

Texas Official Hits Federal Gas Control

WASHINGTON (AP)—A Texas official said today federal regulation of natural gas producers "is sure to result in both short supply and higher prices."

Ernest Thompson, a member of the Texas Railroad Commission, expressed this view to the House Commerce Committee.

Thompson endorsed a bill by Rep. Harris (D-Ark) to exempt from federal control producers selling gas to interstate pipelines.

The committee is in its second day of hearings on this and other bills dealing with natural gas.

Members were to resume questioning Chairman Jerome Kuykendall of the Federal Power Commission (FPC) who yesterday took a stand against continued federal control of the gas producers.

The Supreme Court held last year that the commission has authority under the 1938 natural gas act to fix prices producers may charge for gas sold for interstate distribution.

President Truman vetoed a 1950 attempt by Congress to exempt such producers from FPC control. The FPC then ruled it didn't have power to regulate the producers. But the Supreme Court decided otherwise in a case involving the Phillips Petroleum Co.

Thompson declared the FPC "was compelled under that decision to exercise its jurisdiction right down to the wells of even independent producers who had no connection by ownership with interstate pipelines, thus in effect putting these independent producers in the public utilities status."

Rep. Heselton (R-Mass) who favors federal control, said 63 per cent of the gas going into the pipelines is sold by 30 producers, mostly big oil companies.

Thompson argued that passage of the Harris Bill is necessary to assure continued exploration for natural gas. He added:

"Many producers — yes, thousands of them — sell gas to interstate pipeline companies, and they do not wish to be classed as a public utility, because the risk is so great in the search for oil and gas that the public utility rate of return would not justify their continuing in business."

Under the Phillips decision, Thompson said, the FPC and state conservation agencies "could and do come into direct conflict in exercising their respective duties."

He continued:

"The public interest today lies in finding more oil and gas. Federal control of gas at the wellhead means federal control of oil... which is produced simultaneously and as an integral part with gas. Unless a law such as this bill by Mr. Harris is passed, we are going to see the search for oil and gas inhibited, decreased, and certainly the interstate marketing of gas by men who are primarily oil producers will be deterred."

"All these factors mean, with demand for gas increasing almost astronomically, that federal control will shrink the actual and potential supply, and under the almost elemental economics such a situation is sure to result in both short supply and higher prices."

Award To Big Spring

Big Spring's traffic safety award is presented to George Oldham, right, by Homer Garrison Jr., director of the state's Department of Public Safety. The award was made because Big Spring had the best safety record of smaller Texas municipalities during the year 1954. Oldham, executive secretary of the local Citizens' Traffic Commission, was in Houston at a banquet of the Texas Safety Association for the presentation.

Cosden Ranks First For Vehicle Safety

The Texas Safety Association closed out its annual convention at Houston Monday, with presentation of awards for best records in industrial safety.

Cosden Petroleum Corporation was recognized with a first place rank in the Group II refinery division of facts. This is for the safety record of vehicles assigned to refinery operations in the "medium-sized" category. The Wicket refinery won a similar award in the Group I, or smaller, division.

Awards in the industrial division were made by George Carmack, city editor of the Houston Press.

Scientists Set Final Ruling On Vaccine

NEW YORK (AP)—April 12 is the date and Ann Arbor, Mich., the place for a jury of scientists to give its verdict on the value of the Salk polio vaccine.

The announcement will be made by Dr. Thomas F. Francis Jr., of Michigan, head of a team which has been analyzing the results of Salk vaccine trials involving nearly two million children.

The April 12 news conference... to answer the worldwide question of whether the Salk vaccine signals the end of polio—was announced last night. The date and place were given out jointly by Basil O'Connor, president of the National Foundation for Infantile Paralysis, and Dr. Harlan Hatcher, president of the University of Michigan, after a conference here.

O'Connor and Hatcher gave no hint whether the vaccine protects children — or how well—but there is widespread optimism that Salk vaccinations can end paralytic polio.

Physicians and scientists from all parts of the nation have been invited to the April 12 conference, which will come on the 10th anniversary of the death of the polio-stricken President Franklin D. Roosevelt.

The National Foundation for Infantile Paralysis sponsored the vaccine research by Dr. Jonas E. Salk, of the University of Pittsburgh, and the extensive tests at the University of Michigan.

If the report on the tests is favorable and if the vaccine is licensed by the National Institutes of Health, about 18 million persons, mostly children, are expected to receive vaccinations this year.

Material for nine million vaccinations for all children who are in private and parochial schools and also some in the third grades will be provided by the polio foundation, which will meet the expense.

2 Incumbents Seek School Board Posts At Colorado City

COLORADO CITY — With the Colorado City school board ballot scheduled to close at noon on Saturday, only the two incumbents have filed as candidates.

Thurston Smith, 51, manager of the Buford Co-op Gin, has served since the present seven man board was set up in 1950; and served on the Buford School District board for six years prior to 1950.

Lon Strain, 66, farmer and rancher, won his first elective term in 1952, but had served out the unexpired portion of Frank Kelley's term. Kelley resigned a few months before the April election. Strain had served in the Fairview community near Cuthbert as a school-board member for 16 years.

Board members are elected for three-year terms.

City Filter Plant Building Is Insured

The City of Big Spring has insured its recently remodelled filtration plant for \$50,000 protection against fire, hail, wind, etc.

Cost of the insurance is \$5.70 per thousand, which means the annual rate will be \$342. The building has actual value of \$75,000, according to the local Insurance Agents Association, and insurance is for 80 per cent.

The insurance is taken out with the association and is on the building alone. Insurance up to this time has been maintained by contractor, Kasch and Sons.

It Dewed, Too

PORT HURON, Mich. (AP)—During a rainstorm, the Dew Drop Inn slid down an embankment into Anchor Bay.

Ike Sees No Gain In Fighting Yalta Battle

WASHINGTON (AP)—President Eisenhower, commenting on publication of the Yalta papers, said today there is nothing to be gained by going back ten years to try to show whether someone may have been wrong.

The President told a news conference he personally never questions any man's motives. That was in reply to a question as to whether he believes the participants in the 1945 Yalta conference were sincere.

Eisenhower was asked whether he believed publication of the Yalta documents by the State Department last week might "cramp the style" of the leaders of nations at any future big power conferences.

The President replied that he hoped that would not occur.

Too Much

Gen. Alfred Gruenther, Supreme NATO commander, said American air-atomic power could defeat the Soviets now. He added the German military buildup in a few years can help the allies prevent the Reds from overrunning Western Europe. He spoke before the Advertising Council in Washington. (AP Wirephoto).

He'll Do No More Cattin' Around Now

WASHINGTON (AP)—Quietly, Mr. White closed his one blue eye and one green eye in death today.

He was 19 years old. Until the last two weeks he had apparently been in excellent health.

He had enjoyed contentment and the good life since 1941 when he recovered from an illness from an infection of two years duration. During that time he was treated at Johns Hopkins Hospital at Baltimore at the request of Jesse H. Jones, Houston publisher and then chairman of the Reconstruction Finance Corp.

He was the patient of the famed Dr. Hugh Young.

Mr. White's health became a matter of national concern. His story and picture were widely circulated. Hundreds of letters and telegrams wishing him a speedy recovery came from all over the nation and foreign countries to the Washington home of Mr. and Mrs. Bascom N. Timmons, where Mr. White lived.

Timmons announced today that Mr. White had passed on to where-ever is the promised land of good cats, domestic genus, short-haired variety.

Odessa May Get \$450,000 Bank

AUSTIN (AP)—An application to form a new \$450,000 bank in Odessa has been made with the state Banking Department.

The institution would be the American Bank of Commerce, said J. M. Falkner, banking commissioner.

The bank would have capital of \$200,000, surplus of \$200,000 and undivided profits of \$50,000, Falkner said.

H. McWhirter of Monahans, will be chairman and L. W. Morton of Odessa president.

Other directors were listed as A. C. Bassett, M. O. Boring Jr., R. O. Canon, I. W. Lovelady, Lester Morton, W. D. Noel, E. G. Rodman and Woody Sewell, all of Odessa.

Girl, 5, Bears Tale Of Nightmare

ST. LOUIS (AP)—A taxi driver picked up 5-year-old Mary Sparks, who was walking down a snow-covered street at 2 a.m., barefooted and in a nightgown. He took her to a police station.

There she told officers she had dreamed her house was full of bears and left to get away from them. "I was afraid to come back because I'm afraid of bears," she said. She was returned to her mother, who assured her there weren't really any bears.

Early Birth

MARINETTE, Wis. (AP)—Mrs. James Thunis had a baby girl in an ambulance stuck in deep snow between here and Menominee. Mother and daughter were doing fine at the hospital they didn't reach in time.

\$1,530,957 City Budget Approved

Public Stays Away From Open Hearing

City commissioners last night approved a \$1,530,957 municipal budget for the 1955-56 fiscal year.

The budget, which was the same as had been tentatively approved two weeks ago, was adopted following a public hearing attended only by the press.

Estimated 1955-56 income is pegged in the budget at \$1,432,392, which is \$98,565 less than will be spent.

However, the fiscal year — beginning April 1 — will start with an estimated \$263,100 in the city treasury. This will absorb the overage and leave an estimated balance of \$164,535 to start the next fiscal year.

The 14-million budget represents an outlay of approximately \$700 for every person living in the City of Big Spring.

The budget calls for "tight" operation during the year. City Manager H. W. Whitney stated that it provides only for the minimum requirements necessary for acceptable service.

New equipment to be purchased includes a garbage collection unit and a police motorcycle. Ten department heads will receive salary adjustments, and three new employees will be hired.

Commissioners last night discussed the need for income other than that listed in the budget so that other equipment and salary raises could be provided.

It was decided that operation under the present budget will be studied for approximately three months before an attempt is made to obtain more income. Raising garbage collection rates and water costs has been discussed.

The possibility of additional income resulting from a property re-evaluation program also was voiced, and Commissioners Willard Sullivan and Curtis Driver have been appointed to meet with school officials concerning the program.

The budget lists estimated assessed property valuation at \$18,300,000. The city's share of \$1.53 per \$100 places the tax levy at \$28,250. Of this \$308,025 will be collected, it is estimated.

A re-evaluation program could mean more tax collections.

The outlay for the year calls for the following expenditures: \$670,988 for water and sewer department operation (\$120,000 to the general fund); \$601,242 for general operation; \$51,322 for parking meter upkeep (\$17,000 to the general fund); \$13,502 for airport operation; \$11,856 for cemetery operation; \$22,650 for swimming pool and golf course operation; \$48,860 for garbage operation; and \$110,495 for payments and interest on bonds and warrants.

A breakdown of the \$601,242 to be spent out of the general fund follows: \$69,985 for general government costs; \$243,340 for public safety; \$98,969 for streets and alleys; \$122,660 for health and welfare; \$23,145 for parks and playgrounds; \$8,860 for warehouse, and \$4,055 for franchise meters.

Another \$10,208 will be transferred from the general fund to cover deficits in the airport fund, which will have loss of \$5,092, and the cemetery fund, which will have loss of \$5,116.

Estimated gross income for the fiscal year is as follows: \$602,050 from water and sewer department; \$376,442 from general fund revenues (taxes, licenses, fees, etc.); \$42,500 from parking meters; \$8,410 from airport; \$6,550 from cemetery; \$21,385 from swimming pool and golf; \$62,370 from garbage operation; and \$112,485 to the interest and sinking fund from taxes and parking meters.

Actually the estimated net or real income is only \$1,210,572. The \$1,432,392 gross figures result from transfers between various funds.

The \$576,642 estimated income in the general fund, for example, includes \$129,000 transferred from the water and sewer fund as an expenditure plus another \$17,600 from the parking meter fund as an expenditure. A total of \$22,450 is transferred from the parking meter fund (as an expenditure) to the interest and sinking fund (as income). The \$62,370 income in the garbage fund also comes from other funds.

1 Way Traffic Starts Friday

Third and Fourth Streets will be opened to one-way traffic Friday at 6 a.m.

Announcement of the traffic change was made here yesterday by J. C. (Jake) Roberts, district engineer of the State Highway Department.

Third Street will handle west-bound traffic under the one-way system, and Fourth Street will handle eastbound traffic.

Traffic signal lights will be completely installed for the new system by Friday morning, said City Manager H. W. Whitney. Installation will be completed Thursday night.

One-way markers have already been installed at all intersections along Third and Fourth Streets, but they are now covered.

Paper will be removed from the signs early Friday morning so that motorists can read correct directions, said Sam McComb, highway maintenance superintendent.

Police are expecting to be on duty directing traffic, and cooperation of all motorists is urged.

Topping of Fourth Street was completed here only this month, and some repairs were effected on Third Street. The two streets are arteries of Highway 80 through Big Spring.

Roberts was here to inspect the work Tuesday, and it was then that he informed City Manager Whitney and Chamber of Commerce Manager J. H. Greene that the one-way traffic would be turned loose Friday morning.

He had previously told Greene that two-weeks notice would be given on the opening. However, he said Tuesday that it was not feasible to delay the one-way traffic system.

The two streets have been open weeks now, and it has been pointed out that there is considerable danger of accidents at the intersection.

Calendar Of Events Set By C-C Panel

A number of forthcoming special events for city-wide participation were discussed at a meeting of the Chamber of Commerce merchants committee Wednesday morning.

A major observance endorsed was National Cotton Week, scheduled for May 9-14. Lee Bullen was named chairman of a special committee to direct planning for this event. He will start organization soon, calling in all interests affected in the cotton promotion.

The merchants committee also designated April 16 as traditional Straw Hat and Summer Shoe Day.

The group voted for observance of the customary six holidays in Big Spring: Memorial Day, May 30 (Monday); July Fourth (Monday); Labor Day, Sept 5 (Monday); Thanksgiving Day November 24; and Christmas Day holiday December 26 (Christmas falls on Sunday this year). Also New Year's Day, 1956 on the Monday following.

There was discussion about a holiday on November 11, lately declared Veterans Day by President Eisenhower. Big Spring in former years observed the old Armistice Day, later dropped it from the holiday list for Memorial Day. The group Tuesday morning voted to delay action on observance of Veterans Day until later in the year.

A report was heard on preliminary plans for an "Easter Parade" for children, on April 10. Details of this program are directed by Mrs. Eva Pyeatt.

About 25 attended the meeting. J. B. Wiginton is chairman of the merchants committee.

They Just Want The Bald Facts

COLUMBUS, Ohio (AP)—Bald members of the Ohio House have called for an inquiry into the price of haircuts.

Their resolution yesterday noted that barbers charge 25 cents extra for crew, butch or flat-top haircuts and suggested barbers could shave their prices for those with little, if any, hair on top.

Proposing that the nine sponsors make the investigation, the resolution read:

"In view of the premium... it is altogether commensurate with justice, equity and fair play that a reciprocal reduction of price be effected for those of us who through no fault of our own, are endowed with that badge of experience and ability called baldness."

Ysabel Lopez Back In Jail

Ysabel Lopez was returned to the county jail today to await trial on assault with intent to murder charges.

Lopez' \$1,500 bond was ordered forfeited last week by District Judge Charlie Sullivan when the defendant failed to appear for trial. He turned himself in at the sheriff's office this morning, claiming that he had been attempting to reach Big Spring from Colorado for the last four or five days.

Lopez is charged with assaulting Luis De Los Santos on Dec. 24, 1954.

Obscene Phone Call Check Being Made

In response to inquiries about obscene anonymous telephone calls, District Attorney Gil Jones said Wednesday that such offenses are covered by the Texas penal code. Appropriate penalties are prescribed, he said.

A complaint made to authorities and the telephone company said that an anonymous individual, ostensibly a 'teen' age, had been making obscene remarks and then promptly hanging up the receiver. An investigation is being made.

ADEQUATE SERVICE ASSURED City Commissioners Approve Laying Of Huge Water Pipe On East Side

College Park Estates Addition, crossing Highway 80 about 1,700 feet east of Birdwell Lane.

Plans call for possibly extending the pipe westward along Second Street then to join present water pipes. This would make a complete loop around the east side of town.

The Howard County Water Control and Improvement District will join an eight-inch pipe leading to Coahoma onto the main supply artery.

Point of junction would be at the place where the 20-inch pipe crossed Lovers' Lane—just at the east end of the Monticello Addition.

The commissioners agreed to the installation of the huge water pipe provided the Coahoma water district, Otis Grafa and John Little will pay their portion of the cost.

Grafa is developer of the portion of Monticello Addition through which the pipe will cross, and Little heads up the interests developing the College Park Estates Addition.

Bellamy stated that the cost to the water district would be \$31,000. This assessment would be only for the cost the district would have to bear if the minimum eight-inch line required for Coahoma service was installed. It was pointed out. Cost to Grafa would be \$8,900. This assessment would be only for a six-inch line which developers are required to install. Cost to Little would be \$6,700, on the same basis.

This would leave \$28,400 which the city would pay. City Manager H. W. Whitney pointed out that the line would take a big load off a supply line now leading down Birdwell Lane, and commissioners agreed that it would assure adequate service to the east area in the future.

The Birdwell Lane line would be free to service the new Ward Hall Addition as well as the Stanford Park and other additions east of the Junior College, it was pointed out.

The new line would service a south extension to Monticello Addition which Grafa is fixing to build. Commissioners approved extension of the addition last night. The plan calls for development of 183 additional lots.

Bellamy reported that Grafa has already sold options on some 100 acres and is grading the area now. Grafa has indicated that he is ready for installation of a water line as soon as possible.

Little, too, has indicated that he is ready to pay his share for installation of a water line in the new Moss Addition now being developed, it was reported.

The water pipe will allow better service to the area between Fourth and the railroad tracks also when the loop is completed, it was pointed out.

THE WEATHER

BIG SPRING AND VICINITY: Fair and warm with gusty southerly winds today. Partly cloudy and cooler tonight and Thursday.

HIGH today 78, low 60.

WIND today 10 to 15 mph, gusts to 20 mph.

WINDY

Family Slain

Dr. Ben T. Galbraith was quoted by County Attorney James Whyte in McAlester, Okla., as saying he killed his wife, Mary Katherine and their three children (above) last Thursday in the McAlester home. Mrs. Galbraith and the children, Jere (left), Sarah Ann, 4, and Frank, 7, (right), were found dead in their burned home. (AP Wirephoto).

Accused Medic Calmly Reads Of Family's Deaths

McALESTER, Okla. (AP)—Dr. Ben T. Galbraith, confessed killer of his wife and three young children, calmly read details of his confession in a newspaper after his transfer to jail to await arraignment scheduled today. The arraignment will be on a murder charge stemming from the bizarre deaths in the family's five-room home last Thursday. The 34-year-old former president of the Pittsburg County Medical Society remained under heavy guard last night. Pittsburg County Atty. James P. Whyte announced the confession yesterday morning after Galbraith was returned here from Henderson, Tenn., where he was arrested. He was at the Henderson home of his socially prominent mother after attending the burial of his family at Bells, Tenn., his wife's former home. He constantly professed innocence during the train trip to McAlester but broke down under questioning.

His confession told of hitting his wife over the head with a vermilion bottle and injecting a shot of morphine. It was then, he said, he decided to kill the children by morphine injection. "They still were breathing and I couldn't set the house afire and wake them up," he related. Then, he said, he gave each a shot of insecticide containing nicotine and set about starting fires throughout the house by using inflammable fluids such as turpentine, kerosene and paint thinner. He said he then drove to Norman, returned to McAlester and made a hospital call about 9 a.m., feigning surprise when a nurse mentioned the tragedy to him. After the confession, Whyte asked Galbraith if he wanted anything. "Yes, I have one favor," he replied, "I would like to die as quickly and privately as possible." Whyte said it was the findings of four men which led him to issue a murder warrant. The four were Howard Cowan, editor of the McAlester News-Capital; Fire Chief Ernest Rager; Sheriff Dee Sanders; and Trooper Andy Bidwell. A broken glass syringe and a bent hypodermic needle were found near the body of Mrs. Galbraith, whose head bore a severe cut. Another syringe with blond hair on it was found near one of the children's beds. Cowan found a letter which Galbraith said contained his motive. It read, in part: "Despair, frustration, restlessness. All this haunts and tantalizes me. I have sudden yearnings to be alone, away from everything that moves, feels or reacts. . . I would like to kill myself but I retreat from this. Behind all this trouble I suspect is fear of poverty which I remember having as a child."

Supreme Court Sets Segregation Session

WASHINGTON (AP)—The Supreme Court may devote a full week, beginning April 11, to hearing suggestions on when and how to order an end to racial segregation in public schools. In announcing yesterday that the court would begin hearing arguments next month, clerk Harold H. Milley said a full week might be required if all interested parties use the full time allotted them. The arguments had been scheduled for last Dec. 6, but were postponed after the death of Justice Robert H. Jackson. A full bench of nine judges will again be available when Jackson's successor Judge John Marshall Harlan takes his place on the court next Monday. Racial segregation in public schools was unanimously ruled unconstitutional by the court last May 17. The court called for the new arguments on how best to put the decision into effect.

Poetry Brings Trial For Murder To Youth

PONTIAC, Mich. (AP)—Poetry by 16-year-old Floyd Diamond, punched out on a typewriter in Oakland County Jail, helped a court decide that he should stand trial for murder. Because of his age, Floyd might have escaped prosecution, although he admitted the fatal stabbing and beating of 8-year-old Kathleen McLaughlin Feb. 17. Her body was found in a pond near her home in suburban Farmington Township. At a sanity hearing yesterday, Dr. L. Jerome Fink and Dr. Ivan A. LaCore declared that the youth is sane and knows right from wrong. Circuit Judge George B. Hartwick then decreed Floyd would have to stand trial as an adult on a charge of first-degree murder. The doctors said Floyd was subject to "temper tantrums" and lacked capacity to "withstand frustration." But they agreed that several poems written by the curly-haired underaged youth at the jail helped convince them that he is not mentally deficient. The poems were written to Sheriff Frank W. Irons, who has befriended Floyd. One concluded with: "And when God rewards you, 'I'll be filled with joy 'For the good things you did 'For a mixed-up boy." Another said: "The love of a dog, or a pony, or cat. 'The love of a mother, or something like that. 'With some one like you I could not have strayed, 'You would have showed me the way. 'And I'd have obeyed." Floyd's parents were divorced when he was 3. The father, with whom he lived, has since remarried. Sheriff Irons called Floyd the product of a broken home who lacked in "religious training, a moral outlook and in kindness and love."

Below the graphic, it lists various features like "New North Star in the Hollywood Sky" and "Help Yourself to More Spices". At the bottom, it says "HERALD NEXT SUNDAY AND EVERY SUNDAY For convenient home delivery Dial 4-4331".

Leaders Await Ike Statement On Big 4 Call

WASHINGTON (AP)—Diplomats and political leaders looked to President Eisenhower today to clear up his administration's attitude toward Sen. George's call for an early meeting with the Russians. Official Washington has seldom produced such evidence of seeming confusion as that which erupted at the State Department and the White House yesterday. With the day's results in, two possible explanations appeared possible: 1. The White House and perhaps even more Secretary of State Dulles were anxious to use kid gloves in handling George, Georgia Democrat who heads the Senate Foreign Relations Committee, even though they did not fully agree with his views, or— 2. The State Department and the White House did agree with George but were reluctant to develop a position too rapidly lest they lose some bargaining power with the Soviets over terms and conditions of a meeting. Most State Department officials were convinced there was a real difference between George and the Eisenhower-Dulles position but they were equally persuaded that the administration would do everything reasonable to overcome the appearance of a difference. Dulles obviously must depend on George to help put over his projects in the Senate.

Critical Condition

LOS ANGELES (AP)—Theda Bara, one of the top stars of silent films, remains in critical condition in California Lutheran Hospital. Now 62, she is suffering from an intestinal disorder.

Power Talks Seen As 'Isolation' Danger

WASHINGTON (AP)—Sen. Knowland (R-Calif.) said today the United States faces "the great danger of being isolated by appeasement-minded allies" at any big power conference to end the cold war. The Senate Republican leader said he opposed the suggestion of Sen. George (D-Ga.) for what Knowland called an "open end" conference. He defined that as one in which no advance evidences of good faith would be required from the Soviets. Knowland said in an interview he fears any meeting in the near future would find the free world allies badly divided. "Some of our allies are appeasement-minded," he said. "They have demonstrated this by their suggestions that Quemoy and Matsu be turned over to the Chinese Communists as part of the price for a cease-fire in the Formosa area. "We would face the great danger of being isolated by these appeasement-minded Allies in any conference. While fighting for our principles we might be presented to the world as the one nation standing in the way of a settlement, even though it was one of appeasement. "There is no evidence the Russians would use any high level conference other than for propaganda and procrastination. They certainly have not indicated in any past conferences they are willing to act with any sincerity." Sen. George, chairman of the Foreign Relations Committee, has called for a Big Four conference of heads of state, perhaps this year. He attached only one condition—prior approval of the West European defense setup including a rearmament Germany. Knowland, emerging from a White House meeting yesterday, said that is not the position of the Eisenhower administration. He said it will continue to insist on some evidence of Communist sincerity as a prelude to such a meeting. A later succession of statements from the White House and State Department left considerable confusion as to just how close George and the administration are. George, indicating he was sticking to his views, commented that the officials would have to "reconcile their statements." Sen. Humphrey (D-Minn.) said George "has broken the logjam" with his Big Four idea, "putting our nation on a psychological offensive." Sen. Barkley (D-Ky.) said he felt that at such a conference "the worst that could happen would be failure," and he added: "These continuous grimaces between the East and West, the making of faces at each other across the world, are not contributing to peace. The world's leaders have sat down in the past and brought about some constructive results." Sen. Hickenlooper (R-Iowa) said he was opposed to any "town meeting." "We should have evidences of good faith in advance and there should be an agreed agenda before any high level conference is held," he declared. Senators Mansfield (D-Mont.) and Fulbright (D-Ark.) stressed what they said was the need of preliminary diplomatic negotiations. Both said they felt the administration is not doing enough groundwork in that field. Sen. Capehart (R-Ind.) was one of the few Republicans to endorse George's proposal. "I don't know why a conference shouldn't be held," he said. "It seems to me the Big Four could sit down on neutral territory and talk these problems out. I'm sure President Eisenhower would well uphold the American viewpoint and he would not come out on the short end."

Testimony Begins In Dallas Rape Trial

DALLAS (AP)—Testimony began today in the rape trial of Billy Houston, 28, accused of raping the wife of a Dallas oilman. Dist. Atty. Henry Wade will ask the death penalty, he said yesterday. Houston was captured in the victim's yard after losing a pistol duel with policeman W. H. Hilliard. The woman, 40, was robbed of \$5 and raped, Jan. 27 by a man who wore a silk stocking over his head.

Fire Ruins Planes

TORONTO, Ont. (AP)—A five-million-dollar fire destroyed four specially equipped test aircraft and experimental instruments in two hangars at Malton Airport yesterday.

Demos Carry Tax Cut Fight To Committee

WASHINGTON (AP)—House Democrats carried their fight to cut everybody's income taxes to a Senate-House conference committee today. All signs indicated the move is doomed. The conference committee tackles the one sharp difference between tax bills passed by the House and Senate. In the House, Democrats pushed through, by a 210-205 vote, their plan to give a \$20 annual tax cut to each taxpayer and each dependent, starting Jan. 1. They tied this to an Eisenhower administration bill to continue corporation and excise tax rates for one more year. Under present law these rates would drop by three billion dollars a year on April 1—just eight days away. The Senate defeated the \$20-a-person tax cut by a 61-32 vote. Then it passed the extension of corporate and excise tax rates, as strongly urged by President Eisenhower. Highly placed House Democrats said they had little or no hope of getting Senate members of the conference committee, or the Senate itself, to change their stand against a tax cut. Thus, they conceded privately, they eventually will have to yield and accept the Senate bill to avoid the threatened big revenue loss from lowered corporate and excise taxes.

Oil Pay Hikes

PITTSBURGH (AP)—Plymouth Oil Co. and its subsidiary, Big Lake Oil Co., will give four per cent pay increases to its employees retroactive to March 1.

Large advertisement for Old Crow whiskey. The headline reads "A PICTORIAL HISTORY OF OLD CROW" and "The Greatest Name in Bourbon". It features several historical illustrations: Daniel Webster greeting Washington Irving in 1845, Mark Twain asking a bartender which barrel to use, Gen. John Hunt Morgan writing about Old Crow, and Gen. Winfield Scott and Henry Clay at a dinner. The ad promotes Old Crow as "now milder, lower-priced!" and lists various bottle types like 86 Proof and 100 Proof. It also mentions "Imported Recipes for Favorite Desserts" and "Help Yourself to More Spices" from Family Weekly.

'International Choir' To Sing Here Tonight

The 37-voice Wayland College Choir of Plainview will sing at 7:45 p.m. today at the East Fourth Street Baptist Church. The group, which includes vocalists from Hawaii, Japan, Mexico and Greece as well as the United States, is on its seventh annual tour. The interna-

tional choir will sing at Lamesa, Odessa and Midland while in this area. It also sang at the Baptist World Missions Conference in Fort Worth this week. The director is William E. Stewart.

Ex-Call Girl Tells Of Threat By Officers To Take Away Child

NEW YORK (U)—Red-haired Virginia Dee says she told authorities about her call girl career and links with Minot F. (Mickey) Jelke after a warning that otherwise her child would be taken away.

Miss Dee, 23, was the second call girl witness put on the stand in the state's case against Jelke, being tried for the second time on compulsory prostitution charges.

She told about a meeting in Jelke's apartment where she said an associate of his arranged to get her sex dates for a 30 per cent cut of her \$100 fee.

When Jelke's attorney asked her why she had revealed her past, she broke into tears that stopped the trial.

She said she tried to hide her story when first questioned by Asst. Dist. Atty. Burton B. Roberts after Jelke's arrest in 1952. She said he then told her "if I didn't talk, my child would be taken away from me."

"I didn't know what to do," she added and broke into violent sobs. Court was recessed until she could regain control of herself.

In answer to further questions by defense counsel George W. Herz, she said she loved her child, then 4 months old, and was panicked by the idea that she might lose her.

Under cross-examination, she acknowledged having sex relations with a number of men but declined to say whether she ever had a sex date with Robert Merritt, a convicted procurer.

She said she worked for Merritt, but when asked about sex relations with him, refused to answer, citing the Fifth Amendment and saying a reply "might tend to incriminate and degrade me."

Miss Dee has been divorced since Jelke's first trial, at which she also testified. Jelke, heir to oleomargarine millions, was convicted then of inducing call girl Pat Ward, now 21, into prostitution and of trying to do the same with another girl, Marguerite Cordova, 25.

This verdict was set aside by an appeals court which ruled that the playboy, now 25, has been denied a fair trial because the press and public were not allowed to hear the state's case.

As Jelke and his lawyer left the courtroom, papers were served on them in connection with a \$500,000 slander suit started against them by actor John Carradine. He claimed his name had been brought into the trial by the defense "without reason" and as a result he had lost two television engagements.

In cross-examining the state's first witness, Pat Ward, Herz had asked if she knew Carradine. She testified she had met him but never had any dates with him.

Industry Expansion, Inflation Called Stock Boom Causes

WASHINGTON (U)—Bernard M. Baruch said today the main causes of the stock price boom are a vast expansion of industry and "the cumulative effects of the inflationary policies which have been followed over the past decade and a half."

"If any economic danger threatens today, it will be found not in the stock market itself but in the effects of this inflationary heritage," the 84-year-old retired financier and adviser to presidents told the Senate Banking Committee.

Baruch, the final witness in three weeks of public hearings on the state of the market, came out strongly against any tax cuts now. Just as strongly he urged a bigger defense buildup.

The tall, white-haired financier, who made millions in Wall Street, said the stock market is largely a mirror of the whole economy and the economy now is dominated by the cold war.

"Much of our weakness in foreign policy has come about because some people believed that the economy could not stand what is necessary for defense. With this

view I am in total disagreement." "The burden of our national debt," he said, "would be hardly one half of what it is now if effective measures to prevent inflation had been taken at the outset of both World War II and the Korean War. Our whole economy would be in a healthier state if taxes had not been reduced so hastily after each of these two wars."

Dulles Asked To Tell Who Bared Yalta Agreement

WASHINGTON (U)—Sen. Humphrey (D-Minn) called upon Secretary of State Dulles today to disclose "who is responsible" for giving out a copy of the long-secret Yalta papers.

Humphrey said in an interview he had written Dulles also asking whether the confidential stamp had been removed from the papers at the time an undisclosed source gave a copy to the New York Times.

"I will await a reply from our secretary of state before deciding whether to pursue this very important matter further," said Humphrey, a member of the Foreign Relations Committee.

Bitter partisan debate on release of the politically controversial papers kept the Senate in session several hours after its normal recess hour last night, with Humphrey demanding:

"What kind of security system do we have in the State Department? Who is the spy in the State Department?"

The department declined comment.

Humphrey noted that Dulles had said March 14 that the papers would not be made public for the time being because national security was involved. Only a day later, he said, someone gave a copy to the New York Times. Dulles then released generally, a week ago today, the previous secret report on the 1945 Big Three conference.

In New York, the Times had no comment. It had reported earlier that it was offered a copy of the papers March 14 if it would agree to publish them in full. It did so last Thursday morning.

Sen. Bridges (R-NH) told the Senate he agreed with Humphrey there "must have been an unauthorized leak." He said he would be glad to help find out who was responsible.

Crews Resume Recovery Of Plane Victims

HONOLULU (U)—Ground crews resume today the grim and hazardous task of removing charred bodies from the wreckage of a big Navy plane which slammed into a mountainside yesterday, killing all 66 persons aboard.

The remains of 21 victims were brought down the almost perpendicular slopes of the Waianae Range by nightfall yesterday. Operations halted then because of the treacherous descent and heavy rains.

The Navy R6D crashed about 15 miles northwest of Honolulu early yesterday in darkness and rain. The plane, operating under the Military Air Transport Service, was returning to Hickam Field after developing radio trouble on a flight to Travis Air Force Base, Calif.

Nine crewmen and 57 passengers perished when the four-engine plane hit the bare face of Pali Kea peak, about 200 feet from the top. Col. Willis Bond, commander of the 150th Air Force Wing, said there was no known explanation for the tragedy. The pilot was eight miles off course, although visibility was good—despite the heavy rain—and the engines seemed to be functioning normally.

Bond said a military inquiry would be held.

Eyewitnesses indicated the pilot saw the 2,500-foot peak just seconds before the crash. One said the pilot tried to bank away, "but it was too late."

Authorities said it might be several days before all bodies are recovered. It takes at least two men to bring each body down the rain-slick hillside.

Among the victims were three members of one family—a young Navy man, his wife and their 3-year-old daughter. Teleman J.C. Nathan Webb, of Louisville, Ky., was bringing his family home after two years in Japan.

One serviceman missed certain death because he didn't hear the loud-speaker ask passengers to board. Pvt. Robert A. Kemp, of Davenport, Iowa, was eating in the Hickam base cafeteria when the call was made.

Cancer Society Plans 'Crusade'

A district meeting of the American Cancer Society was held in the Settles Hotel Tuesday evening to set up a program for "Cancer Control Month" in April. The Society made plans for an extensive educational program and crusade during the month.

Mrs. Ruth Currie, Big Spring, laywoman director for District 2, was in charge of the meeting. Also on hand were Miss Gertrude Linn, director of field activities, Austin; Walter Cannon, also from the Austin field office; J. D. McPhall, Midland, layman director of District 2; and Dick Simpson, Big Spring, who is a member of the executive committee of the Society. Dr. R. B. G. Cowper of Big Spring is district medical director.

District 2 covers 21 counties in this area. Approximately 15 persons from Big Spring, Odessa, Midland, and Brownfield attended the meeting.

6 Texans Among Hawaii Air Dead

By The Associated Press

Six Texans were among the 66 persons killed in the crash of a Navy transport into a Hawaiian mountain top Tuesday. They were: Sgt. Samuel Alvarado, El Paso; Sgt. William Britt, son of Mrs. Betty Britt, 600 S. Florida St., Amarillo; A-1C Willie Harrell, Austin; Sgt. Rexie DeWesse, Delat County; Cpl. William Hendon, Brownwood; Cpl. Cecil Brittain, Shelby County.

Atomic Fireball 10 Miles Away

This is the fireball as seen from 10 miles and released by the Atomic Energy Commission. The detonation was the sixth of the current spring series at the Nevada Test Site. This picture was shot from a 500-foot tower in Yucca Flat. (AP Wirephoto).

Officials Admit Still More Land Evidence

AUSTIN (AP)—Two department heads of state agencies have admitted they still have undisclosed evidence of irregularities in Texas' scandal-ridden Veterans Land Program.

And three war veterans told of their discharge papers and use of their signatures for as little as \$35 in a Travis County land deal.

The one-hundred-million-dollar program, designed to help World War II and Korean War veterans buy farms on long-term, low-interest loans, has been under intensive probe by various state agencies since November 1954.

Hundreds of indictments have been returned against various land dealers, attorneys, notaries, and veterans. Former Land Commissioner Bascom Giles is free on bond after indictment in two counties. One indictment alleges conspiracy to theft. Another alleges acceptance of a bribe.

State Auditor C. H. Cavness and Department of Public Safety Director Homer Garrison Jr. said yesterday they would comply with a request to bare hitherto undisclosed evidence. They appeared before the Senate committee at the request of Sen. Dorsey B. Hardeman, chairman from San Angelo.

Hardeman said he also had

sought the appearance of State Atty. Gen. John Ben Shepperd yesterday but that Shepperd was out of town. He said the official would be asked to appear later.

Cavness said certain information still was in the compilation stage and has not been submitted because it is incomplete. He said he was afraid disclosure of other information he had might jeopardize possible criminal prosecution.

Hardeman said the information could be taken in closed sessions of the committee, if necessary.

The committee took testimony from six witnesses concerning a Travis County land deal under the veterans program and then recessed until tomorrow.

Hardeman said U.S. Rep. John Bell, Cuero, Tex., notified him he will appear before the committee tomorrow to testify in connection with some deals with which his name has been linked.

Bell said previously from Washington that he would testify money paid him in the transactions were proper attorney fees. He is a former state senator.

Witnesses in the Travis County deal were called before the investigators by Sen. Jimmy Phillips of Angleton.

Herbert Box, Georgetown land dealer, testified former Land Commissioner Giles told him there was

nothing wrong with using veterans land purchase rights to buy land for other parties.

Box testified R. K. (Bob) Allen of Leander, Tex., wanted to buy 621.9 acres in Travis County and approached him about contacting veterans to make the purchase in their names under the state program.

Three veterans who took part in the deal told the committee they were paid \$35 to \$40 for their signatures and use of their discharge papers. They said they were promised more money but never received it, being told "the deal didn't go through." They identified themselves as Domingo Frias, Timoteo de Leon and Tomas O. Zavalla.

The land involved was sold by Calcasieu Lumber Co., Austin. Closing attorney was State Rep. Pearce Johnson, Austin, who told the Associated Press his only connection with the case was to draw up deeds. He said he knew nothing of negotiation details.

A spokesman for Calcasieu Lumber Co. said the firm took title from Allen in connection with a debt and that the subsequent sale to veterans was simply a "business matter."

Rancher's Beef: Youths Don't Eat Enough Of It

DALLAS (AP)—Even if they have to use comic books to do it, says a cattlemen's leader, the livestock men are going to teach America's teen-agers to eat more beef.

May be-bop, too, will be recruited into the teen-age beef-eating campaign, said Jay Taylor.

Taylor is president of the American National Cattlemen's Assn. and he spoke here yesterday before the 78th annual convention of the Texas and Southwestern Cattle Raisers Assn.

He told the cattlemen that he was shocked at the eating habits of U.S. teen-agers. Only one fourth of the 15 million are getting the minimum requirements for energy, growth and health, he said.

The Amarillo resident said by letting the teen-agers eat it that the United States could forget its jammed food storage facilities and whether to sell the food to Russia.

"I say let's let our teen-agers eat it," he said. He told of a beef-eating experiment he tried at his home.

"Our children invited their teenage friends over for steaks in the yard. There wasn't a one of those wasp-waisted, sweet-smelling girls who couldn't eat nearly a pound of beef," he said.

And he went on:

"We don't know how we can best reach the teen-age mind—maybe comic books or be-bop. But we must assume our responsibility."

Taylor also told the cattlemen they would have to "change or go broke."

"The little calf, with four or more different owners before it reaches the dinner table, has a long and expensive journey," he said. He added that it would be necessary for everyone in the beef industry to cut costs and streamline operations in order to realize the industry's full efficiency.

He said that already beef promotion, reduction of range and feed-lot costs, and reduction of packing marketing costs were making changes.

He urged increased research, too, with an accent on how to get those 15 million teen-agers on the right track: eating more beef.

Nation's Weather Strikes Staggering Blows, Kills 30

By The Associated Press

Violent early spring weather—much of it wintry—struck staggering blows across wide areas in the eastern half of the nation yesterday. It caused at least 28 deaths.

Property damage was estimated in the millions of dollars. Travel was slowed. Power service was disrupted.

As blizzards whipped across mid-continent areas, rain, sleet and strong winds buffeted large sections of the Eastern Seaboard, tearing down buildings. Floods harassed some parts of the South. A tornado struck in a village area of northern Ohio, injuring four persons.

Winds, which were gale force in Midwest sections, diminished during the night and southwesterly winds were expected to send temperatures above freezing today. The blowing snow, with falls ranging up to more than a foot in some areas yesterday, kept many roads blocked and thousands of cars stalled.

The windstorms, which lashed four states—Michigan, Indiana, Kentucky and Ohio, caused widespread property damage. The National Board of Fire Underwriters said the loss may exceed one million dollars in each state.

Heavy freeze damage to the early fruit crop was reported in Oklahoma, northern Texas and southern Illinois.

Deaths attributed directly or indirectly to the stormy weather included six in Ohio; four each in Illinois and Nebraska; and two each in Connecticut, Michigan, Pennsylvania, Kansas, Wisconsin, Mississippi and Tennessee. At least one child drowned in floodwaters in northeast Tennessee.

Winds also reached gale force in areas of the Eastern Seaboard. A windstorm which hit Princeton, N.J., was described "like a torna-

Women Elect

WACO (AP)—Mrs. Mary Schamberger of Hardin was elected president of the state Woodmen's Circle yesterday. The auxiliary of the Woodmen of the World also chose Mrs. Bess Clark, Tyler, first vice president; and Clara Schroeder, Vernon, correspondent and recording secretary.

Does Her Proud

LONDON (AP)—A reader wrote to the London Daily Mirror: "While I do his homework, my schoolboy son does my (football) pools. I have made some frightful blunders in his arithmetic—but he has done me proud in dividends this season."

Charles Lindbergh Role To Stewart

HOLLYWOOD (AP)—The role of Charles Lindbergh in the movie "The Spirit of St. Louis" will be played by Jimmy Stewart, who will be 47 by the time filming starts July 15 in Paris.

Gen. Lindbergh originally balked at Stewart playing the role because Lindbergh was only 25 when he made his historic nonstop flight from New York to Paris in 1927. But Warner Brothers signed Stewart for the role yesterday.

The studio said all those concerned with making the picture, including Lindbergh, had agreed on him.

Stewart is a former Air Force colonel.

Do It Like This . . .

Mrs. O. D. O'Daniel of the Coahoma Home Demonstration Club knows that electric appliances by themselves won't take the fatigue out of housework. You have to use them correctly, too. In order to be less tired at the end of the day, she is careful to always bend at the hips and knees rather than at the waist.

. . . Not Like This

Mrs. Shirley Fryar of the Fairview Club demonstrates the wrong way to use the body when reaching for a difficult spot with the vacuum. She bends at the waist to show the way many women make housework more difficult than it needs to be.

Combine Housework With Beauty Routine

By MARGIE STEWART
If beauty is your business as it is, say, a Hollywood star's, then you can devote hours to it. But when a home, husband and children are your business then it helps to be able to work in a beauty routine with your regular duties. That's not so hard to do as it might sound at first, and Howard County Home Demonstration Club members have been learning how. One of the beginnings of good grooming, of course, is good posture and the best way to attain good posture is to strive for it no matter what you're doing.

- Home Demonstration Club members will be keeping these rules in mind while they work:
1. Put weight on balls of feet.
 2. Draw in abdomen, pulling it back and up.
 3. Keep shoulders square and high but not hunched.
 4. Pull chin straight back toward collar button.
 5. Flatten hollow of back by rolling pelvis down and back.
 6. Stand tall, sit tall, lie tall and think tall.

Take It Easy

Housework is tiring enough as best, so don't make it worse needlessly. Sit whenever possible, as Mrs. Frank Wilson of the Fairview Home Demonstration Club does when she does the family ironing.

Besides improving your looks, good posture in housework also cuts down fatigue so you have more energy for other activities. And it also gets rid of nervous tensions and irritability, so you enjoy your home and family more. You can't achieve this if you don't have the right working heights. A tall woman, for example, may work best at a 36-inch kitchen cabinet, while a shorter woman will need a lower level.

If you're building a new house or remodeling, that's something to keep in mind. Of course, we can't all put in new cabinets, but we can raise a low sink level by using blocks under the dish pan or on the cabinet. Tables can be put on blocks, too.

Another thing is to use household tools correctly. Don't hunch over to run after the dust mop or broom stand up straight. Don't try to push the vacuum cleaner; the electric power does that. When ironing, don't try to do the job by pushing the iron or pressing down; it's the heat and moisture that iron out the wrinkles. When standing, see that your head, neck, chest and abdomen are balanced vertically. When sitting—and sit as much as you can while you work—keep the body straight from hips to neck—no bending at the waistline. For leaning over don't bend the back. Let the knees or hips do it.

Those taking part in the investiture service were Jan Anderson, Regina Baker, Jeannette Bogard, Sylvia Bentley, Martha Glickman, Linda Kay Harter, Anita Fern Horne and Beth Mead. Leaders receiving pins were Mrs. Herter and Mrs. W. S. Williams. Special guests of members were Wanda Jean Roper, Cheryl Bishop and Janet Roe. Refreshments were served from a table laid with a lace cloth and centered with tall red tapers. Games were played and the group was dismissed with the singing of the Brownie Smile Song.

B&PW Club Has Program On Finland

"Know Your World Neighbors" was the topic of the program given for members of the B&PW Club Tuesday evening at a dinner meeting at the Settles Hotel. Ruth Beasley was in charge of the program, and she was assisted by Mrs. Armour Long. Bonnie Cummins of Midland spoke to the club on "Life in Finland." She has been a community ambassador to that country under the student exchange system. The family with whom she lived were residents of Helsinki. Members were shown pictures of Finland by Miss Cummins. Beasley Love, organization president, urged members to attend the meeting in Lamesa to be held April 3, beginning at 1:45 p.m. Reservations for the luncheon must be in by March 28. Tickets were distributed for the Passion Play, which will be shown here on April 11. Seventeen attended the meeting.

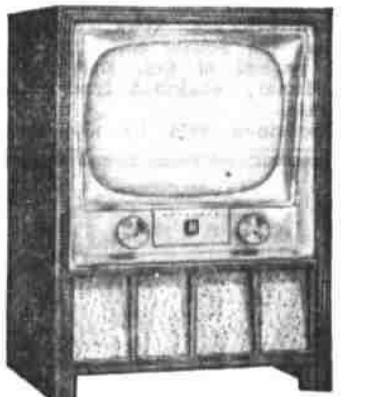

"The Conversion Of The Nobleman" will be Guy Caskey's sermon tonight at 7:30 in the spring revival at the E. 4th and Benton Church of Christ. The public is cordially invited. (Adv.)

Altar Society Has Report On Bingo; Plans Easter Party

A report on the bingo party sponsored by the St. Thomas Altar Society was given at a meeting Tuesday in the church hall. Prizes and refreshments were donated by women of the parish and wives of Catholic personnel at Webb Air Force Base. Bill Sneed called numbers and Sgt. James Linneman took tickets. At the meeting Mrs. James Linneman was appointed chairman for the children's Easter party. She will be assisted by Mrs. K. G. Smith and Mrs. Bob Wilson. A bake sale was planned for April 2 at Piggly-Wiggly beginning at 9 a.m. Anyone wishing to contribute baked goods is asked to call Mrs. James Reidy, chairman, at 4-7116, or Mrs. George Leonard, co-chairman, at 4-8633. It was announced that the theme of the District Council of Catholic Women, which will meet in Big Spring April 21, will be "Women in the Church and Home." The Rev. William J. Moore, pastor, gave the opening and closing prayers. Twenty-one attended.

Spoudazio Fora Sees Travel Film Laid In England

Mrs. James Jones was in charge of the program for the Spoudazio Fora when the club met in her home Tuesday evening. Mrs. Bob Bright was co-hostess. Mrs. Jones gave a commentary on a film dealing with England as it was shown by J. T. Wilkinson. She told members that the ancestor of George Washington had been a neighbor of William Shakespeare in Stratford-on-Avon. It was announced that the club had won third place on the educational report in the junior division of clubs in the federation meeting at Monahans. Mrs. Jones, incoming treasurer, was asked to take the duties of treasurer at the present time. This will fill the vacancy left by the resignation of Mrs. Annabelle Huddleston. Plans for the Federation Tea to be given on April 29 were completed. Members made arrangements for a basket to be taken to a needy family at Easter. Thirteen members attended, with one guest, Mrs. Mike Rainey, being present.

Wolf Family Gathers In Iowa City

Mrs. Lloyd Wolf, Judy, Kaye and Terri, have returned from Iowa Park where they attended a 35th wedding anniversary celebration for Mrs. Wolf's parents-in-law, Mr. and Mrs. J. A. Wolf of Lamesa. The party was held in the home of Mr. and Mrs. Chester Brown and family. Children of the Wolfs and their families attending were Mr. and Mrs. J. A. Wolf Jr. and Sunny Jo, Mr. and Mrs. Ocie Burke and children, Wichita Falls; Mr. and Mrs. Charles Ray and children of Hereford; Helen Wolf of Lamesa. Unable to attend were Lloyd Wolf of Big Spring, Charlie Wolf of Coahoma, Mrs. Frances Moore of Colorado City, Burel Wolf and Calvin Wolf of Lamesa, Buren Wolf of Lincoln, Calif., Mrs. Wilma Walker of Roswell, N. M., Mrs. Wanda Wilson of El Paso.

Rebekahs Honor Founder's Birthday

In recognition of the birthday of Schuyler Colfax, "father of Rebekahs," Mrs. H. F. Jarrett read an article on "Oddfellowship" at the meeting of John A. Kee Rebekah Lodge Tuesday. The meeting was at Carpenters Hall. The group sang "America." Mrs. Viola Bowles concluded the program with a prayer. Twenty-five members attended.

Skit Is Given For Methodist Circle

Mrs. Knox Chadd and Mrs. John Custer presented a skit, "Well at Sychar," for members of the Reba Thomas Circle of the First Methodist Church Tuesday evening. The group met in the home of Mrs. Lucious Saunders. Dr. Jordan Grooms offered the opening prayer, and the Scripture was read by Mrs. Seth Lacy. Dr. Grooms taught the lesson from the book, "The Master Calleth For Thee," by Lady Hosie. Members each drew a name of a shut-in for visiting. Sixteen were present.

Victor Thoremin Mysterious Instrument In Concert

The world's most mysterious instrument, the "Victor Thoremin," will be featured by the Mason Swiss Bell Ringers at the 1st Baptist Church 511 Main St. Big Spring, Tex. TONIGHT at 7:30 p.m. Has no keyboard, strings, reeds or pipes and plays without being touched. Many other novel instruments will be presented, including the sweet toned set of 50 Swiss hand bells. No admission charge. A freewill offering taken.

How High Now, Nurse?

Nurse Catherine Stromis checks the temperature of Bobby Bohner Jr., 6, in a Tulsa, Okla. hospital to find it's down to 101. That's quite a drop from the 108.6 degrees it reached when Bobby entered the hospital with a ruptured appendix. The high reading, 10 degrees over normal mouth temperature, lasted two hours before doctors and nurses could get it down to 106. (AP Wirephoto).

DATE DATA

By Beverly Brandow

Going Steady

Dear Miss Brandow: I am fourteen years old, and I would like to ask a girl who is a little younger to go steady. How do I do it? Duane

Seuse me, but, if I may, I would like to ignore the question at hand for just a moment and interject a bit of sisterly advice. Are you sure you want to go steady? Have you thought the matter over carefully and weighed all of its pros and cons? You've probably heard that fourteen is "too young" from a hundred sources, so let's skip that one. What are your reasons for being so sure that this is the one and only girl you want to date? Have you dated lots of others and found her superior? Or are you freezing onto the first girl you've dated? If she likes you enough to go steady with you, then surely she would be willing to give you a date any time you asked her for one. Right? Going steady then would

not make her any more available than she is now. If you want to give up other girls, you can do it without becoming "steady." It seems to me that you can have all of the advantages of steady dating without giving up your identification bracelet or class ring, or ever having to worry about that fateful date when you'll be faced with the problem of dissolving the "steadiness." Date her as long as you like. When one of you loses interest, you would break up anyway, whether you were "steadies" or not. Just think... if you should meet someone you liked a great deal more, you would have the right to date her without feeling guilty or having to make explanations to anyone. Should you still be certain that going steady is for you, here's how to arrange it. Lead up to it. Tell your girl how much fun she is to be with and that you enjoy her company more than that of any other girl. Then some evening after a date, when you are alone and there is soft music in the background, tell her again how much you like her and it would make you mighty happy if she would go steady with you. Don't force her to make a decision right then. Tell her she may think it over if she likes.

Elks Install New Officers

The Elks Lodge installed new officers and received five new members last night. Oliver Cofer was installed as exalted ruler, succeeding Joe Clark who became alternate representative. The other new officers are C. C. Ryan Jr., esteemed leading knight; Jack Conley, esteemed loyal knight; Milton Knowles, esteemed lecturing knight; R. L. Heith, secretary; Bart Wilkinson, treasurer; and R. H. Snyder, tiler. Clark also was installed for a five-year term as trustee. New members received were James M. Bowen, Roy Earl Hughes, T. A. Underhill, Clyde Rowe and W. H. Wharton.

Duke In Visit

HAVANA, Cuba (AP)—The Duke of Windsor visited with President Fulgencio Batista at the presidential palace yesterday.

Egypt Prepares Report Protest

UNITED NATIONS, N.Y. (AP)—Egypt prepared a strong protest today against the Gaza report made last week by the U.N. truce chief. An Egyptian spokesman said Ambassador Omar Loutfi would voice his government's complaint at a meeting of the 11-nation Security Council this afternoon. Israeli representative Abba Eban also was expected to speak. The report dealt with the Feb. 28 clash at Gaza in which 38 Egyptians and eight Israelis were killed. The truce chief, Canadian Maj. E. L. M. Burns, blamed Israel but said continued Egyptian infiltration across the Israeli border was a major cause of Holy Land tension. Israel was said to be generally satisfied with the report. The Egyptians have been steaming ever since it was presented at the council meeting last Thursday. An Egyptian spokesman, Abdul Mohamed Hassan, said last night that the Egyptian delegation heard Burns' report in "utter amazement." The Egyptians had expected a strong condemnation of Israel.

Dies In Fire

HOUSTON (AP)—Lonnie Ross Sr., 33, retired railway employe, died in a fire that destroyed his apartment yesterday.

State Senate Approves Water Conservation Plan

AUSTIN (AP)—A 100-million-dollar plan for statewide supervision and support of water conservation projects had Senate approval today. The proposal still needs acceptance by 100 members of the House and a majority of the state's voters before it can become a part of the Constitution. The Senate voted 27-3 in favor of the resolution by Sen. Dorsey B. Hardeman, San Angelo, calling for the election Sept. 20 of this year. As approved, the measure suggested by the Water Resources Committee, calls for the state to issue 100 million dollars worth of bonds for creation of the Texas Water Development Fund, to be used as backing for local water conservation projects. The bonds would be retired by property tax of up to three cents per \$100 valuation. A six-member board, to be appointed by the governor with the consent of the Senate, would be created to supervise the funds. Money would be distributed in the form of loans, to be repaid with interest. The Senate also gave preliminary approval to a bill greatly increasing capital requirements for starting a life insurance company in Texas. Final passage still is to come. The House refused for the third time to approve a constitutional amendment calling for mandatory redistricting of the district court system. It debated without reaching a vote on a bill by Rep. J. O. Gilliam, Brownfield, requiring li-

'Fandangle' Feature At C Of C Meet

LUBBOCK (AP)—The Fandangle Sampler, a miniature edition of Al-bany's summer show, the Fort Griffin Fandangle, will be an entertainment feature of the West Texas Chamber of Commerce 57th annual meeting here March 27-29. The convention program includes a Congressional Forum which will present a panel of six U. S. Congressmen from West Texas, addressed by Dr. J. O. Christianson of the University of Minnesota and by Robert W. Kneebone of the Houston National Bank of Commerce. There will be a concert by the Texas Tech Choir, meetings of the six major committees of the regional chamber, and election of new officers. John A. Couch of Haskell is the outgoing president of the WTCC. The Fort Griffin Fandangle, of which the Sampler is a small part, is a summer outdoor show based on the history of old Fort Griffin, the first white settlement among the Indians between Weatherford and Santa Fe. The community got its name from the U. S. Cavalry outpost established after the Civil War 14 miles north of Albany.

Left Behind

NEW YORK (AP)—In the shopping bag of an elderly woman killed by a bus last night, police found \$21,617 in cash and bank books with deposits of \$14,575. The books carried the name Sigrid Tovia.

Gets Medal

BUENOS AIRES (AP)—U.S. Secretary of Navy Charles S. Thomas, visiting here, has received Argentina's Order of Naval Merit.

UNCLE RAY'S CORNER

How many things can you name which insects do for the human race?

As a start for your list, I suggest that you enter the fact that many insects spread pollen from flower to flower. Chief among those which give this service are bees, and in addition we obtain honey from beehives. Honey was used by people long before anyone knew how to take sugar from beets or cane. Further, we may note the silk which comes from silkworms. Silkworms are the young of certain moths.

We also get wax from bees. Honeybees produce wax for honeycombs. In due course the man (or woman or child) who takes care of a beehive will take out the honey, and may use the wax. People knew how to make wax candles in ancient times, and the knowledge has been carried through the ages. When a beeswax candle burns, it gives off less odor than a tallow candle. This is one reason why beeswax candles are favored for use in churches.

It is the old custom to place beeswax in boiling water to cause it to melt. Chemicals are employed to make the wax more pure, and the substance is bleached by placing it in sunshine or by using chlorine or ozone. In some cases, bees have been able to blow out candles. It seems that they never do this on purpose, but it has happened, more than once.

On a hot day some bees stay inside the hive and move their wings rapidly. In this way they cause a fanning action which cools the hive very much as an electric fan will cool a room in a human dwelling. The bees which do this keep the air in good condition for the queen and the young.

The wings move so fast that a strong draft is developed. The draft at times, has been powerful enough to blow out a candle. In addition to being used for

A draft is produced by the wings. candies, beeswax goes into polish and helps in making certain paints. Tomorrow: Pheasants.

Ex-Judge Goes Back To Prison

HUNTSVILLE (AP)—James McMorris, former Martin County judge, was back in the penitentiary today, a 30-day reprieve shortened to a few days.

His temporary, 30-day release was granted last week by Gov. Shivers on recommendation of the Pardons Board because of serious burns incurred by McMorris' daughter, Janet, 5.

McMorris returned to the prison voluntarily yesterday after he learned of protests from his home county over his temporary release. He was sentenced to five years on conviction of theft of \$175.40 from the Grady School District.

McMorris said his wife drove him from Stanton to Midland where he caught a plane to Houston. He rode a bus on to Huntsville.

"The protests were sent in by people who have been bitterly opposed to me politically, and a lot of untruths were stated in the protests," he said. "I hope that in the future they don't have to pay the penalty my family is paying."

McMorris said his daughter was out of danger but would require skin grafts.

TB Association To Meet Thursday

Directors of the Howard County Tuberculosis Association are to meet at 5:15 p.m. Thursday to hear officer nominations, receive the agency's annual financial statement, and for a review of 1954-55 operations. Weddall Parks, president, reported today.

The meeting is called for the Big Spring-Howard County Health Unit offices in the Brad Hotel building. All directors and persons who have been contacted concerning service on the board are urged to be present, Parks said.

Five-Year Plan Has Yet To Pay Off For Bucs

By JACK HAND
FORT MYERS, Fla. (AP)—Branch Rickey's "five-year plan" for Pittsburgh moves into its fifth year this season with Manager Fred Haney still struggling to escape the National League cellar.
Haney, a frank little man who must wrestle with the realities of the present while Rickey deals with the superlatives of the future, does see signs of improvement.
"We're going to be quite a bit stronger," he insists. "We were improved last year but so was the rest of the league. A year ago at this time I was set on only one position—Frank Thomas in center field. Now I'm set at shortstop with Dick Groat back from the army and I think he has improved tremendously. And, of course, I still have Thomas and Sid Gordon."
"With Ronnie Kille back from service and Dick Littlefield available from the start, our pitching should be a lot better. We haven't any remedy for our lack of punch but we won't beat ourselves so often."
"For the first time since I've been here, we are able to bring up men from our farm system who had a good year in the minors. Men like Little Gene Freese from New Orleans who hit .332 down there and Lino Donoso, a left-handed pitcher who won 19 for Hollywood in the Coast League. I never saw Groat before this spring, but he has looked awfully good. We're definitely going to be better."
Haney's words may be small consolation for Pirate fans who have watched the club finish last three years in a row, losing more than 100 games each season. Last year they lost 101 and finished 44 games behind New York.
Gordon, a handyman who can play third or outfield in big league style and still hit .300 at the age of 36, is a sure fire starter along with Thomas, Groat and Shepard. The other jobs are still open.
Freese, the 20-year-old rookie from New Orleans, probably will outstump fielding Curt Roberts (.232) from his second base job and team up with shortstop Groat, the former Duke star who has been in service since his .284 rookie season in '52. Groat Freese, older brother of Gene, is battling for the third base job with Dick Cole (.270). The older Freese hit .324 at New Orleans last summer.

Bovines Defeat Andrews, 9-2

ANDREWS, (SC) — A fourth inning single by J. R. Janese robbed two Big Spring hurlers of a no-hit game as the Steers trounced the Andrews Mustangs, 9-2, in a practice tilt here Tuesday afternoon.
The Steers return to action in Big Spring Thursday at 4 p.m., at which time they tangle with Snyder.
Frosty Robison and LeRoy LeFevre combined to pitch the win against Andrews. LeFevre toiled the last two innings, after Robison tired, and did not give up a hit.
The Mustangs picked up their runs in the first inning as the result of a base on balls and three misplays.
Big Spring had forged into a 3-0 lead in the top half of the inning when the visitors got a base on balls with a hit batsman and singles by Ralph Murphye and Truett Newell. The Longhorns put the decision on ice in the sixth with a six-run outburst, highlighted by Ronnie Wooten's two-on home run.
Jerry Graves paced the ten-hit attack for Big Spring with two doubles.

Al Kloven Scores Lone Steer Win

Al Kloven scored the only Big Spring victory in a dual tennis meet with Snyder High School netters here Tuesday afternoon.
Kloven demolished Joel Tankersly, 6-3, 6-4.
In other singles matches, Roy Brown, Big Spring, lost to Ronnie Pitner, 6-2, 6-0; and David Reed, Big Spring, yielded to Ron Smith, 6-2, 8-6.
In doubles play, Randall DeShan and Jerry Hale, Snyder, won over Barton Grooms and Gary Tidwell, 9-3; and Wade Simpson and Travis Anderson, 6-2, in that order.
Coach Johnny Johnson will take a five-player team to the Odessa Tournament Friday. Making the trip will be Kloven, Reed, Grooms, Tidwell and Brown.

Peoria Cats Play Seattle Quintet

DENVER (AP)—Peoria's champions and other top-rated teams play today in the National Amateur Athletic Union basketball tournament.
The Illinois Cats, titlists for three years, bow in against the Buchanan Bakers of Seattle, Wash., who advanced yesterday by walling Danta Lavell of Cleveland, 79-52.

Cops Offered Help By Class B Teams

Jim Barr, a hurler from Houston, Texas, Manager Pepper Martin signed in a Florida baseball school, arrived Tuesday to begin spring workouts with the Big Spring Coed Cops.
Formal workouts of the team do not get under way until Friday at 10 a.m., and Barr is due to join Tom Costello, Art DiCesare and others to go through limbering-up exercises today and Thursday.
The Cops have only about ten days in which to work out before they open their exhibition campaign against Hobbs, newest Longhorn League entry, here on Sunday, April 3.
Martin revealed last night he had been offered a center fielder and a shortstop by Austin of the Big State League and unspecified player help by Tyler of the same circuit.
Dutch Lorbeer made the offer from Austin in a telephone conversation with Martin. Pepper told him that his needs for an outfielder and a shortstop were critical at the moment.
Hobbs had promised Martin a shortstop but there is no indication he will be able to play Class C ball.
As many as 30 players may be in uniform here Monday, when infielders and outfielders are due to check in.

LOOKING 'EM OVER

With Tommy Hart
The YMCA here invited pro football's famed Doak Walker to its annual banquet but The Doaker couldn't make it because of other commitments.
Among other things, he is serving as one of the instructors in a coaching clinic conducted by his former coach, Rusty Russell, down south.
Though Saturday's victory in Midland was his first in regular competition, the mile record Big Spring's Bobby Fuller broke was his fourth of his career.
Usually, Bobby has had the misfortune of competing against someone a few strides quicker or else he had to run against time and was relegated to a slower heat.
Fuller would, no doubt, have done much better than 4:49.4 in Midland had not been handicapped by knee trouble. If the misery departs him, there's no telling what he'll do, before the season ends.
A hard-luck member of the Steer track and field team is Milton Davis, a half miler of great promise.
Milton was deprived of the chance of competing last year, due to an injury suffered in spring football drills. Last Saturday in Midland, Davis was very much in contention on the last curve of his race when he pulled a muscle in his side and had to fall out.
Coach Harold Bentley is counting heavily upon Guinette Gibbs to develop in the quarter, too. Gibbs didn't run his usual race at Midland but he's got lots of time to develop. He's only a sophomore.
Fathers, if you want your son to succeed in life and he's temperamentally and physically suited for it, raise him to be a jockey.
Though horse racing is a universal sport and the number of top flight horses are legion, you can count the number of A-1 riders on your fingers.
The good ones make up to \$200,000 a year — fellows like Willie Shoemaker, Johnny Longdon, Ted Atkinson, Eddie Arcaro and Eric Guerin.
And the run-of-the-mill riders who are employed at the big tracks make fabulous salaries.

Tex Harper, the former Longhorn League umpire who has been hired by the Texas League, at 26, will be the youngest arbiriter in that organization. Milt Stengraf, 50, is the oldest.
Some fellows find it too taxing to keep statistics on one professional baseball team but Bill Weiss, the Longhorn League's figure filbert, is a glutton for punishment.
The Longhorn is but one of seven leagues which employ Weiss to keep books on its ball players, and Bill does a jam-up job.
Biggest employer of the San Mateo, Calif., resident is the Pacific Coast League.
How he keeps Jim Zapp from, say, pitching for Oakland and Tommy Moran (of San Francisco) pinch-hitting for Big Spring, I'll never know.
In seven leagues, there'll be a minimum of 500 players doing some chore daily that must be encribed into the record books. A mother hen with a dozen curious chicks has it easy, compared to a league statistician.
Bill has only one full-time helper. He must comb figures out of his hair every morning.
Raul Dieppa, who used to perform for Odessa and later was traded to Carlsbad, is getting a trial with the San Francisco Seals this spring.
Tommy Herrera, who used to toil for the Big Spring Broncs (1953), is starting exhibition games for the San Diego Padres.

Letters Awarded Lamesa Cagers

LAMESA, March — (SC) — Names of Lamesa High School Basketball team lettermen, on the A and B teams for the past season, have been released by Coach O. W. Follis.
On the A Team, letters were given to four seniors, six juniors, and two sophomores. They are Wayland Reeves, Joe Boles, Frank Jones and Fred Jones, all seniors. Juniors lettering are Bennie Lybrand, Doyle Chapman, Bobby Seal, Dwayne Powell, Orville Prather and Alvin Cohn. Jerry Jones, a sophomore and E. J. Prather, manager of the team, also a sophomore, make up the twelve A lettermen.
Those lettering on the B Team are Jim Barr, Neil Echols, Billy Gilbreath, Joe Bob Blann, Dennis Lamphere and Glen Haggard.

Baylor Downed

FORT WORTH (AP)—TCU defeated Baylor 4-1 here yesterday in a non-conference baseball game. The Frogs were held to six hits by pitchers Matt Miller and Bill Satterwhite but took advantage of Baylor errors and seven walks.

Tornado Gridders To Open Season In Midland Sept. 9

LAMESA, March 23 (SC)—The football schedule for Lamesa High School's coming football season shows two open dates, one for September 16, and one November 6.
The season will open at Midland September 9 with a non-conference game. El Paso's Austin High School will meet the Tornadoes here September 23.
The first conference game will be played with the Plainview September 30 at Tornado Stadium, followed by a conference game with Sweetwater October 7, played at Sweetwater.
Palo Duro of Amarillo will come to Lamesa on October 14 in the third conference game, as will Big Spring on October 21.
Lamesa's second conference game away from home will be with Levelland on October 28. The Golden Tornadoes will meet Monterey at Lubbock for the first time since they were voted into the I-AAA District last year. The game will be played in Lubbock November 11. Vernon will come to Tornado Stadium November 18 in a conference game. The last conference game to be played will be when

from Austin in a telephone conversation with Martin. Pepper told him that his needs for an outfielder and a shortstop were critical at the moment.
Hobbs had promised Martin a shortstop but there is no indication he will be able to play Class C ball.
As many as 30 players may be in uniform here Monday, when infielders and outfielders are due to check in.

Stadium Purchased By John W. Cox

WEST PALM BEACH, Fla. (AP)—New York's Yankee Stadium—the House that Ruth built—now is the property of John W. Cox, 51-year-old Chicago executive.
Arnold Johnson, owner of the Kansas City Athletics, sold the huge concrete and steel structure yesterday. That brought him within the limits of baseball law, which dictates no owner may have interest in more than one club.
The new owner of Yankee Stadium, built in 1923, during Babe Ruth's heyday, at a cost of 2 1/2 million dollars, is president of the General Package Corp. of Chicago. Ralph F. George, treasurer of that firm, will be secretary-treasurer of the new Yankee Stadium Corp.
Directors will be Cox, L. K. Hanson of the Continental Can Corp., and John R. Kennedy, president of the Federal Paperboard Co.
No sale price was disclosed.

Jayhawks Play OJC Saturday

HCJC's Jayhawks, who have been handicapped by uncooperative weather for the past several days, will make their first baseball start of the season here Saturday, at which time they meet Odessa JC at Steer Park.
Hawk workouts have been limited mostly to hitting practice. Pitchers have had little time to get their arms in shape.
For that reason, Coach Harold Davis will probably use several against Odessa.

40 Teams Entered In Odessa Meet

Big Spring is one of 40 high schools which have entered teams in the West Texas Relays, which will be staged in Odessa Friday and Saturday.
Six universities are entered in the show. They include Baylor, SMU, TCU, Texas Tech, Texas and Houston.

Plans Are Drawn For Cat Stadium

SAN ANGELO (AP)—Plans are being drawn for a \$200,000 football stadium with a seating capacity of 12,000 to be constructed here.
Max Lovett, San Angelo architect, has been employed to draw the plans. Two sites have been recommended for the stadium. One is the abandoned North Concho Airport in the northeast section of the city and the other is a 250-acre tract in Southwest San Angelo.

Gophers Defeated

AUSTIN (AP)—Tom Jungman pitched a four-hit victory over Minnesota for the Texas Longhorns yesterday to give the Orange a 15-1 victory. The Longhorns got 14 hits.

Odessa Defeats Snyder, 5 To 2

SNYDER, (SC) — Odessa of District 2-AA defeated Snyder in an exhibition baseball game here Tuesday afternoon, 5-2.
Three hits and as many walks in the fourth inning provided the four runs that tipped the scales in Odessa's favor.
Snyder collected only two hits off two Odessa hurlers.

Rivera Steals Second Base

Chicago White Sox's Jim Rivera is driving for second base as Milwaukee Braves' second baseman John Dittmer makes this mouth-opening lunge for catcher Del Crandall's wide throw in the second inning of their exhibition game in Bradenton, Fla. Rivera went on to third base on the wide throw. (AP Wirephoto).

Pastrano Tries Andrews In Ten

CHICAGO (U)—Willie Pastrano, 19, a clever middleweight from down South who has been a pro four years, tonight takes on crowd-pleasing Al Andrews in his nationally televised ring debut at Chicago Stadium.

Pastrano risks a string of eight straight victories against Andrews, 26, the Superior, Wis., battler who always sets a fast, bruising pace.

The 10-round bout is the first Pastrano has fought above the Mason-Dixon Line. He is from New Orleans and recently has been fighting out of Miami Beach, Fla., where he plans to make a home for his wife and raise a family. They expect their first child in July.

The youngster has a stinging right and snapping left jab but, like Andrews, is not recognized for knockout power. Because Illinois boxing laws prohibit a fighter under 20 to be matched for more than eight rounds without a special waiver, Pastrano had to get his mother's permission for the Andrews' bout.

Since turning pro Pastrano has fought as a featherweight, lightweight, welterweight and middleweight. He has defeated, among others, Bobby Dykes, Jacques Royes in 35 starts. He lost four and fought two draws.

Andrews is a durable, busy-fisted battler who lost a close decision in his last start to Joey Giardello Jan. 27 at Norfolk, Va.

The bout is scheduled for 10 p.m. EST.

Marion In Hot Seat With Sox

By GAYLE TALBOT
TAMPA (U)—The new American League manager who probably is in the hottest seat this spring is the former great shortstop Marty Marion. He is taking over a club, the Chicago White Sox, which figures to be a contender and will be liked by some of the experts to beat out Cleveland and the New York Yankees.

Marty has had two previous shots at a managerial job, with the St. Louis Cardinals and St. Louis Browns, but this is his first good team. He will be marked for criticism if the Sox do not do at least as well as they did under Paul Richards last season.

He says he is fully aware of this. We asked him what he felt he had picked up in the skills of handling a club.

"If you mean in handling a team during a game, nothing," he said. "You learn all that when you're a player. That is, if you're a good one and normally intelligent. Of course, you're approaching it from a different angle as a manager, and it's a job to learn to make the decisions, just like any other job."

"But the most important thing about managing a ball club is in knowing how to handle the individual players, to get the most that can be gotten out of each man on your roster. I'm thankful that I had last season as a coach under Paul Richards, because I think I learned

a whole lot by watching the tact with which he handled certain situations.

"I don't have too many personnel problems with this team, because it has a nucleus of hard-playing veterans who love the game and are going to give you all they've got every day—men like Minnie Minoso, Jim Rivera and Nellie Fox. If you had a whole team made up of men like that, you couldn't help being a good manager. Fox nearly went crazy when Richards kept him on the bench just one day last summer to give him some rest."

Johnson Displays No Ring Charity

PHILADELPHIA (U)—George Johnson fought for charity last night but he showed none once he entered the ring.

The Trenton, N. J., middleweight, seeking recognition among the top ten 167-pounders, clubbed rugged Garth Panter, of Ogden, Utah, in a one-sided 10-rounder at the arena.

Receipts went to the Deborah Sanatorium, Browns Mills, N. J., a nonsectarian free tuberculosis

hospital. A crowd of 5,424 paid \$28,774.50.

The 24-year-old Panter, a veteran of 74 fights, was made in order for the counterpunching Johnson. The Mormon father of five waded in wide open and right-crossed his way to an easy unanimous decision.

Johnson, 156, spotted three pounds to the stocky Panter as he registered his 39th win against five defeats. He opened a cut along-side Panter's left eye in the second round and drew blood from his nose in the fourth.

Local Girl Tennis Team Smashes San Angeloans

SAN ANGELO, (SC)—Billie Clyburn's Big Spring schoolgirl netters made a smashing success of their invasion of San Angelo courts Tuesday, winning seven of eight contests in their matches with the Bobcats.

The Sterettes' No. two doubles team, composed of Nancy Smith and Nanette Farquhar, lost the only test, yielding to Helen Roberts and Terry Oliver, 7-5, 6-6, 6-4.

In other doubles play, the No. one Big Spring team of Bettie Anderson and Clara Freeman prevailed over Marie Biederman and Jimmie Jennings, 7-5, 6-0; Nita Beth Farquhar and Karla Jo Kesterson, Big Spring, trounced Adams and Carle, 6-3, 6-1; and Dixie Faulkner and Sandra Fox, Big Spring, won over Linda Adams and Georgia Rakagis, 6-0, 6-0.

AMERICANS AFTER 2ND PAN-AM CAGE CROWN

By HAROLD V. RATLIFF
MEXICO CITY (U)—The United States has one Pan-American basketball championship in the bag and probably will win another one tonight.

The women's team took the title last night with a 62-43 triumph over Chile. Tonight the men's team is likely to set up a championship if it downs Venezuela.

There still are some problem-facts in the men's division. Brazil defeated Mexico 65-59 last night to clinch at least a tie for first place. The United States and Argentina will tie Brazil if they win their remaining games—the United States against winless Venezuela and Argentina against Cuba tomorrow. In that event the championship would go to the United States under the point spread system.

A loss by either the United States or Argentina, however, would mean a champion playoff. Under the rules adopted for this tournament, and which the United States voted against, a playoff will be necessary if two teams tie for the championship, but the point system will be used if three tie.

Should both the United States and Argentina lose, the championship would go to Brazil, but neither is expected to come close to dropping their final games.

The tournament ends tomorrow night and if there is a 2-way tie for the championship these teams will meet Friday for the title.

Under the point-spread system, the United States will wind up with

In singles competition, Bettie Anderson, Big Spring, prevailed over Marie Biederman, 6-3, 6-2; Dixie Faulkner, Big Spring, turned back Ilene Boyd, 9-7, 6-0; Karla Jo Kesterson, Big Spring, trounced D'Ann Carle, 7-5, 6-1; and Nita Beth Farquhar downed Terry Oliver, 6-1.

In an added match against Sonora, Big Spring netters won two of three matches.

Faulkner and Fox lost to the combination of Lennie Mayhew and Vickie Archer, Sonora, 6-3, 6-4; but Nita Beth Farquhar, Big Spring, outlasted June Lyles, 6-0, 6-2; and Karla Kesterson, Big Spring, trounced Lyles, 6-0, in singles play.

Eight Big Spring girls will make the trip to Odessa this weekend to play in the annual tournament there.

They include Bettie Anderson, Dixie Faulkner, Clara Freeman, Nanette Farquhar, Nancy Smith, Sandra Fox, Karla Jo Kesterson, and Nita Beth Farquhar.

a plus 25, Argentina with a minus 3 and Brazil with minus 25, if the three teams tie for first place, thus giving the title to the United States.

The United States women's team was magnificent in beating Chile and winning the championship last night. It was the American lassies' seventh straight triumph and left them three games ahead of the second place teams—Brazil and Chile—with only one game left to play.

The United States women's team can wind up as the only team from that country to go through the Pan-American games undefeated if it beats Canada tomorrow night.

Mrs. Lurlyne Mealhouse and Ruth Cannon led the Americans to victory over Chile for the clinching triumph. Each scored 19 points. Mrs. Mealhouse, who tops the tournament in scoring with 121 points, got 14 of her tallies from the free throw line in 21 attempts. Miss Cannon racked up eight field goals.

Except for the first period, when Chile tied at 9-9 it was pretty easy going for the Americans. Once they led by as much as 21 points. The only Chile player able to register in two figures was Irene Velasquez who made 17 points.

In another women's game, meaning nothing in the championship race, Mexico beat Brazil 66-50.

In addition to the United States, Venezuela game tonight, Mexico and Canada play in the women's division.

Dressen Says Bums Are Best
By ED WILKS
The Associated Press

Chuck Dressen, the manager who walked out on a pennant winner, figures the Brooklyn Dodgers would have won the National League flag again last season if he had been around. And this season, says he, they'll do it even though he's still not with them "unless they break their arms."

Dressen, who managed last year at Oakland, now bosses the Washington Senators in the American League. But his faith still is with the Brooks.

"They should win it easy," he said yesterday. "They've got all the stuff they need. A lot depends on the pitchers, of course. They're there and you've got to get it out of them."

And with those compliments out of the way, Dressen and the Nats proceeded to nudge Brooklyn 4-3 in a 16-inning exhibition game.

But getting back to the Dodgers' failure last season, Dressen said, "Even with the injuries they had enough stuff on the bench to win. I knew those fellows better; could have gotten more out of them."

The Brooklyn tied Washington 3-3 in the ninth when Junior Gilliam came home on Duke Snider's squeeze bunt. But Jesse Levan's pinch single broke it up in the 10th after singles by Roy Slevers and Tom Umphlett and an intentional pass had loaded the bases.

Brooklyn's "B" squad beat the Kansas City Athletics 10-9.

The Boston Red Sox broke a 1-1 tie with four eighth-inning runs to beat the Pittsburgh Pirates 5-4. The Pirates nicked Ellis Kinder for four hits and a walk in the ninth, but fell short when Roby Atwell grounded out with the winning run on base.

Cleveland held the Chicago Cubs to two hits, but walks and errors gave the Bruins a 3-2 decision. Howard Pollett blanked the Indians on one hit through the first five innings. Cleveland got its runs on a pinchrunner by Dave Prose in the sixth off Rookie Jim Brosnan.

The Cincinnati Redlegs got to Bobby Tiefenauer for four runs in the ninth, but couldn't catch the St. Louis Cardinals, who scored five on five hits in the last two innings for a 7-6 victory.

Patricia McCormick Leads Assault On Swim Crowns

MEXICO CITY (U)—The United States took dead aim at three more swimming championships in the Pan-American Games today, and in the case of diving queen Patricia McCormick, of California, the old story of sticking by the champion still held good.

The 26-year-old Pasadena artist captured the three-meter springboard crown and led the United States to a sweep of the first three places in the event yesterday.

On tap late this afternoon in the National University's ornate Olympic stadium were gold medal finals in the 400-meter freestyle and 100-meter backstroke for men, and the 100-meter freestyle for women.

Basketball, baseball, water polo and other sports continued today.

The U.S. women's basketball team, led by Lurlyne Mealhouse and Ruth Cannon, each with 19

points, whipped Chile 62-43 and won the Pan-American championship.

The United States has only to defeat winless Venezuela tonight to annex the men's basketball title, thanks to an upset victory by Brazil over Mexico last night 65-59.

The U.S. over-all unofficial scoring continued to soar. The count for the top teams today stood: United States 1,081½, Argentina 467½, Mexico 296½.

Queen Patricia of the diving ranks won the three-meter title with a total of 142.42 points. Pressing her closely all the way through the 10-dive schedule were Jeanne Stunyo, a Detroit University freshman from Gary, Ind., and Emily Houghton, from Purdue University at Lafayette, Ind.

Jeanne scored 137.41 points and Emily 133.12.

Parks Brothers Decision Shire And Wallace Team

The goody may die young but Herb and Bill Parks are around to tell about it after their victory over the combination of Roy Shire and Bobby Wallace at the local wrestling arena last night.

It took a while to get things going their way, but the North-Bay,

Ontario, clan combined to flip the Evanston, Ill., combination in the spotlight event.

The two used up 24½ minutes in the final fall to get the nod, using a series of body slams and presses to soften up the opposition.

The brothers had won the initial fall in just 4:10 with a knee drop and press, but Shire and Wallace came back to even matters in 3:05 of the second fall.

Mark Lewin remains a favorite of the crowd but he fell out of favor with the referee in his semifinal match with Tony Morelli. Lewin refused to quit fighting after the bell had sounded and the arbiter saw fit to give the nod to Morelli, who wouldn't win a popularity contest here.

Morelli had won the first fall in 18:23 with a body slam while Lewin came back to even matters in 3:15 with a series of head punches.

In the opening match, Bill Parks trounced Wallace with a drop kick and body pin.

Pels Triumph

COLLEGE STATION (U)—The New Orleans Pelicans of the Southern Assn. whipped Texas A&M College 4-0 yesterday to snap a 5-game Aggie victory streak.

Ponies Rout Tulsa

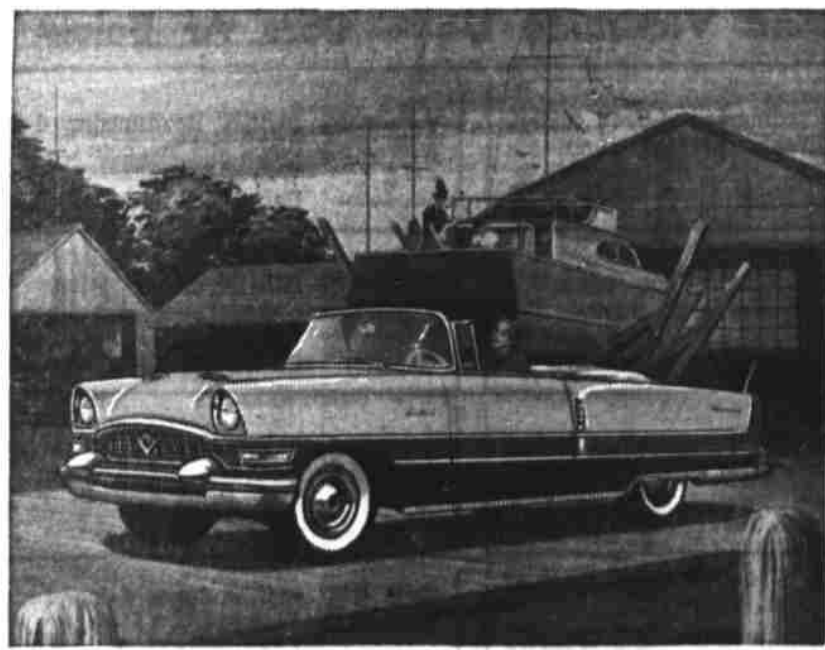

DALLAS (U)—Southern Methodist University won 19-0 over the University of Tulsa here yesterday in a baseball game. Capt. Bob Latch, Tulsa outfielder, broke his leg sliding into second base in the last play of the game.

Ellis Is Named McMurry Coach

ABILENE, Tex. (U)—Tommy Ellis, for five years basketball coach at Merkel, was hired yesterday by McMurry College as head basketball coach.

Ellis will assume his duties June 1. He replaces Edgar Payne, who remains on the McMurry athletic staff as assistant football coach.

Found your "dream" car among these three?

"Packard Caribbean for 1955 features a 275-hp high-torque V-8 engine and the new Torison-Level Suspension system."

"Oldsmobile's '55 Holiday Coupe for 1955 features colorful two-tone styling with low silhouette, and is powered by the famous 'Rocket' 202-hp engine."

"The beautiful Plymouth for '55 features high compression in its flashing new 6-cylinder Powerflow 117 and Hi-Fire V-8 engines."

Here's why it deserves Conoco Super Gasoline with TCP

...the fuel designed for today's hi-compression engines!

Regardless of make or year, your car will benefit from Conoco Super Gasoline, the fuel that combines a controlled higher-octane rating with all the power benefits of TCP!

Whether you're the proud owner of one of these 1955 beauties . . . or are still getting dependable service from your present car . . . isn't it time you benefited from Conoco Super Gasoline with TCP?

Make no mistake about it! (Here is no ordinary gasoline that sets free every ounce of power packed into today's wonderful high-compression engines . . . a gasoline that virtually tunes up any engine by the time you've finished your second tankful!

Feel that powerful difference today! This week, start using Conoco Super Gasoline with TCP . . . after two tankfuls, you'll see why the greatest gasoline development in 31 years became the greatest success in gasoline history!

Conoco Super Gasoline with TCP

...makes a powerful difference in your car's engine!

Midland Loses To Steerettes

Big Spring made certain of retaining its hold on first place in district girls' volleyball standings by vanquishing Midland here Tuesday night, 44-17.

The Big Spring reserves won as expected, too, 41-20, over the Midland B team.

Scoring in the A game went thus: Carolyn Whitefield, 10; Eunice Freeman, 9; Louise Burchett, 9; Barbara Kiser, 8; Barbara Hale, 6; Marliou Staggs, 4.

In the B game, Frances Davie led with 11 points, followed by Jean Robinson, who has seven; and Judy Masters, six.

Big Spring led at half time in the A game, 22-6, and in the B game, 20-9.

Souchak Winner At Palm Beach

MIAMI BEACH, Fla. (AP)—Touring pros tried out the Bayshore Golf Course today for tomorrow's start of the \$12,500 Miami Beach Golf Tournament.

Some 220 players, including 55 top pros, will compete in a pro-amateur today.

Steve Wajza of Miami led qualifiers with a 67, five under par, yesterday. Only one stroke back were Bob Keller and Buddy Weaver of Houston.

Mike Souchak, posted a 69 for a two-day total of 139 to win first money in the \$10,000 Seminole Pro-Amateur Tournament at Palm Beach.

Peter Thomson, British Open champion, had 140 for second money of \$1,000.

Bo Winger was third among the pros with 141 and earned \$700. Ben Hogan of Fort Worth made his winter debut and had 145 to win \$287.50.

Bill Evans, captain of the Kentucky basketball team, is one of two married men on the squad.

3 File For School Posts At Lamesa

LAMESA — Three names have been filed for the April 2 school board election of the Lamesa Public School System, according to C. W. N. (Bill) Anderson and John Middleton, incumbents, have filed for re-election, with Ben Allen, the third incumbent, declining to seek re-election, the vacancy is being sought by J. B. Claiborne.

The election is to be held in the School Tax office, 212 North Houston Avenue, with W. T. Webb as election judge.

The four unexpired terms are held by D. L. Adcock Sr., John Palmore, Sam Jenkins and Herman Bartlett.

Defending Champ Rallies To Win

ST. AUGUSTINE, Fla. (AP)—Judd Brumley, last year's winner, and Tom Robbins, a former champion, came from behind to take opening-round victories in the American Seniors Golf Assn. Atournament yesterday.

Robbins beat Billy Goodloe Sr. of Valdosta, Ga., although two down with four holes to play.

Burley, of Greenville, Tenn., was one down at the turn but rallied to win 2 up over Bob Winger.

Heights Trounces Park Hill, 17-1

College Heights won its third straight game in Elementary School Softball League play by defeating Park Hill, 17-1, Tuesday.

Robert Carr highlighted a 12-run third inning for Heights by hitting two home runs.

Preston Myrick hurled the victory.

Netters Divide

FORT WORTH (AP)—Texas Christian and Hardin-Simmons divided a dual tennis match here yesterday 3-3. Bill Herring of H-SU beat Charles Gordon of TCU 7-5, 6-3 in the No. 1 singles match.

Billye Hix Quits As Clark's Aide

Billye L. Hix, second deputy in the Howard County clerk's office, has resigned her position effective April 1st. She is accepting a position in the county clerk's office at Midland.

Billye Hix has worked in the office here since 1954 and served as a deputy sheriff under ex-Sheriffs Bob Wolf and Jake Bruton for five years, 1947 to 1952. She said she had previously lived at Midland and was well acquainted with her future co-workers.

Her daughter, Charlotte, 13, is a student at Central Ward school and Mrs. Hix said she would remain in school here until the end of the present term. Charlotte is to live with her aunt Mrs. W. C. Jones.

Mrs. Alva Atwood, present third deputy, is to become second deputy. County Clerk Pauline Petty said a new employe for the office had not been decided upon.

Mrs. Tompkins To Head Sorority

Mrs. Charles Tompkins was elected to head the Exemplar Chapter (Xi Mu) of Beta Sigma Phi Tuesday evening when the sorority met in her home.

Mrs. L. D. Chrane was elected vice president; Mrs. Travis Carlton was chosen secretary, and Mrs. Roxie Dobbins was made treasurer. Representatives of the City Council are Mrs. Paul Darrow and Mrs. Harold Hall. Mrs. R. L. Heith is alternate.

Plans were discussed for the Woman of The Year Tea, which will be given on May 15.

Mustangs Defeat ACC Tennis Team

DALLAS (AP)—Southern Methodist University won its seventh straight dual tennis meet yesterday blanking Abilene Christian College 6-0. The Mustang tennis team meets Hardin-Simmons University of Abilene today.

Big Spring Rebekahs

At a meeting of the Big Spring Rebekah Lodge Tuesday evening at the IOOF Hall, Mrs. Dorothy Winterbauer was admitted to membership by a card from Knott. A committee was appointed from Knott, Stanton and the John A. Kee lodges to arrange a program for the official visit of the newly-elected assembly president, Lily Alexander. Twenty attended the meeting.

Rice Is Koyed

HOUSTON (AP)—Eleven hits by Oklahoma Aggie batters coupled with 10 Rice errors gave the Aggies a 13-4 baseball victory over the Owls yesterday. It was the second straight win over Rice by the Aggies who won 17-1 Monday.

Executive Board

All members of the executive board of the Council of Churches Women are urged to attend the meeting in the home of Mrs. E. G. Fausel at the VA Hospital Thursday. Mrs. Fred Whitaker will be co-hostess for a covered dish luncheon, which will be served at 12:30 p.m.

Lamar Edges Aggies

COLLEGE STATION (AP)—Lamar Tech edged Texas A&M College 5-4 here yesterday in a golf match. Bobby Briggs of Lamar was low medal player with a 70.

Ruth Evans Circle

Mrs. D. T. Evans gave the Bible Study and Mrs. Claude Cook the Survey article at the meeting of the St. Paul Presbyterian R. U. H. Evans circle Monday in the home of Mrs. Lowell Knopp. Mrs. Leona Heine closed with a prayer. Eight attended.

Library Gets 1st In Series About States Of U.S.

The Howard County library has received the first volume of a projected series of books which will give a complete story of each of the 48 states. This first volume is "The Delaware Citizen" and describes the products, scenery, people, and other points of interest in the state.

Each volume of the series is to be published periodically and librarian Opal McDaniel said she will add each of them to the library. The books are excellent guides for the vacationer and informative reference books for the student.

Authors of the books are Cy Liberman and James R. Rosbrow. The series is patterned after the guides which were published during the depression years and written by WPA writers.

Other books recently received in the library are:

"The Red Carpet," by Marshall MacDuffie.

MacDuffie was a member of an UNRRA mission to Russia immediately after World War II. He travelled 10,000 miles in 65 days on a tour of Russian provinces from Leningrad to the Chinese border.

This book is a story of what he saw and the emphasis he places on it in the present day world affairs. There are 32 pages of pictures which were taken on the trip. MacDuffie traveled on a personal visa from the Russian leader Khrushchev.

"The Living Faith" by Lloyd C. Douglas.

This author has written many books which exemplify the premise he sets forth in this book: that Jesus' Sermon on the Mount is not an abstract ideal but a definite plan for living a happy and successful life. Readers perhaps remember his more recent books which point out this philosophy. A recent movie taken from his book, "The Magnificent Obsession" is a good example of the author's fictional work.

"Immortality," by Ashley Montagu.

Professor Montagu investigates and describes the way it came into being. Of some interest is his interpretation of the place it holds in today's world.

"The Case of the Glamorous Ghost," by Earle Stanley Gardner.

Perry Mason and Della Street are at it again when lawyer Mason is hired to save an important family name. It seems that one female member of the family parades around the park semi-nude. To complete the case, a murder is committed and Mason once again saves a client with his courtroom tactics.

Ranchman Buys Reagan Acreage

SAN ANGELO (AP)—Herbert Cope Sterling-Reagan County ranchman has purchased an 8,150-acre ranch in Reagan County.

Cope paid B. B. Carter of Amarillo \$224,125, or about \$27.50 per acre.

The sale included half the minerals, minus 1-64 retained by the Iris Mertie Greer estate. The Greer estate sold the ranch to Carter four years ago for \$42.50 per acre with all mineral rights except the 1-64.

The acreage has been the subject of litigation between Carter and the government involving taxes.

About two-thirds of all American households own at least one car.

Big Spring Daily Herald

Sec. II Big Spring, Texas, Wednesday, March 23, 1955 Sec. II

'Caine Mutiny' Stage Play, Scheduled For Big Spring

"The Caine Mutiny Court Martial" is coming here after all — and it'll be a bonus attraction for members of the Big Spring Concert Association.

Dr. P. W. Malone, directing bookings for the production, announced this week arrangements had been completed with Producer Paul Gregory to bring the popular drama here, with a new but distinctive cast.

William Bendix will play the key role of Capt. Queeg, and Robert Lowery will have the part of Lt. Greenwald, prosecutor. Both are outstanding names in the entertainment world. Bendix has gained

a following principally as a comic in movies, radio and TV, and is identified most popularly as Riley in the program "The Life of Riley."

However, his sense of dramatic timing is expected to bring him into good stead for the role of Capt. Queeg. Lowery is a younger player who lately has fast been ascending the star-ladder in Hollywood.

The Caine Mutiny Court Martial will play here at the city auditorium on April 11.

In addition, the Fiesta Mexicana, a colorful pot-pourri of song and dance presented by Mexican stars according to the customs of their own country, will play here as announced, said Dr. Malone. The date on this is April 15.

The Concert Association originally had the Caine Mutiny booked here when it was on tour with Paul Douglas in the Queeg role. When he and producer Gregory had a falling out, the tour was cancelled, the Big Spring date was left open. Then, the Fiesta Mexicana was arranged through Gregory as an alternate attraction.

It was the coldest weather in 18 years for this date at Waco. The mercury dropped to 30 degrees and remained there three hours, but lows of 26 were reported at Mexia.

Damage reached as far south as Waco, where corn was badly hurt.

The pecan crop was not expected to be harmed.

Many crop insects, which also made good headway in the preceding warm weather, probably were killed.

Some farmers, particularly those with small grains growing, were jubilant over the rains that came with the cold.

County Agent Frank Wendt at Vernon said plum and apricot prospects were killed and he believes the peach crop was wiped out. Some young alfalfa was damaged but not killed. A low of 21 was recorded at Vernon.

At Wichita Falls, opinions were conflicting. Lester Brooks of the experiment station at Iowa Park, said damage will be severe to fruit trees. Fred Barger, owner of an orchard, said peaches still will be produced this year in the area.

At Sherman C. O. Spence, associate county agent, examined 50 young peach trees early Tuesday morning and said only 2 of the 50 survived. This was the second straight year for a freeze to kill the peach crop in the Sherman area. This year's freeze is one of the most severe on record at Sherman. Early vegetable plantings were killed.

Around Abilene, 12 hours of sub-freezing temperatures with a minimum of 24 wiped out the area's early fruit crop. County Agent H. C. Stanley said. Early gardens, mostly peas, radishes, lettuce and some beans, were killed. The area's pecan crop was not likely damaged, the county agent said.

Ed Hyman, Tom Green County agent, said he believed the 26-degree minimum there killed all fruit and garden crops except onions.

Farm and landscape experts around Dallas, said some plants might not have been damaged, but all those in full bloom would suffer heavily. County Agent A. S. Milliken said many buds on peach and plum trees were killed but the area still could make a good crop.

White reported at Austin that experts in the Lubbock area said some Irish potato growers around Hereford were concerned about the cold.

Damaged corn in the Waco area

is expected to come out if it is not over six inches tall. Tomatoes were frozen down but will come out again.

Around Mexia, a good many fruit trees were in blossom. E. E. Lightsey, peach grower of Mexia, used smudge pots to protect his trees but expects some damage.

P. B. Cate, another grower, who didn't use smudge pots, said he didn't believe there would be any damage. He said he believes the cold came too late to hurt badly.

Now that the Caine Mutiny cast has been re-formed, it will be brought here, and both numbers are on the schedule, said Malone.

Annex Foes Put Bid In Legislature

AUSTIN (AP)—People who don't like the idea of being converted from country dwellers to city taxpayers overnight by involuntary annexation brought their problem to the Legislature.

They supported a bill by Rep. Joe Pool of Dallas to let an "impartial referee" decide the merit of proposed city annexations and city incorporations.

The referee would be a state agency, a division of the Board of Water Engineers.

Men who know city annexation procedures best—the city attorneys of Houston and Fort Worth and the city planning engineer of Dallas—said Pool's bill would kill annexation forevermore.

If that happens, orderly long-range planning for the continuing growth of Texas cities would be stifled, the opponents warned.

The House State Affairs Committee whose questions indicated sympathy for those who suffered arbitrary annexation, listened to arguments three and a half hours.

Pool's bill would allow court appeal from the decision of his urban development board.

Will Sears, city attorney for Houston, said the court appeal feature would kill annexation dead as a door knob.

3 New Russ Aides Named

LONDON (AP)—Soviet Premier Nikolai Bulganin Tuesday appointed three new deputy foreign ministers.

Continuing a reorganization of the Soviet government, he named Vasily V. Kuznetsov a first deputy foreign minister and Vladimir S. Semenov and N. O. Fedorenko deputy ministers in V. M. Molotov's department.

The Moscow radio announced the appointments, which followed by 24 hours a shakeup in the Ministry of Culture. Nikolai A. Mikhailov, recent Soviet ambassador to Poland, took over the culture ministry to replace Georgi F. Alexandrov, who was dismissed.

Lichens are to be found in every part of the earth.

OMAHA (AP)—Police raided the home of Anthony Washington and hauled him to jail on a charge of keeping a disorderly house. He was released on bond the next day, but was soon back at headquarters. Burglars, he told police, entered his home while he was jailed and took a pistol, clothing and his television set.

House In Disorder

Now that the Caine Mutiny cast has been re-formed, it will be brought here, and both numbers are on the schedule, said Malone.

Damage reached as far south as Waco, where corn was badly hurt.

The pecan crop was not expected to be harmed.

Many crop insects, which also made good headway in the preceding warm weather, probably were killed.

Some farmers, particularly those with small grains growing, were jubilant over the rains that came with the cold.

County Agent Frank Wendt at Vernon said plum and apricot prospects were killed and he believes the peach crop was wiped out. Some young alfalfa was damaged but not killed. A low of 21 was recorded at Vernon.

Two-Thirds Damage To Peach Crop Seen

The freeze Monday night in Texas may have wiped out as much as two-thirds of the Texas peach crop. North Texas vegetable crops were either wiped out or damaged by the cold and frost.

The estimate on peaches came from state Agriculture Commissioner John White at Austin.

A spot check by The Associated Press indicated most of the peach, plum and apricot crops was destroyed as far south as Abilene and San Angelo in West Texas and for a considerable area south of the Red River valley in North Texas. Early vegetable crops were believed destroyed. Young alfalfa was nipped.

Damage reached as far south as Waco, where corn was badly hurt.

The pecan crop was not expected to be harmed.

Many crop insects, which also made good headway in the preceding warm weather, probably were killed.

Some farmers, particularly those with small grains growing, were jubilant over the rains that came with the cold.

County Agent Frank Wendt at Vernon said plum and apricot prospects were killed and he believes the peach crop was wiped out. Some young alfalfa was damaged but not killed. A low of 21 was recorded at Vernon.

At Wichita Falls, opinions were conflicting. Lester Brooks of the experiment station at Iowa Park, said damage will be severe to fruit trees. Fred Barger, owner of an orchard, said peaches still will be produced this year in the area.

At Sherman C. O. Spence, associate county agent, examined 50 young peach trees early Tuesday morning and said only 2 of the 50 survived. This was the second straight year for a freeze to kill the peach crop in the Sherman area. This year's freeze is one of the most severe on record at Sherman. Early vegetable plantings were killed.

Around Abilene, 12 hours of sub-freezing temperatures with a minimum of 24 wiped out the area's early fruit crop. County Agent H. C. Stanley said. Early gardens, mostly peas, radishes, lettuce and some beans, were killed. The area's pecan crop was not likely damaged, the county agent said.

Ed Hyman, Tom Green County agent, said he believed the 26-degree minimum there killed all fruit and garden crops except onions.

Farm and landscape experts around Dallas, said some plants might not have been damaged, but all those in full bloom would suffer heavily. County Agent A. S. Milliken said many buds on peach and plum trees were killed but the area still could make a good crop.

White reported at Austin that experts in the Lubbock area said some Irish potato growers around Hereford were concerned about the cold.

Damaged corn in the Waco area

is expected to come out if it is not over six inches tall. Tomatoes were frozen down but will come out again.

Around Mexia, a good many fruit trees were in blossom. E. E. Lightsey, peach grower of Mexia, used smudge pots to protect his trees but expects some damage.

P. B. Cate, another grower, who didn't use smudge pots, said he didn't believe there would be any damage. He said he believes the cold came too late to hurt badly.

Now that the Caine Mutiny cast has been re-formed, it will be brought here, and both numbers are on the schedule, said Malone.

Damage reached as far south as Waco, where corn was badly hurt.

The pecan crop was not expected to be harmed.

Many crop insects, which also made good headway in the preceding warm weather, probably were killed.

Some farmers, particularly those with small grains growing, were jubilant over the rains that came with the cold.

County Agent Frank Wendt at Vernon said plum and apricot prospects were killed and he believes the peach crop was wiped out. Some young alfalfa was damaged but not killed. A low of 21 was recorded at Vernon.

At Wichita Falls, opinions were conflicting. Lester Brooks of the experiment station at Iowa Park, said damage will be severe to fruit trees. Fred Barger, owner of an orchard, said peaches still will be produced this year in the area.

At Sherman C. O. Spence, associate county agent, examined 50 young peach trees early Tuesday morning and said only 2 of the 50 survived. This was the second straight year for a freeze to kill the peach crop in the Sherman area. This year's freeze is one of the most severe on record at Sherman. Early vegetable plantings were killed.

Around Abilene, 12 hours of sub-freezing temperatures with a minimum of 24 wiped out the area's early fruit crop. County Agent H. C. Stanley said. Early gardens, mostly peas, radishes, lettuce and some beans, were killed. The area's pecan crop was not likely damaged, the county agent said.

Las Vegas Gets First Atom Dose

LAS VEGAS, Nev. (AP)—A medium size atomic device was exploded on the Nevada desert Tuesday and an hour and a half later this gambling resort for the first time saw a radioactive cloud pass directly overhead.

McCarran Field, the airport for civilian planes, was closed from 7:26 to 8:36 a.m. as precautionary measure. The Civil Aeronautics Administration warned craft away from the area.

Later, however, operators of the Sunset Trail-Tel, a motel, said they had a Geiger counter that was "going wild." When an AEC team went to the motel they got a reading of .005 milliroentgens per hour. Normal is .002. The increase was insignificant, the AEC said.

The cloud—estimated altitude 30,000 feet—was seen as a thin, white streamer. The vapor trails of Air Force planes tracking it were plainly visible.

A slight increase in radioactivity caused by dust falling from the cloud was noted on a bombing range near the test site, but the AEC said the amount was not sufficient to harm humans. There were no humans in the area.

The AEC said high-altitude winds caught the familiar mushroom cloud, flattened it out, and sent it toward the city.

UNITED NATIONS, N.Y. (AP)—Ambassador Alberico Aubrey Casaroli, 52, Italy's new permanent observer to the U.N., presented his credentials yesterday to Secretary General Dag Hammarskjöld.

HOLLYWOOD (AP)—Republic Pictures Corp. announced Tuesday that it is releasing for television use 125 feature films originally produced at a cost of more than 25 million dollars.

White reported at Austin that experts in the Lubbock area said some Irish potato growers around Hereford were concerned about the cold.

Red Fox Dies

VENICE, France (U)—Count Michael Karolyi, former president of Hungary whose off-and-on feud with the Communists spanned two world wars, died at his home in exile Saturday. He was 80.

Went Thataway

LONE PINE, Calif. (U)—Actors Arthur Kennedy and Tony Curtis collided (A horseback during filming of a Western movie) on location here. Kennedy was taken to a hospital with a twisted ankle. Curtis was unhurt.

Anyone's Guess On Shivers Peace Meet

AUSTIN (U)—Gov. Shivers will meet with leaders of the national Democratic Party May 4-5, but how much harmony will come out of the meeting is anybody's guess. Shivers, at odds with the national party heads since 1952, said yesterday he planned to attend a meeting of Democratic governors after the May 2-3 White House governors' conference. He will attend, Shivers said, at the invitation of national Democratic Chairman Paul Butler, "if nothing comes up to prevent it."

Shivers said a letter from Butler, received yesterday, was the first contact he had had with the chairman since Shivers led the conservative faction of the Texas Democratic Party in support of Republican presidential nominee Dwight Eisenhower in 1952. "I have no way of knowing," Shivers said when asked if he believed the Washington meeting would result in harmony. "I think it will be a good thing. There's always a lot of good that can come out of a conference of governors."

Plane Report Due In Weeks

SPRINGFIELD, Mo. (U)—It may take two weeks for Civil Aeronautics Board investigators to complete their study of an American Airlines plane crash near here.

Twelve persons died and 23 were injured in the Sunday night crash. The pilot, Jack Pripish, suffered critical injuries, and still could not be questioned.

The plane, with 35 aboard, was preparing to land in a drizzling rain at Springfield Airport when it crashed.

Jack Parshall, a CAB official from Kansas City, said the plane apparently was on the proper path for a landing, had not appeared to be in trouble and communications between the pilot and the control tower were normal.

"We may be here two weeks," he said. "We have absolutely no clues."

Lignite Blast Kills 24 Miners

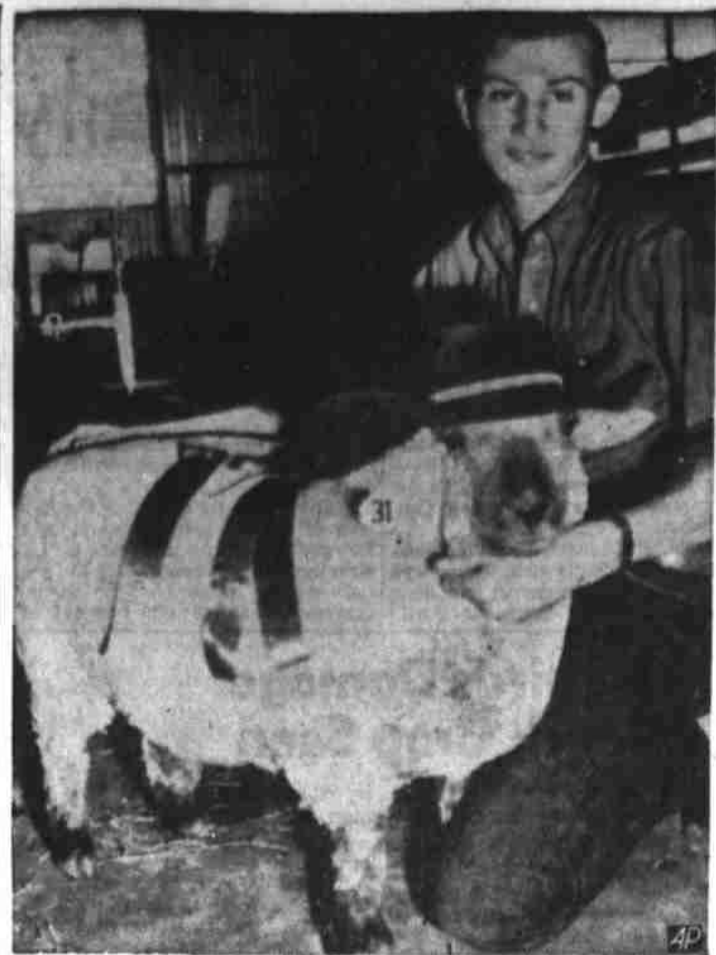

SPOLETO, Italy (U)—An explosion nearly 1,000 feet deep in a lignite coal mine today killed at least 24 miners and injured 16 others. First reports said none were trapped in the workings.

The blast occurred in a mine at Morgano di Spoleto, a hamlet near this city about 65 miles northeast of Rome. Apparently caused by accumulated coal gas, it smashed through the tunnels at 6 a.m., just as the day's second shift was starting to work.

The injured, some in serious condition, were rushed to a hospital here.

Solons To Adjourn

OKLAHOMA CITY (U)—The Legislature will recess from March 30 until April 6 for a special election on school financing.

Champ Wears The Hat Now

This prize lamb which walked away with a back full of ribbons at the Hockley County Fat Stock Show in Levelland is wearing the hat now after proud owner Billy Ray Burleson crowned the lamb with his sombrero. (AP Wirephoto.)

Mission Delayed

TOKYO (U)—Foreign Office sources today said the Chinese Communist trade mission to Japan had been postponed indefinitely in a dispute over visas. The sources

said the delegates, including several already in Hong Kong, refused to travel to Japan unless their passports were stamped to show them as representatives of the Chinese Red government.

Trop-Artic

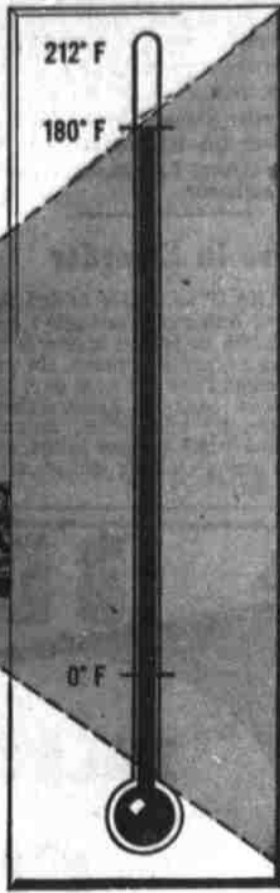

is the First to give you this **FULL RANGE PROTECTION** and meet the **HIGHEST STANDARD** ever established for automobile motor oils

Ordinary motor oils may provide engine protection at low temperatures... or they may be effective at high temperatures. But new TROP-ARTIC All-Weather Motor Oil protects at all temperatures, from below zero to extremely high engine heat.

TROP-ARTIC is the first all-weather oil which has proved it meets the highest standard ever established for automobile motor oils... the Mil-O-2104 Supplement 1 test.

TROP-ARTIC is so much better than ordinary oils that it can even double the life of an engine. Get new TROP-ARTIC Motor Oil from your Phillips 66 Dealer.

Phillips 66 FuT-FuT is the new gasoline, the only gasoline, to which is added the super aviation fuel component Di-isopropyl.

FuT-FuT gives you increased power, higher anti-knock quality and greater fuel economy. FuT-FuT and Tro-Artic go together for better engine performance.

Monument On Move

Workmen are shown hoisting a section of the Lucas Gusher Monument in the Spindletop oil field near Seamount preparatory to moving it to a new site one mile away. The move was necessitated by sulphur mining in the field which created the danger of a cavern. The shaft commemorates the blowing in of a gusher in 1901 and the beginning of a new oil era. (AP Wirephoto.)

Jess Talkin

by Jess Blair

Of the many new crops introduced to West Texas during the last 10 years, blue panic grass has been the only one to prove any thing like as profitable as cotton.

One of the biggest fields in the county is that of Durwood Zant, who lives near the Gay Hill School. He has about 30 acres of blue panic and intends to plant some more. Last year he grazed about 20 head of cattle on the field, got two cuttings of grass for a silo, and harvested from 2,000 to 3,000 pounds of seed. He still has some of the seed which he is selling to other farmers who want to try it. Zant says during a normal year, blue panic will easily graze two cows to the acre around nine months a year. He has been selling the silage to ranchers for \$15.00 per ton.

"I eventually want to get my whole place in grass and feed crops," he said. "By growing live-stock and selling surplus feed and silage to ranchers, I can make more money than by planting the same acres in cotton."

Gall was a young cattle town when D. (Dave) Dorwood decided to build a drugstore there back in 1901. Now over half a century later the little store is still doing business, and Mr. Dorwood has been the only owner. It is still located on the same lot, although the building was remodeled and moved around to face the new highway about ten years ago.

Mr. Dorwood was injured in a car wreck last summer and is just now regaining his former health. However, he gets around all right and still manages to drive his car a quarter mile from his house to the store every day. Mr. Dorwood has spent the best part of his life in Gall, but he doesn't regret it. "A half century is a long time to stay in one little town," he said. "I might have done better in a larger place, but perhaps we have been of some service here. The store used to be headquarters for the doctor until the last one left about 20 years ago. We've helped dispense medicine for sick folks and patch up minor wounds. "Also we've got many old and new friends here who have made it a nice place to live. So in the long run, I don't suppose it matters much where a man spends his life as long as he is doing something worthwhile and is happy."

"Lake Thomas attracts many fishermen who come through Gall from the Lamesa and Lubbock areas. However, not many of them stop, according to Mrs. Walton, who with her husband runs a cafe in Gall.

Some of them stop on the return trip for ice if they've caught any fish," she said, "but they usually whiz on through town getting to the lake."

She says not many people around Gall fish on the lake. They believe things are greener on the other side of the hill, and go to Possum Kingdom or Buchanan for their fishing.

Willis Winters of Vincent has taken a leaf from the irrigated farmers on building terraces. He has the regulation terraces, but he also throws up some small border terraces between the larger ones. With a border plow he runs these small, foot-high terraces parallel to one another to avoid any extra point rows.

"Those little terraces will catch almost as much water as the big ones," he explained. "Out here we need to hold all the water that

Congress Grinding Out Relief, Claims Measures

By TEX EASLEY
WASHINGTON (U)—Congress has started grinding out private relief and claims bills. They don't get much publicity, but mean much to individuals.

A batch passed recently by the House and sent to the Senate include: Payment of \$334 to Lella Park of 113 S. 5th St., Waco, would be provided in another measure. It would reimburse her for expenses caused by the negligence of an Air Force sergeant who drove in Air Force truck into a coupe owned by Miss Park while it was parked. The accident occurred March 1, 1952.

Around the capital: It didn't take E. G. Raiden of

Whirling Squirrel Makes Them Hop

CHARLESTON, W. Va. (U)—A squirrel on a whirl had things hopping yesterday on the West Side. Henry P. Copenhaver said within a few minutes the squirrel scratched one woman on the arm, bit a neighbor woman on the head and arm, then scampered across the street and sank his fangs in a woman's leg.

While the women hustled off to a hospital for tetanus shots, Copenhaver called police. An officer, borrowing Copenhaver's rifle, shot Billy as he sat in a nearby tree.

Copenhaver said he'd ship the dead pet off to the State Health Department for a rabies test, but added, "I don't think he was rabid—just playful and all the excitement made him angry."

Students believe that lens-shaped glasses or crystals found in remains of ancient civilizations by archaeologists were made as ornaments rather than for use as true lenses.

One country grocer says most farmers in his community made enough cotton last year to pay up some debts and buy such necessities as new cars and television sets. A few weeks ago one of his customers said he had had a streak of hard luck, and wanted to know if the grocery bill could be carried another month.

The grocer sympathized with him and said if it was for sickness or something like that, he could let the account ride awhile longer. "Oh, ain't nobody sick," the man explained. "But we burnt out a television tube last night, and it's goin' to cost me \$48.00 to get another one."

2 Gas Lines To Miami Seen

HOUSTON (U)—Two Houston concerns told yesterday of plans to build a 185 million dollar pipeline 1,500 miles from McAllen to Miami.

Houston-Texas Gas and Oil Corp. of Houston plan 950 miles of pipeline from the Mississippi River to Miami, costing 110 million.

Coastal Transmission Corp. is to build 550 miles from McAllen to the river at a cost of 75 million.

The line will have an initial capacity of 350 million cubic feet of gas daily, as against a rated capacity of some 600 million.

Floyd Stanley, chairman of Houston-Texas, was in Tampa Tuesday negotiating with several Florida industries for gas contracts.

Stanley was a leader in forming Texas Illinois Natural Gas Pipeline Co. and Northern Natural Gas Pipeline.

The first 600 miles of Houston-Texas' line will be 36-inches in diameter, while the rest will be of 24-inch and 18-inch diameter pipe.

All of the coastal 550-mile section will be 30 inches in diameter. All the gas will come from Gulf Coast fields in Texas and Louisiana.

PLYMOUTH WINS

FOR 1955 STYLING

OVER "OTHER 2" LOW-PRICE CARS

BY VOTE OF ALMOST 4 TO 1

THOUSANDS PREFER PLYMOUTH'S STYLING IN NATION-WIDE SURVEY!

A well-known independent research organization asked thousands of people—in New York, Chicago, Detroit, Atlanta, Dallas, Los Angeles—to compare the appearance of '55 models of the three low-price cars. Opinions were received from men and women—from people of all ages—from owners of all the different makes of cars. The results of this survey have been summarized below.

Best buy new; better trade-in, too!

HERE'S WHAT OTHERS THOUGHT OF PLYMOUTH!		HERE'S WHY YOU'LL PREFER PLYMOUTH, TOO!	
Compared with low-price car "A"		Compared with low-price car "B"	
Plymouth is better looking	62%	Plymouth is better looking	66%
Car "A" is better looking	16%	Car "B" is better looking	17%
Almost 4 to 1 in Plymouth's favor!		Again, almost 4 to 1 for Plymouth!	
(22% liked "both about the same")		(17% liked "both about the same")	

Plymouth '55—with THE FORWARD LOOK—is the only low-price car to offer you honestly new styling, instead of a mere face-lifting. It's bigger than the "other 2" cars (longer than car "A" by 8.4 inches!). It's lower and sleeker, with a host of styling advances that wins the most applause in the lowest-price field. See everything Plymouth has to offer today!

Yes, the big swing is to Plymouth—See it today—drive it away!

Plymouth dealers are listed under "Automobile Dealers—Plymouth" in your Classified Telephone Directory

A Bible Thought For Today

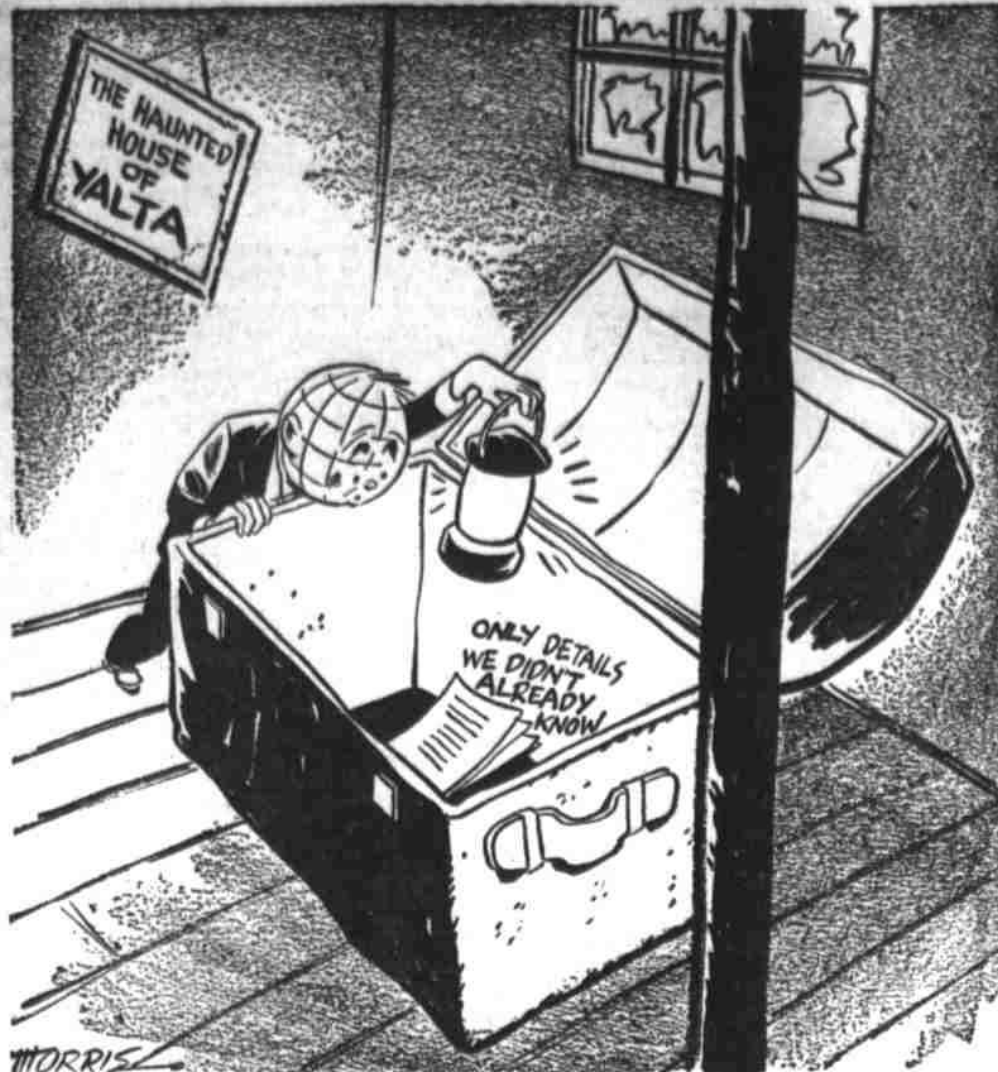

But sanctify the Lord God in your hearts; and be ready always to give an answer to every man that asketh you a reason of the hope that is in you, with meekness and fear. (1 Peter 3:15).

Editorial

Experts Not Always Expert

It is clear that a powerful group of atomic scientists are determined to stop further tests of nuclear bombs in Nevada or anywhere else, if they can. In organized groups, and singly, they seem to have an eye single to that purpose. Recently some of these activities seem to have taken on the technique of fear and terror. They talk of an end to the world, of an end to the human race, the birth of monsters, from the gradual poisoning of the earth and its atmosphere.

Now the influence of these men may be very great with the public. They are scientists. They know what they're saying, don't they? Well, they're scientists all right, but they don't necessarily know precisely what they're saying. It took many kinds of scientists to build these bombs—physicists, mathematicians, chemists, engineers, experts in this, experts in that, and in dozens of different classifications. It has been said the Dr. Robert Oppenheimer, who has been denied security clearance on atomic matters, probably understands more phases of nuclear energy than any man on earth. But even such a man couldn't

The Real Surprise

Sen. George Compounds Ike Confusion

WASHINGTON (AP)—Twice within 10 days, dignified Sen. George (D-Ga.) has set the Eisenhower administration talking every which way. The result has been confusion compounded.

The 77-year-old Georgian simply said what was on his mind. If the Eisenhower administration had been as direct, there might have been no confusion. George is the Senate Democrats' leader on foreign affairs.

President's thoughts but added that he saw no inconsistency between the Eisenhower-Dulles position and that of George.

Actor Spurns TV Huckstering

By BOB THOMAS HOLLYWOOD (AP)—Dana Andrews today leveled a blast at the practice of having stars double as TV salesmen.

been taken out of the hands of the creators and is controlled by the people who are selling things," he observed.

Potomac Fever

WASHINGTON—Ike makes Harold Stassen chief of disarmament. Republican Chairman Hall promises that the minute Stassen finished his job of disarming the world, he'll let him run for president again.

Ike warns against a big postal pay increase. Don't worry, letter carriers. At the rate Postmaster General Summerfield is banning things from the mails, pretty soon you won't have anything left to carry.

All Or Nothing—They Got Latter

The Brooklyn Eagle, struck January 29 by 315 members of the CIO American Newspaper Guild (editorial workers, business employees), has shuffled off this mortal coil after 114 years of public service.

The publisher insists his paper lost money last year, could not possibly stand the \$5.80 hike. He claims the union demand would double the "great financial loss of 1954."

The paper was paralyzed when 8 of the 10 craft unions refused to cross the ANG's picket lines. Since then attempts at a settlement have failed. The ANG had demanded a \$5.80 weekly pay raise spread over two years, and improvements in vacation and severance pay provisions.

A Guild leader said the publisher had been saying "the same thing" for many years.

Joseph Alsop

Commies Have Time-Table For Formosa

HONG KONG—The moment when the Chinese Communists began intensive preparations for military action in the Formosa Strait can be rather exactly dated.

the Communists. But with mainland buyers offering larger profits than all the fish in the East China Sea, the junk owners have been using their sails and selling most of their diesel rations at a special depot in the Pearl River estuary.

Then Sino-Soviet agreement on the best approach to the Formosa problem was almost certainly hammered out during the long visit to China of Krushchev, Bulganin and Mikoyan. This visit, which may also have been linked with the great change in Moscow, ended in mid-October.

Thus it seems clear that in December, the order came down from Peking to begin building maximum stocks of the two invasion fuels. And this order immediately created the demand felt in Hong Kong and more recently reflected in the voyage of the "Aruba."

Tough Boaster Held In Slaying

AMARILLO (AP)—A tough who had boasted he would shoot it out with police if caught was held today for California officers who want him on a murder charge.

Earl Green, 27, charged with murder in Ventura, Calif., and armed robbery in Richmond, Ind., and Ocala, Fla., offered no resistance when his car was stopped near here on Highway 68.

Capt. Reid Hunt of Ventura had warned Amarillo authorities Green might shoot unless surprised and that he had boasted, "I'll kill any cop who tries to get me."

A youth, 18, in the car with Green had a sawed-off shotgun stuck in his belt. A sawed-off .22 caliber rifle was found under a seat of the car. The two men had only 75 cents.

Hunt said Green is accused of slaying Joseph La Chance in California Sept. 1. He said Green and La Chance had worked together at a Pasadena, Calif., golf club and were en route to Ojai, Calif., when La Chance was killed, possibly with a baseball bat. His body showed numerous bruises from repeated blows.

With the two men were Mrs. Green, 18, and her daughter, 3. The child was placed with welfare workers.

Amarillo police were tipped Green was driving to the West Coast from his Fort Pierce, Fla., home.

Hunt said that at Richmond, Green and a man named Ralph Johnson held up the manager of a super mart where Mrs. Green had worked and took \$8,000 in cash and \$8,000 in checks.

Educational TV Program Launched

NEW YORK (AP)—Johns Hopkins University, a pioneer in the field, is launching a new educational television program. It is designed to steer young people into fields where opportunities are brightest and skilled personnel most in demand.

Entitled Tomorrow, the weekly program begins Saturday at 7 p.m. EST. on ABC, not quite three weeks after the termination of Johns Hopkins Science Review on the Du Mont network. Science Review had been on the air seven years over WAAM in Baltimore and five years on Du Mont.

"The new program is designed to highlight the careers, professions, vocations and occupations available to young people who today are making their decisions for tomorrow's jobs," says Lynn Poole of Johns Hopkins, the producer, who also produced Science Review.

"It also tries to tell the middle-aged person about the new careers to which he may turn if dissatisfied with his present job."

The first program, Metal by The Mile, is an example of what will be presented to acquaint young people with the fields in which there are unusual opportunities.

"We found," says Poole, "that if all the schools in the country were to train ten times the present number of metallurgists for the next five years we still would not have half the number of metallurgists we need. The jobs available today and tomorrow in this profession will be more than can be filled."

Witch Charge Fails To Stick

GUATEMALA (AP)—Olga Monzon, sister of an exiled rival of President Carlos Castillo Armas, has been cleared of charges she practiced witchcraft against the President.

A court dismissed the complaints against Miss Monzon and her maid yesterday. The two women were arrested Saturday.

Police accused Miss Monzon of placing a small rag doll — representing Castillo Armas — in a jar containing a thick liquid, pieces of garlic, onion, tomato and buckshot. After sticking pins into the doll's head, they asserted she sent her maid to bury the jar in the cemetery.

Both women denied the accusations. The maid charged she had been beaten by police after her arrest. Miss Monzon, a school-teacher, also complained against police treatment.

Miss Monzon said the charges were an attack on her brother Col. Eliego Monzon, who was at one time a member of Castillo Armas' ruling junta. Exiled after an abortive coup early this year, Monzon reportedly is living in Miami, Fla.

Patterson's Real Diplomat

AUSTIN — The Representative from the 90th District, Robert E. Patterson of Snyder, qualifies as a diplomat as well as a lawmaker.

He has some new letterheads which carry a map of his district, Borden, Crosby, Garza, Kent and Scurry counties. County seat of each is marked with a star.

But, Rep. Patterson is not getting himself involved in the Kent County squabble over the county seat. If the courts are having difficulty deciding whether Jayton or Clairmont is the county seat, he'll not solve the problem for him.

His map has stars indicating two county seats—Jayton and Clairmont.

Mighty Damp

DALLAS (AP)—Mrs. Minnie Kess reported hearing screams shortly after seeing a boy on a Trinity River dam. Officers dragged for the body but found none. They did find a 12-year-old who hadn't been to school. At his home they found sopping wet clothes. Oh, he said, he hadn't been fishing. Those clothes got wet Sunday, when there was no school.

Getting Together

NISCEMI, Sicily (AP)—Giuseppe Gori, 87, four times a widower and father of 12 children, married again yesterday. The bride: Francesca Incardona, 84, twice a widow and mother of 11 children.
