

## Groundhog Shadow Is Not Visible Here

Snow and sleet fell in the McLean area Wednesday night and once more give the ground a blanket of white. By 8 o'clock this morning, when the fine sleet was still falling, about one inch had fallen. The snow-sleet mixture was crusty, and roads were dangerously slick.

Amarillo weathermen predict rain or snow over the entire Panhandle today and tonight, with possible fair weather Friday. Rain was also predicted in West Texas, where most areas received rainfall Wednesday.

The weather for the past week—cold most of the time, sun shining part of the time, foggy part of the time.

Even the groundhog himself wasn't sure what to do Monday morning, but in McLean the sky was hazy following a heavy fog and, not seeing his shadow, it is assumed he stayed out. If he had seen his shadow, the McLean area could have expected six more weeks of bad weather.

But the old-timers here say that McLean can still expect that much more of winter weather, despite the groundhog's prediction.

The snow which fell intermittently last week was practically all gone by Sunday, following Friday and Saturday's sunshine.

Monday night and Tuesday night a very heavy fog blanketed the area, causing visibility to be very low. During the daytime hours both Monday and Tuesday, however, the fog lifted.

Wednesday morning a very light snow fell, but the fall was so light that none stayed on the ground for a very long period of time. Weathermen had predicted a snow for Amarillo Wednesday.

The temperature, rising above the freezing level during most of the days of the past week, dropped to below-freezing at night.

## Boston Named First Honorary Lions Member

Bill Boston, son of Mr. and Mrs. Murray Boston of Canyon, and member of the McLean High School senior class, was the first honorary member of the Lions Club here for a period of one month.

Boston, who was selected by the high school faculty on the basis of integrity, scholarship, and leadership, will be an honorary member of the club for the month of February. During the coming months other senior boys will be selected. The plan was devised to acquaint young men with the work done by the Lions Club.

At the regular meeting of the club Tuesday noon, two new members, A. D. Shaver and W. Copeland, were informally inducted, and formal induction will be held later.

A committee of John Cooper, chairman, Cleo Meharg, Lester Campbell, and Emory Crockett was named to make arrangements for the annual Lions Club banquet, which will probably be held some time in March.

After the club had adjourned, businessmen remained in session for a short time to discuss the Highway 66 association and to elect a director from McLean to be during the coming year. In election, Boyd Meador, president, was re-elected to office. He and several others attended the meeting of the Texas association, to be held in the Herring Hotel in Dallas.

## Dee Patterson Announces for District Clerk

Dee Patterson today authorized The News to announce her candidacy for re-election to the office of clerk of the District Court, subject to the Democratic Primary election.

Mrs. Patterson, in seeking her third term, points to her experience and ability as the factors to be considered in re-electing her to office. Mrs. Patterson solicits the vote and influence of all voters in the county in the coming election.

## Scouting Plans Are Outlined At Meeting

There were only 31 men and boys present, but all were enthusiastic (and also all had plenty to eat) when the group gathered at the American Legion Hall Tuesday night for the Father-Son banquet, held to interest both fathers and sons in the renewal of Scouting work in McLean.

Featured speaker was Hugo Olsen, Adobe Walls Council Scout executive. He outlined the program which can be followed in having an active Scout troop in McLean.

The crowd was small, but other activities—not known to be scheduled at the time the banquet idea was formulated—interfered with the attendance. Frank Pressler, new Scoutmaster and former chairman of the Scout executive committee, explained.

Following the banquet, Pressler announced that the first Scout meeting for the year will be held at the American Legion Hall Monday night, February 16, beginning at 7:15 o'clock. He urged all former Scouts and all other boys interested in becoming members of the troop to attend. Regular meetings will be held each week after the initial session, it was pointed out.

Navy airfield crash and fire-fighting crews are being trained in tactics designed to complete the rescue of all passengers and crew from a crashed or burning airplane within two minutes after the accident.

## Building Proposed for Hospital Moved to Location in McLean

At long last, the building formerly used as a nurses quarters at the McLean Prisoner of War Camp, has been moved to its new location in the southwest corner of the east half of the City Park.

The building, bought by the city, is slated at present to be used as the structure for the McLean community hospital.

Moving of the building was done this week by Stephenson of Amarillo, building movers, after Day and Peden of McLean decided not to move the structure. The movers were to be paid \$750 for the job.

The building was already cut in half, and had been severed from its foundation and plumbing fixtures at the camp some time ago. City officials, however, had difficulty in finding movers who were available at this time to move the building to town.

The building will be offered for

## Carl B. Morris Seeks Office of Representative

Carl B. Morris of Clarendon announced Saturday, January 31, his candidacy for state representative of the 122nd legislative district. Morris stated that he believes he is in every way qualified to capably perform the duties of the office and to serve the people of this district in a truly representative fashion.

He is 25 years old, married, and the father of one child. He saw 37 months service in the U. S. Navy during World War II, obtaining his discharge in April of 1946. Since that time he has wheat farmed in the summer and attended the University of Texas in the winter.

Before entering the service he attended Clarendon High School, where he was active in farm club work. He was a well known competitor in the poultry, swine and baby beef shows in Texas, and was a national competitor in judging events. After graduation from high school in 1940 he attended Clarendon Junior College and Texas A. and M. At present Morris is a mid-law student, that being the term applied to those students in their second year of law at the University of Texas.

Morris stated that he has long been a student of legislative problems and procedure, particularly those problems affecting the farmer and people who deal with the farmers. He feels that there is great need in our state legislature for that kind of representation. He also said he hoped to make a career of serving the people through representative offices, and that if elected he expected to build a record that would entitle him to seek reelection for the same or higher post as representative of the people of this district.

At the same time he invited everyone to investigate his record and satisfy themselves as to his qualifications and capabilities.

## BIRTHDAYS

- Feb. 8—James A. Prock, Bob Stratton.
- Feb. 9—Mrs. Carl Baker.
- Feb. 10—Mrs. Paul M. Bruce, Archie Hibler.
- Feb. 11—Mrs. H. W. Brooks, Jess Ledbetter, Eugene Boston.
- Feb. 12—Mrs. S. J. Dyer, Mrs. J. A. Darnall.
- Feb. 13—C. G. Hommel, Mrs. J. C. Harris.
- Feb. 14—Ruel Smith, Clifford Yeldell, Mrs. J. R. Williamson.

It is not a merit to tolerate but rather a crime to be intolerant.—Shelley.

## Tiger Pugilists To Meet Quannah In Fights Tonight

Fans who follow the ring will have the opportunity of seeing McLean's new boxing team tonight at 7:30 o'clock when the Tigers meet the Quannah Indians team in the McLean Grade School gym.

A total of 15 bouts has been scheduled for the evening. Admission will be 25 cents for grade school students, 50 cents for high school students, and 75 for adults. Reserved ring-side seats will be available.

The matches will be the first for the Tiger team, although several of the boys participated in the district Golden Gloves tourney held in Pampa recently.

## Earnest Beck Announces for Commissioner

Earnest Beck, commissioner of Precinct No. 4 in Gray County, has authorized The News to announce his candidacy for reelection to that office.

In making his announcement, Beck stated that his campaign will be along the same lines as that he conducted when he first ran for the office in 1946, at which time he was elected for his first term.

"I do not intend to make any specific promises, for promises are so often hard to keep," the candidate said. "I do feel much more qualified to serve as your commissioner now, however, since the experience I have had will enable me to do that."

"No doubt I have made some mistakes during my first term in office, but those same mistakes will not be made twice. Experience has been a great teacher, and I therefore feel much better qualified to fulfill the duties of the office."

"As your commissioner during the past year, I have devoted my entire time to the work of aiding in administering the county's affairs, and in keeping the county roads in as good as possible condition with the funds available. While expenses in road maintenance have doubled, the funds available has not doubled, but I still feel that the roads have been kept in good condition despite the hardships."

"I have no other job to keep me busy, and therefore devote all my time as your county commissioner. This has been my policy in the past and will be my policy in the future if I am re-elected."

"It is my intention to see each of you personally before the primaries, but if I should miss seeing you, I will appreciate your support and consideration."

## School—

### SPORTS

By Bill Boston

#### Basketball Schedule

- Friday Night: Wheeler here, four games.
- Monday Night: Wellington here, two games.
- Tuesday Night: Shamrock here, two games.

**Tigers Take Three From the Clarendon Broncos**

The Clarendon Broncos came to McLean Tuesday only to go home with three losses and no wins for the night. Starting the evening off right, the B girls won 13-7; next, A girls, 33-23; and the A boys 36-18.

In the opening game, the B girls won a very low-scoring game, 13-7. Florey was high scorer for the Tigers with four, while Wilson of the Broncos hit all of her team's points, 7.

The A girls, having already beaten the Clarendon girls by an enormous score, found the Clarendon girls.

## Record-Breaking Number of Poll Taxes Paid in McLean, Alanreed

### Chuck Wagon Supper, Dance To Be Sponsored by Seniors

An old-fashioned chuck wagon supper, followed by a dance which will include a square dance contest, will be held Friday night, February 13, sponsors of the senior class announced this week.

The supper will be held from 6:30 to 7:45 o'clock in the Tiger football stadium, with the dance starting at 8 o'clock in the grade school gym. If the weather is bad, the supper will also be held in the gym, it was announced.

Fund raised by the supper and dance will be used by the seniors to aid in defraying expenses of the annual senior class trip, to be taken at the close of the school year.

General admission to both the supper and dance will be \$1.50, the sponsors said.

Included in the dancing will be a square dance competition, and all teams from the McLean

area are urged to be present and participate in the contests. In addition to the square dancing, regular ballroom dancing will be held.

In Amarillo, an annual square dance competition is held in October, and it is believed that a team can be formed here to enter the Amarillo contest. The square dance organization in Amarillo, sparked by Grady Wilson, county superintendent there, has three main events each year—one is the annual competition in October, an annual Jamboree, and a District Festival. The Jamboree will be held this year on March 3, and the District Festival March 7. Wilson stated yesterday in a telephone conversation that no competition is held at the Jamboree or Festival, but that teams from the area are invited to participate.

## Area to Have Voting Power Of About 750

The McLean area, which includes both this town and Alanreed and the surrounding area in Gray County, will have a record number of citizens eligible to vote when election time rolls around next July.

The reason is that advance publicity paid off to such an extent that a total of 630 poll taxes were paid when the office of the deputy tax collector, Charles Cousins, closed at the City Hall last Saturday. This figure represents approximately 100 more paid poll taxes than ever before in history.

Add to this figure more than another 100 in the exempted classes—over-age, 21-year-olds, veterans who can still vote without paying a poll tax, etc.—and the south part of Gray County can boast of a record power in voting strength of approximately 750.

Gray County will have a total voting strength of about 8,000, according to a report given by F. E. Leech, county tax assessor-collector, to the Pampa News.

In the meantime, another candidate, Carl Morris of Clarendon, has entered the state representative's race, and a Pampa man has indicated that he will also seek the office.

Earnest Beck, present commissioner of Precinct 4 which serves the McLean and Alanreed areas, has formally announced his candidacy for re-election.

Dee Patterson, present district clerk, also has announced her candidacy for re-election to that office.

## Mother of Local Businessman Dies

Funeral services for Mrs. Frank Williams, 74 years of age, who was the mother of J. M. Williams, local John Deere dealer, were held at Elk City, Okla., Thursday afternoon of last week. Mrs. Williams died Monday of last week after a short illness.

Burial was in the Page cemetery near Foss, Okla. Mr. and Mrs. J. M. Williams were in Elk City most of last week and returned to McLean Saturday.

Survivors include eight children.

## Prayer Program Planned at Church

A "World Call to Prayer" program will be held at the First Presbyterian Church in McLean Friday, February 13, at 10 o'clock in the morning, it was announced this week.

Lunch will be served at noon, sponsors of the program said. The public is invited to attend.

## 'Albuquerque,' New Picture, To Play Here

Theater-goers of the McLean area will have the opportunity of seeing a very-recently released motion picture Tuesday and Wednesday, February 10 and 11, when the film "Albuquerque" is shown at the Avalon Theatre, Bill Howard, manager of the theater, said this week.

The new film, starring Randolph Scott, will be shown in place of "Daisy Kenyon." The latter picture will be shown here later, Howard explained.

"Albuquerque," most of which was filmed near Albuquerque, N. M., has a cast including Scott, Barbara Britton, George "Gabby" Hayes, Lon Chaney, Russell Hayden, Catherine Craig, and George Cleveland.

World premier of the picture was held this week, February 2, in Albuquerque. It was shown in Houston Wednesday, is showing in San Antonio today, in Dallas tomorrow, and in Fort Worth Saturday.

February 2 was declared as "Albuquerque Day" by New Mexico's governor, Thomas Mabry, in honor of the world premier of the film, and a World Premier Fiesta Week was observed in many cities and towns of the state.

"We feel very fortunate in being able to bring the film to McLean at such an early date," Howard said. "Regular admission prices will be in effect, and all theater-goers of the area are invited to attend."

## Junior 4-H Club Elects Officers

The Junior 4-H Club met in the music room in the basement of the McLean Grade School January 30 for the annual election of officers.

Named as president was Beth Brooks; vice president, Peggy Duncan; secretary and treasurer, Nedra Graham; assistant secretary, Sarah McClellan; reporter, Frankie Tucker; assistant reporter, Goldie Miller; foods demonstrator, Betty Dickinson; and clothing demonstrator, LaRue Pettit.

Nineteen members and the teacher, Miss Ann Hastings, attended the meeting.

Our bravest and best lessons are not learned through success, but through misadventure.—A. Bronson Alcott.

## New Pontiac Agency to Show Models for '48

The new 1948 Pontiac will be on display this week-end in the building of the Hibler Truck and Implement company, McLean's new Pontiac dealer, according to an announcement from A. L. Hibler, owner of the firm.

The new Pontiac on display will be an eight-cylinder automobile, Hibler stated, and will be equipped with hydra-matic drive, a new feature on the Pontiac.

The shop in the truck and implement company building has been remodeled, and new equipment for repair work has been installed, Hibler stated. The firm also handles as main items Farm-all tractors and International Harvester trucks, and does repair work on these and other makes of tractors, trucks and implements, as well as on automobiles.

In connection with the Pontiac agency, Hibler stated that he will stock Pontiac parts, a large amount of which have already been received.

The shop is manned by two well-known mechanics, George Stevens and Ben Woody. Stevens recently completed his attendance at a special school on hydra-matic drive and other features of the new Pontiac. The school was conducted by the Pontiac motor company. Woody specializes in electrical work on automobiles, Hibler stated, including generators, starters, etc.

The new automobile will be on display in the showroom of the Hibler Truck and Implement company on Highway 66.

## Auto License Tags for 1948 Arrive, May Be Put on Now

Automobile license plates for 1948, which may be bought now and placed in use now, have arrived at the office of the deputy tax collector, Charles Cousins.

The tags, featuring orange lettering on a black background, may be placed on automobiles now, Cousins said. In the past, the tags could be bought early but could not be placed on cars until March 1. They may now be attached as soon as purchased, and they must be in use by April 1, as was the custom in the past.

State officials made the change

to encourage car owners to buy their tags as early as possible, thereby eliminating much of the rush during the past few days before the April 1 deadline.

The local tags, those to be sold in the McLean area, will have the same control letters as last year, with the numerals ranging from 2150 to 2649. Control letters for trucks will be MA, for trailers, TA, and for farm vehicles, RA.

Before applying for the new tags, car owners should equip themselves with their certificate of title, and the last year's license tag receipts, Cousins said.

ELEGANCE AND DIGNITY together with absolute dependability again feature the new Pontiacs for 1948. Pictured is the Streamliner sedan-coupe. For 1948 Pontiac's Torpedo and Streamliner series may be had either in deluxe or standard models and all offer Hydra-matic transmissions as optional equipment.

**NEWS FROM KELLEWILLE**

Mrs. Oland Glyckherr and son Gary of Wichita, Kans., and Miss Birdie Derrick of Pampa are here this week visiting their sister, Mrs. Roy Gossett.

Mr. and Mrs. J. R. Clark and family of Wheeler were Sunday guests in the home of Mr. and Mrs. Roy Gossett.

Mrs. J. M. Bruton has returned from a visit with her daughter, Mrs. J. O. Haanstad, at Eau Claire, Wis.

Mrs. Veri Tinkler underwent an appendectomy Monday at the General Hospital in Shamrock.

The Minnie Moore Circle of Junior G. A. met Thursday of last week and had as guest speaker Mrs. Minnie Moore of Waco. Mrs. Moore, a returned missionary to China, is the mis-

sionary for whom the circle was named.

Mrs. Moore gave a very inspirational talk about her work in China and is looking forward to returning when conditions there have improved.

Those attending were Shirley Tinkler, Mary Tinkler, Edith Higdon, Feleice Elliott, Jackie McCabe, Ginger Jones, Joyce Nicholas, Sue Gray, Maysie McPherson, Mrs. Brent Chapman, Mrs. Walter Poster, Mrs. R. L. Higdon, Mrs. Veri Tinkler, Mrs. A. D. Johnson, and Mrs. O. McPherson.

Mr. and Mrs. W. C. Kennedy spent the week-end in Hobbs, N. M., with Mrs. Kennedy's brother, Lloyd Simpson and family and in Hereford with Mr. and Mrs. C. B. Simpson. Mrs. Jim Simpson and son Frank returned home with them after a week's visit in Hobbs.

**Baptist Circle Meets in Home Of Mrs. Graham**

The Nina Hankins circle of the First Baptist Church met Tuesday evening at 7:30 o'clock in the home of Mrs. Porter Graham for a royal service program.

Topic of the program was "The Unfinished Task of Our Homeland," with Mrs. Joe Graham as leader. Others on the program were Mrs. Howard Williams and Mrs. Guy Beasley.

Refreshments were served to Mesdames J. C. Claborn, Cohen Gallegly, Jasper Graham, Howard Williams, C. B. Lee Jr., Joe Graham, A. D. Shaver, Guy Beasley, James Barker, and Porter Graham.

The next meeting will be with Mrs. C. B. Lee Jr. for Bible study.

**New Features On Pontiacs Are Outlined**

Sparkingly new in appearance and offering hydra-matic drive as optional equipment on all models, the 1948 Pontiac line was revealed publicly this week by Harry J. Klingler, general manager of Pontiac Motor division and vice president of General Motors Corporation.

Pontiac's perennial good looks have been enhanced for 1948 by deft appearance changes which further emphasize the attractive blending of beauty and ruggedness long traditional with Pontiac. Addition of hydra-matic drive to the 1948 Pontiac is considered to be a milestone in motor car manufacture and merchandising in that it is the first automatic transmission to be available to the low-cost, volume market. Pontiac is the lowest priced car to offer such a transmission.

"The hydra-matic transmission has behind it years of manufacture and millions of miles of use at the hands of hundreds of thousands of motorists under all conditions," Klingler pointed out. "It was adopted by Pontiac only after we were completely assured of its dependability and permanent place in modern motoring. It is the same transmission now in use on General Motors most expensive and luxurious line of motor cars, and will be available on all Pontiac models as optional equipment. Dealer surveys of their order lists reveal a strong pre-announcement demand for hydra-matic from persons awaiting delivery of new Pontiacs and we hope to be able to supply this demand."

"In addition, Pontiac has been conducting service schools on the hydra-matic transmission among dealerships and every Pontiac dealer in the country now has service employees thoroughly conversant with maintenance of hydra-matic."

Pontiac again in 1948 offers the Torpedo series on a 119 inch wheelbase and the Streamliner series on the 123 inch wheelbase. Each series is available with six

or eight cylinder engine. Both series, in addition, are offered in deluxe and standard models, broadening Pontiac's market coverage to the widest point in its history. The deluxe group offers striking exterior and interior refinements, including chrome-plated spear-shaped moulding on the front fenders, polished stainless steel rear fender gravel guards, and polished chrome plated wheel discs. Interiors of the deluxe models gain an added elegance through special upholstery, deluxe type steering wheel, electric clock as standard equipment, and chromed hardware and instrument controls.

Earlene Eustace, daughter of Mr. and Mrs. Earl Eustace, who is attending school at West Texas State College in Canyon, was on the honor roll for the first semester with five A's and one B.

Mrs. C. C. Mead and daughter Marilyn of Pampa have been visiting this week in the home of their parents and grandparents, Mr. and Mrs. T. A. Landers.

**Uncle Sam Says**

Want to know a Leap Year proposal you can accept whether you are single or married and have a dozen children? It's the proposal to join the Payroll Savings Plan for buying United States Savings Bonds or the Bond-A-Month Plan at your bank if you are self-employed. Millions of my nieces and nephews have learned from experience that a growing nest-egg built by regular buying of United States Savings Bonds is the best personal guarantee of a happy future.

**Two-Day Holiday From Horse Flies Given by Chemical**

Chlordane, a new but promising insecticide, will give two days of good protection against horse flies and shows some promise as a lice poison, according to Dr. D. E. Howell, entomologist at the Oklahoma A. and M. College experiment station.

Used as a one per cent concentration, the chemical will give two days of good protection and one day of fair protection, he said. However, he warned that directions on the package be followed when preparing the spray because some brands do not have the same concentrations and require different amounts.

Chlordane is on the market under such trade names as 1068, Octa-chlor, and Dow-Klor. The toxicity of this material to animals has not been adequately determined and it must be used with caution, Howell concludes.

Mr. and Mrs. Earl Eustace made a trip to Pampa Monday.

**SPECIAL WORKING CONDITIONS FOR 'SEEING-EYE'**

A made-to-order bed and all the free meals he can handle for working eight hours a day—that's what 8-year-old "Duke" gets as his conditions of employment at the Timken Roller Bearing Company's Columbus, Ohio plant.

You see "Duke" is a dog and for six and one-half years has been the eyes of his blind master, Jack English. Each working day he guides English to the time clock and thru the huge plant to the bench in the metallurgical department where his master is employed as an inspector. Until a few weeks ago Duke's working hours were spent on the hard concrete floor. Then, William Fowler, general manager of the plant, ordered the special bed for the ever faithful dog.

During the war, Mr. English worked for several war production plants, developing the skill that he uses now on the Timken inspection line. Super-sensitive touch, coupled with the electronic devices now in common use, enable English to hold his own in one of the world's largest roller bearing plants.

Faith Hancock left Sunday for a two-weeks visit with her sister, Mrs. Neal McBroom and family, in Skellytown.

**Booklet to Aid Home Builders**

Can termites go through a concrete wall?

This is one of a number of questions asked and answered in a unique booklet entitled "Foundations and Basements" published by the Building Forum of Good Housekeeping magazine.

First of a proposed series of similar booklets covering major aspects of home building, the booklet asks and answers such questions as:

"How can I dry out a damp basement?" "Can I paint concrete walls and floors?" "Is a basementless house practical?" "Can leaky basement walls be waterproofed from the inside?" "How can I keep out termites?" "How is a house anchored to its foundation?" "What causes basement cracks?" How can I make sure my new basement will be absolutely dry?" "Is a concrete floor cold?" "Can it be kept warm and dry?" "What is the best kind of foundation?" "What heating system suits a basementless house?" "Can water-pipe sweating be prevented?" "What is the best material for foundations?" "How far below ground should a basement extend?" "How can cracked basement floors be repaired?" "What type of basement flooring is best over concrete?" "Can linoleum be laid on a cellar floor?" "What kind of foundation does a basementless house have?" "What makes basement walls sweat in the summer?"

Also available is the second booklet in the series which deals with heating and air-conditioning. It asks and answers equally pertinent questions concerning that phase of home-building.

"The purpose of the booklets is to provide readers of Good Housekeeping magazine with sound principles of house design and construction," Joseph B. Mason, director of the Good Housekeeping Building Forum, said. "The booklets were written with a view to the solution of problems posed by our readers."

**Water Heaters Causing Fires**

"Fires caused from hot water heaters have been on the increase since the beginning of the fall months," reported Marvin Hall, state fire insurance commissioner, in asking Texas housewives to follow safety precautions in using them.

Hall said that 21 water heater fires during the three-month period from September through November, did damage totaling \$66,874.

"Heaters too close to walls and overheated plants have been the worst offenders," he disclosed.

Of prime importance is the installation of the heater, Commissioner Hall believes.

"Heaters should have adequate clearance from woodwork and other combustible material," he stressed. "Woodwork subjected to prolonged heat becomes excessively dry and requires only a spark, or perhaps a little extra warmth, to ignite it. This is likely to happen on a zero night when the apparatus is under forced pressure."

Heaters should be rigidly supported, supplied with fixed plumbing and should have proper venting and piping connections.

Hot water heating pipes should be so insulated that they cannot come in contact with combustible material of any kind, for any steam pipe may in the course of time produce charcoal from wood with which it is in contact, and charcoal is subject to spontaneous ignition.

No steam pipe should be within one inch of any woodwork, and every pipe passing through combustible floors, ceilings or wooden lath and plaster partitions should be protected by a metal tube one larger than the pipe and be provided with a close fitting metal cap on each side of the floor or partition.

"These pipes should definitely not be used for drying purposes," the commissioner warned.

Combustible material, such as paper, cloths, boxes, should not be placed on top of or allowed to collect underneath water heaters, Hall said. Especially is the underneath dangerous as there is the additional hazard of the open flame in the bottom of the heater. The heater itself may become hot enough to ignite any combustible material that is left in contact with it.

A vent should be used over a hot water heater. Approved vent piping is made of non-combustible and non-corrodible material designed to prevent the development of dangerous temperatures on adjacent woodwork where run through wood partitions with a specified minimum one-inch clearance.

If a heater is not automatic, special precautions should be taken to see that the heater is turned off after the water is hot. Should the heater be left on, the water would continue to heat to such an extent that after a short space of time pure steam would shoot out of hot or cold water faucets when turned on. Danger of explosion is exceedingly great.

Water heaters are commonly sold bearing the label of the American Gas Association Laboratory, indicating that they have been tested and found to be reliable and safe.

**JOHN DEERE DEALER to PLAY HOST TO FARMERS and THEIR FAMILIES**

**"DOCTOR JIM" starring Stuart Erwin, is Feature Picture in big John Deere Day Program**

Williams Implement Co., local John Deere Dealer, is inviting all farmers and their families in this and neighboring communities, to attend his big John Deere Day Program to be held at the Avalon Theater on Friday, Feb. 13. The program will begin at 10 a. m., a free luncheon at 12, and the free picture show at 1 p. m.

According to J. M. Williams, this year's John Deere Day Program will be of special interest to anyone who has anything to do with farming.

The main attraction is a new specially-produced Hollywood feature, "Doctor Jim," which stars Stuart Erwin, a leading entertainer on the screen for

many years. "Doctor Jim" is a friendly, warm-hearted picture that pays a fine tribute to a small community's leading citizen—the country doctor. You'll like Doc and his wife, skilful—they're human folks who'll tug at your hearts and provide plenty of chuckles, too.

In the supporting cast are such other well-known artists as Barbara Woodell, Hobart Cavanaugh, William Wright, and Netta Packer.

In addition to "Doctor Jim," several other new, all-talking pictures will be shown. They include "Keep Your Eye on the Soil"—an educational picture that sounds a warning no one can afford to ignore—

soil maintenance . . . "Doubting Thomas"—an interesting story that will give you some new slants on new John Deere Models "A" and "B" Tractors . . . "Short Cuts in Forage Harvest"—which demonstrates the way to shorter, easier, and more profitable harvesting of hay and forage crops . . . "Save More Corn at Lower Cost," and "What's New for '48."

According to Mr. Williams, admission to the John Deere Day Program is by ticket only. Any farmer who has not received his tickets or needs more can get them free at Williams Implement Co. before the day of the show.

Friday, February 13, 1 p. m.

**Williams Implement Co.**

McLean, Texas

When the tread on your tire begins wearing smooth, just consider this:

The last 3 or 4 thousand miles in that tire can be awfully expensive miles. Suppose the tire is bruised and damaged—or suppose it just gets worn so thin it cannot be re-capped. Then it is only junk and brings you only a junk price.

**Let Us Buy It!**

Right now, if you have a tire that is wearing smooth and is still undamaged, we can pay you several dollars for it in trade-in on a new tire. Why risk losing these dollars? Come in and let us bid on your worn tires—TODAY!

Readers will confer a favor if they will promptly report any failure on the part of the advertiser to make good any misrepresentation in our advertisements.

### "66" ASSOCIATION

ONE OF THE MOST lucrative sources of income for McLean is the tourist trade which passes daily through this town via U. S. Highway 66, the most heavily traveled road in the country.

But even with all this traffic, the highway can still stand more, and the federal highway department is planning to make it a four-lane highway from Chicago to Los Angeles. This will, of necessity, take a great deal of time, several years as a matter of fact.

McLean has the good fortune to be located on that highway, and although this is a small town, it is the duty of the citizens, particularly the businessmen, to be interested in increasing traffic on the road. The more cars which pass through McLean, the more that will stop here, and the occupants will spend some money.

To publicize U. S. Highway 66, not only in Texas, but in states all along the route, an association has been formed. The national association is a combination of all the state associations, made up of common, ordinary people all the way from Chicago to Los Angeles.

A great deal of money is to be spent on advertising the highway, in an effort to entice more motorists to travel the through route. In most sections of the country, Highway 66 is a good road. The stretch through the Panhandle of Texas and a part of Oklahoma is not so good at present, but it is rapidly being converted into an excellent road.

The Highway 66 Association is not a new idea. There used to be one, but during the war, like a great many other organizations, the association lapsed into unconsciousness. Now it has been re-formed.

As a town located on Highway 66, all businessmen of McLean, and particularly those who derive a great deal of trade directly from tourists, should be interested in the highway, and in getting more tourists to use it.

Tonight at Amarillo, a meeting of the Texas association will be held and new officers will be elected. Any member of the association, or anyone who wants to become a member, can attend the Amarillo meeting. Boyd Meador is the McLean director of the state association, and is planning to attend in that capacity. He naturally would like to see several others from McLean attend with him. The News wonders how many McLean businessmen will be willing to attend. The News wonders.

More than 650,000 copies of the "American Practical Navigator," only official United States reference on navigation, have been sold since its first edition in 1802. About 750 copies of the book, published by the Navy Hydrographic Office since 1896, are currently issued each month.

Truth and love are two of the most powerful things in the world; and when they both go together they cannot easily be withheld. —Cudworth.

Latest navy patrol bomber, land-based, incorporates reciprocating and jet engines. Each of two wing nacelles, one on each side of the fuselage, has an opening in front for propeller power and a small slit in the rear for jet exhaust.

NEWS WANT-ADS PAY.

## Corner Lot Home

A corner lot design should receive some special consideration in planning. Often an L-shaped plan is desirable to provide privacy for the rear garden from the side street. In this home the garage has been used for this screen effect and at the same time to produce a rambling exterior appearance. White painted brick, soft gray green trim and dark holly green roof is a color scheme that would be very enchanting. It comprises 1165 square feet, excluding garage.

Dwelling shown above is a photograph of a scale model of a "cut-out" home which can be obtained from House Beautiful Magazine for \$2.99. The model is easily assembled, and gives the prospective home builder an actual model of the home he plans to build, complete with "cut-out" furniture.

By studying the scale model, the prospective builder is enabled to determine what changes he deems necessary before the house is actually built, thereby saving needless expense.

Blueprints and specifications of the dwelling shown above can be obtained for \$5 per set by writing House Beautiful Magazine, 572 Madison Avenue, New York City 22, New York.

### LES

## TALK

BY LESTER

This is a story which is hard to believe, unless you see it as I did.

But it is the truth. Connie and C. W. Bogan have a dog and a cat which are very good friends. Well, maybe the dog and cat belong to their son, Charlie, but anyway the two animals make their home with the Bogans.

Along about sleeping time, the dog, with the unlovable name of Butch, and the cat, with the delicate name of Prissy, take time about giving one another a bath. Not in a tub, of course, but the dog and cat way of bathing—the process of using the tongue and licking the fur. The cat will lick the dog's fur, particularly around those always dirty ears, and then the dog will do the same for the cat.

Then after all the cleaning work is done, Butch lies down in a curling, relaxed position, and Prissy, the cat, makes her bed by curling up on top of Butch. It's quite a sight to see.

I sometimes wonder why we in McLean can't break tradition and get along like Butch and Prissy.

We probably would accomplish a lot more by not being resentful to one another.

Or would we?

But then, the whole world is made up of resentment, and lack of ability to get along with one another. My, my, what a horribly dull world it would be if we didn't have a war now and then to kill off a bunch of the people we all love so well.

That bit of sarcasm comes from one who never again wants a part of a war, even though he

*A Joes' Gossip...*

Our boast—and we believe it—you can save over half on the laundry cost when you do it yourself.

**Blue and White Laundry**  
 E. C. Bragg, Owner

didn't do a heck of a lot to get it over with.

Snow is mighty pretty stuff, as long as one can stand and look at it. It is mighty handy stuff to have for moisture at a time like this. But it is also very disagreeable. I personally would rather have the needed moisture in the form of rain. Of course, there is still mud, but no snow slosh (is that the correct way to spell it?)

A mill is a tenth of a cent or a thousandth of a dollar. A tax of ten mills means that you would pay a cent for each hundred-dollar evaluation of your property. If your property is rendered with the taxing agency at \$1,000, then a tax of ten mills or one cent would cost you ten cents per year. If your property is rendered at \$50,000, then the tax of ten mills would amount to \$5. However, if your property isn't any larger in value than mine, then you needn't worry for many, many years about the \$5 item.

All of this is, in case you

You may have that bird in your hands, but remember he has wings.

Husband: "I suppose you are still angry with me because I came home last night with a black eye."

Wife—"Maybe you've forgotten, but when you came home last night you didn't have that black eye."

You can usually dodge a question with a long-winded answer.

When in need of better lubrication, or better gas and oil, drop in our station. Standard products are tops, and we do our utmost to please you in every way.

**Standard Service Station**  
 ODELL MANTOOTH  
 Owner

haven't guessed it, leading to one thing. In last week's issue of The News, a definite plan for raising money for a permanent recreation program for McLean was advanced. The person advancing the idea suggested that a tax, not to exceed ten mills be voted by the people for the purpose of financing a permanent recreation program, not only for the summer but a year-round program of some sort.

The idea I am trying to point out here is that the cost to you would be very, very small. For example, if your home is rendered at \$2,500—not many of them here are that high on the city's tax books—then the yearly cost would be 25 cents in taxes. I haven't checked up on the figures, but I imagine that the average taxpayer would not even be paying as high as 25 cents.

Is it worth it to you? Perhaps you have no children, and you can't see why you should pay to keep other people's children occupied. I have no children either, but I am quite willing to contribute my part—and I'd be willing to kick in with considerably more than 25 cents a year.

It would be worth it, even in dollars and cents. I am not expecting any juvenile to break into my house and steal something, but they very easily could do so sometime in the future. They might even do it if we had a recreation program, but the odds would be more in my favor if such a program were in force.

I like money, don't you? But I also like peace of mind, and I like to think I am doing something helpful to the town in which I live. I like to think I am helping someone a little even though I don't do much to help people in general. Yes, like money, too, but I don't like it so well I won't turn loose of it. If you don't believe that, ask Joe Hembree or Clifford Allison—they're qualified experts on people's bank accounts. And mine isn't growing.

All of which reminds me t

**Used Cars and Tractors**  
**Howard Williams**  
 Phone 95 W

remind you that I am in favor of a summer recreation program. A method has been suggested for financing it. To me, without a great deal of study, the plan seems pretty good. How does it seem to you?

Saw City Detective Howerton the other day—he has solved some big murder mysteries in Fort Worth and I've known him since the days when I was police reporter for the Star-Telegram.

"We ought to write a book of crimes," I suggested.

"Not much exciting happening," he said, "it'll have to be old cases."

"Oh," was the reply, "that's the only kind to write about. Everybody is familiar with the new cases but they've forgotten the old ones, so a fellow can lie

like hades about 'em!"

What a narrow margin separates the man who achieves success and the man who fails! Back in that golden era of sport, the fabulous '20's, the name of Charlie Paddock was synonymous with speed. He "burned up" the cinder paths of the nation. At the 100 and 220, he was the "world's famous human." Yet many of his races were won only by a step or two; the other was right on his heels. But all the acclaim went to Paddock and none to the runner who finished hardly more than the batting of an eye behind him.

One of the tallest buildings in Dallas belongs to an oil company whose emblem is the flying red horse. Surmounting the skyscraper are two flying red horses. A citizen explained that Dallas folk insisted that two be put up, as Fort Worth folks couldn't call Dallas "a one-horse town."

Pride is ignorance; those assume most who have the least wisdom or experience; and they stand from their neighbor, because they have so little of their own.—Mary Baker Eddy.

**Pumping Oil Fields in Reverse**

PITTSBURGH, PA.—By pumping water and natural gas into the depths of the oil fields, modern science is bringing 10 to 50 per cent more oil to the surface. This typical cross section shows one way it's done. Here gas is pumped in above the oil pool, and water underneath it. These artificial pressures, from above and below, force the oil to flow thru the sand or rock in which it is imbedded and up the well shaft. Sketch is based on an explanation by Gulf Oil.

**Lefors Lad's Plea Causes Panhandle Visit of 'Train'**

By Eugene Worley  
U. S. Representative

We hear a good bit of talk about dictatorship and democratic governments. Here's an object lesson in how democracy works.

Along in December, a schoolboy and the members of his civics class at Lefors wrote their congressman, asking if he could have the Freedom Train sent to their section of the country. The congressman at that time was not aware of just what route the Freedom Train was to follow since the federal government had no jurisdiction or control of the train. On the contrary, it was being financed and directed by subscriptions made by private individuals and organizations.

The congressman reasoned that if the school boys and girls in Lefors were interested in seeing the priceless documents carried by the Freedom Train, then thousands of other Texas Panhandle school children would also be interested. He immediately contacted the American Heritage Foundation and found to his dismay that the schedule had been made up months before and was advised definitely that it would be impossible to make any changes at all.

Renewed pleas were made to the American Heritage Foundation by the congressman but the answer was still a definite and positive "No"—the schedule could not be changed. In the meantime, more requests from school children, civic and patriotic organizations in the Panhandle reached the congressman. Supported by these additional requests, the congressman continued his efforts. He began making other contacts—urging, arguing, and insisting as far as he could

Metropolitan Opera singers, violinists, pianists and lecturers have long been appearing in the largest Texas cities, but William Z. Rozan felt that these stars should be brought to smaller cities and towns as well—so Municipal Concerts, which Rozan heads, is bringing artistic treats and general enjoyment to many Texas communities. Among the speakers is Boyce House, whose "column" appears in 200 weeklies, the author of "I Give You Texas." Inquiries should be addressed to Municipal Concerts, 3940 S. Main, Houston

that the schedule be changed.

Fortunately, the congressman had other contacts whose aid he enlisted, and finally after a world of red tape, phone calls, telegrams, and personal visits, the officials decided the one change would be made and these school boys and girls and men and women of the Panhandle of Texas would have an opportunity to

see these original documents of American history and government. The congressman would like to see the train visit every town in the country, especially in his congressional district. However, the sponsors say this will be impossible and they are trying to place it in the biggest population centers in the most convenient and central locations. Accordingly, the Freedom Train bearing these documents—for example, George Washington's personal copy of the constitution with corrections in his own handwriting (1787), Abraham Lincoln's pen notes for his Gettysburg address (1865), and Thomas Jefferson's draft of the Declaration of Independence (1776)—which are so priceless that they are guarded day and night by Marine Corps guards, will be on view in Amarillo on May 16 from ten o'clock in the morning until ten o'clock that night.

Wonder what would happen in Russia had a school boy written a member of the Russian government such a request. It is mighty good to live in a democracy where so small a voice as a school boy's can help make the wheels of democracy turn. And it gives me a warm glow of satisfaction. I hope everyone will see these documents and secure renewed inspiration to protect this government against the ever-present and evil forces of un-Americanism.

Naval Air Transport Service officials estimate that NATS transports navy men for two-thirds of the cost the navy would have to pay for commercial transportation or the same men.

**S. S. Number—One of a Kind**

Take a 9-digit number and punctuate the figures like this—000-00-0000. Chances are that you have come up with the number which identifies the account of one of the 88,000,000 holders of social security cards.

Those nine numbers on your social security card positively identify the federal insurance account set up in your name under the social security act. The particular combination of numbers on your social security card is

yours for as long as you live.

You may get bills from stores for other persons with exactly your same name, but if you show your social security card to each of your employers, you, and only you, will get credit for what you pay for social security.

The Social Security Administration does not, like a bank, send regular statements to its account holders. However, any holder of a social security card can get a statement of his account once a year if he asks for it. And, if the statement is not right, the local office of the Social Security Administration will investigate the amounts for the last four years and make corrections if necessary.

"To be sure that your social security account is correct," said J. R. Sanderson, manager of the local office at Amarillo, "do two things. First, be sure that each new employer gets to see your social security card and second,

**Dr. Joel M. Gooch**

Optometrist

200 S. Wall Pho. 123  
Shamrock, Texas

ask for a statement of your account once every four years. "Don't forget," Sanderson warned, "that after four years have gone by, we are powerless to correct our records even though we may know they are wrong, unless the employer, of his own free will, sends in a corrected tax report and pays the taxes due."

Presenting the new 1948 **PONTIAC** A FINE CAR MADE EVEN FINER!

**GM Hydra-Matic Drive optional on all models!**

Today, Pontiac announces a series of notable advancements in the car that has already won the wholehearted endorsement of more than a million owners and friends.

Foremost among these advancements is the great General Motors Hydra-Matic Drive—now offered as optional equipment on all Pontiac cars. Pontiac is the lowest-priced car in the world to provide this great mechanical

masterpiece—which shifts gears automatically, and completely eliminates the clutch pedal.

Coupled with this great engineering triumph is a striking improvement in beauty and luxury. New exterior smartness extends from the new radiator grille to the streamlined rear bumper.

Interiors, too, are remarkably improved. Upholsteries are more beautiful and are expertly blended to achieve new attractiveness and charm. Instrument panels are finished in a smart design adapted from quarter-sawn mahogany—and an adroit use of chrome moulding adds a deft touch of modernity.

Engine and chassis have been refined wherever possible—but they remain, basically, the same engineering masterpieces which have become

synonymous in the automotive industry with goodness and dependability.

There are many more things we could tell you about the new Pontiac, for there are countless improvements which add to its traditional quality and value. But we feel that, for those who know Pontiac, we need only say—

—here is, by far, the most beautiful Pontiac ever built

—here is the most luxurious Pontiac ever built

—and it is now available with GM Hydra-Matic Drive—\*optional at additional cost.

We wish only to add that it is here—on display in our showroom—and that you are most cordially invited to see and inspect it.

You don't need New Year's Day to make one resolution which will make your future more secure. In fact, this February day is as good as any day for this resolution: All you have to do is to sign up for the Payroll Savings Plan for buying Savings Bonds. Just write your John Henry name. After that, your money is invested for you every payday automatically. In just 10 years you get back \$4 for every \$3 invested. If you are in a business or profession and the Payroll Savings Plan is not available to you, ask for the Bond A-Month Plan at your bank.

**Pledge Service Of Local WSCS Held at Church**

The Methodist W. S. C. S. met Tuesday in the church basement with a pledge service led by Mrs. Andrews, assisted by Mesdames H. A. Longino, Bob Black, J. E. Kirby, G. A. Swanson, W. E. Bosan, Frank Wilson, Ellen Wilson, Frank Rodgers, Odell Mantooh, and Roach.

Mrs. W. H. Foster Jr. and little daughter left Friday for their home in Farmingdale, N. J., after a three weeks' visit here in the home of their parents and grandparents, Mr. and Mrs. Evan Sitter. Rev. W. H. Foster Sr. of Lubbock visited recently with the Sitters. Mrs. Foster, who had been visiting here for the past week, returned home with her husband on Friday.

**Cattle Grubs Cost Ranchers**

Cattle grubs, also called wolves or warbles, cost Oklahoma cattlemen thousands of dollars each year, says Dr. D. E. Howell, Oklahoma A. and M. College entomologist.

The common heel fly appears during the first warm days of spring and their activity increases as the season advances. At the end of about six weeks the last of the flies have usually disappeared.

The eggs (one fly may deposit as many as 300), are cemented skillfully to hair close to the skin of animals, usually low on the legs, particularly just above the hoof. If cattle are laying down, eggs may be deposited on the hair of the udder and belly.

The warmth of the host's body enables the eggs to hatch within three to five days and tiny larvae emerging from the eggshells force their way at once through the skin and into the deeper tissues. There the larvae move about slowly for about nine months, feeding and growing.

After approximately nine months they reach the back of the animal where each larvae makes a hole through the skin. Shortly thereafter a pocket or cyst develops in the host. The larvae remain in this cyst for four weeks or more. It molts twice after reaching the back of the animal.

As the larvae grows, it causes a swelling which usually becomes conspicuous, giving the back a lump appearance.

After the second molt the larvae turns back and works itself out of the back and drops to the

**Uncle Sam Says**

You don't need New Year's Day to make one resolution which will make your future more secure. In fact, this February day is as good as any day for this resolution: All you have to do is to sign up for the Payroll Savings Plan for buying Savings Bonds. Just write your John Henry name. After that, your money is invested for you every payday automatically. In just 10 years you get back \$4 for every \$3 invested. If you are in a business or profession and the Payroll Savings Plan is not available to you, ask for the Bond A-Month Plan at your bank.

U. S. Treasury Department

ground, where it becomes a pupa. Pupation begins when the temperature is favorable and continues until the fly is ready to emerge from the pupal case. This period is dependent upon the temperature. It usually varies from six to ten weeks.

Mr. and Mrs. C. E. Cooke and Mr. and Mrs. Ed Lander returned Sunday from a trip to Duncan, Okla., and Fort Worth.

Misses Cleo Pope and Rosie Dill of Clarendon are visiting in the home of Mr. and Mrs. Odell Mantooh this week.

**Oats in Mixture Up to 50 Per Cent Near Corn Value**

Oats are worth about 95 per cent of the value of corn when they are included in a feeding ration, up to 50 per cent, feeding trials at the Oklahoma A. and M. College experiment station show.

According to Dwight Stephens, animal husbandman, trials in which ground corn was compared to a ration of one-half ground shelled corn and one-half ground oats showed average daily gains of 225 pounds per head for those receiving ground corn and 224 pounds per head for those in the mixture.

A total of 465 pounds of corn, as compared to 235 pounds of

corn plus 214 pounds of oats, were required to produce 100 pounds gain. The cattle received silage, cottonseed cake and ground limestone in addition to the corn and oats.

Feeding a ration of one-half corn and one-half oats is more desirable than the feeding of oats during the first part of the feeding period and corn the last part, Stephens said. There was little advantage in grinding oats for cattle up to one year of age.

Miss Loyce Miller left Friday for Dallas to attend the funeral services of a sister who passed away Wednesday of last week. She had been in ill health for some time.

Sunday visitors in the home of Mr. and Mrs. C. E. Cortz were Mr. and Mrs. Jack Cooper and daughter Barbara Ann, and Mrs. C. B. Duke of Borger, and Mr. and Mrs. Guy Langley of Pampa.

RES. 127 W

REVEREND—The word "Reverend" is found in the Bible but once (Ps. 111:9) and means, "To be feared, revered"—Young's Analytical Concordance. In Ps. 111:9 it is applied to God, and it is his name. One who wears the title "Reverend" has assumed one of God's names. One might as well, then, wear the name "Holy," "His Holiness," "Heavenly Father," "God," "Jehovah," or any other name of God as to accept the title "Reverend." To accept the title "Reverend" is the most IRREVERENT thing I can think of. None of God's preachers ever accepted it.

## Sports—

(Continued from page 1)  
 endon girls very much improved and were never out of serious danger until the last quarter. They finally pulled it out of the fire and won, 33-23. Miller witnessed a good night by sinking 16 points, while Terry hit 12 for the visitors.

The A boys didn't have as much trouble as the rest of the teams witnessed. They fired their way into a 14 point lead, where the second string took over. The second string boys played the last quarter, getting valuable experience for next year's team. The game ended 35-18. Eudey hit 12 for the Tigers while Bulman sank 7 for the Bronchos.

**Tiger Boys Rack Mobettie**  
 The Tiger boys played a small but hustling team from Mobettie last Saturday night, winning 40 to 25. The boys played a hustling brand of ball and were never in serious danger, with the second string playing most of the second half. Haynes garnered 10 points, while Burke hit 7 for the losers.

## Religious SNAPSHOTS

By George Anders  
 A Christian life is a useful life. God cleans you up—it is your business to keep clean.  
 Remember it is sin that ruins your life here, and will keep you out of the Glory World.  
 You can start an argument in a hurry if you suggest some new religious ideas.  
 If you will keep your religious house in order, you won't be upset when these second-coming preachers come around.  
 I know the devil can do a lot of mean things, but so long as there is a great host of good people all around, I am not afraid of the old scamp taking things over.  
 Lots of people enjoy their troubles like little boys do their bubbles, never giving out a smile, grumpy, grouchy all the while.

Mr. and Mrs. Tom Royal and daughter of Amarillo visited with their parents and grandparents, Mr. and Mrs. N. A. Greer, during the week-end.

Mr. and Mrs. Joe Graham and son Gary Joe were Sunday visitors with Mrs. Graham's sister in Panhandle.

## Not too Late To Spray for Cattle Grubs

It is not too late to spray cattle for grubs, says County Agent Ralph Thomas. The control would have been more effective had the first spraying been done last fall, but spraying now will kill many grubs and cut down the heel fly population this spring.

Thomas said that stockmen who sprayed their cattle for grubs last fall should check and see if any more grubs have punctured the hide. If any grubs are found the cattle should be sprayed again to make the grub control almost one hundred per cent effective.

With the high price of cattle and the high price of feed, cattlemen just cannot afford to be feeding the grubs. Then when heel fly time comes the cattle will lose some more of that high priced flesh unless the grubs are killed to cut down the heel fly population.

The treatment that Thomas recommends is a mixture of 7 1/2 pounds of 5% rotonone cube to the 100 gallons of water applied to the backs of the animals with a power sprayer with 400 to 600 pounds pressure.

The cube mixture will also kill any lice that might be present.

Clinton (Tex) Ritter of Lawn left for Fort Worth Thursday as a member of the Texas Tech livestock judging team. He is a member of the team coached by Ray C. Mowery at Texas Tech.

Bob Sherrod attended the Pat Stock Show in Fort Worth last week.

## Political Announcements

The News has been authorized to announce the following candidates for public office, subject to action of the Democratic primaries:

**For State Representative:**  
 ORANGER McILHANY  
 CARL B. MORRIS  
**For District Clerk:**  
 DEE PATTERSON  
**For County Sheriff:**  
 JEFF OUTHRIE

## Royal Service Program Is Held By W. M. S. Circles

Two circles of the Baptist Woman's Missionary Society met at the church February 3 for a royal service program.

Mrs. Oba Kunkel was leader, first giving the theme for the year, "One World—One Savior—One Task," of the topic for the month, "The Unfinished Task in Our Homeland." A song, "Jesus Shall Reign Where'er the Sun," was sung, and the Bible study and devotional was given by Mrs. Leo Gibson from Joshua 13:1-7 and 18:1-7.

The leader brought out the thought that people living in our country have more reason to speak with pride and joy than any other people in the world, ours being a beautiful, rich, aggressive, free, and Christian land. Such a country needs and demands our love, loyalty, and our service. "The Home Mission Task" was given by Mrs. Robert Howard; "The Task Un-

# When You Should Stop ADVERTISING

Just a few suggestions to the man who feels his business and his name are so well-known he needs no sales help!

- WHEN man becomes a creature of habit so thoroughly he will buy this year where he bought last year . . .
- WHEN younger, fresher, and spunkier concerns in your line cease starting up and taking "your customers" away thru advertising . . .
- WHEN population ceases to increase and no new folks want to live and work in your town . . .
- WHEN you have thoroughly convinced everyone who ever has or ever will be in your store that they will now and forever get better buys from you . . .
- WHEN business principles reverse themselves and the non-advertiser does more business than the successful advertising merchant . . .
- WHEN men stop making tremendous strides in business thru well-planned newspaper advertising . . .
- WHEN you can forget the words of wise merchants the world over who attribute their success to wise use of newspaper advertising . . .
- WHEN you would rather have your own way, even if you fail, than follow advice and perhaps win success . . .
- WHEN you want to be rid of the troubles of waiting on customers and are tired of making money . . .

The Surest Way to Stay in Business . . . Profitably . . . Is to Regularly Advertise in . . .
