## State Capital News

By Vern Sanford

One day after receiving a 40-year service award from the Texas Highway Commission, State Highway Engineer Dewitt C. Greer announced his retirement.

Greer reached the mandatory retirement age of 65 on July 27. He had agreed, at the behest of the commission, to stay in the job until the end of the year.

Gov. Preston Smith, acting as governor while Connally hunts in Africa, called on Greer at his office to present him with a framed copy of a proclamation making Aug. 4 "Dewitt C. Greer Day" in Texas.

A celebration commemorating the Highway Department's 50th anniversary is slated for Sept. 26. A highlight of the celebration will be presented to Greer of funds donated to endow in his honor a lectureship at the Texas A & M Civil Engineering Department.

Greer, a graduate of A & M, went to work for the Highway Department in 1927 and became its top administrator in 1940. During his tenure as chief engineer, Greer has supervised the investment of more than \$1,000,000 in a highway system that has grown from 20,359 miles to more than 68,000 during the past 27 years.

A former president of the American Association of State Highway Officials Greer now serves on the organization's executive and legislative committees and has received its two highest honors for contributions to highway progress. In 1965, Texas Christian University made him an honorary Doctor of Laws. Texas A & M gave him its Distinguished Alumni Award in 1966.

**SUCCESSOR NAMED**—Succeeding Greer on Jan. 1 will be State Highway Engineer J. C. Dingwall who has been with the department since 1958 except for the World War II years when he served in the U. S. Army Corps of Engineers, and four years he spent as engineering manager of the Texas Turnpike Authority, supervising the financing, design and construction of the \$38,000,000 Dallas-Fort Worth Turnpike.

Dingwall served as the department's supervising urban engineer in Houston, overseeing construction of the Gulf Freeway—the first major freeway built in Texas. He has been assistant state highway engineer since 1968.

In other highway activity, Hal Woodward of Coleman was sworn in as chairman of the Highway Commission, and Herbert C. Poiry Jr. of Carrizo Springs took the oath to begin an unprecedented third six-year term on the commission in 1965.

**AGENCIES**—A deed has been signed by the School Land Board giving the United States the minerals under 47,895 acres in Guadalupe Mountains National Park.

Two days of hearings, Oct. 17, 18 have been scheduled by the Texas Water Rights Commission on proposed cancellations of unused water rights for diversion of water from the Rio Grande, indicating that the commission will apply the newly passed Water Rights Adjudication Act to Rio Grande rights first.

Water Rights Commission has found that directors of Brazoria County Water Control and Improvement District No. 8 have failed to comply with the law by appointing directors to fill vacancies for which there is no unexpired term of office; by not holding annual elections for directors; by assessing taxes which are not equal and uniform; by not appointing a

board of equalization; by collecting too much from the district for services and expenses; and by not calling a special election to fill vacancies.

Board of Insurance put the new driver penalty point system into effect on Aug. 1. By levying \$6,439,362 in penalties on drivers who had wrecks or serious traffic offenses during the year just ended, the board was able to cut average rates by one per cent.

Texas Employment Commission reports that a total of \$8,300,000 in unemployment insurance insurance benefits was paid to eligible claimants in Texas during the April-June quarter.

**PRICE-FIXING SUIT**—State of Texas has filed a price-fixing suit against five big drug firms.

Suit, entered in federal court in Dallas by Atty. Gen. Crawford C. Martin, seeks triple damages totaling about \$12,000,000 from the producers of amphetamine products. Drugs involved are used to treat both human and animal diseases and as animal feed supplements.

According to Martin, the federal government already has an anti-trust suit pending against the same firms: Charles Pfizer and Co., Inc., American Cyanamid Co., Bristol-Myers Co., Olin Mathieson Chemical Corp., and the Upjohn Co.

Martin alleges that the drug manufacturers charged state and local governments "unreasonably high" prices for the antibiotics through a conspiracy to limit their manufacture and sale. Furthermore, the attorney general contends, the firms' actions inflated prices to retail druggists, wholesalers, private hospitals and the consumer.

Martin estimated more than \$3,000,000 has been spent by state and local governments alone between November, 1963, and November, 1966, to buy antibiotics for use in public-supported hospitals, schools and other institutions and health or welfare programs.

Other states are contemplating similar suits, Martin said, and state attorneys general will discuss the case at their conference in Portland, Ore., on Aug. 29.

**HEALTH GRANTS SOUGHT**—Seventy-eight health facilities have applied for federal Hill-Burton construction grants of more than \$34,500,000, about twice as much as is expected to be available for Texas.

New 1968 Texas State Plan for Construction and Modernization of Hospitals and Related Medical Facilities now is available for review at the State Department of Health.

Hill-Burton Act provides funds to help finance construction and modernization of general hospitals and long-term facilities, diagnostic or treatment centers, rehabilitation facilities, tuberculosis hospitals and public health centers.

Dr. J. E. Peavy, state commissioner of health, said the 1968 plan indicates ever-increasing use of health facilities.

**ATTORNEY GENERAL RULES**—Attorney General Martin has ruled that:

Personal car mileage and meals during travel on official business, office rental and parking space fees are among legal expenses which legislators now can charge to the state under their \$1,000-a-month expense allowance.

Counties now are required to pay the fees of lawyers appointed to represent juveniles in proceedings to determine whether they will be tried as adults.

County tax assessors are not authorized to require a taxpayer to use the tax rendition forms they prescribe.

## GRAY COUNTY AGENT AT CONVENTION

Gray County Agricultural Agent Foster Whaley and his assistant, Ben Johnson, attended a three-day state convention of Texas county agents in Amarillo.

Whaley, a past director of Texas County Agents Agricultural Association, is a member of the convention executive committee. Other committee members are Elwyn Dysart, the association's vice president; Gaines Franks of Amarillo, District I director; and John Brazzil of Canyon a past director.

Dr. M. L. Upchurch of Washington, administrator of the Economic Research Service of the U. S. Department of Agriculture, was a featured speaker.

Guest speaker for the annual awards banquet Tuesday was Ben Barnes of DeLeon, Speaker of the Texas House of Representatives.

Dr. James P. Cornette, president of West Texas State University, was a speaker for the luncheon.

## Local Man's Brother Buried, Wellington

## COOPER'S FOOD MARKET BURGLARS DAMAGE SAFE

Coopers Food Market was again broken into last Friday night. Entry was gained by forcing open a door at the rear of the store.

The break-in was not discovered until the store was opened Saturday for business, Mr. Cobank reported.

He stated that this was the fifth break-in the store has had. No money or merchandise was reported missing in this break-in. The door of a heavy safe was pried in an attempt to open the safe, using tools they found in the store.

Deputy Sheriff Jimmy Shelton investigated the break-in. No suspects are reported at press time.

Mr. and Mrs. L. C. Bailey and family of Pampa visited in the E. M. Bailey home Wednesday.

## News From The LIBRARY

The summer reading course came to a close Thursday (today) at McLean Lovett Memorial library with a good attendance at the last meeting.

Linda Melton, who is serving as youth director at the First Baptist Church this summer, told the stories.

A total of 32 certificates were awarded to boys and girls who read the required number of books this summer.

Guy Bensley, librarian, takes this means to send a special "Thank You" to everyone who helped with the summer reading program.

Here are some outdoor facts of interest.

Biologists say a young cottontail rabbit has only one chance in 20 of reaching its first birthday. But there are plenty of rabbits to go around.

An elephant can submerge and tread the bottom of a river as long as it can push its trunk out of the water.

Ever wonder how a bird sees so well? Its two eyes often weigh more than its brain.

Science has discovered that honey bees look first for the color of the flower, then for the scent, before they take the nectar.

Keep your hooks sharp. Always have a small hook handy in your tackle box. Pulling lures across rocks dulls hooks fast.

Bass fishermen would do well to take a crappie rig along, especially in the poorer fishing weather. Gear might include small crappie jigs or a rig with a snelled crappie hook and sinker. Then you can convert to pan fishing most any time the bass quit biting.

Night fishermen do better when they move their light out a little distance from the boat. This is done easily by using a piece of plywood fastened to an inflated inner tube. Anchor the lantern on top of the board and let it float.

Need a safe rod holder on your boat? Get a piece of plastic hose, like that used in sprinkler systems—or a piece of radiator hose—large enough to take your rod handle. Fasten it to the side of the boat and

place the rod handle inside. It works fine.

Always keep your stringer tied short enough so that it won't get in the way of the prop when you start your outboard motor, or when trolling. Many line stringers of fish have been lost because a stringer was severed by a prop.

If your boat doesn't have loops to attach minnow buckets or fish stringers, get a few eye-hooks and put them through the gunwale. Just be sure you file the outside threads smooth.

Every year some fisherman loses a motor in the water because he forgot to use a tie-down chain or rope. Be sure every time you hang your outboard motor on the transom that there is a chain or piece of rope linking the motor to an eye-bolt on the transom. A motor at the bottom of the lake is useless.

You can make an easy plug knocker by using a six-inch length of garden hose. Silt it unevenly. When your plug hangs, slip the piece of hose over the line and let it down. Usually, if your line isn't wrapped, the weight of the hose will knock the lure loose.

Protect your rods. Carry them in metal rod cases. Cases are cheap and are good insurance. Rod makers will tell you that more rods are broken by car doors, or careless handling, than by fish.

Need a cheap tackle box for the boat? Get one of those old gas mask bags from an Army surplus store. They cost only about 50c and are ideal for or boat.

## DEADLINE SET FOR USE OF MICR CHECKS

Federal reserve officials in Dallas announced that effective September 1, the reserve banks will no longer process checks which do not carry the magnetic ink symbols of the writer's bank.

They pointed out the 86 percent increase in check volume since the start of the Magnetic Ink Character Recognition Program eight years ago and to the fact that more than 1.1 million checks are being handled daily at the four offices of the Federal Reserve Bank of Dallas.

High-speed computers are being used to sort checks at more than 60,000 per hour, but these computers require the magnetic ink symbols in order to function. Federal officials point out that checks without the symbols must be handled on low-speed machines and that only 15,000 per hour can be accommodated on such machines.

Of prime importance to the general public is the proposed withdrawal of counter checks and changed checks. Banks are co-operating fully in preprinting their transit symbols on checks they provide for their customers. However, some stores, churches and other organizations, provide counter drafts which bear on magnetic ink symbols.

The new restriction on handling nonpreprinted checks will mean slower collection for this type of check and a much more costly collection process. In effect, the nonpreprinted check will be handled as a noncash collection, meaning that credit cannot be given the receiver of the check until it has been completely processed through the drawer's bank.

## McLean Youths Planning Retreat

The intermediates and young people of the McLean Baptist Church are planning a retreat at Panfork encampment grounds, near Weatherford, August 11-12.

Two young men will lead the retreat, Johnny Hoggatt of Headley and Benny Kilgo. The program will have two services, a campfire and a sun rise service plus swimming and recreation and eats.

Any interested young person may contact Miss Linda Milton for information.

## Alanreed Students Will Register 28th

The Alanreed School will hold their school registration, August 28 at 8:10 a.m.

The teachers this year will be Mrs. Lopez Hauck, Mrs. Rose Hall and Miss Carolyn Bell. There will be a teacher meeting August 25.

Because classes will start in McLean August 28, the Alanreed School buses will run as usual.

Adra Myatt of Pheren, Iran, and Larry Herring of Washington, D. C., visited the former's grandmother, Mrs. C. A. Myatt, Thursday night.

## AMENDMENTS PUBLISHED

Appearing this week in the McLean News will be two of the six amendments, four and six, that are to be voted on November 11. The other four amendments will appear in other papers in the county.

Following is a brief summary of the six amendments.

**No. 1, House Joint Resolution 3**, to permit counties to put all tax money in a single general fund rather than dividing income in specified amounts among separate funds for earmarked purposes as is now required.

**No. 2, HJR 37**, allowing cities and other governmental units within hospital districts to levy taxes for participation in mental health and mental retardation community centers.

**No. 3, HJR 17**, reviving the veterans land program and authorizing a total of \$400,000,000 in bonds to finance continued purchase of farm and ranch land by veterans, including those who have served in Southeast Asia during the present hostilities.

**No. 4, HJR 6**, authorizing counties to pay medical, doctor and hospital bills of county law enforcement officers injured in line of duty.

**No. 5, HJR 12**, authorizing a \$75,000,000 state revenue bond issue for the development of state parks and recreational areas. Bonds are expected to be financed by a small admission fee.

**No. 6, HJR 27**, permitting state officers and employees to hold non-elective positions under the state or U. S. governments without there is no conflict of interest and where the state might benefit.

Mr. and Mrs. James Stewart and James Jr. of Amarillo visited Sunday with Mr. and Mrs. F. E. Stewart and Mr. and Mrs. Truitt Stewart and daughters.

### Stamps Reunite Soldier and Wife

A Perryton woman, Mrs. Donna Lile, soon will be making a trip to see her soldier husband, Pfc. Larry Lile, through the courtesy of Gunn Brothers Trading Stamps and stamp savers in the Texas Panhandle area.

The unusual story began when husband Larry, stationed near Saigon, Vietnam, learned that he will be having a leave in Hawaii some time in August. He wanted Donna to come and share the leave with him.

"I just had to find a way to see Larry during his leave," Donna said. "We've been married 13 months and he's been in Vietnam for seven of them."

She found the way by writing to Gunn Brothers in Amarillo to learn if stamps could be traded for air fare to Honolulu. They could. And the word started to spread that Donna and Larry needed trading stamps.

From throughout the Texas Panhandle, friends and relatives began to send stamps and books of stamps to Donna. Now, the trip is assured. Donna leaves Aug. 14.

Larry is a graduate of Booker High School, Booker, where he was a member of the state champion relay team. Before his induction into the army in July, 1966, he was a student at Oklahoma Christian College in Oklahoma City.

Donna is a graduate of Perryton High School. Later, she attended Amarillo College of Hairdressing and now works as a beauty operator in Perryton.

### THE FAMILY LAWYER

#### 'Shrapnel' Form Tires

Speeding along a gravel road, a motorist drove over a little pile of loose stones. One of the stones squirted sideways, crashed through the windshield of an oncoming car, and injured the other driver.

After litigation, the first motorist was held liable for the misdeed. The court said that, in view of his speed and the condition of the road, he should have foreseen the likelihood of hurling "shrapnel" from his tires.

The case illustrates an important principle: a motorist must be alert not only to the general danger of collisions but also to the special dangers that arise from the speed, weight, and makeup of the car.

Here is how legal liability resulted when a care became:

(1) A booby trap—a man left his old jalopy, with gasoline still in the tank, on a vacant lot where children often played. One day a boy clashed two rocks together near the opening of the tank causing a spark that set off an explosion. For the resulting injury to the boy, the car owner had to pay damages.

(2) A battering ram—a man parked his automobile on a slope, pulling his brakes only half tight. In his absence the car began rolling downhill, and finally crashed through the plate glass window of a store. Here, too, the motorist was held responsible.

(3) A bone crusher—picking up a neighbor's small son, a motorist slammed the door shut without warning—and without giving the child enough time to get his hand out of the door's way. Result, broken bones, and legal liability imposed on the motorist.

(4) A heart stopper—rounding a corner, a man drove straight at a woman pedestrian crossing the street. Although he did manage to stop just in time, the woman fell down in sheer panic, suffering painful injuries. Again liability for the motorist. As one judge warned, in describing the rights of the pedestrian: "His right-of-way is not to be measured in fractions of an inch nor tested by split seconds. He is entitled not to just as much space as his body, clothes and buttons require, but to as much as will afford him a safe passage. The pedestrian's heart as well as his body, should be free from attack."

In short, today's automobiles can play many roles in inflicting harm. The car owner bears a responsibility that is not only heavy but diversified as well. It is the law's way of facing up to the less pleasant realities of the automobile age.

### For And About Teenagers

**THE WEEK'S LETTER:** "I am fifteen and I am going with a boy who is fifteen, but not for long. He says he is going to break up with me and I don't know why. We've been going together for a year and a half. In that time, we broke up twice but we've always gotten together again. About a week ago he said he really liked me. I can't understand how he can change his mind so quickly. Do you think he will? Will we get back together again?"

**OUR REPLY:** If you have broken up twice, you will probably break up again—and get together again. Chances are very high that, eventually, you will break up and not get together again. Let's face it. The percentage of couples who begin dating at fifteen and continue dating until they become married is not too large.

The best advice we can give you is to not take the whole thing too seriously. You are still young. You will probably have many boyfriends. Each time you break up with one, you will find for a time, as if your world had come to an end. As you grow older, however, you will become more selective in the type of person you are looking for. Maturity will help you make better decisions for yourself.

If you have a teenage problem you need to discuss, or an observation to make, address your letter to FOR AND ABOUT TEENAGERS, COMMUNITY AND SUBURBAN PRESS SERVICE, FRANKFORT, KY.

#### Proposed CONSTITUTIONAL AMENDMENT NUMBER SIX ON THE BALLOT

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 33, Article XVI, Constitution of the State of Texas, be amended to read as follows:

"Section 33. The Accounting Officers of this State shall neither draw nor pay a warrant upon the Treasury in favor of any person for salary or compensation as agent, officer or appointee, who holds at the same time any other office or position of honor, trust, or profit, under this State, except as prescribed in this Constitution. Provided, that this restriction as to the drawing and paying of warrants upon the Treasury shall not apply to officers of the National Guard or Air National Guard of Texas, the National Guard Reserve, the Air National Guard Reserve, the Air Force Reserve, the Officers Reserve Corps of the United States, nor to enlisted men of the National Guard, the Air National Guard, the National Guard Reserve, the Air National Guard Reserve, the Air Force Reserve, and the Organized Reserve of the United States, nor to retired officers of the United States Army, Air Force, Navy, and Marine Corps, and retired warrant officers and retired enlisted men of the United States Army, Air Force, Navy, and Marine Corps. It is further provided, until September 1, 1969, and thereafter only if authorized by the Legislature by general law under such restrictions and limitations as the Legislature may prescribe, that a non-elective State officer or employee may hold other non-elective offices or positions of honor, trust, or profit under this State or the United States, if the other offices or positions are of benefit to the State of Texas or are required by State or federal law, and there is no conflict with the original office or position for which he receives salary or compensation. No member of the Legislature of this State may hold

any other office or position of profit under this state, or the United States."

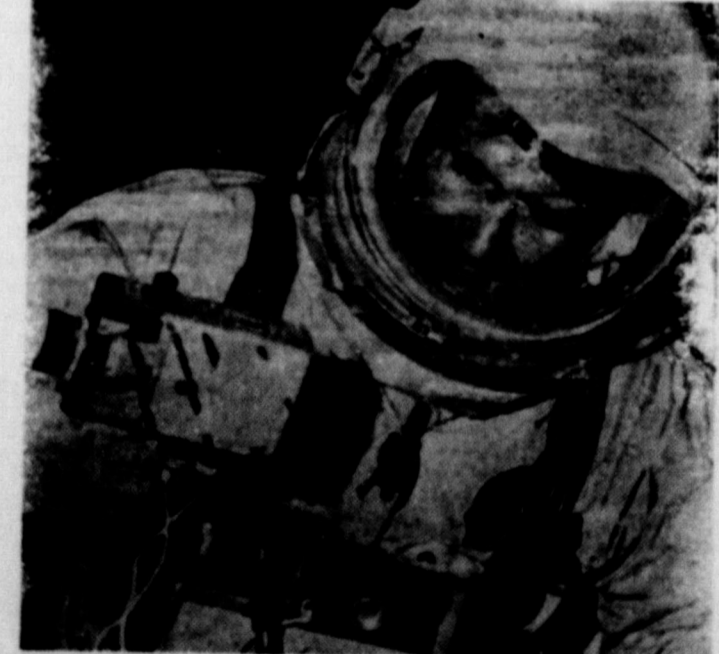

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on November 11, 1967, at which election all ballots shall have printed thereon the following:

"FOR the constitutional amendment allowing non-elective state officers and employees to serve in other non-elective offices or positions under this state or the United States until September 1, 1969, and thereafter only if authorized by the Legislature, if the offices or positions are of benefit to Texas or are required by state or federal law, and there is no conflict of interest with the original office or position; prohibiting elected officers under this state or the United States from holding any other office or position under this state; and adding members of the Air National Guard, Air National Guard Reserve, Air Force Reserve, and retired members of the Air Force to the list of persons exempted."

"AGAINST the constitutional amendment allowing non-elective state officers and employees to serve in other non-elective offices or positions under this state or the United States until September 1, 1969, and thereafter only if authorized by the Legislature, if the offices or positions are of benefit to Texas or are required by state or federal law, and there is no conflict of interest with the original office or position; prohibiting elected officers under this state or the United States from holding any other office or position under this state; and adding members of the Air National Guard, Air National Guard Reserve, Air Force Reserve, and retired members of the Air Force to the list of persons exempted."

### Rodeo At World Scout Jamboree

Rex Allen, famous western star, on his equally famous horse, "Koko," will be featured performers at a rodeo entertaining 14,000 Boy Scouts and their leaders from 100 countries attending the 12th World Scout Jamboree in Farragut State Park, Idaho, August 1-9. The rodeo, financed by a \$20,000 gift from the Benevolent and Protective Order of Elks, will be presented twice on August 4. It will be the first World Scout Jamboree to be held in the U.S. The major entertainment at the Jamboree, the rodeo will highlight "Western Day" and will be followed by a chuck wagon supper of barbecued beef and salmon — the only meal the Scouts won't cook during the Jamboree.

### Taxpayers Ask IRS

Q—We have agreed to take a disturbed child into our family. The agency placing her is giving us a small amount each month for her food and clothing. Is that considered income for us?

A—These payments do not have to be reported as income unless they exceed the support you provide.

You can claim a child as a dependent if she is a member of your household for the entire year; you provide more than half her support and certain citizenship or residence requirements are met.

Q—I plan to return home to London this summer. What do I need to get a "sailing permit" from IRS?

A—You should show that your tax affairs are in order. To establish this, copies of your tax returns for the past three years as well as a statement of estimated income and expenses for 1967 should be brought to your local IRS office. Bring your passport and re-entry per-

mit too, if you plan to return to the U. S.

These requirements are discussed in IRS Document No. 5589, "U. S. Tax Guide for Aliens." Send a post card to your district director for a free copy.

These requirements do not apply to U. S. citizens. However, any U. S. citizen delinquent in his tax payments should make arrangements for taking care of this obligation before leaving the U. S.

Q—Whose Social Security number should be used on a joint savings account, the husband's or the wife's?

A—Use the husband's number. On accounts opened jointly with a minor use the adult's number.

Q—I've been called in for an audit. Is there any publication I can get that will help me prepare for it?

A—Yes, write to your district director and ask him for a copy of IRS Document No. 5202, "If Your Return is Examined."

Q—How far can IRS go back in checking a person's tax return?

A—The basic statute of limitations is three years from the date the return was filed or the date it was due, whichever is later. In fraud cases or in failures to file there is no limitation.

Q—I've been offered a job as a camp counselor. Will my room and board be considered taxable income?

A—Not if the room and board are furnished on your employer's premises and for his convenience. In addition, acceptance of the lodging must be a condition of your employment.

Q—What help can you give somebody just starting a business?

A—IRS has a "Mr. Businessman's Kit" which contains forms and instructions for preparing most business tax returns. This is free and may be obtained by writing your district director.

You may also want to send 50¢ for a copy of the "Tax Guide for Small Businesses," which is available at your district office or the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

Q—Can I deduct any of my expenses in connection with a church convention I'm going to this summer?

A—If you are attending as an official delegate you may deduct as a charitable contribution your unreimbursed travel expense including meals and lodging. Personal expenses should not be included, nor should the expenses of your

### HEALTH TIPS FROM AMA

The traditional summer vacation of the American family is highly recommended by your doctor. The family needs to get away from customary home and office chores, forget day-to-day worries for a short time and generally get rejuvenated and ready to face another year.

Whether your vacation will be a short trip to a nearby lake, camping out in a national park, a plane trip abroad, or what have you, there are a few things to keep in mind that will help avoid having the holiday spoiled by illness.

Depending on where you're going, you may need some vaccination shots. Tetanus, certainly, for anyone who expects to include some out-of-doors activities. Typhoid, if your journey includes areas where the water supply is uncertain. Smallpox, if you're planning to leave the United States to visit a foreign land. Ask your doctor about these, and possibly other, immunizations.

The American Medical Association suggests that you remind yourself to use common sense about your vacation diet. Many a family trip has been spoiled by too many roadside hamburgers and soft drinks. A sound rule while driving cross-country is to eat lightly. Be cautious about heavy, rich meals, particularly if you're not accustomed to such fare at home.

Know what sort of climate you will encounter at your vacation spot and dress accordingly. It can get cold in the mountains at night, even in the summer. Good walking shoes are important to the travel wardrobe.

If you wear glasses, take along an extra pair. Or at least a copy of your prescription. If you're taking a regular medication make certain of your supply before you leave. And, finally, don't overdo it. Almost no one other than a trained athlete is ready for 36 holes of golf or five sets of tennis under a broiling sun. Schedule your vacation to allow daily rest periods. Do most of the driving in the morning hours and stop for the evening in early or mid-afternoon.

Your vacation should be a holiday for rest and relaxation. It should not be a grind that necessitates another vacation to rest up from the vacation.

Farm owners who allow swimming in their ponds should post safety instructions, according to the Texas Safety Association and the Texas Farm and Ranch Safety Council. Also, mark safe swimming areas and provide lifesaving devices, such as ring buoys, ropes or long poles.

Visiting Mr. and Mrs. F. E. Stewart and Mr. and Mrs. Leon Crockett over the weekend was Mr. and Mrs. Eddie Mac Stewart, Caron, Charles and Randy from Magnolia, Texas.

family if they go with you.

Q—What's the advantage of making a gift of stock to a college or other tax exempt organization rather than giving the same amount in cash?

A—If you hold stock that has appreciated in value and donate it to a charitable organization you avoid paying tax on the increase in value. If you do this you may deduct the value of the stock at the time of the donation rather than what it cost you at the time you acquired it.

HOUSTON, TEXAS—New man-made heart valve developed by a Baylor University School of Medicine researcher working with research grant of the Texas Heart Association offers great promise for surgical correction of diseased heart valves. Former minimal problems of resultant blood clotting appear to have been corrected by this new device which has no exposed metal-plastic junctions considered to have been the cause for blood clotting in from 5 to 10% of the cases formerly corrected by other valves. Research on the new valve covered two years.

Don't Plant All Your Peanuts in One Hill.

Most folks call it "putting all your eggs in one basket." Either way there is a good lesson for us to think about. It just happened that we got our lesson from experience with the peanut. We were just a small lad and peanuts had become popular with the farmers in our little community. No sooner had my father planted his crop than the rains came and the low spots and washes didn't come up to a stand. This was the same experience we had been having with cotton.

Seed was precious and my father took great pains to prepare two or three small buckets full and told me to go plant the slips. The peanuts had been washed and soaked just right and they were threshed from hay so that each would stand a good chance to germinate. We would plant a while and measure the seed left. Then we would rest a spell and play in the moist washed soil. Again we would labor grudgingly for a short time and then another round of resting and figuring out how much we lacked.

Finally, it seemed an impossible situation so we hit on a plan. Digging one deep hole we poured a bucket or more into it and then covered it over with heaps of soil. It rained again that night and by the time my father could plow with the cultivator, my secret was out. The rains leveled the soil and it seemed that every peanut came up on both ends. I don't remember the whipping or whether it was a straight talk. Whichever one we were getting, we always thought the other would be easier. Anyway, all our life we have remembered that it doesn't pay to put all our peanuts in one hill.

Sometimes we find what looks like a bargain and the temptation is to go out and buy it up. So often we have more than we

can use and it is wasted. It is possible to become too sold on an idea. We can wear out our friends and the idea harping on it all the time. It can be that we sometimes look too longingly toward Washington for the answer to our problems when more hills of peanuts would help.

Please don't laugh at my experience because I'll bet there was one in your life when you put too many peanuts in one hill.

### Double Deduction When Junior Works

Summer jobs for son or daughter hold double deductions when income tax time rolls around.

Be sure you cash in on the extra break says Mrs. Doris Myers. Extension specialist in home management at Texas A & M University. For example, parents may still take the \$600 dependency deduction, no matter how much their youngster earns, provided the following conditions exist.

The young worker is a full-time student during at least five months of the year, or he is 18 years old or less.

The parents continue to furnish more than half the cost of his support.

In addition to parents' claiming a deduction, the young wage earner can claim his own \$600 exemption when he files his tax return. And it is now possible for him to earn as much as \$899 tax free.

So take advantage of this double deduction, says Mrs. Myers. When claiming your deduction, also make sure junior files a return to claim a refund on taxes withheld by his employer.

### TAX SAM SEZ:

If you are hit by flood, fire, tornado, or even if your prize bull is struck by lightning you may suffer a tax deductible casualty loss. The first \$100 of a casualty loss is not deductible, and you cannot claim losses that are reimbursed by insurance. When disaster strikes, keep a record—check your tax instructions and be prepared to claim the deduction that misfortune has qualified you for.

### CARD OF THANKS

I want to thank all my friends and neighbors for their thoughtfulness and kindness to me, during these past weeks while I was in the hospital. Words cannot express my appreciation to you for all the food sent in, the gifts, flowers, cards and visits. And especially thanks to Dr. Fabian and all the hospital staff for their kindness and care. May God bless you every one.

### Boys Ranch Rodeo Expecting Record Labor Day Crowd

The 348 boys at Cal Farley's Boys Ranch are expecting a new attendance record to be set at their 23rd annual rodeo this year, and additional seats have been installed to accommodate the crowds over the Labor Day weekend.

Last year, nearly 9,000 attended the two-day event, and an additional 500 seats have been erected at the north end of the rodeo arena. Dates for the rodeo are Sunday and Monday, Sept. 3-4, at 2:30 p.m.

All of the 348 boys will have a part in the rodeo with nearly 100 riding for awards and honors. Ranchers who do not ride will be serving as ushers, helping in the parking area, working at concession stands, or helping around the chutes.

Giant-size barbecue beef sandwiches will be prepared and served by Ranchers who are learning meatcutting and cooking as their future vocations for spectators and visitors who arrive early to picnic.

The climax of the rodeo, the largest Labor Day event in the Texas Panhandle, will be the naming of the Junior and Senior All-Round Cowboys, two of the highest honors that can be earned by the boys. Professional rodeo stock will be used in the bull riding and bareback events, and a special stick-horse race will be featured for the four to six-year-olds.

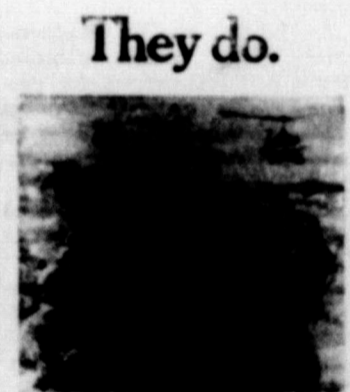

Tickets for either performance are available in advance from the Boys Ranch office, Box 1890, Amarillo. All proceeds will be used for future expansion of the Ranch.

### Handle Chemicals With Extreme Care

Most agricultural chemicals are highly toxic and can be dangerous. But, the Texas Safety Association and the Texas Farm and Ranch Safety Council point out mishaps with chemicals do not occur where directions on the label are strictly followed. Careful storage and disposal are equally important, especially to ensure the safety of children and animals around chemicals, the two groups report.

Mr. and Mrs. E. M. Bailey and family visited relatives in Oklahoma City over the weekend. Their daughter Denise, remained in Oklahoma City with her grandparents, Mr. and Mrs. R. O. Pounds, for a visit.

FOOD FADDISM

Food faddism may be defined as the acceptance of unfounded and often fantastic ideas concerning food and nutrition, and permitting one's actions to be governed by such mistaken concepts.

There are two main kinds of food faddists. One is the person whose education does not include the areas of human physiology and related biological sciences. Such an individual may be highly educated, and exhibit great intelligence in the areas in which he is informed.

Like many an intellectually superior person in his own field, he may be easy to mislead when he gets out of his own specialty. If properly approached, and not ridiculed, he may be willing to accept facts when they are presented to him.

The other kind of food faddist is the businessman—his business is food faddism. He trades on the ignorance and gullibility of his fellowmen simply to sell them a bill of goods.

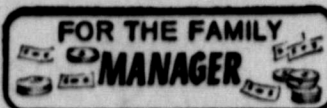

Can Do Serious Damage The food faddist is, in short, out of step with established and responsible nutritional authorities in governmental agencies, research laboratories and educational institutions. At his best, he may be amusing, if one is not misled by him. At his worst he can do serious damage, as when he advises diabetics that honey is a sugar which they can use with safety, when this is just as dangerous to them as any other sugar.

FRIDAY AND SATURDAY THE LIQUIDATOR Rod Taylor — Jill St. John

SUNDAY AND MONDAY EASY COME, EASY GO Elvis Presley — Dodie Marshall — Pat Priest

WEDNESDAY AND THURSDAY BATMAN Adam West — Bob Ward \$1.00 a Car Nights

ITEM: For short-time storage, you can keep small quantities of cooking and salad oils at room temperature. But for long storage, keep oils in the refrigerator. Some of these oils may get cloudy and harden in the refrigerator. But this isn't harmful... when warmed to room temperature, they'll become clear and liquid.

ITEM: Printed garments made of a paper-like substance are meant to be thrown away after a few wearings. These garments are made of nonwoven materials of cotton, rayon, nylon, olefin, and wood pulp. A variety of dresses, aprons, baby clothes, men's swim trunks, and beach ponchos is available.

ITEM: Shutters, screens and storm sashes are easier to paint if they are removed from the house and laid flat on supports. Wipe off all dust and dirt before applying paint. Screen enamels best applied with an applicator available from your paint dealer.

ITEM: For convenience, freeze foods in the right size container for your family. A pint container holds two to three servings; a quart four to six servings.

EX-STUDENTS MAKE PLANS FOR REUNION

The Ex-Students Association met Monday night, July 31, in the American National Bank community room to pass out letters to be mailed for the reunion Sept. 8, 9. All in all, everything is shaping up for the big event.

Open house after the gala game Friday night, Sept. 8, is always an enjoyable feature of the McLean ex-student reunion. This open house is to be at McLean's new country club. Margaret Coleman is the chairman for this committee.

Saturday, Sept. 9, everyone will register at the McLean High School, from 9 a.m. to 12 noon. Cheryl Smith is the chairman for this. If you can help please call her.

President F. J. Hess is in charge of the barbecue Saturday. Truitt Johnson heads the committee for the dance Saturday night.

It was decided that each person who is mailing out letters for their classes should be responsible for a poster telling where their class meeting is to be held. These posters are to be put in the high school by 9 a.m. Saturday, Sept. 9.

Ex-students who live in McLean are to serve as host and hostesses for their classes. "So don't let the visitors down! If you live in McLean, call a meeting of your own and make plans for your own party now. Let's all make every effort to help out this year and to be on hand to welcome the visiting exes and see that they have a good time," urged leaders.

If you were unable to be at the meeting Monday, you may pick up your letters from Cheryl Smith or Dorris Windom. The following people are responsible for their classes.

- 1911-12, Ruby Cook; 1913, Nona Dougherty; 1914, Vita Cooke; 1915, Ellen Wilson; 1916, E. L. Sitter; 1917, Maudie Cooke; 1918, Leona Sitter; 1919, Alvin Osborne and Otto Mayfield; 1921, Laura Goodman; 1922, Viola Glass; 1923, John Haynes; 1924, Fern Boyd; 1925, Minnie Haynes; 1926, Sinclair Armstrong and Essie Barrows; 1928, S. A. Cousins and Frances Kennedy; 1929, Winifred Rice and Johnnie Rodgers; 1931, Grace McCabe; 1932, Margaret Coleman and Clara Hupp; 1933, Louise Johnson and Lavern Carter; 1934, Ava Lee Crockett.

- 1935, Oleta Harris and Mary Emma Woods; 1936, Duella Beverly; 1937, Babe Brown; 1938, Leta Mae Hess; 1939, Naomi McCarty and Bill Cooke; 1940, E. J. Windom Jr.; 1941, Sonny Back and Bob Sherrod; 1942, Dorris Windom; 1943, Colleen Merteel and Ruth Glass; 1944, Pat Bailey; 1945, Dick Everett; 1946, Mary Dwyer; 1947, Marjorie Fish; 1948, Sue Simmons and Joann Miller; 1949, Johnny Haynes; 1950, Norma Curry; 1951, Jane Simpson; 1953, Mary Henley; 1955, LaRue Hambricht and Mavis McCurley; 1956, Gwen Henley; 1957, Maurice Moore; 1958, Fern Woods; 1959, Jean Smith; 1960, Anita Seaney; 1961, Danny Brown; 1962, Donna Bartley and Dixie Jo Crockett; 1963 Cheryl Smith; 1964, Toni Patton; 1965, Sharon Sitter; 1966, Joyce Saunders; 1967, Teresa Merteel.

Those ex-students who live in McLean will not be mailed letters. Please fill out the blank in this paper and mail to Ex-Students, Box 372, McLean.

DUCK BLIND CAMOUFLAGE Pale faces turned toward the sky frighten incoming ducks like a blast of shotgun fire. But if each hunter will slip over his head a wide-meshed bag, such as the ones in which potatoes or onions are packed, face glare will be avoided.

CARD OF THANKS The family of Norma Harris wishes to thank our many friends that brought food, sent flowers and cards of sympathy. Your thoughts and gifts meant so very much to us during our time of sorrow.

### Water Recreational Deaths on Increase

Water recreational deaths increased over one-half from 41 on May 1, 1966, to 62 for the same period this year, according to unofficial records by the Texas Parks and Wildlife Department.

Thus the tragedy rate generally associated with swimming, fishing and boating follows the pattern set last year when 36 or more persons drowned than in 1965, for an outdoor play total of 236.

The combination of fishing and boating has been the most deadly as monitored by department reports.

Several multiple fatalities occurred when small boats bearing anglers upset, such as three in Galveston Bay and two in Falcon Lake.

The safety angle, or lack of safety angle, figured in many tragedies. People perished because they did not wear life preservers although available in their boats.

A water skier who couldn't swim drowned when his life belt strap broke from striking the water.

Dangerous risks that proved fatal included a college student shooting the swollen San Gabriel River rapids on an inner-tube but without a life preserver.

The perennial trap of trying to swim after a wind-blown small boat cost the life of a San Antonio man on the coast.

Overloaded boats were deadly in several instances.

The seasonal frolics incidental to school class parties in strange waters were marked by at least three drownings of youngsters.

### I. M. Young Reunion Held In Clovis
