BOO-ERS SOCIETY

Theatre patrons in Little Rock, Ark., have formed a "Society of Boo-ers." Their hisses and hoots, led by a competent boo leader, are not directed at the mustached villain linking across the screen but at what they consider a more persistent evil—short subjects advertising commercial products.

The organization of "The Society of Boing of Commercial Advertising in Motion Picture Theatres" prompted Arthur Hornblow, Jr., Paramount producer, to warn exhibitors to be wary of showing commercial shorts. Patrons of West Coast theatres, he pointed out, frequently have to sit through advertising films as long as an hour before the regular features are shown.

In an attempt to appease "boo-ers" of advertising shorts, commercial film companies which make them promised to minimize straight advertising in their films. In the future, direct sales talks will be practically abolished, regular actors and actresses will be recruited, and scripts will be made as interesting as possible.—Pathfinder.

Uncle Jim Says

"Planting crops beyond market demands makes for price depressing surpluses, mines the soil of its fertility, and exposes land to erosion. It's good business to diversify and to grow more crops which help the soil."

In 1936, Texas farmers to the number of 198,400 made applications for grants under the Agricultural Conservation Program on farms totaling 23,915,000 acres. These farmers diverted 4,338,000 acres from soil depleting uses to soil conserving crops and employed soil building practices, such as terracing, on 4,901,891 acres.

The results obtained by planting legumes or terracing in 1936 can be seen on many Texas farms in increased yields. The 1937 Agricultural Conservation Program, which has attracted about the same number of farmers as in 1936, is helping many farmers to improve their farms and to restore fertility to the soil.

Adventure Is Coming in the American Boy

Readers who like adventure and the lure of far places will find plenty to please them in coming issues of THE AMERICAN BOY Magazine. They'll read, for instance, of seamen and saboteurs and San Francisco water-front trouble; of daring adventure in the world of pseudo-science, and of a feud aboard a plunging, rolling battleship. They'll read, too, of excitement aboard a transport plane blaring over junked Mexican mountains, and of stranger planes that are not bound to earth but swing through the noiselessness of space. Readers can follow a young ex-Mountie as he searches for clues in the wild northlands, and Tierney, the pie-eating detective, on the trail of city criminals.

A new feature in THE AMERICAN BOY is picture pages that tell stories. Pictures, for instance, that vividly show a day in the life of a coast guardman, and how an Eskimo husky sled dog does his work. They transmit the thrill of battling a hundred pound, water-churning tarpon. Tips on how it's done are also given pictorially—ranging from how to run a broken field to how to be correct in a ballroom!

NOTE: Subscription prices of THE AMERICAN BOY will be raised in the near future. Send your subscription order at once to take advantage of the bargain rates now in effect: one year at \$1.00 or three years at \$2.00. Foreign subscriptions are 50c a year extra. Send your name, address and remittance to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Mich. On newsstands the price is 15c a copy.

"Mary Makes the Best COFFEE"

But Mary Says: "Give ELECTRICITY the credit"

Everybody likes good coffee, and now it's so easy to make it good every time. There are several different types of electric coffee makers, every one of which makes grand coffee every time you use it. It's merely a matter of measuring and timing correctly, and results are always uniform. Modern coffee makers don't stop with making the coffee, either. They keep it hot, keep the temperature the same, too, as the coffee is used, so the strength doesn't vary from the first cup to the last. Why not investigate this modern way to perfect coffee? We'll be glad to show you our coffee makers.

**GREAT COMBINED CIRCUS
COMING TO PAMPA**

Offering the largest array of world
famous arctic stars ever presented in
history, the great AL G. BARNES
and SELLS PLOTTO COMBINED
CIRCUS is scheduled to exhibit in
Pampa Thursday, Sept. 9.

The uniting of these two giants of
the tented world has created an
amusement colossus, offering hun-
dreds upon hundreds of world famous
circus headliners, as well as scores
of Europe's most sensational new
acts.

The Worlds Best Circus will arrive
on three double length trains, car-
rying over 1,000 people, five herds of
elephants, 400 horses, not to mention
the vast army of tents necessary to
house this small army, and the
superb menagerie that includes over
800 furred and feathered creatures.

New European troupes are the
amazing Christiani troupe, without
question the only bareback riders in
the world accomplishing a twisting
somersault from galloping horse to
galloping horse; daring and exotic
America, who features breath-taking
feats on a lofty swinging trapeze,

head on a wildly swinging trapeze.

The largest group of zealous wild
animals ever assembled in the his-
tory of the world are on display in
the menagerie. These mean brutes,
who defy all efforts to tame them,
are twice daily herded into a triple
steel bar amphitheatre, where they
are made to perform. The intrepid
trainer is Bert Nelson, the greatest
wild animal subjugator ever known
since time began. His darlingsmas is
a sight never to be forgotten.

In addition to the hundreds upon
hundreds of world famous arctic

dred performers and three hundred
horses and animals in its presenta-
tion, it strikes a new note in beauty,
never before witnessed.

Prints Tune to School Girl Needs

By CHERIE NICHOLAS

MYRIADS of gay little print frocks wending their way schoolward is the picture fashion flashing on the screen for fall. There is really no danger of overdoing the print collection for little daughter, for there are so many varieties of textures and design in the realm of washable prints this season mothers can assemble a wardrobe of prints ranging from playtime and classroom frocks to pretty-party dresses, and then not have too many for occasions that may arise.

From mother's standpoint the new print collections should and will prove all that they should be in supplying fabrics which will insure her child the joy of being well-dressed whatsoever the occasion, because fabrications are bringing out cottons and rayons and linens that have the "looks" of choicest challis and fine crepes.

The thing that intrigues the little folks in regard to prints is that many of the nicest, prettiest prints have been especially designed for them with pictorial motifs that make direct appeal to childhood. Not only are the patterns charming to behold but they are in many instances instructive and entertaining as well. For smaller children there are prints with the letters of the alphabet scattered designfully in all-over patterning. Mother Goose figures too, and boats and ships and birds and animals, fruits and flowers done in a way to capture the fancy of a child.

The washable prints developed this season are unique and lovely. It's a series of perfectly charming prints that we have in mind—artistic creations each of which has been inspired by a song. There are fifteen designs in this collection nine of which have been adapted to cotton fabrics and six to rayon. The unique part of it is that these theme-

song designs use titles of copyrighted songs. What a grand chorus of prints there will be in classroom, at home and in the highways and byways that little girls tread during the coming tangy autumn days! Not that children have a monopoly on these intriguing musical prints for designers are making them up into the smartest-ever housecoats, pajamas and daytime dresses for grown-ups.

Does your little girl love music? If so she'll adore the beruffled frock of new chintz-type print (centered in the illustration) the motif of which is based on "I'm Forever Blowing Bubbles," a song children know and love. Clever little girl and boy figures holding balloons and other bubble motifs following the position of the notes on the scale with tiny clef signs make the design of this print which is fascinating for young and older folk. The crisp white organdy ruffles and buttons add winsome accents.

The dress to the left is also made of a theme-song "bubble" print. It is a pleasing type for the growing girl. Three narrow ribbon bows positioned on ribbon crossbars set row and row march soldier-like down the front of the bodice. Pleated skirt and demure Peter Pan collar complete this smart style.

The dress to the right reflects a quaint spirit in the lacings up the front, the close-fitting bodice, and the now-so-fashionable "swing skirt." Any girl would love to wear this dress "first day of school." The scattered daisies in a patterning inspired by that familiar song, "Daisy, Daisy, Tell Me Your Answer True"—enough to inspire any little girl wearing this dress to become a prima donna.

CASUAL COSTUMES SLATED FOR FALL

"Look casual," is the latest slogan being broadcast to women who are pre-occupied with the question of what to wear for early fall. Although both tailored tweeds and softly-feminine garments will continue to be style-right for particular occasions, it's the casual costume that is slated for high-style acceptance.

Suits are always an early-fall favorite but they were never better calculated to make women want to cast aside their summer clothes. Already the shops are beginning to display scores of casually cut models ranging from classic two-piece ensembles complete with blouse and topcoat or fur cape.

College Girls in Favor of Low-Heeled Daytime Shoes

Increased interest in sports is given as the chief factor in the college girls' inclination toward lower heel heights on daytime shoes but her choice is also influenced by other considerations such as comfort and the suitability of low-heeled footwear to sports clothes.

The prevalence of "girls of more than average height" was one of the reasons advanced for the increased popularity of low and medium-heeled evening shoes.

Shaded Stockings Boon to Woman With Bulky Calves

The woman with oversized calves can buy shaded stockings which gradually darken in color at the largest part of the leg and thus have a very slenderizing effect. These stockings shade from a light tan at the foot and ankle to a dark brown at the calf and upper leg. For slimmer legs, there are stockings of uniform color with feet of dark brown.

PLAID TAILLEUR

By CHERIE NICHOLAS

Plaid's the thing for your new fall suit if you are seeking the smartest. The one pictured is of heavy plaid linen. It's a real Scotch tartan plaid done in dark green, dark blue lined with white, red and yellow. Black velvet binds the edges, pocket flaps and cuffs. This makes a stunning costume for early fall and later on you will be wanting to copy it in plaid wool. We are quite sure you will for these stunning plaid jacket suits are the "last word" in chic.

Black and Sand
Black velvet is worn with a tailored coat of sand-colored wool.

What Irvin S. Cobb Thinks about

Japs Killing Chinamen
SANTA MONICA, CALIF.—The formula still holds good. A Jap kills a Chinaman. That's another dead Chinaman. A Chinaman kills a Jap. That's a war.

But before we get too busy deploring Japan's little way of disregarding pledges so as to gobble more Chinese territory let us look at some records closer home. Since the republic was formed we have deliberately broken 264 separate treaties with the original Red owners of this land.

From these violations of our solemn promises border wars frequently ensued. When the Indians started fighting we called it an uprising. When we sent troops forth to slaughter the Indians it was a punitive expedition to restore law and order. If the white soldiers wiped out the Indians that was a battle. If the Indians wiped out the soldiers that was a massacre.

Those who make history rarely get a square deal from those who write history.

Keeping Undercover.

THIS is the land where, in self-protection, you hide your place of residence and have your telephone privately listed. The result is, if your aged grandmother happens along and doesn't know your address, she can never reach you, but any smart stranger may approach the right party—let us call him a 'phone-legger—and, by payment of a small fee, get the number instantly.

So, in about two calls out of three, you answer the ring to find at the other end of the line somebody with a neat little scheme, because here in movieland neat little schemes grow on every bush and gentlemen promoting them are equally numerous.

Through long suffering, I've become hardened to this, but today over the wire came a winning voice saying the speaker desired to give me, as he put it, "a checking over for white termites."

I admit to a touch of dandruff and there have been times when I suspected fleas—we excel in fleas on this coast—but I resent the idea of also being infested with white termites.

I've about decided that, to modern civilization, telephones are what cooties are to a war—nobody likes 'em, but everybody has 'em.

Camera Sniping.

SNAPSHOTTING of famous folks from ambush may be upsetting to the victims of the sniping, but the subscribing public certainly gets an illuminating eyeful every time one of the photographic magazines appears.

I've just laid aside the current copy of a periodical which could be called either "The Weekly Expose" or "Stop, Look and Laugh." Among other fascinating, not to say illuminating, illustrations, I note the following:

A reigning movie queen with her mouth so wide open that her face looked like a "gates ajar" design. If I had tonsils like hers, I'd have 'em right out.

A political idol taken in a brief one-piece bathing suit. Next time they snap him, he would be well advised to wear more than a mere g-string. A Mother Hubbard would be better. Or, anyhow, a toga. A statesman is greatly handicapped when he suggests a barrel of leaf-lard with the staves knocked out.

A close-up of Mr. John L. Lewis with the lips pointing out and a congested expression. Would not this tend to confirm the impression that lately Mr. Lewis bit off more than he could chew?

This candid camera stuff is translating into the pictorial fact the nightmare all of us have had—that horrid dream of being caught outdoors with practically nothing on.

Field Days for Reds.

UNDER the warming suns of tolerance and indifference in certain quarters, many of our hot-house communists are changing from the pallid, timorous flowerlets of discontent into full-blown advocates of the glad new age when Lenin will take over Lincoln's niche in the gallery of the immortals and government everywhere will be of the Trotskys, but the Trotskys, for the Trotskys.

True, there still remain some wavering souls who are so pink they'd be red if they weren't so yellow!

But these quivering aspens shrink in number as their bolder comrades openly profess the blessed doctrine which is doing so much for the undertaking business in Russia.

Ask Me? Another? A Quiz With Answers Offering Information on Various Subjects

1. Who was the greatest woman financier of all time?
 2. Is the "only child" in a family superior, as compared with a child who has brothers or sisters?
 3. What is the proper way to address a letter to the President?
 4. From how many acres up is considered a farm?
 5. What trees are said to build islands?
 6. How many miles can a man walk an hour?
 7. Who was Casabianca?
 8. What makes a violin's tone, the varnish or the wood?
- Answers**
1. Hetty Green had the reputation of being the greatest woman financier in the world.
 2. Psychologists find that the "only child," aged five, in a family is apt to be superior in health, intelligence, play habits and other points, as compared with a child of five who has brothers or sisters.
 3. The President, Washington, D. C. Salutation, Sir, or informally, My Dear Mr. President.
 4. In taking the census, anything from three acres up is considered a farm. No tract smaller than this is recorded as a farm unless it produces \$250 in crops annually.
 5. Trees that actually build islands and create extension of coasts are the mangroves, common seaside trees, found in profusion on shallow shores in the American tropics and subtropics. They collect mud in their tangled roots.
 6. In 1928, N. Altmani of Italy walked 8 miles, 566 yards in one hour.
 7. Louis Casabianca was a French revolutionist and naval officer. At Aboukir bay, in 1798, he was in command of the Orient, which caught fire. He refused to quite his ship and his young son refused to desert him. This event is the basis for Mrs. Hemans' poem.
 8. It has been found that wood fiber, not varnish, has a vital effect on violin tones.

OF INTEREST TO THE HOUSEWIFE

Removing Shine From Serge Suits.—Some of the shine can be taken off blue serge suits and coats by sponging lightly with vinegar before pressing.

A Tasty Salad.—Open a jar of beet pickles and add them to plain lemon gelatin. Topped with mayonnaise or salad dressing, this makes a tasty salad. Chopped celery or cabbage may also be added.

To Avoid Burns.—It is annoying as well as painful to burn your fingers when removing the lid from a hot pan. To avoid this keep a spring clothes peg on the stove and use this as a clip for picking up the lids.

Removing Ink From Carpet.—If ink is spilt on a carpet, mop up as much as possible with blotting paper, then spread salt thickly over the stain and leave for several hours. Remove the salt afterwards and sponge the mark with warm water containing a little vinegar.

SINGING TOWER

The Will Rogers Shrine of the Sun is to become one of the most unique singing towers in the world. Spencer Penrose, who built the memorial on Cheyenne mountain, half a mile above the Broadmoor hotel, installed an elaborate system of Westminster chimes and a vibra harp which can be operated automatically, or through a console, on which concerts can be given. The notes will be amplified and sent out over the Pike's Peak region. Westminster chimes will be heard on the hour and each quarter hour, starting with the songs of birds at dawn of each day, and continuing until 11 o'clock at night, when they close the day with a hymn. After dark, floodlights will illuminate the shaft. The lights will come on gradually ten seconds before the song of the chimes, and thirty seconds after the last note has been lost in the night, the light will be dimmed to extinction. The tower will be dedicated September 6.

REVENGE

Police in Belleville, Ontario, annoyed pickets before a hat shop there with constant orders to "keep moving, keep moving!" When the police finally sat down for a moment's rest, the pickets struck up the national anthem on harmonicas, kept the officers standing at rigid attention for 20 minutes.

In a statistical study reported to the Southern California Medical Association, Dr. Emil Bogen gave a partial explanation for the surprising fact that general health in the United States was better during the depression than during boom years. He said that in hard times, commodities are cheap and that average persons can eat more and better food to build up resistance against disease.

The American laborer must continually adapt himself to new jobs as the country grows, the U. S. Department of Labor pointed out in a recent survey. Railroad locomotive factories, for instance, now employ only 59 men for every 100 given work from 1923 to 1925. Airplane factories, on the other hand, hire 228 men for every 100 they hired in the 1923-25 period.

Cigarette production hit an all-time high last July, the U. S. Bureau of Internal Revenue announced last week. The month's output of 15,290,972,227 cigarettes was 3% higher than the 14,891,028,247 manufactured in July, 1936. It was the first time cigarette production for any month had exceeded 15,000,000,000.

Robert C. Woellner, secretary of the University of Chicago's Placement Bureau, who has already found jobs for more than half of the June graduates, recently stated the one requisite business firms place above a good scholarship record is "Personality."

In making coffee, tea or chocolate to be served iced, double the strength to allow for the ice used in cooling.

Mr. and Mrs. John Haynes and children of Pampa visited relatives here over the week end.

Mr. and Mrs. Olen Shamlin and son visited relatives at Memphis last Wednesday.

T. H. Andrews visited his son, Clyde, at Tucumcari, N. M., last week.

Mr. and Mrs. H. C. Weatherby of Shamrock were in McLean Thursday.

Mrs. R. A. Shell of Waxahachie visited relatives here last week end.

Luke Graham was in Amarillo Monday.

Carl Carpenter and son of Lubbock visited in McLean Saturday.

WEENIES

Disturbed by the fact that Austrians were eating 180 different kinds of sausages of all sizes and mixtures, the National Board of Viennas in Vienna set about cutting the number down to 60.

Following an automobile accident in Indianapolis, Mr. and Mrs. Ray Gordon were taken to a police court where Dr. Rollo Harger, state toxicologist, had them blow up toy balloons. The air from the balloons was then expelled into a sensitive, purple fluid which promptly turned blue. Both were judged to be drunk and were fined \$5 each. It was the first time that "drunkometer" readings had been accepted as legal evidence.
