McLean, Gray County, Texas, Thursday, April 22, 1948.

No. 17.

Right-of-Way Maps Are Received Here

Rights-of-way maps, deeds, and easements for the right-of-way of the four-lane divided Highway 66 through the south part of Gray county are now in the hands of a committee of three McLean men, and work is beginning on the obtaining of the contracts to buy the needed land.

The committee, appointed by County Judge Sherman White, is composed of O. G. Stokely, E. J. Lander, and C. E. Cooke. The three men have all the necessary papers with which to contract for the needed land for the right-of-way, and work has begun on obtaining the land.

Although the county desires to get the contracts made as soon as possible, payment for the land probably will be delayed until the present civil suit of W. J. Ball et al. vs. the State Highway Commission is settled. Ball and other residents of Alanreed are seeking to obtain an injunction against the commission, since the proposed route would miss Alanreed about one quarter mile to the north.

The committee of three has already started work on obtaining the right-of-way. A number of land owners, through whose property the highway will run, have been contacted, and some verbal agreements were reached. Now that the deeds and easements have been received here, however, the actual contracts to buy the right-of-way can be signed.

The highway will be, when completed, a four-lane divided highway through the south part of Gray County, similar to that now under construction in Wheeler County.

Through McLean, the maps show (Continued on back page)

Judge Excuses Jury Panel Until May 10

The entire panel of jurors called in the Highway 66 hearing was excused by District Judge Lewis M. Goodrich Friday after the judge had sustained the defendant's exceptions to the plaintiff's pleadings, until May 10, at which time other civil suits are set.

The case is that of W. J. Ball, et al. vs. the Texas State Highway Commission. Ball and other residents of Alanreed are asking the court to grant an injunction stopping the highway commission from changing the route of U. S. Highway 66, which now passes through Alanreed.

Judge Goodrich also granted leave until April 30 for the plaintiff to amend his pleadings.

The highway commission proposes to change the route of the highway, which will be a four-lane divided road, to a point about a quarter of a mile from town.

Bakery Sold To Bud Baker

The Home Town Bakery, opened here about a year ago by Mr. and Mrs. Wayne DeVore, has been sold to Bud Baker, former resident of Olney. It was announced this week.

DeVore, who has been ill at intervals during the past few months, stated that his plans for the future are not definite.

Vineyard, Andrews Take Boxing Titles in District 2-A Tourney

Two members of the McLean High School boxing team captured the District 2-A titles in their weights in the finals of the district tournament in Clarendon Saturday night.

The two winners were Johnny Vineyard, in the 135-pound class, and Dickie Andrews, in the heavy weight class. The only other finalist from the McLean team, Freddy Brister, lost by a technical kayo to Eugene Collingsworth of Shamrock.

Andrews, in winning the heavyweight title, scored a quick 30-second knockout over Bob Phillips of Wellington. The big McLean football tackle was district heavyweight champion in the Pampa Golden Gloves tourney this year.

Vineyard, who won by a technical kayo over a Shamrock opponent in the semi-finals Friday

night, had trouble with Bill Plank of Wellington in the finals Saturday night, but chalked up a decision to take the 135-pound class title. The style of fighting used by the Wellington lad made it hard for the slugging style of Vineyard to be effective.

Shamrock won the team trophy with a total of 14 team points. Wellington was second with 13 points, and Clarendon third with 11. John Lee, Wellington boxing coach and chairman of the District 2-A boxing league, presented the team trophy to Kenneth Glasgow, Shamrock coach.

Members of the McLean boxing team who participated in the tourney were Don Crockett, Joe Billingsley, Ben Darnell, Wayne Moore, Cliff Callahan, Freddy Brister, Alvin Blackshear, Jackie Bentley Earl Trimble, Jack Hupp, and Vineyard and Andrews.

School District Given Ten Days to Purchase Gymnasium Located at Pampa Army Air Field

The McLean Independent School District board of trustees has been notified that it is being given ten days to decide definitely whether to buy from the War Assets Administration the building formerly used as a recreation building at the Pampa Army Air Field.

The building, constructed for use as a gymnasium by officers and men formerly stationed at the Pampa Army Air Field, is 88 by 14 feet. The selling price to the school district would be \$1,300, since the school will receive an 80 per cent discount from the set value of the structure of \$1,650.

The notice sent to Superintendent Logan Cummings, who inspected the building several weeks ago and made application for it in the name of the school

board, states that ten days will be allowed by the W. A. A. for the payment of the \$1,300.

Following receipt of the paying instrument, if the board decides to undertake buying the building, title to it will be sent to the board, and a certain length of time granted for removal.

Some of the board members have pointed out that a new and larger gym is one of the most needed physical portions of the local school system. The present gym will not hold a large crowd, and consequently no district basketball or boxing tournaments can be held. In addition, the floor space in the gym now in use at the Grade School is not large enough for a regulation basketball court.

How much the cost would be to move the building from the

Membership Cards For Highway 66 To Be Sold Soon

Membership cards and placards for the Texas Highway 66 Association for 1948 have arrived and will be placed on sale next week, Walter Kelly, local director of the association, announced this week.

Dues for the year are \$2.50 per person or business institution, Kelly explained. Last year, approximately 125 memberships were sold in McLean.

During the past year, the association has spent considerable money in publicizing Highway 66, and a folder will soon be issued telling of the highlights of "66" across the U. S.

Presbyterians Now Installing Electric Organ

A long-awaited dream is being fulfilled this week at the First Presbyterian Church in McLean.

That long-awaited dream is the installation of an electric organ, an instrument which has been on order for many months, and which finally arrived Saturday night.

Installation of the organ was begun Tuesday morning, and it will be ready for use during the Sunday services.

The organ is electric, and made by the well-known Hammond company. It was bought at a total cost of \$2,250, Mrs. E. J. Windom, secretary-treasurer of the organ committee, said. Mrs. Windom is also in charge of locating and installing the organ.

Arthur Erwin, chairman of the organ committee, stated several months ago that the organ had been bought, but due to the critical nature of such items, delivery would be delayed.

Mrs. Travis Stokes will serve as chief organist for the church. Her assistants, who are now taking lessons for organ playing, will be LaWanda Shadid and Marsalee Windom.

Air Marker To Be Painted

Work on the painting of an air marker atop the Grade School building will probably get underway this week, C. W. Bogan, chairman of the Lions Club committee working on the project, said this week.

Painting of the air marker, which will give the name of the town plus the distance and direction to the nearest approved airport, is being sponsored by the Lions Club.

The committee in charge consists of Bogan, Guy Hbler, and George McCarty. The group contacted the C. A. A. for specifications for the sign.

Seniors to Give Annual Class Play April 29

"He Was a Gay Senorita."

That's the name of the annual play of the local senior class, to be presented Thursday night, April 29, at the McLean High School auditorium, beginning at 8 o'clock.

The play, a 3-act farce-comedy, will feature members of the senior class in each of the roles. Director is Virginia Chambers.

The cast is as follows: Larry Moore, played by Scotty McDonald; Daniel Benjamin, Bobby Myatt; Arnold Benjamin, Bill Boston; Lean Lutzenheim, Jan Black; Fritz Lutzenheim, Arvin Smith.

Mrs. Spanglow, Jayne Bowen; Carlotta, Carol Smith; Costa de la Torriente, Charlene Roach; Doctor Forsythe, Bill Eudey; Patsy Forrest, Claude Mounce; June Gale, Sue Davis; and Vera Stewart, Maurine Harlan.

Square Dance Group Forms District in Area

An Amarillo Square Dance district was organized recently when representatives of various towns met in Amarillo, elected officers and designated an area to be covered by the district.

H. Grady Wilson of Amarillo was named president, Bill Heskew of Pampa vice president, and Joy Hindman of Chillicothe secretary.

The district will comprise all of Texas north and west of a line from Wichita Falls down route No. 82 to Lubbock, thence south of Brownfield, thence west to the New Mexico border. The New Mexico border towns of Hobbs, Clovis, Tucuman, and Clayton will be invited to join the district.

Present at the initial meeting were representatives from Amarillo, Pampa, Borger, Shamrock, Chillicothe, Quanah, Wichita Falls, and Paducah.

"The organization has been formed not only for fun and fellowship within the boundaries of our district, but also to join with other districts for fun, fellowship, and exchange of patterns," the secretary said.

Dr. Thomsen To Speak Here

Dr. R. Thomsen of Amarillo, well-known throughout the state for his ministerial work, will deliver the regular Sunday morning sermon at the First Presbyterian Church in McLean.

Dr. Thomsen will speak in the absence of the pastor, Rev. Karl Ernst, who with his wife left this week for a trip to Wisconsin. Rev. and Mrs. Ernst plan to be away for about four weeks.

Delivering Sunday night services will be Dr. Douglas Nelson, Presbyterian pastor of Pampa.

The following two Sundays, during the absence of Rev. Ernst, Rev. S. R. Jones will conduct services at the local church.

BIRTHDAYS

April 25—Frank Reeves, Edwin Sanders, Mrs. Eva M. Rogers.

April 27—Mrs. Emory Crockett, Mrs. Truman Spain, Mrs. George Angelopoulos.

April 28—Clyde Dyer.

April 29—Jackie Lee Hill, Mrs. Willie Lamb, Frances Kennedy.

April 30—Billy Shelton, Mrs. Luke Graham, S. L. Montgomery, Bonnie Lee Chaffin, Mrs. Wm. H. Foster Jr., Mrs. R. L. Winn.

May 1—Earl Stubblefield, Sandra Baker, Annette Smith, Mrs. G. W. Beck, Mrs. S. P. Nordyke.

Pennsylvania Avenue is the street between the U. S. Capitol and the White House.

Swimming Pool to Be Built Here By Individuals; Ready by May 15

Senor de la Rosa, Outstanding Speaker, to Give Address Here

Residents of the McLean area will have the opportunity of hearing one of the outstanding speakers of the southern part of the North American continent when Senor Roberto de la Rosa of Mexico City speaks here Tuesday night in the McLean High School auditorium under the auspices of the Lions Club.

The program will start at 8 o'clock, Lion President W. C. Meharg said this week.

Senor de la Rosa has spoken at a number of cities and towns throughout the Panhandle, and appeared a few weeks ago as the principal speaker at the Pampa chamber of commerce banquet. Several residents of McLean attended the banquet, and stated that he was one of the most entertaining and enlightening speakers which they had ever heard.

A small admission charge of 25 cents for adults and 9 cents for grade school children will be made to defray expenses of bringing the outstanding speaker to McLean. The affair will be open to the public, and a large crowd is expected to attend.

Senor de la Rosa is 29 years of age, single, and the son of a general of the Mexican army. He

SENOR DE LA ROSA

is a graduate of the National University of Mexico City.

For the past few months he has been working with Rotary International with offices in St. Louis, Mo., filling numerous engagements in the U. S. similar to the one to be held here.

Senor de la Rosa is a brilliant speaker, full of Latin wit, who knows the U. S. well and Mexico better. Besides his ability as a lecturer, he is an accomplished musician as well.

Fire Destroys Boat House At McClellan

Between 20 and 30 thousand dollars in property and contents were lost when fire of an unknown origin destroyed the boat house on Lake McClellan operated by Bert A. Howell Wednesday night of last week.

Two fishermen on the other side of the lake discovered the fire, after Howell had closed his concession for the night, it was reported.

Howell stated he was able to get three expensive inboard boats out of the house, but that all the tools and equipment, including five outboard boats and 14 outboard motors, were completely destroyed.

The total loss was estimated at between 20 and 30 thousand dollars. The boat house, of steel frame construction, was built only last winter.

Jan Black, Brooks In WTSC Pageant

Miss Jan Black and Jack Brooks represented McLean High School as princess and prince when the king and queen of personality were crowned at West Texas State College last Friday night. The affair was in the form of a pageant.

Twenty high schools were represented. Named king and queen of WTSC were Charles Bruce, sophomore from Vega, and Jody Marsh, junior from Crocbyton.

RAIN!

A total of .86 of an inch in rainfall, with a small amount of hail, fell Wednesday afternoon and night, to bring the total for the year to 4.45 inches.

The rain started shortly before four o'clock Wednesday afternoon, and continued intermittently until about 2 o'clock Thursday morning.

The moisture, badly needed by crops of the area, was the first to fall since a light rain March 24, according to records of Pete Fulbright, local weather observer.

Windom, Gibson Families to Be Owners of Pool

Here is good news to hundreds of people in the McLean area.

Work was started Tuesday on a swimming pool to serve the people of the area.

The pool to be 30 feet by 60 feet in size, is being built by Mr. and Mrs. E. J. Windom and Mr. and Mrs. Leo Gibson, longtime residents of McLean who believe in this little city's future and who want to fulfill a need that has been felt for many years.

Actual work was started on the project Tuesday and plans are to have the pool in operation by May 15, sufficiently early for the summer swimming season.

The pool will be located on land one block north and two blocks east of the McLean High School building, close enough in to enable anyone to walk to the pool from any point in town, and far enough on the edge of the residential district to disturb but few, if any, residents.

It is planned, when the pool is placed in operation, to have a life guard on duty at all times.

The pool itself will be two feet deep at the shallow end and nine feet deep at the other end. Diving boards will be installed at the deep end.

Bath houses will be built, according to the owners, and lights will be installed to provide parking for night swimming. Parking space is to be provided on the west, south, and east sides, enabling those who want to watch the swimmers to park outside the fence surrounding the pool.

Bryan Roby, local contractor will be in charge of the concrete work on the pool, owners said.

The exact price to be charged for swimming has not yet been determined, although it will be in line with prices charged at nearby public pools.

Italian Bride of C. A. Myatt Jr. Is Visiting Here

A pretty young Italian girl, who is now an American, is visiting in the home of Mr. and Mrs. C. A. Myatt of McLean.

She is Mrs. C. A. Myatt Jr., and she and C. A. arrived here Saturday from Rome, Italy, where he was stationed as a corporal in the U. S. army.

The two will visit here for about 30 days. While here, Mrs. Myatt will speak before the McLean Lions Club, and other organizations, it has been learned.

Scouts to Parade Today in New Uniforms, Advertising Boxing

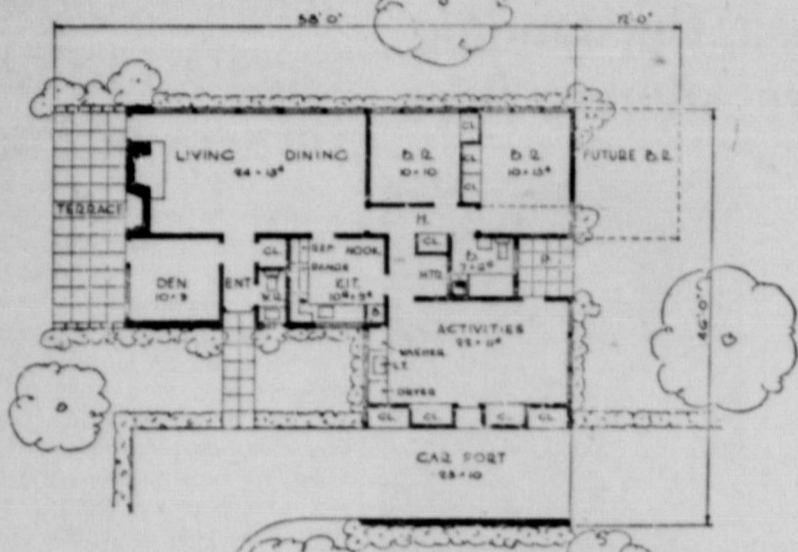

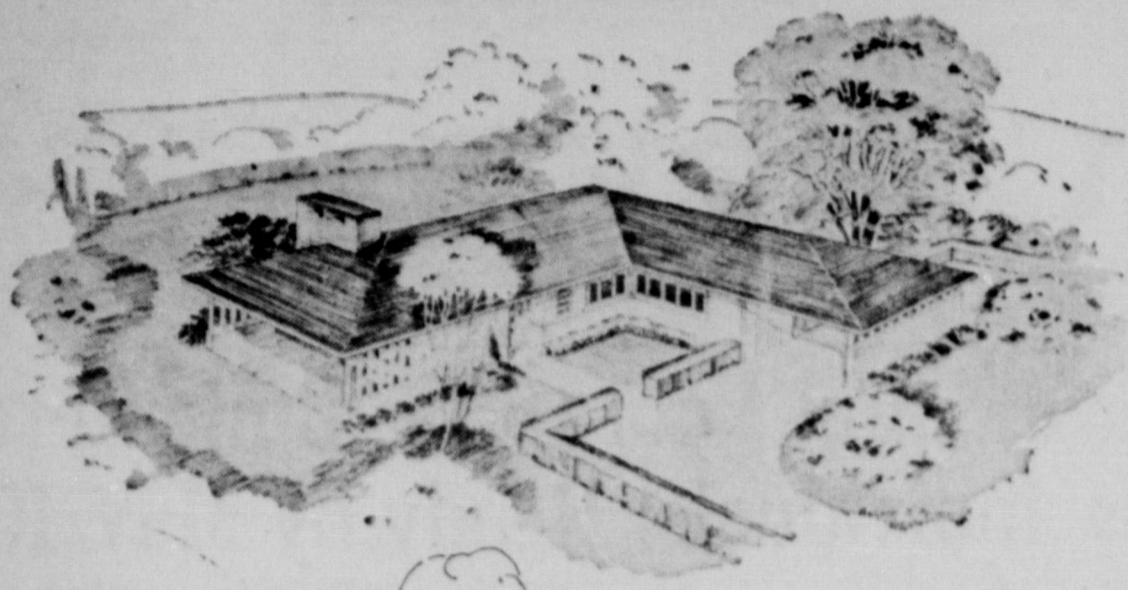

This afternoon at about 3 o'clock, watch for the parade of the new uniforms. The new uniforms were bought members of Boy Scout Troop No. 25 as they march down town in their new uniforms.

Barring unforeseen developments, there will be a total of 27 Scouts in uniform. Scoutmaster Frank Pressler said, and the main purpose of the parade is to do a little advertising.

For Friday night, the Scouts are sponsoring an evening of boxing matches in the Grade School gym, to be followed by the auctioning of cakes and pies (homemade ones, that is). The affair will begin at 8 o'clock.

Immediately after the parade downtown, the boys will be dismissed, and ticket sales will begin. The Scouts hope to raise enough money from the sale of tickets to the boxing matches to go a long way toward helping Hem.

Active Family Dwelling

This home has been designed for an active family with varied interests. A large activities room, the den and the living-dining area provide the solution to the problem. The den is very useful as a guest room with a wash room so handy off the entrance hall. Note, too how easily a third bedroom could be added. The exterior is simply designed with a low-pitched roof and wide overhanging eaves nesting the structure down to the ground. It comprises 1100 square feet, exclusive of garage. Dwelling shown above is a photograph of a scale model of a "cut-out" home which can be obtained from House Beautiful Magazine for \$2.00. The model is easily assembled, and gives the prospective home builder an actual model of the home he plans to build, complete with "cut-out" furniture. By studying the scale model, the prospective builder is enabled to determine what changes he deems necessary before the house is actually built, thereby saving needless expense. Blueprints and specifications of the dwelling shown above can be obtained for \$5 per set by writing House Beautiful Magazine, 572 Madison Avenue, New York City 22, New York.

Molasses May Serve as Feed For Animals

Blackstrap molasses gives a slightly lower feeding value than corn, but can be successfully used as a corn substitute, trials at the Oklahoma A. and M. College Experiment Station show.

For best results, the molasses should be fed with a bulky cereal grain such as ground oats, Dwight Stephens, animal husbandman, said. When fed with ground oats, Blackstrap molasses has a feeding value of 80 per cent to 85 per cent that of corn.

Experiment station feeding trials show that cattle receiving

ground shelled corn gained at a rate of 195 pounds per head daily while those getting oats plus molasses gained only 192 pounds. For each 100 pounds of gain it required 469 pounds of corn as compared compared to 238 pounds of oats plus 298 pounds of molasses.

In addition to ground shelled corn ground oats and molasses, the cattle received cottonseed cake, silage and ground limestone.

DIES IN MISSOURI

Julian Nelson of St. Louis, Mo., about 80 years of age, died re-

cently at his home. He was a cousin of Mrs. Luther Petty of McLean. Mrs. Petty visited in the Nelson home when she attended the Southern Baptist convention in St. Louis last May. In railroad parlance, a round-house is a building having stalls for the housing of locomotives.

Doctor Urges Rabies Control

The recent death of a child in south Texas from rabies emphasizes the danger of this disease and its importance to public health.

According to a statement just released by Dr. Geo. W. Cox, state health officer, there were 1,099 rabid animals discovered by laboratory examination in Texas last year. There were undoubtedly many more rabid animals running loose which were never examined. Since most of the animals were dogs, children are especially vulnerable to this dreaded disease.

"All dogs should be vaccinated annually as a rabies control measure," Dr. Cox said.

Mr. and Mrs. Ed Clifton attended the funeral services last Friday in Pauls Valley, Okla., for Mrs. Mary Jane Kimberlin, grandmother of Mrs. Lester Dyart. Burial was made in Whitehead, Okla.

Mr. and Mrs. Pat Baker of Norman, Okla., visited over the week-end in the home of Mrs. Baker's parents, Mr. and Mrs. Paul Pierson.

Mr. and Mrs. Ernest Christie and family of Berger, and Mr. and Mrs. Arthur Baker and sons of Pampa were recent visitors with their parents and grandparents, Mr. and Mrs. G. F. Baker.

Mr. and Mrs. G. F. Baker Jr. and son Barney left this morning for their home in Gatesville after a two week's visit here in the home of their parents and grandparents, Mr. and Mrs. G. F. Baker.

A few weeks ago, your columnist went to Little Rock to speak at the state hardware dealers convention. I hardly knew I was outside of Texas because the newspapers there featured the visit of scientists to the McDonald observatory, out in the Davis Mountains, to study the green spots on Mars; the trial of a man accused of murdering his bride, whom he had married in Abilene, and the Texan, an ex-marine, who stabbed a burglar to death in Chicago.

And a touch that reminded one further of Texas was an ad which read, "World's biggest hot dogs."

Of course, Texas has the biggest in just about every line; that Arkansas advertiser must have been newly arrived from Texas and hadn't yet got over his Texas habits.

From the business district of Little Rock, when you look toward the Capitol, because of a hill in between, you see just the dome, apparently hanging in space.

You can walk across a bridge over the Arkansas River. As a boy, I seem to remember the big stream as having two or three steamboats puffing up and down, with others moored at the wharf. But, the other day, there were just two barges and a house boat in sight.

And I've never eaten any finer fried chicken than that at a Little Rock cafeteria—Mrs. Adkinson's. It melts in your mouth like ice cream—only, ice cream doesn't have as good a flavor as that fried chicken.

In early days, the sight of a "benzine buggy," as the auto was known, scared horses. A man explained, "When a horse sees a buggy running down the road with nothing pulling it, it's as if a man was to see a pair of empty pants run by him. Wouldn't that scare you?"

Mr. and Mrs. Evan Sitter are in Baltimore, Md., where Mr. Sitter is undergoing medical treatment at Johns Hopkins hospital.

541 Burned To Death in '47

Fire burned to death 541 people and destroyed nearly 21 million dollars in Texas in 1947, reports Marvin Hall, state fire insurance commissioner.

"Even these unbelievably high figures are not complete," Hall declared. "The monetary loss is already three million dollars higher than losses for any one year in the history of our state."

Deaths from fire also threaten to break all records, he believes. A few death reports are still coming in. Loss of life in the Texas City disaster is not included in the above figure.

Insured fire losses for 1947 total \$20,203,000. This does not include uninsured losses, the commissioner advised.

"These deplorable losses are growing more alarming every day," he said. The only way to combat this useless loss of life, property, resources, manhours, and resultant higher cost of living is for each Texan to assume an individual responsibility in seeing that fire hazards are removed. At least 90 per cent of our fires are due to carelessness."

Over half of our fires have been in homes. The condition is especially grave in the face of the housing shortage.

Matches and cigarettes were the number one cause of fires in 1947. Electricity was the next greatest cause, with trash and rubbish third. The fourth most frequent cause was kerosene stoves and fifth, gas stoves.

Hall said gasoline and kerosene fires are on the increase, as well as heating equipment fires, such as gas, oil and kerosene stoves and heaters; chimneys, and water heaters.

Mr. and Mrs. T. B. Windom returned Monday from a week's visit in Wichita Falls.

Mr. and Mrs. K. E. Windom visited Sunday in Clarendon with their son, Millard Windom and family.

Mr. and Mrs. Allen Wilson of Amarillo, former residents of McLean, spent the week-end in McLean visiting relatives.

Mr. and Mrs. C. E. Cooke visited Sunday in Plainview in the home of their son, James E. Cooke.

C. A. Watkins of New Jersey visited Monday in the home of his grandmother, Mrs. C. A. Watkins.

Minister John R. Fulmer was a business visitor in Pampa Monday night.

Gamma Globulin May Prevent Child's Measles

The state health officer emphasized the fact that gamma globulin cannot give a child permanent protection against measles and added that the protection against measles is ordinarily of about three weeks duration. However, there is no limit to the number of times it can be used, and a baby who is protected by it now can be protected again in June or July.

Gamma globulin can go on shielding him against measles until he is old enough and strong enough to stand an attack without serious consequences.

During an outbreak of measles Dr. Cox said that it is well to keep children under five years of age, and more especially frail children, away from all other youngsters who might serve as sources of infection.

With the incidence of measles more than three times higher than the seven year median, Dr. Geo. W. Cox, state health officer, has issued a statement concerning the use of gamma globulin for protecting very young or frail children from an attack of this perennial childhood disease and its often serious complications.

"If you have a child less than five years old who has been exposed to measles, your family doctor may recommend giving him gamma globulin, Dr. Cox advised. "Through city, county or state health departments, doctors can obtain gamma globulin free, when parents are unable to pay. Infants and children, whose health makes it inadvisable for them to suffer an attack of measles, may postpone the disease if gamma globulin is administered within eight days from the time of exposure.

NOTICE TO PUBLIC

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation, which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the editor personally at the office at 210 Main St., McLean, Texas. The McLean News does not knowingly accept false or fraudulent advertising of an objectionable nature. Each advertisement in its columns is printed with full confidence in the presentation made. Readers will confer a favor if they will promptly report any failure on the part of the advertiser to make good any misrepresentation in our advertisements.

WHERE ARE WE GOING?

THE FOLLOWING remarks are excerpts from a pamphlet recently published by the Council of Texas Retailers' Associations of Texas, and which The News deems worthy of publishing here:

There is a crying need today for more facts on government questions and less propaganda.

There are some facts which show the dangerous pace we have developed in spending the taxpayers' money. These facts in the hands of any thinking citizen will cause that citizen to realize it is time to put on the brakes.

The last legislature authorized expenditures in Texas for the fiscal year which ends August 31, 1948, of 358 million dollars and authorizations to spend for the next fiscal year are approximately the same. Now just how much money is 358 million dollars?

To begin with this is 192 million dollars more than the state was spending when we entered World War II. It is 100 million dollars more than the combined capital surplus and undivided profits of all national banks in Texas. It is more than the value of the 1946 cotton crop of Texas. Can anyone question the fact that when public expenditures reach this high plane we are on dangerous ground?

Does this vast expenditure mean that the money is being spent for unworthy causes? Does it mean that there is no merit in the request for this vast expenditure of public funds?

The answer to both of these questions is, NO. There is, of course, waste and extravagance in some expenditures but primarily the trouble lies in this fact, during the last fifteen years of easy money, during these days when the people have developed a habit of asking the government to supply all their wants, as well as their needs, they have forgotten the fundamental fact that no government has ever been able to buy and pay for all the worthwhile services the people are ready to accept.

Economy in government can come in one way and one only and that is, for us to begin first to ask the question: Are we able to pay for the government service? Then ask the question, whether or not it is a desirable service which the government should furnish. We are headed for bankruptcy if we continue to spend all the public money the people ask for, unless the people begin to realize that what we spend sooner or later must be paid for.

There is another lesson we must learn and that is, there are many taxes, many governmental units, but after all there is only one source of revenue and that is, the taxpayer.

ATHLETES FOOT ITCH NOT HARD TO KILL IN ONE HOUR.

Bill Howard made a business trip to Albuquerque, N. M., the first part of the week.

Mrs. Thomas Perkins of Clarendon spent Sunday and Monday here with friends.

LES TALK BY LESTER

Last week we carried an editorial copied from the Anahuac Progress, a paper in a town way down on the Gulf Coast not too far from Galveston. Among other things, the editorial pointed out that when the dogwood blooms come out, so do the candidates. Furthermore, the editorial pointed out that the dogwoods in East Texas are not yet blooming—about that I'm not sure. The issue of The News carrying the editorial had hardly been printed and put in the post office when Cleo Meharg called over and said he was reading the editorial, and noticed about the dogwoods not being in bloom. He then went on to say that he has a dogwood tree, and that the blooms are already on it. As this is being written, I haven't been down to see the blooms but they must be there or Cleo wouldn't have said so. How was I to know that someone here has dogwood trees? I personally wouldn't know a dogwood from a cottonwood.

If we are to have a recreation program this summer, now that the tax levy has been okayed, then it behooves the city council to name the recreation board and get started on the thing. Such a program is going to require quite a lot of thought on the part of the board, and unless it is going to be a haphazard program, it should be in the process of formulation now. I feel that the program will not be too exceptional the first year, and that a number of mistakes will be made—sort of on the trials and error side. But there should be some sort of program this first summer, and it should be started now.

Probably one of the main things on the program will be an organized softball league. To make this worthwhile, a lighted field will have to be provided. That will entail a rather sizeable expense. It should be understood by all that actually the tax levy will not bring in any money to the city until next fall, and that funds used this summer will necessarily have to be "borrowed" from next year's revenue. That means that the money available this year will be relatively small. So that means it is probable that money for lighting the football field will have to come from somewhere else.

I have been told by John Cooper that the lights on the football field were bought several years ago from the proceeds of one game. He suggests that perhaps some sort of similar promotion stunt might be worked out for lighting a softball and baseball field. It might take two or three good nights of baseball to do the trick, but it sounds like a feasible idea. Perhaps you have another. Let's hear it—

A lawyer went to the East Coast to handle a case, and promised his Western partner to inform him at once of the outcome. A few days later, he sent his partner a telegram saying: "Justice has triumphed." Immediately "came the reply: "Appeal at once."

Key: "Your opening sale has closed. What now?" Jake: "Our closing sale opens."

No kidding, drop in and visit with us, and let us fill your car with that better Standard gasoline. We actually believe it is better than most, and second to none.

don't keep it to yourself.

The most outstanding event on the program of the Panhandle Press Association convention in Amarillo this year was the address by Charley Guy of the Lubbock Avalanche. Guy was one of 14 newspapermen who were guests of the army on a tour of Europe last fall, and he certainly has a story to tell. He let us share part of what he learned. At least he spent an hour telling us of things he saw. Guy says, among other things, that you should not worry about the way in which your loved one is living if that loved one is stationed in Germany in the occupation army, or in some other phase of work over there. The Americans, he pointed out, purposely missed bombing the better residential sections of Berlin, for example, so that those places would be available for living quarters and office quarters. Even the enlisted men have excellent quarters, he said.

The officers there, of course, really took the swank places. He told of meeting one naval captain who is a Texan. This captain asked him to his home to meet his wife and two children. The "home" consisted of only 36 rooms, and a four-car garage with an apartment above the garage for the chauffeur and his family. The captain, however, was not being hogish about it. He was using only 18 of the rooms for himself and his family.

Trieste seems to be one of the hottest spots, according to Guy. Not in temperature, but in possible international complications. There are a number of Americans stationed there, but Guy said that if a fight started those Americans would be simply a sacrifice. They would not be strong enough to last but a short time. Bombers from England can easily reach the spot, but they would be too late.

Yes, people are hungry in

Europe. No, not the Americans stationed there—they get plenty to eat. But the natives are the ones who are hungry. Guy said he spent a great deal of time talking to the "man in the street" and he found out much more about what he wanted to know than if he had merely listened to the stuff at the meetings.

The address was well worth listening to. I wish everyone could have heard it. You may not know much about Charley Guy—I never did. He stated that before the war, he did everything in his power to try to convince everyone that isolationism was the only answer to peace in the U. S. He has changed his mind completely now, he says, and does not believe that the U. S. can ever isolate itself. In other words, the world has not shrunk, but it is smaller. If you get what I mean.

PLAN YOUR LIGHTING

When you plan your home

Now it can be done. You can plan your lighting just as carefully as you plan the placing of windows, or the color scheme of your home.

Today a sufficient variety of fixtures and lamps are available so that you can have the correct light and the correct fixture in every room. When you plan your new home, or remodel your present home, plan your lighting for pleasant living.

And living will be pleaster, too, when you take full advantage of all the benefits of low-cost electrical living.

Some of the 75,000 ABC Pins Get Ready to Travel

Do you know that rules of the American Bowling Congress call for daily replacement of the bowling pins used in 40 tournament alleys? This means some 75,000 new pins are used in the course of the event. The practice assures that every team will compete under exactly the same circumstances. In the photograph above a girl is repacking a few of the discarded pins for distribution by Chevrolet truck to privately owned bowling establishments.

Mr. and Mrs. George Wright left Sunday night for their home at Simms after a visit in the home of Mr. and Mrs. J. T. McCarty.

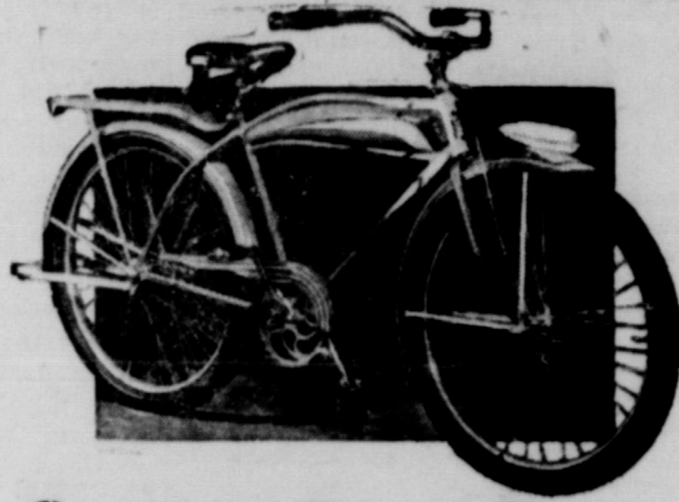

Mr. and Mrs. Luther Petty and grandson, Vernon Kennedy, attended the North Fork Baptist Association meeting at the Lone Mountain church Thursday of last week.

PAMPA, TEXAS

and Mrs. Laurence Bourland family of Tulla visited the week-end here with Mr. Mrs. F. H. Bourland and Mrs. C. E. Corta.

Milk Handling Requires Care

The production and distribution of milk is a business requiring great care in the handling of the product, as it is highly subject to contamination. Inasmuch as milk can be readily contaminated, control of production and distribution is necessary in the form of sanitary regulations. Milk that is produced and handled from farm to consumer, where sanitary precautions have been taken to make it a clean, wholesome product, is designated a Grade A milk, said Dr. Geo. W. Cox, state health officer.

In the production of Grade A milk, it must come from clean and healthy cows. It is produced under conditions that will insure freedom from dust, dirt, and fly contamination in both the dairy barn and milk house. The dairy barn construction is such

that it can be easily cleaned. Facilities are provided in the milk house to wash and sanitize utensils and equipment easily and quickly, and to store them in a place protected from contamination. Adequate cooling facilities are provided in the milk house so that the temperature of the milk can be lowered immediately after milking. It is the bacteria in milk that indicate the care with which it is produced and handled.

Water supplies should be safe in order that no harmful bacteria may be introduced into milk from contaminated water in the process of washing and rinsing utensils. Carriers of disease organisms, or milk handlers who may be ill, can also introduce harmful organisms into a milk supply.

Pasteurization does not make a dirty milk clean. A clean quality milk can only be provided by having it produced and handled under sanitary standards. In brief, the consumer is assured that when Grade A pasteurized milk is used, it not only is safe milk, but it has the added quality of being a clean milk.

Chevrolet Owners!—Here's a lot of new-car zip for a lot less than new-car cost!

GENUINE CHEVROLET CYLINDER BLOCK ASSEMBLY FOR PASSENGER CARS AND TRUCKS

If long years of hard driving have taken the pep out of your pre-war Chevrolet, here's a special you won't want to pass up.

Of course, a new cylinder block assembly in your car is going to mean finer performance and a savings in gas and oil consumption!

So drive in and talk it over. There's no waiting, no complications. We'll work out a payment plan to suit you; and almost before you know it, you can be driving out with the old car so full of zip, you'll think it's a new one!

Every part of these Cylinder Block Assemblies is new. The block itself, crankshaft and main bearings, camshaft and camshaft bearings, pistons, piston pins and rings, connecting rods, front-end plate, timing gears—everything. They're assembled at the Chevrolet factory and meet Chevrolet's rigid specifications in every respect.

COMPLETE ENGINE ASSEMBLIES ALSO AVAILABLE

You can easily arrange for installation of a complete engine assembly in case it's required. Same liberal payment plans, same prompt, friendly service.

USE OUR LOW MONTHLY PAYMENT PLAN

Cooke Chevrolet Co. McLean, Texas
