HOME TOWN TALK

By Beddy
Development of rural communities in Howard and adjoining counties is very apparent. Two large sections of the county are petitioning for free mail delivery service. The Kuyt community is, as a community enterprise, arranging to install a telephone exchange.

Growth in rural population of the county was as rapid during the past decade as that within the city. This was due to two factors; agriculture and oil.

One of the best signs of development in the county is the erection of new, modern school buildings in several districts. Knott arranged a consolidated district the past year. Elbow, Lomax, Moore, Soash, Hartwells, Midway and other districts have made or provided for either improvements to the present buildings or entirely new structures and equipment.

The county commissioners' court is to be complimented for the work done on county roads. Bridges, culverts and grades have been kept in good condition.

The man who cannot vision very much more development in Howard, Glasscock, Mitchell, Martin, Midland, Andrews, Borden, Dawson, Gaines, Ector and neighboring counties is indeed short-sighted.

When Captain Marcey and his soldiers fought in 1849 for possession against Indians of water holes near where this city now is he did not believe that what he then termed a desert would ever be cultivated to a variety of crops. He did not believe, we fancy, either that the soil was fertile or that there would be sufficient rainfall.

He did not believe any city could be sustained along the slopes of the rugged mountain-hills hereabouts. The stage road he surveyed, we are sure, he figured would always be a stage road, and that it could never be supplanted by a railroad.

Much vision would have been necessary to have believed anything else.

But we have today persons just as bereft of vision as Captain Marcey would have been if he did believe all these actualities of today were impossible.

There are folks who believe Big Spring will not grow any stronger or larger than she is today. There are those who feel that, after all is said and done, this is not a farming country.

As long as men and women of the hardy pioneering instinct, the will to work and to win are born and emigrate into these parts this country will develop. More people raising more stuff to more consumers and shipping to more buyers will

GAUGE OF PENN POOL WELLS ORDERED AFTER MEETING IN FT. WORTH

FORT WORTH, July 24 (AP)—Instructions to make potential gauges on all wells in the Penn pool of Ector county were issued to Ray W. Richmond, provoking umpire of the Yates pool, who will be in charge of Ector county production temporarily, at a meeting of the advisory committee meeting in Fort Worth Thursday morning, at which W. L. Todd, chairman, presided.

Another meeting will be held next Monday in Fort Worth at which time allowable production figured from Richmond's gauges will be discussed and necessary adjustments made. No official order from the railroad commission has been received, but it is understood it will cover allowable production passed on market outlet from pipe line company nominations and will set a maximum production of 15,000 barrels daily.

Production in Ector is to be based 100 per cent on average potential of 40 acre units with special units for wells producing 150 barrels or less.

In addition to Todd those attending the early session were F. J. Adams, Gulf Production company, Fort Worth; L. E. Barrows, Texas company, Fort Worth; H. E. Marsh, Amarada Petroleum corporation, Fort Worth, and C. W. Alcorn, Shell Petroleum corporation, Dallas.

NEW YORK, July 24 (AP)—Michael Handler, a grey-haired timid little man who said he formerly was a member of the soviet ogpu, or secret police, and had been smuggled into the United States from Cuba, today gave testimony tending to show that the Amtorg Trading Corporation was connected with ogpu.

NEW YORK, July 24 (AP)—The congressional committee investigating communism in the United States has issued a subpoena for V. P. Delgass, vice president of the Amtorg Trading Company, who has been mentioned as the American head of the ogpu, soviet secret political police.

Delgass had been ordered to appear at the hearing yesterday but was not there. Again this morning he was absent, and P. A. Bogdanov, Amtorg president, said he had told Delgass on both days to present himself.

Counsel for Amtorg, official purchasing agency in the United States, told the committee he believed the cause of Delgass' non-appearance was the statement of Grigory Besedovsky, former soviet charge d'affaires at Paris, that Delgass was American head of the ogpu.

The Besedovsky statement, presented several days ago also asserted that communist propaganda is being disseminated in America through Amtorg.

During the examination of Feodor Zivakin, general manager of Amtorg and secretary of the board, Chairman Fish brought out that Zivakin had held government positions in Russia and asked him if he had not been held of the choka, secret police, in Rostoff. Zivakin said he had not been.

Chairman Fish elicited from the witness that he had long been a communist in Russia but had resigned from the party when he came to this country.

Zivakin testified that although he was sent to this country as general manager of a company spending more than \$100,000,000 a year, his previous business experience consisted of apprenticeship in the shops of a locksmith and a carpenter and service for seven years as a bookkeeper.

IN TEXAS DEMOCRATIC SENATORIAL RACE

Here are three candidates for the Texas democratic nomination for United States senate. Left to right: C. A. Mitchner of Sherwood, Morris Sheppard of Texarkana, incumbent and one of authors of eighteenth amendment, and R. L. Henry of Houston, who advocates repeal of eighteenth amendment.

PIONEER RESIDENTS OF HOWARD COUNTY TO HOLD FIFTH ANNUAL REUNION HERE FRIDAY AT COTTONWOOD PARK; PROGRAM FINISHED

"Old-Timers"—the early settlers of Howard county—will be back in the city of their choice years ago Friday when the fifth annual Old Settlers Reunion is held at Cottonwood Park.

According to officers of the organization approximately 400 are expected here for the annual event. Many residents of Dawson, Glasscock and Tom Green counties, who lived here years ago, are expected to attend the reunion.

Howard county residents for 23 or more years and their families are eligible to attend the reunion. A charge of \$1 will be made, the money to be used to aid in defraying expenses of the event.

An all-day program, starting at 10:30 o'clock and ending with a dance Friday night will be given. The feature of the day will be the picnic and barbecue at noon. Barbecued mutton and beef will be furnished by the association. Baskets will be brought by families attending the reunion.

The most interesting feature of the day, however, will be the recalling of old times in this county. Several will attend the reunion who were residents of this county when it was "pine shack and prairie," and will relate their experiences during the day.

A special part of the program has been set aside for talks by the old settlers. This will be held Friday afternoon, prior to election of officers for the year.

Candidates Head Toward Home As Reckoning Nears

By The Associated Press
One more day of campaigning remained after Thursday for the eleven candidates for the Democratic nomination for the Texas governorship, at least seven of whom were drifting homeward today, somewhat husky-voiced, after weeks of intensive campaigning.

Clint Small was back in his home territory of West Texas, to speak in the afternoon at Ranger and at Abilene tonight. Ross S. Sterling, fresh from a homecoming celebration.

ASPIRANTS TO LOCAL OFFICES TO BE HEARD

Candidates for Howard County offices will fire their final campaign guns tonight when a strenuous speaking tour that has included practically every voting box in the county is brought to a close at Big Spring.

At 8 o'clock tonight the candidates will speak in the interest of their various campaigns at the Howard County courthouse. The speaking will be held on the lawn, with W. R. Purser as chairman.

Practically all of the candidates will appear. Those having opponents will speak probably 15 minutes each, while those who go into the primary Saturday without opposition will be limited to one minute each.

The public speaking tonight will be the final one of the campaign. Electioneering Friday and Saturday will be confined to last minute issuance of cards with several mail campaigns and a number of house to house canvasses underway.

Rev. Heard Quits Local Pastorate
Resignation of Rev. Dew H. Heard, for the past six years pastor of the First Baptist church, was tendered to a conference of the congregation Wednesday evening by the pastor, effective immediately, and was accepted, according to leading members.

Mr. Heard was called here in July, 1924, from Waskler, Texas. He was the oldest local pastor in point of service. During his pastorate the First Baptist church withstood loss of a building by fire and came back to build a new \$100,000 house of worship that is one of the most complete church plants in West Texas.

OFFICIALS LIST 1,778 AS RESCUE PARTIES DIG INTO RUINS OF ITALIAN TOWNS

NAPLES, July 24 (AP)—Government officials this afternoon expressed fear that the earthquake death list, officially given out at noon as 1,778, might be far exceeded as the count progressed. Unofficial reports said 3,025 bodies had been taken from the ruins throughout the devastated territory.

The same report said that the dead in the volcanic crater city of Melfi were increasing in number every hour as the work of rescue parties in the ruins progressed.

The report said the cemeteries in that town had been completely filled and that 200 bodies had to be taken by train to Foggia for burial.

Upon receipt of this information the Bank of Naples placed 500,000 lire at the disposal of the government for relief work.

ROME, July 24 (AP)—Government agents today counted the dead in 85 cities and hamlets in the earthquake area and announced the known death list was 1,778 with 4,264 known injured. That more victims would be taken from the ruins as rescue work progressed was most probable.

The province of Avellino contained 1,392 killed and 2,072 injured, and led the list of losses by more than a thousand. In Potenza 222 were dead and 535 injured. In Foggia 1,587 were maimed and 120 killed. Benevento had 24 dead, 87 injured. Naples reported eight killed and thirteen injured in two towns of that province. In Salerno two provinces reported serious damage in the town of Canosa but apparently no persons injured. Campo Basso experienced heavy damage with none killed or injured in the three towns affected.

After receiving these reports from Undersecretary of State Leonni, Premier Mussolini issued an edict to prefects throughout the country forbidding public or private subscription lists in aid of the victims. The government organized relief and supplied the means of burial for all victims as fast as the thousands of workers could reach those tasks.

The duke announced that the council of ministers had taken all necessary emergency measures.

TWO ARRESTED IN CITY POLICE RAID ON CAMP

Chief of Police E. A. Long and Patrolman Howie, armed with a search warrant, swept down on the Big Spring Tourist Camp, West Third street, this morning, obtaining a quantity of beer and making two arrests.

The proprietor of the tourist camp will be turned over to federal authorities. He will appear in Abilene Friday. A federal agent appeared on the scene of the raid soon after it was completed.

A charge of aggravated assault will be lodged against a youth arrested at the camp. He is alleged to have struck Howie with a hammer.

Bank Shortage Causes Charge Against Four

BRADY, Texas, July 24 (AP)—Two men connected with the Commercial bank here remained at liberty today, although warrants for their arrest had been issued. Bonds of \$5,000 each had been set for S. S. Graham, assistant cashier, and Leo Campbell, bookkeeper, after a shortage of approximately \$92,000 was discovered in the bank's accounts.

Graham and Campbell were arrested yesterday. One of the other men was out of town and the other was ill in a hospital.

W. D. Crothers, vice president of the institution issued a statement asserting that the bank was in sound condition and \$100,000 was received from the federal reserve bank at Dallas, which telegraphed that more money would be sent if needed.

GULF COAST MEN STRIKE

Longshoremen Quit Work at Port Arthur

PORT ARTHUR, Tex., July 24 (AP)—Strike of 450 members of Local 446, 1029 and 1175, International Longshoremen's Association, was officially declared in effect today against C. Flanagan and Sons, vedore contractors, following a joint meeting last night of officials of the three locals and President Mickey Dwyer and Secretary Frank Mallin of the Gulf Coast district.

Dwyer and Mallin who reside in Galveston came here on call from local union officials.

The Gulf Coast district includes Houston, Galveston, Port Arthur, Beaumont, Orange and Lake Charles.

Cause of the strike, according to union officials, is due to alleged use of unfair labor by the Flanagan Company.

The trouble is of long standing, having started August 31, 1929, when contract between the union and Flanagan expired. According to I. L. A. members, Flanagan tentatively agreed to let the contract run until the first of September when negotiations were to be started looking to an amicable settlement of the differences. This verbal agreement had been lived up to by both sides, according to officials of the union, until about two months ago, when several members of the I. L. A. withdrew and formed the Independent Dock Workers Union. Following organization of this body three riots occurred in which D. Moiss, president of the Independents, was bound over to the grand jury and released on \$1,000 bond on charges of assault with intent to murder in connection with the shooting of John East, I. L. A. member, at an independent meeting on July 10.

CHICAGO, July 24 (AP)—The Associated Press carried the erroneous report last night that Mrs. Della Burke, 71, the mother of Billie Burke-Ziegfeld, died at the home of friends here.

The erroneous identification was made to the coroner's office, which today learned that the actress' mother died eight years ago. The Mrs. Della Burke who is dead here was not related to Billie Burke and has not been identified further.

BLAME GANG WITH DEATH

Poor People Cover Casket of 'Jerry' Buckley

DETROIT, July 24 (AP)—The Detroit News says that Police Commissioner Thomas C. Wilcox admitted today that his statement that he has an affidavit accusing Jerry Buckley, slain radio announcer of receiving \$4,000 from a racketeer, is false.

GANGSTERS FACE DEATH

Kansas City Bandits To Be Hanged Simultaneously

KANSAS CITY, July 24 (AP)—Three gunmen who shot a path through a Republican national convention crowd June 14, 1928, to escape after robbing the Home Trust company in the manner of the old West, today faced the certainty of death on the gallows Friday morning.

Gov. Henry S. Caulfield announced yesterday he would not stay the triple, simultaneous execution of the bandits, condemned for the slaying of James H. "Happy" Smith, who pitted his courage against the automatic firearms of the bandits and three companions.

The men under death sentence are Tony "Lollypop" Mangiaracina, dandy of the Italian colony; Carl Nagello, olive-skinned machine gunner, and John Messina, driver, whose mistake led to the capture of the gang.

A platoon of guards with machine guns at strategic points and powerful floodlights on the county jail are the sheriff's answer to repeated rumors a last minute delivery will be attempted.

Six bandits participated in the robbery, accomplished to the accompaniment of a rattling machine gun and roaring shotguns. From the haven of a vault a bank employe drove off the robbers with tear gas bombs after they had gathered up \$19,000.

The retiring robbers turned their guns on a convention crowd thronging the street and made a spectacular escape. Patrolman Smith, a charge of buckshot in his neck, died as he shot the windshield from the bandits' car. Four others were wounded and one witness died of heart failure.

CELEBUNE, Tex., July 24 (AP)—E. S. Newton, 87, Santa Fe Railway purchasing agent, died at his home last night of a heart attack.

said, Buckley demanded and received sums aggregating \$4,000.

Commissioner Wilcox is to appear before the city council today with a report of progress in solving the city's latest and most sensational slaying by gangsters. There were indications that the commissioner's resignation would be asked if that report did not convince the council that progress is being made. Wilcox promised the most thorough cleaning the city has ever seen and at the edge of the city the state police post has been augmented by all men available from other posts to assist in the cleanup.

DETROIT, Mich., July 24 (AP)—While poor people who considered "Jerry" Buckley their champion today, were contributing funds to blanket his casket with flowers, police said they had in their possession an affidavit purporting to show that the radio announcer who fell before a rain of bullets early yesterday was extorting money from bootleggers.

Buckley was political commentator for Station WMBC and had taken an active part in the successful campaign to recall Mayor Charles Bowles. He was slain in the lobby of the El Salle hotel, where he lived and, in which the radio station is located, two and a half hours after he made the announcement that the mayor had been called from office in Tuesday's special election.

His brother, Paul, former assistant prosecutor, declared "Jerry's" activities for the recall was the "sole reason" for the slaying. Police advanced other theories—that he had made gangland enemies through his attacks on gamblers, that he was witness of a gang slaying, that he might have been extorting money from gamblers and bootleggers.

Helped Poor "Jerry" Buckley championed the cause of the unemployed last winter when thousands were in distress. He broadcast pleas for aid, directed programs of cheer to them and, according to intimate friends, spent all his savings in responding to personal requests for money.

His efforts in their behalf won him the friendship of the poor. An announcement by Police Commissioner Thomas C. Wilcox that he had a sworn statement from an admitted bootlegger accusing Buckley of extortion revealed that the police were investigating an assumed possible connection with the underworld as one of several theories for the slaying.

The name of the accused was withheld. The affidavit said that Buckley had induced him to take up liquor running. After he became connected with a prosperous bootlegging gang, the affidavit

Ends Piles Quick

Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad circulation of the blood in the lower bowel. Cutting and external remedies can't do this—an internal medicine must be used. HEM-ROID, the prescription of Dr. J. S. Leonard, a specialist, succeeds, because it removes this blood congestion and strengthens the affected parts. HEM-ROID is sold by druggists everywhere, and has such a wonderful record of success right in this city that Col. line Hines says to every Pile sufferer, try HEM-ROID at my risk. It costs and all the agony at you get more money back—also.

Ross Sterling, Houston, Candidate for Governor

The Candidate of a Generation

The men and women whose names appear below, a Committee of Five Hundred from the membership of the West Texas Ross Sterling Club, address this message to their fellow West Texans in behalf of Hon. Ross Sterling, candidate for Governor. Sterling is the man to whose candidacy every Texan can point with pride. He is clean. He is capable. He is a conspicuous success in every task he has undertaken, whether in his private affairs or in the public business. He is the one and only Harmony candidate, representing the New Deal. He has never held an elective office. In an appointive capacity he has had the handling of more than ONE HUNDRED MILLION DOLLARS of public funds without the finger of complaint or shadow of suspicion. He has no friends to reward, no enemies to punish. He wants to be Governor ONLY for the good he can do, for the service he can render his fellow Texans. It must be apparent to all now that the issue in this campaign has been drawn as between the forces of Progress and the forces of Reaction. The question is: Who, in the second primary, shall stand as the champion of Progress and be elected Governor of Texas? THE ANSWER IS ROSS STERLING. He has emerged from the field as preeminently the strong man in the race. He is the perfect representative of the great body of Texas voters, representing a large majority of the electorate, who are unalterably opposed to the reckless, irresponsible, illogical and dangerous school of politics attempting to enthroned itself again at Austin. Sterling is the ONE MAN upon whom all classes opposed to Reaction and Demagoguery can conscientiously and happily unite. We urge every Texan not to waste his vote. We urge the people of Texas, and especially those of West Texas, to join us in casting their ballots WHERE THEY WILL COUNT. We urge them to join us in vindicating the good name of our state at this most critical hour, by putting Ross Sterling into the Governor's chair.

SIGNED BY THE FOLLOWING SUPPORTERS OF ROSS STERLING:

reasons why
it's wise to
choose a
Chevrolet Six

Because—

- 1—it is a Six
- 2—it has a 50-horsepower engine
- 3—a Six is smooth and quiet
- 4—of its long engine life
- 5—for average driving, it gives 20 miles to the gallon of gasoline
- 6—it uses much less oil
- 7—the engine is the valve-in-head type
- 8—the valves are easily adjustable
- 9—the engine has a 48-pound accurately balanced crankshaft
- 10—it has a torsional harmonizer

Because—

- 11—the carburetor is equipped with an accelerating pump
- 12—each cylinder and valve is surrounded by water, giving uniform cooling
- 13—the engine is equipped with an air cleaner
- 14—it has a crankcase ventilator
- 15—it has a hot-spot manifold
- 16—the carburetor is fed by a positive fuel pump
- 17—the oil pump is of the vane-type
- 18—the piston pins are made of chrome-vanadium steel, chromium-plated
- 19—the spark plug wires are heavily insulated
- 20—the Delco electrical system is protected with a fuse

Because—

- 21—the valve-operating parts are sealed and automatically lubricated
- 22—the special Chevrolet combustion chamber makes high compression possible with ordinary fuel
- 23—the engine is equipped with lightweight, bronze-finished pistons
- 24—the full ball bearing steering gear is provided with Alemite fittings
- 25—it has a Harrison honeycomb radiator
- 26—it has a 107-inch wheelbase
- 27—the frame is longer than the body
- 28—the frame has four rugged cross-members
- 29—it has four long chrome-vanadium steel springs

Because—

- 30—the springs are 84% as long as the wheelbase
- 31—it has four Lovejoy Hydraulic Shock Absorbers
- 32—the shock absorbers operate uniformly in winter and summer
- 33—it is equipped with a dry disc clutch, requiring no lubrication
- 34—the clutch is self-adjusting
- 35—the clutch starts the car smoothly and transmits all the engine power
- 36—the front axle is held in alignment at four points by the two front springs
- 37—the braking action throws no strain on motor, clutch or transmission
- 38—the rear axle has a one-piece banjo-type housing
- 39—the rear axle has an inspection plate for easy adjustment

- 40—the safety gasoline tank is properly placed at the rear of the chassis
- Because—
- 41—the rear axle driving gears are made of the finest nickel steel
 - 42—the axle shafts are made of chromium nickel steel
 - 43—the wheel brakes will stop the car at 60 miles an hour in 3¼ seconds
 - 44—brake drums are 11 inches in diameter
 - 45—a light pedal pressure will bring the car to a quick stop
 - 46—Chevrolet's special molded brake lining will last over twenty-five thousand miles
 - 47—frequent brake adjustments are unnecessary
 - 48—the starter button is easy to reach
 - 49—the pedals are fitted with enclosures that keep out dust and cold
 - 50—the spark and gasoline controls are mounted to eliminate rattles
- Because—
- 51—the radiator is chromium-plated
 - 52—the horn is underneath the hood

- 53—the headlamps are securely mounted to the frame
 - 54—the tire carrier is ruggedly constructed
 - 55—it steers easily over any kind of road
 - 56—the steering gear is semi-reversible
 - 57—Chevrolet brakes are sealed against rain and dirt
 - 58—Chevrolet has more ball bearings than any car under \$3000
 - 59—the transmission gears are made of chrome-vanadium steel
- Because—
- 60—the spring shackles are self-adjusting and are provided with Alemite fittings
 - 61—the headlamps are controlled by a convenient foot switch
 - 62—the headlamps are of the tilting-beam type for greater safety
 - 63—the running board aprons are neatly panelled
 - 64—the running board is completely covered with molded rubber
 - 65—the headlamps are provided with chromium-plated standards

- 66—the hood and cowl are streamlined
- 67—all models have a rear view mirror and wide rear windows
- 68—Chevrolet bumpers are securely mounted to the frame
- 69—all closed bodies are built by Fisher—of hardwood-and-steel, the safest body construction known
- 70—Fisher Bodies are upholstered in high-grade mohair

Because—

- 71—the seats are form-fitting
- 72—the driver's seat in all closed models is adjustable
- 73—the instrument panel includes a gasoline gauge and temperature indicator
- 74—it has the famous Fisher VV non-flare windshield
- 75—the windshield is made of clear plate glass for clear, safe vision
- 76—the windshield can be operated with one hand while driving
- 77—all models have cowl ventilator
- 78—all models have an effective sun visor
- 79—there is plenty of leg room in both the front and rear compartments
- 80—All five-passenger enclosed models are equipped with a dome light

Because—

- 81—the sedans have arm rests, foot rests, robe rails and ash trays
- 82—the instrument panel is indirectly lighted
- 83—the windows in all closed bodies are made of clear plate glass
- 84—the tonneau is equipped with a high-quality carpet
- 85—front corner posts are curved
- 86—the doors are carefully fitted
- 87—door locks have a double striker plate to keep doors closed while driving, a Fisher feature
- 88—the hood catches are made of rust-proof white metal
- 89—the rear body panel is of one-piece construction

Because—

- 90—all models are of streamline design
- 91—Chevrolet's Service Policy protects the owner on both parts and labor under the terms of the Warranty
- 92—this Service Policy protects the owner regardless of where he is travelling
- 93—Chevrolet has 11,000 Service Stations in the United States alone
- 94—Chevrolet's fine materials and excellent design eliminate the need for frequent service expense
- 95—the Chevrolet Six is a product of General Motors, the largest automotive organization in the world
- 96—it has been thoroughly tested on the General Motors Proving Ground
- 97—it reflects the achievements of the greatest automotive research staff in the world
- 98—it is built by a company whose policy is "Progress Through Constant Improvement."
- 99—it will be modern tomorrow, as well as today
- 100—it is a car to be proud of, wherever you go

He's Honest

ALL OF US have experienced in comparatively recent past terrible conditions in the state highway department.

Three and one-half years ago, when the present highway commission, of which Ross S. Sterling of Houston is the chairman, entered office, the department faced a debt of \$6,000,000 with \$800,000 on hand to pay it.

And therein, to our minds, lies the most remarkable thing that has come out of this campaign. Its importance cannot be over estimated.

OPINIONS OF OTHERS

The Sweet Singer of Salado

Abilene Reporter: THAT consummate vote-getter, James Edmund Ferguson, is up to his old tricks again.

In dulcet tones, Jim tells the voters just how he will reduce taxes, establish efficiency in every department of government, solve the prison problem by abolishing prisoners, and run by proxy a state he cannot constitutionally manage in the first person singular.

Has he a plan to save the harassed taxpayer? He has! It is simplicity itself: he would combine into one the office of tax assessor, tax collector and county clerk.

serious contender again. Only one obstacle stands in his way, in the burly person of Ross Sterling. Jim might get into the run-off if he does, he'll be hard to head.

The place to lick Ferguson is in the first primary, by concentrating behind Ross Sterling, by giving Sterling such a lead that no one can overtake him.

HOW'S YOUR HEALTH

BIRTH MARKS One of the most widespread of superstitions is the belief that birth marks are the result of some external influence brought to bear on the mother during pregnancy.

All birth marks, or moles, as they are also called, are congenital—that is, they are present at birth.

Some among these, however, do not become apparent until later. Moles and birth marks differ in size, shape, location and color.

Hollywood Style

BY ROBBIN COONS HOLLYWOOD — Young Phillips Holmes, safely under contract to a major studio ever since he first entered pictures while a student at Princeton two or three years ago, only recently has begun receiving any considerable attention.

And that has come only after he gave a creditable performance in "The Devil's Holiday." Since then he has been in demand not only at his own but at other studios.

OPPORTUNITY WANTED He is the best present illustration of the fact that, fans' opinions perhaps to the contrary, a studio contract is not all that is needed to satisfy the ambitious player.

JOTTINGS They're recording undersea sounds now. A specially constructed microphone is used to catch the noises of action under water in the new Richard Arlen talkie.

A NICE GIRL COMES TO TOWN

SYNOPSIS: It is the day before Mary Lou's marriage to Brynmor, whom she does not love. By accident she sees Tony again—Tony, the debonaire young aviator who has vowed never to marry.

Chapter 32 AT TEN MINUTES OF TWO There were clear skies for the wedding. The Leslie household was astir much earlier than usual.

Bundles and Jiggs, which were not the given names of Mary Lou's two younger sisters, were far more excited about the affair than the bride-to-be herself.

The bell rang lustily as the sexton tugged at the rope. Inside, sunlight fell through stained glass windows. Dresses rustled, and heads turned as each new member of the bride's family appeared.

Outside, by the church steps, Dr. Leslie shifted uncomfortably from one foot to the other. Every few minutes he wiped his brow with a silk handkerchief.

Mary Lou shook her head and wet her lips. "Not yet." "What are you looking for?" demanded Jay. Then she, too, looked up at Mary Lou suddenly pointed.

BANKERS DEFEAT MEXICAN TIGERS 10 TO 0

It's a long worm that has no turning, and a mighty, mighty rough road that doesn't have at least one parking lane, or something like that. Take J. E. Payne's case for instance, or three or four instances as you prefer. Payne is the chief of the Banker tribe. Yesterday, being his birthday—his fortieth one says he—the laddies with him stepped out and won a ball game. Won it whamming 'em, under the heated arm of one Harry Hurt. The Bankers, it may be said without fear of a guffaw from the sidelines, have lost some they should have won, and won few they should have lost. Old Man Tough Luck has taken up a home-stand on the Banker's heels all year. Yesterday, however, either because it happened to be Payne's birthday, which he celebrated by getting a dentist to knock out a row of molars, or because Snowball the ducky addition to Dusty D favored them with his presence near the dugout, or something else, the Bankers stepped out, rapped the Mexican Tigers a mighty rap. They took no chances of losing the tilt in the seventh frame. They gobbled up a safe lead and like the man at the business end of a gallows' rope, hung on to it.

Hurt should have had a no-hit no-run game until the seventh inning, and if he hadn't served a couple of fat ones in the seventh and had he or Taylor copped a puny infield fly in the third, he should have marked up one for the records. There is no question but what the body-twisting banker was right. That is the thing about Hurt. When he is right he is very, very right, but when he is wrong—duck you infielders! It came to pass that Wednesday he was right. Yanez, who relieved Subia, also was tepid, and had he started the fry it is doubtful the interest gleaners would have done more than rap out a few runs and been content with an even margin victory.

Hold everything—Ira Thurman is back in town, working at the West Texas National by necessity and playing baseball by choice. He held down the third sack Wednesday, handled a couple of hard chances without a bobble and snagged one. He should be easy to borrow a couple of grand off of him this morning, providing one could get some collateral for the collateral.

Just a few more days now until Ahlene borrows ten or twelve uniforms and moves over to the West Texas metropolis. Much interest is being manifested in the game. Too bad it comes the day after election as we shall have no weapon to use on the candidates. As it is James Little, the genial County Attorney, is about the only one who has been in the Dusty D enclosure and we have faint thoughts he was there to see that the boys didn't mix it and mingle it any more. Of course Sheriff Jess has been among those present nearly every Sunday, but we can't get him to chase the rail-birds off the rail for any amount of something. Even offered him a new baseball, but our offer was scoffed at. Someday we're going to kick Jess and his deputies Denver Dunn and Andrew Merrick on the left field customers and when that time comes we'll pay a dividend to the stockholders, if one.

This afternoon the Barbers take on another handfull, namely Cosden Efferly, the Spike Henninger-John Bode combination. The Barbers will be glad to know Bruce Nesbitt has returned to native haunts and will be on tap this afternoon. The Barbers got over the hump the first of the week by sending Dickinson to the dugout and clowning Richardson Refinery down a notch.

A letter is on hand from a Mrs. C. W. Scherrube who is in Geneva, Illinois. Seems she has read about the Big Spring supporters of Bobby Jones giving him financial assistance by hopping with much gusto on a ten to one bet in favor of the kid. She wants the boys to be more careful in the future and encloses a clipping of another swindle, which, no doubt, will be tried on the Jones contingent. It is a long story about swindlers of Spain, South America and Mexico sending letters to rich Americans, seems the smart one declares he is a prisoner, has a beautiful daughter and a hidden value containing so many shekels. If enough money is sent him he will send the daughter with the hiding place of the value and split the loot. So if any Big Spring residents have an opportunity to get half a suit case of Spanish cash and a pretty maiden of Spain tossed in, just remember Bobby Jones, and the Water Bucket told you about it.

Hermit watermelon peddlers will refrain from appearing at Dusty D's near game line. Yesterday after it was found there was forty melons in the crowd, after all, we purchased a bush of the fruit and managed to get one slice of the sweet. They had to hold the game to avoid the watermelon peddlers. The watermelon peddlers.

HARRY HURT HURLS 3 HITTER

Bankers Glean Nine Tallies in Third Frame

While Harry Hurt had the boys eating out of his hand, tossing a three-hit fray, the Bankers stepped out into the open Wednesday afternoon to give the Mexican Tigers a gentle trimming to the tune of 10 to 0.

Subia, initial Tiger chunker, debarred from the tilt in the third inning after nine runs had gone before him. Even at that, however, it was the conglomeration of errors and misplays carried on behind his back. He gave up only six hits while on duty. Yanez replaced him and pitched three innings wrapped in the blanket—no hits, no runs.

Hurt At Best
Hurt was at his best Wednesday and had the advantage of uniform support from his cohorts. He whiffed out five of the boys. Yanez wasn't cold by any means, sending four of the batsmen to face him to chopping the ozone.

The Bankers scored in the first inning. Schwartzbach opened the frame with a double. Bishop rapped out a single and Kendrick got on with the assistance of J. Garcia's error at the sack. Subia struck out the next two men to face him, but issued a pass to P. Madison with the bases loaded, walking in Schwartzbach.

Each of the teams went away three in a row in the second, and the Tigers, despite a puny hit that either Taylor or Hurt should have grabbed, failed to tally.

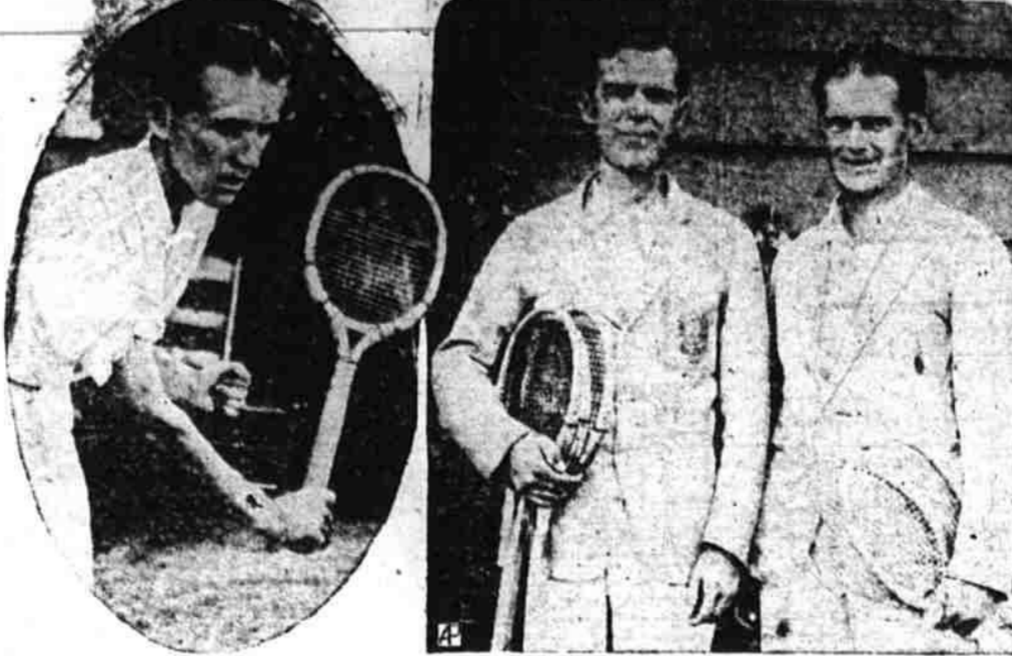

Hits Etc.
In their part of the third, however, the Bankers offered their slaughter to the customers. During that inning Subia gave up four hits, and Yanez one. Four errors were contributed. Subia walked one man. These elements, combined and rolled in one, netted nine runs for the Bankers, the money changers lacking two men of batting around the roster. Subia was chased with one down and Yanez sent the boys out after giving up a single. Taylor popping out to S. Parris at third and Payne whiffing the sweet breeze.

Yanez took things over and handed them his way from then on. During the last three innings he tossed 10 men faced him, and he sent them away with not a hit, and not a run. Hurt, in the meantime, was doing the same, only more so. He had his one-hit game until the seventh when he served a couple of Gripping with fat to Kayo and J. Garcia and they immediately returned them for a clean single each.

Wednesday's tilt marked the first victory of the second half for the Bankers.

WACO CUBS CONVERTING WISE ONES

'Slim' Harris Hurls Victory; Whitewash Given Dallas

BY GAYLE TALBOT JR., Associated Press Sports Writer
DALLAS, July 24 (AP)—Unless signs are amiss, the Texas League shortly will provide a fine case for Judge Kenesaw Mountain Landis to mull over. It promises to demand all the baseball commissioner's judicial training, not to say the wisdom of a Socrates if both sides are to be satisfied.

The Fort Worth Cats have notified the Waco Cubs that they do not intend to pay the \$5,000 due on Henry Thormahlen, southpaw pitcher, August 1. The Panthers, it will be remembered, purchased the husky pitcher several months ago at the unheard of (in the Texas League) price of \$10,000, half of it cash on the barrel head.

Now President Ted Robinson of the city on the Trinity is talking on the deal. He claims, after accumulating considerable evidence, that Thormahlen was not in prime physical condition when the deal was made. And, as it was not a "horse trade," where anything goes, he wants his five grand back.

When the case reaches the commissioner—and there seems little doubt it will—the evidence laid before him will run along these broad general lines:

Thormahlen, President Robinson will depose and say, was a semi-invalid the day he reported to the Cats at Wichita Falls. He had been batted over the head with a constable's blackjack at Brenham during that city's Maifest and laid out cold for at least an hour. The accident occurred when the burly player tried to part a pair of fisticuffs and was mistaken for one of the participants. This, the Cat chieftain will submit, Thormahlen was in no condition to pitch when he reported two days later, and has never regained his effectiveness. He has been forced to don spectacles to pitch at all.

The Cubs, quite naturally, have an entirely different version to submit to the commissioner. They will hold that they simply out-smarted the Panthers, and that said Panthers are trying to renege on a poor deal.

JUDGE KENESAW SOON TO GET CHANCE TO PONDER OVER CAT CUB FUSS ABOUT THORMAHLEN

SPORT SLANTS

Helen Wills Moody, like Bobby Jones, has one more big tournament to win in order to make it a clean sweep for 1930.

Unlike Bobby of Atlanta, however, Helen of Berkeley has been making an annual habit of sweeping everything in women's tennis. The odds should be at least 10 to 1 on Helen to wade through the national championship field at Forest Hills in August. Jones at Merion will be about even money, which is remarkable enough, considering the difference in hazards in the two sports.

Helen Wills Moody has now won eleven national tennis championships in succession in France, England and America. She has won 13 altogether. She has captured the U. S. Crown six times within the past seven years, being unable to complete in 1926 because of an operation for appendicitis.

She has not lost a set to any female opponent since 1927. The Californian has been pressed to win a set so seldom that it has removed the element of uncertainty in women's tennis wherever she happens to be involved. Not even the great Suzanne Lenglen in her prime dominated the course so completely as Queen Helen.

The big winning streaks of 1930, up to the middle of July, have been those of Bobby Jones in golf, Galant Fox in horseracing and Helen Wills Moody in tennis. They have romped off with about all the main prizes that could conservatively be expected of them in the short space of a few weeks, each starting out in May to do things and go places rapidly.

"Never, I believe, at least while I live, will women equal men's records in sports," writes Mary K. Browne in the magazine "Tennis." "They are nearer men's equal in swimming, next in golf and further away in tennis; in polo, baseball, football and ice hockey, still further." As each game increasingly requires stamina, physical strength and speed, women are outdistanced. . . . but there will always remain a few optimists who think there will live super-women who can defeat men at any sport.

"On August 6, 1926, Gertrude Ederle conquered the English channel and broke the best records of five men by two hours. . . . But Gertrude Ederle held her unusual swimming record for only a short time.

"Helen Wills Moody is better, I believe, than the vast majority of men but I do not think she would fare as well in our men's national tennis championships as Miss Joyce Wethered would in a men's golf championship.

Robins Gain
The Robins' gain was made possible by their neighbors, the New York Giants, who dunned the Chicago Cubs, 8 to 6, to put Brooklyn in a full game plus a few odd points in the lead. The pitching in this contest was a matter of numbers rather than skill, Chicago using five hurlers and New York four, and the wildness of the Cub throwers was the principal reason for the Giants' four run rally in the fifth which decided the game.

Along with Luque, ancient Jack Quinn, of the Philadelphia Athletics, whose years number somewhere near 45, above or below, gave the younger pitchers a lesson. Quinn had a little trouble in the ninth inning and George Earnshaw finished the game for him as the A's dunned Detroit, 4 to 1, but in his eight innings on the mound which gave him his ninth victory, Quinn allowed only five hits and only three more drives past the infield.

Urban "Red" Faber, second in age to Quinn in this quintet, did not figure as a winner or loser for the Chicago White Sox. After holding a 1-0 lead for five frames, Faber weakened and allowed the Boston Red Sox three runs in the sixth. Hal McKinnis relieved him and got credit for the victory as Chicago rallied again and gained a 5 to 3 decision. The victory moved Chicago back into sixth place as Washington came back after three straight defeats and pulled out a 10 to 9 victory over the St. Louis Browns in eleven innings. Two home runs by Cronin, the second of which tied the score in the ninth, featured the Senator victory.

Another youngster of 29 years, Eppa Rixey, was given the task of trying to put the Cincinnati Reds into sixth place in the National League ahead of the Boston Braves at the start of yesterday's double header. He had a bad inning and was behind when taken out for a pinch hitter in the eighth. Sias Johnson was credited with the victory as Cincinnati rallied in the ninth to win the game, 8 to 7. Johnson also was charged with the defeat in the second game when he again appeared as a relief pitcher and was the victim of Boston's eleventh inning run which gave the Braves the decision, 6 to 5, and kept the teams in a tie. Harry Seibold, not much younger than the ancients of the select group, pitched the entire game and drove in the winning run himself.

Herb Penneck, the youngster of the quintet, age 24, had a rough time of it against Cleveland and was the principal victim of the Indians' eighth inning rally which settled five runs and a 10 to 5 victory over the New York Yankees. But it was Owsen Carroll who was charged with the defeat.

NEW YORK—Because boys are too bolsterous girls in natty blue and red uniforms with Sam Browne belts are being employed by a messenger company. They are used only in large office buildings.

JERSEY CITY—A deckhand who earned \$40 a month made a million in Wall Street, then lost most of it. Revelations as to the wealth of John E. Van Wie came in court proceedings for reduction of annual alimony of \$18,000 which Mrs. Van Wie has been receiving. In a \$15 a month flat, it was set forth, there was happiness on corned beef and cabbage. In ten years he was worth \$1,130,000. His wealth has shrunk to \$144,861.

PARIS—Skirts are to be still longer. Advance showings of fall styles indicate that the correct distance between slipper and hem will be eight inches.

NEW YORK—Nelson Eddy, who has worked as plumber's helper, drummer in a band, reporter, copy-reader and advertising writer, has realized an ambition. His ability as a singer has been accorded due recognition. He was soloist at Lewisohn Stadium at a concert by the New York Philharmonic Symphony Orchestra.

LONDON—The battle cruiser Hindenburg, scuttled with other German ships in Scapa Flow, eleven years ago, has been raised by salvagers for the third time. It was permitted to sink twice because of a dangerous list.

WAKEFIELD, Va.—Bricks are being made by hand in order that a reproduction of the birthplace of George Washington shall be exact.

'OLD' BOYS PITCH WELL IN MAJORS

Five, Ages Totaling 200 Years Are In Action

BY HUGH S. FULLERTON JR., Associated Press Sports Writer
Whoever it was that said "youth must prevail" probably would be inclined to retract that statement if he should look at the major league box scores these days. Ancients of the pitching brigade have done just about as much prevailing as the youngsters and often in a more convincing manner.

Five moundsmen whose combined ages total approximately 200 years, were sent out to toil yesterday and while only one pitched a complete game, nearly all of them turned in good pitching performances. Adolfo Luque, Cuba's leading baseball hero, age 39, did a great job as he made first place in the National League safe for the Brooklyn Robins. Luque held the St. Louis Cardinals to five hits throughout trying duel with Sylvester Johnson while Brooklyn slowly gathered enough momentum to win, 4 to 1. Most of the time, Luque had only a one run lead and it was not until the Cards had tied the count in the seventh that the Robins started hitting.

Urban "Red" Faber, second in age to Quinn in this quintet, did not figure as a winner or loser for the Chicago White Sox. After holding a 1-0 lead for five frames, Faber weakened and allowed the Boston Red Sox three runs in the sixth. Hal McKinnis relieved him and got credit for the victory as Chicago rallied again and gained a 5 to 3 decision. The Phillies and Pittsburgh used pitchers of almost every kind as the Pirates won two games through Pie Traynor's two home runs. Traynor's first four bagger gave Heinie Meine a 2 to 1 decision over Roy Hensley in the first half of the bill while his second, coming with two on base in the thirteenth inning, put the Pirates on the long end of a 15-15 count. Ten pitchers worked in this game and between them they yielded 50 hits.

Young Declares Many Deserting Sterling Camp

ARLINGTON, Texas, July 24 (AP)—Jim Young said here today that he sensed an "enormous" swing of sentiment to him from the Ross Sterling camp and from the "lost cause" of Clint Small in the final week of the governor's race.

Young said the people were deserting Sterling because of his attempt to "subside the newspapers of Texas." He named as men who had been supporting Small but who were now in the Young fold District Attorney L. H. Welch of Breckenridge, E. V. Hardwick, Stamford attorney, L. D. Rutledge of Haskell and District Judge Sam Russell of Stephenville.

"The people of Texas will never elect a coward to office," the Kaufmanite prophesied. "I am the only one of the gubernatorial candidates now asking honors at the hands of the democratic party who had the courage to defend the party against perjury in 1935 or who has the courage to defend it now."

"Clint Small is apologizing all over West Texas for even the insignificant part he did take in defense of his party in 1935, and he lost the state for the democrats. This is a democratic primary and the people are going to elect a democrat. This will be a repetition of the Jim Hogg landslide, and I will win against the oil companies and other big corporations now as Jim Hogg won against them in the old days of the giants."

COAST GUARD COOK IS VERSATILE SAILOR

POINT REYES, Cal. (INS)—When you've done talking of versatility, just turn to William P. MacLeod, cook at the Point Reyes Coast Guard station.

William, from Michigan, took to the sea from Seattle at the age of 16, became one of the best top-sailors on the Pacific Coast, spent six years at Point Barrow, at the "top" of Alaska, on one whaling trip, and visited every port of call known to man on others.

Now, according to the guard-ship, he can—
 Carve a ship model better than any artist.
 Braid canvas whatnots that would put any woman tatter to shame.
 Stage a one-man concert with his mandolin, harmonica and horn that would make Paul Whiteman weep with envy.
 Build radio sets that bring in even far bladed so vividly you can hear the bulls roar in the bull rings.
 Entertain you by the hour with thrilling tales of every clime and give you a souvenir of every year.
 Cook like mother never could and will wonder never cease?—build sea sleds from the ground up.
 His latest sled, which would be quite an accomplishment in any plant is made of the finest woods, with ship-shape inter-lappings of canvas and powered by a new LeRhone, nine-cylinder French military motor which drives an eight-foot propeller.
 "Lonesome?" Inquire the guard-ship, "why we've got everything when we have Will MacLeod."

The Tennessee department of the American Legion increased its enrollment by 149 per cent last year.

CANYON, RARELY ENTERED, OBJECT OF TEXAS PARTY

ALPINE, Texas, July 24 (AP)—A party of West Texans started yesterday on a trip they hope will not end until they have explored Saint Helena canyon of the Rio Grande, half in Texas and half in Mexico, 100 miles south of Alpine.

It will be necessary for them to swim, float and crawl through the canyon, which has been explored by no more than six men in its long life.

The party was to camp last night at Lajitas, Mexico village, and start today on the perilous journey through the rarely explored canyon. Walls of the canyon are 2,000 feet high and second only to the Grand Canyon of the Colorado in Arizona.

The party was equipped with automobile inner tubes to keep them afloat in the water and carried food in specially constructed waterproof rubber bags.

Those making the trip are Mike Collier of El Paso, assistant superintendent of the border patrol; C. C. Courtney, chief border patrol inspector; Mr. O. S. Shipman, Chas. Bishop, Jr., 14-year-old boy scout, Border Patrolmen George Peters, Ware Hard, Ed Bemis and William Jordan and Iselt. John Minniece of the First United States cavalry, all of Marfa; A. F. Robinson, secretary of the Alpine chamber of commerce, and Jimmie Terrill, Sul Ross college basketball star.

Houston Persons Injured in Crash

HOUSTON, July 24 (AP)—Five Houstonians were suffering today from injuries sustained last night in a motor accident on the Galveston road. Three were in an infirmary.

The injured are Mr. and Mrs. Harry L. Selme, and Mrs. Sellinger. Mrs. Brand and Mr. Sellinger were released after treatment.

Hospital attendants said Brand had a broken arm, bruises and possible internal injuries. Mrs. Sellinger had a broken arm and bruises. Mr. Selme had a possible skull fracture.

"We were making about 35 miles an hour and running behind a car containing a group of negroes," Selme said. "A car coming from Houston and going at a rapid rate hit the negroes' car a glancing blow and then ran into us. It turned us around a couple of times and then threw out our ear into the ditch."

WORKER HURT

SEGUIN, Texas, July 24 (AP)—Rust Forest, 31, of San Marcos, was in a serious condition today after 3,000 volts of electricity had passed through his body. He was hurt while stringing a new high power line from San Antonio to Seguin. Firemen rescued him from a pole and doctors said he had little chance to live.

St. Louis Fliers Up Third Day

ST. LOUIS, July 24 (AP)—The projected thirty day refueling endurance flight of Dale Jackson and Forest O'Brien, deposed record holders, entered its third day this morning with the fliers sailing smoothly over Lambert-St. Louis field. At 9:11 a. m. they had been up fifty hours.

The endurance plane, the "Greater St. Louis," maintains an altitude of about 1,500 feet most of the time and cruises at about 65 miles an hour.

Gold Shipments Raise Exportation

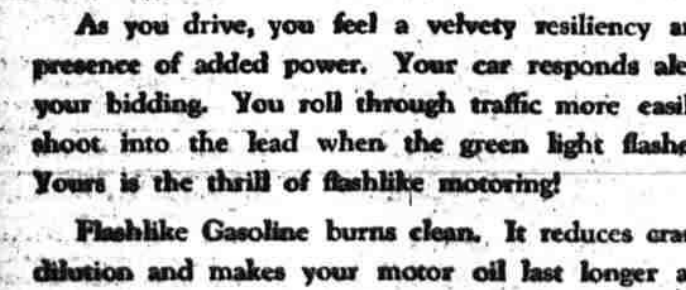

NEW YORK, July 24 (AP)—Two gold shipments, of \$5,000,000 each, both consigned to France, were announced today, bringing the total of the present exportation to \$22,000,000.

Today's shipments, both to be sent on the liner Europa sailing to night, are being forwarded by Lazard Freres, international banking house, and the Guaranty Trust Co. of New York.

The present movement, the first important gold export that has left the United States since last January, got under way a week ago today with the forwarding of \$1,000,000 to France by Lazard Freres. An additional \$4,000,000 also was sent to France by an unidentified consignee. This week \$2,000,000 in gold went forward to Canada.

FLASH

AWAY LIKE A

HUMBLE FLASHLIKE GASOLINE

VELVET MOTOR OILS

Flashlike Gasoline affords quick, easy starting at all seasons. Even in a cold motor, with a weak spark, there is an instant flash of tiger-like power. The crankshaft whirls over. The motor warms up immediately—and, in a second or two, you are on your way!

As you drive, you feel a velvety resiliency and the presence of added power. Your car responds alertly to your bidding. You roll through traffic more easily, and shoot into the lead when the green light flashes GO. Yours is the thrill of flashlike motoring!

Flashlike Gasoline burns clean. It reduces crank-case dilution and makes your motor oil last longer and lubricate more efficiently. Valves stay smooth and do not stick, nor is there any gum to clog the carburetor.

For best results, with Flashlike Gasoline use Velvet Motor Oil. This tough, enduring oil seals compression and keeps down friction at all driving speeds and temperatures. Makes your car run better and last longer.

You pay no more for Flashlike Gasoline and Velvet Motor Oil than for ordinary fuels and lubricants. Available today at Humble Stations and all Humble Dealers'.

EVERYDAY QUESTIONS

Answered By
Dr. S. Parkes Cadman

Questions from readers are answered daily by the Rev. Dr. S. Parkes Cadman, Radio Minister of the Federal Council of Churches of Christ in America. Dr. Cadman seeks to answer questions that appear to be representative of the trends of thought in the many letters which he receives.

I am a mother, given to worrying about the future of my five children. This habit seems to have fastened itself upon me. What can I do to break it, and yet not lose the sense of responsibility for them?

Take a more cheerful view of life and let that carry you along. Some parents wish to manage the universe in behalf of their youngsters. Their motives are usually excellent, but their methods are at fault. It would be well for you and for the children if you believed in God's care for them, and left some things which must be to His oversight and

their own discretion. Life is always an adventure, and while this alarms a mother's heart it also stimulates it. Tomorrow may bring what you call evil. Yet if this is blessed of heaven it is an ultimate good. Again, it may bring what the world describes as great. Yet it is this is disowned of heaven, wherein is its good? Many mothers have been blessed in the fact that their prayers for their children's fame and fortune were not answered. Henry Van Dyke puts the issue in the following message: "There is only one way to get ready for im-

mortality, and that is to love this life and live it as bravely and faithfully and cheerfully as we can." Know your children are nearer and dearer to you than any one else on earth. But do not allow the shadows of a foreboding affection to discourage their outlook. Provided they are dedicated to God nothing can happen to them which is not for their benefit.

New York City. Why do Protestant clergymen interfere in politics? Is this not the reason why you are losing your hold on the people? I wonder what you mean by "politics?" Granting it is the first duty of all Churches to permeate society with spiritual principles and right motives, it does not follow that those churches should remain silent concerning the concrete application of such principles and motives. Do you suppose that any instructed rabbi, priest or pastor is forbidden to deal with these applications? Of course no wise teacher of a

religion will muzzle its tongue with partisan pleas, irrational prejudices and racial misunderstandings. He will also take care to base his advice upon what he understands to be the divine ordinances for human peace and welfare. Nevertheless it is the manifest purpose of Judaism, Catholicism and Protestantism to establish God's kingdom on the earth. In order to operate successfully, its advocates are bound, as I see it, to recognize their responsibility for the education of public opinion on the major issues of peace and war, national integrity, international justice and good will, clean and recreative amusements, the right use of leisure, the preservation of sobriety, marital fidelity and equitable industrial relationships.

Hardly a day passes when ministers of every denomination do not have to announce their attitude on these and kindred matters. Consult Israel's prophets and the apostolic advice of the New Testament. There you will find abundant in-

stances of the fearless application of religious teachings to social problems. Since that far-off time these problems have increased in number and complexity. Surely you would not leave their solution to take care of itself, or subject it to individual caprice. The pulpit betrays its principal mission when it does not seriously study and seek to better every human pursuit which does not accord with the highest ideals of Judaism or of Christianity.

Toronto, Canada. In your opinion should an immortal theme in a play be over-looked in view of the artistic beauty of its production? One of the earliest Victorian exponents of the primal claims of beauty was Oscar Wilde. In his book, "The Critic as Artist," he declares that esthetics are higher than ethics. According to Wilde "they belong to a more spiritual realm." To discover the beauty of a thing is the finest point to which we can arrive. Even a color sense

is more important than a sense of right and wrong. If this view is correct, morals take a back seat in dramatic productions, and the playwright is free to introduce the putrid elements which may appeal to his sense of artistic fitness. Needless to say, decent people object to this so-called freedom because it affords an opportunity to increase the tyranny which lust inflicts on its devotees. Right conduct is the finest of the arts. Evil conduct destroys symmetry of character, and is not only imperfect from the standpoint of ethics but from that of physically sound esthetics. We should not wink at immorality in a play because its cancerous presence is offset or subdued by the playwright's literary skill or the producer's gorgeous settings. I stand for beauty without mud. Would you overlook the deadly poison in a cobra because of the subdued loveliness of the markings on its skin? Hardly. Mr. Wilde himself was taught by bitter ex-

perience that in the equal ethics are first and art is chief consideration.

Minor President Fined By Court
SPRINGFIELD, Ill., July 24 (AP)—John L. War Time Ace Is "Purse Snatcher"

LOS ANGELES, July 24 (AP)—A man identified by police as Captain George R. Clifford, wartime squadron of the British Royal Air forces who shot down 42 enemy planes, is under arrest here for purse snatching. Psychiatrists said the aviator is a victim of "repressive insanity."

Police said identification was made through a passport issued in Washington in 1927 found in the man's possession, and other papers giving his war record, which were verified by government officials.

Medals for bravery from virtually every allied nation were found in his apartment. He said he came here from Brockton, Mass., seeking work as an aviator.

"I realize what I've done, but I don't know why I did it," Clifford told officers. Psychiatrists asked that the flier be paroled to them for a study of his case.

200 Homeless As Esk River Floods

WHITBY, Yorkshire, England, July 24 (AP)—Hundreds of persons were homeless and destitute as a result of the flood which devastated the valley of the Esk river.

The waters which rushed over the area following a terrific cloudburst had almost subsided today, but rain was still falling for the fourth successive day, making the task of relief workers difficult.

A journey over the territory along the Esk between Rushwarp and Sleights showed what havoc the sudden torrent had wrought. Small bungalows, scores of rowboats and lengths of stout fencing were piled high upon hedges, while great trees of the picturesque countryside were uprooted.

At Sleights, which is still isolated because of washed-out bridges, workmen tried to improvise some way to get across the river. They hoped to have a temporary bridge in position tomorrow.

tion at Houston last night, planned speeches today at Orange and Beaumont and tonight at Port Arthur. James E. Ferguson, speaking for his wife's candidacy, was booked for an address at Eastland at 8 p. m. Thomas E. Love, hovering nearer Dallas and a hometown engagement tomorrow night, planned to speak this afternoon at Bonham and tonight at Greenville. Earle B. Mayfield was to appear at Gatesville in the afternoon and at Temple tonight. Lieut. Gov. Barry Miller also circling back toward his home at Dallas, was due appearances at Greenville in the afternoon and tonight at McKinney. Jim Young was listed to speak at Vernon this afternoon and tonight at Seymour.

Frank Putnam, C. E. Walker, Paul Loven and C. C. Moody, the other four candidates, had no speeches scheduled.

Love's Platform

Vindication of the "Anti-Tammany" demonstration in the Democratic party in Texas, abolition through a constitutional amendment of the ad valorem tax and equalization of educational opportunities in each county, were put forward by Senator Love as platform planks justifying his election, in a speech last night at Texarkana.

Prediction that he would get more than 100,000 votes in West Texas was made by Small in a speech at Cisco, where he appealed to the people of West Texas to stand behind him in the election Saturday. He said he would get his share of support in other sections.

At Houston, Frank Putnam, prohibition repeal candidate, issued a statement asserting that Sterling, also of Houston and a dry, had countenanced the spending of excessive sums in his campaign. His

statement called upon Governor Moody and Attorney Bobbitt to enforce the election laws.

The annual picnic of the Texas Retail Grocers' Association at Dallas, provided a veritable utopia for candidates. The crowd heard speeches by Mayfield and Miller, candidates for governor; James V. Allred, for attorney general; Walter Reid and J. Hayden Moore, for congress; and numerous legislative and local candidates.

More Experience Speaking at night at Sherman, Miller declared "it is no vain boast for me to tell you that I have had more experience in conducting the affairs of your state than any other man in the governor's race." He pledged himself to more equitable readjustment of taxation.

Jim Young of Kaufman warned an audience at Hillsboro that "a flood of display advertising and biased news stories will appear in the Sterling-controlled press during the last few days of the campaign, to lure votes to the highway commission chairman." He asserted Small's campaign had collapsed and predicted that he himself would be in the second primary "with Ferguson" and would "beat her like I would beat any other candidate."

Houston Rally

Sirens were sounded, giant firecrackers were set off at the back of the hall and newspaper flashlight cameras went up smoke, last night as Jesse Jones introduced Ross Sterling to an uproarious hometown audience in the Democratic national convention hall in Houston.

Sterling, in his address, denied that the proposed highway bond plan would take away the portion of the gasoline tax assigned to schools, saying the bill voted on in the last legislature proposing the bond issue especially reserved one cent out of the four cent gasoline tax for schools.
