Chamber of Commerce Smoker Saturday Night, November 6th At 7:30 p. m., in I. O. O. F. Hall

Unity and harmony being the keynote of any organization, the directors have decided to have a get-together meeting on Nov. 6th, and every man 21 years of age and over is not only cordially invited to come, but is urgently requested to be present. Now is the time for us to get together and in a social way discuss some of the issues that are to be taken up by the Chamber of Commerce. We can do wonders if we will all pull together.

It may be that you have some other business that you think is necessary for you to tend to, but if you care anything for the progress of your city and community, make a shift to come out and spend an hour or so in friendly conversation.

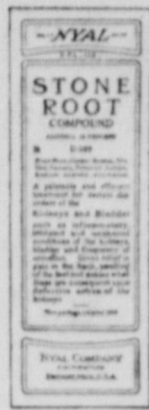

One of the greatest troubles in any non-progressive community is that everyone tries to live to himself. That's the reason we do not move forward. We can no more live to ourselves

than we can exist without the proper amount of nourishment. Come out and sit in the same building with your neighbor, and it may be that you will come to the conclusion that he is not such a bad fellow as you imagined he was. Come and leave your worries at home for a time. You will feel better, and your neighbor will feel better about it, too.

Now if YOU are not there, I, as president of your Chamber of Commerce, am going to ask you what excuse you had, more than anyone else, for not attending a meeting to your own interest. I want at least 100 men in that building by 7:30, and would feel much better if you would see that there are twice that many present. Everybody come and see that your neighbor comes also. Talk it all this next week what a nice time we are going to have, and we will be there in great numbers. Respectfully,
W. A. CAIN, President.

How's Your Elimination?

If you have a "weak back," headaches, undue thirst, or "wandering" pains, it is probable that your kidneys are not doing their full duty, or perhaps are overloaded in the work of eliminating waste products. These products are systemic poisons when allowed to accumulate in the body, and they are conducive to a number of serious ailments.

Methodists to Contribute to Polish Relief

The Methodist people are planning to send a shipment of goods to relieve suffering in Poland this winter, and all who will, whether Methodists or not, are asked to bring anything they may have that would be suitable to T. J. Coffey's store not later than Tuesday noon. The following articles are needed: Clothing for men, women, children and babies; household supplies, such as quilts, comforts, blankets, sheets and pillow cases; also suits, dresses, coats, underwear, shoes, hosiery, hats, caps, gloves, etc. Money also is needed, and will be used to buy needed articles at wholesale prices. A Polish priest said, "My people would rejoice to have the piece of cloth you use to scrub your floor, and the shoes you cast away as worn out."

Build that barn now

Harvest time is upon us. You may need a new hay barn, a cattle barn, a combination barn, or just a plain barn, but if you need it you can not afford not to build now.

This year, with the great shortage of farm labor, every farmer wants to make the most with the least possible help. Better equipment is more necessary than ever before. If you need any kind of farm buildings you simply can't afford to wait.

Figure it out in bushels of grain or tons of hay or pounds of hogs and cattle, and you will find that a good barn won't cost any more than it ever did. And every farmer knows that a good barn helps produce bigger crops and better returns.

Our stocks are complete with quality building materials and we will gladly serve you.

KNOW ANIMAL TRACKS

Hunter May Find Himself in Difficulties Unless He Can Properly Identify Them.

Game-hunting is just about as popular today, even among sportsmen, as gun-hunting, and to secure the game or study an animal's habits is often necessary to track it. Hunters are at a disadvantage if they cannot read tracks seen in the camp. A friend of mine who has a large part of his supplies in the woods, assuming that tracks he saw were those of his dog. That day a pair of timber wolves just "cleaned out his pantry," said L. E. Eubanks in the Hunter-Trapper Columbus, O. One of the fundamental things to know about tracking is that the wind of travel affects the trail. Any animal makes a more distinct track when running because of striking the ground with more force. Also, snow or dirt is kicked backward. When tracking against the sun, if possible, so that every little shadow will show a shadow."

SECRET NOT WELL GUARDED.

Grandpa and grandma had come to spend Christmas eve and night with the young folk and grandchildren. After supper no gifts were mentioned but, of course, the intense air of secrecy, mystery and expectancy was rife, and the occasion of the visit of Santa Claus plainly visible on the children's faces. The mother played the piano and the children gleefully danced around the tree, when suddenly three-year-old Arline Rutledge of Pittsburg stopped before grandpa and loudly and loudly announced: "Grandpa, grandpa, mamma got a shirt!" Much laughter, and Santa did not get to put the shirt on the tree. —Indianapolis News.

HE NEVER SLEEPS.

One of the prides of the campus at Indiana university is the chimes which announce the passing of each minute period. A freshman, who heard them for the first time, told that the special chime service was played by Archie Warner, director of the Indiana band. The freshman stayed up until the hours and on going to bed heard the chimes play a ditty as it rang "That bird never sleeps," was the comment of the freshman.—Indianapolis News.

"Own Your Own Room" New Project of Girls' Clubs

"Own your own room" is the newest project in the boys' and girls' clubs. Connecticut and Iowa have many clubs of this new type and other states are fast taking up the idea.

The members in an "Own Your Own Room" club plan to buy or make over their own rooms themselves. The club leaders say that a girl needs a nucleus around which to build a larger life or she will not be content with her surroundings. The "own your own room" idea seems to offer this nucleus. Incidentally after a girl has finished with her own room she is apt to have a larger interest in the whole house.

This new club project is not one to encourage the making of dressing tables from soap boxes or wing chairs from barrels. The club leaders assume that the girl on the farm to day either has furniture which a little work will turn into a "joy forever" or is able to buy new pieces. Especially is this true of the club girls who have made and banked money through their other club projects. A knowledge of sewing, sanitation, and household decoration will be necessary or the result will not be entirely satisfactory to the owner or her club leader.

Directions are given the girls in the "Own Your Own Room" clubs on the refinishing of furniture, redecorating of walls, and the making of sanitary, artistic, and simple draperies, as well as instruction on what constitutes good lines in furniture, what kind of a rug to buy or make, and what is satisfactory and unsatisfactory in wall coverings.

It is well to speak the truth and trust in the Lord, but at times it is also well to be at a safe distance when you do it.

A Lazy Story

At a recent dinner a number of people were telling of the laziest persons they had ever met or heard of. Some interesting specimens of the genus homo lazibones were discussed, but the final story, we think, takes the prize. The story preceding it was as follows:

"The laziest man I ever knew," said one young man, "was Bill Smythe. He was so lazy that when he started into a building he would get within the revolving door and wait for somebody to come along and revolve it."

"That man was as busy as a bee compared to Hank Perkins down in Arkansas," said another young man. "Hank was given up to be the laziest man in the United States. He was so lazy he wouldn't get out of the sun when it was hot, or out of the rain when it was wet. One day Hank was sitting on the porch with his wife. As it happened, his back was to the road. A prominent farmer had just died, and the funeral procession passed Hank's house. The deceased was a man of considerable influence, and the procession was a long one. After it had passed the wife said, 'That was a mighty fine procession, Hank.' 'Yes, I guess it must 'a' been,' said Hank. 'I would 'a' liked to 'a' seed it, but I was settin' wrong!' —Dallas (Ga.) T. White, whose residence is unknown, to appear before the Hon. District Court, at the next regular term thereof, to be holden in the county of Gray at the court house thereof, in Lefors, Texas, on the seventh Monday after the second Monday in August, A. D. 1929, the same being the 25th day of October, A. D. 1929, then and there to answer a petition filed in said court on the 25th day of September, A. D. 1929, in a suit numbered on the docket of said court No. 651, wherein O. P. Hickman is plaintiff and Mrs. M. T. White is defendant.

Wherefore, plaintiff prays that defendant be cited to appear and answer herein and that on final hearing hereof, he have judgment for the title and possession of said property, and for the removal of the cloud from title; and for all such other and further relief, legal and equitable, special and general, as he may be entitled to. HIS POINT OF VIEW ON THE BETTER SCHOOLS AMENDMENT

The teacher said to the waiting class
"Set forth why the Amendment should pass."
So little Johnny removed his coat,
And this is the poem that he wrote:

"The day is hot, and so am I
To think that any tightwad guy
Would try to save a bean or two
On Better Schools for me and you.

It's hard enough to come all day
And crack your brains and stop your play
Without being herded in a shack
That almost fell down ten years back,
Or taught by teachers, kids or green,
Who're ugly, ignorant or mean.

So come, all voters, young or gray,
And put it thru on 'lection day.
Forget you're tired, forget you're busy,
Walk, run, or come in your old tin 'Lizzies!
If you never voted before in your life,
Come this time and bring your wife."

**SAVING THE PRICE OF A WOODSAW
—OR—
THE LAZIEST MAN IN TOWN**

"Of all the saws we ever saw saw, we never saw a saw saw like our saws saw" is an old saying, but a true one when speaking of our line. Our full line of reliable tools cannot be excelled in quality, or equalled in price. We know you are not the laziest man in town; in fact, we're sure that in your business, or on your farm you buy every implement and device to save time and labor—to increase your efficiency. But how about your Kitchen? Is it equipped to reduce the drudgery of housework? Is this department 100 per cent efficient? How about the new washing machine you have been promising so long, and that bright, beautiful, light, clean aluminum ware; some new cutlery and silver? Give your wife a chance to do better work. It will pay big dividends in health, happiness and satisfaction.

**Land Comes on Market
17,712 Acres of South Plains Land—\$30 Per Acre**

The purchaser to assume \$14.07 per acre, due to Baylor county, drawing 5 per cent interest and payable thirty-seven years after date, but can be paid at any time after seven years, at purchaser's option. Balance \$16.00 per acre, one-half cash, remainder divided into four annual payments drawing 6 per cent interest, the first year making an interest payments only, and the second, third, fourth and fifth year paying \$2.00 per acre each year and the interest, making very liberal terms and giving the purchaser ample opportunity to get his improvements on the premises and get this land in cultivation before payment is due. This makes it possible for a man to handle one or more of these tracts. There has been so much demand for these lands for actual settlement that Mr. Moody has consented to let it go that people may have homes.

This land is about thirty miles west of Lubbock, Texas, and nine miles from Ropes, Texas, on one of the Santa Fe lines. It is on the east side of Hockley county, and considered one of the best tracts of land of this size on the South Plains, deep soil of the short grass and catclaw type, fine water from eighty to one hundred and twenty feet in unexhaustable quantities. These lands are easily cultivated and will produce corn, cotton, wheat, oats, kafir, maize and sudan abundantly. Cotton in 1919 made from one-half to three-fourths of a bale per acre. Sudan brought as high as \$83.00 per acre. The South Plains country is fast coming to her own. The land is producing more per acre than South or Central Texas, where land is selling from \$150.00 to \$200.00 per acre.

If you wish to see these lands and purchase a home, see or write to

Then you pay \$2.50 per acre, and the balance will run just as long as you want it. Most all of this is good land with good water at a depth of 50 to 100 feet. I make a trip every week.
