CELEBRATING THE OPENING OF JERICHO GAP

Some scenes in the big parade in McLean last Friday during the Jericho gap celebration. At top is the McLean band. Lower right is the Bar LO Ranch buck board, with Geo. W. Sitter, owner of the ranch, riding in it. Left shows pioneers of this community on horse back. Other scenes are shown on another page.

Jericho Gap Celebration Is Voted Success

Highway Meeting Brings Memories of Early History

Conversation among old-timers present for the Jericho gap celebration was as interesting as the speeches from the stage.

It was pointed out by several that at one time it was thought that the way to build roads was by taking a pick and shovel and doing the actual road work, and the News editor can remember working right alongside the business men of McLean who undertook to build highway 66 in just that fashion, working each Wednesday on the Massay hill east of town.

Then it was thought that organizing highway associations with a lot of amateur oratory was the thing to do, and we all fell hard for the idea. However, later we decided that a yellow stripe around the telephone poles alongside the route would make a highway; but this idea was soon discarded when road sign companies came into the game and sold each town on the idea of buying uniform signs for the highway. The McLean chamber of commerce signed a note for some \$160 for their part of the signs and when they were erected about three through Gray county was what we received for the money. The road sign idea was worked right along with booklet and card schemes purporting to advertise the route.

Various things were tried at McLean to get the highway topped after it was graded, until in January of 1931 the chamber of commerce directors, under the leadership of President T. W. Gilstrap and Secretary W. E. Bogan, took up the matter in dead earnest with the idea of getting the paving done that year.

Mr. Bogan was elected chairman of the highway committee, with Witt Springer and T. A. Landers as members, and on Jan. 19, a letter signed by President Gilstrap and Mayor Joe Montgomery was addressed to Mr. Springer, who was in Austin, asking that he interview Governor Sterling in regard to paving. On Jan. 28, Mr. Bogan, with Messrs. Gilstrap, Springer and Landers, made a trip to Vernon to contact Senator Clint Small in this regard. Senator Small outlined a plan and kept in close touch with the situation during the remainder of the year.

On May 9, Mr. Bogan, with Mr. Gilstrap and Mr. Landers, accompanied by County Commissioner M. M. Newman, contacted Highway Engineer W. J. van London at Amarillo, taking the gentlemen to lunch and arguing over a proposed change of routing between McLean and Jericho until late in the afternoon. Mr. van London insisted that the road should be straightened, but as this would cause another year's delay, the committee contended for the approved route.

The first week in July, Mr. Newman, G. C. Boswell, E. L. Sitter and O. G. Stokely met the state highway commission at Abilene. The paving contract was let, and by the last of the month Mr. van London had opened an office in McLean and the actual work had begun.

Since the paving at McLean, all eyes have been turned toward the infamous Jericho gap, which has an interesting history in itself, many local road boosters giving freely of their time and money to secure the paving of the gap.

Fire prevention floats with the fire trucks and the firemen in full uniform were also in the parade.

Following the polo game, some 500 people repaired to the barbecue grounds, where J. A. Meador had everything in readiness for the evening meal.

Mr. Meador had complete charge of barbecuing the meat, and everything was in tip-top shape, the general expression of the diners indicating that no better prepared meat had ever been tasted.

Oak wood for the barbecue was imported from Oklahoma at a cost of \$10 per cord, not including transportation.

ERWIN WELCOMES ROAD VISITORS AT CELEBRATION
By Rev. W. A. Erwin
We are happy to welcome the Will Rogers highway enthusiasts to McLean today to celebrate the closing of the Jericho gap, the seventeen miles of nationally advertised, much cussed and discussed mud-hole that has been changed from a horrible nightmare to a pleasant and beautiful dream.

Highways are the veins and arteries of civilization; through them flow the industrial, political, educational, and religious life of the nation. Roads denote the life and prosperity of a nation, state, or community. Ancient nations that have left their imprint in history were all road builders. Herodotus tells us that in Egypt a "great king" built a magnificent road across the sands of Egypt for the transportation of the materials for the "great Pyramid," employing for this purpose one hundred thousand men for a period of ten years. This road, ten feet thick in places, was built of massive stone blocks and lined on both sides with mausoleums, temples, and statues.

Early historians speak of wonderful roads extending from Babylon on or before 2000 B. C. These roads extended to Susa, Ecbatana, Sardis, and Ninevah. Strabo tells of the road between Babylon and Ninevah as being paved with brick laid in mortar of asphaltum. The most noted road in all history is the "Applan Way," or "Queen of Roads," a paved highway running from Rome to Brindisi, begun by Ap...

CITY COUNCIL MEETS
Allowing current bills and ordering a two-inch water main laid from the corner of Third and Cypress streets to the city limits, on a four-connection guarantee, was the work of the city council Tuesday night. Discussion was had on the matter of a PWA project, and the meeting adjourned until Thursday night of this week. Lee A. Wilson's resignation as alderman has been accepted and it is understood that an election will be called soon to fill the vacancy. Mr. Wilson resigned to take the office of postmaster.

RICE GIVEN OK
A state inspector visited McLean last week and gave the Rice Funeral Home a certificate reading, "Meets all requirements." The inspector was very complimentary on the preparation room and everything connected with the establishment.

SINGING AT HEALD SUNDAY
The Heald Singing Class will meet Sunday afternoon, and all singers and others are invited to attend.

PAMPA FLOWER SHOW FRIDAY
The Pampa Garden Club will hold its annual flower show at the Presbyterian Annex, Friday of this week. Judges will be furnished by the McLean Garden Club, in charge of Mrs. D. A. Davis, president. The judges will be complimented with a luncheon at noon.

H. D. CLUB TO MEET
The McLean Home Demonstration club will meet Friday afternoon at 2:30 in the home of Mrs. Ott Goodman.

DEPUTY TINNIN RETAINED
According to Sheriff Earl Talley, Deputy L. S. Tinnin of McLean has been retained on the sheriff's force. Mr. Talley was out of the county when the economy order was passed, but as soon as he returned things were worked out whereby Mr. Tinnin remains on the force at McLean.

Mrs. W. T. Wilson attended the funeral of her niece at Frederick, Okla., Friday.

Mr. and Mrs. F. E. McCracken of Alameda visited in McLean Sunday.

SIGMA GAMMA HOLDS SOCIAL MONDAY NIGHT

Members of the Sigma Gamma, with former members as guests, enjoyed a social evening Monday at the home of Mrs. John Hildreth, with Misses Kennedy and Truitt as hostesses. Little Jimmy Batson entertained with readings, after which table games were played.

Refreshments in the Hallo'ween motif were served by the social committee, Misses Mallow, McCarty and Kunkel, to the following: Misses Cousins, Abbott, Bessire, Heath, Noel, Hess, Still, Truitt, Kennedy and Stratton; Mesdames Marie Vogel, Clyde Magee, Roger Powers, S. A. Cousins and John B. Rice.

TIGERS TO PLAY AMARILLO

The McLean Tigers will go to Amarillo to play the Amarillo Sandies, class A champions, this week. The game will be played Saturday afternoon at 2:30. Three bus loads of students are going to make the trip, besides the loyal fans. The McLean band and pep squad will be represented.

This game will be more or less an educational contest. The Tigers are going up there to learn a little more about football, and also to relax from conference competition. Tickets will be 25c and 50c.

Coach Allen does not expect to come anywhere near defeating the Sandies, but it will be good experience for the Tigers, and he said he thought his team could make a better showing against them than some of the class A teams.

This game should put the Tigers in first class condition to start back into conference competition the following week with Wellington, rated the strongest team in this conference.

RICE GIVEN OK

A state inspector visited McLean last week and gave the Rice Funeral Home a certificate reading, "Meets all requirements." The inspector was very complimentary on the preparation room and everything connected with the establishment.

SINGING AT HEALD SUNDAY

The Heald Singing Class will meet Sunday afternoon, and all singers and others are invited to attend.

Cryer Reports International Lions Luncheon

C. A. Cryer, deputy district governor of Lions International, made an interesting report of the International banquet and meeting held at Dallas last Friday and Saturday.

Gov. Cryer brought some of the highlights of the meeting which were inspirational to local Lions. District Governor Elmer Elliott was praised for his work at Dallas. Past Governor Ralph Randel was reported as painfully injured in an automobile accident at Fort Worth Saturday.

Lion Adkins presented Leonard Brawley and J. L. Jones as entertainers on stringed instruments, Brawley singing the refrains. Lion Springer thanked the various committeemen who assisted in the Jericho gap celebration.

Lion Tamer W. A. Erwin presented County Agent Ralph R. Thomas, Rev. J. H. Sharp, Arthur Erwin and Cecil Dyer as club visitors.

Lion Boyd Meador injected a facetious note into the proceedings by making a motion, which was duly seconded, that Former Boss Lion Boswell's picture be run in this week's issue of The McLean News, saying that Lion Cryer's report reminded him of Lion Boswell.

PAMPA FLOWER SHOW FRIDAY

The Pampa Garden Club will hold its annual flower show at the Presbyterian Annex, Friday of this week. Judges will be furnished by the McLean Garden Club, in charge of Mrs. D. A. Davis, president. The judges will be complimented with a luncheon at noon.

H. D. CLUB TO MEET

The McLean Home Demonstration club will meet Friday afternoon at 2:30 in the home of Mrs. Ott Goodman.

Plans for achievement day will be made, and all members are urged to be present.

SCHOOL TAXES EQUALIZED

J. B. Pettit, Wheeler Foster and J. S. Howard have been serving as an equalization board for the school district this week and notices have been mailed to all property owners affected.

Mormons Are Off the Dole, Says President Grant

SIX months ago the Latter Day Saints church—otherwise the Mormons—inaugurated a program to make every able bodied member self-supporting by October 1. In the great tabernacle at Salt Lake City Heber J. Grant, president of the church, told an audience of thousands that the plan had succeeded and that the drive had taken all the needy members off public relief. The church has consistently opposed "pay without work."

In reading his report President Grant took occasion to criticize the Townsend pension plan and government control of crops, and he warned the members to avoid "political entanglements."

Under the church relief drive, land was leased and the needy provided with implements for tilling. Womens groups have made clothes and bedding. Members have contributed the financial equivalent of two meals monthly to a special fund.

In scattered storehouses, Mr. Grant reported, supplies have been laid up in generous quantities for distribution among the needy who helped produce them.

Under the program, the speaker declares, "the curse of idleness would be done away with, the evils of a dole abolished, and independence, thrift, and self-respect will be once more established amongst our people."

Social Security Act Is Due for a Court Test

UNITED STATES DISTRICT JUDGE C. B. KENNER of Montgomery, Ala., issued an order halting collection in Alabama of a one per cent payroll tax to finance the unemployment program. The result, it is expected, will be a clear cut test of the validity of the New Deal's social security act, for lawyers had no doubt the case would be carried to the United States Supreme court. The order was granted the Gulf States Steel corporation of Gadsden, Ala., on a plea that the unemployment insurance program, operated in co-operation with the federal government, violates both state and federal constitutions. A Supreme court hearing would carry the threat of possible invalidation of insurance and pension programs now under development in the several states.

Chicago Meat Packers Cited by Wallace

CHARGES of engaging in unfair practices have been filed against the Armour and Swift meat packing companies of Chicago, and Secretary of Agriculture Wallace has cited them for a hearing in New York on November 2, for violation of the packers and stockyards act of 1921.

According to Dr. A. W. Miller of the bureau of animal industry, the complaint was based on the charge that the packers had been obtaining business in violation of the law from steamship companies in New York.

Under the alleged illegal arrangement, Miller said, Armour and Swift had arranged a reciprocal agreement by which they sold meat to the ship owners and in return sent their exports abroad in their ships.

Another charge was that the packers had extended credit for longer periods for favored customers than for others.

Test Cases Started Under Robinson-Patman Act

THREE complaints were filed by the federal trade commission under the Robinson-Patman act, naming five concerns, launching the first move to test its powers under this far-reaching legislation which forbids the granting or receiving by merchandisers of discriminatory price discounts in interstate commerce.

The complaints named Montgomery Ward and Company, Inc.; Kraft-Phenix Cheese corporation, Chicago; Shefford Cheese company, Inc., Syracuse, N. Y.; Bird and Son, Inc., and Bird Floor Covering Sales corporation, East Walpole, Mass.

Montgomery Ward and Company is named jointly with Bird and Son and the Bird Floor Covering Sales corporation, a subsidiary. The complaint contends that the two Bird companies sold floor coverings at substantially lower prices than to competing retailers.

Kraft-Phenix Cheese was charged with discriminating in price between purchasers, with the alleged effect of lessening and injuring competition between it and other manufacturers and distributors of similar products. Lessening of competition between customers of Kraft-Phenix was also alleged, and some of them

were alleged to have received favored prices.

In filing its bill of complaint, the commission pointed out that no allegation was made of "bad faith or any subterfuge or secrecy on the part of Kraft-Phenix in connection with its price policy."

Charges against Shefford Cheese were substantially the same as in the case of Kraft-Phenix.

Secretary Ickes Reports Alleged Collusive Bids

SECRETARY OF THE INTERIOR ICKES referred to the Department of Justice for investigation two new instances of alleged collusive bidding for federal construction material contracts. The charges are against seventeen copper cable and steel tubing firms. The Justice department already has under investigation previous charges made by Ickes of collusive bidding on steel contracts.

The projects affected were the North Platte reclamation development in Nebraska, and the Grand Coulee Dam in the Columbia river basin of Washington.

Many of the bids in both cases, said Mr. Ickes, were identical. However, in each case at least one bidder submitted different and lower figures, and the contracts were awarded.

Former Ambassador Straus Taken by Pneumonia

JESSE ISADOR STRAUS, merchant prince and, until his resignation last August, American ambassador to France, passed away in his New York home at the age of sixty-four. The immediate cause of death was pneumonia, but Mr. Straus had been in ill health for some time, this being the reason for his retirement from the ambassadorship.

Graduating from Harvard in 1893, Mr. Straus began work as a bank clerk. In 1896 he obtained employment with R. H. Macy & Co., big New York department store, and by 1919 was its president, holding that position until he was given the Paris post by President Roosevelt in 1933. He was a Democrat and was a member of the board of overseers of Harvard and of the American Academy of Political and Social Science. He maintained a country estate at Mount Kisco, N. Y., as well as a city apartment.

Italy's Cabinet Votes to Devalue the Lira

FOLLOWING the example set by France and other countries, the Italian cabinet voted to devalue the lira, setting its value at approximately 5.2 cents, as compared with the latest previous figure of 7.5 cents. The cabinet also let it be known that it would take action to prevent rent and price increases; and it voted a new 5 per cent capital levy to which property owners are obliged to subscribe to the extent of 5 per cent of their wealth.

The gold value of the lira was placed at 4.677 grams of gold for each 100 lire. Gold reserves of the Bank of Italy will be revalued on the basis of the new lira with the surplus to be placed at the disposition of the treasury.

French Communists and Fascists Clash

FRANCE may be on the verge of a civil war between Communists and Fascists comparable to the terrible conflict in Spain. In Paris desperate fighting already has begun. The Reds, numbering many thousands, and the nationalists, under orders from Col. Francois de la Rocque whose Croix de Feu organization was disbanded by the government, undertook rival demonstrations; and the result was a day-long series of street battles in which hundreds were wounded. Order was finally restored for the time being by a force of 12,000 republican guards and police.

The Nationalist-rightists said the fighting "was only beginning." Troubles resulting from devaluation of the franc would be severe and numerous, they predicted. Leftists charged the battles were part of a rightist plot to provoke trouble for the Socialist government.

In London, also, there was a big riot in which a hundred persons were injured. Sir Oswald Mosley's Black Shirts, a Fascist organization, planned a parade but Communists and Socialists numbering 100,000 were determined to prevent it and battled with a big force of east end police to get at their enemies. The authorities forbade the parade as scheduled but the opposing mobs got together in various localities and fought desperately. Sir Oswald issued a statement charging that "the British government has openly surrendered to Red terror."

FAMOUS HEADLINE HUNTER

FLOYD GIBBONS

ADVENTURERS CLUB

Hello Everybody

"Death Dive"

By FLOYD GIBBONS

YOU know, boys and girls, it's always the unexpected thing that makes all the trouble in this world. If a man could foresee everything that was going to happen, he could do pretty well by himself in the matter of keeping out of jams.

But no matter how carefully you do your figuring, there's always something you forget to take into your calculations, and that's always the thing that makes everything go haywire.

Maybe we're lucky that we can't foresee everything. Life would be pretty drab if we always knew just what was going to happen. There'd be no adventures, and there'd be no Adventurers club.

Take the case of just one man for example. He is Gene Hamilton of Jackson Heights, N. Y., and he most certainly would not have made the Adventurers club if he had been able to calculate correctly before he took a walk sixty feet above the river that day back in 1919.

"Head Man" of Kid's Gang Takes Tough Assignment

In 1919, Gene was just ten years old, and the unofficial leader of a gang of kids in the town of Bridgeport, Michigan. Gene held his leadership over those kids by always being the first one to try any new stunt or do any new trick. And it happened that there was a new stunt to be tried.

For weeks, that gang of kids had been watching the building of a new railroad trestle over the small river that ran between Saginaw and Bridgeport. It was all but completed, and ten-year-old Gene had announced that he was going to be the first one to walk across it.

The kids thought it was pretty brave of Gene to walk that trestle. It was sixty feet high, and to a kid it looked like a hundred. And to make matters worse, it was only a single track affair and if a train ever caught you while you were on it—well—it was just curtains, that's all. But to Gene it didn't look like such a tough assignment.

Gene Was "Cagey" in Learning Train Schedules

The only thing he was afraid of was the height, because, unknown to the other kids, he had made a few inquiries and found out at just what

The Ugly Iron Monster Was on the Bridge Now.

time the trains went by. According to his calculations walking that trestle would be just as safe as walking across the old foot bridge a little way down the river.

But you know, and I know that calculations aren't worth a darn when the unexpected starts to happen! The day the bridge was finished, Gene started his epochal trip across it. Leaving the other kids standing at the foot of the embankment he climbed up to the train level.

By the time he reached the top it began to look higher than it had from below. He set his foot on the first tie, looked at the water rippling along far beneath him and began to wish he hadn't started that trestle walking business in the first place.

Train Whistle Interrupts Boy Hero's Trestle Stroll

The trestle looked a mile high and a mile long. He hesitated, but the kids, seeing that, set up a derisive yell. Gene bit his lip and moved on.

"I took ten—fifteen—twenty steps," he says. "Then I stopped. There was no walking space—no girders—nothing on either side of the narrow track that I could jump to in case a train should come along. Funny I hadn't noticed that before. With my heart in my throat I started again. It wasn't long before I had reached the middle, but the force of the wind on my back and occasional glimpses of the water far below were adding to my uneasiness.

"I heard a distant cheer from my pals. And then—I heard something else!" What Gene heard was the unmistakable note of a train whistle—and the whistle was close by.

It Looked as Though Little Gene's Goose Was Cooked

In a panic he looked ahead. Nothing there. Balancing carefully on two ties he turned around. Not three hundred feet away and coming at express speed was—the repair train!

The repair train! That was something Gene hadn't taken into his careful calculations. "It was evident that the engineer didn't see me," he says, "and I knew, from having seen many trains stopped, that this one could never be brought to a halt in time to save me. It would be equally impossible for me to beat that train across the trestle. If I tried to run, my legs would slip through the wide-spaced ties. And there was nothing to cling to on either side of the trestle, either. It looked as though my goose was cooked."

The ugly iron monster was on the bridge now. Gene heard cries from below and the shrill screaming of steel on steel as the engineer ties he saw the water—it seemed to be miles away—and he knew that to jump was the only possible way to save his life.

Submerged Piling Nearly Digs Him a Watery Grave

Still the engine came on. Gene felt the heat of it on his bare legs, and then he threw himself sideways, lashing out with his arms in a desperate hope that he might find something to cling to. With a burst of steam and a grinding of wheels, the train slid by above him. His leg bumped something. He clutched aimlessly at the empty air, and then he was falling—falling.

Says he: "The rushing air first cleared my head, then I felt faint. A sharp, tearing ache seemed to come suddenly in my left shoulder; then—oblivion!"

When Gene came to again there was no pain in his shoulder. It was in a cast, and he was in the hospital. He had fallen on an old piling near the spot. Gene might have finished his trestle walking stunt in a watery grave. "So," he says, "trains hold little attraction for me. Nowadays, whenever possible, I do my traveling by plane or boat."

Jonquil and Narcissus

The name jonquil is often hardy narcissus. They are really a distinct species, distinguished by nearly round, rush-like foliage and small golden-yellow, medium to short-cupped flowers, usually borne more than one on a stem, and have a more marked fragrance than most other types. Daffodil is a common name applied to any kind of narcissus, but which correctly refers to several of the hardy type, especially the larger, single flowered trumpet sort. It is not the same as a jonquil.

The Link

Although it has a well-developed personality of its own, the mink (putorius vision) is in many respects a sort of compromise between a weasel and an otter, says an authority in the St. Louis Globe-Democrat. Bigger than a weasel, it is not so large as an otter. Its tail is bushier than a weasel's, but not as thick and heavy as an otter's. Although a good swimmer, it does not devote itself to an aquatic existence. And on the other hand, when on land it generally stays on the ground.

BRISBANE THIS WEEK

One Human Shipload
A Floating Microcosm
Intelligent Mrs. Widener
Mrs. Astor and Dr. Carrel

On Board the Normandie.—The ancient writer made this admission:

There be three things which are too wonderful for me, yea, four which I know not:

The way of an eagle in the air; the way of a serpent upon a rock; the way of a ship in the midst of the sea; and the way of a man with a maid.

What would that inspired

writer say of this modern ship in the midst of the sea? The biggest ship he ever saw could be hung from the ceiling of the dining salon on this boat or tucked away in a corner of the sun deck, disturbing no one.

A modern ocean liner, Queen Mary, Normandie, Rex or Europa, as it crosses the ocean indifferent to waves and winds, is a small world in itself, a microcosm, with this little earth playing the role of "Cosmos." If this ship should sail to some new, uninhabited island of Utopia, it might supply everything necessary to start a new civilization better than the one invented by Sir Thomas More, who has been made a saint since he wrote "Utopia" to amuse himself and had his head cut off for his Catholic faith.

On board, with his friend, George Bacon, is Myron Taylor, head of the United States Steel company, biggest industrial unit on earth. He would supply the material for skyscrapers, ships, railroads and machinery, plus organization. Simon Guggenheim would tell them how to make corporations profitable, by "holding on."

Various newspaper workers on the boat would be ready to start "the New Utopia Gazette"; Floyd Gibbons for war correspondent, plus members of the Edward H. Butler family, that own the Buffalo News, and the able Abraham Cahane, known to more New Yorkers than any editor in America, with one exception. And, most important to newspaper prosperity, the ship carries Mrs. George D. Widener of Philadelphia, who has traveled up and down in every corner of the earth and says to your narrator:

"Mr. Brisbane, I have always wanted to meet you, because I read your articles every day."

There spoke the nucleus of a highly intelligent reading public.

Mrs. Vincent Astor, on her way back from a grouse moor in Scotland, would resume her real job of promoting deep music, finding co-operators in the passenger list—Madame Flagstadt, the admirable Norwegian singer, a deep soprano able to make Isolde more impressive than Wagner ever imagined her. On board also is Arthur Bodanzky, ready to conduct the "New Utopia orchestra." Mayor LaGuardia of New York will tell you how earnestly Mrs. Astor talks to him about her plans for a great musical center. But Mr. LaGuardia will never know what shudders would sweep from Ward McAllister's pineal gland to his Achilles tendon if he could hear Mayor LaGuardia say of the young lady in question, "That Mrs. Astor is a nice, serious girl, thoroughly in earnest."

To make this list complete, P. G. Wodehouse is on board, one who could and should describe this shipload of "important humanity" going nowhere in particular, for no reason in particular, some in the steerage, some "tourist" and some, with cabins on the sundeck, whose names break up passenger list continuity to make room for the magic words "maid, valet and chauffeur."

The contest between modern ships for the "Atlantic blue ribbon," or ocean championship, held at this moment by the British Queen Mary, supplies most amazing proof of modern engineering efficiency. Consider that, in a race across 3,000 miles of water, the Queen Mary, after being beaten several times by the French liner Normandie, beat the latter and took the Atlantic blue ribbon by a margin of less than half a mile, across 3,000 miles of ocean.

The oftener you cross, the more clearly you realize that the ocean is a great deal too big for our small planet. It is all one ocean—Atlantic, Pacific, Arctic, Antarctic, all touching—water covering three-quarters of the earth's surface.

Consider the Pacific; take your world map, Mercator's projection, fold it over from Asia toward New York and beyond. It will cover the United States, the Atlantic ocean and all Europe to the Bosphorus.

Good health and success go together. Handicap yourself—get rid of acid condition with easy Maltin's original milk of magnesia. Each water equal to 200 grains of magnesia. Neutralizes acids and promotes elimination. 20c. Maltin's.

"Old Oaken Bucket" in a Colorful Pattern

So dear to our hearts—the "Old Oaken Bucket," a wall panel in its memory—broader for spring. Such a like scene, this, which is for quick embroidery, with and running stitch used, and only a smattering of

Pattern 1067

knots. No frame is needed. Lining.

Pattern 1067 comes in a transfer pattern of a 15 by 20 inches; a color key; material requirements; instructions of all stitches used.

Send 15 cents in stamps (coins preferred) for this to The Sewing Circle, Dept., 82 Eighth Ave., New York, N. Y.

Write plainly pattern and your name and address.

Week's Supply of Pectin

Read the offer made by the Company in another part of the paper. They will send a full supply of health giving Pectin to anyone who writes for it.

Your Share—People who won't eat pie shouldn't complain of the shortage of starlings.

LOOSENS TIGHT SCALP

Massage your scalp to loosen it, prevent dandruff. The 10c size contains as much as the 5c size. Demand Maltin's.

MOROLIN

SNOW WHITE PETROLEUM

Reason Enough

Man is the only animal who blushes. The other animals need to.

A Three Days' Cure Is Your Danger Sign

No matter how many times you have tried for your cough, cold or bronchial irritation, get relief now with Creomulsion. Serious trouble may be brought upon you if you do not get relief now with Creomulsion. You cannot afford to take a chance with anything less than Creomulsion, which goes right to the source of the trouble to take away the germs—loosens the bronchial tubes as the germ-killing Maltin's. Even if other remedies failed, don't be discouraged. Creomulsion is authorized by the U.S. Government and is the result of the very best scientific research.

ITCHING SCALP

For annoying itching and unsightly dandruff, use Glover's. Start today with Glover's Mange Medicine. Maltin's Medicine and follow with Glover's Medicated Soap for the shampooing. Sold by all Drug Stores.

Works Reform—One does not wish to reform him, but to love him.

When Women Need Cardui

If you seem to have lost your strength you had better try Cardui. It is a work . . . and care less about meals . . . and suffer from Cardui. Thousands and thousands of women say it has helped them. By increasing the appetite, improving digestion, assisting in getting more nourishment, Cardui returns, unnecessary troubles, aches, pains, and nervousness seem to go away.

WEALTH AND HEALTH

Good health and success go together. Handicap yourself—get rid of acid condition with easy Maltin's original milk of magnesia. Each water equal to 200 grains of magnesia. Neutralizes acids and promotes elimination. 20c. Maltin's.

school: adult dept., Mrs. Teeters; intermediate, Mrs. Oma Cope; junior, Mrs. Gladys Crossland. Workmen are rapidly constructing classrooms for the benefit of the Sunday school and B. T. U. Four new rooms are being added, making a total of eight classrooms. Attendance in Sunday school and B. T. U. is increasing each Sunday. Rev. I. J. Lloyd, pastor, and student in Wayland College, preached at his regular appointment here Sunday.

DEPARTMENTAL WORK

Departmental work in the fifth, sixth and seventh grades is being carried out in Gracey school. W. W. Brister teaches history and is home room teacher for the seventh grade. Lavern Gergg teaches mathematics and keeps sixth grade home room. Maxine Robinson has fifth grade home room and teaches English. This work departmentalized is proving to be a success. This is the second year that this school has used this system.

NEW BELLS INSTALLED

Owing to the fact that classes change every forty-five minutes, a new bell system has been installed. This system is complete now with an electric bell in each room. The old gong will be used as a fire alarm.

LOCALS

Mrs. Hayhurst was a recent visitor at school. She is room mother of the second grade. Mrs. Forrest Cecil visited the fourth grade room Thursday afternoon. Mrs. Dennis visited school recently. Mr. and Mrs. Arty Wilson and family of Seminole, Okla., are visiting Mr. and Mrs. Ray Carter of Kellerville.

The teachers of Kellerville: W. W. Brister, Mrs. Lavern Gregg, Miss Robinson, Mrs. Rice and Miss Christine Legg, attended a teachers meeting in Wheeler last Saturday. Miss Legg was appointed a member of the program committee of the Wheeler County Teachers Association. Mrs. Culwell visited school Thursday afternoon. Mrs. McAnally was a recent visitor in Mrs. Rice and Miss Robinson's room.

Miss Christine Legg attended a show in Pampa Tuesday night. J. D. Dorsey, a student here last year, is visiting in Kellerville at the present time. He accompanied his father, Fred Dorsey, from their home in Wellington.

Ernest Dowell is confined to his bed. The staff joins his friends in wishing him speedy recovery. O. C. Cummings is ill with pneumonia at a Pampa hospital. The report has been given that he is worse.

Soccer ball is all the swing at the Kellerville school. Some have been asking about a PTA organization. Wilfred Newberry left Friday for Wichita, Kansas, to visit relatives and friends for a few days. Wilfred came to Kellerville from Kansas at the beginning of this school term. He is a student of the seventh grade.

NEW BUS STATION BUILT

The children from the Royal Oil and Gas camp are proud of the fact that they have a new bus house to wait in on these cold and rainy mornings. This building is located just north of the main camp, and will accommodate a large number of children. Other companies are planning on building stations, soon. The Skelly has had a station for three years.

A VISIT TO A PACKING HOUSE

By T. J. Saye While I was visiting in Oklahoma City last week, I went to the stock yards to find out how packing house meats were prepared. A guide took us through the plant. We saw how the beef was killed and cut up. Hogs, chickens and sheep were also slaughtered there. There were many interesting things to be seen. About the most interesting thing was the preparation of weiners.

FIRST YEAR HISTORY

The first year history class is now studying the travels of the Spanish explorers. Much interest is being taken in this work. Maps have been the feature study for this week's work. The following students are enrolled in this class: John Carter, John Chapman, Frankleen Seeley, Frances Hardin, Sonny Saye, Ruth Wright, Doris Linton, Velma Muldrew, Dorothy Fay Cox, Peggy Ruth Mashburne, Lorene Collins, Dale Ware, Sally Lou Sagner, Giennes Savage, George Smith, Thelma Whitley, Marion Ware,

Marvin Hill, Frank Kendall, Jack Cope, Clifford Sneed, Freeman Harris, Ernest West, Albert Beery and Edward Sargent. The next period of work will be with the English explorers in the America of long ago.

EXAMINATIONS BEING HELD

Six weeks' examinations are being held this week. Much effort has been put forth by teachers and students to make a high average for the first six weeks. Model questions are being taken from the Harlow six weeks tests.

SPELLING LESSONS

The following pupils made good scores on their spelling test for Thursday: Flint Berlin, Mace Jones, Bessie Lee Mashburne, Mildred Durrett, R. W. Osborn, Vergil Rae Smith, Sammy Hendren, Charles Carter, Herman Moody, Walter Harris, Juanita Campbell, Virginia Blackerby, Ernestine Shelburne, Maxine White, Clayton Mullin, William Marshall and R. L. Gilmore.

FIRE DRILL

Since this is fire prevention week, the fire alarm goes off frequently. Thursday it took the 166 pupils three quarters of a minute to clear the building. Friday is fire prevention program.

PLAY PRACTICE PROGRESSING

The practice on "Lighthouse Nan" is progressing nicely, with Ichabod Buzzer getting flogged by the wife and flower of his bosom, Molly Buzzer. Ichabod loses his spirits to his beloved wife, and so he just presents her with the cork also. Who is Nan's real father, Injun Jim or Mr. John Enlow, a Seacoast banking director? Honorable Sarah Chumley-Choke carries herself nicely through the role of a dignified city girl that must have a room with a bath. Ned Blake falls for this nymph of the sea, which is Nan, but Sir Arthur Choke thinks he has a chance of winning her hand. Come see for yourself the night of the carnival. It is going to be a scream.

FIRST GRADE NEWS

A doll house project was started this week in the first grade. This project is being correlated with the various subjects of this class. The furniture is being made from cigar boxes sandpapered down to a good finish and then painted. While the boys are busy with their open saws and hammers, the girls are busy making scarfs, luncheon sets, sheets and pillow cases. Pillows for the davenport, and curtains for the windows are also being made. The question of designing the wall paper and the weaving of the rugs seems to be of great interest among these small people. Miss Legg states that this project will take some time and a lot of consideration before it is completed. We are sorry to report the illness of Finis Hansard, who is sick with pneumonia. The canary bird seems to be happy over his new cage furnished by Mrs. Frank Seeley.

CHAMPLIN BUILDS STATION

The Champlin Oil Co. has built a new bus station for the children of that camp to wait in for the buses. This house is just across the road from the Tulsa Rig and Reel. About twenty children wait at this place for transportation each morning.

SIXTH GRADE

Mrs. I. D. Blackerby and daughter, Virginia, visited in Amarillo Monday. Virginia Blackerby and Juanita Campbell have been exempt from their spelling examination by making perfect lessons thus far. The sixth grade wonders why Misses Legg and Robinson always find someone to rock, not with a rock but on their laps? Do not get misled, it is their pupils. In one sense of the word, we were glad it rained, because it brought Clayton, William, and R. L. back to school.

SEVENTH GRADE

Examinations have been the theme this week. Oh! What do they have such things for? I do not see any use in them, you just funk and everything. (Quotations from a seventh grader). Clifford and Kenneth Young were absent from school Thursday. Jean Durrett is not able to be in school yet. Junior Crossland and Happy Bullard are turning out to be the poets of the seventh grade. When they

write a poem about the teachers, and give one teacher a little more praise than they do another, boy—the fat gets in the fire. Oh, no, we just have a right smart of fun about it. We are very sorry to lose Marie Smith from our class. She is moving to Plainview. Great care is being taken in the care of our mouth and gums in this grade. Antiseptics, etc., are being brought to school.

SECOND AND THIRD GRADES

Katherine Sneed is absent from school at present. She is visiting her mother, Mrs. Rainwater, in Oklahoma. We had a throat and mouth inspection this week. Many cases of sore throat were found, but everyone is doing his best to do better. We have received our new language books, and are very glad to get them. Patsy Ruth McIntyre is absent from school. James Saye is ill at his home with cold. Doris Smith has moved to Plainview.

Editor's note: We were forced to omit some articles from this school paper this week for lack of space. Teachers are requested to hold their copy down to two columns in length.

Tom Wood, publicity manager for the Will Rogers Highway Association, was in McLean Monday.

Mr. and Mrs. L. S. Chhism returned Sunday from a visit to Russellville, Ark.

EAT WITH US Our fine cooked meals will please the whole family. Quality food and service.

MEADOR CAFE "Always Something Good"

Miss Fern Landers of Vega, Mr. and Mrs. V. B. Reagor and son, Jimmie; and Miss Marie Landers of Amarillo visited home folks here last week.

T. J. Coffey orders The News sent to his nephew, John Boyd Coffey, at Kermit.

The News editor acknowledges with thanks an invitation to act as judge in the Pampa flower show.

Mr. and Mrs. T. A. Landers and daughter, Miss Madge, visited relatives in Amarillo Sunday.

Mr. and Mrs. Dewey Campbell and son visited in Lawton, Okla., over the week end.

W. P. Clark of White Deer was in McLean Monday.

Walter Davis of Shamrock was in McLean Sunday.

Jas. F. Heasley was in Pampa Monday.

Mr. and Mrs. R. E. Paige of Lefors visited the lady's parents, Mr. and Mrs. D. A. Davis, Saturday night.

Mr. and Mrs. Lloyd Rhodes and son of Hobart, Okla., visited in the Nelson Anderson home Sunday.

J. B. Pettit was in Amarillo Friday.

Sammie Cubine made a trip to Detroit, Mich., this week.

W. P. Dial of Memphis was in McLean Saturday.

Mrs. Paul Mertel returned Sunday from an Amarillo hospital.

C. G. Nicholson was in Pampa the first of the week.

BLEEDING GUMS HEALED The sight of sore gums is sickening. Reliable dentists often report the successful use of LETO'S PYORRHEA REMEDY on their very worst cases. If you will get a bottle and use as directed druggists will refund money if it fails. CITY DRUG STORE

OF INTEREST TO THE HOUSEWIFE

Use two spoons for turning a roast. A fork pierces the surface and allows the juice to escape.

Sandpapering baby's shoes before they are worn prevents slipping and saves many a fall.

To remove lime which accumulates on the inside of a tea kettle boil a strong solution of vinegar inside of the kettle, then rinse thoroughly before putting in water.

Always store baking powder in a tightly covered container. If it is exposed to the air some of the strength will be lost.

Flaked salmon and chopped cucumber pickles moistened with mayonnaise makes a tasty sandwich filling.

Now Ease Neuritis Pains Fast

Bayer Tablets Dissolve Almost Instantly

In 3 seconds by stop watch, a genuine BAYER Aspirin tablet starts to disintegrate and go to work. Drop a Bayer Aspirin tablet into a glass of water. By the time it hits the bottom of the glass it is disintegrating. What happens in this glass . . . happens in your stomach.

For Amazingly Quick Relief Get Genuine Bayer Aspirin

If you suffer from pains of neuritis what you want is quick relief.

Genuine Bayer Aspirin tablets give quick relief, for one reason, because they dissolve or disintegrate almost instantly they touch moisture. (Note illustration above.)

Hence—when you take a real Bayer Aspirin tablet it starts to dissolve almost as quickly as you swallow it. And thus is ready to start working almost instantly . . . headaches, neuralgia and neuritis pains start easing almost at once.

That's why millions never ask for aspirin by the name aspirin alone when they buy, but always say "BAYER ASPIRIN" and see that they get it.

Try it. You'll say it's marvelous.

Act from conviction, not from convention.

Why Laxatives Fail In Stubborn Constipation

Twelve to 24 hours is too long to wait when relief from clogged bowels and constipation is needed, for then enormous quantities of bacteria accumulate, causing GAS, indigestion and many restless, sleepless nights.

If you want REAL, QUICK RELIEF, take a liquid compound such as Adierika. Adierika contains SEVEN cathartic and carminative ingredients that act on the stomach and BOTH bowels. Most "overnight" laxatives contain one ingredient that acts on the lower bowel only.

Adierika's DOUBLE ACTION gives your system a thorough cleansing, bringing out old poisonous waste matter that may have caused GAS, pain, sour stomach, headaches and sleepless nights for months.

Adierika relieves stomach GAS at once and usually removes bowel congestion in less than two hours. No waiting for overnight results. This famous treatment has been recommended by many doctors and druggists for 25 years. Take Adierika one-half hour before breakfast or one hour before bedtime and in a short while you will feel marvelously refreshed. Leading Druggists.

HELP TIRED FEET

Warm bath with Cuticura Soap greatly soothes and benefits. Then apply Cuticura Ointment—effective treatment and medication for local irritations. Try it tonight. In morning, dust with Cuticura Talcum to help prevent shoe discomfort. FREE samples by writing Cuticura Dept. 31, Malden, Mass.

CHAPTER X—Continued

—23—

"I suppose you did the noble rescuer act and brought Deborah home again? The poor little country girl lost in the big city?"

"Something like that," Bryn agreed equably.

"And you've been hanging around here ever since?"

"Hanging around ever since," Bryn repeated quietly. "And, now that you know all about me, I should like to discuss with you your own position here. Unfortunately, there was no time, after your letter arrived, to get an answer to you; or we might have spared you the trouble of this trip."

"What do you mean, spared me the trouble of this trip?"

"Surely you understand that it was quite useless for you to come here, Graham. You must know that you put yourself quite out of the picture by your actions in San Francisco."

Graham's voice thickened. "That's your fault."

"I don't think so. It was fortunate for Deborah that somebody happened along to help her, but she would not have married you, Graham, even if she had to work the answer out for herself. She was quite unprepared for the way in which you greeted her. It was entirely your own fault. If you had taken the trouble to act as a gentleman for the short time it was necessary to spend with her, she would have married you. She expected to marry you. I was only a chance passer-by."

"Is that so?" Graham said through clenched teeth. "It's a damned lie. What you think you'll get out of it, I don't know. Who the devil are you? This is my business."

"No," Bryn said slowly. "Not any longer."

Graham's eyes narrowed. "Why?" he inquired. "Go on. Try your story out on me. See how far you get."

Bryn regarded him. "Very well," he said. Then, "You came up here expecting eventually to marry her. Am I right?"

"Apparently you have already read my letter."

"Yes. Well, Deborah won't marry you. That's final."

"Oh," Graham murmured scathingly. "So that's final, is it? And I suppose she's scared to see me and tell me herself, is she?"

"It isn't necessary for her to see you," Bryn explained. "Her marriage with you no longer depends on her own choice. She can't marry you. Even in case, like our friend of the jungle, you had changed your spots. She can't marry you because she is already married. To me."

For half a minute Graham stood perfectly motionless, staring at him. Then he moved back a step and folded his arms. "Do you expect me to believe that?"

"I hoped you would."

"Well, I won't. It's a damn lie. She wouldn't marry you. She couldn't marry you. I know the family. I know the circumstances they're in. I've had plenty of letters from the grandmother, and the girl, too. There isn't a chance in the world that she'd have married you."

"Why?"

"You know d—n well why. In the first place, she loses her property. In the second place, the old woman wouldn't hear of it for a minute, property or no property. She'd starve first. I'm the only man in the world they'd marry the girl to, and you know it. Oh, I get the situation. I'm not entirely dumb. I can see that you're in love with her, and she's in love with you, but that doesn't change the situation any. She isn't married to you. She wouldn't do it. She hasn't got the courage. And she wouldn't take a chance of breaking the old woman's heart."

"What proof will you take?"

"None," Graham said flatly, "except a statement from Mrs. Larned herself."

Gary lifted his head. "They are married," he said to Graham. "It's the truth. It's nothing but the truth he's telling you."

Graham's eyes shifted to Gary's honest old face. His expression changed slowly. It lowered, darkened. His lower lip thrust itself out.

"If they are," he began, "there's something fishy somewhere. There's something . . . after all this talk about marrying her to me. To a Graham. Where's the catch? He injured his chin. 'I get it,' he said at last succinctly. 'I get it now.'

Bryn waited.

"So that's your game in meeting me here and trying to scare me off, is it? That's your game. Yours and the girl's. After all her mollycoddle looks. Pretty cute."

"Just exactly what do you mean?"

The key note in Bryn's voice did not curb Graham's rising pride in his own cleverness. "You don't want me to see the old lady," he announced. "And why? Because it will spoil your game. There's some reason why it will spoil your game."

"Look here," Bryn said coldly, standing up. "I'm telling you the truth, Graham, and there's no game about it. Deborah is married to me. We were married three days after she met you there in San Francisco, as soon as we could get a license. It was her twenty-first birthday, the day she would have married you if you'd been decent to her. Why you come up here now, I don't know. By the terms of the will, it's too late for you to marry her and collect the estate, even if she weren't already married to me. I suggest that you forget it and go back to your ship. I will get you proofs of our marriage; possibly you are entitled to that much; and then you must see that there is nothing at all to be gained here, and that you may as well go."

Graham was smiling, an evil, knowing smile. "Nothing to be gained . . . by me," he said softly.

"What do you mean?"

"You've filled in the picture pretty well, haven't you? But you know too much about that will, and the estate. It seems to me the trouble I could make, my cocky young friend, would be to tell the old lady who I am, and who you aren't."

Bryn waited.

"That's the lay," Graham said. "You've married my girl, and now you're passing yourself off as me. You must think I'm a damn fool. And at the end of the year, if nobody spikes your plans, you'll get the million dollars that ought to be mine. And you have the everlasting guts to tell me to get out of here in peace and let you get away with it!"

Bryn began to whistle tunelessly between his teeth.

Tubby stepped suddenly through the open door. "Look here, Bryn," he said, "what's the use of trying to talk sense to him?"

Tubby was followed closely by Simon. At their sudden appearance, Graham moved back a step, stealthily. Something in his pose caught Bryn's eye, and without stopping to think, he hurled himself forward on the burly figure and flung it backward. Graham, taken by surprise, fell heavily. In a second, Tubby and Simon were into the melee. Bryn, sitting on the recumbent man's chest, handed something to Simon. "He had a gun," he explained.

Bryn rose. "Get up," he said to Graham. "We'll put you in the milk house and let you think it over. Maybe you'll begin to come to your senses."

"You can be arrested for this," Graham threatened, struggling to his feet.

"I don't think so," Bryn said mildly. "This is my lawful residence. You came here uninvited, threatened me, and drew a gun."

When dinner was over, grandmother rose and patted Tubby's hand gently. "And now," grandmother said happily, "let us go out and sit on the veranda. It will be a beautiful evening."

"I'm afraid it will be chilly," grandmother said quickly. "We can open the drawing-room windows wide, and see the moon from there, can't we?"

"You are much too careful of me, my boy," grandmother said with affection. "It is not in the least chilly."

The moon had risen already, and lay, a great round silver lantern, on the tops of the rolling black hills to the west.

"Let's play games," Tubby said cheerfully. "It isn't late. It's only about half-past seven. Something loud and cheerful."

"It doesn't seem just the night for loud cheerful games," grandmother protested. "It's a dreamy sort of night, my boy. Couldn't we just sit and talk, quietly, and look at the moon?"

Deborah's eyes met Bryn's as he sat at her knee. She turned away from him quickly, conscious of Pilar watching them, being miserable and unhappy and lonely and . . . beaten. Bryn didn't love Pilar. Bryn didn't love Pilar . . . the words sang in Deborah's heart so loudly that she was almost afraid Pilar would hear them. He had said . . . "I love you."

There was a sudden loud noise, to Deborah's ears a man's unmistakable cry. Grandmother started forward in her chair. "Bryn," she said quickly. "Surely that is a man's voice!"

Bryn stood up. "It's steam escaping, Grandmother, that's all," he said reassuringly, and then, "Let's not stay here and have it worry you. It may go on for some time. How would you like to go for a little drive with me? You haven't been in the car for a long time."

"I think I should like it very much," she replied hesitantly. "But that noise . . . are you sure . . ."

"Positive," Bryn said definitely. He offered her his arm and led her down the steps.

They were gone.

Deborah, after a little, remembered Pilar, and turned to her. "I'm sorry, Pilar," she said politely. "I forgot that you don't know what this is all about."

"I do know," Pilar murmured. "Bryn has told me the whole story, of course."

"I see," Deborah said slowly.

Tubby straightened. "Why do you say of course, Pilar?"

She glanced at him. "It is a natural thing to say, surely?"

"No, it is not. Not under the circumstances. You would suggest to Deborah that Bryn goes to you as a matter of course with all his concerns and interests?"

Pilar rose. "I do not mean to suggest anything in particular to Deborah," she said coolly. "But if she chooses to be reminded that Bryn always has come to me with his interests and concerns, that is no fault of mine. It is true."

(TO BE CONTINUED)

Water Wheels Used 65 B. C. Water wheels were known to have been used as far back as 65 B. C.

Uncle Phil Says:

And Get Nowhere

Life is an uphill road unless you stand still or sit down.

In this land of free speech, one is at liberty to criticize everything but children, mothers and dogs.

We hate to have people do things for us "because it is their duty to."

'Twas a Help

While laying so much credit to McGuffey's Readers for the right upbringing of boys, we shouldn't forget that the woodshed flourished at that period, too.

We don't ask for people to think seriously all the time; but we want them to be able to if necessary.

Young people think love is the most important. After awhile they find that success in life is equally so.

They Insist

There are men you first meet with indifference who know they are going to like them before they get through with you; and remarkably they win.

Is an open mind merely the losing of one's valuable convictions?

Genius is often painful to the possessor of it and all those close to him.

"All things come to him who waits"; but you have no idea

Just Actions

IT IS not possible to found a lasting power upon injustice, perjury, and treachery. These may, perhaps, succeed for once, and borrow for awhile from hope, a gay and flourishing appearance. But time betrays their weakness, and they fall into ruin of themselves. For, as in structures of every kind, the lower parts should have the greatest firmness—so the grounds and principles of actions should be just and true.—Demosthenes.

A soul filled with vanity has no room for charity.

what a lot of things (often unpleasant) come to those who don't wait.

Many tricks as well as crimes have been perpetuated in the name of freedom in all ages.

It requires some art to deliver a compliment and not do it awkwardly.

If one has a dominating personality, one ought to find it out early in life.

Floats 6,500 Miles

Floating 6,500 miles in the Bahamas, a bottle has been picked up by the navy hydrographic officer at Washington for record-making purposes. It was thrown into the sea off the coast of Virginia in 1930. Hydrographers say that in its journeys, the bottle has been acrossed the Atlantic.

McLean proved herself to be the perfect hostess, if remarks from visitors at Friday's celebration can be taken as evidence.

Small towns can only exist as their institutions prosper. Helping to build up the big town newspaper and big town stores is the best way to help kill the small town.

The Texas Weekly is running a series of articles on "Texas Cities of the Future" that are interesting, not only to those looking toward Texas, but to Texans as well.

T. E. Johnson knows how to keep a program moving along at a steady pace, better than any master of ceremonies we have seen in a long time.

Our readers will get full value for their money this week. Note the many columns of live news gathered from this and nearby communities.

"Come on, boys, and join our song and vote for the party, right or wrong," used to be the refrain just before election time, but times are different now, with bolters taking the platform and urging that party lines be forgotten for "the good of the country."

Several people asked to consult our newspaper files the past week to settle disputed questions. It is strange how people will so soon forget essential facts about local history, but as long as a complete newspaper file is available there need be no misunderstanding.

Visitors have remarked how much better the yards and out-door living rooms look in McLean than in some other town. The proper explanation may be that McLean gardeners are striving to plan their yards in accordance with the national better yards and gardens contest rules.

The annual contests sponsored by the Lions and Garden Clubs have been educational and should bear fruit for years to come.

There are certain fundamental rules in landscaping that tend to beauty and order that cannot be ignored, if the general result is to be uniformly pleasing. This does not mean that all yards should look alike, but that border and foundation plantings should be properly placed and that shrubs and flower plantings should harmonize.

Jericho Gap Becomes Just a Memory

The parade shows a part of the two-mile parade at McLean Friday, celebrating the opening of the Jericho gap. Lower right is the Heald Choral Club in full uniform. Center left is a section of the smooth highway over the gap. Lower left is a scene at the McLean-Pampa polo game which took place after the parade.

New garden enthusiasts join the ranks of those who are striving for better home and community surroundings each year, and we may look for better and more beautiful yards in McLean from year to year.

News from Heald

Mr. and Mrs. Arthur Reneau left Tuesday for Sunray to make their home.

W. L. Hinton returned Thursday from Plainview, where he spent the last week.

T. F. Phillips and son, Arvel, returned Wednesday from Fort Worth.

Mr. and Mrs. Will Haynes, of Weatherford, Okla., visited relatives here Friday. They were accompanied home by the former's father, J. A. Haynes.

Misses Vivian and Marie Smith of Kellerville spent Sunday evening with Mr. and Mrs. Arvel Phillips.

Mr. and Mrs. Jim Forbis and Bill Ledgerwood of Shamrock visited in the P. L. Ledgerwood home Sunday.

Mr. and Mrs. Frank Rodgers of Borger visited the lady's mother, Mrs. Callie Haynes, Friday.

Mrs. Bill Burton of Hobart, Okla., is visiting her sister, Mrs. Gilbert Bryan.

SERMONETTE

By Rev. Stephen M. Tuby Lutheran Pastor, Oviedo, Fla.

Vol. 3.

No. 39.

Text: "But as touching brotherly love ye need not that I write unto you: for ye yourselves are taught of God to love one another." -1 Thes. 4:9.

BROTHERLY LOVE

It is not necessary to tell a Christian to practice brotherly love, because if a person is a Christian, he knows his Christian duty to love his fellowmen even as he loves God.

Remember, a Christian loves because he loves his Lord and his fellowmen. However, as his faith increases his love also becomes greater.

News from Denworth

There were 68 present at Sunday school last Sunday. If you were absent, come next Sunday at 9:45. Rev. Gilliam of Kellerville will preach at 7:30.

Mr. and Mrs. Walter Meek and Mrs. E. E. Gething were in Pampa Saturday.

Mr. and Mrs. A. L. Michael and family, Mr. and Mrs. Bun Copeland and family, Mr. and Mrs. T. M. Wilkins, Billie Ferguson, Mr. and Mrs. Ernest Dowell and family were dinner guests of Mr. and Mrs. Vester Dowell Sunday.

Ollie and Homer Wilkins went to Littlefield last week.

Bob James, Floyd Gatlin, Mrs. J. W. Ivey and Charles Ivey went to Littlefield last week.

Mr. and Mrs. Fred Browning and family went to Wellington one day last week.

Mr. and Mrs. A. L. Michael and family visited Del Ellis at Shamrock last week.

Alice and Eva Dowell visited Betty Jean Webb Sunday afternoon.

Mr. and Mrs. I. D. Shaw, Jr., and little daughter visited the lady's parents, Mr. and Mrs. L. L. Morse.

Mr. and Mrs. Billie Nichols and family were in Pampa Saturday.

Billie Ferguson visited Donald Dowell Sunday.

Mr. and Mrs. Laurence Bourland visited the lady's parents, Mr. and Mrs. Charlie Cortis, Sunday.

Mr. and Mrs. Buck Hines of Pampa visited Mr. and Mrs. Chick Humphries Sunday.

Mother Quarles from Pampa is visiting her son, Leslie, and family, Mildred and Ruth Kratzer spent Thursday night with Madge Spent.

Mr. and Mrs. Walt Williamson's little grandson, Gene Carson, returned to his home at Borger last week.

Mr. and Mrs. Ted King visited Mr. and Mrs. L. L. Morse Sunday.

There were 24 at mid-week prayer service last Wednesday. If you haven't been coming to these services, we invite you to come next Wednesday at 7:30.

Mr. and Mrs. Rudolph Bush and little daughter spent Sunday with Mr. and Mrs. Homer Quarles. Mrs. Clyde Steph and little daughter were in Pampa Saturday. Mrs. Denton has returned from the bedside of her daughter in New Mexico.

We are rejoicing over the work that is being done on our roads. Rev. Erwin brought a very inspirational message to us from the 7th chapter of 2 Kings, last Sunday night.

With the Churches

QUEEN CORONATION ON TIGER FIELD

Queen Dorothy of the House of Sitter was crowned by Captain Laswell, on Tiger Field, previous to the game Friday evening, Oct. 9. Her Royal Highness, mounted on the famous dancing Tarzan, was preceded by the McLean band in full uniform. She was followed by Princesses May Belle of the House of Grogan, Shirley of the House of Johnston and Bernice of the House of McClellan; mounted on roan and white steeds; and the McLean Tigerettes, resplendent in new black and gold uniforms. The royal ladies were dressed in riding habits in school colors, completed with Centennial sombreros.

AGGIES ENJOY SUPPER

On Monday evening, Oct. 5, the Aggies and invited friends enjoyed a weiner supper in the agriculture room. The rain kept the usual roast from being held, but ingenious boys placed a hot plate in the building, and Miss Kennedy, assisted by Mr. Magee, Kid McCoy, Naomi Gunn, Red Shaw and Joe Bogan, fried the weiners, and made sandwiches. These with cocoa made good refreshments. "42" was played for entertainment.

HOME MAKING NEWS

Our department has received word that we have been placed on the mailing list of the Home Makers Educational Service. During the year we will receive pamphlets, samples of food products, and material regarding latest inventions and ideas of equipment and useful devices for the home. We have found this material to be interesting and useful for class work in past years and feel that we are very fortunate in securing this service.

SOPHOMORES BURY FIRE DEMON

The sophomores sponsored a float in the fire prevention parade last Friday. Their object was to "bury the fire demons." Three fire demons were put in a casket. When they tried to escape, they were knocked back by "Carefulness," "Thoughtfulness" and "Prevention." Please help the sophomores bury these fire demons and cut down the large number of fires in our town.

JUNIORS HAVE CLEVER FLOAT

The junior class' fire prevention float was a cleverly arranged school on wheels. A truck bed was turned into a schoolroom for the parade, with Perry Masterson as Professor Know-It-All, teaching the pupils; Er'd McMullen, Irene Pettit, Woodrow Patrick, J. H. Gordon, Olive Louise Atwood and Theopolis Henley, rules of fire prevention. If people other than the pupils observed the rules which were written on the good professor's blackboard, there would be many less fires in McLean.

TIGERETTES

The pep squad girls looked very "snappy" in their new uniforms Friday as they marched in the great parade. The leaders wore gold skirts with black pleats, black woolen jackets and "porky" gold bell-hop caps. The rest of the girls wore black slacks with jackets and caps in opposite colors with the leaders. They performed on the football field at the queen coronation before the Memphis game that night.

MORE QUEEN WINS

The sophomore class won the queen contest it was the first time for the senior class in lower class. The charming Miss Dorothy Sitter, was crowned and a graceful and graceful sophomore class really hard work, and proved she can do a thing she can do it.

Map showing concentration of Legislative Power.

The Moffett Amendment (No. 6) will prevent undue centralization of power in a few of the very largest Counties of Texas. There are 254 counties in the State. And there are only 150 members in the House of Representatives. The above map shows that these members are now unduly concentrated, and unless something is done soon, this concentration will increase, for census figures show that the big cities are growing much faster than any other part of the State. If Constitutional Amendment No. 6 is adopted, it will check this centralization of power, by placing a limit of seven upon the number of members that any one county may have.

SENIOR ACTIVITIES

Last Friday afternoon the seniors took part in the great Jericho gap celebration. They were "decked out" in great style in McLean's Model T fire truck to feel equal to the grand parade. In the back they had a can of burning trash and in the front two MEN to operate the truck which carried out their motto "Burn the trash and keep the truck in the garage." They had to crank the truck, and the whistle was a bit rusty, but all went well and ran smoothly after it had been oiled well with the oil the class has been selling.

BAND BUSINESS

The band had a very busy day last Friday. After many rehearsals they gave a fifteen minute broadcast over station KDPN at 1 o'clock. After this program all the members joined in the celebration parade. They had some difficulty in making music after the big barbecue dinner which they attended before the football queen coronation. The climax of the day came with the winning of the Memphis game that night, after the band had assisted the pep squad in cheering the Tigers on to victory.

INTERESTING PEOPLE

The interesting person you are to read about this week is Orville Williams. Mr. Williams, a senior, is a very industrious student. In case you had not heard, his nickname is "Ossie." (Please do not spread this bit of news for the sake of Sherlock's neck.) He aspires to be a civil engineer, and at present is ably filling the all important position of center on the Tiger football team. He weighs 160 pounds, is 6 feet, 1 inch tall, has blond hair, blue eyes, and a charming personality. His hobby is pets, favorite song, "Boots and Saddles," and favorite sport, football.

SHERLOCK SNOOPINGS

Just between you and us, folks, that Mollie Turman and Naomi Gunn really go over big with those Pampa boys. What is all this we hear about a row between a certain Miss Julia McCarty and Leona Humphreys? Mr. Harding and Miss McCarty, at the football game? Miss McCarty—What are those men doing in a circle with their heads together? Mr. Harding—Oh, they're just a bunch of Scotchmen lighting a cigarette. Wilson Shaw (flipping a coin in the air)—Call it! Joe Bogan—Yoo-hoo! Puff McCarty—Damn! Miss Cousins—My word! Puff—What's the matter? It ain't copyrighted, is it?

port the Tigers in their fray with the Sandies.

L. R. Blevins—Do you believe that a person should be punished for something he did not do? Mr. Allen—Of course not. L. R.—That's sure a relief, because I did not do my civics assignment.

NEW SCHOOL SONGS

In the past few weeks the Tigerettes have learned some new songs. They first sang them in a chapel exercise and now the whole school is humming them. Some of them are printed here. I LIKE McLEAN TIGERS Composed by James E. Cooke and Charles Finley I Like McLean Tigers, Good old McLean Tigers, I think their sportsmanship is grand. Give me McLean Tigers. Good old McLean Tigers, Stand up and give our boys a hand! I've seen the others play And think that they are snappy, But I must say— You can't beat McLean High, by a cracker. I like McLean Tigers, Good old McLean Tigers, I think their sportsmanship is grand! The next selection has not yet been christened, but the composers, Misses Marietta Young and Eula Faye Pester, will probably let you know about that some time in the near future. O who will make the highest score? O who will win this game? The McLean Tigers, Tigers, Tigers! Out on that open gridiron. We're just bound to rise to fame, Beat Shamrock in every game. O who do you think's the best in the West? Why, we are telling you— The McLean Tigers, Tigers, Tigers!

ON BEING DIFFERENT

Maybe we don't like being different, but at least we are, and that is something. Everyone becomes tired of monotony, and human beings are like everything else. The same kind becomes monotonous, after seeing a few millions of them. The sophomores are too different, in the opinion of the seniors. But they are to be congratulated for having enough energy and pep in their class to defeat the seniors in the queen race, and break all existing records at the same time. Being different attracts attention, and human nature makes it impossible for individuals to have a dislike for being the center of attraction. Napoleon was different and gave to the world the knowledge accumulated by the French while he attempted to fulfill his dream of being different. Although he failed to make his dream materialize, he is still known by the world to be a genius. The seniors hope that the people will recognize their ability, even though they, like Napoleon, failed.

Mr. and Mrs. Carlos Saunders and the former's mother, Mrs. P. C. Saunders, of Amarillo visited in the J. R. Phillips home Friday.

Mr. and Mrs. John B. Vannoy visited friends and relatives in Dallas and Fort Worth last week, and attended the Centennial. Mr. and Mrs. Travis Stokes attended the funeral of Mrs. Clifford Brown at Pampa Saturday.

**BACK SCHOOL HOSTESS
PTA COUNTY COUNCIL**

The Gray County Council No. 35, of the PTA met in the first regular meeting of the year, at the Back school, Saturday. The meeting was in charge of the new officers, which are: Mrs. L. L. Morse, president; Mrs. Emmett Gatlin, vice president; Mrs. R. L. Appling, secretary; and Mrs. L. L. Ogden, treasurer.

During the executive meeting, a committee consisting of Mrs. Ogden, Lefors; Mrs. F. M. Culberson, Pampa; and Mrs. W. L. Campbell, McLean; was appointed to make revisions in the by-laws and present same in assembly. Mrs. C. T. Hunkapillar of Pampa offered thanks for the bountiful meal which followed.

First on the program were several numbers by a group of Back school children, followed by a number from the Webb rhythm band under the direction of Miss Hannah Chambers.

The district president, Mrs. C. T. Hunkapillar made an inspirational address on "The Why of the PTA."

The district parliamentarian, Mrs. Lewis M. Goodrich of Shamrock, spoke briefly, stressing the fact that while parliamentary procedure is desirable in most instances, yet if it is to the best interests of the unit, it may be dispensed with in exceptional cases.

Roll call was answered by reports from the various units represented. The by-laws were read and adopted by the body. A resolution of commendation of Gray county officers for their efforts at law enforcement was read. A vote of thanks was extended to Back for their hospitality, and an invitation for the January meeting accepted from the Sam Houston school in Pampa. Mrs. W. L. Campbell of McLean was appointed chairman of mother singers of district 8.

PAMPA THEATRE MAN HERE

Kenneth Blackledge of the LaNora Theatre, Pampa, was in McLean Wednesday and left an advertisement with The News for their picture, "Anthony Adverse," to be shown the first of the week.

Mr. Blackledge says that this is a magnificent picture. "No cast has ever approached this in size, and few will equal it in talent. There are 98 principals with speaking parts, 2,550 bit players and extras, and nearly 3,000 artisans and technicians worked behind the camera to make the picture perfect."

CHERRY TREE BLOOMS

D. H. Kerr has a cherry tree in full bloom, which he says seems to be a habit with this particular tree, as it has blooms along through the spring season at the same time ripe fruit is on the tree.

A peculiarity of the blooms is that about half of them have double fruits in them.

POPULATION, 130

If a stranger were to stand on the main street of the little town of St. Williams, S. C., and shout for "Rogers," the whole population would be likely to turn out. Nearly every one of the town's 130 inhabitants is descended from "Uncle Billy" and Mary Rogers, and every resident is named Rogers.

Another major drouth, like the one that bedeviled the people for the last two or three years, may not strike the North Central grazing area until 1890, according to the Smithsonian Institute. The present dry spell is approaching its end, the Institute believes.

Newlywed—"Nothing like it, my boy! You just marry a sweet girl, like my wife, for instance, one that isn't afraid to share your lot for better or worse."

Confirmed Bachelor (unconvinced)—"Sounds nice, but some of these share-holders blossom into directors."

The "rolling library" of Harris county, Texas, lent 1,263 books on its first six trips into the surrounding country. Miss Elinor Edgar, county librarian, said that farm people read mostly during the heat of the day and sometimes while they work.

The allegiance of that noted lover of dumb things, Joe Penner, is now divided between his famous duck and "Tuffie," a midget draft horse recently acquired by the screen and radio star.

If a man wants to succeed in life, he must have time to think, read, and plan. Thinking! Reading! Planning! No man can climb very high in any occupation unless he has time for these three.—Herbert N. Casson.

The man who is deaf to the alarm clock usually hears very well when the quitting whistle blows.—Jerome F. Fleischman.

Goodbye, Mr. Gloom!

... We're a jolly bunch of renegades... our sole purpose in life is to give Old Man Gloom the gate and usher in Mr. Sunshine by way of a million laughs. Turn to the Funny Page in every issue and let us help dispel those troubles!

● No man can really live by bread alone. Yes, we admit he'll EXIST, but there will be heavy lines of care running down his face, he'll forget how to smile.

● Verily, we humans need a few hearty guffaws now and then to chase away those wrinkles of care and give our spirits a lift. That's why this newspaper runs a collection of laugh-provoking comic strips on the Funny Page. Amid the depressing news of floods and earthquakes, crime and war, economic troubles and a host of other maladjustments on the face of Mr. World, it's a pleasant relaxation to shut your eyes on the day's bad tidings.

● You can get a joyful lift in spirits from the comics. We invite our readers to take a big swallow of this bottled sunshine. Turn to the Funny Page right now and forget your troubles!

● Our comic characters are a versatile lot, as you'll notice by glancing down the accompanying panel. If you want to chuckle over real troubles, turn to C. M. Payne's strip "S'Matter Pop," and see what a whale of an order he has to keep these boys of his under control... Or glance at the adventures of the intellectual Adamson, as drawn by O. Jacobsson.

● Something that will truly draw tears—of laughter—are Gluyas Williams' mischievous but lovable youngsters, Junior and the Baby... Then there's "Finney of the Force," by Ted O'Loughlin, as comical and as true-to-life an Irishman as ever flipped a night stick... Life out in Cactus Center, as described in S. L. Huntley's "Mescal Ike," has its exciting moments when its rip-roaring citizens are on the loose... And when it comes to "The Featherheads," by Osborne, they speak for themselves. In fact, that's the best thing they do!

● Let these bearers of fun whittle your blues down to size. Toss trouble right out the window and get a new lease on life through the comic page—turn to it right now!

SAYRE CONGRATULATES McLEAN

Sayre, Okla., Oct. 13, 1936.
Mr. C. O. Greene,
McLean, Texas.
Dear Mr. Greene:

We people of Sayre wish to express our congratulations for the entertainment furnished us at your celebration of the Jericho gap.

We enjoyed every minute of it. Your polo game was splendid, football game was second to none, barbecue was the best arrangement that we have witnessed, and I am quite sure that we all have a more friendly feeling towards the common interests of our towns.

We have a big football game here Friday night of this week between Hollis and Sayre, the two champion teams of this conference. Be glad to see a bunch of you boys come over. We think this is going to be a real game.

Respectfully,
J. I. LOWRY, President,
Sayre Chamber of Commerce.

JUNIOR MUSIC CLUB MEETS

The Junior Music Club met recently and elected officers for the first three months of school. John Kirby was elected president; Ann Bogan, vice president; Mary Evelyn Foster, secretary and reporter.

Visitors present were: Mrs. Kirby, Mrs. O'Rourke, Mrs. Abbott and Mrs. Bogan.

Music games were played by the members. The best player for the afternoon was Mary Evelyn Foster. Refreshments of cocoa, sandwiches and cookies were served.

POETIC JUSTICE

Chicago is considering adopting the poetic technique of England in discouraging the littering of streets. The English have sign-posts such as these: "Who picnics by the sea waves, And all the front with litter paves, May indigestion rack his chest, And ants invade his pants and vest."

A man cannot directly choose his circumstances, but he can choose his thoughts, and so indirectly, yet surely, shape his circumstances.—James Lane Allen.

Mesdames Compton, Watts and Stansberry of Childress visited their mother, Mrs. Z. W. Latson, one day last week.

THE MODERN ELEPHANT

Muriel had been to the zoo for the first time and was giving her grandmother a long account of what she had seen.

"And which animal did you like best, dear?" asked her grandmother when she had finished.

"Oh, the elephant," was the reply. "It was wonderful to see him pick up peanuts with his vacuum-cleaner."

Mr. and Mrs. Fred Staggs, C. McMullen and daughters and Miss Eula Mae Ewing attended the East Texas-Western Oklahoma singing convention at Elk City, Okla., Sunday.

T. J. Coffey made a trip to Wink and Fort Worth this week.

SILENT, BUT EFFICIENT

"Here's one name on the committee that I never heard of."

"Oh, that's probably the person who actually does the work."

Mr. and Mrs. D. C. Regal of Amarillo visited the lady's parents, Mr. and Mrs. J. A. Sparks, Friday. Mrs. Regal remained for a longer visit.

Chas. E. Cooke and S. D. Shelburne left Saturday for a hunting trip to Canada.

R. H. Ruth of Amarillo was in McLean Friday.

Rev. J. H. Sharp was in Amarillo Tuesday.

ACT TODAY

WOMEN PAY

Mrs. Sadie Picker, Brooklyn beauty parlor owner, was hailed to court to explain why she didn't pay her \$5.75 weekly alimony to her husband George. It was "unfair," she said. Judge Panken responded: "Women should share equally with men in their responsibilities. The same obligation rests on a woman as on the thousands of men who come to this court and are made to support childless wives."

Mrs. Ella Cubine and son, Sammie, made a trip to Oklahoma City last week.

Mr. and Mrs. W. L. Haynes of Weatherford, Okla., were here Friday.

Mr. and Mrs. Ben Chilton of Pampa visited in McLean last Sunday.

Mrs. D. Clark Regal and G. L. Gilliam of Amarillo visited the parents, Mr. and Mrs. J. A. Sparks, Wednesday.

Louis Cox of Shamrock visited in McLean Saturday.

Mrs. C. S. Rice and daughter, Mrs. L. B. Rice, visited in Lubbock one day last week.

Miss Velma Rice of Pampa visited in the Leon Waldrop home last week.

W. A. Crews was taken to hospital last week for an operation.

Mr. and Mrs. Paul M. Alanreed were in McLean Saturday.

Mrs. Elta Mann was in Pampa last week.

Mrs. Sherman White visited in McLean Thursday.

May we give you six dollars?

Not in cash, of course. We're speaking of its equivalent. But here is something for you to consider: Every year this newspaper brings you at least three outstanding novels in serial form. Purchased as books and would cost not less than \$2, making a total expenditure of at least \$6 per year.

Like yourself, we could find plenty of uses for that \$6. Some member of the family is always in need of a new pair of shoes or some other necessity. But at the same time your requirements for good reading material must be met. By accepting these three novels each year we feel you are treating yourself to real enjoyment, at the same time giving your purse a substantial boost.

These novels are a source of constant pride to us. Every year we select them from the season's most outstanding best sellers, offered in serial form by a large newspaper syndicate organization. We'd like to feel that you—as a subscriber—always look forward to reading the coming installment in the next issue. It gives us a great satisfaction to know that here is another reason why our paper is popular in the home.

You are invited to begin reading our novels now. These regular brief visits to fictionland will prove a delightful interlude from your work-a-day activities. And it will make us happy to know that you are getting enjoyment from them.

GO INTO BUSINESS FOR YOURSELF

MILLIONS of words must be typewritten daily. Letters, reports, stories, themes, news articles, and a multitude of other things. Many people are called upon to do this work. They are paid well for their services. You can easily be one of these.

Here's what you do. Get a good typewriter and learn to use it. You can teach yourself in practically no time by following the simple instructions given in the free booklet "Teach Method Instruction" for this work. It is one of the latest machines made by Remington. By simply tapping lightly on the little red "self-starter" it makes indents paragraphs, lines up subheads, etc. This is an important feature with this model. In addition it has more improvements, more refinements and more conveniences than most typewriters. Every word it types is a model of neatness. Remington's special plan makes it easy to own this neat, sturdy, streamlined portable.

What is the FIRST STEP? Write or telephone me today. I will be glad to come to your home. Give free demonstrations. No obligation to you. You see what you get before you spend a cent. You get the same modern typewriters at the same low prices as you would get at the factory.

ONLY 10c A DAY

Remington "Streamlined" Typewriter

FEATURES

1. Rich black enamel with nickel trimmings.
2. Standard four-row keyboard.
3. Double shift keys and shift lock.
4. Adjustable margin stops and margin release.
5. Rack spacer and variable line spacer.
6. Two color ribbons with automatic reverse and stencil cut-out.
7. Carrying case built of 3-ply wood and covered with heavy DuPont fabric.
8. Special typing course.

Other Models from \$37.50 to \$79.50

Curse of Progress

Tender Hat Wanted

A man walked reluctantly into a hat shop, says Ireland's Own, of Dublin.

"I've just lost a bet," he said, "and I want to buy a soft hat."

"This is the softest we have," said the assistant.

The customer gazed at it speculatively.

"What I want," he said wistfully, "is something a little more tender; I've got to eat it."

Strange

Wife—There's a strange hair on your coat lapel, you worm!

Hubby—Now, darling, that's a hair from our dog. It isn't a woman's hair, honestly.

Wife—I know. That's what's strange about it.

Sit Down

Teacher—Johnny, can you define nonsense?

Johnny—Yes, teacher—an elephant hanging over a cliff with his tail tied to a daisy.

SNAPSHOTS OF A BOY COMING IN

By GLUYAS WILLIAMS

Smiles

The Game

"What's your name?"

"Marigold."

"I said your name, not your aim!"

Better Yet

Aunt—You should always get up from the table hungry.

Tommy—I do better than that; I always leave the table empty.

Unheard Of

"When I was your age I went to bed when I was told."

"Oh, Granny!" said the modern child, "wherever was your personality?"

Interesting

The doctor was questioning the new nurse about her latest patient.

"Have you kept a chart of his progress?"

The nurse blushing replied, "No, but I can show you my diary."

That's Out

"I'm a girl who won't take a back seat for any man," said Elsie.

"That completely spoils my plans for the evening," replied her boy friend.

"Oh, and why?"

"I was just going to ask you to come and see a film with me."

Modesty's Abode

Modesty seldom resides in a breast that is not enriched with noble virtues.

If You're Told to "Alkalize"

Try This Remarkable "Phillips" Way
Thousands are Adopting

On every side today people are being urged to alkalize their stomach. And thus ease symptoms of "acid indigestion," nausea and stomach upsets.

To gain quick alkalization, just do this: Take two teaspoons of PHILLIPS' MILK OF MAGNESIA 30 minutes after eating, OR—take two Phillips' Milk of Magnesia Tablets, which have the same antacid effect.

Relief comes almost at once—usually in a few minutes. Nausea, "gas"—fullness after eating and "acid indigestion" pains leave. You feel like a new person.

Try this way. You'll be surprised at results. Get either the liquid "Phillips" or the remarkable, new Phillips' Milk of Magnesia Tablets. Delightful to take and easy to carry with you. Only 25¢ a box at all drug stores.

PHILLIPS' MILK OF MAGNESIA

Bright Outlook

"What made the good old days 'good' was that you were young."

Up in the Morning Feeling Fine!

The refreshing relief so many folks say they get by taking Black-Draught for constipation makes them enthusiastic about this famous purgative vegetable laxative.

Black-Draught puts the digestive tract in better condition to act regularly, every day, without your continually having to take medicine to move the bowels.

Next time, be sure to try

S. S. LESSON

By Rev. Cecil G. Goff
Pastor First Baptist Church

THE SPOKEN AND WRITTEN WORD

Lesson text, Acts 17:1, 5-11; 1 The. 2:7-12. Golden text, "The word of God is quick and powerful, and sharper than a two edged sword." Hebrews 4:12.

Paul completed his work in Philippi. He was imprisoned, but the imprisonment led to likely the greatest victory he had for the Lord during his stay in that city. He had found no organized worship of God there and left it with an organized, functioning church of the Lord Jesus Christ. He left with his fellow workers and went across the country thru Amphipolis and Apollonia and came to Thessalonica. It is difficult for us to conceive of Paul's passing thru a city where people live without preaching the Gospel. The record is silent as to whether Paul preached any there or not. His main objective, however, was Thessalonica.

In Thessalonica there was a Jewish synagogue. Here Paul went with his companions to preach. As usual there were some who believed. There was that group also that not only disbelieved, but determined to stop his preaching. It is likely that when this hatred manifest itself, that Paul preached elsewhere also. Many were won to Christ. Paul took advantage of his early success and organized a church, it would appear. Finally the opposition became so strong that an attempt was made to take him and his coworkers before the rulers and falsely accuse them. Paul was not to be found. Jason, his host, was taken and after making a peace bond, as we would term it, was released. Paul and Silas were sent that night to Berea, the next town. Berea was not as large or as important a city as Thessalonica, but there was a Jewish synagogue there also.

As was Paul's custom, he went first to preach in the synagogue. Here he found receptive hearts. The Jews were anxious to hear him preach. They began to search the record of the Old Testament Scripture to find the proof of the things Paul was preaching. He was doing a wonderful work in Berea. But it is as impossible to keep a good thing secret as a bad thing. Soon the news of the good work reached the Jews of Thessalonica. These Jews were like some church members today. Their hatred was greater than their religion. A group of them went to Berea and stirred the people up against Paul. He saw the inevitable and decided that he would go on to Athens and leave Silas and Timothy there to quietly continue the work among those who were interested.

If we will not this is the same thing that happened to Paul in Asia Minor. The Jews of Antioch of Pisidia followed Paul and Barnabas to Iconium and Lystra and stirred the people up against them. This seems natural to human nature. Man in his natural state seems determined to manifest his hatred to the hurt of someone else. This is not true of the Christian nature. Many nominal Christians manifest this spirit in our churches today, but it is almost one sure sign that the Christian nature has not yet found root within the individual. Jesus said that we should know ourselves as His followers by our fruits. If not in those words, words that mean the same. Too many of us are prone to apply this passage to our neighbors and to exempt ourselves. Let us apply it to ourselves first. How well would Paul's work have gone if those who did not agree with him had let him alone instead of starting a campaign against him! And how well the work of the Lord Jesus Christ would go today if members of churches would pray more and start less campaigns against their pastors and church leaders. Almost without fail the one who starts the campaign and those who follow it are in the wrong. The service for Christ today needs the undivided support of the followers of Christ. Under such conditions we could girdle the globe for Christ.

After Paul left Thessalonica—while he was at Corinth—there came to him rumors of disagreement concerning his teachings. He wrote 1st Thessalonians. This was his first letter, and possibly the first New Testament Book to be written. Paul was a master of preaching, but he was also a master of the written message.

"That last little thing of yours was charming," said the gushing hostess. "I loved its wild abandon. Was it your own composition?"

"No, madam," scowled the lion of the evening. "I was putting a new string on my violin."

Collector—I hate to ask you for this installment on your radio, sir.
Harduppe—Do you? Then don't do it. Good day!

Snoopin' Around

By D. A. Davis

Folks, did you ever go back to your old childhood home and snoop around a bit after being away some twenty-five or thirty years? And after you went away you wished you had never gone back?

You know, folks, I don't believe in the idea that some folks have about people remaining on the old homestead, generation after generation and handing the property down from father to son for centuries. I just believe that it makes better men and women out of people to get up and move away from their old homesteads when they marry, and start out from the very bottom and make homes of their own and leave the sweet memories of their childhood days behind so they can forever cherish those memories throughout the passing years, and I believe it's a whole lot better that you never, never go back to see again the many things you remember as you grew up to manhood and womanhood. If I had remained "on the old farm" back in Central Texas where I was born, I doubt seriously whether my childhood memories would have been as sweet and sacred to today me as they are.

After being away some twenty-five years, I visited our old homestead again, and I must confess it was the most tragic and heartbreaking experience I have ever had, and I have wished thousands of times I had never returned. There was hardly any resemblance whatever of the old home and childhood playgrounds where I spent my happiest days.

The fields were different, the mountains and valleys and clear rippling brooks were different. The trees and flowers and even the "old swimming hole" were gone, and the old school house where I received what little education I have, and which served as a community church and Sunday school, was rotting down and was dropped up with poles. And the old "brush arbor" where we held our camp meetings and so many were happily converted, and where the still moonlight nights echoed with the shouts of God's people and the hills and valleys rang out with the melody of good old fashioned religious songs; and the old log that you and your best girl, sweetheart, and perhaps your present wife, the mother of your boys and girls, sat and passed away so many happy days or evenings, have rotted away with no visible trace whatever left. And the many, many places you remembered when you were a child have all changed and most of the people you knew then have either moved away or are sleeping in the old community cemetery, their graves partly covered with native wild flowers, grass and shrubs and some shamefully neglected, with no identifying markers whatever to identify the graves with.

And the old home town changed beyond any resemblance whatever of the home town you remember visiting when you were a child. The old wooden store buildings, wooden sidewalks and "dirt" streets have been replaced with brick business houses and the streets have been paved and the sidewalks are of concrete and the old "wagon road" and the old hitching posts, the livery stables and blacksmith shops are replaced with nice neat filling stations and automobile sales rooms, and the roads have been changed to concrete paving with all crooks and turns wiped out, and the roads that "you come to town" on have disappeared altogether, and the highways you now travel on at 60 miles per are located in altogether different places, and you stand and view the picture before you and try to visualize the many changes that you see and can hardly realize that the picture you now see is anything like the picture you have carried as a sweet childhood memory. And it is not the same, but such is life, a continual change is always going on and by visualizing these changes during your own life time enables us to understand the changes of time that have taken place for millions of years.

You know, folks, it gives me funny feelings to "snoop around" over these sand hills near McLean and pick up pieces of petrified wood right on top of these highest hills and just wonder how long this old world has stood, and here we call this a new country, and just a few years before even a young man like myself, this country was inhabited with wild Indians, wild buffalo, and in fact wild animals of numerous kinds; but where are they today? Not hardly a trace whatever of conditions that actually existed less than a hundred years ago! Just imagine, folks, some Indian chief of a hundred years ago coming to life and taking a look at the picture that would be before him today right here in this Panhandle of Texas. What do you suppose he would think?

And that, folks, is the reason that I am a firm believer in progressing. I ain't got no use for these stand-

patters or these standstillers. There is nothing that makes me any madder than to hear somebody always preaching a standing still doctrine. Let's go forward, folks, let's keep up with the march of time which will go on whether we like it or not.

TEACHER RETIREMENT

By John Harding
(Article 2)

If you have a very close friend who has an object of value, long life and lasting service, you are apt to want one like it. If 40 of the states have successful teacher retirement systems and over 60% of the teachers in the United States belong, do you think it unwise that Texas should be the last to take up the stride?

Twenty-seven states have state-wide teacher retirement laws while leading cities in fifteen other states have like laws. Such states as California, Arizona, Nevada, New Mexico, Montana, Indiana, Ohio, North Dakota and Virginia have already lined up. We like to pride ourselves that Texas is ahead of these states, economically, commercially, socially, politically, etc., but we have failed to match them in some ways educationally.

Teacher retirement had its birth in 1887 when the National Education Association passed a resolution advocating "the adoption of some plan whereby meritorious teachers after long service may be honorably retired." Later enactment of laws in the states was recommended. In 1896 the first state teacher retirement system was established. Since that time much progress has been made.

There are ten general classes of employees to which benefits of retirement systems are now extended. Among these classes there are 460 industrial companies, including, railroads, public utilities, manufacturing, banking, insurance, etc. In 1931 they averaged \$729 per person to those on their retired lists. The federal government in 1932 paid an average of \$955.32 to persons in the civil service upon their retirement. These groups have come to regard retirement of aged and disabled workers not only as an efficiency measure but as an economy measure as well. They have found that it is a sound business proposition to retire aged employees when they can no longer render effective services and to fill the ranks with persons younger and more able

to carry forward under the strain of modern industrial methods.

Are not our schools worthy to be put on such a business-like basis as other companies? The teacher more than any other public servant must grow in service. Self cultivation through advanced study, travel, broadened experience in the arts and sciences and enriched social contacts is essential to his growth. Mental as well as physical health is necessary to personal development. Are not the teachers of Texas devoting as much of their life's energy to making the school systems a success as the employees of industrial companies? Are the teachers not due as much consideration as any other employee in Texas? If you think so, go to the polls on November 3 and express your opinion to that effect.

Next week: Sound and effective teacher retirement legislation.

News from Back

The county-wide PTA met at Back school house Saturday. More than a hundred were present. A very nice lunch was served to all. The Webb school brought their rhythm band and gave two numbers.

We have our instruments and are all ready to begin work on our band.

Ends Aching Sore Muscles

For longer lasting, quicker relief, use Ballard's Snow Liniment which contains active ingredients to give a more than local action, thus bringing a surge of warmed blood to scatter congestion and more quickly soothe away the pain from aching muscles, sprains, strains, backache and lumbago. Ballard's Snow Liniment, 30c and 60c.

ERWIN

(Continued from front page)
 plus Claudius Caecus in 312 B. C. It was 360 miles long, 24 feet wide, and on either side of the road was a path for foot passengers. The construction of this road was extremely massive, consisting of four courses having a thickness of about three feet. The foundation course was composed of large flat stones bedded in mortar. On this foundation was placed a layer of hard rock laid in a form of lime or cement mortar. The next consisted of small stones, gravel, or pieces of brick and broken tile, laid in mortar. On top of this was placed the last or wearing surface of large stones cut hexagonal in shape and closely fitting together, making the total depth of the road about three feet. It was nearly three hundred years in building and is construction exhausted the treasures of the Empire. Yet, Texas completed more than four times that much 1935 and let contracts for more than five times as much for 1936.

Good roads have changed the living habits of this nation. Each year the multitudes that sweep over our highways are greater than any previous migration in history. The annual movement over our highways makes the "gold rush to California," or the "invasion of Europe by Attila's Huns" or any other historic, human movements, seem puny by comparison.

Today we have more roads and better roads than any other country—in fact, more than any other continent. Half the road mileage of the earth is in the United States.

During the past third of a century the "Road Builders" have lifted the United States out of the mud.

Today McLean gladly welcomes the highway enthusiasts of one of the best, most needful, and most beautiful roads in—not only the United States, but in the whole wide world—the Will Rogers Highway, U. S. 66, the Main Street of America. We welcome you.

TIGERS

(Continued from front page)
 promote good feeling among our opponents.

McLean will play Amarillo Saturday afternoon at Amarillo, and the fans will get a sample of the difference between class A and class B football. Back those Tigers, win or lose.

Friday's lineups:

SHOWER HONORS BRIDE

Mrs. T. J. Coffey and Mrs. E. L. Sitter were hostesses Monday at the Coffey home, at a miscellaneous shower honoring Mrs. Gene Adrian of Shamrock, a recent bride. Mrs. Adrian was formerly Miss Emma Mae Thompson, and a student in McLean schools.

Mrs. Jim Back gave an appropriate talk and reading on "Baby bells, school bells, wedding bells and dinner bells."

The wedding cake was cut by the bride, and refreshments of cake and punch were served to all present.

Among those present or sending gifts were: Mesdames Luther McCombs, S. M. Hodges, C. A. Watkins, J. R. Glass, Mattie Graham, Vester Smith, J. T. Hicks, Ollie Daniels of Shamrock, T. W. Henry, L. E. Ward, Jim Back, Chas. Guill, Bee Everett, June Woods, Willie Boyett, V. L. Hindman, Jess Kemp, Karl Estes, Geo. W. Sitter, E. E. Watkins, E. L. Sitter, C. M. Carpenter, R. S. Thompson, J. M. Noel, J. D. Alexander, Porter Smith, Rish Phillips, J. L. Hess, Clyde Magee, D. A. Davis, L. W. Woods, J. P. Alexander; Mr. and Mrs. W. O. Alexander of Burkburnett, Mr. and Mrs. T. J. Coffey, Mr. and Mrs. Emmett Thompson; Misses Frances Noel, Margaret Hess, Mildred Cash, Margaret Glass, Elizabeth Kennedy, Lillian Abbott, Aline McCarty, Wanda Estes, Dorothy Sitter, Juanita Carpenter; Messrs. John Harding, Clyde Carpenter, L. E. Flowers, Stanton Gardner, Vester Lee Smith, Kid McCoy, Junior Coffey.

MRS. GARRET DEAD

Mrs. Allie G. Garrett, 74, of New York City, who has been visiting Mrs. Floy Fast the past six months, died at an Amarillo hospital Friday morning, Oct. 9, after a three day illness following an operation.

Funeral services were held at Calvert. Survivors include a son, John T. Garrett, of Baytown, and a daughter, Mrs. Geo. M. Moen, of New York City.

Mrs. Garrett had made a trip around the world, and a trip to Norway and Sweden just before coming to McLean. She was a member of the Presbyterian church, and addressed the ladies' auxiliary of the local church at two different times.

REV. BATSON HERE

Rev. J. A. Batson of Spotted Oaks Farm, Conway, Ark., and former state representative of his district, is here with Mrs. Batson and their daughter, Mrs. J. L. Patton, and husband, visiting their son and brother, Dr. C. B. Batson, and family. The visitors expect to return home by way of the Dallas Centennial, the last of the week. Dr. and Mrs. Batson will accompany them to Dallas.

A BIRTHDAY DINNER

Mrs. J. W. Burrows was dinner hostess Sunday, honoring the 68th birthday of her husband.

Those enjoying the affair were: R. A. Burrows and daughters, Misses Madge and Evelyn, of Amarillo; Mr. and Mrs. James Burrows and son, Mr. and Mrs. L. S. Calaway and children, Mr. and Mrs. Bryan Burrows and children, Earl Gossage, Mr. and Mrs. J. W. Burrows, all of McLean.

KING HOUSE BURNS

A house occupied by J. L. King and family, north of town, burned Monday afternoon, causing a total loss with no insurance.

A paper was circulated among the business men for cash donations for the family, and the schools announced that clothing and bedding would be acceptable.

F. H. YOKELY DEAD

According to a wire received by C. M. Carpenter last week, F. H. Yokely died Oct. 7 at his home in Huntington Park, Calif.

Yokely was a former cattleman of McLean, and the second owner of the home now occupied by J. S. Morse.

Mr. and Mrs. C. A. Watkins, accompanied by Mr. and Mrs. Everett Watkins of Borger, visited in Dallas and Fort Worth last week end and attended the Centennial.

Mr. and Mrs. Mark Huseby and daughter of Mobeetie were in McLean Monday.

Mr. and Mrs. Rob Bradshaw of Panhandle visited in the C. S. Rice home Sunday.

Mr. and Mrs. Dan Deen are visiting in Fort Worth and Dallas and attending the Centennial.

THIS MAD LIFE

Rushing to the office; rushing out to eat; rushing back; rushin' home. down the rushin' street; rushin' up and rushin' down, rushin' in and out. Say, what's all this rushin' fur? What's it all about?

Rushin' after money, rushin' after fame, climbin', pushin', shovin'. It's a dizzy game. Steppin' on each other's heels—"Let me by!"—"Look out." Say, what's all this rushin' fur? What's it all about?

What's the use o' rushin'? Let us loaf a while, watch 'em push, run and grab. We'll jus' set and smile. As they scramble down the road, gally we will shout: "Say, what's all this rushin' fur? What's it all about?"—The Chaser.

Stradivarius violins are selling again. Last week Albert Spalding, famous American violinist, paid \$27,500 for what is called the "Artot" Strad, before sailing for a concert tour of Europe. That was the highest price paid for any fiddle since 1929.

When work goes out of style, we may expect to see civilization totter and fall.—John D. Rockefeller.

ACCIDENTS ON THE STREET

Children can be taught the proper use of streets, just as they are taught to eat, to wash, and to sleep. Thousands of youngsters are in hospitals today because they thought that the streets could be used as playgrounds. Countless crippled children learned too late to respect traffic lights or to cross streets only at corners. Many a boy wears a brace today because he "hitched" a ride once too often.

More than half the people of the world are illiterate today. This was the statement of Dr. Frank C. Leubach, who is traveling through the Far East in behalf of the World Literacy Movement. He declared that at the present rate of advance a majority of the world's population would not be able to read or write in 1,000 years.

Lionie Gunn returned Monday from a trip to Wink.

Ruel Smith was in Kermit and New Mexico last week.

Donald Beall was in Pampa the first of the week.

Larry Cunningham has enrolled in the freshman class at Hardin-Simmons University.

Sam Sparks of Ardmore, Okla., was in McLean Tuesday.

Joe Alexander of Clinton, Okla., was in McLean Tuesday.

John Mertel was in Amarillo one day last week.

Paul Kennedy of Panhandle visited here over the week end.

Perry Everett was in Amarillo one day last week.

A. L. Hibler made a trip to Canyon Monday.

Henry D. Loter was in Amarillo one day last week.

Bill Burks of Childress was in McLean Monday.

R. L. Sims of Elk City, Okla., was in McLean Tuesday.

Gene McKinney of Dennison was in McLean Tuesday.

FORMER McLEAN PEOPLE ARE SUBSCRIBERS TO THIS NEWSPAPER

—a simple fact, simply stated, but it provides food for thought for McLean residents.

Why is it that a copy of The News goes every week to these McLean folk scattered in cities and towns from coast to coast? Here's why:

They are hungry to read the news about their old friends and neighbors in the only newspaper in the whole world that even knows of the existence of 99% of McLean citizens.

ABSENCE HAS TAUGHT THEM THE INESTIMABLE VALUE OF THEIR OLD ASSOCIATIONS. IF YOU DON'T THINK THERE'S DRAMA AND A REAL HEART THROB IN HOME TOWN NEWS, TRY GOING WITHOUT IT FOR A FEW YEARS.

Let The News do a little home missionary work with you and teach you the value and real interest of home town happenings.
