattern designs for all ages and occasions. Send now for your copy. Price just 25-cents.

THIS IS GOOD EATING

PHYL'S SPINACH AND CORN

Ingredients: One box (10 ounces) frozen chopped spinach, 1 can (12-ounces) vacuum-packed whole-kernel corn, milk, 2 tablespoons butter or margarine, 2 tablespoons flour, 1/2 teaspoon salt, pepper, 1/2 teaspoon lemon juice.

Method: Thaw spinach; place in saucepan over moderately low heat; cover and simmer about 5 minutes; lift cover and simmer about 5 minutes; lift cover and stir several times. Turn spinach into small strainer over a measure and drain lightly. Drain liquid from corn and add to spinach liquid. Add enough milk to spinach and corn liquid to

make 1 cup. Melt butter over low heat; stir in flour; remove from heat. Stir in milk mixture gradually; make sure you stir out all lumps before each addition of milk mixture. Cook and stir constantly over moderately low heat until thickened and bubbly. Mix reserved spinach, corn and sauce; stir in salt, pepper to taste and lemon juice; reheat. Makes 4 to 6 servings. Serve with the foods listed below.

- Cold Meat
- New Potatoes
- Phyl's Spinach and Corn
- Cranberry Sauce
- Bread Tray
- Doughnuts
- Beverage

HOLLYWOOD BEAUTY

Has Some Exercises For A Lovely Figure

By LYDIA LANE

HOLLYWOOD — After Leigh Snowden and her seductive walk appeared on the Jack Benny television show, every studio in town was bidding for her.

"I chose Universal-International because they have the most extensive training course for young actresses," Leigh confided to me.

Without opening the menu Leigh ordered a cottage cheese plate with sliced tomatoes.

"If I let myself go I would have a weight problem but I'm shrinking my stomach by eating only a little at a time. I think this is a much healthier way of cutting down than starving yourself all

day for one big meal at night.

"When I was modeling," Leigh continued, "I noticed that the tight-fitting dresses were always a little too tight after lunch so I got in the habit of eating a very light lunch. I also found that I had to exercise to keep my stomach flat so I've formed the habit of exercising 5 or 10 minutes every day—in the morning and at night if I have time.

"One of the best stomach exercises for me is this one. I hook my toes under the lower part of my bed and rest my back on the floor coming up so as to touch my left elbow to my right knee, then reverse it."

"How long do you do this?" I asked.

"About 15 or 20 times," she replies. "You may have to go a bit easy at first because this is powerful stuff."

"Another favorite of mine is one where you lie on the floor, keeping your legs straight and close together. With legs in this position raise your heels about 8 inches from the floor slowly and hold for a minute, then lower them. The slower you do this the harder it becomes, but the more effective it is," she explained.

"I like to use a reducing bar, too," Leigh said. (You can get them with suction cups to fit in any doorway.) "This is wonderful for posture and gives a good pull to your spine and waistline. There's nothing like stretching to help the waistline and this bar is the easiest way I know of to correct bad posture."

During lunch we were interrupted many times by visits from agents, actors—all of them obviously attracted to this striking blonde from Tennessee.

"You are very poised for one so young," I remarked.

"Something Dale Carnegie wrote a long time ago has been a great help to me in building self-confidence," Leigh informed me. "He said, 'find yourself, be yourself, and remember there is no one else in the whole world quite like you.'"

Marriage Announced

Mr. and Mrs. H. H. McPherson will make their home in Big Spring following their marriage Saturday morning in Lovington, N. M. The Rev. C. R. Watts, pastor of the First Methodist Church of that city, performed the ceremony in his home. Mrs. McPherson is the former Mrs. Lou Helton Underwood, daughter of Mrs. Janie Robinson of Norton. The bridegroom is employed at Cosden Refinery.

Mr. and Mrs. J. O. Haney and Hal, 1101 Lancaster, have returned from Grand Lake, Okla., where they attended a gospel encampment. They also visited in Arkansas with their son and his wife, Mr. and Mrs. J. O. Haney Jr., who are parents of a son, J. O. III, born during their stay in the junior Haney's home.

A new guide to foreign currency simply and quickly compares the American dollar with the U.S. dollar is worth. It is made of vinyl to be inserted in wallet, purse or passport case and will convert quickly and accurately the number of foreign monetary units that may be bought with the American dollars.

A Housekeeping Tip

SAN DIEGO, Calif. (U.S.)—There is a large leak in my roof," the excited voice of the lady said. "Please hurry and fix it." The plumber left his job and after driving 17 miles to the frantic lady's house found the "leak" to be a large cobweb on the ceiling.

Maxwell And Wright Win Amarillo Meet

Farquhar And Baxter Lose

AMARILLO, (SC)—Big Spring's two golfing Bobbies, Wright and Maxwell, teamed up to win the annual Partnership Golf Tournament with some sensational sub-par shooting in the final round here Sunday.

The two combined their talents to subdue medalists Rex Baxter, Jr., and John Farquhar, both of Amarillo, in the 36-hole final, 3 and 2.

Baxter and Maxwell both had seven-under-par 65's on the final 18 holes. Farquhar came in with a final 66 and Wright has a 69.

Wright ended the match with a birdie on the 35th.

Baxter and Farquhar were two points up at noon but Maxwell and Wright fought back to gain six points and take a four-point lead on the next nine holes.

Baxter later carded an eagle on the 32nd while Maxwell had a birdie on the 34th.

The difference was in Wright's sensational putting in the match play, in which one point goes for low ball and one for low total.

The tournament was played over the 6,500-yard Sogardor-Rogers Municipal course.

Wright and Maxwell had originally planned to team with different individuals in the tournament, since it was uncertain when Maxwell would leave the Armed Forces.

Withdrawals threw them together again, however, and they performed sensationally throughout the tournament.

U.S. Davis Cup Hopes Dark

By WILL GRIMSLEY
SOUTHAMPTON, N.Y. (AP)—The United States' once-bright Davis Cup hopes darkened today.

Bobbies Crash Into Cellar Again, 8-3

It was probably the altitude. The Big Spring Cosden Co. climbed into a tie for sixth place in Longhorn League standings Saturday night but yesterday they plunged back into a deadlock for the cellar spot by losing to Hobbs, 8-3, at Steer Park.

Expert relief pitching by Evelio Hernandez, who pitched up his 14th win of the season, turned the tide in Hobbs' favor, and some long distance clubbing by Alex Crespo, Ed Menose and Hernandez himself.

Each had a home run in the afternoon engagement, which was stopped for nine minutes because of a shower.

Big Spring confined its scoring to one inning—the fourth—when it got maximum mileage out of two walks, two hits and a throwing error by Ossie Alvarez.

Hobbs struck for four runs in the sixth to ice away the verdict. Crespo led off with his home run and Hernandez followed with a two-run round tripper.

Aga Baca, the third of three Cop hurlers to see action, turned in far and away the best performance. Garland Turano made his first mound start for Big Spring but had his troubles until he was removed in the sixth.

Alvarez and Menose accounted for half of Hobbs' 12 hits, each with three blows.

The Bobbies could manage only five safeties off Hobbs' hurlers and no one got more than one.

F.O.V. TIPS—Double plays killing off Cop scoring chances in the first and fourth innings. Big Spring again took the field with a patched-up lineup, Floyd Martin remaining out of action with his knee injury. Shoddy fielding hurt the Cops. They committed four bobbles, two of them throwing errors. The rain came in the fourth, at a time the Cops had their bats loaded and none out.

In two innings did the Cops go down in order. Bob Martin walked three times in his four appearances. Alvarez turned in several dazzling plays.

Table with 3 columns: Player Name, AB, R, H, RBI

One of the best of the young ball players in the Senior Teen-Age baseball program is Julian Nunez of the Cardinals, a young man possessed with great native talent.

Nunez hasn't yet mastered the art of using his wrists but, once he does, he'll begin to get on base with monotonous regularity.

Four Are Tied In Bat Race

Four players are tied for the batting lead in the Junior Teen-Age Baseball League race after six games, averages compiled by Statistician Kenny Clark reveal.

They are Joe Clendinn and Allen Alexander, both of the Tigers; and two Reporter players, Bernard McMahon and Chubby Moser.

Each is batting .500.

A's AND ORIOLOS FOUL UP CONTENDERS' PLANS

By JACK HAND
The Associated Press
Take it from the Yanks and Orioles, you just can't trust those A's and Orioles any more.

While Chicago was whipping Washington in a doubleheader yesterday to open a one-game lead in the American League, New York and Cleveland were running into trouble with Kansas City and Baltimore. Both contenders had to settle for splits.

As a result of the weekend's furios action, the Yanks and Tribe today were tied for second as they drew battle plans for their three-game series at Yankee Stadium opening tomorrow night.

Boston, a double winner over Detroit, 5-3 and 3-2, is only three games behind the White Sox, who invade Fenway Park for three games, also starting tomorrow.

Chicago had to press hard to take Washington 3-1 in 11 innings when a Senators' relief pitcher, Pedro Ramos, hit one man and walked another with the bases loaded. Then they had to hold on tight to ride out a ninth inning Washington threat to save the second game 6-5.

The recall of Don Larsen from the Denver farm looked like just what the Yanks needed as he threw a four-hitter at the A's in the first game for a 5-2 victory. Then the A's, who humbled New York Saturday 12-2, rose up to score five in the ninth and take the second game 7-1. Gus Zernial's two-run homer in the eighth gave the A's the lead. The clubs tied a major league record with nine double plays in the second game.

Cleveland saw a three-run lead melt away as Baltimore scored four in the eighth to win the first game 4-3. The Indians needed a triple play and a six-hit shutout by Art Houtteman for a 6-0 verdict to get even for the day.

Brooklyn continued to pour it on its National League rivals, opening up a 1 1/2 game edge over St. Louis waukiee by bombing the St. Louis

BOBBY MAXWELL

BOBBY WRIGHT

LOOKING 'EM OVER

With Tammy Hart

Artie DiCesare has already blazed third strikes past more Longhorn League batters than any Big Spring hurler did throughout the 1954 campaign.

Tito Arenchiba, presently in the Armed Forces, led the Big Spring club in strikeouts last year with 140.

Only Bart DiMaggio (Artesia), Ralph Atkinson (Midland), Julio Ramos (Midland) and Bob Weaver (Carlsbad) wound up with more strikeouts last year than DiCesare has at this writing and Artie should press the aggregate of DiMaggio (167) and Atkinson (168) any day now.

The talent runs heavy in the Teen-Age and Little League baseball program here. No one can dispute that.

There have been isolated instances of unsportsmanlike conduct, which are to be expected—though not condoned—in so huge a program.

The boys should get their biggest lesson in sportsmanship at that age and those directing the program should keep a tight rein on them. The things a boy learns at that impressionable age he will carry through life with him.

This is criticism but it should be taken as constructive criticism. Some of the lads are not wearing full uniforms on the field, although they are issued same. Rules call for complete uniforms, including caps, at all times.

Good dress doesn't make the ball player but it helps sell him to the public. And a few of the lads would be picketing their sponsors in protest, if they weren't properly outfitted.

All of the men in charge of the small-fry baseball program are fine upright citizens. No one will dispute that. There have been conspicuous instances, however, where the managers have not used the best language in trying situations. The boys echo any profanity heard and it doesn't sound flattering.

One of the best of the young ball players in the Senior Teen-Age baseball program is Julian Nunez of the Cardinals, a young man possessed with great native talent.

Nunez hasn't yet mastered the art of using his wrists but, once he does, he'll begin to get on base with monotonous regularity.

Some readers have asked why Big Spring's Billy Maxwell didn't compete in the recent PGA Golf Tournament at Detroit.

The young pro wasn't eligible to take part, since he hadn't been a member of the organization long enough.

The rules of eligibility are waived every once in a while but it doesn't happen very often.

Levelland is supposed to have gained 23.9 per cent in population since 1930—to 10,744.

The school there may be ready for promotion to AAAA in a few years, or whatever the top classification of Texas High School Athletics is, after the regrouping takes place in the next few months.

Pedro Labrador, wild and erratic while a member of the Big Spring Longhorn League mound staff a few years ago, won five games and lost four for two Mountain States League clubs last season.

He started with Lexington and went from there to Kingsport. The league disbanded on July 20.

When Jim Zapp quit the Big Spring baseball club recently, he must have meant it.

He gave his glove to one of the bat boys.

Ray Taylor, the stellar TCU punter who hails from neighboring Lamesa, has been getting a fan's eye view of Amos Carter Football Stadium in Fort Worth all summer. He's one of several Frog footballers hired to re-number the seats.

I hear Stubby Greer may depart the Roswell ball club to play shortstop for the Shreveport Sports. Joe Bauman is supposed to be in line for Greer's managerial job at Roswell, although he doesn't want it.

Cigar, Chewing Gum Nite At Steer Park Tonight

Odesa moves into Steer Park this evening to begin a five-game series with Pepper Martin's resident Cosden Cops. Game time is 8:15 p.m.

The first two contests of the series will be unrereled here, the next two in Odesa and the final one here Friday night.

Tonight will be Cigar and Chewing Gum Night. All men entering the park will be given stogies while the women get chewing gum.

Better still, there'll be cash and ticket gifts wrapped around the cigars and gum.

Crockett Night" pony, which will be given away here the night of Saturday.

AT SAN ANTONIO

Enrollment Record Due To Be Shaded

SAN ANTONIO (AP)—The gigantic Texas Coaching School, attracting high school and college athletic teachers from six states and Mexico, opened today with indications of a new record enrollment.

More than 1,400 had signed up through last night and there was a long line this morning as the coaches hurried to hit the "class rooms" where such experts on football as Bud Wilkinson of Oklahoma and George Sauer of Baylor and basketball students like Phil Woolpert of San Francisco and Milton Jowers of Southwest Texas State described the latest tactics leading toward winning teams.

Yesterday was the largest opening registration day in the 25-year history of the "world's largest" coaching clinic and there was a possibility that the record of 1,906 set at Dallas last year would be eclipsed.

L. W. McConachie of Edna, executive secretary of the Texas High School Coaches Assn., sponsor of the school, registered coaches from Texas, New Mexico, Arizona, Oklahoma, Kansas and Louisiana and there were five from Mexico.

For the first time in years, however, El Paso will not have a coach at the school. That city is holding its own clinic later this month with Mike Brumelow, coach of Texas Western, conducting. There are some 50 coaches in the El Paso District schools.

The school next year will be held at Lubbock and three cities already have entered bids for 1957. They are Dallas, Fort Worth and Houston.

Grocers Bounced In Semi-Finals

BRONTE, (SC) San Angelo's Merchants topped Piggy-Wiggly of Big Spring in the semi-finals of the district tournament of the State Softball Association only to run afoul of Bronte in the finals, 6-1.

Both Bronte and San Angelo won trips to the State ASA Tournament at Wichita Falls, however.

Henry Ransom Wins At Akron

Argentine Begins Mississippi Swim

CAPE GIRARDEAU, Mo. (AP)—Argentine swimmmer Antonio Abertondo expected to pass the halfway mark today—his 37th birthday anniversary—in an attempt to set a 300-mile Mississippi River endurance record.

Abertondo began his swim at St. Louis Saturday morning and hopes to reach his goal at Cottonwood Bend, below Caruthersville, Mo., late tomorrow after spending more than 100 hours in the water.

At 6:30 p.m. yesterday he had covered 116 miles. There was no further word on his progress during the night.

The Argentine government employe was described by assistants accompanying him in a boat as "in good spirits and confident."

Pedro Paulis, a Mexican interpreter traveling in the boat, entertains Abertondo by playing some of his favorite songs on a guitar.

The swimmer in fed a tomato, orange juice, broth and a special herb brewed into tea at regular intervals.

Gene Towry Wins Publinks Crown

DALLAS (AP)—Gene Towry, former Lamesa and Brownfield professional now studying at Southern Methodist University, fired a 6-under-par 66 yesterday to become Texas Publinks golf champion.

The pint-sized scholar needed the 66 in the afternoon because of his 74 in the morning, for a 280 total. It was enough to bring him home six strokes ahead of Dick Martin of Dallas.

Marvin's 286 was two better than Art Cohn of Dallas and Dick Wetzel of North Texas State.

Enrollment Record Due To Be Shaded

SAN ANTONIO (AP)—The gigantic Texas Coaching School, attracting high school and college athletic teachers from six states and Mexico, opened today with indications of a new record enrollment.

More than 1,400 had signed up through last night and there was a long line this morning as the coaches hurried to hit the "class rooms" where such experts on football as Bud Wilkinson of Oklahoma and George Sauer of Baylor and basketball students like Phil Woolpert of San Francisco and Milton Jowers of Southwest Texas State described the latest tactics leading toward winning teams.

Yesterday was the largest opening registration day in the 25-year history of the "world's largest" coaching clinic and there was a possibility that the record of 1,906 set at Dallas last year would be eclipsed.

For the first time in years, however, El Paso will not have a coach at the school. That city is holding its own clinic later this month with Mike Brumelow, coach of Texas Western, conducting. There are some 50 coaches in the El Paso District schools.

The school next year will be held at Lubbock and three cities already have entered bids for 1957. They are Dallas, Fort Worth and Houston.

AND NOW - THE NEW IMPROVED SHALER RISLONE TUNES UP ALL ENGINES AND RESTORES LOST COMPRESSION AND POWER FASTER THAN EVER BEFORE

RISLONE tunes up sluggish engines

...and keeps new engines in tip-top shape by stopping formation of gum and sludge

It's smart not to wait until your car's engine gets sluggish from gum and sludge before using Rislone. Although it's widely used as a cure for those conditions, Rislone is also widely used as a preventive—to stop them from forming in the first place. In fact, many garages recommend the use of Rislone as a break-in oil in new and reconditioned engines.

Rislone is an oil alloy—made to a secret formula—that absorbs gum and disperses sludge in your car's engine. It is the original oil alloy for all motor oils—and it carries a money-back guarantee if you cannot feel improvement in your car's performance after ten miles of driving.

It pays to use Rislone—ask for it at your service station, car dealer's, or garage today.

Here's what RISLONE does for your car:

- Frees sticking valves
- Eliminates noise in hydraulic valve lifters
- Tunes up sluggish engines—keeps them running more quietly and smoothly
- Absorbs power-robbing gums and sludge
- Restores lost compression and power
- Facilitates break-in of new and reconditioned engines—permits normal driving speeds immediately
- Keeps oil free-flowing in sub-zero weather for quicker starting and immediate adequate lubrication

Warranty: Rislone is guaranteed NOT to contain benzene, acetone, naphthalene, methylenediamine, disinfectants, carbon tetrachloride, kerosene, or any other material which can burn the delicate parts of an internal combustion engine. It also carries a money-back guarantee in the event that you cannot feel improvement in performance after ten miles of driving. Keep an Rislone, the genuine and original oil alloy for all motor oils.

Solution of Saturday's Puzzle

PAR TIME 30 MIN. 47 Wordsworth 8-1

Hunt Turns To Tragedy

WESTON, Conn. (AP) — Lynn Faust, 19, kept after her boy friend to take her crow hunting. They went off into the deep woods yesterday. Lynn begged her beau Buell Neidlinger, 19, to let her carry his 16-gauge shotgun. He passed it over to her. She took it, leaned against a tree and put the end of the barrel under her chin. Neidlinger was startled. "You're not thinking of doing anything with that?" he asked. No, Lynn said. Then she kissed him, told him she loved him and darted off suddenly. Neidlinger was puzzled for a moment, but ran after her. Before he could reach her, he saw her stop, place the gun under her chin again and pull the trigger. She died instantly. Dr. Harry S. Phillips, medical examiner, said Lynn had committed suicide. He said she had suicidal tendencies. Neidlinger was so badly shaken he required medical treatment.

This Is Strictly For The Birds

PARIS (AP) — The sparrow line, giving the girls that bird-breasted look, was introduced last night by Jean Dessea. The deed is done with belts and cutaways beginning at the bust and ending at the lower back. Sad browns sobered the whole show. Also present were blue-blacks and a range of purples from eggplant to violet. As usual, Dessea developed his one idea — this time the sparrow — to the point of boredom. See one dress and you've seen the show. Buttons are set high and leave off under the bustline to add to the high-in-front waist. Wing flaps curve from the underarm around to the back. Skirts are flat in front and gathered behind in a down-curving arch. The whole effect recalls Schlapprell's "Grasshopper" collection of several seasons ago. The Dessea capeau is a wig hat of spiky chopped felt, for a boy's look, or in long-haired fox for a savage air. Favorite formal fabrics are velvet and chiffon.

Atlantic Allies Begin Maneuvers

NAPLES, Italy, (AP) — Air, land and sea forces of the Atlantic Allies began large-scale exercises today to test the defenses of northern Greece and adjacent sea areas. NATO Headquarters for Southern Europe here announced that at dawn the defense test began against "enemy" forces from the north.

18 Philippine GIs Die In Bandit Fight

MANILA, (AP) — Eighteen soldiers were killed and 19 wounded in a clash Saturday with Moro bandits on Jolo Island, Chief of Staff Lt. Gen. Jesus Vargas said today. Four or five bandits were reported slain.

Shock Is Fatal

WOODBORO, Md., (AP) — James E. Knox, 22, Emmitsburg, was flying a model airplane when the metal guy wire attached to it touched a 7,200-volt power line. A witness said Knox fell, then jumped up and exclaimed, "That was an awful shock!" An instant later he fell again — dead.

LEGAL NOTICE

NOTICE TO BIDDERS Sealed proposals addressed to the Honorable Mayor of the City of Big Spring, Texas, will be received at the office of the City Engineer, City Manager, until 5:00 p.m., August 23, 1958, for furnishing certain materials, machinery, equipment, tools, supervision and labor for constructing seal coat treatment on certain streets of the City of Big Spring, Texas. Approximate quantity is 6,810 square yards. The Owner will furnish a check for \$25,000. Bidders must submit a cashier's or certified check for \$25,000 to the City of Big Spring, Texas, or a proposal bond from a reliable surety company, payable without recourse to the City of Big Spring, Texas, in an amount not less than five (5) percent of the bid submitted as a guarantee that the bidder will enter into a contract and execute the same within the time specified in the forms provided within ten (10) days after notice of award of contract to him. Bids without the required check or proposal bond will not be considered.

Russians Slate Early Departure From Austria

MOSCOW (AP) — Soviet Defense Minister Georgi Zhukov has ordered 44,000 Russian occupation troops to leave Austria by Oct. 1 — a month ahead of their deadline. Marshal Zhukov, wartime friend of President Eisenhower, announced the decision in an order of the day yesterday. He also said Russia's 44,000 armed forces would be reduced by the number pulled out of Austria, in keeping with a Soviet proposal at the summit conference that all four occupation powers cut their forces by the number evacuated from Austria. The Russian order came just four days after the effective date of the Austrian Independence Treaty. Under that pact, all four occupying powers — the United States, Britain, France, and Russia — are required to remove their troops within 90 days. When the four powers signed the treaty with Austria May 15, occupation forces totaled 70,000. Of these, 30,000 were Americans. Their commander, Lt. Gen. William H. Arnold, said their withdrawal would begin immediately and continue over several months. Most of the remaining 5,000 will move south within 30 days to reinforce Italy's northeastern frontier under NATO. Zhukov's order said Russian troops demobilized would "actively join the constructive labor of the Soviet people in building communism in our country."

Missing Boy Case Deepens

DALLAS (AP) — A fruitless trip to the East Coast has only deepened the mystery over the whereabouts of a blond, blue-eyed baby, Gary DeWayne Bray. Accompanied by a deputy sheriff, the missing child's stepfather, Travis Parrack, went to Wilmington, Del., over the weekend for a first-hand look at a boy found in a church there. It wasn't his missing stepson, Parrack reported. It was on June 29 — more than a month ago — that Mrs. Parrack 20, called in her children for lunch at 11:15 a.m. They all came — Gary DeWayne Bray, 22 months old; Johnny Lee Bray, 5, and stepson Larry Keith Parrack, 6. But at 11:45 a.m. — a half hour later — she called her children again, and the toddler was missing. Since then abandoned refrigerators have been opened, ponds and ditches dragged and empty houses searched in a widening circle around the Parracks' suburban home. Not a trace nor a clue has been turned up.

Pakistan Cuts Value Of Rupee

KARACHI, Pakistan, (AP) — Pakistan has cut the value of its currency, the rupee, almost a third. Formerly valued at 30 U.S. cents, it was marked down yesterday to 21 cents. The change brings the rupee down to par with currencies of most of the other sterling bloc countries. When Britain devalued the pound in September 1949, Pakistan's exports to the dollar area were booming and the Karachi government did not go along with other Commonwealth members. A government press note on the change explained the Pakistanis hope to pick up more foreign customers for their increasing production of manufactured goods.

Baby Born To Polio Victim Dies

DALLAS (AP) — Death came last night to the 2-week-old baby believed to have been the first in history born while his mother was under hypnosis. The infant, Michael Edward Schwartz, died of pneumonia. Polio, the ailment which afflicted his mother and brought about the delivery under hypnosis, was not a direct factor.

75 Witnesses Due In Ex-PW's Trial

FT. LEWIS, Wash. (AP) — About 75 witnesses, most of them former prisoners of war in Korea, were scheduled today to testify at the Army court martial of Lt. Jefferson D. Erwin beginning tomorrow. The 38-year-old career soldier from Blanchard, Okla., is charged with giving aid and comfort to the enemy and making statements derogatory to the United States while he was a prisoner of war in North Korea. One of the most damaging accusations against Erwin involves his activities as a delegate to the so-called POW "peace committee" at POW Camp No. 12 near Pyongyang.

'Little Miss Nobody' It wasn't the picture of a similarly abandoned little boy in Wilmington, Del., which made her cry. "She just doesn't like men," a welfare worker said in explaining the photographer upset "Little Miss Nobody." The youngster, found wandering in a downtown Baltimore, Md., nickel and dime store last week, continued to baffle authorities trying to learn her identity. They thought the picture of the boy found in a Wilmington church (being held by a social worker) might persuade her to talk but she answered only "Yes" or "No" and without apparent meaning.

Formosa Observes 'Black Monday'

TAIPEI, Formosa, (AP) — This was considered Black Monday in this Chinese Nationalist capital because the United States and Red China were meeting in Geneva. Top officials withheld comment, but the atmosphere was heavy with foreboding. The U.S. Embassy confirmed newspaper reports that the Nationalist government of Chiang Kai-shek would be kept fully advised of developments of the meeting of ambassadors in Geneva. Individuals in the press and private organizations were outspoken in expressing fear that Nationalist interests would suffer if U.S. Ambassador U. Alexis Johnson and Wang Ping-nan, Peiping's envoy, should open the way to any agreement on Formosa. Almost forgotten was the all-but-dormant civil war, in which no reported action has occurred since July 20, when the Reds on Amoy were credited with firing 242 shells at Nationalist outposts. The clamor against interests affecting Nationalist China being discussed at Geneva was highlighted by a message sent President Eisenhower by the Formosa Provincial Assembly, which said any such discussion would be solidly opposed here. Nationalist radio stations broadcast a forum on the Geneva talks.

Russian Food Wears Yanks

KRASNODAR, U.S.S.R., (AP) — The touring American farmers are having a hard time convincing their Russian hosts they came to see the Soviet Union's farms, not to eat and drink to overcapacity. Worn out from the huge quantities of food and vodka with which they have been entertained everywhere, the Americans asked on arrival in the Koban farm lands Saturday that they be spared the vodka. They got champagne instead. Yesterday they amazed their hosts by insisting they be shown some farms instead of making a scheduled visit to a champagne bottling works and another long lunch. The Russians finally agreed and the 12 Americans toured several neighboring collective farms. The visitors reportedly found these farms less impressive than the ones at which they've been expected.

'Murder' Attempts Cut Bus Service

LITTLE ROCK, Ark., (AP) — Because of what company officials termed "first-degree murder" attempts against nonunion drivers, bus service after 8 p.m. has been suspended in Little Rock and North Little Rock. Eugene Warren, attorney for Capital Transit Co., announced the curfew last night. He said it would remain in effect "until proper authorities can restore safety of night travel on public thoroughfares." Warren said the decision to withdraw the company's nonunion drivers "from the line of fire" came after six separate incidents of gunfire aimed at the city buses were reported to police Saturday night. The labor dispute involved the selection of a third member of an arbitration committee to rule on union demands, including a 14-cent increase in the \$1.31 to \$1.61 hourly wage. Since the company has hired new drivers and mechanics, it has maintained that the strikers are no longer employees and has refused to negotiate further.

WAGE DISPUTE

discontinue at night when profits are small. Saturday night's incidents, which followed three weeks of scattered violent acts, involved four buses on runs in both cities. The driver of one bus said the vehicle was struck three times. The nonunion drivers were employed shortly after the walkout. Police reports show that weapons used against buses have included shotguns, powerful pump-type air pellet guns, pistols and 22-caliber rifles. Saturday night, air pellet guns were used. So far, the only injury has been a scalp wound suffered by a non-union driver when a rock hit his head. The labor dispute involved the selection of a third member of an arbitration committee to rule on union demands, including a 14-cent increase in the \$1.31 to \$1.61 hourly wage. Since the company has hired new drivers and mechanics, it has maintained that the strikers are no longer employees and has refused to negotiate further.

Girl Slayer Suspect Sees 'Act To Get Rid Of Me'

OAKLAND, Calif. (AP) — The theory that Stephanie Bryan's murder could have been an "intentional act to get rid of me" has been suggested by Burton Abbott, 27-year-old University of California student accused of the still-unexplained crime. "But then, when I think of that, I come back to the question—Who would want to get rid of me?" he said yesterday in an interview copyrighted by the San Francisco Examiner. Abbott, indicted on kidnapping and murder charges, told a reporter: "Look at it this way: This whole thing could have started as something else, you know. I don't know what. And then somehow, I was implicated unintentionally. "Or it could have been started as an intentional act to get rid of me." Abbott was arrested after a red purse belonging to the 14-year-old junior high school girl was found in his basement by his wife Georgia. The girl disappeared April 28 while walking home from school in Berkeley. Her body was found July 20 in a shallow grave 538 feet from the Abbott cabin at Wildwood, 270 miles north of Berkeley in mountainous Trinity County. Abbott told reporters the basement was never locked, that a number of friends as well as his family knew about the cabin. Repeatedly declaring his innocence, Abbott says he was at the cabin the day Stephanie disappeared. He told yesterday of visiting the cabin again the week of June 27. No foreigners were reported near the scene. The fire destroyed 17 surrounding private homes.

Factory Blast Kills 13 Japs

TOKYO, (AP) — Thirteen persons were killed and at least 14 injured tonight when a flash explosion destroyed a fireworks factory on Tokyo's Sumida River. Several persons were missing. No foreigners were reported near the scene. The fire destroyed 17 surrounding private homes.

Colts Regain Top Spot In League
By The Associated Press
San Angelo's Colts just managed to get out of their series with Artesia with the Longhorn League lead still tucked under their arms. The Colts stopped Artesia 5-3 last night in the final of a three-game set to again take over first place after Artesia had spent a one-day stand at the top. The Colts now lead by one full game.
In other games, Midland moved past Carlsbad and into the first division with a wild 15-11 victory over the Potashers. Hobbs got out of the cellar and into sixth place by beating Big Spring 8-3 and Rowell punished Odessa 12-2.

Midland Opposes Pampans Today
Midland Central, winner of the recent Area Little League baseball tournament held in Big Spring, takes on Westerns of Pampa in the first round of play in the District Tournament at Lubbock at 2:30 o'clock today.
Lubbock faces Snyder in the other engagement, with the winners clashing Tuesday for the title.
The champion of the meet becomes eligible to take part in the Sectional Tournament at Midland next weekend.

Orioles Release Bonus Pitcher
BALTIMORE (AP)—The Baltimore Orioles said yesterday that they had released pitcher Jimmie Foxx. Foxx, who had pitched for the Orioles since 1951, was released because of his age and the fact that he had not pitched in the majors since 1951. Foxx had pitched for the Orioles for a total of 10 seasons, during which he had pitched in 1,000 games and had a record of 100 wins and 100 losses. He had pitched in 1,000 games and had a record of 100 wins and 100 losses.

Cats Turn Back Braves, 9 To 1
The ABC Cats toppled the Big Spring Braves, 9-1, in a baseball exhibition played here Sunday. Lloyd Harrison hurled the win, fanning nine and giving up only three hits.
Evelyn Eiland, the loser, was touched for 11 hits and fanned eight.
David McIntire paced the Cat attack with a double and two singles.

UNCLE RAY'S CORNER

At left is a compound eye of a housefly. At right is close view of a drone bee, showing two compound eyes, three simple eyes and a pair of feelers.

People are like furry animals in many ways, but they differ widely from insects.

Like a furry animal, a man has warm, red blood, also two eyes, four limbs and a pair of lungs.

An insect, on the other hand, is cold-blooded. Often it has five eyes, sometimes six. In the adult stage it usually has six legs. Insects breathe air, but an insect with a pair of lungs never has been discovered.

I have said that an insect often has five eyes. This is quite true, despite the fact that we usually see only two of the eyes.

The eyes which are easy to observe are the compound eyes, one on each side of the head.

A compound eye has many parts.

Hundreds of tiny images come through, but they may blend together to make one big image. Scientists have theories about this, but it is impossible for a human being to get inside an insect's head to see just what happens.

Counts have been made of the number of parts in compound eyes. Some insects have eyes with a few hundred parts. In other cases a compound eye has thousands of parts. An estimate has been made, for example, of 4,000 parts in the compound eye of a housefly.

Many an insect (as a grasshopper or a bee) has compound eyes which are plain to see. Simple eyes, on the other hand, are hard to locate.

If you look at the head of a bee through a lens, you can see all five eyes clearly. Three simple eyes are between the two compound eyes, and are very small.

Tests by a German scientist have shown that a honeybee can see ultra-violet color which is missed by human eyes. On the other hand the honeybee seems without any power to tell the difference between red and black.

Some insects have four simple eyes, instead of three. The central simple eye, in a set of three, is a combination of one eye from each of two pairs. The central eye has a double nerve; the other simple eyes have single nerves.

Tomorrow: Good and Bad Insects.

'Some' Facts Forum Pressure Admitted

NEW YORK, (AP)—The American Civil Liberties Union says it has found some basis for at least one complaint about pressure-group

activity against Facts Forum but nothing worth a full-scale investigation.

Hardy Burt, producer of radio and TV shows for Facts Forum, had asked the ACLU last November to check on what he called "an incredible campaign of vilification" aimed at forcing Facts Forum off the air.

In a report to Burt yesterday, Patrick M. Malin, executive director of the ACLU, said there was some basis for its complaint against the National Issues Committee. Malin said that organization, which has since been disbanded, pressured the Mutual Broadcasting System to drop Facts Forum's "Reporters Roundup program by threatening a Federal Communications Commission investigation of the network's programming policy.

The disputed program is still carried by some Mutual stations. MBS had no comment on the ACLU report.

The ACLU found no grounds for charges that the American Committee for Cultural Freedom used pressure to turn the National Broadcasting Co. against Facts Forum. "Certainly the ACCF was wholly within its right to free expression to convey to NBC its views," Malin said.

Malin also tossed out a number of other complaints by Burt, one of them against radio station WEAN in Providence, R. I. and ACLU quoted Station Manager H. William Koster as saying "Reporters Roundup was dropped when WEAN merged with another station. Malin also said, "We are impressed by the station's answer to charges of bias and monopoly."

Facts Forum is a nonprofit organization, founded and largely financed by Texas millionaire H. L. Hunt. It lists itself as a nonpartisan, educational organization but its critics generally claim it has a "right-wing" or conservative bias.

Skindiver Gets Pulled To Sea

FORT LAUDERDALE, Fla. (AP)—A six-foot shark, maddened by a skindiver's spear, pulled the fisherman two miles out into the Atlantic yesterday.

The fisherman, James Jones, 24, held on grimly until the spear pulled out of the shark's head and then swam back to his boat and resumed spearfishing. He said he didn't want to turn loose and lose his expensive spearfishing gear.

The long haul and return took two hours. Jones speared the shark in an underwater hole, thinking it was a "small fish." He held to a 10-foot line during the tow through water about 15 feet deep, managing to get to the top often enough to breathe.

The shark made no attempt to attack him, Jones said.

Peron Rejects Bid For Peace

BUENOS AIRES, Argentina (AP)—President Juan Peron's newspaper voice has rejected the opposition Radical party's call for an end to the state of internal war in Argentina.

The paper, Democracia, said in an editorial yesterday that Peron's government needs the sweeping police and court powers, resulting from the suspension of constitutional guarantees nearly four years ago, "while belligerents exist."

The editorial replied to a broadcast last week by Radical party leader Arturo Frondizi, who demanded sweeping government reforms, including the ending of the state of internal war.

Summer Romances

The grass has turned green, the trees have gained their summer foliage, warm breezes are blowing and birds are singing love songs and building nests.

That's nature. In the spring male calls to female and vice versa. Instinct works beautifully with animals, birds, and insects, but summer romances between people often yield only heartbreak.

One has to be on guard against being hit in the heart with a foul ball during the summer. In the winter, people who are not suited to each other seem to realize it and be content with casual, just-for-fun dating.

Cupid goes scouting in the summer, though, and the same two people are apt to look dreamy-eyed at each other and start composing poetry.

Romance flowers in the spring and summer like at no other time, and hearts are broken in the fall as the mystic spell fades.

Why? The weather and instinct tell only part of the story. Summer presents more time for social life and day dreaming. Boys usually have more money (from summer jobs) with which to awe their girl friends.

Vacations bring new situations and glamorize life. A plain Jane in her own neighborhood may easily find herself a glamorous Gloria as she becomes that "exciting new girl" staying at the resort hotel, in another city.

Requests for pictures, and prom-

ises to write should be taken with a grain of salt. Vows of undying love, too, should not be taken too seriously until they have stood the supreme test of time and absence.

Write on pictures or in letters with extreme discretion. Summer romances can blossom into the real thing — but not usually.

(All letters addressed to Miss Brandow in care of The Herald and enclosing a stamp, will be answered personally.)

Gulf Storm Moves Inshore

NEW ORLEANS, (AP)—Tropical storm Brenda was 25 miles off the mouth of the Mississippi River early today and the New Orleans Weather Bureau said if it continues its current movement it would move inland tonight along the Louisiana coast between Grande Isle and Point Aufer.

The storm is not of hurricane force. The Weather Bureau said its highest winds are estimated at 50-60 miles per hour near the center. Gales extend out 50-10 miles to the east of the storm center.

Storm warnings are displayed from Galveston, Tex., to the Mississippi River.

Farewell Tea

TAIPEI, Formosa, (AP)—Rear Adm. Frederick N. Kivette, outgoing commander of the Formosa Strait patrol, was given a farewell tea today by President Chiang Kai-shek. Another guest was Rear Adm. George W. Anderson Jr., who takes over from Kivette Wednesday. Kivette is going to Pearl Harbor as chief of staff to the commander in chief of the U.S. Pacific Fleet.
