Pampa Holds Political Mass Meeting

A mass meeting was held in Pampa last Saturday, at which candidates for the various county offices were approved by the assembled citizens and their support in the coming primary election pledged. The information has reached The News that they have nominated a candidate for every county office.

The meeting was held in response to the following call, which appeared in the Pampa News of January 9th:

"There will be a political mass meeting and rally at the Crescent Theatre in Pampa on Saturday afternoon, Jan 17, 1920, at 1 o'clock. Everybody that is interested in Pampa and the Pampa community is most urgently requested to be present at this meeting. The means of nominating fast candidates and eliminating slow ones will be determined at this meeting. If you have political aspirations, be there. This will truly be a great meeting."

Bob Turner went to Amarillo Monday on business.

Hearing to Consider Time Zone Changes

At a general session of the Interstate Commerce Commission held at its office in Washington on Jan. 5 an order was issued that a public hearing be held at Amarillo in the Amarillo Hotel Tuesday, Feb. 17, at 10 a. m. before Examiner John T. Money regarding the question of further hearing on defining the boundary between central time and mountain time, modifying the order which placed the line between Texas and Oklahoma.

If the hearing at Amarillo is properly presented the Panhandle-Plains section will be placed back in central time and the line for mountain time will be placed back to the eastern border of New Mexico.

Miss Lillian Quattlebaum left Friday for Kansas where she intends to spend a month with her sister. She was accompanied as far as Amarillo by Miss Mary Henry.

L. P. Coffey and Enoch Bentley motored to Shamrock Tuesday on business.

Gin Meeting Saturday

Your attention is again directed to the meeting T. J. Coffey has called, to discuss gin matters with the farmers and others interested in cotton raising and the welfare of our town. The date has been set for Saturday afternoon. The hour is 2:30.

Mr. Coffey says that the buying of planting seed or contracting for a quantity of it is an important thing right now. He tells us he has already bargained for several thousand pounds of seed, and will arrange for more as soon as he gets information on which to base an estimate of the amount likely to be needed.

T. J. explained to the News man this week the plans he has in mind for the new gin plant, which, when worked out, will give McLean a gin second to none in the Panhandle. The latest improved Continental machinery is to be installed. All machinery is to be on concrete, with a gin-house floor of this same material. Absolutely nothing in the way of late improvements, bolly or other attachments, will be omitted. It is also planned to build a large seed house and a warehouse for storing seed cotton in case of a rush, making it unnecessary for a farmer to wait his turn, for he can then put his cotton in the warehouse and call for it later.

High School Reopens Monday

The high school department of McLean Public School, which closed last week because teachers were not available after Mr. Teague's and Miss Billingslea's connections with the school were severed, reopened Monday with F. P. Wilson and Mrs. Luther McCombs in charge of the work formerly done by Mr. Teague and Miss Billingslea.

The desire of the teachers and school board to have as many patrons as were interested in the work of the high school present Monday morning was announced in the churches Sunday, and a large number were there at the time for opening.

Members of the school board, the incoming teachers, and a number of the patrons made brief and interesting talks on the mistakes that had been made by all parties concerned, discussing means for correcting them or insuring against a repetition. All the patrons present pledged their heartiest support and fullest co-operation to the teachers and the board in their efforts to conduct the school credibly.

In taking charge of the school, Mr. Wilson did so for a period of only two weeks, or until an other superintendent could be secured, as he will be forced to neglect his farm and cannot give school work his undivided attention for a longer time.

WHY PAY YOUR POLL TAX?

PHEBE K. WARNER
In The Fort Worth Star-Telegram.

"Oh! I don't want to vote nohow. My vote wouldn't elect anybody. I don't know nothin' about it and there is lots of things I can get with that \$1.75 that I want worse than a ballot."

There are thousands of Texas women who will feel and talk just like that when you ask them to pay their poll tax. But most of these women are excusable for the stand they have taken. They have dragged through life without any encouragement from anybody. They have never had any recognition from any source for what they have done. They have never had a voice in the affairs of their own life or home. No one has ever done anything to develop their lives and they are just where they were years and years ago.

Some of these women have given eight or ten or a dozen children to their State. These children are out and gone, half-educated, no, not half, but with just a few months, out in the world without any fighting chance in the battle of life. Temptations all about them. Labor conditions and wages at the mercy of their boss. Mother at home working, saving, living the best she can and so busy in the struggle for an existence she has never had time to think of anything but her work and family. Texas has been populated and fed to a large extent by just such women. They may never pay their poll tax. But one of the first reasons why every well cared for, intelligent woman in Texas should pay her poll tax is to help improve the stupefying conditions in the lives of the women of Texas who are doing the drudgery of the State.

We must have better labor conditions for such women's children. We must have more practical schools for their education. We must have the right kind of food for their bodies. We ought to have some marriage laws that would protect her children. We ought to have laws of health that would help her children to overcome any physical weakness they may have inherited. We ought to do everything in our power to create the right kind of a market for the products of her work.

There is so much we can do to help make Texas the best place in the world for men, women and children to live. But the surest, quickest way to do it is through the laws of our State. If we want the good laws made, then we must elect the men who stand for the good things to be done. And here at last is our chance. If we pay our poll tax we, too, can have a choice of every officer from the public weigher to

EDITOR ALONE CANNOT MAKE GOOD PAPER

We frequently hear the remark that no town can amount to anything without a "good paper" and it takes a good editor to make a good paper.

Yes, that's all 100 per cent true, but the rippling, flowing, calmly going, well informed spokesman stops his oral declaration too soon; there is more talk necessary to complete that exclamation which "talk" should sound something like this: "And that editor should have the co-operation of every business man in the town in which the paper is published; the editor should have the co-operation of

every resident in the town and country to the extent that they subscribe and pay for the paper said 'good editor' edita."

Everybody should boost the paper that's trying to boost the town, advertising the advantages of the surrounding country, develop the resources by inducing families to move into our county, establish homes and build up greater wealth.

But do they do it?
Do you do it?

When an editor has to stand single handed and alone and battle against a seemingly relentless condition of non-progression on the part of many, few if any find time to read "the foolishness" which is written and printed.

Every town has just as good a newspaper as they are entitled to, just as good as their patronage warrants, and if most publishers of country newspapers were not financial wizards in the management of their business affairs few towns could lay claim to a local newspaper, even though it be a "poor excuse," or "better than no paper at all" sheet.

C. L. Tanner, editor of the Alice News, just about covers the salient points on the subject in this paragraph:

"A newspaper without messages from the merchants of its town even though it abounds in news items, does not appeal to the eye nor yet to the tastes of men and

women. Fact is the successful newspaper, or magazine for that matter, is composed of three essential elements, to-wit:

- "Readable reading matter.
- "Readable advertisements.
- "Pleasing appearance."

The newspaper which does not measure up to this triple standard is a detriment to any town and has no real excuse for existence.—Lubbock Avalanche.

BUNDY-HODGES MERCANTILE COMPANY

The Gray County Local Mutual Aid Association

A Home Institution Organized to Furnish to Its Members Life Insurance at Cost
T. M. Wolfe, Secretary

Purpose

The purpose of the organization is, by eliminating all unnecessary expenses, to furnish life insurance to its members at cost.

No Salaries

There are no salaries to be paid. The initiation fee of \$3.00 will pay the cost of organizing, procuring charter, paying state license, etc. The running expenses, cost of printing and mailing notices, policies, etc., and keeping the records is paid out of the annual dues paid by each member and cannot exceed one dollar per year, and is payable on or before December 1st of each year.

Fees

On joining each member pays an initiation fee of \$3.00, annual dues \$1.00, and \$1.00 to the beneficiary fund, making a total cost of membership of \$5.00.

Upon the death of a member, an amount equal to \$1.00 for each member is immediately paid their beneficiary, and the secretary of the association immediately notifies each member of the death, and of an assessment of \$1.00 against each member, which must be paid within 15 days under penalty of suspension. This is repeated each time a death occurs, and there can be no other money assessed or collected, except the \$1.00 per year dues.

Membership

The membership of the Association is limited

See C. J. Cash or W. H. Peters, McLean, Texas

to 1,000, and the maximum insurance to each member is \$1,000.00. Any white person, male or female, from 18 to 55 years of age inclusive, of good moral standing and of good health, may become a member by signing an application and paying the solicitor \$5.00 which, as explained above, covers all costs, for which they will take a receipt. If elected to membership by the investigating committee, they will receive a certificate of membership. If rejected, money will be refunded to them.

Benefits

The beneficiary money is deposited in the bank and can only be paid out on the death of a member, by order of the directors, signed by the proper officers of the Association. Both the secretary and the treasurer are required to give \$1,000 bonds.

Independent Organization

This organization is entirely independent of any other organization. It is chartered separately under the laws of the State of Texas, and its members pay no dues or assessments to keep up any state lodge. Its membership is to be composed entirely of people who live in Gray county and within a radius of 25 miles of McLean.

Officers

The officers and directors are all good men of established reputations, whose integrity is a guarantee that only those honestly entitled to membership will be received.

Real Service to FARMERS

VOLUME XV

Did you get the repairs and parts you ordered last fall promptly? Was there apparently unnecessary delay in filling your orders? Would you like to KNOW that such delays could be avoided?

The House of Real Service

The International Harvester Company of America carries the most COMPLETE line of EVERYTHING a farmer needs with which to till the soil in the world today.

There is NOTHING a farmer needs in the way of power or hand machinery, or implements, or tools, used on a farm, that is not included in this line.

The Harvester Company has made Amarillo a DIVISION for distribution of their products. EVERYTHING, including parts, included in the harvester line, will be on hand at all times in Amarillo.

We are the sole distributing agency of this line for this community.

We are only a few hours' run from Amarillo. Telephone service between here and that place is good.

We hope to give BETTER SERVICE to our customers in 1920 than in 1919 through this unusual distributing system.

DR. GEO. P. BIBLE THE LECTURER

Signally Honored by the National Red Cross—Here Soon.

Dr. George P. Bible was one of the fourteen most prominent American Lecturers chosen by the National Red Cross to go to France in 1918 to study and gather war material which the Red Cross desired to have presented to the people of America.

This was a rare distinction and a great compliment, as only fourteen men were sent on this important mission, and these men were selected because they were the "pick" of America's platform men.

GEORGE P. BIBLE.

Doctor Bible was thrilled with what he saw and learned, and his lecture, "Scenes at the Front," has been pronounced one of the strongest and best addresses that has been given on the subject of the war.

Doctor Bible has had a thorough training in public work. For nine years he was President of the State Normal School of Pennsylvania and later was principal of the National School of Oratory at Philadelphia. For years he has been on the Chautauqua and Lyceum courses in all parts of the United States and many calls for return dates on him are the best evidence of his great popularity. Not only is Doctor Bible a foremost orator and natural humorist, but he has achieved distinction as a Shakespearean reader and impersonator.

This year he comes with a new modern message concerning "New Fads and Fancies" that are springing up in our social order. Among other things, he will discuss, in that intimate and inimitable way of his, the new ideas of thrift which have been born in the American Nation. It is a most human discussion of modern problems that no one can afford to miss.

Though Dr. Bible indulges in no so-called fights of oratory, there is a "humanness" to the man that appeals. His humor is crisp, clean and cutting, and his message as big and broad as its presentation is convincing.

We know of no one better qualified to give distinction to a Lyceum Course than Doctor Bible.

The Successful Farmer Raises Bigger Crops

and cuts down costs by investment in labor-saving machinery.

Good prices for the farmers' crops encourage new investment, more production and greater prosperity.

But the success of agriculture depends on the growth of railroads—the modern beasts of burden that haul the crops to the world's markets.

The railroads—like the farms—increase their output and cut down unit costs by the constant investment of new capital.

With fair prices for the work they do, the railroads are able to attract new capital for expanding their facilities.

Rates high enough to yield a fair return will insure railroad growth, and prevent costly traffic congestion, which invariably results in poorer service at higher cost.

National wealth can increase only as our railroads grow.

Poor railroad service is dear at any price. No growing country can long pay the price of inadequate transportation facilities.

This advertisement is published by the Association of Railway Executives.

Those desiring information concerning the railroad situation may obtain literature by writing to The Association of Railway Executives, 61 Broadway, New York.

Had It Ever Occurred to You

You do just four things: you think, you remember, you imagine, you act. When you learn to think better, remember better, imagine better or act better, you increase your efficiency, and, therefore, your income. Perhaps you are very successful now, but of how much benefit will a practical business education be to you? You will agree with us that to violate a part of the laws of business means partial failure, and to violate all the laws means complete failure. You are also aware that to observe part of the laws of business means partial success, and to observe all the laws means complete success. Our aim is to help you observe a higher per cent of the laws of business success. The late Prof. James of Harvard declared that the average man uses only ten per cent of his brain power. Suppose you are twice as capable as the average man? Even that would mean you are only twenty per cent of your maximum possibilities. The purpose of our course is to produce a greater efficiency with less effort. Did you ever stop to think that eighty-five per cent of the men of this country are earning only \$18 per week or less? That ninety-two per cent fail in business between the ages of 40 and 50? That ninety-five per cent have no money at the age of 60? We have been very successful in getting men out of the eighty-five, the ninety-two and the ninety-five per cent class. Let us increase your salary. We have been marvelously successful in raising salaries, as is conclusively proven in our catalogue by the letters from former students. The business world wants thinkers and doers. There's a famine of high priced men today; there are thousands of men worth a thousand dollars a year, but only a few worth ten thousand a year. Be the latter kind of a man, you can if you will. We know that a man is not worth much from the chin down, selling muscle, but as high as a hundred thousand dollars a year from the chin up, selling brains. Be a chin upper and sell brains; but remember you must get them before you can sell them. Take our thorough, practical courses of Book keeping, Shorthand, Cotton Classing, Business Finance and Telegraphy; learn how to think, to remember, to imagine and act. We can teach you and will therefore greatly increase your usefulness throughout life.

When You Hold a Public Sale

—the success of it, the getting of good prices for what you have to sell, depends on how many interested persons are there to bid on your stuff. The size of the crowd depends on how well the sale is advertised.

A difference of a few dollars in advertising cost may mean hundreds in gain when the auction takes place.
