Some one has asked, "now that you have established the museum, are you forgetting a - united in marriage. bout the stories of the early days and our pioneer families?" The answer is "NO!" The museum is one of the two objectives of the Alanreed - McLean Histori cal Society. The other one is the recording of our pioneer families. We are vitally interested in preserving the way of life as well as our family histories. In fact two stories have come in recently: the George Cash history and the family saga of the Milton Moody family. There are still several ed. stories of the early families which we do not have yet. How about checking to see if yours is in?

The museum has been given our special attention recently for it was imperative that we at the high school auditorium keep our promise to the Ex-Students Association to open for the Home -Coming. This we accomplished by the help of almost the entire community. If there are stars to be found in any one's crown, Slick Boyd, Boyd Reeves, and Chuck Cooke will find their gleaming for they have done work that women's hands ( and sometimes brains could not accomplish.) Right now those three are busy installing a heating system.

It was fun having the first and second grades to visit us on Monday. They had fun signing the register and we enjoyed their enthusiasm as we went through with them . Thank you, Mrs. Kennedy and Mrs. Bryant for sharing them with us for a brief while.
