

FBI Says U. S. Atom Material Sent To Russia

WASHINGTON, June 8. (AP)—The FBI disclosed yesterday that the same type of equipment used by the U. S. Atomic Energy Commission to make A-bombs was shipped to Russia from the United States two years ago.

Two other shipments were blocked in 1948 and 1949, the FBI report said.

Rent Filibuster In State House Starts Rolling

AUSTIN, June 8. (AP)—A filibuster against the House-passed rent decontrol bill started rolling in the Senate at 10:23 a. m. today. Sen. Jimmy Phillips of Angleton began a paragraph-by-paragraph search of the constitution in his delaying fight against the bill.

Gov. Beauford H. Jester signed Senate bills 116 and 117 the last two in the series activating the Gilmer-Alkin school reform program. Jester's action made law of the minimum foundation bill by Senator Otis Lock of Lufkin and the financing bill by Senator A. M. Alkin Jr. of Paris.

Texas Grainmen Studying Plan For Storing Of Wheat Harvest

By The Associated Press
Texas grainmen studied today a plan by Secretary of Agriculture Brannan for storing the overflowing wheat harvest.

At Wichita Falls, County Agent Max Carpenter said the storage program will mean "very little" in that area.

PILOT OF CRASHED PLANE—Capt. Lee H. Wakefield (above), of Stamford, Conn., pilot of a passenger plane which crashed off San Juan, Puerto Rico, with heavy loss of life, was one of the survivors. Coast Guard headquarters in San Juan said that possibly 54 of the 81 persons aboard had died (AP Wire photo).

PILOT OF CRASHED PLANE—George S. Cary of West Hartford, Conn., was one of the pilots aboard the chartered airplane which crashed at San Juan, Puerto Rico. (AP Wirephoto).

Flares Used In Survivor Hunt

SAN JUAN Puerto Rico, June 8. (AP)—Searchers used flares this morning to scour murky, shark-ridden waters where a transport plane crashed yesterday. At least 54 of the 81 aboard are believed to have perished.

U. S. B-17 bombers dropped the flares to aid Coast Guard and Navy craft press the pre-dawn search for some 20 persons still missing.

MANY 'MOONS' OVER MANHATTAN ISLAND—Ten photoflash cartridges released by a B-17 during a night test of new photographic equipment by the U. S. Air Force illuminated a section of New York. Flashes of 50,000,000 (m) candlepower each resembled giant Roman candles and made it possible to produce a continuous strip of aerial photos at night.

Move Starts To Cut Off German Talks At Paris

Britain Withdraws First Team From Deadlocked Meeting

BULLETIN
PARIS, June 8. (AP)—U. S. Secretary of State Acheson demanded today that the Foreign Ministers Council fix a five-day deadline for a complete end to the blockade of Berlin, French sources said.

PARIS, June 8. (AP)—A movement to cut off the deadlocked negotiations on Germany and Berlin in the four-power Foreign Ministers' Council was reported gaining headway today in western circles.

The report, from a responsible western official, came as Britain temporarily withdrew her first team from the conference. British Foreign Secretary Ernest Bevin left by plane to attend a Labor Party conference at Blackpool, but was scheduled to return to Paris tomorrow.

Senate Refused New Building

WASHINGTON, June 8. (AP)—The House Appropriations Committee refused today to approve \$10 million for work on a new Senate office building but said the senators may buy new swivel chairs and refrigerators.

Big Spring Area Is Soaked Once More

Glasscock County Roads Blocked By Floodwaters

GARDEN CITY, June 8.—Torrents of water rolled off the slopes of northwestern Glasscock county this morning, blocking roads. The Shell camp was isolated until 10:30 a. m. by a rampaging creek.

Hill peppered a lush field of hay and hubam clover, ready for cutting. The Sam Ratliff ranch, also to the northwest, gauged three and a half inches.

Monday Garden City had received .6 of an inch. The western part of the county received no moisture, but the Watkins ranch reported half an inch.

Twister-Like Cloud Spotted South Of City

Garden City Isolated Temporarily in Wake Of Tremendous Rain

Storm happy Big Spring and area absorbed another soaking and electrical treatment Tuesday night.

Possibility that a twister may have dipped momentarily into the open range country to the southeast was raised by Mrs. Robert Arnold, Big Spring.

GILLILAND TO BE ATTORNEY

Sullivan Is Named New District Judge

Governor Beauford Jester today appointed Charles Sullivan to be first judge of the new 118th judicial district.

CHARLES SULLIVAN

ELTON GILLILAND

Seven Given Death

ATHENS, June 8. (AP)—A Greek military court today sentenced to death seven persons charged with assisting guerrillas through a Communist underground.

Crop Outlook Grim For Many County Farmers

The crop outlook is anything but rosy for many a Howard county farmer. In fact, most of them have reached the point where they wash the elements would relent for a while and let the sun shine.

The extended rains have forced some farmers to plant three and four times, however. In instances, that hasn't been enough.

Gilliland is now serving his first term as Howard county attorney, having been sworn into the post on Jan. 1 of this year.

Bill To Set Up 118th Judicial District Signed

Governor Jester Tuesday signed into law a measure which will set up the 118th judicial district.

The enactment of the measure (H.B. 379), authorized by R. E. Blount of Big Spring, will mean that Howard, Martin and Glasscock counties are in a new district.

Electra Controls Off

WASHINGTON, June 8. (AP)—Housing expediter Tighe Woods has ordered rent controls removed in the city of Electra, Tex. He announced the action yesterday, saying Electra's governing body had voted to decontrol rents there.

Food Index Declines

NEW YORK, June 8. (AP)—The Dun & Bradstreet wholesale food price index this week declined one cent to \$5.73 from a week ago, and was 19.4 per cent below the year-ago figure of \$7.11.

SAYS FEARS CONFIRMED

Lilienthal Hits At Atomic 'Smearing'

WASHINGTON, June 8. (AP)—David E. Lilienthal today protested that the congressional investigation of the Atomic Energy Commission is "smearing" people by "insinuating" the AEC chairman said he feared that when the investigation began, and his fears are "being confirmed" almost daily by what is transpiring.

Daniel To Probe 'Conspiracy' In Storage Of Grain

WACO, June 8. (AP)—The Texas Farm Bureau Federation says Atty. Gen. Price Daniel has promised to investigate federation charges of a conspiracy to deprive farmers of wheat storage space.

Reports of crop damage were negligible. Hall accompanied a hard thunderstorm at 5:30 p. m. Tuesday, but stones were comparatively small.

Mrs. Arnold said that the app her brother watched an ugly, pitch black cloud from U. S. 87 that were bound for Big Spring at 11:30 p. m. Monday.

"It was up in the sky," said Mrs. Arnold. "Then it dipped to the ground. We turned around, still watching. But it seemed to dissolve." At Forsan there were no reports of a twister, but hard showers of one inch that came with electrical flashes.

Coahoma had an inch of rain in a heavy midnight shower. Vincent, in the northeast part of the county, had an inch late Tuesday afternoon. Possibly heavy rains fell between there and Coahoma during the night, but this could not be confirmed.

Meanwhile, farmers in the belt stricken Monday night, surveyed hail and rain damage. Young crops were gone. A question mark hovered over older ones—punished by hail. It will be next week before farmers can once more return to planting in the sector from Moore and Fairview on the northwest eastward across the county and southward to Big Spring and Coahoma.

Employees of the AEC. "Case A" is the still unidentified man who prepares top-secret reports from the AEC to Congress. Hickenlooper has brought out that this man was once suspended because of "degenerate" information in a 50-page FBI security report.

As he did when Hickenlooper first mentioned the matter last Thursday, Lilienthal demanded that "Case A" be given a "preliminary" public hearing before the committee.

Second Probe Is Scheduled In Georgia Mental Hospital Case

MILLEDGEVILLE, Ga., June 8. (AP)—A second State Senate investigating committee prepared to step into the Georgia mental hospital crisis today.

One group said last night the far-reaching upheaval at the 10,000-patient institution probably resulted from a lack of experience on the part of the new superintendent, T. A. Dechman.

The 10-man social security board also was scheduled to meet at the hospital today to consider the red-hot issues. Gov. Herman Talmadge ordered the meeting. He said he was "not interested in personalities but in giving the best attention and services possible to the unfortunate inmates."

State Sen. Henry Williams of Baldwin County said a special Senate Welfare Committee would launch an exhaustive investigation of affairs and conditions at the hospital. He said the probe may take several days and will include testimony from hundreds of hospital employees.

"If conditions are such where 13 doctors can't work there, there must be a lot of other things that need attention," Williams added.

"We're going to find out what the facts are and bring them to the attention of the governor and the welfare committee. It is our duty to let the facts be known, and when they are known we can expect action from either the governor or the general assembly."

Another Senate committee visited the hospital yesterday and reported Forrester "probably made a mistake" in appointing Dechman May 1 to head the huge mental hospital.

The three-man group said Dechman, a federal official for many years, "is not qualified for the position due to his lack of previous training."

Headed by Senator-physician W. R. McCoy of Folkston, the committee blasted Dechman's action in removing nurses, attendants, therapy and other functions from control of the doctors. The members termed it "illogical and impractical."

Slain Rancher Said To Have Been Intoxicated

RIVERSIDE, Calif., June 8. (AP)—Wealthy John E. Owen was "under the influence of alcohol" the night he was killed, a pathologist testified at the trial of Mrs. Agnes Garnier, charged with murdering her boss.

Dr. Cecil F. Baisinger, who performed an autopsy on the body the day after the shooting April 22, so told the court yesterday.

The name of actress Irene Rich did not come up in the opening day's testimony. Earlier, Mrs. Garnier, 33, who managed Owen's apartment properties in Los Angeles, told police the shooting stemmed from an argument over a set of cocktail glasses Miss Rich had given Owen, 68.

Pete Corales, caretaker of Owen's nearby ranch where the shooting occurred, testified he had never seen his boss drunk. He told the court that the night of the slaying Owen telephoned his quarters and asked him to drive Mrs. Garnier back to Los Angeles.

When he arrived at the main

ranch house, he said, Mrs. Garnier greeted him with: "I've just shot the boss." He described Mrs. Garnier as "very calm-very cool."

Mrs. Edna Austin a maid testified that on the afternoon of April 22 Mrs. Garnier told her "Mr. Owen is drunk. I want to go home."

Mrs. Austin said she couldn't tell whether Owen was drunk.

She said further that she overheard him and Mrs. Garnier having an argument and heard the word "gun." Shortly afterwards, she added, she heard a shot fired.

Next, she said, she was confronted by Mrs. Garnier, who said, "I just shot Mr. Owen. He tried to shoot me. I shot him."

FIGHT SPECTACULAR FIRE—Firemen struggle to control flames spreading from a fire in 8,000 gallons of chemicals at Bell Avenue and 35th street in Chicago. Roaring flames spread from chemicals to a railroad oil tanker and threatened adjacent coal yard before being controlled. A blast in a storage shed of an oil company started the fire. (AP Wirephoto).

NEW SUSPENSION BRIDGE TOWER IS BADLY DAMAGED BY BLASTS, FIRE

TACOMA, Wash., June 8. (AP)—Explosions and fire early today seriously damaged a 512-foot tower nearing completion for a new suspension bridge across Tacoma Narrows.

Exploding oil and gasoline drums and the leaping flames were heard and seen for many miles around. Residents termed the fire, which consumed building scaffolds up to the top of the steel and concrete structure, the most spectacular in this area in many years.

Tom Martinsen, resident engineer for the Bethlehem Pacific Steel Construction Co., said that if the intense heat buckled the lower steel sections the entire tower might have to be rebuilt.

The \$13 million span is to replace the original bridge which toppled into the Narrows during a storm Nov. 7, 1940. A saddle was knocked off the east tower of the new structure in a recent earthquake.

Martinsen said the fire may cause several months' delay in finishing the bridge.

Construction men said the cause may have been a hot rivet dropped into a creosote-soaked river mat at the tower's base. A work crew left the tower yesterday at 5 p. m. The fire was noticed about 11:45 p. m., some five hours after a fire

rows.

Damage to the West tower on the "jinxed" highway crossing from Tacoma to the Olympic Peninsula was estimated at \$400,000 or more.

The young actress, listed as 21 but who says she's actually 17, recently had her driver's license suspended for cracking up two expensive cars.

She told the court yesterday: "Honest to gosh, I'm going to be a good girl this time."

patrol had inspected the pier.

Martinsen and Charles Brooke, operator of a steamboat used by the construction company, dumped some gasoline drums from the base of the pier but were driven away by explosions and the heat.

Several hours after it started the blaze was dying out but wooden scaffolds at the 450-foot level were still burning. They were out of reach of any firefighting equipment.

Odessans To Ask Reinstatement Of Police Chief

ODESSA, June 8. (AP)—An "Odessa Taxpayers League" meeting voted last night to ask the city council to reinstate S. O. Hamm as chief of police.

Hamm was fired a week ago by the council in a closed meeting. The council said then he was discharged because he "wasn't running the department efficiently."

About 300 persons attended the meeting last night, though all of them didn't vote. Sixty-seven favored asking the council to reinstate Hamm; 22 opposed it in a standing ballot.

The league had invited members of the council to appear and say why Hamm was fired.

Two of them were there, O. V. Alexander and E. C. Bunch, but they didn't go into the reasons.

Both had voted against Hamm in the council. Earlier they, Mayor A. P. Brown, and Councilman Rex Rogers had told the league to come to the council session tomorrow to learn why Hamm was fired.

The league, formed this week, is headed by Mrs. Roy Downs.

USDA Will Hold Farmer Referendum On Crop Controls

WASHINGTON, June 8. (AP)—The Agriculture Department has set July 23 as the tentative date for a nation-wide farmer referendum on rigid production controls for the 1950 wheat crops.

Final decision on whether controls will be proposed by Secretary Brannan awaits an estimate of this year's wheat crop, to be issued by the department's crop reporting board Friday. The purpose of controls would be to keep supplies from becoming too large and too depressing on grower prices.

If the estimate indicates a crop of more than 1,300,000,000 bushels, the secretary is expected to take formal action setting up marketing quotas on next year's crop. A month ago the crop was forecast at about 1,312,000,000 bushels. Reports indicate that it has made favorable progress in the meantime.

Quotas would have to be approved by at least two-thirds of the growers voting in the referendum.

The department has notified its field workers that the referendum will be held July 23 if marketing quotas are proclaimed by the secretary.

More than 1,500,000 wheat growers would be eligible to vote. Orders have been placed for printing of ballots and other printed materials needed in connection with the election.

Houston Hotel Man Cuts Own Throat

HOUSTON, June 8. (AP)—A Houston hotel manager killed himself with a butcher knife yesterday while two people watched.

Miss Lena Blair, 57, hotel housekeeper, said Manager Carl Reichardt "raised his chin and started sawing on his throat" after borrowing the knife from her.

Justice of the Peace W. C. Reagan returned an inquest verdict of suicide. He said he was unable to find out why Reichardt killed himself.

Y-RC Swimming Classes Will Get Under Way Today

YMCA-Red Cross swimming classes for beginners will get underway at 9 a.m. Wednesday at the city swimming pool.

Bobo Hardy, who will be in charge of the swimming classes, said that the intermediate swimmers would start their classes at 10:30 a.m. Those able to swim across the pool will be classed as intermediates—those of lesser ability as beginners.

There will be no charge for instruction. Only cost is for pool fees.

Red Cross life saving classes will be offered starting Wednesday at 6 p.m. with Olen Puckett and Burl Haynie as instructors. It will run continuously for 10 days, Sunday excepted.

Hardy said that a class for women's beginners will be started Monday at 6 p.m. For mothers of children entered in the morning classes, a special beginner class will be arranged if there is sufficient demand, said Hardy.

Initial swimming classes will operate for 10 lessons, terminating June 29. A class for advanced and intermediate swimmers will start July 16, being climaxed in August with a water carnival.

Those interested in participating are asked to call the YMCA or to report at the pool at the hours listed on Wednesday.

Assisting in swimming instruction are W. C. Blankenship, Jr., Bobby Hoberg, Barbara Moore and Hugh Cochran.

300 PERSONS TESTED

Knights Of Pythias Offer Blood Service

Blood type and Rh factor of some 300 persons have been determined and recorded in a free service sponsored by the Knights of Pythias.

Typing was done by Carl Gross, technician at Malone and Hogan hospital and vice chancellor of the K. of P. Blood type of each person tested has been cross filed alphabetically and according to classification.

"When blood type and Rh factor are known prompt treatment can be rendered in emergency cases," Gross stated. "Delay, caused by the lack of a supply of the proper blood, can lead to death."

As planned, the typing service would fill the need for this information as well as make known the blood type of any person needing transfusion.

Records of all blood types taken have been made available to all local hospitals. Cards listing blood type and Rh factor have been given those cooperating in the program.

A blood bank started by the Kiwanis club about six years ago is also available for emergency treatment in local hospitals. Started with 12 pints of blood in 1944, the bank now has plasma deposits in each of the Big Spring hospitals.

"Plasma is used only as a temporary measure," however," according to Dr. R. B. G. Cowper. "The Rh factor does not have to be known in order to use plasma, most commonly administered in the treatment of shock."

The blood bank was started when 12 members of the Kiwanis club each donated a pint of blood which was processed by the William Buchanan Blood and Plasma center in Dallas. The blood was returned as plasma to local hospitals.

The Kiwanis club paid the cost of processing the raw blood. The bank has been kept up through replacements by users of the service, Dr. Cowper said. Plasma remains stable for a period of five years.

The typing service of the Knights of Pythias is not now being conducted due to an apparent lack of interest on the part of the public, Gross indicated.

"I feel sure that the organization will again sponsor the service if it is desired," the vice chancellor declared.

5 doctors prove this plan breaks the laxative habit

If you take laxatives regularly—here's how you can stop!

Because 5 New York doctors now have proved you may break the laxative habit. And establish your natural powers of regularity. Eighty-three per cent of the cases tested did it. So can you.

Stop taking whatever you now take. Instead, Every night for one week take 3 Carter's Pills. Second week—one each night. Third week—one every other night. Then—nothing! Every day drink eight glasses of water; not a definite time for regularity.

Five New York doctors proved this plan can break the laxative habit.

How can a laxative break the laxative habit? Because Carter's Pills "unblock" the lower digestive tract and from then on let it make use of its own natural powers.

Further—Carter's Pills contain no habit-forming drugs.

Break the laxative habit... with Carter's Pills... and be regular naturally.

When worry, overeating, overwork make you irregular temporarily—take Carter's Pills temporarily. And never get the laxative habit. Get Carter's Pills at any drugstore for 19¢ today. You'll be grateful the rest of your life.

The new home of "Lubri-tection"

AN INVITATION to visit America's newest and most modern motor oil plant

There are going to be "big doings" at Kansas City, Kansas, June 21st and 22nd, when Phillips' great new motor oil plant holds "open house" for American motorists.

You and your family and friends are invited, if you can possibly be there.

There'll be guided tours and refreshments, and you'll get an exciting "eye-ful" of what Phillips has done to make possible finer lubricants for today's cars.

You'll see motor oil scientifically packaged by new precision methods. You'll be thrilled by new high speed conveyors and miraculous new machines that turn out up to 250 cans of oil a minute. You'll see special automatic blenders that maintain exact standards of uniformity and purity.

Come and see this new home of "Lubri-tection", where Phillips blends finer motor oil to give your car lubrication plus engine protection. Remember the dates . . . June 21st and 22nd . . . at Kansas City, Kansas. Any Kansas City Phillips 66 Dealer can give you directions for reaching the plant.

P. S. If you can't be in Kansas City June 21st or 22nd, why not pay us a visit the next time you're in our part of the country? You'll always be welcome!

Lubricate for safety every 1,000 miles

NEW YORK, June 8. (AP)—Police have ordered a halt in picketing of AFL Longshoremen's headquarters which led yesterday to a brief but violent street battle.

Clay Invited To Visit Lake Texoma

DENISON, June 8. (AP)—Gov. Lucius D. Clay, retired U. S. military governor in Germany, was invited Tuesday to visit Lake Texoma which he helped build.

Medical Student To Supervise Boys' Camp

A medical student will spend the summer at the Buffalo Trail Scout Ranch, R. J. Kneidl Sr., health and safety committee chairman, has announced.

Harry H. Tompkins, a junior student at Southwest Medical school, Dallas, is due to arrive at the camp on June 8.

As a result, police banned further picketing by a group which for 13 weeks has been parading outside the union office in protest against alleged union discrimination against Negro members.

Joseph P. Ryan, president of the AFL International Longshoremen's Association, has called the picketing "Communist inspired."

At the end of the fight, Ryan led his supporters to a nearby park where Patrick F. Brown, commander of the Rhineland American Legion post, praised the men for their "spirit of Americanism."

Handing of cargoes for 19 ships at Manhattan piers had been halted during the battle.

DOUBLE PINCH ADMINISTERED

MEMPHIS, June 8. (AP)—A shoe salesman administered a double pinch to his customer. Police said the salesman became suspicious when the customer presented a \$120 government check to pay for a pair of shoes.

LONGSHOREMEN GET POLICE HEAVE-HO—Police grapple with rival longshoremen during a melee in front of the International Longshoremen's Association headquarters in New York.

JAMMING BECOMES INTENSE

Soviets Pay Price For Radio Victory

WASHINGTON, June 8. (AP)—Russia apparently has won the first major stage in its "radio war" with the United States and Britain.

State Department officials said today Russian jamming is now so intense that American and British official news broadcasts are able to pierce the screen of interference "only in spots."

Officials said this has crippled "substantially" Moscow's own domestic programs and has reduced the floor of Soviet propaganda to foreign listeners.

Both the State Department and the BBC are trying out new tricks in the conflict, which is without precedent.

Previously, Americans in Moscow had reported that the Russians apparently were tuning many of their five million short wave receiving sets to the "Voice" and BBC programs, despite the official Soviet claim that they were untruthful.

Russia has continued the jamming despite both direct official complaints and a formal protest filed by the State Department last April 30 with the International Telecommunications Union at Geneva.

Robstown Refinery Tower To Be Rebuilt

ROBSTOWN, June 8. (AP)—Three-fourths of a cooling tower damaged by fire at the Chicago Corporation's coastal refinery will be rebuilt.

Robstown and Bishop firemen saved about a fourth of the tower. They fought the fire about three hours Monday.

CHARGE IS 50 CENTS PER MONTH

City Residents Get Big Bargain In Garbage Pickup And Disposal

It may not be "something for nothing" but garbage pickup and disposal is probably the biggest bargain Big Spring residents get regularly.

For 50 cents per month, slightly more than four cents for a single collection, local householders are relieved of almost 50,000 cubic yards of trash and garbage annually, according to figures released by City Manager H. W. Whitney.

Collections are made twice weekly in residential areas, while six pickups are made each week in the business sections, the city manager stated.

A city ordinance provides that "owners, occupants, tenants, or lessees shall provide a container for containers for garbage or not less than ten nor more than 30 gallons capacity, constructed of galvanized metal or other approved material, with a tight-fitting lid or cover and with handles sufficiently strong for workmen to handle conveniently."

"Such containers have not been available since the war and many persons have been using 35 gallon oil drums," the city manager said.

As a sanitary measure in garbage disposal the city DDT fog machine and three men with hand sprayers are covering alleys and the inside of garbage cans to control flies, mosquitoes, and a possible polio outbreak.

The failure of residents to secure uniform containers that meet the requirements of city law is probably the biggest problem faced in providing the most efficient and sanitary disposal of waste, Whitney asserted.

The cost of garbage disposal for the entire city will exceed revenue for that purpose by almost \$5,000 for the current fiscal year.

is sprayed whenever there is any indication of flies or other insects. "Every citizen of Big Spring should regard the area around his garbage can as his own particular responsibility and try to eliminate fly and mosquito breeding places," Whitney suggested.

It is estimated that cost of garbage disposal for the entire city will exceed revenue for that purpose by almost \$5,000 for the current fiscal year.

Cost of the program for the year is forecast as \$36,728 while revenue, based on the present number of customers, is to be only \$31,000.

Florida Governor To Take Third Wife

LOS ANGELES, June 8. (AP)—It will be a June wedding among Southern California orange blossoms for Florida's governor.

Gov. Fuller Warren's engagement to Miss Barbara Manning, blue-eyed, blonde Los Angeles socialite, was announced yesterday by her mother, Mrs. Ward Plunkett.

It will be Warren's third marriage and the first for Miss Manning, 23.

The pair met last September at a party when Warren, no relation to California Governor Earl Warren, was here on a citrus inspection tour.

Educators Would Bar Reds From Profession

WASHINGTON, June 8, (U.P.)—Twenty-two fight educators—including Gen Dwight D. Eisenhower and Harvard President James B. Conant—said today Communists should be barred from the teaching profession.

They agreed too, that principles of Communism should be taught—but not advocated—in American schools.

Charge that Communist membership "renders an individual unfit to discharge the duties of a teacher in this country" was described by a National Education Association official as the most outspoken statement on that subject ever made by an education group of nationwide standing.

Eisenhower, now president of Columbia University, Conant, and 18 fellow members of an Educational Policies Commission, made their observations in a 54-page report on "American Educational and International Tensions."

The commission was appointed by the National Education Association and the American Association of School Administrators.

Its purpose was to study the teaching changes that might be advisable in view of political tensions that may "keep the world in a state of cold war for years to come."

"The commission listed these 'main lines of strategy' for American education:

1. "Young citizens should have an opportunity to learn about the principles and practices of totalitarianism, including those represented by the Soviet Union and by the Communist Party in the United States. The study should be accurate and objective, and should make use of basic official documents."

2. "Teaching about communism or any other form of dictatorship does not mean advocacy of these doctrines. Such advocacy should not be permitted in American schools. While we expose and combat subversive activities in this country and abroad, we must at the same time curb reactionary forces which would use anti-communist sentiment as a club to threaten every effort to improve society through education."

3. "The schools should continue with vigor their programs for giving young citizens a clear understanding of the principles of the American way of life and a desire to make these principles prevail."

4. "Members of the Communist Party of the United States should not be employed as teachers." The commission condemned the

careless and unjust use of such words as "Red" and "Communist" to attack teachers and others whose views differ from those of their accusers. It added:

"Communist membership involves adherence to doctrines and discipline completely inconsistent with the principles of freedom on which American education depends."

"It is because members of the Communist party are required to surrender the right to think for themselves, and that they are becoming part of a movement characterized by conspiracy and calculated deceit that they should be excluded from employment as teachers."

The commission said that "in the years just ahead it will not always be easy to teach such things" as responsible action regarding international commitments, or the fact that it is "deeply patriotic to attempt to protect one's country from the calamities of war."

"There are individuals and organizations in the United States that appear to believe that to teach young people about any other country—especially anything favorable about any other country—is somehow disloyal, or at least naive," the commission said.

"Textbooks and teaching aids containing such materials run the risk of being banned from the classroom and the school library."

"Yet if the schools fail to provide such instruction, the education of American youth will be incomplete to the point of national danger."

DENTAL DILEMMA ENLIVENS TRIAL

LONG BEACH, Calif., June 8. (U.P.)—State Dental Investigator Harold Gilbert didn't want to gum up the trial. But he wasn't anxious to gum his food, either.

So Municipal Judge Martin De Vries ruled that he could keep his teeth during the night and turn them in as evidence today, after breakfast.

The dental dilemma occurred during the trial of F. B. Sheldon on two misdemeanor counts of violating the Dental Practices Act and the business and professional code.

Attorneys for Sheldon, who had worked on Gilbert's plates, demanded that they be placed in evidence. Judge De Vries gave Gilbert until today to fill up on solid food.

DESERTS HUNTED COMPANIONS TO SURRENDER—Arthur Bistrom (left), 37-year-old former St. Paul, Minn., taxi driver, wanted with his brother and another man for killing a Minneapolis policeman, talks with Clifford Smith, head of the Minneapolis homicide squad, after surrender to the sheriff at a farm 14 miles from West Point, Neb. The three men, object of a wide spread search from air and ground, took six hostages during their flight. The other two, Carl Bistrom, 27, former convict, and Allen Hartman 20, held a farm family captive for 10 hours. The other two surrendered near Fairbury, Neb., on the Kansas line. (AP Wire-photo).

Two Gunmen Recovering From Car Crash Injuries In Kansas Hospital

MARYSVILLE Kan. June 8. (U.P.)—Two injured gunmen accused of murder and kidnaping were reported in satisfactory condition today at a Marysville hospital.

The men were seriously injured yesterday when their automobile crashed into a creek bank near Washington, Kan. Until the accident, they had eluded officers of five states for 72 hours.

The two are Carl Bistrom, 27-year-old ex-convict, and Allen G. Hartman, 20, both of St. Paul, Minn.

Arthur Bistrom, 37, a third member of their group, surrendered Monday night at West Point, Neb. The Bistroms are brothers.

The trio had been sought since Saturday in the killing of Fred Babcock, Jr., a Minneapolis suburban

police officer. During their flight they kidnaped six persons.

Arthur Bistrom gave himself up at a farmhouse where the three had retreated in Nebraska. The other two continued their flight into Kansas. They picked up a hitchhiker, identified as Bill Beatty, Jr., of Tekamah, Neb., on the way.

When their automobile hit a creek bank Bistrom and Beatty were knocked unconscious. Hartman, also injured, was able to reach a nearby farm house. The house belonged to C. H. Smith brother of Washington County Sheriff Bill Smith.

Officers were called and the men Bistrom and Hartman are being kept under constant guard.

"Big Spring's Favorite Department Store"

City Once Had More Bourbon Than Beans

"More saloons than grocery stores." This is the cryptic sentence used by one Howard county pioneer in recalling the Big Spring of the 19th century.

Those who came to Howard county --- or were born here --- 40 years ago and longer, still are submitting names for a "big spring centennial" year roster. Old-timers whose residence dates back to 1909 and before are invited to send in coupons together with any remarks they might care to make.

Names recently received: Mrs. G. W. Overton, 1891; A. E. Prichard, 1895; Mrs. S. James, 1896; Joe S. Tuckness and G. W. Overton, 1903; Fannie Stephens, 1904; Mrs. Cressie Watkins and Mrs. Frances Sneed, 1905; Mrs. Mild Smith and J. B. Sloan, 1907.
