Following the institution of the Lord's Supper, Jesus again brought up the fact that He was about to be taken from the disciples for the time being and designated Galilee as the meeting let anyone separate him from his Peter and the rest of us. But He not convince us many times until we have actually gone thorugh an experience and know. He made grand o many times we are bold and brave until the actual testing hour comes there is many a man who condemns Peter and fails to give a tithe of his ncome to God. Many another sighs the next day, the Lord's day, for a rest up, or entertain company. How inconsistent we modern Christians re-to condemn Peter for not forry small amount of our time and

we are not willing to give God the aloney that He demands. Were we even as faithful through life as Peter was from beginning to end, there would be no difficulty in winning the world to Christ.

Following this discourse Jesus took His eleven disciples and left the city of Jerusalem. It was near midnight when the little group arrived at the garden of Gethsamane. Jesus had come there to face a real trial. He left all but Peter. James and John hear the entrance. These He took a little farther and then left them while He went on a little farther to pray. Jesus had commanded them that they watch with Him. The prayer of Jesus that if it be possible that the cup pass from Him was not a prayer of unwillingness, but rather a prayer of great burden. The cup He was about to drink was the cup of the sin of mankind. It was the heaviest weight that God had ever borne. Even Jesus was groaning un-

der its weight as it was settling

heavy upon His heart.

After that agonized prayer, He went back to the disciples only to find them asleep. The question He put: to them as He wakes them up is one of the most stinging that Jesus had ever put. Peter and the disciples had sworn that they would never leave Jesus, and here they had left Him spiritually the first thing they did. And how like them we modern Christians are. Jesus in His parable in the 25th chapter of Matthew commands that we ever be ready and watchful for His coming. We are told In the 25th verse of the 7th chapter of Hebrews that Jesus is still praying; that He has been praying at the right hand of the Pather every since His ascension, making intercession for mankind. And mankind, like the apostles, has been sleeping through and Clois Hanner were dinner guests

In the low-price motor car field there's nothing that even compares with Chevrolet's famous 5-mile ride. The reason is: No other car at Chevrolet's price has any of the vital features pictured below. And without these features, it's impossible to equal Chevrolet's ride! You can't get Knee-Action results with anything less than a genuine Knee-Action car. You can't get sixcylinder economy with more than six-nor can

you get valve-in-head performance with anything inferior to valve-in-head design. And the same thing applies to the Fisher body, the brakes, the steering. Chevrolet offers one feature after another that makes a tremendous difference-in the way the car feels, performs and saves. One feature after another that puts Chevrolet far ahead in value . . . farther ahead every day in sales!

By J. F. Jarrell, in The Earth A chamber of commerce is the bust ness of the community speaking and acting for the common good. Show me a live city and I will lia; English merchants soid a show you a live chamber of commerce. A dead chamber of commerce means that the city has gone to sleep. In other words, a city is known by the chamber of commerce it keeps.

No individual, firm or corporation can organize a civic enterprise and when I have not paid for then carry it to a successful conclusion single handed. Such work requires cooperation of all interests, and such cooperation can be obtained only through a chamber of commerce, or a similar body. There is no excep-

This does not mean that individual initiative is to be discounted, rather, that the chamber of commerce gives the widest scope for individual inhiative to assert itself. The chamber of commerce renders

ineffective that deadly jealousy which so often controls individual initiative for civic development. When individual initiative is exercised in a chamber such: and every member of the organization has an opportunity discuss the thing proposed, and, if it Friday,

IS THE ONLY PAPER THAT LABORS 52 WEEKS IN THE YEAR FOR YOU AND YOUR WELFARE

We would not even suggest that you should not read a daily newspaper. We recommend it. You should get the best daily newspaper available. You need the news of the ever changing world.

But the daily paper is NOT working for YOUR personal and individual welfare. It's FIRST and prime interest is in the welfare of its OWN city, of its OWN business firms, of its OWN people. Your interests are secondary. In the parlance of the daily newspaper office you are just a "country cousin" to the daily paper.

Your HOME paper, The McLean News, places YOUR interests and welfare FIRST, the interests of other sections second.

It works faithfully to enhance the welfare of all the people and business interests of the McLean country, to bring the people of THIS community together in one happy family, each interested in the welfare of the other.

Is such a policy worthy of support? Are YOU a subscriber to this paper?

The News is the only paper that covers the McLean trade territory.

Are you, Mr. Business Man, an advertiser in its columns?
