## Local Youths Present Telethon Check

The Children's Miracle Network Telethon was aired live from Disneyland on June 3 and 4. Locally the telethon was aired on KAMR-TV, Channel 4.

Daniel Treadwell, Skye Brown and Amber Weller appeared live on Channel 4, at Northwest Texas Hospital Sunday morning. The trio presented a check totaling \$325.00 they raised.

As many of our readers already know these three children spent many crucial hours of their early lives at Northwest Texas Hospital in the Neonatal Unit, which has been partially made possible by the Children's Miracle Network.

Betty Treadwell reported that a total of \$500.00 was raised in Groom. The children raised \$325.00. Balloon

sales totaled \$26.00 and the canister located at the Groom Dairy Queen had \$149.00 in it.

The drawing at the Dairy Queen was won by Joanny Brooks, who won the wooden heart bench; Mary Brooks received the stuffed lamb and the floppy eared rabbit went to Rose England.

## Groom City Hall Burglarized

Sometime Thursday evening the City of Groom Offices were unlawfully entered. Sheriff Terry Timmons reported that the intruders gained entry through the front two doors with a screw driver or some other small tool.

City Secretary, Pat Ashford reported that Friday morning when she came to work she entered as usual and found that \$63.00 of rolled quarters, from the water vending machine had

been taken. She said, "When I entered my office I thought to myself that the door did not quite open as usual, was it locked or not." The front door automatically locks when the door closes, which would not have given Pat any clues.

The City office of White Deer on Friday evening which was the next day, was also broken into. A total of \$1,300.00 was taken. The cash taken included bingo receipts from the night before.

**...for power lines!**

On the farm, on the job or at home, you should always be aware of power lines. Touching a power line with anything... an irrigation pipe, tool, a kite string... could divert the electricity through you causing serious injury or death. For safety's sake, look up for power lines.

**AND, REMEMBER THESE SAFETY TIPS**

- Do not trim trees near power lines.
- Do not shoot at insulators on poles, towers or structures.
- Avoid using electrical tools like lawn mowers or hedge clippers when grass and leaves are wet.
- Be careful when digging. Call SPS to find out if there are any buried electrical lines in the area.
- Beware of exposed wires.

## Jerry Moore Family Says Goodbye To Groom

Aware is the word that comes to mind when I think of the people of Groom, Texas. Sensitive is the word that supports that awareness throughout the community. If any man, woman or child among you has been in need and have not had two or more asking if they might help you in some way, I would guess one of two things. Either you are new in Groom and have not met two people or you have decided you have no need of another person in your life.

Dear people of Groom this is my family's way of saying we thank you so much for your sensitivity in understanding that we leave

Groom with great sadness. The sadness is made bearable only in the knowledge that God knows better than we what his servants should do and where they should go in this life-time.

The last five years have been a joy. It seems true that joy is realized only by those who have experienced heart-ache. We have seen heart-ache and shared some of your. The celebration of weddings, funerals and baptisms have been outward displays of only some of the joy, sorrow, and triumphant grace that have helped us understand and care for one another.

## Carson County Square House Museum Was Awarded \$19,000 Grant

The Institute of Museum Services (IMS) announced the 400 U.S. museums selected to receive the 1989 General Operating Support awards. These prestigious grants, totaling more than 17 million dollars, are the most sought after federal awards for museums and provide virtually unrestricted direct support for all types of museum activities.

The Carson County Square House Museum was awarded a grant of \$19,000.

The Square House Museum, one of the few museums in the panhandle to be accredited by the American Association of Museums, received this award for the third year in a row. The Museum served over 25,000 people in 1988 and continues to grow in quality and size.

The IMS General Operating Support award is based on the strength and quality

of the applicant museum as demonstrated by responses to application questions. For this national competition quality is defined as judicious management of the museum's available resources to provide the best possible services to its community and the general public. The competition for these funds is very strong and those museums who are

privileged to receive GOS awards have consistently demonstrated their commitment to high standards in their operations and in their services to the public.

Grantees include museums with from one staff member to more than 2,000 employees, with annual operating budgets from less than \$10,000 to over \$70 million.

## Dollie Haynes One Of 34 finalists.

After the entry deadline on May 15, an anonymous committee made up of secondary school educators and administrators representing public and private districts and institutions chose one student from each school division, which were based on the school's total

population.

Dollie Lee Haynes of McLean High School was one of the 34 finalists. Dollie is the seventeen year old daughter of Mr. and Mrs. Sam A. Haynes. She was the valedictorian of the 1989 graduating class of McLean High School.

Officials at area high school nominated 39 students for the first class of the Panhandle-Plains Academic Hall of Honor. Only five could be selected, but the remaining 34 deserve recognition for their pursuit of academic excellence, said Garett van Netzer, Amarillo Globe News general manager.

Each of 100 area high

schools was asked to nominate its outstanding graduate.

The process began with a nomination form, which sought background on the student's activities, both co-curricular and extra-curricular; examples of the student's has been involved; elements of the student's character; as well as the student's other special attributes.

THE GROOM NEWS-Page 7

value of education.

Nominees also were allowed to include letters of reference at their option.

## Lions Club To Hold Annual Journey For Sight

Saturday, June 17, will be a big day in the life of the Little City of McLean. The school reunion will be in full swing on that day with registration of exes, class meetings and a rodeo and dance that night.

Saturday morning at 8:00 a.m. the McLean Lions Club will hold their annual Journey For Sight, a ten mile walk or run which is held to raise funds for sight conservation projects, both locally and internationally.

The Journey will be made around the local golf course and will approximately six and one half laps around the course.

No entry fee is required and all finishers will receive a T-Shirt. Those who enter will obtain pledges of money to be paid on a per mile basis after the trip is completed.

Olympic style medallions will be given to the top three male and top three female finishers and Polaroid cameras will be given to the two entrants who obtain the most pledge money.

The Lions Club urge all McLean citizens to help with this project by either entering and making the Journey or sponsoring one of our entries. We also urge citizens and ex-students to come to the golf course and

cheer on their fellow McLean citizen who are putting their bodies on the line for this worthy cause.

## Mom Of Year

Steve Myers was named "Mother of the year" in Lamesa, Texas. The following letter was submitted by his nine year old son, Paul Myers.

Dear Sir:

I think my dad should be chosen Mother of the Year since he is the one my three brother and I live with. He teaches me to play the piano and he takes us to places to have fun. He buys us good clothes and a good house to live in. He buys food for us and cooks it. He works at his job and then he comes home and does the mother's job for us. When one of my brother or I get sick, he takes good care of us and even when we're not sick he takes good care of us. He likes to play and have fun with us. When we get on the highway with our bike, he gets on to us because he cares about us. That's why I think my dad should be chosen Mother of the Year.

Yours Truly,  
Paul Myers

## New Organ At Immaculate Heart

A new Allen 2140 Digital Computer Organ, and public address system that provides concert quality audio reproduction at Immaculate Heart of Mary Catholic Church here, was blessed and dedicated during special ceremonies May 21 at the church by Rev. Richard J. Ney, pastor, assisted by Rev. Gary Sides, pastor, St. Vincent de Paul Church, Pampa. Organist for the ceremony was Jerry Whitten also of Pampa.

The new organ was installed by Tolzien Music Company of Amarillo and the sound equipment, including mixers, amplifiers and speakers, were placed in service by Shamea Sound Production of Irving.

The Allen Organ uses the same computer circuitry as the manufacturers of the finest data and signal processing systems which has expanded the amount of information (binary numbers) about each note of each stop that the organ reads and interprets.

The elaborate sound system includes a two-head Nakamichi Cassette tape deck, DBX Dynamics Processor to enhance sound quality, Biamp Equalizer and Crossover, JBL Power Amplifier, four Klepsch speakers for the public address system, 12 tone cabi-

nets for the organ, and six sound-activated microphones.

Following the dedication and blessing, those assembled attended a reception

hosted by the Christian Mothers Organization.

The purchase of the equipment was made possible by

a gift from Mrs. Curtis Hankamer of Houston and the parishioner of Immaculate Heart of Mary Church.

## Schools Out

Schools Out, Schools Out, the teacher let her Jewel's Out!

And now a solemn hush lingers where the laughter and shouts of children playing, running and just enjoying life existed just a few days ago. Teachers and educators are taking a deep breath and refreshing their minds before another school year. Meanwhile, the old school looks forlorn and rather lonely.

Yet, Re-Union of all Ex-Student is set for June 16 and 17 and then there will be shouts of joy and excitement again.

## David Brown Competes In All-Ranch Rodeo

A seven-man team representing Haley Ranch of Canadian and Lefors tried their hands in their first all-ranch rodeo competition May 20 and 21 at the Will Rogers Riders Arena in Amarillo.

Members of the team were Jeff Haley, Jerry Swires and Justice Swires, Lefors; David Brown, McLean; Jimmy Dale Sparks, Canyon; Mike Hyde, Swallisaw, Okla.; and Jim Haley, Canadian, team captain.

Events in an all-ranch rodeo include team penning, branding and doctoring, saddle bronc riding, wild cow milking and a wild horse race.

All events except the bronc riding are done in traditional ranch style, using three or four man teams. The saddle bronc event is "ride as ride can" for 8 seconds using a western saddle and a bucking horse leather halter and buck rein.

Justice Swires, the Haley Team saddle bronc rider, was the team high point individual, winning the bronc riding Saturday and placing second on Sunday to win the average in that event.

Swires made a spectacular ride on Saturday night aboard McCloy's Coors Extra Gold, to earn an 84 point score from the rodeo judges and a cheering, standing ovation from the 3500 fans and contestants in attendance.

The Haley doctoring team of David Brown, leader; Mike Hyde, heeler and Jeff Haley, vet; and the wild horse race team of Mike Hyde, mugger; Jimmy Dale Sparks, anchor and Justice Swires, rider, also placed in the competition. The Haley team earned 19 points for a seventh place finish in an 11-team field.

The 6666 (Four Sixes) team edged out the defending champion team from the 4 Way Cattle Co. for first place honors. Other ranches

competing were Bitter Creek, High Card/Cottonwood, J.A.'s LX/Flying Diamond, Corsino Cattle Co., Frying Pan, Pitch Fork and Thompson Ranch.

The rodeo was sponsored by Coors Brewing Co. and The Outfit of Amarillo. All proceeds from the rodeo went to the neonatal unit at Northwest Texas Hospital through the Children's Miracle Network.

ESPN will televise the rodeo on July 22. Check your local listings for air times.

### OUR TREASURED PAST AND OUR FUTURE HOPES

Our children are the future - the future of our country and our Fraternity.

We care for and educate children, grandchildren, great-grandchildren, nieces and nephews of Texas Masons at Masonic Home and School of Texas in Fort Worth.

While looking toward the future, we do not neglect the past and present. Our elderly have given us a past to treasure. We provide the funds to care for widows of Masons at the Home for Aged Masons in Arlington.

We give this support be-

cause we cherish the past, we hope for the future and we attempt to fulfill our obligations.

The widows who have contributed so much in the past and the children who will contribute so much in the future - need our help now.

Salute our past and make a precious investment in our future by sending a contribution today. And consider a program of regular giving. Only a few cents a day can do so much. Your investment will pay dividends for many years to come.

As Masons, can we ignore this call for help?

**Take Time & Plan  
Summer Vacation**

It's vacation time and time to start thinking about our summer travels and those year-long planned vacations. Major Cawthon, Regional Commander of the Texas Department of Public Safety adds that there are things we can do to insure that our summer plans are not rained by some type of tragedy.

"Whether your plans involve travel by car or just a trip to the lake for a little swimming and boating, remember that these activities require a sober mind. While drinking, it is best to stay out of the water and if operating a car or boat use the "Designated Driver". It may just be your life that is saved, Major Cawthon stressed.

**Judy Kennedy  
Named To  
Presidents List**

Judy has been named to the President's Honor List at Vernon Regional Junior College in Vernon. Judy achieved a 4.0 grade point average for the second semester at VRJC. Such distinction is awarded to those students who are capable of achieving the ultimate in academic accomplishments consistent with the requirements of all "A's" with a minimum course load of twelve semester hours. Judy is the daughter of W.C. and Jeanette Kennedy of Pampa.

Travel plans should include a safety check of your vehicle, both under the hood and on the outside. Trips should be planned, so that you are not rushed to get to your destination. Plenty of rest and frequent breaks make for a safe driving combination.

Be familiar with highway designations. Because of the different posted speed limits, it is important to know if you're on the Interstate roadway system or another type of road. Road appearance alone will not give you this information, so it is important that you know what road you are on.

To sum it all up, drive defensively, constantly watching out for the other driver and please, buckle up. It is the Texas way of doing things.
