

Cloudburst Brings Flood To Sections Of Lamesa

31 Families Known To Be Evacuated

LAMESA — A cloudburst Tuesday morning flooded sections of Lamesa and forced evacuation of at least 31 families. Rain within Lamesa ranged up to six inches in less than five hours. During the first two hours of the deluge, starting at 8:30 a. m., upward of five inches fell.

Sections along Sulphur Draw were inundated. One old timer said that water had risen a foot higher than in the great downpour of 1950. Thirteen families were moved from Sulphur Draw, which angles in from the northwest and emerges on the south side of Lamesa.

After The Cloudburst

W. D. Shultz and children, above, stand in front of their home in the flooded southwest section of Lamesa and look down inundated streets at neighboring houses. Water was over hood of the car, in the background, and partially covered the air conditioner in the window of the house at center. Upper left is a view of another neighborhood in the same section of Lamesa, with a duck swimming in the yard of one home. At left is the "lake" which quickly filled with floodwaters this morning. It stands between N. 8th and N. 9th Streets in northwest Lamesa.

CAB Okays New PAL Flight For 120-Day Trial

The Civil Aeronautics Board has approved a 120-day experimental flight for Pioneer Air Lines between Big Spring and Houston.

Approval of the flight, which will be routed via San Angelo and Austin, was announced today by the Associated Press. However, word of flight insurance has not yet reached the Pioneer terminal in Big Spring, said Billy Watson, manager.

Previous plans called for Big Spring to be serviced with one trip daily in each direction if the flight was approved. Watson pointed out. This city is to be a flag stop, which means the planes on the north-south route will stop only when requested.

The flight going through Big Spring terminates in Midland and Houston. The south-bound flight leaves Midland at 6:50 a. m. and the Big Spring stop will be approximately 7:13 a. m. Arrival in Houston is 10:22 a. m.

The north-bound flight leaves Houston at 6 p. m. and would arrive at Big Spring around 9 p. m., Watson said, terminating in Midland about 9:23. The flights are listed by Pioneer as segment three of AM route 64.

Request for the Big Spring stop was made to Pioneer Air Lines by the Chamber of Commerce aviation committee, headed by Herbert Whitney. It is the understanding of Chamber officials that around 60 passengers must take advantage of the flight per month or the service will not be instituted permanently.

At the present time people in Big Spring wishing to fly to Austin or Houston must first drive to Midland. The direct connection will enable business men here to make a one-day round trip to either of the distant cities, it was pointed out.

Landscape Plans Due Here Today

Final plans for the beautification of the courthouse square were expected to arrive here today.

Lambert Landscape Company, Dallas, Monday reported completion of the plans and said they were being mailed to Big Spring immediately.

County Judge R. H. Weaver said this morning that advertising for bids for the landscaping will be started as quickly as the commissioners court completes a study of the plans, Peter Michel, representing Lambert, is to confer with the court late this week or on Monday.

Weaver said also that work will be started soon on the widening of Third, Scary and Fourth Streets adjacent to the square. County and city crews are to cooperate in cutting back the streets around the square to permit head-in parking.

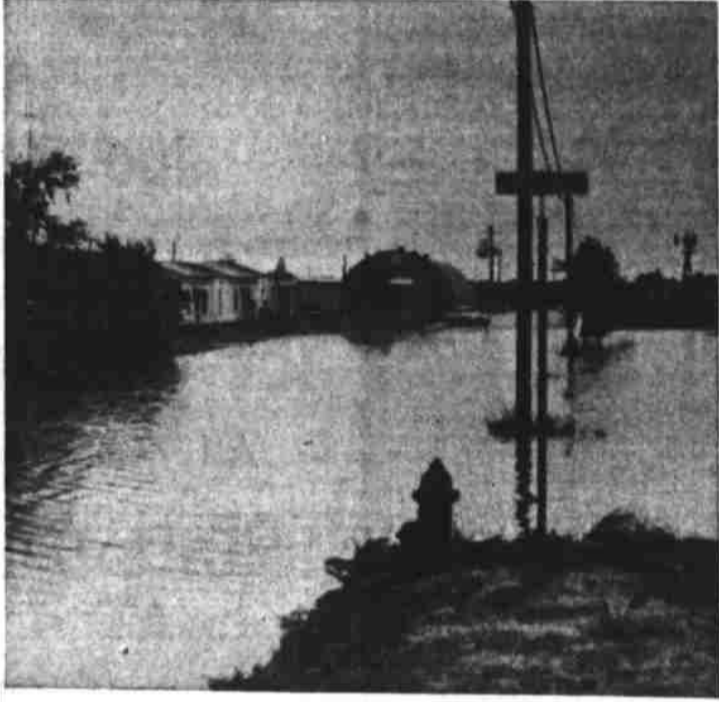

The judge said several inquiries already have been received from landscape contractors interested in bidding on the beautification project.

County Judge R. H. Weaver said this morning that advertising for bids for the landscaping will be started as quickly as the commissioners court completes a study of the plans, Peter Michel, representing Lambert, is to confer with the court late this week or on Monday.

Grand Jury Clears State Department Of Security Charge

NEW YORK — A federal grand jury today reported that the U. S. government had corrected conditions that caused a previous grand jury to charge the State Department had given a clean bill of health to security risks among Americans employed by the United Nations.

The grand jury, which investigated alleged Communist infiltration into the United Nations, convened Jan. 6, 1953. It succeeded another grand jury which, in a separate report made in December 1952, charged there had been shortcomings in the State Department in the handling of inquiries from the U. N. secretariat regarding the suitability of U. S. citizens employed by the U. N.

Red Cross Reports 6 Dead, 9 Missing In Ozona Disaster

OZONA — First figures released by the American Red Cross here today listed six persons dead with nine others missing and probably dead as a result of yesterday's flood.

The known dead were listed as: Janice Bedlack, 3, Donna Jean Clapp, 14, David Eugene Clapp, 3, Mrs. Hazel Mauney, 55.

An unidentified white male about 5 years old and an unidentified white female between 25-28 years of age.

The State Highway Patrol here asked the Red Cross not to divulge the names of those persons believed missing.

Mrs. R. A. Harrell, Crockett County Red Cross disaster chairman, said 100 dwellings in the area were destroyed and 100 others suffered major damage. Approximately 150 other dwellings, she said, suffered minor damage.

Mrs. Harrell said that because of conditions there was no estimate yet as to the number of farm buildings damaged.

She listed 30 business buildings here as sustaining major damage with 20 others getting minor damage. There was no dollars-and-cents estimate of the damage in first figures.

The Red Cross listed as hospitalized here: Mrs. Annie Robertson, about 76, condition fairly good. Thomas C. Golden, 31, condition good. Donella Crank, 18 months, condition good. Mrs. Betty Jeffers, 20, condition fair. M. T. Holley, 33, condition fair. Mrs. Francis Bedlack, 30, condition good.

Thirteen other persons, Red Cross reports said, had been treated at the Crockett County Hospital and released.

Red Cross field workers here from over Texas and from St. Louis headquarters had high praise for Mrs. Harrell who lives on a ranch south of here.

They said she used a game warden's radio-equipped automobile to direct the establishment here of the field kitchens and emergency facilities in the high school gymnasium. She talked with Supt. of Schools L. B. T. Sikes, the field workers said, and their long distance conversations got things in readiness in a hurry.

Later, when receding flood waters allowed, Mrs. Harrell rushed into Ozona.

Some 100 volunteers from public welfare units and from over Crockett County were helping.

Red Cross workers had particular praise for Charley Butler, owner of the flooded Hi-Way Cafe.

Churchill, Ike Seek Reduction In Arms

WASHINGTON — President Eisenhower and Prime Minister Churchill called today for "general and drastic reduction" of world armaments "under effective safeguards."

In a six-point statement of principles they also asserted their determination to try to bring about reductions in the world in which the "prodigious" forces of atomic energy "can be used to enrich and not to destroy mankind."

They held out to all nations, including Communist nations, "the hand of friendship," on the condition that by "solemn pledge and confirming deeds (these nations) show themselves desirous of participating in a just and fair peace."

The statement was released by the White House an hour after Eisenhower and Churchill concluded their last meeting in the President's office and said goodbye on the south lawn of the White House.

Churchill planned to leave by plane in the afternoon for Ottawa, Canada.

In five days of talks here, the Prime Minister and the President overcame some British-American differences but left many issues unsettled.

Here are six points of the principles set out in their statement:

- The two men will continue "in intimate comradeship" their efforts "to secure world peace based upon the principles of the Atlantic Charter, which we reaffirm."
- They extend "the hand of friendship" to all nations which prove they want to participate in a true peace.
- They promise to use "every peaceful means to secure the independence of all countries" whose people want it.
- But, they said, "we will not be a party" to any deal confirming or extending the "unwilling subordination of once independent states 'now in bondage'—an apparent reference to Communist satellites.
- They believe that "the cause of world peace would be advanced by general and drastic reductions under effective safeguards of world armaments of all classes and kinds."
- They called for the organization of regional security systems under the United Nations charter and promised to support them with assistance "when desired by the peoples of the affected countries."

6. They declared their intention, jointly and with other Allied governments, to build up and maintain "the spiritual, economic and military strength" necessary to pursue the purposes they set forth.

The last meeting of the 79-year-old Prime Minister and the 63-year-old President, who have found their peacetime cooperation more difficult than their wartime comradeship of 10 years ago, ended at 12:15 p. m.

Eisenhower walked with Churchill from the east entrance of his home.

Rio Grande Flood Crest Rolls On Toward Laredo

LAREDO — Its greatest flood in history rolled relentlessly down the Rio Grande today—past Del Rio, past Eagle Pass and on to Laredo.

Behind it 15 were reported drowned at Ozona, not from the Rio Grande floodwaters but from the cloudbursts that turned creeks and arroyos into mighty rivers—and awoke the sleepy Rio Grande.

The American Red Cross reported six known dead at Ozona and nine missing and probably dead. The highway patrol identified 12 dead, and the Associated Press had a report of another known dead not on either list.

A crest of 55-60 feet was expected at Laredo before noon tomorrow. But already water had inched up into Nuevo Laredo, Mexico, across the river from here.

Eagle Pass, 100 miles up the river, stayed awake last night. All night long, the high-waisted trucks shuttled back and forth evacuating those in trouble or just scared, helping carry out merchandise from the stores down by the river, where water came to the top of the parking meters.

Four houses and a big gasoline transport truck from nobody knew where were jammed with the other debris against the part of the international highway bridge still left at Eagle Pass.

Four patients at the Eagle Pass hospital, including a young mother who gave birth to a baby at midnight, were evacuated after water rose to a depth of eight feet all around the hill on which the hospital stands.

Water was ankle deep this morning on the main street of Eagle Pass. The entire town shut down operations yesterday. During the night 150 persons were taken to the higher Eagle Pass airport in National Guard 6-wheel trucks and in boats. Sixty National Guardsmen with heavy equipment patrolled the city.

W. H. Brown, engineer at Eagle Pass, estimated that the Rio Grande created at 85 feet early today there. But nobody could be sure. The river was a mighty, roaring lake between three and four miles wide.

What still was coming down the river, nobody could safely say. All communications with Langtry up the river and on the Devil's River south of Ozona were gone. All ranch gauging points on the Rio Grande, the Pecos River and the Devil's Ridge above Eagle Pass were under water.

Across the river from Eagle Pass, two-thirds of Piedras Negras appeared to be under water. The highway and railroad bridges at Eagle Pass went out. Thousands of persons on both sides of the river, from Del Rio to Laredo—about 155 miles—fled to the safety of higher ground.

International Boundary and Water Commission sources said the river crested yesterday at 38.5 feet at Del Rio and today was down to 25 feet.

Sixty-one miles downstream at Eagle Pass the river gauged 53.6 feet at 9 a. m. and apparently was stationary. Because of the rapid fall at Del Rio, the IBWC expected the same thing to occur at Eagle Pass almost any time.

At Laredo this morning the river was rising rapidly and stood at 30.5 at 9 a. m.

The sources said 2 1/2 million acre feet were expected to go into Falcon Lake, which would bring it up almost to 3 million, but engineers already were releasing water in advance of the flood. The lake holds a little over 4 million acre feet.

The Fourth Army flew in 300 cots and 400 blankets to Laredo, and evacuation of homes and stores down by the river in both Laredo and Nuevo Laredo continued.

Up until 8 a. m. today 100 families—or about 800 persons—had been evacuated at Laredo, a city of some 60,000, and 100 more families were moving out of their homes. The evacuation at Nuevo Laredo, a city of some 60,000, was similar.

Schools at Laredo were opened for evacuees last night, but few came since most had found shelter with relatives and friends on higher ground. All traffic across the International Bridge at Laredo has been stopped.

The little Mexican towns were having trouble with their adobe buildings beginning to crumble in the water.

Flood stages 5 to 15 feet higher than ever before were expected in the border cities today. But an International Boundary and Water Commission (IBWC) spokesman, after a plane flight over the river, said:

"How much the river will rise after this crest passes is anybody's guess."

The IBWC had lost contact with its gauging points north of Langtry, some 60 miles upstream from Del Rio.

Back of the picturesque border river's churning, debris-laden crest were shattered bridges, flooded towns and washed-out railroads and highways.

River-wise city folks quickly

Laredo, a city of some 60,000, was similar.

'Copter Rescues Four Local Youths

Four Big Spring youths who were stranded in Villa Acuna by weekend flood waters were among the last to be flown back across the Rio Grande in helicopter rescue planes Monday afternoon.

They are Kelly Lawrence, Dick Lawell, John Tom Lewis and Pat Ray.

The four youths had been on a fishing party at Lake Walk and were stranded in Acuna Saturday night while sight-seeing. A number of other West Texans were caught in Acuna by the high water and ferried back by helicopters operating out of Del Rio.

No word has yet been received on the return of another group of Big Springers stranded in Acuna. This group, another fishing party, consists of Dean Forter, Melvin Choate, J. H. Parks, Ray Shave, Doss Brookshire and Curtis Barnfield.

The latter party was reported safe Monday.

Womack Family Safe At Ozona

Big Spring relatives of Mrs. W. D. Womack of Ozona learned today that she and her family escaped safely when their home was covered with water.

Mrs. Womack is the sister of Mrs. Brandon Curry and Mrs. O. E. Wolf, both of Big Spring. The Womack car and oil field equipment by the house washed down a draw when the flood water hit their home.

to be running out with any degree of speed.

The rain, falling in sheets until 8:30 a. m., was accompanied by violent electrical displays.

Texas Electric Service Company reported 5.10 inches had been gauged by 10 a. m. From 6 a. m. to 8:30 a. m., 4.71 inches had been measured.

Some of the worst flooding was in a section of some 20 comfortable homes between 7th and 10th Streets.

"They're calling it the 7th Street Lake," said Mrs. Allie O'Brien.

There were places in town where water was within eight inches of the top of cars and was well over the tops of house windows.

Carson Echols, coming in from Patricia in southwest Dawson County, said that hands were still heeling in the fields around 8 a. m. Tuesday.

The Weather Bureau said that the Lamesa cloudburst was an isolated thunderstorm.

There were reports of rains in other sectors of this general area, mostly east of Lamesa.

At Gall, Don Redell at Rogers Service Station, said rainfall had amounted to about an inch. North on the Crockett, two inches fell Monday evening and there were reports of another two inches early today. There were also reports of 1 1/2 inches to the southwest on the Beal Ranch and of a "regular flood" between Gall and Lamesa. The Miller Ranch, in southwest Borden, was said to have gauged up to 2 1/2 inches.

Yealmoor, on the Howard-Borden line, had an inch or more. To the east, also near the Howard-Borden line, the Reef Fields gasoline plant reported rains all night and by some estimates the fall exceeded two inches.

E. V. Spence, general manager for the Colorado River Municipal Water District, said 2 1/2 inches had fallen at the Lake J. B. Thomas dam. He said there was a good chance that the lake would catch a substantial amount of water. The Lamesa flood, however, is not on the lake shed.

In the Richland area of north-central Howard County, around an inch to an inch and a half had fallen Monday afternoon. The shower did not cover a large area, although Earl Hull measured .85 of an inch at R-Bar, bringing the two-day total there to 1.25.

Coshoma had a slow drizzle most of Tuesday morning.

Colorado City reported .11 of an inch at 8 a. m. after three hours of drizzle. Texas Electric Service had .41 of an inch at the Morgan Creek station.

Chalk, in southeast Howard, had .07. Snyder reported .31 of an inch.

INSPIRED BY TV

Girl Admits Attack Charge Was False

A 14-year old girl admitted to the Howard County Grand Jury here Tuesday morning that she lied completely when she accused an airman of criminally assaulting her Saturday night.

She broke down after first repeating her story of an attack while she was baby sitting. She was inspired to fabricate the lie after having seen a TV show two nights before in which a woman testified falsely in court.

The airman, victim of the malicious story, had been held since Saturday night. He had protested his innocence from the outset and witnesses had substantiated his story that he had not been near the girl's home in the vicinity of 14th and Main.

A. G. Mitchell, foreman of the grand jury, said that the girl told the jurors that she had dressed a dress and her under garments with a knife and had scratched her legs with a hobby pin. A scratch on her shoulder had been obtained at the swimming pool previously, she told District Attorney Elton Gilliland.

"The story is 100 per cent false," said Mitchell. "We feel that a great injustice has been done. Every one of the witnesses to whom the airman referred us has substantiated his story completely. He has a good reputation at the air base and has been terribly wronged."

Officers had made the pick up Saturday night after the girl tearfully told her sister, upon her return home, that she had been attacked by the airman, whom she named.

Tuesday morning, after sticking blindly to her story for a time, she said that she had singled out the man only because she knew his name and that he had been a friend of the family two years ago.

She imagined that she did not like him and so hit upon his name, according to the jury foreman.

After seeing the TV show, she had the feeling that she wanted to testify in court, Mitchell continued. So she concocted the entire story.

No charges had been filed in the case and in initial check officers pointed out that the airman's accounts of his whereabouts had been verified. He and his wife and baby were asleep at the time officers called in response to the girl's lie. He appeared bewildered by the false accusation. Medical examination of the girl after the story revealed she had the best intention but that she had suffered seriously.

UNCLE RAY'S CORNER

Some of total eclipses of past from chart of Royal Astronomical Society of Canada.

but I have a tender regard for my readers, and would rather warn too much than too little.

This warning is meant for everyone who will watch the sun during a partial eclipse. During the TOTAL part of the eclipse, the eyes of watchers will be quite safe.

It is the PARTIAL eclipse which can be dangerous. Those in the path of darkness must take care at all times except during the "total" covering. While the moon is getting into the way, or out of the way, of the sun, the glare will be strong.

When I speak in that way, I am supposing there will be a bright, clear morning. If the sky is cloudy or misty, the danger will be small, if it exists at all.

About 140 million people in North America will be outside the path of darkness, but will be able to watch a partial eclipse. I suggest that they make sure to guard their eyes! Glass should be properly smoked before it is used.

If you watch a partial eclipse with field glasses, the danger will be even greater. An extra-dark shield must be used to cover the lenses.

Some persons believe that they can meet the problem by wearing dark glasses. Such glasses do help, but the experts say that they give too little protection.

Overcoming A College Education

By CYNTHIA LOWRY
Mrs. Mathilda Jones was left, widowed and penniless, when her daughter, Jane, was only a year old. But Mrs. Jones was a determined woman and she decided then and there that she'd see to it that her daughter would have a fine education and never be faced, as she was, with the necessity of making a living without some skills.

Mrs. Jones, like many a widow before her, took in laundry, and by the time Jane was 17 last fall, Mrs. Jones was the owner of a fine string of laundrettes from Maine to California, the owner of a balanced portfolio of blue chip investments, held mortgages on several apartment houses and two department stores, had a 27-inch screen television set, a foreign sports car, had been written up 73 times as a successful woman, and was so well established that she wore a cloth coat instead of mink in the winter because everyone knew she could have mink if she wanted it. But she never forgot the difficult years, and Jane's college education was the most important thing in her life.

So Jane, with trunks full of party clothes and campus clothes, was packed off to one of the nation's best colleges, the admissions of her mother to study hard ringing in her youthful ears. Mrs. Jones couldn't wait until Thanksgiving vacation to hear about Jane's progress. She met her at the airport, and they were driving home together. Jane was strangely silent and thoughtful.

"How am I doing?" Jane finally said. "All right, I guess, but I'm pretty worried about the toothpaste survey. I think I'm stuck in the group which is using the old-fashioned toothpaste without ammoniation and chlorophyll instead of the one which is giving a 30-day test to the new miracle cleaner."

She frowned.

"I'm worried that I did something wrong in the cigarette survey. I can't imagine how I did,

though, I had my throat, sinuses and nose inspected every single day for a month by a competent specialist, and I never coughed once the whole time. And they picked me as the college student to tear the wrapping off the cigarette for the commercial."

Mrs. Jones, who had read all the books on child-rearing, remained silent although she was confused.

"Perhaps it was breakfast survey that put me on the blacklist," Jane continued unhappily. "But I really was very careful. I managed to choke down orange juice, cereal, two eggs, bacon, toast and milk every morning for a month, and the testimonial I wrote about the breakfast food was very neat, worded, if I do say so myself. Maybe they were disappointed because I weighed in three pounds heavier at the end of the month."

Her expression lightened.

"But I lost the pounds quickly as soon as I went on that diet of those new thinning foods—rum old-fashioned, spaghetti and cola drinks, and all the women's magazines were interested in the slimming two-week spaghetti and meat-sauce diet I set up for the Little Pizza company. Do you like my hair-do?"

Mrs. Jones nodded.

"The survey shows that 98 per cent of college girls use this new, easy combination tint and permanent wave," Jane said. "And I think there's a good chance, after the survey, that they may use me as the girl with hard-to-wave hair in the TV commercials."

"How am I doing in my classes? Goodness, mother, you're old fashioned. With all these surveys they are conducting at the college, we haven't had time to crack a book yet."

Mrs. Jones, although uncultured, is a woman of character. Jane is now assistant manager of one of the branch laundrettes, and doing very well, too.

Methodist WSCS Discusses Spanish Speaking Americans

The First Methodist Church was the meeting place of the WSCS when they discussed "Sowing Seeds of Love." Mrs. Owen A. Carter led the group in the discussion of "Background of Spanish Speaking People on the American Continent." They also had a discussion of summer problems in town and their solutions. This was led by Mrs. A. U. S. A. for the Reba Thomas Circle at their meeting Monday evening at the First Methodist Church. Mrs. Lucious Saunders gave the opening prayer and the devotion. Eleven members and one guest, Mrs. Frances Loveman, were present. Mrs. Mary Morgan was introduced as a new member.

Mrs. J. W. Dickens gave the second lesson in a series on "Spanish Speaking Americans" in the U. S. A. for the Reba Thomas Circle at their meeting Monday evening at the First Methodist Church. Mrs. Lucious Saunders gave the opening prayer and the devotion. Eleven members and one guest, Mrs. Frances Loveman, were present. Mrs. Mary Morgan was introduced as a new member.

Mrs. H. M. Rowe was in charge of the business meeting, where the budget for the coming year was adopted. The group discussed the zone meeting which is to be held in Lamesa Thursday. All local officers are urged to attend. Plans were also made concerning the School of Missions that will be held in Lubbock next month.

Next week's meeting will be held Tuesday afternoon because of the holiday Monday. At this meeting, they will continue their discussion of the Spanish speaking people. All members are to bring supplies for

Miss Tom Is Honored With A Shower

STANTON — Leslie Jean Tom, bride-elect of Fata Kelting, was honored with a miscellaneous shower in the Floyd Smith home.

Co-hostesses were Mrs. O. B. Bryan, Mrs. J. A. Wilson, Mrs. B. F. Smith, Mrs. Arlo Forrest, Mrs. Zelda Bennett, Mrs. Doris Stephenson, Mrs. James Jones, Mrs. Dale Kelly and Mrs. Dewayne Davis.

Janelle Jones and Betty Berry served from a table covered with a floor length pink net cloth.

The centerpiece, which was a white net parasol decorated with a white satin bow, was in a crystal bowl surrounded by pink roses.

The rooms were decorated throughout with pink roses. Linda Bess Bryan was at the register where approximately 60 guests registered. Mrs. Floyd Smith and Barbara Jane Smith greeted the guests at the door.

Mrs. Dean Forrest sang "Because" accompanied by Mrs. Jones.

Flattery And Fit!

No. 2129 is cut in sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46. Size 18: 4 1/2 yds., 35-in.

Send 25 cents in coin (no stamps, please) for Pattern, with Name, Address, Style Number and Size. Address: PATTERN BUREAU, Big Spring Herald, Box 42, Old Chelsea Station, New York 13, N. Y.

(Please allow two weeks for delivery.)

For first class mail include an extra 5 cents per pattern.

THE SPRING-SUMMER FASHION BOOK is now available. From cover to cover, it's agog with simple - to - make vacation favorites. Scores of smart original designs for all occasions, all ages, all sizes and all members of the family. In COLOR. Price just 25 cents.

Evan Holmes Circle

"Stewardship of Possessions" was the lesson brought for the Evan Holmes Circle of the Temple Baptist at the meeting in the home of Mrs. Tom Adams Monday afternoon. Mrs. J. B. Riddle gave the opening prayer, and Mrs. M. S. Warren brought the devotion for the six members present. The next meeting will be held in the home of Mrs. James Holmes, 202 Lexington, on the second Monday in July.

Mrs. B. F. Carr has returned to her home after a visit with her son and his wife, Mr. and Mrs. Billy Carr and Tommy in Baltimore, Md., and with her daughter, Mrs. Harold J. Frel, and Mr. Frel of Washington, D. C. Mrs. Frel accompanied her mother back to Big Spring.

Guests in the home of Mr. and Mrs. Jack Parrott are Mr. and Mrs. J. N. Parrott and Leon of Frederick, Okla.

Mr. and Mrs. E. J. Petty and Marie had as their guests over the weekend Mr. and Mrs. O. L. Goodwin and Della of Sundown, George McElroy of Alpine, Mrs. Billy Fred Jameson of Silver, Buzzie Thorpe of Throckmorton, and Mr. and Mrs. J. H. Barker and Cliff Meyer of Houston. A barbecue was held Sunday honoring the guests.

HOLLYWOOD BEAUTY Diet And Exercise Put Shelly 'Back On Track'

By LYDIA LANE
HOLLYWOOD — Shelly Winters is now one of the best-dressed, most glamorous girls in town. But it wasn't too long ago that she had a reputation for passing up many of the rules that are required for being attractive.

"I used to resent the time I had to spend on clothes and taking care of myself," Shelly told me recently. "I felt my appearance didn't matter; that there were so many more interesting things to do. I know I was criticized for the way I went around but I felt if I did a good job before the camera and looked well then that was all that mattered."

I wanted to know what had made her change.

"Marriage," Shelly admitted. "I noticed that my former husband, who admired girls who were well groomed and who wore good clothes. So I went to Don Loper and got a whole new wardrobe when I got my figure back after the baby was born. Everyone paid MORE ABOUT TERRY HUNT Shelly's praise for Hollywood Physical Culture Expert Terry Hunt is understandable, for he has helped many stars get perfect figures. Now many of Mr. Hunt's secrets are available in leaflet M-43, "Exercises to Correct Figure Faults." You'll improve bust, shoulder and arm area, mid-section, hips, buttocks and thighs with the help of some easy-to-follow hints. Get your copy by sending 5 cents AND a self-addressed, stamped envelope to Lydia Lane, Hollywood Beauty, in care of The Big Spring Herald. Remember to ask for leaflet M-43.

me so many compliments that it made me take an interest in my appearance which I never had before.

I told Shelly she looked thinner than I've ever seen her.

"I gained over thirty pounds while I was pregnant," she confessed. "That was about fifteen pounds more than my doctor wanted me to weigh so I really had to work to get back into shape. I went on a diet of less than 800 calories and stayed on it so long it became a habit for me to eat less. Now I'm five pounds less than I've ever weighed and I must say I'm enjoying it."

I wanted to know more about this diet.

"I am not sure that it would be right for everyone but it certainly worked well with me," Shelly explained. "I had the same breakfast every day—black coffee with sugar substitute and a glass of skim milk. For lunch every day I had cottage cheese and fruit or sliced tomatoes. Sometimes I'd have the cottage cheese with chives. Lunch was interesting because I changed the kind of fruit each day. I could have almost everything but bananas."

"For dinner I could have a green salad, steamed spinach without butter and lots of steak with the fat cut off."

"I lost fifteen pounds in one month and then I got stuck. I stayed on my diet religiously but my weight didn't budge for two weeks. This, the doctor told me, was not uncommon but it surely

It's Easy To Entertain Outdoors

By ADELAIDE KERR
Outdoor dining is becoming increasingly popular as a pleasant way to entertain in summer.

As the number of home owners grows and the weekend congestion of highways continues, an expanding number of people are inclined to take their relaxation in their own back yards and invite their nearby friends to share it with them.

These parties are a lot easier on the hostess than indoor entertaining in these days of servant scarcity. For one thing, the host has a chance to show what a clever chef he is; for another much simpler service is used.

In case you are interested in doing likewise, there are lots of different ideas to consider, from Sunday lunch on the terrace to an informal picnic in the backyard.

A favorite around New York is the weekend lunch or dinner. Char-

Mrs. Davis Given Party On Birthday

STANTON — Mrs. Ivy Davis was honored with a surprise birthday party by her former Sunday School class, The Friendship Class of the First Baptist Church. Mrs. L. H. Batton is now teacher of the class. The class presented Mrs. Davis with a friendship quilt, which was made by the class. Hostesses were Mrs. Batton and Mrs. Waymon Etchison.

Mrs. Ivan White, president, had charge of the business session. Mrs. D. E. Orr offered the opening prayer. The class objective for the month of June was to help the Mexican Mission in Stanton. A report was made that this had been done.

A quilt made by the class was sent to Mr. and Mrs. Bill Shearin, Fort Worth, who lost their home by fire. Mr. Shearin is a former music director of the church.

Mrs. R. B. Corby, formerly of Stanton and now living at Dozer, Louisiana, gave a talk on the Mission work she is doing there.

Refreshments were served to fifteen.

WCS Circles Meet At Wesley Church

All three circles of the Wesley Methodist Church met together Monday at the church for a business meeting. For the opening song, they sang "Wonderful Word of Life," and Mrs. Raymond Hamby then gave the devotion.

The business meeting was conducted by Mrs. J. W. Bryant. Plans were made to attend the officers training day at Lamesa July 1, and also to attend the School of Mission at Lubbock July 25-30. The closing prayer was given by Mrs. J. A. Wright. Ten were present at the meeting. There will be no meeting next Monday because of the holiday.

Etiquette For Table Settings

By SANDRA NEMSER
AP Newsfeatures Writer

Giving your first dinner party? Or are you a well-conditioned hostess? Whichever you are, correct table settings are the best ways to show off your silver, food and social smartness.

Some basic rules about silverware: Knives, forks and spoons should be placed in the order of use, from the outside in toward the plate. Knives and spoons are, of course, always set on the right with the sharp edge of the knife turned toward the plate.

Smaller utensils often present a problem to the hostess. A butter knife has its place across the bread and butter plate. And the small cocktail or oyster fork is next to the soup spoon.

You know what to put on the table. But what should you leave off?

At a formal dinner, dessert fork and spoon make their first appearance with the dessert plate—and not before. And when no knife is needed for the meal, keep it off the table. Only in such a case should the fork replace the knife in position on the table.

Mrs. Jim Long and children, Kay Ann, Robert Duane, and Thomas Eugene, have returned to their home in Odessa after spending the week in the home of Mr. and Mrs. Paul Bishop.

Truman Needs Special Drugs

KANSAS CITY (AP)—Harry S. Truman's condition was listed today as improved although doctors still indicated concern over his reaction to drugs.

The former President's recovery from an emergency appendicitis and gall bladder operation June 20 has been hampered by his hypersensitivity to antibiotic drugs needed in the treatment.

A hospital spokesman said last night that there was general agreement among Dr. Wallace Graham, Truman's physician, and other doctors assisting in the case.

Two specialists in antibiotics have helped as consultants. They are Dr. Alan Wright and Dr. Frederick C. Fink of Brooklyn, N.Y.

Dr. Fink was understood to have returned to New York with specimens for laboratory study in an effort to determine what drugs could be used safely in fighting infections.

The hospital's report last night said Truman had slept most of the day and that "his chemical and physiological balance has been kept within normal limits."

He was able to take soft and liquid foods, such as eggs, gelatin and broth. His temperature fluctuated during the day between 99.4 and 100 degrees.

Yesterday, Truman's 35th wedding anniversary, a cake was prepared by the hospital. Mrs. Truman visited her husband and said she seemed to be in good spirits and more alert.

H-G Well Completed For 57.43 Barrels; Four Locations Made

A completion was reported today in the Howard-Glassecock field along with four area locations. Duncan No. 2-A Currie was finished for pumping potential of 57.43 barrels of oil.

J. E. Jones Drilling Company spotted its No. 2-A W. L. Miller in the Jo Mill field of Borden County about 14 miles west and south-west of Gall. Oceanic et al and Phillips No. 6 J. F. Windham is a new project in the Oceanic field.

Two new Howard-Glassecock projects are Swanie Robertson No. 2 W. N. and L. R. Reeves and Continental No. 29-133 W. R. Settles.

Borden

J. E. Jones Drilling Company No. 2-A W. L. Miller, 2,680 from north and 2,600 from west lines, 12-33-4n, T&P survey, is a new project in the Jo Mill field some 14 miles west-southwest of Gall. It will be drilled to 7,350 feet.

Phillips No. 1 Quartz, C NW SE, 15-33-4n, T&P survey, is drilling ahead today following a drillstem test in the Clear Fork lime between 5,459 and 5,469 feet.

Recovery was 190 feet of salt water and drilling mud with no shows. Pressure was from 25 to 34 pounds, and 15-minute shutin pressure was 75 pounds.

Dawson

Stanford No. 1-A J. Y. Graves, C SW SE, 48-34-4n, T&P survey, is preparing to fracture perforations opposite the Dean sand from 8,254 to 8,282 feet.

Magnolia No. 1 J. H. Foster, C NW NW, 22-36-4n, T&P survey, reached 11,443 feet in lime.

Duncan No. 2-A Currie, 330 from south and 510 from east lines, 4-32-2s, T&P survey, has been finished in the Howard-Glassecock field for a 24-hour pumping potential of 57.43 barrels of oil. Recovery was 10 per cent water. Gravity measured 32 degrees. Total depth is 2,738 feet, the 5 1/2-inch goes to 2,670, and pay top is 2,560. Pay zone was acidized with 2,000 gallons.

Oceanic et al and Phillips No. 6 J. F. Windham, 1,980 from south and 660 from east lines, 25-33-3n, T&P survey, is a new location in the Oceanic field about a half mile south of Vealmoor. Elevation is 2,685 feet and projected depth is 8,300.

Swanie Robertson staked his No. 2 W. N. and L. R. Reeves as a Howard-Glassecock try about a mile and a half south of Chaik. It will be drilled by combination tools to 2,500 feet. Location is 330 from north and west lines, 142-29-T&P survey.

Continental No. 29-133 Settles is also a Howard-Glassecock venture. It is to be four miles west of Fort and will be drilled by combination tools to 2,600 feet. Drillsite is 1,600 from south and 1,650 from east lines, 133-29-W&NW survey.

Trustees of the Howard County Junior College District elected Jack Hendrix, Fort Worth, as piano and organ instructor at a called meeting Monday.

Hendrix has 14 years teaching experience, said President W. A. Hunt. He holds his Master of Arts degree from North Texas State College at Denton and has an outstanding record in his field, said Dr. Hunt.

Trustees also inspected a bus brought here by Kerrville Bus Company. They will meet again Tuesday at 5:15 p.m. to continue discussions on the proposal to acquire the bus.

Baby Daughter Born To James HARRIS. Mr. and Mrs. James D. Harris are the parents of a daughter, Diana Katherine, born Monday afternoon at the Big Spring hospital.

Mr. and Mrs. James D. Harris are doing well. The paternal grandparents are Mr. and Mrs. Miller Harris of Big Spring and the maternal grandparents are Mr. and Mrs. Larry Kachelmeyer of Los Angeles, Calif. The baby is the first grandchild of Mr. and Mrs. J. B. Pickle.

Rotary To Install Officers Tonight. Benny H. Hughes will be principal speaker at tonight's installation of 1954-55 Rotary Club officers at a Ladies' Night banquet in Settles ballroom.

Hughes is a representative to the president of Rotary International. He is from Beaumont.

Adolph Swartz, retiring club president, will preside.

Churchill. (Continued From Page 1) office across a porch and down a flagstone path through the south lawn of the White House to the Prime Minister's waiting car.

The two men shook hands warmly and Churchill told the President, "Goodbye and good luck."

"The same to you," said Eisenhower with a friendly smile, "and I'll send these documents over in 30 minutes."

A moment later, as Churchill hunched back into the deep seat of the black British limousine, Eisenhower told him: "Goodbye—give my love to all the family."

The final Eisenhower-Churchill talk lasted about 45 minutes.

Then the 79-year-old Churchill took off for a brief visit to Ottawa, Canada, on his way home to London.

He leaves behind a ringing appeal for a "real good try" at living peacefully with Soviet Russia.

Two accomplishments of the talks were set out yesterday in a joint statement by the American and British leaders.

They agreed to "press forward" plans for a collective defense against communism in Southeast Asia whether the Indochina war is settled or whether it goes on.

And they agreed that the projected European Defense Community provides the best means for rearming West Germany, while telling France other means of doing this will be considered if French approval of EDC is not given promptly.

Churchill then replied to questions at a press luncheon attended by more than 800 newsmen and British and American officials and diplomats. Some who heard him gained the impression that one of his motives in coming to the United States now was to deliver a plea for an all-out attempt at getting along with the Russians, as an alternative to what he termed the "doom-laden" condition of the world today.

It is no secret that many Britons fear U.S. policy toward the Soviet Union and Red China has become too rigid.

DRIVER ONLY WANTED NAP

Apparently a place to sleep was the only thing a driver had in mind last night when he parked his panel truck in the middle of the Snyder Highway, crawled in the back and started his nap.

A passing motorist reported the parked vehicle to sheriff's officers who arrested the man on drunkenness charges. He was fined \$10 and costs in Justice Court this morning.

Car Is Rammed To Climax Argument

An automobile was used like a tank to climax an argument at a west-end cafe last night, sheriff's officers reported.

Deputies said the fuss occurred outside the cafe about midnight. After an exchange of words, one of the principals jumped in his car and rammed it against the side of the other man's automobile, damaging it extensively.

Officers said the man then drove the car at his enemy who was attempting to cross the street to call police. He was taken into custody and was to be interviewed by the Howard County Grand Jury today. No charges have been filed.

Farm, Ranch Leaders Slate Meet Tonight

Robert Burger, Lubbock entomologist, will address Howard County farming and ranching leaders at a banquet at 8 p.m. today in the county agent's office in the court-house basement. He will discuss cotton insect control.

Grain sorghum storage will be discussed by J. G. Hammack, county manager for Agricultural Stabilization and Conservation. Duryard Lewter, county agent, will discuss cotton classification; general poultry information will be given by Leroy Colgan, Dawson county agent; and feeding, breeding, and handling of livestock information will be given by W. J. Largent of Merkel.

Trailer Damaged. A trailer house blaze was caused this morning when a pan of grease caught fire. The ceiling and walls of the trailer house were slightly damaged, firemen said. The fire occurred about 10:15 a.m. at the Hitching Post Trailer Court.

Texans To Miss Out On Solar Eclipse Tomorrow

Texans, tabbed as the state with the most of everything, will completely "miss out" on Wednesday's solar eclipse. The eclipse, occurring in the state before sunrise, will be visible in the United States from Nebraska northward.

But Texans will be able to see and hear of the rare event through second-hand sources, for it is being televised, radioed, moved, and kineographed—the most thoroughly observed astronomical happening in history.

Solar blackouts occur when the moon gets between the sun and earth, obscuring the sun from our view.

On Wednesday the path of total eclipse will cover an 80-mile band extending from eastern Nebraska, squarely over Minneapolis, upper Michigan, across Canada, the Atlantic, Scandinavia, Russia, Iran, and India.

If the moon in its monthly trip around our planet always passed directly in the same path we would have a solar eclipse each month, astronomers say.

But since it moves in an orbit which is tilted somewhat away from the orbit made by the earth in its annual journey around the sun, Texas shouldn't be resentful of a solar eclipse, because eclipses are most rare.

A total eclipse has not, and so-

will be drilled to 7,350 feet. Key Kimbell No. 1 H. D. Beal et al, C SE NE, 8-30-3n, T&P survey, bored to 5,585 feet in lime.

Hanley No. 1-B H. D. Beal, C NE NE, 23-31-2n, T&P survey, has a total depth of 2,753 feet today.

A drillstem test was taken from 3,090 to 3,200 feet with the tool open three hours. Recovery was 350 feet of drilling fluid, 600 feet of sulphur water and drilling fluid, and 400 feet of sulphur water. Pressures were not released.

Trans-Tex, Green and McSpadden No. 1 McKee, C NE NW, 23-33-3n, T&P survey, has been plugged and abandoned at 8,616 feet. Top of the reef was picked at 8,580 feet, and a drillstem test was taken which had recovery of salt water.

Phillips No. 1 Quartz, C NW SE, 15-33-4n, T&P survey, is drilling ahead today following a drillstem test in the Clear Fork lime between 5,459 and 5,469 feet.

The tool was open an hour and there was a good blow for 12 minutes. Recovery was 190 feet of salt water and drilling mud with no shows. Pressure was from 25 to 34 pounds, and 15-minute shutin pressure was 75 pounds.

Dawson

Stanford No. 1-A J. Y. Graves, C SW SE, 48-34-4n, T&P survey, is preparing to fracture perforations opposite the Dean sand from 8,254 to 8,282 feet.

Magnolia No. 1 J. H. Foster, C NW NW, 22-36-4n, T&P survey, reached 11,443 feet in lime.

Duncan No. 2-A Currie, 330 from south and 510 from east lines, 4-32-2s, T&P survey, has been finished in the Howard-Glassecock field for a 24-hour pumping potential of 57.43 barrels of oil. Recovery was 10 per cent water. Gravity measured 32 degrees. Total depth is 2,738 feet, the 5 1/2-inch goes to 2,670, and pay top is 2,560. Pay zone was acidized with 2,000 gallons.

Oceanic et al and Phillips No. 6 J. F. Windham, 1,980 from south and 660 from east lines, 25-33-3n, T&P survey, is a new location in the Oceanic field about a half mile south of Vealmoor. Elevation is 2,685 feet and projected depth is 8,300.

Swanie Robertson staked his No. 2 W. N. and L. R. Reeves as a Howard-Glassecock try about a mile and a half south of Chaik. It will be drilled by combination tools to 2,500 feet. Location is 330 from north and west lines, 142-29-T&P survey.

Continental No. 29-133 Settles is also a Howard-Glassecock venture. It is to be four miles west of Fort and will be drilled by combination tools to 2,600 feet. Drillsite is 1,600 from south and 1,650 from east lines, 133-29-W&NW survey.

Trustees of the Howard County Junior College District elected Jack Hendrix, Fort Worth, as piano and organ instructor at a called meeting Monday.

Hendrix has 14 years teaching experience, said President W. A. Hunt. He holds his Master of Arts degree from North Texas State College at Denton and has an outstanding record in his field, said Dr. Hunt.

Trustees also inspected a bus brought here by Kerrville Bus Company. They will meet again Tuesday at 5:15 p.m. to continue discussions on the proposal to acquire the bus.

It is no secret that many Britons fear U.S. policy toward the Soviet Union and Red China has become too rigid.

International Bridge Washed Out

This aerial view looking to the U. S. side from Ciudad Acuna, Coahuila, Mexico, shows the International Bridge partly submerged by Rio Grande floodwaters. The river had reached a record high of 49 feet at Ciudad Acuna Monday and was still rising. The previous high record was 35.5 feet set in 1932. Monday all residents were being evacuated from Ciudad Acuna as the city gradually became inundated. Ciudad Acuna is located opposite Del Rio, Tex. (AP Wire-photo).

END TO WAR EXPECTED

Another Regime Takes Over In Guatemala City

SAN SALVADOR, El Salvador

The Guatemalan government radio today reported the resignation of the regime headed by Col. Carlos Enrique Diaz who had taken over from President Jacobo Arbenz Guzman Sunday night.

The announcement came after Col. Castillo Armas, leader of the anti-Communist rebels in the Guatemalan war, demanded "unconditional surrender" of the junta headed by Enrique Diaz.

The Guatemalan broadcast said Jose A. Sanchez, another member of the three-man junta which succeeded Arbenz, had also quit.

It said Alfredo H. Monzon, who was the third member of the junta headed by Enrique Diaz, now heads the new ruling group. The other two were listed as Jose Luis Salazar and Maurice Dubois.

The rebels under Castillo Armas had threatened to keep up their fight against the regime headed by Diaz. The Guatemalan radio said yesterday afternoon rebel planes had bombed Guatemala City, the capital. Then the station went off the air. A communique from the rebel headquarters made no mention of the bombing.

Private advices reaching New York said the Diaz junta was overthrown in a coup by Col. Monzon. He was described as anti-Communist.

(These advices said Monzon was expected to negotiate a settlement of the civil war with Castillo Armas. They added the new government announced political amnesty for all anti-Communist who had been arrested by the Arbenz regime and the end of censorship.)

Diaz, former army chief of staff, took over Sunday night after the army forced resignation of left-wing President Jacobo Arbenz Guzman. The new military regime promptly outlawed the Communist party, but this failed to placate

Hit, Run Accident At Ackerly Listed

A hit and run accident in Ackerly was reported to Big Spring police yesterday by E. C. Butcher. The Ackerly resident told officers that his vehicle was struck by a Model A Ford in which two youths were riding.

An accident was reported at 11:30 a.m. Tuesday in the 100 block of East 1st street, and officers said there apparently were no injuries. Drivers were Grady Lee Ayers, 700 Gollad, and Sidney C. Knox, 404 Austin.

FLOOD

(Continued From Page 1)

evacuated their homes. Farmers had been warned and joined the thousands in the Mexican hills. Much of the Mexican side of the river is lower than the U.S. side.

The rains, some up to 22 inches were spawned by last week's Hurricane Alice, which lashed the Texas-Mexican Gulf Coast for 12 hours last Friday.

Ahead of the rushing floodwaters lay the great International Falcon Dam, dedicated less than a year ago by the presidents of the United States and Mexico. It was expected to keep the damaging floodwaters from the lush vegetable and citrus-growing lower Rio Grande Valley and its big population.

For the lower valley, the great flood was a blessing. Beyond Falcon Dam, the river has been virtually dry. Now the flood will be used in future months to slacken the mammoth thirst of the orange and grapefruit groves, the vegetable farms and cotton-growing areas.

At least half of Ciudad Acuna, across the river from Del Rio, Tex., was under water. Some 15,000 people huddled in the Tamalpais Hills. Water, medical supplies, food and clothing were being flown in by the American Red Cross. The privately owned International Toll Bridge was swept away between Ciudad Acuna and Del Rio.

Both the United States and Mexico hurriedly marshaled forces to combat the mad waters. The U.S. 4th Army flew field kitchens, cots, blankets and clothing to flood-battered towns.

Large numbers of motorists were seen stranded along U.S. 90, the inundated highway which parallels the Rio Grande for miles along the border. At Del Rio, water was in the business district and Highway 90 was the only route open.

At Ozona, the Red Cross, men from the Naval reserve units at San Angelo, Tex., state and local police and volunteers tried to make order out of chaos.

"It's awful," said Jean Fitzsimmons, a Red Cross field worker from San Angelo, "It's simply awful."

It seemed that as fast as a missing person was located, another was reported unheard from. Mrs. Francis Bedlack, first reported missing, was hospitalized early today. But Mario Flores, 5, was reported missing.

Cricket County Clerk George Russell, first reported drowned, reportedly suffered a heart attack over the plight of his son, Miss Fitzsimmons said. The son was safe, it turned out.

Ex-Housing Agency Man Won't Talk

WASHINGTON (AP) — Clyde L. Powell, ousted former top official of the FHA, today refused to answer questions by senators investigating million-dollar "windfall" profits for builders of government-financed apartment projects.

It was the second time Powell refused to testify before the Senate Banking Committee. He based both his refusals on "my constitutional protection against being compelled to be a witness against myself."

Powell, who was fired from the Federal Housing Agency in April, is reported under investigation by the Justice Department.

Sen. Byrd (D-Va.) has described Powell as a "key official" in reports of gambling losses by former top housing officials.

In a letter to Atty. Gen. Brownell April 27, Byrd said Powell was "the key official with respect to over-valuation of properties... resulting in windfalls of 100 million dollars or more." And, Byrd said, "it was Mr. Powell whose losses in gambling first attracted the attention of the FBI."

Powell's refusal to testify highlighted these other developments in the second day of the Banking Committee's full-scale probe of housing scandals:

1. William F. McKenna, special clean-up deputy to Albert M. Cole, federal housing chief, said that Wilson W. Wyatt, former Truman administration housing expediter and close political ally of Adlai Stevenson, counseled apartment builders how to make windfall profits with the least possible down payment.

2. McKenna also charged that the FHA refused to police the Fair Labor Standards Act and other laws setting out minimum wages and working conditions for construction workers on apartment projects.

Officials Negotiate For Right-Of-Way. County Judge R. H. Weaver and Commissioner Pete Thomas were in the Otis Chalk community today to negotiate the purchase of a strip of right-of-way for the Chalk-to-Highway 80 farm road.

The officials said that if the right-of-way is completed promptly, the road construction contract can be let at the July session of the State Highway Commission.

All right-of-way has been secured except the strip of approximately one mile across the property of the Chalk Estate. A trade was expected to be completed for that property today.

Thomas P. Lee, Oilman, Succumbs

HOUSTON (AP)—Thomas P. Lee, 43, a son of W. E. Lee, pioneer Texas oilman, died at 1 a.m. today after a long illness.

He was associated with his three brothers in the Lee Bros. Oil Co. Funeral services will be held tomorrow.

Lee was a brother of Mrs. Glenn H. McCarthy.

Burglary Attempt

An attempted burglary was reported at the home of H. D. McCright, 711 East 18th, yesterday afternoon. Police were told that a window screen had been torn off, but that apparently entry was not made.

Forgery Charged

Charges of forgery and passing a forged instrument were filed in Justice Court Monday against Bob-ber of Dallas. Complaint was made by E. L. Newman in connection with a check for \$25.

END TO WAR EXPECTED

Another Regime Takes Over In Guatemala City

SAN SALVADOR, El Salvador

The Guatemalan government radio today reported the resignation of the regime headed by Col. Carlos Enrique Diaz who had taken over from President Jacobo Arbenz Guzman Sunday night.

The announcement came after Col. Castillo Armas, leader of the anti-Communist rebels in the Guatemalan war, demanded "unconditional surrender" of the junta headed by Enrique Diaz.

The Guatemalan broadcast said Jose A. Sanchez, another member of the three-man junta which succeeded Arbenz, had also quit.

It said Alfredo H. Monzon, who was the third member of the junta headed by Enrique Diaz, now heads the new ruling group. The other two were listed as Jose Luis Salazar and Maurice Dubois.

The rebels under Castillo Armas had threatened to keep up their fight against the regime headed by Diaz. The Guatemalan radio said yesterday afternoon rebel planes had bombed Guatemala City, the capital. Then the station went off the air. A communique from the rebel headquarters made no mention of the bombing.

Private advices reaching New York said the Diaz junta was overthrown in a coup by Col. Monzon. He was described as anti-Communist.

(These advices said Monzon was expected to negotiate a settlement of the civil war with Castillo Armas. They added the new government announced political amnesty for all anti-Communist who had been arrested by the Arbenz regime and the end of censorship.)

Diaz, former army chief of staff, took over Sunday night after the army forced resignation of left-wing President Jacobo Arbenz Guzman. The new military regime promptly outlawed the Communist party, but this failed to placate

Hit, Run Accident At Ackerly Listed. A hit and run accident in Ackerly was reported to Big Spring police yesterday by E. C. Butcher. The Ackerly resident told officers that his vehicle was struck by a Model A Ford in which two youths were riding.

An accident was reported at 11:30 a.m. Tuesday in the 100 block of East 1st street, and officers said there apparently were no injuries. Drivers were Grady Lee Ayers, 700 Gollad, and Sidney C. Knox, 404 Austin.

FLOOD

(Continued From Page 1) evacuated their homes. Farmers had been warned and joined the thousands in the Mexican hills. Much of the Mexican side of the river is lower than the U.S. side.

The rains, some up to 22 inches were spawned by last week's Hurricane Alice, which lashed the Texas-Mexican Gulf Coast for 12 hours last Friday.

Ahead of the rushing floodwaters lay the great International Falcon Dam, dedicated less than a year ago by the presidents of the United States and Mexico. It was expected to keep the damaging floodwaters from the lush vegetable and citrus-growing lower Rio Grande Valley and its big population.

For the lower valley, the great flood was a blessing. Beyond Falcon Dam, the river has been virtually dry. Now the flood will be used in future months to slacken the mammoth thirst of the orange and grapefruit groves, the vegetable farms and cotton-growing areas.

At least half of Ciudad Acuna, across the river from Del Rio, Tex., was under water. Some 15,000 people huddled in the Tamalpais Hills. Water, medical supplies, food and clothing were being flown in by the American Red Cross. The privately owned International Toll Bridge was swept away between Ciudad Acuna and Del Rio.

Both the United States and Mexico hurriedly marshaled forces to combat the mad waters. The U.S. 4th Army flew field kitchens, cots, blankets and clothing to flood-battered towns.

Large numbers of motorists were seen stranded along U.S. 90, the inundated highway which parallels the Rio Grande for miles along the border. At Del Rio, water was in the business district and Highway 90 was the only route open.

At Ozona, the Red Cross, men from the Naval reserve units at San Angelo, Tex., state and local police and volunteers tried to make order out of chaos.

"It's awful," said Jean Fitzsimmons, a Red Cross field worker from San Angelo, "It's simply awful."

It seemed that as fast as a missing person was located, another was reported unheard from. Mrs. Francis Bedlack, first reported missing, was hospitalized early today. But Mario Flores, 5, was reported missing.

Cricket County Clerk George Russell, first reported drowned, reportedly suffered a heart attack over the plight of his son, Miss Fitzsimmons said. The son was safe, it turned out.

American Girls Dominate Play

WIMBLEDON, England (U.S.)—The girls get the Wimbledon spotlight all to themselves today and all knowing people figure champion Maureen Connolly will lead a quartet of Americans in the semifinals of the All-England Tennis Championships.

It will be the biggest upset of the tourney if she doesn't. Ever since the Wimbledon championships were revived after World War II, the United States has provided both finalists in the women's singles and most of the semifinals as well.

This year the battle to get through the quarter-finals will be fought out among six Americans—Miss Connolly, Doris Hart, Shirley Fry, Louise Brown, Mrs. Margaret Osborne du Pont and Mrs. Betty Pat—and a couple of Britons, Angela Mortimer and Helena Fletcher. Miss Mortimer is seeded sixth and Miss Fletcher, seventh.

Miss Mortimer plays Miss Brown of Beverly Hills, Calif., and Miss Fletcher meets Miss Hart of Coral Gables, Fla. Nobody gives the British girls much of a chance against the hard-hitting Americans. Miss Hart, last year's finalist, is seeded second and Miss Brown fourth.

Neither are Mrs. du Pont's chances rated very high against mighty "Little Mo." In full cry after her third title and running and hitting the ball harder than ever. Mrs. du Pont of Wilmington, Del., 1947 Wimbledon winner, is back here after an absence of two years.

In the men's competition yesterday, defending champion Vic Seixas of Philadelphia, rated fourth was eliminated by Budgie Fatty of Los Angeles and Paris, the 1930 champion and seeded seventh, 7-5, 4-6, 6-3, 6-2. Australia's Lew Hoad, No. 2, fell before Jaroslav Drobný 6-4, 6-3, 6-3.

LOOKING 'EM OVER

With Tommy Hart

Sports transcript:
HAROLD DAVIS, HCJC basketball coach:
"It appears now the school may have a player bus by next basketball season. In the past, we've always traveled by private conveyance. Our prospects? They could be good, but there's no way of knowing what we'll have until registration time in September."

SPORTS WRITER FRANK BIRD, of Australia, before John Landy broke the recent mile record:
"I picked up the paper. I saw the headlines about England's John Bannister breaking the four-minute mile. I put the paper down again. I couldn't believe it. It was wrong, unethical, somehow. That record really belongs to our own John Landy."

PHIL RIZZUTO, New York Yankee shortstop:
"I am getting along, and appreciate how important it is to get an occasional game off. The way Stengel handles me I never get to the point where I am worn out. You do not see much younger men working 154 games any more. They can't. Let these old timers yodel about cream puff players. They had a rocking chair schedule compared to ours. We are not brittle or lazy; we simply look sensibly on a job which has become much tougher since the war."

PEPPER MARTIN, manager of the Big Spring Broncs:
"I was telling my wife the other day, looking back, I don't see how we've made it. Two months ago we had no ball players, no money, no nothing. But we're still going."

RAY ARCEL, the well-known fight trainer:
"Ezzard Charles fought a perfect fight (against Marciano), but it wasn't enough. The way Ezzard was leveling his punches, he might have knocked out any other heavyweight. Marciano is an iron man. Nobody is going to beat him until he is softened up—and a few more fights like this one will do it. A guy like Max Baer might do it, the way he punched, but there's no one around now. I scored the fight 7-1 but the rounds Rocky won were bigger. Ez thought he won it and Joe Louis thought so, too. But Rocky beat him."

PETE NEWELL, who returned to the West Coast to become basketball mentor at California recently after coaching at Michigan State:
"Everybody tells me I look quite a bit heavier than when I left out here a few years ago. I tell them the truth... Big Ten competition was so tough I added two extra pounds... of gray hair."

SAMMY SNEAD, the golfer:
"I'm playing in the Greenboro Open this year, and on one hole my shot came down longside a parked car close to the fairway. It was locked, empty, and with its brakes on. A half-dozen of my pals in the gallery picked it up and moved it so I could take my swing. It was a little car."

CHARLEY GRIMM, manager of the Milwaukee Braves:
"They'll never run me off the (coaching) lines. The only way they can get rid of me out there is to burn my uniform."

AL VALDES, former Big Spring catcher, now working here:
"Ole Ortiz (the Sweetwater hurler) used to be the best pitcher in all Havana. Yes, better than Connie Marrero or Sandy Consuegra. He was the best hitter down there, too."

SHIRLEY POVICH, Washington sports writer:
"Chuck Davey finally decided to use his college education when he made up his mind to quit the ring."

ADLAI STEVENSON, the Democrats' last nominee for President:
"The only hope of breaking up the New York Yankees would be to put Ezra Taft Benson in charge of the Yankee farm system."

GROVE MOHR, San Francisco High School coach:
"Too often high school coaches try to squeeze a runner home from third with a bunt merely to flatter their ego. I rarely use it. When it works, the coach is a John McGraw. When it doesn't work, the kid is blamed for failing to dump a bunt. How often do you hear about it to the majors? About once a month, if that. It sounds good but not many games are won by it."

JOE KELLY, Lubbock scribe:
"Paul Dean has sold his Hot Springs club to Charles Williamson. Dean complained of poor attendance... When is Paul going to learn? He ran Clovis into the ground in the two years he was there. He almost wrecked baseball in Lubbock... He lasted about six weeks in El Paso... Four cities in six years. It's a pity he doesn't sacrifice home of his stubborn attitude for a comfortable living and settle down to help baseball and himself... Each time he kills his chances, it's too bad."

GIL JOHNSON, the Artesia hurler:
"I've seen both Jimmy Bronstad and Harry Taylor Jr. pitch in my home town (Fort Worth) and I think Taylor is the better prospect. Taylor can do more things with a baseball. Bronstad may be faster but I think Taylor will go farther in pro ball."

Mueller Nearing Lead In Batting

NEW YORK (U.S.)—Outfielder Don Mueller of the New York Giants, a stylish batter who hits to all fields, was closing in on pacesetter Duke Snider of the Dodgers today in the torrid National League batting race.

Mueller, a .333 hitter in 1933, gained one point in last week's games while Snider, the leader since June 19, dropped seven. Snider is at .308 and Mueller at .355.

Today—Dual Exhaust Belongs On Every Car!

Leading automobile manufacturers like Cadillac, Chrysler and Chevrolet (Corvette sports car) are installing duals as standard equipment to increase horsepower, acceleration and gas mileage. Several million car owners have already installed duals on their cars.

POWER
YOU CAN GET ALL THE POWER YOU PAID FOR BY INSTALLING A

- Dual Exhaust System or a
- Dual Exhaust Header System

A Complete Line of Douglas Steel Packed Mufflers and True-Tone Mineral Packed Mufflers... Also a Complete Line of LIFETIME (written) GUARANTEED Stock Mufflers...

Make your gas go further... your getaway faster... Today smart car owners everywhere are getting more power... smoother performance... greater economy with Dual Exhaust Systems and Exhaust Header Systems. They add more "oomph" to your getaway... give you extra power to meet emergencies, extra speed for adventure. You'll gain up to a 20% increase in horsepower and stretch your gas mileage 10 to 20%. Pep up your car with Power. Have Duals or Headers installed today.

Oilers Upset Legion, 18-6

Glen Barnes' Oilers thrashed the American Legion, 18-6, in a major upset in American Little League play here Monday night.

The Oilers coasted in after scoring ten runs in a big second inning. Tommy Whately went all the way on the mound for the winners, giving up six hits, fanning three and walking none.

Carley King drove in four runs for the winners with a triple and two singles. Ben Pitzer accounted for three runs and hit an inside-the-park home run.

Gerald Anderson and Bob Gilbert hit doubles for the winners. Bugs Wright had two RBI's for the losers while Ronnie Suggs clouted a triple.

In the other game, the Engineers beat the Eagles, 6-5, with Halbrook on the hill.

Cook Vanquishes Grocers, 5 To 1

A 5-1 victory scored by Cook Applied Company over Piggy-Wiggly in the City Park diamond last night left the winner tied for second place in YMCA City Softball League standings.

The win shoved Cook into the runner-up spot with Coshoma. Webb Air Base in first place, having lost only to Cook on the mound.

Spucky Franklin, in the mound for Piggy-Wiggly, held the Applance team to only two hits while the Grocers got three off Cotton Mize.

Ted Gross doubled in the third for the winners and eventually scored on a wild pitch. Jimmy Hollis drove in the other two runs with a single.

On Saturday night, Cook's Motor Vehicle, 13-4, in a game which saw both J. B. Murphree and Bill Mims collect three hits and Boyce Hale drove out two blows in three tries.

Birdie On 1st Hole Gives Bolt Win Over Stewart

Probably because he was pressing too hard, Stewart's drive went out of bounds by 14 inches. He had to drive again, which counted as his third shot, and his approach landed on the edge of a trap.

Meanwhile, Bolt, playing safe for his first major victory since winning the Miami Beach four-ball with Dick Mayer last March, was on the green in two, with an easy par 4 in sight. Stewart pitched toward the pin, realized the contest was over and conceded.

Stewart, won \$1,800, and with Bolt split half of the gate receipts yesterday, valued at about \$1,000.

HERE COMES THE NEW

BIG SPRING INSURANCE AGENCY

First Half Runnersup
Pictured above are members of the TP Rails, who finished in a tie with the Cargo Kings for the first half championship in the Pony League, then lost in a three-game playoff. Left to right, top row, they are Coach Maurice Zeringue, Roy Brown, Ricky Terry, Eugene Walker, Wesley Grigsby and Travis Anderson. First row, Jimmy Whitefield, Elton Kelly, Benny McCrary, Bobby McAdams and Terry Stanley.

Giants And Dodgers Open Crucial Set

The team that finished 35 games out of first place last season defends its slim one-game lead tonight with the scrambling defending champions.

And if Leo Durocher's New York Giants can salvage one victory in the three-game set with the Brooklyn Dodgers, they still will be tied for first place.

Meanwhile, in the American League, the three teams fighting for the lead—Cleveland, Chicago and New York—all take on clubs that they hope to use to fatten their averages. The league-leading Indians play Baltimore, the White Sox, a game and a half back, entertain the Detroit Tigers in a double-header; and the Yankees, three games in arrears, go to Boston.

Broncs Shelled Twice By Colts

SAN ANGELO (SC) — Big Spring headed for Odessa today after absorbing two defeats at the hands of San Angelo here Monday evening, 5-2 and 7-4.

The Broncs return home Thursday to face San Angelo in the first game of a four-game home stand.

Audie Malone turned iron man for the Colts Monday as he won both games against the Broncs.

Malone was old man tough in the first game, allowing three singles, all coming in the fourth inning. He struck out five and walked one, that opening the seventh but he got out of trouble.

Mike Rainey, the winningest pitcher in the loop, was charged with both losses. He gave up a dozen singles in the first contest and was touched for seven in the two innings he tolled in relief in the nightcap.

The Colts scored once in the first inning in the opener on four singles, the payoff on an infield tapper by Manager Hills Layne.

After Big Spring had scored twice in the fourth on the three hits, the big hit a two run baser by Bob Martin, San Angelo came back with four in the fifth for the win in the two innings he tolled in relief in the nightcap.

James Morgan drove in two with a single to left. Bob Hobbs another with a single in the same spot and Ed Peacock got the other in on a flyout.

In the nightcap, Big Spring took the lead in the first inning with a pair of runs after two were out, both being unearned as shortstop James Morgan made the first of three errors to allow two runners to score.

The Colts got three in their half of the frame as Gil Silva walked, the bases loaded and Rainey came in.

Cisco Andrade Makes Good Impression On NYC Fans

NEW YORK (U.S.)—Cisco Andrade, a picture fighter with a dazzling jab and blinding speed, has made a sensational New York debut by knocking out stubborn Johnny DiGillo.

The 23-year-old Compton, Calif., boxer, unbeaten in 25 pro starts, looks like a man for the future in the lightweight class. And the future may not be too far away.

"We'd grab Paddy DeMarco (the champ) tomorrow if we got the chance," said Manager Ralph Gambin in the dressing room at St. Nicholas Arena after the fight last night.

Earlier, Andrade had flattened 20-year-old DiGillo in 2:08 of the 10th and final round. Bleeding from the nose and a cut over the left eye, DiGillo collapsed under an Andrade right. Referee Ray Miller didn't even bother to count.

It had been obvious for several rounds that DiGillo, a 3-1 underdog, didn't have a chance against this fine boxer who jabbed him dizzy, shook him with rights to the head and doubled him up with right-hand punches to the body. Still, DiGillo kept coming in, trying his best to get inside and under the stinging jab.

Bradford Is New LL President

Buster Bradford is the new president of the Big Spring Little League.

He succeeds R. L. (Poncho) Nail, who resigned Monday.

Nail has guided the kids' baseball program here for the past two years.

Signs are being painted on the fences at Little League park and the score board is being anchored.

Eiler Is Hired By WT-NM Loop

Milton (Red) Eiler, who umpired in the Longhorn League for several years and served as its umpire-in-chief one season, has been hired as an arbiter in the WT-NM League.

More recently, Eiler has been employed to call balls and strikes in the Westera International League, which recently lost two teams and reduced its umpiring staff.

Kings Tounce Devils, 9-5

The Cargo Kings got off to a flying start in second Pony League play by drubbing the Devils, 9-5, here Monday afternoon.

The Kings recently sewed up first half honors by defeating the Rails in a three-game series.

Joe Fields and David Abreo divided time on the mound for the Kings, setting the opposition down with five hits.

Wayne Fields and Joe Fields both hit home runs for the winners. Wayne clubbed his with two on in the second while Joe got one with the bases empty in the first.

Joe Fields struck out seven batters and walked four while Abreo fanned two, walked one and hit a batted man.

P. Daniels, on the mound for the losers, struck out two and walked two.

Administration Takes Farm Supports Case To Airwaves

By FRED S. HOFFMAN
WASHINGTON (AP)—Facing a rugged fight in the House, the Eisenhower administration has appealed to the country at large for support of its farm program pegged to flexible instead of high, rigid price props.

Vice President Nixon and Secretary of Agriculture Benson appeared together last night on a nationwide radio broadcast in which Benson stated: "The present farm program is unfair to both farmers and taxpayers, and that's why the administration has asked Congress to correct the faults of the law."

Benson said it is not true—as some have charged—that the administration is proposing changes in the nation's basic farm law that would lead to reduced farm income. Nixon said continuation of the present program, and its high-level support would be "the height of irresponsibility."

The two administration leaders went on the air at the request of President Eisenhower as the House moved toward consideration later this week of a bill providing, not for flexible supports, but for a one-year extension of the present war-born system of props at 90 percent of parity for corn, cotton, wheat, rice, peanuts and tobacco.

Nixon said continuation of the present program, and its high-level support would be "the height of irresponsibility."

Rain-Making Attempts Set Off Scientific Controversy Storm

Editor's Note:—In one of man's earliest attempts at forcing rain from the skies, the newly fired cannon balls at heavy looking clouds. But since a brilliant discovery in 1946, his attempt has been more scientific and is in progress on an impressive scale. Here, in the first of three articles, is the story of how he's going about it.
By FRANK CAREY
AP Science Reporter

WASHINGTON (AP)—A scientist breathed into a home-type freezer eight years ago and started a miniature snowstorm that has grown into a blizzard swirling around this question: "Can man control the weather?" Tests of rain and snow making have been hailed as milestones of a new era in man's relation to nature. The faithful think it may be possible to break droughts and hold

back floods, sidetrack hurricanes, prevent tornadoes and hailstorms and dissipate fog at airports. Skeptics—including scientists of the U.S. Weather Bureau—maintain that evidence is far from conclusive that weather control has any chance of being achieved on a practical scale. There is no clear proof, these skeptics say, that when rain increased it was due to artificial techniques. It might have rained anyway. A committee appointed by Congress to evaluate the tests has not yet reported, but The Associated Press has surveyed representative rain-making operators, clients and scientists.

Their conclusions might read like this if you put them in form of a forecast: "Prospects unsettled over the nation. High enthusiasm followed by skepticism in some sections." Rain-making projects were inspired by what happened one day in 1946 in the laboratory of Dr. Vincent Schaefer, then of the General Electric Co., in Schenectady, N.Y. Schaefer had been trying to duplicate in the laboratory one of nature's "supercooled" clouds—clouds which contain water in liquid state even though the temperature is below freezing. The water doesn't freeze because it is perfectly pure. He wanted to find out how this "supercooled" water is suddenly changed, in nature, into a snowstorm. He produced clouds by blowing his breath into a freezer. But he couldn't produce snow even though he added to his clouds a variety of materials—soap powder, sugar, talcum powder and volcanic dust. Then one day he was having trouble keeping the freezer at low temperature. He dropped some chunks of dry ice into the box. A miniature snowstorm developed before his eyes. Schaefer and other investigators, both civilian and military, claim they produced precipitation by this means—or at least that precipitation quickly followed seeding. Later it was found that silver iodide, dispersed from planes or generated as a kind of "smoke" from devices on the ground, could serve the same purpose. Crystals of silver iodide closely resemble those of dry ice. The theory is that these substances provide "nuclei" for millions of tiny ice crystals in the cloud. As the natural crystals attach themselves to the nuclei, the formation grows and eventually falls to the ground as snow or rain, depending upon the temperature beneath the cloud. In general, seeding works only on "supercooled clouds." Fortunately for the rain makers, a lot of these are floating around, even in summer. But they are found only above altitudes of about 12,000 feet. Silver iodide is supposed to have some advantage over dry ice because it can be dispersed in a sort of "smoke" over relatively large areas. Also, it can be dispensed from generators on the ground. Dry ice must always be dropped from airplanes. Silver iodide costs more per pound than dry ice, but a little goes a long way. Rain makers using one or the other of the materials usually charge farmers 3 cents an acre for "seeding" clouds over range land, 20 cents an acre for wheat land. If an area suffers from too much rain, cloud seeders believe "over-seeding" may be the answer. They say that with over seeding it may also be possible to sidetrack hurricanes, break up small thunder clouds before they can brew tornadoes and clear fogs from airports. The theory of over seeding is that if enough artificial nuclei are fed into a cloud, all the water in it will be used up in making very small ice crystals, none of which will ever get big enough to fall as snow or rain. Various scientists are making intensive studies of these secrets. One of the most unique studies will be carried on by the recently established Institute of Atmospheric Physics (IAP) at Tucson, Ariz., jointly operated by the University of Arizona and the University of Chicago. The Sloan Foundation of New York gave \$150,000 for the establishment of the institute. Among other ventures of the institute, a radar set will be placed on one of the mountain peaks surrounding Tucson and aimed at rain clouds in the hope of obtaining "echoes" from tiny droplets when they grow big enough to cause rain. Special cameras will be used to photograph the echoes if they show on the radar screen. Automatic cameras will be mounted on other peaks to photograph continually the visible parts of clouds. Air Force planes and crews are expected to be made available for flights through clouds to take temperatures, study the size of droplets and measure other factors with special instruments.

IT HAPPENED

Going Away Present

CHARLESTON, S.C. (AP)—They really wanted Edward Francis Dwyer of Washington to leave town. He was charged with non-support and abandonment. When Dwyer told Judge William H. Grimbali he hadn't obeyed the judge's order to leave the state because of lack of money, Judge Grimbali went into action. Between himself, the sheriff, clerk of court and a solicitor, the judge raised \$16. Dwyer was placed on a bus to Washington.

Is There No Shame?

TOKYO (AP)—A new, high-priced Tokyo night club designed for the tourist and American soldier trade proudly bears the title "The Clipper." **CLINTON, N.C. (AP)**—Dr. J. M. Chestnut didn't really expect to get back the ring he lost while bathing in White Lake near here. But while diving for sand, 11-

year-old Claudia Herring brought up the ring in a handful.

Dr. Chestnut's name was on the ring, so, of course, he got it back—after 23 years.

Hope It's Misnomer

YUMA, Ariz. (AP)—Jack Outlaw has been appointed state cattle inspector to check brands and stolen stock.

Still Partisan At 105

WATERBURY, Conn. (AP)—Mrs. Henry C. Roberts, who celebrated her 105th birthday yesterday, has lived during the terms of 23 American presidents. She was asked which she liked best. "All the Republican ones," she replied.

On Safe Deposit

CLINTON, N.C. (AP)—Dr. J. M. Chestnut didn't really expect to get back the ring he lost while bathing in White Lake near here. But while diving for sand, 11-

Field Rules Adopted For Area Counties

AUSTIN (AP)—The Railroad Commission has announced adoption of these field rules: **Tillery (Pennsylvania sand) Field, Schleicher County:** spacing 933 feet between wells and 330 feet from wells to property lines; gas-oil ratio of 2,000 cubic feet of gas per barrel of oil; 20-acre proration units; daily allowable based 75 per cent on acreage and 25 per cent on number of wells. **Diamond "M" (Wolfcamp) Field, Scurry County:** spacing 933 and 330 feet; gas-oil ratio 2,000 to one; 40-acre proration units; daily allowable 75-25. **Penwell (Glorietta) Field, Ector County:** spacing 933 and 330 feet; 40 acre proration units; daily allowables 75-25; gas-oil ratio 2,000 to one.

Arthur Tyson Named MH-B College Head

BELTON (AP)—Arthur Tyson has been named president of Mary Hardin-Baylor College. The 38-year-old educator, now a professor of history at East Texas Baptist College, will take office Sept. 1. He will succeed Dr. A. C. Gettys, acting president of the college for the past two years.

Air Force To Unite Pacific Base Command

WASHINGTON (AP)—A Pacific Air Force is being formed to take command over all United States Air Force installations and personnel in the vast ocean area from Hawaii to the boundaries of the Far East theater of operations. Commanding the Pacific Air Force, which is to become operative next month, will be Maj. Gen. Story Smith, now director of public relations for the Air Force. This will be the first single command for air forces in the Pacific since World War II. During the war, combat and transport operations in the central Pacific were under control of the 7th Air Force. The over-all military command of the Pacific, under the unified setup, is held by Adm. Felix Stump, commander-in-chief of the Pacific Fleet and director of combined Army-Navy-Air Forces. The Army commander for the Pacific is Maj. Gen. Clark L. Ruffner. Until now, there had been no Air Force command. It is planned that all U.S. Air Force bases in Hawaii, central and southwestern Pacific Islands and the Philippines will come under Smith's command. Planes and personnel operating in that area and westward on missions or assignments to Southeast Asia also come under him. A B50 medium bomb wing will arrive at Guam next month to take station there under the rotational duty program. Medium bomber wings from the Far East Air Force also operate in and out of Clark Field in the Philippines, where a jet fighter-bomber wing is permanently based. Later, interceptor outfits presumably will be assigned to the larger bases in the Pacific command area; and in the future any withdrawal of American air power from bases in Korea and Japan as a result of broad changes in strategic and international policy would mean that it would take position in the Pacific Air Force command zone. The immediate major function of the Pacific Air Command will be to supply and maintain Military Air Transport Service units, operate air-sea rescue outfits and air evacuation (hospital) planes. The Pacific commander also will work with Stump and Ruffner in preparing and keeping up-to-date Pacific war plans integrated into the over-all strategic plans of the Joint Chiefs of Staff at Washington.

Justin McCarty Disciplined Poplin fun-team

Justin McCarty does a 1954 version of old-fashion tating! It's a new charming trim on our fun-team of cotton poplin that's been especially treated to stay crisp and uncrumpled through many wearings ... little girl romper shorts, sleeveless blouse, a billow skirt to match ... in coral edged with white.

Virginia Boy Drowns In Home Bathtub

COVINGTON, Va. (AP)—John M. Nester Jr., 17, of South Covington, drowned in a bathtub at his home here yesterday. Members of the local first aid crew, who tried without success to revive the youth, said he apparently fell into the water-filled tub after becoming ill and was unable to pull himself out. His mother found him dead when she returned from a shopping trip.

Eradicating Bees Proves Expensive

GLENDALE, Calif. (AP)—Fire Marshal A. W. Hunt offered this report today on an explosive bee fumigation conducted by a citizen: John L. Harris, seeking to eradicate bees in his chimney, climbed to the roof and dropped down a gasoline-soaked rag, unaware that coals still glowed in the fireplace. The resulting blast blew both bees and bricks into the living room. Mrs. Harris, in another room, and Harris, on the roof, escaped injury. Fire department investigators estimated damage at \$1,000. The evicted bees apparently took up residence elsewhere.

Mrs. Ely Culbertson Is Granted Divorce

NEWFANE, Vt. (AP)—Mrs. Ely Culbertson has been granted an uncontested divorce from her famed bridge expert husband on grounds of "intolerable severity." Windham Court yesterday granted the former Dorothy Hasane the care and custody of the Culbertson 26-month-old son, Alexander. Support and property arrangements were settled out of court.

Soap Box Derby Is Symbolic Of America's Fair Play, Enterprise

Homemade motorless cars have been built and raced by at least a half million boys in the Soap Box Derby which was originated two decades ago and has grown into

"the greatest amateur racing event in the world." Now, an adventure in skill and sportsmanship for 17 years, the Soap Box Derby is recognized all

over the world as a symbol of young America's enterprise, opportunities and fair-play. In this nation it is one of the most important builders of community cooperation.

The Soap Box Derby is being held in Big Spring this year for the first time. More than 40 boys are expected to compete in their hand-built cars at the City Park next Monday. Preliminary heats are to be at 10 a.m., finals at 2:30 in the afternoon.

This year alone, an estimated 3,000,000 people will witness Derby races or take part in some phase of Derby activity in the United States, Alaska, Canada and Western Germany. Nearly 50,000 boys between the ages of 11 and 15 are expected to compete. Races will be held in 150 separate communities under the official co-sponsorship of Chevrolet Division of General Motors and leading newspapers and civic service organizations. Local champions will win the right to go to Akron, Ohio, to race in the 17th All-American Soap Box Derby, a news and sports event of the first magnitude, will divert the attention of the people of Texas from his sorry record.

The Teachers Pay Bill, the conservation of water are not new issues they have been with us during all of the administrations of Allan Shivers. Why did he wait until recent weeks to settle or bring these issues to the people of Texas? To me it is only to cover his miserable record as governor of the state of Texas. It was merely to divert the attention of the people of Texas from his sorry record.

The people of Texas have never returned to office any candidate who has been a traitor to his party. They good people of Texas have examined the character of those who would switch their loyalty for the sake of personal gain. We know that any person who is of such character is lacking in the principles which make this country great.

I am a Texan by my own choice and am an American by birth and choice. I believe in supporting and maintaining all those fundamental principles which have made Texas and America strong; namely, loyalty, strong character, and high moral regard for rights legally given. Gov. Shivers has during his campaign and administration divested himself of each of these characteristics and therefore is not worthy of my respect either as a governor of Texas or a citizen of Texas. I therefore request that this letter in its entirety be published on the front pages of your newspaper in the same conspicuous manner as that article herein before mentioned which stated that I would be a special guest on the platform with Governor Shivers. This statement was libelous and injurious to my character and it has seriously hampered my work as it brings a question as to my integrity among those with whom I work for a living.

Respectfully submitted,
D. A. BRAZEL

LETTER TO EDITOR

Protests Listing As Guest On Platform With Shivers

To The Editor:
On June 24, 1954, there appeared on the front page of the Big Spring Herald an item titled, "Shivers to Speak Tonight; Reception, Radio Talk Set." Contained in this article was a statement, "Special guests who will be on the platform the governor speaks this evening will include..." and among those names listed was "D. A. Brazel, district representative, International Union of Operating Engineers." As you now know this statement was absolutely false. I feel that my character and reputation has been seriously damaged. I have never been a supporter of our Governor nor would I ever be guilty of supporting any individual with such a lust and greed for power. No American can support any person who openly campaigns on his disobedience to the United States Supreme Court. If we should disagree with this great judicial body, there is an American way, a legal way to secure any desired change, but it is certainly un-American to refuse openly to obey the Supreme Court of our land. This is only one of a series of hypocritical incidents in which Governor Shivers has heaped ridicule upon the state of Texas by his refusal to accept and enforce the laws of the United States and also those of Texas.

Governor Shivers has been repeatedly guilty of employing the illegal wet backs on his farm Sharyland. And in so doing he not only violated the federal law by employing them but violated the law as to wages paid. Some of such illegal employees were paid only 25 cents per hour.

Governor Shivers not just lately a betrayer of the faith of the people of Texas. You have but to look at his record as a senator of Texas and that as governor. There you will find as senator Allan Shivers he worked and voted against the infamous so-called "Right to Work Bill" in 1945 but Governor Shivers in 1947 as Lt. Governor worked for and assisted in passing the same bill. Further, in 1951, Gov. Shivers signed into law the infamous "Parkhouse Bill," which is definitely punitive class legislation which provides special punishment of union people while those who are not union people can commit the same act without being subjected to the same penalty.

I say the state of Texas would have been in a terrible state of dictatorship if the recent session of the Legislature had passed the Shivers so-called Anti-Communist bill. Such a bill would have provided Shivers absolute dictatorship over the people of Texas. It did not provide for a trial by jury but by a trial by a committee appointed by the governor. Governor Shivers would only have had to call any one a Communist who dared to disagree with him and then appoint a committee of his own political stooges to convict the accused. Thank God there were enough decent people in Texas to recognize this vicious bill and kill it in the Legislature in spite of Shivers' support.

Gov. Shivers is aiding and giving comfort to the greatest source of Communist infiltration into America today by hiring wetbacks on Sharyland.

Gov. Shivers has charged that Communists control certain labor organizations in Texas. Why does not he and Atty. Gen. Shepperd arrest these Communists and convict them? There are existing laws in Texas that state that all Communists must register at once on entering the state of Texas. If Gov. Shivers knows of Communists in Texas and fails to have such parties arrested and prosecuted I say he is a disloyal American and a disloyal Texan derelict in his duty and unfit to be Governor.

We have all listened to the recent episode involving the McCarthy-Army feud. It is further evidence of the thinking of Gov. Shivers since he made Sen. McCarthy an honorary citizen of Texas. Such an act besmirches the good character of the honorable people of Texas. I am sure the heroes who died to make this great state possible would be restless in their graves if they knew that the head of this great state of Texas had made an honorary citizen of a man who sought information from people in confidential positions in the Army of our country by assuring them protection if they would violate their obligations to their country.

The recently exposed insurance and land scandals are further indications of the character of Allan Shivers. He tries to justify these questionable acts taken by him in his thirst and lust for power on the basis of legality as a cloak for his unlawful acts.

I say that when selecting the Governor of this great state that we should not only be interested in the acts performed by him that may be circumscribed within the legality of the law. We should look deeply into the character of the man.

There has recently been brought to light allegations that the Chicken Industry in East Texas was packing and shipping diseased chickens not only throughout the state of Texas but into the 48

BIG SPRING DAILY HERALD

SECTION II

idea abroad is exemplified in Western Germany where some 17,000 boys participated in 171 local races in 1953 to select a German champion for the All-American event in Akron. A broader Derby program than ever before is sighted in Germany for 1954.

Myron E. Scott, managing director of the All-American Soap Box Derby, was a newspaper photographer in Dayton, O., when he originated the Soap Box Derby in 1933. Today he is assistant advertising manager of Chevrolet. W. G. Power, advertising manager of Chevrolet, is executive director of the All-American Soap Box Derby. W. J. King is general manager. The Derby idea came to Scott while he was on photo assignment for the Dayton Daily News. He came across a group of small boys racing homemade coasting cars on a hill. He snapped pictures of the race and reported the incident to his editor. Scott was so enthusiastic in his report that the editor permitted Scott to conduct a city-wide race. Scott ran the race and called it the "Soap Box Derby." After the Dayton race attracted so much favorable response in 1933, Scott held the first All-American Soap Box Derby in August, 1934, in Dayton. Scott and Chevrolet lined up the Derby on a wider national basis in 1935 and finals were run on Tallmadge Ave. Hill in Akron, O. In 1936, Derby Downs was completed and the "All-American" was held there. Derby Downs facilities have been expanded and improved every year since.

Interest in the Derby has grown steadily. Local races have gained more crowd appeal and closer relations have been developed among community groups because of the event. Above all, fairness in competition, good sportsmanship, individual enterprise and building character have been stressed during the growth of the Derby.

Uniform rules, modified from year to year as the circumstances demand, govern all Soap Box Derby races. They stress the importance of equal opportunity for every boy. Rule changes are made to simplify car construction, make the races safer and provide for more uniform inspection of cars by local adult committees.

The Soap Box Derby rules committee is made up of the National Contest Board and the National Newspaper Control Committee. Such

pervision of the broad Soap Box Derby program is maintained by the National Newspaper Control Committee and Chevrolet. Each local race is conducted under the national rules.

To enter an officially sponsored local race, a boy must be between 11 and 15 years of age, inclusive. He must register at the local Chevrolet dealership with at least one parent. Boy and parent sign the form and the boy receives a free copy of the official rule book.

Each local race winner receives the specially designed T. H. Keating plaque, named for the general manager of Chevrolet. Biggest prize for the local winner is the all-expense trip to Akron to compete in the "All-American." During his stay in Akron, he lives at Derbytown, a lakeshore YMCA summer camp for boys that is given over to the champions while they are in the city. Expert counselors assist them.

a seating capacity of about 60,000 basis. Net proceeds go to Akron, and all seats are on a reserved O. youth charities.

Taxi Drivers Stage Feud In Yugoslavia

BELGRADE, Yugoslavia (AP)—Belgrade's independent, non-nationalized taxi drivers are fighting a tooth-and-nail battle to stay that way.

Their strange weapon: keeping fares down.

The capitalist-Communist feud, unusual but not unique in Communist Yugoslavia, began six months ago when the Nationalist enterprise launched a new, modernized taxi fleet. It sold all its old jalopies and imported 24 medium-priced American cars.

With import duties and a complicated government tax called a "factor," each car cost about \$20,000, or a total of \$480,000 for the fleet. The enterprise had only \$70,000 in cash from the sale of its old cabs. It obtained a \$275,000 subsidy from the city of Belgrade, and borrowed the balance of \$135,000.

Now, reports Belgrade's Evening News, the enterprise is in "serious financial trouble." It can't pay off its debt. It can't get an additional subsidy. And it needs to double fares to meet current expenses alone.

That's where the independents come in. Higher fares, they say, would put everybody out of business, including the enterprise. Even the present fare (25 cents a mile), say the independents, is too high for the average passenger. They blame the situation on excessive taxation.

This leaves the enterprise on the brink of disaster, and the independents know it.

Four Senate Pages Arrested In Street Light Gunplay Case

WASHINGTON, June 29 (AP)—Four pages in the U. S. Senate have been arrested by juvenile authorities and charged with shooting out street lights with an air rifle, police disclosed Monday.

The boys, ranging in age from 14 to 16 years, were not identified by name.

Sgt. William C. Rasmussen of the police juvenile squad said their cases "will be handled just like any other juveniles."

The Senate pages, who run errands on the Senate floor and elsewhere for members of the Senate. They attend a special school for pages at the capitol.

A special House committee now is considering the general problem of juvenile hoodlums in Washington, spurred to action by the stoning of Rep. Curtis (R-Mo) near the Capitol last week.

Drilling Crew Finds Water But No Oil

FILLMORE, Calif. (AP)—An oil-drilling crew struck water in Sespe Canyon yesterday and a normally dry creek bed was filled with an estimated 1,000 barrels of water an hour.

Workers dumped 250 sacks of cement to dam the geyser but they were tossed away by the force of the water.

O. L. Raleigh, manager of the oil company, said the drill apparently tapped a subterranean river or lake.

Thousands Die From Snake Bite

GENEVA (AP)—Thirty to forty thousand people die each year from snakebite.

That's the conclusion reached by a United Nations agency, the World Health Organization (WHO), after the first attempted worldwide survey of snakebite mortality. The survey was conducted in order to estimate the need for international standardization of serum against snake venoms.

The compilers consider their estimate of fatalities "extremely conservative" since according to them only a fraction of snakebite deaths ever are recorded.

Two Italians Die In Conquering Peak

NEW DELHI (AP)—Two members of an Italian Himalayan expedition died after becoming the first men this year to conquer the mighty 23,299-foot Mt. Annapurna, the Italian embassy reported yesterday.

One of the men died of exhaustion in the arms of a native guide after reaching the summit. The other slipped and fell into a crevasse.

The Austrian legation here announced earlier today a member of an Austrian expedition died May 31 of pneumonia contracted while climbing Saipal Mountain, in the Karakorum range of the Himalayas. The legation identified the climber as Karl Reiss, 29, of Vienna, considered one of Austria's best Alpinists.

Riding THE GRUB LINE With Franklin Reynolds

The long-range forecast for July is generally for a hot, dry month, with little rainfall, mainly in the form of scattered showers, in prospect. Best chances for moisture will be around Saturday, July 10, and Thursday, July 22.

Generally, temperatures throughout the state are expected to be higher than normal with the most intense heat settling over the West Texas area between July 1 and 7, and again between the 14th and 19th. Nothing that can really be described as a "cool period" should be expected during the month. Last July, it will be recalled, was also hot, dry and dusty.

Sheriff Dan Saunders, Deputy A. C. Abernathy and Patrolman Walter Graves of Stanton, have learned that while the lie detector is acknowledged to be a potent detector just the threat of a lie detector works as well sometimes.

A watch was stolen from a trailer house in the south part of Stanton. The officers let it be noised about that certain persons were going to be picked up and put on the lie detector.

Then the watch suddenly appeared near the trailer house steps and the owner was made happy.

Ernest F. (Cowboy) Billingsley of Martin County, well known around Midland and other places as "Red, the Bronc Buster" has had some unusual experiences.

Several years ago Cowboy was living in a little Mexican settlement out beyond Las Cruces. There weren't more than 20 or 25 houses in the little boom town that has since disappeared, but in a saloon one night the boys decided they ought to have a constable. Election was coming up and nobody had announced.

They elected Cowboy with a write-in vote.

A few days after he had pinned on the star he received a warrant for a pretty salty coyote known to be a fast and sure man with a gun, and one who would use a gun at the drop of a hat, and he was a man who was willing to drop the hat himself.

Cowboy didn't fancy himself much of a hand with a sixshooter, and he knew the arrest might wind up in a shooting scrape, but he wouldn't back down.

He went out to the wanted man's house, peeped through the window, saw the character inside and then went around and knocked loudly on the back door. Then he ran to a front corner of the house and waited. He heard the man open the back door and look out, then close that door and come through the house toward the front door and the porch that ran across the front of the house.

The bad man did just exactly what Cowboy thought he would do. He walked down the porch toward the corner where Cowboy was hiding and then turned and started back across the porch, his gun in his hand.

Cowboy had been waiting with his rope and his loop was ready. Cowboy roped him and jerked him off the porch almost breaking his neck and the gun went spinning away into space. Cowboy didn't have any handcuffs so he did the prisoner like he would a bad bronc or steer. He tied one hand to one foot, keeping plenty of slack in his rope. Every time the prisoner started any trouble, Cowboy jerked him down.

"That was enough of that sort of thing for me," Cowboy explains, "so I went and turned in that star."

The Martin County Old Settlers Reunion will be held in the City Park at Stanton July 13, it has been announced by Mrs. Morgan Hall, permanent secretary of the organization.

Through an error the date was first announced for July 17.

"It is always on the second Tuesday in July," Mrs. Hall explains, "and this year that will be July thirteenth."

The barbecue supper, prepared by Walter Jetton, caterer from Fort Worth, will be served at 7 p.m., and more than 500 people are expected to attend.

The Martin County Old Settlers Reunion annually brings a great many people to Stanton from all over the Southwest, and even other parts of the country.

Mrs. Hall has announced the appointment of the various committees. They are: Dedication, Mrs.

O. B. Bryan and Mrs. F. O. Rhodes; Nominations, Edmund Morrow, Hoot Tom and Bob Haislip; Finance, Edmund Morrow, J. C. Sale, James Jones and O. B. Bryan; Program, Mrs. Mildred England and Mrs. Jo Jon Cox; Special music, Mrs. Sam Wilkinson and Morgan Hall; Seating, Bob Haislip; Lighting, Yuell Winslow; George Davis and R. K. Rogers; Welcome, Mrs. Flora Rogers, Horace Blocker, John Peters, T. W. Haynie, Dan Saunders and Jack Estes; Memorial, George Shelburne; Tickets, Miller Estes, J. D. Poe, Billy Houston and Collison Mott.

The officers of the association are Edmund Tom, president; James Jones, vice president, and Mrs. Hall, secretary.

The rancher who knows his grasses is going to be best able to rebuild his ranges, says A. H. Walker, extension Range specialist at Texas A&M College. And, he comments, that "scrub" grasses like "scrub" cattle and sheep, don't pay for the growing of them.

Walker points out that the better grasses are fighting hard for survival against the less favorable grasses, against weeds, against brush and trees and grazins. These competitors rob the preferred grasses of the moisture they need and the plant food they need.

Considering the drought, Walker says most of the ranges in the state are showing a recovery that he describes as "remarkable." His advice now is to give the better grasses a good chance to build a substantial root system and to produce a seed crop. He points out that the roots are even more im-

portant than the top part of the plant growth because without a well-developed root system, the chances for the survival of these better grasses are not good, and a good seed crop is greatly needed to hasten the range rebuilding job.

Texas A&M Extension Service has published a "Know Your Grasses — The Key to Successful Range Management" booklet which is being distributed free from College Station and through the offices of the various county agricultural agents. Illustrations in "Know Your Grasses" will enable ranchers, as well as almost all others common to the Texas ranges. Walker says that the best plants may be native or well-established introduced species, and that they should be used as a measuring stick with which to judge proper range use. They produce more forage and are a basic resource of the state's rangeland and are of major importance in the production of livestock in Texas.

The survival and well-being of these grasses depends upon the treatment they are given by the livestock producers.

Now Many Wear FALSE TEETH With More Comfort

FAS-TEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FAS-TEETH on your plates. No sunny, gooey, pasty taste or feeling. Checks "plate odor" (denture breath). Get FAS-TEETH at any drug counter.

Jordan Claims Raid By Israel

JERUSALEM (AP)—A Jordan broadcast heard here yesterday said a "great force" of Israeli soldiers armed with mortars crossed the Israeli-Jordan border near Kalkilyah last night and attacked an Arab Legion base. It said four legionnaires were killed and several injured.

An Israeli army spokesman admitted the crossing but said only a "small" Israeli unit was involved. He said the unit strayed across the border by mistake and one Israeli soldier is missing.

Choice Of Rhee Okayed In Korea

SEOUL (AP)—The South Korean National Assembly yesterday confirmed 157-7 President Syngman Rhee's appointment of Foreign Minister Pyun Yung Tai as prime minister.

Pyun, 62, succeeds Paik To-o Chin who resigned 19 days ago.

Government sources said Rhee plans to abolish the office of prime minister and create a new office of secretary of state.

Pyun, arriving from the Geneva conference, told reporters South Korea "is bound by the armistice agreement any longer because the Communists have already violated it."

Famous Trichologist Will Demonstrate How To Grow Thicker Hair . . . And Guarantees It!

This new method of home treatment for saving and growing thicker hair will be demonstrated in Big Spring, Texas, Wednesday ONLY, June 30, 1954.

These private individual demonstrations will be held at the Settles Hotel on Wednesday ONLY, June 30, 12 Noon to 3 p.m.

OKLAHOMA CITY, June 22—In an interview here today, Mr. William L. Keele, internationally famous trichologist and director of the Keele Hair and Scalp Specialists, Inc., said "There are 18 different scalp disorders that cause most men and women to lose hair. Using common sense, a person must realize no one tonic or so called cure-all could correct all the disorders," he explained.

GUARANTEED

"The Keele firm, recognizing that most people are skeptical of claims that hair can be grown on balding heads, offer a guarantee," Keele said.

Once a person avails themselves to the Keele treatment, his skepticism immediately disappears. To insure this, we offer this guarantee: "If you are not completely satisfied with your hair progress at the end of 30 days your money will be returned."

HOPELESS CASES DISCOURAGED

First the Keele specialists are quick to tell hopeless cases that they cannot be helped. But the "hopeless" cases are few. Only if a man is completely, shiny bald is he in the last category.

If there is fuzz, no matter how light, thin, or colorless, the Keele firm can perform wonders.

Every one is given a complete private examination to determine the condition of his scalp, and then the hair trouble.

FREE EXAMINATIONS

This examination is very thorough and highly technical. It requires 30 to 45 minutes. There is no charge for this examination.
