BURN CORN IN LIEU OF COAL, ADVISES U. S.

Washington.—"Burn corn instead of coal, it's cheaper."

This advice is contained in an official statement issued by the secretary of agriculture last week.

High freight rates have made it often unprofitable for farmers to ship this year's record crop of corn. On the other hand, coal is expensive and the Department of Agriculture finds that the farmer not only will find corn cheaper than coal, but, in addition, will save the cost of hauling the corn to town and hauling the coal back.

"Corn at 20 cents a bushel is equal in fuel to a fair grade of Western soft coal at approximately \$10 a ton," said Secretary Wallace. "In the districts where corn is very cheap the coal is usually of a rather poor grade and is selling at high prices. Under such conditions it will pay both farmers and people in country towns to use corn instead of coal."

Many farmers in the McLean country are already burning corn for fuel.

McLEAN HI CELEBRATES ARMISTICE DAY BY WINNING TWO BALL GAMES

The McLean high school football and girls' basketball teams were victorious over Wheeler last Friday.

The basketball game was called at 10 a. m., and the McLean girls lived up to their motto, "Beat us if you can," which was exactly what Wheeler was unable to do. The score was 24 to 13 in favor of the locals. This was the first game our girls have played this season, and they are to be congratulated on the good start they have made.

In the afternoon the "Tigers" walloped the Wheeler eleven to the tune of 33 to 0 in a swift game of football.

McLEAN TIGERS CLASH WITH CLARENDON NOVEMBER 19

What promises to be the hardest fought game of the season for the McLean high school football eleven, will be staged on the local gridiron Saturday afternoon, when the Tigers will play Clarendon High.

Clarendon high school has one of the Panhandle's swiftest teams, with an exceedingly heavy line-up, and they have been playing some good games. However, the McLean line-up is reported as being the best since the beginning of the season, and with our best backfield, Lee Wilson, able to be back in the game, we are expecting great things of the Tigers. The game will be called at 3 o'clock. Be there and help our boys win.

ROBBED THREE TIMES HE PLEADS FOR IMMUNITY

Chicago, Nov. 10.—A plea for immunity from further robberies was addressed to highwaymen thru the papers this morning by A. I. Joseph, a young jeweler who has been robbed until he is in desperate circumstances.

"Won't you please quit until I have got on my feet at least?" he pleaded.

First he had his stock of diamonds stolen some months ago, two weeks later his automobile followed, and last night he was ready to give up after robbers bound and gagged him and took \$200 from his safe, all he had left.—Amarillo Tribune.

McLEAN DOES NOT FORFEIT TO PAMPA, OFFICIALS SAY

Officials of the McLean High School have denied that the football game played between McLean and Pampa at McLean on October 8 was forfeited, according to a communication received by The Tribune on Tuesday morning, which reads:

"A short time ago it was publicly reported that McLean High School forfeited the football game played at McLean on October 8, McLean vs. Pampa. At first the forfeiture was thought to be true and was imputed by the superintendent of the McLean schools, on account of McLean's playing an ineligible man. McLean authorities voluntarily notified the defeated Pampa eleven.

"At a recent date it has been revealed that Pampa played an ineligible in the same game. Since that information has been secured, it has been ruled that McLean will not have to forfeit the game to Pampa, and that the game shall not count for either. With both teams playing an ineligible player, the final score was McLean 13, Pampa 7, despite the enviable record of the Pampa eleven."—Amarillo Tribune.

THE BEST TIME TO CROW

Pampa News: Whoever writes the "School News" in the McLean News is indeed an optimist, or something on that order. The words, which should be sung to the tune of "The Stock Yards Rag," are as follows:

"The local football squad will play its friendly rival, Pampa. A Waterloo is expected. It cannot be helped—both teams are strong and in good condition. This week is marking the mid-season practice for the home boys, preparing them for the coming battle. A different story will be told Saturday evening."

And in another place we read: "Saturday, Pampa might as well look for her second defeat in football at the hands of McLean, for it's coming, and a shock can be stood better if one is prepared to receive it."

Further on we are informed thusly:

"Our boys are ready to receive any shock that the Pampa boys may put over. In fact, they are so well prepared that we do not expect the opposing team to 'put one by us.' Our quarter-back will go through their lines exactly as he did last Friday, and our line men will interfere so hotly that the Pampa boys will be looking for their heads instead of touchdowns. Then, the man who has the ball will calmly make the touchdown, and Ted will promptly kick the ball over the goal, making the score—well, you know what."

Some talk, that but little comment is necessary, as the score of 52 to 0 in favor of Pampa tells the story in its own graphic way.

McLean did not have a chance to score from the start, their quarter-back was never called upon to kick goal, and as far as going through the line, that is a joke of rare quality. Almost every time a McLean man was tackled by a Pampa player it was not a Waterloo—but water! water! for the down and out McLean man. One substitute was called after another and finally the available supply was exhausted, and had the game continued much longer Pampa would have had to lend them their second string men to fill up the gaps in the line.

The youthful writer for the McLean News should hereafter do his loud crowing after the game, if he has any crow coming, instead of be-

fore, as in the above stuff. It would also be well for him to remember:

We build our castles in the air,
In youth's impulsive season;
A place of visions bright and fair,
Beyond the bounds of reason.

The local football players and fans are still wondering how it happened. They tell us that the Pampa team seemed to have been reorganized and really taught how to play football since the first game, which McLean won on the local gridiron and later forfeited. They claim also to have lost players who composed the backbone of the team in the meantime, and can give a number of other "reasons"—the vanquished can always do that. But the score of 52 to 0 stands, and no reason for it is quite so good as that Pampa was able to play better football.

But McLean is not discouraged. This is only her second season at school football, and she remembers that it takes time to build up a winning team. She expects to play better football next year, and still better in the years to come. All McLean is proud of the boys' present achievements, and of the clean games they are playing, as well as the good sportsmanship they have shown.

INTERSCHOLASTIC MUSIC MEET TO BE HELD AT BAYLOR COLLEGE ON APRIL 29, 1922

An Interscholastic Music Meet, which promises to be in many respects an innovation, will be held early in the spring at Baylor College, Belton, Texas.

The contests will be limited to high school students. The program will include contests for Pianists, Violinists, Sopranos, Contraltos, Quartettes and Choral Clubs. Scholarship prizes, ranging in value from \$105.00 to \$225.00, will be offered to individual contestants, while platinum loving cups will be awarded to the successful quartette and choral club.

The proceeds will be porated among the competitors towards defraying their expenses, and Baylor College will entertain all competitors free of charge during their stay.

All visitors, whether competitors, boosters or rooters, will be given a royal welcome, for it is planned to make the occasion a gala day.

The plan of the Music Meet originated with Dean T. S. Lovette of the Baylor College Conservatory, under whose personal supervision the undertaking will be carried out.

Not only will the Music Meet afford excellent opportunity for the

discovery of youthful talent and for public school students to see the inner workings of a great college, but it is hoped that, as an ultimate result, there will be fostered an added interest in music as a regular part of the curricula of the public schools of Texas.

"THINK WHAT YOU OWE THE TELEPHONE GIRL"

Dalhart Texan: The telephone girl sits on her chair and listens to voices from everywhere; she hears all the gossip, she hears all the news, she knows who is happy and who has the blues.

She knows all our sorrows, she knows all our joys, she knows all the girls who are choosing the boys.

She knows all our troubles, she knows all our strife, she knows every man who is mean to his wife. She knows every time we are out with the boys, she knows the excuses the fellow employs. She knows every woman who has a dark past, she knows every man who is inclined to be fast. In fact, there's a secret 'neath each saucy curl of that quiet, demure looking "Telephone Girl." If the telephone girl would tell all she knows it would turn half our friends into bitterest foes; she'd start a small wind that would soon be a gale; ingulf us in trouble and land us in jail. She would let go a story (which gaining in force) would cause half our wives to sue for divorce.

She would get all the churches mixed up in a fight, and turn all our days into sorrowing nights. In fact, she would keep the world in a stir if she told a tenth part of what she hears. Now, doesn't it set your head in a whirl? When you think what you owe the telephone girl. "One Who Knows."

Because my calf became his cow;
I left my dad—'twas wrong, of course—
Because my colt became his horse.
I left my dad to sow and reap,

I dropped my hoe and stuck my fork,
Because my pig became his pork.
The garden truck I made to grow
Was his to sell and mine to hoe.

I'll stay with dad, he gets my vote,
Because my hog was once his shote.

LOCATION OF GULF NO. 3 MADE LAST THURSDAY

Panhandle Herald: Location was made last Thursday of what will be Gulf No. 3, across the river north of the No. 1 well. It is planned to begin drilling there sometime within the near future.

It is reported that at the place where the new location is made, the different formations appear very favorable, and are expecting to get a real well there. However, should this test prove a failure, they will likely direct their activities southward, near Panhandle City.

On the same day, the Panhandle Oil Company made a location on the same lease.

The oil situation in Carson county is looking brighter than ever. No great activity is expected before the first of the year, however, but it is the general belief that after that time, development will be very rapid.

There is no question but that

Carson county has a real oil field—larger, perhaps, than any of our fondest expectations.

HOME TOWN LOYALTY

Anniston (Ala.) Star: Why not be fair to your home town? Do your buying with the merchant who is your neighbor and friend, who, when you need it, will give you accommodations you could not get away from home, who helps to keep Anniston going and growing by paying taxes and licenses here, paying store rent here, paying wages to employees here, buying his own household supplies here. The home business man is a big factor in the growth and development of the city. When it is necessary to raise funds for church or charity he is the first to give, and he gives liberally. The question is largely one of town loyalty and of good business practice. It is not loyalty

to a town to buy goods in other towns that could be bought as cheaply and as well at home, and it is poor business policy to pay merchants in other cities more for goods than home merchants charge for them.

FIGURE IT OUT FOR YOURSELF

You probably read the statement published some months ago to the effect that 84 per cent of all business failures in 1920 were of non-advertising firms. Maybe you didn't believe it. Maybe you thought it was just a coincidence. But you probably didn't bother to investigate.

The head of a firm that builds standard and special buildings, made up his mind to look into the matter further. He decided that if there was such a direct relation between advertising and successful business, it was worth knowing about. He set out to investigate the relation of advertising to the firms with which his firm did business—the firms that had installed new buildings or enlarged old ones.

Here is what he found:

Of all the factory buildings which they erected during a term of years, 83.3 per cent were erected for firms which advertised. Measuring it in floor space, he found that 92.6 per cent of the new floor space his firm had provided was for increased production of advertised commodities.

Here are his conclusions: The advertising manufacturer is five times as likely to stay in business as his non-advertising competitor; he is five times as likely to need more floor space, which he will probably buy in two and one-half times the quantity required by the non-advertiser who buys any at all.

It is needless to say that this firm has increased its own advertising, and it is telling the world about what it discovered with respect to the relation of advertising to business success.—Star-Telegram.
