GLAMOROUS TAILORING

Perfect for Sunday luncheon at the club, a country wedding, or a day in town is this beautifully tailored cotton dress, with chalk stripes on dark chambray to supply glamour. It comes in wine, green, slate grey and brown. The high, opened crown bonnet worn with it is trimmed with petticoat ruffle or imported white organdy.

Music Clubs Have Joint Meeting At Boyett Studio

Members and guests of the high school and grade school music clubs met in a joint session at Mrs. Willie Boyett's studio for a closing year program and picnic, June 13 at 5:30 o'clock.

The program consisted of piano and accordion solos, and an interesting talk given by Donna Gail Stubblefield on the Jose and Imparo Iturbi concert given recently in Amarillo.

Eleven students received reward pins for ten months attendance and the required grades. They were Shirley Allison, Floella Cubine, Monta Jean Kennedy, Dickie Silgar, Glenda Switzer, Barbara Nell Williams, Norma Chapman, Darlene Shadid, LaWanda Shadid, Patay Dell Tindall, and Peggy Nell Tindall. Billy James Rainwater, Sue Glass, Betty Dickinson, and Mollie Erwin received pins earlier in the year, making a total of 15 for the year.

Honor roll students for the closing month, in addition to the above, are Beth Brooks, Bobby Boyd, Waneta Hupp, Donna Gail Stubblefield, Frankie Tucker, Billy Eugene Rodgers, Donna Ruth Magee, Jan Black, and Norma Watson.

Reward cards were given for practice and attendance for the months of April, May, and June.

A picnic supper was held on the lawn following the program. Hostesses assisting Mrs. Boyett were Mesdames Chapman, Tindall, Boyd, and Silgar.

See Tisdal Truck & Imp. Co., Shamrock, Texas, for your Krause one-way needs. 23-3c

Billy J. Rainwater Presents Recital At Boyett Studio

Billy James Rainwater was presented in a studio recital Sunday afternoon at the Boyett studio.

The program consisted of ten classic and modern numbers. He was assisted by Johnny Haynes and Dickie Silgar, who played three solos each, and one ensemble number was played by all three.

Refreshments of punch and

cookies were served at the close of the program.

See Tisdal Truck & Imp. Co., Shamrock, Texas, for your Krause one-way needs. 23-3c

Mr. and Mrs. A. R. Glenn and son and daughter of Canyon, and Mrs. A. C. Meier of Amarillo were McLean visitors Sunday. Mrs. Glenn and Laura Ruth remained for the Colle funeral Monday.

Mrs. Alma Henley made a business trip to Pampa Friday.

Worley—

Continued from front page)
 In 1945 more than three-quarters of our crop participated in carrying out conserving or erosion-prevention practices. Under this program the adjustment program, American farmers built up a bank of fertility and they drew it heavily to help win the war. Did it pay? In Texas alone 40,000 farms covering 15 million acres have been aided by Soil Conservation Service in carrying out conservation plans. A survey of typical farmers showed that soil conservation enabled them to step up their yields per acre by an average of 26.5 per cent.

The Farm Credit programs helped farmers refinance mortgages, reduce their interest payments, and keep their farms. Did that pay? In Texas 100 Farm Credit and Production Credit Association loans were made in amounts totalling 725 million dollars.

The Farm Security program helped farm tenants become owners and small farm owners to improve their economic position by getting additional land under more efficient farming. Did that pay? I wish the 27,000 Texas farmers who received rehabilitation loans were here to answer the question. I wish the 4,000 farmers who took out farm ownership loans were here to tell me. Already nine-tenths of the principal of the rehabilitation loans has been repaid and the amount purchase borrowers have paid up 86 per cent more than would be required on the basis of equal annual installments to pay their loans in full in 40 years.

The Rural Electrification program brought power and light to millions of American farmers, helping them to increase their production efficiency and to improve their living standards. In Texas alone, from the beginning of the Rural Electrification Administration in 1935 until the end of 1945, a total of 53 1/2 million dollars was loaned to provide electric power to farmers. REA loans were used to construct 44,000 miles of distribution lines serving 114,000 consumers in rural Texas. At the end of 1945, REA borrowers in the state had met all interest and principal payments due on their loans and had paid \$1,200,000 on principal ahead of due dates. Did it pay? Here is an interesting fact. Eleven years ago when the Rural Electrification program was started, only about one Texas farmer out of 50 had electrical services. That proportion has been stepped up to one out of three. For the whole nation, the proportion of farms with electricity has risen from about 10 per cent to close to 50 per cent.

I could go on for a long time talking about the marketing agreements, about water facilities and flood control, about price supports, commodity loans, and conservation payments. I could talk about the farm labor program that in 1945 helped more than 77,000 Texas farmers secure workers. I could talk about the research programs which have paid such big dividends to the nation—hybrid corn seed, for example, or the production of penicillin in commercial quantities, or the development of dusters and sprays containing DDT.

But I am going to pass over all of those features and mention simply the protection farmers are given under the so-called Steagall Amendment, which assures price support for major agricultural commodities at 90 per cent of parity or higher until January 1, 1949. Thus, American agriculture is protected by a floor under prices. We all know why this measure was adopted. It was adopted because the Democratic Party was determined that American farmers should not again be the forgotten men they were after the other World War. It was adopted because looming very high in the minds of the President and the Congress was the memory of the terrible collapse of farm prices in 1920 and 1921. In less than a year, at that time, farm prices plummeted down more than 40 per cent.

Uncle Sam Says

Either the Payroll Savings Plan or the Bonds-a-Month Plan knocks either plan you can't forget to save. It is done for you automatically and regularly. By accumulating a nest egg in United States Savings Bonds there is no if about your future ease and security. It is just Savings Bonds regularly now.

That is not happening this time. Well, there is the record. There are the facts. As has been said: "The farmer and the farmer's family can measure for themselves the vast difference between the desperation which was theirs . . . and the recovery which is theirs." Surely the record—in peace and war alike—is good.

And today the people of this nation are enjoying the greatest abundance of the products of the farm they have ever known.

Let me again cite the record. With fewer farms and with 10 per cent fewer workers than in prewar, with shortages of machinery and materials, without plowing up the parks and plains, American agriculture during World War two stepped up production more than one-third, sent up to one-fourth of its products off to war, and at the same time fed civilians 10 per cent better than in peacetime.

NEWS FROM KELLERVILLE

Cubs of Den 1 met last Thursday at 4 o'clock for a picnic at the creek. After refreshments of pink lemonade and a weiner roast, the cubs enjoyed wading in the creek, and a ball game.

In attendance were Bobby Boyd, Rex Emmel, Luther Thompson, Charley Barnes, Charles Boyd, Donald Horton, Mr. and Mrs. Newt Barker, Mr. and Mrs. Jack Boyd, and visitors, Lynden Emmel, William Barnes, Sharon Emmel, and Mrs. Emmel.

Den 1 met Monday afternoon in their den for their regular meeting of the week. Refreshments were served to Luther Thompson, Don Haslam, Rex Emmel, Bobby Boyd, Ronnie Holley, Donald Horton, Charles Boyd, den dads, Newt Barker and Jack Boyd, and den mother, Mrs. Boyd.

Earl Curtis Barrett, son of Mrs. Jack Boyd of Kellerville, was recently promoted to the rank of sergeant. Sgt. Barrett has been in the army for 14 months.

The Kellerville H. D. C. had a picnic Tuesday evening on the lawn at the school. Fried chicken, salads, cake, and tea were served to Mr. and Mrs. Jack Boyd, Charles and Bob, Ray Gossett, Mr. and Mrs. Clarence Drum and June, Mr. and Mrs. Veri Tinkler, Shirley, Mary, Carolyn, and Verlene, and two visitors, Mrs. Carey McCabe and Jackie.

The language of tones belongs equally to all mankind, and melody is the absolute language in which the musician speaks to every heart.—Richard Wagner.

The direct relation of music is not to ideas, but to emotions—in the works of its greatest masters. It is more marvelous, more mysterious than poetry.—Henry Giles.

program that helped the farmer go all-out.

It was possible only because agriculture had been snatched from the near death of the early 1930's and restored to the vitality and good health of the 1940's.

(To be continued)

4-12-4 Makes Best Cotton Fertilizer

Cotton fertility studies at the Oklahoma A. and M. experiment station indicate 4-12-4 commercial fertilizer as the most profitable fertilizer for cotton, a check of test results show.

Cost of applying the fertilizer was \$2.10 per acre when applied at a 100 pound per acre rate. Yield was 871 pounds of cotton

seed per acre, as compared with \$79 pounds of seed obtained when 200 pounds of 4-12-4 was applied to each acre. Superphosphate, applied at a rate of 200 pounds per acre, also yielded 871 pounds of cotton seed per acre, but the cost per acre was \$5.70.

The humble TODAY that makes TOMORROW GREAT...

You could see this scene in a hundred thousand churches next Sunday—but would you grasp its mighty import?

If you saw a lump of iron ore would you envision bridges of steel spanning America's rivers... if you saw a gushing oil well would you envision a million cars speeding along our highways... if you saw a bag of seed would you envision golden acres awaiting the harvest?

It is the humble today that makes tomorrow great. For few gifts have come to us ready-made. God has made every blessing a challenge... every resource a responsibility.

Our children are our greatest challenge—our paramount responsibility. For God's—and the world's—tomorrow will spring from their humble today. The Church understands that!

Your child—every child—needs the Church!

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

14 Cemeteries For War Dead

Next of kin requesting burial of World War II dead overseas may choose any one of the 14 permanent military American cemeteries and three national cemeteries which the war department plans to establish as final resting places, according to an announcement received this week by Col. C. C. Strawn, commanding officer, San Antonio, San Antonio general depot.

Temporary U. S. military cemeteries laid out during World War II but which will become permanent cemeteries are: Cambridge, England; Margraten, Holland; Hamm, Luxembourg; Henri Chapelle, Belgium; Neuville-en-condroz, St. Laurent, St. James, Epinal, St. Amand, and Urzulein, France; Nettuno, Italy; and Manila, Philippines.

ippine Islands, Florence, Italy, and Tunisia, Tunisia, will also be cemetery locations, although the exact sites are not yet chosen by the quartermaster general and the American battle monuments commission.

The three new national cemeteries to be established under the plan are Honolulu, Hawaiian Islands; Guam in the Marianas; and St. Juan, Puerto Rico. These national cemeteries will provide final resting places for any armed forces personnel or honorably discharged veterans who may wish to be buried in Hawaii, Guam, or Puerto Rico in addition to those who died during World War II.

Wheat Yield Hikes Following Clover

Benefits of greater quantities of pasture obtained when wheat is planted on former sweet clover land are usually more than annual lime and fertilizer costs. Oklahoma A. and M. experiment station tests reveal.

Open dry forage yields the first year after sweet clover had been grown on the area was 1,770 pounds per acre, with a 21.3 per cent protein content. On areas where wheat was grown continually, the open dry forage was only 319 pounds per acre and protein content was 15.7 per cent.

IT'S SACK-RILEGE

It's sack-rilege that so many cotton sacks are going to waste when they can be transformed into such beautiful articles of wear and household utility. The dress worn by Miss Lena Lela Ann Howard of near Memphis, Tenn., and the covering for the telephone stool on which she sits, were both created from ordinary cotton bags.

cadet pilot training to any civilian qualified. This is the first time that this program has been opened since the ending of the war.

Applications are being accepted by the recruiting officer, and upon completing forms, applicants will be forwarded to Briggs Field, El Paso, for physical and mental aptitude tests. After successfully completing these tests the applicant will be accepted for aviation cadet training.

All enlistments will be for a period of three years. Anyone desiring information, contact the U. S. Army recruiting station, Legion hall, Clarendon.

A part of Section 178 in Block 3, I. & G. N. R. R. Co. Surveys in Gray County, Texas, and which lands in said plat and dedication are designated as NORTH KINGSMILL.

Said application was filed on the 14th day of May, 1947, with the County Clerk of Gray County, Texas, and will be heard by the Commissioners Court of said county at the regular meeting thereof, to be held on the 14th day of July, 1947, at the Court-house of Gray County in Pampa, Texas, and all persons interested in the lands described in said application and desiring to protest the granting of said appli-

cation are hereby commanded to appear before said Court at said time and place to present such protests, if any.

Chicken Raisers Should Vaccinate Stock for Pox

Farmers who have young chickens and had chicken pox in their flocks last year should be vaccinating their young stock now, reminds R. B. Thompson, Oklahoma A. and M. College poultryman.

Chickens should normally be vaccinated before they are 12 weeks old, but if vaccinating has not already been done, birds should be vaccinated now regardless of age, says Thompson.

The process is relatively simple and inexpensive. The virus may be obtained from practically all local hatcherymen or poultry supply dealers. Complete directions for use may be found in each package of virus or by writing to the poultry department of Oklahoma A. and M. College at Stillwater.

Fowl pox, a disease that causes hens to go out of production in the fall, may be recognized by soft yellow nodules on the head or face of the bird which later turn to hard brown scabs. These are also often found on wattles, in the edges of the mouth or in the eyes.

When combined with common colds and Vitamin A deficiencies, chicken pox may develop into what is commonly called "roop."

Vaccination will not check the growth or development of the young chicks and it will effectively immunize chickens from chicken pox.

Aviation Pilot Training Open

Sgt. G. W. Parrott, recruiting officer, announced that May 10 marked the opening of aviation

"COTTON ED" Says

That's a'gonna be some NEW DOIN'S . . . 'round here!

Man alive . . . been Cotton Farmin' nigh on to 40 year . . . Seen a right smart too . . . in my day . . . but as "Cindy" would say . . . "I ain't seen nuthin' yet."

Yep . . . in them 40 year o' Cotton Farmin' . . . I heard some tall tales . . . but this NEW DOIN'S that DOES AWAY WITH HAND CHOPPIN' . . . by mountin' blow torch . . . on yore tractor . . . a burning butane and a goin' in your field a burnin' out the weeds and NOT A HURTIN' THE COTTON . . . sounds purty fer fetched . . . Course now . . . them Elk Cotton-oil Boys sezs it'll work . . . and they usually know what they air a talkin' about . . . ain't never been led a stray by listin' to 'em yet.

Well sir . . . This Contraption I MUST SEE . . . The Elk Cotton-oil air a'gonna have a dem-un-strate . . . Guess they figure what helps us helps them . . . and that's right and proper . . . ain't it? Anyway they call this Critter a FLAME CULTIVATOR . . . does away with hand choppin' . . . and is a heap cheaper . . . cost only 'bout 50 cents a acre . . . that's a savin' from \$5.00 to \$10.00 a acre . . . Now I ain't air to get sold very quick . . . But with that savin' I would shore make money . . . First time I reck'lect an airplane air 'lectric lights I didn't think they would work nuther . . . SO I AM A SEENIN' THIS CONTRAPTION.

When they 'nounce the day and place of showin' off this NEW DOIN'S . . . if you don't think you kin make it to the dem-un-strate . . . Just take 50 cents times your cotton acres and figure that agin what you have been a payin' for cleanin' out yore cotton by hand . . . That'll show you what I mean.

Sincerely,

"Cotton Ed"

"FRIENDLY AS COTTON"

NEWS FROM ALANREED

Mrs. Belva Castleberry and son visited Mrs. Castleberry's parents, Mr. and Mrs. Jim Robertson, in Amarillo last week.

Mrs. W. H. Blakney had the following dinner guests Sunday: Mrs. LaRue Conlin of San Antonio, Mrs. Leon Landon and Mrs. Abilene, Mrs. Buzz children of daughter of Dumas, Mrs. Marvin Hall. Afternoon callers were Mrs. B. W. Moreman, Mrs. A. H. Moreman, and Mrs. T. Blakney.

Mr. and Mrs. Buddie Hill and children visited Mrs. Ada Hill Sunday.

Mr. and Mrs. E. L. Browning and children of Phillips spent

DAIRY FARMERS SALUTED—June is dairy month in Texas by official proclamation of Gov. Beauford H. Jester. The proclamation is a tribute to 338,000 dairy farmers in Texas who own 1,400,000 milch cows, valued at \$150,000,000 and which produced four and one-half billion pounds of milk in 1946 with a net value of \$100,000,000. During the past 20 years Texas has advanced from twentieth to eighth place in value of dairy products.

With Gov. Jester, seated, when the proclamation was issued were, left to right, Henry Mosler of San Antonio, state chairman for dairy month; Mayer Wendell Maves of Brownwood; Mayor H. J. Kroeger of Harlingen; milk producer Herdy N. Hay of Route 2, Waco; State Health Officer Dr. George W. Cox of Austin; Bryan Black, of "Arlene", president of Texas Dairy Producers Institute; and milk producer H. S. Pariza of Becca.

last week with Mr. Browning's parents, Mr. and Mrs. E. L. Browning.

Mrs. L. H. Earthman attended the commencement exercises at WTSC in Canyon June 5. Her daughter, Mrs. Lindsey Boyd, graduated and received her bachelor of arts degree. After graduation, Dr. Irma Barlow, WT his-

tory professor, gave a luncheon in her home honoring Mrs. Boyd.

Mr. and Mrs. A. C. Farley of Merkel were visitors in the home of her parents, Mr. and Mrs. L. H. Earthman, last week. Mr. and Mrs. Farley and son Mike and Miss Julia Earthman had just returned home from a vacation in the mountains of New Mexico.

School Chooses Major Glass

Major Burt E. Glass Jr., son of Mr. and Mrs. B. E. Glass of Alanreed, has been selected to attend the second class of the air tactical school at Tyndall Field, Fla.

Major Glass attended the West Texas State College in Canyon, where he graduated with a BS degree. While in school he was a member of the boxing team and the anchor club. His wife is the former Juanita Lowe. They have one son, Burt E. Glass III. Major Glass was with the 9th air force overseas as squadron commander and flew 63 combat missions before returning to the states in November of 1944. He wears the air medal with 10 oak leaf clusters, the distinguished flying cross, the French croix de guerre, the American defense ribbon, the American theater ribbon, and the European theater of operations ribbon with three battle stars.

The school Major Glass is attending is the basic school of the air university system. Its purpose and aim is to teach the fundamentals and basic principles required for officers to most successfully handle the responsibilities of squadron commanders and for staff duties commensurate with their rank. A broad academic course covers instruction in leadership, tactics, intelligence, communications, administration and supply, personnel management, public information, civil affairs and new developments.

The academic course is supplemented by a flying program utilizing the latest types of air force aircraft. The regular curriculum is also supplemented by guest lectures from civilian specialists, ground force and naval officers and faculty members of the command and staff school at Maxwell Field. Major Glass will return to his former station at Hamilton Field, Calif., upon completion of the course.

Mrs. Custer Lowary, Mrs. Roger Powers, and Mrs. Carl Jones made a business trip to Shamrock last Thursday.

Whooping Cough Shows Rise Over 7-Year Median

A statement released this week by Dr. Geo. W. Cox, state health officer, indicates that the incidence of whooping cough in Texas is at present almost three times as high as the seven year median.

"Prevention and control of whooping cough, especially among infants and small children, may be accomplished through use of approved vaccine and convalescent serum," Dr. Cox asserted, "and it is important that such measures be taken to protect them. Neglecting to do so, and allowing the young child to suffer an attack of this disease, may seriously impair his future health."

"The infectious agent, or germ of whooping cough, is transmitted by droplets expelled in coughing, sneezing, or speaking," Dr. Cox said. "The discharges from the nose and throat are dangerous to susceptible persons; the need for early recognition and careful isolation of whooping cough is obvious."

The first sign of this disease is usually a dry cough, which per-

sists day and night and tends to become increasingly severe. The disease is fully developed when vomiting of food and whooping accompany the paroxysm of cough. Dr. Cox stressed the fact that children who have whooping cough should not attend school and should be isolated so that they will not come in contact with other children until three weeks after the appearance of typical signs of the disease.

Mr. and Mrs. Lafe Smallwood were visitors Sunday in Amarillo.
