

Adjournment Marked By Good Humor

WASHINGTON (AP)—Bitter wrangles of the last few days turned to mutual compliments and rollicking good humor as Congress ended its seven-month session early today.

Ike Presents Civilian Medal To Anderson

WASHINGTON (AP)—President Eisenhower today presented Robert B. Anderson of Vernon, Tex., who is retiring soon as deputy secretary of defense, the Medal of Freedom for "exceptionally meritorious service in furtherance of the security of the United States."

The ceremony in the White House rose garden was attended by Pentagon civilian and military leaders. The citation accompanying the medal said Anderson had contributed to the sound advancement of national security through his work in international affairs, particularly as defense member of the Operations Coordinating Board, and through his participation in meetings of the North Atlantic Council and in the development of the St. Lawrence Seaway program.

The Medal of Freedom was established in 1945 as the suggestion of President Truman for distinguished service by civilians in the interest of the nation's security. There have been five previous awards, all to Pentagon or White House aides.

3 Held In Rifle Attack

LITTLE ROCK (AP)—Three men were held today without charge in connection with a rifle attack Monday night on property of the struck Capitol Transit Co. About 10 p.m. Monday, shots were fired at two 15,000-gallon fuel tanks belonging to the firm. The tanks were under guard, and guards replied with rifle fire.

Prosecutor Frank Holt said two of the men, Clarence Lee Simpson, 19, and Clarence Lee Smith, 31, had signed statements implicating themselves in planning the shooting.

The other man, George Royce, 26, "wouldn't tell us anything," Holt said.

cratic-controlled Congress, which had strongly supported him in foreign policy matters and given him much he asked in the domestic field.

A half-dozen major bills and scores of lesser ones had been rushed to his desk in the final long day and night of this first session of the 84th Congress.

These included bills on housing, polio vaccine, the local transit strike, defense production, loans to small business and a money bill to finance Congress itself.

Eisenhower had expressed displeasure with some features of the housing bill, but some Republican leaders discounted the talk that he might summon a special session to deal with the issue again.

Barring a special session, Congress will return Jan. 3.

Adjournment came two working days after the target date which Democratic leaders had fixed. The House quit at 11:36 p.m., the Senate at 12:05 a.m.

Many Senate and House members already had left the capital for home or on trips planned in the expectation Congress would quit Saturday as originally planned.

Few others were expected to stay long in Washington's heat — it reached a steamy 98 yesterday — although a few committee hearings were planned for the next few days.

Left in midair were controversial proposals for construction of atomic merchant vessels, highway building, school construction, exemption of natural gas producers from federal regulation, upper Colorado River development, customs simplification, rigid farm price supports and expanded social security benefits.

All these were passed by one house but ignored by the other. They remain alive to touch off new disputes in the 1956 election-year session.

The legislators took no action on several recommendations Eisenhower is expected to renew next year.

These include proposals for liberalizing the Refugee Admission Act, increasing postal rates, lowering the voting age to 18, loans for low-income farmers, federal reinsurance of health programs, pay increases for top government executives and revision of the Taft-Hartley Labor Relations Act.

Looming on the horizon for 1956 when the Democrats still will control both houses, barring upsets caused by deaths, are expected new proposals to cut taxes and a showdown fight over Democratic-supported efforts to restore rigid farm price supports.

The House wound up its business in a carnival atmosphere, with perhaps more than the usual amount of singing and general hijinks.

But that ended shortly before adjournment with a tribute to his colleagues from Speaker of the House Rayburn (D-Tex.), who said: "I think you have been the hardest working Congress that it's ever been my privilege to serve."

Senators, less boisterous, passed around compliments. Then in a chamber from which nearly all his colleagues had departed, Sen. Morse (D-Ore) spoke on into the night on aid to education.

There were some few differences of opinion over the record the two houses compiled in a session that began Jan. 5.

Abandoned Children Reunited

Two-year-old George Connelly (left) who was found whimpering in a church in Wilmington, Del., and his three-year-old sister, Veronica, who was found in a Baltimore, Md., department store, are led from a court at Wilmington by their aunt, Mrs. Joseph Lawler of New Garden, N.Y., after a court had given her custody of the children. Meanwhile, search for the youngsters' parents, Mr. and Mrs. George Connelly, continued. Police said the father, a 32-year-old Queens steamfitter, is wanted for questioning in connection with a \$300,000 New York bank robbery.

STARTS TODAY

Rodeo Has Makings Of Exciting Show

If contestants and rugged stock — two of the prime ingredients of a rodeo — count for their usual part, the 22nd annual Big Spring Cowboy Reunion and Rodeo starting today shapes up as one of the most exciting in the long history of the show.

Closing time for entries found 132 cowboys on the line, according to Mrs. Rosemary Tompkins, secretary.

Among them were top names in rodeo circles from Idaho to Texas, from California to Arizona, Colorado, and Oklahoma. There were almost twice as many as last year, yet they were well enough spread that Mrs. Tompkins pointed out there would be no need for in-between show eliminations except possibly in the cutting horse event.

Today's festivities were due to begin rolling with the colorful parade set for 4 p.m., moving west from Goliad at Third. Malcolm Patterson, chairman, again reminded the line of march would be to Runnels, north to First, west to Scurry, south to second, east to Main, north to Fourth, west to Bell, where the parade will break up.

At the Chamber of Commerce, reservations had been listed for 50 boxes, most of them for the duration of the show.

Advance sale of tickets — at the Chamber, Jones Motor, Dibreil Sporting Goods, Men's Store and First National Bank — were gaining in tempo as people acted to expedite entry at the gates.

At the rodeo grounds, Everett Colburn, producer of the Madison Square Garden rodeo and many of the top western shows of the country, had everything ready for the curtain raiser at 8 p.m.

He had a carload of Brahma bulls as yet untested by riders and calculated to give both riders and the bull-fighting clowns, D. J. Gaudin and Buck LeGrand, a rough evening. Likewise, the Brahma calves were fresh and making their first appearance in a rodeo ring. Naturally, ropers were expected to have a salty time of it. Bucking horses, both those for bareback and saddle riding, have come out of pasture after long resting. Dogging steers and cows for the wild cow milking contests were strong and vigorous.

Harry Lees and others announced the big rodeo bowl, one of the finest plants in all of the Southwest, was in good shape. The best parking area is being wet down to control the dust.

Kefauver, Dixon Clash At Hearing

Contract Signing Illegality Denied

WASHINGTON (AP)—Sen. Kefauver (D-Tenn) charged today that Edgar H. Dixon acted illegally in negotiating and signing the Dixon-Yates power contract. "I don't think that I have acted illegally," Dixon replied.

The exchange was at hearings by the Senate Antimonopoly subcommittee. Kefauver, who heads the subcommittee, said the Federal Power Act makes it a crime for a person to serve as an officer or director of more than one public utility without approval of the Federal Power Commission.

Dixon is president of Middle South Utilities, Inc., and an officer or director of several of its operating subsidiaries. He and Eugene Yates, executive of another power company, organized a third company—Mississippi Valley Generating Co.—to handle the Dixon-Yates contract.

Daniel James, Middle South counsel who sat with Dixon, said Mississippi Valley never became a public utility within the meaning of the law, adding: "It was to become one."

There has been an awful lot of misapprehension about what Mississippi Valley was," Kefauver said. "When Kefauver asked, 'What is MVGC?' Dixon replied: 'A corporation with a very dim future.' Kefauver said the law requiring FPC approval to serve as an officer and director of more than one public utility provides, upon conviction, a penalty up to two years in jail and a \$5,000 fine.

"I know about that," James said. "I'm not scared." "Why aren't you scared?" Kefauver demanded.

"We haven't violated any law," James replied. Dixon said he filed an application with the FPC in March for authority to serve as president and a director of MVGC.

Kefauver's line of questioning appeared to be designed to build up his contention that the government is not liable for costs of terminating the Dixon-Yates contract, as recently ordered by President Eisenhower.

Kefauver insisted Dixon was "acting at his own peril" in buying land for a 107-million-dollar power plant at West Memphis, Ark., and ordering equipment.

Dixon replied that he had a binding contract with the U. S. government, and that no expenditures were authorized until the contract had been finally approved and the Securities & Exchange Commission had approved the financing.

Kefauver said "this whole contract will be out the window" if federal courts overturn the SEC financing authorization.

"It'll face that situation if it comes up," Dixon told him. "Earlier," Kefauver advanced a contention, there is a parallel between what he termed the Dixon-Yates and Talbot-Mulligan cases.

7 Absentee Votes Cast

With only a half week left before the deadline, records show that seven individuals here have voted absentee in the forthcoming municipal bond issue election. City Secretary C. B. McCleary stated that three other ballots have been mailed to individuals who indicated they would also vote absentee. Early ballots must be cast by Friday midnight.

The regular election is slated next Tuesday at the City Hall fire station, with Lawrence Robinson and W. R. Yates acting as election judges. Clerks will be Mrs. Loy House, Mrs. Joe Pickle, and George Melear.

Nice Work—For Eskimos

Ann Alden poses for ice sculptor Paul Hoyte at a Boston ice plant as New England was hit for another 30-plus sizzler. Hoyte, who wears a sheepskin coat, is carving a table decoration for a banquet. Ann, wearing a swimming suit and a smile, is sitting on an ice cake with a fur stole in between. She didn't stay long, as the temperature was 25 degrees.

Want Some Artificial Moonlight? Coming Up!

LONDON (AP)—A British scientist said today American scientists will try to create "artificial moonlight" 60 miles above the earth during experiments in New Mexico, probably next month.

Prof. D. B. Bates made the statement in disclosing that British scientists are considering the same experiment, which involves release of sodium vapor from high altitude rockets.

Bates is a member of the department of mathematical physics at Queen's University, Belfast, who will lead one of five university groups taking part in British rocket research programs. He worked for six months in 1950 at the California Institute of Technology.

Bates said the American experiment will probably be tried by the Americans on Sept. 6 or 7 in New Mexico.

There are difficulties in releasing the sodium vapor. Boiling of the metal to release the vapor has been suggested but it has proved troublesome, he declared.

"The Americans may release a grenade from a rocket which, on exploding, would vaporize the metal," Bates said.

The upper atmosphere contains about one part in a billion of sodium which produces a great deal of the light in the air, he explained, and by greatly increasing the amount he believed the "full moon" effect would be created.

He considers the experiment would provide much information about the winds at extreme height, the temperature of the atmosphere and the chemical reactions going on in it.

The Royal Society, the leading body of British scientists, disclosed that Britain is entering the field of exploring the earth's upper atmosphere with high altitude rockets.

Until recently known Western research in the field has been done exclusively by American scientists. But the British announcement added that a similar program also has been started in France.

Britain's high-altitude rockets will be distinct from the small earth satellite which the United States announced last week it planned to send into outer space to revolve about the earth for scientific observations.

Deep Water Cut Assured Coast Area

PALACIOS, Tex. (AP)—The Palacios-Port Lavaca area seemed assured tentative approval of a deep water cut through Matagorda Island from the Gulf to the Matagorda Bay after a public hearing before U.S. Army engineers yesterday.

Col. W. P. McCrone, commander of the Galveston district of the corps of engineers, told more than 600 persons at the hearing that his office will approve the cut, and that preliminary studies indicate that it will be located at Pass Cavallo between Palacios and Port Lavaca.

Representatives of mid-coastal development firms and business groups urged the project. No objections were made.

Col. McCrone said Pass Cavallo is a natural pass and probably would require less maintenance than such cuts as Greens Bayou Pass directly across from Palacios.

The channel sought by Palacios-Port Lavaca residents would be 200 feet wide and 30 feet deep. The Pass Cavallo deep water inlet would extend about 30 miles through Matagorda and Lavaca bays straddling the Matagorda-California County line most of the way.

It would terminate in a 1,000 by 1,000 foot turning basin at Point Comfort, site of the giant Aluminum Co. of America plant.

Butler Slaps Ike's Talbot Decision

WASHINGTON (AP)—Paul M. Butler, chairman of the Democratic National Committee, said President Eisenhower chose "the easy way out" in accepting the resignation of Harold E. Talbot as secretary of the Air Force.

Butler issued a statement yesterday calling the Talbot resignation "a case of unpunished unethical conduct."

CITY BOND ISSUES

Separate Plant For Jail, Courts, Police Proposed

This is the fourth in a series of articles explaining the details of the proposed \$200,000 bond issue on which city taxpayers vote Tuesday—Editor.

By CLIFTON LAWHORN
A \$200,000 municipal bond issue is being proposed here for the construction of a new two-story police and jail building.

This proposed issue, which would necessitate a tax rate hike of approximately 3 1/2 cents per \$100 assessed valuation, will be presented to the tax paying voters in an election next Tuesday.

If it is approved, the structure will be built on the vacant lot at Fourth and Nolan Streets, just across the intersection from the City Hall.

Plans call for the building to be constructed so that citizens having police business need not be exposed to the prisoners.

Individuals who are arrested will be taken into a special entrance, booked, and marched up private stairs into the jail. Drunks and criminals this way will be kept separate from law-abiding citizens.

This is not always possible now, as the jail foyer and the police reception hall are one and the same.

The proposed jail, unlike the one now in service, will have ample room to accommodate the prisoner load. The present jail has a 30-man capacity, and yet, it has

handled around 60 individuals on weekends.

Plans for the new jail will be according to FBI and state standards. Local officials have inspected a number of area jails recently as a guide here.

Various offices for police operations are expected to add to the efficiency of the department, as practically everything now is centered in one room.

At the present time, the same room is used for paying parking tickets, registering phones calls to the police department, maintaining the police radio network, keeping records, and operating the jail.

Can You Identify This Farm?

If so, please notify The Herald, by phone, in person, or by mail. If you're the first to give the correct identification, you'll receive two free tickets to any Big Spring picture show. It's another of the "Mystery Farm" series, presented without The Herald knowing its identity—to stimulate more interest in the rural residences in the Big Spring area. The owner of the farm also is asked to report to The Herald, to receive two show passes, and also a mounted photograph of this aerial view. Last week's "Mystery Farm" was sort of a toughie, and identification didn't come easy for anybody. However, the correct report was received first from Mrs. Dorothy Henderson, 1108 Lancaster, and she receives the show tickets. For more about last week's farm, see Page 2 of today's Herald.

Foster AFB Airman Dies In Auto Mishap

VICTORIA (AP)—An airman identified tentatively as George Whitehead of Foster Air Force Base, Victoria, was killed when a car overturned near here last night. Three others were injured, including Donald Jones, in critical condition at a Victoria hospital.

THE WEATHER

BIG SPRING AND VICINITY: Partly cloudy with light breeze. High tonight 75, low tonight 55. Tomorrow: High 75, low 55. Monday: High 75, low 55. Tuesday: High 75, low 55. Wednesday: High 75, low 55. Thursday: High 75, low 55. Friday: High 75, low 55. Saturday: High 75, low 55. Sunday: High 75, low 55.

Morrison Place Was Mystery Farm

The Tom Morrison place in western Mitchell County was the Herald's mystery farm last week, and Mrs. Dorothy Henderson, 1108 Lancaster, was the only one to correctly identify it. History of this farm and ranch dates back more than the traditional four score and ten years. It is the first farm in Mitchell County to be a Herald Mystery Farm.

Morrison Ranch History Covers Three Quarters Of A Century

Last week's mystery farm was the first one to be found in Mitchell County. It is the Tom Morrison Ranch and is located just east of the old Iatan mine and a few hundred yards north of the highway. During the winter, it can be seen easily from the road, but now is partly hidden by the mesquite. The Morrison Ranch has quite a history. It was first owned by T. A. Morrison, who came into the Colorado City country 70 or 80 years ago. He was a Texas Ranger at one time before settling in Mitchell County. During his latter years, he lived in Colorado City. Mr. Morrison had three sons and a daughter. The ranch was passed on to his son Earl, who in turn bequeathed it to his present owner. He had taken in his brother Tom's children after Tom died, and reared them as his own. The big house shown in the picture is one of the finest rural homes in West Texas. It has a double garage and every modern convenience, yet stands vacant

much of the time. This is because Morrison is away much of the time on trips to other parts of the country. He and his wife spend part of their summers in Canada, and they go frequently to other vacation spots for extended visits. The ranch is managed by Rube Mann, who was a boyhood friend of Morrison's in Colorado City. They went to school together, and later Morrison got Mann to tend to the active management of the ranch. It was leased out to Pinky Roden for several years, but was taken back by Morrison about three years ago. They have some grass but the dry years have put the range in poor condition. Like most other ranchers in that area, they are lightly stocked with cattle. The Morrison Ranch was a scene of great activity back in 1920 when the first oil well in the county was drilled on it. Jimmie Greene, manager of the local Chamber of Commerce, says there were probably 3,000 people there when the well blew in.

He also said that the well site was a sort of accident. The well drilling company was hauling the machinery out from Colorado City when a big rain converted the Iatan Flats into a sea of mud. Finally the teams bogged down, and the drilling boss decided to drill at that spot. The geologist urged against it, but the well was drilled anyway, and made a good one. Tom Morrison's cousin, Mrs. D. G. Harris, lives in Big Spring at 201 Dixie Street. Her father is Will Morrison, who now lives at Marfa. He was a son of the first Tom Morrison who originally owned the ranch. She still visits the ranch occasionally and says the big ranch house was built about three years ago. Though it stands vacant part of the time, the foreman Rube Mann takes good care of it. And no matter where the Morrisons go or how long they stay, the big cream-colored brick house is always a nice place to come home to.

Big Squabble Due Over Loose Ends Congress Left Undone

WASHINGTON (AP)—The things Congress left undone, a big part of the story of this year's session, promise lively squabbles in 1956. Fourteen important measures President Eisenhower asked for did not reach his desk. Several other major bills also were left hanging. All pending legislation will be alive when Congress returns Jan. 3. Perhaps the most important Eisenhower bills stranded were those to start a multibillion-dollar ex-

pansion of the nation's highway building program and to aid in local school construction. The Senate passed a road bill which omitted the bond-financing feature supported by the President. The House became snarled over how to pay for the new highways and passed no bill. Neither branch passed a school construction bill, although the House Education Committee approved one in the closing days of the session. In Senate committee, the measure remained snarled in

a dispute over an antisegregation provision. These were administration bills which passed only one branch: Upper Colorado River authorization — passed Senate, approved by House committee. Customs simplification — Passed House, tied up in Senate Finance Committee. Pay increase for Cabinet officers and several hundred other top government executives — passed House, died in the Senate last night. Military survivors benefits — Passed House. These were measures asked by the President which neither body passed: A constitutional amendment to lower the voting age to 18 in federal elections. Revision of the Taft-Hartley labor-management relations law. An increase in postal rates to reduce the deficit of the Post Office Department. A federal reinsurance program to bolster and expand private health insurance plan. Hawaiian statehood — The House voted down a combined Hawaiian-Alaskan statehood bill. Liberalization of Refugee Relief Act. Atomic peace ship — The House passed an atomic merchant ship bill, but not the demonstration vessel asked by the President. Program of loans and other aids to low-income farmers — One minor measure passed Congress, but the principal legislation was not acted on. In addition, several major bills which largely originated among the lawmakers failed to win final passage this session, but most of them are certain to be revived early next year. These include bills to provide new social security benefits for women over 62, to exempt natural gas producers from federal controls, to restore rigid high price supports on basic farm products, to cut income taxes chiefly for low-income families, and to increase quotas for domestic sugar producers. All five of these passed the House this session, but were not acted on in the Senate, except for the income tax reduction, which was killed.

Major Legislation Passed In Last Rush

WASHINGTON (AP)—Major legislation on which Congress completed action yesterday: Housing — Ignoring last-minute White House objections to its form, the House completed action on an omnibus housing bill providing for 45,000 public housing units during the next year. A 1955 roll call vote passed the bill, approved a day earlier by the Senate. The public housing section was a compromise. The House had voted earlier to knock out all public housing and the Senate had approved a more liberal program than that carried in the compromise. Eisenhower had asked 70,000 units over a two-year period. While House objections centered on provisions for FHA loan insurance for trailer camps and federal loans for local public works and fire-police projects. Most of the bill was noncontroversial, including such items as: extension of FHA-insured home loans with four billion dollars in new lending authority; a \$1,362,500,000 housing program for service families; an expanded slum clearance and urban rehabilitation program; extension of FHA home repair and improvement loans; and special programs for farm and college housing. Police — Congress authorized federal spending of 36 million dollars to help the states provide free Salk polio vaccine for needy children. The program would run until next Feb. 15 and would allow free shots for some 20 million youngsters under 20 and expectant mothers. The bill gives the U.S. surgeon general authority to decide which age groups would have priority in receiving the vaccine. Small Business — With little debate and by voice vote, both branches acted to extend for two years the life of the Small Business Administration. The bill increases the limit on loans to individual firms from \$15,000 to \$25,000. Defense Production — A compro-

mise bill to extend the Defense Production Act for one year was worked out in less than an hour by Senate-House conferees. The measure then quickly cleared both branches by voice vote. The bill would require business executives filling temporary, payless federal jobs to make periodic public reports on their private financial interests. Transit — A compromise bill aimed at ending Washington's 34-day bus and streetcar strike cleared both branches. It would enable District of Columbia commissioners to arrange for transit service during the next 12 months by the struck Capital Transit Co. or some other firm. The District would make up any financial losses during this period. At the end of the 12 months, the District government could revoke the franchise of Capital Transit, which is controlled by financier Louis E. Wolfson. Meanwhile, the District could prescribe strike settlement terms. Congress Money — Congress quickly passed a compromise legislative appropriation bill that had been bogged down for several days by a squabble over pay raises for congressional employees. In addition to pay increases, the bill provides for a 50 per cent boost in the stationery and postage allowances for senators and for a \$5,000 increase in the clerical allowance for each House member. Senate provisions permit one top salary of \$14,500 for each committee staff, a second of \$14,300 and four of \$12,617. The House salary schedule contains a \$14,500 ceiling for an unlimited number of committee staff members. Other pay boosts were voted for nonexecutive House employees and various Senate workers. The bill provides 22 million dollars for Congress' operational during the current fiscal year.

Infant Is Found Hanged In Crib TEXARKANA, Tex. (AP)—Nine-month-old Paul Lashford apparently hanged himself accidentally yesterday in his crib. His mother, Mrs. Archie Lashford, found her baby partly suspended above the crib mattress by a cord, part of a toy. The cord had been stretched across the crib.

Salk Vaccine Places Among Top Three

WASHINGTON (AP)—According to the 1954 field trials, the Salk polio vaccine is about as good as that for whooping cough, a Public Health Service doctor said today. It isn't quite as effective as smallpox vaccine and diphtheria toxoid. But Dr. Joseph Bell, who made the comparisons, hastened to add that "this is the first polio vaccine and we can expect that an improved vaccine will eventually be developed." Dr. Bell is chief epidemiologist of the National Institutes of Health. He made the comparisons on the basis of the report from last summer's field trials saying the Salk vaccine was 60 to 90 per cent effective in preventing paralytic polio. He said it is still too early to draw any conclusions about the efficacy of the vaccine on the basis of its use during the present summer. Furthermore, he said, it is not yet known how long whatever degree of protection is afforded by the polio vaccine will last beyond the first year. Concerning other inoculations commonly given children, Dr. Bell said: 1. Smallpox vaccine: "I don't know of any case where, after a successful 'take' of smallpox vaccine, the vaccinated person has come down with the disease within the first year after vaccination. "However, smallpox immunity wanes with time and varies with individuals. It is estimated that more than 50 per cent of people will have lost substantial protection by 5 to 10 years after the original vaccination, and therefore they should be re-vaccinated." He declared, though, that "because of the adequacy of the vaccination program, very little smallpox occurs in this country." 2. Diphtheria toxoid: In general, he said, this material appears to afford protection to "well over 90 per cent" of children, at least for the first year following inoculation. 3. Whooping cough vaccine: The

evidence is, he said, that this vaccine protects about 75 per cent of those inoculated with it, at least for the first year. He said he knew of no instance where smallpox or whooping cough vaccines or diphtheria toxoid caused any one of those diseases in inoculated persons. Surgeon General Leonard Scheele of the U.S. Public Health Service has said there was "strong presumptive evidence that there was a cause and effect relationship" between 56 cases of paralytic polio which followed inoculation this year with vaccine made by the Cutter Laboratories, Berkeley, Calif., and the use of two lots of that company's product released before April 27. A large number of other children were vaccinated with Cutter vaccine before that time without developing polio. An investigation of what is now referred to as the Cutter incident has been under way since April 27. A full report has been promised. The Public Health Service has reported a total of 132 paralytic cases and 87 nonparalytic cases among vaccinated children from mid-April through July 20. The service said in a polio statistical summary July 28: "No conclusions can be drawn from these case reports with respect to the efficacy of the vaccine. Complete information on the occurrence of poliomyelitis among vaccinated and unvaccinated children of comparable age is necessary for such an evaluation, and that information will not be available for some time. "The 1954 field trial showed that the vaccine was (60 to 90 per cent) effective in preventing paralytic poliomyelitis. Some paralytic cases in vaccinated individuals can be expected, however, because the vaccine is not 100 per cent effective. "It is estimated that approximately 6 1/2 million children have received the first of three shots required for complete vaccination with the polio vaccine.

10 Titles For Beauties

KINGSTON, Jamaica (AP)—This Caribbean island has come up with a beauty contest to please almost everyone. There will be 10 first-place winners. Proud of its many racial strains, Jamaica feels that each should have its queen. "Miss Apple Blossom" will be the title given the queen of white European descent. Winners in darker skinned groups will win such titles as Miss Ebony, Miss Golden Apple, Miss Sandalwood and Miss Lotus. The contest will be held in September.

Senterfitt Names Campaign Manager

AUSTIN (AP)—Rep. Reuben Senterfitt, San Saba, yesterday named fellow townsman Kelly Owen to manage his campaign for governor. Owen, 45, is a farmer and rancher. He is inexperienced in politics, but Senterfitt described him as a man who "can talk to anybody." Speaker of the House in the 52nd and 53rd Legislatures, Senterfitt is the only announced candidate for the 1956 race.

Pilgrims En Route

MEXICO CITY (AP)—Two thousand Catholic pilgrims from the border state of Tamaulipas are en route to Mexico City in special trains to pay homage to the Virgin of Guadalupe, Mexico's patron saint.

Heresy Trial Set Early This Month

MILWAUKEE (AP)—A United Lutheran pastor to stand formal church trial for heresy in the 60-year history of the Northwest Synod — the second in six weeks — faces a trial board of fellow clergymen later this month. The Rev. John Gerberding, 33, of Menomonee Falls is accused of doctrinal deviation similar to that for which his friend, the Rev. George Crist Jr. of Durham, another Milwaukee area community, was tried and convicted last week. Pastor Crist was suspended from his church duties yesterday by Dr. Paul E. Bishop of Minneapolis, president of the synod, who thus followed the recommendation of the trial committee. The 31-year-old Durham minister is vacationing with his wife and three daughters and has not yet been reached for comment on what he plans to do between now and next May, when the synodical and decide on punishment. This may range from a rebuke to dismissal from the Lutheran ministry. However, at the end of his trial, Pastor Crist indicated he might return to school and later seek a philosophy teaching post. Pastor Gerberding, who sat with and counseled Pastor Crist in the losing defense that their liberal interpretation of Scriptural events was permissible within the Lutheran Church, announced his selection of a third young suburban

pastor as counsel for his trial, scheduled tentatively to open Aug. His choice is the Rev. Victor K. Wrigley, 35, of Brookfield, whose teachings — like those of pastors Crist and Gerberding — were investigated this summer by a synodical committee. No formal charges have been filed against Pastor Wrigley. The specific instances of doctrinal deviation against Pastor Gerberding have not been made public.

Demos To Confer

DALLAS (AP)—Three leaders of the Democratic party's advisory council in Texas were to confer today in Washington with speaker Sam Rayburn (D-Tex.). They are: Judge James Sewell, Corsicana, chairman of the state council; Robert Sawtelle, activities director; and Mrs. Kathleen Voigt, executive secretary.

MONTERREY CAFE

Delicious Mexican Foods and Steaks
1100 Lamesa Hwy.
Garland and Alma McMahan

Jes-Talkin by Jess Blair

The big hatch of boll worms came off only a few days behind schedule and are now getting fat on Howard County cotton, according to County Agent James Taylor. He has been hopping from one field to another all over the county the last week, and is finding plenty of worms. "We have found worms on every cotton field," he said, "except in some of the young cotton. I checked a field Tuesday and found seven or eight worms on just a few stalks. Cotton with that much infestation needs poisoning immediately."

Taylor received a report from Tarzan that farmers over there were poisoning for cabbage loopers. There are a lot of them in Howard County, but Taylor doesn't think there are enough to damage cotton. However, a dose of poison for the worms will also kill the loopers.

Jay Jameson, who ranches southeast of Colorado City, says his range is still dry. Spring rains brought up some grass, but there wasn't enough moisture to keep it growing. In spite of dry weather, he says there are a lot of insects out. "This is the worst year I ever saw for screw worms. All ranchers in my country are having trouble with them."

Larry Shaw has a small plot of the new hybrid sorghums growing on his farm north of Knott. The feed is now heading out and a few earlier heads are making grain. It looks similar to the regular varieties except the heads may be a little larger. Shaw is one of several dozen farmers in Texas trying out the sorghums to determine what they will do under actual field conditions. At Lubbock the hybrids out-produced other kinds by a big margin, and they will likely be planted all over Texas in 1957. It will take that long, according to Dr. Karper at the Lubbock Station, to get enough seed for everyone's use.

A fungus disease has shown up on cotton fields in Mitchell County. It was first identified as verticillium wilt by the county agent of Seury County. However, James Trammell, associate county agent at Colorado City, checked several fields and thinks it may be angular leaf spot. It hasn't damaged cotton much yet, but is not likely to do it any good either. Angular leaf spot has been widespread in irrigated areas west of here for several years, particularly where sprinkler systems are used. This year at Seury several farmers are trying test plots of a new type cotton which is supposed to resist the leaf spot. There is no cure for the fungus once it starts, authorities say. Lee Castle who farms near Knott is one fellow who doesn't think the country is going to the dogs — at least not the farming part of it. He thinks the young crop of farmers are a lot smarter than their dads were. "These youngsters have a little schooling," Castle said, "and they take to new ideas a lot quicker than us old heads. Why, I even find myself asking their advice once in a while, and I've been farming all my life." Castle has been in this area since 1908. That year his parents settled on a farm in the Moore

community and lived there several years. He moved to his present place in 1947, but has been farming in that area nearly all his life. Castle was a county commissioner of Martin County for several terms during the time of World War II. Walker Bailey is well pleased with crop prospects. Bailey is county school superintendent, but finds time to visit his farms at Valley View and Vealmoor and keep things going. He says he has a good crop on both places, though the one at Valley View is older. He still has some land on which he intends to plant maize.

There is a lot of difference in the cost of dog surgery and the human kind. Recently my little dog broke a blood vessel in her ear, and the ear swelled up as big as a bakery bun. Dr. Simpson, the veterinarian, examined her and found the ear filled with blood. The operation was rather tedious and required about a dozen stitches, yet he charged only 10 dollars. A similar operation on a person's ear would have been ten times as much. Of course the regular M. D. has more responsibility. For some reason people are considered more important than dogs, and saving a life at any cost is probably worth it. Yet the surgeon's work is not nearly so dangerous. They seldom have a patient leap off the operating table and bite them, but this may happen to a vet at any time. The most ticklish job, says Dr. Simpson, is handling dogs during an outbreak of rabies. With the vets of the horse and buggy era, working on horses and mules was sometimes dangerous. The old time horse doctor who hadn't been kicked down and trampled on by a mule was considered a sort of amateur.

Showers For East Texas By The Associated Press Showers dripped from East Texas skies at dawn Wednesday and more rain was expected. The rains were caused by a mild moved gently over the state from the southeast. Lufkin, Tyler and Galveston had showers before sunrise. West Texas was clear, but for all sections of the state scattered showers and thundershowers again were forecast. Early morning temperatures ranged from 65 degrees at Lubbock to 79 at Galveston. Two inches of rain made Beaumont the wettest area in the state over the past 24-hour period. Other rainfall: Lufkin, 1.50. Texarkana 1.40. Victoria, .27. Galveston, .24. Del Rio, .26. Alpine, .15, and Freddie, .45. The high maximum temperature yesterday was 102 at Alice. Alpine had the low, a 62.

Mexican Catholic Action Meet Called MEXICO CITY (AP)—Archbishop of Mexico Luis Maria Martinez yesterday inaugurated the 11th Mexican National Catholic Action Assembly. Priests from all over Mexico are attending.

Good Turn For The National Guard

Three groups combined efforts Tuesday to do a good turn for the Texas National Guard unit here, Cosden Petroleum Corporation was furnishing around 8,000 gallons of asphalt to be used in a base stabilization program for the front approaches and the parking area east of the new armory. W. D. Caldwell, dirt and paving contractor, was furnishing the machine for applying the mixture, and Webb AFB was furnishing several units including

a tiller roller, pneumatic roller, maintainer, etc. Around 8,000 square yards will be treated in the program. At left is Alton Henry of the Caldwell firm, hearing W-O Billie Eggleston tell how much Battery B of the 122nd FA appreciates what the three were doing for the guard unit.

No Yanks Debark From Canton Train

By DAVID J. ROADS

HONG KONG (U-P)—The daily train from Communist Canton to the Hong Kong border arrived today without the 11 U.S. airmen being freed by Communist China. Apparently they were to arrive tomorrow, as the Reds announced previously.

The next Canton train was due at 1:30 tomorrow afternoon Hong Kong time, or 11:30, EST, tonight. It usually takes 30 to 45 minutes after the train arrives for persons coming out of Communist China to complete the formalities on the Red side and reach the border bridge into British territory.

Two U.S. Air Force C54 transports waited at Hong Kong's Kai Tak Airport to rush the men to the Philippines for a stay of two or three days. Then they will be flown direct to the West Coast for a reunion with their families at either McChord Air Force Base near Seattle or Travis Air Force Base near San Francisco.

In the Philippines, at the Air Force's Clark Field north of Manila, they will be given medical check-ups and administrative processing. They also will give Air Force officers preliminary accounts of their treatment by the Reds since their B29 Superfortress was shot down 2 1/2 years ago on a mission over North Korea.

The group were sentenced last November to prison terms ranging up to 10 years on a charge of spying, which the United States has denied.

A red carpet welcome was promised by Clark Field. "We're all set to take care of them," said Brig. Gen. William L. Lee, 13th Air Force commander. "They'll get all they want of the best to eat."

Lee was particularly interested in seeing an "old friend," Col. John Knox Arnold, Silver Spring, Md. "He was base commander here at Clark before flying to Korea on rotation," Lee said. "I told him when he left not to get in a mess up there. He liked to fly. We've been sweating him out for a long time now."

Col. James W. Humphreys Jr., Richmond, Va., Clark base surgeon, said the men will have quarters in an air-conditioned hospital ward. They will have a special staff of four doctors, three nurses and six special corpsmen.

"If they want to live on steak and pie a la mode, we'll fix it for them," Humphreys said. "The airmen were scheduled to stay less than four hours in Hong Kong. From the border they will be driven to the Fanling Jockey Club for a preliminary medical examination and new uniforms.

Ike Speeds To Make Red Chinese Pacts

WASHINGTON (U-P)—The Eisenhower administration is moving with unexpected speed to make with Red China a series of settlements which may eventually produce far more peaceful conditions in the Far East.

Diplomacy and polite dealings appear to be displacing loud talk and threats. This parallels the U.S.-Russian relations at the Geneva summit conference.

If further negotiations with Peking develop, as seems likely, the United States may soon face basic questions of relations with Red China which have been hot political issues and have raised difficulty with allies in the Far East.

The situation began to develop publicly with the announcement last week that ambassadors of the two countries would meet at Geneva to negotiate on release of Americans in Red China and on other practical matters of mutual interest. Just as the Geneva meeting began Monday, Peking announced the release of 11 American fliers whose captivity was to have been a primary subject of the talks.

This greatly increased hope of an improved Far Eastern prospect for peace and of success in negotiations for the release of at least 40 American civilians held by the Chinese Reds.

mark the beginning of a new phase in Chinese Communist relations with the rest of the world.

Dulles coupled this hopeful estimate with a caution "that one swallow does not make a summer." He said he does not know whether a new phase is opening but he left no doubt that if it is he intends to make the most of it.

He told his new conference the most important thing now is for the Chinese Reds to discard permanently their "pistol" and participate in negotiations without constantly threatening military action to achieve their ends.

If the Chinese Communists will live up to the United Nations Charter, Dulles said, they will make themselves eligible to negotiate on topics about which civilized nations normally do negotiate.

The effect of Dulles' comments appeared to be to open the door to a wide range of talks with the Chinese Reds in the months ahead.

Any further negotiations probably would involve the touchy questions of Red Chinese membership in the U.N., U.S. recognition of Peking, and restrictions on trade.

The U.N. and recognition proposals arouse strong opposition in Congress, and they are problems upon which the United States does not see eye to eye with Britain.

Korea Asks POW Return

SEOUL (U-P)—South Korea today demanded that Red China immediately free 20,000 Korean prisoners of war and civilians.

Acting Foreign Minister Cho Chung Whan made the demand in a statement. No mention was made of North Korea.

"We rejoice with the rest of the free world at the freeing of 11 American fliers, but we must remind our friends and allies that Red China still holds—illegally and inhumanly—2,263 Korean prisoners of war and 17,504 civilians who were forcibly removed from this country," the statement said.

Cho also demanded that Red China withdraw its armed forces from North Korea and "desist from aggression against the Republic of China."

"Peking's adherence to these points could lead to just and lasting peace in Asia. Its failure to take this step would prove that Red China does not seek peace, but conquest, and that the Geneva discussions are a trap for the United States and other free nations," the statement said.

Financier's Son Heads New Firm

RICHMOND, Va. (U-P)—A life insurance company headed by John D. Murchison, son of financier Clint W. Murchison of Dallas, has been chartered by the Virginia State Corporation Commission. It is Life Companies, Inc. The new firm has 16 million dollars worth of capital stock.

Carrizo Springs Lowers Race Bars

CARRIZO SPRINGS (U-P)—Trustees of the Carrizo Springs Consolidated Independent School District voted unanimously last night to open schools "to all eligible children regardless of race, creed or color" beginning this fall. The city has an estimated 15 Negro students.

Barbed 'Wife' Sale Brings Load Of Offers

BELTON, Tex. (U-P)—R. E. L. Jones, who has some barbed wire for sale, has been getting tongue-in-cheek offers from throughout the Southwest since his for-sale ad in the Temple (Tex.) Daily Telegram came out "barbed wife."

Prisoner Killed In Bexar Jail Riot

SAN ANTONIO, Tex. (U-P)—Ten officers shot one prisoner to death and injured four others last night in quelling a 58-man jail riot.

The bloody outbreak was the Bexar County Jail's second abortive riot in a week. The first, on July 26, took three hours to break up. Last night's was stopped in 30 minutes.

Sheriff Owen Kilday, a brother of Rep. Paul Kilday (D-Tex.), wept as he told of firing the fatal bullet into Rudolfo Escobedo, 27, as the riot flared to a climax about 9 p.m.

"I saw him fall," Kilday sobbed. He said he fired in self-defense. Escobedo, he said, was brandishing a large tray and refused to put it down as the sheriff ordered. Kilday said when Escobedo started to throw the tray at him, "I shot him."

Kilday left a hospital bed to come to the jail when jailers warned him that a riot threatened. He was wounded a few hours before last night's disturbance when a 25-caliber pistol discharged as he alighted from an automobile. He was not hurt last night.

He said paraffin bullets were used at first last night. He ordered regular ammunition only after the dummy slugs failed to quell the rioters. About 40 shots were fired.

Galvino Beltran, 18, was shot in both legs and Rudolfo Reyes, 33, was shot in the right leg. Two other prisoners were struck by flying objects. None were believed in serious condition.

Jailer Bob Beckman said the riot began when vengeful prisoners protested disciplinary action against Johnny Crawford, 22, an habitual criminal serving a life term and described as a leader in last week's riot.

Some of the subdued prisoners complained bitterly after last night's fight of what they called police brutality. Kilday said some prisoners were slugged by officers as they filed out of the cell block but that he stopped it when he saw it.

Escobedo was serving a 90-day term for theft. He died in a hospital about 30 minutes after end of the riot.

3 Texas Bills Pass Congress

WASHINGTON (U-P)—Congressional action on three Texas bills was completed last night before congress adjourned.

The measures await action by President Eisenhower.

The measures would: Authorize the resale to former owners of unused government land near five Texas lakes—Ben Brook, Whitney, Grapevine.

Authorize changing the name of Garza-Little Elm Dam, North of Dallas, to Lewisville Dam.

Authorize the U.S. mint to issue medals commemorating the 120th anniversary of the Texas declaration of independence from Mexico.

Miss Texas Has No 'Attachments'

DALLAS (U-P)—Miss Texas of 1955 says she hasn't yet formed any romantic attachments.

Miss June Prichard of Odessa, who won the title at Tyler last weekend, went shopping here yesterday. She needs a white bathing suit, she says, "and white ones are hard to find."

PRINTING T. E. JORDAN & CO. Dial 4-2311 113 W. 1st St.

Former Airman Admits Slaying

DALLAS (U-P)—Brazil Dall Carmichael freely admits he killed a policeman's widow here in 1953 and says he only hopes to escape with his life.

"I know I have to pay for the terrible thing I did though," the 26-year-old Air Force deserter said yesterday shortly after being brought here from Jamestown, N. Y.

The former Perrin AFB man is charged with the bludgeoning death of Mrs. Mahala Winterbauer who had befriended him after he told her he was a friend of her son, then at Perrin.

State To Ask Death In Murder Trial

MARSHALL, Tex. (U-P)—The state will ask the death penalty for George Birdine, Pittsburg, Tex., Negro whose murder trial is under way here. Four jurors were selected yesterday.

Birdine was charged in the death last Dec. 8 of J. M. Brummell, 70, Camp County Farmer. Brummell, found at his farm with his throat cut. He customarily carried large sums of money.

The trial was brought here on a change of venue.

Fatally Shocked

WACO, Tex. (U-P)—William Monroe Sherodd III, 18 months old, stuck a finger or thumb in an electrical outlet at his home yesterday and was fatally shocked.

Ready-To-Sew

Latest short cut for home seamstresses is the pre-cut pattern, with fabric pieces and trimmings ready to stitch. Here, a home sewing fan adjusts pattern pieces, left, and steps out in a finished shirt and shorts outfit, right.

Modern Seamstress Has Many Short Cut Devices

By DOROTHY ROE
Sewing has come a long way since Grandma was a girl. Just as packaged mixes and frozen foods have lightened the task of even the best cooks, so home seamstresses are taking advantage of new shortcuts which enable them to turn out more clothes in less time.

Among the boons for the modern home dressmaker are high-speed electric sewing machines, attachments to make buttonholes, blind-stitch hems, ruffler, sew-on bindings and dozens of embroidery stitches.

Latest addition to the sewing shortcut lineup is the pre-cut pattern, now on the market, which offers ready-to-sew fashions, with fabric and trimmings already cut, ready to stitch.

Most women find that they spend more time on shopping for fabric, zippers, buttons and linings, and in adjustment and cutting of the pattern than they do on the actual stitching of a garment. Now the new ready-to-sew fashions eliminate many of these tedious details.

A new shorts and shirt ensemble can be made with a pre-cut pattern in which the pieces of fabric are packaged with everything you need to make the outfit—zippers, buttons, facings, bindings and trimmings.

To make the outfit, first pin the pieces together for a quick try-on, adjust to fit, then simply stitch up the seams, sewing in the pre-cut facings. Each piece is identified by a number and clear instructions tell you to "stitch piece 1 to piece 1A" and so on. When the fabric is striped or checked, pattern pieces are perfectly matched.

Patterns for separates are packaged individually, so that it is possible to buy the shorts in a size 14 and the shirt in a size 12, if yours requires different sizes.

The new pre-cut patterns are available in a wide selection of styles, colors, fabrics and sizes, including children's and junior sizes as well as misses'.

Local sewing center experts recommend that you try on the pieces before you buy.

mind you to follow the same rules in short-cut sewing as you would when you start from scratch. Be sure your thread and needle are correct for the fabric and be sure to check tensions and stitch length before sewing. Take care of pattern adjustments before doing machine sewing, so you won't have to spend valuable time ripping seams. Press seams as you go, for a finished look, and make full use of sewing machine attachments for special jobs. Sewing things right the first time is a great time-saver, and sloppy, hasty work is poor economy.

Odessan Visits In Coahoma; Leaves By Plane For Chicago

COAHOMA —Mrs. Lou Turlo of Odessa spent the weekend here with her mother, Mrs. Virginia Kidd, and left by plane Monday for Chicago, Ill., where she will visit a month.

Mrs. Grady Johnson of Vernon and Jerry Adams of Alpine were weekend visitors in the home of Mr. and Mrs. Fred Adams.

Rose DeVaney is spending the next several days visiting her aunt and uncle, Mr. and Mrs. Truett DeVaney, in Goldsmith.

Mr. and Mrs. W. C. Hutchins will spend the next three weeks on vacation in northern New Mexico and Colorado fishing and visiting relatives.

Mr. and Mrs. J. B. Lilly spent the weekend in Odessa visiting their son and family.

Mr. and Mrs. Sam Joiner have returned from California where they spent the last three weeks visiting relatives and friends.

Mr. and Mrs. Leon Messer and family and Mr. and Mrs. Quinon Reid and family spent several days fishing at Buchanan Dam.

Mrs. Tressie Stephens of Comanche visited her sister and brother-in-law, Mr. and Mrs. P. F. Sheedy.

Mrs. Dick Copeland and children of Brownsville have returned home after spending the past week here with her parents, Mr. and Mrs. Frank Loveless.

Mr. and Mrs. Smith Cochran spent the past few days at the bedside of his father, the Rev. J. M. Cochran in Anson, Rev. Cochran had major surgery and is improving at this time. He is a former Methodist pastor here.

Mr. and Mrs. Maurice Duncan and family of Robert Lee visited with his grandmother, Mrs. M. E. Duncan, Monday.

R. H. Snyder and Dicky have returned from a month's trip to New York, Philadelphia, Atlantic City, Norfolk, Va., and points in North Carolina.

Sturdy Discloths

Quickly crocheted of odds and ends of left over threads, these dishcloths are good-sized, 12 by 14 inches. Centers are white or ecru, borders are in combinations of reds, pinks, turquoises, purples or whatever colors you may have on hand. A set of three makes a pleasant shower party gift. All instructions in pattern.

Send 25 cents for PATTERN No. 366, YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS, Big Spring Herald, Box 229, Madison Square Station, New York 10, N. Y.

The NEEDLEWORK GUIDE, 36 pages, 150 designs for knitting, crochet, embroidery, hairpin lace, dozens of beautiful color transfers. Order as you do needlework patterns. Only 25 cents.

Clothing Workshop Planned For 4-Hers

LAMESA — A clothing workshop for 4-H girls at Ackerly has been announced by Clara Redman, county home demonstration agent.

Ackerly girls were to meet at the school at 2:30 p.m. Wednesday to plan what they will make during the workshop. Miss Redman is suggesting either school clothes or 4-H uniforms.

The regular workshop will start with an all-day session at the home economics department in Ackerly on Monday. Other all-day sessions are planned for Aug. 10, Aug. 12, Aug. 15 and Aug. 17.

Soup On The Rocks

Newest hot-weather food fad appearing in fashionable restaurants from coast to coast is "soup on the rocks." To make it, chill cans of beef bouillon and serve in double-size old-fashioned glasses, poured over ice cubes. You may garnish with a twist of lemon, slice of cucumber or sprig of mint. One can of bouillon makes three servings when poured into nine-ounce glasses over two ice cubes.

WSCS Holds Joint Meet Here Tuesday

A preview of studies for the coming year was given to the 135 women representing 15 churches in the Big Spring district when they met at the Wesley Methodist for an all day meeting Tuesday.

The members who presented the study topics have just returned from the WSCS School of Missions in Lubbock. Reviewing the subjects were Mrs. Clarence Collins, district secretary of mission education, "Five Spiritual Classics"; Mrs. J. S. Craddock of Colorado City, "Indian Americans"; Mrs. H. A. King of Midland, "The Christian Mission in a Revolutionary World"; and Mrs. Lida Hardy of Snyder, "To Combine Our Efforts for a Lasting Peace."

Mrs. Raymond Hamby presented the program and worship booklet for the coming year.

District president, Mrs. H. H. Stephens, gave the welcome. Mrs. Collins was in charge of the meeting.

Opening meditation was given by Mrs. Frank Webber from Midland, and Mrs. Jack Riley of Snyder led the closing devotion.

Wesley ladies were hostesses for the day. Dinner was served at the church.

The fall meeting will be in October at Midland.

Sewing Club To Meet

LAMESA — The Stitch and Chatter Club is to meet Thursday afternoon in the home of Mrs. Lucille Marlow, 318 N. Austin Ave. Mrs. Earl Garrett, president, will be in charge of this, the regular semi-monthly meeting.

Dr. O'Brien Addresses First Baptist WMU

Dr. P. D. O'Brien, pastor, spoke to the First Baptist WMU when they met at the church Tuesday morning. He continued his lessons from the book, "Baptist Fundamentals," centering on the chapter entitled "The Security of the Believer."

Mrs. F. D. O'Brien, president was in charge of the meeting and appointed Mrs. Della Agnell as chairman of the drive for Baptist Orphan's Homes.

Mr. and Mrs. C. H. Vick, 319 West 20th, left today for a vacation to visit their daughter, Mrs. Dan English, and niece, Mrs. Elmer Womble, in Colorado, and their son, B. H. Vick in Arizona.

Lodges Hem Robes; Pass Memberships

A committee from the John A. Kee Rebekah Lodge met this morning for the purpose of hemming the robes of the Odd Fellows. A potluck lunch was served at noon. Meeting in the home of Mrs. K. L. Brady were Mrs. Ollie McDaniel, Mrs. H. F. Jarrett, Mrs. J. C. Pye and Mrs. Keith Henderson.

Plans were made for the meeting when the members met Tuesday evening in Carpenters Hall. It was announced that the losing pink team will entertain the green team Aug. 16. Five members were reported sick.

The lodge group has started its sale of Christmas cards. Refreshments were served to 37 members from a table laid with a lace cloth and centered with an arrangement of zinnias. Crystal appointments were used.

Two applications to membership were approved by the Big Spring

Rebekah School Set

STANTON — At a recent Rebekah Lodge meeting, members voted to have a district-wide school of instruction, Aug. 27 at 7:30 p.m. at the Stanton IOOF Hall, at which time a banquet will be held. District deputy supervisor, Mrs. Iris Sevier of Odessa, will conduct the school. All Rebekah members in this district are invited to attend. Fourteen members attended.

Rebekah Lodge, 284 when they met Tuesday night in regular session at the IOOF Hall.

The new members are Mrs. Don Atwood and Mrs. Billie J. Owen. Vice grand, Mrs. M. C. Patterson, presided over the meeting.

There were 25 present.

MORNING PEEPERS

By Joyce Connaway

Wednesday morning was just another day for the women of State Street as they went about with their household chores. Forty-one calls were made on this street between 8:45 and 9:30 from The Herald office.

Andersons, Guests, Plan To Attend Big Spring Rodeo

LUTHER — Mr. and Mrs. Roy Eastland and children are visiting her parents, Mr. and Mrs. W. D. Anderson this week and will attend the Big Spring rodeo.

Mrs. E. N. Phipps, Mr. and Mrs. John Couch and children attended the funeral of Mrs. Mary Osborn at Clyde. Mrs. Osborn was a sister of the late E. N. Phipps.

Mrs. M. K. Sell, Mrs. Billy Shaw and children, who have been visiting Mrs. Dean Sell have returned to their homes in Dallas.

Mr. and Mrs. Monty Simpson and Mr. and Mrs. Edward Simpson attended the Cunningham reunion at Christoval, during the weekend.

Mr. and Mrs. R. G. Lloyd of Tierra Amrilla, N. M., visited Mr. and Mrs. Bus Lloyd last week.

Ben Lockhart was injured on the Lockhart ranch last week and was confined to a hospital for several days.

Mr. and Mrs. Virgil Little and Betty Lou and Mr. and Mrs. W. H. Little attended a family reunion at Brownwood recently.

Guests of Mr. and Mrs. W. D. Anderson have been Mr. and Mrs. Rex Schrepp and Stevie of Big Spring and Mr. and Mrs. Roy Eastland and children of Amarillo.

Mr. and Mrs. Bill Hanson and Charlie Hale of Big Spring visited in the W. E. Hanson home.

Mr. and Mrs. Doyle Penn and children have returned from vacationing in Red River, N. M.

Mr. and Mrs. A. G. Smith, Mr. and Mrs. Delbert Simpson and Mr. and Mrs. Cromwell Rhoton of Big Spring were fishing at Colorado City Lake recently.

Evelyn Hanson and Barbara Hale will leave Thursday for Bay City to visit Mrs. Betsy Watson.

V-Neck Jumper

Easy princess, V-neck jumper teams up with the blouse with the "new" sleeve to give you a smart combination in most any fabric you can name!

No. 2155 is cut in sizes 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40. Size 16: Jumper, 2 1/2 yds. Blouse, 2 yds. 35-in.

Send 35 cents in coin (no stamps, please) for Pattern, with Name, Address, Style Number and Size. Address PATTERN BUREAU, Big Spring Herald, Box 42, Old Chelsea Station, New York 11, N. Y.

For first class mail include an extra 5 cents per pattern.

The new FALL-WINTER FASHION WORLD, just of the press, features all the important changes in the fashion silhouette. Beautifully illustrated IN COLOR, this book brings you scores of easy-to-sew pattern designs for all ages and occasions. Send now for your copy. Price just 25 cents.

Mrs. Robert Curlee at 601 Mrs. Grandville J. Hahn, 640, was just having a cup of coffee. It was breadmaking time for Mrs. William M. Brooks, 603.

The phone continued to ring at the home of Mrs. Edna P. Malone, 607. The usual thing, washing dishes, occupied Mrs. W. Owen Leonard's time, 612.

"Just finished hanging out the family wash and was drinking a cup of coffee," explained Mrs. William H. Bethell, 614.

Making a bed was Mrs. George A. Loflin, 618, and her neighbor, Mrs. L. B. Conway, 620, was writing letters to take care of some business.

"Pouring coffee for my husband and me," replied Mrs. Frank L. Neill, 624. Pushing an iron over the family clothes was Mrs. Samuel Frasier, 1108.

Mrs. M. E. Williams, 1501, was straightening up the bedroom. At 1600, State, Mrs. J. M. Lees was having her hair set by her daughter, Mrs. R. M. Taylor, who is visiting here from St. Joseph, Mo.

"Having a cup of coffee," answered Mrs. Bobby M. Hogue, 1601. The phone receiver was not lifted at the Tony Barron home, 1605.

Mrs. Roy E. Porter, 1607, was ironing.

Mrs. Tabitha L. Cunningham, 1609, is ill and was unable to come to the telephone.

"Sitting on the bed reading to my little boy," said Mrs. Duke W. Pierce, 1610, when she answered the phone.

A clean house is in store for the Arthur D. Webb family, 1615, for Mrs. Webb was busily engaged in the project when I called.

Mrs. Lillie A. Settles, 1700, was just "sitting back reading the paper."

At 1701, Mrs. James L. Carper was eating the morning meal and listening to the radio.

"It may sound childish," explained Mrs. Garland J. Earley, 1704, "but I was in the yard watching a male redbird feed his little ones some pecans. I am really supposed to be sewing," she confessed.

Then I hit a not-at-home streak when I dialed the homes of Walter L. McCollister, 1706, and Volle E. Sorrells, 1707.

Mrs. Levi D. Spradling was reading the paper, and someone was talking at the Ed E. Hillger residence, for there was loud busy signal.

A bed was being made by Mrs. Oscar F. Williams, 1803, and Mrs. J. Fred Whitaker, 1804, was working in the yard.

Mrs. J. A. Forrest, 1810, was reading.

Bill Stanfields Entertain Former Westbrook Resident

WESTBROOK — Mr. and Mrs. J. L. Searfoss of Findlay, Ohio, have been guests in the home of Mr. and Mrs. Bill Stanfield. Mrs. Searfoss is a former resident of Westbrook.

Recent guests in the home of Mr. and Mrs. P. E. Clawson have been his brother and sister-in-law, Mr. and Mrs. Lois Clawson of Washington, D. C. Other guests included Mr. and Mrs. Era Clawson and Don, Mr. and Mrs. A. D. Sparks, Kathy and Cynthia and Larue Clawson of Corpus Christi.

The Rev. Clinton Eastman has left for Odessa, where he will conduct a series of revival services at West Park Baptist Church.

Mrs. R. O. Lee is at home from a Loraine hospital.

Mr. and Mrs. W. A. Swafford and Lanny and Mr. and Mrs. R. E. Bassham Jr. and Jim Bob are vacationing in Colorado.

Members of the Dorcas Sunday School Class of the First Baptist Church met in the home of Mrs. Gladys Moore recently.

Mr. and Mrs. J. M. Watson and sons have moved to Colorado City. Mrs. Watson is a first grade teacher in the Westbrook school.

Time-Worn Subject Of Petted Wife Renewed

By DOROTHY ROE

Associated Press Women's Editor
A favorite summer subject of male writers is the contention that American wives are something like man-eating sharks — that they're spoiled, pampered, selfish and dangerous to the well-being of husbands.

John Fischer, editor of Harper's magazine, claims in his current issue that U. S. wives are killing their husbands, inducing ulcers, high blood pressure and heart attacks, by trying to make them over. He writes:

"Never before in history has any nation devoted so large a share of its brains and resources to the sole purpose of keeping its women greased, deodorized, corseted, enshrined in chrome, converted, curled, slenderized, rejuvenated and relieved of all physical labor."

Now honestly, Mr. Fischer, did you ever actually know a wife who was able to change her husband? Think hard.

I've known a lot of wives who tried, but in the end John was still biting his fingernails or telling dull stories or dropping ashes on the rug, just as he did in the romantic days of courtship. And in the end it was Mary who got ulcers from

frustration, not John.

Our modern promotion-minded industrial empire does devote a lot of attention, it's true, to selling cosmetics, corsets and convertibles to women. But did you ever examine the totals on sales of men's cosmetics, Mr. Fischer? They run very close to the sales of women's beautifiers.

Your picture of the pampered, idle wife, Mr. Fischer, is graphic but slightly dated. There was a day when most wives stayed home and gave to parties. Those were the days before income taxes and before the disappearance of domestic servants from the household scene.

Today one out of every three married women holds down a full-time job outside her home. She gets home from work just as tired as her husband is, but usually takes over the chores of preparing dinner and washing the dishes anyway.

Since she feels that perhaps she is losing something of feminine charm and appeal by becoming a wage earner, she probably works harder than ever to keep her household running smoothly and also

Mrs. Brown Returns From Arizona Visit

COAHOMA — Mrs. Burr Brown has returned home after visiting in Arizona.

Guests in the home of Mrs. Ted Fowler for the weekend were her husband, Ted, from Ft. Hood and Mr. and Mrs. Joe Enchleimer of Baltimore, Md.

Mr. and Mrs. Oscar Self spent the weekend in Baird in the home of his sister, Mrs. Willis Balch.

Mrs. Jessie Fowler has received word of a grandson born to Mr. and Mrs. Wallace Fowler, who live in Evergreen, Colo. Mrs. Fowler of Odessa spent the weekend with Mr. and Mrs. Melvin Tindol and her parents, Mr. and Mrs. Sam Buchanan.

Mr. and Mrs. Grady Tindol of Odessa spent the weekend with Mr. and Mrs. Melvin Tindol and her parents, Mr. and Mrs. Sam Buchanan.

puts extra effort into keeping herself attractive.

Moreover, it's good for her. She has discovered that the busier she is, the less time she has to dwell on vague fears and frustrations that beset idle women. She stays younger, gets more fun out of life and usually manages to be more interested and understanding toward her husband's business problems too.

Take another look, Mr. Fischer.

Bride-Elect Is Honoree At Shower

Marie Wallace, bride-elect of Keith Tiller, was the honoree at a bridal shower given Tuesday evening in the home of Mrs. Don McKelney on the Snyder Highway.

Miss Wallace, the daughter of Mr. and Mrs. Eston Barboe, is to be married Aug. 27.

Co-hostesses for the party were Mrs. C. H. Massey, Mrs. R. E. Haney, Mrs. Harvey Fryar, Mrs. Leland Wallace, Mrs. Rodney Tiller, Mrs. Myrtle Haney, Mrs. Westley Carroll and Mrs. Elton Wallace.

Mrs. Gwen Fryar registered guests, and Mrs. Leland Wallace and Glenda Haney served refreshments. The table was laid with a white crocheted cloth over pink. An arrangement of baby's breath and pink asters was used as the center decoration.

The gift table was decorated with parasol of pink satin and marquisette. The guest list included 100.

The honoree wore a dress of white linen with white pumps, and her corsage was of pale pink carnations. Her mother chose pink lace with navy accessories. The grandmother of the prospective bridegroom, who lives in Colorado City, was dressed in a printed silk with navy accessories.

Say unto them, as I live, saith the Lord God, I have no pleasure in the death of the wicked; but that the wicked turn from his way and live: turn ye, turn ye from your evil ways; for why will ye die, O house of Israel? (Ezekiel 33:11)

Editorial

Peace, It's Still Wonderful

Peace, it's wonderful. Also, the sweet spirit of brotherly love is spreading abroad in the world. Taking their cue from President Eisenhower's news conference remark that exchange of visits "throughout the whole echelon of government" had been discussed informally at Geneva, but no definite invitations were issued, two U. S. senators expressed the belief that it would be a good idea to send Vice President Nixon on a goodwill mission to Russia, and invite Russians of comparable political stature to this country.

President Nixon could do some good on such a mission. John Sparkman (D-Ala.), the 1952 Democratic vice presidential standard-bearer, thought it might not be a bad idea, but he couldn't resist adding: "I think it was a great mistake that President Truman didn't send Chief Justice Vinson to Moscow in 1948 as he intended to do before the Republicans raised objections to the plan. I think Vinson might have done a great deal of good." All this concern for hobnobbing with the Communists would have been unpredictable a year ago, and the politician who suggested it then would have been pilloried. Now it's quite fashionable.

After All, Harry's A Husband

In what is described as the first magazine piece ever written by Mrs. Bess Truman, which appeared in the newspaper supplement "This Week" last Sunday, the former First Lady says she misses the White House because she had just spent the afternoon looking for someone to do the yard work, without success, and how nice it had been to leave such worries to the efficient White House staff of gardeners.

cutting the grass. When I looked out the window and saw him, I was horrified." So she called out to the former President of the United States, "Harry! Come in here this minute. You know what those churchgoers are saying." Mrs. Truman says there was no doubt in her mind that her husband had planned this strategy deliberately to get out of mowing the lawn, and he hasn't touched the lawn mower since.

David Lawrence Their Job Simply Is To Be Ready

OFFUTT AIR FORCE BASE, OMAHA, Neb. — They sweltered here in a temperature of 104 degrees over the weekend and they kept the vigil just the same — the vigil upon which depends the survival of America in a nuclear age. For the Strategic Air Command, whose headquarters are at this huge base, maintains a 24-hour alert every day, including Sundays and holidays. It is from this command post, midway across America, that orders will be sent—if the occasion ever arises—to our bases overseas and to our bases in continental North America to send aloft our big bombers with their atomic cargoes to be dropped a few hours later upon enemy areas.

talk of peace, Pearl Harbor has not been forgotten. This is an altogether different kind of Air Force than that which was flying daily missions over Germany in the last war. If another war comes, it will not be a matter of every-day bombing with thousands of planes over one area. It will be an operation on a global scale, and the missions will be relatively few in a given area because the havoc of each blow will be great. One modern bomber manned by only three men and carrying atomic weapons can do more damage in one sortie than 1,000 bomber planes, bearing ten men each, did in a single mission in the closing days of World War II in Europe.

3 Demos Took Congressional Spotlight

WASHINGTON, (AP)—Every session of Congress produces at least one dominant figure, dominant in the sense of being effective or being in the spotlight. This year's session produced three dominant men who were outstandingly effective.

All three were Democrats: Sen. Walter George, 77, of Georgia; Sam Rayburn, 73, of Texas, speaker of the House; and Sen. Lyndon B. Johnson, 47, of Texas Democratic majority leader of the Senate.

Johnson and Rayburn, as bosses of their respective houses, ran Congress. They, more than anyone else in Congress, steered through to passage the year's bundle of legislation with a minimum of fuss and feathers.

Must Have An Enemy

TIBURON, Calif. (U)—Jandy Hovance owns a house at No. 3 Mercury Ave., Tiburon Gardens. He had a potential buyer May 22 when a car came roaring across the lawn of two other houses and plowed through the wall of his.

The potential buyer decided not to take the house. Monday, Hovance finished \$200 worth of repairs and redecorating and took a deposit from a new potential buyer.

Monday night another auto crossed the lawn of two houses (same two, same course) and smashed into the kitchen of Hovance's house.

Said Hovance: "I don't suppose the new potential buyer will want it now."

Segregation Bill Passed In Alabama

MONTGOMERY, Ala. (U)—A bill designed to preserve segregation in public schools became the law in Alabama last night although Gov. James E. Folsom refused to sign it.

The new statute gives city and county school boards unprecedented police power in deciding which schools individual pupils shall attend.

The bill automatically became law when no gubernatorial veto was received before the legislature recessed yesterday.

The bill allows local school boards to assign pupils to various schools on a basis that will "assure social order, good will and the public welfare."

U. S. Temperatures Again Head Into 90-100 Bracket

By The Associated Press
Temperatures headed into the 90-100 range again today in mid-summer's persistent and widespread heat wave.

The long-range forecast indicated there will be no general break in the steaming, scorching weather for several days. The 30-day outlook by the Weather Bureau in Washington brought additional unpleasant news: warmer than usual weather in August in most of the northern two-thirds of the nation.

The steady heat of nearly two weeks in the mid-continent with only light rain has threatened some crops. Farmers in central New York counties have asked

Maybe He Was Driving In China

DETROIT, (U)—Charles Gallagher, accused of ramming a parked car July 6, explained that he had suffered a sun stroke. Traffic Reporter Andrew C. Wood seemed impressed—until the arresting officer testified the accident happened at 12:25 a.m. Gallagher was fined \$25 for reckless driving.

Sizzling Sell-Out

KALAMAZOO, Mich. (U)—The sign on the front lawn read "August Clearance of January Stock." Eight-year-old Michael Loveland had dug into his mother's freezer and found the cache of snowballs he made last winter. At a penny apiece they were a sizzling sell-out.

Test Of True Love

Connie waited in on cloud number eight the other day and announced she was in love. Mom and Dad gasped and Connie's married sister soothed them by saying that it was only puppy love.

Indignantly, Connie stalked out on the front porch to think. At what age can you experience true love? Older folks like to believe there is a set age just like for the cutting of your teeth, but ain't so. People develop at different rates of speed and so does their capacity for knowing and evaluating true love. Mentally and emotionally most people are not ready to take any serious romantic steps before they are eighteen. Somehow, though, most people think they are the exceptions. Better be mighty sure.

You don't catch the love bug like the "flu" bug. Love at first sight sounds romantic, but there's just "no such animal."

Physical attraction can bounce forth anytime, but real love doesn't come presto! It is never a "now you see it, now you don't" type thing. It develops slowly and over a period of time.

The butterflies in the stomach feeling should accompany love, but by itself, it is not love.

Love is quiet and comfortable. It is a feeling of security. Love is like growing flowers. You have to have the right soil. Love demands similar temperaments, backgrounds, and interests in two people. You don't have to be as alike as two peas in a pod, but you should have a common meeting ground and should stand together on major issues.

Often compassion is mistaken for love and individuals who are vastly different marry. Potential social workers or women with

strong maternal instincts frequently get carried away with their creative desires to help the underdog, to such an extent they find themselves enmeshed in a hopeless, loveless marriage. Love may come at any age, but it doesn't ever burst forth. Knowing each other over a period of time in all kinds of circumstances and having common interests nurture it and cause it to blossom.

(All letters addressed to Miss Beverly Brandow in care of The Herald and enclosing a 3 cent stamp will be answered personally.)

Rhee Welcomes Texas Cattle, Sends Thanks

SEOUL (U)—President Syngman Rhee today personally welcomed a \$300,000 cargo of cattle and farm tools from Texas and thanked Texans for the "unusual, wonderful gift."

The contribution to the young 4-H clubs in Korea included 150 head of cattle, 100 goats, 500 hogs, 100 sheep, mule teams, wagons, 200 sewing machines, more than 1,000 bushels of seed and various farming tools.

The cargo arrived at Inchon Sunday aboard the freighter Sylvia Lykes.

Thousands jammed sidewalks to watch a half-mile long parade of 800 Koreans 4-H club members and 11 Texas youths who cared for the animals on the trip.

The Korean boys and girls carried placards saying, "We thank you Texas friendship cargo."

Rhee said, "The state of Texas is our state. Of all the 48 states who helped us with relief goods from the beginning of the conflict, one particular state has been good to us. That is the state of Texas."

Rhee introduced Col. Charles A. Anderson, (ret.), a Texan with long service in Korea, and praised his work in helping the Texas friendship cargo campaign. Anderson is now a 4-H club specialist with the American Korean Foundation.

Rhee greeted the visitors at his hillside home. The group was led by the Rev. Walter Parr, Fort Worth, general secretary of the Church Rural Overseas Operation Assn. and Jack T. Sloan, of Texas A&M College.

Solons Deny Border Charge

WASHINGTON (U)—A congressman's claim that the U.S. Border Patrol is being militarized doesn't get any support from three Texas congressmen whose districts border Mexico.

"It sounds like a fantasy," says Rep. Fisher, whose district extends along the border in the Del Rio area. "I don't know how they'd go about militarizing the border patrol under the civil service laws and with the personnel they have built up in the agency over the years."

Others who indicated there is little substance to the reports were Rep. Rutherford, whose district starts at El Paso and runs along the Rio Grande, and Rep. Kilgore, who represents the lower Valley and the area westward past Laredo.

The claims were made by Rep. Molohan (D-W. Va.), who has had a feud under way with the patrol for some time. He said he has been told the patrol plans to recruit 8,000 volunteer patrolmen, stock up military-type equipment and be ready to blow up bridges across both the Mexican and Canadian borders if an enemy attacks.

Actor Improved Under Treatment

NORWALK, Calif. (U)—Doctors say Bela Lugosi has improved "remarkably" under treatment for drug addiction and will leave Metropolitan State Hospital Friday. The 67-year-old actor, noted for his menacing film roles, admitted himself for treatment three months ago.

Red China Asks Third Power In Student Fuss

NEW YORK (AP)—The New York Times said today Communist China has proposed that a third power be named to determine whether Chinese students in the United States want to return to China.

A Times dispatch from Geneva said the proposal was put forward yesterday by Wang Ping-nan, Red China's ambassador to Poland, in his talks with U. Alexis Johnson, U.S. Ambassador to Czechoslovakia.

It said early release of 40 U.S. civilians held in Red China was regarded in Geneva as virtually assured.

The issue of civilian repatriation was the chief topic for discussion between Wang and Johnson after Red China announced Monday that 11 American airmen were being freed.

The talks were recessed until tomorrow to permit consultation with Washington and Peking.

The United States has said that all Chinese students in the United States have been free to return to China since last April, but that most of them do not want to leave. During the Korean War Washington banned the departure of any students whose U.S. training could be useful to the Red military.

Wang first proposed a third-power check on the students' desires during similar talks on civilian repatriation last year with Johnson during the Indochina conference in Geneva. In reviving it in mind as a third party.

Johnson made no reply to the proposal yesterday, apparently referring it to Washington.

Johnson made no reply to the proposal yesterday, apparently referring it to Washington.

Lady Bugs No Big Help

COLLEGE STATION, Tex. (AP)—The Texas Agricultural Extension Service says some Texas farmers are depending on bugs to eat the bugs that are eating their cotton, and they shouldn't.

It's true, said the experts, that lady bugs will nibble on the bollworm, which nibbles on cotton.

But the lady bug prefers aphids and spider mites and if they aren't around they go where they are rather than eat up all the bollworms.

It's Always The Men Who Pay

SANTA MONICA, Calif. (AP)—Mrs. Bernice Troyan accused her husband Joseph of striking her with a baseball bat, but when the time came to testify against him she wouldn't.

Result: She was held in contempt, fined \$20 and placed on probation for two years yesterday by Superior Judge Orlando H. Rhodes. The couple was estranged when she charged that her husband struck her when she refused a goodnight kiss. They're reconciled now, which means that Troyan is responsible for his obligations including the fine.

Texas Boy Dies On Way To Operation

CHICAGO (AP)—Allen Wendell, 2, Slaton, Tex., en route to Philadelphia for a brain operation, died yesterday in a Chicago station. His parents, Mr. and Mrs. J. F. Wendell, did not disclose the nature of the boy's ailment.

Bulgaria Admits Planes Responsible

LONDON (AP)—Communist Bulgaria admitted today that two of her fighter planes shot down an Israeli airliner last Wednesday.

It said it would "discover and punish those responsible for the catastrophe."

All 58 persons aboard the airliner, including 12 Americans, were killed. The plane, which had gotten off course, crashed just north of the Bulgarian-Greek border.

Previously the Bulgarians had said Red anti-aircraft guns downed the airliner and promised partial payment for the million-dollar plane. But the Israeli Foreign Ministry said Monday that Israeli investigators who inspected the wreckage saw "numerous bullet holes" and gained "the definite impression" that they came from machine-gun fire.

The Bulgarian Telegraph Agency made the government's announcement today. It was broadcast by Sofia radio.

The announcement also conceded that the "organs of the anti-aircraft defense" which shot down the American-built Constellation were "too hasty."

"They did not take all the necessary measures to force the plane to land," the broadcast said.

In addition to promising punishment for those responsible, the statement said the Bulgarian government "will adopt all measures to prevent a repetition of such a disaster in our land."

But the statement cited current international tension and what it claimed were repeated previous violations of its air frontier to make illegal "drops" into its territory. In this tense atmosphere, the statement said, the government "had to protect the country's security."

The statement said also that the Bulgarian government in its earlier note to the Israeli government has expressed readiness to pay compensation to the families of the dead as well as to pay a share of the material damage. The previous Israeli announcement of the offer had made no mention of damages for the relatives.

The broadcast gave this account of the downing of the airliner, as determined by an official government commission composed of three Cabinet ministers and the attorney general:

"In all, the aircraft flew some 200 kilometers (about 125 miles) over Bulgarian territory," about 80 miles off its course over neighboring Yugoslavia.

An air defense command post received news that an unidentified foreign aircraft had entered Bulgarian air space. The command post ordered two fighters to pursue the aircraft and "compel it to ground on any one of our airfields."

The Bulgarian fighters warned the plane "through the established international signals" to follow them to an airfield, but the Israeli plane did not reply.

"The fighters, seeing that the offending aircraft intended to make off, opened fire against it as a result of which it caught fire and crashed in the neighborhood of Petrich."

An explosion followed, demolishing the aircraft, and all 58 aboard perished, the statement said.

The Communists contended that the Israeli plane had modern navigation instruments and "could not fail to see" it had violated the frontier as well as disregarded the warnings from the Red fighters.

GEN. JOHN W. WHITE
... Once a director of training here

Former Bombardier Officer Is General

John W. White, who was director of training for the Big Spring Bombardier School in 1941-42, has been promoted to the rank of brigadier general in the United States Air Force. The appointment was confirmed last week by Congress.

He came to Big Spring as a major in the USAAF to direct training operations for the new bombardier school and was subsequently promoted to lieutenant colonel. During his residence here he served under Col. Sam Ellis, the first commander of the base.

Gen. White was born in Uvalde June 16, 1910 and attended St. Edwards University in Austin for a year, Texas A&M College for half a year, and was graduated from the U. S. Military Academy at West Point on June 12, 1934.

Commissioned a second lieutenant, he entered primary flying school at Randolph Field and was graduated from advanced flying school at Kelly Field in Oct. 1935. Assigned to the 19th Bomb Group at March Field, Calif., he entered the Air Corps Technical School at Chanute Field, Ill. in July 1937 and was graduated the following June. He then was made an instructor at Randolph Field. In August of 1940 he was moved to Lowry Field, Colo., as an instructor in the bombardier school.

Assigned as director of flying training at Ellington Field in February 1941, he was moved in November of that year to become director of flying at Midland Bombardier School, and in May 1942 as director of training at Big Spring. In the meantime he had been promoted to the rank of colonel and was assigned as commanding officer of the air base at Childress. Two years later he was sent back to Midland as commanding officer of that field. In July 1945 he assumed command of the 485th

Bomb Group at Salina, Kans.

Gen. White was operations officer and then director of plans for the Berlin airlift in May 1946. He entered Air War College in August of 1949 and was graduated the following June and went to Mather AFB, Calif. as commander of a bombardier training group. He assumed command of the base in January 1952. Subsequently he was sent to National War College in August 1953, completing the work the following July.

At this point he was assigned to Air Force headquarters as assistant chief of the policy division, directorate of plans. He became a member of the policy, training and organization section of the office of the joint chiefs of staff on May 1, 1955. In August he assumed command of the Iceland Defense Force, Military Air Transport Service at Keflavik Island.

Gen. White is rated as a command pilot and he holds the Legion of Merit. He and his wife, Patricia Krauss White, have two children, John W. White Jr. and Sally.

ATOM BOMB

Doomsday For 1,300 Students

NAGASAKI (AP)—Ten years ago was Doomsday at Shiroyama grade school.

At 11.02 a.m., Aug. 9, 1945, the second atomic bomb dropped on Japan exploded about half a mile away and turned the building to rubble. Twenty-eight teachers and more than 1,300 students died.

Today a new building stands on the same site. In its courtyard is a bronze statue of a schoolboy and two doves. It is inscribed: "The 9th of August Is Doomsday."

Once a month, a new generation of schoolchildren gathers around the statue. They say a prayer to the A-bomb's victims, sing a song called "Spirit of the Children," and hear a talk by Principal Tatuso OI.

OI has been a school principal in Nagasaki ever since little Japanese boys and girls were forced to wave rising sun flags and shout "Banzai" in schools such as this. Now completely bald, he lost his first wife in the atomic attack.

"We tell the pupils that such a dangerous weapon as the atomic bomb should not be used, or it will mean destruction of the world," OI said in an interview.

"Then the pupils go to their own classrooms and their teachers guide them to think seriously about the peace of the world."

There is no formal classwork on World War II and the atomic bombing. It was eliminated from the elementary school course when the Allies occupied Japan and has never been restored.

"The children (ages 6 to 11) are too young for such a delicate question," said OI. "They are living under various circumstances. Some had fathers who died on the battlefield. It would be wrong to evoke unnecessary yearnings for revenge."

The teaching pattern for youngsters in Japan 10 years after defeat is de-emphasis of the last war, aversion to things military and near worship of the abstract idea of peace.

High school students get a terse chronology of the war, usually including a simple statement that the Pacific war started when Japanese planes bombed Pearl Harbor.

By the time they finish high school, the boys may become outspoken if they discuss history with opinionated parents or school-teachers or read much. Right now the most volatile teachers are leftist inclined.

Next week, on Aug. 9, the people of Nagasaki will dedicate two new civic buildings to the memory of their 73,000 dead. One is the new 50-foot-high bronze statue called "Prayer for Peace." The other is a six-story building which cost a third of a million dollars—Nagasaki's new international cultural center and auditorium.

On the fifth floor photographs

of survivors are displayed, along with samples of melted tile and burned clothing. There is a cracked bust of Christ facing away from a clock stopped at 11.02, the instant of the explosion.

Workmen are still repairing the twisted steel framework of factories and some of the ghostlike, cracked buildings of Nagasaki's medical college, where 864 patients, students, doctors and nurses died.

The only recent sign of bad feeling toward Americans was a show of hostility from fishermen here after dust from an H-bomb, tested last year at Bikini, drifted over the Japanese fishing boat Lucky Dragon. U.S. Navy warships here on occasional visits get a big welcome.

Next: Atomic Disease.

Jap Warlords Tampered With Pre-War Message

TOKYO (AP)—Shigeru Yoshida says in his memoirs that some of Japan's leaders at the time of Pearl Harbor tampered with the text of a final U.S. note, thus persuading reluctant officials to agree to war.

"This was a fraud by the military and amounted to conspiracy," declares the 76-year-old diplomat and politician who guided Japan as prime minister through six post-war years.

He said the note from the late Secretary of State Cordell Hull just before the Pearl Harbor attack was marked "Not definitive."

His memoirs, now appearing in the big newspaper Asahi, said the main text was an honest presentation of the views of both sides. There was the added comment in the note that "this is a basis for negotiation" and part of the preamble emphasized "this is a tentative plan."

"Not only were all these words deleted," Yoshida said, "but the portion covering the Japanese stand was also deleted when the document was submitted to the Privy Council as 'the Hull note.' I was informed that only the American position was carried in a one-sided manner."

It was on the basis of this doctored note—accepted by Japan as a virtual U.S. ultimatum—that reluctant Japanese civilian leaders and some doubtful military chiefs finally agreed to war, Yoshida said.

Yoshida himself, with years of experience abroad as a diplomat in London, Rome and Washington, had many misgivings. He was arrested by the military later in the war when he joined a movement for a negotiated peace.

Portugese Fire On Unarmed Indians

BOMBAY, India (AP)—Portugese sources reported that police fired today on unarmed Indians trying to march into Portugese Goa, killing one marcher and wounding three others.

Goa is the largest of Portugal's three pockets of territory on the west Indian coast. Portugal has refused to negotiate Prime Minister Nehru's demands that the areas—last foreign foothold in India—be merged with India.

Hofheinz Ignores Council's Second Attempt At Ouster

HOUSTON (AP)—Mayor Roy Hofheinz has ignored the City Council's second attempt to suspend him, but seven of the eight councilmen say they still intend to hold an impeachment trial Tuesday.

Hofheinz said yesterday he would seek another court injunction if the Council attempts to carry through a trial. The mayor said there were 15 legal defects in Monday's impeachment procedure.

Hofheinz, a 42-year-old millionaire, says an 18-day suspension voted by the councilmen Monday is in conflict with the city charter, state statutes and the state Constitution. On July 21 he obtained a temporary injunction which voided a previous 30-day suspension voted July 15.

Sears Staff On The Move

Staff of the Sears catalogue store is on the move today in preparation for the grand opening of their new and much larger store at 213 Main Thursday. Left to right are M. I. Walters, manager, Mrs. Laura T. Anderson, Mrs. Willie B. Pitts, Mrs. Beulah Crabtree, assistant manager, Mrs. Willie Suttles, Mrs. Olive Murphree, Mrs. Jonnie Spruill, Mrs. Mae Masters, Mrs. Esther Gilmore, Marvin Daughtery and Arthur Lockett.

Sears To Open New, Enlarged Catalogue Store On Thursday

Formal opening of the new Sears catalogue store is set for 9:45 a.m. with Mayor G. W. Dabney doing the honors in clipping the ribbon at 213 Main.

The will be brief ceremonies, with the program broadcast over KBST, before the doors are opened to the public at 10 a.m. Then, throughout the day, there will be candy for the youngsters and favors for adults who visit the new and greatly enlarged merchandising store. There also will be a wishing well with its grand prize.

Not only has the store been finished with the most modern fixtures and departmentalization, but it also employs pleasant pastel color schemes, abundant illumination and refrigerated air conditioning.

Among the many new features of the store will be the opening of a complete service department in the basement area of the store. Technicians who installed Sears appliances can, if necessary, give

complete servicing of all appliances in the specially equipped shop.

Key of the store design is to afford the shopper an opportunity to see actual examples, within basic patterns, of the merchandise he or she wishes to order. The orders are air mailed to Dallas and returned in fast freight via T&P Motor Transport within 48 hours. This expedites service for the customer and frequently saves on postage.

Manager of the store will be Mervin Walters, who has been in special training at Dallas and other places. Walters comes here from Austin where he has been a department manager for Sears. He has been with the company for a number of years. He and Mrs. Walters have one son.

Other staff members include Mrs. Beulah Crabtree, assistant manager; Mrs. Laura T. Anderson, Mrs. Mae Masters, Mrs. Olive Murphree, Mrs. Willie B. Pitts, Mrs. Jonnie Spruill, Mrs. Esther Gilmore, Mrs. Willie Suttles, Marvin Daughtery, service manager, and Arthur Lockett, porter.

In moving to the new location on Main, Sears is gaining approximately four times as much space. Besides the display area in front, there are spacious offices for the credit manager and telephone center. Back of that is a large storage area for receiving merchandise, and downstairs, as mentioned, is the service area plus more storage space. Lounge rooms are also provided.

One department will be for display of batteries and tires, and another for luggage and guns. The appliance division will have hot and cold water installations, washers, freezers, refrigerators. A kitchen

division will spotlight newstyle Philippine mahogany kitchen fixtures, sinks, plumbing, etc. and a nearby display will feature bathrooms and fixtures.

Near this is a special counter, where the customer may be seated, to study samples of material for draperies, dresses, or wallpaper, etc.

Other departments will spotlight children's clothing including coats, trousers, sweaters; radios and and TVs; table appliances; draperies and bedspreads. The remaining area will be reserved for featuring special merchandising opportunities.

The walls have a perforated metal panel with evenly spaced standards into which brackets may be fitted unobtrusively. Thus the fixtures, even to the lights become immediately adjustable.

Several Sears' representatives, including C. F. Higgins, W. A. Stanley, Paul Spurgeon, Joe Harmon, and J. N. Cates of Dallas, are coming here for the opening.

Teenage Bandit Shoots Himself

HONOLULU, (U)—A teenage bandit shot and critically wounded himself last night when police cornered him before he could flee from a bank with his holdup loot. Cyril Chung, 19, had jammed \$4,800 in a bag after locking five girl employees, a male teller and two patrons in the vault of the American Security Bank.

Police closed in as he was ready to flee. Chung then shot himself near the heart, Honan said.

In hospital surgery, Chung told his upset father, "That's the roll of the dice."

Assumes Command

TAIPEI, Formosa, (U)—Rear Adm. George W. Anderson Jr., today assumed command of the U.S. Formosa Strait Patrol. He took over from Rear Adm. Frederick N. Kivette, who left for Pearl Harbor to become chief of staff to the commander in chief of the Pacific Fleet.

4 Mississippi Governor Candidates Neck-And-Neck

JACKSON, Miss. (U)—Four candidates for Mississippi governor stepped on each other's heels early today as vote counting reached the halfway point in the first Democratic primary election.

A runoff election Aug. 23 is certain.

The top two vote getters in yesterday's primary may not be known until late today. Long ballots in all counties slowed returns.

Atty. Paul Johnson, making his third try for the post his father once held, took the lead at 1:15 a.m. today and kept a razor thin margin over 41-year-old Atty. Gen. J. P. Coleman.

Johnson 30,587; Coleman 29,881; Wright 27,134; Barnett 24,789; and Mrs. Cain 6,280.

The count represented partial returns from virtually all of Mississippi's 82 counties. It appeared the final vote would run well under the predicted 425,000.

All candidates promised Negro children never would enter white schools in Mississippi. They disagreed on how they would be kept out.

Unofficial returns from 910 of the state's 1,851 precincts showed:

Albuquerque Hit By Flash Floods

ALBUQUERQUE, (U)—Flash floods struck North Albuquerque for the second time in two weeks last night, causing the evacuation of some families and disrupting train service.

The waters, rushing out of two arroyos, sliced 20 feet of track out of the Santa Fe Railroad, halting all trains through here. No injuries were reported.

The National Guard was called out and began evacuation of families. Then the water began receding and only a few families left their homes.

Defendant Goes Berserk, Shoots Up Courtroom

CARLISLE, Pa., (U)—A gun-toting defendant, shouting that justice had deserted him, turned a Pennsylvania courtroom into a death chamber yesterday.

Percy Haines, 60, of Newville R.D. 2, whipped out a pistol, shouted he was getting a "raw deal" when ordered to pay his wife \$50 monthly for support, and fired four times. He killed a lawyer and injured three others, including the presiding judge.

He was charged with murder and held without bail in Cumberland County Court. No hearing date was set.

Victim of the bizarre slaying was John D. Falter, 41-year-old Carlisle attorney who was representing Haines' ex-wife Lulu, 60, in the nonsupport action.

Mrs. Haines, struck in the abdomen, was reported in "critical" condition at Carlisle Hospital.

Judge Mark E. Garber was hit in the upper right arm and doctors said there was a possibility it might be necessary to amputate.

George Black, 50, Chambersburg attorney associated with Falter, was struck in the left arm.

Jail Sentence

LOS ANGELES, (U)—Louis Colonna, 53, brother of comedian Jerry Colonna, has been sentenced to six months in jail for possession of marijuana. The court denied him a request for probation.

Vets Come Through For Leaders Again

Byrne Tames Indians, 2-1

By ED WILKS
By The Associated Press

A handful of oldtimers, supposed to wilt in the heat, looked like a crop of young rookies as first place Chicago and runnerup New York gave Boston and Cleveland hotfoots in the sizzling American League race last night.

It was Connie Johnson, 32, and Millard (Dixie) Howell, 35, both reclaimed from the minors, who supplied the pitching in the White Sox 2-1 decision over Boston. And at New York, the Yankees nudged Cleveland 2-1 on the pitching of 35-year-old Tommy Byrne, another veteran, and a pair of home runs by Joe Collins, 32.

As a result, the White Sox still have their one-game lead over the Yanks, but Cleveland has fallen two games back and Boston four. Fifth-place Detroit, 7 1/2 games behind, outslugged Washington, 13-10, and Baltimore tumbled Kansas City 5-1.

In the National, Brooklyn gave in to a Milwaukee rally, 5-3; New York beat St. Louis 3-0; Cincinnati whitewashed Philadelphia twice, 2-0 and 4-0; and Chicago pasted Pittsburgh 12-4.

None of the White Sox and Yankee heroes of last night are old codgers, exactly, but they're well past the flaming youth stage.

Johnson had Boston's kids well in check with two out in the ninth, then had to get relief for his fourth victory in five decisions since being brought up from Toronto June 30. He gave a single to Jim Pierson and went 2-0 against pinch-hitting Faye Thronberry before Morrie Martin, another veteran, came on. Thronberry swatted a triple to make it 2-1 and Howell, up from Memphis, went 2-2 against Eddie Joost before getting him on a game ending fly.

Three singles made for one run in third off loser Tom Brewer and Jim Rivera belted a homer for the winning margin in the fourth.

Collins, with just two home runs in the last two months, made it 1-1 in the first inning with his first homer of the night. Then he broke up a duel between Byrne and Early Wynn, another 35-year-old guy, with his one-out poke in the 10th.

The Indians' run came in on Al Smith's leadoff triple and Bobby Avila's sacrifice fly. From then on, Byrne shut the door—giving just six hits the rest of the way for his 10th victory against two defeats. Wynn, who had counted the Yanks three times in his 13 victories, took his sixth defeat.

Detroit blew an 8-2 lead and then a 10-6 lead at Washington before jumping on reliever Pedro Ramos for three in the ninth. Harvey Kuenn had two doubles and a pair of singles for the Tigers as each club got 17 hits. The joint 23-run slugfest was accomplished without the help of a homer.

Milwaukee tied the Brooks at 3-3 as Ed Mathews swatted his 28th homer—his second of the game—then got two more in the big eighth inning rally on Don Zimmer's error. Phil Paine one-hit the Dodgers in four relief innings and fanned six for his first major league decision this year. Rookie Roger Craig took his first defeat with the Brooklyn—who now lead by just 1 1/2 games.

Johnny Antonelli, one of the big busts with the Giants this season, blanked the Cards on five hits while Don Mueller drove in two runs with a single and a sacrifice fly.

Cincinnati paired a four-hitter by Johnny Klippstein and a five-hitter by Gus Nuxhall with the bat work of Joe Bell to sweep the two-nighter from the Phils. Bell had two rbi singles in the opener and hit two homers in the nightcap.

Ernie Banks matched a major league record with his fourth grand slam home run of the season for the Cubs and added a run producing single to trample the Bucs. His bases-loaded shot marked a six-run fifth.

Bill Wight, the Tribe castoff, four-hit the A's, who contributed four errors that made all the Oriole runs unearned. Wight gave just one hit over seven innings—Bill Wilson's homer in the fifth.

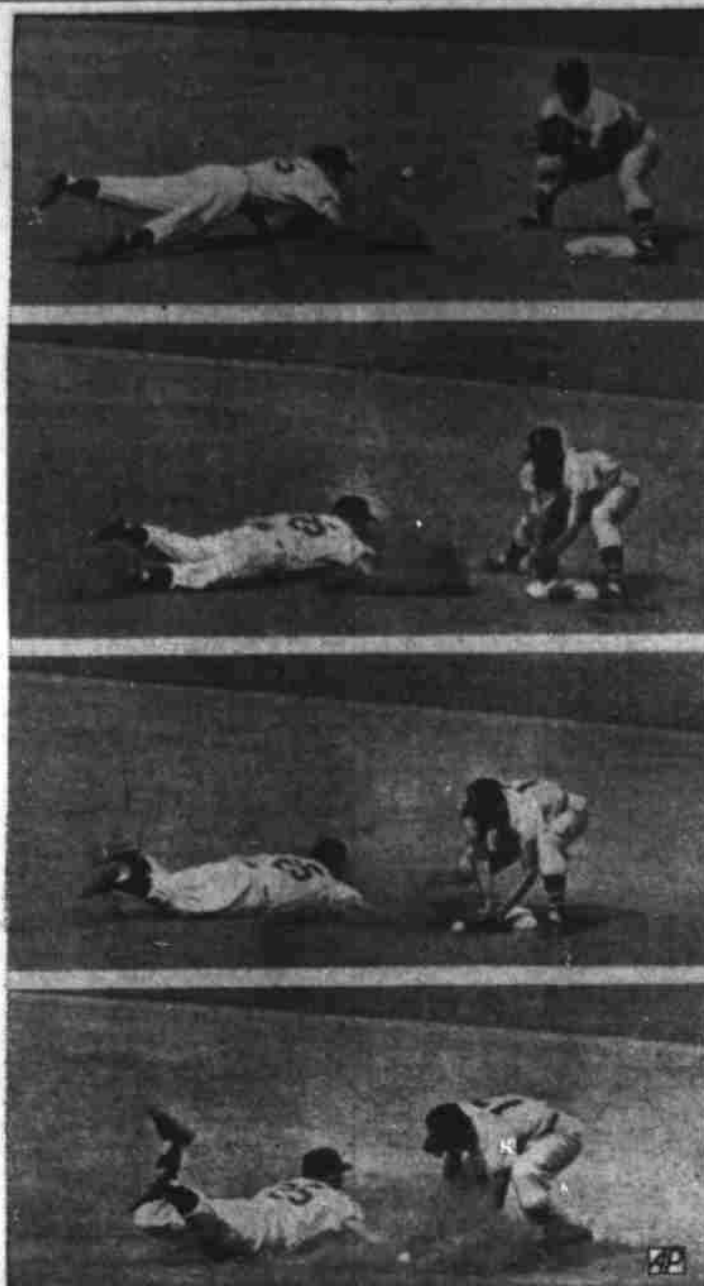

Yankees Had Wynn In Hot Water But Couldn't Score

NEW YORK (AP)—"Well, now," said Prof. Casey Stengel, "that was more like it. But I hope it's not quite as close tonight. We're all liable to get ulcers."

Stengel was referring, of course, to the 2-1 squeaker his New York Yankees won from the Cleveland Indians last night on the wings of two home runs by Joe Collins and the fine pitching of Tommy Byrne.

"You know," mused the Professor, whose club is a game behind the Chicago White Sox, "when Gil McDougald got hit during practice, I fiddled around with all sorts of lineups before I decided on one. "Then when we were getting along around the eighth inning or so, I says to myself: 'Case, this one must be wrong. These guys are getting all sorts of hits, but they're not scoring.'"

Collins, the in-again, out-again first baseman, took care of that when he slugged one of Early Wynn's pitching into the lower right field stands about 170 yards out to hit his first round-tripper

Saved By A Break

At first glance it looks like Yankee left fielder Irv Noren is caught off second, but the sequence camera shows how he got a second chance that allowed him to score later during a three-run eighth-inning rally by the Yankees in New York. Noren dives back to second as Chicago White Sox shortstop Chico Carrasquel waits to take a throw from pitcher Millard Howell on a pick-off play. Carrasquel has the ball in plenty of time, second photo, but drops it and fails to recover it before Noren reaches the bag. The White Sox won the game, 7-4. (AP Wirephoto).

Odessa Rallies To Nip Locals

Pitcher Jim Newberry wore an albatross 'round his neck to Steer Park Tuesday night.

The Negro righthander, making his first start for Big Spring, hurled one of the finest games seen here this season, yet Big Spring lost a 3-1 decision to the Odessa Eagles.

Mike Gazella was simply a little better. He set the Cosden Cops down with seven hits and blanked them in every inning save the sixth, when Nick Cappelli doubled, advanced to third on a wild pitch and came home on an infield out.

HONEYCUTTS GET A THIRD BOY

Coach Frank Honeycutt of Foran has made a trip home from Denton, just long enough to get acquainted with his new son.

The still unnamed youngster, weighing 6 pounds, 4 1/2 ounces began life at the Malone & Hogan Hospital-Clinic Aug. 1. He is the third son born to the Honeycutts. His brothers are named Pat and Mike. Frank will get his master's degree in North Texas State College Aug. 24. He will have to miss the Six-Man Coaching School at Beaumont (for the first time) because he cannot spare the time away from classes.

One out deep in the ninth, Lefty Lokyo climbed aboard with a rifle shot single past the shortstop. He moved to second on a one-baser by Bob Cullins and both rode home on Tony York's ringing double over Nick Cappelli's head that rolled all the way to the wall. York advanced to third on the throw-in and advanced to the plate on Jackie Terrill's drive to right field that fell in for two bases.

Big Spring blew several other chances to score in the earlier innings. They had the sacks loaded in the eighth but could not get a run in.

The Cops skidded back into a tie for the cellar by losing, sharing the seventh and eighth positions with the Eagles.

GLEANINGS — Cullins and York each found Newberry for three hits. The first 11 pitches Newberry threw in the game were strikes. . . He struck out ten batters, compared to nine for Newberry. . . Manager Bob Martin of Big Spring was struck on the throwing arm by one of Gazella's pitches in the fourth and had to leave the game. . . Newberry speared a drive by Terrill with his bare hand in the fourth to avert a run. . . Jerry Pooler, making his first appearance of the year in Steer Park as an umpire, was struck in the mask twice in the sixth inning and suffered nausea.

SWC's 'Letter Of Intent' Is Criticized

SAN ANTONIO (AP)—Coach Bud Wilkinson of Oklahoma doesn't like the letter of intent of the Southwest Conference, because he says it just doesn't give the impression of amateurism.

Interviewed yesterday during the Texas Coaching School where he is lecturing on football's Split T that when a boy signs something like that it seems like he's signing a contract as in pro football.

Any way, Oklahoma does not observe the conference's letter of intent in getting athletes from Texas because there is no rule calling for it and because the Southwest Conference never has asked Oklahoma to observe it, Wilkinson said. The man whose teams never have lost a Big Seven Conference game in his eight years as coach and who has a 19-game winning streak working at this time, said he didn't expect to be nearly so strong as last year and that he feared Oklahoma might lose the conference title for the first time.

He said Colorado, Kansas State, Nebraska and Iowa State were coming up with strong teams. Wilkinson also expressed fear of Texas, which was a big disappointment last season, would have every incentive to rise to greatness this year.

"I always have used Texas as a yardstick to success of my Oklahoma team," he said. "I rate Texas with such teams as Maryland, Georgia Tech, UCLA, Notre Dame and others as always being worthy and if you beat one of those you know you will have a successful season."

Wilkinson said he had lost his entire backfield of the undefeated 1954 team and while he would have a very strong line, except for the ends, didn't think he would be anywhere near last year's powerful outfit.

Two Double Bills Slated Tonight

TYLER (AP)—A pair of double-headers tonight will open the Texas American Legion Junior Baseball Tournament.

Entries are Earl Hayes of Dallas, the defending champion, and Amarillo, Austin and St. Thomas of Houston.

Carpenters Busy At Race Track

RUIDOSO, N. M., (SC)—Carpenters and laborers are going at top speed today at Ruidoso Downs, building three new horse stables to replace ones that were destroyed by fire last week.

All the debris has been carried away. New lumber and cement blocks are on the ground. Each new stable will house approximately forty horses.

The Ruidoso rains finally stopped after 26 consecutive days. Weather for the past weekend of racing was perfect for racing. Temperatures in the high seventies with runnings and cool breezes, dried out the track Sunday to a dust stage.

LOOKING 'EM OVER

With Tommy Hart

This should lift your eyebrows. Rudy Briner, the veteran catcher with the Midland Indians, wants to become an umpire in professional baseball next year.

The Longhorn League is most likely seeing the last of Matty Ryan, the capable arbiter, this season. Matty, considered major league caliber, is due a big promotion in 1956, possibly into the Eastern League, which is near his home.

Before Pepper Martin sold Jim Zapp to Port Arthur last week, he was offered \$750 for the big slugger by El Paso of the WT-NM League, who obviously are desperate for power.

If Casey Stengel cares to know what's wrong with the New York Yankees, he has but to look in the mirror. His press has been kind to the old man, since he's given them great performances in the past and his place in baseball's history is secure.

Still, the ancient Stengel is growing more acid in his waning years. He's critical of some of his help without being helpful. A prime example is Bill Skowron, one of the great young ball players to come along in recent years.

The highway to the pennant and the riches is threatening to become a canal of sorrows, where a few of Casey's strongest supporters could drown themselves in tears of chagrin and bitterness.

A baseball player whose athletic merits will always be debated is Ferris Fain, the transplanted Texan who now resides in California.

When he returned to the dugout at the end of the inning, kindly Connie Mack asked him why he threw the ball. Ferris angrily replied: "What should I have done, stuck it in my pocket?"

To which Mr. Mack softly replied, "I believe it would have been much safer there."

All-Star Game Starting Lineups Are Revealed

SAN ANTONIO (AP)—Starting lineups for All-Star basketball and football games of the Texas Coaches Assn. were shaping up today.

The basketball game is scheduled tomorrow night with Phil Woolpert, coach of San Francisco, tutoring the North and Milton Rowers of Southwest Texas State coaching the South.

Favorites Lose In Teen-Age

Both favorites lost in Junior Teen-Age baseball league here Tuesday night, the Rails bouncing the pace-setting Tigers, 10-4; after which the Reporters were nipped out by the Devils, 6-5.

Benny McCrary, on the mound for the Rails, set the Tigers down with these hits. Larry Holmes clubbed a home run with one on in the fourth for the Tigers.

McCrary struck out ten and walked four while Wilson Bell, the losing hurler, fanned two and issued as many free passes.

The Devils rallied for three runs in the final inning to topple the Newsies. Q. Denton and Don Masters walked in succession. Bugs Wright doubled in a run. Taylor Lewis reached first on an error, scoring Masters and J. B. Davis hit a single to break up the game.

Bernard McMahon drove out a three-run homer for the Reporters in the top half of the sixth.

Association Takes Blame For Move

SAN ANTONIO (AP)—The Texas High School Coaches Assn. shouldered some of the blame today for an unfortunate situation that prevented a boy from playing in the All-Star basketball game of the Texas Coaches School after he had been invited.

The association has come in for some strong criticism for its action in declaring Wesley Coleman of Dilley ineligible for the game because his coach was not a member of the organization.

Coleman was sent an All-Star invitation and accepted it. The football coach at Dilley is a member of the association but after the boys' acceptance it was discovered that his basketball coach was not. That makes Coleman ineligible to play under the association's rules.

"It was a mistake on our part," said Standard Lambert, publicity director of the coaches association. "We should have done some checking first. But this is a Texas High School Coaches Assn. event. In a sense it is a closed event for members only. If we had had the proper information we would not have invited the boy in the first place. But we have rules to follow. This boy's coach has plenty of time to become a member and make his boy eligible."

"I can see the boy's side of the case. It's too bad and we regret it, of course."

The cost of a membership in the association is \$2.00.

Texas Team Wins Over Carlsbad

MONROE, La. (AP)—New Orleans was the unknown quantity today as regional playoffs in the Babe Ruth League headed into the late innings.

The New Orleans team, after drawing a bye in the opening round, meets Tulsa in semi-final play.

Tulsa knocked off Pine Bluff, Ark., last night 7-1 as Ken Kenney tossed a two-hitter.

The winner meets potent Austin, Tex., in the finals later in the day to determine a regional champ for entry in the Little World Series at Austin later in the month.

The Texans turned in a triple play in downing Carlsbad, N.M., 4-2 last night.

Negro Team Wins Little League Title

DENISON (AP)—A Negro team won the District 3 Little League baseball championship last night on the playing field after winning its five previous games by default because white teams wouldn't play with them.

The Harrison County All-Stars defeated the Sulphur Springs All-Stars, a white team 6-5. The game was played after Sulphur Springs players and their parents, at a meeting the previous night, voted to play the Negro team.

start a team of Ronny Stevenson, Birdwell, Center; Darrill Nippert, Childress, and Jay Melvain, Pampa, forwards, and John Fite, Atlanta, and Gerald Myers, Borger, guards.

Jowers is due to have Earl Lankford, Galena Park, at center; Brep and W. A. Preston, Houston Milby, forwards, and Neil Swisher, Victoria, and Franklin Wilkening, Webster, guards.

The game will be played at the Alamo Stadium gymnasium and a crowd of 2,000 is expected.

Hal Sandefur, the Paducah star, and Carl Trepagnier of Texas City are due to be opposing quarterbacks in the football game Friday night. Both are fine passers and ball handlers.

Sandefur will lead the North team coached by Darrell Royal of Mississippi State, exponent of the Split T. Trepagnier will pilot the South team coached by George Sauer of Baylor, who uses the conventional T.

The starting lineups appeared like this: North—Charles Knight, Albany, and Don Ury, Cleburne, ends; Gary McElroy, San Angelo, and Jerry Cramer, Breckenridge, tackles; James Jolly, McLean, and Kenneth Schrum, Midland, guards; Bob Harrison, Stamford, Center; Sandefur, quarterback; Jim Millerman, Abilene, and Luther Hall, Larry Hickman, Kilgore, fullback.

South—Larry Roach, Victoria, and William Wilemon, Waxahatchie, ends; Robert Fleming, Mason, and Robert Spain, Pasadena, tackles; Winston LaFleur, Fort Neches, and Charles Horton, Waco, guards; Pat Kerns, Killean, center; Trepagnier, quarterback; Billy Prestidge, Chilton, and Raymond Chilton, Corpus Christi Bay, Halfbacks; Billy Baker, Beeville, fullback.

The game is scheduled at Alamo Stadium. A crowd of about 12,000 is anticipated.

Charles Meets Jackson In 10

SYRACUSE, N.Y. (AP)—Is Edward Charles finished? Is Hurricane Jackson just a freak fighter?

The answer comes up tonight at War Memorial Auditorium and it could be "yes" in both cases.

Charles, the 34-year-old former heavyweight champ, must win convincingly over the awkward Hurricane if he is to remain a serious factor in the division.

Jackson, only 23, must prove he can handle a "class" fighter of Charles' stature if he is to retain his No. 3 ranking among Rocky Marciano's contenders.

The 10-round match will be carried on ABC radio and television at 9 p.m., EST.

A slick spoiler like Jimmy Slade defeated Jackson in 1954 when he was riding high after knockouts of Rex Layne and Danny Bucceroni.

Nino Valdes, the No. 1 contender at the time, dropped Jackson three times in the second round to win on an automatic TKO a year ago in Madison Square Garden.

Since that disastrous evening, Jackson has won six straight, including a decision over his tormentor, Slade. However, Jackson still flaps his hands awkwardly and is vulnerable to a good body puncher like Charles used to be.

Off the record, Charles figures to outbox Hurricane and hurt him with body punches. But the big spread in their ages and evidence that Charles' legs have begun to go are in Jackson's favor.

Negroes May Play For Texas Schools

SAN ANTONIO (AP)—Negroes may be seen in Texas schoolboy football next fall and the most likely to have them appears to be San Angelo.

Bob Harrell, coach of San Angelo who is here attending the Texas Coaching School, said he would have some 40 Negroes out for his team when practice starts late this month.

They are immediately eligible because of a consolidation. At some other schools in Texas where there are Negroes under the desegregation program, they won't be eligible this fall because of the Texas interscholastic league transfer rule.

Harrell said he didn't know much about the Negro boys, not having had them in spring training, but that he thought there were several likely prospects for his team among them.

San Angelo is in the same district of Class AAAA schoolboy football as Abilene, the defending state champion; Amarillo, Borger, Lubbock, Midland, Odessa and Pampa.

Abilene is considered one of the strong teams of the district again this season but Odessa is rated the favorite for the championship.

Coaches from 14 of the 16 districts of Classes AAAA and AAA were interviewed at a press conference yesterday and those favor-

ites were picked for the coming campaign.

Class AAAA—1, Abilene; 2, El Paso; 3, Fort Worth Paschal; 4, Fort Worth Arlington Heights; 5, Dallas Sunset; 6, Tyler; 7, Houston Austin; 8, Port Arthur.

Class AAA—1, Snyder; 2, Irving and Cleburne; 3, Greenville; 4, Texarkana; 5, Austin McCallum; 6, Port Neches; 7, San Antonio Edison; 8, Harlingen.

Leaders Get Beat In Longhorn Loop

It was a tough time for the leaders in the Longhorn League Tuesday night.

Fourth-place Midland was the only upper division team to post a victory, knocking off pace-setting San Angelo 5-2.

Hobbs took its second straight over second-place Artesia 9-2, and Carlsbad tripped up third-standing Roswell 18-12. In the other game, Odessa pulled up to tie for seventh place by stopping Big Spring 3-1.

The schedule Wednesday night has all the home teams hitting the road and the road teams going home. Carlsbad is at Roswell, Hobbs visits Artesia, Odessa goes to Big Spring and Midland is at San Angelo.

Art DiCesare Sold To Abilene Club

Art DiCesare, Big Spring rookie hurler and a member of the East All-Star team, has been conditionally sold to Abilene of the WT-NM League for \$2,000.

The Bronx, N. Y., righthander has won ten while losing 11 games for the Cosden Cops. Abilene, which earlier had purchased the Cops' Mike Rainey outright, must exercise its option on DiCesare within three days.

Under terms of DiCesare's contract, he receives one-fourth of his sale price. In this instance, that would be \$500.

DiCesare leads the league in strikeouts with 162 but it also tops in bases on balls, with 117.

Art's lack of control has been his big problem all season. He leads the league record for strikeouts with 18 in one game and, in his debut here, fanned no fewer than 16 batters.

Jay Haney, general manager of the Abilene club, indicated he would start DiCesare against Lubbock in Abilene tonight.

Manager Pepper Martin of Big Spring has had several nibbles from major league clubs for DiCesare in the past several weeks but indicated this was the best offer he had had to date.

Departure of DiCesare leaves the Cops with five hurlers, including Jim Newberry and Garland Turano, who joined the team last week in the trade for Jim Zapp. All of the pitchers but Turano belong to Martin. He is on option here from Port Arthur.

The Cops move out to Odessa this evening for the first of a two-game series. They return here Friday night to meet Odessa, then clash with Roswell in a Saturday afternoon game.

The 2:30 p.m. engagement Saturday was booked to avoid conflict with the Big Spring rodeo, which winds up its performances Saturday night.

Aga Baca will probably toe the slab against the Eagles this evening.

On Friday night here, all children will be admitted free to Steer Park, if accompanied by their parents. In addition, each child will receive a free chance on the pony, which will be given away here the night of Aug. 13.

Don't you miss out another day on the astonishing power benefits of

CONOCO

Super Gasoline with TCP

REGARDLESS OF MAKE OR YEAR, YOUR CAR'S ENGINE WILL BENEFIT FROM CONOCO SUPER GASOLINE WITH TCP. YOU'LL ENJOY UP TO 15% MORE POWER, BETTER GAS MILEAGE, LONGER SPARK PLUG LIFE, AND ALL THE BENEFITS OF AN ENGINE TUNE-UP!

IT'S THE FUEL DESIGNED FOR ALL OF TODAY'S POWERFUL, HI-COMPRESSION ENGINES... THE GASOLINE THAT HELPS THESE ENGINES PERFORM AT THEIR BEST IN BOTH HIGH-SPEED AND STOP-AND-GO DRIVING!

TCP DOES THIS JOB BY NEUTRALIZING POWER-ROBBING LEAD AND CARBON DEPOSITS WHICH FORM ON PLUGS AND IN COMBUSTION CHAMBERS. TRY TWO TANKFULS, MISTER, AND YOU'LL FEEL THAT POWERFUL DIFFERENCE!

"THE BEST THERE IS... FOR YOU AND YOUR CAR," say these TCP boosters:

"I go for Conoco Super Gasoline with TCP because it gives me up to three miles more to the gallon. Power in my '51 Ford has increased a lot, especially on these hilly roads around Butte."
—Don C. Sullivan, Ramsey, Montana

"Since I started using Conoco Super with TCP in my '53 Chevy, there's no more engine 'knock.' And with all the stop-and-go driving I'm forced to do, I appreciate the way my car now responds in traffic!"
—Mrs. Harriet Telford, South Ogden, Utah

"Now that I'm using Conoco Super with TCP, my spark plugs ignite right on the button. Another reason I like this TCP is that it helps me make use of every bit of horsepower in my 1961 Mercury!"
—1/2 Sgt. Alan Cain, Oklahoma City, Okla.

16 Big Spring (Texas) Herald, Wed., Aug. 3, 1955 UNCLE RAY'S CORNER

We think of blood as being red, but there are times when it is some other color. Furry animals have red blood, and so do birds. The blood of a fish is red, and so is the blood of a snake or lizard.

When we come to the insects, however, we find a different story. The majority of insects have blood which is without color — as clear as a window pane. Other insects have yellow or green blood. Still others have pink blood, but these are without the red corpuscles which give a bright red color to human blood.

Q. If that is true, who do mosquitoes have bright red blood?
A. Mosquitoes have red blood only if they steal it. If you slay an innocent mosquito (one which never has bitten a human being or red-blooded animal) you will fall to see red blood marking the place where the mosquito died.

Certain flies also obtain red blood by biting. Among these are deerflies and robber flies.

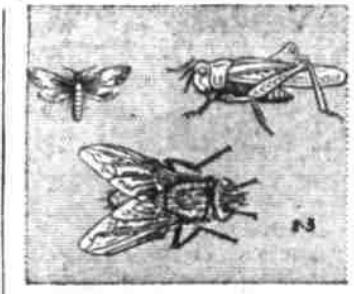

Deerflies attack many animals besides deer. They are a torment to cattle, and many cause a large sore to form on a cow of bull by repeating bites.

I have taken up the topic of biting flies as the result of a conversation I had with a 22-year-old Peyton Coffman. He said to me: "If you are going to write about insects in your column, I suggest that you speak of moose flies. I saw many of them while I was in the interior of Alaska the past summer. I never have seen such savage insects anywhere else. They will chase a man, and keep after him. It is hard for him to escape. They will follow him even if he wades into a river and starts to swim there."

"Did you get bitten by moose flies?" I inquired.
"Yes, I was bitten by them once or twice. They really bite!"
Moose flies are black, or rusty black. They are a good deal larger than deerflies. They exist in various parts of Canada, as well as in Alaska.

Tomorrow: The Legs of Insects.

'Miss Mohair'
KERRVILLE, Tex. (AP)—Miss Nancy Hunt will be crowned "Miss Mohair of 1955" and her 1956 successor will be chosen at the three-day show and sale of the Texas Angora Goat Raisers Assn. opening Saturday.

Moroccan, Hopped Up On Dope, Kills Four, Hurts Five

TANGIER, (AP)—A dope-crazed Moroccan launched a one-man holy war on foreigners and Jews in Tangier's tortuous alleys today, stabbing to death four persons, including a tourist from New Jersey. Five other persons were wounded.

The victim from America was identified as James M. Batting, a British subject living in Teaneck, N.J. He and his wife had arrived in this international zone of North Africa only three days ago.

Mrs. Batting was with her husband when he was stabbed but was not harmed.

Police captured the Moroccan after wounding him slightly. They said he had been smoking "kif," a local form of marijuana, and wanted to launch a jihad — the Moslem holy war — against foreigners and Jews.

Singer Will Stand By Her Husband

LOS ANGELES (AP)—Singer Yma Sumac says she'll stand by her husband Moises Vivanco, who faces a paternity suit.

"Of course I believe my husband is innocent," the Peruvian-born soprano told newsmen yesterday. Vivanco also denied at a news conference that he was the father of twin daughters born nine months ago to Maureen E. Shea, 26, Miss Sumac's former social secretary.

The singer collapsed last week after learning of the suit against Vivanco, 38, her musical arranger.
