### COLD PLEASURES FOR WARM DAYS!

The best friend a hostess has during the summer months is her Electric Refrigerator. It makes it so easy to prepare tempting refreshments-all manner of chilled or frozen desserts. or salads. And of course the refrigerator keeps them just right until you're ready to serve them-at the same time freezing allthe ice cubes, plain or colored, that you need to cool summer

drinks. Don't face another summer with inadequate refrigeration. Quite aside from the inconvenience of old-fashioned methods, you'll find them too expensive. Too much food is allowed to spoil-you miss too many opportunities to purchase food at special prices. Chose a quiet, trouble-free Electric Refrigerator and forget that you ever had refrigeration toubles. Excellent terms can be arranged.

It seems strange that so little interest is manifested in state politics by the voters. The senator's and governor's races should develop some interest outside of some of the candidates' ardent supporters, but maybe most people think that there is little to get excited about this year. It looks from this distance like Connally and Allred will be the high men in the offices mentioned, and as both of them are good men, it may be that most voters think there is little to be gained by getting all hot and bothered for a favorite candidate.
