By FOSTER WHALEY

I have just returned from one of the sessions of the National Association of County Agricultural Agents, where Secretary of Agriculture Orville Freeman made the principal address.

Several very important points were raised in a press conference by Freeman just prior to his speech before an audience of over 1,400 county agricultural agents from 49 of the states. Other items and hints of things to come were released by him for the first time at the press conference and his speech that followed. I will briefly summarize his points. Many of the items he talked about are of tremendous importance to you whether or not you agree with

(1) Secretary Freeman vigorously denies that farm commodity surpuses held in government hands were being used to keep farm prices down. He said very few farm products had been sold within the last year. Only grain going out of condition and other grain on the West Coast to meet certain commitments we have in the Far East.

(2) He admitted selling quite a sizeable supply over a year ago when the market was in a rising condition.

Visitors Set Record At Lake McClellan

Dave Stephens of Amarillo, director of Panhandle National Grasslands, United States of Agriculture, announced that 150,000 visitors have used the picnic, fishing, and boating areas of Lake McClellan. Stephens attributed the vast increase to the new picnic tables, better roads and many other improvements around the lake area. The federal government has been working on the vast improvements for most of the past two years.

He said that fishing had been good most of the summer. Catfish and bass have been the most popuar fish caught. Also, the boating has been quite popular this summer. An extra large number of boats have been counted on the lake due to the pretty weather and quiet days.

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and sup-port the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his com-munity and nation. (4) For the sake of the Church itself, which needs his moral and material sup-port. Plan to go to church reg-ularly and read your Bible daily.

Money in a savings account? Money in a checking account? Money in your pocket? These all add up to a fine sense of security. But as everybody knows, the security of money can disappear. The stock market drops, expenses chew up your savings.

There's another kind of security that is not based on the fleeting, material treasures of life. It is the security needed when sickness strikes, a son or daughter disappoints us, or death takes a loved one. This security chases out doubt and fear. It enables us to go right on living day by day, certain that we will not walk alone. In fact, God has said that He will never leave us nor forsake us.

Discover for yourself this security! In your church you can find those eternal values if you trust in the security of Him who cannot fail.
