EDWIN BOADWAY

Nazarene Has Special Services

Mr. and Mrs. Edwin Boadway, missionaries to Papua New Guinea, are on furlough and will hold services Sunday, Oct. 25 at 11 a.m. in the Church of the Nazarene in Muleshoe.

The Boadways have been serving in the Western Highlands of Papua New Guina since their assignment in 1973. Edwin's position involves maintenance and repair for the Cont. Page 6, Col. 4

ENJOYING HIS WORK... Chris Kirven's facial expression seems to be one of pure glee as he sidesteps downed players and Olton's #75, 270 pound all-district linebacker, Doug Smith in a race for the goal line. #54, Dusty Puckett gets a piece of the action, as well. Final score was Mules 33-Mustangs 6.

Annual Christmas Parade Scheduled December 5

The Muleshoe Chamber of Commerce and Agriculture is once again sponsoring the 22nd Annual Muleshoe Christmas Parade. It will be held on Saturday, December 5. The theme for this year's parade will be "A Time of Joy and

Peace."

In order to encourage float entries, the Chamber will offer cash prizes to the top floats. All organizations are urged to make a special effort to have a float or some type of entry

in the parade.

Possible entries in addition to floats include riding teams, antique cars and "walking entries" made up of groups in clever costumes.

A float which does not consist of a flat bed trailer or truck will NOT be permitted in the parade for judging as a float, unless approved two weeks in advance by the Chamber. All entries must have signs on both sides of the float with the name of the sponsoring club or organization. The sign should show the

name or the theme of the float, if any, and should be readable from a distance of ten yards. Entries without signs will be penalized in the judging.

Entries involving antique cars must have signs indicating the make, model and year displayed prominently either on both sides or on the front or rear of the car. The signs should

Area Residents Enjoy Fish Fry

Several hundred area residents were the guests of Wooley International Thursday night for a fish fry and a look at new International equipment. The supper was held in the Bailey County Coliseum.

On hand for the event were several International dignataries. Among them were Don Castator, Roger Shady and Jim Schlatter.

Door prizes were awarded and the recipients were:

Halloween Holiday Safety Stressed ents and city officials. The

As the Halloween holiday approaches, members of the P.T.A. and the city officials of Muleshoe have learned from concerned citizens the need to stress safety by keeping the children off the streets Halloween night.

Children from the local and surrounding areas come to Muleshoe to trick or treat. This year Halloween will be Saturday, October 31. Due to this factor there will be more traffic to contend with. The night of Halloween, the local P.T.A. will be holding their annual Halloween carnival. The carnival is a family oriented event with booths for skills of all age groups. According to PTA chairperson, Debra Noble, "The purpose or organizing the carnival is to give the children a safe place to enjoy Halloween and be off the streets."

Bond Issue To Be Called

In a special meeting the Muleshoe Independent School District Board of Trustees met with financial advisor Pat McMillian.

The board found from Pat McMillian that interest rates on bonds are easing. Upon the advise of Pat McMillan, the Board voted unanimously to have a meeting on October 29, 1981 to officially call a bond issue for energy conservation measures and general renovation of the school system.

Educational program-

ming is significantly affected in many ways by the school plant which accomodates, serves and supports educational programs. For example, school plant design has a prominent impact upon programs. The design concept of school facilities constructed in recent years reflects the new technology and curricular trends which have been incorporated in-

to school programs.

There is sometimes a natural tendency on the part of school officials to continue to occupy a school building so long as it is available though it has functioned in the same capacity for many years. The fact that the school building is educationally obsolete and does not fulfill the needs of a changing educational program is sometimes not fully eval-

Muleshoe Records Year's First Freeze

Fall is really in the air now, and Muleshoe has officially recorded its first freezing temperature as of Friday morning, October 23. Weatherman Jeff Peeler stated that an official 30 degrees was recorded for the overnight low.

This date is five days later last year's recorded freezing temperature, and is about average, date--

Keith Hayes, agricultural meteorologist with the National Weather Service af Texas A&M University, says near normal temperatures likely will prevail at least through mid-November.

Freezing temperatures can be a boom to certain agricultural operations, such as cotton harvesting, which is a big factor in Bailey County as well as in most of the South Plains area. Freezing temperatures at the right time can

early freeze can also damage cotton if the crop is

late, as is the case this year in some locations.

With colder weather approaching, cattlemen must prepare for feeding their livestock and also need to remember that a frost or freeze can cause prussic acid poisoning in livestock grazing sudan or sorghum pastures or crop residues. Homeowners need to think about protecting tender vegetation. Of course, all types of motor vehicles and equipment need to be win-

terized.

uated. Consequently, the decision to rehabilitate or construct additions to an old building may do nothing more than extend the life span of an already obsolete facility with respect to its educational adequacy.

With the preceding points in mind, the proposed renovations to the existing Junior High School follows.

The energy conservation program calls for closing, sealing and insulating all exterior windows at the Junior High. Tack boards and chalk boards are to be installed on closures where approriate.

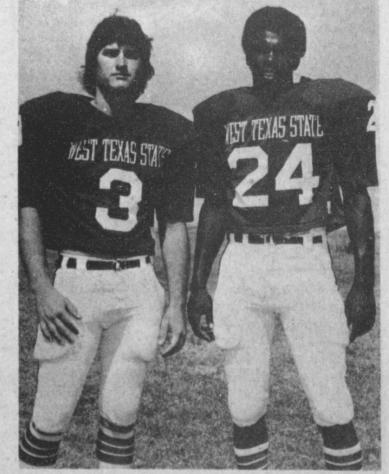

Individual room air conditioning and heating units are also proposed to enable closer control of room temperatures. It is proposed to remove and sell the existing forced air heating system

Ceilings in the original building should be lowered and the installation of suspended asbestos tile is proposed. Bat insulation above the suspended asbestos tile ceiling is proposed. In the new addition, suspended asbestos tile is presently in existence. The installation of bat insulation above existing suspended asbestos tile ceiling would aid in heat conservation. Existing flrescent lighting should be lowered to accommodate lowered ceilings.

Weekly Meeting

W.O.T.S. (Women of Tolk Station) met for luncheon at Tri-County on October 22 with Lois Martinec and Mary Ann Ramariz as the hostesses.

A heart shaped birthday cake centered the dessert table in honor of Doris Fightmaster; a bud vase with a yellow silk rose along with a birthday card were also presented to the "Birthday Girl." A Halloween theme was carried out on the main table. October 29 is "eat out" day and the group has elected to have their lunch at the Pizza Hut on that day.

Members present were: Mildred Williams, Zellma Toler, Mary Ann Ramirez and Josh Scott, Lois Martinec, Nora Flanary, Millie Mitchell, Kay Madry, Doris Fightmaster, Betty Barker, Charlena Lindt, Ann Vinson.

Guests were Faye Houston and Beverly Heathington. Their husbands work for Southwestern Public Service.

Following the luncheon some of the W.O.T.S. group delivered to Harmon Elliott Community Room two rubber floor plants for the recreation room.

The next lunch at Tri-County will be on November 5, with Faye Houston and Ann Vinson as the hostesses for that day.

For more information on W.O.T.S. please call Mildred Williams at 272-5260 or Lois Martinec at 272-

ESA Program

Epsilon Delta chapter of E.S.A. sorority met recently in the home of Louvenia Garlington with Rita Lane as co-hostess.

The program was given by Julie Cage on "Living in Costa Rica". She told the group what it was like living in another country. She and her husband and children lived on their ranch in Costa Rica for a number of years.

She also showed slides and answered a number of questions.

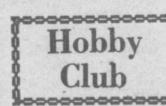

Following the program a regular business meeting was held. Sharon Montgomery recited the opening ritual. Committee reports were given. Birthdays and anniversaries for October were announced.

A T.V. cake auction was held recently on Channel 6. All of the proceeds will go the help furnish the recreation room at the Senior Citizens Complex.

Vice president, Sylvia Vourazeris presided at the pledge pin ceremony for Denise Bland and Judy Watson.

To close the meeting, the closing ritual was repeated by all those

areas except in science labs and art rooms is recommended in the renovation.

Existing restrooms should be renovated to observe existing handicapped standards, and signage requirements for handicap laws should be placed.

A general renovation and painting of all areas is recommended, and new foyer doors should be installed to create wind traps. Also a new electrical system would be in order to accomodate air conditioning, and a new gas system to accomodate the heating system.

Landscaping the outside areas of the buildings, making needed roof repairs are also proposed.

It is proposed to move the assistant Superintendent for Instructor's office to the administration building. This room could then be utilized for special education offices and SERS space. Partitions would be added to make two offices and a reception area should be constructed.

The proposed utilization of present rooms for federal programs would ensure that these rooms be used solely for that purpose. A partition for two offices plus a reception area is recommended.

The gymnasium is in need of paint and touchups as well as roof repairs.

Other renovations proposed will affect the administration building and will be in line with all other renovations by looking towards energy conservation and better utilization of space. These offices need the same general repairs and touch-ups.

The proposed building program with improvements should adequately handle the student needs for the next ten years. The only exception would be from an unexpected population jump which could occur due to more industry moving into the school district. These unforseen populations cannot be forecast at the present time. There will definitely be a need for planned preventative maintenance during the next decade. There will surely be a need for small unforeseen additions to accommodate new programs and invations in the educational process.

As been stated throughout these articles, the changes portrayed are proposed changes, and it is recognized that not all of these changes or recommendations will prove feasible for the Muleshoe School plants. There are however, definite needs for renovation and these are not to be overlooked if Muleshoe Schools are to continue with the high level of education that has

"These two topics are very important to today's Texas," Sarpalius said. "Obviously, in these days of rising fuel costs and rising food costs, we need to find the cheapest way to transport our agricultural products.

Hamilton had 20 yards passing. The Mules stacked up 13 first downs to Oltons' 1.

The Mustangs came back into the third quarter, rallying a bit on a drive that led to a 71 yard scoring run by their excellent running back Edward Wright. Wright took advantage of some open country and his own speed as he outdistanced the Mules for the score. The attempt to run the PAT was no good, but Olton scratched with the score being 20-6 in favor of the Mules.

Coach Williams' Angry Black came back with a long drive from their own 29 yard line, setting the stage for Chris Kirven's ten yard scamper into the end zone for the Mules 4th TD. Angely's PAT was good giving the Mules 27-6 over the Olton crew.

While the Mustangs had super size and some outstanding men they lacked the quickness of the Mules, and the Williams' squad was able to get outside at every turn.

Early in the 3rd quarter Williams sent Gonzales in as quarterback, along with a raft of new players, some of the magic of the Gonzales arm came back as the Mules took over control again and Gonzales hit Kirvin in the end zone with a long touchdown pass, adding six more points to the Mules lead. The PAT was not good. From that point on it was "all over but the shouting." Kirvin and Gonzales had a field day passing and running and the Mustangs were plaqued with fumbles.

While the Mustangs had the size over the Mules, they could not contain the running and the Muleshoe team had excellent block-no ing week but and aller

the Mulettes favor, 15 to 9.

The second game was

the only spike in this game. The four set ups were made by Mary Jane, Debbie, and Delores. There were only two bad serves, and they were made by Sue Ann and June. The seven good serves were made by Mary Jane, Delores, Mary Ann, and Debbie. The Mulettes made a

quick comeback to win the third game with the score being 15 to 12. There were twenty great serves in this game that were made by Ybarra, Flores, Perez, Luna, and Chavez.

Two bad serves were also hit in this game. Flores managed to set four balls up and Ybarra set one up. Perez spiked the ball twice and she managed a block. Two dinks were hit by Ybarra and Perez. Hurtado, Flores, Perez, and Ybarra made the eight errors during the game. The three tedious saves were made by Luna, Perez and

A nationally known researcher on gifted and talented children, Joyce E. Juntune, will give the keynote address Oct. 29 at the 1981 convention of District 17, Texas State Teachers Association.

Mrs. Juntune, who has appeared on Donahue, will discuss, "Asking the Right Questions" during the convention's 6 p.m. banquet and general session in Lubbock's Monterey High School Cafeteria. Juntune, with the assistance of a \$160,000 Title III grant, developed Project Rearch to study the effects of research based training on creative thinking abilities.

District 17 sectional meetings ranging from an idea fair to Para Professionals, scheduled from 4:30 to 6 p.m. at Monterey High, will precede the general session. Dr. Hellon Wilbur, associate professor of elementary education and director of the University Reading Laboratory at West Texas State University, Canyon, will be one of the convention's special guests, addressing the elementary section on "Diagnostic Prescriptive Techniques for the Classroom Teacher." Since coming to WTSU in 1968, Dr. Wilbur has helped develop a reading concentration on the undergraduate level at WTSU and a major in reading at the graduate level for a master's degree, in addition to a college reading laboratory used by up to 300 students each semester.

Keep Your Child From Choking

Halloween brings ghosts, goblins and, sometimes, real danger. The American Lung Association of Texas warns about one danger for children--the risk of choking on holiday treats such as candy corn, hard candy, and peanuts.

At Halloween, children door-to-door "begging". Parents should insist youngsters bring the goodies home for inspection. For the youngest-two, three or even four year old--some of the candy can be divided or mashed before eating.

The chewing and swallowing muscles of young children may not be sufficiently developed to cope with certain treats. Choking can result. Halloween goodies also may "go down the wrong way," and lodge in the lung instead of the stomach. This is called aspiration. A "foreign object" of any kind in the lung can cause life-long problems. At times, surgery for removal is required.

The best warning is: Be sure children are old enough to chew and swallow correctly before trusting

The key to corn rootworm irradication is quick dicovery. Research entomologists have come up with a faster way of testing for the beetle to determine whether you'll need a soil nsecticide next year. The University of Iowa scientists' method compares the total number of beetles found on pairs of corn plants to the high and low thresholds indicated on a chart they've developed. The technique will tell you the necessity of testing again in a week, or of stopping for the year. Beetle counts falling below the minimum tell you to test again. Those above the maximum indicate sampling can be stopped, and a soil insecticide ap-plied, if the field goes back plied, if the field goes back to corn next year. The test requires you either sample pairs until you go above or below the thresholds, or until you have sampled 54 plants in 27 pairs. Having hit 54 plants, testing is repeated the following week.

Many of our fears are real. A great many of our fears, however, are unfounded - a result of thinking and worrying about ourselves. Sir John Denham phrased

"My fears are causeless and ungrounded,

Fantastic dreams and melancholy fumes." There is only one thing that will dispel fear of this type. We must do something to get out of ourselves. That means loving and helping others.

The Bible puts it so well in I John 4:18. "There is no fear in love; but perfect love casteth out fear; because fear hath torment. He that feareth is not made

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

MJHS Coaches Comments

I was very pleased with the 8th grade effort in Thursday nights ballgame at Morton. We won the game 16-0 for our fourth win and third shutout of the season. The weather wasn't good as it rained throughout the game and most of our players looked like they had been in a mud fight. Actually, the eighth grade has improved quite a bit the last couple of weeks and hopefully, will continue to do so. Attitude has been good.

Our 7th grade lost to Morton 12-0 Thursday. They played pretty well for three quarters before finally giving up two long touchdown runs in the last quarter. There were some good things and bad things that happened in the game. And right now, I would just have to say that there is a lot of work to be done. The 7th grade can still win a lot of games.

Indians Scorch 7th Grade Mules

The 7th grade Mules went to Morton Thursday, October 15 to play the Morton Indians.

The Mules held the Indians until the third quarter. In the third quarter, Ramon Martiez broke the line when Morton tried to punt. Ramon blocked the punt and Francisco Ybarra assisted on that play also. The Mules failed to take advantage of this scoring opportunity and were forced to punt. In the third quarter Lance King made an excellent defensive play when he jumped up and batted a pass when Morton tried to pass. Also in the same quarter, Scott Bickel made a fumble recovery, but the Mules didn't take advantage.

In the fourth quarter, the Indians made two long touchdown runs. Their 2 point conversions failed and left the final score of
