Just Between Us

Don't ask us why we subscribe to Life magazine, watch the "Today Show" on television and read the service accounts of civil rights activities.

We couldn't explain why we do these things, even if you did ask. Perhaps it's because we want to get angry over the methods they are using to attempt to inflame the nation against the South we love so much. . . . a South we know isn't at all the way they picture it.

Our admiration goes to the Amarillo Daily News and Globe-Times for being willing to spend the money to give their readers a first-hand look at the situation in Alabama.

Bruce Romig, an Oklahoma friend of ours for several years, is in Alabama now covering the civil rights march and demonstrations for the Amarillo newspapers and KGNC television and radio. His first dispatch revealed information the Associated Press, United Press International and other major wire services hadn't bothered to report.

This was the fact that the marchers actually aren't too concerned with the civil rights issue—or at least not nearly so much as they are with earning the \$12 to \$14 per day "and all they can get" which were offered to the participants.

In other words, many of the marchers are in Alabama to make fast buck.

We wonder how many of these same people would have joined the proposed march in reverse from Montgomery to Selma, if the ante had been upped a dollar or two by the group of whites who conceived the idea of the second procession, then abandoned it!

Certainly, the nation was outraged over the beatings administered to demonstrators in Selma. It was shocking to us, too. But the fact remains that the demonstrators were breaking the law, and officers were hired to enforce the law.

In this week's Life magazine, a lady reporter tells of her experiences in Selma. She has much to say about the killing of the white minister from the north who took part in the demonstrations preceding the march into Montgomery.

Her article is intended to make the people of Alabama, as well as officers there, appear like nothing more than mere hoodlums, ready to kill any person whose skin is black or who sides with the Negro.

Yet, such racial killings occur every day in northern cities. In recent days, two Negroes in the North chased down a youth and smothered him to death for no reason at all—except that the victim was white.

Then there was the Chicago Negro judge who freed two Negroes who seriously slashed an officer attempting to arrest them.

The judge ruled the Negroes were acting in self defense when they used broken bottles on the policeman.

Many months ago, J. Edgar Hoover, director of the Federal Bureau of Investigation, warned that Communist agitators had infiltrated into the civil rights movement.

It was even noted on some occasions that Martin Luther King, the Negro leader, and at least a few of his lieutenants, had attended Communist meetings.

And now a Negro woman who (See JBU, Page 8)

2 Tiger Bandsmen Quality for State

Jay Ben McMillen and Ronnie McLroy, members of the McLean High School Tiger Band, have qualified for entry in the state University Scholastic League competition June 7-8 in Austin.

The two youths—sons of Mr. and Mrs. R. B. McMillen of Alanreed and Mr. and Mrs. Wayne McLroy of McLean—won the right to enter the state contests when they received first division ratings in solos last Saturday at Interscholastic League performances at West Texas State University, Canyon.

Granddaughter of McLean Couple To Appear in Movie

Marilyn Linley, granddaughter of Mr. and Mrs. T. E. Crisp of McLean, has been selected to appear in a movie soon to be produced. It was learned here this week.

Marilyn, daughter of Mr. and Mrs. Joe Hudson of Dallas, left Sunday for Hollywood, Calif., to be fitted with a wardrobe for the forthcoming film. She was chosen for the role by a Hollywood talent scout.

Her mother is the former Bobbie Crisp of McLean.

Marilyn was born in a Pampa hospital and resided with her grandparents here for a time.

She is 17 years old and was graduated from high school in Dallas at mid-term. Trained in dramatics and modeling, she has previously appeared on television.

Mrs. Crisp said this week she has not learned the name of the movie in which her granddaughter is to appear, but at least some of the filming will be in Dallas.

Dr. Maxwell Will Move to Turkey

Dr. Wayne Maxwell announces that effective Friday his office will be closed.

He is moving his practice to Turkey.

Mrs. Maxwell and the children will remain in McLean until the end of the current school term.

GILBERT WILL HEAD JAYCEES New Officers Elected Monday

Jerry Gilbert, manager of Southwestern Bell Telephone Co. in McLean, was elected Monday night as president of the Junior Chamber of Commerce.

He succeeds John Jones in the post. Jones was elected secretary.

Other new officers include: Carey Don Smith, vice president; Casper Smith, treasurer; Butch Foster, inter-club director, and Jim McDonald and Bill Heasley, directors.

Installation April 12. The officers are to be installed on April 12 by Jerry Fowler, state Jaycee vice president and director from Hereford.

Fowler also was present for the Monday night meeting here.

Following the election of officers, seven members of the local Jaycees attended an oration presented by the Amarillo Jaycees in Shamrock. They were accompanied to Shamrock by Fowler.

Three new members joined the Jaycees here Monday night. They are Eddie Bartley, James Mercer and Fred Brown.

'The Chairs' Wins Second in District; Stewart Top Actor

"The Chairs," the McLean High School entry in the District 2-A one-act play contest, took second place Tuesday night in competition at Canadian.

Judges chose White Deers "Macbeth" as the only play better than McLean's. Clarendon placed third with its "The Old Lady Shows Her Medals."

Six schools were entered. MHS had won the district contest last year.

Don Stewart, a member of "The Chairs" cast, was named the best actor in the district. Linda Tindall was picked by the judges for a place on the All-Star Cast.

Rusty Simmons was the third member of the local play cast. Mrs. Jon Ann Dwyer directed the production.

McClellan Creek Project Okayed

PLANNERS TO SURVEY AREA DURING YEAR

The McClellan Creek upstream flood control project has been approved by the Texas Conservation Board, and a planning party is expected to begin work here within a few months.

Milton Carpenter of McLean, chairman of the Gray County Soil Conservation District board of supervisors, announced this morning that notification of the action came in a letter received over the weekend.

Carpenter said the state board indicated that the planning party which will survey the McClellan Creek watershed in search of the best dam sites is due in this area later in the year.

The number of sites—now expected to be at least 10—and the locations will be determined by the planning party.

"Worked Together" Carpenter and other SCD supervisors, as well as the scores of persons in the area who have worked for years to win approval of the upstream flood control project, were "If we hadn't worked together related over the announcement, we wouldn't have gotten it done," Carpenter said today.

He especially praised Billy Davis of Pampa who served as chairman of the steering committee for the project, and also commended Curtis Schaffer, James Cliett, W. C. Epperson and Stan Friend, other Gray County SCD supervisors.

Approximately \$18,000 has been raised in the area affected by the project to help pay the cost of the planning party.

Insufficient Funds This was done to speed up the work, since state allocated funds are not sufficient to send planning parties to the sites of every proposed program similar to the one on McClellan Creek.

The survey is expected to require five or six months.

The Cities of McLean and Groom have indicated an interest in using two of the reservoirs for future municipal water supplies.

Carpenter said it appears at present located in Carson County, with the others in Gray County.

Beginning at County Line

Traffic Circle Work Due East of Here

Construction of highway overpasses is expected to begin on U.S. 66-IH 40 east of McLean within the next few months, L. Clyde Drake, resident engineer for the State Highway Department, said here Tuesday.

Drake, whose office is in Wellington, said this work should not be confused with the highway bypass for McLean.

SHAUNA WHITE SHOW WINNER To Enter District 4-H Elimination

Shauna White, 9-year-old daughter of Mr. and Mrs. Tom White of McLean, will represent Gray County at the 4-H Club district elimination Favorite Food Show April 3 in Canyon.

Shauna was the high-scoring junior in the milk division with her hot cocoa at the county Favorite Food Show Saturday in Pampa.

Regina Lamb, daughter of Mr. and Mrs. Creed Lamb, received a red ribbon for her entry in the bread-cereal food group at the county show.

Mrs. Lamb presented Shauna and Regina at the Style Show of Food following the judging at the courthouse annex in Pampa.

According to Mrs. Jaunita Channell, assistant Gray County home demonstration agent, 43 members of the 4-H Clubs entered the show. However, five were unable to attend.

Panhandle Relays Re-Set This Weekend

If weather permits, the still untried McLean High School Tiger track squad will enter the once-postponed Panhandle Track Meet this week.

Coach Fred Hedgecock said the meet is to be staged Friday and Saturday at Panhandle.

Inclement weather so far has cancelled or caused postponement of every meet the Tigers have been due to enter.

The local school is to host the District 2-A meet on April 13.

SHAUNA WHITE SHOW WINNER To Enter District 4-H Elimination

A legal notice published in this week's McLean News points out that "any interested citizen may request that a public hearing be held regarding the proposed location and the economic effect of such location."

Such requests should be delivered in writing to Drake's office in Wellington on or before April 12.

Four Years Away The resident engineer said the construction of the McLean bypass is probably at least four years away.

No right-of-way for the bypass has yet been purchased inside the city limits, he added.

The Highway Department currently is planning the construction of overpasses and interchanges along the Interstate 40, which through this area generally follows the same route as U.S. 66.

A traffic interchange is planned at the Five Mile Station, east of the city, and another overpass at the Papan Road, some four miles farther east.

Routes around the towns along the highway, or by-passes, will be constructed after these preliminary projects are completed.

JUBILEE NETS TOTAL OF \$53

A total of \$53.25 was added to the Junior Chamber of Commerce flag fund as a result of last Saturday night's Derby Town Jubilee.

This was the amount of money taken in at the regular every other Saturday night show in the high school auditorium.

The door prize, \$10 worth of groceries from Cooper's Market, was won by Beverly Clawson.

A large crowd attended the performance, which featured two hours of entertainment.

On the program were: Buck and Carl Lee Henley; Clinton and Letitia McPherson; J. A. Endsley, the Chevilles, Margaret and Marsha Hulsey, George Green, Rusty Simmons, Butch Blaylock and Phyllis Bench, all of McLean; Dr. Corbin and his Dixieland Band from Miami; a girls singing group from Lela; Billy Tidwell, Alanreed; Johnny and Cindy Davis, Canadian.

Other Shows Planned It was announced that several other shows similar to the Derby Town Jubilee are scheduled during the next several days.

The Quail Talent Show will be at 7 p.m. Friday, with all amateur talent invited to participate. A Heart Fund benefit will be staged Saturday at 7:30 p.m. in Shamrock.

Mike Haynes Wins Gray Spelling Bee

A McLean Junior High School student correctly spelled the word "instantaneous" Tuesday afternoon to win the Gray County Spelling Bee in Pampa.

Mike Haynes, son of Mr. and Mrs. John M. Haynes and an eighth grade student of Mrs. Vera Featherston Back, spelled down 25 other youngsters to take the county title.

He will enter the regional Spelling Bee sponsored by the Amarillo Globe-News in Amarillo on April 1. The winner there will be eligible to compete in the national Spelling Bee in Washington, D. C.

It took 1½ hours for Mike to eliminate his last opponent—Laurie Dingman, a sixth grade student at Travis Elementary School in Pampa.

Laurie misspelled "insistence," but Mike didn't. The local youngster then was given the word "instantaneous" to end the spelling competition.

Cheri Tarbet, daughter of Mr. and Mrs. Earl Tarbet, was ranked ninth among the 26 spellers. She went down on the word "aeronautics." Cheri also is a student of Mrs. Back's.

Cheri's brother, Valta, a sixth grade student of Mrs. Marguerite Green, was 21st.

This marks the first time McLean has had a winner in the county Spelling Bee in some six years.

Birthday Supper Held For Boyd B. Smith

A covered-dish supper in honor of Boyd B. Smith on his birthday was given in the R. T. Wood home Saturday evening, March 20. Music and games provided the entertainment.

Boyd stated that he was now 39 years old.

Attending were Messrs. and Mmes. Truitt Johnson, Guy Hester, Doug Groves, Carl Laffin, Thurman Trew of Alameda, Paul Appleton and Angela of Pampa, Delbert Trew and family of Perryton and Wood.

Kilgore Rites Held For Citian's Brother

Jess Stephens of Kilgore, brother of Mrs. P. L. Ledgerwood, died Wednesday, March 17. He had been in ill health for 12 years.

Funeral services were held Thursday.

Mrs. Ledgerwood was unable to attend due to illness, but other members of the family attended.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

One view of history is the incessant struggle of men to enslave other men, and the struggle of men to be free.

In ancient times Moses freed his people from the slavery of the Pharaohs, and the early Christian Church struggled to free in Rome the slaves who had been used to build the Coliseum, the Circus Maximo, and other edifices.

A hundred years ago there was coming to close a great conflict on American soil which has often been called a struggle to end slavery. While the purpose of the war was not for this end, as a result, slavery was ended.

Twenty years ago the closing scenes were being enacted in blood of the struggle of decent people to end the enslavement of others by the Nazis.

And now, in 1965 the curtains rise in Washington on another attempt to enslave men.

For in 20 states of the union, there are laws which protect men from paying tribute and swearing allegiance to the Hofas of the land in order to work.

For the current attempt to repeal certain sections of the Taft-Hartley Act that permit states to pass "right-to-work" laws are just another manifestation of men seeking to enslave other men for gain.

Twenty states have laws which provide that a man's

right to hold a job depends on his own ability and energy, rather than the dictates of a union boss, or the determination by a hiring hall.

And now this freedom of the individual is being attacked to make it come to pass where ever men labor, they shall first swear allegiance to a union boss and pay part of their earnings to him in order to work.

And the sad part of it is that the determination for the future of these millions of workers is being made by others.

The Israelites did not vote themselves in slavery; it was the well fed Egyptian couriers who determined they should be slaves. The natives of Africa did not vote themselves into slavery, it was the affluent Arab slave traders who put them in bondage. And it was the high living jack boot lackeys of Hitler who enslaved the European millions.

And today in Washington it is not those who labored all their lives at heavy tasks who are seeking to place themselves under the bondage to the Hofas. Rather it is being attempted by those who avoid toil by currying favor with the Hofas.

The nation's independent business proprietors, voting through the National Federation of Independent Business by a heavy majority support the right of states to protect their citizens from bondage.

For of what avail shall it be for America to pour out lives and wealth to seek freedom throughout the world while forging shackles for millions of people at home?

Mission of Ysleta by E. M. Schiwetz

THE MISSION OF YSLETA
The Church that changed sides!

When the Indians revolted against Spanish rule in 1681-2 in the upper Rio Grande Valley in New Mexico, refugees sought safety at the mission at El Paso del Norte (now Juarez). One group settled on the Mexican river bank and named its community Ysleta del Sur (South). This settlement was established in 1681 and a mission was completed the following year on a small island in the Rio Grande.

The Rio Grande changed its course and the site is now in Texas. Ysleta and its mission are generally given the distinction of being the oldest permanent settlement in Texas . . . truly a church that changed sides!

CHOOSE THE SIDE OF FREEDOM...with U. S. Savings Bonds!

Thus, Ysleta del Sur, the refuge of the oppressed, became the earliest of settlements to identify itself with a brave, new land of freedom.

Today, millions of Americans choose the side of freedom and they do something about it — by purchasing U.S. Savings Bonds.

Every dollar you invest in Savings Bonds gives Uncle Sam exactly that much help in the vital task of safeguarding liberty for yourself and your family. Buy Savings Bonds at your bank or on the payroll savings plan where you work.

Keep Freedom in Your Future with U. S. SAVINGS BONDS

YOUR

COUNTY AGRICULTURAL AGENT
TEXAS A & M. COLLEGE EXTENSION SERVICE

By FOSTER WHALEY SCREWORM PROGRAM

We had a visit with John B. Rice Tuesday in an effort to plan a fund raising drive in the county in cooperation with the Southwest Animal Health Research Foundation.

\$2,000 is the quota that has been set for the county. In checking with Guy Beasley, secretary-treasurer, and John B. Rice, I found out that a little over \$3,000 had been contributed in past drives.

A meeting has been scheduled for 2 p.m. at the vocational agriculture building in McLean this coming Friday, March 26. Purpose of the meeting will be to organize the committee and make plans to raise the quota for Gray County. Ranchers will be asked to contribute 10 cents per animal unit. This is pretty trivial when we think about all the peace of mind we have enjoyed the past year with a screwworm free year. As John B. Rice said we will spend more than this in gasoline one week in driving if we had the threat of screwworms we had a few years back.

Milton Carpenter says he believes the money will be easier to raise than ever because of the complete success of the screwworm program.

We believe there will be a high percentage of participation because most folks in this area don't believe in taking a free ride. A non-contributor will get just as much good out of the program as a contributor.

The American National Bank will serve as the depositing bank for the funds collected. We hope each producer in the McLean area will go by the bank and make their contribution without having to be solicited.

The following from the McLean area are serving on the screwworm committee and are asked to attend the Friday meeting: Nelson Christie, John Haynes, Guy Beasley, James Clett, Leslie Darsey, Faris Hess, Clyde Magee, Bryan McPherson, Boyd Meador, John B. Rice, Oscar Tibbets, Wilbur Wilson and Milton Carpenter.

Later a list of contributors will be published in this column. Let's make the work of the committee as easy as possible. One person has already made his contribution based on 10 cents per head. This person resides in Gray County and ranches elsewhere.

SPUR FIELD DAY

One of the most interesting experiments at the Spur Experiment Station Field Day last Thursday was that of an all-concentrate ration on both steers and cows. One group of 10 steers had been fed a ration composed of 90 per cent finely ground milo and 100 per cent cotton seed meal. This ration was supplemented with vitamin A and terramycin. The gain was 2.62 pounds daily. The significant

thing was the fact that it took only 525 pounds of the above all-concentrate ration to produce 100 pounds of gain. With a medium roughage ration the gain was only 2.69 pounds daily and it required 717 pounds of feed to produce a pound of gain.

There were also experiments with cows under drylot conditions using all-concentrate and high roughage. Next week we will try to give more results on this.

CATTLE PRICES

Bryan McPherson told me last fall he thought I was crazy when I got optimistic about the cattle market. We advised everyone that had a home for stocker cattle to load up last fall. Today offers are being made on wheat pasture steers at a cent or two per pound more than these steers sold as calves last fall. Gains up to 250 pounds are not uncommon. Many steers and heifers have sold at prices per pound higher than the purchase price last fall.

There is an old saying buy when the public is pessimistic and sell when they are optimistic.

NEWS OF CONSERVATION

Several landowners have planted trees for windbreaks in the Gray County Soil Conservation District. Evergreen and deciduous trees provide excellent protection for livestock and farm homes.

The plains of Texas have always been limited in natural shelter. Livestock will get behind barns, sheds, ponds, oil well pumps and under trees for protection against cold winter blasts.

Alvin Bell has constructed several shelters to protect his livestock on his ranch east of Pampa. He said, "Livestock will not leave a shelter for feed and water during blizzard conditions."

W. D. Powers planted ponderosa pine trees around his farmstead south of Pampa. D. W. planted these trees to beautify his home as well as protect it during cold winter months.

Local nurseries have trees available for windbreaks. Trees should not be planted later than April 30 for satisfactory results. Contact your local Soil Conservation Service for information about spacing and care of tree seedlings.

WILDLIFE—The Gray County SCD is limited in wildlife such as quail, dove, deer and turkey. This is primarily due to a lack of natural food and cover. Food, water and cover are essential for the development and increase in the wildlife population of this district.

The needs of wildlife can be provided by leaving crop stubble, native grass and small odd areas of unharvested small grain crops. Wild plum and skunk brush provide excellent wildlife food and cover. Natural springs and proper spacing of windmills and ponds will furnish sufficient water for wildlife.

Wildlife is one of our natural resources and should be considered and developed by all landowners.

HE HAS GONE THE LAST MILE OF THE WAY
 By Rev. Everett Mills
 (A tribute to Winston Churchill)

He has walked in the pathway of duty.
 He has totted to the close of the day.
 The Prince of Peace he will meet in His beauty,
 He has gone the last mile of the way.
 For his country he has earnestly striven,
 And has tried all its ways to obey.
 Now his soul has gone back to its maker,
 He has gone the last mile of the way.
 He has gone the last mile of the way.
 Now he rests at the close of the day.
 There is a glorious reward that awaits him—
 He has gone the last mile of the way.

GOV. CONNALLY EXPLAINS TEACHER PAY PLAN

By JOHN CONNALLY
 Governor of Texas

When Texans declared their independence in 1836, one of the main complaints against the governing power was its failure to establish a system of free public schools. Since that time, education has been a primary responsibility of our state and local governments.

Today, 35 cents of every state budget dollar goes to public education and another 11 cents to higher education. Texas has a Permanent School Fund of \$533 million, a unique savings account for education.

Since the enactment of the Gilmer-Aikin foundation program in 1949, tremendous progress has been made in our public school program. On a basis of roughly 80 per cent state and 20 per cent local financing, the foundation program guarantees a minimum standard of public education which has resulted in increases of more than \$1,600 in minimum beginning salaries for teachers by subsequent Legislatures over the past 10 years.

Today the state guarantees a beginning salary of \$4,014 for a teacher with a bachelor's degree and \$4,239 for a teacher with a master's degree. Because of local enrichment, the average salaries for beginning teachers this school year are \$4,546 for a bachelor's degree and \$4,765 for a master's degree or \$505 and \$529 per month, respectively.

In my view, a stronger salary base for teachers is both justifiable and desirable. A vast majority of the members of the present Legislature agree. But differences have developed over the method of achieving further educational progress.

The Texas State Teachers Association has proposed its "45 in '65" plan, an across-the-board increase of \$45 per month, or \$405 for the nine-month school year. I have recommended, in bills introduced by Sen. Jack Strong of Longview and Rep. Bill Healy of Paducah, an alternative plan for a 10-year program of salary raises emphasizing higher rewards for the experienced, better-trained career teachers.

In brief, the legislation I support proposes:
 1. That the state-supported beginning salary be increased from \$4,014 to \$4,500 for a bachelor's degree teacher, from \$4,239 to \$4,806 for a master's degree teacher, and from \$4,239 to \$5,481 for a Ph. D. teacher during the next decade.
 2. That the state-supported maximum salary be increased from \$5,094 to \$6,390 for a BA teacher, from \$6,075 to \$7,326 for an MA teacher and from \$6,075 to \$8,001 for a Ph. D. teacher over the same period.
 3. That the state put up an additional \$50 per classroom teacher unit, to be matched by an equal amount from the local school district, for additional selective salary increases of not less than \$100 nor more than \$1,000 per nine months.
 4. That the automatic yearly increase be raised from \$108 to \$126 for teaching experience after 1961.
 5. That to encourage teachers to secure advanced degrees, they be exempt from tuition at state colleges and universities while attending graduate school in the summer.

Assuming that local districts will continue paying teachers above the foundation program as they do today, salaries actually paid would be higher by \$650 than the minimum and maximum levels in the bill.

In a recent Belden Poll, 70 per cent of the people approved Robert Boydston of Pampa spent a week in the home of his sister, Mrs. S. B. Kiser.

the long-range proposal, compared with 21 per cent for the TSTA one-time increase, three per cent for neither plan and seven per cent with no opinion.

This is concrete evidence that the public wants a more realistic approach to teaching salaries, with the largest increases directed to those who are making a career of teaching and have elevated their own educational preparation.

In regard to teaching salaries, the TSTA itself has said: "The salary schedule should avoid overpaying beginning teachers at the expense of teachers with long records of successful experience . . . should provide maximum salaries that will justify teachers in looking upon teaching as a career . . . should encourage professional growth of teachers while in service. Recognition for training and experience should be given."

The career plan I have proposed accomplishes these goals far better than the TSTA's own "45 in '65" plan.

Last year the average salary in Texas for a beginning teacher with a BA was \$194 below the national median, while our average maximum salary was \$367 below. For the MA beginning teacher, it was \$345 below, while the maximum for the MA teacher was \$365 below the national average. Obviously, education and experience are not being properly rewarded in Texas, and the most critical need for improvement is at the maximum level. The TSTA plan continues this inequity.

Much misinformation has been distributed about state-local financing of the long-range plan. It is correct that this proposal envisions more local financing of the total school program, since I have recommended that 20 per cent of the cost of textbooks and 20 per cent of the cost of teacher retirement be added to the amount paid by local districts. The state now bears all of these costs.

The original Gilmer-Aikin law contemplated that the cost of the minimum program would be shared.

ed, 80 per cent by the state and 20 per cent by the local districts. My proposal would maintain the intended ratio, and any report to the contrary is fallacious.

Public education is a joint state-local responsibility, but we in Texas have tended to place relatively heavy reliance on the state and relatively less reliance on local support.

While the State of Texas provides more than 50 per cent of all public school revenues nationwide the state governments provide only 39 per cent. In Texas the state provides \$292 for each student in average daily attendance, compared with \$196 nationally. Conversely, Texas school districts raise only \$191 per pupil compared with the national average of \$284 for local districts.

It has been calculated that the additional tax to finance my proposal over and above TSTA's plan would amount to about 85 cents for a \$15,000 home. I think the people are willing to pay an additional 85 cents a year to finance their local schools. My recommendation that the state abandon its share of the ad valorem tax would more than compensate for this increase.

Texas faces many problems—in higher education, in mental health, in providing more beds for the mentally retarded, in water conservation, in parks and recreation. All problems of government cannot be solved at once, nor can we spend all we would like to spend. As strongly as I have advocated these programs, I have not been able to recommend every dollar requested by state agencies without destroying the pay-as-you-go fiscal system we have tried to maintain in Texas.

I believe my recommendations for public schools achieve substantial progress in assuring the education of our young people.

Masonic Workshop Is Monday at Clarendon

A workshop has been scheduled for officers and members of Masonic Lodges in this area at 7:30 p.m. next Monday.

The meeting will be held at Clarendon Masonic Hall. Officers of Hedley, Wellington, Dodson, Quail and Clarendon Lodges are especially invited.

The workshop is part of a state-wide, semi-annual program authorized by the grand master of Masons in Texas, J. Carroll Hinsley of Austin. The program is conducted for nearly 1,000 Texas Masonic Lodges with a membership of 250,000 men. The Masonic order is the state's largest fraternal organization.

The purpose of the workshop is to enable Masons to study common problems of Masonic Lodges and their operations. The workshop will be conducted by Jimmy M. Willson Jr., a Floydada building materials distributor and chairman of a Masonic workshop area which includes 10 counties.

Grand Master Hinsley stressed the importance of attendance by all lodge officers and emphasized that other Masons are welcome.

Mr. and Mrs. Gary Gordin and son, Tracy, of Dumas visited their parents, Mr. and Mrs. Arnold Sharp and Mr. and Mrs. L. L. Gordin, recently.

Mr. and Mrs. Glen Atkins of Clarendon visited with the C. B. Peabodys Friday.

WHY CALL ME LORD, LORD

Luke 6:46

There have always been words spoken against the Lord. In Malachi 3:13-14, we read: Your words have been stout against me, saith the Lord.

Some speak against God's existence. They say the idea of God is only a fable. When Mr. Ingersoll was asked if he believed in God, he replied, "Well, I have never seen one." Neither had he seen electricity, pain or sorrow; but they exist. Such people are called fools (Psa. 14:1). The heavens declare the glory of God (Psa. 19:1).

Some speak words against God's ability. They accuse God of writing a book that man is unable to understand. This reflects upon God's ability. Christianity is a religion to be taught and can be understood. Matt. 28: 19-20 says teach it and teach them to observe all commands. Isa. 35:8 says fools shall not err therein. In II Tim. 2:15 we are commanded to study and rightly divide the word of truth, so why study if we can't understand the Bible. It is evident that if we understand it at all, we will understand it alike.

Some speak against God's impartiality. They accuse God of electing some people to salvation and predestinating others to condemnation without the choice of either. But God so loved the whole world (Jno. 3:16) and in I Tim 2:3-4 God wants all men saved. And we read in II Pet. 1:5-10 that man makes his own election sure. God is no respecter of persons, but in every nation he that fears Him, and works righteousness is accepted with Him (Acts 10:34-35).

Some speak against God's fairness. They accuse the Lord of holding an infant responsible for the sin of Adam and Eve—hereditary depravity. But sin is an individual thing (Ezek. 18: 20). Jesus said in Matt. 18:3 that we couldn't enter the Kingdom of Heaven unless we become as little children. Surely the little child isn't a sinner. The infant becomes guilty of sin in youth (Gen. 8:21).

Some speak against God's sincerity. They say that God is behind all the religious faiths, doctrines and bodies in the world. They say God has called one man to deny what He has called another to affirm. God is not responsible for the divided state of Christianity (Matt. 16:18, I Cor. 1:10-13, Phil. 3:16, Jno. 17:20-21).

COUNTY RETAIL BUSINESS DIPS

Figures Show Drop Of Two Per Cent

Gray County's 345 retail establishments had \$42.2 million in sales in 1963, a decrease of two per cent from 1962, the U.S. Bureau of the Census has just reported after tabulating data gathered from all firms in the 1963 Census of Business.

The last previous business census conducted by the Census Bureau, an agency of the U.S. Department of Commerce, was in 1958.

Retail trade in the county meant jobs (exclusive of proprietors) for 1,460 men and women and a yearly payroll of \$4.3 million.

In volume of business the county's food stores had sales of \$10.9 million, an increase of five per cent from 1958.

Other Businesses Listed

In other retail business — the county's eating and drinking places had sales of \$1.7 million, and gasoline service stations had sales of \$4.3 million. Auto dealers and related retail trade establishments had sales of \$9.5 million; general merchandise group stores had sales of \$4.2 million, and lumber, building materials, hardware and farm equipment dealers had sales of \$18 million.

For the state as a whole, the Census Bureau reported 96,406 retail establishments with sales of \$127.54 billion, up 18 per cent from 1958.

Census reports to be issued during the next few months will give state and county figures on wholesale and service trades, manufacturing and mineral industries.

Figures on number of establishments and sales volume for major types of retail establishments in each county are provided in the printed report: 1963 Census of Business, Retail Trade, Texas, available at \$1 from superintendent of documents, Washington, D. C. 20402, and at U.S. Department of Commerce field offices.

Mrs. Julia Brown, the Negro woman, is due to speak at the Amarillo Municipal Auditorium at 7:30 p.m. today. Perhaps she will tell even more at this time.

But no one seems to pay any attention to what these loyal Americans say, except the people.

President Johnson has every intention of enforcing the voting law if it is passed by Congress. But why doesn't he enforce the law also passed by Congress—several years ago — which requires that every Communist register?

And why, too, has he permitted the use of gas, however mild, in the Viet Nam war at a time when things were going for us there anyway?

There is absolutely no excuse for introducing gas into the war. The only result can be that our prestige will suffer even more throughout the world.

It makes you think sometimes that these bloopers we pull are intended to produce such results.

L. Clyde Drake, resident engineer for the State Highway Department in Wellington, discussed the new Interstate 40 at length with us in the News office Tuesday afternoon.

Drake came by to leave a legal notice concerning an IH 40 project east of town. (The notice is published today on the classified page.)

He especially wanted it pointed out that this work has nothing to do with the highway by-passing McLean. The by-pass is still four years or so in the future, said Drake.

There has been quite a bit of controversy recently concerning the two teacher pay raise bills which have been introduced into the Texas Legislature.

One of the bills is Gov. John Connally's plan for gradual pay increases over the next 10 years. The other is sponsored by the Texas State Teachers Association, and asks for an immediate across-the-board pay boost of \$45 per month, or \$465 per year, to each teacher.

In an effort to be completely fair, the News is publishing in this issue an explanation of the governor's bill, with an article discussing the TSTA proposal due to be published next week.

We hope you will read these articles—one by Gov. Connally and the other to be submitted to us by Jack Riley, superintendent of McLean schools.

Then to make your voice heard, we suggest that you write or wire Rep. Grainger McIlhany and State Sen. Grady Hazlewood in Austin. Your message to these two legislators doesn't have to be lengthy, unless you feel wordy. Simply state which bill you favor.

It might help you to know, however, that McIlhany has indicated he intends to vote for the TSTA plan. Hazlewood has been a booster of the governor's bill, we understand.

The possibility exists, however, that either could be persuaded to change his mind—if enough of their constituents make themselves heard.

Since it seems we in a small town like McLean seldom have an opportunity to talk with our elected representatives in the Legislature, it is necessary for us to write or telephone them.

Quarterhorse Trained Here Wins Again In Columbus Futurity

For the second year in a row, a Quarterhorse trained at the McLean Race Training Stables has won the Columbus, Texas, Futurity. "Just Silver," owned by Walter Merrick of Crawford, Okla., took the top prize money of almost \$21,000 in the \$50,050 race last Sunday.

Trainer is Bob Willoughby, owner of the McLean Race Training Stables.

The 2-year-old filly ran the 300 yards in 15.97 seconds.

Follows 'Raffles Possum'

Last year's Columbus Futurity was won by "Raffles Possum," owned by Jack Drake of Amarillo and also trained by Willoughby.

"Just Silver" has several important races coming up. In early April she is to enter the Goliad, Texas, Futurity. Later in the season, the filly will run in the Rainbow Futurity at Ruidoso, N. M., and the Golden Spread Futurity at Raton, N. M.

She also is a candidate for the All-American Futurity scheduled in September at Ruidoso.
