'Violations of the Texas traffic law will be apparent in nine out of every 10 accidents which claim a human life over the Labor Day Weekend." said Col. Homer Garrison in a statement concerning the upcoming holiday.

Col. Garrison, director of the Texas Department of Public Safety, said that DPS statisticians estimate that 35 persons will die in traffic

during the three day holiday. "To combat carelessness and a tempt to hold down these needless deaths," Garrison said, "the DPS will conduct the regular special emphasis program, 'Operation Motorcide.' From 12:01 am September 4 through 11:59 pm September 6. the Department will use every means at its disposal to reduce traffic accidents.

As a part of "Operation Motorcide," a tabulation of fatal accidents will be released from DPS headquarters in Austin three times daily to focus attention on the dangers of holiday travel. Garrison also noted that an additional 150 men from other DPS uniformed services will be on duty to supplement the activities of the Highway Patrol. Garrison pointed out that almost all the accidents during the 1964 Labor Day Weekend, which killed

more, had violations of the law as contributing factors. "The most common violation," he reported, "was the failure to yield right of way, followed closely by violations where the driver exceeded a safe speed for existing weather or road conditions."

39 persons and injured hundreds

Other common violations contributing to accidents were: exceeding posted speed limits: failure to stop or turn in time: driving while intoxicated; driving on the wrong side of

the irted. Labor Day, 1965, can tell a different story from last year's," Garrison said. But we must have the help of every motorist in observing traffic laws and in driving sanely to avoid this tragic loss."

Several other state agencies and public service organizations will on death and injury during the holiday period. Among these are the Texas Highway Department, the Texas Motor Transportation Asseciation, and the Texas Junior

The Highway Department will carry on a continuing information and education program stressing the Mr. and Mrs. Bill Crisp of Lock- fheedom of mobility enjoyed by drivers of today and instructing

motorists in freeway driving. The Texas Safety Association will conduct a public information program stressing the need for courtesy and caution. TSA Vice-president W. F. (Bill) Leonard of Dallas will coordinate the efforts of over 12,000 members of the Junior Chamber of Commerce over the state in operating "rest stops" for fatigued drivers to whom free coffee will be served.

Which size Savings Bond you should buy...and why

1. Starter size for steady savers. Small enough to be habit-forming; big enough to count up fast. Ideal gift. Worth \$25 at maturity; sells for only \$18.75. 2. Increasingly popular size and very big with Payroll Savers. Only \$9 weekly buys one a month comfortably. Worth \$50 at maturity; sells for only \$37.50.

3. New size. For people who want to buy more than a \$50 Bond but not quite a \$100 one. It's worth \$75 when it matures in 734 years. Sells for just \$56.25.

4. If you're in a hurry to build up savings, this one's tailor-made. Buy one a month for 5 years and you'll have \$4,856. Each is worth \$100 at maturity; sells for only \$75.

Actually there are 8 denominations, but all U. S. Savings Bonds have these things in common: They're replaceable in case of loss. You can get your money when you need it. They return \$4 at maturity for every \$3. Buy the ones that fit your budget—at your bank, or through the Payroll Savings Plan where

Harry Youngblood has 10 acres of irrigated sideoats grama he plans to harvest for seed. There is a good chance that grass seed will he a good price in 1966.

TEXAS BRUSH PROBLEM

Surveys of the extent of invasion d Texas grasslands by brush made by the Soil Conservation Service in 1948 and 1963 show that this problem is increasing. Over 82 per cent of Texas' 107 million acres of grazing land has a significant brush problem. This means 77 million acres are infested with brush. Fifty-four million acres, or 30 per cent, are so densely covered and the grass so suppressed that little improvement can be expected without reduction of the brush competition. In the 15 years between the two surveys, mesquite infestation increased by 11/4 million acres and cedars invaded an

additional 31/2 million acres. This increase in brush occurred in spite of the fact that some form of brush control was carried out in the 15 years on an estimated

WASHINGTON AND "SMALL BUSINESS"

ership of unions.

This question was discussed in depth recently in an article in one of the nation's most respected and erudite magazines.

It was pointed out that the heads of many of the major transportation unions quite frequently advocated nationalization of

transportation, principally the railroads. ... Every time the unions fall to secure

concessions from railroad C. W. Harder management for higher pay, requirements to keep on the payroll unneeded workers, or some other point, pronounce-ments are issued that the only solution to the problem is for government ownership of transportation. Of course the prob-lem is merely the problem of the union leaders.

question mark clarification of ing the broth perhaps is even intent. Are these labor leaders more true when two of the actually committed to national cooks are not cooks but inexsocialism, or do they talk in perienced bureaucrats from lathis manner attempting to bor and government. blackjack management.

If it is the former, there with transportation, and there then needs to be a widespread is room for dissatisfaction, the public recognition of the fact that leadership of American la-hind legs and demand that manbor has veered away from the agement be completely un-principles of Samuel Gompers shackled and given the opporand have become instead the tunity to prove that it can, leadership of an American so-without interference, deliver a cialistic party, well financed more efficient service. After by compulsory payment of all, one doesn't hobble a horse

CATTLE PRICES

A few people are excited because it was announced earlier that 17 per cent more cattle was on feed. You can take figures and just about prove anything if you will work at it hard enough. For instance, in the week ending Aug. 14 they slaughtered 19,000 more cattle than they did a year earlier for the same week. In the week ending Aug. 14, that slaughtered 540,000 cattle. A year earlier, 521,000 or about four per cent more. When you look at the total pounds of beef slaughtered, the picture looks somewhat different. A total of 306 million pounds was slaughtered, or about one per cent more. Consumers buy pounds of beef not numbers of cattle. So while four per cent more cattle or 19,000 more cattle were slaughtered, the total pounds of beef was about the same. Why is this?

Changing of the grades has enlighter weights and less total ton-

Actually, the total meat productwas down five per cent from a many of them. year earlier. With the tremendous threshold of one of our most prosperous years in the cattle business.

Hunting Season On Teal Opens Sept. 4

The special hunting season on teal which opens in Texas, Wyoming, and Colorado on September 4. is an experiment in species management, according to the Bureau of Sport Fisheries and Wildlife. The bluewinged teal is one of the most abundant of North American couraged feeders to feed shorter ducks, with a breeding population periods. This means marketing at of about four million. Since migrating blue-wings head southward in the fall, ahead of the usual opening day for duck hunting, hunters do Tilda Shelburn. ions (beef, yeal, pork and lamb) not have the opportunity to harvest

But blue-winged teal are also increase in human population, I known to suffer a high rate of natthink we are standing on the ural mortality. One answer being sought in this experimental season is whether these teal can sustain additional hunting without detrimental effects to their population Ralph Thomas and I made a levels. It is hoped that additional Tuesday tour of the cotton fields hunter harvest will merely substitute for part of the natural mortality.

A second goal, involving the hunter himself, is to determine whether Ralph remarked that one field hunters can accurately identify and we looked at had a bale per acre shoot teal without ill effects to potential. No more rain is needed other duck species. Bureau of Sport for the cotton. In the heat of summer when fish are fat, content, and lulled to near insensibility by soaring temperatures, there may not be a lure in the tackle box that will arouse their interest.

When no slngle approach seems to work, then try twourge the fishing specialists at Mercury outboards. In fact, they say, midsummer offers a chance for both the dedicated fisherman and artificial addict to quiet their feud and pool their skills to mutual advantage.

The old trick of combining plugs and minnows is about as old as the dugout cance. And hitching flies to lures is not new. Yet, for some reason, during the heat of a fishing session, many well chosen words of advice are

Regardless of the waters, fresh or salt, tandem arrangements will often produce results when single offerings fail.

The most unsophisticated approach is to simply hook a worm, shrimp or other balt right on to a spoon or jig. The lure flashes and gives off sound, while odor emitting from the bait further tantalizes the quarry. By appealing to the fish's sense of sight, sound and smell simultaneously

you've "touched all the bases." The bait-plug combination can be used in many ways. The two may be joined by varying lengths of leader, with the bait usually following the lure. They can be worked deep or shallow, fast of

Multiple set-ups with a series of dropper flies followed by a popping bug are particularly ef-fective on panfish. Likewise, a spinner trailing a wobbling lure

can be good for trout; When one thing doesn't work, try another. If that doesn't pro-duce either, follow Mercury's advice to try both.

Remember: "doublin' up" can be summertime's magic combo.

attend the church of VHOSE Choice

"ATTEND THE CHURCH OF YOUR CHOICE" is an expression that has been impressed upon the minds of this generation until many have come to believe that such is their right. And yet, WHOSE choice should concern us in this matter? WHO is to be satisfied? The answer lies in our understanding the church and its

purpose. IF the church is a social club; IF the church is a recreational center; IF the church is to satisfy or entertain me; then it is

appropriate that I attend the church of my choice. On the other hand, IF - as the Bible teaches - the church is Christ's by right of authorship (Matthew 16:18) and purchase (Acts 20:28); IF there is only ONE body (Ephesians 4:4) and the ONE body is the church (Ephesians 1:22, 23); IF the saved are in that ONE church (Acts 2:47); then my likes and dislikes become subordinate. And, IF I would have Christ save me in His church, I will submit to His Will!

FOR ALL AMERICANS

How to save money when the budget says no

Buying U. S. Savings Bonds on the Payroll Savings Plan won't eliminate your monthly bout with the budget. But it will guarantee that you won't spend all your money

before you save some. Guaranteed-because the money is saved before you ever see it. Your payroll department sets it aside, as much or as little as you say, and puts it into Savings Bonds for you. No memory tests. No temptation. it goes to work for your future. It pays back \$4 for every \$3 invested at maturity-and even more if you hold it longer. A nice way to make your security grow.

Another nice thing: while your savings are growing, the dollars are helping our nation and our govern-

ment keep strong for freedom. Call your payroll department and sign up for the Payroll Savings Plan before next payday. See if you don't feel just a little bit better at bill-paying time.

The minute your Bond is bought, **Buy U.S. Savings Bonds**

THE LOGIC OF THE PLAN OF SALVATION

In 1 Cor. 1:22 we are told that "the Jews require a sign, and the Greeks seek after wisdom." This is doubtless why God chose Paul, with his profound intellectual background and acumen, to proclaim "Christ crucified," the "wisdom of God" as well as the power of God" (1 Cor. 1:23, 24).

Paul was a gifted logician as well as a theologian, and nowhere is this more evident than in his Epistle to the Romans, where, by divine inspiration, he presents the logic of God's plan of salvation. Again and again, throughout the Epistle, he uses that word so prominent in mathematics and in logic: "therefore."

"Therefore thou art inexcusable . . ." (2:1).

"Therefore by the deeds of the law there shall no flesh be justified in His sight" (3.20).

"But now the righteousness of the law of God without the law is manifested . . . Therefore we conclude that a man is justified by faith, without the deeds of the law" (3:21, 28).

"Therefore being justified by faith we have peace with God through our Lord Jesus Christ; by whom also we have access . . . " (5:1, 2).

'There is therefore now no condemnation to them which are in Christ Jesus" (8:1). "Therefore, brethren, we are debtors . . ." (8:12).

"I beseech you therefore . . . that ye present your bodies a living sacrifice . . . " (12:1).

Behold, now is the accepted time. Behold, now is the day of salvation" (II Cor. 6:2). Believe on the Lord Jesus Christ, and thou shalt

be saved" (Acts 16:31).

CARD OF THANKS

I wish to thank everyone at this

George (Mug) Castleberry

We would like to extend our time who has been so kind and thanks and appreciation for the nice to me during my recent ill- flowers, cards and other expressions ness. I would also like to thank of sympathy shomn to us during the McLean Hospital staff and the loss of our loved one.

VETERANS INFORMATION

Q-I dropped my GI insurance after getting out of service in 1945. Why can't I obtain insurance under the new law without having to prove that I either have a serviceconnected disability or am not able to obtain commercial insurance because of disabilties not due to

A—The present reopening of Na-tional Service Life Insurance is limited. The legislation enacted by Congress specifically limited the purchase of new insurance to those

Q-I have heard of a number of states which authorized a state bonus for veterans. Why hasn't the Veterans Administration in Wisconsin authorized such a payment?

A-The payment of a state bonus is authorized by the individual states, and not by the Veterans Administration. It is up to each state to determine whether they will authorize a state bonus for their

Q I am a World War I veteran and am receiving pension and aid and attendance benefits under the old law in the monthly amount of \$135.45. Would I be entitled therefore to medicine and drugs at VA expense?

A .- No. You would be entitled to medicine and drugs at VA expense only if you were receiving aid and attendance benefits under the new pension law. You, of course, have the right to elect under the

The principal changes that Congress made this year in our tax laws was the reduction of excise taxes. Of course, any tax cuts benefit the taxpayer, but the manufacturer usually pays the excise tax. The tax cut will be passed on to the taxpayer through a reduc-ed price on the articles that you

Most of us don't spend enough time keeping up with tax changes that affect us. There are usually several each year. We may not enjoy reading tax instructions but if we don't keep up with tax changes we'll miss a lot of benefits. Ignorance of your tax affairs can be costly. It's fine to have a good tax man but you should also keep yourself up to date.

Mr. and Mrs. Ed Clifton have returned from a week's visit in Oklahoma, visiting at Altus, Pauls Valley and Ada.

Rev. and Mrs. Dan Beltz and Eileen visited last week in Kansas and Oklahoma with relatives.

Mr. and Mrs. E. L. Price of Rosenberg have been spending a few days with friends in McLean.

The Prices are former residents. CARD OF THANKS

May I take this means of say ing "Thank You" to my friends in McLean and elsewhere for the prayers, cards, letters and other kindnesses on my behalf while I was in the hospital. God bless you, is my prayer.
