The McLean News

Serving McLean and the Area Since 1903

Volume 78 McLean, Gray County, Texas 79057 Thursday, June 4, 1981 Price 25¢ Number 22

from the
distaff side
by Linda Haynes

Every summer when school is finally over, and we face our first edition without school news, I have a sinking feeling that the paper will be empty all summer. In a town the size of McLean, a large portion of our news is generated from the school, and the various activities that go on there. Of course, many other things occur in McLean, but sometimes that front page looks awfully blank at deadline time.

We always appreciate your calling us with news about various things that are happening in your life. There is no charge for engagement stories, wedding stories, and other news that is of general interest. This is, after all, a community newspaper and we want to publish things that are of interest to you.

###

A visitor to the News office last week left a sample carrier in the office. The only label on the fabric is "Far East Coordinates." We don't know who the lady was who left the material, but if she reads this she is welcome to come claim the item.

###

For Christmas last year I received a scanner to use here at the News Office, and that little machine has certainly shown me a different side of law enforcement than I knew existed. On slow days at the office, we have enjoyed listening to various officers from the area talk, usually about mundane things like where they are going to get coffee, or asking for identification of a car license.

But last Tuesday as we were rushing to finish the paper for deadline, we began to hear different officers talking about a pickup stolen in a neighboring town, and as the men continued to talk, it dawned on me that the driver of the stolen vehicle was heading for McLean at a very high rate of speed with several patrol cars and other law enforcement cars hot on his trail.

For about two seconds I thought about running out to the Interstate with my camera to get a picture of the chase, but at the rate the cars were travelling I decided I would let my natural cowardice rule and stay away from a potentially dangerous situation. However, I thought about the spotlight on the corner here and wondered what would happen if someone crossed the intersection on a green light just when the stolen vehicle and other cars were speeding by. Another scanner-listener, however, thought faster than I did and ran out and stopped traffic.

We watched as the cars sped through town, and then ran back in to listen to the end of the chase.

The stolen pickup ran out of gas on the construction area

Waiting For Refreshments

KAREN BRASS, DAUGHTER of Mr. and Mrs. Steve Brass, seems to be thinking deep thoughts as she waits for her turn to go outside for refreshments at the First Baptist Church's Vacation Bible School this week. (Photo by Linda Haynes)

SOMETIMES THE FIRST day of Bible school is tough for a little guy. Seth Brown, son of Mr. and Mrs. David Brown, took a little time in adjusting to the the First Baptist Vacation Bible School. (Photo by Linda Haynes)

McLean Horsemen Win Honors Sunday

Several McLean youngsters won ribbons at the Gray County 4-H Horse Show in McLean Sunday afternoon, including Teresa Woods who won All-Around for high point in the senior division.

Miss Woods won first in reining, first in western horsemanship, fourth in registered geldings, second in barrels, poles, western pleasure and showmanship.

Sally Worsham placed second in junior pony class, third in poles, second in western pleasure, and third in reining.

Robert Sanderson was fourth in grade mares. Lee Ann Smith in intermediates was second in grade mares, fifth in showmanship, and second in barrels.

Deana Billingsley was seventh in registered geldings, eighth in showmanship, ninth in halter, and ninth in western pleasure.

Lance Stovall won first in western pleasure, second in senior western horsemanship, second in senior reining, and third in registered geldings.

Darrin Johnson was tenth in barrels and tenth in registered geldings.

Diana Hallum was tenth in registered gelding and tenth in junior geldings.

The district horsemanship show is June 17 and 18.

Gabel, Kincannon and Sanders To Ride At Tri-State Rodeo Finals This Weekend

Three McLean youngsters have earned enough points to qualify for action in the Tri-State High School Rodeo Association finals to begin tonight (Thursday).

Garnering points May 24 at Canadian were Greg Gabel, who was third in steer wrestling and fifth in ribbon roping.

In Guymon, on May 31, Gabel took second in steer wrestling and fifth in ribbon roping. He also placed third,

with Bob Arnold of Silverton, in team roping, and fifth with Olen Douglas of Pampa in that same event.

DURING A RECENT rodeo, Greg Gabel tries his luck at steer wrestling. Gabel is one of the three McLean boys who will be participating in the Tri-State High School Rodeo finals this weekend. (Photo Courtesy of Carolyn Gabel)

Chamber Requests More Exit Roads

The McLean Chamber of Commerce sent a letter to U.S. Representative Jack Hightower this week asking the congressman's help in obtaining another exit from Interstate 40 to McLean. Current plans for the construction of the new highway which will bypass McLean call for an interchange on the west end of town and one on the east end of town, but none on Main Street.

State Highway Department said that plans for the section around McLean are almost complete, and that the department expects to let bids for the construction "hopefully within the next two or three months." He said that the present interchanges will contain high speed ramps which will put traffic onto the existing lanes of Interstate 40. The engineer said from the brief description he was given that

he didn't think there would be room for more exits.

The planned interchange on the west end of town would be located at the intersection of the Hedley highway and Line Street. The east would be located east of the old J.D. Fish place.

Chamber officials spoke with Hightower Tuesday, and he promised to give personal attention to the matter.

Chamber officials asked Hightower to present a plan to the Texas State Department of Highways which would give McLean a simple on and off ramp near the planned overpass on Main Street. The highway department agreed several years ago to build the overpass from the north section of town to the south part of town across the Interstate to facilitate emergency vehicle travelling to that part of town. The on and off ramps requested by the Chamber officials would be located near that overpass.

A design engineer for the

MHS Honor Students Listed

Listed on the McLean High School honor roll for the sixth and final six weeks of the 1980-81 school year were a large number of students, according to Ron Cummings, principal.

On the 90 and above rolls were seniors Lee Acy, Phyllis Crutcher, JoAnn Durham, Jamie Glass, and Rhonda Woods; juniors Nora Gately,

Cindy Glass, Terri Glass, and Brenda Wilson; and freshmen Allen Patman and Terri Pipes.

On the 80 and above honor

roll were seniors Darla Brewer, David Day, Bill Hambricht, Mike Lane, and Brett Simmons; juniors Missy Billingsley, Susie Billingsley, April Bryant, Donna McAnear, Billy Joe Skipper, Leslie Skipper,

and Theron Stubbs; sophomores Kevin Nicholson, Kenny Acy, Dale Glenn Gipson, and Debbie Hutchinson; and

freshmen Darin Corley, Maria Eck, Jana Harris, Doyle Lee, Alicia Marsh, Craig Morris, Bryan Smitherman and Sharla Todd.

writing Box 596, McLean, Texas 79057.

"Since the reunion only comes around every two years, we are planning special parties for class mates. I know that the class of 1966 which is celebrating their 15th anniversary is planning a big party." Mrs. Dwyer said, "and other classes have special plans for the reunion."

McLean Ex Student Reunion Plans Nearing Completion

McLean Ex-Students will meet June 19, 20, and 21 for their biennial reunion in McLean. Registration will begin June 19 at 2 p.m. at the Citizens Building. Mary Dwyer, president of the Ex-Students Association, said that the exes will probably visit at the early registration where there will be coffee and donuts served.

Saturday morning the exes will register at McLean High School where notices of class meetings will be posted.

Mrs. Dwyer said that it was very important for all ex-students to register and give current addresses so that the association files can be updated.

The Lions Club will sponsor a music talent show in the park at 11 a.m.

A barbecue dinner is planned in the park with F.J. Hess chairman of the barbecue committee. Mrs. Dwyer said that there will be plenty of their classmates.

Officers for the Ex-Students Association for 1983 reunion will be elected at the park following the dinner. Sam Haynes is chairman of the nominating committee for the election.

Saturday night, the ex-students will be able to attend either a performance of the rodeo at 8 p.m. or the ex-students dance at the country club beginning at 9 p.m.

Chairman of the dance committee is E.J. Windom Jr. Others on the committee are Dorris Windom, Mr. and Mrs. Johnny Metrel, Mr. and Mrs. Bernard McClellan, Mr. and

Mrs. Clyde Brown, and Mr. and Mrs. Hershel McCarty.

Mrs. Dwyer said that letters have been mailed to all ex-students whose addresses are on file with the ex-student association. She said that an ex who has not been notified is welcome to attend, and can obtain more information from her by calling 779-2128 or

McLean 66 Round Up And Rodeo Is Planned

Members of the McLean Roping Club and the McLean Lions Club are planning a full weekend of activities for the annual McLean 66 Round Up and Rodeo June 19th and 20th. In addition to two performances of the rodeo, one Friday night and one Saturday night, Roping Club members have planned a Ranch Horse Cutting Contest at the Felton Webb Arena Friday afternoon at 1 p.m. and a Ranch Horse Race Saturday afternoon at 5 p.m. in the area across the highway from the arena.

A Sunday afternoon jackpot roping contest will round out the full weekend's activities, according to Roping Club president Mike Darsey.

The two performances of the amateur, one go-around rodeo will begin each night at 8 p.m. and will be contracted by Bill Hext of Canadian. Darsey said

that events will include bareback riding, saddle bronc riding, bull riding, steer wrestling, calf roping, team roping, and the girls' barrel race. On Friday evening, youngsters from five and under can participate in a stick horse race, and on Saturday evening, boys and girls 12 and under can ride steers.

Darsey said that there probably will be after-show team roping each night following the performance of the rodeo, and a dance is planned each night on the rodeo slab. Details about the band for the dance will be available later, Darsey said.

Anyone wishing to enter the rodeo can call at Darsey's home at 779-2965. Books will be open June 15, 16, and 17.

McLean merchants are urged to decorate their stores with rodeo bunting which most of

them purchased last year, Darsey said.

The McLean Chamber of Commerce will sponsor the annual Rodeo Parade this year. It is scheduled for 4 p.m. in downtown McLean. The Chamber will give trophies in three divisions, according to Chamber officials. Anyone wishing to ride in the parade

Elementary Honor Roll Told

Principal Dorman Thomas has announced scholastic honor roll members in McLean Elementary School for the final six-weeks period of the school year.

On the 80-and-above list for fifth grade were Jim Anderson, Judy Kennedy, Angie Reynolds, and Jeff Parker. No

fifth graders made the 90-and-above list.

In fourth grade Dollie Haynes and Tiffany Lopez were named to the 90-and-above listing, with Misty Magee, Grant Mann, Karen Williams, Kyle Woods, and Ronna Young making 80-and

See HONOR, Page 2

Competing in the upcoming finals will be Dusty Sanders, Kincannon and Gabel. Sanders is eligible for bareback riding competition, having accumulated 16 points for the year. Kincannon has taken 8 points for the year, and will compete in the steer wrestling event.

Gabel is high scorer for the McLean group, scoring 44 points for the year in steer wrestling, 19 points for team roping, 13 for ribbon roping, and 12 for calf roping for a total of 88 points for the year. He will compete in those four events.

Elson Rice earned three points for bull riding this year, but is not eligible for rodeo finals.

Finals are scheduled to begin Thursday, with events beginning at 7:30 p.m. Thursday, Friday, and Saturday nights. A 2 p.m. performance is planned Saturday. There will be an awards banquet Sunday morning at 11 a.m.

The rodeo will be a Tri-state Fair Grounds Coliseum. Admission will be \$3 for adults, and \$2 for students.

ONE OF THREE McLean boys who will be participating in the Tri-State High School Rodeo Finals in Amarillo this weekend will be Billy Kincannon shown here at a recent rodeo. (Photo Courtesy of Carolyn Gabel)

OPINIONS

VIEWS ARE WRITTEN BY LINDA HAYNES, UNLESS OTHERWISE NOTED-IF YOU HAVE AN OPINION ON ANY CURRENT SUBJECT WE WELCOME YOUR SIGNED LETTERS.

Time To Spruce Up, McLean!

In just a few weeks, McLean will be visited by hundreds of people who are returning to their "old home town" for the biennial McLean High School reunion. Since these people have chosen to return to McLean, there is a good possibility that McLean has had a special meaning in their lives. Among those visitors may be businessmen who are looking for a different place to establish a new business. There may be someone in the crowd who knows of a doctor who would like to come to a small town. One of the visitors might be a hometown-boy-made-good who would like to put a factory in the Marie Foundations building.

Someone in that crowd just might be the key to a brighter future for our town.

For that reason, and because we want to be good hosts to the ex-students and the rodeo fans, we should make a special effort in the next few days to make McLean the best it can be.

McLean is a beautiful town, but it can be made even more beautiful if each of us will put out a little extra effort...clean up our yards, clean up the weeds and trash around our businesses, be sure that everything we are responsible for is in good condition.

We hope the city workers will remember the reunion, and do some extra work in the park, since that is where most of the festivities will be concentrated. Members of a local club have planted a beautiful flower bed, so if the park is mowed right before the meeting, and the tennis courts cleaned, and trash barrels emptied, that area should be in good shape for the reunion.

If you own a business in McLean, get out your rodeo bunting and get it hung up. Put a sign in your window welcoming the exes back home, and put a smile on your face for our visitors.

Let's welcome our old friends back home in a big way, and maybe they will decide that they've been missing something by not living in McLean!

DISTAFF

west of town, and law officers took the suspect into custody.

But that was just one episode in the sometimes hectic day of our constable, deputy, and DPS officers. If you keep your scanner on all day, you hear these men called out at all hours of the day and night, for all kinds of problems. Sometimes a runaway has been spotted on the highway, or a suspicious looking character is

loitering around town, or an abandoned car has been spotted, or a minor fender-bender has occurred...whatever it is, the law officer has to leave his home and check the matter out.

Somehow, I feel safer listening to that scanner. I know that there is a communication system among our officers, and that they can call each other for help. I also know that most of the time they respond to any kind of call in record

time. These men don't make fantastic salaries. Most of them have the jobs because they love that kind of work, but I am sure they would all appreciate a word of thanks occasionally from all of us. I know I feel safer knowing they are on the job.

The response to the war memorial donation fund has been absolutely fantastic. The

Continued From Page 1

goal has almost been reached, but if you have a donation to make, please go ahead and do that. If there is any money left after the memorial is paid for, it will be put in a fund for the upkeep of the memorial. We hope that when the memorial is dedicated we can have an appropriate ceremony with patriotic speeches and visiting dignitaries. You can be proud of your city, McLean.

From "Purely Personal" by John Getz in The State Line Tribune: "There are ten things for which no one has ever been sorry: for doing good to all; for speaking evil to no one; for hearing before judging; for thinking before speaking; for holding an angry tongue; for being kind to the distressed; for asking pardon for all wrongs; for being patient toward everybody; for stopping the ear to the tale bearer; for disbelieving the most of the evil reports."

Senator Bill Sarpalius Reports

Reports

AUSTIN - We have supported new legislation to stop the illegal drug trade consistently throughout this session. We have supported all of the Governor's War on Drugs bills. That's what we did when we passed the wiretap bill.

Many people opposed the bill. They said it was an infringement on our right to privacy. It is. They said it would open up wide possibilities for abuse. It will. But sometimes you have to balance one right against another and try to decide what is more important.

We believe stopping the drug trade that is destroying our young people is one of the most important things we can do for this session.

What good will a free society do us if it is run by gangsters? A free society requires awake, alert, intelligent citizens. Drug addicts cannot run an open society like ours.

Our resources are very important to us in our part of the state. We look with pride towards our oil, gas and agriculture. We worry about our water. We protect our land and air. But we have neglected our most precious resource -- the young men and women who will live in the Panhandle for the rest of this century and into the next.

That's why we passed the wiretap bill. We want to protect our most precious

resource from the drug-dealing leeches who would destroy them.

We ran a questionnaire in several of the newspapers in our district, and your responses told us you support tapping the phones of suspected drug dealers. But because there is an inherent possibility for abuse in wiretapping, we have built some very stringent safeguards into this new law.

Only Department of Public Safety officers designated by the DPS director could install, operate, or monitor wiretaps.

Only nine judges in the state, to be chosen by the presiding judge of the Court of Criminal Appeals, could order a wiretap.

Wiretaps only can last for 30 days, although the judge may allow 30-day extensions. The judge also may require progress reports.

Illegal wiretapping, or even illegal possession of wiretap equipment, is a felony.

Space prevents our telling of all the safeguards built into this bill. We are not after the privacy of honest citizens--we're after kingpin drug dealers.

We want to know what you think about our efforts to stop the flow of illegal drugs through our state. Please write to Senator Bill Sarpalius, P.O. Box 12068, Austin, Texas 78711.

ON YOUR PAYROLL

New Arrival

Regina and Danny Jones are the parents of a girl, Katrina Leigh, born May 21 in Amarillo. She weighed 7 lbs., 4 oz., and was 19 1/2 inches long.

Grandparents are Mr. and Mrs. Creed Lamb of McLean, and Mr. and Mrs. Dan Jones of El Paso.

HONOR ROLL

Third graders named to the high grade roll were Laura McCarty and Teresa Jones. Those with 80-and-above averages were Dennis Easley, Donald Harris, Tres Hess, Sandra Hensley, Alicia Reynolds, Robert Sanderson, Jason Sheets and Deanna Sprinkles.

Named to the 80-and-above roll were second grade Michael Acuna, as well as Jimmy Cummings, Holly Hauck, J.T. Haynes, Frances Hickman, Lee Ayn Jordan, Christie Pyles Marci Sluder, Jonathan Middleton, Danny Yadiasiak, and Michelle Yelich. No second grade students were listed on the 90-and-above roll.

Continued From Page 1

In first grade, on the 90-and-above honor roll were Dale Cole, David Johnson, Chris Littlefield, Destrly Magee, Tuffy Sanders, and Missy Young. On the 80-and-above list were Jerrett Coleman, Joseph Flores, Cody Gabel, Daniel Harris, Tanner Hess, Clifford Immel, Clay McCracken, Heidi Syfrett, and Christina White.

Jr. High Honor Roll Given

McLean's Junior High School honor roll has been announced by principal Dorman Thomas. The grades include the last six weeks period of the 1980-1981 school year.

No eighth grade students made the 90-and-above roll, and John Glass was the only person in that class to be

named to the 80-and-above honor roll.

Seventh graders on the high honor roll were Wendy McDowell and Lee Ann Tate. Named to the 80-and-above list were David Adamson, Vicki Armbrister, Mel Billingsley, Bob Patman, Jim Ridgway, Lee Ann Smith, and Jodi Green.

Making the 90-and-above honor roll were sixth-graders Shawn Crockett, Tanya Cummings, Mark McCarty, Angi Glass, and Colleen Orick.

On the 80-and-above list for the sixth grade were Clint Herndon, Lisa Hickman, Francine Matheny, Lee Milam, and Robin Rohde.

Leather bound books need special care, starting when new. Once a year, apply white petroleum jelly, lanolin or saddle soap.

Gray County Commissioners Discuss Sale Of Highland General Hospital

From THE PAMPA NEWS Gray County Commissioners presented their ideas for the sale of Highland General

Hospital and approved advertisements for the hospital sale Monday in regular session. The new Coronado Com-

munity Hospital, which is owned and being constructed by the Hospital Corporation of America (HCA), is scheduled for grand opening on July 19. Patients will be moved into the new facility Aug. 1.

With only 49 days left until Highland General Hospital is

vacant, commissioners agreed to do as much as they could to promote the sale.

Commissioners have the option to sell Highland General to HCA for \$450,000, which would not include the nursing quarters. However, the commission felt it should go ahead with the sale ad-

vertisements and see what bidders may be interested.

Advertisements will be placed in newspapers nationwide and bid openings will take place at the July 15 commissioners meeting.

Judge Carl Kennedy said, "No response has been received from anyone locally to help with the promotion of the sale of the hospital."

Precinct 4 Commissioner Ted Simmons suggested that a photo of the facility of the hospital might be useful in the ads.

"I think it would generate interest if prospective buyers could see the facility," Simmons said. "Even if it would cost more, it would still be worth it if we can interest one buyer."

Money for advertising will come from the hospital fund, Kennedy said.

Precinct 3 Commissioner Jimmy McCracken asked about future jail needs. "Will we be needing \$4 million in four or five years to build a new jail facility?" Judge Kennedy said he has heard from Sheriff Rufe Jordan that in a few years some changes will be needed in the present Gray County jail facility.

Precinct 2 Commissioner Ronnie Rice said that trying to put a specialized jail facility in the facility might cost as much as to remodel as it would for new construction.

"Even the HCA officials felt that it was too costly to remodel Highland General Hospital for their needs," Rice said.

Commissioner Simmons suggested using the hospital for a court-house annex and selling the current courthouse annex on Highway 60.

"The present annex is actually more suited for commercial use than the hospital. We could probably sell it easier than the hospital," he said.

Regarding equipment in the hospital, Judge Kennedy said, "We will sell any personal property left at Highland General to HCA if they express interest in it. The rest will be put up for public auction. We will also have to think about having security personnel at Highland General after it is

vacated for protection."

Commissioners will continue to discuss the sale of the hospital at the next commission meeting, scheduled June 15. In other action, commissioners approved one airport ground lease agreement for Glo-Valve and one lease transfer from J.T. Richardson to J.C. Albin.

County bills in the amount of \$156,955 were approved for payment.

It took seven years to create the first ball-point pen.

Death

MRS. TEMMIE KATHERINE HIGGINS

Mrs. Temmie Katherine Higgins died May 29 in Clarendon. She was 86 years old. Services were at First Baptist Church in Clarendon May 30. Rev. V.R. Henderson and Rev. Paul Heil officiated.

Burial was in Citizens Cemetery in Clarendon under the direction of Robertson Funeral Directors.

Mrs. Higgins is survived by more than 90 descendants, including six daughters. She was the aunt of Mrs. E.E. Brooks of McLean.

JIMMIE CARL BAKER AND BEVERLY GAIL COWAN

Cowan, Baker To Wed

Beverly Gail Cowan of Pampa and Jimmie Carl Baker of Pampa will be married Aug. 8 at 4 p.m. in First Baptist Church in Pampa.

The prospective bride, a 1978 graduate of North Texas State University in Denton, is a homemaker teacher at Pampa High School. She is the daughter of Dr. and Mrs. Paul J. Cowan of Denton.

Mrs. Cullison Hosts Class

Pink and white mums decorated the home of Lucille Cullison as she hosted the Mary Martha Class of the First Baptist Church May 30. Lilly Mae Williams was co-hostess for the monthly class social.

The class sang "Happy Birthday" to Loree Barker, and Mrs. Bidwell led the class in games. Homemade prizes were given to game winners.

NEWS FROM ALAN REED

The Alanreed Cemetery Assn. will meet in the school cafeteria Monday June 8th instead of the regular 1st Monday in June.

The Marvin Rawlings and his sister Pauline were in Pampa last week at the bedside of sister Willie.

Brother and Mrs. Carl Baker visited with the Robert Bruces Sunday evening after services.

The Felton Conners have moved back into the community and are living where the A.N. Hardemans lived for years.

Polly Harrison visited in Amarillo this week with the Velton Cummings.

Mr. and Mrs. Ned Craig of Lubbock visited briefly with friends here last week enroute to her parents home.

The Mel Frenchs were away in Oklahoma last week attending a family reunion.

Visiting with Jewel Warner over the weekend were Mr. and Mrs. Roberson (the former Joyce Smith) of Oklahoma.

The homemaker's club meeting was postponed last week due to several illnesses and absences.

Visiting with Lena Carter Sunday were Mr. and Mrs. Jim Bruce and Shelby of Amarillo. They also visited at the Carter orchard along with Mrs. Carter, Mr. and Mrs. Wayne Leathers and children Cecilia Dalton of Pampa and Virginia Dalton of McLean.

Visiting Jewel Warner last week were Mr. and Mrs. Lavez Lingo and children, Anne Sherrill and granddaughter, Mr. and Mrs. Geo Parr and family of Amarillo, Richard Wagner of Oklahoma City, Jean Bible of Dallas and Jake Bible of McLean.

Mr. and Mrs. J.C. Gilbreath visited in Oklahoma last week with son Sidney and family.

Mr. and Mrs. Robert Bruce were in Amarillo on Monday and visited the Jim Bruces.

Visiting the Bert McKees Sunday were daughter Margie and family of Spearman.

The L.T. Goldstons were in Amarillo this week for medical attention for Mrs. Goldston.

The Bob Adams are back home in their house. They will be teaching in our school this fall.

Gees Honored At Farewell Party

The Royce Gee family were guests of honor May 29 at a farewell party in the Lefors Civic Center. A supper of brisket, potatoes, carrots, beans, ham, and salads, pie, and cake was served.

been transferred by Tennico Oil to Oklahoma City. A plaque was presented to Mr. Gee, and a vase of silk flowers was presented to his wife.

LEFORS BRIEFS

Lefors Baptist Church will have a cookout Saturday night at the Lefors Park.

Those attending were Mr. and Mrs. Wendell Akins, Mr. and Mrs. Mike Shedeck and daughter, Mr. and Mrs. Jay Wallis, Mr. and Mrs. Randy Day and daughter, Mr. and Mrs. Ken Allen, Mr. and Mrs. J.T. Lamberson, Mr. and Mrs. J.C. Calloway and Mike Martin.

Advertisement for KARON TATE, QUAIL RT. MEMPHIS, 256-3770. Includes a small logo with the name 'Karon Tate'.

Advertisement for Expert DRY CLEANS, One H Martin. Includes an illustration of a person cleaning a garment.

Lions to Give Lawn Mower

The McLean Lions Club will give away a 22-inch Greenbrier self-propelled lawn mower during the McLean 66 Rodeo festivities Saturday night June 20.

Donations of \$1 will get your name in the pot, and you do not have to be present to win, club members said.

Four Students Named For Honor

The Society of Distinguished American High School Students announced today that four students from McLean High are to be included in its membership for 1981.

The Society, one of the most selective high school honoraries in America today, accepts only students nominated by their sponsors.

Students awarded this honor this year are Terri Glass, Brenda Wilson, Jamie Glass, and Brett Simmons.

The student's sponsor, Buell Wells, received a National Appreciation Award from the Society for "being dedicated to the encouragement and assistance of students."

VFW Auxiliary Has Supper

The Johnnie Windom Post was the sight of a salad supper for members and their families when the VFW and Ladies Auxiliary met May 30.

Present for the supper were Mr. and Mrs. John Byrd Gull, Mr. and Mrs. Craig Morris, Mr. and Mrs. Haris Logan, Mary Groves, Laverne Brooks, Lucille Cullison, Lorene Arbuckle, Adell Walker, Mary Powell, and Lester Bailey.

The next salad supper will be Tuesday, June 30 at 7 p.m.

Methodist Bible School Begins

An all-new and exciting program has been prepared by First United Methodist Church in McLean for vacation Bible school, set for June 8 through June 12.

"Jesus, Your Word Lives in Me" is the theme for the school, to begin each day at 9:30 a.m. and end at 11 a.m. Classes will be offered for

all ages from nursery (ages 2-3) through fifth grade.

A back-to-basics approach to Bible study and Christian living is offered in the school. Bible-based lessons will be taught through the use of many advanced teaching methods, according to VBS chairman Janet McCracken.

Workers in the school are needed and welcome, Mrs. McCracken said.

Nursing Center News

P.L. (Pinky) Ledgerwood remains in the hospital in Pampa following gall bladder surgery. He is doing exceptionally well, and we are hoping he'll soon be back with us.

Sunday, members of the Baptist Church were here to conduct Church services for the residents.

There was no Bingo on Monday afternoon, but we will be having Bingo each Monday at 2:00 p.m. from now on.

Wednesday afternoon, members of the Baptist conducted a Bible Study. Afterwards, the residents enjoyed cookies and punch, furnished by Fern Boyd and Isabel Cousins.

Thursday, the Baptist Church members returned to conduct a Singalong for the residents.

Friday, Martha Parker was here to show her movies. We really appreciate the great lengths Martha goes to in order to provide the excellent movies she shows to our residents.

We have several events coming up that we are really looking forward to. Residents will be enjoying music furnished by the Methodist Men's Quartet, and Jay Wallis will be bringing his country western band back to entertain for us.

Baptist WMU Has Study

The WMU of First Baptist Church met in the home of Relia Ayers May 26th with Sofronia Pettit as co-hostess.

Refreshments of strawberry cake, coffee, and punch were served to Ann Gardner, Stella Gibson, Sofronia Pettit, Wanda Sharp, Juanita Smith, and Chick Wood.

ROXANNE BILLINGS AND GARY DANNER

Billings, Danner Engagement Told

Roxanne Billings of Clovis, N.M. and Gary Danner also of Clovis, will exchange

wedding vows July 3 in the Assembly of God Church in Clovis. Miss Billings is the daughter of Mr. and Mrs. Ken Billings of Clovis, and Danner is the son of Mr. and Mrs. Alvin Danner of McLean.

The prospective bride is a 1981 graduate of Clovis High School.

Danner, a 1976 graduate of McLean High School, served four years in the U.S. Air Force, and is currently employed by Santa Fe Railroad in Clovis.

NIGHT-FLYING MOTHS CREATE NUISANCE

Night-flying moths, mainly cutworm moths, often become a nuisance to homeowners in the spring. The moths are attracted to light and are sometimes referred to as "candlemoths." Night-flying moths are difficult to control. The following steps alone or in combination with others, may provide some relief under favorable conditions:

- Reduce the attraction of the site.
- Intercept moths before they reach the site.
- Exclude moths from the house.
- Destroy moths which get into the house.

Reduce the attraction of moths to a house or building through proper light management. This often provides substantial relief. Use indirect lighting where practical so the light source is shielded from areas from which moths may come. Locate inside light fixtures so that moths outside cannot see the lamp itself. There is little evidence that any light repels insects, but a yellow light is least attractive to most insects. During periods of heavy moth flights, keep outside lighting at a minimum. Insect light traps can intercept moths before they become a nuisance. Place such traps at least 100 feet away from a house or building. To exclude moths from houses or buildings, properly screen windows and doors as well as air vents and ventilating ducts. Household insecticides can control moths to some degree. Spray where moths collect and rest outside, such as door frames, window sills, carports, porches or garages. Since moths do not feed on anything where they are resting and are protected by a heavy coating of

scales, sprays will not provide any immediate or spectacular results. Apply ready-to-use household spray formulations of diazinon and baygon to resting sites and cracks and crevices where moths may enter buildings. Be sure to follow label instructions for "nuisance pest" control. Add a commercial wetting agent or a teaspoon of liquid detergent per gallon of mixed spray to increase its effectiveness. Once moths get inside the house or building, a vacuum cleaner often gives the best control. A household pyrethrin aerosol spray will also control moths inside a room. Again, be sure to check the label on the container when using any insecticide.

TOMATOES ON POTATO PLANTS

Gardeners sometimes find extraordinary things, such as "tomatoes" growing on potato plants. Usually the immediate reaction is that potato plants have become crossed with tomatoes. However, that's not the case at all. Actually, the potato plants are blooming. The green fruit found on the potato plants are commonly called potato seed balls that result from pollination and fertilization of potato blooms. Potato blooms vary from year to year depending primarily upon the temperature. Occasionally, the blooms set and produce true fruit of the potato. These fruits each contain 100 to 300 true seed of the potato. These seed look a lot like tomato seed but generally are not fuzzy. Plant breeders made controlled crosses between various potato varieties for producing true seed. Plants which are grown from these true seed produce small potatoes about one inch in size. This process results in new im-

proved varieties. Regarding blooming potatoes, potato set is not dependent upon flowering. Potato plants will set potatoes without flowers ever appearing on the top.

PSYCHOLOGY

When you've got a superior product, there are two ways to let people know it's good: tell them or let them find out for themselves. One brewing company decided it was good psychology to let the people make up their own minds. On live telecasts, beer drinkers were asked to conduct unheated tests between his beer and its competitors. They tasted. Then, Sellinger suggested viewers do the same. Result: people began asking for his company's product. Apparently, the psychology was right: and so was the taste.

McLean baseball boys defeated Shamrock Wednesday afternoon on the latter's ground, by the score of 9 to 5. Biggers was on the mound for McLean, while Green started for Shamrock, but later gave way to Buchanan who finished the game. Bowen for McLean and Abbott for Shamrock did the catching. The outstanding feature of the game was the pitching of Biggers; in the second, after walking three men, he tightened and struck out the next three batters up; again in the fourth, with runners on second and third and with one out, he struck out the next two batters.

Mr. and Mrs. C.H. Rowe entertained a crowd of the

Increase In Scholarship Funding Announced

Houston--The announcement of an increase in funding to graduate assistants, upcoming scholarship presentations totaling \$600,000 and major scheduling changes beginning in 1982 highlighted the Houston Livestock Show and Rodeo Annual Membership Meeting held May 27, 1981 in the Astrohall.

Show president Allen H. Carruth announced that the Show is increasing the value of individual graduate assistantships from \$4,800 to \$5,400 annually. "Each year, the Show funds about 20 graduate assistantships as part of our total scholarship program," said Carruth. "With this increase, the amount available in this area is \$108,000."

This funding is only a small part of the Show's renowned scholarship program. "In the next six weeks, the Show will present 100, four-year scholarships valued at \$6,000 each. These annual grants are divided evenly between A.H. and FFA recipients and represent a commitment of \$600,000," noted Carruth. The Houston Livestock Show and Rodeo is the nation's largest donor of agricultural scholarships with total commitments in excess of \$2 million.

Carruth then announced major changes in scheduling that will take effect with the 1982 Show, the 50th Anniversary event.

"We are moving the date of our big rodeo kick off parade to the first Saturday of activities, February 20. Livestock judging will begin Monday, February 22, allowing for two extra days of competition. The rodeo will open on Wednesday night, February 24, rather than on the first Friday of livestock judging."

He emphasized that there will be 16 rodeo performances for 1982. "By eliminating the rodeo's opening at a Friday matinee and by increasing the number of evening performances, we are giving more people the opportunity to come to the Show," he said. Carruth noted that all changes were in response to public demand.

"With horse show activities in full swing the first weekend, plus the Bar B Que, Fiddlers and Hay Hauling Contests, there's always been a lot to see on the show grounds. Now, the carnival and all commercial exhibits will be open too, and livestock will be arriving to fill

the barns, giving spectators a full house of stock show fun."

The longer livestock show judging will enable the Show to handle its heavy schedule, as well as add new events. Carruth noted that the Show has been able to grant breed associations requests for new shows. "In 1982, we'll have Chianina and Pinzgauer shows for the first time."

He also indicated that there would be more sales than ever in 1982. "Right now, we are scheduling some 27 auctions to be held in conjunction with our Show. These include independent association sales, as well as our own record-breaking junior market auctions."

To facilitate the changes, some junior livestock show judging has been moved to the first week of competition.

"The first week used to belong exclusively to the professional stockman," Carruth said, "but, for the past two years, entries have forced us to begin earlier. We anticipate moving all junior dairy show competition into the first week and going to a staggered arrival and release program to take full advantage of the barn space. These changes add up to something the exhibitors will welcome."

The annual meeting was held in the newly remodeled meeting rooms, which were a part of the fifth phase of the

Show's extensive building program. Almost 13,000 square feet of space on the east wing of the Astrohall was remodeled into a flexible meeting room plan. On the west wing, a new 17,000 square foot addition was added.

During Show time, this area will house all market auctions, accommodating up to 5,000 spectators. Carruth noted that the Houston Livestock Show and Rodeo paid for the \$2 million project and that no tax money or bonds were used.

Members of the Show's Board of Directors also were elected at the annual meeting. Directors elected for the first time included James O. Bloodworth, Milton Boenker, Thomas P. Cagle, Jim C. Cleeper, E. Harland Cochran, Emmett Evans, Jim Ferris, Pat Gilbert, Larry Harper, W.A. Sonny Lewis, Jimmy Moser, Rocky C. Piazza, James D. Sartwell, Michael J. Upchurch, Justin White and Lonnie Wooten. All are long-time stock show supporters.

The meeting ended with the announcement of dates for the 1982 Show. The horse show and parade kick things off, beginning on Saturday, February 20. Livestock Show competition begins with judging on Monday, February 22. Rodeo action in the Astrodom opens Wednesday night, February 24. All events conclude on March 7, 1982.

LIBRARY NOTES

Bull Hunter

Western story readers will certainly recognize the name of Max Brand as one of the best and most prolific of western writers of our day, and will know that picking up one of his books will insure an exciting adventure of the old west as only Brand could write it.

Bull Hunter was a giant of a youth who set out to kill the famed gunfighter Peter Reeve as revenge for his Uncle Bill Campbell's giving him a

of doing anything worthwhile, and he set out to prove them wrong as well as to prove to himself that he could accomplish his goal.

This gripping tale finds Hunter finding that the end of this trail was only the beginning of strange adventures and unexpected rewards as he crossed even the law to accomplish his end.

Max Brand has again captured the violence and unpredictability of the old west as he unravels this delightful yarn. "Bull Hunter" is now available at Lovett Memorial Library.

Hunter's relatives all thought him an incapable

CAPITOL UPDATE

John Tower
U.S. SENATOR for TEXAS

142 RUSSELL OFFICE BUILDING WASHINGTON, D.C. 20510

Texans have a long tradition of pride in their state, and recent government studies confirm our right to be proud.

The state's population grew by some 27 percent in the 10-year period from 1970 to 1980, to a total of 14,228,000 -- compared to an 11 percent average growth rate for the nation as a whole.

The Texas share of the national paycheck grew last year faster than any other state's, placing per capita earnings in 1980 at \$55 more than the U.S. average.

These figures prove what we had already observed, that Texas is experiencing rapid growth in both population and prosperity.

A recent study by two Texas A&M University sociologists concluded Texas could surpass New York in its population by 1990. "Texas can now be compared to a giant magnet, drawing increasingly more people from other regions and states," the A&M researchers noted.

These impressive gains are no accident. The quality of life in Texas is good enough to draw people and business from more stagnant areas of the country. And this quality of life has been made possible by the friendly and hardworking people of Texas, along with reasoned and responsive state and local governments.

For example, I have been impressed by the way our governor and state legislature have reacted to cuts in federal programs which feed money into state coffers. While other states have complained loudly, Texas has shown its self-reliant spirit and concern for the national good by making the necessary adjustments at the state level.

The balanced-budget approach of Texas state government has made for a fiscally sound treasury which is able to meet present needs without being hamstrung by past budgetary indiscretions.

The progressive attitude of both state government and that of the cities in Texas has created a business climate second to none. I have been impressed by the approach of Texas cities to seeking new industry, but with an eye to attracting businesses which will allow both city and company to benefit from the new site.

The management-labor climate in Texas also has proved an asset in encouraging industrial expansion and relocation. The growing personal income level for Texans illustrates the benefit to individual workers of Texas' right-to-work approach to organized labor.

Our vast natural resources, and the willingness to use them in a responsible way, also have contributed to our growing prosperity.

In short, Texas has presented a good model to the rest of the nation looking for ways to increase economic activity and employment levels.

The next ten years will provide renewed challenges and opportunities. Providing necessary government services to our growing population without onerous taxation will call for careful planning.

Keeping population levels and employment opportunities increasing at about the same rate also will challenge the ingenuity Texans historically have demonstrated.

But I am confident Texans are more than capable of handling any situation presented to them. Texas will continue to be a land of opportunity for its present and future citizens.

Loose Marbles

by Lisa Patman

Occasionally this column becomes a sort of question and answer forum, where people from all over the world write to ask my advice. This is not one of those times, although I'm sure sometime I will receive a letter from someone asking a question. Until then, I shall have to rely on my own imagination, and try to figure out what you might write if you did, which you don't. Here then, is this week's quivering questionnaire.

Dear Mister Marbles,
I have a teenager who spends most of the morning hogging the family shower, using up all the hot water. What's a mother to do?
Signed,
Stinky

Dear Stinkums,
You think you have problems! Listen to this--The longest continuous shower on record is one of 336 hours. It was taken by Arron Marshall of Rockingham Park, Australia, from July 19 until August 12, 1978. Reportedly, Marshall is now a representative for a prune company.
Love,
Mister Muffles

Dear Ms. Morals
My daughter never shuts up. It's talk, talk, talk, from morning until night. I can't get a word in edgewise. She's about to drive me up a tree. What's a mother to do?
Signed,
All Ears

Dear A.E.,
Count yourself among the lucky ones. Think of poor Mrs. Raymond Cantwell, whose husband rattled on for 150 hours straight in 1977. However, if you still can't stand it, remember that the fastest climb up a 40-ft coconut tree is 8.4 seconds, made by Kini Marawai, who was barefoot at the time. I understand he also received the highest bill ever sent by a podiatrist.
Yours,
Miss Minerals

Dear Miss Marble Falls,
My son eats everything he can get his hands on. Sometimes I don't even have to unload my grocery sacks; he eats directly from them. Once someone sent me a birthday cake, but all the kid left for me was the melted candles, which he says make him burp. Another time he wanted a banana, but the monkey had already eaten it, so he ate the monkey instead. I'm afraid to keep pets around anymore, and I haven't celebrated a birthday in years. What's a mother to do?
Signed,
Mother Hubbard

Dear Hubba-hubba,
You have the makings of a serious problem here. Why only four years ago a frenchman ate an entire bicycle, wheels and all, although it took him 15 days to finish it off (I think the spokes tickled). I suggest you seek professional help for the kid, and while you await the results, hide the motorcycle in the garage.
Up to no good,
Mix Gurgles

Bible School Fun

Whaley's District Expanded

Two House Legislative Districts were lost in redistricting the Panhandle, South, and Rolling Plains Area in recent Redistricting Legislation in Austin.

State Representative Foster Whaley's District was expanded to include Hardeman, Carson and Crosby Counties. Representative Bob Simpson lost Carson County and picked up Deaf Smith County. Dean of the House, Rep. Bill Heatley lost Hardeman and Crosby Counties to Representative Whaley and took in additional areas that included Howard County (Big Springs).

Speaker of the House Billy Clayton is retiring from the House, leaving his old district to be split up among Representatives Laney, Rudd, Simpson and Buchanan.

The expansion of the Districts by some 22,000 residents was necessary to bring them up to the approximate 94,586 required residents.

Representative Whaley said: "I am very pleased to have the three rural counties of Carson, Crosby, and Hardeman added to my district. I regret very much that Mr. Heatley had to lose any of his present district. There was no other way for my

district to expand. We will endeavor to serve the new counties that have been added to the very best of our ability."

The combined agricultural income from the proposed new district exceeded \$539,560,000.00 in 1979. The three new counties had agricultural incomes in 1979 as follows: Carson - \$60.6 million; and Crosby - \$63,910,000.00.

Representative Whaley and his wife, Lois, live on an irrigated farm West of Pampa. They have farming and ranching interests in Carson and Armstrong Counties. Their operation is leased out and they serve on a full-time basis in his State Representative work.

Whaley is a founding and charter member of the Texas Cattle Feeders Association.

Whaley served as a County Agricultural Agent for 27 years in Armstrong and Gray Counties.

They have three children: Christie of Dallas, a 1977 graduate of Texas A & M; Wayne, Houston, a 1979 graduate of Texas A & M; and Kariette, a Junior at Texas A & M.

GI Bill Change Should Help Students

A recent change in GI Bill payment procedures should alleviate potential problems for certain veterans enrolled in summer school.

Originally, students enrolled in summer classes were prohibited from receiving GI Bill benefit payments when the period between school terms exceeded thirty days.

The modified regulation now allows payments where the interval between terms does not exceed one full calendar month. For example, if a school's summer term ends on August 15, and the fall term begins September 28, this interval would exceed the old thirty day limit. Under the new provisions, it would not exceed the full calendar month criteria, and education payments would be made. The veteran must be enrolled in a summer term at least eight weeks long but no payment will be made for any interval between two summer sessions regardless of length.

Further information about this change is available at the nearest Veterans Administration Regional Office. VAs toll-free telephone service is also available; just consult your local phone directory under "U. S. Government" listings for the VA's number in your area.

Additional information about orientation and tests may be obtained from the University Counseling and Testing Center located on campus.

WT Announces Orientation Sessions

WTSU--Students who plan to enter West Texas State University in the fall semester as beginning freshmen will have several opportunities during the summer months to participate in orientation sessions and to take college entrance examinations.

Five orientation sessions for beginning freshmen students have been scheduled at the WTSU Activities Center. The sessions, which will begin at 8 a.m., will be on Friday, June 12; Friday, June 19; Friday, June 26; Friday, July 3; and Monday, July 27.

During the sessions, students will become familiar with the student life office, University Counseling and Testing Center, financial aid, registrar's office, and placement service and other aspects of university life.

Students also will receive academic advisement and plan schedules for the fall semester. The pre-enrollment process will eliminate beginning freshman students from participating in registration.

College-Level Examination Program examinations or CLEP tests which allow a student to receive course credit if a satisfactory score is achieved on the exam, will be given on campus on three Thursday mornings preceding Friday orientation sessions.

CLEP tests will be available on June 11, June 18, and July 2 at the Classroom Center. The first test costs \$22 and \$18 is charged for each additional test.

The American College Testing entrance examination ACT will be administered on Wednesday, July 8, beginning at 8 a.m. in the Classroom Center for entering freshmen who have not taken the entrance exam. Cost of the exam is \$10 and students must bring an identification with photograph, such as driver's license.

Notes From Your

County Agricultural Agent

by Joe Van Zandt

We had a very good Wheat Field Day last week. If anyone is interested in seeing the wheat variety demonstration on the Leon Daughtry farm east of Pampa, the signs are still up, and you are invited to drop by at your convenience.

Smut diseases of wheat have raised several questions in recent years among local producers. Loose smut and stinking smut are two completely different diseases and we have a very excellent demonstration of stinking smut this year. The demonstration on Henry Hamley's farm has given us very excellent information on chemicals that will prevent stinking smut through a seed treatment.

Farmers wanting to see and learn first-hand about stinking smut should call me, and we can go look at this demonstration located north of Henry's house, which is just east of Pampa.

JUNE TOMI

Extension's Telephone Outlook and Market Information is being well received. This marketing service is available 7 days a week, 24 hours a day. The number to call is 713-845-6437. The June schedule is: June 2-4...World Food Situation (Bill Black); June 5-8...Estate Tax Tip (Wayne Hayenga); June 9-11...Cotton Update (Robert Anderson); June 12-15...Milk Situation (Robert Schwartz); June 16-18...Cattle on Feed (Ed Uvack); June 19-22...Feed Grain Situation (Roland Smith); June 23-25...Hog Outlook (Ernie Davis); June 30-July 2...Livestock Statistics (Ed Uvack).

Beginning in June-topic changes on TOMI will be made only on Thursdays and Fridays. Some deviation from this schedule may, at times, be required to coincide with major government reports. This new arrangement should make it easy to anticipate new commodity information. As, in the past all message changes will be accomplished between 8:00 a.m. and 9:00 a.m. on the first day of the new topic.

As you progress, experiment and make notes about results for future reference. Don't be afraid to write in recipe books or user's manuals. These are often notes that can prevent costly mistakes of time and money.

Finally, enroll in a microwave cooking class taught by a knowledgeable, experienced microwave instructor. A special program titled "A New Day, A New Way With Microwave Cooking" will be held Monday, June 15 from 7:00 to 9:00 p.m. at the Texas A&M Research and Extension Center in Amarillo. Marilyn Sterchi, professional consultant with microwave cooking from Dallas will conduct the free program for all interested people. There will be recipes available, food samples and door prizes. If you plan to attend, contact the Gray County Extension Office by June 10.

HERBICIDAL CONTROL OF MESQUITE

The time for aerial application of herbicide for control of mesquite is fast approaching. To obtain the maximum kill that current growth conditions will allow, the herbicide should not be applied to mesquite until the leaves have fully extended and have turned from a light green to a dark green in color. Mesquite leaves are maturing earlier this year in many parts of the state. In addition to foliage development, soil temperature is an important factor. Best control of mesquite is usually obtained when the soil temperature at 12 to 18 inches of depth at time of spraying is 75 degrees F. or above.

If frequent rains occur during the spraying season, root kills are often reduced because the mesquite plant will continue to add new leaf growth, thus the plants have leaves in different stages of maturity. If possible, herbicide application should be delayed for 10 to 21 days after significant rainfall to allow new growth to mature. Another factor to remember before spraying mesquite is damage to mesquite foliage by insects, disease or hail. If a significant number of mesquite plants have been defoliated by insects or hail, plant kills are usually reduced.

The registered and effective herbicides for mesquite control on Texas rangeland using aerial broadcast application are 2,4, 5-T, 1 to 1 mixture of dicamba and 2, 4, 5-T dicamba (Banvel) and 2, 4, 5-T must be tank mixed because a commercial formulation is no longer available. The effective rates for these herbicides are 1/2 to 1 pound acid equivalent per acre. The lower rate is used in our West Texas area.

GRASSHOPPERS. A lot of Gray County residents are going to have

grasshopper problems again this year. The hoppers are generally still real small and are easy to kill in their hatching area. These hatching areas are usually around fence rows and old overgrown waste areas that had a lot of hoppers around last year.

Whether you are a farmer, rancher, or homeowner, everyone needs to check for these grasshopper problem

areas and I recommend you spray these areas right now before the hoppers move out to feed in other crops, range of gardens.

The following insecticides are approved for most crops, gardens and rangeland: Sevin, Diazinon and Malthion. In addition, toxaphene is approved for most crops and Penncap and Dibrom are approved for grasshopper control in range-

land. Be sure to check label directions. If you have questions about grasshopper control, call the County Extension Office-669-7429.

STATE MICROWAVE COOKING. STOP HEATING

Accept a challenge to stop heating and start cooking with microwaves. Explore all of the basic cooking possibilities, and use microwave for roasting, simmering, and baking.

First, experiment with recipes and techniques in the microwave oven user's manual. Learn to use the oven to perform all these techniques. Then progress to an easy-to-follow cookbook or simple recipes. Be sure to use appropriate microwave utensils.

A variety of cooking utensils go directly from the microwave to the table, saving both serving and cleanup times. These include glass, plastic and glass-ceramic accessories. Or use pressed paper products for preparing foods which contain little liquid or fats.

As you progress, experiment and make notes about results for future reference. Don't be afraid to write in recipe books or user's manuals. These are often notes that can prevent costly mistakes of time and money.

Finally, enroll in a microwave cooking class taught by a knowledgeable, experienced microwave instructor. thiamin values were consistently lower, though riboflavin values were higher. Protein levels in homemade hamburgers were higher, probably due to the amount (2 ounces) of ground beef used for the higher protein content of the beef.

Fat levels in the restaurant-type meals were not excessive. The percentage of food energy provided by fat was lower than 35 percent.

In all but one of the fast chains' hamburger meals, fat provided less than 42 percent of the calories, the average in most U.S. diets. The "fast" fillet of fish sandwich used over one tablespoon of mayonnaise type spread and the apple pie--more crust than fruit--contained more fat than the home prepared versions.

The non-fat dry milk base of the fast food restaurant shakes provided considerably more calcium than the shakes made at home from whole milk and ice cream. The french fries prepared at home supplied more vitamin C than the restaurant product, depending, of course, upon the variety of potato, storage conditions and the method of preparation.

Of course, the fast food meal provided over the recommended allowance for calories than for some nutrients--assuming an allowance of around 2,600 calories. Women and children who have lower energy allowances would need to be aware of the higher caloric percentage of these meals.

When families elect to eat at a fast food restaurant, it is wise to remember that the remainder of the day's food should provide the recommended amount of nutrients without an excess of calories. Across the nation, the popular fast food restaurants are a convenience that save the busy homemaker's time.

For specific calorie amounts in fast food restaurants, ask for a special mimeograph hand out comparing fast food. You can cut calories and eat out nutritionally at the same time. The handout is available at the County Extension Office.

Save time in home-sewing means saving dollars, because personal time is valuable. Consider current sewing habits. Then streamline as many as possible. Here are some ideas:

Spending a few minutes organizing--and save hours. Know where your sewing supplies are, and keep them in a convenient place to save motions.

If possible, arrange a permanent sewing area to save time getting out and putting away supplies. An ideal area would include space for the sewing machine, pressing equipment and comfortable height cutting surface.

Buy frequently used supplies in quantity--including interfacing and elastic. When starting a new garment, buy all needed supplies at one time. Dovetail as many tasks as possible. For example, pre-shrink fabric in advance with routine laundry.

Buy easy-to-sew fabrics. These are generally firm, non-raveling, don't stretch excessively, are not bulky and don't require matching. Designs smaller than 1/4 inch (6 mm) do not need matching.

Select an easy-to-sew pattern, too. They're labeled as easy-to-sew--and they suggest appropriate fabrics, have only a few pattern pieces and recommend easy-to-understand, simple techniques. Examples of simple techniques are using fusible, minimizing handwork, doing machine-made buttonholes or using centered zippers.

In addition, read the guide-sheet before you sew--to save time. Finally, remember that most homesewers find after they've made a garment once, future garments by the same pattern are faster and easier to sew.
