POP— No Treat

By J. MILLAR WATT

IN THE DARK By GLUYAS WILLIAMS

A GOODLY TASK

A tramp paused at the back door of a home. "Clear out," shouted the woman. "I hain't got no wood to chop. There ain't nothin' to do around here." "There is, madam," replied the wayfarer with dignity. "I could give you a few lessons in grammar."

No Light Task

Girl—I made this cake all alone. Boy—Yes, I can understand that, but who helped you lift it out of the oven? "I held a peach of a hand last night." "What's her name?" "Four aces and a king."

WHY NOT? HE WAS A FRIEND

The absent-minded professor was busy in his study. "Have you seen this?" said his wife, entering. "There's a report in the paper of your death." "Is that so?" returned the professor without looking up. "We must remember to send a wreath."

"It's Great!" Say Millions About Pepsodent with IRIUM

Irium contained in BOTH Pepsodent Tooth Powder and Pepsodent Tooth Paste

You can't deny facts! Results on millions of people PROVE that Pepsodent containing Irium is more effective... PROVE that modernized Pepsodent can bring about a vast improvement in dull, surface-stained teeth.

Once you've tried Pepsodent containing Irium you'll be equally enthusiastic... you'll thrill when you see your teeth gleam and sparkle with all their glorious natural radiance! Pepsodent with Irium is completely SAFE. It contains absolutely NO GRIT, NO PUMICE, NO DRUGS.

Try it today!

CLASSIFIED DEPARTMENT

REMEDY

Skin Trouble Sufferers get instant relief. Use prescription EX 196 for Eczema, Itch, Dermatitis, Desert Sores, Dhoobie Itch, Allergic Rash, Prickly Heat, Itching Piles and various other forms of skin irritations. Guaranteed and sold only by INTERNATIONAL PHARMACY, Yuma, Arizona. Price 50c.

PERSONAL

Want to Quit Whisky? A complete treatment: Can be given secretly—Prevents and corrects the "Morning After." Dr. John, 100 Mad Williams Bldg., Tampa, Fla.

This Cheerful Peasant Has Applied Apron

A brand new idea... applique scraps of print to form the aprons for these gay, embroidered peasant figures which cheer up kitchen towels. Pattern 1679 contains a transfer pattern of seven motifs.

Pattern 1679 averaging 6 by 7 1/4 inches and applique pattern pieces; color suggestions; illustrations of all stitches used; material requirements.

Send 15 cents in stamps or coins (coins preferred) for this pattern to the Sewing Circle, Needlecraft Dept., 82 Eighth Ave., New York.

The Right Aim

The true aim of life is not so much the accumulation and storage of facts as it is the development and exercise of the powers and capacities of the soul.

IRON the EASY WAY

INSTANT LIGHTING
Coleman SELF-HEATING IRON

Make ironing a quicker, easier and more pleasant task. Iron the easy way with a Coleman, the genuine Instant Lighting Iron. Just turn a valve, strike a match and it lights instantly. The Coleman heats in a jiffy, is quickly ready for use. Operates for half an hour. See your dealer or write for FREE FOLDER.

THE COLEMAN LAMP AND STOVE CO.
Dept. W120, Wichita, Kans.; Chicago, Ill.; Philadelphia, Pa.; Los Angeles, Calif.

GET RID OF PIMPLES

New Remedy Uses Magnesia to Clear Skin. Firms and Smooths Complexion—Makes Skin Look Years Younger

Get rid of ugly, pimply skin with this extraordinary new remedy. Dermatologists clearing up a spotty, roughened complexion. Even the first few treatments make a noticeable difference. The spots gradually wipe away, big pores grow smaller, the texture of the skin itself becomes firmer. Before you tell your friends are complimenting you on your complexion.

Local and Personal

Mrs. J. B. Hembree, Mrs. S. D. Shelburne and son, Dan, were in Amarillo Saturday. Mrs. Lula Latson, Mrs. Bill Bentley and children visited relatives in Clarendon Sunday. Mrs. A. W. Brewer and daughter; Mrs. Thos. Ashby and daughter were in Amarillo Monday. Miss Opal Moore and brothers, Owen and Alton, were in Pampa Tuesday. Mrs. J. W. Kibler and Mrs. Scott Johnston were in Shamrock Tuesday. Mrs. Luther Petty and sons, Harold and Herman, recently visited Mr. and Mrs. Horace Petty at Vernon. J. T. Lovelace, centenarian, was guest of honor at an April birthday party held at Pampa Friday. Mrs. Ernest Beck and children and Mrs. G. W. Beck were in Pampa last Thursday. Mrs. H. C. Rippey and daughter, Patty Ruth, visited in Shamrock last Thursday. Mr. and Mrs. Roy Sherrod and children of Alanreed were in McLean Thursday. Mrs. Milton Carpenter and son, who has returned from Amarillo, where the latter underwent an operation. W. E. James of Alanreed, candidate for county treasurer, was in McLean Friday. Mrs. J. L. Allison of Clarendon is visiting in the home of her son, Clifford. Sammie Cubine and son and Winfred Massey made a trip to Springdale, Ark., Friday. Miss Odessa Kunkel of Pampa visited home folks here Sunday. Burette Kinard of Lubbock was a McLean visitor last week. Frank Hefner and Marion Quisenberry of Stinnett were in McLean Friday. Mrs. J. J. Shelby of Amarillo visited Mrs. Wilt Springer last week end. Will Brodie of Canadian visited his son, Kenneth, over the week end. Miss Jackie Foley is able to be out after an operation for appendicitis. Mrs. Ella Cubine has returned from a visit at Springdale, Ark. Mrs. Ollie Ayer of Dallas visited in McLean last week end. Mr. and Mrs. E. C. Crews were in Pampa one day last week. Miss Ozella Hunt of Miami visited home folks here Saturday. Clifford Allison was in Clarendon Friday. Miss Elsie Gibson of Pampa was in McLean Saturday. Henry Roth was in Pampa Saturday. C. P. Callahan orders his name back on our list of subscribers. Dr. W. E. Ballard renews for the News this week. George Thut of Lefors was in McLean Thursday. Mayor Vester Smith went to Dallas Friday on business. Toll Moore was in Pampa the first of the week. L. S. Tinnin was in Pampa Sunday. Rev. and Mrs. H. T. Sullivan were visitors in Pampa Monday. Mrs. Roy Campbell and daughter were in Shamrock Tuesday. Mr. and Mrs. H. E. Franks were in Shamrock Monday. Mrs. R. E. Crisp of Alanreed was in McLean Monday. Elmer Strong of Abra visited in McLean Sunday. Mrs. L. W. Wilson is visiting her daughter in Oklahoma City. J. S. Shover and son, Ben, were in New Britain last week.

ADEQUATE GARDEN PLANTING

"Don't limit your garden to mustard greens and beans," says Miss Vera R. Martin, home supervisor for the Farm Security Administration. Now is the time to complete your plans for an adequate garden. By an adequate garden we mean one that provides plenty of fresh vegetables to eat, some to can and enough to store for winter use. By raising 75% to 90% of your family's food supply on the farm, the family living costs are greatly decreased, and those foods most necessary to health—vegetables—have been provided by careful planning and planting of vegetables. By having a frame garden it is much easier to gain variety and have vegetables several months earlier than waiting to grow all of them in the field. The dimensions of the frame garden should be 4 to 5 feet wide, and of any desired length. The usual length is 20 feet. Frames 4 to 5 feet in width are better than wider ones because of the convenience in cultivating and harvesting from the side. The side walls of the frame may be 12 to 19 inches in height. Scrap lumber may be used, but 1x12 inch planks nailed together to make a side wall and strips 1x1 inch should be nailed cross the frame every 5 feet apart to support the cover. A good grade of muslin cloth should be tacked on one side and some means for holding the muslin down over the ends and other side provided. The following vegetables and varieties are adapted to this territory: radishes, scarlet globe; lettuce, black seeded Simpson; mustard, tendergreen; spinach, king of Denmark; parsley, moss curled; Chinese cabbage, wong bak; English peas, Alaska; beets, Crosby's Egyptian; carrots, nantes; beans, horticultural dwarf and refugee. The Wheeler county commissioners court voted last week to buy all their printing and office supplies from local firms. They did this once before, but certain officials continued to patronize out-of-county firms and so the court passed an order to the effect that ALL of the supplies be purchased through local dealers. This will mean about \$2,500 a year for the two printing firms of the county. We wish some of the Shamrock firms would see fit to follow this example. There are two or three of our largest business institutions that buy all of their office supplies out of town, except when an occasional rush job comes up—Shamrock Texan. Mrs. Paul Kennedy of White Deer visited her parents, Mr. and Mrs. J. M. Noel, Wednesday. Mrs. Laura Robinson has returned from Pierson, Okla., where she has been for medical treatment. The greatest comfort—knowing that you have done your work well. Miss Margarite Mertel of Pampa visited home folks here Tuesday night. C. D. Smith is a new reader of the home paper. Mr. and Mrs. R. M. Gibson of Alanreed were in McLean Saturday. Mr. and Mrs. D. Medley of Lefors were in McLean Saturday. Sam Brown of Alanreed was in McLean Saturday. Mr. and Mrs. Lee Newman visited at Miami over the week end. Mr. and Mrs. J. C. Haynes and sons of Pampa visited here Sunday. Miss Alpha Bell visited in Amarillo the first of the week. C. G. Nicholson was in Pampa the first of the week on business. Dr. J. A. Hall of Shamrock was a McLean visitor Sunday. Mr. and Mrs. Earl Stubblefield and children were in Amarillo Sunday. E. L. Peirce says to keep the home paper coming to his address. Fank Lander of Pampa visited in McLean Tuesday. Leslie Huff of Temple visited his sisters here this week. Mrs. W. W. Boyd and Mrs. D. E. Upham were in Pampa Tuesday. Mrs. Arrell King was in Amarillo Monday. Ben Howard was in Amarillo Sunday. Lee Atwood was in Borger Friday. Jack Coobe was in Pampa Monday.

A Lesson in Zoology—for Drivers

A car is like a cat, according to a new highway safety booklet entitled "Death Begins at 40."

It is quiet, except for a low and pleasing purr. Its padded tires are like padded feet. It has powerful eyes that shine at night. And when it is allowed to run wild, it gives an awful screech at the moment before it does its victim to death.

At 25 miles an hour, it is like a pussy-cat. It scratches you up in an accident, but it isn't likely to kill you. Few fatal accidents, it has been found from official reports, occur at low speeds.

At 50 miles an hour, it is not twice but four times as powerful. Like a bobcat, it is quite able to inflict great damage.

And at 75 miles an hour it is not three times but nine times as powerful as at 25. It is nine times as hard to stop, nine times as hard to turn, nine times as deadly.

Thinking of speed in these terms will help you to keep a lighter toe on the accelerator.

THOMAS EXPLAINS 1938 CONSERVATION PROGRAM

At a meeting of about 140 farmers of the McLean territory held at the Odd Fellows hall Tuesday afternoon, County Agent Ralph Thomas discussed the Agricultural Conservation Program for 1938. The cotton allotments which were received by the farmers last week were discussed and Mr. Thomas explained how the allotments were figured. He stressed the fact that these allotments were set by law in accordance with either the approximate 22 1/2% of the cultivated land or the largest year of cotton planted, plus the diverted acres from 1935 to 1937. Relative to what could be planted on the leave-out acreage for 1938, Mr. Thomas stated that sudan and millet would be counted as soil conserving if they were not used for seed or silage, and that sweet sorghum would be conserving unless it was used for seed, syrup or silage. He also stated that if these crops were harvested, it was the responsibility of the farmers to see that this land did not become a wind erosion hazard. The grasshopper situation was also discussed and it was decided that the distribution of grasshopper poison and bait would probably begin some time next week. Reports of the farmers showed that the hoppers were prevalent over a good part of the McLean territory. According to Mr. Thomas, the government will furnish bran which is to be matched locally by either the equivalent amount of bran or bran substitute. The poison, molasses and labor for mixing will also be furnished. He further stated that the bait will be put out to the farmers at the actual cost of the material which will be bought locally, plus the labor cost. After Mr. Thomas had discussed these phases of the 1938 program and the grasshopper control, the farmers were free to talk with him about their individual problems. At a meeting of the Gray county cotton improvement committee with J. S. Howard as chairman, and R. M. Gibson, Dewey Wood and T. H. Andrews, it was decided that Northern Star cotton would be adopted for the Gray county territory for 1938. Arrangements were made to handle the seed locally at \$1.35 per bushel. Arrangements were also made to have special ginning days for this cotton. Upon investigation by the committee it was found that this variety of cotton had done well in Wheeler county, and since a number of the farmers had already purchased this variety of seed and that quantities of certified seed could be purchased at a nominal cost, the committee decided that probably they could get a larger acreage of this variety in 1938. The greatest service one man can render another is to assist him in gaining that outlook upon and understanding of life where he is able to find the good in all things.—Sydney L. Angell. The first Bermuda onion in the world makes its appearance each spring in Texas. Spain is Texas' only rival in producing onions.

ALCOHOLIC ACCIDENTS KILL 68

"Alcoholic accidents" in New York during 1937 cost the lives of 68 people, Charles A. Harnett, commissioner of motor vehicles, stated in connection with the announcement that the state had revoked the licenses of 3,468 persons as a result of drunken driving. The state has also issued orders suspending the driving privileges of 2,969 more persons pending prosecutions for operating a vehicle while under the influence of alcohol. Not youths, but men and women in the "conservative" age group, were responsible for the majority of the drunken driving accidents, the commissioner stated. Intoxicated motorists do most of their traveling at night and ordinarily use automobiles in good condition, the department of motor vehicles reported. If the latter were not so, it was emphasized, far more drunken accidents would occur. "The driver who has been drinking apparently has no sense of proportion," the report said. "His judgment is warped and his sense of balance is gone. "Evidently he sees no danger in his acts, and believes he is competent to drive. Yet, it has been proved that he drives recklessly, operates his car at an excessive rate of speed, drives on the wrong side of highways, and violates all the rules of safe driving." Friday, Saturday and Sunday are the three days when, statistically speaking, murderous alcohol prefers to take the wheel on New York highways, the department found. On the other hand, while fewer accidents occurred during the middle of the average week, those reported were of greater severity.—Potter County News. FREEDOM OF THE PRESS One of the amusing things to the writer is that the constant worry about the "freedom of the press" comes from newspapers belonging to a syndicate, or operated by an individual whose identity is not known. These newspapers cannot take a free stand for their community according to the conscience of the resident editor, but must follow the desires of the person or company when does the publishing either for profit or for policy. Little independent journals like the Democrat never worry about the bogey man of "freedom of the press," realizing their obligation is to their community alone, and to no individual or group.—Edgar Blanton in the Shelbina (Mo.) Democrat. TO CURB THROWAWAYS Audbon, N. J.—Signs reading "No Circulars" may be purchased from the borough clerk here. Tacked on the front of the house, the sign prohibits distributors from throwing circulars on the porch, under the terms of a new borough ordinance. The fellow who invented the mechanical cotton picker will likely be a new supplant at the Federal Treasury, judging from the "cotton land lying out."—Texas Tax Journal.

REASON

Small Julia Hatcher, pupil at the Hatcher school, Marked Tree, Ark., raised her hand. Said Julia: "I want to leave the room." Asked teacher: "Why?" Replied Julia: "Because the room is on fire." Out marched the children. Down burned the school.—Time Magazine. It is illegal in Alabama to sprinkle salt on railroad tracks, which seems a queer way to catch a train anyway.—Boston Transcript.
