**HOME ECONOMICS REPORT**

The second year foods class completed its study of meats by making a visit to the Graham Market last Thursday night. This proved to be very interesting as well as instructive, for many cuts of meat from different types of animals were shown. There was also an excellent display of packing house meat. The class was especially impressed by the excellent quality of the meat as well as the highly sanitary conditions under which it was kept.

**THE TIGERS**

As many of you witnessed, our Tigers went down in glorious defeat at Clarendon last Friday. Of course, the Tigers hate to lose the game for more reasons than one, but what is past is past and cannot be remedied, and we are looking forward to our next conference game here Friday on Tiger field against the heretofore undefeated Memphis Cyclone. Let's all go out and watch the black and gold of the Tiger weather a Cyclone. We promise you a real game.

A feature of the game Friday will be the coronation of the high school football queen. We promise an interesting and beautiful stunt, regardless of which candidate wins. So fans, come out and enjoy the excitement Friday afternoon at 3 o'clock on Tiger field.

In regard to the excitement and trouble over the contesting of the Clarendon game, the editor is in no position to give reliable information.

**ASSEMBLY**

Assembly Tuesday morning was in charge of Rev. W. A. Erwin of the First Presbyterian Church. Rev. Erwin kindly consented to come in the place of the chamber of commerce this week, giving the chamber of commerce another week in which to prepare their program.

The program opened with a number of songs followed by a short talk by Rev. Erwin, in which he gave us God's plan for our lives. Following this, Mr. Cryer made a talk concerning the Clarendon game. Mr. Cryer complimented Rev. Erwin very highly.

**FOOTBALL QUEEN**

The race for football queen waxes strong. Every class is working diligently with the hope of winning the contest. The results of the contest as announced last Friday were as follows: Junior first, sophomore second, freshmen third, senior fourth.

**SENIOR CLASS**

The seniors are working hard to change the results of the contest for football queen. They are still determined to have Avalie Back as the winner.

**JUNIOR CLASS**

The contest for football queen of the junior class ended Friday morning at 10 o'clock. The two contestants were Sybil Young and Charlie Marie Back. Charlie Marie received the most votes and is the junior football queen. We are proud of her and believe she will win the right to make the kick-off on Friday. Incidentally, the junior class is in the lead at the time this was written, and we shall do our best to keep that record.

**FRESHMAN REPORT**

There was a mistake in last week's report. We said that we would not give up to the seniors until the last

minute. Well, that is wrong, for we won't give up to the juniors. The freshmen have really been working, for they have been selling candy and peanuts and other things.

**SUPT. CRYER GOES TO AMARILLO**

Supt. C. A. Cryer attended the regular meeting of the Panhandle-Plains Superintendents Association in Amarillo last Saturday.

**P. T. A. TONIGHT**

The P. T. A. meets in regular session tonight. The program is in charge of the Lions Club. An interesting meeting is expected. Parents who are interested in the school will not miss this session.

**COUNTY LEAGUE MEET TO COME TO McLEAN**

The Intercollegiate League meet for Gray county will meet in McLean in the early spring. Supt. Cryer has been elected director general. Prin. Harding, secretary; and Coach Rush, athletic director.

Other officials are: M. H. L. Baze, debate; Ben Guill, declamation; M. W. Graves, extemporaneous speaking; R. E. Paige, spelling; Ilaeae Hastings, essay; Helen Martin, music memory; Vera Carpenter, story telling; A. R. McHaney, arithmetic; Mrs. C. G. Goff, choral singing; Corrie Lee Newman, picture memory; Charlie Mae Carpenter, three R contest.

**SCHOOL MEMBERS AT LIONS CLUB LUNCHEON**

Guests of the Lions Club from the school participated on the program Tuesday. These were Bessie Merte, who was invited to show the appreciation of the club for her winning the prize on the fire prevention poster; Neva Flowers, who was honored for winning the place as one of the 25 best 4-H club girls in Texas; and Miss Elizabeth Kennedy, who was sponsor of the class of which Bessie was a member during last school term. These visitors enjoyed greatly their honor. Welcome was expressed by Claude Williams and response was made by Miss Kennedy. The program was presented by W. D. Biggers. Bessie exhibited to the club the poster which won first place for the sophomore class of this year, of which Miss Aline McCarty is the sponsor.

**MISS NOEL'S ROOM**

We had a new pupil last week. Art Names, Jr., who is with the Art Names show, was in our second grade while the show was in town.

We have begun a health contest between the boys and girls of the room. Every pupil is trying to get a star at morning inspection.

Jack Glass, Harold Lee Meador and Billy Carpenter went to Clarendon Friday to the ball game.

**FIRST GRADE—MRS. SLIGAR**

We are drawing Hallowe'en jack-o-lanterns, witches and cats. Billy Gressett, from Miss Baley's room, told us an interesting story about Hallowe'en.

L. E. Carter spent Saturday in Amarillo. Bruce Rogers visited in Shamrock Sunday.

Thelma Jim Pollis is absent from school because of illness. We hope she can return soon. Anna Lynn Wilson has been absent for some time, also.

We will soon be ready to take up primers.

We have enrolled a new pupil in our room, Dixie Lonsdale, formerly of California.

Raymond Odell Smith moved away last week.

**SECOND GRADE—MISS BALEY**

Worley Pugh has moved to Dalhart. We are glad to have John Lonsdale

enter our second grade. Norma Lee Myait has a new baby brother. His name is Tommy Keith. We want to pass on to you the story of the first jack-o-lantern:

The last night of October some boys slipped into the field and carried the corn and pumpkins to the door of the little old house. Other boys slipped into the forest and carried wood to the door of the little old house. The boys left only a jack-o-lantern to tell the tale. This is why we see jack-o-lanterns every last night of October.

**THIRD GRADE—MRS. HARRIS**

We are glad to have Willis Ledbetter back with us again.

One division of our room has just finished reading "The Treasure Box" which we enjoyed very much. We have made a booklet of some of the stories we liked best. We have colored the pictures and written stories about them. We are going to have them judged and see who has kept the neatest and best book.

**HIGH FIFTH CLASS ELECTION**

The high fifth had a class election and elected the following officers: President, Vada Appling; vice president, Eugene Stewart; secretary-treasurer, Lorraine Hodges; song leader, Billy Cash; reporter, Johnnie Mae Scott; room mothers, Mrs. Wade, Mrs. Alexander, Mrs. Finley and Mrs. Messer.

**SEVENTH GRADE**

Mrs. Sitter brought the seventh grade a beautiful bouquet of red roses and red dahlias.

Billie Jean Biggers brought a fish bowl, and Lorene Moore brought a fish. Wanda Estes brought a mermaid to go in the fish bowl. We named the fish Bubbles.

**ENGLISH CLUB**

The "A" students of the elementary department, comprising the English Club, met for the first time Oct. 18. The sponsor is Mrs. Jim Back. We elected officers as follows: President, Mabel Back; vice president, Vada Appling; secretary, Jesse Dean Cobb; reporter, Leta Mae Phillips; reporter for six grade magazine, Willie Louelle Cobb.

The members are: Billie Jean Biggers, Jesse Dean Cobb, Leta Mae Phillips, Olive Louise Atwood, Margaret Kennedy, Willie Louelle Cobb, Ermadel Floyd, Vada Appling, Mabel

Back, Ernie Back, Eugene Stewart, Margaretie Wheeler.

**ATHLETICS**

Nearly all the rooms have playground balls and bats to play with. The second and third grades are just learning how to play, and it is very comical to watch them. The first team girls and first team boys started practicing early this year and we are expecting better results at the county meet than last year.

**HONOR ROLL—STRAIGHT "A'S"**

**RED CROSS CLOTHES  
 THE NATION'S NEEDY**

**Flour, Bread, Clothing Reach Into  
 More Than Five Million  
 Homes of Jobless**

The greatest task ever undertaken by a relief agency in the history of private charity is drawing to a close with the final distribution of cotton clothing to more than five million families by the American Red Cross.

At the direction of the Congress, beginning eighteen months ago, the Red Cross undertook to convert the wheat and cotton surpluses of the Farm Board into food and clothing for the unemployed and needy. In the consequent operation, this relief agency entered upon a commercial enterprise greater than any single commercial firm has ever undertaken in the same period of time.

In the ensuing months the Red Cross converted 85,000,000 bushels of wheat into flour and bread and gave it to 5,803,000 families. The distribution was through 2,700 Red Cross chapters and hundreds of other charitable agencies. During the severe northwestern drought of 1931 the Red Cross also gave wheat in the form of food for live stock to 184,188 families.

The clothing—dresses, underwear, overalls, jumpers, sweaters and stockings for men, women and children, and even blankets and comforters—was distributed to 3,455,410 families. More than 54,000,000 ready-made garments and 92,000,000 yards of cotton cloth were given to the needy. This clothing came from 844,000 bales of cotton.

The wheat distribution was concluded in June, 1933, and final distribution of cotton clothing is occurring in the fall months.

In handling these tasks voted to it by Congress, the Red Cross will expend from its own treasury \$735,000. At the same time the organization carried on its regular program of disaster relief; of service to the veterans of all our wars; of educational and welfare work through the Junior Red Cross; of health education and public health nursing and of life saving and first aid. Funds for this work come from the membership roll call the Red Cross chapters conduct from Armistice Day to Thanksgiving Day, when every one is invited to join the Red Cross and aid in this vital relief work.

Seven hundred thousand women volunteers under the Red Cross banner sewed for the needy last year and many thousands still are making cotton garments for their Red Cross chapters.

The Red Cross has 2,701 chapters and 10,000 branches of chapters. Thus it can be mobilized nationwide in a great relief task within 24 hours.

**Tornado Is Most Frequent  
 Disaster; Causes Heavy  
 Loss of Lives**

What type of disaster occurs most frequently in the United States?

This question is answered from the relief annals of the American Red Cross which show over a period of years that the tornado, or cyclone as it is called in some sections, is the most frequent and claims a heavy toll of life. It swoops almost without warning, and in the terrific whirlpool of its fierce winds it destroys all in its path.

The Red Cross gave relief in 44 tornadoes in eighteen states last year. The tornadoes killed 326 persons, injured 2,755 and the Red Cross gave aid to 21,738 who were homeless, injured or otherwise victims of the storms.

**Toll of the Earthquake**

When a severe earthquake killed 95 persons; injured 4,911 and destroyed several thousand homes in Southern California last March, the Red Cross was first upon the ground with emergency relief. It required more than three months for the Red Cross to restore the needy to a self-sustaining basis. The organization expended a relief fund of \$411,000.

**Serves Under Five Presidents**

John Barton Payne, a retired judge and lawyer of international reputation, is serving his twelfth year as chairman of the American Red Cross. His service is without pay, and his appointment by the President of the United States. He has served by appointment in high public office under five presidents—Wilson, Harding, Coolidge, Hoover and Roosevelt.

**Prepared to Save Lives**

One of the most valuable services given to the American public by the Red Cross is through its Life Saving and First Aid courses. Virtually all of the life guards at beaches and pools in the nation are Red Cross life savers. Nearly every industry in America supports the First Aid work of the Red Cross because it annually saves lives of thousands of injured persons. These courses are taught by Red Cross experts in both lines. Last year 66,354 certificates were issued to persons completing the First Aid course and 78,795 certificates for completing Life Saving instruction.

**IT WILL DO THE TELLING;  
 YOU MUST DO THE DOING**

What you say gets them interested.  
 It's what you **DO** that keeps them interested.  
**Advertising does the telling. You yourself must do the doing.**  
 Publicity's job is to make your story known to the greatest possible number of people.

It will spread the news. After which, things are up to the advertiser.  
 But, now and then, we run into someone whose notion of advertising is that it will take the place of other forms of service—as if crowing were the only job of the poultry yard.

This is about the worst mistake we can think of.  
 It gives advertising a black eye. Worse—it spells a business crash for the one who does it.

Advertising spreads your message, yes!  
 But it relies on you to make good with value and service behind it.  
 It presents your business card to folks you couldn't reach otherwise.  
 And, when backed up, it fulfills its part of the bargain—  
**It builds profits.**

Business silence never pays dividends; you must tell 'em to sell 'em.

It is never too late to begin advertising; it is always too soon to quit.

Good losers are just as important as good winners in the game of life.

It seems to be an easy matter for some people to kid themselves, but it seldom fools anyone else. A man is not always his own best judge.

The public is a partner in every business success, and you must take the public into your confidence through advertising, for business goes where it is invited and stays where it is well treated.

It begins to look like the world will be forced upon a cash basis, whether we like it or not. There would not be much chance for depressions if cash was paid for everything, but there will be many who will argue that very few high priced things could be bought this way.

Dr. Hill of the West Texas State Teachers College at Canyon, in an address in his church Sunday morning, said there are only two kinds of church members, those who are able to help the church financially and those who need financial help from the church.

There are 8,466 governmental units in Texas with authority to pledge the credit of the taxpayers of the state, and the outstanding debt of the local units in Texas is now 51 million dollars more than the combined capital, surplus and undivided profits of all the national banks in Kentucky, Tennessee, Alabama, Mississippi, Louisiana, Oklahoma, Arkansas and Texas, and is equal to one-fourth of the tax-rendered value of all Texas property.

A large share of this indebtedness was incurred before the legislature passed a law two years ago making it necessary to call an election before bonds or warrants can be issued by the different boards. However, during good times it was pretty easy to get voters to favor bond issues.

Wise county farmers are demanding more aid in terracing from the county agent since farm prices have begun to climb. Records of three farmers are cited to show the reason. One made four bushels more corn per acre on terraced land; a second picked 100 pounds more seed cotton per acre on terraced land; and a third found that terraced land produced six bushels more oats per acre than unterraced fields.

Mrs. E. E. Dishman returned Sunday from a visit with relatives in California.

CHURCH NEWS

A newspaper is often criticized for not carrying all the church news of the town, and in practically every case unjustly. The church critic will too often point out the fact that the different clubs of the town, the school, etc., always get their share of the publicity.

The writer does not know a newspaper that does not give more time trying to get church news than any other feature of his paper, and it is the hardest to get. Every organization doing an active work in the community should have some certain person responsible for the news getting into the local paper each week, or as the activities are undertaken.

It would be impossible for the editor to attend all the churches of the town and give each proper publicity, so the church that provides for their news to be prepared for the home paper naturally gets the most publicity. If you are not satisfied with the notice received by your church, the News will gladly print live stories each week about your activities, if you will see that they are turned in.

Since coming to Estelline we have published stories for practically every denomination, from the negro revival to the state evangelists of the leading denominations. We are glad to have this news, and all we ask is that you turn it in before Wednesday noon each week.

HIGH PRICES AND PROSPERITY

Yes sir, prices for merchandise are sure to be higher. If you don't believe it, ask your merchant who is receiving invoices for his fall goods. The advances in some lines of merchandise are almost unbelievable. Some lines will cost the merchant double what he paid a year ago. This advance must be passed on to the consumer. Fact is, much merchandise has been produced in late years at a loss.

SO WHAT?

Getting out this paper is no picnic. If we print jokes, people say we are silly. If we don't they say we are too serious. If we clip from other papers, we are too lazy to write it down ourselves.

WE DID

"Doctor," said a patient, "I'm a victim of insomnia. I can't sleep if there's the least noise, and there's a strange cat that yowls every night just under my window. Can't you do something for me?" The doctor replied: "Certainly; this powder will be effective."

FALLACY OF THE PARTY LASH

Drunk with new power and not imbued with a sense of proper responsibility to the future, certain Democratic leaders in Texas are wielding just now what is known as the "party lash" in dealing with certain leaders and individuals who have not always marched straight down the party avenue where they felt that good conscience forbade.

According to the old Andrew Jackson doctrine of "to the victor belongs the spoils," the use of the "party lash" is to be expected and thoroughly in order, but the facts are that those days of little general reading and enlightenment have passed and we are in a new era. The "party lash" now can produce only one thing, following certain satisfaction in the hearts of the wielders. It can guarantee only a "back lash," and every bit of political history for the past two decades proves the point.

Here in Texas, if we are to have an enlightened Democratic party holding the respect and loyalty of Texas citizens, the party lash must be discarded and the palm leaf and olive branch substituted. There must be first a genuine shrine of political integrity and personal rectitude set up, which leaders and party adherents must endorse and defend. Then there must not be anything but welcome to those who for reasons good and plenty have left the ranks in times past.

There are millions of Democrats in Texas when they can afford to be so, and there are few bootlickers in the whole lot. It is up to the state leadership of the party to maintain itself by wholesome conduct. The lash will weaken and emaciate.

"I thought you said you had slashed prices," said the customer to the merchant.

"We have," said the dealer. "Then you must have done it with a safety razor," commented the customer.

Tommy—"Dad, what is meant by 'writers' cramp'?" Dad—"It's being cramped for money, my son. All writers suffer from it."

THE MODERN NEWSPAPER

We believe with the Ute, Iowa, Independent that newspapers were never so free from the truckling spirit, never so unqualifiedly devoted to the popular welfare, uninfluenced by hope of direct, selfish gain, as they have been of late years and are now. That newspaper makes this comment:

"We frequently hear it said that the old-time independent spirit of the newspaper is gone; that its editorial policy is now subservient to the business end of the plant. Yet this is not true. There is more unselfish idealism in the average local newspaper than in any other business enterprise. It frequently speaks out in the way which it believes will be for the good of the nation and of the community, regardless of what the consequences may be from a business standpoint. This is more than the average business man will do or could do. Of course, the local newspaper is now on a firmer business basis than papers were in the early days. This is why it is still improving from year to year, why it is giving its readers a constantly better newspaper and why it is increasing its influence for good in the community. And it does its boosting in most cases without any hope of material reward."

Woman at Chicago Fair—"I've been looking for my husband for two hours."

Second Woman—"That's nothing. I've been looking for one for twenty years and haven't found him yet."

1st Motor Cop—"Did you get that fellow's number?"

temperate use of the possessions God  
has given us that we do not attend  
the services of worship at His house.  
The automobile, radio, golf course, or  
the Sunday morning nap in a com-  
fortable bed, are usually responsible  
for empty pews at each service. This  
intemperate use of possessions, and  
interests in other things, keep many  
from living a life that portrays Christ.

Christ said that if He were lifted up  
He would draw all men unto Himself.  
He was lifted up on the cross, but it  
is our task to hold Him high in our  
lives that men may see the worth of  
His blessedness to us. Because of  
intemperance Christ is often not held  
where men may see Him in the lives  
of His professed followers. Let us  
heed the word in Romans 13:14:  
"But put ye on the Lord Jesus  
Christ, and make not provision for the  
flesh, to fulfill the lusts thereof."

**PROMOTER SAYS AN EDITOR IS TOO NOSEY TO RUN NEWSPAPER**

Springfield, Mo. — A Springfield  
Leader and Press reporter sent to  
cover a state, county and city officers'  
convention for which the promoter  
had promised more than 1,500 dele-  
gates, found the hall almost empty  
at the appointed hour.

Only six delegates were present.  
"Looks as if I came on a snipe hunt,"  
remarked Lieut. Gov. W. R. Burns of  
Oklahoma, programmed speaker. The  
official welcomer and a clergyman  
rounded out the crowd. The re-  
porter described all that happened.  
When the promoter arrived three  
hours late, he evinced scorn for the  
editor who would send a reporter to  
ask him what had become of the  
money obtained from sale of adver-  
tisements in the 16-page convention  
program. The reporter turned in the  
story and added a memo to the edi-  
tor. The editor printed it verbatim  
in the afternoon edition as follows:  
"Note to ed.—The promoter says  
that if you ever tried working on a  
metropolitan newspaper, you'd be  
kicked off immediately. He points  
out that you are 'very noseay and  
have no business trying to run a  
newspaper.'"

It's a safe bet that when you hear  
a fellow cuss the local paper, that  
his subscription is not paid up—if  
he takes the paper at all.—Donley  
County Leader.

Miss Alice Hardin, who is attending  
school here, spent the week end with  
home folks at Magic City.

**The NRA has done some good at**

least, when advertising was banned  
from "phone directories and calen-  
dars." In that one act alone, thou-  
sands of citizens will be compelled  
to avoid throwing away perfectly  
good money from which they expected  
a return but never got it. Now what  
will the government do about its own  
cut-throat envelope printing?—Donley  
County Leader.

"Ladies and gentlemen," said the  
vaudeville artist, "my assistant will  
blindfold my eyes with several thick-  
nesses of cloth, and I will prove to  
you that I can see right through  
them."

A number of women made a rush  
for the exit.

If production must be reduced, the  
place to make the cut is in number  
of acres and not in yield per acre,  
as all the farm relief measures recog-  
nize.

Mr. and Mrs. Bob Thomas visited in  
Colorado last week end.

**HOW WOMEN CAN WIN MEN AND MEN WIN**

**The Favor of Other Men**

Unless two parts of bile juice flow daily  
from your liver into your bowels, your  
food decays in your bowels. This poisons  
your whole body. Movements get hard and  
constipated. You get yellow tongue, yel-  
low skin, pimples, dull eyes, bad breath,  
bad taste, gas, dizziness, headache. You  
have become an ugly-looking, foul-smell-  
ing, sour-thinking person. You have lost  
your personal charm. Everybody wants  
to run from you.  
But don't take salts, mineral waters,  
oil, laxative pills, laxative candies or  
chewing gums and expect them to get rid  
of this poison that destroys your personal  
charm. They can't do it, for they only  
move out the tail end of your bowels and  
that doesn't take away enough of the de-  
cayed poison. Cosmetics won't help at all.  
Only a free flow of your bile juice will  
stop this decay poison in your bowels. The  
one mild vegetable medicine which starts  
a free flow of your bile juice is Carter's  
Little Liver Pills. No calomel (mercury)  
in Carter's. Only fine, mild vegetable  
extracts. If you would bring back your  
personal charm to win men, start taking  
Carter's Little Liver Pills according to  
directions today. Use all drug stores.  
Refuse "something just as good" for it  
may gripe, loosen teeth or scald

### SCHOOL SPORTS

By the Railbird

The McLean Tigers bowed in defeat to the Clarendon Bronchos last Friday, as they emerged from a hard-fought struggle on the short end of a 7-0 score.

The score came as a surprise in the last few minutes of play as Hudson, substitute back, scored on an end run after a series of short pass plays.

The Tigers were unquestionably the winners of a 0-0 encounter until the final period, having gained numerous first downs to only a few for the Bronchos. The penetrations were also in the Tigers' favor.

In spite of a recent illness, "Crick-et" Christian turned in a wonderful game at quarter. Ellison, left tackle, also turned in his consistent game at his position and was one of the shining lights on defense.

**A BIRD'S EYE-VIEW.**—Did you ever see so many long faces or hear so many alibis? The talk of the town has consisted of "eligibility," etc. The gossip corners have fairly buzzed with excitement and rumors. The Tigers have certainly tasted the bitter herbs of defeat, which should inspire them to greater heights and better football.

**THE LOWDOWN.**—The result of a conference held last night by the League committee, which ruled on the disputed Clarendon-McLean game was very disastrous to the standing of the Tigers.

Crockett is "ineligible" and will not participate, officially, in the remaining conference games. The Turkey-McLean and the Shamrock-McLean games stand as played, with Turkey and Shamrock declared the winners. This leaves the Tigers at the bottom of the heap. This also rate the Clarendon Bronchos as the leading contenders for district 2 championship honors.

**DOPE.**—The Tigers meet the Memphis Cyclone here tomorrow to try and determine the reason a Cyclone is so terrible.

With the loss of Crockett, the backfield will probably have a hard time "clicking" together. However, Stratton has taken over the wing-back assignment, and the fans may be due for a surprise.

The Tigers are going into the fray with a fighting spirit that perhaps has not been shown for the last few games, and with the realization that the Cyclone is one of the leading title contenders, they are expecting a tough game.

Pour it on them, Tigers!

#### WHO IS BLIND?

Most ministers of the Gospel are so blinded by their prejudices concerning prohibition that they have left off preaching temperance and for the past several years used their pulpits to preach prohibition—drink prevention by law.—Editor Jack Stricklin in Terry County Herald.

"O would some Power the gulf give us to see ourselves as others see us." Are you right sure, Jack, that it is the preachers who are blinded by prejudice? Although you have been shooting broadsides at prohibition for a year in the interest of "temperance" when have you written a real temperance editorial for your paper? When have you warned your young readers against the evils of drink? When have you denounced wine as a mocker and strong drink as raging? When have you admonished the youth of our land to "look not upon wine when it is red" and reminded them that "at last it biteth like a serpent and stingeth like an adder?" While fighting prohibition, when have you really done anything through the columns of your paper for temperance? Now don't get sore, Jack. We don't mean to be offensive in the least. We just want you to take a good look at yourself. After doing that, go ahead and throw some more rocks at the preachers, if you feel like it. Throw 'em at us, too, if you want to; but now that national prohibition at least is done for, why not join us in a real temperance campaign?—Editor I. E. Hill, in Lynn County News.

#### THE PRIVILEGE OF LIVING TODAY

The year 1933 will go down in history.

Just as our grandfathers talked of the Revolutionary period and our fathers of the Civil War era, so our children will refer back to 1933. The greatest social changes in the history of our nation are now taking place. Europe sits spell-bound at America's daring. We ourselves are almost too dazed to realize the transition.

We are changing from an individualistic society to one of cooperation. There will be anxious moments in this changing process, but those who have adopted the philosophy of John Dewey in regarding each experience, whether happy or sad, as something to enrich one's life, will benefit most from this experiment.

There is too much humanity in the world for this experiment not to succeed. We may falter on the way, but the American people have never known the meaning of the word fail. Frankly, we would rather live in 1933 than in any period in the history of America. For the first time we have a patriotic call without girding ourselves to kill. That in itself would mark out the year 1933 as an historic twelve months.—Independent, Littleton, Colo.

Doctor—"How's your cold, Mr. Miller?"

Mr. Miller—"It's very stubborn, Doctor."

"How's your wife?"

"Shes about the same."

Father (to son who has returned home after finishing his college course)—"Well, my son, have you any debts?"

Son—"No, father, no debts which you will not be able to pay with diligence, economy and stern self-denial."

"I don't think you should ever punish a child on a full stomach, do you, doctor?" the fond mother asked.

"No," replied the doctor, "I'd turn him over."

In 1931 the cost of government was \$107.37 per capita, or 28% of the income of the American people.

Roy Campbell and Lenard Howard were in Pampa Monday.
