YOU remember him when he was fresh from college - lithe and healthy and fit. He wants to keep as young and as athletic as he was then.

Here's a delicious ready-to-eat cereal that will help. Made especially for active people. Serve Kellogg's PEP Bran

These better bran flakes are full of a flavor men love. But even more important, they're filled with whole-wheat mourishment. Whole wheat is a favorite food for active people. Nature has made it a storehouse of the food elements that build and nourish. And just enough bran to be mildly laxative. An ideal dish for the whole family.

Have Kellogg's PEP Bran Flakes for breakfast tomorrow. For your own lunch. For the children's supper. Made by Kellogg in Battle Creek. In the red-and-green package. Qual-ity guaranteed.

ACKNOWLEDGING

THE TRUTH

-A STATEMENT BY THE GILLETTE SAFETY RAZOR COMPANY

The \$2 Kroman De Luxe blade has been withdrawn from production. We offer the Blue Super-Blade as its successor. This sensational blade is far superior to the Kroman and costs considerably less. You pay only a few cents more than for the regular blade and get unmatched shaving comfort. Its extraordinary shaving performance will convince you that the Blue Blade is the sharpest ever produced. A blue color has been applied to the blade for easy identification. It is contained in a blue

package, Cellophane wrapped.

We discovered and purchased for our exclusive use and at the cost of millions of dollars a manufacturing process that was amazingly

superior to our own. By this method, modern and automatic, millions of blades can be made at top speed without

variation in quality. We incorporated refinements of our own invention and installed the new machinery, throwing

out all of our old equipment.

Now we announce today's Gillette blades, made by the new management. The usual superlatives have no place in this sincere statement of ours, so we will let the quality of the blades speak for itself. The green Gillette package remains unchanged, but the blades are new in every respect, quality, performance, and method of manufacture.

> You can try today's Gillette blades without risking a cent. If you don't agree they are superior, return the package and your dealer will refund your money. Our reputation depends upon the proof of these claims. Being absolutely certain of the quality of these Gillette blades, we do not hesitate to make this statement over our signature.

Mr. Birdwell liked to talk of his Ranger days. He said that there was once a time when he went for a whole year without seeing a single white woman. When he dispars a home and saw one sitting on the porch holding a child; he

broke down and wept. He recalled often an experience then he and some other men wer lone on the prairie with nothing eat except a little water, some alt and flour and no utensils for coking. He often asked his boy what they would do in such emer encies. Then he told what he did Because there was not enough wa ler to wash, he was selected to make bread because his hands were the cleanest. He selected a green stick from a mesquite, made ween need it a

## DO YOU INHAL

## Silence may be golden

... but is that why other cigarette advertising is generally silent on this question?

WHEN the truth hurts—it's only natural to avoid the subject! Inhaling has long been an,"untouchable" topic in cigarette advertising. And no wonder! In every tobacco leaf-even the finest, the mildest-nature hides certain impurities which, when not removed, are unkind to delicate membranes!

Andsince, knowingly or unknowingly, every smoker inhales some part of the smoke from his or her cigarette, Lucky Strike developed that great scientific process which removes certain impurities. Luckies created that process. Only Luckies have it!

Do you inhale? Morethan 20,000 physicians, after Luckies had been furnished them for tests, basing their opinions on their smoking experience, stated that Luckies are less irritating to the throat than other cigarettes.
