NUTS AND BOLTS

Nocturne—B Sharp or B Flat

The curtain never drops on that great American tragedy known as "Death on the Highways." Night falls and the stage is darkened, but death stalks on. Indeed, the drama quickens, for under cover of darkness the grim villain of the piece exacts his heaviest toll.

Danger looms too suddenly out of the shadows. There often isn't time to avert it. Careless pedestrians fall under speeding wheels. Bright lights glare. Drivers crash into fixed objects and into each other.

Statistics show that deaths during the normal hours of daylight, when traffic was much heavier, numbered but 14,620.

The moral is clear: When the sun goes down, slow down.

Avoid tight clothing and high heeled shoes, if they affect comfortable feeling. In sitting, keep knees together and hands loosely in lap." Those present were asked to give demonstrations on posture, and pictures were shown illustrating different postures.

Clark, Wheeler Attack President's Court Plan

THOUGH President Roosevelt persisted in his intention to force through congress his measure to "reform" the federal judiciary,

Senator Clark

law-makers who have been his warm supporters are coming out one by one in hot opposition to his plan to pack the Supreme court. Among them are Senator Bennett C. Clark of Missouri and Senator Burton K. Wheeler of Montana, both leading Democrats. They studied the scheme carefully before issuing their statements. The announcements of these men was scarcely offset by a radio address by Attorney General Homer S. Cummings, dutifully defending the President's plan.

Senator Clark said he was entirely in accord with the minor proposals in Mr. Roosevelt's scheme, but was totally unable to agree with the provisions for packing the Supreme court. He continued: "The conclusion is unescapable that to increase the court at one time by the increase of an additional two-thirds of its present membership is to pack the court with reference to a particular situation and particular litigation now pending or to be immediately pending before it."

"To me it seems a radical and unnecessary change in our whole system of government, without the submission to the people in the proper form of an amendment to the Constitution. Therefore I shall vote against that portion of the President's proposals."

Then came Senator Wheeler, stalwart radical, with a statement which it was reported he made public over the protests of the White House. He said in part: "I am, always have been, and will continue to be opposed to the usurpation of legislative functions by the courts; I am, have been, and will be opposed to usurpation of legislative and judicial functions by the executive branch of the government."

"The issue is: How are we going to prevent in the future this usurpation of the legislative power by the courts? Shall we attempt to coerce them by packing the court with six new men? If we do add six new men to the court does it correct the evil? Or is it merely a temporary expedient?"

"Every labor leader, every farmer, and every progressive-minded citizen in the United States would have been shocked and protested from the house tops if President Harding, President Coolidge, or President Hoover had even intimated that they wanted to increase the Supreme court so as to make it subservient to their wishes."

"If this administration can increase the Supreme court to make it subservient to its wishes, another Harding administration can do the same thing."

"There is nothing democratic, progressive, or fundamentally sound in the proposal advanced by the administration."

Attorney General Cummings advanced these two reasons for supporting the President's proposal:

"New blood should be injected into the judiciary in order that the Constitution shall be construed in keeping with the changing needs produced by new complexities of national life."

"The congestion of dockets in the federal courts is largely due to the inability of aged and infirm judges to perform their share of the work."

Investigation has shown, however, that the second reason is unsound. Commenting on Mr. Cummings' speech, Senator Glass of Virginia said: "I think it indicates that the country is in infinitely greater need of an attorney general than of additional judges on the Supreme court or of judicial wet nurses for six of the present members of the court."

Senator Minton of Indiana defended the plan in a radio address but probably did it more harm than good, for he frankly admitted the purpose of the administration is to change the personnel and views of the Supreme court, in order that President Roosevelt's New Deal program will be held constitutional.

World Is Preparing for Another War

ACCORDING to a survey made by the Foreign Policy Association, the world expenditure on arms and armies in preparation for war has more than doubled in the last two years, reaching a record height of \$11,000,000,000 in 1936 alone. The

cost of armaments in 1934 was \$5,000,000,000.

Soviet Russia in both years is accredited with the lead in the spending for military purposes, its military budget for 1936 reaching almost \$3,000,000,000. But the greatest increase in the course of the two years was recorded by Germany whose tremendous rearmament program has raised the German military budget to seven times its 1934 level. It is estimated as spending \$2,600,000,000 in 1936.

In Germany, Japan and Italy the proportion of the national income going to unproductive military purposes has reached "alarming figures" and many other countries have "strained their financial resources," the report declares.

Indiana Auto Workers Appeal to President

MEMBERS of the United Automobile Workers stirred up a riot in Anderson, Ind., that resulted in the injury of several men, and Governor Townsend responded to an appeal from the sheriff of Madison county by sending National Guardsmen to maintain order and keep outsiders from entering the county to aggravate the trouble. Thereupon Victor Reuther, a leader of the U. A. W., sent a telegram to President Roosevelt calling for "direct intervention" and demanding the lifting of the military restrictions "so that union members can become free men again." Information from Anderson indicated the union men were directly responsible for the disorder.

Hayashi Urges Russia and China to Be Peaceful

GEN. SENJURO HAYASHI, premier and foreign minister of Japan, in a formal statement of policy to the parliament, said his government would "pay special attention" to the adjustment of the empire's relations with soviet Russia and China, and urged those nations to cease their quarrels with Japan and try to comprehend Japan's position and aims in East Asia. He called attention to the fact that Japan no longer is bound by any naval limitations treaty but declared "there shall be no change in our policy of strict adherence to the principle of nonmenace and non-aggression."

Hayashi's cabinet decided on a budget reduction of approximately 2 1/2 per cent; Lieut. Gen. Hajime Sugiyama, the new war minister, objected to any cut in the huge army budget, but it was reduced slightly.

British Destroyers Fire on Spanish Rebel Plane

SIX bombs were dropped by a plane, supposedly a Spanish insurgent craft, close to two British destroyers off the coast of Algeria. The warships, which were not damaged, drove away the plane with gunfire. The British government at once lodged protests with the Fascist authorities.

Valencia, the temporary capital of the loyalist government, was shelled by an insurgent warship and many persons, most of them women and children, were reported killed and injured. The city is packed with refugees and the civil population was panic-stricken by the bombardment.

A few days previously a Fascist warship shelled Barcelona, capital of the autonomous state of Catalonia.

Schuschnigg Favors Return of Hapsburg Dynasty

RESTORATION of the Hapsburg dynasty in Austria was openly advocated by Chancellor Kurt Schuschnigg, who committed his government party to that proposition. He intimated that a plebiscite would be held to decide the question.

The chancellor asserted that increasing official support would be given to the campaign to place Archduke Otto of Hapsburg again on the throne which his father, the Emperor Karl, "temporarily renounced" November 11, 1918. The archduke is twenty-four years old.

Jim Farley Banquetted by 1,600 Democrats

HEADED by President Roosevelt and Vice President Garner, 1,600 Democratic government officials, state committeemen and prominent figures in the worlds of business and sports honored James A. Farley with a banquet in Washington. Mr. Garner was master of ceremonies and called the roll of distinguished guests by states. Mr. Roosevelt made a speech, which was carried to the country by radio.

General Motors Strike Is Settled by Compromise

BOTH sides making concessions, the General Motors strike came to an end in what Governor Murphy of Michigan called "an enduring peace." Operations of the great corporation had been paralyzed for 43 days, and the losses to it in business and to workers in wages have been immense. Partly through the skillful efforts of James F. Dewey, veteran federal labor conciliator, John L. Lewis, head of the C. I. O., and other union leaders, and the officials of General Motors were persuaded to modify the defendant stands they had maintained through eight days of negotiations in Detroit, and the governor was enabled to announce the settlement.

John L. Lewis

Under the terms of the agreement: 1-The corporation recognized the union as the collective bargaining agency for those employees belonging to the union. 2-The corporation and the union agreed to commence collective bargaining negotiations on February 16.

3-The union agreed to end the strike and evacuate all plants occupied by strikers. 4-The corporation promised to resume operations in all strike-bound or idle plants "as rapidly as possible."

5-All employees are to return to work without discrimination against strikers. 6-The union agreed that pending negotiations there will be no other strikes or interference with production.

7-During existence of the collective bargaining agreement contemplated, all opportunities to negotiate shall be exhausted before any other strike or production interference is attempted by the union. 8-After evacuation of plants the corporation agreed to dismiss the injunction proceedings started by the corporation against the union or any members in Flint, Mich.

Wallace's Solution of the Farm Problem

SOLUTION of the farm problem, as devised by agricultural leaders who have been in conference with Secretary Wallace, is based on Mr. Wallace's ever-normal granary plan. It would operate on these four stages:

1. Soil conservation payments would be continued until production balances demand. 2. When a surplus in any commodity is grown, the government would offer farmers loans at market prices for storage of the commodity in bins. 3. If the surplus continued, soil benefit payments for removal of acreage from cultivation would be increased. 4. Should surpluses increase to 10 or 15 per cent above demand the government would impose taxes on excess production to force acreage reduction.

Officials said no definite plan of taxation has been worked out.

Navy Cannot Get Bids for Steel It Needs

DOMESTIC manufacturers persistently refuse to offer bids on the steel that the navy needs for its warship building program. President Roosevelt wants to know why this is, and so far he has found out that the Walsh-Healey government contract law is to blame. That act requires that all manufacturers filling government orders in excess of \$10,000 shall comply with minimum wage and maximum hour standards.

Since the act became effective last year, the navy has advertised for bids on 25,000,000 pounds of steel but has been able to place orders for only 7,000,000 pounds.

Spokesmen for the Navy department indicated no further bids would be asked until the industry has recorded its position or unless the Labor department moves to relax the labor standard provisions of the law.

President's Trade Treaty Power Is Extended

THE house passed and sent to the senate a resolution extending for three years the President's power to negotiate trade treaties with foreign nations irrespective of congressional approval. Some Democrats voted against the measure and were applauded by the little body of Republicans. The revolters were led by W. P. Connery of Massachusetts, who hails from a textile edge, and J. Mark Wilcox of Florida, whose district is noted for its vegetables. Both said the opposition was based on complaints from their constituents.

Amnesty for Political Offenders in Mexico

SEEMINGLY confident that his government is now safely established, President Lazaro Cardenas of Mexico issued a decree granting amnesty to all political offenders, under arrest for or accused of rebellion, sedition or other subversive activities. Under special powers given him by congress he squashed 3,841 court proceedings against more than 10,000 persons accused of antigovernment plots.

FAMOUS HEADLINE HUNTER

ADVENTURERS CLUB

"Hurling Death" By FLOYD GIBBONS

ERNE SMITH claims he's the only man that has ever done it. Way back in 1895 Ernie took a ride and he doesn't think it has ever been duplicated. Since that day people have learned to cruise around in automobiles, and airplanes, and submarines and whatnot, but Ernie professes to be the only man in the world who ever took a ride on—a rock!

Ernie lives in Waltham. He's reached the age of discretion now, and he doesn't go whooping around in the country on rocks anymore, but when he was sixteen years old—well—it seems he didn't much care what he traveled on.

In those days he lived in the little town of Vinalhaven, Maine, and had a job working for a fellow named Coombs who ran a small boat building establishment down by the water front.

Blasting Solid Rock to Make a Cellar. Coombs was just building his shop at the time this all happened. He had the foundation laid and was nailing down the floor. Just across the street, a fellow named Carnes was conducting some building operations too.

Carnes was digging a cellar—blasting it out of solid rock. And Ernie and Coombs, plugging away on their own carpenter job, worked to the tune of intermittent thunder as Carnes set off one blast after another.

Carnes set off several blasts without giving them a word of forewarning, but one fine summer day he yelled across the street: "Hey, you boys better get out of the way. I've got a little more powder in here this time." So Ernie and Coombs lay down their tools and began looking around for a place where they would be under cover.

The water front at Vinalhaven started with a high sandbank. Below that was a narrow beach, and beyond the beach, mud flats stretched far out into the water.

That rock was a monster. When they measured it later they found it was four feet long two feet wide and more than two feet thick. But Ernie didn't need any measurements to see it was big—didn't need anyone to tell him that if it ever struck that flimsy shed behind which he and Coombs were standing it would splinter it to matchwood and knock the very tar out of the man and the boy behind it.

Ernie let out a cry and started to move. A few steps away was the woodpile, high and solid, and he started to run for that.

"But I never made it," he says. "Instead, the rock made me. It landed on a stone ledge beside our half completed boat shop, bounced off at an angle and came rocketing straight at me."

The next thing Ernie knew the rock was landing for its second bounce RIGHT AT HIS FEET. Ernie had presence of mind enough to jump, but the jump did him no good. Suddenly he felt the rock come up under him and he was being carried through the air.

After that, Ernie couldn't tell you exactly what happened. And small blame to Ernie for that. Coombs was standing behind the fish shed watching the whole business. He had his eyes glued on Ernie all the time, and he couldn't tell you exactly what happened either. All he knows is that he saw Ernie carried for THIRTY-TWO FEET out into the mud flats—they measured the distance afterward—and then the rock went on over the flats leaving Ernie behind flat on his back in the muck.

When Ernie got his bearings again he was in the mud. The rock was still rolling, twenty or thirty feet farther out. He saw it stop, and then he heard somebody on the bank cry out, "Carnes has killed the Smith boy!"

Not Dead "By a Darn Sight." "But I lay there in the mud," says Ernie, "saying, 'Not by a darn sight has I.' It took me a few moments to work my feet and hands clear of the mud, and then, to the surprise of a dozen people I got up and walked over the flats toward the sand bank."

"Not a man offered me a hand as I started to climb the bank. They just stood there petrified, looking as if a ghost was coming at them. But when I did get up they asked me what happened. No one seemed to know except Mr. Coombs, who had been watching me, and he wasn't any too sure himself."

Two doctors had just landed from a boat at a wharf close by, and they looked Ernie over. Except that his clothes were practically torn to ribbons and his right side had a few black and blue spots, they couldn't find anything the matter at all.

The next day Ernie went back to work again, and his first job was juggling ROCKS—clearing away about two tons of them that had come out of Carnes' excavation and showered all over Coombs' half-laid boat-shop floor.

Hands Reveal Character

Anyone who sits with hands loosely clasped in the lap is of a quiet, well-balanced mind, while the nervous person tries to control nervousness by tightly gripping the hands together, states a writer in Pearson's London Weekly. One who has a habit of clasping hands with fingers entwined is not keeping strictly to the truth, while one who partially covers the mouth with a hand while talking has certain knowledge, but is trying desperately not to reveal it. A person who remains seated while conversing with another who is standing finds it very difficult to tell an untruth and any attempt to do so is easily detected by the person standing.

Lavender Favorite Perfume

Lavender is one of the favorite perfumes the world over and enormous quantities of the dried flowers are used annually to make the perfume and other lavender products. The yield of oil varies from year to year depending on the weather and the age of the bushes. The plants are very tender to any frost. The oil has to be stored from three to five years before it is sufficiently matured for use in the perfumery and other trades.

Saint Bernard of Mastiff Family

Unlike many other breeds, the origin of the Saint Bernard is a bit hazy, but early historians have agreed this type of dog belongs to the Mastiff family. The ancient records produce evidence that Mastiff dogs were brought from Asia, and used by the Romans as herders of sheep, besides being kept as watch dogs at army outposts. It has also been established that Roman soldiers used large dogs to guide sheep over the mountain passes, one of which was called the Saint Bernard Pass, no more than a pack mule path. A hostile tribe destroyed this path and cut off travel over the mountains around 950 A. D.

Fen Eagles

Fen eagles were famous in the eighteenth century for the quantities of fish they devoured off the Norfolk coast. One of them, shot down in Suffolk in 1810, measured nine feet across the wings. The high rewards given for their extermination. One hundred years ago, says the Montreal Herald, anybody who destroyed an eagle in the Orkneys was entitled to the gift of a hen from every household in the nearest village.

WOMEN WHO HOLD THEIR MEN NEVER LET THEM KNOW

No matter how much your back aches and your nerves strain, your husband, because he is only a man, can never understand why you are so hard to live with one week in every month. Two often the honeymoon of a woman is wrecked by the nagging tongue of a three-quarter inch, the woman never lets her husband know by outward signs that she is a victim of periodic pain. For three generations our grandmothers have told another how to get "going through" with Lydia E. Pinkham's Vegetable Compound. Lydia E. wonderful to see such splen-

ool operetta. There was a
dance at the first showing.
s came back to us for a
performance so that the ones
to see it might have an
opportunity. They said that
did not realize what a
am it was. With the co-
n of some interested patrons,
decided to give the pro-
gram. While the matinee was
at the high school Wed-
nesday afternoon, Miss Margaret Glass,
Mrs. Chad Magee and a senior pupil,
Miss Nevada Duncan, gave their
services free as substitute teachers.
This was indeed very much appreci-
ed. They were given complimentary
passes to the program Friday night.
The high school and the grade school
pupils turned out well to the matinee.
So many of them ride the buses and
cannot attend the programs at night.
A teacher from Pakan brought her
class to see it. The grade teacher
responded well in putting over the
operetta. Nothing was left undone in
order to make a success of the pro-
gram. Mrs. Boyett gave up some of
her meals periods in order to help
out. Mrs. Vogle, Miss Noel, Miss
Beasley and Miss Newman really had
plenty of help in putting over "A
Day in Holland."

CITIZENSHIP CLUB MEETS

The Citizenship Club met on Fri-
day of last week. The thrift com-

of the program. The others on the
program were: Kenneth Dwyer, W.
D. Clawson and W. C. Kennedy. They
presented a play on "Wasted Time."
Betty Ruth Moon read a story on
"Owning a Home. Norma Lee Myatt
gave a poem, "Rest."

ANOTHER GOOD THEME

Safety on the Highways
By Doris Rigdon
Highways are the trails over which
the world travels. They provide a
convenient way to go from one place
to another. Many of the accidents
that happen today are due to the lack
of safety. The traveler should be
cautious at all times while speeding
away down the roads. Many lives
will be spared if only care is taken
in making the curves and hazardous
places that are marked on the sides
of the roads as a warning to the
motorist. The highways are for the
public, but some people seem to
ignore this fact. They act as if they
owned the whole right-of-way. Road
signs is a splendid name for them.
Safety should be the watchword of
everybody who steps on the pave-
ment, as well as those who drive the
cars and trucks at terrific speed.
One should always face the traffic
on the side of the road the cars are
coming. It is much safer to walk or
drive a team on the shoulder than to
take chances on the slab. People
in buggies or on bicycles
should always have a lantern or tail
light burning at night.
When driving along the road, let
us watch for the signs. Often we see
the sign "Do not Pass Cars on the
Left." This sign does not register with
many drivers. We often read in the
news of accidents from auto-
mobile collisions on hills. Death often
occurs around the corner. Posts
are placed on each side of culverts.
Signs are given of dips and
bridges. Bridge bannisters
are lowered to provide greater
safety.
The greatest causes of acci-
dents on the highways is the driver
who is whiskey. Alcohol and gaso-
line do not go together. In most
states there is a law requiring a
license. That license may be
revoked for repeated cases of reck-

less driving, or driving while intoxi-
cated. Some people cannot judge
distance well. The motorist often
thinks he can cross the railroad
tracks before the approaching train
gets to the crossing. They enjoy the
thrill of beating the train. But, hor-
rors! If they lose! So many innocent
people are hurt or killed because of
the carelessness of a driver.

Mrs. Back: "Edward, what is a sub-
stantive clause?"
Edward: "Something that you can
get and can't get rid of."

OLD AGE PENSIONS

We believe that the people of Texas
generally would be delighted if a
larger monthly pension could be paid
the needy old people of this state.
We believe, too, that most of the
elderly people who are receiving state
aid are grateful for it. They realize
that it is a huge task to pay even a
moderate pension to 90,000 people
each month. Most of the trouble
that has arisen has been fomented
by ambitious politicians and dema-
gogues, who are willing to breed dis-
content among the aged in order to
advance their own political interests.
Such a brand of demagogery is little
less than criminal. What sense is
there in taxing all the property own-
ers of Texas in order to pay a pen-
sion to wealthy and well-to-do people
over 65 years of age? What justice is
there in it? None. Yet some of our
politicians are raising all kinds of
thunder for this to be done. Every
stinking one of them ought to be
elected next time to stay at home—

Even amateurs will have no difficulty in turning out the finished looking chair or buffet set—with this easy-to-do pattern. And when compliments they'll get on the cross-stitched peacock done in all the glory of its natural coloring or in two shades of a color for a more subdued effect. The crosses are 10 to the inch—the crosses are clearly given in a color chart. With two patterns a handsome scarf could be made. Pattern 5740 you will find a transfer pattern of a large motif 13 by 16 inches, and two smaller ones 4 1/2 by 6 inches; material requirements; color chart and key; illustrations of all stitches used.

Old age brings either wisdom or a grouch.

The real triple A is advertise, advertise, advertise.

"With malice toward none and charity for all" is observed by the home town newspaper more, perhaps than any other line of business.

Personally, we have no hope that everybody will agree with our ideas, and rather hope that some specimens of humanity will find them obnoxious.

It is difficult, sometimes, to convince some men of the merits of newspaper advertising, but when they are convinced, they possess one of the fundamentals of business success.

Every time a local business puts an advertisement in the home paper, he is inviting you to judge him on his merits. No man advertises unless he thinks he has the right goods at the right price, and he deserves consideration from local buyers for his loyalty to his own community.

Tree planting time is right now in its prime, but the time is short—a month from now will be entirely too late for some plantings. Nursery prices are lower now than they will be for some time, if times continue to grow better, as all stocks are low. A year's growth on a tree or shrub is worth money, and anyone contemplating adding to his home plantings would do well to do so this season.

DEMONSTRATION

Smith noticed a quarter on the floor of a big store. After glancing around to see that no one was looking, he took out his handkerchief and dropped it on top of the coin.

He then picked up the handkerchief, but the coin stuck firmly to the floor. He stood up hastily as he heard a shop assistant approach him. "Excuse me, sir," said the assistant. "Now that you have tested the powers of our famous glue, would you like to buy a bottle?"

IT ALL DEPENDS

The new office boy had been instructed how to answer callers. Just before noon a man asked: "Is the boss in?"

"Are you a salesman, bill collector, or a friend of his?" the boy inquired. "All three," was the answer. "Well, he's in a business conference. He's out of town. Step in and see him."

THE REAL PROBLEM

Husband—Have you ever wondered what you would do if you had Rockefeller's dough?

Wife—No, but I have often wondered what he would do if he had mine.

"Please give me your name," said the girl at the desk.

The salesman, embarrassed, looked harried.

"I can't!"

"What! You can't?"

"No, I can't, ma'am," he said.

"You see, ma'am, I'm already married."

A large group of relatives and friends met with Mr. and Mrs. C. M. Gatlin Sunday, celebrating their 40th wedding anniversary. All reported a good time, and extended congratulations and best wishes to the honorees.

SO MUCH FOR HIM

A distinguished visitor to a lunatic asylum went to the telephone and found difficulty in getting his connection. Exasperated, he shouted to the operator: "Look here, girl, do you know who I am?"

"No," came back the calm reply "but I know where you are."—Montreal Star.

Splith—Yeah, he and I are old bunkmates.

Zimpir—What! You were roommates at college?

Splith—No, I mean we believe the same kind of bunk.

Co-ed—Will your people be surprised when you graduate this month?

Senior—No, they've been expecting it for several years.

SYNOPSIS

Jim Fielding, one of the "lost generation" who had left college in the depression and was unable to find a job, arrives at Glendale to visit his friends the MacPhersons. MacPherson is a banker and his wife is a housewife. Jim is tired and discouraged. He meets Dolly, a girl who is still a college student. She is in love with him and she tells him how to reach the Vaughns. Approaching the house, Jim encounters a tomboyish little girl, fishing. She is startled and falls in the brook. Incensed at first, she discovers she liked Jim and he learns that she is Susan Vaughn. He discovers Cecily is her older sister. He sees Tommy, a youth of eighteen who imagines he is in love with Dolly. Jim explains his position to the MacPhersons. They tell him that Mr. Vaughn is recovering from a nervous breakdown and has been a widower since Sue was a little child. Mrs. MacPherson suggests that Mac give Jim a job as handyman. Jim goes for a walk to think it over and picks up a horse shoe. Cecily, a lovely young girl, appears, riding a limping horse. Jim scolds her when he sees the animal has thrown a shoe. There is an angry scene. Jim's ire cools and he is intrigued as he thinks about her. He tells the MacPhersons he wants to stay and assumes his duties as handyman.

CHAPTER II—Continued

Silence again, presently MacPherson asked hesitatingly, "Was there nothing left—of your uncle's fortune?"
"Very little. Only enough to take care of Uncle James and Aunt Emily. Incredible, isn't it?"
MacPherson did not reply at once. Unconscious of the revealing gesture, he polished his pipe against his nose. He and his conscience were grappling again. The strain of the conflict was visible in his lean face.
"Would you like the job here?" he asked at length. "I've the privilege of engaging whoever I please."
"Thank you," Jim answered. "I can't do that."
"It's no easy job. You'd earn your wages. Fifteen dollars and keep."
"At that figure I should be overpaid. No. I have definite plans for the future."
"As Bessie said, it would be something," MacPherson continued.
"I appreciate that," Jim's voice was husky. He looked at his old friend and smiled, a crooked smile which did not reach his eyes.
"Well, do as you think best." MacPherson's hand touched Jim's arm for a moment. "If you want to stay, you can have the job. I must see to the men now. Supper in half an hour."

CHAPTER III

A plum-colored twilight lay over "Meadowbrook." Thunderheads were massed in the west blotting out the sunset. Streaks of saffron edged the churning billows of clouds. Thunder rumbled at intervals.
Jim, accompanied by the dog, walked about the grounds at the rear of the house. "Meadowbrook" had an ordered appearance, he thought. The barn and garage, the lean scattered out-buildings were freshly painted, incredibly white in the purple twilight. In the yard of a tenant house beyond the barn a child swung back and forth on a cross-barred gate. An older boy in blue dungarees followed the cows up the lane from the pasture.
The place was not pretentious. It was a glorified farm rather than an estate. The flower gardens at either side of the house were planted with sturdy things, larkspur and pansies, calendulas and poppies. There was, as far as Jim could see, only one small green-house.
MacPherson must have put his hand in his pocket when he accepted the position here. He had, seemingly, little opportunity to use his skill as a gardener. Jim remembered the green-houses at "Whitehall," the masses of roses and carnations, the orchids and gardenias as carefully as infants.
His eyes clouded thoughtfully. He seemed so short a time since he wandered through the green-houses at "Whitehall," learning from MacPherson the names of the flowers and plants, learning geography, too, and the customs of other lands, cutting a bouquet of her Russian violets for Aunt Bessie, a dark red carnation for Unk, to tuck in his coat lapel. Illness, was like a dream. Perhaps "Whitehall" had been a dream.
His thoughts turned to the message. He had a message for the fisherman. And he had promised to the fisherman. He would be

obliged to confide in MacPherson, ask him for varnish and twine.
The Vaughns' handy-man! Jim left the gravelled path, walked along the edge of a rose garden bordered with box and across the lawn at the foot of the terrace, his brief glimpse into the private life of the Vaughns gave him a rather clear idea of what he'd have been in for if he had followed Mrs. Mac's suggestion. He'd have needed the tact of a master diplomat, the strategy of a Sherlock Holmes, the disciplinary tactics of the United States marines. It seemed a great deal to expect for \$15 a week.
And yet, it might be amusing to stay—
What had inspired that idea? Amusement brought Jim to a momentary standstill. He discovered, surprisingly, that under his surface preoccupations the thought had remained in his mind. At least it would be a change. He was so everlastingly tired of his present existence. Impulse and instinct were in favor of the experiment. But he was through with impulse. He was going back to Long Island. He was going to marry Lenore.
The reluctance he felt alarmed him. Was no emotion permanent? He'd been so terribly in love with Lenore. How he had suffered when she told him that she was going to marry Frederic Ames! Kay had given him an agonizing account of the wedding he had refused to attend. He had suffered in brooding silence. His noble grief had set him apart from commonplace mortals. Tristram and Isolde, Romeo and Juliet, Jim and Lenore.
He had thought that Lenore was the love of his life. What a state he'd been in when he learned, two years ago, that she was divorcing Frederic Ames and returning to her family in Roselynn. The sleepless nights he'd spent then! Despair had flavored with wormwood and gall his bright anticipations. He couldn't ask her to marry him. He was no longer his uncle's heir.
And then it hadn't mattered. The first time he saw Lenore again he realized that he did not love her. She hadn't changed disappointingly. She was as lovely looking as when he had first known her. The tragedy of an unhappy marriage had given her a new wistful expression. He simply did not love her. He had realized, with astonishment and poignant regret, that what he had considered the love of a lifetime was a boy's infatuation.
Jim's aimless course had brought him again to the drive. He walked between the double line of oaks and cedars down toward the bridge across the stream. The plum-colored dusk had deepened. The collier pressed close against Jim's legs, whimpering at recurring rumbles of thunder. Jock was terrified in a storm.
Jim was, at the moment, unaware of the dog's increasing fright. The problem of his immediate future absorbed his attention. And yet it wasn't a problem. He was going to marry Lenore. He knew that she loved him. And he was fond of her. Wasn't that enough?
The collier whimpered more sharply. The sound caught Jim's attention. He looked down. The dog had squatted on his haunches and was licking one of his front paws.
"What's the matter, old fellow?" he asked. He stooped to investigate and found that Jock had stepped on a horseshoe lying in the grass at the edge of the drive. One of the projecting nails had penetrated into the soft part of the paw. The injury was not serious. Jim gave the collier a reassuring pat and straightened, the horseshoe in his hand.
Here was luck! Jim examined the horseshoe. It had been cast recently, he thought, the iron had not rusted; the nails were all there. The shoe was small. It had been forged, he surmised, for a riding-horse, a lady's horse, almost certainly.
A sound scattered Jim's straying fancies, the unmistakable sound of hoof beats on the gravelled drive. Cinderella in search of her slipper, perhaps. He glanced down the driveway and whistled softly, his eyes lighting with pleasure.
The horse coming up the lane was a chestnut mare, small, spirited, beautifully proportioned. Jim loved horses. He stood watching the mare's approach in delight and admiration.
As the horse drew nearer, his expression changed. The mare was limping badly. He stepped out into the lane, only vaguely conscious of the fact that the rider was a girl.
She saw him and tightened the reins. The mare came to a stop.
"What's the idea?" Jim asked sternly.
An amazed exclamation was his only reply. Jim scarcely glanced at the rider. His concern was for the animal. Jim glanced at the horse's hoofs, ignoring the girl in the saddle.
"I thought so!" he exclaimed. "She's thrown a shoe. No wonder she's limping!"
He looked at the girl directly. It was then that he really saw her, her long graceful legs in whipcord jodhpurs, her bright hair bound with a tortoise-shell bandeau, blown in curling tendrils against her cheeks, her sherry-colored eyes darkening with anger. Good Lord! This was "Cecily," of course. He'd blown off as though she'd been a stable-boy. But she deserved it. What would she say?
A flash of lightning streaked the purple dusk. The horse quivered. The collier whimpered softly.
The girl found her voice.

"Who are you?" she asked scornfully. "The National S. P. C. A.?"
Jim swore vehemently under his breath. Spoiled brat! He'd be damned if he would apologize.
"I can't see a horse mistreated," he said, his voice quite as scornful as hers. "It's none of my business, of course, but freedom of speech is the right of an American citizen."
"And rudeness too, I suppose."
How lovely she was! Jim disliked her intensely but he was obliged to admit that obvious fact. It was beginning to rain.
"Here is your horse's lost shoe," he said, extending the symbol of good fortune. "I found it at the side of the drive."
She took the horse-shoe from him. For a moment their fingers touched. The rain was falling faster. Drops of moisture glittered on her lashes and in her short curling hair. Her features were exquisite. Her skin was the tawny pink and gold of an apricot in the sun.
"Thank you," she said disdainfully. Her hand, a slender hand with coral tipped nails, emerged from a pocket in her blouse. A coin spun through the air, fell on the drive at his feet. She glanced at him mockingly and flicked the leather tip of her crop. "If you care to know," she said, "I'd just discovered 'Lady' had lost a shoe, and was bringing her back." The mare turned and went on up the road.
Jim picked up the coin at his feet. It was a quarter, the form and substance of her retaliation. She had meant to be insulting. He deserved it, of course. She had spirit and she rode superbly. Those facts, too, he was obliged to admit.
His rage softened, dissolved, was gone. He realized, then, how very angry he'd been. It was stimulating to let go. He ran up the drive, delighting in the breaking fury of the storm, in the feeling of being alive again. He'd been a vegetable for so long. Why must he return to Long Island? Why couldn't he stay?
The idea was exciting. He burst into the cottage.
MacPherson glanced up from a newspaper.
"You've been in the storm, lad," he said. "It'll wagger you're wet to the skin."
Jim proceeded directly to the matter nearest his heart.
"Will you let me have a try at the job?" he demanded. He flipped the quarter into the air and caught it as it fell.
MacPherson shot him a quizzical glance from under his shaggy brows.
"What made you change your mind?" he asked. The boy had been up to something, he thought. Could it have been that—He'd heard Miss Cecily's horse clattering up the drive a few minutes ago—His pipe moved in an upward direction, paused, returned to the arm of the chair.
"The job is yours," he said. "Go up and change into some of my clothes. Supper is just about ready."
"Meadowbrook," during the first two weeks of Jim's servitude, was ruled by an invisible master. Thomas Huntley Vaughn, senior, convalescing from a nervous breakdown, was confined to his room. All that Jim knew of his employer was an impatient voice calling from the second floor, a bell buzzing incessantly, the irritated promptness with which the trained nurse answered any summons from the invalid's room, Miss Parker's nervous anxiety and repeated requests for silence.
Jim's duties were varied and, at times, confusing. He swept the terrace and the verandas in the morning and brought up the mail from the rural delivery box at the end of the drive. He drove to the village with marketing lists and washed the cars and picked vegetables in the garden. He assisted MacPherson about the grounds, learned to trim a hedge and spray for beetles and make neat edges along the borders of the lawn.
He enjoyed working out of doors, though he was frequently humiliated by his lack of skill and amazed at the intricacies involved in achieving apparently simple results. There was, he learned, a right and a wrong way to train a vine against a wall, to roll a tennis court, to thin and transplant a bed of tulips. MacPherson insisted upon the right way

in every instance. He was a kindly but exacting superior and showed Jim no favoritism beyond a sympathetic patience with his blunders and an occasional word of encouragement.
"You're learning, lad," he said one afternoon, inspecting with approval the transplanted tulips.
But there were countless difficulties. MacPherson's authority, unfortunately, stopped short at the house and it was with the domestic arrangements that Jim was largely concerned. Life in the rambling stone house presented a marked contrast to the ordered routine of the farm.
Miss Parker, he learned, was, technically, Susan's governess. She was, at the moment, acting as housekeeper as well. She did her best to keep things running smoothly but her best was far from adequate. Tommy was difficult. Susan was a grubby little savage. Nora, the cook, disliked the country. Rose, the maid, a girl from the village engaged for the summer, was involved in a flirtation with one of the farmer's assistants and careless about her work. Miss Jones, the trained nurse, was supercilious and sensitive and demanded a great deal of service.
It was into this maelstrom of conflicting personalities that MacPherson delivered Jim. Nora summed up his dilemma the first time he entered the kitchen with a basket of vegetables from the garden.
"So you're the new man," she said, her bright blue eyes regarding him with interest and a sort of acid compassion. "Well, the Lord have mercy on you!"
He soon discovered that Nora, with reason, had invoked Divine assistance in his behalf.
"Nice people!" he remarked, talking over his first day on the job with the MacPhersons at supper. "I feel as though I've been in a nightmare most of the afternoon. Miss Parker gave me the marketing list so late that when I got back from the village the cook hadn't time to do the roast and was obliged to resort to salmon salad which, according to her own sworn statement, gives the nurse indigestion."
"I should think so!" Mrs. MacPherson remarked, serving stewed chicken and dumplings with an air of complacency not unmixed with scorn. "Salmon out of a can!"
"The cook threatened to leave, of course," Jim continued, "and was pacified only when Miss Parker made me promise to drive her in to the movies tonight."
"Susan fell off the roof of the barn," Jim continued between soothing attacks on the dumplings. "Tommy had an accident with the station-wagon last night. Are such things daily occurrences or were they arranged especially to make me feel at home?"
"They were taken in hand," Mrs. MacPherson said crisply, obviously referring to the Vaughns. "Discipline! That Miss Parker is no more than a fly in a hail-storm!"
MacPherson made no attempt to deny the statement. The conversation veered, momentarily, from the Vaughns. Half way through the cherry cobbler, however, Jim asked a question.
"Isn't there another Vaughn?" he inquired casually. "I thought you mentioned an older daughter."
MacPherson glanced at him quickly but Jim, with a bland and innocent expression, was pouring cream on the cobbler.
"Cecily," Mrs. MacPherson replied. "She's visiting friends."
"You see!" MacPherson appealed to Jim. "Sees all: knows all. Where is Miss Cecily, Bessie?"
"Cape May," Mrs. MacPherson snapped, justifying her husband's humorously expressed opinion of his wife. "It's a horse-party," she added.
The house-party at Cape May extended well into Jim's second week at "Meadowbrook." The girl he had met in the drive was Cecily. He was sure of that. There were photographs of her scattered about the lower floor of the house.
The painting above the fireplace was more vivid. The artist had captured a suggestion of her coloring, the apricot bloom of her skin, her sherry colored eyes, her bright curling hair. But the artist had given her a gentle dreamy expression. Gentle expressions were charming, no doubt, and indicated a pleasant disposition, but Jim, when he glanced at the portrait, recalled the scornful glint in the red-brown eyes, the arrogant tilt of the rounded chin.
The house-party was a break for him, Jim reflected. If Cecily had discovered him filling wood-boxes the day after the encounter in the drive she would, no doubt, have ordered him off the place. By the time she returned, he reasoned, she would have forgotten the incident.
He learned, by devious means, a few scattered facts about Cecily. She dominated the household. "Since Miss Cecily isn't here, I suppose we can have corned-beef hash for luncheon," he heard Miss Parker remark to Nora as he waited, respectfully, hat in hand, to drive her to the village.
Cecily was popular. The telephone rang and cars filled with young people raced in and out of the drive. A large portion of the mail each day was addressed to her.
Cecily was interested in someone who did not meet with her father's approval. He could scarcely avoid hearing snatches of a conversation between Miss Parker and a friend from a neighboring estate.

What Irvin S. Cobb Thinks about

The Drift of Scotland.
SANTA MONICA, CALIF.—
So high an authority as the Associated Press gives out a dispatch stating that Scotland is drifting toward America at the rate of eight feet a year.
This would be an excuse for the unthoughtful to say that the Scots always had a reputation for being close and now are becoming still closer.
To me, though, the main question is whether Scotland is going to bring England along with her. Among themselves, at least, the Scots have always had the reputation of bringing England along through the centuries. And if you don't believe it ask any true Scot. He stands ready to offer supporting dates, names and statistics.
By the way, I've noticed one outstanding difference between the two greatest groups of the Celtic race. To an Irishman's face you can joke about Ireland and he remains calm. But poke fun at an individual Irishman and you are hunting for trouble — and probably will soon be hunting for a doctor. Inversely you may jibe a Scot and get away with it. But just say the least little thing in derision of his native land and you'd better start running.

Irvin S. Cobb

So-Called Modern Art.
I GUESS I must belong to a most ancient species—indeed, an almost vanished species. It's true I'm not quite old enough to remember when they shot Indians where the city hall now stands and Peggy Hopkins Joyce was called Love Apples. But I do date back to where a painting was respected, remotely, at least, to exemplify the object it purported to represent.
I lived through the early stages of the artistic revolt—primitives, ultramodernists, post-impressionists, cubists, dadaists and so on—without ever becoming reconciled to the prevalent idea that a canvas apparently depicting a bundle of laths coming undone was supposed to be a nude lady's portrait, or that a spirited rendition of a yellow cat having an epileptic fit in a mess of tomato soup was an Italian sunset.
Lately I've seen examples of the latest school — the surrealist school. And if the practitioners of this form of beauty are artists, then I'm a kind-faced old Swiss watch mender. They're actually giving certain of these geniuses medals. What they ought to give 'em is something for their respective livers.

Uncle Sam the Spendthrift.
WELL, we were good fellows while we had it, weren't we? We destroyed our forests. Result: Up water courses.
We indulged in an orgy of so-called "reclamation" schemes to drain unneeded swamplands, thereby destroying the breeding grounds and the natural resting places of emigrating wild fowl so that the once vast flocks are gone, probably forever.
We wasted our heritage of wild game, formerly a great factor in food supply aside from being a source of healthful joy to gunners. We needlessly polluted our streams.
But we're a resourceful race; give us credit for that. Now, through speed madness and drunken driving, we're preying merrily on human life. It's getting so that the citizen who insists on dying a natural death, instead of waiting for some mad wag of a road-hog to mow him down, can be regarded only as a spoilsport.

Cruelty to Wild Life.
SOMETIMES women are almost as inconsistent as men—which is a frightful indictment to bring against any sex.
As a boy, I remember being severely lectured by a lady for robbing birds' nests—a lady whose nodding hat was crowned with at least four stuffed meadowlarks.
A few years ago, I saw women prominent in humane movements and good deeds, like that woman of the Scriptures who was called Dorcas—saw these women wearing the smuggled and forbidden agrettes of the snowy heron, even though they must have known that each pitiable feathered wisp meant a cruel murder and a brood of fledglings left to starve. I still see these agrettes being worn—against the law of the land and the greater law of common humanity.
And only lately, at a meeting to forward the prevention of cruelty to dumb beasts, I saw women swathed in their erlobes in furs of mink and otter. Seemingly they had forgotten that the animals whose pelts they wore had died in steel traps by slow degrees of infinite torture. Or maybe they didn't care.

Uncle Phil Says:

Determination Gets Results
A man who wants anything wishes for it, but he doesn't wish long if he is determined. He gets busy.
Everyone knows what he ought to do; quite often, it is the disagreeable alternative.
If virtue is its own reward why shouldn't the lack of it be its own punishment?
Helping Genius
If we can't have genius ourselves we should be kind of glad to hold the ladder for another.
Indignation over the sins of others gets no man into heaven.
People we like can bother us all they please; in fact, they don't bother us.
Hoping Alone Is Futile
Hoping without planning is as futile as waiting for a harvest without planting.
It would be a wonder if wonder ceased.
All things come to those who wait but they come quicker to those who wait on themselves.
Kindness is one of the virtues, that, once a man has it, he rarely loses.

On the Funny Side
Disturbing

Mandy—Ah! My glad you like dem, Mam. Ah jest used mah false teeth to make de impresses.
Reticent

DISTRICT HOMEMAKING MEET IS SUCCESS

The district Homemaking Club met last Saturday in McLean, with 85 girls participating. There were 13 girls present from Allison, three from Wheeler, six from Kelson, 15 from Mobette, 14 from Shamrock, 10 from McLean.

The following program was dedicated to this district club meeting:

Registration began at 10 o'clock Saturday morning. At 10:30 the welcome address was given by Shirley Johnston, the club president. Mr. Cryer gave a reading, "Recognition of Clubs and Club Sponsors." A business meeting was held, and a new club song was adopted. The title is "Future Homemakers," and it is sung to the tune of "Auld Lang Syne." The clubs voted to send delegates to the rally, and decided that the district president would be the most deserving therefore, Shirley Johnston will be the delegate sent to the Future Homemakers rally. The girls then gave a sing-song of popular numbers. From 11 o'clock to 12 was devoted to responsive readings. "Hobbies Are Real Fun" was given by Mabel Back; "Hobbies for Girls" by Dorothy Mertes; "Music as a Hobby for High School Girls" by Mrs. Cecil G. Goff; readings by Vada Appling and Dorothy Sitter; stunts by McLean Future Homemakers, and music by Willie Louise Cobb.

A delicious lunch was served at the noon hour by the junior mothers in the basement of the Methodist church.

At 1 o'clock Shamrock gave the response, "Collective Hobbies for Girls;" Wheeler, "Hobbies for Profit;" Mobette, "Creative Hobbies for High School Girls;" Kelson, "Sports as a Hobby for High School Girls;" Kelson, "Art as a Hobby for High School Girls;" McLean, "Suggestive Hobbies for High School Girls." A business meeting was held and Shamrock invited the clubs to meet there for the next district meeting, which will be held some time in April.

At 2 o'clock a George Washington tea was served in the home economics department. Guests were received at the door by Martha, and were served dainty cheese sandwiches and small cookies decorated with cherries. The tea was served by candlelight, with Margaret Kennedy playing the role of George, and Dorothy Sitter that of Martha.

The girls have begun to plan for their trip to the rally, and are devising plans from which to raise money for this trip. Only four girls can participate in the rally from each school teaching three years of homemaking. We had planned to send six but the rules have been changed since last year.

The state supervisor, Miss Ester Sorenson, visited our homemaking department Tuesday, and we are glad that she came, and would be glad for her to visit us again.

SHERLOCK SNOOPINGS

Are there headlines or are there headlines for the juniors this week? I'll say so. It seems that somebody decided that they needed a little publicity, and that is what they are getting. They have even monopolized the gossip column this week. Just listen to this!

Within two minutes I saw Paris Hess read the same letter three different times in three different rooms. I saw Kid McCoy escorting the new junior girl, Louise Chalm, to the junior room. Look out, Kid!

I heard Roy Kiser wanting to speak to E. M. because E. M. was sitting by a pretty little blond.

I wonder how many boxes the Petty twins have in their lockers?

I saw the initials J. B. B. cut on a study hall desk.

I just happened to think that the all-American high school band members are juniors.

One way to get to sit by your girl in commercial geography class is to

buy your book together. How about it, Earl and Alice?

I heard that Stanton couldn't "bottle" if he didn't have someone to "bottle." (Sidenote from the junior play).

Why does Miss Mallow object to Shirley's wearing the bus driver's toboggan?

Did you hear Lola Bowen's giggle coming up, or should we say down, the road the other night on horse-back?

Someone asked, "Who was Frances Tidwell with, Friday night after the ball game?"

Why is this "Little" boy so interesting? There's more than one little boy in school. Which one, please?

I saw Leta Mae Phillips' Romeo throw water all over her Saturday.

Why were Willie Louise's feet so heavy Saturday?

Just ask Norma Lee Rickard if she knows about the girl with the two hearts, but don't be too insistent about knowing.

SPRING SPORTS

Coach Bill Allen stated Tuesday in an exclusive interview that the spring sports will be run under this system:

Track began Feb. 22 with ten aspirants who may give McLean its first squad with any hopes of accomplishing anything at the district meet after they defeat the Longhorns and Pirates.

Boxing also started Monday and had six struggling youths endeavoring to learn to use their "mitts." The boys like this sport and it is a fan-pleaser, so it may have future in McLean.

Football, McLean's only great sport, will begin March 1. Coach Allen expects around thirty athletes to begin training for a rousing schedule next fall. The Tigers have more experienced men returning next fall than any squad in years. They should win some fame unless they let their thoughts surpass their deeds.

SENIOR GOSSIP

The quilt that Mrs. Shaw donated to the senior class was given away last Thursday, to Mrs. Bennie Watkins.

From now on until the event takes place, you will be hearing all about the senior trip to Carlsbad. All suggestions, donations, and the like will be appreciated.

The order for graduating caps and gowns has been sent in. That sort of thing makes the seniors realize that they have but a short time left in MHS.

Almost any time now the senior group picture will be hung in the lower hall over the trophy case. All your first opportunity, come up and take a look at it.

Last Monday morning the class received a letter from Mrs. I. D. Shaw in answer to the letter of appreciation from the seniors. Again all of the members of the class wish to say, "Thank you, Mrs. Shaw, for the quilt."

JUNIOR-PEP SQUAD PLAY

The junior class and the pep squad have begun a joint play. The play selected is "Here Comes Charlie," a comedy with modern setting. The play will be presented in March.

The cast is as follows: Shirley Johnston, Jeff Coffey, Kim McCoy, Wanda Estes, Margaret Kennedy, R. L. Floyd, Paris Hess, Melba Turman and Stanton Gardner. The directors are Misses Aline McCarty and Elizabeth Kennedy.

The proceeds will be used to defray junior-senior banquet expenses and to pay on the pep squad uniform accounts.

JUNIOR CLASS SERVES DINNER

On last Saturday at noon the room mothers for the junior class prepared and served a dinner to the visiting home economics girls. The dinner was served cafeteria style in the basement of the Methodist church. The menu was: baked chicken, dressing, gravy, green beans, jello salad, cookies and hot chocolate.

The food was donated by class members. Proceeds will be used to defray expenses of the junior-senior banquet.

FRESHMEN ENJOY PARTY

On last Friday evening the freshman class had a party in the gymnasium. Although only about half the members were present, there was much fun in the games played. Volley ball was the chief form of diversion. Games were planned and conducted by Miss Sarah Truitt. Several teachers were present. The room mothers prepared and served the delicious refreshments. These room mothers were present: Mesdames Doolen, Thacker, Wade and McClellan.

Mrs. H. C. Rippy visited Mrs. Sherman White at Pampa one day last week.

THE ELEMENTS CRY OUT

Most of us shuddered at the news reports of the loss of property and life during the month of January. What was the cause of the great loss to our many fellow-citizens? Did the elements go on a sudden, uncontrolled rampage? Or was there another force in back of the powerful elements crying out in revenge? Was the all-powerful, merciful God so brutal so as to cause devastating floods, wide-sweeping fires, ravaging diseases, bitter cold, broken homes and horrible, sudden deaths in icy graves? Are the elements responsible or are we to blame God for all the damage?

Man proposes and God disposes. He damns and frosts and the gruesome, January floods, the worst in the history of our nation, point out a very important lesson to us. Not in vain did the preachers of righteousness, the ministers of the Holy Gospel of Jesus Christ, proclaim the merry God and also the wrath of the Almighty Creator. Many an un-believer would not permit himself to believe that nature as well as man-made dams and levees could be easily destroyed without notice by the Lord as a punishment, a test of faith, and as a warning that man will be destroyed for his sins.

If this entire nation of ours would be 100% Christian not only in name but also in practice, would the Lord of heaven and earth permit such catastrophes? Would the Lord have destroyed the cities of Sodom and Gomorrah if all therein would have been faithful children of God. Were ancient Rome and Greece destroyed for their righteousness?

If not for sin and its originator, the devil, we would not have had any catastrophes in this world. If sin is not fought; if we do not subdue the evil in the world as well as our own corrupt desires, we must expect our doom to be written on the face of this earth by the hand of God while the elements cry out, "Amen, it is so."

Our Creator demands and commands obedience. He is a God of love and mercy. All those who refuse to obey Him and bestow honor upon Him will be punished. Scripture tells us in plain language: "Be not deceived; God is not mocked." You are either for the Lord or against the Lord. There is no neutral path.

Many faithful Christians were engulfed by the recent tragedies caused by fire and water. To such, these elements did not bring the wrath of God for their forgiven sins, but brought a strict examination, a rigid test of their faith, reminding them that they should not have any confidence in earthly things but to look forward to eternal rest in heaven. A lesson for both the wicked and the faithful.

The Lord can bless as well as destroy. The efforts of man seem puny, indeed, when compared with the mighty deeds of God. "Learning from the experience of past years, man had proposed and constructed huge walls and levees to keep fractious rivers and streams confined to their natural beds.

"Despite all the planning and the labor and the millions expended on this work, however, it required only a few days for the onrushing waters to dispose of everything in their path. Concrete bulwarks either crumpled or were not high enough, the floods rushed on, thousands of square miles were submerged, homes were swept away, whole cities were deserted, and one million persons were left homeless." A gruesome, panoramic view, which can be compared with the prophecies of Scripture in respect to the day of wrath, the day of judgment.

"Judgment Day is God's day of settlement with a world that has had a long credit. It is the winding up of this earth's bankrupt estate and each man's individual interests. It is the closing of an open account that has been running on every since the fall" (Guthrie).

Come what may, the Christian is ever mindful of God's mercy and judgment; he is always prepared to accept punishment as well as blessings, knowing that there is a place already prepared for him in the mansions of the heavenly Father. The Christian firmly believes that he is saved alone by the grace of God through faith in Christ Jesus, the Savior of all mankind. Do you believe this also?

Burford Reed of Pampa was in McLean last Thursday.

THOSE HYPOCRITES OUT OF THE CHURCH

While the old plea about "hypocrites in the church" isn't heard as often as it once was, yet occasionally it will bob up. Just the other day we noticed in a church announcement printed in a South Texas newspaper the following, which to our notion is one of the best analysis of the true situation we have seen. Here it is:

"And there are hypocrites, more of them, out of the church. No human group is perfect. Should we judge our government by the worst officials, or the best? Should we judge the Constitution by the way our worst citizens follow it, or by the way the best follow it? So with any organization. Some people who refuse to take personal responsibility in some church because of 'hypocrites,' break their necks to get elected to political jobs, clubs, etc., where there are heavier mixtures of hypocrites. Why the inconsistency?"

"Hiding behind hypocrites to keep from doing one's duty makes a sorry spectacle. Which is more manlike: to refuse to have anything to do with the Master of men because Judas, or to become a humble follower of Him because of Peter, James and John?" Clarendon News.

In Fort Worth, delegates to the Southwest Baptist Church Music Conference were old to avoid "whoop-up" songs in church worship. E. Reynolds, conference head, said: "It is a travesty to develop ministers to a high point and have a knock-down, drag-out musical program."

FAIR RETURN

Because one of his hens looked sick, a farmer of William, Ontario, Canada, picked it up and took it inside his house, where it promptly laid an egg. He took the chicken back to the henhouse. Fifteen minutes later he thought it looked sick again. Back he took it into his own house, where it immediately obliged with another egg.

Newest Silk Prints Go Pictorial

CHERIE NICHOLAS

AS A sure antidote to winter gloom, as a reviewer of crest-fallen spirits, as an unfailing means of buoying one up with that grand and glorious feeling that spring is nigh we recommend that you go stepping in a brand new silk print frock, the gayest, the brightest, the most animated in its patterning and coloring you can find to wear under your somber fur coat.

Hurry up if you want to secure the choicest, the most distinctive and outstanding from among the hundreds and thousands of prints now on display. Seriously is this word of advice offered for it is a fact the new silk prints are that intriguing and alluring we have known it to be a fact that certain particularly attractive patterns are unpacked, priced and displayed in the morning and by nightfall they are sold, not even a remnant left to tell the tale.

The new silks look new—distinctively new! Those that unmistakably bear a new-this-season stamp follow along unique lines of thought. They are more than mere dress media in that they have gone pictorial, illustrative, interpretative. They portray ideas, they entertain, they amuse. Some of the better high-class silk prints even go by name as an artist would entitle a picture which makes them all the more interesting. There is, for example, a clever looking new silk print called "film modes." The French love of American films inspired Schiaparelli to design this amusing print with the names of famous stars printed on colorful scrolls simulating cinema film. The attractive daytime frock centered in the illustration herewith is made of this star-embroidered silk print, the color scheme being peacock blue and coral on black. The beret topping this costume is worn far back on the head in latest approved manner, so as to show a perfectly groomed hairdress with latest style-correct off-face movement.

The silk for the dress shown to the left by the same artist designer

registers as "subway of Paris," and its motif carries out the idea quite realistically. This silk tunes perfectly to the gay young dress pictured to the left in the trio. The dashing cavalier hat is a resort fashion such as bespeaks a coming springtime vogue. The turn-up-at-side silhouette is exploited in several Paris collections.

Strawberries, fresh strawberries! At any leading silk department where smartest silk prints are flaunting their fascinating colors and breathtaking patternings ask for "fresh strawberries," and the knowing salesperson will bring out a perfectly charming silk crepe print such as is used for the making of the winsome dress shown to the right in the group. Appliques of the strawberries on net introduce an ornate accent in the bodice. The strawberry corsage is dyed to match the color of the berries in the print.

Others among the new and novel pictured prints now so fashionable are enlivened with animated figures, such as golf players teeing off, or "doggie" silks with frolicsome Scotch terriers performing tricks, galloping horses, quaint undersea fish, butterflies on the wing and other motifs so numerous to itemize. Most unusual and of high-style importance are the new landscape prints; marine scenes, too, grace these silks. It is indeed a versatile story of romance, history, music and what not that the smartest prints of the season are telling.

First-choice silks for immediate wear play up vivid splashes of striking florals in breathtaking colors against black or some other preferred dark background. The wide-spaced flower motifs look newest, these in huge single flowers or in wide-set bouquets. A new and lovely silk print has artful bowknots in gay colors. In Paris black and white prints are acclaimed.

EASY-MADE DRESS

By CHERIE NICHOLAS

If you are feeling that make-it-yourself urge which the displays of newly, crisp, fresh-looking spring materials always bring to the woman who can sew, here is just the type dress that will start the home-sewing program off with a flourish. Almost boyish in its neat, trim lines this make-it-yourself dress of dubonnet subcord, a sporting modern cotton fabric with no hidden tendency to shrink, since it has been sanforized-shrunk in the finishing of the cloth, offers plenty of reward in able to the home dress-maker. It has a zipper neck closing and inverted pleats in sleeves, center back and pockets. A smooth black leather belt adds to the effect of tailored smartness.

VEILS CONTINUE TO BE IMPORTANT NEWS

By CHERIE NICHOLAS

Veils continue to be news in Paris. With the flood of holiday parties, women seem always to wear little hats, oftentimes of felt, with double veils floating over their faces. And that is the preferred position for the filmy things for lunch time, too. Cocktail parties give a divided allegiance to veils, some of them over the face, but many draped over the back of the hat, making a frame for the face. Particularly amusing is one of Therese Peter's new creations. The tiny pointed skull cap—for it is actually that—is of hand-knitted gold thread. Two tiny feather nightingales ornament it at either side of the front, and hold the veil which is also embroidered in nightingales and sweeps back over the entire hat, hanging almost to the shoulders.

Violette Marsan, who is definitely a partisan of the small hat dipping a bit over the forehead, prefers her veils to be quite stiffened so that they may be turned back from the face or extended out from the face. These are shorter, not extending beyond the nose.

Co-Eds Bring Ear Muffs
Back Into Fashion Again
When you hear a girl talking about getting out her ear muffs, don't think that this is the key line of a joke. For ear muffs are in vogue once more and before many weeks the chances are that most college girls and many others will be wearing them.

The bare-headed fad on college campuses has started the trend, but no one knows where it may lead to.

New Type Heels Out
Among the new covered heels soon to make their appearance on smart dress shoes, are two models which owe their chic to sharp projections which jut out from the top of the inner surface and fasten under the instep.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By REV. HAROLD L. LUNDQUIST, Dean of the Moody Bible Institute of Chicago, © Western Newspaper Union.

Lesson for February 28

THE NEW COMMANDMENT

LESSON TEXT — John 12: 20-33; 13: 34, 35.
GOLDEN TEXT — A new commandment I give unto you, that ye love one another; even as I have loved you, that ye also love one another. John 13: 34.
PRIMARY TOPIC — A New Commandment.
JUNIOR TOPIC — A Great Man's Way.
INTERMEDIATE AND SENIOR TOPIC — What the New Commandment Means.
YOUNG PEOPLE AND ADULT TOPIC — The Measure of Christian Love.

In the last week of our Lord's ministry on earth many important events took place, but we pass most of them in our present series of studies. The incident related in our lesson of today is of interest in and of itself, but it is of peculiar significance because it introduces a marvelously instructive discourse of our Lord.

Whatever had prompted their inquiry, we are delighted to note that the Greeks came with an earnest desire to see Jesus.

I. Seeking Jesus (12: 20-22).
A man has progressed far on the road to blessing when he makes known his desire to see Jesus. Coming to him means coming to the One who has the words of eternal life.

Note that the disciples were wise enough to bring the men to Jesus. The true function of every Christian worker is to bring men to him. On the back of the pulpit in one of America's greatest churches, directly where the preacher can see them as he arises to preach, are the words of our lesson, "Sir, we would see Jesus." Little wonder that a strong and true gospel is preached in that church.

II. Finding the Cross (vv. 23-33).
The reply of our Lord to the Greeks and to the disciples who brought them to him, seems a bit singular at first glance. Did he not wish to receive them? They had probably come to see the great religious leader, the King of the Jews—why does he talk about death—why is his soul troubled?

The words of our Lord are clear. Men do not need an example, a leader, a teacher, they need a Saviour. It is as a sacrifice for sin that Christ will draw all men unto himself (v. 32).

We need to relearn that lesson. Leaders of the church are earnestly seeking the explanation of the rapid decline in the influence of the Christian church. It is a good sign that some are beginning to realize that the difficulty is in the realm of the spiritual. The barrenness of so-called modern theology has become apparent to its leaders and they have begun to talk about a "spiritual revival." But unfortunately we soon find that they use the expression to stand for something entirely different from a real scriptural revival. "The voice is Jacob's voice but the hands are the hands of Esau" (Gen. 27: 22).

Let us make no mistake about it, a real revival will center in the cross and will manifest itself in denial of self for the glory of God. One cannot forego mention of the fact that the last part of verse 26, "If any man serve me, him will my Father honor," was the motto of the late Dr. James M. Gray, whose life gloriously exemplified the truth of the passage. God is willing and ready to do as much for you and for me.

III. Loving One Another (John 13: 34, 35).
When these words were uttered our Lord was two days further in the last week before he was crucified. He was alone with his disciples in the upper room. What message does he have for them in that solemn hour? That they should love one another. That is a message that new emphasis in our day. The strife which fills the world has almost engulfed the church, and there is bitterness and strife where love should reign.

Let us observe carefully that it is as his disciples that we are able to love one another. There are two erroneous extremes to be avoided. First, we have the out and out conservative, who proclaims his belief in the Bible as God's Word, who is anxious that he be absolutely correct in doctrine, a really saved man, and who then becomes the kind of "fighting" fundamentalist who dimly fails God in the testimony referred to in these verses. On the other hand we have the liberal who has abandoned the scriptural basis of discipleship and who then boasts of his great love for his brethren. Love is no substitute for regeneration, and regeneration is no excuse for lack of love.

Courtesy of the Heart
There is a courtesy of the heart, it is allied to love. From it springs the purest courtesy in the outward behavior.—Goethe.

Duty of Gratitude
Gratitude is a duty none can be excused from, because it is always at our own disposal.—Charron.

The Fountain
Look within—within is the fountain of good; and it will ever bubble up, if thou wilt ever dig.

Worthy of Your Pride!

MOTHER, between you and me Sis is getting to be a little show-off. Last night when Dick called, there she sat, big as life, right in the middle of things chirping about the new dress you made her: how you used a remnant left over from one of your dresses, and got it finished in one afternoon—she even had Dick feel the material.

Well, Elsie, you can't blame the child's appreciating herself in a new dress. How about ourselves? Didn't you say your jumper was the talk of the Tennis Club meeting yesterday? And haven't I been spending more time before the mirror since I made my new "Stylish Stout" model? I actually feel like a new person in it—imagine me being vain at my age!

Flatters Stout Figure.
Oh, Mother, you're not vain and you're as young as any of us. You just were lucky to find a particularly flattering style for your figure. That soft jabot makes you look lovely and the whole thing is so slenderizing. But only an expert like you could make such a dress.

It isn't being expert, Elsie, it is choosing a pattern that is deftly designed and giving full step-by-step instructions on how to proceed.

Several Blouses.
I'm going to make another blouse for my jumper soon, Mother. I always admired that white pique shirt of Dick's, so I think I'll try it for my blouse, since the pattern is a lot like a man's shirt in design.

It sounds good to hear you interested in making something for yourself. Maybe you girls will turn your Bid-or-Bi Club into a Sew-Your-Own before long.

You can never tell, Mother, you never can tell!

The Patterns.

Pattern 1229 comes in sizes 14 to 20; 32 to 42 bust. Size 16 requires 3 1/2 yards of 39 inch material for the jumper and 1 1/2 yards for the blouse. Pattern 1847 is available in sizes 36 to 52. Size 38 requires 4 1/2 yards of 39-inch material.

Pattern 1882 is designed for sizes

Household Questions

Cane-bottomed chairs should be brushed to remove all dust and then washed with salt and water and placed in the open air to dry. This treatment tightens up the cane.

Sometimes ink stains can be removed from the hands by rubbing them with the inside of a banana peel.

A good cleaner for glassware having a deposit of lime from hard water, consists of a mixture of one cup vinegar in one quart of warm water into which six or eight slices of raw Irish potatoes have been cut.

Carrots can be made crisp before cooking by scraping and leaving in cold water for half an hour.

Potatoes that are to be French fried should stand in cold water at least an hour before cooking.

2 to 10 years. Size 4 years requires 1 1/4 yards of 39-inch material.

INTERSCHOLASTIC LEAGUE TO BE HELD IN ALANREED

The Gray County Interscholastic League meet will be held on April, 1-3 in Alanreed, with Supt. Dillard officiating as general director. Local directors have been appointed by Supt. Cryer as follows: Track, field and tennis—Coach Allen. Playground ball—Mr. Graham. Volley ball—Mrs. Powers. Declamation—Miss Kennedy. Ready writers—Miss Cousins. Extemporaneous speaking—Miss Abbott. Spelling—Miss Truitt.

DISTRICT HOMEMAKING MEET IS SUCCESS

The district Homemaking Club met last Saturday in McLean, with 89 girls participating. There were 13 girls present from Allison, three from Lefors, six from Kelton, 15 from Wheeler, 14 from Shamrock, 10 from Mobeetie, and 20 from McLean.

Registration began at 10 o'clock Saturday morning. At 10:30 the welcome address was given by Shirley Johnston, the club president. Mr. Cryer gave a reading, "Recognition of Clubs and Club Sponsors."

A business meeting was held, and a new club song was adopted. The title is "Future Homemakers," and it is sung to the tune of "Auld Lang Syne." The clubs voted to send delegates to the rally, and decided that the district president would be the most deserving therefore, Shirley Johnston will be the delegate sent to the Future Homemakers rally. The girls then gave a sing-song of popular numbers. From 11 o'clock to 12 was devoted to responsive readings. "Hobbies Are Real Fun" was given by Mabel Back; "Hobbies for Girls" by Dorothy Mertes; "Music as a Hobby for High School Girls" by Mrs. Cecil G. Goff; readings by Vada Appling and Dorothy Sitter; stunts by McLean Future Homemakers, and music by Willie Louelle Cobb.

A delicious lunch was served at the noon hour by the junior mothers in the basement of the Methodist church.

At 1 o'clock Shamrock gave the response, "Collective Hobbies for Girls;" Wheeler, "Hobbies for Profit;" Mobeetie, "Creative Hobbies for High School Girls;" Lefors, "Sports as a Hobby for High School Girls;" Kelton, "Art as a Hobby for High School Girls;" McLean, "Suggestive Hobbies for High School Girls." A business meeting was held and Shamrock invited the clubs to meet there for the next district meeting, which will be held some time in April.

At 2 o'clock a George Washington tea was served in the home economics department. Guests were received at the door by Martha, and were served dainty cheese sandwiches and small cookies decorated with cherries. The tea was served by candlelight, with Margaret Kennedy playing the role of George, and Dorothy Sitter that of Martha.

The girls have begun to plan for their trip to the rally, and are devising plans from which to raise money for this trip. Only four girls can participate in the rally from each school teaching three years of homemaking. We had planned to send six, but the rules have been changed since last year.

The state supervisor, Miss Ester Sorenson, visited our homemaking department Tuesday, and we are glad that she came, and would be glad for her to visit us again.

SHERLOCK SNOOPINGS

Are there headlines or are there headlines for the juniors this week? I'll say so. It seems that somebody decided that they needed a little publicity, and that is what they are getting. They have even monopolized the gossip column this week. Just listen to this!

Within two minutes I saw Faris Hess read the same letter three different times in three different rooms.

I saw Kid McCoy escorting the new junior girl, Louise Chism, to the junior room. Lock out, Kid!

I heard Roy Kiser wanting to speak to E. M. because E. M. was sitting by a pretty little blond.

I wonder how many boxes the Petty twins have in their lockers?

I saw the initials J. B. B. cut on a study hall desk.

I just happened to think that the all-American high school band members are juniors.

One way to get to sit by your girl in commercial geography class is to

buy your book together. How about it, Earl and Alice?

I heard that Stanton couldn't "buckle" if he didn't have someone to "buckle." (Sidenote from the junior play).

Why does Miss Mallow object to Shirley's wearing the bus driver's toboggan?

Did you hear Lois Bowen's giggle coming up, or should we say down, the road the other night on horse-back?

Someone asked, "Who was Frances Tidwell with, Friday night after the ball game?"

Why is this "Little" boy so interesting? There's more than one little boy in school. Which one, please?

I saw Leta Mae Phillips' Romeo throw water all over her Saturday.

Why were Willie Louelle's feet so heavy Saturday?

Just ask Norma Lee Rickard if she knows about the girl with the two hearts, but don't be too insistent; about knowing.

SPRING SPORTS

Coach Bill Allen stated Tuesday in an exclusive interview that the spring sports will be run under this system:

Track began Feb. 22 with ten aspirants who may give McLean its first squad with any hopes of accomplishing anything at the district meet after they defeat the Longhorns and Pirates.

Boxing also started Monday and had six struggling youths endeavoring to learn to use their "mitts." The boys like this sport and it is a fair pleaser, so it may have future in McLean.

Football, McLean's only great sport, will begin March 1. Coach Allen expects around thirty athletes to begin training for a rousing schedule next fall. The Tigers have more experienced men returning next fall than any squad in years. They should win some fame unless they let their thoughts surpass their deeds.

SENIOR GOSSIP

The quilt that Mrs. Shaw donated to the senior class was given away last Thursday, to Mrs. Bennie Watkins.

From now on until the event takes place, you will be hearing all about the senior trip to Carlsbad. All suggestions, donations, and the like will be appreciated.

The order for graduating caps and gowns has been sent in. That sort of thing makes the seniors realize that they have but a short time left in MHS.

Almost any time now the senior group picture will be hung in the lower hall over the trophy case. At your first opportunity, come up and take a look at it.

Last Monday morning the class received a letter from Mrs. I. D. Shaw in answer to the letter of appreciation from the seniors. Again all of the members of the class wish to say, "Thank you, Mrs. Shaw, for the quilt."

JUNIOR-PEP SQUAD PLAY

The junior class and the pep squad have begun a joint play. The play selected is "Here Comes Charlie," a comedy with modern setting. The play will be presented in March.

The cast is as follows: Shirley Johnston, Jeff Coffey, Kid McCoy, Wanda Estes, Margaret Kennedy, R. L. Floyd, Paris Hess, Molita Turman and Stanton Gardner. The directors are Misses Aline McCarty and Elizabeth Kennedy.

The proceeds will be used to defray junior-senior banquet expenses and to pay on the pep squad uniform account.

JUNIOR CLASS SERVES DINNER

On last Saturday at noon the room mothers for the junior class prepared and served a dinner to the visiting home economics girls. The dinner was served cafeteria style in the basement of the Methodist church. The menu was: baked chicken, dressing, gravy, green beans, jello salad, cookies and hot chocolate.

The food was donated by class members. Proceeds will be used to defray expenses of the junior-senior banquet.

FRESHMEN ENJOY PARTY

On last Friday evening the freshman class had a party in the gymnasium. Although only about half the members were present, there was much fun in the games played. Volley ball was the chief form of diversion. Games were planned and conducted by Miss Sarah Truitt. Several teachers were present. The room mothers prepared and served the delicious refreshments. These room mothers were present: Mesdames Doolen, Thacker, Wade and McClellan.

Mrs. H. C. Rippe visited Mrs. Sherman White at Pampa one day last week.

Text: "Be not deceived; God is not mocked: for whatsoever a man soweth, that shall he also reap." Gal. 6:7.

THE ELEMENTS CRY OUT

Most of us shuddered at the news reports of the loss of property and life during the month of January. What was the cause of the great loss to our many fellow-citizens? Did the elements go on a sudden, uncontrolled rampage? Or was there another force in back of the powerful elements crying out in revenge? Was the all-powerful, merciful God so brutal so as to cause devastating floods, wide-sweeping fires, ravaging diseases, bitter cold, broken homes and horrible, sudden deaths in icy graves? Are the elements responsible or are we to blame God for all the damage?

Man proposes and God disposes. The damaging frosts and the gruesome, January floods, the worst in the history of our nation, point out a very important lesson to us. Not in vain did the preachers of righteousness, the ministers of the Holy Gospel of Jesus Christ, proclaim the mercy of God and also the wrath of the Almighty Creator. Many an unbeliever would not permit himself to believe that nature as well as man-made dams and levees could be easily destroyed without notice by the Lord as a punishment, a test of faith, and as a warning that man will be destroyed for his sins.

If this entire nation of ours would be 100% Christian not only in name but also in practice, would the Lord of heaven and earth permit such catastrophes? Would the Lord have destroyed the cities of Sodom and Gomorrah if all therein would have been faithful children of God. Were ancient Rome and Greece destroyed for their righteousness?

If not for sin and its originator, the devil, we would not have had any catastrophes in this world. If sin is not fought; if we do not subdue the evil in the world as well as our own corrupt desires, we must expect our doom to be written on the face of this earth by the hand of God while the elements cry out, "Amen, it is so."

Our Creator demands and commands obedience. He is a God of love and mercy. All those who refuse to obey Him and bestow honor upon Him will be punished. Scripture tells us in plain language: "Be not deceived; God is not mocked." You are either for the Lord or against the Lord. There is no neutral path.

Many faithful Christians were engulfed by the recent tragedies caused by fire and water. To such, these elements did not bring the wrath of God for their forgiven sins, but brought a strict examination, a rigid test of their faith, reminding them that they should not have any confidence in earthly things but to look forward to eternal rest in heaven. A lesson for both the wicked and the faithful.

The Lord can bless as well as destroy. The efforts of man seem puny, indeed, when compared with the mighty deeds of God. "Learning from the experience of past years, man had proposed and constructed huge walls and levees to keep fractious rivers and streams confined to their natural beds.

"Despite all the planning and the labor and the millions expended on this work, however, it required only a few days for the crushing waters to dispose of everything in their path. Concrete bulwarks either crumpled or were not high enough, the floods rushed on, thousands of square miles were submerged, homes were swept away, whole cities were deserted, and one million persons were left homeless." A gruesome, panoramic view, which can be compared with the prophecies of Scripture in respect to the day of wrath, the day of judgment.

"Judgment Day is God's day of settlement with a world that has had a long credit. It is the winding up of this earth's bankrupt estate and each man's individual interests. It is the closing of an open account that has been running on every since the fall." (Guthrie).

Come what may, the Christian is ever mindful of God's mercy and judgment; he is always prepared to accept punishment as well as blessings, knowing that there is a place already prepared for him in the mansions of the heavenly Father. The Christian firmly believes that he is saved alone by the grace of God through faith in Christ Jesus, the Savior of all mankind. Do you believe this also?

Buford Reed of Pampa was in McLean last Thursday.

THOSE HYPOCRITES OUT OF THE CHURCH

While the old plea about "hypocrites in the church" isn't heard as often as it once was, yet occasionally it will bob up. Just the other day we noticed in a church announcement printed in a South Texas newspaper the following, which to our notion is one of the best analysis of the "true situation we have seen. Here it is:

"And there are hypocrites, more of them, out of the church. No human group is perfect. Should we judge our government by the worst officials, or the best? Should we judge the Constitution by the way our worst citizens follow it, or by the way the best follow it? So with any organization. Some people who refuse to take personal responsibility in some church because of 'hypocrites,' break their necks to get elected to political jobs, clubs, etc., where there are heavier mixtures of hypocrites. Why the inconsistency?"

"Hiding behind hypocrites to keep from doing one's duty makes a sorry spectacle. Which is more manlike: to refuse to have anything to do with the Master of men because Judas, or to become a humble follower of Him because of Peter, James and John?" Clarendon News.

In Fort Worth, delegates to the Southwest Baptist Church Music Conference were old to avoid "whoop-up" songs in church worship. E. Reynolds, conference head, said: "It is a travesty to develop ministers to a high point and have a knock-down, drag-out musical program."

Newest Silk Prints Go Pictorial

CHERIE NICHOLAS

AS A sure antidote to winter gloom, as a reviewer of crest-fallen spirits, as an unfailing means of buoying one up with that grand and glorious feeling that spring is nigh we recommend that you go stepping in a brand new silk print dress, the gayest, the brightest, the most animated in its patterning and coloring you can find to wear under your somber fur coat.

Hurry up if you want to secure the choicest, the most distinctive and outstanding from among the hundreds and thousands of prints now on display. Seriously is this word of advice offered for it is a fact the new silk prints are that intriguing and alluring we have known it to be a fact that certain particularly attractive patterns are unpacked, priced and displayed in the morning and by nightfall they are sold, not even a remnant left to tell the tale.

The new silks look new—distinctively new! Those that unmistakably bear a new-this-season stamp follow along unique lines of thought. They are more than mere dress media in that they have gone pictorial, illustrative, interpretative. They portray ideas, they entertain, they amuse. Some of the better high-class silk prints even go by name as an artist would entitle a picture which makes them all the more interesting. There is, for example, a clever looking new silk print called "film modes." The French love of American films inspired Schiaparelli to design this amusing print with the names of famous stars printed on colorful scrolls simulating cinema film. The attractive daytime frock centered in the illustration herewith is made of this star-embroidered silk print, the color scheme being peacock blue and coral on black. The beret topping this costume is worn far back on the head in latest approved manner, so as to show a perfectly groomed hair-dress with latest style-correct off-face movement.

The silk for the dress shown to the left by the same artist designer

registers as "subway of Paris," and its motif carries out the idea quite realistically. This silk tunes perfectly to the gay young dress pictured to the left in the trio. The dashing cavalier hat is a resort fashion such as bespeaks a coming springtime vogue. The turn-up-at-side silhouette is exploited in several Paris collections.

Strawberries, fresh strawberries! At any leading silk department where smartest silk prints are flaunting their fascinating colors and breathtaking patterning ask for "fresh strawberries," and the knowing salesperson will bring out a perfectly charming silk crepe print such as is used for the making of the winsome dress shown to the right in the group. Appliques of the strawberries on net introduce an ornate accent in the bodice. The strawberry corsage is dyed to match the color of the berries in the print.

Others among the new and novel pictured prints now so fashionable are enlivened with animated figures, such as golf players teeing off, or "doggie" silks with frolicsome Scotch terriers performing tricks, galloping horses, quaint undersea fish, butterflies on the wing and other motifs too numerous to itemize. Most unusual and of high-style importance are the new landscape prints; marine scenes, too, grace these silks. It is indeed a versatile story of romance, history, music and what not that the smartest prints of the season are telling.

First-choice silks for immediate wear play up vivid splashes of striking florals in breathtaking colors against black or some other preferred dark background. The wide-spaced flower motifs look newest, these in huge single flowers or in wide-set bouquets. A new and lovely silk print has artful bowknots in gay colors. In Paris black and white prints are acclaimed.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By REV. HAROLD L. LUNDQUIST, Dean of the Moody Bible Institute of Chicago, © Western Newspaper Union.

Lesson for February 28

THE NEW COMMANDMENT

LESSON TEXT — John 12: 20-33; 13: 34, 35.
GOLDEN TEXT — A new commandment I give unto you, that ye love one another; even as I have loved you, that ye also love one another. John 13: 34.
PRIMARY TOPIC — A New Commandment.
JUNIOR TOPIC — A Great Man's Way.
INTERMEDIATE AND SENIOR TOPIC — What the New Commandment Means.
YOUNG PEOPLE AND ADULT TOPIC — The Measure of Christian Love.

In the last week of our Lord's ministry on earth many important events took place, but we pass most of them in our present series of studies. The incident related in our lesson of today is of interest in and of itself, but it is of peculiar significance because it introduces a marvelously instructive discourse of our Lord.

Whatever had prompted their inquiry, we are delighted to note that the Greeks came with an earnest desire to see Jesus.

I. Seeking Jesus (12:20-22).
 A man has progressed far on the road to blessing when he makes known his desire to see Jesus. Coming to him means coming to the One who has the words of eternal life.

Note that the disciples were wise enough to bring the men to Jesus. The true function of every Christian worker is to bring men to him. On the back of the pulpit in one of America's greatest churches, directly where the preacher can see them as he arises to preach, are the words of our lesson, "Sir, we would see Jesus." Little wonder that a strong and true gospel is preached in that church.

II. Finding the Cross (vv. 23-33).
 The reply of our Lord to the Greeks and to the disciples who brought them to him, seems a bit singular at first glance. Did he not wish to receive them? They had probably come to see the great religious leader, the King of the Jews—why does he talk about death—why is his soul troubled?

The words of our Lord are clear. Men do not need an example, a leader, a teacher, they need a Saviour. It is as a sacrifice for sin that Christ will draw all men unto himself (v. 32).

We need to relearn that lesson. Leaders of the church are earnestly seeking the explanation of the rapid decline in the influence of the Christian church. It is a good sign that some are beginning to realize that the difficulty is in the realm of the spiritual. The barrenness of so-called modern theology has become apparent to its leaders and they have begun to talk about a "spiritual revival." But unfortunately we soon find that they use the expression to stand for something entirely different from a real scriptural revival. "The voice is Jacob's voice but the hands are the hands of Esau" (Gen. 27:22).

Let us make no mistake about it, a real revival will center in the cross and will manifest itself in denial of self for the glory of God.

One cannot forego mention of the fact that the last part of verse 26, "If any man serve me, him will my Father honor," was the motto of the late Dr. James M. Gray, whose life gloriously exemplified the truth of the passage. God is willing and ready to do as much for you and for me.

III. Loving One Another (John 13: 34, 35).

When these words were uttered our Lord was two days further in the last week before he was crucified. He was alone with his disciples in the upper room. What message does he have for them in that solemn hour? That they should love one another. That is a message that has renewed emphasis in our day. The strife which fills the world has almost engulfed the church, and there is bitterness and strife where love should reign.

Let us observe carefully that it is as his disciples that we are able to love one another. There are two erroneous extremes to be avoided. First, we have the out and out conservative, who proclaims his belief in the Bible as God's Word, who is anxious that he be absolutely correct in doctrine, a really saved man, and who then becomes the kind of "fighting" fundamentalist who dimly fails God in the testimony referred to in these verses. On the other hand we have the liberal who has abandoned the scriptural basis of discipleship and who then boasts of his great love for his brethren. Love is no substitute for regeneration, and regeneration is no excuse for lack of love.

Courtesy of the Heart
 There is a courtesy of the heart, it is allied to love. From it springs the purest courtesy in the outward behavior.—Goethe.

Duty of Gratitude
 Gratitude is a duty none can be excused from, because it is always at our own disposal.—Charron.

The Fountain
 Look within—within is the fountain of good; and it will ever bubble up, if thou wilt ever dig.

Worthy of Your Pride!

MOTHER, between you and me Sis is getting to be a little show-off. Last night when Dick called, there she sat, big as life, right in the middle of things chirping about the new dress you made her: how you used a remnant left over from one of your dresses, and got it finished in one afternoon—she even had Dick feel the material.

Well, Elsie, you can't blame the child's appreciating herself in a new dress. How about ourselves? Didn't you say your jumper was the talk of the Tennis Club meeting yesterday? And haven't I been spending more time before the mirror since I made my new "Stylish Stout" model? I actually feel like a new person in it—imagine me being vain at my age!

Flatters Stout Figure.
 Oh, Mother, you're not vain and you're as young as any of us. You just were lucky to find a particularly flattering style for your figure. That soft jabot makes you look lovely and the whole thing is so slenderizing. But only an expert like you could make such a dress.

It isn't being expert, Elsie, it is choosing a pattern that is deftly designed and giving full step-by-step instructions on how to proceed.

Several Blouses.
 I'm going to make another blouse for my jumper soon, Mother. I always admired that white pique shirt of Dick's, so I think I'll try it for my blouse, since the pattern is a lot like a man's shirt in design.

It sounds good to hear you interested in making something for yourself. Maybe you girls will turn your Bid-or-Bid Club into a Sew-Your-Own before long.

You can never tell, Mother, you never can tell!

The Patterns.

Pattern 1229 comes in sizes 14 to 20; 32 to 42 bust. Size 16 requires 3 1/2 yards of 39 inch material for the jumper and 1 1/2 yards for the blouse. Pattern 1847 is available in sizes 36 to 52. Size 38 requires 4 1/4 yards of 39-inch material.

Pattern 1882 is designed for sizes

EASY-MADE DRESS

By CHERIE NICHOLAS

If you are feeling that make-it-yourself urge which the displays of lovely, crisp, fresh-looking spring materials always bring to the woman who can sew, here is just the type dress that will start the home-sewing program off with a flourish. Almost boyish in its neat, trim lines this make-it-yourself dress of dubonnet nubcord, a sporting modern cotton fabric with no hidden tendency to shrink, since it has been sanforized—shrunk in the finishing of the cloth, offers plenty of reward in ease to the home dress-maker. It has a zipper neck closing and inverted pleats in sleeves, center back pockets. A smooth black leather belt adds to the effect of tailored smartness.

VEILS CONTINUE TO BE IMPORTANT NEWS

By CHERIE NICHOLAS

Veils continue to be news in Paris. With the flood of holiday parties, women seem always to wear little hats, oftenest of felt, with double veils floating over their faces. And that is the preferred position for the filmy things for lunch time, too.

Cocktail parties give a divided allegiance to veils, some of them over the face, but many draped over the back of the hat, making a frame for the face. Particularly amusing is one of Therese Peter's new creations. The tiny pointed skull cap—for it is actually that—is of hand-knitted gold thread. Two tiny feather nightingales ornament it at either side of the front, and hold the veil which is also embroidered in nightingales and sweeps back over the entire hat, hanging almost to the shoulders.

Violette Marsan, who is definitely a partisan of the small hat dipping a bit over the forehead, prefers her veils to be quite stiffened so that they may be turned back from the face or extended out from the face. These are shorter, not extending beyond the nose.

Co-Eds Bring Ear Muffs

Back Into Fashion Again

When you hear a girl talking about getting out her ear muffs, don't think that this is the key line of a joke. For ear muffs are in vogue once more and before many weeks the chances are that most college girls and many others will be wearing them.

The bare-headed fad on college campuses has started the trend, but no one knows where it may lead to.

New Type Heels Out

Among the new covered heels soon to make their appearance on smart dress shoes, are two models which owe their chic to sharp projections which jut out from the top of the inner surface and fasten under the instep.

FIRST METHODIST CHURCH

Jim H. Sharp, Pastor
It is the belief of most every man that the greatest thing we need is for a turning to the Christ. This won't be done by the crowds but must be done by the individual. No man will do his part until he will accept his individual responsibility.

We welcome you to all the services of the Methodist church.

The following were present: Mesdames Rice, Ashby, Sharp, Tinnin, Greene, Bogan, Christian, Noel, Rippy, Story, Carpenter, Hess, Andrews, Dyer, Smith, Kirby, the hostess, and one visitor, Mrs. Bucher.

The next meeting will be at the home of Mrs. L. L. Smith.

TAHOKA'S NEIGHBORS

GOOD ADVERTISERS

The two Lamesa papers come to this office practically every week filled with advertisements of the home merchants. The Lamesa Reporter last week, for instance, was a ten-page paper. The Courier likewise looked prosperous. These were not Trade Day editions, either. Lamesa's Trade Day is the same as our own. Yet Dawson county has not made a crop in three years, and is harder hit again this year than Lynn county is.

The Brownfield Herald is a seven-column paper and always contains as much as eight pages, lean years and fat.

So it is very discouraging and embarrassing when the publishers of the News are compelled, week after week right in the middle of the fall, to issue a four-page or a six-page paper because of the fact that our business men decline to advertise. We believe that our list of rural subscribers will compete favorably with that of either of these papers and that the merchants of Tahoka may reach as many people through the columns of this paper as the merchants of Lamesa and Brownfield reach through their papers. We are wondering why our business men do not advertise. The business men of Lamesa and Brownfield certainly do advertise and they seem to get results.

If Tahoka sits here and dries up it will be nobody's fault but Tahoka's.—Lynn County News.

WHERE THERE'S A WILL

Elderly Patient—As we have known each other so long, doctor, I do not intend to insult you by paying my bill. But I have left you a handsome legacy in my will.

Doctor—That's very kind of you. I'm sure. By the way, just let me have that prescription again. There's a slight alteration I want to make in it.

THIS IS SO SUDDEN

"How's the patient's heart action this morning, nurse?" asked the doctor briskly, as he entered the sickroom that morning.

"Oh, splendid, doctor," replied the pretty nurse. He's proposed to me twice already."

Get After the Business

Mr. Merchant:

Do you know there is enough business going out of town every day to support at least three additional stores here, even larger than any doing business here today?

And then you will wonder why that can be. The reason is that business leaves town because outside firms bid for it by advertising in some way. You can hold that business here by telling the public what you have to offer. And the best and cheapest way to tell them is through the advertising columns of The McLean News. Call 47 and a trained advertising man will be at your service and assist you in preparing your advertisement, if you desire.
