## Nature Laid Basis Crude Oil Here Sea and Tropical Eras

**WRITERS NOTE:** Nature left bounties here in this part of the Panhandle for man of today to retrieve. Millions of years were required for Old Mother Nature to lay the foundation for these bounties such as crude oil and natural gas, and in this article which closes this series, the writer tells how crude oil originated. Illustration used here is an artist's conception drawn by Dr. Charles R. Knight of the American Museum of Natural History.—Ray E. Colton.

### Marine Life Laid Basis for Crude Oil

It will be recalled that in the first article of this series, mention was made of the one-time sea which covered what is today McLean and adjoining counties. In the waters of this sea, there existed innumerable species of marine life, which today appears in fossil state in the area around McLean, Alameda and other towns of Gray and Donley counties. This life, on dying, left permanent remains in the form of silicates and carbonates—the matter of shell and bone. The agency which solidified this organic mass of marine life in the depths of the ancient West Texas sea, was subterranean heat. This same agency, later acting excessively, caused the upheaval which threw back the waters of the sea, created lakes and also created an anticlinal structure which is today known as the Red River anticline. Within the folds of strata which composes the folds of this structure in Gray and Donley counties, there lies concealed the bulk of the marine life from which field oil geologists have traced the original basis for the evolution of crude oil. While the marine life was the main factor in establishing in the bowels of the earth the basis for crude, yet contributing factors were animal and reptilian organisms and decayed tropical vegetation which existed here during the Mesozoic era.

Thus it has been definitely established by both field and laboratory work by major oil companies, that three organic masses make the existence of crude oil possible. These organisms are the life of the sea, decayed vegetation, and animal and reptilian remains of past geological periods.

### McLean Area Furnishes New Evidence of Crude Oil

Recent field geological work in the area north of McLean, has resulted in finds of bituminous shales which are the "mother rocks" of petroleum, outcroppings, etc., which establish the fact that mineral content lies concealed beneath the surface land masses of Gray county. In the area between Clarendon and Jericho, mostly in Donley county, recent research has revealed that on both sides of highway 88, oil bearing strata is in evidence with indicative outcroppings of shales. In view of this surface evidence, it appears that there remains little doubt but that some play can be expected if drilling operations are started. The writer understands that at least one major oil company is planning a geomorph test in both Gray and Donley counties some time this summer. This will be for the purpose of locating and defining crest trends of anticlinal structures in this part of Texas Panhandle. Oil is here. It remains for man to retrieve it through drilling operations. In the articles which you have read, the findings of scientists in your own area have been given. It is hoped that this information has been both of interest and of educational value.

### BIRTHDAYS

July 10—Emma Lou Carpenter, J. Hensley, Chas. L. Anderson.  
July 13—Glenda Joyce Smith, Odesa Kunkel.  
July 14—Mrs. Irven Alderson.  
July 15—Mrs. R. T. Dickinson, G. Beck, R. C. Paity, L. S. Tinnin, Earl Stubbelfield.  
July 16—Mrs. L. W. Wilson.

### Gene Wells Loses Life in Auto Accident

Gene Wells, 17, son of Mr. and Mrs. Jim Wells of Lela, was killed when a pickup truck on which he was riding a fender struck a horse on 66 highway between Shamrock and McLean, early Sunday morning. Dale Wells, a cousin, who was riding on the other side of the truck, was critically injured. Dallas Hayes, Leon and Cecil Hicks, sons of Lela farmers, were riding in the cab of the truck and were uninjured.

The accident occurred when the truck met a large bus, the bus lights making it difficult to see the horse, the truck hitting the animal head on. Funeral services were held Monday afternoon at the Lela Baptist Church, conducted by Rev. Troy A. Sumrall, pastor of the First Baptist Church of McLean. Members of the McLean football squad, of which the deceased was a member, acted as pallbearers. Flowers girls were from the Lela community.

### BATSON'S ENTERTAIN AT LAWN PARTY

Dr. and Mrs. C. B. Batson entertained at a lawn party and fried chicken dinner in the beautiful landscaped outdoor living room of the Batson home last Thursday evening. Dinner was served buffet style, each guest bringing a dish, and everything good was in evidence, from plenty of fried chicken to iced tea.

Following the meal, the guests gathered in congenial groups and spent the evening in conversation, all agreeing that it was one of the nicest affairs attended this season. Among those enjoying the party were: Messrs. and Mesdames T. N. Holloway, Bryan Burrows, Troy A. Sumrall, D. M. Davis, W. H. Floyd, Bob Thomas, Reep Landers, Jesse J. Cobb, M. D. Bentley, and T. A. Landers.

### SEALY-SITTER WEDDING HAS BEEN ANNOUNCED

Announcement has just been made of the wedding of Miss Mary Frances Sealy and Mr. Spencer Sitter, the nuptial vows being spoken at Sayre, Okla., June 8, 1938.

The bride is a daughter of Mr. and Mrs. A. D. Sealy of Oklahoma City. The groom is a son of Mr. and Mrs. E. L. Sitter of McLean. He is a former student of the McLean high school, and a graduate of the high school department of Kemper Military Academy at Booneville, Mo. The young people will make their home in McLean.

Mrs. G. M. Carpenter returned Saturday from Wichita Falls, where she had been at the bedside of her father.

### Rev. L. H. Shockley returned Saturday from Missouri, where he has been conducting revival meetings.

### 1934 SEWING CLUB ENTERTAINS EMB. CLUB

The 1934 Sewing Club entertained members of the Centennial Embroidery Club last Friday at the ranch home of Mrs. E. E. Gething in the Webb community.

A covered dish luncheon was served at noon and the ladies enjoyed a swim in the Gething pool.

Members of the sewing club present were: Mesdames I. D. Shaw, L. S. Tinnin, J. M. Noel, C. S. Rice, J. S. Howard, Caille Haynes, T. A. Landers, Ella Cubine, D. A. Davis, J. E. Kirby, Byrd Gull, J. W. Story and S. W. Rice.

Embroidery Club members were: Mesdames H. W. Finley, Jim Beck, W. E. Bogan, Kid McCoy and John B. Rice.

Other guests were: Mesdames E. C. Crews, J. C. Harris, G. V. Koons, Thos. Ashby, A. Stanfield, Eva M. Rogers, Bartow Landers, Ernest Beck, Willie Boyett, E. E. Gething, E. J. Gething.

Misses Clara Anderson, Lois Kirby, Lola Ruth Stanfield, Nora Ashby, Loyce and Jean Landers, Thelma Jean Dohman, Mary Edna Tinnin, Mary Ellen Gething, Fern Landers; Messrs. John B. Rice, E. J. and Billy Gething. From Lefors: Mrs. Armstrong, Mrs. Cleveland and son, Mrs. Grigsby and children, Marvin and Dorothy; Misses Ruth Darnell and Mary Boatright.

### ATTY. ADKINS SAYS WILL WRITE LETTERS

Atty. Thurman Adkins, president of the local Goodrich for Attorney General Club, says that if supporters of Mr. Goodrich will furnish names and addresses, his office will be glad to prepare letters endorsing Mr. Goodrich's candidacy. It is suggested that all interested phone Mr. Adkins' office as soon as possible, in order that all letters may be written before the first primary.

## This Week FEATURES YOU WILL LIKE

"All Quiet on the Western Front" showing at the Lone Star Theatre tonight and Friday. See advertisement on page 6.

Exciting developments in today's chapter of "Shining Palace," the popular serial by Christine Whiting Parmenter. See page 5.

Pa Piffle, troubled by a leaky roof, buys a canopy bed. See "Mescal Ike" in our comic section, page 4.

Floyd Gibbons tells of the experience of three boys who got the scare of their lives from an exploding cartridge. It's in the "Adventurers' Club" on page 7.

Edward W. Pickard news commentator, sees cause for optimism in America's business future. He analyzes the President's latest radio address in "Weekly News Review." On page 2.

"We need to know more about good men who are occasionally great, and less about great men who are occasionally good," is the keynote for the Sunday school lesson by Rev. Harold L. Lundquist on page 2 of this issue.

D. A. Davis is not "old-fashioned" in "Snoopin' Around" on page 3.

The fantastic but true story of a man who came out of prison to receive the Nobel peace prize is told by Lemuel F. Barton in "Who's News This Week." Read it on page 5.

Cherie Nicholas, style authority, tells about the current vogue for diaphanous, transparent fabrics. Illustrated in our fashion article on page 2.

## Large Crowd Enjoys Fourth Celebration Here

### Contract Signed for Gas Company Sale

#### SOFTBALL LEAGUE

There will be no changes in the original schedule since the Kellerville team has withdrawn from the league. There have been twelve games postponed because of rain. Since the team mentioned has withdrawn, those games that have been postponed will be played the nights that Kellerville was supposed to have played.

The following teams have had games postponed: City Drug Store 1 game; Back 3; Pakan 2; Smith Office 4; G & L Food Store 2; Puckett's Grocery 1; Alameda 1; City Barber Shop 1; Smith Olders 1; Dam Boys 2; Heald 1; Andrews Recreational Club 1.

Team	Won	Lost	Standing
Back	5	0	1000
City Drug Store	8	1	889
North Fork	7	1	875
Smith Olders	5	2	714
City Barber Shop	4	2	667
Smith Office	3	2	600
Alameda	3	3	500
Puckett's	4	4	500
Pakan	3	3	500
G & L Food Store	2	5	286
Meador Cafe	2	4	333
Dam Boys	1	5	167
Heald	1	7	125
Andrews Rec. Club	0	8	000

Schedule
Thursday, July 7—G & L vs. Back; Andrews vs. Heald.
Friday, July 8—Alameda vs. Smith Olders; Meador Cafe vs. Smith Office.
Monday, July 11—Pakan vs. Smith Olders; City Drug vs. City Barber.
Tuesday, July 12—Puckett's vs. Dam Boys; Smith Office vs. Back.
Wednesday, July 13—Meador Cafe vs. Heald; Andrews vs. Smith Olders.
Thursday, July 14—Alameda vs. North Fork; Meador vs. Puckett's (sub. in place of Kellerville).
Friday, July 15—Pakan vs. North Fork; City Drug vs. Dam Boys.

Mrs. G. M. Carpenter returned Saturday from Wichita Falls, where she had been at the bedside of her father.

One of the largest crowds seen in McLean for some time enjoyed the Fourth of July celebration Monday.

Beginning with a soft ball game, a big street parade was held, led by the McLean and Shamrock mayors on horseback. Following were the Pampa, Kellerville and McLean bands, cowboys, old timers, clowns, Forest Service and Resettlement Administration trucks, girl scouts, boy scouts, fire truck, Lions Club, staidland ponies and riders, riders from Heald, chuck wagon, buckboard, etc., etc. Spectators lined Main street and covered the building roofs and awnings for vantage points.

The McLean band was directed by Ben Howard, Pampa by Savage, and Kellerville by Lammus Frank and Tom Hefner were the clowns.

A chuck wagon dinner was served at noon to the program officials and band members.

Right after noon the rodeo was staged with amateur performers that was characterized by thrills and spills as the various events were given.

A polo game finished the day with a fine display of horsemanship.

The program was managed by E. C. Crews, assisted by W. W. Boyd. J. R. Glass kept the books in the rodeo, and C. E. Cooke was time keeper.

Furnishing the arena were Lon L. Blanket, D. C. Carpenter, E. Thompson and J. E. Moore. Stock was furnished by E. C. Crews, and the loud speaker was furnished by Bewley's Chuck Wagon.

Prizes won by contestants were: Calf roping—Racy Morse 1st, R. L. Wyatt 2nd, Homer Ratliff 3rd.

Cow milking—McCracken and Windam 1st, Cooke and Hicks 2nd, Back and Pettit 3rd.

Goat roping—Bert Carpenter 1st, Tom Harlan 2nd, D. Medley 3rd.

Break-away—Kid McCoy 1st, Ralph Irving 2nd, Jake Hess 3rd.

Cutting horse—Allen Clifton 1st, Ernest Jones 2nd, Chas. Gatlin 3rd.

Junior goat roping—Bob Sherrod 1st, Jake Carpenter 2nd, Billy Carpenter 3rd, Joe Cooke 4th, J. C. Cubine 5th.

Junior calf roping—Bob Sherrod 1st, Joe Cooke 2nd, Billy Carpenter 3rd.

The following entered the various contests:

Calf roping—L. L. Fulton, O. R. Blankenship, F. Hess, Bert Carpenter, Arthur Dwyer, D. Medley, J. T. Hicks, B. Pettit, A. Back, D. McCracken, Joe Hindman, Ernest Jones, Chas. Crews, Tom Harlan, Bob Harlan, James Noel, Millard Windom, Jess Kemp, Jess Finley, Wayne Mitchell, Bruce Graham, Curley Shouse, R. Morse, Stephenson, Irving, Marvin Shelburne, Homer Ratliff, Sammie Whaley, Frank Harlan, Joel Stone, Buck Glass, Kid McCoy, R. L. Wyatt, Claude Stanton, Clark Stanton, E. C. Crews.

Cow milking—Ben Cannon, Arthur Dwyer, Bert Carpenter, E. L. Cubine, R. Morse, L. L. Fulton, Cleo Harcrow, O. R. Blankenship, Ernest Jones, F. Hess, B. Graham, D. McCracken, Millard Windom, B. Pettit, A. Back, J. T. Hicks, James E. Cooke, Tom Harlan, Jack Harlan, Jess Kemp, Jess Finley, Bob Fowler, Cleo Harcrow, Frank Harlan, A. Ivey, Geo. Bourland, E. Thompson.

Goat roping—F. Hess, O. R. Blankenship, E. L. Cubine, Arthur Dwyer, Bert Carpenter, J. T. Hicks, B. Pettit, Tom Harlan, Millard Windom, Vick Back, Jess Kemp, Jess Finley, Curley Shouse, Stephenson, Irving, E. Thompson, Ernest Jones, Homer Ratliff, Frank Harlan, Joel Stone, D. Medley, W. Fryer, Sam Bomer, Jiggs Fulton, Leo Parris.

Break-away—Chas. Gatlin, J. L. Hess, John Carpenter, Chas. Carpenter, Ralph Irving, E. Thompson, Burl Glass, Kid McCoy.

Cutting horse—Allen Clifton, L. L. Fulton, O. R. Blankenship, F. Hess, Chas. Gatlin, Clara Pearl Gatlin, Bert Carpenter, D. Medley, A. Back, Ernest Jones, Tom Harlan, Jess Kemp, Joe Hindman, Chas. Crews, Melvin McCabe, Ed Clifton.

Steer bulldogging—Curley Shouse.

Steer riding—Curley Shouse.

Judges for the horse cutting contest were I. D. Shaw, C. E. Cooke and Wib Fowler.

The city council has authorized the signing of a tentative contract with the Brazos River Gas Company, buying the McLean and Alameda properties of the company for the city.

The purchase price of \$70,000 will be paid in monthly payments, consisting of two-thirds of the gross income until the property is paid for, with a mortgage on the property and no down payment.

The sale of the property includes the Reneau well with a 40 acre gas lease, the Ladd well and 140 acres, and the Kachelhoffer well and 40 acres, with all pipe, equipment, rights-of-way, transmission lines, lateral lines to farm homes, distributing systems at McLean and Alameda, meters, gas valves, warehouses, lots and office equipment.

Legal interest bearing revenue warrants will be issued to care for the purchase.

It is a part of the contract that the rates will not be lowered during the time the warrants remain unpaid; however, there are only two towns in the state with lower rates, and only one other as low.

No change is contemplated in the order of local collection of bills, and the city will handle meter deposits as they mature. The sale became effective as of June 20. W. W. Boyd will remain in charge as city gas superintendent.

The council has passed an order that all 1937 taxes will be the same as for 1936, disregarding the raise levied for a bond issue.

The purchase of the plant by the city culminates a long fight for municipal ownership. On June 14, 1937, Mayor Vester Smith called a mass meeting at the high school auditorium to discuss putting in a city system, or buying the present system. It was voted to call a bond election for July 30, 1937, at which time 89 voted for the \$60,000 gas bonds to 29 against.

### NAZARENE REVIVAL BEGINS JULY 15

Evangelist R. B. Williams, and a special singer from Abilene will conduct a series of revival services at the Church of the Nazarene beginning July 15.

Pastor W. E. Bond says that all have a cordial invitation to attend the services each night beginning at 8:15 o'clock.

Rev. Williams is not a stranger to McLean people, having conducted a revival for the church here some four years ago.

### SHELTERBELT INSPECTOR TO BE HERE JULY 10

An inspector for the shelterbelts planted in this section is expected to visit here by the tenth of this month.

There is a movement on foot to have the shelterbelt office moved from Shamrock to McLean, and the condition of local shelterbelts may have something to do with the office change.

It is hoped that farmers will have all trees clean and free from weeds in time for the inspection.

### NEW BEAUTY OPERATOR

Mrs. Ernest Turley is the new operator at the Landers Beauty Shoppe. Mrs. Turley needs no introduction to the ladies of McLean, having done beauty work at another shop in town.

### H. D. CLUB TO MEET FRIDAY

The Eastside Home Demonstration Club will meet in called session Friday afternoon at the home of Mrs. H. L. Dorsey.

### Reptile With Duck's Bill and Hen's Comb

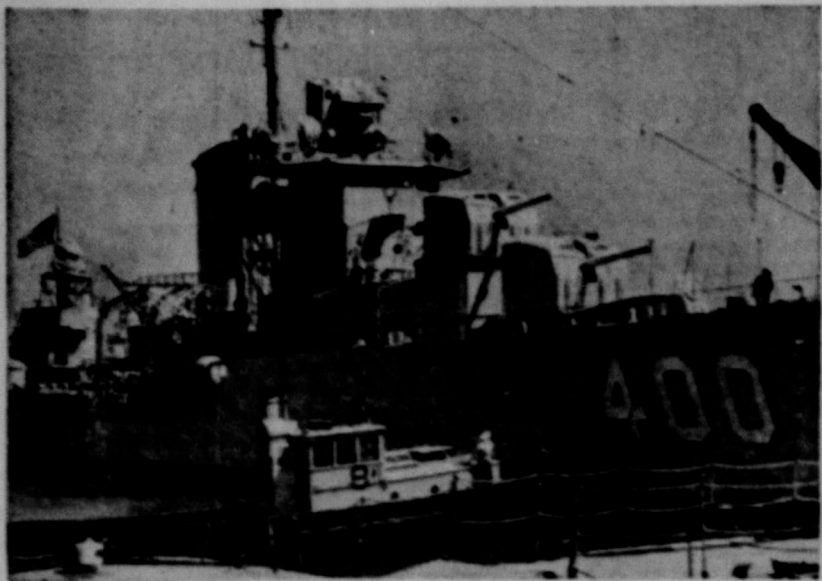

Coelurosaurus, plant eating dinosaur. From this life came one of the contributing factors for the being of crude oil.

CHANCE FOR RECOVERY

President's Call for Help Indicates Compromise . . . He Demands Election of Liberals to Congress

Speediest ship in our navy, the destroyer McCall, was commissioned at the Mare Island yard in California. The McCall, first privately built navy vessel since 1921, has a specified speed of 38 1/2 knots, but in recent tests was reported to have averaged 42 knots. It carries four 5-inch guns and four quadruple torpedo tubes and is especially fitted for quick attacks on capital ships.

Edward W. Pickard SUMMARIZES THE WORLD'S WEEK

Signs of Compromise

THERE are distinct indications of compromise and co-operation in the American picture, and hopes for restored prosperity are somewhat revived. The stock market has become unusually active, and private enterprise is awakening. Unfreezing of three billions in stored-up credit is expected to result from new banking regulations ordered by the President. Thousands of contracts for approved projects to cost almost \$500,000,000 have been sent to all parts of the country by the Public Works administration. Mr. Roosevelt, in his latest radio address to the nation, said: "In simple frankness and in simple honesty, I need all the help I can get," and it seems that the people are ready to give that help if the administration will do its part. Notable in the President's talk was the admission that mistakes have been made not only by his opponents and by industry and labor, but also by government leaders. He sharply attacked reactionaries in business, blaming them for much of the current depression. Asserting his continued belief in individual enterprise and the profit motive, he criticized the recent congress for failing to enact his program for government reorganization and legislation to aid the financially depressed railroad industry. At the same time, however, he said the legislators "achieved more for the future good of the country than any congress between the end of the World war and the spring of 1933."

Wants Liberals Elected

MOST of the President's radio speech was frankly political. He declared himself the leader of the liberals and held that, as such, it was his privilege to intervene in state primary and election campaigns for the purpose of insuring the defeat of those whom he characterized as conservatives, the opponents of his policies. This aroused the indignation of many Democratic statesmen like Senators Burke of Nebraska and King of Utah. "I believe the people in the districts and states will resent the President's interference," Burke said. "If we were to follow the course he has suggested, we would all be goosestepping behind a leader no matter how beneficent that leader may be. I do not approve of that course." Senator King asserted the President should not use the great advantage he has in controlling the purse strings of the huge spending program. "People who have fought for the Democratic party for a great many years do not like interference in their state affairs by outsiders," he said. "I do not believe the President should meddle in the primary elections of the Democratic party or any other party." General opinion was that Mr. Roosevelt had widened the split in the Democratic party and by his words had placed the stamp of his approval on the attempted "purge" directed by Corcoran, Cohen and others of his advisers.

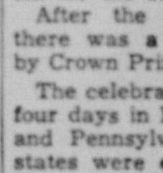

Latest War Scare

BOMBING of loyalist Spanish cities and of British ships in Spanish ports by Generalissimo Franco's insurgent planes led directly to the most recent war scare in Europe. It was reported in London that the loyalists had threatened to bomb Italian and German cities if Franco did not call off his airmen, and in Italy it was asserted that this probably would be regarded as an act of war and would be the cause for appropriate action. The rumors were denied, but their dissemination may have done some

good, for information reached the British government that Franco had ordered his aviators to stop bombing British merchant vessels. However, this news was followed immediately by dispatches saying two more British ships had been bombed in the ports of Valencia and Alicante, several seamen being killed or wounded.

Swedes Celebrate

AMERICANS of Swedish descent by the thousand and many from Sweden gathered at Wilmington, Del., for the celebration of the 300th anniversary of the landing in America of the first Swedes and Finns. From the old country came Crown Prince Gustaf Adolf with a large party, but he was confined to his suite on the liner Kungsholm by illness. His place was taken by his son, Prince Bertil. The principal event of the opening ceremony was the presentation of a monument erected by Sweden on the landing site. The presentation was made by Prince Bertil and accepted by President Roosevelt. Then the President presented the monument to Gov. Richard McMullen for the state of Delaware. After the monument ceremony there was a lawn party attended by Crown Princess Louise. The celebration was continued for four days in Delaware, New Jersey and Pennsylvania, parts of which states were embraced in the New Sweden founded in 1638 by a company of 150 Swedes and Finns sent to America by Gustafus Adolphus.

Prince Bertil

Mustn't Seize Hainan

THE British and French envoys in Tokyo warned Japan that any occupation of Hainan, Chinese island off the south coast of China, would be met by joint Franco-British action. The island, which lies near French and British trade routes, was bombed by Japanese flyers. Germany is recalling the Germans who have been acting as advisers to the Chinese army, and diplomats believe Germany may now give active aid to Japan.

Ireland Installs Hyde

IRELAND'S first president, in the person of Dr. Douglas Hyde, was installed in St. Patrick's hall, Dublin castle, where former viceroys held their social functions. The ceremony was conducted entirely in Gaelic and was witnessed by state and church officials, members of parliament and representatives of foreign countries. Among the last was American Minister John Cudahy. Dr. Hyde read and Douglas Hyde signed a declaration in which he promised to defend the constitution and dedicate himself to the service of the people of Ireland. Prime Minister De Valera made a speech in which he said: "You are now our president, freely chosen under our own laws, inheriting authority and entitled to the respect which Gaelic ever gave to rightful chiefs. Not all the territory of Ireland is at the moment under your sway, but the justice of our claim and the tenacity of the Gael will set that right." President Hyde has been a poet, historian and educator. He is the son of a protestant clergyman and it is hoped he will bring about a union of Roman Catholic Ireland and Protestant northern Ireland.

Douglas Hyde

For Naval Expansion

IMPETUS was given the naval expansion program with PWA allotments of \$27,883,000 for the enlargement, extension and remodeling of existing plants and facilities of the navy department. With orders for full speed ahead the navy department said that 113 projects, approved by Mr. Roosevelt, will be under way by August 15. Among the projects are power plant improvements, foundry building, high frequency radio station, fleet moorings, turret assembly facilities, improvements to ship building ways, structural assembly, electric and sheet metal shops, water storage, railroad tracks, non-commissioned officers' quarters, storage buildings and other improvements.

Some for Every State

NO SOONER had President Roosevelt signed the pump priming measure than the flood of federal money was released. The Public Works administration of which Secretary Ickes is the head, made public two lists of grants and loans covering 590 projects in every state in the union with a total estimated cost of \$148,795,895.

Four more lists were ready, and these, PWA officials said, would complete the "first push" toward a \$2,000,000,000 construction program to provide work and stimulate industry. Officials further estimated that these initial groups of projects may run as high as 1,500 or 2,000 with a cost of \$600,000,000.

Federal grants under the PWA procedure cover 45 per cent of the cost and, when a PWA loan is made, 55 per cent. The difference between the estimated overall cost of the projects and the sum of loans and grants made by PWA is supplied by the various applicants.

Fish Attacks Hamilton

HEATED discussion over immediate control of campaign funds among members of the Republican national executive committee, meeting in Washington, gave Rep. Hamilton Fish of New York an opportunity to renew his fight on National Chairman John Hamilton, whose removal he demanded. With Hamilton out of power, Fish said, the Republicans would win 100 senate seats and 100 house seats. With Hamilton at the helm, he warned, Republican gains would be reduced by half.

Rep. Joe Martin of Massachusetts and Sen. John Townsend of Delaware, chairmen, respectively, of the house and senate G. O. P. campaign committees, have demanded allotment of funds from the national committee and exclusive control of their expenditure. Hamilton has resisted these demands. Representative Bertrand Snell of New York, Republican leader in the house, told the committee that he intended to retire from public life and would not seek re-election this fall.

The group is composed of Lloyd K. Garrison, dean of the University of Wisconsin law school; Robert Watt, American Federation of Labor representative; Gerald Swope, president of the General Electric company; Henry I. Harriman, former president of the Chamber of Commerce of the United States; William H. Davis, chairman of the New York labor mediation board; Mrs. Anna M. Rosenberg, regional director of social security for New York; Charles R. Hook, president of the American Rolling Mills company; Miss Marion Dickerman, principal of Todhunter school, New York, and William Ellison Chalmers, assistant American labor commissioner in Geneva.

Group for Labor Survey

NINE men and women were appointed by the President as members of a special commission that will study the workings of the British labor disputes law and Swedish labor relations. Most of them already are in Europe ready to begin their work.

The group is composed of Lloyd K. Garrison, dean of the University of Wisconsin law school; Robert Watt, American Federation of Labor representative; Gerald Swope, president of the General Electric company; Henry I. Harriman, former president of the Chamber of Commerce of the United States; William H. Davis, chairman of the New York labor mediation board; Mrs. Anna M. Rosenberg, regional director of social security for New York; Charles R. Hook, president of the American Rolling Mills company; Miss Marion Dickerman, principal of Todhunter school, New York, and William Ellison Chalmers, assistant American labor commissioner in Geneva.

Louis K.O.'s Schmeling

JOE LOUIS of Detroit, the "Brown Bomber," stands the undisputed heavyweight champion of the world. His amazing victory over Max Schmeling of Germany in the Yankee stadium at New York gave him that status. In less than one round the challenger was hammered to the floor three times by the crashing blows of Louis, and his seconds threw the towel into the ring, for the German was quite helpless. The referee declared Louis the winner by a technical knockout. The loser said his defeat was caused by a blow over the kidney. X-ray examination of the German after the battle showed a projection from a vertebra was broken. The blow was not a foul for it was not struck in a clinch. Eighty thousand persons witnessed this special battle, the shortest heavyweight championship bout in history. Louis got 40 per cent of the gate and 25 per cent went to Schmeling.

New Fabrics of Sheer Loveliness

By CHERIE NICHOLAS

A FAVORITE theme this summer is the sheer loveliness of diaphanous, airy-fairy transparent fabrics, either cotton or silk. The new sheers are simply enchanting and they are the sought-for kind to make up into gowns for picturesque garden party wear or for dancing under star-spangled skies or when dining at fashionable roof-garden gatherings where beauty and romance keep rendezvous. Gowns designed to grace summer scenes are fashioned of wispy chiffons either printed or monotone, or of organdies crisp, sheer and intriguing, or of dainty silk marquisette which is an especial favorite. Then there are the soft fine cotton voiles in pretty colors and as for lace every summer wardrobe is expected to include at least one party frock made of it. As a matter of fact lace is playing a stellar role this summer. The lace that captures the heart of enthusiasts is a delicate-as-cobweb type the patterns of which is a mere tracery. Gowns of this fetching lace have all-around pleated skirts, since it yields beautifully to this treatment. To dine and dance in ingenue frocks of simple cottons made up formally is considered quite the swank thing to do. The thrilling one in regard to this season's organdies is that so many new types have been added to the list.

The crinkled organdies either plain or printed sell at sight. They make up charmingly and are easily tubbed, require little or no pressing to keep them crisp and sprightly as new. For week-end trips they are ideal as they do not crush in packing. You will be delighted with the new lace-printed Swiss chiffon organdies. The entrancing frock centered with outspread skirt in the foreground gives an idea of how effectively the lace-stripe organdie makes up. The charming and picturesque Winterhalter vogue is reflected in the styling of this very tiny-waisted and full-skirted dinner-and-dancing gown (a winsome garden party frock, too) in one of the fashionable printed Swiss chiffon organdies. A very fine lace patterning in white stands out clearly against a deep navy blue background. There is a full-cut under-skirt of white organdie to make the frock stand out almost on ballet skirt lines. The diminutive bolero jacket worn over the drop-shoulder bodice is finished with little ruffles of val lace laid on over the lace print.

The material that fashions the frock to the left is peach silk mouseline. It is prettily styled with vertical ruche-rufling of self-fabric outlining the skirt gores, the puffed sleeves and there are ruffles about the neck. Hyacinth blue lace with touches of cerise lace is used for the graceful gown centered in the picture. It was introduced at the Miami fashion show and is one of those pleasing types that carry on into new triumphs for summer party wear. One of its charms is that the lace indicates stripes and striped effects lead in the mode.

The printed chiffon frock to the left gives a delightful interpretation of the slim silhouette for summer. The patterning is spaced tulips in blue, red, green and black on a sheer white background. The gathered bodice suggests the Directoire. Contrasting shades of green and blue silk make the girdle and sash which forms a train. Flower bracelets are worn with it and an enormous poppy on the head instead of a hat, which goes to show the intriguing and unique ways in which flowers now play their important role in costume ensembling.

TWISTED DRAPES ARE NEW STYLE FEATURE

By CHERIE NICHOLAS Designers are performing all sorts of interesting tricks with twisted drapes and as time goes on the idea is taking on added interest. When you see a dress or blouse the drapes of which tie themselves into fanciful knots or twist into clever intricacies be assured that the garment is a "last word" fashion. Be on the lookout for these inter-twisted, inter-coiled effects and choose your new frocks accordingly. This type of styling invites the use of color contrasts. For instance, the bodice top of a navy dress may have drapes coming from the shoulder, say in the new fuchsia shade, the same coiled, twisted and perhaps knotted across the bustline with infinite grace. Or the dress may be in monotone, the artful, twisted designfulness being the only trimming feature. White crepe frocks, with twists done in crepes of vivid contrast or carried out in pastel tones are top-notch fashion this summer. A new feature in styling is the all-over shirred bodice with skirt of the material simply tailored. The all-over shirred jacket is likewise a fashion highlight. Chiffon and sheer marquisette yield to this treatment most charmingly.

Paquin Favorite A favorite Paquin model for evening is the long skirt of bias cut topped by a marquisette blouse—the entire thing in white, black or pale rose. Tailored Dinner Dress The tailored dinner or evening dress remains a heavy favorite.

One handsome suit like the model pictured, in your wardrobe and your problem is solved as to looking smartly attired for any occasion. Contrast stitching is a swank accent to the interesting detail of this well-tailored town and country suit in fine lightweight wool shetland. Note the scalloped pockets that repeat the decorative stitching that enhances the seams in the skirt.

Handsome Suit By CHERIE NICHOLAS

Lesson for July 10

CALEB: LIFE-TIME DEVOTION

LESSON TEXT—Joshua 14:6-15. GOLDEN TEXT—Let us go up at once, and possess it; for we are well able to overcome it.—Numbers 13:30. PRIMARY TOPIC—Brave Caleb. JUNIOR TOPIC—Caleb the Brave. INTERMEDIATE AND SENIOR TOPIC—A Hero's Reward. YOUNG PEOPLE AND ADULT TOPIC—Courage for Difficult Tasks.

"We need to know more about good men who are occasionally great, and less about great men who are occasionally good," says the Lesson Commentary, in pointing out that Caleb is one of the characters about whom the Bible does not say much, but in every case the word is one revealing high and noble character. Consider such passages as Numbers 13:6, 30; 14:7-9, 24, 30; 26:65, as well as our lesson for today.

The background for our study of today, and in fact an integral part of the lesson itself, is the story of Caleb's courageous stand with Joshua when the spies returned from their visit to Canaan, which is related in Numbers 13. He was then a comparatively young man, but demonstrated by his every word and deed that he had from his youth learned to know and obey God. Note first of all Caleb's

I. Perfect Obedience (vv. 6-8). "I wholly followed the Lord my God." Such a testimony from a man like Caleb is no idle boast, no effort to parade his faith and piety before others. In saying it he was repeating what God and Moses had both said about him. In his heart he knew it to be true.

It is God's will for each of His children that they should come to such a place of simple trust and complete obedience that in every circumstance of life they need know only one thing—God's will, and then in faith to go and do it. It is a beautiful in its transparent simplicity and powerful in the strength of God Himself.

II. Promised Inheritance (v. 9). "Surely the land whereon thy feet have trodden shall be thine inheritance." Such was the promise of God through Moses. Forty-five long years had elapsed, but down through this period of wilderness wanderings and the conflict in subduing Canaan the promise had lived in Caleb's heart. He knew it would be fulfilled, and he waited serenely for God's time.

Such also are the promises of God which keep the heart singing in our hours of trial and sorrow, which lighten up the dark ways, which strengthen the heart of His children. Learn God's promises, cherish them in your heart, expect God to fulfill them.

III. Preserved Strength (vv. 10, 11).

"The Lord hath kept me alive . . . and I am . . . strong." Here was a man kept of God, in full vigor in his eighty-fifth year, "like a rock in a changeable sea, like a snow-capped peak in a change of cloud and storm and sun" (Meyer). No doubt there was what our forefathers liked to call "the longevity of the antediluvians," but even apart from that let us recognize that life and strength come from God, and that those who walk with God in holy living may count on Him for the renewed strength of Psalm 103:5.

An incidental, but extremely important, lesson, we should learn is that God has no age deadline. The church has frequently sinned against Him and against His faithful servants by "shelving them" for younger men, when they would have brought blessing to themselves and to the church by encouraging and using them. The writer of these lines is a young man, but he would speak here a word of loving admonition regarding his honored brethren who have gone on before to bear the brunt of the battle.

IV. Powerful Assurance (vv. 12-15).

"If . . . the Lord will be with me, then I shall be able." Caleb asked for no easy task. He was ready to go up against the giants of Hebron. Read Deuteronomy 3:11, and you will find that there were men in those days who needed thirteen-foot beds. But Caleb was not afraid. He counted not on his own strength, but on the power of God. It is significant that while the other sections conquered Caleb brought his formidable adversaries entirely under control, so that "the land had rest from war" (v. 15).

The spiritual application to our day is evident and appropriate. There are giants in the land in this year of our Lord 1938. Corruption—social and political—raises its brazen head. Drunkenness and vice leer at us with the impudent suggestion that we cannot control them. There are giants "within us"—greed, selfishness, love of ease, lust, passion, cruelty" (Blackie). Are we to do nothing about them? If we are to meet them in the strength of the flesh we might almost as well do nothing. But in the power of God, we are like Caleb—able. In His name we may take up a slogan of today, "Let's do something about it!" and really do it, for His glory.

Snoopin' Around

By D. A. Davis

Folks, I'm accused of being old-fashioned. The truth is I'm not. There is no human living that's any more modern than I am.

Last week I went down and bought a pair of these new fangled socks. They are the ankle length kind. The color is baby blue with red dots on a white background. And I've got me a new polka dot shirt. While kool kloth trousers, with other accessories to match. The whole outfit cost me almost ten bucks. There's just about one pound of cotton in the whole outfit. The farmer got about six cents for this cotton and I got it back for ten dollars. If that ain't modernism good and plenty, I can't know anything about being modern.

And I've just finished celebrating the Fourth of July, and for a wonder I'm still alive to describe it. Most of us did the same thing. Each of us spent at least a dollar just for foolishness and doing nothing but celebrating our independence.

Now let's see, how many million people do we have in America anyway, and at one dollar per head how many million dollars did we American pop off on July 4th? And how many lost their lives and how many millions of dollars in property were destroyed and how many dollars will cost to put our loved ones' broken and mangled bodies away? And how many heart broken people are grieving today as a result of this slaughtering? Regardless of my modernism, I can't keep from remembering the old times we used to have at the old-fashioned "basket picnics" on the 4th of July. You never hear this mentioned any more, and just to be sure it was the proper word, I looked it up in the dictionary and there enough the word "picnic" means short excursion into the country for a pleasure party carrying their provisions.

And folks, that word "provisions" means everything good to eat that anything could cook up and plus a large basket with a couple of tablecloths spread over the top, and tied into the family wagon or buggy, with all us kids. We went to the centrally located "picnic" grounds where there were plenty of shade trees and good cold, clear spring water. We had the "flying jenny" led by a horse or mule, that went around and round. We had lemon-ade, chewing gum, candy and cigars, the county seat band, and a date speeches. We kids were in a quarter, and did we have a good time with that quarter!

At noon we grouped off in small groups and spread our feast out on tablecloths on the ground, with anything you could think of that was good to eat. Everybody was some, and was feasted on fried chicken pie, cake, peach cobbler and apple pie. After the meal, our fathers would spread down a quilt and the smaller kids to take their noon naps while they (our fathers, God bless them) shooed the away with a tree branch and talked about how to make salt raisins, pound cakes, or raising kids. Our daddies would listen to the physicians tell them how they would die if the country if elected (the workers were not interested because they not vote then). The young men their girls and gave them a ride the "flying jenny," bought them a glass of lemonade, went to see the ball game between our neighborhood team and some visiting team, and if we had a dime left would go in a "Punch and Judy" side show, went home safe and sound, and to look forward to another picnic. We of the South did not fireworks on the Fourth of July; had patriotic exercises if any.

But we generally got a pack of firecrackers and a Roman candle in our stocking on Christmas, Santa Claus, and nobody got any. These days it took all day to go ten miles. Today we can go that far in thirty minutes. These days we had "Punch and Judy" to entertain us. Today we go into picture theatres and see actors and hear their voices that were in Hollywood. Those days we had no telephones, but today we can talk to anyone anywhere around the world just as if they were before us. And by turning a dial on our radio we can hear any kind of music all over the world, and we take an airplane around the world in less time now than we could see the wife's kinfolks in any county. Those days our accidental deaths were negligible; today they run into the thousands annually. Those days, is old-fashionedism vs. modernism.

Course I ain't old-fashioned, would be? Sure we are a wise

News from Pakan

Rev. J. S. Bradac and son, Godfrey, and daughters, Olga and Bessie, of Whiting, Ind., and John Slavik, of Downers Grove, Ill., arrived Tuesday evening to visit relatives and friends.

Johnny Cadra had his tonsils removed last Monday. He is recovering nicely.

Paul Flak, Jr., returned Sunday from Excelsior Springs, Mo., after taking treatment for several weeks.

John Cadra and son, Godfrey, transacted business in Wheeler Wednesday.

Mrs. Ida E. Stauffer of Buffalo, Kan., and Mrs. R. D. Harrington of Kendall, Kan., visited in the J. W. and Paul Stauffer homes from Wednesday until Monday.

Rev. J. S. Bradac and son, Godfrey, and Mike Meriel were in Oklahoma City Friday. They were accompanied back by the latter's daughter, Miss Anna, who plans to spend the summer with her parents.

Misses Lorene Ayers and Mary Pearl Johnson, Leslie Ayers and Lloyd Ray Johnson of Canadian returned to their home Saturday after visiting a week with Mr. and Mrs. Caleb Smith and other friends here.

Misses Elizabeth Flak and Olga Hrcnciar of Amarillo arrived Saturday to visit their parents. They returned to Amarillo Monday.

Mr. and Mrs. J. W. Stauffer and daughters, accompanied by Mrs. Ida E. Stauffer and Mrs. R. D. Harrington, attended church in Shamrock Sunday night.

Mr. and Mrs. Harris Johnson and the former's brother, George, arrived Saturday from Denver, Colo., to visit relatives and friends. They left Monday morning.

Godfrey Cadra left Monday morning for A. & M. College to attend the 4-H short course.

Most everyone from this community attended the funeral at Lela for Gene Wells.

John Meriel and daughters of McLean attended services at Pakan Sunday.

Rev. J. S. Bradac of Whiting, Ind., preached Sunday.

Miss Grace Stauffer of Canyon visited home folks here from Saturday until Tuesday.

Mr. and Mrs. J. W. Stauffer and daughter, May Ruth; Mrs. Ida E. Stauffer and Mrs. R. D. Harrington visited in Palo Duro Canyon and other points of interest, last week. They also visited Miss Grace Stauffer, who is attending school in Canyon.

A bunch of guys. We are having a whale of a good time. We're going places and seeing things and killing each other by the thousands. But who cares? Bring up some more reinforcements, folks, and let's go on with the battle, or is it a show?

Mr. and Mrs. Douglas Wilson and children of Pampa visited in McLean Sunday.

E. J. Windom and family left last Thursday for a trip to Colorado.

POLITICAL ANNOUNCEMENTS

Subject to the action of the Democratic Primary, July 23, 1938:

For Commissioner, Precinct 4: E. C. CREWS, D. A. DAVIS, C. M. CARPENTER, R. M. (Mode) GIBSON, L. L. PALMER, W. T. WILSON

For Justice of the Peace, Precinct 5: J. H. BODINE, TOLL MOORE

For Constable, Precinct 5: C. G. NICHOLSON, GEO. W. BOURLAND

For County Clerk: J. V. NEW, CHARLIE THUT

For County Treasurer: D. R. HENRY, W. E. JAMES, JOHN M. TATE

For Tax Assessor-Collector: F. E. LEECH

For Sheriff: J. C. (Cal) ROSE, BEN LOCKHART, H. C. (Bud) COTTRELL, ART HURST, CHARLIE MAISEL, LON L. BLANSCET, GRAY H. KLYE

For County School Superintendent: W. B. WEATHERED

For County Judge: SHERMAN WHITE

For District Clerk: MIRIAM WILSON

For District Attorney: C. E. CARY, W. R. FRAZEE, CLIFFORD BRALY

For District Judge: W. R. EWING, R. H. FORRESTER

For Representative, 122nd District: EUGENE WORLEY

CARD OF THANKS

We want to express our sincere thanks to our friends for their acts of kindness and words of sympathy on the loss of our dear son. May God bless each of you. MR. AND MRS. JIM WELLS.

Miss Peggy Greer visited friends at Kingfisher, Okla., over the week end.

T. H. Andrews was in Pampa last Thursday.

Born, June 28, to Mr. and Mrs. Wheeler Carter at Pampa, an 8 pound girl named Barbara Ruth. Mrs. Carter will be remembered as Miss Laverne Pettit of McLean.

Mrs. R. P. Bond and children of Crowell visited their parents and grandparents, Mr. and Mrs. B. C. Franklin, this week.

Mr. and Mrs. Charles B. Watson and little daughter of Lubbock visited the former's mother, Mrs. May Watson, Sunday night.

Meadames H. M. Roth, Jack and Mabel Foley represented the Eastside Home Demonstration Club at a council meeting at Pampa recently.

John Tinnin and family of Pampa visited his parents, Mr. and Mrs. L. S. Tinnin, Sunday.

Edna and Jack Schmidt of Oklahoma City visited their aunt, Mrs. T. A. Landers, and family the Fourth.

Master Billy Boston returned Saturday from a visit with his grandparents at Whitesboro.

Dr. Lear M. Jones and family of Lubbock visited relatives here over the week end.

Mr. and Mrs. C. C. Bender and little daughter of Oklahoma City visited relatives here this week.

Mr. and Mrs. Jack Gray and children of Dumas visited relatives here the first of the week.

Mrs. Luther Petty attended a home demonstration reporters' school at Pampa last week.

Mrs. Alma Mathews and son, Robert; Mrs. Effie Maynard and daughter, Miss Izzy; and Charlie Smith of Atlanta, Ga., visited the J. S. Howard family last week.

Mrs. Geo. Loyd of Friona and Mrs. A. Lee of Borger visited their granddaughter and niece, Mrs. J. C. Corbin, Thursday.

Clyde Ware of Grady, N. M. and Earl Ware of Friona visited their daughter and niece, Mrs. J. C. Corbin, one day last week.

Alonzo Henderson, former McLean resident, now of Springdale, Calif., underwent an operation on June 27 for a ruptured appendix.

Misses Ermadel and Beth Eynone Floyd visited relatives at Lubbock last week and part of this week.

Roy B. Morgan and W. N. Heit of the Shamrock shelterbelt office were in McLean Saturday.

Mr. and Mrs. Clifford Allison and children and the lady's mother, Mrs. Smith, visited in Clarendon Sunday.

Mrs. W. L. Campbell and children have moved to Pampa, where, Dr. Campbell has been for some time.

Miss Juanita Carpenter of Lubbock visited her parents, Mr. and Mrs. D. C. Carpenter, over the week end.

Alva Connell of Shamrock was in McLean Saturday.

The following were holiday visitors in the Luther Petty home: Francis Petty of Amarillo, Mr. and Mrs. Horace M. Petty of Vernon, Mr. and Mrs. Roy Petty, Mrs. Joe Gordjelick and baby of White Deer, Ernest and Vesta Grace James of Alanreed.

Mr. and Mrs. Walter Smith and children of Clarendon visited the former's mother, Mrs. Ed D. Smith, and other relatives here over the week end.

The News editor acknowledges with thanks an invitation to attend the press banquet of the annual farmers short course at College Station July 14.

Little Misses Joyce Miller and Carmen Tedder of Los Angeles, Calif., are visiting their aunt, Mrs. Troy Hinton, and other relatives here.

Mr. and Mrs. Fred O. Vaughn, Mr. and Mrs. Henry Loter and son, of Pampa visited the ladies' mother, Mrs. Lula Young, over the week end.

ERNEST O. THOMPSON FOR GOVERNOR

As Mayor of Amarillo: He cut the Utility, Gas, Water, Light and Telephone Rates. He also cut the City Tax Rate 25%.

As Railroad Commissioner: He stabilized the Oil and Gas Industry, Lowered the Freight Rates to all the drouth area, benefitting Ranchman, Farmer and Business Man. These are but a very few of the many achievements of Ernest O. Thompson as a public servant.

Now, why not let this man with a sound record of public service carry on this good work and do for the State of Texas what he did for Amarillo as its Mayor, and our people as Railroad Commissioner? Why not let this man of idomitable courage stabilize and make profitable the Farm and Ranch as he did the Oil and Gas Industry?

### Stanton's Resignation

President Lincoln was greatly distressed over Edwin M. Stanton's resignation as secretary of war. We quote from Lincoln, by Rothschild: Upon the announcement that Lee was about to surrender, Edwin M. Stanton tendered his resignation. A letter which he handed to the President took the ground that this event would virtually end the war. Mr. Lincoln is reported to have been greatly moved. Tearing the resignation into pieces and throwing his arms about the secretary...

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging headache, persistent headache, attacks of dizziness, getting up nights, swelling, pain under the eyes—a feeling of nervous anxiety and loss of pep and strength. (Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.)

There should be no doubt that prompt treatment is wiser than neglect. Doan's Pills, Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people in every country over. Ask your neighbor!

### CHAPTER XIII—Continued

Ned nodded, admitting: "They were darned good. I remember sitting up late to finish one. But I've never seen any of them since, Dad. Have you?"

"Not one." The old man's eyes grew vaguely troubled. "I watched their publication—it was an assignment, I believe. She seemed happy; but her letter must have been two weeks old before I saw it. I was down with pneumonia just then, and all my personal mail was laid aside until I could attend to myself. She wrote from a boarding house, I think, not a hotel. They were leaving in a day or two, as soon as Don attended to some business and the city got dug out of a blizzard."

Ned raised his head, quickly, as if reminded of something.

"You say this was within three years? Are you absolutely sure, Dad?"

"Sure? Am I likely to forget that wretched sickness? It was three years next month when the letter came, Ned; and since then nothing but silence. Such a thing never happened before. I didn't answer Nora's letters, but she's always written. Sometimes regularly, sometimes with several months between. I tried to persuade myself that their plans changed suddenly, especially when Don's articles failed to appear. I thought they might have gone to some out-of-the-way country and stayed there. I suppose I was just trying to 'kid myself,' as the boys say. I even tried to believe that since they were apparently successful she had forgotten me—given me up as a bad job—but that's not—Nora. I've been very unhappy about her, Ned. Very troubled. And tonight something that Martha said has made me more so."

James glanced up, conscious that his son was inattentive. Ned said, thoughtfully: "Do you remember a terrible catastrophe in Chicago, when the roof of a theater collapsed under a weight of snow?"

His father was suddenly erect.

"You don't mean—?"

"I don't mean that anything happened to Nora," broke in Ned. "The thing occurred, as I remember now, when you were too sick to see the papers. I only glanced at the headlines myself. I loathe such details. But Corinne revels in 'em, you know. She even read part of the story aloud at the table—how a fellow who was in the audience and got out safely, went back into the domed place and spent hours under a collapsing balcony trying to rescue a child who was pinned beneath the wreckage. It was very luridly told. The reporter claimed to have been an eye witness. Said the man refused to quit even when warned. He saved the child, I believe, but failed to get out himself. And his name was Mason. He was caught under the timbers."

"Killed?"

"No; but I judged from what the paper said that he'd better have been. It was Don—"

James turned on his son angrily.

"Why wasn't I told of this?"

Then, his voice softening: "But Mason's a common enough name, Ned. Why should you think it was Nora's husband?"

"Only because the paper said Dan Mason—not Don, you understand, so near that a misprint might have been possible. I didn't speak of it because you were so sick just then. I couldn't worry you, Dad; I see now that I should have investigated the matter myself. My only excuse is that it was the very thing when Junior got into that trap at college, and Corinne was well, she felt it was all my fault. She thought I was too strict—didn't understand the boy at all—said he'd check because I didn't give him enough allowance and—"

"I was snowed under! I went through things I never told you, and never will. My home very nearly went on the rocks, Dad; though that's over now, thank God! But it's everything else out of my mind at the time—the awful worry of it, and later, when I remembered, I supposed of course that if Nora were in real want she would have appealed to you."

"Oh, no she wouldn't!" The bitterness in James Lambert's voice was toward himself. "I lost my temper one day and warned her not to come. And Nora's got pluck. Always had. And character. Did I tell you . . ."

It was then that Ned heard the story of the courageous little Nora, sitting for hours beside the body of her mother, waiting for the father who had never seen to take her home. "She was plainly touched."

"Yes, she's got character," he admitted. "She showed it when she set up a fortune (or thought she did) because she loved that fellow who knew he needed her. There've been times these last few years, when I've felt responsible for the whole racket. If Don Mason

hadn't knocked me down that day in the office, the break between you and Leonora might never have come about."

James, staring into the fire, said nothing because there was no denying this aspect of the case; and after a silence Ned went on:

"You see, I thought that story he told me was just bunk. I supposed he was trying to pull the wool over my eyes; and I as much as told him he lied. I couldn't imagine (can't now, for that matter) how any sane man could be so easy as to hand over a roll of bills to a girl he'd never seen before, without making some sort of investigation. But I suppose it takes all kinds of people to make a world; and my own kids, now they're old enough to think about it, tell me I haven't any imagination. And if

were natives of the place. They said that Nora was trying to support her family. That she played the organ at church, and gave music lessons, and made cakes to sell during the summer season; and—"

Ned hesitated, as if uncertain whether to finish, "and—well they said, Father, that she was living in an old barn or garage or something, down near the water."

James stared at him.

"My Nora living in a barn?"

"That's what Mrs. Whitney said; but she's one who makes the most of a good story. Dad, so don't let that worry you. What riled me was that she told Corinne she thought we ought to do something about it. She implied, as politely as possible, that we'd treated Nora outrageously. Corinne was so mad she didn't have sense enough to ask the name of the town; but I'll call Mrs. Whitney on the telephone and find out. Even Corinne thinks that something should be done—that is" (a cynical smile curved Ned's lips) "she's afraid there'll be talk unless we do it!"

For a moment or two James Lambert did not respond. Then he arose and unlocked a beautiful cabinet of Chinese lacquer. As the doors swung open Ned saw that it contained letters—neat piles of letters held together with elastic bands, and a somewhat surprising pair of silver slippers, tarnished now, from being laid away.

"Nora's!" he thought; and then his father turned, extending the postal written so long ago.

"I got this in the early summer, three years back. I guess she was poking a little fun at me. I'd told her, you see, that to survive a house must be founded on a rock. She says:

"Safe upon the solid rock the ugly houses stand; Come and see my shining palace built upon the sand!"

"Except for a hint the first time they went to Capri, it's the nearest thing to an invitation she ever gave me. I wish—" The old man paused, then finished thoughtfully, in all reverence: "I wish—to God—I'd gone."

Ned was studying the postal—its quotation — instructions, and the small red map.

"A shining palace," he observed. "That's not the idea Mrs. Whitney gathered—not at all. Corinne said that she appeared quite horrified. Well, Dad, these directions are plain enough. I'll go to Maine tomorrow."

But James, who had resumed his seat before the fire, shook his head.

"No, son, I'm going myself. I dare say I'm the stubborn old man that Martha showed me this evening; but I'm not too stubborn to ask forgiveness of the only daughter I ever had, nor too old to take a journey of a few hours. If they turn me out—and I can't imagine Nora turning her father out, Ned—I can come away again; but I want to see the situation with my own eyes."

He arose, moving briskly, alertly (as if, Ned told himself, there were something to move for!), rummaged in his desk for a few minutes, and then said: "I thought there was a timetable around here, but evidently Martha's been cleaning house. Will you call up for me, Ned, and engage a Pullman chair on the first train? I want to get off early. And before you leave ask John to have the car here at the proper time."

"That won't be necessary, Dad. I'll run you down to the station myself. I'd like to."

"That'll be fine!" ("How bright

There are many ways in which the tongue is misused—for example, in licking stamps and envelope flaps, moistening the thumb or forefinger before dealing cards, sorting papers, turning the leaves of books. Licking the thumb or finger is a bad practice, and should be abandoned for two good reasons—out of respect for the tongue and out of consideration for the next person, says London Tit-Bits Magazine.

Just think it out. Stamps when bought are pushed across a counter of very doubtful cleanliness; they are carried in a waistcoat pocket, in a purse or handbag, with all the usual conglomeration, be it clean or dirty. Stamps are lined with gum—gum which picks up dust and the germs which may be part and parcel of the dust—and the tongue that licks the stamps collects this miscellany.

Envelope flaps may be less dirty than stamps, but they are likely to be dusty. A student recently collected samples of dust from ordinarily clean surroundings—from tables, window ledges, coats and so on. The samples were sown on suitable growing media, incubated, and examined under a microscope; sev-

eral varieties of dangerous disease germs were found, despite the fact that none of the objects examined would have been considered dirty. It is more than likely that envelopes might collect similar samples of dust.

The habit of moistening the thumb again and again when touching cards or papers may cause germs to be transferred from one person's mouth to that of another.

Even the cleanest mouth is far from germless; the average mouth and throat form a kind of hot-bed for microbes; to the activity of which the owner may be immune from long contact and an acquired tolerance. But when such germs are transferred to another person they are likely to attack with all possible virulence.

Newton, Great Mathematician

One of the world's greatest mathematicians left school at an early age (fifteen) to work on a farm, but didn't stay there. This was Sir Isaac Newton. Finding he was useless as a farmer, his parents sent him to college, where he developed some of his most famous theories.

By LEMUEL F. PARTON

NEW YORK. — When Charles Maurras came out of the Sante prison last year, he was met by a committee of distinguished Frenchmen, who nominated him for the Nobel peace prize and said they would make him a member of the Academy. They have just fulfilled the latter promise, and M. Maurras becomes an immortal by a majority of one vote.

He had spent 250 days in jail on a charge of having urged the assassination of 140 members of the chamber of deputies who had voted for sanctions against Italy; also on a charge of inciting the French people to "sharpen up their kitchen knives" for use against certain proscribed politicians.

In the 250 days he had written five books, swelling his vast collection of books on biography, politics, economics, literary criticism, history and what not to probably well over 100. I talked to him once in the Cafe des Lilas, a fragile, deaf, bearded old man with a contentious, blazing mind which makes one think of a sizzling battery running an automobile without any engine.

In 1923, he was in jail for four months in a somewhat anti-climatic adventure for one who was to be regarded as an immortal. Three members of the chamber of deputies were kidnapped and fed castor oil—Mussolini is said to have got his broad prospectus of Fascism from Maurras—and the bald head of one of them was painted with violet ink and glue.

In 1925, M. Maurras was sentenced to two years in prison, the charge being that he had threatened to kill the minister of the interior. Among the causes of his incarceration in October, 1936, was conspiracy evidence in the assault on Premier Leon Blum, in which he was severely beaten, while attending the funeral of a friend.

His books and virulent editorials in the Royalist, paper, translated into many languages, are the fount of Fascist doctrine all over the world. His hatred of democracy is savage and vitriolic. He is witty, learned, brilliant and he has the most exhorting and corrosive vocabulary in France.

A FOOTNOTE to the main text of the world discussion on Japan bombing babies is the interchange between Avery Brundage, chairman of the American Olympic committee, and William J. Bingham (Bill the Plugger), Harvard athletic director. Mr. Brundage says it has nothing to do with sports, and Mr. Bingham says it has—with sportsmanship, at any rate—and he withdraws from the committee and the 1940 games.

The sports writers are becoming almost metaphysical in weighing and appraising the moral values of the argument. Bill the Plugger says, in effect, that he won't play with baby-killers.

He became Bill the Plugger by losing 19 races at Harvard and winning the twentieth. Thereafter, he was Harvard's crack miler.

He started out plugging at the age of fourteen, leaving school to work in a mill and help support his five younger brothers and sisters. He saved \$30, went to Exeter and worked his way through Exeter and Harvard.

He came out of the war a captain with appropriate decorations, did a turn in the banking business in Texas and became Harvard graduate supervisor and track coach in 1921. On the side, he is president of a concern which imports rubber goods.

IF GERARD B. LAMBERT builds a house, they're likely to find a center-board and a skys' yard on it. It's hard to see how he can get his mind off his yachting, but, at any rate, he becomes special adviser to Stuart McDonald, federal housing administrator.

The gargles and shaves of the multitudes built his chemical fortune at St. Louis. He was one of the original backers of Lindbergh and the originators of great advertising slogans.

Author of a spirited "Defense of Babbitts" in the American Mercury, commander of the Eastern Yacht club of Marblehead, Mass., he maintains a valhalla for gallant old yachts.

## Midsummer Fashions For Tea and Tennis

TWO of the most important things for midsummer are: a sleeveless dress of the most casual sort for sports and daytime, and a cool dress with cape or jacket, to wear on the street and for afternoons. The two here suggested represent the very best of these types. Make them yourself,

in fabrics and colors of your own choosing, and rejoice in the knowledge that you have some very individual new clothes, and got them very economically! Each pattern includes a detailed sew chart.

**Sleeveless Sports Frock.**

Even if you never take a tennis racquet in your hand, you'll enjoy having this cool, classic dress for summer daytimes. In pique, linen, seersucker or gingham, it will look and feel so cool and fresh! Perfectly straight and plain, it has darts at the waistline to make it fit with becoming slowness. This is a diagram pattern—practically nothing to make! In just a few hours you'll have it all ready to button on at your shoulders.

**Afternoon Cape Ensemble.**

With or without the cape, this dress with lifted waistline to flatten the midriff, is a charming, slenderizing style. The cape is a darling—puffed high at the shoulders, and made with arm slits so that it won't be always slipping off your shoulders. Make this design in georgette, chiffon, linen, or in a pretty combination of plain or printed silk, and you'll have a very distinguished, expensive-looking ensemble.

**The Patterns.**

Pattern No. 1544 is designed for sizes 14, 16, 18, 20; 40 and 42. Size 16 requires 3 1/2 yards of 39 inch material for the dress; 2 1/4 for the cape; to line cape, 2 1/4 yards.

Pattern No. 1546 is designed for sizes 12, 14, 16, 18, 20; 40 and 42. Size 14 requires 3 yards of 35 inch material. 3 1/2 yards bias binding to trim as pictured.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

## How Women in Their 40's Can Attract Men

Here's good advice for a woman during her change (usually from 35 to 50), who fears she'll lose her appeal to men, who worries about hot flashes, loss of pep, dizzy spells, upset nerves and moody spells.

Get more fresh air, 8 hrs. sleep and if you need a good general system tonic take Lydia E. Pinkham's Vegetable Compound, made especially for women. It helps Nature build up physical resistance, thus helps give more vitality to enjoy life and assist calming jittery nerves and disturbing symptoms that often accompany change of life. WELL WORTH TRYING!

editor personally, at the office at 210
Main Street, McLean, Texas.

The wise man knows what
not to say—and does not say
it.

The Fourth of July celebra-
tion was pleasing beyond the
most optimistic. The chamber
of commerce and business men
may well be congratulated for
the pleasing entertainment offer-
ed.

The promised trailer boom
failed because people do not
want to be slowed up while
traveling. There is no money
to be made in appealing to any
but those of us who are in a
hurry to get somewhere.

Maybe the secret of one man's
apparent success in running
for a state office is that he lets
the people pay his campaign
expenses. They say that one
value what he pays for more
than if it is given free.

Mutual assessment insurance
is in many cases just "gold
brick" insurance, and better
laws are needed in Texas to
protect the policy holders. There
are a dozen ways for such
companies to cheat their clients
and stay entirely within the
law. Insurance should be bought
of a local agent who is known
for his fairness to his custom-
ers, and who represents
standard companies whose rep-
utation is untarnished.

One candidate for state office
in asking for free space, says
that he is unable financially to
buy space, but he thinks that
after reading his circular the
editor will agree that he will
be doing the state a great pub-
lic service to give the informa-
tion contained in the circular
as much space editorially and
otherwise as he can. It is
funny how the state has been
able to get along so many years
with all the men who are ready
to save it from something of
other on the outside. It is our
opinion that most candidates
are in the race to better them-
selves, and if at the same time
they can render acceptable ser-
vice to the state, well and good,
but it is a secondary matter
with most.

Mr. and Mrs. Henry Benson and
children of Shamrock visited the
lady's parents, Mr. and Mrs. N. A.
Greer, Sunday.

George Faulkner of Childress vis-
ited his daughter, Mrs. E. C. Crews,
this week.

Joe Hadden of Lubbock was a week
end guest of Miss Nora Lee Morgan.

Mr. and Mrs. A. B. Christian were
in Shamrock Friday.

C. J. Rose of Pampa was in Mc-
Lean Monday.

Miss Samantha Stanley of Pampa
visited in McLean Monday.

S. R. Jones of Erick, Okla., visited
home folks here over the week end.

Mr. and Mrs. F. E. Leech of
Pampa were in McLean Monday.

Mr. and Mrs. Charlie Murphree of
Lefors were in McLean Monday.

Local and Personal

Mr. and Mrs. T. A. Landers,
Misses Fern and Marie Landers, ac-
companied by Edna and Jack Schmitt
of Oklahoma City, V. B. Reager and
family of Amarillo, took supper in
the Palo Duro Canyon Monday.

Rev. and Mrs. C. E. Hunt and
daughter, Miss Ozella, visited their
daughter and sister, Mrs. Glen
Thompson, at Morton over the week
end.

Mr. and Mrs. Sam Dougherty and
children of Wheeler visited the lady's
parents, Mr. and Mrs. D. E. Johnson,
Monday.

Mr. and Mrs. W. F. Harrell of
Badinger visited the lady's father,
C. A. Cash, and other relatives here
this week.

Mr. and Mrs. W. M. Meador and
children of California visited the
lady's parents, Mr. and Mrs. B. C.
Franklin, over the week end.

Judge and Mrs. Sherman White and
son of Pampa visited in McLean
Saturday.

O. N. Elliott and family and Mrs.
Tincey Green of Fort Worth visited
relatives here over the week end.

Miss Laura Lee Howard of Amarillo
visited home folks here over the week
end.

Mr. and Mrs. Scott Johnston and
daughter, Miss Shirley, have returned
from a visit at Arlington.

Fred Staggs and son went to
Lamesa Sunday after Mrs. Staggs,
who had been visiting there.

Mr. and Mrs. J. C. Payne and
daughter, Marquetta, of Lefors vis-
ited in McLean Saturday.

Charlie Crews of Childress visited
his brother, E. C. Crews, this week.

County Attorney Joe Gordon of
Pampa was in McLean Monday.

Miss Shirley Johnston is visiting
her sister, Mrs. Jack Gray, at Dumas.

Arlie Carpenter of Lefors was in
McLean Monday.

Roy Sherrod of Alanreed was in
McLean Saturday.

Mr. and Mrs. W. A. Glass of Alan-
reed were in McLean Friday.

Miss Marie Landers of Miami spent
the Fourth with home folks here.

Mrs. Chas. E. Cooke and Mrs. E. J.
Lander were in Pampa Friday.

Mr. and Mrs. Byrd Guill visited
relatives at Abra Monday.

Mr. and Mrs. Bill Webb of Mobeetie
were in McLean Friday.

Mrs. Frank Crisp and daughters of
Alanreed were in McLean Saturday.

R. M. Gibson of Alanreed was in
McLean Saturday.

Mrs. W. F. Cobbs of Alanreed was
in McLean Saturday.

W. H. Craig of Alanreed was in
McLean Saturday.

Born, June 30, to Mr. and Mrs.
Norman Johnston, a boy.

Lloyd Hunt has returned from a
visit to California.

Mrs. C. C. Mead of Miami visited
her parents here Tuesday.

Mr. and Mrs. Walter Cash of
Berger visited in McLean Sunday.

Mr. and Mrs. J. W. Burrows vis-
ited at Erick, Okla., Monday.

Mr. and Mrs. B. E. Glass of
Alanreed were in McLean Monday.

Mr. and Mrs. Buddy Watkins of
Shamrock were in McLean Monday.

John Fulton of Lefors was in Mc-
Lean Monday.

Mr. and Mrs. W. W. Whitsett of
Alanreed were in McLean Monday.

Mr. and Mrs. Lee Newman were in
Pampa Friday night.

R. L. Allison of Pampa was in
McLean Thursday.

Mr. and Mrs. A. L. Morgan were
in Shamrock Saturday.

Mr. and Mrs. M. H. Vander Graaf
were in Pampa Friday.

Jack Back of Pampa was in Mc-
Lean Monday.

News from Liberty

Sunday school at 10:30 a. m.
Preaching each Sunday night at
8:30.

Mr. and Mrs. H. N. Brock and
children of Chillicothe visited the
former's sister, Mrs. Olen Davis, and
family Sunday night.

Mr. and Mrs. H. L. Dorsey visited
in the T. H. Hardin home Sunday.

Mr. and Mrs. Ed Llewellyn of
Burkburnett spent the week end with
the lady's mother, Mrs. Kate Stokes,
and family.

Miss Doris Myatt of Amarillo came
Saturday to spend a few days with
her parents, Mr. and Mrs. C. A.
Myatt, and family.

Mrs. Floyd Lively entertained Tues-
day afternoon at a party honoring
the 10th birthday of her daughter,
Eulamae. Those present were: Norma
Lee, Bobby Wayne and Keith Myatt,
Kenneth and Dorothy Sue Davis,
Virgil Simpson, Eulema, Minnie Marie
and Margaret Sue Lively, Mrs. Olen
Davis, the hostess and honoree.

A large crowd enjoyed a birthday
dinner in the C. A. Myatt home Sun-
day, honoring the 12th birthday of
Norma Lee Myatt.

Mrs. Leo Irvin and son of Berger,
Mr. and Mrs. Ed Llewellyn of Burk-
burnett, Mr. and Mrs. Ira Sullivan
and son, Mr. and Mrs. Travis Stokes
of McLean were guests in the Stokes
home Sunday.

Mr. and Mrs. Floyd Lively and
daughters, Minnie and Sue, spent
Sunday with the lady's parents, Mr.
and Mrs. H. M. Roth.

Joe Hadden of Lubbock visited in
the A. L. Morgan home over the week
end.

Misses Audie and Imogene Myatt
and little Johnnie Batson of McLean
visited in the Myatt home Wednes-
day.

Miss Elizabeth Bateman, who has
been visiting her sister, Mrs. A. L.
Morgan, left last week for Lovington,
N. M., where she will work in a
hospital.

Mr. and Mrs. Ed Llewellyn and
Mrs. Kate Stokes made a trip to
Hereford Sunday afternoon.

Dr. and Mrs. W. L. Campbell and
children of Pampa visited in McLean
Monday.

The Yard Beautiful

By R. O. Monosmith, Landscape
Architect, Oklahoma A. & M.

HIT OF THE MONTH

Popular music has its hit of the
week. Likewise, our gardens have
their shrub hits of the month.

The summer flowering shrubs have
seidom been better than they are
now, with their luxuriant foliage and
numerous highly colored blossoms. A
number of different kinds are in
flower, among which we would place
as outstanding the red yucca, lilac
chaste tree, or lavender bush, crepe
myrtle, flowering willow, althea, jas-
minum humile, shrubby St. John's
Wort, autumn salvia (salvia greggii)
and tamarix hispida.

The red yucca is not really a
yucca, but a hesperioe—the foliage
and type of growth somewhat re-
sembling that of yucca. It was in-
troduced several years ago by a Texas
nurseryman and is just now coming
into prominent notice. Blooming from
May to November on stems 3 to 6
feet tall, it adds a touch of "pink-
o-red" (as described by Mr. Garee
of Noble, Okla.) to the border or
rockery that is hard to beat. It is
easy to grow and so far has been
entirely hardy in Oklahoma.

Lilac chaste tree is a large shrub
that flowers from early June until
frost. It produces long spikes of
blue or pink flowers in profusion.
Its leaves are shaped like the hand
with outspread fingers and smell like
lavender. This plant is drought-re-
sistant and enjoys a sunny exposure.

A friend called recently, saying, "I
secured several plants last winter
that are labeled Chilopsis linearis.
They are full of attractive lavender-
colored flowers now and I'd like to
know what their common name is
so I can talk about them with the
neighbors." This plant is the flower-

ing willow and one of our finest
large shrubs.
Althea or rose of sharon is another
tall shrub that flowers all summer.
The flowers resemble hollyhocks and
are both double and single. The
single type makes a better show in
dry years than the doubles because
the double flowers tend to shed dur-
ing droughts. A favorite color is
shell pink, but white, magenta and
lavender are often seen.

Tamarix hispida, a fine textured,
blue-gray summer bloomer, and crepe
myrtle make an excellent combination
for the tall border.

But enough of the large plants—
we must not overlook the small ones.
Autumn salvia has been discussed
before in this column. St. John's
Wort is a small shrub producing
golden yellow flowers that are waxy
and rich. Its stamens are also yellow
and very numerous. They make
the flowers appear quite foamy. You
will like these two plants.

AMERICAN BOY MAGAZINE
COMPANION TO THOUSANDS
Teachers, librarians, parents, lead-
ers of boys, themselves enthusias-
tically recommend THE AMERICAN
BOY Magazine for all boys over 12.
"It's more like a companion than
a magazine," remarked one high school
student. "It gives advice and enter-
tainment on every subject in which
a young fellow is interested. I read
our school basketball team solely be-
cause of playing tips I read in THE
AMERICAN BOY."
Trained writers and artists, famous
coaches and athletes, expert sci-
entists, and men successful in
business and industry join with an
experienced staff to produce in THE
AMERICAN BOY, just the sort of
stories and articles boys like best.
THE AMERICAN BOY sells in
newsstands at 15c a copy. Subscrip-
tion prices are \$1.50 for one year,
\$3.00 for three years. To subscribe
simply send your name address and
remittance direct to THE AMERICAN
BOY, 7430 Second Blvd., Des-
Mich.

## HEADLINES FROM THE LIVES OF PEOPLE LIKE YOURSELF!

"Vanishing Corpses"  
By FLOYD GIBBONS  
Famous Headline Hunter

HELLO, EVERYBODY:

You know, boys and girls, I've often noticed, in these adventure stories, how in a good many cases, one mishap leads to another. That's probably because the first thing that goes wrong so upsets the fellow it happens to, that—well—he just loses his head and plunges right smack into another danger.

It's bad business when a man loses his head in the face of danger. But at the same time it has produced a lot of red-hot double-barreled and triple-barreled adventures, and the story I'm going to tell you today is a mighty good example.

Paul Moore of Chicago is today's distinguished adventurer. The events this yarn deals with happened to him and two other lads, in September, 1923.

At that time Paul was just a kid of twelve, living in Grand Rapids, Mich. Paul had been given a .22 caliber rifle for selling perfume, and one Saturday he and his two friends, Art Kohles and Archie Eastman, started out on a hunting trip.

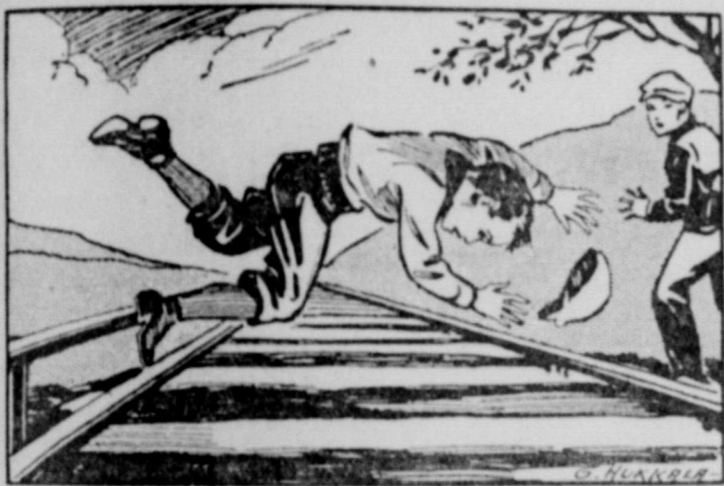

Art and Archie had air rifles. Paul had no cartridges for his .22, but Art said he knew where he could get some. They started out early, taking their lunches with them, and after walking a couple hours, came to a patch of woods four miles from the outskirts of town.

### Art Pounded the Cartridge.

There didn't seem to be any game in sight, so they sat down on the bank of a small creek to eat their lunches. Paul had put down his gun and was just starting to untie the package that contained his grub when Art spoke up, saying there was a wild canary on the other side of the creek.

"Let's have your gun," whispered Art. "I can't get it with mine." Paul passed over his rifle. Art had the cartridges in his own pocket. He took one out and tried to put it in the chamber. It wouldn't fit.

Young Art didn't know that the cartridges he had brought from home were the wrong caliber. He thought this one wouldn't go into the

Archie Pitched Forward on His Face.

chamber because the gun was new. He tried to force it in with his fingers and then, in his haste to get a shot at the bird before it flew away, he picked up a stone that happened to be lying at his feet.

Art hit the bullet two or three times with that stone. And then, suddenly, there was a loud crack. The bullet exploded. Art dropped the gun, crying, "I'm shot!" Then he fell to the ground and lay still.

The other two kids stood speechless. Art had killed himself! Paul had an uncle who lived about a mile away on the other side of the woods, and the first thought that popped into his mind was to run there and get help.

He told Archie to stay behind with Art, but Archie insisted on going along with him. They started off on a short cut through the woods, running as fast as their legs would carry them.

On the other side of the woods they came to the tracks of the interurban line that runs out of Grand Rapids. There was a third rail along the right of way, set up a foot or so above the ground.

Paul knew about it. He was well up ahead of Archie, and he went over it with a flying leap. But he didn't think to warn Archie about that electrified rail. His mind was too full of the thought of Art lying back there by the creek bank.

### Archie Stepped on Third Rail.

The next thing Paul knew, Archie was stepping on that rail. He just lit on it for an instant. Then he pitched forward on his face. And he, too, lay still!

Archie's body was lying between the two tracks. "I took one look at him," says Paul, "and decided he was dead. Then I turned and ran as if the devil was after me."

It was a long way to his uncle's house, and by that time Paul was all but out of breath. But he didn't dare stop running. He stumbled on, at last he reached the house and burst in, panting, "Uncle Abe! Quick! Art's killed himself with my gun and Archie's been electrocuted!"

Everyone in the house, including two old ladies who were visiting Paul's aunt, dropped whatever they were doing and started for the tracks. They hurried through brush and corn fields to the spot where Archie had fallen—and when they arrived, there was no sign of Archie.

Uncle Abe turned on Paul. "Young man," he said sternly, "are you sure this isn't a joke of some kind?" But it was no joke to Paul. He thought of a passing interurban had stopped to pick Archie up. He crossed the track and started through the woods toward the stream where they had left Art.

### Both Bodies Had Disappeared.

The women turned back, but Uncle Abe followed along after him. They ran through the woods in breathless haste—tore up to the spot where Art had shot himself—and then Paul stopped dead in his tracks. Art was gone, too!

It was too much for Paul. His uncle was looking at him suspiciously, and he hardly knew what to say.

How could Paul ask him to believe that two dead boys had both disappeared, one right after the other? He stood there silent a minute, and then he heard sounds of splashing water, and of voices coming from some point down the stream. Together they walked toward those voices and there they found—Art and Archie.

It was all explained easily enough. Archie had been knocked out by the shock from the third rail. He had a big bump on his head, but that was all the damage that had been done to him.

When he came to, he went back to where Art had fallen and found him bathing his leg, which had been grazed on the calf by a bit of the splintering shell. Together they had moved down stream a ways, and that's where Paul found them.

And that's all there is to this story, except that a short time after that, Art and Archie and Paul took that .22 rifle and pitched it in the Grand Rapids river.

### An Impregnable Fortress

The stout stone walls and heavy iron of the Morro Castle which attracts visitors at San Juan, Puerto Rico, have a record of impregnability both in old and modern warfare. In Queen Elizabeth's time, Francis Drake attempted to take the city, but was beaten off. In 1898, Admiral William T. Sampson, U. S. N., searching for Cervera's fleet, tried to enter the harbor, but failed when his shelling of the fortress had no effect.

### All Streets Up or Down

Among the towns, England's Clovelly is unique. It hangs on the same stretch of Cornish cliff where King Arthur built his castle, and is about 40 miles north of Tintagel. All streets in Tintagel go either up or down, and the grades are so steep that vehicular traffic is stopped one-half mile out of town. From that point one proceeds either on foot or burrow-back. Clovelly is built on the crest of a hill and ends at the ocean's edge.

## FARM TOPICS

### SHOULD CHECK ON GROWTH OF CHICKS

#### Flocks May Be Developing Too Slow, Too Fast.

By Dr. W. C. Thompson, Poultry Husbandman, New Jersey Agricultural Experiment Station, WNU Service.

It is a part of good business management for the poultry producer to know whether his chick flocks are growing at about the rate which should be expected of average, well bred, healthy chicks.

It may be that the rate of growth being shown by a given lot of chicks is not up to par, or it may be that they are growing faster than experience has indicated as being optimum. Chick growers, therefore, should have some sort of standard so that the development of chicks during the growing season may be measured.

This does not mean that it is necessary for the poultryman to weigh all of the chicks every week or two. He may obtain a good average by weighing any ten chicks caught at random at each weighing time. Average White Leghorn pullets should weigh 39 pounds per 100 at the end of the first month; 68 pounds at the end of the sixth week; 109 pounds at the end of the eighth week; 171 at the end of the twelfth week; 240 at the end of 16 weeks, and about 338 pounds per 100 pullets at the end of 24 weeks.

The seven corresponding weights for heavy breed pullets, such as Rhode Island Reds, New Hampshires or Barred Plymouth Rocks, are 18, 43, 83, 130, 213, 304, and 427 pounds per 100 birds.

These weight standards can be copied on a card and nailed on the feed room door or kept in another convenient place for comparison with average weights of this year's pullet flocks determined from time to time. One need not worry if pullet flocks are running at just about the level of these standards, or somewhat heavier, but if they are running at considerably under these standards, inquiry should be made as to the probable cause. Experience teaches that unless pullets develop at approximately these rates, they cannot reasonably be expected to reach egg-laying maturity at the normal time and be in condition to continue through a long year of normal egg yield.

Next year's pullet layers are in the making in this spring's chick flocks and this summer's growing pullets. It is important to keep an eagle eye on their rate of growth and make sure that it does not depart too far from normal expectancy.

### Many Soybean Varieties Needed for Varied Uses

Breeding to improve the soybean is only beginning, but the chances are bright, says W. J. Morse of the United States Department of Agriculture. New varieties are needed, even though the department and the states have already imported more than 10,000 tons of seed.

Soybeans are particular in their local requirements, are more variable than many plants, and are grown for a variety of purposes. A good forage variety for one area may not do at all well elsewhere. A good forage bean may not be a good milling bean, or be useful as a vegetable.

Some growers want soybeans for forage; others for oil and meal processing; still others as vegetables. The result is that each local area in the soybean regions needs a soybean variety that will do well in that particular place and for a definite purpose. Such an area may even need two or three varieties—one for forage, one for high oil or protein content for the mills, and a third for the table.

The soybean is a self-fertilized plant. Artificial crossing is difficult and tedious, but it can be done.

### In the Feed Lot

Train beans to a pole or a fence for maximum yield.

Hens of all ages should be carefully culled until September 1.

Chickens take dust baths to rid themselves of bird-lice.

Eggs are an important source of iron. They also contain calcium, sulfur, and phosphorus in goodly amounts.

A correctly adjusted plow does better work, saves time and pulls easier.

Eggs at room temperature beat more quickly and to a greater volume than do eggs beaten when taken from the refrigerator.

For fence posts, black locust is the tree to plant, but other kinds are white cedar, European or Japanese larch.

Every hour of the day and night, a thousand pound cow breathes in and out about 2,800 bushels or 3,600 cubic feet of air. This air weighs about 270 pounds.

# WHAT to EAT and WHY

C. Houston Goudiss Noted Food Authority

## Explains What Is Meant by CORRECT NUTRITION

### Describes How to Construct a Balanced Diet, So Essential to Maintain Optimal Health

By C. HOUSTON GOUDISS  
6 East 39th St., New York City.

TO SOME families, a summons to the dinner table means nothing more than a chance to satisfy hunger. To others, it represents an opportunity to gratify the palate, sometimes to the extent of overtaxing the digestive system.

Neither of these extremes fulfills the true function of food, which is to provide adequately but not to excess, for growth, maintenance and repair of the body.

### Food May Fail to Feed

You can satisfy hunger without providing correct nutrition. You can partake of delicious-tasting foods to the point of over-indulgence—without meeting bodily requirements.

The mere spending of money will not insure good nutrition, for extremely poor diets can be found in households where the income is large and the food budget is ample. What counts is learning to provide the right foods in the correct proportions. The return in health will be more than worth the investment of effort in acquiring this knowledge.

### A Balanced Diet

Science has discovered what foods are necessary to help build top health and keep us 100 per cent fit. The amount of food required for a man for a day's work can be accurately determined. We know that a specific disease may be produced by one diet and cured by another; that growth can be influenced through changes in the quality of the dietary; that old age may be deferred by choosing the food with care.

We know that the body is a working machine which never stops but may slow down or get out of order unless the daily diet includes every element, every mineral, every vitamin needed to maintain health and avoid the deficiency diseases.

### Seven Essentials

There are seven factors to be considered in planning a balanced diet. Protein for building body tissue and repairing the millions of cells that are worn out daily. Carbohydrates to produce quick heat and energy. Fats—which are also essential in a satisfactory diet. Minerals which serve both as builders and regulators of body processes. The six vitamins, A, B, C, D, E and G, that also act as regulators and prevent a number of deficiency diseases. Water—which serves as a vehicle by which food is carried to the tissues. And cellulose or bulk—required for the normal functioning of the intestinal tract.

### Danger in Omitting One Food Substance

The homemaker who fails to take every one of these factors into consideration is depriving her husband of the opportunity to develop his greatest efficiency.

Moreover, she may be robbing her children of their birthright. During every day of childhood, the body is being built, and defects in body structure are likely to arise if the child is improperly nourished. It is then that disease and disability make their appearance as a result of faulty nutrition. How tragic to deprive the young body of substances so necessary to its well being.

### How to Check the Diet for Balance

Perhaps you are like the homemakers who tell me that they do not know a protein from a carbohydrate. Or it may be that while you understand the difference, you do not know what quantities should be included in the diet each day.

To simplify your task of serving balanced menus at every meal, I have prepared a Homemaker's Chart for Checking Nutritional Balance. In convenient chart form, it shows what foods should be included in the diet every day and gives the standard amount for each food. There are also skeleton menus outlined by food classifications, which enable you to plan balanced menus for every meal by making a choice from each group of required foods.

I urge every homemaker to write for this chart and use it daily. Then you won't make such common mistakes as serving a dried legume as a vegetable at a meal in which meat is used, which tends to concentrate too much protein in one meal; or choosing a too-heavy dessert following a main course that is overly rich in carbohydrates.

### 60 Per Cent Carbohydrates

Carbohydrates should form at least 60 per cent of the supply of food fuel. Rarely are menus deficient in carbohydrates, because they are so widely distributed in such common foods as cereals, bread, potatoes, macaroni products, sweets, and sweet fruits and vegetables, such as oranges, grapes, apples and peas.

Fats should supply about 20 per cent of the caloric content of the diet. They are obtained from butter, margarine, cream, egg yolk, salad dressings, vegetable oils and the fat of meats.

A protein food should be provided at each meal. Meat, poultry, fish, eggs, cheese, milk and most nuts supply complete protein. Cereals and legumes furnish incomplete protein which may be supplemented by the complete protein of milk.

### The Protective Foods

It is essential that the diet should contain an abundance of minerals and vitamins which are

## Free Homemaker's Chart

for Checking Nutritional Balance

PLANNING a balanced diet will cease to be a puzzle if you send for the Homemaker's Chart for Checking Nutritional Balance, offered free, by C. Houston Goudiss. It lists the foods and the standard amounts that should be included in the daily diet, and includes skeleton menus for breakfast, dinner and lunch or supper, to guide you in selecting the proper foods in each classification. A postcard is sufficient to bring you this valuable aid to good menu planning. Just ask for the Nutrition Chart. Address C. Houston Goudiss, 6 East 39th St., New York City

furnished by the protective foods—milk, eggs, fruits and vegetables. Cellulose or bulk is obtained from fruits, vegetables and whole grain cereals. Water comes from juicy fruits, succulent vegetables, milk and other beverages, as well as the water that is consumed as a beverage.

To provide adequate amounts of the seven food essentials at every meal—to avoid the mistake of serving too much of one type of food and too little of another—should be the worthy aim of every homemaker. You will find the task considerably easier if you send for the Homemaker's Chart. Tack it up in your kitchen or in the room where you plan your menus, and use it to check the nutritional balance of every meal you prepare.

If you faithfully follow the food program outlined in the chart, you will help to assure your family of correct nutrition. This is the most priceless gift you could bestow upon them. For nutrition is the architect that draws the plans of human destiny. In providing the right foods, you lay a firm foundation for health on which to rear a life of happiness and success.

## Questions Answered

Mrs. F. C. T.—Dried figs contain from 60 to 70 per cent sugar and 4 to 5 per cent protein. They are a fine energy food.

Mrs. G. L.—There is evidence that a lack of vitamin A more quickly affects the eyes of children than adults. However, both children and adults require generous amounts of this vitamin to help maintain healthy eyes. A shortage may affect the tear glands causing a failure of secretion and dryness. The membrane becomes sensitive and inflamed, and the lids may swell.

A. F. B.—When thorough chewing is impossible, food can be finely minced or put through a sieve, to make it easily digestible.

© WNU—C. Houston Goudiss—1938—18

### Boy's Town

In Nebraska there is a town completely run by boys. The idea of having a boys' town for homeless boys was the conception of Father Edward J. Flanagan of Omaha, Neb. The town is situated 10 miles west of Omaha and comprises a million-dollar plant with 320 acres of farmland, 11 modern buildings and accommodations for 200 boys. It is a self-governing community with the control completely in the hands of the boys.

There is a boy mayor and six commissioners comprising a city council. The board of advisers consists of members of the school faculty.

ELDON DYER HOME FROM CHINA

Eldon Dyer, son of Mr. and Mrs. S. J. Dyer is home for a short visit after spending two years in Shanghai, China, with the U. S. marines. Mr. Dyer has many interesting things to tell of the war in China.

TEN AND TWO CLUB MEETS

The Ten and Two Club met Wednesday with Mrs. Kenneth Brodie. Chinese checkers were played. After a short business session, lovely refreshments were served to one guest, Mrs. Geo. Bailey, and the following members: Mesdames Don Alexander, L. B. McLaughlin, June Woods, O. D. Martin, Haskel Smith, and the hostess.

Mrs. Eva Amidel and son and brother, Walter Dillingham, of Fort Worth visited their sister and aunt, Mrs. Reep Landers, over the week end. They were accompanied home by Mrs. W. W. Dillingham and little Miss Sylvia Amidel, who had been visiting here for the past several weeks.

Roy Laswell left this (Thursday) morning for Wichita Falls, where he will report for duty to the U. S. navy, having enlisted for a four year period.

Mrs. Jewel Kuykendall of Sunray was discharged from a Pampa hospital Sunday, having undergone a major operation. Mrs. Kuykendall is the former Miss Jewel Turner of McLean.

Mr. and Mrs. Robt. C. Davidson and children of Plainview were in McLean the first of the week, enroute to Knox, Ind., for a visit with relatives.

Misses Gwynne Carpenter and Frances Landers were among the 117 students of Mary Hardin-Baylor College who made the honor roll for the spring semester.

Miss Doris Nell Wilson visited relatives in Shamrock over the week end. She was accompanied by her cousin, Miss Edna Faye Sullivan, of Clovis, N. M.

Mr. and Mrs. Luther Petty, son and daughters, Francis, Nora Isabel and Zora Idabel, were business visitors in Shamrock Tuesday afternoon.

Miss Robbie Howard, Mesdames Roy Campbell, C. B. Batson, Witt Springer and Bob Thomas visited in Amarillo Tuesday.

Mr. and Mrs. R. L. Appling and daughter, Viola, visited the Carlsbad Caverns last week. They also visited at Tatum, N. M., and Plainview.

Mrs. J. A. Riddle and children of Borger visited relatives here over the week end.

Mr. and Mrs. Conley of Wingate and Mr. Bogard of Plainview visited in the R. L. Appling home Tuesday.

Miss Elizabeth Vander Graaf of Kingfisher, Okla., has returned to her home after a visit with her brother, M. H. Vander Graaf.

Mrs. Ralph Caldwell and children have returned to their home at Liberal, Kan., after a visit with relatives here.

Mr. and Mrs. T. H. Andrews and daughter, Miss Myrle, visited in Shamrock Sunday.

Mrs. Bonita Hudson of Amarillo visited her parents, Mr. and Mrs. A. J. Worley, last Friday.

Mrs. Vallie Gish and Jack Turner of Amarillo visited their sister, Mrs. Ola Worley, last week.

Miss Bertha Appling of Tuxedo is visiting her brother, R. L. Appling, and family.

Mr. and Mrs. M. H. Vander Graaf visited in Oklahoma over the week end.

John Byrd Guill went to Abra Friday to visit in the Elmer Strong home.

Miss Euna Faye Cummings of Byers visited her sister, Mrs. Roger Powers, last week.

Mr. and Mrs. Geo. McCann of Kermit visited in the Eugene Woodrome home last week.

Mrs. Marshall Mitchell and daughter of Plainview are visiting the lady's parents, Mr. and Mrs. R. L. Appling.

Miss Edna Faye Sullivan of Clovis, N. M., is visiting her grandparents, Mr. and Mrs. G. W. Sullivan.

Mrs. H. C. Weatherby of Shamrock visited her parents, Mr. and Mrs. T. H. Andrews, Thursday.

Miss Billie Jean Biggers of Sudan is visiting in the home of her uncle, W. H. Floyd.

Jack Cooke was in Pampa Friday.
Toll Moore was in Pampa Friday.

Open Letter to a Drunken Driver

SURE, you can drive home a'right. Don't let 'em feed you any of that bunk about letting somebody else take the wheel. Any time old Pete can stand on his two feet he can drive an automobile, drunk or sober.

Brother, you're not the big shot you think you are. You're just a fuzzy-brained, liquored-up, obstinate ass with about as much right to drive an automobile on the public highway as a monkey from the zoo would have.

I only hope you'll start to drive home some night, alone, when you've one too many under your belt.

Yes, I hope an All-Wise Providence will arrange this little lesson for you. And soon, before you kill somebody, as you surely will if you continue to drive when you are drunk.

BACCALAUREATE PROGRAMS

Well, we keep learning things as we go along through life. Sometimes it takes a new idea a long time to soak in, though. For instance, we used to think that a baccalaureate sermon or address was one delivered to a college graduating class, and that only colleges and universities which confer the bachelor's degree could have a baccalaureate service of program.

THE FIVE AGES

Says the little boy of five: "Daddy, I know how to do everything."
Says the young man of twenty: "What I don't know isn't worth knowing."
Says the man of thirty-five: "Well, I do know my own trade from A to Z."

FARMERS WARNED

The government has issued a warning to chicken raisers contending that remedies advertised for the treatment of coccidiosis, one of the most widespread diseases of young chickens, are not effective.

A lottery automatically increases the relief problem, as its funds are principally drawn from ignorant and "shiftless" people. The money which should be spent for clothing and food is not only lost to legitimate trade but must be drawn from the pockets of forehanded citizens who are burdened with the support of those who have gambled away their scant funds.

LIONS AND LADIES ENJOY PICNIC SUPPER

The annual ladies' night picnic was held by McLean Lions at the Carpenter grove on McClellan Creek Tuesday evening.

TRAFFIC COUNT, PAMPA HIGHWAY

J. Lee Turner, acting under instructions from County Commissioner M. M. Newman, made a traffic count on the McLean-Pampa highway, beginning at 8 a. m. July 6, and ending at 8 a. m. July 7.

AN APOLOGY TO MR. GORDON

When resetting the type for the political announcement column recently, Joe Gordon for county attorney was inadvertently left out. Our attention was called to this too late for this week, but Mr. Gordon's name will appear in its rightful place in the column next week.

HORSE VS. TRACTOR

The average expense a crop acre is almost the same for horse farms as for standard tractor farms at general purpose tractor farms, according to a survey made by the "U" of Illinois.

HORSE VS. TRACTOR

What is holding business back? Why are not plans being pushed to promote enterprise and supply the goods and houses which the country needs? The answer is lack of confidence on the part of investors and business executives who are answerable to their stockholders for the promotion of their enterprises.

STAMP COLLECTING FASCINATING GAME

Stamp collecting is the easiest hobby in the world to get into—on your own terms—whether you are young, old, or just middle aged, believes Parham C. Nahl, Oklahoma-A. and M. College marketing professor, who has attained national recognition on his hobby.

"One can go into it any way," Nahl says, "whether by merely collecting new stamps as they are issued, inheriting your grandfather's collection as I did, by collecting foreign stamps, or assembling old and rare ones."

"It is one hobby that is flexible to the individual's taste, time, and purse, without sacrificing any enjoyment. I have known boys to have just as much fun as retired business men."

Beginner Needs Album

Nahl, who is a member of the board of directors of both the American and Pacific Coast Airmail Societies, has been a member of the board of the editors of those organizations, putting out journals and catalogs, for the past several years. He specializes in collecting airmail first flight covers, as the stamped and marked envelope is called.

While actual methods of collection are entirely dependent upon the individual's preference, Nahl recommends that the beginning collector equip himself with a small album, but under no circumstances paste the stamps flat into this album.

Pasting them flat makes them too hard to move, he explains, and any collector that keeps up with his hobby will want to move the stamps dozens of times. Securing them to the album with hinged transparent tape is more successful.

For the more advanced collector, Nahl believes a loose leaf notebook is the only real solution for stamp cataloging. "This makes it possible to take out a page and frame it for exhibition," he points out.

Imperfections Add Value

While most collectors assemble sets of stamps alone, soaked off the letter, many collect the entire letter-corner bearing the stamp and post mark. Others collect the entire cover. Nahl has 17 boxes of 500 covers each, all of which are from first flight airmails.

"Another thing about stamp collecting," Nahl avers, "is that it is one place where imperfections make value. Anything that distinguishes a stamp from its brother will send its value skyrocketing."

"This was seen in several airmail flights. In the massed flight of navy planes from San Francisco to Honolulu, some few letters were carried, and when Lindbergh flew up from the Caribbean, he stopped unexpectedly."

CLASSIFIED ADVERTISING

RATES.—One insertion, 2c per word.

Two insertions, 3c per word, or 1c per word each week after first insertion.

Lines of white space will be charged for at same rate as reading matter. Black-faced type at double rate. Initials and numerals count as words.

No advertisement accepted for less than 25c per week.

All ads cash with order, unless you have a running account with The News.
