

Dr. I. G. Hardin Injured in Car Accident Saturday

Dr. I. G. Hardin of the Liberty community suffered severe injuries Saturday afternoon when a car driven by a small child ran into him, causing painful bruises on one shoulder, cutting one ear and injuring him about the hips.

Dr. Hardin was standing on the walk near the McLean Blacksmith shop when the car ran up on the walk and pinned him between one headlight and the shop wall. The car struck with such force as to bend both front fenders and break one headlight.

It is thought the driver became confused and threw in the low speed clutch instead of the brake, causing the accident.

Dr. Hardin was taken home at once and has been confined to his bed every since with a prospect of getting up again within two or three weeks if complications do not set in.

CHURCH OF CHRIST REVIVAL CLOSED LAST SUNDAY; 17 ADDITIONS

The Church of Christ revival that has been in progress at the city tabernacle closed Sunday morning with 17 additions to the local church as a result of the meeting.

Eld. S. E. Templeton of Amarillo conducted the meeting and his addresses caused much favorable comment among his hearers.

FRANK CORUM BUYS REMINGTON PORTABLE TYPEWRITER OF NEWS

Frank Corum is the proud possessor of a new model Remington Portable typewriter bought last Thursday.

Frank realizes that typewriting is practically the only subject taught in our schools that can be used as a means of making a living after school days are over, and in buying a Remington Portable, he has the satisfaction of knowing that his machine is the only standard portable made, with all the latest improvements. The same writing, the same keyboard, and in every way a copy of the big standard Remington machines, with the sole exception of tabulator.

Remington machines, both portable and the big office machines, are known to be the longest lived machines made and are easy running and convenient to use.

M. F. CORBIN NOW IN NEW HOME

M. F. Corbin is now in his new home recently built in the west part of town. This home is of modern construction with plaster and sand dash finish and is a valuable addition to that part of town.

Mr. Corbin was a visitor at the News office Monday and showed as a sample of 90-day kafir planted the middle of June on his son, M. T. Corbin's place in the Liberty community. This kafir had a week to grow before the 90 days are up, and is fully matured. Mr. Corbin stated that all crops are good on his son's place this year.

MAIL ORDER HOUSE SENDS MANY CATALOGS

Twenty-nine mail bags of catalogs were delivered at the McLean postoffice for one mail order firm one day last week.

The mail order houses are after some of our cotton money this fall and there is only one way the home merchants can beat them at their own game, and that is to advertise better goods and service. Home merchants can compete with mail order houses only by advertising as it is only by advertising that the catalog house hopes to win trade.

MISS ABBOTT TO TEACH AT CLARENDON

Miss Lillian Abbott, graduate of West Texas State Teachers College and former teacher in the McLean High School, will teach history in the Clarendon High School this term.

Miss Abbott orders The News sent to her new address.

The Boys' Pig Club

HEAD SCHOOL NOW IN PROGRESS WITH GOOD ATTENDANCE

The Head school started the fall term August 17th, with Prof. H. L. Dorman of Louisville as principal and Miss Edythe Troxell of Lela as associate teacher.

There are now about fifty pupils enrolled and all are interested and doing good work.

The school was started early in order that a longer Christmas vacation may be given if it is thought necessary to accommodate the cotton farmers who may need the children's help to gather the crop.

W. L. Litchfield, M. R. Landers and W. N. Holmes compose the board of trustees for this district, and the Head school is known as one of the best rural schools in this section.

COTTON PICKERS NEEDED BY FARMERS

Many farmers in the McLean territory are needing cotton pickers. There are calls for both families and single hands.

The cotton this year is opening much earlier than usual on account of the continued fair weather. The two gins are already ginning cotton every day, and the Farmers gin is being rushed to completion in order to take care of the large acreage planted to cotton.

FOLLEY TAKES FIRST BALE TO HEDLEY

G. P. Folley of the Watkins community took the first bale of 1925 cotton to Hedley last week. Mr. Folley brought the first bale to McLean last year.

BUSH TO BUILD HOME

M. L. Bush has bought the block of land south of the A. T. Young residence and will build a modern home.

SCHOOL OPENS MONDAY

The McLean school will open Monday with appropriate exercises. The News has not been informed as to the program intended for the opening day of school, but we are assured that a program will be rendered and all patrons and others interested are welcome to attend the exercises in the High School Auditorium.

CLARENDON'S FIRST BALE

Clarendon was so anxious for the first bale of cotton for this season that Sheriff H. C. Brumley of Donley county was sent out last Thursday to bring in the first bale, and he did, but the sheriff captured the bale on his own farm and as a reward, the merchants of Clarendon presented him with a substantial cash reward.—Panhandle Herald.

SHAMROCK MAN FIRES INTO CAR; WOUNDS FIVE

Farmer's Mistake May Cost Vision of Three Young People

Shamrock, Sept. 9.—Firing point blank into an automobile full of young people who were passing his home about one o'clock yesterday morning, Perry Koonse, farmer, living 14 miles northwest of Shamrock, seriously wounded Cecil Rook, 19; Margal Emler, 18, and her sister Mattie, 13, and slightly injured Roy Emler, 23, and Gary Emler, 16.

They are the victims of a case of mistaken identity, according to the story told by both themselves and by Koonse, who said he was lying in wait for some men he declares waylaid and beat him a few nights ago. The farmer's mistake may cost the vision of the three most seriously injured who were taken to the Northwest Texas Hospital at Amarillo, doctors say.

Perhaps the two girls may be able to distinguish between light and dark, but chances are the 19-year-old boy will be blind the remainder of his life, they said yesterday.

Koonse was arrested and placed in the Wheeler county jail shortly after the shooting.

Cecil Rook is a tool dresser working for his father who is drilling for oil on the Koonse farm. They moved to Shamrock from Canadian last May.

The three injured girls and their brother, Roy Emler, all lived at the home of their father, W. F. Emler, farming on a place about two miles west of the Koonse home.

Five shells were fired at the young people and Koonse was preparing to reload his pump shot gun when he recognized the voices of the girls as those of his neighbors and friends. The full discharge of his shots had hit them in the faces.

Realizes Mistake
Realizing he had made a mistake, Koonse rushed to their assistance and after helping them into his house telephoned for doctors and notified their parents he had shot their children.

According to the story told by the two girls and the boy soon after they had arrived at the hospital, they had been at the well being drilled by J. J. Rook, father of the wounded lad, and were returning to their home, singing and talking as they drove along. They never noticed Koonse as he stepped out of the darkness and fired five shells into their faces.

Rook, who was driving, collapsed and Roy Emler, brother of the three girls and who was riding in the rear seat, jumped over and stopped the motor, thus avoiding a probable crash.

Koonse is said to have told (Continued on Page 3)

R. E. DORSEY, FORMER MCLEAN POSTMASTER, DIED SATURDAY

R. E. Dorsey, former postmaster at McLean, died last Saturday at his home in Dallas. Funeral services were held in Amarillo Monday, where the remains were shipped for burial.

Mr. Dorsey married Miss Emma Hendrick in 1908 at Amarillo, where they jointly conducted the insurance business that was later sold to the Williams-Orr agency.

Mr. Dorsey was in the government service during the World War. The deceased was one of the best liked postmasters who ever served at the local office, and has many friends here who are grieved to hear of his death.

WHEELER'S FIRST BALE

The Wheeler News-Review states that L. Sivage of Corn Valley brought in the first two bales of cotton for Wheeler. The first bale drew a premium of \$40 and the second \$30.

CLARENDON GAME WARDEN HERE

T. W. Smith, game warden for the Clarendon district has been stationed here during the open season of prairie chicken.

Mr. Smith stated to a representative of the News yesterday that he had found very few violations of the game laws here the past week. Farmers have co-operated to the extent of guarding their lands from hunters.

CLOSE BOY IN CAR WRECK SUNDAY

Sunday afternoon Vernon Close was driving toward Shamrock when in attempting to pass another car at a high rate of speed, met a car driven by Bill Porter, and the Close boy in trying to stop set his brakes and slid the car about forty yards, we are informed. The car ran up on a small embankment into the fence by the side of the road, causing it to overturn; catching one hand under the side of the car suffering injuries that may result in the loss of one hand.

AMERICAN NATIONAL BANK HAS NEW STOCKHOLDER

Wesley Knorpp, president of the Donley County State Bank of Clarendon, also president of the Knorpp Trading and Loan Company with headquarters at Kansas City, is now a stockholder in the American National Bank of McLean.

The American National Bank has enjoyed a steady growth under the guidance of Cashier F. H. Bourland, who came to McLean from Clarendon and the addition of the new stockholder raises the individual assets of the stockholders to over one million dollars.

MORSE OIL WELL FLOWS OIL OVER TOP

The Holmes-Morse No. 2 oil test flowed oil over the top of the hole for a short time this week following swabbing operations.

Salt water had sealed the hole and this was bailed out and the swab run in, and in less than two hours oil was standing 160 feet in the casing. After further operations the flow started.

Preparations are being made to shoot the well and further developments are being watched with interest.

CONLON-LOFTIN WEDDING

Special to The News.

Alanreed, Sept. 9.—Last Sunday afternoon at 4:30, there gathered at the home of Mr. and Mrs. S. R. Loftin relatives and friends for the purpose of witnessing the marriage of their daughter, Miss LaRue, to Mr. Francis M. Conlon of Dallas.

The bride, so widely known to her host of friends, is the beautiful and accomplished daughter of Mr. and Mrs. S. R. Loftin of Alanreed. She is a talented musician, a graduate from the Madison Music School of San Antonio, also of the Cincinnati Conservatory of Music.

The groom, a young man of sterling qualifications, is associated with the Commerce Farmers Credit Co. of Dallas.

Many were the beautiful gifts from relatives and friends, who looked for this young couple happiness, peace and prosperity. They will be at home about Oct. 1st at Dallas.

Rev. W. C. Garrett, pastor of the First Baptist church of McLean, officiated, the ceremony being both beautiful and impressive. Out of town attendants were: Messrs. W. A. Loftin of Idabel, Okla., W. W. Loftin of Pauls Valley, Okla., brothers of the bride, and their wives; also Miss LaRue's former music teacher, Mrs. H. M. Anderson of Houston.

FRANCIS REUNION

Reported.
A reunion of the C. E. Francis family was held Sunday morning at the home of Roger M. Francis southeast of Perryton in Ochiltree county, having occurred rather by accident.

Mr. Francis is confined to his bed the greater part of the time in the various homes of his children, being at the present time at the home of his son, Roger.

The relatives from Groom and McLean went Friday in response to word received that Mr. Francis was not so well. On reaching there, they were glad to find him somewhat improved.

All the children, their wives and husbands, and the grandchildren were present, with the exception of the widow of Ernest D. Francis and her daughter, Ernestine, of Helena, Ark.

Those present were Mr. and Mrs. C. E. Francis, Mr. and Mrs. Luther Petty and children of McLean; Mr. and Mrs. W. Emanuel James and sons of Groom, Mr. and Mrs. Robt. H. Francis and children, Mr. and Mrs. Roger M. Francis and children of Perryton, Mrs. Margaret Carpenter of Perryton, a cousin of Mrs. Francis.

The special feature of the gathering was a watermelon feast and picture taking.

Mr. Francis was seventy-five years old August 11, at which time he was given a card and letter shower by friends and relatives, in which many from McLean participated, which he appreciated very much.

SHAMROCK'S FIRST BALE NETTED OWNER \$224.30

We note from the Wheeler County Texan that Shamrock's first bale of cotton for the season was brought in by J. W. Wilder of Elm Creek Valley. The bale weighed 467 pounds and sold for 23c with a premium of \$114.55, almost three times last year's premium.

With the exception of the premium given at McLean, this is the largest premium for a first bale we have noticed this season. McLean's first bale sold for 25c with a premium of \$120.15. Counting the seed, the bale netted \$308.11.

McLean Fair Plans Discussed Monday C. of C. Meeting

The McLean fair had the right of way in the discussions at the regular monthly meeting of the Chamber of Commerce Monday night.

The members of the executive board who visited the commercial shows at Pampa reported as to conditions found there, and stated that Sheriff E. S. Graves commended the shows as showing an inclination to treat the people right. After full discussion of the amusement features needed for the fair, it was voted that the proper officers be authorized to enter into contract with the manager of the commercial shows to bring their attractions to McLean during the week of the fair.

It was also ordered that rain insurance be taken out for both days of the fair, and that the superintendent of the community booths have full charge of the arrangements of booths in the exhibition building.

The matter of judges for the fair was then taken up and it was decided to ask R. O. Dunkle of Herford, former Gray county agent, and Mrs. Berta L. Vaden, home demonstration agent, of Claude to act in this capacity.

F. H. Bourland, C. C. Bogan and T. J. Coffey were appointed as an arrangement committee for the proposed community visits; it being planned to visit each nearby community some time this month and take speakers, the McLean orchestra, and ice cream and spend an evening with the citizens of each community in the interest of the McLean fair. The committee was asked to meet Tuesday morning to perfect plans for the trips.

The need of cotton pickers for this section was mentioned and various plans suggested.

A motion was made to table the proposition of the Martin Broadcasting Station of Amarillo to allow our community to put on an hour's radio program for \$50.

Our situation in regard to limited mail trains was discussed, and the fact was mentioned that there is a contemplated change in train schedules for McLean that may remedy the matter; however, C. of C. executives were asked to look into the matter and take any steps necessary to secure relief.

A statement from the Postal Highway Association was read in which it appeared that McLean is delinquent \$75 of this year's assessment. The Postal is now a designated Federal road and such designation has just been secured for the New Mexico end of the highway, and money is needed to make some changes before the Federal Government takes over the road.

The importance of a north and south road for our section was stressed by several speakers and it was brought out that a road running north from McLean could be secured without objection on through the Morse ranch, Mr. Morse making no objection to putting the road anywhere on his lands, regardless of section lines.

F. H. Bourland, D. N. Massay and M. D. Bentley were appointed by the president as special road "prodders" to co-operate with the county commissioner to assist in seeing that local roads are put in shape for fall hauling.

It was agreed that the Chamber of Commerce should pay the light bill for the building each month and that lights be kept burning in the show windows each night.

Amongst those present and taking part in the discussions were: M. D. Bentley, T. J. Coffey, C. C. Bogan, T. A. Landers, F. H. Bourland, W. S. White, J. A. Sparks, Fred Landers, O. G. Stokely, E. M. Rice, J. A. Meador, C. A. Strandberg, W. C. Garrett, F. W. Wayland and T. N. Holloway.

E. M. Rice acted as secretary in the absence of E. J. Anderson.

H. C. RIPPY RESIGNS POSITION AT BANK

H. C. Rippy has resigned his position as assistant cashier of the Citizens State Bank to accept the bookkeeping job for Smith Bros. Gin. His resignation will take effect the fifteenth of this month and his work at the gin will begin immediately after that date.

Tisdal, Robert McNeely and The Continental Supply Company, a corporation, are defendants. The nature of the plaintiff's demand being as follows, to-wit: A suit on one certain promissory note dated September 25, 1924, in the principal sum of \$2500.00, payable to the order of plaintiff, executed by the defendant F. W. Dillard

due on the 25th day of December, 1924, bearing interest at the rate of 10% per annum from date and providing for 10% additional on both principal and interest; as attorney's fee if sued upon or placed in the hands of an attorney for collection, having a credit of \$1735.00 endorsed thereon of date December 1, 1924, and secured by a chattel mortgage on two miles of two-inch pipe, located between the city of Pampa and the oil well belonging to the defendant F. W. Dillard on section 77, block 3, L. & G. N. Ry. Co. survey, Gray County, Texas, and one rotary derrick located on said section 77, which mortgage was registered in the Chattel Mortgage records of Gray County, Texas, on the 25th day of September, 1924.

Plaintiff sues to recover judgment for the balance due on said note, together with 10% attorney's fees due thereon, 10% interest, costs of suit, and foreclosure of said chattel mortgage on said property.

Plaintiff alleges that its lien is superior to any lien or title the defendants may have in and to said property.

GREATEST SHOW ON EARTH HERE SOON

Rumor Now Confirmed. Eggst Circus, Ringling Bros. and Barnum & Bailey, Headed This Way

Bringing more than eight hundred of the world's premier men and women stars, three hundred and fifty performing horses and many big, new foreign features, the Ringling Brothers and Barnum & Baile circus is to give performances at Amarillo September 26.

Here is a partial list of its wonders: One hundred railroad cars. Five rings in place of the three heretofore used. Six arena stages. One hundred and fifty trained horses presented at one time in a magnificent "Equine Ballet." Hi-wire acts introducing no less than nine of the world's most famous dancing, somersaulting and bounding-wire artists in a single display. Five herds of trained elephants. A troupe of twenty jumping and long-distance jumping horses, and many other imposing acts and features.

Among the host of noted performers are the Australian Collesano the Spanish wizard, Mijares, Maximo, Naidia Miller and Berta Beeson who head the congress of high-wire artists. May Wirth, the Geo. Hannaford troupe, "Phil the marvel," the Ernestos and the Riefenach sisters are among the secondary back-champions. Lillian Letzel, Mlle. Fillis, the Clarkonian troupe, the Siegrist-Silbons and the Rooneys lead the aerial displays.

Entire families of famous gymnasts are being presented. These include the Coliano family of eleven remarkable athletes, the Nelson family, world's greatest acrobats and tumblers, the Pichianis troupe who have come from Italy to astonish with their gymnastic feats, the Medinis who perform upon adders as high as the tent-top, the Junetro troupe, acrobats who wear tall stilts, and a host of others.

The addition of two more circus rings has been effected by setting circuit curbs on two of the elevated stages. This makes it possible for Ringling Brothers to present for the first time in history, five separate companies of performing horses at one time.

Georgious pageants, a hundred downs and a menagerie of over one thousand rare animals, are a part of what is the biggest and most amazing circus ever on tour in America.

HOW ABOUT YOUR TOOL KIT?

When it comes to tools, one may better have too many than too few. Tools are easily misplaced or lost and it is of vital importance to see to it that the tool kit is well supplied before starting on the tour. It is surprising how few motorists check over the tool kit before starting on their trip.

During recent rambles over the country I encountered many displays of the "Will-You-Lend-Me" Club. On one occasion I met a fellow from a nearby state who was starting on a tour of the West. His car had stopped for some reason unknown to him and he asked assistance.

I soon traced the trouble to the gas line and asked him for a wrench with which to remove the coupling. He said he had no wrenches but thought he had a pair of pliers some place in the car. These he brought forth after diligently searching under both front and back seats. They were of the side cutting variety, with the jaws both broken. I soon remedied the trouble with equipment from my own tool box and advised my less fortunate friend to drop into an automobile accessory store and provide himself with a set of tools.

Aside from these special tools, there are many little accessories to the tool box that are both important and necessary. A tow rope, extra light bulbs, tire repair outfit, jack and pump, ignition wrenches, socket wrench set, iron wire tape—many are the additions that prove a life saver when the car gives trouble. Boxes of assorted cotter pins, bolts, nuts and washers, should be included when the list is made.

The dashing young lady was anxious her aunt, who was rather old-fashioned, should look as presentable as possible in her bathing suit.

"Surely, Aunt Ella," said the girl rather caustically, "you're not going to wear your spectacles in the water?"

"Indeed I am," replied her aunt, "nothing shall induce me to take off another thing."

MONKEY DOLL FAD POPULAR IN DAYTON
It has long been an established fact that a girl can make a monkey out of a man, but these society buds of Dayton, Tenn., seem to be trying to reverse the process. At least they have taken up with avidity the new fad of Monkey Dolls, which the trial of John Thomas Scopes, charged with teaching evolution, has made popular. Where ever you see a girl in Dayton now, you will see a monkey doll and usually a man tagging along in the background. Who wouldn't be a monkey under these circumstances?

KEEP AWAY FROM WILDCATS

Buying blue sky and wildcat shares of stock is not the popular indoor sport it was a few years ago. People are learning more and more the wisdom of consulting a bank with a good reputation before making investments and handing out their hard earned money. National distribution of the better class of investments has become a modern science, very important that those who buy securities know what they are getting.

Our harvest season is here. Farmers are blessed with normal crops and in some cases better than normal, and prices are above normal. They will find themselves with plenty of money this fall and the slicker stock salesman will be on hand to take it away from them.

There are many good investments in all lines of activity, and all that a buyer needs do is use ordinary prudence and consult with responsible banking or investment houses and millions of dollars will be saved from loss.

EDITOR'S RESPONSIBLE ROLE

William Allen White, editor of the Emporia, Kansas, Gazette, classifies newspapers as public utilities. "A newspaper," he says, is affected with a public interest as the street car, the telephone, the gas or electric plant and all other utilities.

"An editor is really a trustee entitled to his profits, if they are clean and decent, to the fullest extent that he may make them, but not entitled to make his profits at the community's loss.

"Unless he can give the public some valuable thing—information, guidance or entertainment—he has no right to his profits."

He concludes that "a newspaper is certainly a public utility."

FOOLISH EDITORS

Some of our smaller country exchanges can hardly be found in the big magazine sections they come out in—come out in is right—once each month. These magazines are real good and contain a world of interesting reading matter. But they also contain a world of advertising matter that the country weekly reaps nothing from, but pays good money for it, and the postage to carry it to their readers besides. When the time arrives when they quit such, and it will, when the country weekly weans out all advertising sections and ready prints, these advertisers will then pay this money to the papers themselves, and with this added revenue, the average country weekly will be able to install its own machinery to print these "funny" pages. SHAMROCK MAN FIRES INTO CAR

(Continued from page 1) Then he thought they were party of men who had waylaid him and beaten him a few nights before and for whom he was looking. He was not more than 30 feet from the automobile when he poured the broadside of his shot into it.

Principals Were Friends

Koonse, W. F. Emler, father of the injured girls and Roy Emler, and J. J. Rook were all good friends and both Emler and Rook said yesterday that they believed Koonse had really made a mistake when he fired at the young people.

The three victims bear no malice toward Koonse, all saying they feel sure he made a mistake when he fired at them. No ill feeling has ever existed between the families. Rook is at this time drilling for oil on Koonse's farm only a short distance from his home.

They were taken to Amarillo in an ambulance after emergency treatment had been given them in Koonse's home.

PRAISED WOMEN'S CLOTHES

An English physician addressing medical students, tells them the latest styles of women's clothing are a great improvement over all former fashions, being hygienic and admitting light and air to all parts of the body. False modesty is both immodest and ridiculous. Not so many years ago legs were not to be mentioned in the presence of a lady, and there were persons so excessively nice they referred to the leg of a table as a "limb."

BRYAN'S FAVORITE STORY

As Bryan was fond of telling a preacher and a lawyer were talking shop. The preacher said to the lawyer, "What do you do when you make a mistake in a speech before a jury?"

Said the lawyer, "It depends upon the character of the mistake. If it is a slight error, I let it go. If important, I correct it. What do you do when you make a mistake in a sermon?"

"I follow your plan," replied the preacher. "If it is a serious error I correct it. If slight I let it go. For instance, in my sermon Sunday I wanted to say that the devil is the father of all liars, but what I did say was 'The devil is the father of all lawyers.' However, it was a trifle and I let it go."

THE UNDESIRABLE CITIZEN

There is always somebody ready to condemn this community for its shortcomings and that somebody is generally a citizen of the community. He is not only a citizen, but makes his money here, enjoys his pleasures here, rears his family amidst the advantages the community affords, and is indebted to it for everything he has. He is the fellow who finds everything wrong, yet does nothing to remedy the conditions of which he complains. If asked to subscribe to a fund to locate a new factory, beautify the community, help increase trade or some other public spirited endeavor, he promptly and suitably refuses. He flails the air because his neighbor means does not pay his just share of the taxes, then leaves nothing untuned in an effort to slide out of

SPARE PARTS

A husky Texas roughneck recently had his archbone fractured when a drill bit dropped on his foot. On being taken to the doctor, he asked how serious the injury was.

"I'll show you just what bone is broken," replied the doctor, bringing a complete human skeleton from his closet.

"My gawd, Doc!" the fellow bawled out, "whereja get all them spare parts?"—Squeaks.

Another summer has passed without a Sunday school picnic. We still claim that a Sunday school that fails to have a picnic for the children is not living up to its obligations and opportunities.

We all like the word "progressive," but we should be sure there is progress where the word is used. Merely changing things is not progress, nor is jumping up and down in one place. To be progressive we should be going forward to better things.

A look at our streets will show anyone the waste and annoyance of circular advertising. Any sort of a little wind can raise more dead advertising in the form of discarded circulars than any of us care to see. Throwing waste paper on the streets is not only a dirty habit, but it adds to the ever present fire danger.

The visits planned by the Chamber of Commerce to neighboring communities can be made of much mutual benefit, if proper co-operation from the business men can be secured. The more neighborly spirit we can engender the more pleasant will living conditions become for everyone.

A number of our citizens have expressed themselves as wanting to go back to an all-the-year closed season on prairie chicken. The idea of about three hunters to every chicken, blazing away without regard to posted signs or anything else, does not set well with our folks. If a closed season for five or ten years will keep the hunters at home, let's have it.

As a matter of civic pride there should be a different way of taking care of the various road signs than is in use at present. The center light pole on Main street now has all the signs it is possible to put on it and it has been suggested that a box around this pole with all signs painted on the box would be a better system. Anyway, we will all agree that the present method is decidedly unwholesome.

The latest fashion news says the shapely figure will be the thing in women's styles this winter. The boyish figure will be passe, and fashion creations will insist that "a becoming amount of plumpness" with a few "graceful curves" will be decidedly the thing. Maybe it will be easier for the silhouette beauties to eat chocolates and cream with rest cures to attain a stylish stoutness than it has been for their plumper sisters to effect the skeleton styles of recent months. Anyway, it is the ladies' business if they want to follow the styles, regardless of editorial opinion or otherwise.

It is claimed by many that an editor does not mention the disagreeable things of the community, but only those things that are calculated to boost the home town. We have noticed a tendency to get away from this to some extent, as several editors in the Panhandle are panning the poorly kept streets in their home towns. We used to boast of our good streets in McLean, but we have had to quit that, and even now when we boast of the fine new brick business buildings recently erected on Main street, we have to shut our eyes to the five foot high sunflowers and cockleburs growing in the same street a block away. No home town editor likes to mention the disagreeable things of the town, but sometimes that is the only way to get the evils corrected.

BEING A HERO FOR GOD

Will be the sermon theme at the Baptist church next Sunday morning.

The evening service will be evangelistic in spirit. There will be a hearty welcome to all, and everyone is invited to come, sing, pray or take whatever part your heart prompts you to take in the services. The pastor, W. C. Garrett, will preach both hours.

The evening hour for the preaching service will hereafter be 7:30 o'clock.

I will preach at Back school house at 3 o'clock p. m. Sunday. Will also preach there each night through next week.

All the people of that community, and as many as will come from McLean and other communities, are urged to come and help make the meeting a real revival.

UNFAIR TO THE WOMEN

Within a decade, electric stoves, washing machines, ironing machines, water heaters, mixing devices, refrigerators and similar power appliances will be as much a part of a house as the modern bathroom, is the prediction of Earle E. Whitehorse, editor of Electrical World.

"While the modern office is filled with labor saving devices, only 18% of the homes are thus provided. The women are required to do the same kind of drudgery their grandmothers did, all because the home is away behind the times.

"The development of the consumer-owned power companies, which is real public ownership, will bring about the further use of electricity in the home."

LIGHTS BOOST TOWNS

Lights boost the town. The effects of a well lighted town are many on the stranger within the gates. A story was recently told of a Chinaman who went to a prosperous looking New England town to put in a cafe, but left next morning. When asked why he so suddenly changed his mind, his answer was quick: "As soon as dark comes, no lights," and we regard the Chinese as heathens. All honest people like bright lights—the other kind like the darkness, and we are not after them anyway. The more lights shine forth by night, the more real honest-to-goodness people we will attract to Brownfield.—Terry County Herald.

THE CIRCUS

Still there is reason for the old saying that "there is nothing new under the sun," and we have come to be one of its chief disciples. Amarillo, it seems, is leaving no stone unturned to keep a big circus out of their city on the first day of the Tri-State Fair. Now this is news, and real interesting, to boot. Just you hark back a few short years when not only the average small boy and girl went into rapture when the big posters announcing the name and date of the coming three ring circus, but the average father took a fresh quid of tobacco and a hitch in his goadules in anticipation of the event and mother perhaps would smile over her knitting as she thought of the funny clown who "sided" her several feet when she came into the big tent the last time they were here, though neither parent would admit for a moment that they cared a whit for the circus except for the children. And now Amarillo is trying to stop the circus. Strange!—Terry County Herald.

THE STATE OF TEXAS. To the Sheriff or any Constable of Gray County—GREETING: YOU ARE HEREBY COMMANDED that you summon, by making publication of this citation in some newspaper published in the County of Gray, for four consecutive weeks previous to the return day hereof, J. B. Parrish and F. M. Allen and Minnie Allen, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term hereof, to be holden in the County of Gray, at the Court House thereof, in Lefors, Texas, on the 28th day of September, 1925, then and there to answer a petition filed in said Court on the 2nd day of Sept., A. D. 1925, in a suit numbered on the docket of said Court No. 1256, wherein Delis Parrish is plaintiff and J. B. Parrish and F. M. Allen and Minnie Allen are defendants. The nature of the plaintiff's demand being as follows, to-wit: That on the 13th day of Oct. 1924, plaintiff filed suit in the District Court of Gray County, Texas, asking for a divorce and a partition of her and J. B. Parrish's property; that in said petition in cause No. 1254 she alleged that 17 Lots Nos. 1 to 5 inclusive and 17 to 20 inclusive in Block 45, McLean, Gray County, Texas, was her separate property and in the hearing of said petition in said cause No. 1254 a part of plaintiff's separate property was not mentioned, which said property is Lot Nos. 11 to 16 inclusive in Block 45, McLean, Gray County, Texas, that said Lots 11 to 16 inclusive Block 45 is the separate property of this plaintiff. That plaintiff made and delivered to F. M. Allen and Minnie Allen three certain vendor's lien notes, each in the sum of \$200.00 each, dated Oct. 30, 1917, and due one, two and three years after date, that said notes have been paid and that no release having been executed and recorded placed a cloud on Lots Nos. 1 to 5 and 17 to 20 inclusive, Block 45, which said last mentioned lots secure the three vendor's lien notes; that all of said lots are in McLean, Texas. Plaintiff prays for judgment for the title to Lots Nos. 11 to 16 inclusive in Block 45, in McLean, Texas, and judgment cancelling said three notes. HEREIN FAIL NOT, and have you before said Court on said first day of the next term thereof, of this writ, with your endorsement thereon, showing how you have executed the same. Given under my hand and seal of said Court, at office in Lefors this, the 2nd day of Sept., A. D. 1925. (SEAL) CHARLIE THUT, Clerk District Court, Gray County, Texas.

Columbus Didn't Know Where He Was Going, But-- he had a pretty fair idea. He was armed with knowledge, faith and courage. "Turn back!" his men demanded. "We'll all go over the end of the ocean!" "Applesauce," quoth Columbus (or the fifteenth century equivalent) "I know what I am doing. We'll get there." Columbus had a plan. And he got there. A sound plan of regular bank deposits is the surest way of getting there in life. Start today.

Miss Watson is the daughter of Mr. and Mrs. Douglas Watson, of Palo Alto, Calif., and Mr. Hoover is the son of the Secretary of Commerce.

WHY BUSINESS GOES TO OTHER TOWNS

We are all prone to talk of our business going to someone else. Why? Because the other fellow goes after it and gets it.
 With the increased ease of travel and people visiting other towns, they are naturally attracted by the aggressive merchant's window and, quality being commensurate with the price, they buy something that they could have bought in their home town if the local merchant had business acumen enough to take some lessons from the larger town merchant.
 Instead of buying closer and in smaller quantities and making quicker turnovers, the country merchant is imbued with the quantity order idea to get a price so he will make more profit, regardless of the buying ability of his customers.
 In other words, the merchant has been doing a banking business and carrying farmers from crop to crop at a high rate of interest, and in so doing has fostered the idea that he is a sort of philanthropist.
 Getting cash by making it an object for the customer to pay at the time of purchase is the method of up-to-date commercialism.
 With taxes and other items of expense that have to be paid, the questioning of the purchasing power of the farmer's dollar is an important item and the merchant that tries to give the most for this dollar is going to get the

money.
 In the days of poor roads and limited means of transportation, the local buyer was compelled to buy at home, but with the advent of the mail order houses and neighboring cities the local merchant will have to adopt more intelligent means of merchandizing to keep his trade.
 The lack of advertising and circularizing, as against the other aggressive concerns that invade your territory, is another mistake and the small rate for advertising in your local paper as compared with what the other fellow pays to get your business is the evidence of the apathetic state of the average local merchant.
 The time to advertise is when the business is apparently going to the other fellow. It would pay the country merchant to read some of the circulars that his customers get from the other fellow soliciting their business.

DIFFICULT TO DRAW

During a drawing lesson in school the teacher told the scholars to draw on their slates what they wanted to be when they were grown up. At the end of the lesson Mary presented an empty slate. The teacher said, "Why, Mary, don't you want to be anything when you grow up?" Mary answered, "Yes, ma'am, I want to be married, but I don't know how to draw it."

Want to be married, but I don't know how to draw it.
