West Tightens Its Blockade Of Red Zone

Last Flow Of Goods Is Now Shut Off

BERLIN, Sept. 17. (AP) — The Western allies tightened their counter-blockade of the Russian zone today to shut off the last flow of goods from Western Germany to the east. Patrols were increased at crossing points along the length of Bismarck's frontier with the Soviet zone to half any east-bound freight on the highways.

Meanwhile, German Communist leaders assailed the planners of a Western German government today. Soviet jeeps prowled Berlin's sector borders. Several vehicles made quick sallies into American territory.

Leaders of Germany's Communist-controlled Socialist Unity Party (SED) loosed a blast at Western Germany's constitutional convention at Bonn and branded it a plan to disrupt Germany.

The allies imposed a counter-blockade July 26, banning all rail traffic in and out of the Soviet zone of Germany and halting highway freight from Western to Eastern Germany. This cut off supplies of Ruhr coal and steel.

Since then, however, Germans on both sides of the international borders have developed leaks and restored varying amounts of local trade.

The western counter-blockade has pinched sharply the economy of the Soviet zone.

To keep the embargo lid on tightly as long as the Russians maintain their Berlin blockade, the Western Powers are plugging border leaks.

Soviet Tutor, Will Testify

WASHINGTON, Sept. 17. (AP) — The House Un-American Activities committee said today Mrs. Oksana Stepanovna Kasenkina will be questioned at a public hearing in New York next Wednesday.

Mrs. Kasenkina is the former Russian school teacher who jumped from a window to escape from the Soviet Consulate in New York last month. Her testimony is wanted in connection with the committee's investigation of Soviet espionage in this country.

Chairman J. Parnell Thomas (R-N.J.) said "she has some material we believe will be of interest to the committee in its espionage investigation."

Mrs. Kasenkina as questioned by Chief Committee Investigator Robert E. Stripling shortly after her leap from the consulate created an international incident.

The State Department promised asylum in the United States for Mrs. Kasenkina, who said she did not want to return to Russia.

After seven busy days of public hearings on the CIO International Fur and Leather Workers' Union, Chairman Max Schwabe (R-Mo.), of a labor sub-committee commented:

"We were directed to look into Communist activities in the union."

"There is overwhelming evidence of it," he added.

"We did not prove, perhaps, that Communism has worked to the detriment of the union. There was disagreement among the witnesses about that."

Louis Will Fight Again

NEW YORK, Sept. 17. (AP) — Joe Louis announced today he will defend his world heavyweight championship for the Twentieth Century Sporting Club at Yankee Stadium next June against the winner of the Joe Baki-Ezard Charles 15-round bout scheduled for Madison Square Garden Nov. 12.

"If Baki and Charles put up a good fight and the winner comes through good, I'll fight him," the champion elaborated.

Lewis is in New York preparing for an exhibition bout next Monday at Washington with Pat Comiskey. He plans to return here in time to take in the Twentieth Century's fight show at Yankee Stadium next Thursday, in which Ike Williams will defend his title against Jesse Flores.

Socialist Names Certified In Austin

AUSTIN, Sept. 17. (AP) — The Texas Socialist Party has certified the names of Norman Thomas and Tucker P. Smith as its nominees for president and vice president, respectively.

The certification was filed yesterday along with the names of the party's 23 presidential electors.

Frenchman Also Dies In Ambush

AMMAN, Trans-Jordan, Sept. 17. (AP) — The United Nations Staff here announced today Count Folk Bernadotte and a French colonel were shot and killed on the Jewish side of Jerusalem today.

Count Bernadotte, the United Nations mediator for Palestine, and the Frenchman "were killed in the Jewish sector this afternoon by men in Jewish army uniforms," said a telephone message from Commander Seymour at the American school in Jerusalem.

Bernadotte twice succeeded in bringing about a truce in the war for Palestine between Jews and Arabs. His truces have been fitful, punctuated by shelling and fighting. Both sides appeared to expect the present truce, now two months old, to run out at almost any moment.

Bernadotte was head of the Swedish Red Cross and the husband of the former Estelle Manville of New York. He was 53.

Bernadotte had been shuttling for months between the Arab and Israeli capitals in his efforts to bring peace and enforce the truces. He was scheduled to report to the United Nations in Paris next week.

The telephone message identified the Frenchman as Col. Serot of the United Nations staff.

Bernadotte went to the Holy City for a last look around before going to Paris for the United Nations General Assembly meeting. A sniper's bullet found its mark on the left rear wheel of his automobile.

A clandestine radio station reported operating in Jewish-held Haifa. It was reported that Bernadotte's plane would be fired on if it landed near Jerusalem.

Bernadotte told newsmen he would not be frightened.

Indian troops invaded Hyderabad at 4 a. m. Monday with the avowed aim of restoring order.

The troops were closing in upon the heart of Hyderabad, which is surrounded by Indian territory, when the report of the end came.

A dispatch from Madras said the Nizam had surrendered to the Dominion of India.

Dominion troops early today were near Bidar, stronghold of the Razakars, general headquarters announced.

Israeli Leaders Fear An Outbreak In Palestine War

—OF PALESTINE AR—14 TEL AVIV, Israel, Sept. 17. (AP) — Israeli leaders have expressed fear the United Nations Palestine truce may be ended soon by full-scale Arab attacks.

Col. Yigal Yadin, chief of operations of the Israeli Army, told newsmen yesterday the 2-month truce may come to an end in the very near future.

Yadin said heavy Arab concentrations of men and equipment were massing, suggesting the possibility of imminent renewal of the Palestine war.

Antarctic Ice Cap Is Firm

WASHINGTON, Sept. 17. (AP) — Cross one item off the list of awful catastrophes threatening civilization. The antarctic ice cap is firm on its moorings.

The U. S. coast and geodetic survey thus reassured a worried Kansas clergyman who had asked his senator about it.

"It is the opinion of this bureau that there need be no alarm in this matter," soothed Director L. O. Colbert in a letter to Sen. Capper (R-Kan.).

"Even if the ice cap were increasing in mass it is so nearly centered around the axis of rotation that there would be little if any tendency of this mass to tilt the earth," Colbert said.

And besides, most scientists say its weight isn't increasing at all. It's decreasing.

Actress Better, Hears Doctor Talk

HOLLYWOOD, SEPT. 17. (AP) — Actress Rita Johnson, after 10 days, shows signs of coming out of her coma.

Dr. Lee Siegel said the actress was able to hear his words yesterday and attempted to respond when he asked her to raise her hand.

She was unable to talk, however and her condition remained critical. Miss Johnson suffered severe brain injuries when struck Sept. 6 in her apartment, apparently by a heavy hair drier.

SECOND CAMPAIGN SWING

President Promises Hard Fight As He Begins Tour

WASHINGTON, Sept. 17. (AP) — President Truman left today on a 16-day western campaign tour with this pledge: "I'm going to fight hard and I'm going to give them hell."

"It's a victorious trip," the President also told his running mate, Sen. Alben W. Barkley of Kentucky, who was at union station to see the President embark on the second swing of what may be the most strenuous campaign ever waged by a White House occupant.

The President will deliver more than 100 addresses in at least 18 of the 21 states his special 17-car train will touch on a 9,600-mile vote seeking tour to the Pacific Coast and return. The President is due to return to Washington Oct. 2.

In addition to Barkley, Secretary of State Marshall and Secretary of Commerce Sawyer were at the station to say goodbye to the President.

As Mr. Truman left on his cross-country swing, the Houston Chronicle, published by Jesse H. Jones, a cabinet member in the late President Franklin D. Roosevelt's administration, announced its support of the GOP ticket of Dewey and Warren.

The Chronicle in an editorial said it believes in a two-party system. It called on Democrats of the South to abandon the feeling "that we are Democrats and can vote no other ticket." It said "this will not be a case of leaving our party... rather our party has left us."

Citing qualifications of Govs. Dewey and Warren in administering affairs in New York and California, respectively, the Chronicle said Mr. Truman "has not shown the leadership necessary for the successful management of our national and international affairs."

Jesse Jones was ousted as secretary of Commerce by President Roosevelt in 1945 to make way for a cabinet post for Henry A. Wallace, who had failed to win renomination for vice president.

Mr. Truman will make the first major speech of the vote tour at Dexter, Iowa, tomorrow.

Democratic national headquarters said the Dexter address will be broadcast over a nation-wide hookup by Mutual Broadcasting System. Gov. Thomas E. Dewey, his

GOP opponent for the presidency, meanwhile stocked up more ammunition for his opening campaign address Monday at Des Moines, Iowa. He will confer with farm paper editors tomorrow on agricultural problems which are expected to figure largely in the campaign cross-fire.

His running mate, Gov. Earl Warren, launched his speaking campaign last night in Salt Lake City with an appeal for national unity and political moderation at a time when the world is "beset by fear."

Warren said this year's electioneering drive must be free from the prejudice of party, class or race.

COLE BROS. COMING

Saturday Will Be Circus Day Here

Saturday is circus day in Big Spring. The train of the world's second largest such show, Cole Bros. Combined Circus, are due in around 7 a. m., and should start unloading downtown shortly thereafter.

Then, the big top will be up and ready for performances at 2:15 located at the air field. Advance tickets are available at Anthony's and Cunningham & Phillips.

Cole Bros. Circus boasts something new and novel in the way of a pageant, entitled "Ponce de Leon and the Fountain of Youth." This opening review is based on historical fact and consists of over 350 arenic stars and other performers, including thirty English and Australian girls.

Also imported from England are the boxing horses, Easter Cloud and Easter Boy, who never fail to bring the "house down" with applause.

And the world-renowned Cristian Family of bareback riding marvels, featuring Lucio, greatest riding comedian of them all; and Hubert Castle, acclaimed the peer of all tightwire artists: The Great Davison, another importation from Europe, who are credited with executing the most daring high perch act in the world; and La Louis, and eye-catching young lady who becomes pure poetry in the far reaches of the big top.

Then there is Patricia Scott, the "Jean Harlow of the Circus" who puts intricate elephants through their intricate ballet routine, assisted by two other ladies of the circus and the world famous Eugene Scott, trainer of elephants for over thirty years.

Of course, there are the inevitable clowns, and the traditional man on the flying trapeze, acrobatic trampoline artists, high-jumping horses; educated ponies, a trained seal—the only seal known to ride atop a galloping horse and a host of other circus features that all go to make up a good two hour show.

Cole Bros. Circus is advertising the only Palomino Stallion act in the world. There are twelve in number, all of a golden-yellow or light chocolate color. These super-educated horses are displayed by the youngest animal trainer on the continent, Paul Nelson, who is not yet 34.

There are 250 head of horses with the big show this year, and all take part in one way or another, high-jumping, rearing, racing, trick and fancy riding. Bareback riding horses and two troupes of Shetland ponies who show almost human intelligence also are featured.

Humpty Dumpty was nominated by one kindergarten boy. Humpty picked up a few votes, too.

No figures were given.

OKLAHOMA CITY, Sept. 17. (AP) — It was a close race, but Thomas Edison won over Babe Ruth.

The race was a student election to name a new grade school in the north Craston Hills district. Such elections are now the custom here.

The principal, Mrs. Clara Wade, declined to say who campaigned for whom. But she admitted there is still "strong sentiment" for the Bambino among the electorate.

Humpty Dumpty was nominated by one kindergarten boy. Humpty picked up a few votes, too.

No figures were given.

WASHINGTON, Sept. 17. (AP) — J. Edgar Hoover, head of the Federal Bureau of Investigation, has been ill for the past few days, but an associate said his condition is not serious.

Hoover is suffering from a bronchial ailment.

NEW YORK, Sept. 17. (AP) — Saved from a crippled schooner in the hurricane-swept North Atlantic, Portuguese sailors threw themselves prone and kissed the deck of the famed Coast Guard Rescue Cutter Bibb.

The Bibb—which accomplished one of two dramatic ship rescues yesterday in which 79 men in all were saved—radioed early today the details of how she picked up 40 men from the Portuguese fishing schooner Gaspar.

About 390 miles away, two merchant ships rescued 39 men from the sinking British freighter Leicester. Seven men from the two stricken ships were believed lost.

Enlarged Restrainer Filed By Stevenson

FORT WORTH, Sept. 17. (AP) — An enlarged restraining order was filed at 9:45 a. m. today in U. S. District Court here to prevent Secretary of State Paul Brown and county election boards from placing Lyndon B. Johnson's name on the general election ballot.

The order, signed by Federal Judge T. Whitfield Davidson, was filed by Allen B. Conner, Fort Worth attorney and local campaign manager for Stevenson.

It was filed along with an amendment to Stevenson's original petition which seeks to restrain Johnson's certification.

Named in the enlarged order are Secretary of State Paul Brown, the Tarrant County election board of County Judge Kraft, Sheriff Sully Montgomery and County Clerk Faulk. They are named in a "virtual representation" class suit which is designed to set the pattern for similar boards in the state.

Tom Tyson, state democratic convention chairman, Vann Kennedy, state democratic secretary, and Johnson, who were named in the original petition, are also named in the amended petition.

Hearing on the amended petition will be held Tuesday morning at 10 o'clock in U. S. District court here, the same setting as the original hearing.

Judge Davidson signed the enlarged order Thursday at 8:35 p. m. at his ranch house near James in Cass County. He was handed the papers by C. C. Renfro of Dallas.

The amended petition was signed by T. R. James, Conner and W. E. Allen, all of Fort Worth; Dan Moody of Austin, Josh H. Groce of San Antonio and Renfro of Dallas.

The new action by Stevenson attorneys is designed to cover a "loop hole" of their original petition. They had asked previously that Johnson's certification be withheld or cancelled, but took no action against Brown, who stated he would put Johnson's name on the same ballots unless stopped by a court order.

Judge Davidson wrote that his reason for granting the enlarged order was that injury and damage will result to Coke Stevenson before notice could be given and hearing held on the original petition. He also pointed out that Brown was threatening to certify and report the nomination of Johnson.

Conner said the amended petition was necessary because Stevenson attorneys were not in position to furnish the necessary sworn statements to include the names of Brown and the state's county election boards at the time of the original petition for an injunction.

Man Gets Death In Niece's Murder

PHILADELPHIA, Sept. 17. (AP) — George A. Neill, 22, displayed no emotion yesterday as he was sentenced to death in the electric chair for strangling his 11-year-old niece, Isabelle Mallon.

Neill was convicted last Dec. 13 of persuading Isabelle to accompany him to a vacant lot and then strangling her when she threatened to tell her parents that he had made improper advances.

Loaded Bus Crashes Into Cafe At Burna

BEAUMONT, Sept. 17. (AP) — A loaded bus crashed into the front of a cafe at Burna last night, passed on through the side and hit a house next door with two men being injured.

More than 20 passengers in the bus escaped with only bruises. The driver of the bus, Bill Tucker of Beaumont, and O. J. Cowan who was sitting on the porch of the house, were injured and brought to Beaumont hospitals.

Falling Bomb Sticks Injure 33 Army Men

EGLIN FIELD, Fla., Sept. 17. (AP) — Bomb sticks which fell from a B-29 yesterday injured 33 Army infantrymen—a white captain and 32 Negro enlisted men.

The troops were taking part in a fire power rehearsal when the accident occurred. Air Force officers reported. They were members of the 505th Airborne Regiment and the 758th Heavy Tank Battalion from Fort Bragg, N. C.

Portuguese Sailors Kiss Deck Of Cutter Bibb After Rescue

NEW YORK, Sept. 17. (AP) — Capt. Donald G. Jacobs, skipper of the Bibb, radioed his rescue log to Coast Guard area headquarters here today, and ended it this way:

"After the tenseness of the night-long, high-speed run, the actual rescue of the 40 survivors of the Gaspar seemed almost anti-climactical because of the smoothness of the operation.

"That it was something altogether different in aspect to the survivors, however, was apparent from the actions of several of them who, upon reaching the safety of the Bibb, flung themselves down and fervently kissed the deck.

"Yes — as usual — a dog was among those rescued."

TWO OPERATIONS SAVE 89 MEN

Portuguese Sailors Kiss Deck Of Cutter Bibb After Rescue

The Bibb, under another skipper, rescued all 6 persons aboard the Bermuda Sky Queen when the huge flying boat was forced down on the stormy Atlantic more than 800 miles east of Newfoundland last Oct. 14.

Yesterday's two rescues were effected within a few hours — the Leicester 750 miles east of New York and the Gaspar 390 miles Northeast of the freighter.

The rescue of the 39 men from the Leicester was made by the American freighter Cecil N. Bean and the Argentine freighter Tropico. Six of the freighter's crew were believed lost.

The Gaspar lost one man overboard before the rescues.

Cake Show, Sale By 4-H HD Clubs Will Be Saturday

The cake show and sale for 4-H club girls at Home Demonstration club women of Howard county has been set for Saturday.

Besides the judging and awarding prizes, there will be a demonstration of chifon cake baking and an informal social hour with refreshments.

Entries by 4-H club girls will be exhibited and judged at the YMCA at 10:30 a. m.

Those by the HD women will be on display at the lobby of the Empire Southern Gas company at 1 p. m. when judging will begin. Margaret Christie, HD agent, will begin her demonstration on how to bake a chifon cake at 2 p. m. and about an hour later the social hour will begin.

While it is going on, most of the cakes entered in the show by girls and women will be offered for sale.

All those entering will be awarded prizes by a flour mill of Fort Worth, said Miss Christie. Grading will be against a standard and will not put entry against entry.

New Commission Is Set Up On Religion

WASHINGTON, Sept. 17. (AP) — President Truman is setting up a new "civilian commission to supervise religious and morale welfare and character guidance" in the armed forces.

Announcing plans for the new group yesterday, Mr. Truman said in a statement:

"The spiritual and morale health of the armed forces is a vital element in our national security."

Aerial Juggling Act Keeps Berlin Air Lift From Becoming Catastrophe Series

FRANKFURT, Germany, Sept. 17. (AP)—The air between West Germany and Berlin is so full of planes these days it takes a feat of aerial juggling to keep them from hitting each other.

There is a plane load of food or fuel landing in the blockaded, divided city every couple of minutes—day and night, rain or shine.

The task of keeping these aircraft safely apart is one that makes the job of a train dispatcher look simple by comparison.

The hazards are obvious. Yet so far, after 31 days of supplying Berlin's western sectors by air—"operation vittles"—has cost only one aerial collision and two other fatal accidents.

This record was achieved only by careful planning and close cooperation between the British and American air forces.

Together they have worked out a complicated aerial traffic plan by which more than 600 big, heavily loaded planes are brought safely into two Berlin airports every day.

Since the Russians cut Berlin's land and water supply routes from the west last June, British and American planes have flown in more than 200,000 tons of supplies to Berlin in more than 41,000 flights.

The Americans have 182 planes and the British more than 100 planes in the "vittles" operation, and there are often nearly 100 of them in the air simultaneously.

All this traffic moves over the Russian zone along three aerial highways, called corridors. Two of these lanes lead into Berlin. The other takes the empty planes back to Western Germany.

This keeps all traffic moving in the same direction in each of the aerial corridors and thus cuts down the danger of collision.

But the solution of this gigantic puzzle is not so simple as that. Each corridor is further divided into several traffic lanes—each lane at a different altitude. In these lanes the traffic is staggered so as to provide the greatest possible distance between all planes.

The craft are so spaced that they not only fly at least 15 minutes apart in each altitude level but at least three minutes in front or behind the nearest plane at any level.

This intricate pattern re-

quires perfect co-ordination between several airfields and an almost foolproof system of radio beams to keep planes from straying off their path.

Most American planes use the southern corridor into Berlin. This runs almost on a beeline from Frankfurt. Into it feed the 78 huge C-54 transport planes from Frankfurt's Rhein-Main airbase and the 60 C-47's flying from nearby Wiesbaden. All these planes land at Tempelhof, the U. S. airdrome in Berlin.

All the British planes and about 40 American craft use the northern corridor to Berlin, running southeast from the Hamburg area and landing at the British operated Gatow Airfield in Berlin. The British take-off yields are at Fassberg and Wunstorf with flying boats basing at Hamburg and landing at Berlin's Havel Lake.

Once over Berlin, all planes are guided to the landing strips by radio instructions from the airport control center.

After discharging their loads in Berlin, all planes fly back out of the Russian zone along the central corridor towards Brunswick, then

separate to fly to their respective bases.

Back of these spectacular operations lies another vast undertaking—that of assembling the food, coal and other vital supplies and loading them into the planes.

All this freight, which once went by train and barge, now must be trucked to the airports, where the scene resembles a big ship loading dock. Only these plane loaders must move faster. In an hour or so they stow 10 tons aboard a C-54. In only a few minutes they take it off at the other end. Often planes are on their way back west within half an hour after landing at Berlin.

Also the planes require constant servicing to keep them flying.

U. S. Air Force officials estimate it takes a total of 10,000 men fliers, ground crews and freight handlers for the American operations alone.

At present the U. S. Air Force, with its bigger planes, is flying about 60 per cent of the total tonnage, the British about 40 per cent.

MacArthur Brushes Off Red Charges

TOKYO, Sept. 17. (AP)—Gen. Douglas MacArthur today brushed off as "baseless" Russian charges that he was hampering democracy and labor unions in Japan.

In a formal statement answering the charges in Washington of Soviet Ambassador Panyushkin, the allied commander told the Russians to practice what they preach.

Said MacArthur: "There is an old oriental proverb equally understood by the West as well as by the East which says there can be no greater hypocrisy than to fail to practice what you preach."

The supreme allied commander further told Japanese labor that its greatest danger lies in its absorption and ultimate destruction by Communists who seek to exploit it to spread disorder, anarchy and resolution.

Phone Union May Yet Vote Strike

ST. LOUIS, Sept. 17. (AP)—Union leaders prepared today for a strike vote after the breaking off of negotiations between the Southwestern Bell Telephone Co. and Union representatives for 50,000 employees in five states, including Texas.

The union rejected a company wage offer yesterday. Frank P. Lonergan, vice president of Southwestern Workers of America, described the offer as "ridiculous and insulting." He said the strike vote will be taken "in the near future."

The company and the union met twice yesterday at the request of a federal conciliator. The negotiations on wages and working conditions had been underway since April.

Lonergan said the company made one over all proposal "and said that was it!" He asserted in its total effect it would mean less than we are getting now.

Seven Year-Old Case Is Revived

A case which has been on the 70th district court docket for nearly seven years was revived Wednesday, with appearance of Winston O. Harper, to make bond on an indictment alleging theft of a car and embezzlement of cash amounting to \$140.50.

The two-count indictment alleged the offenses were committed in August, 1941, while Harper was employed by American Airlines here.

Sheriff Bob Wolf said investigation showed Harper later went to Canada, joined the Royal Canadian Air Force, served considerable time overseas. After his discharge he returned to this country, re-assumed U. S. citizenship and federal agencies brought the Big Spring indictment to light, and Harper was returned here to perfect the bond. Wolf said witnesses in the case had been contacted and prosecution is planned.

Toots Mansfield Drops To Fourth In Oregon Meet

PENDELTON, Ore., Sept. 17. (AP)—Toots Mansfield, the Big Spring cowboy who won the calf-roping in the annual Pendleton roundup Wednesday, fell from grace yesterday. His place was taken by Ande Bode, Del Rio, who made it in 15.1 seconds.

Mansfield tumbled to fourth in the event. Buff Douthitt, Pecos, who won the calf-roping yesterday morning, missed in the afternoon when he took 16 seconds to hogtie his critter. Dan Taylor, Odessa, was third at 17.1.

Pennies Saved Should Be Put To Work In Permanent Roads

The "deal" has at last been closed on the county and state "75-25" lateral road program.

This means that the state will join hands with the county in the construction of some 12 miles plus of new lateral roads and will take over the maintenance of approximately 30 miles of existing pavement.

Under the program the state will furnish engineering and supervision in construction of the new lateral road, which will become a state road when it is installed.

Of course the early prospect of a dozen or so miles of new all-weather lateral road is stimulating, but more important to the county is the maintenance phase.

The pay-off is that the county will be freed of substantial maintenance cost, which, on the basis of a penny saved is a penny earned, ought to make more money available for road work.

The point about the thing which the

or so miles of new all-weather lateral road is stimulating, but more important to the county is the maintenance phase. Over a period of years, somewhere between 10 and 20, it costs as much to keep good roads in sound condition as it costs originally to construct.

At the price the county paid on its road, a conservative estimate of their values then would be \$150,000, and of course today a quarter of a million dollars would be nearer.

So we salute the club on its efforts to establish this sport as a series of annual events and to thus not only attract people from the area into Big Spring but to add to the pleasure of motorcycle racing fans.

to the pleasure of motorcycle racing fans.

Another Example Of Varied Recreation Provided Here

This weekend another series of contests sponsored by the Big Spring Motorcycle club is to be offered to the people of this area.

Not everyone will care for motorcycle races, but many people do, for they can be exciting events. This is not only due to the speed and the sensation of speed created by unmythified motors, but also due to the ever-present danger of spills, crack-ups and the suspense of possible injury to person or damage to machine.

The point about the thing which the

Big Spring Motorcycle club is seeking to do is that it offers still another means of entertainment in Big Spring. We don't know of a city of comparable size (and many much larger) which comes close to Big Spring in providing such a change in pace in recreation and entertainment.

So we salute the club on its efforts to establish this sport as a series of annual events and to thus not only attract people from the area into Big Spring but to add to the pleasure of motorcycle racing fans.

Federal Government Gets Best Check-Up In History

WASHINGTON, (AP) — THE GOVERNMENT is getting the biggest looking over it's ever had in history.

The general purpose: To find out how the government can be run better and cheaper. For example:

By wiping out duplication in the things government agencies do, pulling sprawled-out agencies together, using fewer workers.

The job, nearing an end, has been going on for a year. It's been done with extreme quietness under the direction of the Hoover commission.

This is a 12-man commission—six Democrats, six Republicans—headed by former President Herbert Hoover.

Its full name is the commission on the organization of the executive branch of the government.

Hoover, now 74 years old, said this would be his "last public service."

ONLY THE EXECUTIVE BRANCH IS under the microscope. So the other two branches—the Legislative (Congress) and the Judicial (the federal courts)—are not involved.

The federal government, with over 2 million workers, has more employees than all states city and county governments put

together. They're scattered in about 1,200 separate bureaus and agencies. The jobs some of them do overlap.

One member of the commission—Rep. Clarence Brown, Ohio Republican—says: "There are 75 separate bureaus with authority in the field of transportation, 93 dealing with government lending, 37 with foreign trade, 64 with business, 22 with insurance, 44 with agriculture."

IN JANUARY, 1949—AFTER THE NEW Congress gets started—the commission will turn over to it a general recommendation for improving the government.

For 40 years—at various times—Congress and the President have appointed commissions to find ways of making the government run better.

They made recommendations and changes followed. But no study has had the breadth or authority of the Hoover commission.

It has worked very quietly, without letting out any details of what it found or thought. If it did, this being an election year, the politicians might use its findings for ammunition.

Dewey Isn't Afraid To Rap Fingers Inside GOP Ranks

WASHINGTON—There is a charming old fable about the inhabitants of a certain pond, who grew so annoyed with the stolid tyranny of King Log that they angrily deposited their inanimate, floating monarch. In his place, they chose the brisk and active stork. Whereat King Stork, with hardly a moment's hesitation, mounted upon the body of King Log and began to gobble up the frogs that had acclaimed him.

The little story has a certain timely meaning for the members of Congress who have complained so bitterly about the tyranny of President Truman. It is particularly meaningful, moreover, for the Republicans of the reactionary-isolationist faction, who have been the loudest shouters for an end to "executive usurpation" and a return of "constitutional government."

Not the least loud of these has been the pompous Senator Chapman Revercomb of West Virginia. At the regular session, Revercomb inserted in the Displaced Persons bill clauses visibly discriminating against Jewish and Catholic DP's. At the Special Session, Governor Thomas E. Dewey personally requested Revercomb to eliminate the discriminatory clauses from the bill. Senator Revercomb, failing to make the obvious practical distinction between incoming and sitting Presidents, answered Dewey as he might have answered Truman.

Unfortunately for the wretched Revercomb, he went home for this triumph to discover his Senate seat in grave danger.

The groups against whom he had so shockingly discriminated had raised large funds to assist the rival candidacy of former Senator Matthew Mansfield Neely. The Democratic registration outnumbered the Republican by 200,000. There was only one bright spot. Governor Dewey was personally strong in the state.

And at Philadelphia, the astute old sardap of the West Virginia Republicans, National Committeeman Walter Hallanan, had risen above a long personal friendship for Senator Robert A. Taft, in order to give Dewey the state delegation.

On the theory that the handwagon owes a good deal to those who climb aboard it, Hallanan journeyed to New York last week to beg Dewey's help for Revercomb. But that unlucky telephone conversation was not forgotten. According to undated reports, Dewey replied that he doubted very much whether he would be able to include West Virginia in his itinerary. And he added thoughtfully that if he went there, he would be forced to denounce Revercomb's stand on the DP bill.

Fish In Bedroom

SYDNEY, Australia (AP)—An Australian farming family returning to their home at Lismore (New South Wales, Australia) after recent heavy floods found their dinner flapping round in a puddle in the best bedroom. Two 7 lb. mullet had swum in with the flood waters and been trapped. After returning family had to kill 42 "squating" snakes. On a third farm, the owner and his two sons killed 122 snakes in the house and its immediate neighborhood.

Crime Doesn't Pay

ELDORADO, Ill. (AP)—Experimentally, the city of Eldorado fixed a five cent fine on each motorist who either failed to deposit a nickel in their parking meters or upon overtime violators. The violators were even permitted to pay the nickel fine in any handy meter and not be hauled to the city hall. Revenue fell off one-third during the two-week trial. So the city council voted to get tough with violators—and fine 'em two bits.

Washington Merry-Go-Round — Drew Pearson

Thomas's Capabilities At Public Feed Trough Are Undereestimated

WASHINGTON, (AP) — On Aug. 4, 7, 10, and 13, this column published various statements reflecting on Congressman J. Parnell Thomas of New Jersey, chairman of the Un-American Activities Committee. It was reported that Thomas had persuaded the Army to keep two soldiers away from the battle front and in return had received substantial campaign contributions from their families.

It was also reported that the New Jersey congressman had put Myra Middelfort on his payroll for four years though she did no work in his office and during which time she kicked back her salary to him personally. It was also reported that the congressman paid a cleaning woman, Arnette Minor, on his payroll for a short time, who also kicked back her salary to him; and that following this, Miss Grace Wilson, aunt of Mrs. Thomas, was put on the Thomas payroll for \$2,500 for two years, until the congressman pressured officials of Bergen County, N. J., into putting his wife's aunt into a county home.

This column now wishes to apologize to Congressman Thomas. It is deeply regretted that these reports were unfair to him, in that they omitted some of his operations and failed to report all of his amazing capabilities for brazenly feeding at the public trough.

While other members of the Un-American Activities Committee have kept their skirts clean and let no nepotism mar their effectiveness, the chairman of their committee has been just the opposite. Here is more of Thomas's record:

IN-LAW ON PAYROLL
Beginning in 1946, Thomas put his daughter-in-law, Lillian Thomas, on his payroll at \$2,900—despite the fact that she lives in Allendale, N. J., and never comes near the office. When Newman Wright of the Passaic Herald News queried Thomas about his daughter-in-law, he claimed that she "carried a heavy load of work." Other members of the Thomas office staff say that she "does nothing." Lillian is still carried on the payroll, however, though at a reduced salary.

In July, 1947, Thomas added a new name to his payroll, Mrs. Jacqueline Voss Hill. Mrs. Hill did a little work for the congressman, but not too much, first, because she was about to have a baby, second, because it became apparent that she was not supposed to work. She was on the payroll so she could kick back part of her generous \$3,000 salary to the congressman.

This became evident later. For when Chairman Thomas went on his junket to Panama last winter and was taken ill, he sent a letter, Feb. 2, 1948, to Miss Vera Halyburton, his secretary, which read in part:

"My protracted stay here will necessitate some quick book-keeping on your part. I assume from Mrs. T's (Mrs. Thomas) letters to you that you have placed Jackie's funds in sis's hands."

"Jackie" was Jacqueline Hill, who was then drawing \$3,000, despite the fact that she spent almost no time at the office.

Simultaneously, Mrs. Thomas wrote from Panama to Miss Halyburton as follows:

"He (the congressman) says to take a couple of days off and go to Allendale and get the money from Jackie and give to sis to pay the household bills. I think

the money goes to Jackie the first of the month."

By this time Jackie Hill's salary had been transferred from Congressman Thomas's own payroll to the House Un-American Activities Committee's payroll. She was listed as clerk and typist for the committee and was supposed to help expose Un-American activities. How she could do this while living in Allendale, N. J., is difficult to understand.

However, the congressman did not hesitate to use part of the salary paid out by the Un-American Activities Committee for supposedly bona fide employees, to pay his own personal bills.

That is another chapter in the record of the New Jersey congressman who poses as one of the greatest examples of good Americanism in our nation.

NOTE—It is against the law for any government official to require a government employee to kick back a salary.

LITTLE COMMUNIST
Ben Crosby, assistant chief of the State Department's public liaison division, was talking on the phone to a capital newsman when the loud wails of a baby came over the wire.

"Who's making all the racket?" asked Crosby.

"I'm calling from my home," explained the newsman. "That's a little Communist we have here."

It was Crosby's turn to yell.

"Don't ever, ever say that word," he warned, "when you're talking to the State Department!"

Headwaiter's Last Names Seldom Known

NEW YORK, (AP) For all I know, headwaiters may not have last names.

At El Morocco, it's Carino. The gentleman who guards Twenty-nine's exclusive portal is Monte. At the Latin Quarters, the only name I know for the continental gent on the velvet rope is Gigt. At Toots Shor's, it's just a guy named Joe.

At the Monte Carlo, which closed suddenly after a painful and lengthy attack of no business, the elegant, magnificently tailored courteous maitre was a man called Milton. We were friendly and all that, but I never did get to know Milton's surname.

The other day I dropped into the luxurious premises which was Monte Carlo, the most expensively and tastefully upholstered saloon on the cafe society merryground. As usual, as I entered the front door, a courtly bow greeted me. The dignified gentleman said, "I'm Mr. Meath."

That alone, had I not been aware of the recent fiasco of the Monte Carlo, would have emphasized that no longer was fire-water being dispensed on the premises. The white leather benches, gay ceilings, gayer bar-room trappings, the waterfalls built right into the wall at one end of the fashionable room still remain. I'd say, offhand, it's the fanciest shoe store I've been in.

Texas May Be Overlooking Some Potential Resources

More than a few authorities recently have called attention to the possibility that Texas, in its constant search for new resources, may be neglecting some potential benefits that it already possesses.

Studies and surveys have disclosed that other states are reaping revenues for private enterprises and governments alike by taking advantage of opportunities of a type which are abundant in Texas. One type which ranks near the top of the list is tourist traffic.

The Lone Star state may be handicapped to a certain extent because temperatures during the heavy tourist season are seldom conducive to pleasant travel on the highways. However, there are some advantages to help offset that condition, not the least of which is the size of the state. As one observer puts it, "Once we get 'em in Texas, they can't drive on through without stopping and buying something somewhere."

In efforts to learn just what it takes to "get 'em in Texas" what they think of it after they get here, etc., tourist information centers are maintained each summer on key highways near the state line. Usually manned by college students, the principal objective is to interview out

of state motorists who stop, offer them permanent information concerning their destination, road conditions, and above all, try to persuade them to take the longest route. In return, the motorists are handed questionnaires which they are requested to mail back to the center at the end of the vacation trip. Needless to say, only a small percentage of the questionnaires are returned.

Recently a newspaper man went to one of the information centers and observed some questionnaires which had been completed by accommodating visitors. Surprisingly enough, 90 percent of them offered favorable comment about Texas highways.

That must be heartening to the state highway department, which maintains the information centers. It is hoped, however, that such comment will not cause the department to try resting on its laurels while it still is necessary for motorists to travel in semi-circles and triangles to reach some West Texas points.

Selling a visitor on taking the long way is good business, but there is nothing to sell if there is no alternative.—WACIL McNAIR

Dream School Would Teach Living-Not Just Work

NEW YORK, (AP) — IF I HAD A SON... If I had a daughter... I'd like them to go to a school that doesn't exist.

It is the school I wish I could have gone to when I was a child. To begin with I would have one teacher for every five or 10 pupils. Their job would be to try to create in the schoolroom the friendly, co-operative atmosphere that is found in the highest type American home.

Perhaps in that way they could learn something worth bringing home and teaching their own parents. The object of this dream school wouldn't be to prepare the pupil for a job. It would be to prepare him to live a happy life with his fellow men. There are plenty of good technical schools he could go to later to learn how to earn a living.

My school would be coeducational. It would have a dormitory, and once a week the pupils would sleep there. They could stay up late, too, and tell stories and play games.

FROM KINDERGARTEN ON THEY would be taught that the finest career

possible is matrimony. I would try to disillusion the little boys from the idea that marriage is only a stinky thing for women and children.

At my school there would be the triple goal of educating heart, head, and hand. The key word would be "togetherness." Cook their meals in the school kitchen. The different classrooms would teach them doing the cooking, dishwashing and waiting on tables. (There would be no tipping the waiters either!)

There would be napkins and table cloths, and they'd have the excitement of dining out—and learn proper table manners the easy way.

In my school every child would make at least one speech, write one poem, draw one picture and perhaps act in one play each month. And sing many, many songs. He would be expected to learn to play a musical instrument, and if he'd rather hum through tissue paper on a comb than vibrate a fiddle—why, that'd be just fine. The only purpose of the music anyway would be to make him feel good.

Even German Officials Did Not Realize Hitler Goals

THE FUTILITY OF BRITISH PRIME Minister Neville Chamberlain's efforts at appeasing Adolf Hitler and so achieving "peace in our time" pivoted on a fact which wasn't realized even by German officials at the beginning of the negotiations at Berchtesgaden over the Fuehrer's demands on Czechoslovakia.

This was that Hitler already had evil designs for large-scale conquest, far exceeding anything which little Czechoslovakia is afforded. It was only recently that this was made known to me by Dr. Erich Kordt who at the time of the negotiations was chief of the German foreign office secretariat and now is a professor in the University of Munich.

During a chat at AP headquarters in New York Dr. Kordt told me it was Hitler's brutal dealing with Chamberlain at Godesberg (the second conference) which tipped off the Nazi chief's and his executives. At that moment the Fuehrer wanted not a settlement but a "little war" to enhance his prestige, and so planned an assault on Czechoslovakia. The "big war" would come later.

ON SEPT. 21 THE CZECHOSLOVAK government, feeling deserted and alone, announced acceptance of the Anglo-French plans for meeting Hitler's demands. Thousands of Czechoslovakians gathered in the streets of their capital and with tears streaming down their faces listened to the government's broadcast telling that the nation had lost its lone fight—that the territorial sacrifice was the price of peace in Europe.

Thus it came about that Sept. 22 Chamberlain flew to Godesberg on the Rhine to try to buy European peace at Czechoslovakia's expense.

I shall never forget the reception staged for Chamberlain by Hitler at the Godesberg airport. The dictator turned out a detachment of his famous death's head guardsmen—a grim looking lot in their black uniforms and fearsome insignia. As the prime minister descended from the plane the guards gossiped towards him, their heavy, hobnailed boots crashing on the concrete runway with the inevitability of armed might.

THE CONFERENCE WAS FACED with the fact that while Czechoslovakia had bowed to the Anglo-French plan, she had sworn to resist armed invasion and had mobilized her troops. Hitler's final fierce word demanded (1) cancellation of the Czechoslovak mobilization order and (2) permission for German troops or the Sudeten free corps to march into the borderland already sacrificed to the Reich by the Anglo-French plan.

The conference was close to a rupture when a harassed Chamberlain finally salvaged it with a midnight promise to put new pressure on Prague to meet Hitler's demands. The prime minister demanded

no mass violence against Czechoslovakia. As the weary and haggard old man returned to his mountain-top hotel at end of this siege he had this tiny but significant message for the press: "I cannot say it is hopeless."

With that Chamberlain went home to London to urge Prague to accept and so keep Europe's great armies from being unleashed. Hitler had made it known that he would brook no delay. He demanded occupation of Sudetenland by Oct. 1.

As the Godesberg conference wound up, Guerrilla warfare was sweeping through Sudetenland.

Today's Birthday

WILLIAM HENRY BALDWIN, born Sept. 17, 1831 in Saginaw, Mich., son of a family long interested in the cause of the Negro. His father, a railroad official, gave Booker T. Washington strong support. Baldwin was graduated from Harvard, became a newspaper reporter, rose from yeoman to ensign in the Navy in World War I, and since has gained renown as publicist. He formerly was head of the National Urban League.

It Happened Back In

FIVE YEARS AGO—Mrs. T. B. Clifton leaves for Long Beach, Calif., to visit son, Dick Clifton, who is stationed with naval air corps; Arnulfo Hernandez volunteers to canvass entire Latin-American section in warbond drive.

TEN YEARS AGO—Monday declared "hamburger day" in Big Spring when all local eateries are to push sale of hamburgers; empire gas company offers contest—winner to receive \$800 model kitchen, items in household furnishing sale; finest velour living room suite, \$42.50; cedar chest, \$11.

FIFTEEN YEARS AGO—Shortage of local rental houses and apartments said most acute in 10 years; compulsory school attendance law enforced here; horse races open at new tract in Snyder.

Mrs. Henry James Selling Lamb House

HASTINGS, Sussex, Eng. (AP) — Mrs. Henry James, niece by marriage of the famed author, is in the ancient Sussex town of Rye to make arrangements for the disposal of Lamb House, where Henry James lived for many years. She is negotiating with Britain's National Trust with a view to its being purchased by the nation.

SUNDAY SCHOOL LESSON
Ephesian City Official
Defends Christians

Scripture—Acts, 19:23-41.
By NEWMAN CAMPBELL
Mob violence is rebuked and justice administered by law and order upheld in this lesson by an Ephesian official who was clear-headed and who believed in free speech.
The official, whose name we do not know, was probably the most important man in Ephesus. He was called, in St. Luke's story, in the Book of Acts, the town clerk, but literally he was the city's secretary.
"The decrees to be proposed were drafted by him and other officials, and money left to the city committed to his charge, but as the power of the public assembly declined under imperial rule of the Romans, the importance of the secretary's office was enhanced because he was in closer touch with the proconsul than the other city magistrates."
To get a clear picture of the situation in Ephesus, in which city Paul spent three years, we must tell of the effect on Paul's preaching there. Many were converted and had brought their heathen book to be burned.
Before Paul's sojourn in Ephesus all the people had worshipped the

Last Of Jap Fleet Will Be Scrapped
TOKYO, Sept. 17, AP—The last of the Japanese battle fleet will be on the scrap heap by the end of this year.
U. S. Navy spokesmen said Thursday 406 former enemy war craft, ranging from battleships to 20-ton torpedo boats, had already been scrapped. Fifteen more will be cut up before the year ends.
The scrap is being given to the Japanese Government for industrial use.

BIG SPRING'S 1948 FOOTBALL SQUAD

HERSCHEL (Mule) STOCKTON

A veteran on the Longhorn staff, but serving his first year as head coach. Stock, who was serving as 1st assistant, took over the reins when Pat Murphy resigned last year. He has been helping groom Steer teams for some eight years, with exception of military duty from 1942 to 1945. Stock is a graduate of McMurry College, where he was a football and track star.

Browns Give Red Sox Hopes Another Jolt

By the Associated Press
Those pore little St. Louis Browns who sold their stars to Boston for some \$375,000, are biting the hand that fed them.

Last night's nibble, a 3-1 Red Sox loss, reduced Boston's American League lead to one game over New York. It also provided Bill Dewitt with more marketing material.

Italian Cardinal Rossi Succumbs

VATICAN CITY, Sept. 17. (AP)—Raffaello Carlo Cardinal Rossi, 72, secretary of the consistorial congregation, died last night at Bassano Del Grappa Veneto, in northern Italy. It was learned here today.

Rossi had been ailing for some time and suffered a heart attack in Rome several months ago.

News of his death reached the Vatican almost at the same time as that of the death of another prince of the church, Emanuele Cardinal Arce Y Ochotorena, archbishop of Tarragona, Spain, who died yesterday.

The two deaths reduced to 57 the number of cardinals—13 below the full quota of the sacred college.

LOOKING 'EM OVER

With TOMMY HART
By WACIL MCNAIR
For Tommy Hart

The football season is upon us, calling for a few shots in the dark. Here goes:

CISCO 13, BIG SPRING 6 —

Mule Stockton may have a combination capable of taking this one, despite the experience of the visitors, but there has not been sufficient time to get them ready. If the Steers should come through (we hope, hope, hope) it will mean that some lads have digested a course in three short lessons.

ODESSA 20, NORTHSIDE (Fort Worth) 14 —

Joe Cleman's domain has an unhealthy climate for these "Big City" teams. The Bronchos will be leading with Lubbock. Also, Northside, which played in Tyler a week ago, may be a bit travel weary.

BRACKENRIDGE (San Antonio) 14, ABILENE 6 —

Shotwell the athletic director may have pulled a fast one on Shotwell the coach when he scheduled this one for the 3-A Eagles. The 1948 Santone crew appears capable of performing as well as last year's state champs.

LUBBOCK 14, SAN ANGELO 12 —

This one should go a long way toward settling the question of whether the Westerns really have something. Based purely on last week's performances, the Bobcats are due to be outmanned, but they are not heading into as much power as DePaul had last week.

PLAINVIEW 19, LAMESA 0 —

The Tornados have found aplenty in matches with Class A teams to date. Although Plainview is an unknown this year as far as we are concerned, it still seems a logical choice.

TEXAS 35, LSU 7 —

The Longhorns, who like to make a fast start each year, simply have too many veteran performers. They might even have more if they ever needed them. The Tigers, strictly an unproven bunch, could spring a few surprises, but not nearly enough to win.

VILLANOVA 13, TEXAS A&M 6 —

Strictly a shot in the dark. Villanova had the better record last year, but the schedule was somewhat milder than that of the Aggies. However, we hear that it will be a homecoming affair for the Wildcats, and the long, cross-country jaunt will put the Aggies at disadvantage.

TCU 19, KANSAS 12 —

It is time for those deadlocks to come to an end. Dutch Meyer found plenty of scoring punch long before the season ended last year, and barring any interference from the weather, the Frogs should be ready to romp on Saturday.

TEXAS TECH 28, WEST TEXAS STATE 13 —

Experience and reserve strength should tilt the advantage toward the Raiders in this one. However, a repetition of last year's performance when the Buffs scared the daylight out of the Lubbock crew would not be surprising. Frank Kimbrough's have a "breather" under their belts and they are fast. Sheer power should make the difference.

PARIS, France, Sept. 17. (AP)—About 90 per cent of 35,000 workers at the Renault automobile factory returned to their jobs today after a two-day strike.

Fem Bowlers Start Season

A new season's play was started at the West Texas lanes Thursday evening by the Ladies' Classic Bowling league, which will stage contests each Thursday evening at 8 o'clock.

The league is getting under way with six teams: Zack's of Margos, Gladys Mattingly, captain; Douglas Coffee Shop, Margaret Howie, captain; Malone & Hogan, Doris McElrath, captain; Bendix Auto-Laundry, Winnie Wood, captain; Athan's Jessie Pearl Watson, captain; and Clark Motor Olive Caudle, captain.

Final Tributes Jose Ramirez

Final tributes will be paid to Pfc. Jose T. Ramirez here Saturday at 3:30 p. m.

The body of the Big Spring man, who gave his life on Mindinao on June 8, 1945, arrived here early Friday morning and was at the Eberly chapel.

Rites will be held in the Sacred Heart Catholic church with the Rev. Theo Francis officiating. Burial will be in the Mexican Catholic cemetery and military tributes will be paid before interment by the American Legion post. The Legion also will furnish the pallbearers.

Pfc. Ramirez, who was 29 years of age at the time of his death, had been wounded during campaigning on Luzon Island in February 1945. He entered the army in 1943, being inducted at Fort Bliss.

Survivors include his widow, Duane Ramirez; two daughters, Theodora and Christine; one son, Donnie Jose Ramirez; his parents, Mr. and Mrs. Felipe S. Ramirez; three sisters, Frances and Theodora Ramirez, Big Spring, and Mrs. Guadalupe Gonzales, Odessa; and three brothers, Felipe S. Ramirez, Jr., Camillo and Octaviano Ramirez of Big Spring.

Petroleum Used To Make Glycerin

HOUSTON, Sept. 17. (AP)—Petroleum is finding a new use at Shell chemical corporation's new deer park plant near here. The \$8,000,000 plant is the first to use petroleum for the commercial production of glycerin.

The manufacture of glycerin from petroleum represents a new development. The new process has been developed by organic chemists as a result of the outstanding research discoveries of recent years. Glycerin has heretofore been obtained from fats and oils. Much of which had to be imported.

The new Shell process, according to Costermeyer, president of the chemical corporation, requires only petroleum, salt and water. The Houston plant has made test runs and is now making glycerin from petroleum.

Field Harrowed To Find Money

GREENVILLE, Sept. 17. (AP)—Treasure hunting paid off for the Jack Clarks of Floyd near here Friday.

Mrs. Clark lost her purse, containing \$2,000 while helping her husband plow several acres of land. She had pinned her savings in her overalls and was certain the purse lay buried somewhere in that field. He suggested they try a spring tooth harrow. He offered the Clarks the use of the tool.

The Clarks called on a tractor dealer for aid. The Clarks hurried back to their farm. Mrs. Clark piloted the tractor. Clark walked behind, inspecting the debris picked up by the harrow. After two hours of painstaking search, Clark let out a cry of joy. The missing purse, containing their savings, was recovered.

Kiwanians Plan Two-State Meet In Fort Worth

FORT WORTH, Sept. 17. (AP)—Kiwanis Clubs of Texas and Oklahoma will meet in annual convention in Fort Worth October 3, 4, and 5. Registration is expected to exceed 1,000. Harry W. Phillips, Fort Worth, is general convention chairman. Walter V. Bowman, Woodward, Oklahoma, is governor of the Texas-Oklahoma district of Kiwanis International.

Featured convention speakers in the program arranged by Fred Thompson, past Kiwanis district governor, Pampa, Texas, include: Mark Love, formerly of the Chicago Opera Company, who will trace in song and story the origin and development of our country from the Pilgrim Fathers to GI Joe; Senor Roberto De La Rosa, "Good-will Ambassador" from Mexico, who will focus attention on "The Other American Way of Life" in Mexico and South America; J. Hugh Jackson, treasurer of Stanford University's School of Business; and Wayne Guthrie, assistant managing editor of the Indianapolis News, who saw both atomic bomb tests at Bikini atoll.

Early Kiwanis district convention arrivals will reach Fort Worth in time to attend a Southwestern Conference night football game between Texas Christian University and Arkansas on Saturday, October 2, a religious musicale will be presented Sunday night. The governor's Ball will be held Monday night, October 4, at Fort Worth's Casino on Lake Worth. A "Ladies" program is being arranged for Kiwanian wives who attend.

Good Credit Aids Prestige Says Speake

The unmatched convenience and prestige afforded by a good credit record was pointed out at a noon today in an address to the American Business Club by Sterling J. Speake, of the University of Texas retail credit extension service.

Speake, one of 12 graduates of the University carrying the credit education to cities over the state, has conducted a retail credit school in Big Spring this week. "More people are asking for credit than ever before," Speake declared. "More businesses—for example the railroads—are going on the credit system. It is imperative that merchants and customers appreciate the value of credit."

Speake discussed the problems affecting credit and the credit aids, including collection difficulties and their attempted solution. Important to the merchant offering credit is thorough investigation of the applicant, a special person to handle charge accounts, and an educating of the customer in the policies of good charge conduct.

In conclusion, the speaker reminded that persons who pay their debts promptly and who thereby establish a good credit name, stamps himself as one of character and dependability. Speake was introduced by Prentiss Bass, first vice-president of the Green was in charge of the meeting.

The University of Santa Clara Broncos have a novel method of publicizing their football schedule. It's printed on the inside of book matches.

Youth Groups Given Trees

COLLEGE STATION, Sept. 17. (AP)—Free distribution of 500,000 pine seedlings to Texas youth groups by the Texas Forestry Association has been announced by E. G. Prudhomme, president of the Association. The seedlings will be distributed during the coming winter planting season.

Recipients of the free seedlings will be 4-H clubs, boy scouts, girl scouts, camp fire girls and other youth organizations which conduct demonstration programs. The association sponsored 100,000 splash pine seedlings to similar groups during the last school term. The seedlings are grown at the Texas Forest Service Nursery near Alto. They will be shipped, Prudhomme indicated, sometime during the first two weeks of December.

The service reports the number of two farms now certified in Texas is 153, an increase of 15. The increase boosts Texas from fifth to fourth place in the nation for the number of certified tree farms.

Jury Lists For Next Week Given

Names of three score veniremen have been announced for this week's petit jury duty service. They are to report Monday at 10 a. m. in 70th district court, said George C. Choate, district clerk. Several civil suits are on docket for the week.

Scout Heads Meet This Afternoon

Boy Scout leaders of the Big Spring district were to make plans for a fall program of work at a special conference in the Settles at 5 p. m. today.

All district committee members, troop committee members, unit leaders and institutional representatives of various troops, were invited to attend the session.

Dodd To Meet

E. C. Dodd was to leave today for Waco where Monday he will meet with other officials of junior colleges over Texas in a conference on the problem of veterans tuition.

Cubbers Meet Here Saturday

More than 100 Den Mothers, Cubmasters and other adult Cubbers from 15 countries are expected to attend the first annual Cubbers' Pow-Wow of the Buffalo Trail Boy Scout Council Saturday at the Howard County Junior College, Charles Watson, general chairman, announced today.

The affair is scheduled to begin at 2 p. m. Purpose of the session is to give leaders of Cub Scouts an opportunity to "learn by doing" and to develop skill in conducting programs, games and ceremonies, Watson said.

The Pow-Wow will be conducted in four sections, including games and playways, directed by James K. Polk of Sweetwater; handicraft tinkershop, directed by Frank Medley, Big Spring; ceremonies and entertainment, directed by S. G. Painter, Odessa; pack administration, directed by Rex Palmer, Pecos.

Visual Education Class Is Planned

All teachers and others interested in a college-credit course in visual education are asked to be on hand at the Howard County Junior College library at 8 p. m. Monday. Walker Bailey, county superintendent, said that Homer Milligan of the Texas Tech extension department, will be on hand to help organize such a class, to provide an instructor and set dates for class session.

Morrow Disputes State Demo Move To Replace Him

HOUSTON, Sept. 17. (AP)—Wright Morrow today disputed the state democratic convention's authority to remove him as national democratic committeeman for Texas. The party's convention at Fort Worth recommended to the national committee that Morrow be removed and replaced by Byron Skelton, Tempie attorney, who was floor leader of the pro-Truman forces who purged the convention of States Rights delegations.

"I was confirmed as national committeeman by the Philadelphia convention—the same convention which nominated Mr. Truman and Sen. Barkley—and was duly seated in accordance with the laws and customs of the Democratic Party," Morrow said. "The convention in Fort Worth is without authority in this matter and had no reason to take the course it did."

Ethiopia Asks Balm For Race Incident

WASHINGTON, Sept. 17. (AP)—The Ethiopian legation has demanded punishment of persons responsible for the "insult" suffered by Minister Ras Imru at a science meeting here Monday. Imru was asked to move from his seat in the diplomatic section while attending a meeting of the American Association for the Advancement of Science at Constitution Hall.

He thereupon left the hall, the legation said, in protest against such an insult. Charges of driving while intoxicated have been lodged in county court against Eulis Bolton. Date of the alleged offense was set at April 8, 1948. Meanwhile, Terrell W. Keene, charged with the same offense, posted \$1,000 bond and was released.

Annual Meeting Of BSNFLA Set

present officers will be elected. Annual stockholders meeting of the Big Spring National Farm Loan association is set for the offices of Ira Driver, secretary-treasurer, at 2 p. m. Saturday.

Financial statement for the association will show total assets of \$121,905, of which \$10,731 is cash, \$51,200 in U. S. bonds, \$52,460 in Federal Land bank capital stock, \$6,940 in the indemnity account, and the remainder in small miscellaneous funds. Liabilities include \$6,940 in the indemnity account, \$52,460 in outstanding capital stock \$10,089 legal reserve, \$51,713 surplus and some smaller miscellaneous in accounts payable, etc.

At the meeting Saturday, in addition to receiving the statement of condition of the association, a director will be elected, and if a full membership of the board is

\$500,000 Telephone Expansion Program Planned for Big Spring In 1948-49

To keep pace with the greatest demand for telephone service in the history of Big Spring, Southwestern Bell Telephone Company has launched a comprehensive telephone expansion and improvement program here, estimated to cost about a half-million dollars this year and next.

Big Spring has more than 4,300 telephones in service today, more than 1,900 of which have been added since the end of the war. Despite the rapid post-war gain in telephones here, more than 1,000 families and business concerns are on the waiting list for service.

BIGGEST TELEPHONE EXPANSION PROGRAM IN HISTORY OF BIG SPRING

To provide service for those who are waiting, the telephone company is undertaking the biggest telephone expansion program in the history of Big Spring. Among the projects in the program are:

1. A \$79,000 addition to the telephone building here. Construction is now underway, and the addition is scheduled to be completed this year.
2. Installation of three additional sections of local switchboard, five more sections of long distance switchboard, and 500 additional subscribers lines. This project, estimated to cost \$75,000, is due for completion late this year. Next year, the company plans to install two more local sections of switchboard and an additional 500 subscribers lines, at a cost of \$30,000.
3. Expansion of the network of outside lines and cables throughout Big Spring. This project will make lines available for most of the people now on the

waiting list. Estimated to cost \$95,000, it is scheduled for completion early next year.

\$158,000 RURAL TELEPHONE PROGRAM WILL BE STARTED THIS YEAR

4. An extensive rural construction program will be started this year to provide telephone facilities for hundreds of rural and suburban families and business concerns in the Big Spring area. To be completed next year, the rural program is estimated to cost \$158,000.

5. Substantial improvement in the speed and quality of long distance service will result from the completion this year and next of eight additional long distance circuits. Two additional circuits to Lubbock and one to Garden City are scheduled to go into service this year. Next year two additional direct circuits to Dallas and one each to Abilene, Fort Worth, and Odessa are scheduled to be completed. One new circuit to Dallas and two to Lamesa already have been placed in service this year.

6. In connection with the new long distance circuits, additional toll terminal equipment costing \$69,000 will be installed in the telephone office here this year and next.

This big telephone expansion and improvement program comes at a time when telephone equipment, like many other items, costs more than ever before.

The big telephone program comes at a time when the company is barely collecting enough to pay higher post-war costs of furnishing service here—and is not making a reasonable return on its present investment in Big Spring.

DROUTH CUTS SIZE OF HERDS
Hereford Association Tour Reveals Much Progress Made

Howard county Hereford Breeders are making progress, more than two score persons who make the annual autumn tour of the Howard County Hereford Breeders association Thursday were agreed. Although most all of the registered herds were in good flesh and thus showed to good advantage, the achievement of better balance and color was noticeable throughout the day as the caravan made some 20 stops to view cattle of 16 breeders. Crowded into one day instead of their traditional two, the tour touched all but about five herds whose owners are affiliates with the association. At one time there were more than 50 persons on hand.

Among the out-of-county guests on the tour were Roy Largent, Merkel, an outstanding Hereford breeder and exhibitor; W. S. J. (Bill) Brown, Merkel, who operates the famous Noodle ranch; and Charles (Judge) Lewis, Sweetwater, president of the national Anxiety 4th Breeders.

Throughout the day there was some friendly banter between the advocates of the "typical" animals represented by the short-legged and short-necked T-O animals and crosses and the deeper-bodied, bigger-framed line bred types. In both instances, however, smoother coupling was noticeable as breeders got into stride on their programs of herd development.

Casual observers were amazed at the degree of fatness achieved on what appeared to be meagre pasture. Both in degree of flesh and in quality of animals, there was hardly any comparison with the herds seen Thursday and those exhibited on the initial round of the Breeders association several seasons ago.

Prolonged drouth conditions were manifest in reduced stocking. Three years ago breeders in the association listed about 1,200 cows on hand. Last year this figure had been cut to 1,100 and this year it was just a little under 800. In the culling process, however the calf percentage eased up to approximately 90. An incomplete and unofficial survey of 20 herds showed 789 registered cows, 78 herd bulls, 675 calves for the year, and 214 heifers bred or ready for breeding.

Speaking equipment for the tour was provided by the Army Recruiting service. Rexie Cauble carried on most of the commentary, citing lines and outstanding animals. C. A. Walker spotted several dams and sires in his group.

The tour began with a stop at the O. H. McAllister place east of Coahoma (several made an unscheduled inspection of three calves on feed by Wayne White at Coahoma) where McAllister had a grandson of the famous Rupert 81st (in the evening he also showed a son of the champion sire Larry Dcmno 50th). It closed some 175-miles and 12 hours later at the I. B. Cauble farm where some young sires were featured.

In between there were stops at the Donald Lay farm, where several T-O type animals were seen, at the ranch of Tom Roden, who has habitually shown the champion in the annual association sale, at the home of Mrs. S. D. Buchanan, who is carrying on one of the earliest and best lines in the county, at the home of Sam Buchanan, president of the association. Here the group paused for an old-fashioned watermelon cutting.

Then there were stops to see herds belonging to Alex Walker, R. E. Martin, Morgan Coates, C. A. Walker, and Leland Wallace. At the latter place the cattle fanciers paused for a barbecue luncheon. Wives had provided all the trim.

RUNAWAY BOY RETURNING HOME AFTER FULFILLING TRAVEL AIMS

WASHINGTON, Sept. 17. (AP)—Mrs. Mary Murdock and her 20-year-old son Edard, were together today after an 18-month separation during which she never gave up hope that he would return.

Young Murdock—called "Jack"—walked away from Fork Union Military Academy in Virginia in the spring of 1947 and was not heard from again by his family until he telephoned to the home of an aunt in this city yesterday.

"I left school to find myself," he told reporters. "I wanted to wander and I did. I went everywhere I had always wanted to go and did everything I had always wanted to do."
 "The next place I'm going," he said to his mother, "is home with you, mom."
 Murdock said something — "I don't know what" caused him to call his aunt while passing through the Capitol. He didn't reach her, but he spoke to a friend of the

Woman Claims Self Defense In Hatchet Case

GREENWOOD, Del., Sept. 17. (AP)—Mrs. Bessie Weaver, 59, is under treatment at Milford Memorial Hospital today after state police said she told them she killed her 55-year-old brother in self defense during a struggle over a hatchet.

State police said Mrs. Weaver, who is crippled, told them her brother, George W. Francis, came into her bedroom yesterday and struck her with the hatchet while she was still in bed.
 Mrs. Weaver, who formerly was employed as a stenographer, was quoted by state police as saying she finally wrested the hatchet from him and struck back until he collapsed with head wounds.

Police said no charge had been placed against Mrs. Weaver pending a conference with Atty. Gen. Albert W. James.

Two Children Killed

MEXICO CITY, Sept. 17. (AP)—Police reported two children were killed and 435 persons injured during celebration of the nation's 138th independence anniversary Wednesday and yesterday. Fifty of the casualties were victims of sunstroke during yesterday's parade.
