WAR CLOUDS OVER CHINA

Japs See Little Hope for Truce . . . 13 Senators Hold Court Bill in Balance . . . Steel Mills Smoke Once More

SUMMARIZES THE WORLD'S WEEK

New Sino-Japanese Conflict?

WAR between China and Japan was believed almost inevitable as hopes of settling a new outbreak of hostilities by diplomatic means faded out. The fight-

the policing of Yu-anping and Lukowciao, two villages in the Peiping area, near Marco Polo bridge. This, the Japanese said, was provided for in the North China truce. According to the assertions of the

Japanese war office. Chinese soldiers fired upon the gendarmes and opened up with trench mortars against the Japanese contingent at the Yuanping ing Committee signed a compact station. This action allegedly compelled the Japanese to make a night assault, costing 20 lives, in order to occupy the towns of Lungwangmiao and Tungshinghwan. It was said the Chinese troops had also advanced into these points.

Officials of the Hopei-Chahar council claimed the Japanese moves were in open violation of the truce. They further accused the Japanese of conducting night army maneuusing real bullets instead of the blanks ordinarily employed in maneuvers. As Emperor Hirohito and Premier Fumimaro Konoe conferred with military leaders and the cabinet, the Japanese people franti-cally prepared for the war that

China's Nanking government gave orders to Gen. Sung Cheh - yuan, commander of the North China lorces, that his army was not to retreat for any reason, but was to be prepared to make the "supreme " to hold its position until Gen. Chiang Kai-shek should arrive the Peiping-Hankow railroad with 50,000 fresh troops.

China's demands for a truce were considered intolerable by the Japnese government. They included: 1. Japan must assume responsibility for the "incident."

2. Japan must express regret. 3. Japan must pay damages to the Chinese and submit guaranties against such incidents in the future. Japan made counter demands at first reported to be accepted by the law had been declared. nese, later repudiated by them.

Withdrawal of all Chinese

2. Punishment for "the Chinese responsible for the conflict."

3. Adequate control of all anti-Japanese activities in North China. 4. Enforcement of measures against communism.

As the fighting continued in the Peiping area, with no hope of an effective compromise on the two nademands, war seemed the probable result.

Struggle in the Senate

WELVE Democratic senators and one Farmer-Laborite were believed to hold the fate of the dministration's substitute for the original bill which would increase number of Supreme court justices to 15. The administration was certain that the bill would receive at least 39 votes, with 49 necessary to a majority. Fortythree senators were definitely committed against it. Thirteen were uncommitted as the battle raged on the senate floor and in the

The twelve uncommitted Democrats were: Andrews (Fla.), Bone Wash.), Brown (N. H.), Caraway (Ark.), Duffy (Wis.), Johnson (Colo.), Lewis (Ill.), Murray (Mont.), Overton (La.), Pepper (Fla.), Russell, Jr. (Ga.) and Wagner (N. Y.). Lundeen (Mian.) was the Farmer-Laborite.

The substitute for the original urst bill provides for appointment of one new justice each year to every justice remaining on the after reaching the age of

It was believed that public opinwould decide the commitment of the senators "on the fence." If becomes apparent that public on is against the substitute as t was against the original bill, it is ly that the administration leadrs in the senate will propose an mendment preventing the substiers of the court. This would the enlargement of the rt until some new appointee be-

that it was operating with its normal force of 13,000 in Indiana since it and the Steel Workers' Organizwith the state labor commission. Steel production in the Youngstown, Ohio, area, one of the principal scenes of strike violence, climbed to 76 per cent of capacity, 3 per centage points above the operating

figure before the start of the strike. The Youngstown Sheet and Tube plant in East Chicago, Ind., announced that it would open to 7,000 employees without benefit of written agreement with the C. I. O. Youngstown vice president forcefully denied that the company had made any agreement with the steel affiliate of John L. Lewis' organization, as Gov. Clifford M. Townsend had publicly announced.

Strike Riot Kills Two

ONE striker and one policeman were killed and twenty men were injured at an aluminum plant in Alcoa, Tenn., when rioting broke out as 3,000 strikers started a backto-work movement. The plant, belonging to the Aluminum Company of America, had been closed since May 18, when the strike was called by the Aluminum Workers of America, and affiliate of the American Federation of Labor. Difference in wages paid at Alcoa and at the company's plant in New Kensington, Pa., was the issue in the strike. State troops were on hand, but Adjt.-Gen. R. O. Smith, in charge, said that they were there merely to protect rights, and no martial

Mr. Eden Has a Plan

DLANS to maintain the non-intervention patrol of Spain in a fashion that will satisfy all the nations concerned and insure against

the spread of the conflict beyond the Spanish borders have blown about like papers in a storm. And when you get right down to it, that is about all they have amounted to. Now Anthony

Eden, Britain's for-

eign secretary, has

Anthony Eden

come up with a new one, as deft and perhaps as futile as any which have gone before it. It provides for the full re-establishment of land and sea control of movements of men and arms into Spain. French and British warships would patrol the coastline with German and Italian observers aboard (the Fascist nations, indignant over the Leipzig incident, have withdrawn from the patrol.) This arrangement would operate only until a permanent scheme could be worked out, placing observers for the nonintervention committee in all non-Spanish seaports and airports from which men and supplies might leave for Spain, and in all Spanish ports to see that none landed there. After that, the sea patrol would be abol-

Mr. Eden's plan, of course, would not work without the approval of the Nazis and Italians.

Obituary in Blue

G EORGE GERSHWIN, composer who lifted jazz music up to the level of the classics, died suddenly in Hollywood after an operation for brain tumor. He was thirty-eight. His "Rhapsody in Blue" was famous among the world's music lovers, his opera, "Porgy and Bess" one of the most individually American of all musical works. His American of all musical works. His "Suwanee" sold more than 2,000,-000 copies, his musical comedy score, "Of Thee I Sing," was a Pulitzer prize winner, and some of his compositions, such as "Strike Up the Band," "Soon," and "Somebody Loves Me" were sung and danced to by millions. Many prominent critics called him the most original force in American music.

Rebels Fall from Madrid

SPANISH rebel forces which took Bilbao after the city's first sucsful siege are still finding Madrid tough nut to crack. In a two-day battle the loyalist forces broke through the siege lines about the city, captured the villages of Villaneuva de la Canada and Brunette, and threatened to cut the besieging rebels off from their main forces. So nearly successful was the attempt to rout the rebel forces that the latter were forced to admit new troops might have to be withdrawn from other fronts, delaying temporarily the drive on Santander, next rebel objective on the Biscayan coast. The loyalists were reported to have recaptured 100 square miles of territory about Madrid.

Meanwhile, the fall of Bilbao was expected to add 150,000 refugees to the constant stream pouring into loyalist Valencia.

Bingham's 4th of July

ROBERT WORTH BINGHAM, United States ambassador to London, became the third prominent American to bring down the fury of Nazi Germany's officialdom and press when, in an Independence day speech before the American society in that city, he declared Uncle Sam had been forced by the dictator countries to join Britain in an armament race. Mayor LaGuardia of New York and Cardinal Mundelein of Chicago had been other recent Nazi targets.

The ambassador was quoted as saying: "There must be some (of the dictatorships) who realize that they have imposed upon the British commonwealth and the United States an armaments race.

"We did everything in our power to avert it, but it is a race, and the British and ourselves must inevitably win. I admit the strongest argument that can be made for dictatorships-they offer a better method of preparing for war. But I am sure that democracies provide a better way to finish a war."

The Nazis charged that the ambassador had insulted Germany and Italy with his "arrogance and ig-norance." Voelkischer Beobachter, the official newspaper, added: "If there is any talk of defense, then we should speak of defense against the arrogant and teacher-like attitude of the defenders of western

Navy Hunts for Amelia

F OUR ships of the United States navy, with attendant airplanes; two ships of the Japanese navy, and a British freighter scoured the vast wastes of the South Pacific in an effort to find and rescue Amelia Earhart Putnam, America's No. 1 woman flyer, and her navigator, Fred Noonan. The pair had been forced down before completing the 2,570-mile hop from New Guinea to Howland island, a "leg" of their 'round-the-world flight.

Signals received from the hapless flyers were so weak that it was impossible to tell whether they were afloat at sea or marooned on some tiny island, and as the days passed it became doubtful that many of the radio messages which served as clues for the searchers were from the two at all.

So alarmed was the world at the loss of Amelia and her companion. the United States even sent out the giant aircraft carrier Lexington with 98 planes aboard, which, it was said, could explore an area of 36,000 square miles in five or six hours.

Triple Split for Palestine

PALESTINE would be split into three parts and British mandate over the whole country ended, according to suggestions made by the royal commission on Palestine and delivered to the British government. The commission was formed a year ago to find some way of putting an end to Arab-Jewish riots.

Under the new plan, about twothirds of Palestine would be converted into an Arab state and about one-third into a Jewish state. A small territory, including the holy cities of Jerusalem, Bethlehem and Nazareth, and a corridor to the sea, would be given to Great Brittain as a permanent mandate. It is claimed that the plan would remove the Arabs from Jewish domination, give the Jews a home and protect Christian shrines.

Lewis Scans the Sea

JOHN L. LEWIS sought to expand the scope of his Committee for Industrial Organization by invading the maritime industry. With Harry Bridges, west coast longshoremen's leader, he sought to unify scattered maritime unions in one big indus-trial organization dominated by the C. I. O. The American Federation of Labor already has two strong unions in the maritime field, so this action brings Lewis into another point of friction with William Green's organization. The nation has 250,000 marine and coastal workers.

Mae West Tells All

T SEEMS Mae West, buxom blonde cinema menace DID marry Frank Wallace in Milwaukee on April 11, 1911, after all. After stoutly denying the marriage which aroused the whole nation when it was revealed in 1935, she did an about-face and confessed it, alough denying she had ever lived ith the vaudeville player as his ife. Her admission was necessitated when she answered Wallace's ait for declaratory relief in a Los

ADVENTURERS' CLUB

HEADLINES FROM THE LIVES OF PEOPLE LIKE YOURSELF!

"Assassins of the Nile" By FLOYD GIBBONS Famous Headline Hunter

JOU know, boys and girls, I have often said that you'll find I adventure close to home a darned sight easier than you will roaming the world. One who goes traveling in search of thrills usually doesn't find any until he gets back into his own bailiwick again. But there are exceptions to every rule-and here's one of them. George C. Dorste of Bardonia, Rockland county, N. Y., met his biggest thrill when he was thousands of miles away from home and in a strange exotic country.

The country was Egypt, and George landed there in the course of his travels as a fireman on a tramp steamer. The steamer was carry-ing scrap iron, unloading it in consignments of various sizes at ports along the Nile river and its many branches. The year was 1912, and the ship had traveled part way up the Nile and was anchored in the river just south of the town of Medinet El Faiyum.

The ship was anchored not far from a pier. The weather is pretty hot in Egypt. In the afternoon, particularly, the sun beats down with such intensity that it is next to impossible for anybody but a native to do any work. It was at the height of the hot season, and the crew of the steamer, dripping sweat from every pore of their bodies, were just about all in. Along in the driver of the rest of the crew of the steamer, dripping sweat from the skipper gave orders for all hands to knock off work for the rest of the day.

The men didn't argue about that. Most of them just walked to the shadiest spot they could find on that hot ship, flopped on the deck and rested. But there were a half dozen young fellows—George among them who had a better idea. They stripped off their clothes and dived over

A Dandy Day for Lazy Sport.

The water was cool and refreshing. Those lads were in it, off and on, for the better part of the afternoon. They came out, now and then, for a breathing spell on the ship's deck, but the sun beating down on the ron hull of the vessel made it so hot that they were glad to get back in

The afternoon wore on and the sun began sinking toward the horizon. As its scorching rays withdrew little by little, the day became cooler. One by one the swimmers climbed back aboard the steamer and stayed there. Finally all of them were out of the water except one. And that one man was George Dorste.

George loved the water and he hated to leave it. He was swimming some distance away from the ship's side, and about half-way between it and the pier. As he splashed about in the river he heard a voice calling on shore and, looking up, saw a native standing on the pier.

If George Had Only Been a Linguist!

The native was shouting to George, but in a language he didn't understand. Then suddenly, he began to point toward the ship. George

The great reptile was between him and the ship

could figure out only one reason for that pointing. He immediately jumped to the conclusion that someone aboard had dropped something over the side and wanted him to retrieve it.

He turned and swam slowly toward the ship. The native on the pier kept right on yelling, but George paid no attention. And then, suddealy, he saw it-a thing that looked like a log floating in the water, but a log that had a rough wrinkled snout and a pair of glassy eyes just showing above the surface! A crocodile!

The great reptile was between him and the ship-and not more than twenty feet away from him. A shudder went through George's body when he saw it. He turned and began swimming toward the pier. But the pier was a great distance away-or at least, so it seemed to George. knew that beast could catch up to him in less time than it takes to tell the story.

He Looked Like Good Meal to Crocodile.

He was swimming as fast as he could-exhausting himself in a spurt for the pier. And the crocodile was following along behind. It seemed to George that the great reptile never approached any closer than that original twenty feet-the distance that had separated them when he turned toward the pier. Was the beast playing with him, as a cat would Or was it waiting until George had exhausted himwith a mouse? self in the swim toward shore before those cruel jaws opened and closed

Still swimming frantically, he reached the pier. And then an other terrifying discovery greeted him. As he made frenzied ef-forts to climb up the piles that supported the pier, he found that he couldn't. Those piles were covered with a slippery moss. He could make no headway up them. And all the time, now, the crocodile was coming closer, swimming slowly toward what it knew must inevitably furnish it its evening meal.

By now, George was mad with terror. He was still clawing and scraping frantically at those smooth, moss-covered piles, when the native on the dock came to his rescue. Suddenly, the native picked up a huge piece of scrap iron from a pile on the dock, and hurled it at the swimming crocodile. The piece missed. The native threw another-and that one found its mark. It hit the beast on the snout, and it dived beneath the surface.

Native's Accurate Peg Saves George's Life.

By that time a boat had been launched from the ship. It came tearing across the water as George's shipmates pulled hard on the oars. It reached George a few seconds after the crocodile had gone down.

"As they pulled me out of the water," George says, "I lost consciousness for a minute or two. But I came back to life be-fore the boat had reached the ship-in time to see the steely eyes of the crocodile which had reappeared once more. It was fol-lowing along, not more than ten feet behind the boat."

And George says that if he'd had a gun then, it would have given him the greatest pleasure to aim it right between those two glassy eyes and pull the trigger.

Elements Needed for Plant Growth The elements essential for plant growth are hydrogen, oxygen, cargrowth are hydrogen, oxygen, carbon, nitrogen, potassium, calcium, magnesium, phosphorus, iron, chiorine and sulphur. Certain plants make use of other elements, but they are not considered essential. With the exception of potassium, phosphorus and nitrogen, these elements are prepared in most soils in sufficient quantities to meet the plant's need. Green plants use carbon dioxide from the air in making starch. The other foods come mally from the soil.

A French Commun

A French Commune

The entire territory of France is comprised in municipal organizations called communes, the number exceeding 36,000. They vary greatly in size and population. All except Paris are governed under a single brief code, the municipal law of 1884. Each commune has a municipal council composed of from 10 to 36 members, elected by universal French male suffrage for 4 years, and a mayor, elected by the municipal council, who may be accepted by one or more also consisted by one or more also consisted.

IMPROVED" UNIFORM INTERNATION CUNDAY SCHOOL Lesson

Lesson for July 25

LESSON TEXT—Exodus 12:21-28.
GOLDEN TEXT—The Lord thy God has been thee to be a special people us imself.—Deuteronomy 7:6. mself.—Deuteronomy 7:6.
PRIMARY TOPIC—Ready for the Jon

How God Prepares a People.
YOUNG PEOPLE AND ADULT TOPIC.
Equipped for a New Era.

"Let my people go"—such was the word of the Lord to Pharach through Moses and Aaron. "Who is the Lord, that I should obey his roice to let Israel go? I know not the Lord, neither will I let Israel - thus hardened Pharaoh his heart. The issue was so drawn for one of the great struggles of history. On one side was a bold and mighty monarch with all the resources of the empire of Egypt, and on the other an unorganized multitude of slaves. No, wait, on the other side was Almighty God! The outcome was never in doubt and through the unspeakable horror of the plagues we come to consider the last of the ten, the death of the first-born, with which is joined the establishment

of the Passover. The Passover is of sufficient importance to justify careful study simply as the perpetual feast of Jews, but to the Christian it is also most blessed and instructive type of Christ who is, according to Paul, "our passover" (I Cor. 5:7). Let no ho studies or teaches this lesson fail to point to "the Lamb of God which taketh away the sin of the world" (John 1:29).

I. A Lamb Slain (v. 21). The sacrifice appears, a gentle, submissive lamb, a male without blemish, which is separated for the giving of its life that the first-born in Israel might be saved.

Notice that God's instructions were explicit, and were to be obeyed if there was to be redemption. There are those in our day who would substitute any and every other method of salvation for God's revealed plan. They talk about character development, the redemption of the social order, peace and politics, and forget the Lamb of God.

II. A Blood Salvation (vv. 22, 23). The act of faith in marking the lintel and the doorposts with the blood, brought salvation to the families of Israel. Had they waited until they could reason out the philosophy of their promised redemption, or had they shrunk from the blood as their covering, their first-born would have been slain. It was when the destroying angel saw the blood that he passed over them.

Many there are in our time who speak disparagingly of the blood of Jesus Christ, but it is still the only way of redemption, "Without shedding of blood there is no remission.

It ill befits an age that is so blase and sophisticated as ours to attempt to cover its dislike for God's way of redemption by suddenly becoming too cultured and sensitive to hear of the blood of the Lamb of God shed on Calvary's tree for our cleansing from sin.

III. A Perpetual Memorial (vv.

God wants his people to remember. We, like Israel, are to remember the bondage from which we were delivered. Down through the ages the Jews have kept the Passover. Our Hebrew neighbors do it today. Let us honor them for their obedience to God's command and at the same time seek to point them to the One who is the true Passover, Jesus Christ.

IV. Christ Our Passover (I Cor.

Let us add to the assigned lesson text this New Testament passage which speaks of our Lord Jesus Christ as "our passover . . . sacri-

ficed for us." The bondage in Egypt was terrible in its afflictions and sorrows, but far more serious is the bondage in which men find themselves under sin and the rule of Satan. Surely there is need of divine redemption, and there is none to bring it to us but the Lamb of God. He was the One who without spot or blemish (I Pet. 1:19) was able to offer himself in our behalf that in him we might find "redemption through his blood" (Eph. 1:7, Col. 1:14).

"Is the blood upon the house of my life? Is the blood upon the doorpost of my dwelling place? Have I put up against the divine judgment some hand of self-protection? Verily, it will be swallowed up in the great visitation. In that time nothing will stand but the blood which God himself has chosen as a token and a memorial. 'The blood of Jesus Christ, his Son, cleanseth us from all sin'" (Joseph Parker).

Labor and Patience
Truth is to be costly to you—of labor and patience; and you are never to sell it, but to guard and to give.—Ruskin.

BUYING AN ELECTRIC

REFRIGERATOR

IS REAL ECONOMY

The food compartment of an electrical refrigerator stays below 50 degrees, no matter how hot the weather, saving all of your food, even when bought in bargain quantities.

The ice cube service you get from an electric refrigerator is built for extraordinarily hot weather conditions—a time that you will need ice cubes most.

The freezing cells of electric refrigerators operate at a very low temperature, even on the hottest day, so that you can al-

ways depend on rapid dessert freezing schedules. These services are all worth money. They save money, But electric refrigerator prices have been reduced to a point where everyone can expect to own them. And improvement after improvement make operating cost on the new models negligible. Let your electric refrigerator dealer give you itemized figures on the economy you will effect by buying from him.

Southwestern PUBLIC SERVICE Company

RESURRECTION RIVER

Warren Lovett, thirty-three, junior partner in the powerful Wellington, Parkes & Lovett, Incorporated Mines of Chicago, which engages in questionable transactions, plans to make a secret coup in the Canadian Arctic, where a few years before a rich but inaccessible mining field has been discovered on Resurrection river, which flows into Dynamite Bay. Patricia, high spirited and beautiful daughter of crusty old Jasper Wellington, who is engaged to Warren, decides to accompany him. Over her father's objections, he agrees to take her. They go by plane. Pat meets "Poleon," a French-Canadian prospector, who tells her there are only 300 prospectors in the field and that because of the difficulties, they are hanging on by a thread. Pat is disturbed when Warren will not disclose what his secret mission is. She visits the prospectors' camp and is depressed to see how discouraged they are. She meets Sam Honeywell, a friend of Poleon's. Moved by the plight of Bill Fornier, a prospector, who, though fatally ill, struggles to hold his claim, Pat decides to help him. Informed by Lupe Chiwaughimi, head of a family of half-breed retainers of the company, about Pat's befriending the prospectors. Warren tries to dissuade her. He tells her that Craig Tariton, with whom she had once been in love, is now deputy mining inspector for the Resurrection river area. A brilliant geologist, he had resigned in diagust from her father's company because of its devicus methods. Later she meets Craig, but he is cold, inferring that she is merciy feigning interest in the prospectors. Her compassion for the hapless prospectors growing. Pat decides to build a huge community house or Den. When the job nears completion, Warren tells her to abandon it. She refuses after a stormy cene. Craig leaves on a three-month inspection trip to the north. Pat learns that her father has withdrawn her allowance. Warren tells her now she will have to go home. When he refuses to advance her a loan to aid the prospectors, she accuses him of hedging and continually kee

CHAPTER V-Continued

Patricia broke out laughing at his naive "kindness," but her laugh ended abruptly in a sob. After all, she did have friends. Three hundred of them. These men were her friends. They liked her, even if Craig didn't. "The house that Pat built, for us"-that's what they called the Den. Her heart leaped with gladness as she remembered Warren's phrase "extraordinarily If only they could stick and could hold on to their claims! On the lake shore across Resur-

rection a plane motor started up, mming out its powerful ratt-tttatt-tt-tt. It was one of the company's planes-she recognized the deep throaty roar of it. Dashing the tears from her eyes, she stepped outside and listened, oblivious to the rain that beat upon her shoulders and wetted her black silky hair. That ship must be warming up for flight. In weather so cold and raw the mechanics wouldn't be doing routine work on an engine. It was | gage dis place op onless Mees Pa-Pilot Odron's plane, getting ready tricia say so. You don' load her for the flight south. Warren must into no plane weelly-neelly, lak if still be confident that he could force she was some squaw-siche or meher to leave for Chicago that day

Her guess proved right. A few minutes later a big sturgeon-head pushed off from the opposite shore butted across Resurrection, bringing Warren and the six Chiwaughimis and seven other men of Warren's party.

Wondering why he had fetched so large a crew, Patricia slipped back inside her tent and began straightening her baggage around as though she firmly intended to stay where she was. But inwardly she was storm-tossed, torn two ays. Gostay-she couldn't decide. But she had to decide. Ratt-tt-tatt-tt-ttthat plane was waiting for her. She had to make up her mind. No more drifting, no more putting off decision "till tomorrow

Warren's big party stopped outide her tent, and Warren came in Beneath his politeness he was sharp and peremptory.

"Patricia, Odron tells me that he'll have to take off within 30 minutes if he's to make Fort Smith be-

"Well, let him take off," Patricia snapped. "I'm not holding that plane by the tail!" "Try to be reasonable for once.

Warren said tartly. He gestured around at the tent. "You know as well as I do that you can't live in a place like this, with cold weather coming on. And living over here in the prospectors' camp, alone-it's

Patricia thought to herself: "He's right. It's worse than ridiculous. But he'll have to meet me halfway. I won't let him dictate to me." She realized now that he had brought along that big party not only to pull down her tent but to smash any of her prespector friends who tried to mieriere. Through the flap-front she noticed that the 13 men were armed with oars, clubs and tent stakes, and that three of the Chiwaughimis carried rifles

"Furthermore," Warren added,
"I won't allow you to keep up this
charity work of yours any longer. Good heavens, don't you yet understand that the more you help these men, the longer they'll hang on here and refuse to sell their claims?"

Patricia's eyes opened wide. Why—why you talk as though you talk to see them squeezed out and

put it harshly, yes," War-ated. Backed up by that party out there, and confi-at he could force Patricia to he, he dropped his evasion id her some blunt facts, men own practically all the e deposits up Resurrection

By William Byron Mowery

ness here in eight weeks, but I've been here three whole months and in all that time I've been able to buy only a few dozen claims-"

'Those red squares!" Patricia cried. "Those red places on your chart!"

Warren nodded. "Yes. Those red spots are claims that the company now owns. But most of that map is still white. It's got to be all red. propose to buy up this entire field for Wellington, Parkes & Lovett."

"Oh-oo!" Patricia breathed. Warren's explanation was like a lightning flash ripping the darkness, the dark secrecy of his Arctic trip. A host of puzzles became glaringly clear to her in an instant.

She felt intensely ashamed of her stupidity in not seeing through Warren's mission sooner. Craig had seen through it from the very beginning. The men had seen through She alone had been blind, stone blind.

"I can buy up silver claims here for a hundred dollars," Warren announced, with a ring of elation in his voice, "that'll be worth a hundred thousand in time! Think about that! And about these platinum and cobalt deposits. And the radium lenses. Can you imagine a more magnificent set-up than the company has got here?"

"A hundred dollars," Patricia repeated jerkily. "A hundred dollars -for three or four years of hard work.

"But these fellows can't develop their claims. They haven't the cap-Mining operations require a ital. heavy initial outlay and a long wait for returns." "But you-you could pay these

men a fair price, Warren. The least you can do, in God's justice, is to offer them a decent wage for their years of labor and hardship." Warren brushed her words aside.

"We won't argue about that. Please get ready to leave for Fort Smith.' "I'm not leaving, Warren," she said, in a strangely quiet voice. "I'm staying here—here at Dynamite Bay. I'm going to fight this out with you."

Warren turned away, impatiently, and strode out; and Patricia heard him order his men:

"All right, baggage this place up and get it across the river. He was interrupted by another

voice, Poleon's voice, angry and challenging: "Jus' wan meenit! You don' bag-

Patricia flew to the flap-front, scared at the threat of a knockdown fight. Poleon and three prospectors had come across from the Den, while she was talking with Warren; and they were standing belligerently between Warren's party and her tent. Sam Honeywell, with a canoe paddle in his hand, was edging around to join Poleon and the other three. "Poleon!" she cried. "Don't start

"No, he'd better not," Warren agreed curtly. "You men, get

her tent down One of the Chiwaughimis stepped up, took hold of a tent stake. Poleon pushed him away. The metis snarled and struck Poleon in the face. Poleon swung at him and hit him on the jaw, a pile-driving wallop that lifted the metis clear off his feet and stretched him cold.

"Put dem rifle away!" Poleon bellowed at the three who had guns. You start any shooting and de whole outfeet of you will lan' in de police butter-tub on your ear!" One of Warren's men sidled

around behind Sam Honeywell, crashed the unsuspecting Sam on the head with an oar, and laid him out. The other II men rushed upon Poleon and the three prospectors like a hostile wave.

Patricia screamed as the fight broke wide open in a twinkling. Thupp-smash-it was a fierce hot melee of struggling men; of clubs, rifles, tent stakes and swishing oars; of grunts and oaths; of men sprawled on the wet ground; of sickening blows with fist and oar

Against the heavy odds the three prospectors were overwhelmed at the first rush. They were knocked down, knocked cold, trampled underfoot. Only the big Poleon, standing at the flap-front and brandishing a tent stake, was still on his feet.
'Allons!" he kept bellowing

"You come a-near dis tent, and I'll knock de whole pack of you colder'n dead dog's nose!"

Over at the community house the alarm had been sounded; and out of the place came pouring a fair-sized riot—half a hundred prospec-tors, leaping out of the windows, surging through the doors, snatching up clubs and stones and tent pegs as they raced for the battle.

They hit the place like a demolishing tornado. Outnumbered four to one, Warren's men were slugged, knocked down, swept under, obliterated. Two or three survivors escaped and ran for the sturgeonhead, with a dozen prospectors

pected to get through with my busi- | the community house. Standing on a chair, near the door into the kitchen, she gave a talk to her 75 rock-

She repeated to them what Warren had said to her about the richness of the field; told them she had declared war on the company; reminded them that she was living on their side of Resurrection now; told them that she was as penniless as they, but that she was going to stick there and fight. Were they going to sell out or stay?

Her sincerity and her fire stirred them out of their discouragement. Crowd psychology and their shame at the thought of letting her down, did the rest. From all over the big room came shouts: "We'll stick till hell freezes!" - "Bet your boots, Pat, we're hanging on!"—
"First feller that sells a claim, he gits tarred and feathered!"

Patricia wrote out a pledge, binding each man not to sell one square inch of his holdings. All the men there signed it. She wrote out two other copies, to send back into the barrens for the absent prospectors to sign. Last of all she dashed off a third copy and sent it across Resurrection to Warren, for him to read and ponder on.

CHAPTER VI

Almost every day, after their open break, Warren went across the river for a friendly visit with Realizing that he had badly blundered in trying to coerce her, he set out deliberately to win back her esteem with kindnesses.

Besides his friendly visits, he took care of her bank overdraft, slipped money into her purse, bought knick-

All Right."

knacks for her at the Hudson's Bay store; and when the prospectors built her a snug cabin in the pines near the big lodge, he fitted it up tastefully with a plane-load of furnishings from Edmonton.

He also offered Ellyn double salary to remain with Patricia as maid and woman company; but Ellyn flatly refused. Unlike Patricia, she could not stand up to the Arctic. The discomforts of tent life went hard with her even in summer; and with the coming of raw weather she completely wilted. Besides, she both feared and disdained the rough prospectors. So there was nothing for Warren to do but send the maid back to Chicago.

Loving Patricia as he did, it galled him to know that her passion was for Tarlton, not for him, but he sternly concealed the hurt and went on playing his cool-headed patient game. After all, he reflected, he had powerful factors on his side. Patricia's social status, her wealth, her family ties and all the old familiar life-of that he was an integral part, whereas Tarlton was alien to it. If and when a showdown came, Patricia would hesitate a long time before severing herself from everything near and dear to her.

All the while that he was befriending Patricia personally, he pushed ahead ruthlessly with his plans to seize that mining field. Privately he passed around the word that any man who sold him a block of four or more claims would be paid cash, taken all the way to Edmonton by plane, and there given \$500 bonus to have a good time on. Picking out half a dozen of the most discouraged city rushers, he worked on them secretly, persuaded them to sell their holdings, and whisked the men south to Fort Smith before the other prospectors

caught on.

Most telling of all, he kept up a shrewd insidious propaganda to break down the morale of the men.

. This field was sixteen hundred miles from a railrosa . To bring in even the smallest stamp mill would cost a fortune . Silver was down to 31 cents . When valuable developed miner in the country were standing idle, with railroads right at their shafts, what

chance had an undeveloped mine in the inaccessible Arctic? His methodic hammering got re-

sults. Spot by spot the red on his chart grew.

Across the river Patricia watched Warren's moves and fought him the best she could. In answer to his propaganda she would argue with the men, "If this field is as worthless as he tries to make out, why's he so keen to get hold of it?" Whenever a miner fell sick or got behind on his assessment, she persuaded others to pitch in and keep his claims from lapsing. Under her direction the men cut huge cords of stove wood, laid up whitefish for the dog teams, netted lake trout for themselves; and in the Moonof-Birds-Flying-South, when the first heavy snows came and the caribou migration was on, she sent a big hunting party northeast to the barrens, and they brought back meat to last all winter.

Food and fuel, the two main items, were thus taken care of easily enough.

Needing money badly for the odds and ends of operating expenses, she wrote secretly to Chicago and had all of her jewelry sold, through Frances, thereby raising enough funds to keep the Den going a while

What with fighting Warren, holding the discouraged prospectors in line, running that big house, scolding six dozen men, planning three meals a day, keeping quarrels down and spirits up, she was a busy girl, the busiest she had ever been in her life. During the first six weeks of her "war," before defeat began closing in and her doubts and uncertainties rose to storm fury within her, there were times when she came near to happiness. No more idleness. No more of that terrible inner restlessness which used to dog her wherever she went. No more wondering where to find diversion tomorrow, or choosing between boresome inanities.

Toward the end of October, Sam Honeywell came in to the Bay, bringing back one of the pledges which she had sent up Resurrection for the men to sign. As Patricia scanned the long list of names, she was astounded to run upon Craig's signature.

Instantly she was all eagerness. "Why, Sam"—he had brought the paper to her cabin—"did Craig actually sign this? What did he say, Sam? Did he make any comments about my war on Mr. Lovett? Was he surprised?"

Sam scratched his head. "He was plenty surprised, all right; but I don't mind as he said anything in perticular-Yes, he did, too; he said, 'Heavens, what a twirl she's giving it.' I dunno what he meant Patricia knew. That "twirl" was

a reference to Craig's taunt, last fall, that she had taken up the humanitarian game and was giving it a spin. But how was she to interpret his cryptic remark? Was it an admission that he had judged her wrongly? His signature on her pledge pointed that way. Surely he saw by now that she was in dead earnest. Surely he would say a kindly word to her, if he ever did get back.

But she refused to do any wishful thinking. If she hoped for nothing, at least she could not be disappointed. Craig's cold aloofness had cost her bitterly enough already.

As she looked back, more sanely now, on her declaration of war, she felt that though she had been hottempered and extreme, the course she had taken was the morally right course. After making every possible allowance for Warren-his duty to the firm, the temptation of this immense prize-she still believed that he was heartless and predatory toward these men. His final victory-and she saw, at last, that by mid-winter he would have this wnole rich field-drove her frantic. Why didn't Craig come back and thaw out and get into this fight, instead of being such an iceberg? He might be able to whip Warren, whereas she could only stave off the debacle a little longer.

With the November Moon-of-Hardening-Ice, Resurrection froze over for its long winter sleep. Shore ice stilled the beating surf of Great Desolation and crept out and out in the the bay until at last the whole great lake lay quiet and dead. Snow covered the land and frozen waters, snow as dry and gritty as sand. The sun had swung farther and farther to the south till it was making only a little arch above the southern horizon, and the days had dwindled almost to nothing. After a long morning twilight the laggard sun rose at eleven, inched across its little journey, sank out of sight at one; and then the purple afternoon twilight gradually deepened till at last the stars and Aurora were flashing their cold lights on the scintillat-

As the Big Dark drew near, storms that sent the temperature plummeting to 50 below came howlplummeting to 50 below came howling down from the pole and raged for days on end. Near the beginning of December the sun failed to rise at all, day failed to come, a weird dusk that was neither day nor night settled over the land. At noon, as at midnight, one could look up and see the stars. The Sacred W, the Two Bears, the Dragon and other northern constellations awang

AROUND the HOUSE 短短照 Items of Interest to the Housewife

lead or black lead pencil rubbed a seasoning of pepper, and some on the edges of a drawer which little dabs of butter. The last lay. has become swollen from heat will enable it to be opened and shut quite easily.

Browning Biscuits.-Biscuits can be given rich brown tops by brushing the tops with a pastry brush dipped in milk before placing them in the oven.

Storing Brown Sugar .- Brown sugar will not become lumpy if stored in an airtight jar.

Disagreeable Odor .- The smell of new paint has a very bad effect on some people. To minimize it, fill a pail of water and sprinkle in it some hay and one or two onions, freshly sliced. Stand this in a room newly painted, and much of the smell will be neutralized.

To Clean the Piano.-Use the suction cleaner to remove dust from the inside of the piano, and clean the keys with a soft cloth moistened with methylated spirit. Polish with a chamois leather.

Heating the Oven .- Open the oven door for a minute soon after the gas has been lit and you will find that the oven will get hot much quicker. By doing so you let out the moisture that always Clutton-Brock. collects when the oven is not in

Turnips Au Gratin .- For this tasty dish half-cook turnips in boiling salted water, then cut into fairly thin slices and drain well. Arrange in layers in a buttered fireproof dish, and cover each lay-

Baskets of Lace For Chair Set

Isn't it exciting to think that with your own crochet hook you can fashion a chair or buffet set as lovely and practical as this basket design? A bit of string helps do the trick, giving it durability beyond compare. Even a beginner can do this simple filet

crochet, the design set off in open stitch. Pattern 1437 contains charts and directions for making the set shown; material require ments, an illustration of all stitches used.

Send 15 cents in stamps or coins (coins preferred) for this pattern to The Sewing Circle Needlecraft Dept., 82 Eighth Ave., New York,

Please write your name, address and pattern number plainly.

When Drawers Stick .- Black er of turnip with grated cheese ers should consist of breadcrumbs sprinkled with grated cheese and dotted with butter. Bake in a moderate oven until well browned.

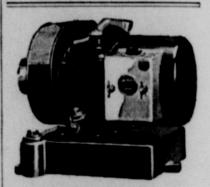

THE

Meat Pinwheels .- Biscuit dough, left-over meat chopped with onion, carrot and parsley. Spiced toma-to gravy. Make your favorite biscuit dough and roll out fairly thick. Spread the meat mixture over the surface, leaving an inch margin of dough uncovered. Then roll up dough and meat together, and slice off pinwheels. Grease a shallow pan and lay in the pin-wheels. Bake in moderately hot oven until done, about 30 minutes.

Cooking Cabbage. - Cabbage should be cooked only until tender when tested with a fork. Too much cooking results in changed color and an indigestible product.

Peace Is More Glorious

It is not enough to preach peace by talking of the horrors of war: for men are so made that they prefer horrors to dullness. You must persuade them that peace means a fuller and more glorious life than war, if you would make them desire it passionately .- A.

DEPENDABLE

Electricity Everywhere

Why wait for the costly "high line" that may never come? Why consider a big expensive light plant when the "New, bigger and better" IRON HORSE GENERATOR at low cost will give you the two modern essentials: Brilliant Electric light; constant and dependable radio service?

You want electricity for lights and radio? Everybody does. You want DEPENDable electricity? No other is worth having. You want low-cost electricity? No one can afford to be without it.

without it.

The new IRON HORSE GENERATOR gives you 300 Watts (50% to
100% larger than many other sets) and
12 volts (lower cost for wire and wiring for longer distances) and the
IRON HORSE engine (many thousands in service) runs for hours under
full load on a nickel's worth of gasoline. And oil consumption that is
hardly measureable. First cost low. The IRON HORSE GENERATOR generates electricity to charge storage batteries to give ample lighting for the farm, cottage, camp, trailer, cruiser. These same batteries serve the 6-volt farm-type radio constantly. Charge auto or truck batteries. Drive small farm machinery by belt.

Locate it wherever most convenient. No special housing is necessary. It requires little space and once installed, practically no attention except supplies of oil and fuel. It weighs only 79 pounds. It is quiet. It starts with the push of a button, stops in the same manner.

TIMES HAVE CHANGED

"Do you really think times have changed, my dear?" said a young woman to her grandmother.
"I think they have," said the old

lady. "Why, when a husband re-turns home from the office on the 5:17 now and discovers his wife sewing away on a tiny garment, it means only one thing—she's making a new evening dress."—Philadelphia Bulletin.

FIRE! FIRE!

"I understand the speaker delivers his talk with burning eloquence." "Well, the one I heard yesterday was incendiary."

A traveling salesman, detained in a certain village overnight, was introduced in the town's hotel to a crazy little billiard-table and a set of balls of a uniform, dirty-gray

"But how do you tell the red from the white?" he asked.

"Oh," replied the landlord, "you soon get to know them by their shape."-Newark Firefax.

Sharing Discomfort

Doctor (who has been sent for at 2 a. m.)-Madam, send at once for the clergyman, and, if you want to make your will, for the lawyer.
"Good gracious! Is it so dangerous, doctor?"

"Not a bit of it; but I don't want to be the only one who has been disturbed in his sleep for nothing." -Stray Stories Magazine.

A comedian was trying to impress the manager of a .nusic hall by telling him of the magnificent offers he had had from American managers.

"Yes," he said enthusiastically, "they want me over there if I can spare a few weeks, and I'm to have

\$10,000 per—"
"—Haps," said the manager quietly.

"Your husband has been ill," said the caller.

"Yes," replied the little, worriedlooking woman, "he has been feeling very bad. I do my best to please him, but nothing seems to satisfy him.

"Is his condition critical?" "It's worse than critical," she an-

swered with a sigh, "it's abusive."

Mrs. Brown has a new Swedish maid, who said one day after the holidays, "Mrs. Brown, where bane your son?"

Mrs. Brown said, "Oh, he has gone back to Yale, and I miss him so much." The maid said: "I know yoost how

you feel. My brother, he bane in yaol sax times since last April."

MUST BE TRUE

MEAT

A FTER all when it comes to looking your sweetest and prettiest is there anything in the way of a lovely party frock more flattering to endearing feminine charms than all-white? Really now, is there?

Evidently fashion feels the same way about it for with all the exciting, the glamorous, the esthetic, the hectic, the eye-appealing delectable tones and tints on the color card this season, comes all-white on the scene and the contest is on, written all over the style program and in big headlines-white versus color!

The chic and the charm and the immaculate nicety with which the all white costume dresses you up during the daytime hours is exceeded only by the magic and the irresistible loveliness of the dineand-dance and the formal party frocks that designers are creating of frothy white silk sheers this sum mer such as mousseline de soies, silk organdies, finest dainty silk nets and soft "drapy" filmy chiffons that sway and flutter and dance

to the strains of rapturous music. Then there are the stiff silks that that not all the honors are going to the such favorites and which reare such favorites and which require such queenly styling to do them justice. Their vogue in all white is outstanding with particular emphasis on gleaming white satin which this summer is more than ever holding sway in ballroom and The cape is grace itself. By the at formal night functions. A most fascinating white silk satin gown is of chiffon or of net or of some type shown centered in the illustration. Its stately princess lines are delightfully in keeping with the exqui-The summer.

what

Seeking Contentment.

SANTA MONICA, CALIF. - Out in the desert country I met kindly, hospitable folk bravely making the best of things on remote, small homesteads.

On little far-away ranches, on reservation trading posts, they are educating their children

by resolute self-sacrifice; keeping in touch with the world through radio, through books and magazinesand newspapers; and almost invariably content with their lives and proud of their struggles and living comfortably - yes, and happily-within their means, however meager.

Then I come back to crowded cities where wealth seems only to make the inmates dissatisfied because somebody with greater wealth puts on a gaudier show of ostentation and extravagance. And I see the man who feverishly is striving after riches so that when he breaks down he may afford the most expensive nerve specialist. And the spoiled woman who was bern with a silver spoon in her mouth, but judging by her expression the spoon must have been full of castor oiland the flavor lasts. And the poor little rich children who have everything now and so will have nothing -except maybe dollars-when they

Curious, isn't it, that so little buys such a lot for some people and such a lot buys so little for the others?

The Return of Prosperity.

CAN'T help gloating over what appeared in this space when I predicted that the temperamental and fickle bird of passage known as prosperity was winging its way back. Because the Better Business bureau reports that sellers of nogood stocks are showing increased

Moreover, I hear that for the first time in years practically all the veteran bunco-steers are off relief. The lean times when the locusts of depression gnawed away our substance must indeed be over if the customers begin to nibble more freely at the same dependable old baits.

The girlish simplicity of this dainty gown and cape commends this cos-So, as he thumbs his copy of the tume to the young debutante. This sucker list against the morrow's lovely creation naively informs you campaign, I seem to hear Mr. Henry Slickguy (late of Leavenwe but now opening offices in the Wall chiffon is in the new exquisite desert street district) murmuring to himdawn tint, which is a delicate pink

"Happy days are here again! The gown has a halter neck which Drouth may kill the corn, Rust rats the wheat. Boll weevils destroy the cotton. But, thanks be, there's one crop in America which never fails!" Have you a little gold brick in

your home, dear reader? Well, don't worry, nobody's going to be slighted. Ere long you'll get your chance to invest in one.

Making Mental Slips.

THE most incredible thing has come to pass. Here I go along, year after year, building up a reputation for invariably being right, the same as George Bernard Shaw and Mme. Secretary Perkins. Then -bango!-I make one little slip and the trusting reader is shocked from

The other day I suggested taxing salaries of governmental employees. Now from all sides I'm told federal employees are subject to income taxes; only the vast majority of them, and probably the hardest-worked ones, draw such small wages that they owe Uncle Sam nothing when March 15 rolls around.

So far as I recall, this is the second time in my life I've been wrong I can't cite what the other instance was-some very trifling matter, no doubt-but it must have occurred because I remember the nation-wide excitement which ensued, with perple going around in a daze mutter-"Can it be possible?"

I now admit that early error and the recent one, too, and humbly beg pardon of my devoted public-all eight of them. It'll never happen

Conquered Champions.

T HAS been brought to the attention of Mr. James J. Braddock that something happened to him a while back. Probably, by now, he has quit wondering whether many others were caught in the earthquake, but is reported to be still saying "Ouch!" at intervals.

And now, as is customary, his backers will insist he demand a return engagement-or disaster-with the Brown Bomber. But if I were Mr. Braddock-game though he be -I think I'd pattern my reply on the example of the gentleman who was knocked galley-west by a hitand-run motorist.

As the dazed pedestrian was trying feebly to ascertain whether he was all in one piece, a kind-hearted citizen hurried up.
"Have an accident?" he inquired,

'No, thank you," said the victim; "tost had one."

IRVIN S. COBB.

Switch Polatoes in Chic

For Discriminating People WHO'S NEWS THIS WEEK.

NOW is the time for all smart | yards of 39 inch material. The women to come to the aid of dress alone requires 4% yards. To their wardrobes. Sew-Your-Own line the jacket requires 21/4 yards wants to lend a hand, Milady: of 39 inch material. hence today's trio of mid-summer pace makers.

At The Left.

A trim little reminder that careinch material plus 51/2 yards of ful grooming is an asset anyribbon for trimming as pictured. where, anytime, is this frock. It Send your order to The Sewing Circle Pattern Dept., Room 1020, features simplicity. Its forte is comfort. Make one version in cot- 211 W. Wacker Dr., Chicago, Ill. ton for all purpose wear, another Price of patterns, 15 cents (in of sports silk for dressy occasions. coins) each. You'll praise the cool cut of its short sleeves and softly rolled collar. Yes, Milady, you'll enjoy making it.

In The Center.

Here you have a light and breezy ensemble that's the perfect attire for Society. It has cosmopolitan dash, refinement, and engaging charm. Once more you'll be the subject of complimentary tea table talk with your and correspondents have mainly let delightfully slender silhouette. Make it of sheer chiffon or more durable acetate. You'll have a hit in either.

At The Right.

the-roader, which seems not such a this new dress and pantie set. It Les affaires font les homn has the chic of mommy's dresses plus a little-girl daintiness that is more than fetching. Wrap around styling makes it easy for even the tiniest girl to get into and it's quite a time saver on ironing day. A splendid idea is to cut this pattern twice and be assured of little sister's all summer chic. The Patterns.

Pattern 1237 is designed for

Loopholes for Statesmen. NEW YORK. — Statesmen frequently may be found on this or that side of the loophole. In

By Lemuel F. Parton

June, 1933, Guy T. Helvering, now unrolling the government's roster of alleged tax-dodgers, was the subject of a bitter senatorial debate. Certain senators fought his confirmation as commissioner of internal revenue.

They charged that, as an income tax lawyer, he had procured a reduction in the tax bill of the Slim Jim Oil & Gas company from \$1,-211,000 to \$451,000. However, he was confirmed, and, discharging his official duties, puts the finger on the "wealthy evaders" for the congressional investigation committee.

Prof. Roswell Foster Magill, author of the tax-avoidance report, wrote books giving pointers on legal loopholes, before he went to Washington. No moral turpitude has been charged. It just means that Dizzy Dean may be pitching for Washington next year instead of St.

Commissioner Helvering is shrewd, portly, ruddy, white-haired Kansas politician who wears good clothes, carries a shiny malacca cane, smokes good cigars, knows his way around and says little. He was in congress from 1913 to 1919, a tax income lawyer thereafter, according to the somewhat heated and vehement charges of Senators Hastings, Couzens and others.

He has been a close friend of Postmaster General Farley for many years and it was understood that he was the President's personal choice for the internal revenue post.

He has been active in Kansas politics for many years, a former su-perintendent of public construction under Governor Woodring, and campaign manager and chairman of the Democratic state committee. He was born in Felicity, Ohio, in 1878. His family removed to Kansas when he was eight years old. He studied law at the University of Michigan, and was county attorney of Marshall county, Kan., before he went to congress. He is one of the

it go at that. Middle-of-the-Roader. DR. JAMES ROWLAND AN-

hardest men in Washington to see

Yale, is an aggressive middle-ofbad idea, considering the plight of extremists, right and left. He will receive a salary of \$25,000 a year as educational counsellor of the National Broadcasting company.

L. R. Lohr, president of the NBC, says it will be full time work, addterest, convenience and necessity

ing that "broadcasting has a mandate to operate in the public in-All this will presumably be in Dr. Angell's department, It would be difficult to think of Dr. Angell as a mere emeritus. He

said he was retiring at sixty-eight "because of obvious and offensive senility," at the same time demonstrating the contrary by some lusty swings at the New Deal. He will need no time out for road work before taking on the radio engagement. When he retired as dean of the University of Chicago in 1921, the Carnegie foundation snapped him up at a fat salary, but, before he got his chair warm, Yale was after him. He is always in demand.

Baccalaureate orators used to see "the orb of Rome sinking in a sea of blood" and warn us that we were getting that way, too. Now we are heading "down the same abyss which has engulfed Europe," which was Dr. Angell's phrase in his farewell address at Yale. That is, unless we do something to check the slide.

He has struck out vigorously against the Supreme court reorgani- cream. zation, sit-down strikes and insidious collectivism as he sees it exemplified, in the present administration. He is a conservative, and "middle-of-the-roader" is an apt term only in denoting his adherence to traditional cultural and governmental patterns. He was a professor of psychology for 26 years before becoming president of Yale, his father having been president of the University of Michigan for 38 years -until 1909.

His notable achievements at Yale have been administrative. He effected sweeping reorganizations and during his incumbency endowments rose from \$30,000,000 to \$100,000,000. The value of university properties scoring a parallel rise. He was the first president of Yale who was not a Yale graduate.

Mr. Lohr says, "In joining us he is only changing his base of educational endeavor from New Haven to New York, from a university to the air." Erasmus never got a break like that. Nor even Nicholas Murray Butler. It will be interestas an old work horse.

Men who make a success, when called on to explain why, generally don't know exactly.

How are you to find out the meek are meek unless they tell ing to see how the radio fans take to the new curriculum.
