

REPORT INSURRECTION IN ITALY

TEXAS HURRICANE TOLL REACHES \$10,000,000

At Least 2 Are Killed As Gulf Coast Struck By Tropical Storm

HOUSTON, July 28 (AP)—Damage to property and crops in the Houston-Galveston coastal region soared to an estimated \$10,000,000 today as at least two deaths and scores of injuries were reported from one of the worst tropical hurricanes in the history of the Texas gulf coast.

The American Rice Growers association estimated that the upper Texas gulf coast rice crop would suffer a \$2,000,000 loss.

Mayor George W. Fraser of Galveston said that "estimates of \$1,000,000 worth of damage are quite conservative for this city."

Preliminary estimates placed Houston's property damage at several million dollars.

Damage in the tri-cities—Goose Creek, Baytown and Pella—was estimated at \$1,000,000.

The Galveston News said that city faces an imminent shortage of drinking water as a result of the disturbance which shut off the power supply used to pump water from the mainland.

"The city is drawing upon reserves which will not last long," the News advised by telephone to Houston. "The health officer has issued a general advisory warning that all drinking water must be boiled to guard against typhus."

Described by the Houston Light and Power company as "the worst we have ever had," the storm blanketed the area between Houston, Galveston and the tri-cities.

In Houston at least one person was dead and 40 hospitalized. McKinley Darby, five-year-old negro boy, drowned in a ditch.

Galveston police reported one known death—a negro woman who was crushed by a falling radio tower.

Communication lines to the tri-cities were broken. The Galveston News said that no power was available in residential districts and that 6,000 of the city's 18,000 telephones were out of order.

A local standby station was supplying the power to hospitals. The coast guard was said to be searching for a government barge believed to have been lost in Galveston Bay with several men aboard.

Rain was falling in Galveston again this morning but the weather bureau denied another storm was approaching.

During the storm period 7.68 inches fell on the island. Streets were clear of water this morning and buses were running.

Heavy damage was reported by the News along the waterfront. "Practically every house and building in town has some damage—from \$1 up," the News said.

Communication lines in much of Houston's metropolitan area still were out. Power lines were down over a good portion (See STORMS, Page 8, Col. 4)

11 Allied Ships Sunk, Say Nazis

LONDON, July 28 (AP)—The German high command asserted in its communique today that 11 Allied ships and boats had been sunk and 11 others, including a light cruiser, had been damaged in various air and sea actions. The claims, broadcast from Berlin and recorded by the Associated Press, were without Allied confirmation.

The actions were listed as follows: U-boats sink eight ships totaling 44,241 tons and damaged six freighters and a light cruiser in the Atlantic and Mediterranean.

Long distance bombers sank two merchantmen and damaged three in an attack on a convoy in the Atlantic. Other German broadcasts said this action was off Portugal.

German patrol boats engaged British motor torpedo boats off the Dutch coast and sank one and damaged one.

MURDER PUZZLE HOUSTON, July 28. (AP)—Police were without clues today in the murder of an unidentified white man whose body was found hidden in weeds on a vacant lot in the downtown section yesterday.

Embrace Proved Breath-Taking

ABILENE, July 28 (AP)—They certainly are making them strong in this Army now. Corp. Charley Stark of the 90th division motor transport unit at Camp Berkeley was demonstrating his strength to two girl friends and he playfully put an arm around them, one arm for each, and squeezed.

One of the girls screamed. Three of her ribs were

Kiska And Wake Island Take New Poundings

Yanks Near Prize Enemy Airfield In Central Solomons

By The Associated Press American warplanes blasted the Japanese stronghold at Kiska in record-breaking sweep of 19 attacks Monday and Tuesday, the navy announced today, and pounded the enemy mid-Pacific base at Wake Island for the second time in four days.

Kiska was hit 13 times yesterday with a fury suggesting that the hour of invasion of the last Japanese foothold in the Aleutians may be near.

Altogether, Kiska has been attacked 40 times in a period of four days ending yesterday.

In the raid on Wake, U. S. army heavy bombers shot down seven of a flight of 25 Japanese Zero fighters attempting to intercept them, probably destroyed five others and damaged three—making a toll of 33 enemy aircraft destroyed or damaged out of 55 interceptors in two raids.

In the Southwest Pacific, dispatches from Allied headquarters reported that American troops had smashed through strong Japanese defenses east of Munda and stormed within 2,100 yards of the prize enemy airfield on New Georgia island in the central Solomons.

A headquarters spokesman said U. S. forces scored "considerable" gains all along the enemy's siege-bound stronghold, while Allied bombers rained another 35 tons of explosives on the beleaguered enemy garrison.

On the New Guinea front, Allied troops were reported to have engaged the Japanese in a series of sharp clashes northeast of Mt. Tambu, which lies only a few miles south of the big enemy base at Salamaua.

Dispatches, locating the scene of the fighting as "northeast" of Mt. Tambu, indicated that the Allies had advanced from that peak which was captured only recently. Allied planes dropped 123 tons of bombs on Salamaua itself.

On the China front, Tokyo broadcasts reported that six Allied planes were driven off in an attempt to raid Japanese-occupied Hong-Kong, former British crown colony, and that about 20 American bombers attacked Hankow Sunday.

U. S. headquarters said American planes destroyed many enemy installations and shot down 13 Japanese planes in a raid on Hankow.

Imperial Tokyo headquarters asserted without confirmation that Japanese submarines had sunk a United States cruiser off San Cristobal island in the Southwest Pacific, July 20.

Axis broadcasts said American snipers hiding in the Luzon jungles in the Philippines had been attacked by Japanese troops and declared the American leader had been killed.

Nazis Confirm Ouster Report

LONDON, July 28 (AP)—DNB, German news agency, reported today that Gen. Friedrich Christian, commander of German military forces in the Netherlands, had been relieved of the command of Nazi air forces in that area in order that he might concentrate on his military duties.

The DNB broadcast said that the change had been made at the suggestion of Reichsmarshal Goering and that Gen. Christian would be replaced by Col. Gen. Keller, at present commander of an air fleet.

Aneta, official Netherlands news agency, carried a Moscow radio report yesterday that General Christiansen had been court-martialed for cowardice. The report, purported to have come from the Hague, said that when British troops recently were rumored to have landed on the Netherlands coast "Christiansen lost his head completely and ordered out his troops without investigating the facts."

RED CROSS AID

AUSTIN, July 28 (AP)—Governor Coke R. Stevenson was informed today by St. Louis offices of the American Red Cross that field workers were en route to the Galveston-Houston area to direct relief and rehabilitation among storm victims.

Job-Finding Machinery For Veterans Is Set Up

WASHINGTON, July 28 (AP)—The War Manpower Commission today has set up and started functioning machinery for finding jobs for discharged veterans, a undertaking of expanding size and importance.

Neither figures on past placements nor estimates on future the WMC, but the agency pledged itself to "place returned veterans in gainful and essential employment or refer them to the proper agencies for rehabilitation and training and thereafter accord them selective placement."

To assure "rapid, accurate and orderly" results, it decreed that: The reemployment division of selective service, now a unit of the WMC, will be "specifically responsible for the reinstatement of veterans in former jobs.

Local offices of the U. S. Employment Service, another registration and placement services to veterans who were not employed when inducted or are disinclined or unable to return to their former civilian positions.

The WMC's "veterans' employment service division" will initiate and develop placement programs and policies to be carried out through WMC regional state and area offices.

Employment Service representatives will go into Army and Navy hospitals and provide registration and placement service to disabled veterans prior to their discharge.

Downfall—If Mussolini's ouster is a prelude to Italian surrender, this might be the way the European war will go. Elimination of Italian armies would ease the way for Allied invasions (black arrows) of southern France, Italy and the Balkans. Reports are that Italian divisions (open arrows) already have been ordered home from France and the Balkans. Allied air bases in northern Italy would place in easier reach (circles) eastern Germany and lines of communication to Russia.

FDR Will Broadcast War Report Tonight

WASHINGTON, July 28 (AP)—President Roosevelt drafted today his first war report to the American people in five and a half months.

The president will broadcast for half an hour on all networks tonight at 8:30 o'clock Central War Time, and the White House labels the address of "major importance."

Mr. Roosevelt told his press radio conference yesterday he would talk on the war, and he made it plain he considered war activities at home and in the actual theaters of combat of parallel importance, a hint on the scope of tonight's speech.

He was in a position to paint a glowing picture of events in the Mediterranean, the Pacific, Russia and from the skies over Europe.

But words of caution appeared in order from the chief executive on what has been happening here to wages, prices, manpower, internal disputes in the government, as well as on an admitted possibility that war production goals for 1943 may not be attained.

Hamburg Still Under Attack

LONDON, July 28 (AP)—RAF bombers returned to Hamburg in great force last night, the British announced today, to heap further destruction on the great north German port which has been the object of continuing round-the-clock attacks since Saturday.

It was the RAF's fourth successive night assault upon the battered city, which in normal times has a population of more than 1,000,000. Sandwiched in between these night raids were two smashing daylight attacks by American bombers on Sunday and Monday.

There was no let-up in the Allied attack as strong formations of fighters and fighter-bombers continued the assault in daylight today shuttling forth and back across the sunny channel to the low countries. The attacks continued past mid-day.

The German high command, in a communique broadcast by the Berlin radio, said that "strong enemy bomber formations continue their terror attacks on Hamburg last night. There were further devastations and conflagrations caused in several parts of the city. The population again suffered losses."

(It claimed that 47 of the attacking bombers were shot down.) Targets in the Ruhr valley, site of many important German war industries, also were bombed during the night, said an air ministry communique, which acknowledged the loss of 18 bombers.

Mosquitoes of the fighter command at the same time carried out offensive patrols over Germany, Holland and France, attacking airfields and railway communications, the bulletin said.

The attack on Hamburg was described by the air ministry as "concentrated and effective."

In addition to the heavy assault on Hamburg, Mitchell bombers swept across the channel last evening to attack the airfield at Schiphol in Holland. Four enemy fighters were destroyed in combat but no Allied aircraft were lost, the air ministry said.

HAAKON OPTIMISTIC

LIVERPOOL, July 28 (AP)—King Haakon of Norway said in a speech here today that the war outlook is much brighter than it was first of the year, but that "it might take six months or a year or more before Norwegians can return to Norway."

State To Rest In Murder Trial

CORSICANA, July 28 (AP)—The state is expected to rest today in the trial of C. T. Barnett of Houston, charged with murder, in district court here in connection with the fatal shooting of his wife, Julia Barnett at Crockett, Feb. 19, 1941.

Eight witnesses were on the stand today. Barnett pleaded innocent to the indictment.

'Slugging Stage' is Reached In Allied Battle For Sicily

By The Associated Press A popular insurrection verging on revolution, marked by gunfire, an attempted prison break and bloodshed, was reported to have broken out at Milan in northern Italy today, according to unconfirmed advices received at the Italian frontier.

Dispatches said mobs swept the streets of Milan, birthplace of fascism, shouting: "Liberty!" "We want peace!"

All workers were reported to have left their jobs and the situation was described as extremely grave.

Bomb-torn Naples was also the scene of fights in which several were killed and wounded as the people celebrated the fall of fascism. Other cities in northern and southern Italy witnessed continuous demonstrations.

A Rome broadcast repeatedly interrupted programs to warn the people against "sensational rumors and urged patience, declaring that it was not possible to make peace in two days.

Italy's role in the war took on a deeper tinge of mystery today amid a new flurry of peace rumors, speculation that Turkey might act as mediator, and an Algiers radio report that German troops were moving northward through Italy—possibly abandoning the Italians to their fate.

On the fighting front, Gen. Dwight D. Eisenhower's headquarters announced that American 7th Army troops sweeping east toward the axis "escape port" at Messina had captured the town of Cefalu on the northern coast.

A communique said the Americans now were advancing against strongly-prepared German defenses at San Stefano.

Cefalu is only 90 miles from Messina and is 38 miles east of fallen Palermo, Sicily's capital.

Dispatches from Allied headquarters said the battle for the axis' dwindling breadbasket had reached the "slugging stage" as U. S. and Canadian troops raced to outflank German defenders of Catania on the east coast. But the British 8th army was still stopped dead before Catania for the 13th successive day—longer than it was halted either at El Alamein in Egypt or at the Mareth line in Tunisia.

The status of Italy under Premier Marshal Pietro Badoglio's new regime was clouded by a host of conflicting reports:

1. In London, Prime Minister Churchill, replied with a crisp "No, sir," when asked in the house of commons whether any reply had been received to re-

Retreating Nazis Destroy Villages

MOSCOW, July 28 (AP)—Retreating Germans are burning villages, impressing the inhabitants into labor gangs and forcing them to dig trenches and dugouts for the last desperate defense of Orel on the central Russian front, Red army dispatches declared today.

A Russian communique reported that Field Marshal Guenther von Kluege's army was continuing to fall back as the Soviets pressed in on three sides of the big Nazi base.

Savage battles were being fought on the sector northwest of Orel, where the Russian troops were cutting in toward the Bryansk railway, the only avenue of escape for German forces facing encirclement in Orel.

METHODISM GAINS NEW YORK, July 28 (AP)—Methodism's report for 1942 reveals the leading Protestant sect gained nearly 81,000 members for a new total of 8,640,424.

THREE MEMBERS OF LOST PLATOON DIE IN CALIFORNIA DESERT; FOURTH MISSING AFTER ENDURANCE TEST

CAMP YOUNG, Calif., July 28—Death in the searing heat of a desolate waterless expanse followed a platoon of soldiers that became lost during a six-day endurance maneuver on the vast, trackless wastelands of the southern California-Arizona desert.

Three were listed as dead and a fourth as missing and presumed by the Army to be dead. In a meager report last night from military authorities which also disclosed the remainder of the platoon had been rescued.

The three died of thirst, Army officials stated. Their names were withheld pending notification of relatives.

Thermometers at Imperial, Calif., recorded 124 degrees Sunday and 116 Monday.

The contingent of soldiers became lost from its supply depot Saturday in the remote Ogilby area, near the barren, rocky Chocolate mountains, a jagged range of hills 30 miles northeast of El Centro, Calif., said the office of the chief of staff at this desert Army training center. Their problem was a six-day test of hardihood, under desert combat conditions.

A Camp Young officer who declined to be quoted said initial reports indicated the platoon ran out of water Saturday.

Six soldiers, exhausted, reached a Southern Pacific way station, where they flagged a train that took them to Yuma, Ariz., Sheriff T. H. Newberry, Yuma, said. Bodies of the dead were returned to a military board of inquiry convened.

Exile—Don Luigi Sturzo (above), exiled former leader of the Italian Catholic Popular Party which Benito Mussolini outlawed, said in an interview at Jacksonville, Fla., that Il Duce's downfall is the first step in Italy's return to a free democratic and Christian country.

Allied Ships Are To Be Shared

WASHINGTON, July 28 (AP)—The United States, its merchant fleet grown to the world's largest by a 250 per cent gain since Pearl Harbor, has begun a share-the-ships program with maritime allies.

So far agreements have been made for the chartering of ships to Great Britain, Norway, Holland and Greece, and the door stood open today for other United Nations to come in for their share.

Rear Admiral Emory S. Land, war shipping administrator, disclosed how the fleet has mushroomed since December, 1941, gave no hint of its present size, but left the clear implication that Britain, long the world's No. 1 merchantman, has dropped far behind.

As of Jan. 1, 1941, the last date for which official figures were published, the American merchant fleet totaled 1,150 sea-going vessels aggregating 10,500,000 deadweight tons. A 250 per cent increase in that figure would bring the total to more than 26,000,000 deadweight tons.

Land told the committee chairman that Mr. Roosevelt had instructed him to charter ships to allied nations "for the period of the war only."

The ships will be operated under the flag of the chartering nation, but title will remain in the United States.

Some Of The C's Are Having Visitors But Others Are Just Staying At Home

W. CLIFTON—Mrs. Clifton was putting up peas and so she pointed out, you can't have company and peas at the same time, and that made her a little short of news.

DOWNTOWN STROLLER

Mrs. OMAR PITMAN gave us a lift to work the other noon and probably saved us from a heat stroke. We talked about the help situation and Mrs. PITMAN is having the same trouble as everybody else, nobody around to work either at the store or at home.

The men and women who bearded the commissioners in their den the other morning about getting a county library in Howard county are crossing their fingers, and hoping. It would really be something if we could get even a small one started here. It is a bit embarrassing sometimes to have to admit to strangers that we have no such animal as a public library.

We are sure that Mrs. HELEN EBBERT is looking for us with a shotgun since we called her early one morning this week and got her out of bed. But she was really nice about being wakened up at the crack of dawn. She talked about the Cadet Wives' club which it seems needs a few more members in its ranks or at least better attendance.

If all the people who tell us they are canning are really doing so it looks as if a food shortage will be averted this winter anyway. Beans, peas, peaches, squash, just name it, and the girls have already put it up or are in the process.

Somebody we hate to see leave town is Mrs. HIRAM KNOX, who is moving soon to Houston. She's a swell person and folks will really miss her.

Squadron Holds Party On Scenic Drive Tuesday

Including WAC's as guests, the 78th Bombing squadron held a watermelon feast on Scenic Drive Tuesday evening from 8 o'clock to 10 o'clock.

Special services presented a floor show that included songs by Joe Kling, tap dance by Jean Ode and novelty songs by Cpl. Phil Tucker.

A large group attended and transportation was furnished by army trucks.

Major James F. Hall, commanding officer, and Capt. Edwin C. Sims, adjutant, were in charge.

Food Demonstration Conducted at East 4th St. Church

Mildred Atkinson of the county home demonstration office conducted a demonstration on pressure cooker canning, fruit canning and drying at the East 4th St. Baptist church Wednesday morning at 9:30 o'clock.

Another demonstration is to be held Friday at the First Presbyterian church at 9:30 a. m. A large attendance is urged and women were asked to bring articles to be canned at the meeting.

CHANGES MADE IN POINT VALUES

WASHINGTON, July 28 (AP)—Blue point rationing stamps for August will overlap the September stamps by three weeks, remaining valid until September 20, according to a new Office of Price Administration ruling.

Simultaneous with that announcement last night, OPA listed several changes in point values which will become effective Aug. 1. These included:

Increases—Frozen fruits and berries from six to nine points; frozen green and lima beans, cut corn, peas and spinach from four to six points per pound; canned tomato juice at the rate of one point per pound, except for smaller cans up to 14 ounces which remained unchanged.

Decreases—Frozen fruit juices from four to two points per pound.

Canned or bottled beans are to be changed in various sizes, with some increases and some decreases, but the average will remain unchanged, OPA said.

Plans Completed For WAC Dance Saturday Night

Plans are being completed for the WAC ball to be held Saturday night at 9 p. m. at the Settles hotel ballroom and special services section at the post reported a floor show will be a feature of the event.

The post orchestra is to furnish music and cadets, enlisted men, officers, and civilians are invited to attend. Funds realized from the dance will be used to furnish WAC dayrooms at the post.

Tickets are on sale at downtown stores and will also be available at the door. WAC's will have charge of selling tickets at the door and also serving refreshments. All equipment and food for the dance is being donated by local merchants.

This initial event to be held for the Woman's Army contingent at the local post is expected to draw a large number of military and civilians. Civilians were invited by the military to assist in welcoming the WAC's to Big Spring.

Pinch-hitting for Uncle Sam

HE signs his mail John Jones, or Sam Smith, but as Chairman of a War Price and Rationing Board he is pinch-hitting for Uncle Sam.

For his neighbors he is making good America's promise of a fair share of food and fuel and the other rationed necessities for everyone. He is protecting them against the chiseler, the hoarder, the black market saboteur.

It isn't always a pleasant job. Making hundreds of decisions every week—difficult decisions, too—doesn't leave a man any younger. More than once he has turned down an old friend's application for an extra mileage ration. His own car has only an "A" sticker.

Last week he took his wife to a movie for the first time in months. A tired look around his eyes hints at many an after-hours session at the board. But he's proud he's doing his part—and more.

John Jones isn't paid for pinch-hitting for Uncle Sam. He volunteered for the job. He thought he owed it to that khaki-clad son of his—and to people in his community like you.

Your local War Price and Rationing Board is made up of men and women like John Jones. They are working hard—without pay—to see that you get your fair share. Give them your fullest cooperation.

South Seas Becomes Meeting Place For Relatives, Friends

SOMEWHERE IN THE SOUTH PACIFIC, (Delayed) July 27 (P)—The South Seas is now a place where you whack your way through jungle foliage and find your old insurance agent on the other side. Or where you walk up to a bamboo hut to discover former high school friends. These islands have become crossroads that remind one, almost, of

Scouts Choose Representatives For Program

Three senior scouts have been selected to represent the Big Spring district in the four-week senior scouting program at Camp Philmont N. M.

They are Jerry Mancil, previously announced, Ray Thomas and Lad Smith.

Plans call for scouts from this and other districts in the Buffalo Trail council (the council is allowed 16 representatives) to leave from here Friday. Scouts will pitch in and become ranch-hands, guides, camp workers, etc., for four weeks, helping visiting scouting units in utilizing the facilities of the 200-section ranch in the rugged country of northern New Mexico.

Better Than Indian Snake-Charming

SOMEWHERE IN THE SOUTH PACIFIC (Delayed) July 27 (P)—Boogie woogie lizards take a sleek down-beat at this marine corps base.

Every afternoon outside a barracks set back in the jungle, the lizards gather when the strains of rag-cut blare from the phonograph fashioned by Corporal Marshal J. Dalley, U. S. M. C., 29, of Waco, Texas.

Anywhere from six to 20 of the little reptiles, varying from three inches to a foot in length, have made the afternoon jam sessions a "must" on their social calendars. They sit entrenched until the concert is finished.

Active Despite His 90 Years

ARLINGTON, July 28 (P)—John M. Moore, 90, today, raises a Victory garden, still milks a cow, and remembers when long-horn cattle grazed under mesquite trees on Seventh street, Fort Worth.

Dallas had one store and one hotel when Moore was a boy and the main town was Jefferson, weeks away by ox teams.

Chinese Learn U. S. Practices

A U. S. INFANTRY ARTILLERY TRAINING CENTER IN CHINA, July 28 (P)—Thousands of Chinese officers and enlisted men will be schooled in American infantry and artillery practices at two new centers which the United States army has established here in the Himalayan foothills.

The centers have been operating since April 1. Scores of key Chinese soldiers already have completed courses ranging from horseshoeing to complex artillery calculations and have returned to their units to instruct others. This process will continue until the whole of the Chinese army has been affected. The instructors teach through interpreters.

Head of the infantry center is Brigadier Thomas S. Arms, 50, of Cleveland.

On General Arms' staff are sixty American instructors and eighty two Chinese interpreters. Section heads include Major John William Culmer, Brownsville, Texas.

The field artillery center commanded by Brigadier Jerome J. Waters, 51, of Springfield, Mo.

Waters' staff includes 69 Americans. Key officers include Lieut. Henry Herder, Weimar, Texas.

Believed In Giving Coeds A Break

DENTON, July 28 (P)—An infantry group from nearby Camp Howze had marched the better part of a blistering afternoon, reviewing for a Denton bond rally.

In front of Marquis Hall, girls' dormitory, here at North Texas State Teachers college, the company commander called out "right face, at ease," so that the men would not have to face the evening sun as they rested.

But back to the sun also meant thanks to the girl-lined windows of Marquis hall.

In view of this situation, the understanding commander reconsidered.

With all the dignity due a military maneuver, the group snapped to attention and "about-faced" to smile up at the co-eds.

Cheverton To Teach At Texas Christian

FORT WORTH, July 28 (P)—Dr. Cecil F. Cheverton of Los Angeles will become professor of Old Testament in Bible college of Texas Christian university on Sept. 1.

Dr. Cheverton has been connected with Chapman college, Christian church school at Los Angeles, since 1920, serving the last 12 years as president and director of the college. He is author of "When Kings and Prophets Held the State," a book dealing with the Old Testament.

NEW MEDAL—The Legion of Merit Medal (above) is the newest War Department award and is rated between the Distinguished Service Medal and the Silver Star.

MORE ICE CREAM IS PRODUCED

AUSTIN, July 28 (P)—Whether or not you can get it, ice cream manufacturing in Texas continues to mount.

The University of Texas bureau of business research reported June production of ice cream, sherbets, ices and other frozen dairy delicacies hit a new high for this month—2,391,000 gallons.

Much of the increase goes to military camps.

Creamery butter output also rose, 54 per cent to 4,275,000 pounds, but production of American cheese declined 23.7 per cent to 1,943,000 pounds.

Lyons Will Furnish Stock For Roundup

COLORADO CITY, July 28 — Stock for the 1943 Colorado City Frontier Roundup will be furnished by Bill Lyons of Henrietta, members of the Roundup directors have announced. Stock from the Lyons ranch has been used in several of the rodeos staged here in recent years.

The three-day show this year will include jack pot roping contests, jack pot team tying, bronc riding, steer riding and a jack pot cutting horse contest.

The show will be held August 12, 13 and 14.

CLUB IS AWARDED

COLORADO CITY, June 28 — The Colorado City FFA has been awarded the silver emblem for outstanding work in the activities and accomplishments of the state program for the organization. The boys work under F. C. Shillingburg, Colorado City high school vocational agriculture teacher.

The dinosaurs of the Mesozoic period have never been exceeded for bigness among living creatures.

New Tax Rate Will Effect Saving For Country's Taxpayers

Howard county taxpayers are due to save at least \$20,000 and possibly as much as \$21,000 when the new state tax rate is set.

The state automatic tax board has indicated that a minimum cut of 15 cents in the state tax rate would be effected, and that an even more drastic reduction was possible.

Even so, 15 cents off the rate on \$13,979,300 — the amount of state valuations on the last six roll—would mean a reduction in levy of \$20,968.95. It is possible that the rolls may decline as much as \$100,000 this year, which would knock \$150 off that amount, but then the possibility of a state rate of less than 60 cents might more than offset this.

The state automatic tax board is due to set its rate Thursday.

Meantime, absence of the figure is holding up preparation of tax rolls at the office of Tax Collector-Assessor John Wolcott.

Members of the board have agreed that the state general fund ad valorem rate should remain jam against the 35-cent constitutional limit in order to whittle the \$21,000,000 deficit for the fund.

The confederate pension fund was set at two cents by the legislature, a cut of five cents.

A slice of at least 10 cents from the 35-cent school rate is anticipated, although Governor Coke Stevenson was reported seeking information on the rate required to provide a \$25 apportionment. Incidentally, a \$2.50 apportionment increase would mean around \$8,000 more for city schools and possibly \$2,500 for other common and independent school districts in the county.

Kenney Honors Texas Airmen

ALLIED HEADQUARTERS IN AUSTRALIA, July 22 (Delayed) (P)—For "meritorious achievement" Lieut. Gen. George C. Kenney, chief of the United States Army air forces in the Southwest Pacific area, awarded 15 officers and enlisted men the Oak Leaf cluster.

The cluster was given these men in lieu of an additional award of the Air Medal.

Those awarded and periods of flight covered included: Staff Sgt. Hugh W. Anderson, Aspermont, Tex., Nov. 16, 1942, to March 3, 1943; 1st Lieut. Phil H. Hawkins, Panhandle, Tex., Aug. 23, 1942, to Dec. 14, 1942.

INSTRUCTOR KILLED — GLOBE, Ariz., July 28 (P)—Lt. James P. Ambrose, 21-year-old flying instructor at Majors Field, Greenville, Tex., was killed when his plane crashed and burned at Cutter Airport near here last night.

Baseball World Astonished By Ousting Of 'Bucky' Harris

New Job Comes As Birthday Gift To Freddy Fitzsimmons

PHILADELPHIA, July 28 (AP)—Easygoing Freddy Fitzsimmons took over direction of the slumping Philadelphia Phillies today in place of Stanley R. (Bucky) Harris, who described himself as "shocked" by the first managerial change of the major league season.

To "Fat Freddie", who broke into organized baseball the same year and with the same team as Harris—in 1916 with Muskegon, Mich., of the old Central league—his first major league managerial job came as a 42nd birthday gift.

Carmona Will Search Mexico

MEXICO CITY, July 28 (AP)—Ernesto Carmona V., manager of the Mexican baseball team which will participate in the amateur world series in Havana next September, will begin a tour of Mexico today to select the best players for the Mexican team.

He will go first to Cananea, near the U. S. border and return to the center of the country visiting "every city where there is reported to be good baseball."

His selections will meet in a series of games, forming three teams which will compete in Leon early in August to choose a sub-champion team. Other regional championships will be held and the winners will compete again in Leon August 21-23 for the final selection.

Action Follows Up Double Defeat At Hands Of Cards

By TED MEIER Associated Press Sports Writer

Clubhouse friction was reliably reported today to be the main reason why Bucky Harris was dismissed last night as manager of the National League Phillies in a move that astonished the baseball world.

Coming on the heels of the Phils' double defeat at the hands of the first place St. Louis Cardinals, who stretched their winning streak to 11 in a row, the news of Harris' ousting and the announcement of Freddy Fitzsimmons, Brooklyn pitcher-coach, as his successor, surprised most diamond followers.

It was a "shock" to Harris who said at St. Louis "apparently Mr. Cox (William D. Cox, new owner of the Phils) means to call me sometime and tell me of the change. At that time I expect to get the explanation I feel is in order."

Everything was lovely last February when Cox signed the former "boy wonder" as manager. Since the start of the season, however, the 33-year-old Cox, who pitched and caught in his undergraduate days at Yale and New York university, has frequently visited the players in the clubhouse after the game.

This was perfectly all right until, the grapevine reports, the youthful magnate declared, among other things, that he couldn't understand why the club wasn't fighting for the lead. Harris is reported to have suggested diplomatically that it would be better if Cox, as president of the club, sent for the players he wished to talk to instead of seeing them in the clubhouse. This apparently didn't set well with Cox, who thereupon obtained permission from Branch Rickey, Brooklyn president, to open negotiations with Fitzsimmons. "Fit" is to make his managerial debut tonight when the Phils again play the Cards.

This latest twist to a "What's gonna-happen-next" season over-shadowed the Cards' winning streak, longest of the season, and virtually shoved out of sight the fact that today is the second war relief day of the season for the major leagues.

Back on June 30, a total of 134,578 fans paid \$147,391 into the treasury of National War Relief.

The ancients thought that their Sun God alone was responsible when they enjoyed health and vigor. They made many sacrifices which they hoped would keep him in good humor.

Apollo got the Glory ...the Vitamins did the work

Fortunately, we do not have to depend upon the whims of an Apollo for safeguards for our health. Science has demonstrated over and over again that sensible living and proper nutrition are the first steps toward a robust body and an alert mind.

The entire nation looks eagerly for news about Science's continuous studies of vitamins. One fact that has been determined is that the B Complex vitamins are the least plentiful in the foods that come to your table. Physicians say that your body is quick to feel a B Vitamin deficiency, but unharmed if you get more than enough.

The home of Budweiser is one of the world's biggest sources of B Complex vitamins. They are contained in brewer's yeast, which we supply to leading pharmaceutical manufacturers. From them, our armed forces and our

civilian population obtain millions of B Complex vitamin units to supplement the daily diet when necessary. The perfection of this vitamin-rich yeast is one more result of laboratory and research work that has helped to produce the world's most popular beer.

Casualties Seen In Junior Meet

KALAMAZOO, Mich., July 28 (AP)—The Western Junior and boys tennis tournament was alert for more upsets today as play swung into quarterfinals with first-seeded stars still stepping lively but with casualties among their conferences.

Jack Tuero of New Orleans, No. 1 junior, achieved the quarterfinals with a dashing 6-2, 6-1 victory yesterday over James Janowski of Hamtramck, Mich.

In the boys division the No. 1 Herbert Flam of Beverly Hills, Calif., made the grade with a 6-3, 6-0 win over John Bucknell of Waterford, Va.

But the Junior No. 2, Charles Oliver of Perth Amboy, N. J., who also is national interscholastic champion bowed 6-4, 8-6 to Jerry Evert, Illinois state champion from Chicago, unseeded.

Rodrigo Delano of Laredo, Tex., second seeded among the boys, survived.

LOCKMAN'S RIGHT STOPS RODRIGUEZ

LOS ANGELES, July 28 (AP)—Lalo Rodriguez' string of 15 consecutive ring victories was stopped cold last night by Marcus Lockman, Pittsburgh negro soldier, who knocked out the Los Angeles coast guardman in the ninth round of their scheduled 10-round scrap.

Lockman, who cleaned through each round with hit-and-run tactics, finally pummeled Rodriguez with a hard right to the stomach, then calmly stepped aside and let his opponent topple to the canvas for the count.

Lockman weighed 158; Rodriguez 160.

In another 10-rounder, Billy Hale, 128, Los Angeles, and Eloy Renteria, 125 1/2, Mexico, fought to a draw. Two weeks ago, Hale won an unpopular decision over the Mexican and the decision tonight was no more popular. Most fans thought the Mexican had the edge.

At Any Rate He Did Win

LOS ANGELES, July 28 (AP)—"This is Whitley," said a voice on the telephone. "Put \$50 to win and \$50 to place on Profile in the seventh at Arlington."

District Attorney's Investigator Chet Sharp, who took the call while raiding the bookmaking shop, says Whitley can collect \$295—if he'll come to the district attorney's office.

Profile paid \$7.60 to win and \$4.20 to place.

Record Established By FBI Proves Truly Remarkable

On this 30th birthday of the Federal Bureau of Investigation which occurred this week, it seems fitting to say what many of us have been thinking for some time now. That is that of all agencies engaged in the American war effort none has approached so close to perfection as has the FBI.

A certain amount of espionage has occurred, and undoubtedly still is occurring, in spite of the brilliant performance of the G-men. But right down to the moment of writing there is no concrete evidence that Axis agents have got away with even a minimum or organized sabotage. Such destruction as has occurred appears to be traceable largely to cranks and, for the rest, to pro-German individuals acting on their own.

Long before Pearl Harbor, the G-men had made a complete in-

vestigation of every potentially dangerous alien. By nightfall of Dec. 8, 1941, a total of 1,771 had been rounded up, and since that time arrests have been brought up to 13,000.

The result has been to stymie completely the carefully laid plans of Hitler and Tojo to cripple American industry, transportation, communications, mobilization, training and fighting.

It is difficult to conceive of more complete success than has been achieved by the organization built up and headed by John Edgar Hoover. And, piling miracle upon miracle this agency has done without recourse to oppressive methods without outbursts of hysteria, without violation of the civil rights of respectable aliens of enemy blood.

We have criticized in the past, and expect to criticize in the future, specific flaws in the relative

purity of the FBI's conduct. These in the past have sprung largely from Mr. Hoover's major weakness, a somewhat peculiar approach to public relations, including a deplorable tendency to utilize in paid magazine articles important and interesting information which should have been given freely to the press of the nation.

But this has nothing to do with the investigatory genius of the FBI or with the administrative capacity of the man who has created the FBI as we know it today. It was only after Mr. Hoover took charge that this agency began climbing to the heights it now occupies.

And so, we feel safe in saying to Mr. Hoover and to his associates that their employers, the people of the United States, are proud of them. May their shadow never grow less.

Washington Daybook—REPORT ON WASHINGTON SLUMS IS UNLIKELY TO HAVE ANY EFFECT ON FUTURE CONDITIONS IN CAPITAL

By JACK STINNETT
WASHINGTON—Berlin, Rome and Tokyo probably would be delighted to learn that 50 per cent of the people in the District of Columbia "live under slum conditions."

When Rep. Thomas D'Alessandro, Jr., Maryland, head of the House D. C. subcommittee on Public Health, brought in that report recently, the nation's capital paused, gave a polite gasp and will now go about its business.

Mr. D'Alessandro and his committee even listed all the things that should be done about it—like getting rid of the rats that infest everything from the sub-basement of the Capitol building to the suburban churches; like making some intelligent effort to cope with venereal disease; and like getting indoor plumbing at least to the slum sections within a few blocks of Capitol Hill.

The chances are 100 - - 1 neither the revelations nor the recommendations will mean a thing. They never have. Since no resident of the District is allowed to vote, Alaska, Puerto Rico and the Virgin Islands have more representation in Congress and more weight than the national capital.

There hasn't been a president who has ever seen the slums first-hand since Thomas Jefferson tramped through the mud to the Capitol from his boarding-house. The last member of Congress intimately acquainted with them was a representative from a southwestern state who was determined to save every cent of his \$10,000 a year salary so he could go home and retire after two years with the reputation of being the richest man in his district.

The British members of the Royal Navy and Royal Air Force really take Allied cooperation to heart—and much to their discomfort.

In sweltering Washington, the U. S. Navy still sticks to its brassard rule of making all officers wear blouses (coats to you) throughout the year. In order not to lord it over their allies, the Britishers too keep on their jackets, even when the thermometer is nudging 100 degrees in the shade. At home, or in their far-flung dominions, the Britishers could strip down without break-

MURDER IN TIN

By CARL A. PETERSON

Chapter 9
I repeated. "Where is your father? Never mind about getting down I'll take you down."
"I don't know," she said, looking at me helplessly.
She had to do better than that. I thought. My skepticism must have shown in my face, for she added.
"I don't know where my father is! How many times must I tell all of you that I don't know where my father is."
I released the elevator brake and pressed the street level button for there was no point in listening to her stereotype of innocence.
We walked down the lobby and through the door to San Juan de Letran.
"Your father—" I began.
She put her hand on my arm and removed it in the second. I wondered whether the gesture was on the level or premeditated. Anyway, it made me remember that we weren't exactly alone. The Gestapo and our people had undoubtedly supplied anonymous companions. Our Gestapo escort had the more difficult job; he or she had to stay out of notice of our men.
My heart began to beat faster. I put my arm through her's. Let the Gestapo man, I thought, report intimacy between us. That was my conscious reason. Half-suppressed was another, a simpler reason.
She said. "I think we can discuss with that."
"Ordinary procedure," I said. "We're both a long way from home."
"And we're both Americans," she added sarcastically.
"That's something most people are proud of."
"Believe me," she said abruptly. "Believe me."
"Believe what?"
"My father's in hiding because he has to be. I've said that a dozen times. Every time they question me, I tell them that. Dad's life is in danger."
"Danger from whom?"
"Mirtlo."
"What about Mirtlo?"
"I don't want to talk about him."
"Why not?"
"Mr. Calder, are you questioning me in your capacity as a—" "As a friend," I said.
"A good friend," she added just as ironically. "As I see it, the one thing you want most is the safety of your father, isn't that so?"
"Yes."
"You need all the help you can get. Your father has a great many enemies."
She was silent. I pounded away at her. "You called me into your room yesterday to prove to Mirtlo that you and I were friendly. Even extremely friendly, shall I say. There was another consideration, too. You wanted to prove to him that you were protected by the Government."
"I didn't know what I was doing. He was threatening me and you seemed decent."
"Thanks very much. But you haven't answered me. You wanted

Night Clubs Face Shortages, Yet Do Huge Business

By CLAYTON J. IRWIN
(2) Features Writer
NEW YORK — So you want to open a night club and scoop up a few thousand of those war dollars with no place to go?
It looks easy. Manhattan's night club belt is jammed these dimmed-out evenings. Service men in town for a fling and civilians with war earnings they can't spend on autos and other peace-time conveniences have given the entertainment business the biggest upbeat since the slap-happy, prohibition days of the mid-twenties.
Revenues are tremendous. An establishment accommodating 100 persons probably will take in up to \$1,000 a night for the combined dinner and supper shows. That's something over \$300,000 a year, which can be multiplied four or five times in considering the gate receipts of the 500-chair establishments.
Big Money, Big Headaches
Big money, sure, and easy money too, say the owners—if you don't object to a fat headache for every ten-spot that gets fluttering into the cash register.
Let's take up the case history of the Folies Bergere, one of Broadway's newest hitlers and a built from the ground up, rather than installed in the setting of a former night club.
The Folies Bergere became a gleam in the eyes of its producers, Clifford C. Fischer, who operated the old International Casino, and Arthur Leser, in June, 1942. Both are veterans in the field, and ordinarily could have brought the show to the presentation stage in two months.
The cost, within reasonable limits, was no object. First, Leser and Fischer needed carpenters,

plumbers and electricians, but so did the war industries. Night club jobs could wait, and this one did, for months.
Dealers in second hand restaurant and hotel equipment provided some of the dining room, kitchen and bar fixtures. From theatrical warehouses came pre-war cloth for many of the costumes and some of the interior decorations. One costume called for a number of jeweled spheres—ordinarily a common item but not available now. They solved this by cementing dozens of rhinestones on table tennis balls.
Putting the revue together was another problem. The shortage of men in show business has existed since before Pearl Harbor; now, because of the demands of camp shows as well as war industries, there is an additional shortage of show girls.
Food Shortage Problems
Food and liquor scarcities presented a real job from the start.
"In pre-war days," Leser says, "there was a parade of salesmen through my office. Now, if we're lucky enough to be visited by one we rush him to a comfortable chair, load him down with cigars, inquire about the wife and children—and then he says: 'Now, brother, I'll tell you how much stuff I'm going to let you have.'"
Finally, perhaps as vital as any of the problems, is the one of help. By Leser's estimate, there are 10 jobs for every experienced waiter in the city.
Don't get the idea the night club men are unhappy, even in the face of these pyramiding complications. They're making their money the hard way these days, but they're making it—and they love it.

Hollywood—Durbin Film Is Fable Of Days Before War

By ROBBIN COONS
HOLLYWOOD — As if to compensate this year's wartime stay-at-home vacationers who wouldn't think of going near a railroad ticket office, there's quite a spot of railroading coming to the screen. And some of it is pre-war style.
Foreword to Deanna Durbin's "His Butler's Sister" sets forth: "The foods, drinks, clothes, shoes, rubber, gas and other articles consumed or used in this picture are purely imaginary and have no relation to any actual foods, drinks, clothes, shoes, rubber, gas and other articles of today, rationed or otherwise. Any resemblance is purely accidental. This is a fable of the day before yesterday."
The "other articles" include, besides butler Pat O'Brien of the title and four or five other species of the vanished specialties known as domestic help, several thousand miles of first-class railroad travel. In a luxury train, too.
Miss Durbin spent a week shuttling back and forth over nearly a mile of track, covering her trip from Centerville, Ind., to New York City. Her track system covers all available floor space inside the studio's big "Phantom of the Opera" stage, and has spurs extending through the doorway. One incident of her trip could have happened only in other days—she meets a girdle salesman.
On nearby stage 22, Allan Jones and Evelyn Ankers were set for three or four weeks of choo-chooing while making "You're a Lucky Fellow, Mr. Smith." Most of the romance—even the marriage in the end—is set aboard the milk route special. Deanna's movie trip may remind you of days gone by; the Jones-Ankers excursion will give a peek into what today's travel will be like, if you're silly enough to try it. Jones plays Private Tony Smith, U. S. Army.
Both Deanna's streamliner tracks and the Jones-Ankers locomotives are used for "Honeymoon Lodge," in which David Bruce, Harriet Hilliard and June Vincent are involved. Here the scene artists took advantage of the current shortage of redcaps to make boy meet girl.
Boarding a train together, Bruce and Miss Hilliard meet when he takes the place of the missing redcap and helps with her bags. The complication develops when they are mistaken for honeymooners—while at their destination is waiting his real bride, Miss Vincent.

Dalhart Crash Takes Lives Of 3 Men

DALHART, July 28. (AP)—The Dalhart army air base public relations office announced that three men were killed and a fourth is missing in the crash of a heavy bomber from the air base.

Five others parachuted to safety when the plane crashed Monday night about 12 miles south of the base. Names of the dead were withheld pending notification of next of kin.

Navy Recruiting Sub-Station Has Busy Week Here

Eight men have been shipped for enlistment in the Navy and six others have been processed during a busy week at the U. S. Navy recruiting sub-station here, Fred Baucum, recruiter, announced Wednesday.

Four who were shipped for Seabee (construction battalion) enlistment were Lee Roy Beavers, Odessa; W. F. McDowell, Lindale; Elzie B. Burleson, Lamesa, and Ralph Eugene Moore, Odessa. Glenn Hardy Parrott, Midland, shipped for general service, did not complete enlistment.

Among those shipped for general service (V-6) were Velutin Johnston, Odessa; Ray Melvin Kimball, Odessa, and Sammie Joe Smith, Odessa.

Processed and awaiting shipment were Royce Douglas Porter, Borger; Billy Joe McSpadden, Odessa; Wade Hampton Willison, Pittsburg; Edgar Maurice Young, Pittsburg; Jack Woodson Kimbrough, Odessa, and Howard Dee Bynum, Colorado City.

Baucum said there was an increasing response to appeals for Seabee enlistments on the part of men with construction and other skilled trade experience. He also cited a quickened tempo of enlistments by 17-year-old boys in this area. Complete information concerning all naval enlistments—including those for the WAVES—may be had from Baucum in the postoffice basement.

wondered how effective I was in this dust-throwing game. "You can't set a peso value on your father's discovery. Is it worth five million pesos? Ten? It's tin and we're short of tin in a war for our existence."

"Look here," she said "if you sincerely and honestly will protect my father, I'll do my best to help you."

"I'll do my best," I said.

"Do you know who Chevalle is?"

"No."

"He's a Frenchman, the owner of several novelty shops who came to Mexico years ago. I phoned Chevalle about an appointment—Chevalle was a poor man when he first came to Mexico. I remember dad saying he had made Chevalle rich and that if he ever was in a tough spot he could count on the man he had made rich."

"You feel Chevalle an aid you? But why this particular man in this particular city? Your father's grateful backers can be found in Rio de Janeiro, Buenos Aires —" "I don't like your sneering tone."

"It is Mexico City because you know your father's here now? Why Chevalle?"

She glared at me, her eyes open wide, her lips parted and I felt what she wanted me to feel. That I was rude and stupid and clumsily suspicious.

"Let's get some dinner," I said. She hesitated. "All right."

Applicants Await Certification

Efforts were being exerted by the Big Spring Bombardier School and by the local US Employment Service office Wednesday to have a representative of the civil service come here to certify to a large number of applicants for positions.

Approximately 30 persons are awaiting this certification in order to go to work awaiting them at the bombardier school.

quests for the unconditional surrender of Italy.

2. Dispatches from Istanbul told of a hasty and mysterious conference at sea between the Italian and Turkish foreign ministers, suggesting that Turkey might serve as a go-between in peace or armistice negotiations.

3. Madrid heard that Italy would continue the war on the side of the axis only if Germany gave adequate aid for the defense of southern Italy against the threat of Allied invasion.

4. Swiss dispatches said the Germans were preparing a strong defense line along the Po river in northern Italy.

5. Turkish reports said German troops were massing at several points along the Hungarian frontier, in the wake of nazi pressure attempting to prevent Hungary from withdrawing from active participation in the war.

6. A Budapest broadcast declared that Athens, the capital of Greece, had been placed under 8 p. m. curfew as a result of "events of the past few days."

7. Reports from the Balkans said Italian troops were being partially evacuated from Greece and Albania.

8. The Algiers radio said nazi troops in considerable numbers were heading northward through Italy, indicating that Germany was doubtful of the new Italian government's intentions.

The obvious implication was that the Germans were either seeking to escape before Italy should surrender or were abandoning southern Italy.

9. Swiss Telegraph agency reports from the Italian frontier declared without confirmation that Marshal Badoglio's regime was "discussing conditions of an armistice" in Vatican City, and dispatched to Spanish newspapers said the Vatican was a heaving of extraordinary activity. NBC quoted the Rome radio, however, as saying reports of Italian peace overtures were "unfounded."

10. Travelers reaching the Swiss border from Italy reported serious clashes between die-hard fascists and regular Italian army troops, chiefly in Milan, the birthplace of fascism.

Turin, Bologna, Genoa and other northern Italian cities reported disorders as the population reacted to the downfall of Mussolini, demanded the ouster of nazi troops in Italy, and clamored for peace. Many fascists were placed under arrest.

New Air Staff Chief Is Texan

WASHINGTON, July 28. (AP)—Major General Barney M. Giles, a native of Mineola, Tex., has succeeded as chief of air staff Major General George E. Stratemeyer who "has been given an undisclosed assignment of extreme importance."

The appointment was made yesterday. General Giles entered the army as an enlisted man in the aviation section of the signal corps in 1917, has been assistant chief of air staff for operations, commitments and requirements.

Ants Take Shelter From Tropical Storm

HOUSTON, July 28. (AP)—Thousands of ants took shelter in residential garages yesterday during the tropical hurricane.

One owner reported today that he found ants crawling over the walls and concrete floor. The ants brought along their eggs which he found stacked in a pile in one corner.

Oil Man Dies

EL DORADO, Ark., July 28. (AP)—S. L. (Lon) Cronin, head of the Pure Oil company's land department for many years and the man who opened the Van pool in Texas, died here today at the home of a son, Crawford L. Cronin.

Fairview School To Be Closed

At least one Howard county rural school will be non-operative this year.

Trustees of the Fairview district met Monday night and decided that, in view of a decline in scholastics, it would be impracticable to operate a school this year. Pupils in the district will transfer to Knott, Moore or Big Spring.

Whereas at one time Fairview had as many as 60 scholastics, it was estimated that not more than 10 or 12 would attend classes there this year. Trustees felt this was not a sufficient number to justify school operation.

About 75 scholastic transfers have been filed with the county superintendent's office, Walker Bailey said Wednesday. Transfers must be made before August 1, and he estimated that the total will run more than 100. He urged promptness in filing of the transfers.

Storms

of Houston.

A torrential downpour accompanied the hurricane. The Houston weather bureau recorded 6.23 inches during the day and night and the municipal airport station registered 6.34 inches.

During the height of the storm gusts of wind ranging from 100 to 132 miles an hour velocity were reported by the weather bureau.

Steel towers at Baytown constructed to stand a 120-mile wind were blown into the channel.

Capt. E. T. Dawson, chief game warden for 43 Texas coast counties, said the hurricane badly mauled a portion of the coast's \$50,000,000 wildlife resources.

Raymond C. Prowse, Houston's chief air raid warden, activated 8,000 wardens in every section of the city. They stood by on guard and aided in rescue and clearance work.

Capt. Louis P. Blanton, Longview, Tex., is on temporary duty at Baker hotel, Dallas, where he is attending a conference. He is post transportation officer.

Grange Takes Issue With Labor Leaders

WASHINGTON, July 28. (AP)—Farm spokesmen took sharp issue with labor leaders on home front problems today, the national grange appealing to the administration to resist labor's demands for either a rollback of food prices or general wage increases.

Either or both steps, said the executive committee of the grange, one of the major national farm organizations, would "deepen our impending good crisis and eventually bring about uncontrolled inflation and collapse."

The grange found fault with arguments of the American Federation of Labor (AFL) and the Congress of Industrial Organizations (CIO) that food costs had advanced out of line with wages.

"We are spending for food but 21 per cent of our income, believed to be the lowest percentage of any nation on earth," the grange committee said. "This is in vivid contrast with the 60 per cent in England, whose rollback subsidy program we are asked to use as a model. Yet even at the low figure of 21 per cent, we have raised our dietary standards sharply."

The policy demanded by labor, said the grange committee, would result in further serious curtailment of "our food supply which already has suffered because of unsond, impractical and restrictive regulations by the Office of Price Administration (OPA)."

The farm organization asserted that the real problem confronting the country was an excess of purchasing power over consumer goods and that this was increasing at the rate of two billion dollars a month. The grange said, must be reduced or closed by siphoning off surplus income through taxation and systematic savings.

Polio Incidence Nation's Highest In Twelve Years

WASHINGTON, July 28. (AP)—The U. S. Public Health Service reported today that the incidence of infantile paralysis had reached epidemic proportions in several southwestern states and that cumulative figures for the entire nation during the first six and a half months of the year were the highest in 12 years.

A sharp rise in the number of cases since early June was largely accounted for by outbreaks in Texas, California and Oklahoma, doctors of the service said, adding that no specific cause could be assigned for the situation and that no predictions could be made as to the possibilities of a further spread.

Latest available figures—for the week ended July 17—showed 297 cases in the United States, as compared with 245 for the preceding week and a five year average of 101 cases.

In the latest report, 231 cases, or 94 per cent, were reported from three states—Texas, which had 102; California, 90, and Oklahoma, 39. During the first week in June, Texas reported six cases, California eight and Oklahoma none.

HOUSTON, July 28. (AP)—In a search for the elusive carrier of infantile paralysis germs, Dr. Austin E. Hill, Houston health director, today launched research studies which will seek to relate rainfall, temperature and sanitation to the source of the disease.

Other records under investigation include the types of street paving in areas where cases of infantile paralysis (poliomyelitis) have developed, the sanitary sewerage conditions in those areas, and the incidence of other diseases such as diarrhea, intestinal disorders and meningitis.

Here 'n There

Contract for transferring mail between the postoffice and depot, and from the bus terminal to the postoffice, has been awarded to J. L. Hull, Postmaster Nat Shick announced Wednesday. This is the route handled for several seasons by Doug Thompson.

John Ross Williamson, now with the Petroleum Administration for War, is visiting here for a few days. For several years with the railroad commission in Texas, Williamson has been working out of Houston in his new capacity. He is a former Big Spring resident and Mrs. Williamson is the former Vera Debenport.

Police confiscated an air rifle from several boys after residents complained that attempts were being made to hit street lights at Runnels and 10th. Later police made calls to 1710 Runnels where other boys were reported bothering a street light.

Revival Announced

Announcement is made of a revival meeting to be held at Hartwells beginning July 30 and continuing through August 8. Rev. T. M. Harrel, pastor of the Lees community, will conduct the meeting, assisted by Rev. Jesse McElreath. The public is invited to attend all services.

Free Oil Logged In Cosden Test

Some free oil was logged Wednesday in the Cosden No. 1 Chester Jones, southeast offset to the discovery well in the Vincent pool, but far below the pay horizon in the pool opener.

Reports Wednesday noon showed the test, located 660 feet from the northwest lines of section 5-25, H&TC, had drilled to 4,318 feet. Not only was this far below the completed depth of 4,096 feet for the Gutherie & Cosden No. 1 Allen, which is the first and thus far only production in the area, but its formation also was conjectural. Some picked the pay streaks as the same in the No. 1 Allen, which in turn was called generally as the Clear Fork, while others believed it was totally different. There were alternately soft and hard spots with intermittent stains and saturations.

Other tests in the vicinity were reported as follows: W. S. Gutherie & Cosden No. 2 Pauline Allen, northwest offset to the discovery and in section 57-20, LaVaca, at 2,828 feet in lime; Cuffield & Gutherie No. 1 Guy Coffey, east offset in section 58-20, LaVaca, at 2,054 feet with a fishing job; and Magnolia No. 1 Willis Winters, south offset in section 6-25, H&TC, at 2,140 feet after topping lime, possibly a little low on structure, at 2,133 feet. However, the top was not definitely established at that depth.

In eastern Howard county, the Cosden No. 1 Read, west outpost to the new Read pool, was reported cleaning out after drilling plugs from 5 1-2 inch string at 2,508 feet.

WAC Recruiter In Big Spring

The first WAC recruiter ever assigned to Big Spring, except on detached service, was on duty in the U. S. Army recruiting office in the postoffice basement Wednesday.

She was Lieut. Mary Frances Goldmann, formerly enrolling officer for WACs at the West Texas District Recruiting and Inducting Headquarters in Lubbock. Prior to that, Lieut. Goldmann had been assigned to Shreveport, La.

Her arrival was taken as a signal for intensification of WAC recruiting efforts in this area, for the Army has been following a policy of letting members of the Women's Army Corps talk to other women about enlistment.

Still assigned to this station as a recruiter is Sgt. Ray Noret, who this week returned from two weeks of detached service at Amarillo, where an intensive WAC recruiting campaign was waged.

Boy Scouts Set Up Broad Program

Boy Scout leaders of the Buffalo Trail council Tuesday evening committed themselves to an ambitious program for the fiscal year beginning Oct. 1, and set up a budget to care for expanded operations.

The final figure, although not definitely established, will be around \$26,200 for the 16-county council area. This compares with total pledges of little less than \$2,200 for this year.

At the executive board meeting here Tuesday evening, leaders from almost every district in the council voted to increase a proposed \$25,000 budget by five percent.

The Big Spring district, which pledged \$4,065 this year and which will reach or exceed the amount by the end of the fiscal year, accepted a quota of \$4,700. The Big Spring district is the only one in the council which has committed itself to the task of

Wall Street

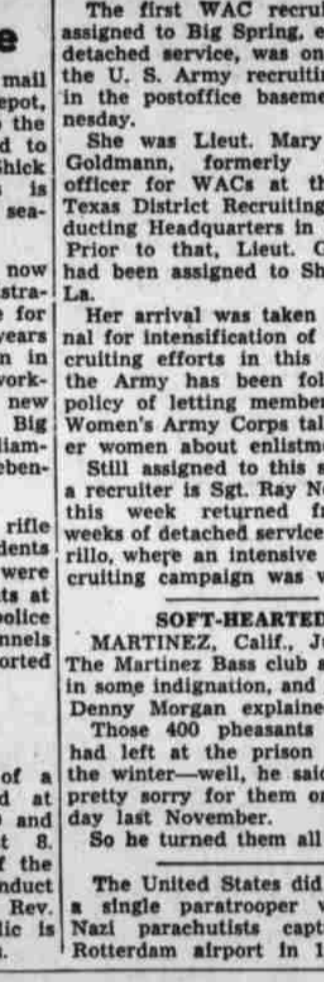

NEW YORK, July 28. (AP)—An irregular recovery in the stock market was canceled by another selling movement in the late proceedings today. Most leaders showed final hour losses ranging from fractions to around a point.

The pressure lacked the force of Monday and Tuesday when the Associated Press 60-stock average dropped 1 point and 1.3 points respectively but again there was marked weakness in certain issues.

Steels, motors and rails, fairly prominent on the early rally approached the close with declines ranging to more than a point.

Also on the loss side were Good-year, Montgomery Ward, Woolworth, Douglas Aircraft, Western Union, American Telephone, Johns-Manville, U.S. Gypsum, Southern Railway, Great Northern, Santa Fe and Standard Oil (N.J.) A few key industrials were resistant.

Have a "Coke" = Dinkum Cobber
(HOWDY, PAL)

"You're a dinkum cobber", says the New Zealander when he wants to call you pal. The American soldier says it another way. Have a "Coke", says he, and in three words he has made a friend. It's a phrase that says, "Welcome, neighbor" from Auckland to Albuquerque. 'Round the globe Coca-Cola stands for the peace that refreshes—has become the high-sign between kindly-minded people.
