In shouting tones, Johnson (D-Tex) also said there were indications the papers of the secret World War II conference had been "carefully culled" beforehand "for ammunition to be used not against the Communists but against" the Democratic party.

## **Gets State** Traffic Prize

Big Spring received first place recognition for its outstanding traffic safety record at a Texas Safety Conference banquet in Houston last night.

The city was cited as having the best safety record of the smaller Texas municipalities during the

year 1954. George Oldham, executive sec retary of the local Citizens' Traffic Commission, was on hand to receive a TSA-award on behalf of the city. The formal presentation was in the Crystal ballroom of the Rice Hotel.

"We extend to you and your city our congratulations and commen-dations for a job well done," said J. O. Musick, general manager of the Texas Safety Contest.

The award was made only after number of things had been considered, Musick said, Items listed included the traffic death record enforcement, safety education traffic engineering, court system and public support.

A number of cities in the popula tion bracket for which Big Spring is listed - 10.000 to 24.999 - entered the contest. But none of them had the record which the local city had.

Big Spring was first place winner for group II. Cosden Petroleum Corporation also came in for recognition at the

#### Farmers Told Space Ships **Competitor**

representatives decided today farmers will have to compete with farm income problem permanent-

Henry T. McKnight, president of Farm Chemurgic Council, said the big problem is

1. Dramatize barnyard problems to attract bright young scientists to agricultural research. If agri-culture is to get its share, its problems must be as well understood -or as dramatic-as H-bombs and

2. Make farming so challenging and attractive it will lure the "brightest minds" among farm children and keep them down on the farm, instead of letting them set out to be space cadets.

"But how can we make the barnyard as dramatic as the prospect of a flight to the moon in 1965?" asked McKnight.

The council, representative of farm scientists, industry and farm-

ers, is holding its 20th annual meeting here to get the answer. Out of this session may come an agreement that the council is to carry the "research ball" for several major farm organizations, to emphasize research problems and expand scientific studies.

expand scientific studies.

In a speech prepared for today's session, McKnight said, "Agriculture research has to be cranked up to the point where its benefits can be felt not only on every farm in the land, in increased and more stable income," but also by all city people, in cheaper food, and in more materials for industry.

McKnight said industry spends

McKnight said industry spends 2 per cent of its gross output for research but agriculture spends less than one half of 1 per cent. Even if farm research is doubled, won't move agriculture abreast of industry in seeking new outlets for crops and cheaper ways to pro-duce, he said.

## Looks like Buick's Biggest Year

It's been happening week after week.

More people coming in every day to see, sit in, sample and select the '55 Buick of their choice. More people than ever before in our history.

That's why you see so many new Buicks on the road today. And that's why - to meet this unprecedented popularity-Buick production has been boosted to the highest levels of all time.

#### Buick Sales Are Soaring

The simple measure of it all is this: Buick is so "hot" an automobile that it now outsells all other cars in the United States except two of the bestknown smaller cars. And for reasons sound, substantial and thrilling.

Buick styling, you see, was never so crisp, clean, distinctive. Buick horsepower was never so high - Buick interiors never so rich-Buick's great ride never so satin-smooth and steady.

But there's something else, too something vastly different and exciting.

Never before was there any motoring thrill like the thrill you get from Buick's spectacular new Variable Pitch Dynaflow.\*

It lets you do what a pilot does-switch the pitch of your driving propellersone way for gas saving in cruisinganother way for instantaneous acceleration and getaway.

Your propellers are inside the Dynaflow unit, spinning in oil. You change their pitch merely by pressure on the gas pedal. You get action that was never in any earth-bound vehicle

No wonder we're writing up orders and selling Buicks at a rate that's making this the biggest year in Buick history.

And no wonder-when you see our price tags-that more and more people can afford the price of a new Buick.

For all the way up the line-from the budget-priced SPECIAL to the custombuilt ROADMASTER - each Buick is a stand-out buy in its field.

Why not come in for a visit this week and get a down-to-earth look at the hottest Buick in history?

\*Dynaflow Drive is standard on Roadmaster, option extra cost on other Series.

Thrill of the year is Buick

#### Rail, Trucking Firms Battle Over Tax Bill

AUSTIN W-Spokesmen for the railroad and trucking industries lashed at each other's motives and statistics last night as the House Revenue and Taxation Committee considered ton-mile tax on heavy trucks.

The bill, sponsored by Rep. Charles Kirkham Jr., went to a subcommittee after a hearing that lasted until midnight. Witnesses told the committee the

tax would either be the ultimate in fairness to highways users or would raise freight rates and drive much of the trucking industry ou of Texas.

Former state Sen. Jim Taylor of Austin, representative of the Texas Motor Transportation Asan, told the committee the tax would be so expensive to collect that virtually no revenue would result. Kirkham and Kenneth McCalla spokesman for the Assn. of Texas Railroads, urged acceptance of the plan on the grounds that any other

tax would leave the auto driver paying a larger share of road McCalla denied Taylor's charge that the railroads were attempting to kill the trucking industry, saying the railroads would be hur themselves by such a move. "We operate more on-the-road trucks than any other single operator in Texas," McCalla said.

#### Holiday Schedule To Be Considered

The merchants' Committee of the Big Spring Chamber of Commerce will meet Wednesday at 10 a.m. to consider a holiday schedule for the city during the coming year. Plans also will be discussed for an Easter Parade here around the courthouse square, said J. B. Wig-ington, committee chairman. A number of business items will be

As though they did not get their built along the lots fronting on fill with regular sessions which school property as the lots were last until midnight, Big Spring sold and developed. The board sugschool trustees had two called sessions Monday. In one, they granted a 74-foot easement to Carl Strom for development of a residential area near Park Hill School.

Anderson, roofing sub-contractor, fence. He would have about reworking the high school and sell smaller lots, fence. He would have to replat Trustees said they felt they had safety of the children to look after. In the end, they granted a 71/2-foot called for 5:15 p.m. in order that easement on the condition Strom would do likewise.

The board conferred with Ander son, who as Anderson Engineering Company, had done the roofing on Park Hill property and promised the high school project. Subse-that a concrete fence would be quently, after negotiations had failed, the board entered suit against Busboom & Rauh, prime contractor, Anderson, bonding companies, archiects, and others in an effort to recover for reworking the oof. The case was due to come up soon in 118th District Court, Tentative agreement was reached for replacing all flashing, gravel guards, etc. and other specified items on the roof of the entire plant. The school district, however, reserved the right to hire its own roofing supervisor who would be in control of the work, which will done by Anderson & Towner of Arlington, Anderson received the board's position and said he would bring back a concrete proposition.

#### Committee Tours Schools In Martin

STANTON-A committee representing various civic and service organizations toured Martin Counschools last week as a feature Texas Public School Week.

Schools visited included Stanton Courtney, Grady and Flower Grove. On the visitation commitee were O. W. Winstead and Bill Counts, Lions Club: Jack Arring-Martin Gibson, American Legion; Edd Standefer, George Davis and Jack Saunders, Masonic Order; Marion Yell and A. C. Fleming, Odd Fellows: Walter Dickison, Lila Flanagan and Mrs. Hila Weathers, Chamber of Commerce.

#### Teacher's Sister Dies

Final rites were said at the First Baptist Church in Plainview on Sunday for Rosa Lee Ramsey, 18, sister of Mrs. Jimmie Lee Mason, junfor high homemaking teacher who moved recently to Lubbock. Miss Ramsey, 1954 graduate of Plainview High School and the daughter of Mr. and Mrs. T. A. Ramsey, had been ill for a year.

## In Texas

By DOROTHY ROE
The littlest glamor girls take
their fashions seriously these days. their crisp, flaring skirts and shity ruffled petiticoats. And, in se eternal feminine tradition, they sow when they look pretty, and seen themselves accordingly. Children's summer fashions won sch applause at the recent showing of Texas fashions in Dallas, a piptairs. They want high-style touches just like Mama's, they take pride dainty ruffled petticoats. And, in the eternal feminine tradition, they know when they look pretty, and

preen themselves accordingly. Children's summer fashions won much applause at the recent showings of Texas fashions in Dallas. The pint-size styles shown may expected to appear soon in stores throughout the country, notable for their careful attention to detail and the high-style touches borrowed from adult modes of the moment.

The costume, season's favorite in the grown-up fashion parade, appears in miniature in various versons, such as small dresses with matching coats, crisp sleeve less cottons with cover-up boleros and so on.

When it comes to party dresses Texas designers go all out for glamor, Dainty lace-trimmed white and pastel organdies are shown in frothy styles that look as appealing as an ice-cream soda, designed

frocks having small hats to match. The youngest set will step out as proudly as their mothers and

## Harris Taking Long Look At Kid Hurler

It was a couple of weeks ago that Bucky Harris, manager of the Detroit Tigers, said, "I'm looking this hid Frank Lary to take his turn as a starting pitcher this year." And Bucky's been taking a good at the 34-year-old right-hander ever since.

Lary, like a few other youngsters in the Tigers' Lakeland, Fla., camp, is one of those "maybes" in old's hopes for the first division this season, He's not a big guy, only 5-11, but he packs 180 pounds

Thus far, Lary has worked 11 innings for the Tigers, more than any other hurler in camp. He's up

here. Bill Parks, in between wrestling

stints, manages a summer resort

AUSTIN (28—A record 698 teams have signed up for schoolboy base-ball competition this season, the Interscholastic League said yes-

The total is 28 more than last

year.
Conference B, largest group, also had the biggest increase, with 22 new schools bringing its total to 434. Conference AA grew to 98 teams with four new entries and Conference A picked up two teams for a total of 166.

The state tournament for AA will be June I-3 in Austin. Class A plays to regional championships and Class B goes no further than bidistrict. District champions must be certified by May 16.

#### **New Cage Rules** Controversial

KANSAS CITY M—The National Basketball Rules Committee once again has changed cage regulations, bringing varied comment from the men who have to put them into effect.

The committee came up with these two major alterations Mon-

these two major alterations Monday:

1. The bonus free throw rule will apply to the full playing time of a game. It permits a second free throw if the first one is made. The bonus toss was used in the past season but did not apply in the last three minutes of a game; all fouls in the three minutes were two-shot violations.

2. Free throw lanes will be widened from six to 12 feet.

(7) Winners and the cor-rect solution will be an-nounced in The Big Spring Herald Friday, March 25.

37 to 42.

Men's Fashion Center

Sports dialogue; GORDON (MOE) MADISON, former Big Spring gridder and nov coach at Odessa:

"If Odessa can find itself a quarterback, it's going to be hard to stop in football next fall. The Bronchos should have a great line."

TCU freshman basketball coach BRUCE CRAIG, when asked if the absence of J. Bryan Kilpatrick cost the Frogs any chance of winning that last game against Arkansas:
"When a team hits you for 62 points in one half, you haven't got any excuse."

WALT DROPO, first baseman for the Chicago White Sox, con menting on the way the fans treat him: "There will be days when a lot of people think I'm really some-thing and there'll be days when these same people will wonder who ever recommended me. I guess there's no happy medium for me."

TOBIN ROTE, former Rice grid star, now with the Green Bay "I don't think Bobby Layne is a good passer. He's a good field general and he's tough when the chips are down but I believe Y. A.

Tittle, Otto Graham and Norm Van Brocklin are better passers."

BRANCH RICKEY, canny general manager of the Pittsburgh Pirates: "It's always better to trade away a player one year too early than a year too late."

BILL FRANK, ex-Longhorn League umpire:

"I don't think I'd leave my present job for one in the major Leagues. I would work for the Longhorn League on a limited basis, however. Baseball is in my blood. It's hard to get away from it." PHOG ALLEN, Kansas basketball coach: "it's time for the college coaches to name a 20-man committee to handle their own rules. This group could make rules to become effective within a three-year period so any change would not be too

abrupt. There is too much complacency among college coaches. They talk about following pro rules and let the high school group actually make their code." ED STANKY, manager of the St. Louis Cardinals: "Stacking Willie (Mays) up against Stan (Musial) is silly. Musial has won six National League batting titles; Willie has turned

strated over a long stretch of years." BILL HENDERSON, Baylor basketball mentor: "A high school coach who has two real basketball players and the rest football players needs a zone defense if he is going to have

the trick just once. Mays has yet to prove what Musial has demon-

much defense at all." RUDY TURILLI, ex-fighter, who wants Rocky Marciano to train

In his five-story cave at Stanton, Mo.: "The cave is an excellent place for a fighter to do his road work and there's enough room for all the training equipment he needs. Besides, the air in a cave is much better than the air in a gym-

JOE LOUIS, former boxing champion: "No, I don't think the boxing game is crooked, but there are a lot of crooked people connected with it."

GEORGE DUNN, local wrestling promoter:
"The crowd we had last week (890 paid) Just shows that local people will support a good card. It's got to be good, though.

JOE ADCOCK, the Milwaukee slugger, after stating he bears no bard feelings for Clem Labine, the Brooklyn hurler, who beaned him

with what we have, and that might make a greater improvement in this club than you imagine. These boys have been taking an awful riding in Philadelphia and I really think they will react to better treatment.

"I know all of them, of course from managing against them el-ther at Cleveland or in Boston the past three years. I can see the difference in them this spring. Every one of them is hustling, which is something you don't see too often. They feel they have been given a new lease on life."

The man from Illinois was asked if he had given thought to trading off his two highly desirable players, pitcher Arnold Portocarrero and third baseman Jim Finigan, for a set of new talent, the way

Game Called Off COLLEGE STATION (#-Wet

grounds resulted in cancellation of a scheduled baseball game yesterday between Texas A&M and Texas Lutheran College.

TAMPA (6 — "We do not," the mans all forcefully, "intend to go any lower, we'd better not, anyway, or they'll have to start reorganization, the club's weak farm organization, this is the same team that finished eighth at Philadelphia last fall, 60 games behind Cleveland.

Owner Arnold Johnson, who won an uphill battle to buy the franchise from the house of Mack and move it to Kansas City, hasn't been able to spend any of the \$1,000,000 he says he has earmarked for new talent. It seems the other owners read the news and hung out \$30.

#### **SEC Chief Praises U. S. Stock Brokers**

WASHINGTON UM - The chair- | can, Sen. Capehart of Indiana. man of the Securities and Extion's brokers a good report card recalling Harvard economist John today in the Senate's stock market Kannath Galbrath to the witness

Raiph H. Demmier, whose agen-cy polices market activity, said in testimony prepared for the Senate Banking Committee:

While some violations of the various securities laws undoubted-ly go undetected, I believe that there is not prevalent any serious wave of illegal practices by brok-ers and dealers."

But he said it's a never-ending chore to devise rules and regula-tions "to close loopholes which the ingenious seek to discover."
"It must be borne in mind," he

said, "that abuses which subtly creep into business transactions are frequently in the nature of unpractices, overreaching, informal collusive action, activities not in accordance with just and equitable principles of trade.

The line between the unethical and the Megal is sometimes hard Demmler was called as the next-

to-last witness in a series of committee hearings enlivened by a feud between Chairman Fulbright (D-Ark) and the senior Republi-

#### **Dentureprints**

ATLANTA UP.—The only evidence police had in a drugatore burglary was a set of false teeth found under a window. They kept a lookout for a toothless man. Finally, they spotted Walter F. Cooper, 44, and tried the teeth on him. 'They fitted perfectly," an officer said. Cooper was charged with the burglary, in which a quantity of narcotics was

Fullbright yesterday rebuffed a change Commission gave the na- demand for an immediate vote on

> Kenneth Galbraith to the witness chair. He said the matter could be decided later.

Capehart termed Galbraith pro-New Deal exponent of "gloom and doom." He urged that he be called back for questioning about his authorship of a 1949 pamphlet which Capehart interpreted as sympathetic toward communism.

Galbraith, in Cambridge, Mass., said the pamphiet was exactly the opposite of the way Capehart repsented it. He said the senator had quoted passages out of con-text. He wired Fulbright saying he'd be glad to testify again.

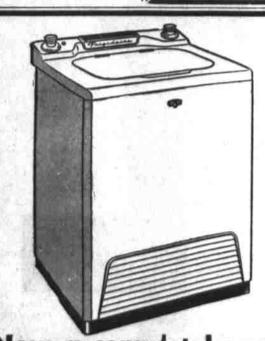

There was no "gloom and doom in yesterday's testimony. Board Chairman Benjamin Fairless of U.S. Steel said it's his view the country is on the threshhold of one of the greatest periods of prosperity in its history, Today's witness, Demmler, de-

scribed how SEC policies the nation's securities markets - but cautioned investors against expect-

ing too much of the agency.

"There is a popular fallacy," he said, "that if a security has been registered with the commission, the commission has 'approved' it. Nothing could be farther from the truth. The commission has no power to approve or disapprove secur-

## Radio Singer **Biggest Crisis**

NEW YORK US Julius La Rosa

Arthur Godfrey in October 1953, says he was aware for a long time that part of his box office value was as a freak attraction—the man who was fired before a nationwide outposts of the Chinese National-television audience.

George, chairman of the Senate meeting of the heads of the major powers went beyond the point in an interview he fears the Chinese National-television audience.

George, chairman of the Senate meeting of the heads of the major powers went beyond the point a radio message from the Bibb President Eisenhower and Secretary of State Dulles have been willing to go publicly."

The section of the heads of the major powers went beyond the point a radio message from the Bibb willing to go publicly."

The section of the heads of the major powers went beyond the point a radio message from the Bibb willing to go publicly."

The section of the heads of the major powers went beyond the point a radio message from the Bibb willing to go publicly."

But now that the celebrated incident is 17 months in the past, he's reasonably sure those who tune him in on TV or attend his personal appearances do so to hear Julius La Bors and the personal appearances of the personal appearances of the personal appearances and so to hear Julius La Bors and the personal appearances are the personal appearances and the personal appearances are the personal appearances and the personal appearances are the personal appearances are the personal appearances and the personal appearances are the personal appearance are the personal appearance are the personal appearance are the personal a

during his two-week stint earlier George made it clear he spoke this month subbing for Perry Como for himself alone in proposing a

weeks I've ever spent," he de-clares. "This was the first time I had no crutch whatever on TV. It was tough to try to sub for the guy who is so well loved and respected. But it was also easy because everybody was on my side and I was doing what I wanted to

La Rosa has been a big box office attraction ever since he was fired by Godfrey for loss of humility, and is estimated by his agent have grossed more than a third of a million dollars. But he says It took him a year to overcome the feeling he was drawing crowds only because he was the man God-

La Rosa voices no bitterness toward Godfrey, whom he credits with giving him his big break. "I was a sailor in the Navy and all of a sudden the man put me

on the show before nationwide audiences it took other people years to attain," he says. "Then after I was fired," he continues, "I often wondered what would have happened if Ed Sullivan hadn't put me on his Toast of the Town the following Sunday, That was my other big break.

#### Fight Yer Own Fires

WOLCOTT, Vt. UB-The 14 members of the Wolcott volunteer fire department have quit in a body and put their 1924 pumper on sale for \$500. They explained they asked the town meeting for a \$500 appropriation March 1 and got nothing. They notified the 766 townspeople that if they have a fire they can telephone their alarm to Morrisville, seven miles west, or Hardwick, six miles east.

#### Do FALSE TEETH Rock, Slide or Slip?

PASTEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, alip or rock, No gummy, g-o., pasty taste or feeling. PAS-AETH is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

#### **Reds Find** Students Get **Takers For** Instruction In Aid Plan Tax Returns UNITED NATIONS, N.Y. W.

Have you ever wished you were

Well, this time of year would be an ideal time to be enrolled at Big Spring's High School, because the students are getting instruction and aid in filling out their income tax forms.

The three R's have been changed to the Four R's and that last one is for "revenue." Principal Roy Worley said that the school has been supplied with special "income tax kits" and students are receiving instructions in preparing their own income tax forms in connection with their social studies courses.

The plan was developed for students who may have worked parttime during the year and are due in India, equipment for water derefund. The student is supplied with a 1040 tax form (the short and a-low-cost housing exhibit in form) and the teacher aids in tell- Latin America. ing him where to fill in the figures and how to look up the amount of ance program four million rubles Wharton of Beaumont from a refund or payable on the back of for 1953 and another four million bassinet in East Texas Baptist

ship could do.

Just released, the telephone company's annual report for 1954 tells the story of 58,000 Southwestern Bell people working together as a team to bring you faster service, expanded service, courteous service. Here are some of the things they did to improve your telephone service.

#### ON THE "GROWTH" FRONT

Millions of miles of wire were built into the system, most of it in the form of

improved service was brought to rural At the year's end, 200,000 more telephones were in service than in 1953.

#### **DOLLARS AT WORK**

and Texas served by Southwestern Bell.

Last year, you talked more by telepho than ever before. You made an average of 25 million local calls and half a million Long Distance calls every day—about double the number of calls just ten years ago.

INVESTMENT, EXPENSES UP The company took in more money - but paid out \$15 million more than in 1953 for the expenses of providing good service. This is to be expected. As more money is invested in new telephone facilities, the day-to-day costs of operating a larger system grow.

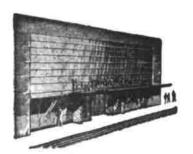

The balance of expenses against income is watched closely because only a financially sound telephone company can keep service growing to meet the needs of this and hundreds of other communities in the progressive Southwest.

#### BRIGHT PROSPECTS FOR '55

This year promises to be another good year for telephone oustomers. Further improvements in your service are planned. Still more homes and businesses will be added to the growing circle within reach of your telephone . . . making your telephone even more valuable.

100 to 10

When the nicest and best things happen to you-you feel your very humblest. The wonderful tributes so many friends paid us on the opening of our enlarged store makes us proud, and modestly grateful. Therefore we print this in small type to express our warmest gratitude in having so many, many friends. There's no way to say thanks, really, other than to try to live up to the things you expect of our new store, And we will do just that-and we want you to know that though we have a grand new store, new in design, color, fixtures, and lighting, we will always be the same old friendly West Texas bunch inside, wanting to serve you.

Thanks again

#### **Bulganin Fires Culture Chief** In Russ Shakeup

LONDON & — Soviet Premier Nikolai Bulganin today fired Min-ister of Culture Georgi F. Alex-

The Moscow radio said Alexandrov was sacked on Bulganin's recommendation "because he failed to ensure the leadership of

the Ministry of Culture."
N. A. Mikhailev, ambassador to Poland, was appointed in Alexandrov's place.
Alexandrov was known in Mos-

cow as a friend of Georgi Malenkoy, recently deposed premier, Alexandrov twice was in serious difficulties during Stalin's lifetime for deviations from the Kremlin

He was the wartime chief of propaganda of the Communist party. His troubles came after the war in 1947 and 1949

But he avoided purge and made a comeback while Malenkov was premier.

While heading the Communist party's propaganda administration e onde criticized writer Ilya Ehrenburg for his "hate Germans campaign.

The war had just ended and the Kremlin had decided to try to convert Germany to Soviet communism. The Ehrenburg line, intended to make Soviet soldiers boil at the very sight of a German soldier or civilian, no longer suited Stalin's needs.

Alexandrov got into further trouble later. He was condemned by Politburo member Andrei Zhdanov for showing too much respect for Western European philosophers in a textbook he wrote.

#### Styled For Ruggedness

an unusual styling departure, Chevrolet gives its various series 1955 truck models distinctive designs. This is the front-end of one the heavy-duty models with a single massive element dominating the grillo. Roomier cabs, increased visibility and "Safety Steps" are among scores of improvements to all the 75 models on 15 wheelbases. The new commercial vehicles go on display Friday at Tidwell

#### Shivers Hits Gas, Smoke Tax Foes

AUSTIN UM-Harsh words for erty taxes up to \$1.50 per \$100 foes of his gasoline and cigarette evaluation for maintenance purtax boost proposals flew at a news

to "sabotage" the highway program. He said an effort by Army the committee he figured the bill brass to say the cigarette tax would authorize a tax increase of boost would harm relations be-

'absurd." Shivers called Capitol newsmen into conference to say he thought the Legislature would solve the state's money needs, that the session was generally making good progress, and that he was hopeful of a compromise on water legis-

After potshooting at opponent of his plan to boost cigarette taxes one cent a pack and gasoline two cents a gallon, the governor said he has already told the lawmakers that if they have a better plan of their own, they should give it a

But Shivers made it clear again that he is certain new taxes will be needed-at least 30 million dollars a year for the General Revenue Fund alone.

House and Senate committees

continued working far into the night on tax and other pending bills. A bill to raise the present ceiling on local school taxes won Senate committee approval while Shivers was telling reporters that public school costs will continue to mount and will have to be paid for somehow.

The proposed cigarette tax increase would remove the present exemption on sales at Army posts. This was assailed at a public hear-ing last week by Maj. Gen. Edward H. White, commanding officer of Sheppard Air Force Base at Wichita Falls and Earl H. De Ford, retired Air Force general of

Shivers' comments were sharp He said he wondered if opposition stemmed from the "high command f the Army "high command of the people. He said he was trying to find out if such opposition to a state tax proposition was "Pentagon poli-

The governor also suggested that opponents of the gasoline tax boost might be seeking to "sabotage" the better highways program it would finance. Shivers said he would be "surprised" if there was any sort of compact among House members to defeat the gasoline tax increase. "If so it is a serious threat to our highway system," the gover-

against the gasoline tax.

Both the gasoline and cigarette tax bills are in subcommittee. The governor also urged passage of a strong bill regulating the sale of securities now exempt from state supervision.

Shivers said holding or trust companies—such as some now dealing in unstable uranium and nsurance stocks - must come under control of the securities division of the Secretary of State's office.

A securities bill has been passed by the Senate and awaits House

action. -The House in an afternoon ses sion approved another bill in a series aimed at making marriage and divorce laws tougher. This one, by Rep. DeWitt Hale of Cor pus Christi would allow a judge to name an attorney to represent minor children whose parents are involved in a divorce suit.

The House also advanced, bu failed to give final approval to a bill to license opthalmic dispensers-those who make and sell eye glasses, artificial eyes and lenses The bill must come up again for final action.

The local school tax measure approved in Senate committee is by Sen. A. M. Aikin Jr., Paris. It

1. Permit issuance of building oends in an amount up to 10 per ent of the total tax evaluation of property within a school district and levy of whatever property tax is necessary to retire the bonds. 2. Permit levy of additional prop-

NEW 198-HP MONTCLAIRS PROVE THEIR NEW SUPER-TORQUE BY PICKING UP SPEED ON 28% GRADE AT TEST-TRACK IN DEARBORN, MICHIGAN

## NEW 198-HP BEAUTY PICKS UP SPEED

CLIMBING 28% GRADE \_

More power where it counts from Mercury's new Dual-Exhaust SUPER-TORQUE V-8 engine

There's a lot of talk about horsepower these days. The numbers go up and up. But what does all this extra power do . . . for you behind the wheel?

This picture tells part of the story. There's so much power delivered at the wheels of this new 198-hp Mercury Montclair that you can actually pick up speed while climbing the steepest hill you can find. This is one graphic way of demonstrating the kind of instant super-torque power you have at your command in every 1955 Mercury.

More top speed is of little value to most motorists. Cars already can go far faster than most legal speed limits. You want extra power in the normal, everyday speed ranges where you do 95 per cent of your driving.

And that's exactly where the 1955 Mercury concentrates its new performance. Pickup and passing power has been boosted in all the most-

used speed ranges. Test-track comparisons between 1954 and 1955 models show average acceleration increases as follows: from 0 to 30 miles per hour -30 per cent greater, 0 to 60 miles per hour-22 per cent greater, under passing conditions (30 to 60 miles per hour) -22.5 per cent greater.

Used properly, this lightning-fast power gives you an extra margin of safety to use where and when you need it most. And to add to Mercury's margin of safety-there are new, 20% larger brakes that stop you faster than before. Also adding to your driving safety is ball-joint front suspension -further improved this year to give you easier, steadier turning as you take curves and corners.

We've said nothing about styling-and now there isn't room. But Mercury's all-new, lower, longer bodies are speaking for themselves right now at your dealer's. Why not stop in-soon!

#### A Bible Thought For Today

Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much. (James 5:16).

#### Editorial

#### Mr. Justice Harlan Confirmed

When the Senate at long last finally got round to confirmation of the nomination of John Marshall Harian as associate justice of the Supreme Court to replace the late Robert Jackson, there was nothing to it. The verdict was 71 to 11.

The Republicans-Langer of North Dakota and Welker of Idaho-joined nine Southern Democrats in opposing the nomi-nation. The nine were Eastland, Stennis, Ervin, Hill, Johnston (SC), Thurmond, McClellan, Russell and Smathers,

Considerable opposition to Harlan came from those who didn't like the fact that he was once identified with one of the various "world government" outfits, and they were afraid he might be inclined to feel that a treaty could overrule the Constitution and domestic law.

But that probably wasn't what caused the nine Southern Democrats to vote against his confirmation. It was his grandfather, who served longer on the Supreme Court than any man except John Marshall himself-34 years, from 1877 to 1911. Justice John Marshall Harlan, the original, cast the only vote against the court's 'cree.

historic decision in 1896 holding that "separate but equal" school facilities should be provided for Negroes,

Once more the question of segregation is before the Supreme Court, which last year decided it was unconstitutional. But the court has been holding off the formulation of ways and means of effectuating desegregation because of Jackson's death, and many Southerners felt in view of the nominee's family background he might cast the deciding vote on a harsher program than the court might otherwise de-

In any case, nine Southern senators undoubtedly expressed the sentiments of their constituencies when they voted nay, and it is equally certain they were influenced by his background rather than by his momentary flirtation with a "world government" group,

The new Judge Harlan comes from the beach of the Second Federal Circuit in New York, and is regarded as very able. His advent should hasten the momentous decision the court must hand down respecting implementation of its desegregation de-

#### Fate Of Land Program In Balance

All the \$100 million in state bonds to finance veterans land purchases has been exhausted, and no more money is available. The land board has not accepted any new applications since last July.

Thanks to the proliferating scandals over administration of the special fund, it probably would be a cold day in August before the people would approve any doubling of the original fund, as has been proposed.

Accordingly, the recommendation of the investigating committee that legislation aimed at liquidating the veterans land set-up be considered makes sense. The matter of collecting payments on the loans the collectors have been having a pretty tough time, incidentally-would be about all that remained to be done. By liquidating the program now it should be possible to save some money by getting rid of surplus em-ployes, and whatever office expense there

Opposition to killing the program insofar the future is concerned is expressed the new land commissioner, J. Earl Rudder of Brady, appointed to take over the department when Land Commissioner Bascom Giles resigned before beginning his new term. Rudder, now a reserve brigadier general, thinks the program should be continued and that the state wouldn't lose any money be extending it,

If the Legislature finally decides to extend the program, it should take more care in drawing up the necessary legislation than was exercised with the original law. Carelessly drawn legislation was blamed largely for the scandals that broke regarding federal housing financing, too. (Of course greed, avarice and dishonesty seemed to have played most important roles.)

It should be possible to set up adequate safeguards against the abuses of the cur-rent veterans land act. "Block deals" seem to have brought on most of the shenanigans that have been brought to light, and these should be carefully defined and safeguarded against fraud,

Also, perhaps an independent, instead of an ex-officio, board should be set up to administer the law. The governor, the attorney general and the land commissioner simply don't have time to devote to the chore, as Governor Shivers and Attorney General J. Ben Shepherd have pointed out,

#### Marguis Childs

#### Yalta Revelations Called A Bad Blunder

WASHINGTON - While it is still too early to appraise the ultimate damage, there is already ample evidence that release of the Yalta documents at this particular moment was a bad blunder, Whether it was more than that the days just ahead will tell.

After Secretary of State John Foster illes had denied they would be given out, the Yalta papers were precipitously released. The documents were made public on the eve of the most-delicate phase of German ratification of the Western ropean agreement. In France publication of the secret documents at this point can have only an adverse effect.

As for domestic politics, the situation is lit'e changed. The Republicans say the official papers prove everything they have been charging against the Democrats since Yalta first became a curse word. The Democrats reply that they are glad the myth has been dispelled by facts, which show that there was nothing sinister in the negotiations and that Alger Hiss was only a minor participant. In politics, as the old saying goes, you pays your money and you takes your choice. But the repercussions abroad, on our

friends and on our foes who have become our friends, cannot be minimized. At a moment when diplomatic negotiation and the prospect of a big-power meet-ing are the slender hope of easing tensions threatening another shooting war, the United States releases the text of secret talks over the firm protest of Sir Winston Churchill, the only one of the three leaders who took part in that conferences still living. In the view of many Europeans with whom this reporter has talked that be the most serious damage donethe impairment of confidence in private

4 Big Spring Herald, Tues., March 22, 1965

discussion at a moment of perilous uncertainty.

While the accords moved through the upper chamber in Bonn with greater ease than had been expected, there are still many steps to be taken before rearmament, and the consequences in Germany can be serious. A review of the pu documents shows that much of the material on Germany was already known to the Germans. It was known, for example, that the Treasury had put forward a plan to reduce conquered Germany to an agricultural status. The Germans also have known that the Big Three at Teheran discussed the execution of 49,000 German officers and men as soon as the war should

But they did not know until publication of the documents that President Roosevelt at Yalta in a "bloodthirsty" mood had again raised the question of the execution, upping it from 49,000 to 50,000. Communist broadcasters in Eastern Europe have been beaming this into Germany ever since the text was available. Nor did the Germans know that the Big Three at Yalta had, in effect, declared that no step should ever be taken to rearm Germany because this would lead to a third world war,

That is disclosed at the moment when West Germany and France, after four years of persuasion and prodding, are on the point of taking the final plunge to rearm within the framework of the North Atlantic alliance, But at the same time the implacable foes of rearmament in Germany, the Social Democrats, had been claiming the necessary outside support to put the Western European protocols in the supreme court for a test that could take many months.

If Germany delays, the Council of the Republic, the upper chamber of the French Parliament, will have a welcome excuse to postpone what it is not eager to do in any event. That is to approve the accords which have already been ratified in the National Assembly. Time is running out in France, with the Easter recess coming up and then an election just over

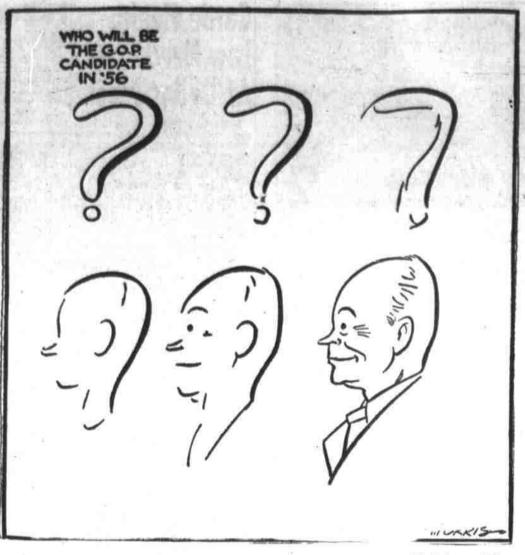

the horizon. The worst fears of those who are dismayed by the sudden action of the State Department may not be realized. Some Europeans are quite philosophic about the disclosures of the Yalta documents. They say that it is a momentary tempest in an old and slightly cracked teapot. But the damaging fact is that Secretary Dulles has once again shaken the confidence of America's allies. And he has put a propaganda stick in the hands of America's en-

#### White Could Have Crossed Color Line

WASHINGTON II—Walter White that the Trumanites had given up, "It's the hope and the optimism could have "crossed the line" and he staggered back as if he had passed himself off as a white man. been hit by a baseball bat. Tears He looked like one, But he chose to sprang into his eyes.

"It's the hope and the optimism that have kept him going."

On the night the Supreme Court outlawed segregation, this writer

down in recent years. Before that he looked like a romantic. His felhis energy was endless. He was a
man on a lifelong crusade; the advancement of his race.

He dressed well, he was witty,

quick, emotional and, this writer thought, so optimistic that he sometimes blinded himself to realities. But he lived to see much of his optimism justified. As executive secretary of the Na-

tional Assn. for the Advancement of Colored People (NAACP), he became one of the most effective forces in American history for the progress of Negroes.

If ever a man died in the hour of triumph, it was White. He died last night at 61 of a heart attack, 10 months after the Supreme Court had outlawed segregation in the nation's public schools, North and South.

White, as a Negro boy in At-lanta, was horrified by race riots he saw. In this country a few Negro intellectuals have looked to communism to bring the advancement they wanted. White, like the vast majority of

his people, put his faith in a democratic society. He worked the hard way: to end segregation and discrimination by legal means, not by violent means. He lectured and wrote on racial

problems. He worked to push the political parties into plugging for discrimination, particularly in the civil rights. He endlessly protested discrimination, particularly in the government. He lived to see segregation ended in the armed forces,

For more than a quarter of a century he testified before conressional committees and lobbied to get civil rights laws through Congress. His poorest luck was in Congress. Southern senators could always filibuster civil rights bills Years ago the NAACP learned it

put more of its efforts in that nature. filibuster occurred. The Truman

administration had promised that rights laws. After a couple of days pretty nice.

#### Farmer Worse Off Than Stock Investors

The dip of the stock market has reselved quite a bit of publicity recently and aroused some concern in the minds

of politicians and high level economists. This concern is probably justified in the light of the developments in 1929, but it seems to me that another area of the national economy deserves as much, if not more, attention. I refer to the plight of the farmer.

For instance, in 1946, farm income in the U. S. was 20 billion dollars and represented 12 per cent of the total national income. Since that time, the farmer's percentage of the national income has been steadily declining.

In 1948, farm income jumped up to 24

billion dollars but represented only 11.6 per cent of the national income. In 1951, it slipped to 23 billion and only 9.4 per cent of the total, and in 1954, the dollar amount was back to 20 billion and down to 7.2 per cent of the total national in-The farmers had a net income of 12

billion dollars in 1954 and a four per cent drop to 11.5 billion is expected in 1955. Apparently, the top level advisors, economists, and politicians are not too excited over this condition. Yet, they wring their hands when the stock market makes a minor slip.

I don't know how many persons are directly affected by the stock market decline, but 31 million families who live in rural areas are closely tied to the farm condition. Almost one-third of the population is directly affected by the drop in farm

For comparison purposes, the Dow-Jones industrial stock average cost was \$212 in

1946 and had almost doubled to \$419 in 1955. This is the highest stock average in history and indicates prosperity, except for the discouraging figure of the farmer, He now has the smallest per cent of the national income in history. With the farmer's income dropping and his costs higher than his income, some concern appears necessary. Even with a

small profit per acre, the farmer could still come out shead by planting a large crop. But his production is limited by the government. The unpopular allotment quotas have put some farmers off their farms because they were not allowed to produce enough to make a profit. The problem is not an easy one to solve, but it certainly demands the same attention as the stock market, Many only re-

member that the stock market crash precipitated the last depression. But the farmers were in a state of depression all through the 1920's following World War I. or as a better comparison, in much the same shape as they have been since World

If the condition of the stock market is a good indicator of a coming depression, how much better is the state of the farm-

#### Winchell Tips On Stocks, Buys Bonds For Self

Bonds are good enough for Winchell . Three school teachers, Secretary of the Treasury Humphrey, prayers and political slugging . . . Arthur F. Burns, the President's economic adviser, proves to be a prophet.

Could it be that Walter Winchell is a tipster's tipster? That's what the Senate Banking and Currency Committee inquiry suggests.

Winchell tipped Pantepec Oil on Sunday, Jan. 9. It had closed the Friday before at 6%. It opened up 2% points on 357,000 shares the next Monday, This was the largest number of shares ever traded in a single transaction on either the New York or American Stock Exchange.

Pantepec hasn't seen that price since. Obviously, persons who bought on Winchell's say-so have paper losses. But persons who sold did very well. Who were these persons who sold?

A week before Winchell gave his advice to the stock-lorn, Pantepec trading soared to 170,000 shares. The week before that, trading came to only 20,000 shares. Assumption: There was heavy buying by shrewdies preparatory to making a killing. Is Winchell being used?

Incidentally, Winchell says he never buys stocks for himself — only government bonds. Apparently, what's good enough for his radio and TV audiences isn't good enough for him.

Prayers help, but they're no substitute for good, hard political slugging. Secretary of the Treasury George M. Hum-

phrey has found that out. The morning he was scheduled to testify before the Senate Finance Committee on the Democratic proposal to permit \$20-a-

person tax reduction, Mrs. Humphrey call-ed him to the telephone:

"Here's a call you'd better take, dear," she said. Humphrey wiped the shaving lather from his face, picked up the phone. A

female voice said, "Mr. Secretary, there are three of us in on this call. We're all school teachers. We wish you well in your fight to balance the budget."

"Thank you, thank you very much," said Humphrey. "And, Mr. Secretary, when you testify before the Senate Finance Committee today, if the right answer doesn't come to

you, keep silent for a minute. Don't

say anything. Our prayers - the prayers of all three of us - will tell you what to

Their prayers were answered. Humphrey won the support of Democratic Senators Walter F. George (Ga.) and Harry F. Byrd (Va.), That wasn't enough, however, When the Democratic leadership changed

strategy and modified the proposal so as to bring in offsetting revenues-Humphrey had to go out and slug for votes. Word went round that President Eisenhower might veto. That would mean that corporations would get extra relief. Their rates would drop April 1 to 47 per cent from the present schedule of 52 per cent. The Republicans could then accuse the Democrats of making a \$1,500,-000,000-a year tax gift to big business. That's slugging - political slugging.

Arthur F. Burns, chairman of Prests dent Eisenhower's Council of Economic Advisers, is always quick to disclaim prescience. Over and over again he has belittled the capacity of men to prophesy. Nevertheless, he doesn't do too bad a

In the Economic Report, released in January, were these words: "The prospects for plant and equipment expenditures are. .. uncertain; however, rising orders for machinery, to say nothing of the new plans and revision of old plans that are likely to accompany continued recovery, give a basis for expecting that this broad category of expenditures will soon join, though perhaps only modestly at the start, the general economic ad-

The report of the Securities & Exchange Commission and the Department of Commerce, just released, confirms this statement. It shows that overall plant and equipment expenditures in 1955 are expect ed to rise from \$26.8 to \$27.0 billion, or about 1 per cent.

Even more to Burns' point, outlays of the manufacturing industry, which were off 7 per cent from 1953 to 1954, will be down only 3 per cent this year. And in the second half, the drop is expected to be only 1 per cent, as compared with 5 per cent in the first half.

Here is the modest improvement the Economic Report indicated. The rate of decline is declining. It's even possible that in the fourth quarter a rising trend

#### Hollywood Review

Bette Gives Nary A Hoot For Glamor

HOLLYWOOD ( The queen is back, so naturally I had to pay homage to her. I'm speaking of Bette Davis, who long reigned over dramatic films until her voluntary exile to Maine. Perhaps the greatest and most consistent actress ever developed by the movies, she is back in Hollywood for a brief stay.

Fittingly enough, she is playing a re-gal role in "Sir Walter Raleigh." As she was in "The Private Lives of Elizabeth and Essex" with Errol Flynn in 1939, she is Queen Bess again. But this time the queen is portrayed older, more bitter and haggish.

Bette has never given a hoot for glamor, and she is throwing caution to the winds in "Raleigh." When I saw her on the set, she was wearing virtually no makeup, so that her face had a washedout look. Her hairline had been shaved back three inches and a red wig placed atop her head,

She is even submitting to a shock scene in which she'll show her head to be completely bald. No, she isn't carrying reality so far as to shave all her locks. It will be accomplished by makeup mag-

Bette is being well paid for her trouble. It's reported she's getting \$35,000 a week for a minimum of three weeks, plus \$25,000 weekly if her role runs overtime. I'd be surprised if that isn't a record for

Bette will stay over to present the award

#### Microphone Professor

CONCORD, N. H. US-Prof. Edmund Cortez of the University of New Hampshire was invited to address the state House of Representatives.

The professor stepped up to the House microphone, and gave the lawmakers a five-minute dissertation on the proper use of a microphone,

for the best actor at the Academy Awards next week. Then she'll bustle back to her home in Portland, Mc.

"Now that I've begun again." she said. "I expect I'll be coming back for pictures more often. It wasn't easy to start in again after three years away,"

#### Potomac Fever

WASHINGTON-When you see a worried man reading the newspaper these days, you're not sure whether the stock market fell five points or his phone number was read at the Jelke trial.

The biggest secret of the Yaita papers is how the Democrats forgot to give them away to Russia too.

Postmaster General Summerfield returns a 2,400-year-old Greek comedy he seized for being too sexy. Said the bird to the bee: "How happy are we! I'm as riskproof as thee." Premier Faure of France fights a tax-

payers' revolt. In France it's the government, not the taxpayer, who is broke after taxes. In the U.S., it's both,

Senator Fulbright defends his investigation of the stock market. Democrats aren't against prosperity. They just want it on their own time.

The Census Bureau says only four per cent of married couples live with their in-laws. The other 96 per cent prefer to pick on somebody their own age.

Americans for Democratic Action hold their annual convention in Washington, An ADAer is a progressive immoderate, That's a fellow who races backward into the future, so he won't be scared to death by where he's going.
