## Veteran's Memory And His Mother's Birthday Observed

McLean, Texas, May 30.—In memory of Andrew H. Floyd, Company G, 142nd Infantry, who was killed in action in the World War, a number of the friends of young Floyd each took a dish and spent the day with the deceased soldier's parents. The event was also in honor of his mother's birthday. The outstanding feature of the occasion was the quilting of a quilt which young Floyd had pieced when a mere lad, 12 years old.

Floyd was killed at St. Etienne October 8, 1918. He was awarded a Croix de Guerre for bravery in crossing a terrain swept by violent fire of machine guns and guns of heavier calibre. He was the only McLean man who was called upon to make the supreme sacrifice. The Rexall drug store of this city decorated a window in his memory.

Seeing the above news item in the Oklahoma City Times, Rev. C. H. Barnes of Hennessey, Okla., former chaplain of the 142nd Infantry, wrote Mr. Floyd a Memorial Day letter that he appreciates very much and he says he is glad to get in touch with someone who has a personal knowledge of his son's death and burial.

Ex-Chaplain Barnes told Mr. Floyd that he, with the aid of a burying detail, laid the departed hero away after the battle in which he lost his life. He says in the letter that he has written a history of the regiment, which all the boys of that organization will be greatly interested in. The manuscript is now ready for the publisher and the book will likely be ready for distribution in a short while.

Mrs. R. L. Appling met with the little folks of the Baptist Sunday school Sunday afternoon and organized a Sunbeam class which will meet each Sunday evening at 6 o'clock. Mrs. Appling will have charge of these meetings, and all the children under ten years of age are urged to attend.

Mrs. George Cash returned home the first of the week from Amarillo, where she has been at the bedside of her daughter, Mrs. A. J. Mayfield.

S. W. Rice and family made a business trip to Shamrock Tuesday.

Tell how Saul acted when he was chosen.

Why did Jabesh-gilead send for Saul?

What did Saul do?

What did Samuel testify to and for what did he reproach the people?

How did he terrify and comfort the people?

## BIRTHDAY PARTY

Mr. and Mrs. C. H. Rowe entertained a crowd of the younger folks at their country home last Friday evening in honor of the 14th birthday of their daughter, Miss Floyd. The affair was a very pleasant surprise to the honoree, who knew nothing of it until the guests began to arrive.

After an enjoyable time spent in various games, delicious refreshments were served to the following: Misses Flossie Jordan, Viola Beck, Estelle Cooper, Verna Rice, Gladys Holloway, Sinclair and Lucile Rice, Versie Savage and Fern Upham; Messrs. Sammie and Ercy Cubine, Vernon Rice, Hansel Christian, Marvin Davis, Dwight Upham, John B. Rice and Chester Savage.

## MCLEAN DEFEATS SHAMROCK

McLean baseball boys defeated Shamrock Wednesday afternoon on the latter's ground, by the score of 9 to 5. Biggers was on the mound for McLean, while Green started for Shamrock but later gave way to Buchanan, who finished the game. Bowers for McLean and Abbott for Shamrock did the catching. The outstanding feature of the game was the pitching of Biggers; in the second, after walking three men, he tightened and struck out the next three batters up; again in the fourth, with runners on second and third and with one out, he struck out the next two batters.

Mrs. G. W. Henshaw of Heald was in town Saturday, shopping.

## Work Begun on New Concrete Buildings

This week S. A. Cousins let the contract for two concrete buildings to be erected on the lots east of the Western Lumber Co. These buildings are to be 100 feet long, and one will be 35 feet wide, to be occupied by a store, and the other will be 60 feet wide and built to suit garage requirements.

This is the first building project for business houses to be undertaken in several years, and it is to be hoped that it will be followed by other substantial buildings, which have been badly needed to house new business firms that have been kept away by the lack of housing facilities. McLean needs more good stores. When she gets them, she will be in better position to bid for trade that should be hers and is going to other places and to the mail order houses.

J. T. Smith and Bob Ashby have the contract for these new buildings.

## EPWORTH LEAGUE SOCIAL

One of the most enjoyable events of the season was the "Gypsy" party given under the auspices of the Epworth League at the S. A. Cousins home north of McLean on Thursday evening of last week.

A large crowd of young people, dressed as gypsies, was present, and a most delightful evening was spent in outdoor games and contests. After everyone had played until they were tired, the boys were told to get some sticks and a partner, and a "weenie" roast followed. The girls all sat in a large circle around the fire while the boys roasted the "weenies." Lightbread and pickles were then passed and everybody "fell to." The guests then went into the parlor, where they were entertained for a while with music and readings. After a few minutes spent in a rousing game of "drop the handkerchief," the crowd departed for their homes, declaring that they had thoroughly enjoyed the occasion.

## PRISONER MAKES BOND BUT STICKS ABOUT FOR LUNCH

Hereford, May 28.—H. O. Moreland, a member of the sextette captured by Sheriff Purcell last week in connection with the finding of sixty cases of Old Scotch, made bond Thursday and was released. His bond was set at \$1,250 by Judge Tatum, and it was furnished through a bonding company. Moreland did not seem to be in a hurry to get away from the Purcell boarding house, however. After the bond was made the sheriff phoned his wife that there would be one vacant chair at the table Thursday noon.

She replied, however, that there must be some mistake—Moreland was on the front porch, waiting for the dinner bell. The other members of the party are still in custody and endeavoring to make bond.

Ernest Naylor of Clarendon visited his aunt, Mrs. J. W. Kibler, Thursday and Friday of last week.

Mr. and Mrs. C. D. Clappett and Troy Montgomery of Shamrock were in the city Sunday.

Miss Mannie Wilson returned Saturday from Elk City, Okla., to spend the summer.

Mr. and Mrs. T. A. Landers visited the former's brother, Bartow, at Heald Sunday.

Mr. and Mrs. J. E. Cubine made a flying trip to Oklahoma the first of the week.

Miss Dora Deatherige of Shamrock is visiting her brother, Sherman, and family.

B. I. Carpenter motored to Alanreed Sunday afternoon to visit his mother.

## Cars Now Park in Center of Street

After having been asked to do so by a number of citizens, City Marshal A. W. Haynes introduced a new traffic regulation in McLean Thursday, requiring all cars to park in the center of the street.

This is quite a novelty to the people of McLean, but the marshal says everybody is well pleased with it, and say it is more convenient than parking by the curb.

There seems to be ample room in McLean streets for center parking, and with the cars away from the curb, one seldom finds the way obstructed when it is necessary to stop in front of a store to load or unload.

## N. Y. P. S. SOCIAL

Rev. and Mrs. S. R. Jones entertained the members of the N. Y. P. S. at their home in the south edge of town on Monday evening. A large crowd was present and a very enjoyable evening is reported. Refreshments of ice cream and cake were served.

Mr. and Mrs. Sherman Deatherige entertained the younger set at their home in the north part of town on Monday evening. Those present report quite an enjoyable time spent in outdoor games.

R. D. Stratton and family of Elkhart, Kan., are visiting Mrs. Stratton's sister, Mrs. Frank Wilson, and her parents, Mr. and Mrs. W. C. Stephens.

Mr. and Mrs. W. W. Baxter, Mr. and Mrs. John Forbis and Miss Fay Anderson of Shamrock were guests in the Sherman Deatherige home Sunday.

Rev. B. J. Osborn was in Waco last week to attend a directors meeting of the Methodist Orphanage at that place.

## By ELBERT HUBBARD

I believe in the stuff I am handling—that honest stuff can be handed out to honest men by honest methods.

I believe in working, not weeping; in boosting, not knocking; and in the pleasure of my job.

I believe that a man gets what he goes after, that one deed alone today is worth two deeds tomorrow, and that no man is down and out until he has lost faith in himself.

I believe in today and the work I am doing, in tomorrow and the work I hope to do, and the sure reward the future holds.

I believe in courtesy, in kindness, in generosity, in good cheer, in friendship and in honest competition.

I believe there is something doing, somewhere, for every man ready to do it.

I believe I'm ready—right now!

## Two Gully Washin' Rains This Week

Those who are hard to please with rains are perhaps kicking again, for this week we had two that were not just peckably what one would order if he were the boss of the weather. But those who wanted rain for the moisture's sake, and didn't care whether it came by freight, express, or parcel post, nor whether it was wrapped in fancy packages or not wrapped at all, just so it didn't do any damage as it came, are well pleased and smiling.

Nobody seems to have any real cause for a kick save the members of the Eastern Star Lodge, which was to install new officers on Tuesday night, and many of them went home before the rainstorm arrived. Some of them barely got indoors before the deluge of rain, accompanied by a high wind, struck.

It rained enough for all of the more conservative Tuesday night, but the weather clerk must have had orders to deliver a larger quantity, and so delivered a heavy downpour late Wednesday afternoon.

Nobody has cause for complaint at the season we have in the ground now, and prospects get brighter and brighter for a bumper crop in the McLean country this fall.

**WHAT IS THE MATTER?**

Some of the best and sanest preaching that is being done in America today is being done by one of the greatest business authorities in America. That man is Mr. Roger W. Babson, the noted business expert. Just recently he sent out a report to business men asking and answering the question, "What Is the Matter?" He says:

"There is a reason for everything. The reason for the situation described above is not because eight million men for six years spent their labor on destruction instead of construction, putting us behind two hundred and fifty billion dollars in improvements and enterprises. This economic loss of the war should cause a greater demand for our products, rather than cause stagnation in industry and commerce. The reason for present conditions is the lack of confidence, due to the war's degenerating effects, and to the evil effects of the reckless period of inflation through which we have just passed. Business integrity—the foundation of commerce—has been forgotten, while faith, industry and thrift—the basis of enterprise—have been lost sight of. The war's greatest damage was not material but spiritual.

"The causes which prevent our nation from selling its grain, cotton, lumber, copper and other products are spiritual. It is because the men of all nations have forgotten the Ten Commandments that trade is at a standstill and unemployment is on the increase, while the world is in greater need for goods than ever before. There is too much Bolshevism and too little regard for truth and service. When we return to common honesty in trade, industry and politics, the world will quickly consume the surplus of raw material which America now has, and there will be an unprecedented demand for more."

That is not the language of a preacher talking to the saints of his congregation, but it is the language of the most painstaking and trustworthy student of business conditions in all this country, and he is speaking to other business men as business men.—Christian Advocate.

**A TRIBUTE TO WATER**

Col. Bob Waxe, at the annual meeting of the Bar Association of Arkansas, responded to the toast, "Water." Said he:

"Mr. Toastmaster, Ladies and Gentlemen: You ask me to respond to the toast, 'Water,' the purest and best of all things ever created. I have seen it glisten in tiny dewdrops on the sleepy eyelids of infancy; I have seen it trickle down the blushing cheeks of youth, and go in torrents down the wrinkled cheeks of age; I have seen it in tiny dewdrops on the blades of grass and leaves of trees, flashing like polished diamonds when the morning sun bursts in resplendent glory over the eastern hills; I have seen it trickle down the mountain's side in tiny rivulets, with the music of liquid silver striking on beds of polished diamonds; I have seen it in the rushing river rippling over pebbly bottoms, purling about jutting rocks, roaring over precipitous falls, in its mad rush to join the Father of Waters and, in the mighty Father of Waters I have seen it go in slow and majestic sweeps to join the ocean on whose broad bosom floats the battle fleets of all nations, and the commerce of the world, but, ladies and gentlemen, I want to say to you now, that as a beverage, it is a damn failure."

**FOLKS NOW LIVE 10 YEARS LONGER THAN THEY USTER**

Austin.—"The movement to conserve human life is dictated by the crudest economic motives," states Dr. Louis I. Dublin, one of the leading statisticians in the country. An increase in the average span of life adds to the potential wealth of the country. Whatever curtails life destroys National wealth.

Public Health work of the last 50 years, by cutting the death rate from such diseases as malaria, typhoid fever, smallpox, cholera, yellow fever, tuberculosis, and also acutely, is responsible for the addition of May, E. S. Graves, Sr., Texas, 19-41.

tion of over 10 years to the average lifetime of man.

Estimated conservatively we produce more than we consume each year to the small amount of \$300 per capita. The addition of only one year of life per person is equivalent to adding more than 10 billion dollars to the National wealth of our country.

The well-directed expenditure of money for the conservation of the public health will bring larger returns in dollars and cents than many another investment.

If, for example, tuberculosis could be entirely eliminated as a cause of sickness and death, an average of two and one-half years could be added to the lifetime of every man and woman in the United States. We have simply demonstrated our ability to suppress typhoid fever. Yet, there are still over thirteen thousand deaths every year, most of which could readily be avoided.

Diseases such as measles, scarlet fever, diphtheria, and the other infections of children leave defective ears, hearts, and kidneys, which impair efficiency and shorten life. The money value of all these losses is staggering when we stop to realize

that human life is our greatest economic asset.

**GAGGED AND BOUND**

Just because a person is doing business in a town that isn't classed as a large city, shouldn't hinder him from running his business on a metropolitan basis.

Your big city competitor and the small order houses are spending 3 to 4 per cent for Business Publicity while you try to get along with one-tenth this amount or none at all. The thing that has you gagged and bound is the hard-shelled idea that advertising may be good for them but not for yourself.

The thing that obstructs your commercial vision is the little old stickin' dollar that you are afraid to turn loose in payment for space. You work on the scared-to-death policy that you would rather have the one dollar than to invest it in what you call a suspicious operation and get back three times the amount in additional profits.

Fortunes and business superiority were never founded on such a dwarfed conservatism and the quicker found out the better. You'll

thank us later if you will lay aside the old non-covered, antiquated ideas you may have entertained in the past about newspaper advertising and brighten up your entire business estimate by spending three per cent of your gross income on advertising.—Exchange.

**Power Farming With the Fordson**

The Fordson Tractor is taking care of every power job; it is taking the drudgery out of farm work and solving the labor problem. Power farming with the Fordson reduces the cost of preparing land to almost one half what it would be with horses, and saves a third to a half of the farmer's time. What machinery does for the factory, the Fordson Tractor is accomplishing making farm life attractive.

Apply this power farming idea in your threshing. More and more farmers are making themselves independent of unfavorable conditions by using the Fordson Tractor linked up with a light threshing. By seizing the right moment and being able to do the job without waiting and in quick time, crop losses are avoided and profits increased.

The Fordson plows 6 to 8 acres in a 10-hour day, handling two plows with ease in the average soil. It requires an average of only 1 1/2 to 2 gallons of kerosene to the acre.

It is the ideal year-round tractor. It will pay for its fall and winter keep in many ways, such as road work, hauling grain to the elevator, pumping water and moving granaries.

**DO IT NOW**

"I plan to build a nifty shack," the thoughtful voter sighs, "when normal times again come back, and costs don't hit the skies. I'll go about the business sharp, not waste a golden day, when carpenters consent to drop for wages I can pay. When lumber, plaster, nails and lime are sold for what they're worth, I shall not lose a moment's time—I'll build with pep and mirth. The house I've dreamed of in the past will go up, board by board, when plasterers consent to plaster for what I can afford." A million men are talking thus, and if they'd go and build, and cease to brood and fret and cuss, with dire misgivings filled, we'd soon get back to normalcy—you've heard of that mayhap; the normalcy that Warren G. has placed upon the map. Alas, poor dreaming, hopeful men, what are you waiting for? You'll never see the price again you saw before the war. Far better that your coin were spent for lumber, lath and lime, than digging up the rent until the end of time. So rock your doubts and fears to sleep, and buy some brick or stone, and build yourself a donjon keep that you can call your own.—Walt Mason.

**You Can Afford to Have Your Car Fixed Now**

We have made quite an interesting reduction in the price of repairing at our Garage. We take the lead in this, for we believe lower prices are right. It costs less to live, and everything we use in repair work is down. We can work for less wages, and believe we will get more work to do with the price cut to what you can afford to pay.

Bring your car in and let us fix it up for you. We propose to do the same high quality of work for which we have built a reputation, and will not slight your job because of the lower price.
