the Reichs chancellery.

Her 10,000-word account was included in the latest of an official series of volumes, long with Hitler's private and political wills and other documents which were not placed in the Nuernberg trial record. In it she said:

1. Almost to the last Hitler clung to the hope of rescue, waved papers in nervous twitching hands, or moved buttons to represent his non-existent armles on a sweat stained map. 2. Both he and Goebbels were incensed at the "treachery"

## Week's Business **Trend Upward** In Local Deals

Building permits made an unexpected upward turn during the past week when a total of 16 was issued by the city. The cost of construction also was up to \$20,-810, about twice the previous week's figure. However, the number of permits had little bearing on the total estimated cost, since four new residential permits accounted for \$14.500. Others for smaller amounts were issued for repairs and moving. By Saturday the November total had reached \$36,405, while the year's total stood at \$1,101,326.

Value of property covered on 1946 warranty deeds filed at the county clerk's office neared the three million dollar mark this week, when 13 instruments added \$51,590 to the previous total. The 1946 total to date is \$2,936,848. New automobile deliveries overshadowed last week's record, with 21 passenger cars and seven trucks registered at the county tax assessor-collector's office.

NEW YORK, Nov. 16. (AP)- Although stocks generally were on the losing side during the past week, the market today displayed selective recovery signs and losses were restricted despite the threat of a nationwide coal strike.

While scattered soft spots persisted at the close of the brief proceedings, fractional variations either way ruled when the closing gong sounded. . The ticker tape frequently was at a standstill and transfers of 320,000 shares were the smallest since the 290,000 of Oct. 25 which was a low since Sept. 16, 1944. Throughout the week doubts regarding business prospects under mounting prices which may stimulate consumer resistance served to cloud speculative and investment sentiment.

## **Georgia Clinches** Sugar Bowl Bid

COLUMBUS, Gal, Nov. 16. (P)-Georgia clinched an almost certain Sugar Bowl bid today, whipping Auburn, 41-0, to remain one of the last unbeaten, untied gridiron powers of the nation.

The big red team, led by halfback Charlie Trippi, pounded through Auburn almost at will for a 27-0 advantage at half-time. Thereafter the second-stringers held off Travis Tidwell and Company and scored two more touchdowns in the closing minutes. About 22,000 fans saw the

worst beating in the history of the two schools. Trippi, Georgia's candidate for all-America honors, scored two touch-downs, and played brilliant defensive football.

## LOOKING 'EM OVER

#### By TOMMY HART

Le

Following Friday night's football struggle in Midland, small groups of Bulldog supporters loosed their verbal fury on the harrassed officials . . . The pent-up emotion was caus-

ed not by the fact that the spectators had an inkling of what infraction had spurred the referee to nullify the Midland touchdown play at the fag end of the ball game but rather by the bitterness of defeat . . . Not one per cent of the onlookers knew® what influenced Ref. John Hart to cancel out the Bulldogs' scoring play and give the ball to Big Spring and all were certain that Midland had been wronged . . . In reality, Jimmy Edwards, the Canines' center-an ineligible receiver -gathered in Benny Cole's pass behind the goal line. Too, the passer, Bobby Cole, was on his knees when he loosed

the ball . . . The Midland drive down the field was magnifi-

cent but the Longhorns defense when backed in the shadows of their goal was equally as good and is a credit to the entire club ... Midway in Round Three, the fans were certain that the officials had sinned when the referee gave the ball to Big Spring in Midland territory as both Mary Wright and Hightower came down with one of Horace Rankin's Bill passes and wrestled with it all the way to the mat . . . Paragraph Five, Section Five of Rule 7 of the Official NCAA football rules reads thusly "If the pass is caught simultaneously

by two eligible players of opposing teams, the ball is dead and belongs to the passer's team." . . . Bobo Hardy made a very difficult catch of the touchdown pass winged by Rankin, dragging it up from his hip while running laterally across the goal line . . . Georgie Worrell, improving with each outing, emerg-ed as Big Spring's top ground gainer, picking up 339 yards in five carries . . . Georgie will be eligible again in 1947, should prove one of the top backs in interscholastic league play . . . Pete Fuglaar played by far his best game of the year, both offensively and defensively . . . Larry Hall was outstanding, too.

As mentioned before, the statistics favored Midland but not so overwhelmingly as an onlooker would imagine. Only in that final lunge did the Dogs actually show any sustained drive.

In the first period, the home club stitched together three first downs on an attack which carried them all the way to Big Spring's 14 only to lose the ball on downs. The Longhorns advanced the pighide as far as Midland's 35 after recovering a fumble midway in the second but there the attack sputtered and died.

Midland got a break early in the third round when one of Cole's majestic downfield boots got by Hoss Rankin and rolled dead on the Big Spring 14. The Herd was penalized to its own nine but line bucks subsequently advanced the ball to the 21, from which point Rankin kicked away to midfield. ## **Priming Coat Is Put On Streets**

City street department completed application of a priming coat on 16 blocks of new paving Friday night, and officials were hoping to begin the seal coat early next week.

The topping project was delayed for several days because of unfavorable weather. However, there or four days of warm sunshine next week will provide ample opportunity to put down the seal coast, officials said.

By working late Friday night workers were able to complete the prime coat on the 16 blocks in one day and under normal conditions the seal coat can be applied to six or more blocks a day.
